Soviets Hold U.S. Convoy In Germany

BERLIN, Feb. 3 (AP)—The Soviet Union today held a U. S. convoy of four cargo trucks and five soldiers on the West German autobahn within sight of the West German border. The convoy was en route from Berlin to West Germany. The U. S. army charged that the convoy had been detained for more than 24 hours with the "obvious intention of creating an incident" on the 110-mile lifeline. The red army was handed two stern protests and demands for immediate release. But the Soviet Union brushed off the protests. Negotiations for release of the convoy bogged down.

The corporal in charge refused Soviet demands last night for inspection of the open cargo of jeeps on the trucks. He and his men spent the night muffled in blankets in the trucks.

The U. S. army unit at the Helmstedt checkpoint, just over the border in West Germany was able to supply the men with hot meals.

The Soviet army let the convoy pass out of West Berlin on the 110-mile run through communist East Germany but stopped it at the checkpoint at Marienborn at 1:30 p. m. just as it was ready to cross into West Germany.

The autobahn is the road link from the West to allied garrisons in isolated West Berlin.

The men, all personnel of the 28th transportation battalion, were listed by the army as Cpl. Richard C. Masiero, West Stockridge, Mass.; Benjamin G. Peoples, Theodore, Ala.; Elwood F. Johnson, Brooklyn, N. Y.; James E. Cook, Hardeeville, S. C.

Russ Brag About Might; Say West Planning for War

MOSCOW, Feb. 3 (UPI)—Soviet military and atomic experts said today they have missiles which "can carry their hydrogen charges to any point on Earth." They accused the West of continuing preparations for war but said western methods were obsolete. (The claims indicated the Russians took advantage of suspension of nuclear tests by the United States and Britain to continue their own tests and improve their nuclear weapons.) Defense Minister Rodion Malinovsky and Nuclear Research Chief Ivan A. Kurchatov told the 21st Soviet Communist party congress in separate speeches that the red army now has superior missiles and warheads including "more compact and cheaper" H-bombs developed in tests last fall.

The "imperialists," Malinovsky said, "are continuing their preparations for a new war and the use of the most powerful weapon of mass extermination, nuclear weapons, and (also) are threatening with the might of their aviation and navy."

"To this we can reply that these are comparatively outdated means of war. There are more powerful and more modern means—intercontinental rockets."

The Soviet Union has these missiles, he added, which "can carry their hydrogen charges to any point on Earth, to the very point intended as a target, for they are very accurate."

Malinovsky then told the West, "Your arms are too short, gentlemen."

Presumably, he was claiming superior range for Soviet missiles over western methods of delivery.

He also spelled out the fact that the red army is equipped with a whole series of intercontinental, continental and other rockets of long, medium and short range.

Kurchatov later told the congress that "in order to insure the security of the Soviet Union, the Soviet government was forced to resume testing thermo-nuclear weapons in the autumn of 1958."

"As a result of these tests," he said, "more reliable, more perfect, more compact and cheap types of thermo-nuclear weapons."

Meanwhile, the stage seemed to be set for possible removal from the General committee of the party of the so-called "anti-party" group condemned by Premier Nikita Khrushchev for opposing his policies and criticized by a number of speakers at the present congress.

House Revokes Approval Of Plans to Ban Driving For 14-and 15-Year-Olds

BOISE, Feb. 3 (AP)—The Idaho house of representatives revoked today its approval of a bill to provide for permits for farm boys whose fathers need to have them drive trucks. The permits would be issued by the department of law proposed amendment was scheduled for Thursday afternoon. After this vote is taken, the bill will be considered again and, if passed, sent to the senate. The bill was passed yesterday, 31 to 27. But Rep. Jenkin Palmer, R., Oneida, served notice of plans to seek reconsideration. Palmer and others who opposed the bill worked overnight to drum up support for this action.

When Palmer moved for reconsideration this morning, his motion passed 33 to 25. Later, the bill was put on the amendment calendar for Thursday by a standing vote.

Testimony in Topsy Driver Case Started

Testimony began Tuesday morning before Probate Judge J. Dean in a jury trial of Shirli James Kimbly, charged with drunken driving Jan. 18 when his car collided with a pickup truck at Twin Falls on state highway 20.

Testifying before the trial released for lunch was State Patrolman H. E. Carr who arrested Brown on the scene of the accident.

Brown's car collided with a pickup truck driven by Woodson Wesley Harman. Harman was injured in the collision.

Brown originally appeared before Justice of the Peace George E. Carr, posting an appearance bond of \$300 and later entering a plea of guilty. Brown's attorney, H. N. (Continued on Page 2, Column 5)

T.F. Traffic Behavior Reported Improving

Traffic behavior has been better since the addition of an additional police car and patrolman to the city police traffic department, City Commission Chairman J. Ted Davis reported Monday night at the regular commission meeting. Davis' report was one of seven reports from the commissioners who have been assigned certain projects for which they are responsible. Shortly after Chairman Davis became head of the board just over a year ago, he assigned a project to each commissioner. Monday night the individual commissioners reported to the full board the activities of his project during the past year.

Chairman Davis assigned himself to the traffic problem last January. In his report Monday night he cited statistics to show there has been increased activity in the police traffic department and added that as a result the traffic situation in Twin Falls has lessened to some extent.

Police Chief Howard Gillette added to Davis' report that the addition of an extra car and man to the traffic department has aided in "plugging up holes in traffic enforcement" and had added the department in setting up radar. He said a large percentage of the increase in traffic citations has been due to use of radar.

Mrs. LaVern Strong, chairman of the Southern Idaho Citizens' Safety council, also gave a report on the activities of her organization.

Work to Start On Underpass In Short Time

Work on a \$108,800 railroad underpass project—just south of the intersection of Kimberly road and railroad drive is expected to start in a week or two, depending on the weather.

Nielsen and Miller Construction company, prime contractor for the project, hopes to have equipment and crews working at the site as soon as stake locating is completed by members of a state highway department crew.

The state crew began work at the site Monday and expects to be finished within a week.

Excavation work will be done by T and S Construction company, under a sub-contract to Nielsen and Miller.

Before the major portion of the underpass project is undertaken, a "hoop" track for the Union Pacific Railroad company will be constructed south of the present tracks, enabling trains to pass the site unimpeded.

The project is being supervised by the state highway department, under terms of the federal matching funds program. Preliminary engineering and right-of-way acquisition work were supervised by the Twin Falls highway district.

The local district obtained 10 additional feet of right-of-way on both sides of the road for 1,500 feet along the project area, according to J. D. (Continued on Page 2, Column 1)

Missing Ship Still Hunted

HALIFAX, Feb. 3 (UPI)—Five U. S. and Canadian air force planes and five ships concentrated on the southern base of the search area off Greenland today for the missing Danish freighter Hans Hedtoft.

Improved weather conditions spurred the armada of ships and planes in the hunt for clues to the 2,976-ton vessel which struck an iceberg 37 miles off the southern tip of Greenland Friday and was presumed to have sunk with 95 persons aboard.

Canadian air force search and rescue headquarters said it had established that weak radio signals which raised hopes that some may have survived, had come from the U. S. coast guard cutter Campbell—one of the five ships in the search area.

There had been speculation in Copenhagen that the signals, picked up Sunday night, may have come from the missing ship or a portable radio in a lifeboat.

Former Resident Of Rupert Jailed

CALDWELL, Feb. 3 (AP)—A former resident of Rupert was jailed in lieu of bond yesterday after his arraignment on charges brought under the federal white slave traffic act.

Richard Owen Martin, 34, was arrested on the charge here before U. S. Commissioner Dean Miller. He was taken to the Canyon county jail and later he failed to post \$2,500 bond, said U. S. Marshal Saul Clark.

The charges accuse Martin of bringing a woman for immoral purposes from Moses Lake, Wash., to Fayette about Jan. 18, said Harry Maynor, FBI special agent in charge of this district at Butte, Mont.

The FBI took custody of Martin from sheriff's officers at Fayette, where he had been held on local charge.

Millionaire Astor Dies in New York

NEW YORK, Feb. 3 (AP)—Vincent Astor, 67-year-old multimillionaire socialite, died today.

Astor died of a heart attack in his New York apartment.

Astor, a great-great grandson of the John Jacob Astor whose fortune trading launched one of the country's greatest fortunes, inherited an estimated 78 million dollars.

