## Food Prices May Drop During '59 but Market Charges to Go Higher

WASHINGTON, Feb. 25 (UPI)—The agriculture department said today retail food prices are likely to average a little lower this year than in 1958 when they were at an all-time high. The department forecast a small reduction in prices because of prospective half of 1959, of fresh citrus fruits and vegetables. There appeared to be little cause for joy among grocery-buying housewives and producers, however, because the department forecast said "marketing charges for food are likely to increase this year." This means a smaller farm share of the consumer's food dollar, a bigger take for the middleman, and less savings for the housewife.

## Wendell Beats Goal On Red Cross Blood

WENDELL, Feb. 25—Residents of this community surpassed their 100-pint quota in the Red Cross blood drawing Tuesday by five pints and more blood could have been donated if there had been time, according to Mrs. Harold Hollinger, blood bank chairman of the Wendell area. There were 131 volunteers at the Red Cross bloodmobile with 26 rejects leaving 105 pints donated. Many replacements were made for Wendell residents who have already received Red Cross blood, the chairman said. Thirty-one replacement donations were made for Ronnie Evans, Gooding boy who has had heart surgery. Galen pins were awarded to Mrs. Glen Parson, S. H. Albertson and Arnold Runyon, all Wendell, and Mrs. Florence Stevens, Gooding.

## New Vehicles Are Approved By T.F. Board

Twin Falls city commissioners authorized the purchase Monday night of a tractor and two trucks and considered a request for the lease of land at Frontier field to be used as a golf driving range.

## South, White Collars Eyed By AFL-CIO

SAN JUAN, Puerto Rico, Feb. 25 (UPI)—The AFL-CIO announced today a new drive to organize six million industrial workers in the South and 14 million white collar workers throughout the United States.

## Engine Lost but Plane Lands OK

LONDON, Feb. 25 (UPI)—A Pan American World Airways jetliner dropped an engine on a training flight between Paris and London today but made a safe landing at London airport.

## Actress Seeking \$29,000 on Cattle

BOISE, Feb. 25 (UPI)—Actress Ann Southern filed suit yesterday, claiming her cattle weren't fed well enough by a southern Idaho ranch. She asks \$29,000 in her suit, filed in U.S. district court.

## SENATE ALMOST ILLEGAL

INDIANAPOLIS, Ind., Feb. 25 (UPI)—The Indiana senate came within a few votes yesterday of declaring itself illegal. A motion by State Sen. Marshall Kizer, Plymouth, Ind., contending the senate is not a constitutional body, because it has not been reappointed, failed by a 26 to 23 vote.

## Pupil Spankings Get Judge's OK

MEMPHIS, Tenn., Feb. 24 (AP)—Angry parents were rebuffed yesterday when they demanded assault warrants against a high school principal who paddled 14 students and has three more to go. Sessions court Judge Willard Dixon said whacking errant students was not probable cause for an assault charge—that the boys needed it and the principal was within his legal rights.

## Two Fined, One Goes To Jail in Speed Case

Two youths from Shoshone and Sun Valley were fined Tuesday by Shoshone Judge W. L. Austin for reckless driving and one was given a 5-day jail sentence. The charges resulted from the fatal accident last Thursday when Melvin Eugene Turner, 20, Sun Valley, was killed after the car which he was driving sideswiped a truck as Turner was attempting to pass a 1956 Chevrolet driven by James Knight, 19, Sun Valley. Knight was fined \$35 and costs, his license was suspended for 30 days and he was sentenced to five days in the Lincoln county jail when he appeared Tuesday in justice court on charges of reckless driving.

## Witness Silent About \$100,000 Pay Claims

WASHINGTON, Feb. 25 (AP)—An alleged racketeer refused today to tell the senate labor-management committee how he can maintain a fleet of six cars, a home in Florida and a Chicago apartment on the \$8,700 a year income the committee says he reported for tax purposes. The witness, Hyman Lerner, pleaded it might incriminate him to tell whether the committee is right in contending his income from violence-plagued Chicago coin-machine rackets was \$100,000 in 1957. Committee counsel Robert F. Kennedy accused Lerner of "just operating a well-organized racketeer in the Chicago area."

## Harem Ended By Wife No. 3

NEW YORK, Feb. 24 (AP)—All went smoothly for Michael Cannella, 35, a Brooklyn plumber, until two of his wives threw a wrench into his plans to pick up a third.

## BATHUB RING DENIED

BILSONG, England, Feb. 25 (UPI)—Truck Driver John Dussas, 33, came clean in court yesterday and admitted he stole \$280 bathtubs. He denied there was a bathtub ring. He was fined \$280.

## Relationship of Car Use and Youth Trouble Noted at Meet

The suggestion to call the attention of legislators to the relationship between the rise in juvenile delinquency and access to automobiles was made at the Citizens for Good Government meeting Tuesday noon. Law enforcement officials report that nearly all law violations by juveniles result directly from use and/or ownership of cars, with the average cost of the taxpayer's rehabilitation of these youths, it was pointed out.

## Moves Speeded

VIENNA, Austria, Feb. 25 (AP)—The Israeli airline today began a two-plane a day flight to speed emigration of Romanian Jews to Israel. About 500 Jews have been arriving from Romania each week since the communists raised the emigration bars in a sudden reversal of policy.

## ROMANIA LIFTS BARS

VIENNA, Feb. 25 (UPI)—Communist Romania announced today it has lifted its emigration bars for Jews.

## Democrats Charged With 'Raid'; Senate OK's Office Change

BOISE, Feb. 25 (UPI)—Senate Democrats were charged with "raiding the powers of the governor" today in supporting a bill transferring the bureau of public accounts from the governor to the state auditor. On a strict party line vote of 25 to 16, the bill was passed by the senate and now goes to the house. Minority Leader A. W. Nagle, R., Bonneville, accused the Democrats of attempting to re-run the election. Democrats won all but the office of the governor in the last general election. However, Democrats retorted that the governor "is raiding the auditor's office."

