CAMPAIGN-EXPENDITURES
Speaking before the Boise Ad club this week, Cong. Hamer H. Budge made a point which deserves sorious thought.
If something is not done to curb massive campaign expenditures by pressure groups on behalf of candidates, he said, the time will soon come when the only men who can be elected to public office will be "multi-millionaires and men backed by the AFL-CIO's committee on political action."
It used to be, before mass advertising media were developed," said Budge, "that a candidate could tour his district, shaking handland making a few stump! talks.

factor in his success or failure."
It's encouraging to note that Congressman
Budgo-regardo-advertising as such a polent
force in this day and age. But we agree with
him that a lot of political advertising costs
a lot of money—an expense which the average candidate cannot afford.
It's only the "multi-millionnires and men
backed by the AFL-CIO's committee on political action" who are in position to spend
thousands upon thousands of dollars to
achieve their objectives.
And it should be quite obvious to everyone
that candidates backed with that kind of
money by such organizations as COPE are
obligated to vic "right" at all times. And
such organizations as COPE never leave any
doubt. In-anyone's mind as to what they

RUNNING'S

Eyes Are Priceless

MOVING **Buy Light Bulbs** STORAGE IDAHO POWER ALLIED VAN LINES

Right now, the average hourly earnings of Idaho production workers are \$2.11. How would you like to be a housewife in one of the 18 so-called "right-to-work" states . . . where the average earnings of production workers are \$10 a week LESS—\$520 A YEAR LESS—than in Idaho! That's what faces you unless you vote \$10 a 1011.

Mrs. Idaho Production Worker's Wife, you have \$1,372.80 a year MORE on which to run your home than your "lister Alabama housewife—who has "right-to-work." Or take North Dokata production workers wives. Under "right-to-work" they have \$9.20 a week LESS on which to manage. As for poor Mrs. Georgia, she has to scrimp along on \$1,164.80.a year LESS than YOU IN IDAHO TODAY!

Whatever the source of your family income, the so-called "right-to-work" measure endangers the well-being of your household. So—

Mrs. Housewife—keep your shopping bag full... a heap sight fuller than in 14 out of 18 "shrunk shop ping bag" states! And yote NO—on: 101!