He was one of New York City's great real estate holders, and had wide holdings in oil and other industries across the country.

He also was known for many philanthropies.

Astor's father, John Jacob Astor III, perished in the sinking of the steamship Titanic in 1912.

3 Singers Die With Pilot in Plane's Crash

MASON CITY, Ia., Feb. 3 (AP)—Three of the nation's top rock 'n' roll idols were killed during a light snow when their chartered plane crashed shortly after taking off from the airport here early today.

The trio, Buddy Holly, 26, Texas; Ritchie Valens, 17, Los Angeles, and J. P. Richardson, 24, Louisiana, known professionally as the "Big Bopper," had completed an engagement at the Surf ballroom in nearby Clear Lake a short time before.

They were on their way to Fargo, N. D., for an appearance tonight.

The four-place plane was chartered from the Dwyer Flying service, Mason City. The pilot was Roger Peterson, Clear Lake, who also was killed.

Cause of the crash was not determined, although authorities tentatively blamed weather conditions.

It Was Real

SAN ANTONIO, Tex., Feb. 3 (AP)—Officer Thomas Fenley got a call from the dispatcher that said: "At 1410 Michigan a report of a woman chasing a round object. It's unknown."

He discovered Mrs. William Todd, Jr., very unhappy.

Something small and white had hopped into a coffee cup, then hippy-hopped around the kitchen, ending up in the dishwasher drain.

Fenley captured it and discovered it was a broken golf ball.

The tightly-wound rubber-sheathing was popping free through a break in the cover.

American Indian Disgusted; He Seeks Aid From Russians

MINNEAPOLIS, Minn., Feb. 3 (UPI)—The head of the Indian Trades council said last night he has sounded out the Russians on a five-million-dollar loan because he is convinced the American government has no intention of helping the Indians.

Al Delafontaine, a Sioux Indian, said he wanted the loan "so we can get some kind of industry started on the reservations so Indians can have a weekly pay check and work where they want to work."

Delafontaine telephoned the Soviet embassy in Washington yesterday and said the Russians sounded very cordial over the telephone. They told him the ambassador was out of town, but gave him the name of a man at the embassy to whom he could write for information about a loan, Delafontaine said.

"They sounded very encouraging and we might get some money from them," he said.

Delafontaine, whose organization consists of 100 to 200 Indians on reservations in Minnesota, the Dakotas and Montana, said he would lead a delegation of Indians to Washington Saturday to seek action on his request.

He said he would give the United States first chance at helping the Indians by trying to contact President Eisenhower and his congressional delegation of Indians to Washington Saturday to seek action on his request.

If they have no luck at the White House or in congress, then the delegation will visit the Soviet embassy, Delafontaine indicated he had little hope for obtaining government aid.

"I'm convinced the American government has no intention of helping Indians to get their heads above water," he said. "The only job an Indian can get now is shining some body's lousy shoes."

Farmer Describes His Feedlot Operations for Tour

Fred Thieme points across his corral as he describes cattle feeding operations on his farm during the annual Twin Falls county feedlot cattle tour Tuesday. Thieme's farm, located east of the Amalgamated Sugar company plant, was the first stop on the tour Wednesday. Four other farms were visited. Theme of this year's tour was "How to get into the cattle feeding business." (Staff photo-engraving)

NEWS BULLETINS

WASHINGTON, Feb. 3 (AP)—Secretary of State John Foster Dulles files to Europe today, apparently in a bid for allied support of some sort of counter-proposal to the Soviet Union on the German problem.

RICHMOND, Va., Feb. 3 (UPI)—Virginia moved into its second day of token race mixing in its public schools today with new premises from the legislature that future integration will be resisted. As yesterday, 17 Negroes filed calmly into six previously white Norfolk schools and four into Arlington's Stratford junior high. There were no incidents of any kind.

LITTLE ROCK, Ark., Feb. 3 (UPI)—Federal District Judge John E. Miller today rejected a request of the Little Rock school board for permission to open immediately the city's four closed high schools on a segregated basis.

WASHINGTON, Feb. 3 (UPI)—President Eisenhower and his congressional chiefs of staff joined today in urging a public outcry against big spending plans of the Democratic-controlled congress. The GOP congressional leaders said after a White House conference of nearly three hours that Eisenhower "very definitely" shared their feeling that the Democratic spending plans would knock his budget out of balance.

Robinson Says Action For Housing Needed

NEW YORK, Feb. 3 (UPI)—Jackie Robinson, the man who broke the color line in baseball, said today at a hearing on discrimination in housing "that bean balls are still being thrown in the housing field as well as on the ball field."

Robinson, in testimony prepared for the federal civil rights commission hearing, said there is a need for "positive action by individuals to spur bias-free, privately-built housing."

The former star of the Brooklyn Dodgers told of his own experiences with housing discrimination. "When my wife and I decided to move from St. Albans, Long Island, we were put through the usual bag of tricks, right in this state," he said.

Among the problems he ran into, Robinson said, were:

"We were told the house we were interested in had been sold just before we inquired."

"We would be invited to make an offer—a sort of sealed bid—and then we'd be told that offers higher than ours had been turned down."

"We tried buying houses on the spot for whatever price was asked. They handled this by telling us the house had been taken off the market."

Finally, Robinson said, he was able to find a home in Stamford, Conn., "due to the strong efforts of some very wonderful people there."

For many people, Robinson said, (Continued on Page 2, Column 3)

Cougars Blamed In Sheep Killing

RIGBY, Feb. 3 (AP)—Cougars attacked a herd of sheep in this area over the week-end. Rancher Donald Danis said 10 sheep were killed and 10 seriously injured.

Danis told Jefferson county officers he first thought dogs were to blame—until he noticed the size of the tracks. Officers theorized the cougars were on their way from one mountain range to another.

Turkey Taxed

WASHINGTON, Feb. 3 (AP)—The Internal revenue service at Tacoma, Wash., has ruled that an employee must pay tax on a turkey received from his boss at Christmas.

This was disclosed today by Rep. Thor Tollefson, R., Wash., who called the ruling "ridiculous" but technically correct.

He said he would ask congress to exempt such gifts worth less than \$20.

250 Attend Feedlot Tour in T.F. County

The annual feedlot cattle tour for Twin Falls county was held Tuesday with some 250 farmers attending the morning tours, climaxing with a luncheon program at the American Legion hall. Similar tours are slated for other Magic Valley counties through the remainder of the week. Theme for the tour was "How to get into the cattle-feeding business."

First stop was at the Fred Thieme farm, a mile east of the sugar factory, where 70 head of cattle are fed. Thieme pastures about 45 head in the summer and in the fall, divides a 30-acre field of sugar-beets into six-acre sections for the cattle to pasture.

Henry Slevens, Jr., purchased 92 head of cattle last fall which weighed an average of 700 pounds. He told the group he feeds 40 pounds of cull potatoes per day, plus hay and grain. He rents 120 acres and has a 50-50 lease arrangement with the landowner on both farming and cattle operations. He estimates his average daily gain from two to two and three-fourths pounds.

Third stop on the tour was the Fred Weathers place where Eugene Chaspin feeds 92 head. He purchased the cattle last November when they weighed 580 pounds per head. He has fed beef pulp for about a month and the cattle are now receiving six and a half pounds of mixed grain, two pounds of 32 per cent protein supplement and 25 or (Continued on Page 2, Column 1)

U.S. Man Held By Cuba; He's Killer Suspect

HAVANA, Feb. 3 (UPI)—Edward A. Nye, 31, Chicago and Coral Gables, Fla., has been held for more than a month as the suspected fugleman in a plot to assassinate Fidel Castro, it was reported today.

Police said the rebels who seized Nye in eastern Cuba Dec. 28—five days before ex-President Fulgenio Batista fell—reported that he had a rifle with a telescopic sight and a pistol in his possession at the time.

Nye, who is being held at a police station here, told UPI that he never had heard what charges have been filed against him—if any. He denied complicity in any murder plot.

"It's all a big mistake," he said. "I came to Cuba to join Castro, not to kill him."

Nye, who was a military officer during World War II, said he came to Cuba to offer Castro the benefit of his experience. He said he was looking for Castro when the rebels seized him in Santa Rita.