## Batista May Have to Move

Former Cuban president Fulgencio Batista, now an exile and a refugee, pauses in the garden of his hotel in Ciudad Trujillo, Dominican Republic, for the first news-photo to be made of him since his flight from Havana. There have been indications that Batista is not too warmly welcomed in the Dominican Republic, and he may have to find another country of asylum. (NEA telephoto)

## NEWS BULLETINS

CAPE CANAVERAL, Fla., Feb. 25 (UPI)—A bullet-shaped Titan, the nation's newest and most powerful intercontinental ballistic missile, shot aloft on twin jets of flame today in its second flight test.

WASHINGTON, Feb. 25 (UPI)—President Eisenhower today warned emphatically against taking profits to such a dangerous point that the nation would have to find a new way of financing the federal government. The President told his news conference that too many people were prone to deny profits and their place in the American economic system when actually the operation of the government was based squarely on successful profit-making private enterprise.

SEATTLE, Feb. 25 (UPI)—Alaska Gov. William A. Egan today left Virginia Mason hospital where only a month ago he was diagnosed as having a 50 percent chance for survival.

MOSCOW, Feb. 25 (AP)—Prime Minister Harold Macmillan and Soviet Premier Nikita Khrushchev had another long private talk today, this time with Khrushchev's latest public attack on the West in a wet blanket.

WASHINGTON, Feb. 25 (AP)—Aviation Daily says launching of a Discoverer satellite from Vandenberg air force base, Calif., is planned for today. The trade publication reported that the "first" captive flight of the X15 rocket research ship is scheduled tomorrow and an army lunar probe from Cape Canaveral, Fla., Saturday.

## Relationship of Car Use and Youth Trouble Noted at Meet

The progress made by Connecticut in solving its traffic problems was cited, including raising driver age limits, more rigid enforcement and punishment of violations and an increased number of highway patrolmen.

It was suggested that Idaho's highway patrolmen could be more effective in unmarked cars, and the group approved.

In analyzing the defeat of the recent bill to raise the driver age, it was stated that no individuals or groups had sufficiently championed the bill. It was pointed out its weakness lay in compromise features. Appropriation measures before the legislature were reviewed. Carl Irwin, legislative chairman for the number of committees, explained a measure which would permit apportionment of Idaho Power company taxes among all counties of the state, rather than only the counties in which plants are located.

John Wolfe explained action and discussion at a meeting Friday with the county commissioners on the tax revaluation program for the county.

### Submarine of Light Metal Is Slated in U. S.

RICHMOND, Va., Feb. 25 (AP)—The design of a machine possibly as significant in exploration as a missile to the moon was unveiled yesterday.

This one goes the other way. It's an aluminum submarine. If successful, Reynolds Metals company said it will submerge three miles—many times the depth of a conventional sub—and will explore 90 per cent of the vast ocean depths of the world.

J. Louis Reynolds, executive vice president who became interested in subs 17 years ago, pictured the test model—now in the second of five stages—as the forerunner of "an entirely new generation of depth-probing vessels with almost unlimited possibilities."

It could lead to a new concept of underwater warfare in reconnaissance, attack and entry duty for a national warning defense system.

Perhaps more significantly, Reynolds pointed to its capability, "a device for locating and recovering valuable minerals, oil, chemical and even food sources that lie on the ocean floor."

The sub is named the Aluminaut. It will be about 48 feet long with a 30-foot cylindrical pressure hull made of 6-inch aluminum plate. Its 7-foot inside diameter will accommodate a pilot and two scientific observers, along with more than 3,400 pounds of scientific equipment.

It will range nearly 100 miles along the ocean floor for 36 hours—with an emergency allowance of another 36 hours.

### Far East Trip Noted at Meet

Although Tokyo, Japan, was 80 per cent destroyed during the war, there are few signs now, Twin Falls Lions club members were told Wednesday noon by H. G. Lauterbach.

Colored slides he had taken on a recent visit to Japan, Hong Kong and Philippine islands were shown by Lauterbach for the club program. Some of his pictures showed an area of Hong Kong with over 700,000 refugees from Red China with the attendant poverty and problems.

Guest at the meeting was Ray Brandt, Boise Bench Lions club. New members introduced were Alfred Benkula and Mervin Randall.

Members were invited by Henry Willis to attend the Junior Chamber of Commerce distinguished awards banquet Wednesday night at the Turf club.

Robert Olson requested a meeting of the cancer toll road committee following the meeting.

President William Hemingway asked members to reserve May 29, 30 and June 1 for the district Lions convention in Sun Valley. He also announced that Ray Riley would edit the club bulletin.

### Estimates for Land's Value Given in Suit

(From Page One) directors. Koutnik offered explanations of some of the technical terms used in appraisal work.

Koutnik said among other factors, an appraiser considers the income property is earning. He estimated the income in rent of the disputed property to Mr. and Mrs. W. W. Lowery, owners from A. L. Gurley, Jr. and Jay Snyder, Lessee, at \$2,500 yearly, or approximately \$200 a month.

Another witness, James Martin, local real estate agent, estimated the value of the property at \$20,000. Robert S. Campbell, Jr., also representing the highway directors, was unable to draw from Martin a specific reason why he valued the property at \$20,000.

Martin's testimony indicated that, since the monthly rent was approximately \$200, and assuming that a 10 per cent rental return is a fair return on an actual value, he arrived at his estimate by multiplying \$200 by 10.

Testifying Tuesday afternoon were Lowery and Ralph B. Wright. One witness for the state, Frank Leonard, was permitted to testify out of order.

At issue in the suit is the amount of compensation offered by the directors. The owners contend the amount offered is not sufficient for the property.

Representing the Lowerys are John Daly and Bert Larsen, with Robert N. W. Balleisen appearing for Gurley and Snyder.

### Drivers Fined

**WASHINGTON**—Secretary John Foster Dulles' edging at this critical hour of history may result in a far-reaching reorganization of the personnel system and the machinery of the state department and the American foreign service generally. It emphasizes the need for career men rather than amateurs at our major diplomatic outposts.

