Federal Jury Slates Probe In Gas Firms

WASHINGTON, Nov. 25 (AP)—A federal grand jury will begin investigating in a few days anti-trust complaints against natural gas distribution companies in the upper Midwest, the justice department announced yesterday.

Assistant Attorney General Vincent, head of the department's anti-trust division, said the grand jury will inquire into alleged restraints of trade in the production, distribution and sale of natural gas in Wisconsin and Minnesota. Hansen said the indictment of the grand jury was authorized in federal court at Milwaukee, Wis., last Thursday. The jury is expected to examine the records of the Wisconsin Light and Gas company of Chicago, Northern Natural Gas company of Omaha, Neb., and American Natural Gas company of Detroit, Mich.

Hansen said the division has been joining into the natural gas situation in Wisconsin for some time at the request of Wisconsin Gov. Wm. Thompson. He also indicated the anti-trust division is looking into the Gas and Electric company proposal for a \$20,000,000 annual bonus by the price of natural gas in North Carolina.

The California state board of public utilities is expected to announce in about a month. This time is supplied by El Paso Gas company of El Paso, Texas, and the state board of public utilities. The justice department already has pending an antitrust suit against the company's recent acquisition of Pacific Northwest Pipe Line company of Walla Walla, Wash., to create a monopoly.

The government charged the purchase of the Pacific Northwest Pipe Line company in the sale of natural gas in several western states.

Win State Honors

GENE LARSON

... who will represent Idaho in the National Farm Bureau federation talent find and talk meet to be held in Chicago, Larson, Springfield, Ill., a sophomore at Ricks college, Rexburg, won the talk contest. (Staff Ensigns)

DIANE WILSON

Two From Springdale To Get Trips to National Convention

SPRINGDALE, Nov. 25 (AP)—Gene Larson and Diane Wilson were awarded state honors at the Idaho State Farm Bureau convention in Pocatello Thursday through Saturday.

Larson, son of Mr. and Mrs. Melvin Larson, placed first in the talent find contest and Diane Wilson, daughter of Mr. and Mrs. Charles W. Wilson, won the talk contest. Both contestants are sponsored by the women's committee. Both winners received a trip to the national convention.

Brothers' Arc Dead as Fire Levels House

CHENEY, Nov. 25 (AP)—Two young brothers burned to death here early today in a fire that destroyed their frame house. Another brother jumped to safety from an upstairs bedroom window.

The dead brothers are Ricky Vestal, about 7, and Tommy Vestal, about 5, sons of Mrs. Betty Vestal, about 27. Ten-year-old Larry Vestal jumped to safety from a burning bedroom window and ran to a neighbor's house for help.

The fire was reported about midnight but when firefighters reached the scene the house was a mass of flames. Neighbors said they saw Ricky leaning out an upstairs window as flames raced through the house, but the boys could not or would not jump. The body of the other dead brother was found in the living room. The boys' body had stopped through the burned out ceiling from an upstairs bedroom.

Wayne Houch, a neighbor, said he had just come to bed about midnight when Larry came running to his house and told him and his wife that their house was on fire and the boys were out of the burning building.

Houch said the boy told him he had seen the boys' body had stopped through the burned out ceiling from an upstairs bedroom. He said the boy told him he had seen the boys' body had stopped through the burned out ceiling from an upstairs bedroom.

Neighbors said Mrs. Vestal was seen in a hysterical condition. She was taken to the home of her parents, Mr. and Mrs. Roy Pihl, about five miles south of here. Authorities said the cause of the fire was not known.

Plucky Youngster

Mark Shaffer, 3, Derry, Pa., gets help from nurse Elizabeth Scott in Children's hospital at Pittsburgh, as he enjoys a children's book. Mark was burned in an accident last month but doctors say they have seen their light to save his life. However, they were forced to amputate his leg. (AP wirephoto)

Selection Sought For Health Chief

LEWISTON, Nov. 25 (AP)—Appointment of a state health administrator to head the Idaho health department is being urged today by Lewis T. McCarty, president of the Idaho Public Health association.

An administrator is needed to properly administer the state public health program and to adhere to the requirements of the law, said McCarty. "Under the present administrative setup, there exists no responsible head of the health program in the state of Idaho."

He said such a situation has a very marked effect, not only upon the health of the state but upon the decision and responsibility of the voluntary health association as well.

The state board of health at a recent meeting decided to ask the attorney general if the board could act in the capacity as administrator until the next session of the state legislature can provide more money for the department.

Club Selects Mrs. Proctor

Mrs. H. Miller Proctor was elected president of the Twin Falls Duplicate Bridge club which met Monday at the Legion hall with nine tables in play.