Police Lieut. Jose M. Fernandez Roa said, however, that the police "have reason to suspect" that Nye was paid \$10,000 by unidentified persons to infiltrate rebel ranks and shoot Castro.

Fernandez said Nye entered Cuba "clandestinely" by small plane a week before Batista's overthrow.

Legislature's "Preliminaries" Discussed for Local Meeting

Approximately 30 persons attended the Citizens for Good Government breakfast meeting Tuesday morning, with the discussion centering on preliminary work required by legislators during sessions.

Carl Irwin, former Twin Falls county legislator, explained the great amount of work done in committees before legislation is ready to be presented.

Irwin and Charles Colner elaborated on problems of legislators in attempting to work out proposals which will be feasible legally, meet the needs of the state and still be consistent with the economic picture and the consensus of constituents.

The discussion grew out of the "do-nothing" charges which have been made at various times regard-

ing any session of the legislature. Irwin and Colner expressed the belief that the present lawmakers are doing a great deal, and the next couple of weeks will see some good legislation resulting from the activities of January. They said early activities are difficult to pin-point as accomplishments—until the bills begin to appear on the floors of senate and house.

Irwin also outlined several types of primary laws, one of which is a combination of the convention system and the present plan. It is now being discussed in committee, he said.

The first convention will require two candidates for office to be approved by the party and anyone else with 500 signatures on a petition also could run for the office.

Debt Plan Aired

BOISE, Feb. 3 (UPI)—The house today over-rode efforts of the Republican leadership to prevent action aimed at amending the administration's measure proposing a boost in the state's debt limit.

By a vote of 32 to 25, the house decided to go into a committee of the whole to consider an amendment which would change the administration proposal for a debt ceiling from four per cent to three per cent of the total assessed and equalized valuation of property in Idaho.

The administration measure would submit the proposition to the people as a constitutional amendment.

School Board Keeps Chiefs, Sets Calendar

Twin Falls school administrators were re-hired and a school calendar was set for the 1959-60 school year at a special meeting of the Twin Falls school board Monday night.

Ernest H. Ragland was given a two-year contract starting July 1, 1959, and other administrators were hired for the next year. They are Arthur M. Kleinke, assistant superintendent; V. L. Lefebvre, high school principal; Mrs. Vera C. O'Leary, junior high school principal; Beulah Way Harrison, principal; Mrs. Lola Cookrum, Morningdale; Mrs. Mary Helen Perry, Washington; Jay Anderson, Blouck; Keith Turner, Lincoln; James A. Miller, Union; Vernie Wells, Shamrock; and Mrs. Charley Stahlruff, central primary school.

Administrators' salaries will be determined later in line with salary policies to be adopted for the next year.

The board decided school will open Sept. 8 next fall and close May 27, 1960. Other dates in the school calendar are teachers' institute, Oct. 8 and 9; Veterans day, Nov. 11; Thanksgiving holiday, Nov. 26 and 27; Christmas holiday, Dec. 23 to Jan. 3, inclusive; Washington's birthday, Feb. 22; Easter holiday, April 15-18, 1960.

In other business, the board hired Mrs. Helen Mills to teach sixth grade at Morningdale school, replacing Mrs. Bernice Felt.

A large delegation of the Twin Falls County Association for Retarded Children met with the board to point out the need for classroom facilities and special instruction for retarded children. The board will study the problem.

Bill Criticized

WASHINGTON, Feb. 3 (AP)—The U. S. Chamber of Commerce contended today that the Kennedy labor bill is inadequate and "holds out little hope of accomplishing any thorough-going reform."

In a sweeping criticism of the Sen. John F. Kennedy, D., Mass., bill, the chamber also said the measure again includes unrelated matters which it said "block" labor reform at the last congress.

Crack in Cold War Noted by West Officials

LONDON, Feb. 3 (UPI)—A 12-year-old cold war ice jam has begun to crack.

For the first time since the Geneva summit conference in 1955 and the abortive big four foreign ministers meeting that followed it, western diplomats saw a faint change today of genuine cold war negotiations with the Soviets—not exchanges of propaganda speeches from prepared positions.

Western diplomats hoped that Secretary of State John Foster Dulles' visit to London, Paris and Bonn this week may help break the ice still further.

Meeting Predicted

There is pretty general conviction among diplomats in Europe now that a big four foreign ministers meeting on Germany, Berlin and other cold war issues will take place this spring—probably in Geneva and probably at the end of April.

Experts here do not expect a sweeping East-West agreement that will suddenly end the cold war. But they believe chances of real negotiation are better than for some time past.

Diplomats in Europe date the first crack in the East-West deadlock from Soviet Premier Nikita Khrushchev's Berlin ultimatum of Nov. 27, 1958. Khrushchev called on the western allies to get out of isolated West Berlin and turn it into a "free city" under United Nations sponsorship within six months. The deadline was May 27 this year.

West Says No

The western reply, delivered by the North Atlantic Council in Paris in December, was a tough and uncompromising "no."

But western experts believed the Soviet leader was bent not simply on getting the West out of Berlin but also on getting East-West talks started.

Only five weeks after delivering the ultimatum, Khrushchev sent his deputy, Anastas Mikoyan, on a "goodwill tour" of the United States. Although Mikoyan brought no new proposals, he went out of his way to woo the American public with smiles and a show of affability.

In particular, he repeated constantly that Russia's Berlin note was not really an "ultimatum."

The West also showed signs for the first time in years of abandoning the ironclad demand that free all-German elections must be the first step towards German reunification.

New Radio Tried

ATLANTIC CITY, N. J., Feb. 3 (AP)—Motorcycle cops will be keeping their radios under their hats. A patrolman is trying out a radio developed by the police department's radio technician, Larry Smith.

It's so tiny he wears it behind the badge of his motorcycle helmet. Results are encouraging, Smith said. The helmet radio has a range of 12 to 14 miles. It is powered by five transistors, and cost a cent a day to operate.

FARM BUREAU TO MEET

HOLLISTER, Feb. 3 — Salmon Tract Community farm bureau will meet at 8 p.m. Wednesday at the Hollister Grange hall. Two Idaho Power company films will be shown and refreshments will be served, according to Leroy Messner, chairman.

Native of Intermountain West Is J. C. Penney Store Manager

Vernon Harmer, who was born and raised in the Intermountain West, has been named manager of the J. C. Penney store here.

Harmer, who believes that life should include more than making a living, was delighted at his assignment to Twin Falls, as were his two sons, Chet and Dick. All three are ardent hunting and fishing enthusiasts. Harmer isn't sure yet, but 10-year-old Patricia may turn out to be a sportsman, too.

Harmer, who began his career with the Penney company at Torrance, Calif., served in stores at Brigham City and Provo, and managed stores at Payson and Layton, Utah, and at Rock Springs, Wyo., before coming to Twin Falls last month.

Harmer served in the navy during the war. He is active in Chamber of Commerce work, Kiwanis club and church activities.

He was graduated from high school in Springville and attended Brigham Young university.

"We had hoped for an assignment to Twin Falls one other time, so we were really delighted this time. There is a fine potential in this area and the recreational facilities here are surely to our liking," Harmer states.

Mrs. Harmer, who is still in the throes of settling the household, says she hopes to be active in community affairs here.

VERNON HARMER

Antarctic Trip Is Ended; It's Said Valuable

WASHINGTON, Feb. 3 (AP)—A party of American and New Zealand scientists has just completed a dangerous 109-day, 14,000-mile traverse of previously unexplored territory in the Antarctic. They traveled by tractor and afoot.

Telling of this yesterday, officials of the American International Geophysical Year committee said findings of the trip are potentially of great import to science. The trip suggests it might be feasible to re-supply the U. S. south polar station by tractor train.

The party was led by Albert P. Crary, deputy chief scientist of the U. S. IGY antarctic program. It included four other Americans and one New Zealander.

They left Little America Oct. 15, 1958, and traveled over the Ross ice shelf, up Skelton glacier to a height of 9,000 feet, then west several hundred miles to Victoria Land plateau and finally into the naval air facility at McMurdo sound. They completed the trek Jan. 31.

The party stopped at regular intervals to make seismic, glaciological and geomagnetic observations, the IGY announcement said.