The confusion resulting from his departure, whether temporary or permanent, demonstrates also that one-man control of our foreign affairs is not a sound or feasible practice. It may require immediate legislation of a kind which Sen. J. William Fulbright, new chairman of the senate foreign relations committee has frequently discussed.

The caliber of men serving the United States abroad has improved considerably in recent years. Presidents have not dared to entrust these assignments to second-raters during the "cold war" with Russia. It is estimated that 80 per cent of the top jobs have been given to dedicated and trained men, and only 20 per cent to the old-fashioned type.

**DILETTANTES TOO OFTEN WIN KEY POSTS**—But it so happens that for various reasons the key posts have been handed out too often to politicians, bankers, industrialists, military officers, publishers and "friends" with no general or particular qualifications. Although able in their specific fields, they were "babes in the woods" when they dealt with the professionals of friendly or hostile countries.

They have been sent to such important and prized places as London, Paris, Bonn, Rome, New Delhi, Tokyo, Buenos Aires, Rio de Janeiro and other attractive capitals. Fortunately, during and since World War II, specialists have been assigned to Moscow.

No president or secretary of state would have presumed to locate a nonprofessional at this citadel of a wily enemy.

**HEAVY COST OF MAINTAINING EMBASSIES**—To be fair, one reason why nonprofessionals have been appointed to some historic and interesting cities is the heavy cost of maintaining these embassies. Only independently wealthy men and women—Clair Boothe Luce and Perle Mesta, an Aldrich and a Dillon, to mention a few—could afford to finance them.

The remedy for this situation, of course, lies with congress, which has been too stingy in providing larger salaries and entertainment allowances for these positions. Many smaller countries, including some living on Uncle Sam's bounty, reward their ambassadors more generously.

The failure to start these outposts with the best possible men explains why Secretary Dulles has had to travel more than 500,000 miles at his age. It accounts for the fact that he feels he must attend every time-consuming and health-trying conference abroad. He cannot trust his subordinates to match wits with other nations' pros.

**REASON FOR DULLES' "LONE WOLF" POLICY**—More importantly, it is responsible for the peculiar and difficult crisis confronting President Eisenhower today. It is because of the lack of topnotch technicians on our most strategic diplomatic front line that Dulles has had to conduct a "lone wolf" policy.

For this reason, he is the only man in the state department with the necessary background, the personal contacts and an analytical understanding of foreign statements, including the Russians. The knowledge he has acquired cannot be obtained from a reading of commiques or summarizations. Nor can he pass it on to his aides overnight or over months.

**U.S. NEEDS EXPERIENCED ENVOYS**—Thus, the lesson of Dulles' illness is that the United States cannot afford to permit second-rate men to man our most important diplomatic defenses any more than it could send raw soldiers into battle. They should be so equipped that the secretary of state can rely on them, concentrate on the broad world panorama and problems, and serve as adviser to the congress and the President.

Republican National Chairman Meade A. Corn's insistence that he be consulted on these appointments likewise makes the problem more pertinent and pressing. The undermanned ship of state warns that the politicians must be required to regard the diplomatic field as sacred and inviolate ground.

Ever since then, he has used the carbon paper in place of the original. As a matter of fact, he has one piece of paper that serves over and over as the "original" copy. **HOW THINGS APPEAR FROM PEGLER'S ANGLE**

The Democratic party held a joint session of congress on Lincoln's birthday anniversary in lavish tribute to Carl Sandburg, a rich poet and creator of a prosperous phenomenon of the book trade and politics called the Lincoln industry.

This orgy was the greatest publicity coup in the entire history of a nation which has joyously played sucker for showmen and press agents from P. T. Barnum down to Westbrook Pegler. Tex McCary, who latched onto Eisenhower and went spinning, perhaps forever, in outer space when Ike's coattails tore off.

The New York Times, certainly a worldly institution, was moved to emotional gulps for Sandburg, with Lincoln as the stooge, and the shiny Svensk from Galesburg vastly out-scored Mark Twain at his gauntlet in Victorian London. Although the joint session was nominally bipartisan, most Republicans of both chambers were out on the road revering their founding father to beat all hell, wherever a quorum could be gathered.

In their absence, the Democrats had a virtual monopoly with only six Republican senators on hand and a like proportion of congressmen. A reliable journal reported that Henry Wallace sat alone with an empty seat on either side. No Democrat was radical enough to sit to his left and proximity even on bubblehead's right would have been a position closer to Browder than public opinion might approve at this stage of the cold war.

The Times, a Democratic institution, seemed to fall into the widespread fallacy that Lincoln owed all to the histrionics of a posturing old showman, also a Democrat, from the grubby alleys around the old Daily News in Chicago. It gravely reported that his voice "faded away like a dying wind," a hot lick to endow him with Lincolnian godship.

And, in a flagrant commercial, it said that Adlai Stevenson had said of Sandburg that he "wrote in cadences which seemed derivative." The Times blew a fuse at that point for the explanation of this geechee failed to come through. And its own derivative cadence went to default when it said, as pure reading matter, that Sandburg was "now the common sense of America."

Sandburg is, in fact, in the common sense of practical men, a tolling sexton who has exhumed millions of old bones, ivory teeth and arrowheads of superstition and fact and built them into an insufferable effigy of a man who told dirty stories to make his points, scratched himself in public and waved his fork with meat on it, but all in honest, uncoined innocence, and would have recoiled in horror at a commercial nomination for God almighty.

Sandburg is, in further fact, a

**Chinese Day Ends With Class To Hear News, Movie, Errors**

By DR. SRIPATI CHANDRASEKHAR Copyright, 1959 By The Associated Press

Hard work is the order of the day in the Chili Yin people's commune which I visited during my travels in red China. The evening brings a dash of recreation—and large doses of communist training.

After the day's toil in the fields and factories of this pioneer commune in Honan province, all attend regular classes. There they listen to the radio, which pours out latest editorial from the People's Daily, and the latest production figures from agriculture and industry, the latest government measures to liquidate American "imperialism" and the "Chiang Kai-shek clique," the Peiping opera, and figures on how China has surpassed Britain in the production of various industrial goods.