Other officers are Mrs. Jerry Coover, director; Mrs. K. T. Thomas, secretary; Mrs. Herbert Burgess, treasurer, and Mrs. Harry Light, board member.

North and south winners were Mrs. S. L. Thorge and Mrs. Lewis Black, first; Mrs. Wayne Turner and Richard Cook, second; Mrs. W. H. Burdett and Mrs. Richard Cook, third, and Mrs. Eugene Walker and Mrs. Donald Ransom, fourth.

East and west winners were Mrs. A. P. Russell and Robert Tucker, first; tied for second, Mrs. O. H. Wrentham and Mrs. Ivan Galtner and Mrs. C. C. Hall and Jack Radtke; Mrs. John Phillips and R. L. Roberts, fourth.

HOW TO DIET ASTHMA

ASTHMA can be kept under control by following a diet that is low in fat and high in vitamins. The diet should be rich in fruits, vegetables, and whole grains. It should also be low in sugar and salt. This diet will help to keep the asthma under control and prevent attacks.

Burley C. of C. Debates Course In Airport Extension Program

BURLEY, Nov. 25 (AP)—Members of the Burley Chapter of the Chamber of Commerce are debating whether to support or oppose the extension of the airport. The debate will be held at the chapter meeting on Monday night.

John Chisholm, chairman of the airport committee, explained proposed plans for the extension of the airport. He said the extension would cost \$500,000 and would provide for the future expansion of the airport. The chapter members are divided on the issue.

Chisholm said that the airport is a major asset to the community and that the extension is necessary for the future growth of the area. He said that the chapter should support the extension. However, some members are concerned about the cost and the impact on the local economy.

The debate will be held at the chapter meeting on Monday night. The chapter members will discuss the pros and cons of the extension and vote on whether to support or oppose it. The chapter is a non-profit organization that promotes the interests of the community.

The chapter is a non-profit organization that promotes the interests of the community. It is composed of members from various businesses and organizations in the area. The chapter meets regularly to discuss community issues and to plan for the future.

HEROIN SEIZED
CHICAGO, Nov. 25 (AP)—A 38-pound stock of heroin was seized today by Chicago police and federal agents on property of a woman who was free pending an appeal ruling on a narcotics conviction.

The seizure of the heroin was a major blow to the narcotics trade in Chicago. The woman who owned the heroin was a well-known figure in the city. The seizure was part of a larger operation by the police and federal agents.

Moon Missiles Possible, Says U. S. Scientist

PASADENA, Calif., Nov. 25 (AP)—Dr. Fritz Zwicky, Cal Tech scientist, has announced the idea of firing the first man-made missiles into space, estimated today that one and one-half million dollars would be needed to launch a missile in three months.

Zwicky, who said Saturday such an experiment would have particular value, made his estimate on the basis of \$100,000 and a crew being available for the project.

No such undertaking was reported in the making at this time.

He added that "eventually the technique could be used in rocketing a missile back to the earth from the moon."

The astronautical said the missile would be fired from a high explosive rocket. At the point of firing, the charge would be detonated, shooting the missile on a predetermined course in the atmosphere.

Speeds of 40,000 miles an hour were achieved by testaments accelerated by shaped charges rocketed up 54 miles last Oct. 16, he said. Some of those particles escaped the earth's gravity and are moving around the sun, Zwicky said.

"With the kind of speed we can achieve, the missile would either create an explosion of impact with the moon or would generate a flash of light as it bounced from the surface," he said.

The scientist said such collisions could be observed by telescope.

War Orphans Are Students at University of Idaho

Five of the seven students attending the University of Idaho as war orphans, or children of servicemen who died in service of a war, are connected with the University of Idaho. From left, Elizabeth J. Taylor, Margaret J. Hays, Margaret L. Tyler, Margaret L. Tyler, Margaret L. Tyler, Margaret L. Tyler, Margaret L. Tyler.

Editor Claims He Witnessed Meteor Blasts

CALDWELL, Idaho, Nov. 25 (AP)—A Caldwell, Idaho, newspaper editor today said he saw what appeared to be a meteorite explode near here.

Editor Frank Pink, who said he was traveling home when he witnessed the explosion at 7:12 p.m. Oct. 15, said he saw a bright, greenish-white light in the sky, which he said was traveling southwest about 25 to 30 degrees above the horizon.

Two witnesses backed Pink's statement.

In Kansas City, Mo., Bill Harmon reported he saw "something red and white" in the sky, which he said was traveling in an east to west direction at about the same time and relative height as reported by Pink.

George and Corrinna Conaway, Grandview, Mo., reported a similar phenomenon. Pink said he was not certain if that is what it was, but he did not report it.

Uncle Sam Aiding Seven War Orphans at Idaho University

UNIVERSITY OF IDAHO, Moscow, Nov. 25 (AP)—Uncle Sam is helping seven University of Idaho students through college by providing educational grants to war orphans under public law 623.