William A. Drew Honored at Rites

BURLEY, Feb. 3—Funeral services for William Alfred Drew were held Monday afternoon at the Presbyterian church with the Rev. Kenneth G. Beall officiating, assisted by the Rev. Emil Heise.

Joanne Wolf played meditation music and accompanied Rachel and Edward, who sang a duet. Maxine Wallace was soloist.

Pallbearers included Ray Barry, Fred Schodde, E. B. Schroe, Walter Nelson, Charles Moncur and E. S. VanHise. Floral arrangements were cared for by Ethel Nelson, Geneva Scott.

Russell Shockey and Walter Schorzman were ushers. Last rites were held in Riverside cemetery, Heyburn.

West Firm Plans Big Ad Program

SALT LAKE CITY, Feb. 3 (AP)—The president of W. P. Fuller and company said yesterday the western print firm is embarking on the largest newspaper advertising program in its history.

W. P. Fuller Brawner, president, announced the program here at a regional sales meeting of the company, which has headquarters in San Francisco.

Brawner said the company will spend \$461,000 this year in newspapers, \$100,000 in general circulation magazines and \$45,000 in trade journals.

He said other media will be used only on a spot basis, for example, to publicize the opening of a new store.

He said newspaper advertising in the Intermountain area is planned in Salt Lake City, Ogden, Idaho Falls, Boise, Nampa, Pocatello, Twin Falls, Billings, Butte, Great Falls, Logan and Provo.

Blaine Stake Conclave Set

CAREY, Feb. 3 — Blaine stake quarterly conference will be held this week-end with the opening sessions to be held Saturday evening in the Shoshone ward chapel.

Meetings Saturday evening will be for all ward and stake welfare committee workers, with the meeting to begin at 6:30 p.m. The second meeting, at 7:30 p.m., is scheduled for all Aaronic and Melchizedek priesthood leaders and workers.

Visiting speakers for the conference sessions which will be continued Sunday in the Carey ward chapel will be Elder Q. Morris of the council of twelve, Salt Lake City, and Elder Eccles of the general welfare committee.

The Rev. Mr. Hoffman is teaching the Kum-Dubbe class, and Mrs. Hoffman is superintendent of the junior department.

The reception program was under the direction of Mrs. Robert Nelson, Mrs. Uba Allen and Mrs. A. C. Martin headed the reception committee. Refreshments were served by women of the church.

The Hoffmans came to Twin Falls in February, 1958, from Emmett.

Reception Honors Preacher, Family

The Rev. and Mrs. Donald L. Hoffman and family were honored at a reception on his first anniversary as minister to the First Christian church here.

The reception followed Sunday evening church service and was sponsored by the Bible school of the church.

During the year, 140 new members joined the church. A youth orchestra and youth choir of 35 members were organized.

The Rev. Mr. Hoffman is teaching the Kum-Dubbe class, and Mrs. Hoffman is superintendent of the junior department.

The reception program was under the direction of Mrs. Robert Nelson, Mrs. Uba Allen and Mrs. A. C. Martin headed the reception committee. Refreshments were served by women of the church.

The Hoffmans came to Twin Falls in February, 1958, from Emmett.

ARMY MANEUVERS START

- Clovercrest Chieftan. Calved May 26, 1958
- A.B.S. Sire: Erora Pride B 48787-ARM
- Dam: Snowdy-Linda-162262. Will produce over 13,000 lbs. of milk. This lactation tests 4.
- DON'T OVERLOOK THIS OPPORTUNITY FOR A HERD BULL.
- Also 1 Shorthorn bull calf, 2 mos. old
- Shorthorns belong to Bill Dunham
- MISCELLANEOUS**
- 19-ft. hay piler with gas motor (new)
- New 1941 Ford V-8 motor, complete, ready to run
- 15-ft. hand
- 4-inch grain auger, less motor (Harvest Hand)
- General Electric kitchen range, good
- Several piles of scrap iron — New 14x14 army tent
- 1 3 horse electric motor with 2 grinders
- Walking plow — Slip scraper — Some spud baskets
- MACHINERY**
- 1950 Z Moline, new rubber, hydraulic lift, 3-point hookup, good condition. Spud and corn cultivator for Moline.
- 1946 Farmall A with vacuum lift. A-1 condition with following equipment: 6-ft hangon mower; beet and bean cultivator.
- 1949 Case A6 combine, good condition, motor just overhauled. New canvas, grain and beet attachments
- 1952 Case A6 combine, new canvas, grain and bean attachments. This combine is the same as new. Threshed about 100 acres of grain and 50 acres of beans.
- Model 160 7-ft. double wing Martin ditcher
- 5-ft. Roto beater—3-section steel harrow
- 2-section springtooth harrow, like new
- International tandem disc
- New Massey-Harris 1/4-turn plow
- Field renovator on wheels
- Vantour 3—6-ft. section steel harrow
- Moline tumble plow, 2-bottom, 14-inch
- Nearly new International 18-inch 2-way trail plow
- MILKING EQUIPMENT**
- Twelve 10-gal. milk cans
- Westinghouse 5-can milk cooler
- 2 wheeled rubber tired milk cart
- CAR-TRAILER**
- 1941 Ford six 2-door, good condition — 2-cow stock trailer — New 12-foot beet and grain bed
- HAY AND GRAIN**
- 1300 bales of 1st and 3rd crop HAY. Mostly 1st crop
- About 300 bushels of 3-way MIXED GRAIN

Your Future is Safe...

with this skilled man

H. Robert Stradley

Through his painstaking service and sincere interest in the well-being of others, this Penn Mutual underwriter has made a magnificent record. During the past year, he put into effect more than a million dollars worth of careful insurance plans... for people like yourself, for families like yours and for far-sighted business leaders seeking protection for their firms and employees.

A careful insurance plan is truly a Declaration of Independence for you. It brings you security, and translates your hopes into dependable reality. But most people find life insurance puzzling. There are so many kinds of policies, each with its own special uses. It is difficult to be sure you are choosing the right ones for your own particular needs.

You will be sure, when you sign your Declaration of Independence with an experienced, skillful Penn Mutual underwriter like the one shown here. Call today—you will always be glad you did.

TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—The budgetary battle on Capitol Hill has now reached the stage where the difference between the Eisenhower and the Democrats' spending proposals can be measured. The spread is estimated unofficially at about five billion dollars.

The White House "thrill" program calls for an expenditure of 72 billion dollars, which will match the officially anticipated income. It will be balanced; if congress raises postage and gasoline charges; and if expected recovery in 1959 brings in about seven billion dollars in additional revenue. These are "two-birds-in-one" and few believe that they will materialize.

BUDGET SAID TO SKIMP ON IMPORTANT AREAS—This budget, despite its sponsors' claims, skimps on expansion in two important areas, according to house-senate opposition—domestic and military. And it is around this extremely grave question that the battle of the budget will be waged.

The Eisenhower figures, in the opinion of its critics, do not provide for an "expanding domestic plant" or the country's natural growth. In short, they think that it lacks foresight and imagination.

The Johnson Democrats, as well as a handful of liberal Republicans, insist on more domestic planning. They demand more schools and educational opportunities, clearing out slums and blighted areas, financing new homes at low interest, enlarging airports for the jet age, starting new public works, and increasing farmers' income.

Eisenhower favors many of these projects, but on a much smaller scale. He would commit the government to an outlay of only about 200 million dollars annually over a five-year period, whereas the Democrats' bill would amount to a billion annually.

They argue that the extra expenditure would be recaptured eventually through increased taxes on reclaimed areas, greater business volume and activity and other indirect receipts.

GOVERNORS, MAYORS FOR DEMOS' SCHEDULE—The Democrats' more expansive schedule is generally favored by the governors and mayors who have testified in person or in writing before congressional committees. GOP-ers note, however, that most of these officials belong to the opposition party.

The other area of even more controversial and acrimonious dispute involves military expenditures. For the sake of bookkeeping economy, the Democrats charge that the administration is gambling on national defense and security in the midst of the "cold war."

As members of the joint chiefs of staff have testified in private sessions, every arm of the service—army, navy, air force—has suffered a reduction in personnel and equipment. Scientists insist that Russia is far ahead of the United States in operational missiles with an intercontinental range, as well as in allied categories.