Then there is a movie or a play or an acrobatic show. And last is the party meeting, which every worker attends. Here the matchless art of self-criticism is practiced.

People rise up and confess their drawbacks and failings, criticize their colleagues and swear to increase production if only to "regain" Formosa, the island bastion of the nationalist Chinese.

This commune which I have described is popularly called "The Commune of 16 Quarters." Every word according to the age group and sex of the individual, is given 16 guarantees. They are:

1. Clothing which is still a problem because of the cold climate.
2. Heating is poor.
3. Food.
4. Transportation from residence to place of work.
5. Maternity benefits. Expectant mothers are given 45 days' leave and a quantity of red sugar, which is a must for expectant mothers in China.
6. Sickness leave and free medical aid.
7. Free old-age care.
8. Free funeral and burial.
9. Free education.
10. A small marriage grant and a free reception for the couple.
11. Twelve free haircuts a year.
12. Twenty free bath tickets a year (hot water baths).
13. Free bringing up of children.
14. Free recreation.
15. Free tailoring.
16. Free electricity.

Communist party Chairman Mao Tse-tung had hoped that the whole nation would become one big commune in a few years, but there seemed to be some doubt and resistance among the leaders themselves. Time alone can tell what lies ahead for China and the millions confined in her communes.

However, agricultural production is rising, though no one can swallow without a grain of salt the astronomical figures reeled out by officials. The methods adopted to

**GREAT FICTION MILL**

One of the strong threads running through Russian propaganda is that the United States and its Western friends are responsible for both starting and sustaining the Cold war. This is the purest fiction and we have got to keep pointing it out to the world.

In their phony response to American evidence that they had shot down an unarmed U.S. plane near the Soviet line, the Russians said, among other things: "What will stick most in the public mind over this latest crude bit of state department nonsense is the lengths to which it is prepared to go to poison East-West relations."

Coming from the Soviet union, that is downright funny.

The day never goes by when the Soviet propaganda mills are not hard at work poisoning East-West relations, at the very same time that other, false voices are prating of peace and good intentions.

Accuse the Russian slanderer and murderer of his crimes and he dares to retort that your accusations are slander.

There is just as much "reverse twist" irony in other fake Soviet posturings on the Cold war.

The Kremlin complains we have ringed Russian territory with air bases. In the light of Russia's record of aggression, why should we not have done so? It's like a thief complaining that the factory he tried unsuccessfully to rob last week now has a protective fence around it.

The Communists began the Cold war. In the path of their early offensives they strewed broken treaties and promises, state-mated international peace conferences, and helpless nations at their borders.

Our entry into this combat was reluctant and slow. Only the force and size of the Russian threat spurred us to action with NATO and other safeguards.

Never since those unhappy beginnings have the Russians taken a single measurable, solid step toward ending the Cold war. Yet they have the gall to say it is we who foster and preserve it.

In reality their deceptive talk of ending the conflict is not designed to end it but to win it by enticement to yield.

The Russians started it. Our freedom, our very lives, depend on their not winning it but instead either losing it or getting no better than a draw. This has to be—and is—the dedicated objective of American policy.

**FOREIGN-BUILT TURBINES**

Many other considerations, in addition to national defense factors, lie behind rejection of the British power turbine bid.

With the country emerging from the recession more haltingly than had been expected, these economic reasons prevailed over the demands of "liberals" that the hands-across-the-sea and reciprocal trade policy be applied to this transaction.

The American workers buy goods and services at home, whereas foreign labor does not. The Philadelphia and suppliers' firms will pay taxes on their wages, as will the companies themselves.

Thus, the pebble thrown into the financial stream by the construction of the two turbines in Pennsylvania will have more far-reaching and helping economic repercussions than the "liberal" critics, including some congressmen and newspapers, appreciate.

Finally, although federal officials do not emphasize this factor, in view of troubled world conditions, including our differences with Britain during the Suez canal fiasco, it is not considered sound policy to become too independent on foreign industry for such important national defense equipment as power turbines, transformers and similar material.

The high percentage of this stuff bought overseas in 1955-80 per cent—amazed many house members. The other countries where we have been buying are Austria, Italy and Switzerland. All are vulnerable in event of war.

**22 States Receive Mineral Receipts**

WASHINGTON, Feb. 25 (AP)—Twenty-two states this week are receiving \$14,988,944 as their share of the \$38,543,191 the federal government realized from federal mineral leasing activities in the states during the last six months of 1958.

A similar distribution a year ago from last-half 1957 receipts was \$16,256,489.

Wyoming's share tops the list with \$5,587,340.

New Mexico's share is \$2,949,783, followed by Colorado with \$1,585,726, California, \$1,567,352, and Utah \$1,193,330.

The others include Idaho, \$79,584; Montana, \$81,476; Nevada, \$86,540; Oregon, \$7,500, and Washington \$463.

U. S. agricultural exports for the 12 months ending in mid-1959 are estimated to be about \$3 billion dollars.

**Huge North Idaho Road Bids Similar**

BOISE, Feb. 25 (AP)—Multimillion dollar bids only a few dollars apart were submitted today for construction of a north Idaho section of the interstate highway.

The state highway department said the apparent low bid of \$3,063,367 was entered by Chert Bros., Inc. and Sandkay Contractors, Inc., Ephrata, Wash.

Only a few dollars higher was the \$3,095,511 bid of S. S. Mullen, Inc., Seattle.

Nine other bids were received.

Del Klaus, public information officer for the highway department, said the contract covering the project will be the largest ever approved by the department.

**AT LAST—PROGRESS**

A lot of Americans are heartened to hear from Postmaster General Arthur Summerfield that we may soon be transmitting mail by rocket.

This means of course, that immortal phrases like "having fine time" will go hurtling at record speed from joyous vacationers to languishing-home towners.

At least, that must be our hope. There has been a steady advance from the 1930's on in the speed of commercial aircraft bearing airmail. We went from the old Ford trimotors to the twin-engined jobs to four-engined ships, and now it's jet.