The students, all 711 veterans now attending under the Korean War bill and 20 disabled veterans receiving educational benefits.

The law, which went into effect last year, makes it possible for children of men who died in service or from a service-connected disability to attend college or technical schools.

The seven students, all residents of Idaho, are Margaret J. Taylor, Elizabeth J. Taylor, Margaret L. Tyler, Margaret L. Tyler, Margaret L. Tyler, Margaret L. Tyler, Margaret L. Tyler.

Centennial Plans Listed by Smylie

BOISE, Nov. 25 (AP)—Gov. Robert F. Smylie said today he has been approached by a committee from the State Chamber of Commerce concerning the projected observance of the centennial of the signing of Idaho's first legislature in Boise City in 1892.

Smylie said he expressed to the group the view that "a successful centennial celebration should be authorized activity supported by state appropriations."

He said he urged the House of Representatives to take action on the proposal in their arena. The governor said he felt the matter should be taken up by the 1959 Idaho legislature.

Alibi

NORWALK, Conn., Nov. 25 (AP)—Vincent Calabrese, 61, Norwalk, had a ready explanation when police stopped him for driving along a section of the new Connecticut turnpike not yet opened.

He said he was a taxpayer and wanted to see how his money was being spent.

Soil Districts Voting Held

HAILEY, Nov. 25 (AP)—John C. Fox was elected chairman for the Halley Soil District and Boyd Bivins, chairman for the Carey-Hudson district, at the Halley county agricultural soil conservation election held in Halley.

Fox and Bivins will be delegates to the county convention to be held in ASD office Dec. 11 in Halley.

Lawyer Says Reds Could 'Own' Moon

CAMBRIDGE, Mass., Nov. 25 (AP)—Andrew G. Haley of Washington, an expert on international law and president of the International Association of Lawyers, says there is no law to prevent Russia from obtaining ownership of the moon.

Speaking last night on "the law of the age of space" before the International Law club of the Harvard law school, he said:

"By planting the red star of the Soviet flag on the moon via a rocket, the Russians would be able to lay claim to the moon."

"There should be an international agreement that no nation would use the moon for its own purposes. There should be no colonialism of the moon."

Country Club Hit By \$100,000 Blaze

CLARKSTON, Wash., Nov. 25 (AP)—The Clarkston Country club building was hit by a fire which was estimated at \$100,000.

The fire was first reported about 12:30 a.m. and the building was in ruins within an hour despite efforts of both city and rural firemen.

The building was remodeled in 1955 at a cost of more than \$250,000. Only some goods in the golf professional's shop were saved from the flames. Cause of the fire wasn't determined immediately.

Officers Seek Blasting Caps As Two Hurt

SPOKANE, Wash., Nov. 25 (AP)—Spokane officers are searching for at least five and perhaps as many as 17 highly explosive blasting caps believed to have fallen into the hands of school children at Olla Orchard, a Spokane suburb.

The desperate hunt was touched off yesterday after Jerry McConnell, 11, and his 9-year-old brother, Timothy, were seriously injured when one and possibly two of the caps exploded while they were playing at home.

Deputy Sheriff Ray Kenworthy said the boys acknowledged taking them from a barn while they were sitting over the weekend at the home of a relative, Luther Davis, age 104. The boys told officers they had given several to classmates at Olla Orchard elementary school.

Kenworthy said a box which had contained 18 caps was found at McConnell home. Thirteen had been acquired. Authorities at Olla Orchard said a box which originally contained 100 caps had disappeared from the Davis barn.

Roulet attendants reported Timothy left hand was mangled and burns covered his body. Jerry's right arm, right forearm and fingers were injured. They were given medical attention with surgery and officers could not question them retroactively.

Authorities said the caps are old and it takes only a slight jar to torch them off. They are used to trigger dynamite blasts.

NEW SCHOOL DEFEATED

FIRTH, Nov. 25 (AP)—A \$450,000 bond issue for a new high school, providing \$300,000 for a new grade high school and \$150,000 for remodeling the high school, was defeated yesterday, 235 to 130.

'Saucer' Reports Are Results Of 'Sputnikitis,' Says Savent

CAMBRIDGE, Mass., Nov. 25 (AP)—Dr. Donald H. Menzel, director of Harvard college observatory, said today these saucer reports were "Sputnikitis," he said.

Menzel, long known as one of the leading saucer debunkers, said he was not implying that all reports were psychological illusions.

"Most of these things actually exist and have been seen," he said, "but they are just not what people thought they were."

"And I just don't believe these reports of saucers putting and lighting and stalling engines. That was probably just a nervous foot on the accelerator."