The three military experts—General Taylor, General Twining and Admiral Burke—showed considerable ingenuity in criticizing the administration's figures. While they did not quarrel directly with the pared estimates, they made clear that they had asked for about four billion dollars more in their original requests to the budget bureau.

U. S. LAGGING BEHIND RUSSIA—From their testimony, it became apparent that we are lagging seriously. The Russians have a ground army of four million, not counting satellite forces. With the proposed reduction, we will have 870,000—14 scattered divisions.

The Russians have 25,000 modern planes as against our 20,000, of which at least 5,000 are obsolete. They have 500 latest-model submarines to our 150. Their superiority in scientific weapons is so clear that nobody attempts to deny it.

The Democrats contend that we can close this gap but that we are making no attempt to catch up. According to their estimates, the military budget should be at least four billion dollars more than Eisenhower has asked. Thus, with another billion required for domestic rebuilding the White House and the opposition are five billion dollars apart.

OUR BULLETIN BOARD
A. Reader, Twin Falls—Thanks, but we're sitting this one out; as we've explained to several others on both sides of the fence. No one yet has come up with anything that approaches humor on the question and besides, we'd just as soon not stick the Pot Shots neck out. Thanks, anyway.

MATTER OF TASTE
Pot Shots: Why didn't you use my idea on traffic accidents? I think it might do quite a bit toward cutting down on them.

Yes, I saw your notice on the bulletin board, but I didn't understand it.

Idea Man (Twin Falls)

POT SHOTS
Pot Shots note: First you signed as "A. Reader" and now you come along as "Idea Man." Better watch it or you'll be confused yourself. Actually, your idea might do some good, and there is a certain goulash humor in it, but even you couldn't contend it's in good taste. Thanks, but it's a bit too bizarre for us.

THE NAPKIN RING
Napkin rings were often more elegant than the linen they held. They were silver, generally, and may be engraved with initials. A polishing or wax a year would keep them presentable. The napkin, meanwhile, was likely to become smeared with the stains and colors of many greases and sauces between one Sunday and the next.

In ship's wardrooms and saloons, napkin rings remain a fixture. Some are scrimshaw—intricate carvings tied from bone or ivory or shell. Others are turkeys tied from flax cord. And there are steel and brass ones turned out on the blackgang's lathe.

Napkin rings linger too in hunting and fishing lodges. These may be of plastic, factory-made. Or they may be whittled from wood—perhaps from the hard, cancer-prone wood of a birch tree.

But by and large the napkin ring, like the moustache cup, the finger bowl, and the bone dish, is something you remember from your grandmother's table. A bit of folded paper, which is to be balled up and tossed away after absorbing an egg, ham, and put it out of business.—Virginia-Pilot (Norfolk and Portsmouth)

SMOG-HIDDEN MISSILES
One thing looms large in the murk of testimony before the combined senate preparedness and space committees.

That is the fact that a smog-free view of our position in a missile-studded age is long overdue. Just how do we stand in the space race with Russia?

Chairman Lyndon B. Johnson, senate Democratic leader, says he'll ask the central intelligence agency to clear up conflicting reports of Soviet missile strength.

Such a clearing of the air would be most welcome.

POT SHOTS

WHO MEASURES WHERE?
Maybe some of you good-constituents have wondered about the matter of Magic Mountain snow. We've been mildly curious about it in the past, but until Monday never gave it more than passing thought.

But Monday was the payoff. First off, the soil conservation service reported 31 inches of snow at Magic Mountain. Later in the day, the fire-of-the-month snow survey from the forest service reported 40 inches of snow at Magic Mountain.

Now presumably this is the same Magic Mountain, but who is measuring the snow where? Could both reports be correct?

Just to confuse the issue a bit more, we happened to notice that the forest ranger in charge of the area was a member of the soil conservation service snow-measuring party!

"WASHINGTON CALLING" BY MARQUIS CHILDS

WASHINGTON—In the many disputes over labor legislation one thing should be clear even to the leaders of the big unions. The truly appalling abuses of labor power exposed over recent months have created a widespread demand for reform.

Those who are jockeying for position and power in the struggle now beginning in congress will ignore this at their peril. What may seem a temporary advantage to be gained by blocking moderate and limited reform can turn into a serious backfire if the end result is no legislation at all.

The fight will be waged from three — perhaps four — vantage points. Here in general is the alignment:

1. Sen. John F. Kennedy was first in the field with a broad reform bill to put an end to the notorious abuses disclosed in the investigation of James Hoffa and his Teamsters union.

But the Kennedy bill, co-sponsored by Sen. Sam Ervin, Jr., North Carolina, with wide Democratic support, also contains as a kind of sweetener minor amendments to the Taft-Hartley act that labor wants.

Without these amendments the AFL-CIO might oppose the measure and perhaps succeed in killing it.

2. The administration has put in its own measure which contains the reform proposals aimed at union corruption. It goes further in Taft-Hartley amendments, taking in new ground on secondary boycotts and certain forms of picketing strongly opposed by labor.

This is a triumph for Secretary of Labor James Mitchell who held off the conservatives in the administration in order to present a "moderate" but allegedly comprehensive bill.

3. Sen. John McClellan whose committee exposed the abuses is expected to come up with his own proposals going way beyond both Mitchell and Kennedy. In this same camp is Sen. Barry Goldwater, the foremost exponent of right-to-work and other union curbs.

Technically, because of his position on the senate labor committee Goldwater is sponsor of the administration bill and that has produced considerable embarrassment to all concerned.

In between are those who hope that a reform bill short of the Taft-Hartley amendments can be quickly passed. Moderate Republicans, such as Sen. Clifford Case, New Jersey,

are working toward this end. While he will not say so, it is possible that Kennedy would accept this compromise in order to get a measure on the statute books effective against corrupt and racketeering unions and their corrupt leaders.

The bite-the-dust boys, who seem to believe that by stalling moderate action long enough public demand will finally result in legislation not punishing but breaking the unions, are in still another category. They coincided neatly with the desires of the Hoffas.

Political ambition, it is hardly necessary to add, is rampant. Kennedy is one of the leading contenders for the Democratic nomination for President next year.

He has, however, the advantage of having worked last year for a reform bill in cooperation with former Sen. Irving Ives, a Republican, who in his career in the New York legislature and in the senate became one of the ablest, most knowledgeable specialists in labor law. Ives, now retired, has given his blessing to the new Kennedy bill.

Secretary Mitchell's ambition to be vice presidential candidate on a Republican ticket headed by Vice President Nixon in '60 has been widely advertised. After the senate passed the Kennedy-Ives bill 88 to 1 last year Mitchell blasted it and most of the Republicans in the house joined in defeating it. This drew a strong rebuke from Ives, aimed at those playing politics with essential labor reform.

Labor leaders are feeling their power since the election of last November. But when it is used, as George Meany, head of the AFL-CIO is said to have used it, to dictate the new members of the senate labor committee, then even those long friendly with the objectives of organized labor grow resentful.

A moderate reform bill will neither end all abuses nor stop the controversy. But it will be a step in the right direction.

Boyle Feels in-Between Age More Clumsy Than Teen-Age

By HAL BOYLE
NEW YORK, Feb. 3 (AP)—They say there is nothing more awkward than being a teen-ager.

Well, there is something more awkward. It's being in "the in-between age." I mean between 40 and 50.

A teen-ager has at least one consolation — he is growing up. But a man in the in-between age, if he is growing at all, is growing down.

It isn't life that begins at 40 — it's doubt.

It is also confusion. Your in-between-ager is just a crazy, mixed-up kid, trying to find an ego.

The period between 40 and 50 is just a vale of years when one is neither young nor elderly, and can't quite get used to considering oneself middle-aged. Here is a picture of the typical in-between-ager:

He is not altogether bald, but on the other hand, combing his hair isn't a major exercise with him.

If he does 10 deep knee bends before breakfast, he has the bends the rest of the day.

It takes him until noon to feel as good as he used to at dawn.

Every time he successfully eats a piece of corn on the cob it is a moral victory for his dentist.

He gets suspicious of doctors.

He becomes angry at stenographers because they have never learned to spell words he has not forgotten how to spell.

Promotion-wise, he's in a swamp — too old to be a junior executive, and too young to be a senior executive.

He tries to hide the fact that he no longer has the steam to stay up late remarking, "Nobody ever said anything memorable after midnight."