But you can tap many a regular user of the airmail and you'll find him disappointed at the results of all this.

We know one fellow who often sent an airmail special delivery letter from Tucson, Ariz., to Chicago back in the mid-1930's. It mailed by early afternoon—it always reached its goal by 8 a. m. next day.

Here we are, two and a half decades later, with great air advantages. Yet you can pick a number of points separated by less than a third the distance from Tucson to Chicago and find that dependable overnight airmail special delivery is nonexistent.

Yes, the rockets will be welcome in many quarters.

**TRAFFIC AND POLITICS**

The Idaho legislature to date has failed to discharge one of its most sober responsibilities—traffic safety. In the face of 270 highway deaths on Idaho highways last year, an all time record, the legislature has been more than just dilatory with Governor Smylie's sweeping program for traffic reform. What proposals on traffic safety has considered, the legislature has either rejected or butchered.

It is true that the governor's recommendations are thoroughgoing and would naturally take time to digest. But it appears now that the program will only see the light of day in either a meaningless watered-down form, or at least in a halfway patchwork. If the lawmakers do not come seriously to grips with some realistic changes in traffic safety, the pall of irresponsibility on this vital program will fall heavily on this session.

The lawmakers have already beaten back a proposal to raise the licensing age to 16 and failed to transfer the licensing procedure from county to the state department of law enforcement. There has been no provision for driver training. In the wake of this retreat, is a vacuum in which the young driver is expected to somehow meet all specification of mature driving on our highways. We think 10 years is a proper age to begin licensing for driving. But, more than this, if 14-year-old drivers are going to continue to get behind the wheel some provision must be made to assure that the 14-year-old knows all the ground rules of safe driving. Although a school here and there provides driver training, there is serious question on the part of educators, and rightly so, whether this is a proper province of education. If driver training is not to be given in the schools, then, the least that can be done is a uniform, complete licensing examination. Some day, however, Idaho will have to move to complement this with some form of driver training beyond mere licensing tests.

As it stands now, the degree of licensing examinations in the states vary from a haphazard written test to both a written and an eye test and an actual driver test. In most counties, there is little in the test to give the teen-agers the impression that this is a most awesome responsibility he or she is assuming. There is possibility that the state patrol, if it was able to expand the licensing procedure, would have greatly improved this important introduction to driving.

Proposals to add to the state patrol, to approve a point system for rating drivers, to toughen fines, to suspend licenses for exceeding the speed limits, and to reform the court system, have made either none or very little headway.

The proposal to revamp the court system is most pressing. This proposal includes such deserving recommendations as putting justices of the peace on a salary instead of a fee basis—a requisite for uniform and effective treatment of traffic offenders. This court reform proposal has many other features which also would make traffic justice more direct. The Idaho State Bar association has given the matter penetrating study. To date, the lawmakers have not.

It is to be hoped that such a compelling need in Idaho will not be ground under in the political trample—Idaho Falls Post-Register.

**RICE AND POTATOES**

Sen. Margaret Chaso Smith of potato growing Maine has joined the lawmakers of potato-growing Idaho in disproving the claim of a rice grower that his rice provides fewer calories than a baked potato. We suspect the rice man now wishes he had never launched the controversy through his advertising of rice versus potato. The potato people are marshalling evidence in their favor.

Competition between staple foods is not new thing. The poultry industry tempts the beef and pork competitors with the egg people. Cereal makers compete with the egg people for breakfast business, and so on. All this is in the public interest. Competition adds to the variety and quality of the American diet.

### Edwin Lloyd Named to Job By T.F. Firm

Edwin S. Lloyd, Twin Falls, has been appointed controller of the Idaho Savings and Loan association, announced Wednesday by the board of directors. Lloyd is a native of Twin Falls, graduating from Twin Falls high school, the University of Idaho and Stanford university. He was employed by the state auditor and during the war served with the army air corps in the Pacific theater. After the war Lloyd was a partner with his father, T. J. Lloyd, in a wholesale candy and tobacco business serving Magic Valley. For the past three years he has been employed by a local firm of certified public accountants. His community activities include membership in the Presbyterian church, Twin Falls Chamber of Commerce, Exchange club, and the chairmanship of Boy Scout troop 63 committee. He and his wife and three sons reside at 842 Mountain view drive. Robert Logan and Mrs. Wilma Sawyer continue in their present positions in the Twin Falls headquarters of the Idaho Savings and Loan association, Lind said.

### Open House Set This Week-End for New Moose Hall

Open house at the new \$30,000 Twin Falls Moose hall will be held Saturday and Sunday. Herman Carrel, pointing, lodge governor, and L. V. Hoffman, building chairman, look over the new building as final construction touches are completed. Much of the work required at the building was done by lodge members. Building contractor was the Boise-Payette Lumber company. Formal dedication ceremonies will be held in April. Lodge members hope the building will be used by teen-age, Boy Scout and other organizations. (Staff photo-engraving)

### Class Prayer Protested in East School

MINNEOLA, N. Y., Feb. 25 (AP)—Five residents, backed by the New York Civil Liberties union, sought yesterday to prohibit a village school board from authorizing use of a short prayer to start each day's classes. The action was brought in state supreme court by the five Nassau county residents, all of whom are of the Jewish faith. They contend the prayer violates constitutional guarantees for the separation of church and state. Justice Bernard S. Meyer reserved decision on the request for the injunction against use of the prayer. He also reserved decision on the school board's request to dismiss the injunction request.