Menzel lists three causes of "flying saucer" reports:

1. Starlings flying in thick layers of clouds or mist.

2. Bright stars, bright fireballs, and even the moon shining through broken clouds.

3. Reflections from distant planes, jet aircraft, vapor trails, balloons, spider webs, peculiar clouds.

Phenomena related to the Aurora borealis. Some unusual forms of shooting stars.

Menzel does believe there are some unusual phenomena that we simply don't understand, but he said they are not the saucers.

Concern Says No Live Virus Vaccine Sold

OAKLAND, Calif., Nov. 26.—Cutler Laboratories found live virus in certain lots of Salk vaccine, but it was never sold to the public, a witness testified yesterday in a \$40,000 damage suit against the Berkeley firm.

The witness was Dr. Walter Ward, medical director of the laboratory. He testified in a suit brought by the parents of two children who contracted polio, allegedly as the result of inoculation with Cutter-produced Salk vaccine.

The children are Anne Elizabeth Goldsamer, 7, Santa Barbara, and James Philip, 4, Anne's parents. Dr. and Mrs. Robert Goldsamer are suing for \$300,000, and James' parents, Mr. and Mrs. Charles Pappas, are asking \$50,000.

The suit is considered to be a test case to determine the outcome of the other damage suits pending against Cutter.

Ward admitted he found live virus in about one-third of the vaccine produced by Cutter. But he insisted he found no live virus in the lot used to inoculate Anne and James.

Ward said that the Cutter laboratory had not informed either the National Foundation for Infantile Paralysis or the special task force sent from the national institute to see that the vaccine was free of live virus had been found.

Dr. Herman Kabat, director of the Rhode Island bureau of rehabilitation, testified that he examined Anne in October, 1935.

He said she has a permanent and complete paralysis of her lower right leg, partial paralysis of the left leg and left arm, curvature of the spine and a tilted pelvis. She has possible stutter and other ailments.

Anne, using crutches and wearing a brace on her right leg, habilitated into court, helped by her mother, took off her dress and showed her spinal brace to the jury of eight women and four men hearing the trial.

Attorney Melvin Belli asked Kabat what was the "reasonable expectancy" of the cause of Anne's paralysis. He said she was attacked within 12 days of her inoculation, that she was 12 months old at the time.

"I would feel definitely that with these assumptions, the cause of the polio would most reasonably be the injection of the Cutter vaccine," Kabat replied.

Worker Is Killed In Freak Mishap

FT. BRIDGER, Wyo., Nov. 26 (AP)—The state highway patrol today reported the death of a Lyman highway construction worker in a freak accident on a new section of interstate highway being built west of here.

The victim was Jerry Cartwright, 29, Lyman. He died shortly after being pinned in the driver's seat of an earth mover.

Cartwright was an employee of Antricht Construction company of Billings, Mont. The patrol said the earth mover from broke as Cartwright drove it to nearby U. S. highway 20 in preparation for a trip back to Montana.

Oil Tycoon Weds

DALLAS, Nov. 26 (AP)—Ollman H. J. Biel, reportedly one of the world's richest men, married Mrs. Ruth Ray Wright, about 36, at a minister's home here Sunday.

It was the second marriage for Biel, 68, and the father of six children. His first wife died in 1935. His bride also was married previously and is the mother of four children.

POSTER GIRL, PARSERS
WASHINGTON, Nov. 26 (AP)—Rutha Jean Lockard, 4, kidney disease victim who was poster girl of the National Nephritis foundation, died Sunday.

Paul Man Serving in Air Force Obtains Doctor's Degree

First Lieut. Gene D. Easton, son of Mr. and Mrs. Charles Easton, Paul, John, a select group of air force officers as he receives a PhD degree from the University of Wisconsin. Only 23 of the 140,000 air force officers on active duty hold doctor of philosophy degrees. Col. Walter F. Glover, left, presents diploma as Maj. John W. Lakin, center, Lieutenant Easton's immediate superior at the air force armament center, Eglin air force base, Fla., watches. (Air force photo—staff arranging.)

Paul Man Answers Either of Two Titles as Degree Earned

EGGIN AIR FORCE BASE, Fla., Nov. 26 (Col. Gene D. Easton, son of Mr. and Mrs. Charles Easton of Paul, Ida, either "doctor" or "lieutenant" with the title will be correct. Easton was ordered to active duty with the air force as a first lieutenant in July, 1937, and completed formal requirements for a PhD degree in August after reporting for duty with the air research and development command's air force armament center in northwest Florida.

The University of Wisconsin conferred the degree and awarded the diploma in Easton at the armament center where formal presentation was made last week by Col. Walter F. Glover, director of munitions testing.