He starts listening to his wife. He now and then finds himself agreeing with her — that is, unless she is proposing going out for the evening.

It takes him three martinis at the office Christmas party to say the things to his boss he used to say after one.

He never sees the moon set any more, but he finds himself waking earlier and earlier, for no reason.

And lying in bed, he compares the sunrises of today with the sunrises of his boyhood. They are as beautiful, but colder, and the sun seems farther away. It is a yawn stranger.

LEGAL ADVERTISEMENTS

Blockade
CHICAGO, Feb. 3 (UPI)—Wisconsin truck driver's trouble wisely started once his overturned potato truck was righted from ditch.

Once righted, the truck lost its entire load onto the Illinois interstate tollway, blocking all but one of three southbound lanes.

REAL ESTATE OFFERED FOR SALE
BY THE UNITED STATES: The property located on the Hunt Project in Jerome County, Idaho, about 11 miles northwest of Eden on a dirt road, one mile from a hard-surfaced road. It consists of 10 Sections and 31 Townships. It is in Range 19, East Hole Meridian, 8 South, formerly owned and occupied by John E. Carter. The farm has irrigation water for 87.1 acres from American Falls Reservoir District No. 2, although additional 25-acre are now being irrigated. Additional development will be necessary to increase the cropland to 171 acres. The per acre, or \$418.08 per year for the 87.1 irrigable acres. The domestic water supply is a 44-foot drilled well. The dwelling is modern. The outbuildings consist of a machine shed and a barn, a combination of dairy barn and shed. The terms of the sale are (1) Cash, or (2) twenty equal payments at 5 per cent interest. Small bids for the purchase of this property will be accepted at the Farmers Home Administration, 505 South Ninth Street, Boise, Idaho. Bid forms may also be obtained at the Farmers Home Administration, 205 South Ninth Street, Boise, Idaho. Publish: Jan. 20, 30, Feb. 1, 8, 2, 1959

NOTICE TO BIDDERS
The State Purchasing Agent will receive sealed bids at his office, Room 224, State House, Boise, Idaho, until 11 a.m. Feb. 11, 1959, for the following:

Reg: M1, 2 91 for Testing Cans for the Highways at Boise, Idaho.

All bids will be publicly opened and read at the above time and place.

Forms stating conditions must be secured before bidding. These are available from the State Purchasing Agent.

The State reserves the right to reject any and all bids.

(From Page One)

Throughout the area in 1959, she said the organization's safety program has progressed beyond all anticipation.

Commissioner H. H. Burkhardt, who was assigned the city library as his project, outlined the progress of the library since the construction of the present building in 1940. He said the building now is in need of expansion and needs equipment. The three-million levy now assessed residents of Twin Falls for use by the library is not deemed sufficient to take care of the building as it should be maintained, he reported. He suggested the city attorney check to see if the city could not do more in assisting with some of the library's problems.

"Commissioner Chester Larsen reported on activities of the southern health unit. He said all concerned were pleased with the county's announcement that it would retain the state health unit."

"He said the cost of maintaining the public health unit has gone up from year to year, not because the unit has reached out to give more services, but because in the past the city has not been paying its full share for the services it has been receiving and because the state has reduced the amount of money it will furnish the unit."

Larsen said the health unit can give good service to the people of the city and county and he believes the services are "appreciated by the taxpayers."

Vernon Riddle, the commissioner assigned to civil defense as a project, said the city has adopted a basic plan which has been prepared in cooperation with Lieut. Col. James Keel, head of the state civil defense program. Riddle said the plan has been completed and copies have been distributed to those in immediate need of it. He reported the plan formulated by Colonel Keel is now being adopted throughout the country for cities the size of Twin Falls.

Commissioner W. A. Ostrander, in charge of trees and city beautification, reported that trees have been dormant during the winter and so has his committee. He asked for an extension of time before giving his report.

Commissioner John Wolfe, who was assigned recreation and parks to his project, reported that he believes the city of Twin Falls can be proud of its recreation program. He said the city has 10 parks in the system. The city's recreation program is varied and includes little league baseball for both boys and girls, music programs, swimming, golf, tennis, and other sports. He also mentioned the city's youth center, which has a wide variety of activities for young people, including basketball, skating, and other sports.

Two Washington men charged with robbing the Truck Lane market last Saturday night were bound over to district court Monday after preliminary hearings before Police Judge J. O. Humphrey.

The two men, Marty Kidd, Quilcene, Wash., and Robert Johnson, Bradenton, Wash., were arrested about 10:30 p.m. by city police after the two were observed entering a local hotel. The robbery was reported at 7:45 p.m.

Police Chief Howard Gillette said the men had theater ticket stubs in their pockets. It is believed that after the robbery they parked their 1948 Studebaker and went to a movie. Approximately \$258 was reported taken from the store. All the money was recovered, plus a 38 caliber revolver.

The two men are being held in Twin Falls county jail in lieu of \$2,500 bonds set by Judge Humphrey.

Gem Officials Get Report on Crash Details

BOISE, Feb. 3 (UP)—Gov. Robert E. Smylie and members of the Idaho legislature received an official report yesterday on an airplane crash in Texas which killed an Idaho air national guardman and two civilians.

Major Gen. John E. Walsh, state adjutant general, said the cause of the accident is being investigated by the federal aviation agency.

Walsh said 25 Idaho air guardsmen were aboard the plane, en route to attend air force basic training at Lackland air force base, Tex. The men were on federal active duty and the plane had been chartered by the air force, he said.

He said the airplane crashed from fuel starvation. All occupants were killed in advance of the crash and were severely strapped over their faces, he added.

The airman who died in the wreckage was identified as Robert C. Griffith, 10, son of Mr. and Mrs. Charles Griffith of Ola. Walsh said it was not known why Griffith did not escape with the other airman.

Walsh said Griffith's remains were expected to be sent by rail from Texas, leaving tomorrow.

Some Believe Faster Space Plan Possible

WASHINGTON, Feb. 3 (UPI)—Members of the House space committee charged today that the national space administration has taken a penny-pinching approach to the international space race.

High-ranking Democratic and Republican members said they felt certain the nation's space program could be speeded up despite space administration claims that it is moving ahead as rapidly as possible.

Members particularly expressed skepticism of statements by top space administration officials that there are no more projects they profitably could spend money on if they had it.

The four-day inquiry opened with testimony from Space Administration Director T. Keith Glennan and Deputy Director Hugh L. Dryden. They outlined space program goals over the next 10 to 15 years.

Committee Chairman Overton Brooks, D., La., told United Press International he has "not been happy with the progress of the nation's space program" and what he heard from Glennan and Dryden "bolstered his feeling."

Rep. B. F. Sisk, D., Calif., said "there is no question whatsoever" that the space program already is being held up by shortages of money, personnel or equipment.

Philadelphian, Feb. 3 (UPI)—Bob Stokes, Deland, Fla., opened his one-man war against highway patrols south of the Mason Dixon line yesterday. He posted a billboard-size scorecard on the back of his tractor-trailer which declared: "Safety don't pay down south."

The 32-year-old trucker has logged one and one-half million miles without an accident in runs along the Atlantic seaboard from the Florida fruit belt to the northern markets and in five trips to California.

He started his campaign because he has received 35 traffic fines, all in southern states.

Stokes, a World War II veteran, married and the father of two children, complained, "I don't know what they put the premium on — safety or what — but it's damned funny, it only happens to me in the South."

Discrimination? Promise Made By Castro for Reform Plans

ESTRADA PALMA, Cuba, Feb. 3 (UPI)—Fidel Castro last night pledged housing and agrarian reform programs for Cuban peasants starting at the rate of two million dollars a month.

The revolutionary leader told 5,000 sugar cane cutters and coffee field workers here in the Sierra Maestra mountains the funds initially would come from money saved by the disbanding of congress after the overthrow of Fulgenio Batista.

Castro spoke to the cheering crowd against a macabre background. Just before he arrived, residents dug up the bodies of 13 farmers they said had been slain by Batista henchmen and put them on exhibit for newsmen accompanying the revolutionary chief.

Castro told the farmers to keep open their trenches because they might have to use them again to consolidate the revolution. There was no elaboration.

Coming here to keep a promise he made before the overthrow of Batista, the rebel chief appealed for patience from the land-hungry peasants.