### Former Resident Claimed by Death

ALMO, Feb. 25—Word has been received of the death of Mrs. Edward E. Sprague, 91, former resident of the Almo and Hazelton areas, Feb. 18 at Niagara Falls, N. Y. She was born July 25, 1867, at Fern Water, Mich., and lived on a farm near Hazelton. Later she lived at Almo where Mr. Sprague was a rural mail carrier from Almo to Malla. They returned to Niagara Falls in 1947 where Mr. Sprague died soon afterward. Survivors include five daughters, Mrs. Artie L. Bronson, Murray, Utah; Mrs. Blythe N. Jaynes, Glendale, Calif.; Mrs. Ruth Hinds and Mrs. Z. D. Peck, both Titusville, Fla.; Mrs. G. L. Misener, Niagara Falls, N. ### Moose to Conduct Open House At New Home Over Week-End

Members of the Twin Falls Moose lodge will hold open house Saturday and Sunday at their new \$30,000 building on Falls avenue west just west of its intersection with Blue Lakes boulevard north. In addition to providing a meeting place for members of the lodge, the building will be available for use by Boy Scouts, other youth organizations and civic groups. "The building will be for the use of the community as well as the lodge," explains Herman Carrel, lodge governor. Beginning March 13, a dance for teen-agers will be held every Friday evening with live music provided. Construction of the building began in August, although Moose officials point out that the new hall has been in the planning stages for several years. Lodge members have been meeting on Second avenue south above the Labor temple. The building contractor was the Boise-Payette Lumber company. A large share of the building was done by lodge members. The open house activities will begin at 10 a.m. Saturday. Doughnuts and coffee will be available. From 9 p.m. Saturday to 1 a.m.; Sunday a public dance will be held with music by Reina DeVries' orchestra. During the day a film will be shown depicting the national Moose foster children home at Mooseheart, Ill. On Sunday open house will begin at 12 noon. Approximately 30 new lodge members will be initiated at 2 p.m. Granite is one of the hardest rocks found on Earth. A special cast iron containing nickel is necessary to cut granite.

# Driver Jailed Over Case in Traffic Death

(From Page One)

earlier the night of Feb. 19. Later drivers were switched and Knight was driving the 1955 Chevrolet which he owns outside the city limits west of Shoshone on highway 26 where the fatality occurred.

Howard E. Adkins, prosecuting attorney, signed a complaint against Knight who first appeared in city police court. However, the Knight youth pleaded innocent to the charges within the city limits but voluntarily stated he was racing with the Turner car outside the city limits at speeds of 65 to 70 miles per hour.

Bill Anderson, Shoshone police chief, said the two cars were not racing at the time of the accident and stated investigating officers felt the Knight car was in no way responsible for the accident.

Knight's car was approximately 40 feet ahead when Turner decided to pass over the white line, and was apparently going so fast he was unable to pull in behind the Knight car after his first attempt to pass, the police chief reported.

Arthur M. Williams, 52, 141 Washington street, was sentenced to 10 days in jail and fined \$100 and costs Wednesday morning when he appeared before Twin Falls Police Judge J. O. Pumphrey on a charge of drunken driving.

Williams was arrested by city police Tuesday after his 1948 Pontiac collided in the 100 block of Washington street south with a 1953 Pontiac driven by Mack Fleetwood, 46, Twin Falls. Damage was minor to the Fleetwood vehicle, with \$100 damages estimated to Williams' car.

A drunken driving charge pending against Lewis L. Gardner, 24, 340 Third avenue west, was transferred from Twin Falls justice court Wednesday morning to probate court on a motion by Gardner's attorney, Lloyd J. Webb.

Gardner was arrested by city police Saturday night after his car went out of control and turned over on the filter plant curve south of Twin Falls. He was charged originally to appear Wednesday before Justice of the Peace George E. Scott.

Six speakers were cited by Twin Falls city police Wednesday morning during a radar check on Blue Lakes boulevard. Mervyn L. Evans, 46, Buhl, appeared in Twin Falls police court soon after being cited during the check for driving 32 miles an hour in the 25-mile zone and was fined \$7 and costs.

Others cited, with their excessive speeds listed, are Lloyd L. DeWitt, 34 miles an hour; Harley M. Mathers, 33; Clarence Thompson, 32; K. Beck, 34, and Jack F. Cox, 36. Operating the check were Traffic Sergeant Frank Barnett and Patrolman Bob Eastman.

Jim R. Vickers, 16, 510 Heyburn avenue west, was fined \$25 and \$3 costs Tuesday in Twin Falls police court for failure to yield the right-of-way. City police said the youth entered into a direct lane of traffic from a parking space and failed to yield to another vehicle.

Another 18-year-old, Jay C. Martindale, route 2, Kimberly, also was fined \$20 and \$3 costs by City Judge J. O. Pumphrey for failure to yield the right-of-way. He was cited by city police at the Shoshone street and Fourth avenue north intersection where police report his failure to yield to another car created a hazard.

Seven persons were cited for speeding by state policemen on a 60 mile-per-hour zone Monday in a radar check one and one-fourth miles south of Malta on highway 30 south.

Jay Bryce Wand, Salt Lake City, was fined \$12 and costs for going 72 miles per hour in a 60 mile zone. Others fined and their speeds are Lawrence P. Heer, Silverton, Ore., \$14 and costs; W. Lawrence P. Slaughter, Sacramento, Calif., \$13 and costs; Ray V. Rasmussen, Sublett, \$11 and costs; W. L. Williams, Roundles, Sperry, Clearfield, Utah, \$30 and costs; O. Oswald, O. Halonen, Salt Lake City, \$10 and costs; 70, and Keith L. Wright, Salt Lake City, \$11 and costs.

John Mendola, 75, 1950 Filer avenue east, was fined \$20 and \$3 costs Tuesday in Twin Falls justice court for failure to yield the right of way at an intersection. He was cited by State Patrolman D. L. Cain at the intersection of Locust street and Addison avenue after he pulled down on Locust street in front of another car which was traveling on Addison avenue. No accident was involved.

Clarence W. Price, Kilgore, Tex., was fined \$20 and costs in justice court for speeding 60 miles an hour in a truck in a 30-mile zone on highway 30 east of Twin Falls. State Patrolman M. J. Bays, Jr., cited the man for violating the "frost law" which is now in effect on several highways in the area. The highways have been posted by the state highway department and limits the speed and load of trucks. Both men appeared before Justice of the Peace George E. Scott.

Carolyn J. Willie, 16, 1643 Poplar avenue, was fined \$10 and costs in Twin Falls police court Wednesday morning on a charge of running a stop sign. She was cited by city police Thursday for failing to stop on Locust street north before entering Filer avenue east.