Lieutenant Dr. Easton majored in plant pathology, performing original research in the field of potato diseases. He said Idaho's famous potatoes have appointed him and now he is prepared to help them.

He entered the University of Idaho after graduation from high school and obtained a bachelor's degree in science with a major in horticulture in 1932. In 1934 he won a master's degree at Idaho in the field of plant pathology.

Easton is assigned to the bomb and warhead branch of the directorate of munitions at the armament center. The center performs detailed testing on all weapons and munitions, other than nuclear, designed for use by the U. S. air force.

Lieutenant Easton said he will enter the teaching profession as a college professor when he completes his tour of active duty.

He and his wife, the former Marjorie Berry, Cedar Rapids, Ia., are making their home in Valparaiso, Fla., near Eglin.

Gee, Thanks

LONDON, Nov. 26 (AP)—Schoolchildren in the Soviet Union's Russian constituent republic no longer will have to do homework on Sundays, Moscow Radio said today.

The broadcast heard here said that previously only children in the first three grades were exempt from preparing work for presentation Monday morning.

"The decision of the central committee, in purging Zhukov's aimed at a fundamental improvement of party political work in the armed forces."

"This decision has been fully supported by the party and people of the army and navy personnel," which shows that the measures taken were right and timely," he said.

The Moscow broadcast quoted Khrushchev as also saying the red army and navy were being equipped with "all types of contemporary equipment."

"The communist East Berlin news agency ADN reported that Khrushchev said the red army and navy are being equipped with 'atomic weapons and rockets.'"

Morningside PTA Open House Held

Photography trends were presented by Mrs. E. Mollin Givert, fourth grade teacher, and Carolyn Mason, second grade teacher, for having the largest number of parents present at the Morningside PTA open house held from 7:30 to 8 p.m. Monday in Morningside school.

Sandra Goss, Blar Birds, Sharon Jones, Camp Fire girls, and Edwina Robinson, Indian club, carried the flags. Blar Birds sang "Hi Mom and Dad," followed by the Camp Fire Girls singing "Little Angels" and "Wo-Ho-Le."

A color film on Camp Fire activities was presented and slides were shown and narrated by Mrs. Norman McIntosh, followed by a short business meeting. The executive board discussed details for the carnival to be held Dec. 6 at Morningside school. Refreshments were served by second grade room mothers.

Czech Gives Plea To Stop A Tests

LONDON, Nov. 26 (AP)—Climaxing Czech distance runner Emil Zatopek appealed to the world's athletes today to protest nuclear tests.

In the appeal broadcast by Prague Radio, Zatopek, an officer in the Czech army, called on "you sportsmen, whom I have met at the stadium of the world" to join "campaigns in your countries for the immediate cessation of atomic and hydrogen weapons tests."

Batty

AUSTIN, Tex., Nov. 26 (AP)—but in the balcony upset legislative decorum in the Texas house of representatives.

"The sergeant-at-arms is authorized to remove the bat," Speaker Waggoner Carr solemnly intoned.

It dipped and dived for 20 minutes until an alert youth in the balcony caught it with a net.

Rocket on TV

NASHVILLE, Tenn., Nov. 26 (AP)—The rocket that sent Sputnik into space was visible here last night, allowing a local television station to get a live two-minute shot of it.

WVMT-TV caught the brilliant rocket as it streaked by at about 45 degrees above the darkening horizon between 5:12 and 5:14 p.m., passing northeast from Michigan to North Carolina.

Lowering of U.S. Prestige Predicted In Okinawa as Result of Army Move

Court to Act On Passports To Travelers

WASHINGTON, Nov. 28 (AP)—The supreme court is preparing to act on passports for the state department on balance of passports for foreign travel.

Acting Rockwell Kent, Assistant Secretary, State, yesterday won a 5-4 vote in the high court after they were denied passports by Secretary of State John Foster Dulles. Both refused to sign the required non-communist affidavits.

Opinions of lower courts on passport questions have been so many and varied the government did not oppose supreme court consideration of the case. Because the docket is crowded with other appeals the passport arguments will not be heard for some months.

The case was one of several acted on by the court, after it handed down one opinion affirming the contempt conviction of Los Angeles Communist Oleta O'Connor Yates.

Justice Tom C. Clark found for 6 to 3 majority that Mrs. Yates was properly convicted of contempt for her refusal to answer 11 questions relating to membership of other persons in the Communist party. But he also held the refusal constituted a single contempt—not 11 separate contempts.

Mrs. Yates declined to answer the questions on the witness stand when she and 13 co-defendants were tried for conspiracy in 1952.

The Clark opinion was the first on the supreme court has rendered on the subject of multiple contempt. The court said Mrs. Yates came back to federal District Judge William C. Matthews in Los Angeles for possible re-arresting.