He explained it might be a month before the program of land redistribution goes into effect "because these things take time if they are going to be done right."

Pair Held on T.F. Robbery

Two Washington men charged with robbing the Truck Lane market last Saturday night were bound over to district court Monday after preliminary hearings before Police Judge J. O. Humphrey.

The two men, Marty Kidd, Quilcene, Wash., and Robert Johnson, Bradenton, Wash., were arrested about 10:30 p.m. by city police after the two were observed entering a local hotel. The robbery was reported at 7:45 p.m.

Police Chief Howard Gillette said the men had theater ticket stubs in their pockets. It is believed that after the robbery they parked their 1948 Studebaker and went to a movie. Approximately \$258 was reported taken from the store. All the money was recovered, plus a 38 caliber revolver.

The two men are being held in Twin Falls county jail in lieu of \$2,500 bonds set by Judge Humphrey.

Historical Group Will Meet Friday

JEROME, Feb. 3—The first 1959 meeting of the Jerome Historical society will be held at 8 p.m. Friday in the city hall.

Mr. and Mrs. Tom Ridinger will present colored slides of the Ridinger cattle drive. The Ridinger family has been participating in these cattle drives for three generations. Murray O'Rourke will talk on stock raising and the "Story of Western Brands."

The business meeting will be conducted by Ben Davis, president. The public is invited and young people are urged to attend.

BLIND PRISONERS PARDONED

MANILA, Feb. 3 (UPI)—President Carlos P. Garcia today pardoned six blind prisoners in connection with national observance of "aid to blind and other physically handicapped week."

Jaycees Told Of Plans for YMCA in T.F.

The Twin Falls Junior Chamber of Commerce Monday night heard speakers discuss the possibility of starting a YMCA in Twin Falls. Jack Knowles, president, was in charge of the program.

John Feldhusen introduced Ernest Marlow, who outlined progress of a move to establish a YMCA in Twin Falls.

"They are partially on the way to organizing a complete YMCA and hope in the near future to hire a trained secretary for Twin Falls. After this, the program will begin," Marlow said.

He said, "A building will not have to come now, but plans are to work towards that goal."

"One thing lacking is the spark to get it going. Manpower is ready, if a group would start this move."

"Some people in this town already have committed themselves financially to help, if the program gets started."

"Property has been looked at in Twin Falls and some landowners are willing to help make this project a great success. Some union men have stated they would be proud to donate time to help build a 'Y' building."

Marlow introduced J. V. Root, Boise, staff member of the YMCA for the Northwest, who came to Twin Falls to attend this meeting. Root said the Junior Chamber is the group he would like to see help start the program. There are many young teen-agers in the Twin Falls area who have requested supervised activities for their spare hours, he said.

In answer to a question, how the Jaycees could help get the drive started, Root answered, "First, we need a leader from a club to help start the activities."

Dr. E. M. Wright, Albert Benjula and Elden Jackson were appointed to attend the YMCA board meeting here Feb. 9.

Lesson To Probate Will

DENVER, Feb. 3 (UP)—A youth interrupted Joe Gallegos as he sat in a tavern.

He offered to sell Gallegos a jacket for \$50 and a glass of beer.

"I'll take it," said Gallegos. "You wait here."

Gallegos called police who arrested the youth, Paul Gallegos, 18, no relation to Joe Gallegos said the jacket was his.

It had been taken from his car in a nearby parking lot.

Petition Is Filed To Probate Will

A petition to probate the will of Mrs. Ivy Myrtle Dopson, who died Feb. 24, was filed Monday in Twin Falls probate court by her husband, Charles Dopson.

The estate is estimated not to exceed \$10,000 and consists of real and personal property. A will dated Nov. 9, 1957, was left in the possession of Stephan Stephenson and Hepp, a Twin Falls law firm.

Heirs include three sons, Ralph M. Glover, Las Vegas; Laron Strate, Santa Cruz, Calif.; and Roy Newton Dopson, Cranston, and five daughters, Juanita Gilmore, Boise; Naomi Ruth Dopson, Twin Falls; Pauline E. Alastra, Gooding; Louella M. Stapleton, Portland, and Alma M. Brown, Forest Grove, Ore.

Minor Damage Is Caused in Mishap

RUPERT, Feb. 3—A 1953 Plymouth driven by Mrs. Mamie Darrow, Rupert, collided with a 1951 Oldsmobile driven by Christian A. Dietz, Rupert, at Fourth and I streets Sunday afternoon, causing minor damage.

The Dietz car was traveling west on Fourth and was struck by the Darrow car going north on I street.

Damage was estimated at \$35 to the left rear fender and tire of the Oldsmobile. Damage to the grill of the Plymouth was estimated at \$10.

City Patrolman Ernest Williams investigated the accident. No citations were issued.

Man Sentenced

Armando Martinez, Arizona, was sentenced to 10 days in the county jail and fined \$15 and \$3 costs Monday when he appeared before Justice of the Peace Robert E. Pence on a charge of disturbing the peace.

He was arrested by members of the sheriff's office who reported he was disturbing the peace by being drunk at a house west of the filter plant.

Burley Hosts Spartans and Dietrich Invades Richfield In Top Hoop Games Tonight

The high flying Minico Spartans invade Burley and the Dietrich Blue Devils will travel to Richfield in the two top high school basketball games slated for Magic Valley tonight. In another top attraction, Murtaugh Red Devils will host the Huskies of Hansen. Seven games are slated for tonight in all corners of the valley. The Bobcats have the chance to prolong the seemingly inevitable in the Big Seven conference by knocking off the Spartans. Minico remains undefeated in conference play and needs only one win to clinch at least a tie for the crown while two victories will give them sole possession of the conference championship.

Kentucky Still Atop UPI Weekly Rankings

NEW YORK, Feb. 3 (UPI)—Kentucky, North Carolina and Kansas State remained 1-2-3 today in United Press International's major college basketball ratings but Cincinnati replaced North Carolina State in fourth place. St. Louis was the only newcomer in the top 10. St. Louis, one of two teams which whipped St. John's (N. Y.) last week, moved from 11th to ninth and appeared in the select group for the first time since the first weekly ratings of the season Dec. 9. St. John's, beaten also by Loyola (Ill.) Saturday night, slipped from eighth to 11th.

4 Teams Post Victories in City League

Four teams posted victories in the city sponsored adult recreation basketball league Monday night. Self Manufacturing company knocked off Jerome Merchants 50-40; Bart's blasted Rogers 40-30; Telephone company defeated past National Guard 45-44 and Valley Sporting goods edged the Utopians 36-34.

Box scores for basketball games including teams like BART'S 44, ROGERS 38, etc.

Only Galena Summit Has More Snow Now Than Depths of '58

HALEY, Feb. 3—Galena summit is the only snow course to have more snow than the Feb. 1 measurements a year ago, Robert Diehl, local snow surveyor for the soil conservation service, reported Monday.

On the Little Wood river snow courses the depth at Garfield ranger station was 119 inches, with the water content 195 inches and 160 per cent density.

At the Iron Mine course there is now 128 inches of snow, with 2 per cent density, compared to 33 inches last year with 73 water content and 21.6 per cent density.

At Scorpion peak current depth is 95 inches of snow with 9.6 inches water content and 18.3 per cent density.

At the Horse creek course near the foot of Galena summit there are 43 inches of snow with 9.6 inches water content and 22.4 per cent density.

At the Moose hall with Robert Erkins, president of the Snake River Trout company, serving as master of ceremonies, Vern Peterson spoke to the group on the four principles stressed by the Legion, which includes devoted service to community, state and nation; education of children; care of widows and children of deceased veterans, and rehabilitation of disabled veterans.

At the Moose hall with Robert Erkins, president of the Snake River Trout company, serving as master of ceremonies, Vern Peterson spoke to the group on the four principles stressed by the Legion, which includes devoted service to community, state and nation; education of children; care of widows and children of deceased veterans, and rehabilitation of disabled veterans.

Unit Reorganizes At Carey Church

CAREY, Feb. 3—During the sacrament and testimonial meeting of the Carey LDS ward Sunday morning the young men's MIA was reorganized.

The meeting was conducted under the direction of Verd Murdock. Congregational singing was led by Ronald Peck, who stated his MIA superintendency was sustained as The Orchard, as superintendent, and manual counselor, Lowell Meacham, active counselor, and Tony Albrechtsen, secretary. Keith Adams was sustained as Junior M men leader.