Jack Thomas Lee, Jerome, was fined \$14 and costs Tuesday by Jerome Justice of the Peace Glen Vining for speeding 64 miles per hour in a 50-mile zone. Arnold F. Shortz, Jerome, was fined \$12 Tuesday by Justice Vining for going 62 miles per hour in a 50-mile zone.

Care of Your Children

By ANGELO PATRI

Times have changed and the changes are no plainer anywhere than in today's families. Big families are in fashion. You may marry earlier, many of them 20 years of age. The children come fast. It is not uncommon where I live to see a young woman, scarcely out of high school it would seem, mothering a group of little ones as close together in age as time allows. It is good to have children when one is young enough to stand the wear and tear of rearing them.

Today's houses are small and in the new developments close together. Room for children and their needs has not been provided. The result is a crowded house, friction in the family, fatigue for the mothers.

Everybody wants the children. Society at large, church, business, the state, all want and welcome the children's coming. Who among them makes provision for them? As far as I can see, the parents.

Young parents need society's help in caring for their children. This needs to come in the form of better, bigger, housing, play space in the open and about the houses, and most important, schools, schools starting with the nursery school going on to kindergarten, elementary, secondary and college.

While none of these are in over supply, the nursery school is scarcely discernible in its meagerness. Once we had to battle for the kindergarten. In some places we still are without these essential grades, but they have been recognized as part of a decent educational system in most places. Now we must see that nursery schools are established in neighborhoods where these fast-

growing families of small children live. The developments in the suburbs are in crying need of them.

Young mothers who have these small ones need help. It is not possible for them to give the necessary attention to the children and at the same time act as wife-cook-and-bottle-washer. Something has to give.

There are no grandmothers or aunts to take over today. This is society's duty and it is high time society woke up to the fact. It is not fair, or decent, that these young parents be left to struggle alone with the rearing of a young family. Give them nursery schools, child care health stations, a helping hand generally. We subsidize immigrant families. Surely a little outside help for our own young parents is in order.

There is a reason when a child tells a lie, but lying can become a harmful habit. Parents should search for the cause and stop lying at the beginning. Dr. Herz explains in his best, P-16, "Lying." To obtain a copy, send 10 cents in coin to Station G, New York 10, N. Y.

LONDON, Feb. 25 (AP)—Joe Erskine, former British Empire heavyweight champion, Tuesday night outpointed favored Willie Pastrano of Miami Beach, Fla., by a razor-thin margin in a 10-round bout at Wembley stadium...

Erskine is not ranked among the top 10. The fighters matched left jabs throughout the bout, but rarely let go with a hard right-hand blow. Neither came close to scoring a knockdown.

Halley's Campbell wound up with "hatchet man" honors with 34 fouls while Thorne, Shoshone, had 65 for the year. Valley won both ends of the team fouling department, being charged with 221 in league play and 403 overall.

Other high points of the season were the 78 points Kimberly scored in beating Valley but Valley had the best non-conference night when he racked up 74 against Declo. Medley had the best individual night when he tanked 25 against Valley while the best season effort was the 26-point night Ridgway had against Richfield in the season finale.

### Burley Plans Brochure for Tourists' Use

BURLEY, Feb. 25 — A brochure telling of interesting places to be visited in Burley will be printed, members of the Burley Chamber of Commerce decided Monday noon. The brochure will be set at motels, hotels and other public places. Committee members are Frank Miller, Hollinger and John Miller. They also will gather data and write the history of the city of Burley to be used in the city directory being prepared by the R. L. Polk company.

A second committee was set up by the chamber to study the possibility of a training program for service station attendants, waitresses and motel operators in selling Burley and its points of interest to visitors and tourists.

Appointed were Mack Crouch, Palmer Saterstrom, Lloyd Douglas, Olive Holland, Irvin G. Harris, Carl Morgan, Roy Buley and Asel Parish. James Roper reported that the retail merchants had agreed to the closing of places of business for two hours, noon to 2 p.m. on Friday, March 27, to allow for a Good Friday observance to be sponsored by the Cassia Ministerial association. Two of the winners of an essay contest sponsored in the junior high school by the Burley unit of the Safety council, Gary Lee and Karen Hofbuhner, were presented by the Rev. Emil Holseth. They read their prize winning essays on safe driving.

### Witnesses Say Major Ventura Led Killing of 20,000 Cubans

(Editor's note: This is the second of three stories on the activities of police and other agents who operated under the Batista regime in Cuba, both before and during the Castro revolution. Some of the information was reported by the Associated Press last April; some other facts became known in the wake of Batista's flight into exile.)

By ROBERT BÉRELLE

HAVANA, Feb. 25 (AP)—About a year ago a Havana lawyer obtained a writ for the release of a man held by the national police on a charge of terrorism. He waited at the appointed place and time for the prisoner.

An auto bearing official license plates drove up. The lifeless body of his client was pushed out onto the pavement. An impeccably

leze of Idaho, Caldwell, and received a scholarship from the National Science foundation for a 10-week special science institute at the Utah State university, Logan, last summer.

He began teaching mathematics and science in Camas county high school in 1934 and served as superintendent from 1943 to 1946. During the summer of 1946 and 1947 he farmed east of Fairfield and also served as representative from Camas county to the state legislature. He has taught in the local high school since.

of bullwhips or other leather weapons. Prisoners were dumped into this basement through three rectangular openings, which also served as drains, in a street level patio. Agents entered the basement through a secret circular stairway. This is the story told by Israel Hernandez, 28, a guard at the fifth precinct station.

Several nights a week Ventura's agents, dressed as peasants, would arrive by auto. They would bring torture weapons to the cellar through the secret entry.

"We never saw them on the main floor of the building. Soon we would hear muffled screams and cracks of the bullwhips. Nobody upstairs said anything. We all pretended not to hear. Neighbors who could hear never complained. It would have been foolish.

"Later on duty downstairs we could see for ourselves what had been going on."