The same issue is present in a 1956 communist case now before the ninth U. S. circuit court of appeals.

Other actions the court:

- Rejected for the second time the appeal of segregationist John Edgar Hoover from the criminal contempt conviction stemming from his activities in Clinton, Tenn.
- Agreed to examine two more cases testing a California requirement that property tax payers sign a loyalty oath.
- Let stand a decision requiring abolition of all American labor union dues from other areas in order to stop a two-year-old Roman Catholic boycott.

Chamber, Trade Unit Picks Slate

BOISE, Nov. 28 (AP)—Max Yoff, Boise, yesterday was elected president of the Idaho Association of Chamber and Trade Executives.

Yoff, executive secretary of Associated Paupers of Idaho, succeeds J. Harry Hughes, manager of the Lewiston Chamber of Commerce.

Other officers elected were vice presidents, Charles Stark, Idaho Falls Chamber of Commerce, and M. C. Clark, Boise, executive secretary, Idaho Wool Growers association; secretary-treasurer, Hugh Wilson, Boise, director for term to 1959; Clifford Hunt, Twin Falls Chamber of Commerce; and Ken Hartzer, Boise, Idaho Motor Transport association.

The officers were elected at a breakfast meeting of the association in a prelude to the all-Idaho congress, which convened immediately thereafter.

World Gets Smaller and Heavier

East End Has Chance to Be Blood Champ

KIMBERLY, Nov. 26—Twin Falls county's east end communities will have an opportunity to establish themselves as the champion blood donors in southern Idaho, according to a report from other areas in order to stop a two-year-old Roman Catholic boycott.

She added that if the east end can exceed its quota in the blood drive scheduled Dec. 5 it will have the best record in southern Idaho. Murphysburg, Hansen, Kimberly and surrounding areas are included in the east end.

While regular donors will be contacted, Mrs. Jackson said new donors also are needed. Particularly needed are type O negative donors. O negative persons can receive only that type of blood, a supply must always be on hand, she explained.

Problems Aired At IEA Meeting

BOHOSHOE, Nov. 26—Teachers of the local IEA met Friday afternoon to discuss problems and outline work.

Jeff Haynes, president of the group, conducted the business meeting.

Reports on IEA projects were given by Mrs. James Franks and Mrs. Dorothy Clayton.

Supr. Ralph Villers reported on the proposed 40 per cent state assistance to schools.

A program was presented by members of the high school PTIA. Anne Firebaugh and Beth McKay made introductions. Taking part were Janet Croft, Karen Hyard, Karen Wirth, Carol Bond and Estelene Klum.

Refreshments were served during social hour.

ADMIRAL DIES

CHELSEA, Mass., Nov. 28 (AP)—Admiral William Francis Prast, 88, commander-in-chief of the U. S. fleet in 1923 and chief of naval operations in 1929, died yesterday. Born in Belfast, Me., he was a veteran of the Spanish-American war and World War I and was decorated by three governments for "exceptional meritorious service."

Excuses for That 'Night Out On Town' Vary, Pett Learns

By SAUL PETT

NEW YORK, Nov. 26 (AP)—Among the little things in life that try a couple of men is finding the course of drinks.

A sudden conviction, or worse, is clearly, an explanation for his wife. "For example, it is 10 p.m. and I look down at the clock and see 11:00. I'm in a lousy mood, downtown running some apartment, horrible, just horrible. No need for me, unexplained relaxation. He has you and the kids to see me this way. I think I'll stay downtown and the problem now is not whether I will have more because he will tell me how to tell his wife."

He moves to the phone uncertainly because of a warning of a possible fight. Against that, the mouse tries to walk like a man, tries to stiffen his backbone with the solid arm of almost adult-conviction that when it's not a night out coming to him, how does he tell her? How does he break the lyric news that between the two biggest pressure groups in his life—his office and his home—he has discovered a wonderful work of him, in which nothing is demanded of him except the courage to linger?

Can he tell the simple truth? He cannot. Not at 10 p.m., when in his mind's eye he can see the road and the open, gray splashing over the pan, the idea fighting over the TV set and his wife desperate for a male buffer to blow laps in the aisle.

So what does he tell her? What do the snarlers, we find after a comprehensive survey, vary with Mrs. Prast's personality. Here are some:

The Paranormal Career Man — "Just at Newport, R. I., and has 'lan't it, insurance, accident' right-hand assigned to the naval supply house a day, five days a week, the corps school at Athens, Ga."

The Softman on the Verge of Annihilation — "Well, honey, we did it again! The committee should run into four figures. It's all sewed up, but about. Few more drinks and I have old J. M. in the bag."