Mrs. Leon Peck was released as ward chorister, replaced by Ronald Peck, who states he is planning to begin a ward choir.

Confirmed were Barbara Baird, Jerald Dilworth and Anette Dilworth. The membership of Mr. and Mrs. Kenneth Hess was also accepted.

Infants Blessed

HEYBURN, Feb. 3—At the first ward services Sunday morning, the son of Mr. and Mrs. Clara Benson, Malad, was blessed and David Stenute was advanced from the Primary into the Priesthood and was ordained as deacon.

At the second ward services, the daughter of Mr. and Mrs. John Woodskow was blessed and Larry Stone was confirmed a member of the church.

Senator Sure Housing Plan To Be Passed

WASHINGTON, Feb. 3 (AP)—Sen. John Sparkman, D. Ala., said today he is confident his \$2,222,000,000 omnibus housing bill will move through the senate without reductions.

A measure of similar size was cut last year in an effort to speed senate passage.

The banking committee approved Sparkman's compromise measure yesterday after rejecting efforts of Republicans to reduce it and of liberal Democrats to increase funds for slum clearance.

Debate Starts Tomorrow

Floor debate of the bill begins tomorrow, Sen. Mike Mansfield, D. Mont., assistant majority leader, said night sessions would be held if necessary to get the measure through this week.

The bill, first major piece of legislation on the senate floor this year, furnishes an early test of sentiment on President Eisenhower's hold, the line, plea on his budget.

The Sparkman measure goes far beyond the \$1,650,000,000 in new money authorizations asked by the President.

Good Chance Seen for Bill

Nevertheless Sparkman said he had worked out his proposal in advance with Sen. Homer E. Capehart, R. Ind., the senate's GOP spokesman on housing legislation, and believed it had a good chance to win White House approval.

Capehart would not speculate on this but he told reporters this year's measure is far below the figures talked about in connection with government housing programs.

Bill Has Emergency Tag

The bill carries an emergency tag because some of these programs are running short of funds. The home building industry has been pushing for legislation, and Democrats believe this may help prevent a veto.

The committee made one important concession to the President, in voting to raise the interest rate on GI home loans from 4% to 5% percent.

The administration said money for these loans has dried up because private lenders will not accept the lower rate. The new rate would be the same as for FHA-insured loans.

PTA Life Membership Pin Presented

Mrs. Earl Haroldson, right, was presented a life membership award by the Twin Falls PTA council Monday night at the Harrison school during Founders day activities. Mrs. Herman Stammerjohn, last year's recipient of the award, presents the pin for the council. (Staff photo-engraving)

Mrs. Haroldson Is Presented Life Membership Pin in PTA

Mrs. Earl Haroldson, council president, was presented a life membership award by the Twin Falls PTA council during special Founders day activities Monday evening at the Harrison school auditorium.

Mrs. Herman Stammerjohn, past council president and last year's recipient of the award, presented the award on behalf of the council. Mrs. Stammerjohn gave a brief resume of the outstanding work done by Mrs. Haroldson for the PTA.

The Founders day program was under the direction of Mrs. Luther Thompson, chairman for the event. A string quartet, Donald Hoffman, Allen Brackett, Douglas Bishop and Jim Robinson, played two musical selections. They were accompanied by Warren Bates. Marilyn Harper sang two songs, accompanied by Susan Anderson.

Mrs. John E. Hayes spoke on "Progress through the years to build the PTA of today."

Refreshments were served by Mrs. Hayes and Mrs. Haroldson. Mrs. Howard Rohk, Mrs. David Barry and Mrs. Flora Kirkman were in charge of arrangements.

During the business meeting, Mrs. Marvin Custer was appointed publications chairman to fill the vacancy created by Mrs. James Hawley, who moved to Pocatello.

A smorgasbord will be held at Harrison school Feb. 19. Clara Kersting will speak on "The Art of Living" at the Morningdale PTA meeting Feb. 23.

Mrs. Thompson reported on the

Parking Fines

Overtime parking bonds of \$1 each were posted with city police Monday by Merrill Call, Mrs. David Shaver, Nita Woodruff, Wilson Abbott, Lee Radke, J. L. Clough, Lois Pelzer, Dean Hopkins, S. H. Strickling, Wilma Miller, Mrs. Garth Aslett, L. W. Chamberlin and Lloyd Hamilton (two). Posting a \$2 improper parking bond was Mrs. M. Romans.

Noted pianist-statesman Ignace Paderewski loved to play bridge. He had a bridge table installed in the official railroad car he used as premier of Poland.

Cure Is Found For Radiation Of Plutonium

WASHINGTON, Feb. 3 (AP)—Meet DTPA and BAETA—they may save your life.

They possess the ability to render poisonous radioactive plutonium chemically safe and to flush it out of the body.

Since plutonium, a man-made heavy metal, is a prime ingredient of nuclear weapons and a promising fuel for nuclear power plants, it is not impossible that you may accidentally swallow or breathe a bit of it some day.

They BH Is Enough

A tiny bit would be more than enough to make you unhappy or worse. Plutonium is a bone-seeker whose radiations can cause cancer. It also is a deadly chemical poison.

But, according to the atomic energy commission's semiannual re-

port, DTPA and BAETA appear to be just what the doctor ordered for people sickened by plutonium.

Both are complicated chemical compounds possessing "octopus-like molecular tentacles" capable of seizing upon metal atoms and lugging them out of the body through the normal processes of elimination.

Compounds Softer Water

They belong to a class of compounds called polyamino acids which are used among other things to soften water and removal of metal stains.

Tests with plutonium-dosed rats showed that both DTPA and BAETA are "highly effective even when treatment is delayed for several days."

They were developed by a research team headed by Dr. Jack Schubert

of the AEC's Argonne national laboratory, Lemont, Ill.

"It now appears," Dr. Schubert reported, "that repeated treatment

with DTPA or BAETA for an extended period can remove most of the plutonium deposited in the bodies of animals and man."

Pilot's Jump Over Alaska Made Safely

FAIRBANKS, Alaska, Feb. 3 (AP)—A young air force captain shot from a B-58 supersonic bomber in an ejection seat 14,000 feet over Alaska and came through it without a scratch.

The air force told about it yesterday and said it was the first time anyone in Alaska had been ejected from such a plane without injury.

Capt. Perry E. Amidon, 31, Villa Rica, Ga., went through the experience while flying as a member of three-man test crew in the B-58 Hustler 40 miles south of here.

The air force said the new bomber developed "abnormal gyrations" and the pilot, Maj. Kenneth E. Lewis, Denver, ordered the others to abandon ship.

Amidon hit his ejection button and went hurtling through the sub-zero air. But before Maj. James P. Zwyer, Toledo, O., the bombardier-navigator, could leave the plane it resumed normal flight and was brought in to a safe landing at Elson air force base near here.

A helicopter picked up Amidon less than an hour later after spotting his brilliant orange parachute on the snow. He is a project engineer for cold weather test work being performed on the 1,400-mile-an-hour bomber.

NEW for 1959! General Electric Refrigerator - Freezers

with SWING-OUT SHELVES

that practically HAND YOU THE FOOD!

The most exciting thing that's happened to refrigerators in years! Here are some of the reasons why you'll want to buy a new GE Refrigerator this year... now!

Everything swings out for your convenience!

- 3 shelves swing out to bring everything right out to you for "easy picking up". They simply hand you the food.
- Swing-out shelves adjust easily. Allows complete flexibility of storage.
- Swing-out shelves lift out for thorough cleaning of interior. Shelf can be taken to sink for washing.
- Big! Strong! Shelf holds 7 gallon milk bottles — over 80 pounds — more weight than you'll ever need to put on a shelf.
- Swing-out vegetable bins with a flick of the finger.
- Swing-out Butter Conditioner.
- Swing-out Egg Tray.

Many other wonderful features, too. On model BH-15S, for example: automatic defrost refrigerator; roll-out freezer; foot pedal door opening; magnetic safety door; meat pan; ice-ejector trays and ice storage container; and juice can dispenser. Come in and see our complete line of new 1959 GE Refrigerator-Freezers now. Let us show you what's new and fine in '59! Prices start as low as \$189.95!