The Friend of Man the snarling snail — "Lord, I wish people wouldn't pile their troubles on me! Yeah, it's Charley and Jane again. Seems to me this time—Charley even filed the word divorce. Isn't it meet him tonight for couple of drinks. Thank goodness, darling, you and I have a better understanding."

Help to Research Facilities Backed

BOISE, Nov. 26 (AP)—The U. S. department of agriculture would rather beef up existing research facilities at colleges than build a new research laboratory for the Pacific Northwest, a department spokesman said yesterday.

Dr. Byron T. Shaw, administrator of the agricultural research service of the department, also noted that the needs of the nation's muscle development program may cut into agricultural research funds for years to come.

Shaw met with representatives of Idaho soil conservation districts, potato industry representatives and Idaho to Ben. Henry Dearhak, R-Idaho, regarding a proposed regional soil and crop laboratory.

Should congress earmark funds for such a laboratory, he said, the service would be included to build the facilities in conjunction with an existing agricultural research plant at a college or university.

FRENCH TEST MISSILES

THIS, Nov. 25 (AP)—The French defense ministry disclosed yesterday that France has successfully tested two high altitude missiles deep in the Algerian Sahara desert.

"This terrific team saves up to 15% on gas!"

Not only do you save gas, you get better take-off power... greater passing power. Here's the story:

Thanks to its all-new design, the new Ford Interceptor V-8 engine (up to 309 hp) with Precision Fuel Induction has saving ways just by itself. All fuel-air routes to the combustion chambers are streamlined for more even fueling and instant GO. But team it with new Cruise-O-Matic—the world's most versatile "automatic"—and you can save up to 15% on gas! Greater acceleration from standing starts and greater passing power are other benefits you'll reap from this great Thrift-and-Power Train. Try it at your Ford Dealer's soon.

Stocks Livestock Grain

NEW YORK, Nov. 26 (AP)—The stock market was lower as the Dow Jones industrial average fell 17 1/2 points to 1,000.10. The market was weighed down by a report that the Federal Reserve might raise interest rates to combat inflation. The market was also affected by a report that the government might raise taxes on corporate dividends.

'Shocking Picture' Of U. S. Missile

A shocking picture of a U. S. missile was shown to a group of men in a room in the Pentagon. The picture was a black and white photograph of a missile in flight, with a large plume of smoke and fire behind it. The men in the room were looking at the picture with expressions of concern and interest. The picture was taken by a U. S. Air Force photographer and was shown to the men as part of a briefing on the missile's capabilities.

Opening Farm Lands Termed 'Foolishness'

Lower administration to the present, he said any farm program in three objectives. A sure and adequate food supply, an equitable income for the farmer and continuing progress in knowledge of agricultural technology.

"I still believe in individual farm enterprise," he said. "With less federal farm controls—more freedom. With more controls—less freedom."

Robert Pettigrove charged that the aim behind sliding support—lowering the price of farm products—had not worked. "Lower prices have not cut production," he said. "The farmer is still producing more than he can sell."

Pettigrove said that farmers must organize for collective bargaining strength to gain their "share of the national economy." He said that farmers must organize for collective bargaining strength to gain their "share of the national economy."

Importers Get "Bonanza" by Oil Programs

WASHINGTON, Nov. 25.—A Texas oil spokesman says exclusion of the west coast from the administration's voluntary oil import program has created a "bonanza of the first order" for importers.

John Davenport, general counsel of the Texas Independent Producers and Royalty Owners Association, made the statement yesterday at an interior department hearing on the west coast issue.

"These importers who operate both in the east and west have been constantly tempting them to bring in at the back door what is limited at the front door," he said.

Davenport, who also testified on behalf of six other independent oil producers from Texas, Oklahoma and Louisiana, said exemption of the west coast from the program "will continue to be a constant threat to the success of the program."

He said the exemption should be "withheld and the voluntary control program should be uniformly enforced nationwide."

The hearing was called by Navy Capt. M. V. Cramm, Jr., administrator of the program. At present districts 1 through 14 are covered by the plan under which individual companies voluntarily reduce their imports.

Districts V (Washington, Oregon, California, Nevada and Arizona) has been exempted.

Davenport said independent producers in his area oppose the exclusion because for western oil fields are being brought into the market, thereby reducing chances for a proposed Texas-California pipeline.

Arnold D. Brannan, a director of General Petroleum corporation, testified in favor of keeping the west coast free from the program's restrictions.

Brannan said it was essential for his firm to import crude oil from foreign countries because available domestic supplies in the West are insufficient. He said his current over-supply of oil in the West is a "temporary condition which can be resolved by individual company action."

"FIRE" PAYS OFF
ATLANTA, Nov. 25.—Police today sought an enterprising thief who ran into a hotel lobby, shouted fire, and bolted the desk of \$127.32 when the clerk ran upstairs to check.

10 Millions to Be Spent for Gem Projects
WASHINGTON, Nov. 25 (Special).—The bureau of reclamation will spend approximately \$10,000,000 in Idaho during the current fiscal year according to a report on the program for the Pacific Northwest which was recently submitted to Sen. Henry C. Demarest.

Of the \$7,125,000 to be spent for construction from the above funds, the Minidoka project, North Side pumping division, is scheduled to receive \$4,900,000 for the 1938 fiscal year program which will bring the division to about 60 per cent completion.

Facilities to serve an additional 19,120 acres will be provided during the fiscal year, the report stated, bringing the total acreage served by the North Side pumping division to about 50,000 acres.

When completed, the division will furnish a full water supply to approximately 19,000 acres of land. Ground water pumping will provide the supply for 60,840 acres in unit B, and pumping from the Snake river released from Palahore reservoir and a minor amount of ground water pumping will meet the requirements of the 13,650 acres in unit A. The project, completed in 1929, will have some 100 wells tapping the ground water supply and about 200 miles of lateral carrying the water to project lands.

Other Idaho projects, listed in the bureau of reclamation report, to receive construction funds during the 1938 fiscal year include Palahore project, \$22,200,000; Minidoka project, \$21,210,000; Little Wood river project, \$400,000; and Rathdrum project, \$400,000.

King Hill Visits, Travels Are Told
KING HILL, Nov. 26.—Mrs. Cora Henderson, Blackfoot, is a guest this week of her son-in-law and daughter, Mr. and Mrs. Henry Helm.

Mr. and Mrs. Calvin Hoagland and family have moved to Richmond, Wash.

Mr. and Mrs. John Daple and Tom Daple, all King Hill, and Mr. and Mrs. James Turnbull, Eagle, spent Saturday and Sunday at guests of Mr. and Mrs. Robert Daple, Rupert. The group attended the "Married a Stockman" club meeting.

TWO PLAN DRIVE
UNIVERSITY OF IDAHO, Moscow, Nov. 25.—Student Council Members John Chapman and James Kay, both Twin Falls, met with the United Fund board of Moscow this week to plan student aid for one hour on Dec. 3.

Under the aegis of Angel records, Miss Marley has gained a reputation as a recording artist, both in Europe and in the United States. Her recordings of Bach's Sonatas and Partitas for Solo Violin for Angel were cited by the New York Herald Tribune as one of the 100 best records for 1935.

Her vocal appearances throughout Europe with her permanent accompanist, the famed Dutch pianist Jean Attwood, have won her acclaim and have been noted for many special performances such as her program of all ten of Beethoven's violin sonatas in three concerts which she has played in Amsterdam and Naples.

56,488 Given Idaho School Lunch in '37
WASHINGTON, Nov. 25 (Special).—The national school lunch program of the department of agriculture made school lunches available to 56,488 children in 454 Idaho schools during fiscal year 1937, according to a report from the department to Idaho's Sen. Henry C. Demarest.

The program provided lunches for 2,653 more school children last year than were provided for in 1936, when 54,835 Idaho school children participated in the program.

The federal school lunch fund appropriated to Idaho in the fiscal year amounted to \$309,629. In addition, the department of agriculture distributed to schools 292,269 pounds of food costing \$80,015 purchased specifically for their nutritive value.

A special school milk program was also operated in 337 schools and child-care institutions in fiscal year 1937. The report to Senator Demarest said that under the program children consumed five million half pints of fluid milk. Federal funds expended in reimbursement payments for this milk totaled \$174,000.

Pressure in Farm Wages May Ease
WASHINGTON, Nov. 25.—The agriculture department today decided that pressures to raise farm wage rates may ease some in 1938.

With the national economy showing signs of leveling off, the department said, it is probable that farm wages may not be as high as last year as this year, say 22 per cent. As a consequence, farm employers, would not be as anxious to raise wages as they were in 1937.

The department said that in 1937, the average farm wage rate was 22 per cent higher than in 1936. It said that the department's study of the productivity of farm labor in 1937 showed that it was 1947-49.

NOVELIST DIES
SAN FRANCISCO, Nov. 25.—Peter B. Kyne, 77, novelist, died yesterday. He was the author of "Cappy Ricks" stories and was one of the colorful characters of the West Coast, died yesterday.

Farouk Daughter Planning Nuptials
DAMASCUS, Syria, Nov. 25.—The 18-year-old daughter of King Farouk of Egypt will soon be engaged to the grandson of Syria's former President Mohammed Ali Zaidi, the prospective bridegroom's aunt said today.

Shirley Elsted confirmed local newspaper reports that Princess Farouk and 25-year-old Ahmed Zaidi will announce their betrothal in Switzerland where they are attending school.