Agents also worked over suspects in streets and homes. One case was summarized at the recent trial of several policemen:

"The policemen broke down the door at 171 Continental street last April. They yanked two students from bed, stood them facing a wall and shot them. Their money and an automobile were taken.

Next day the police took away the furniture and sold it to a second-hand dealer.

Even the sacrosanct sphere of the Havana Bar association did not escape the wrath of Ventura's police force.

The minutes of a meeting Feb. 18, 1958, show that the association unanimously agreed to petition the government to call new elections because it considered the existing regime "a factor of discord and disorder."

For this effort, the association's headquarters were raided and documents seized.

### Strikers Eye Weather Sign

GRAND FALLS, Newfoundland, Feb. 25 (UPI)—They are watching the weather in the outports of Newfoundland these days.

For it is the weather that is going to make or break it for about 3,000 International Woodworkers of America (IWA) loggers who have gone on strike against the province's main industry to get a five-cent-an-hour wage boost.

The companies, Bowater's Ltd., Corner Brook, and Anglo Newfoundland Development company, Grand Falls, have agreed that in less than five weeks a thaw will prevent wood crews from bringing the cord wood out of the bush to the two pulp mills that form the cornerstone of Newfoundland's economy.

But strike leader Harvey Landon Ladd, president of district 2, IWA, says the five-week figure is extravagant.

"In two weeks, if there is no settlement, the companies will have lost," he said at his Grand Falls strike headquarters.

### Scout Assembly Given for Filer

FILER, Feb. 25—"Achievement on the Scouting Trail" was the program theme for a Boy Scout assembly held preceding the activity night for the ward MIA.

Scouts participating in the program were James Page, as conductor; Mike Bailey, Gary Allen, Gordon Stairs, Larry Kohnopp and John Allen. Kohnopp gave a short talk.

Following the program, games were played and refreshments were served. Those in charge were Verne Page, Dean Hall and Frances Vaughn; games, and Lucille Nelson, refreshments.

### Hot "Geyser" Erupts; Yard Turns to Ice

LAKEVIEW, Ore., Feb. 25 (AP)—When Frank Hart wanted some more heat, he drilled into the Earth and that is why his yard is full of ice.

Hart, who lives two miles north of this south central Oregon town, was one of the first to heat his home by tapping the natural hot water that underlies the Earth here.

More Heat Needed

As the area built up, and others tapped the same supply, he found the current spell of freezing weather that he was not getting enough heat.

So he set a well driller to work Monday, searching for a new supply. The driller was 40 feet down when the water began shooting out of the hole—a geyser that issues an estimated 100 gallons a minute.

Yard Is Spectacular

Hart expects eventually to get it under control by lessening pressure with a side tap. In the meantime his yard is spectacular.

"It's pretty slick out here," he said, inspecting the thick ice coating over his yard, driveway and even the trees, as steam from the geyser spreads, then freezes.

### King Hill Visits

KING HILL, Feb. 25—Mrs. Addie Smith left Monday to visit her brother and sister-in-law, Mr. and Mrs. Thomas Thebo, and her niece, Mrs. Harold Anderson, and her family, all Las Vegas, Nev. She also will visit her sister, Beva Thebo, and other relatives in Los Angeles.

Mr. and Mrs. Henry Crockett and family, Pocatello, spent the weekend here visiting his mother, Mrs. Fred Crockett, and brother, Fred Crockett, and family.

Mr. and Mrs. G. M. Murray have returned from Meridian where they attended a party in honor of her sister, Mrs. Earl Everett, who celebrated her birthday anniversary.

Huntz Hall, 38, one of the former "Dead End Kids," sits in the sheriff's station at Malibu, Calif., charged with drunk driving. Police said that Hall was belligerent when police stopped him on the Pacific Coast highway and that he failed to pass a sobriety test. (NEA telephoto)

### British Firm Sues Boise Potato Men

BOISE, Feb. 25 (AP)—The J. R. Simplot company, Boise, was named defendant yesterday in a patent infringement case brought by Temploton Patents, Ltd., London.

The complaint, filed in U. S. district court here, contends that Simplot, in producing dehydrated potatoes, used a method patented

by the British firm. It asks damages of five cents per pound for all potatoes produced by the method in the past six years. No total figure was given.

### TOURIST TRADE HURT

PARIS, Feb. 25 (AP)—France's political upheavals last year hurt the tourist trade. Official statistics show Paris hotels had a 13 per cent decrease from 1957, a record drop for postwar times.

### Grandstand Gives Way; 7 Are Killed

SAN LUIS, Mexico, Feb. 25 (AP)—A grandstand packed with people collapsed yesterday, killing seven children and injuring scores of other children and adults.

The Mexican highway department said the accident occurred at 6 p.m. during a festival at a school about 30 miles south of San Luis.

Twenty-three of the injured were in serious condition. Among them were some school teachers.

Reports to the highway department said the grandstand was attached to a wall, which gave way.

### Divorce Sought

A divorce action was filed Tuesday in Twin Falls district court by Alfred G. Hieb against Ruby Hieb, charging she failed and refused to carry out her duties as a wife.

They were married Dec. 24, 1941, and have three children. A property settlement has been agreed upon. Hieb is represented by the Twin Falls law firm of Murphy, Schwartz and Cunningham.

### Arrest Made

BURLEY, Feb. 25—Albert Gerald DesJardine, 28, Silver City, Mexico, was arrested Saturday on charges of issuing a no-account check, Burley police report.

The "check alert" system instigated by the Chamber of Commerce was instrumental in his apprehension, officers said.

The man is suspected of passing bad checks at Roper's Clothing store and Hudson's Shoe store Saturday and at the Thriftway Drug Friday, Capt. William McDonald reported.

### COOKS REHIRED

### Negro Gets to Attend School For Page Boys

WASHINGTON, Feb. 25 (UPI)—Negro Jimmy Johnson, Jr., whose dream of attending the Congressional page school appeared shattered, will enter the school Monday after all.

At the same time, the 14-year-old Chicago boy will take over his duties as a house messenger for five congressmen—one Republican and four Democrats.

Jimmy officially signed on as a house messenger late yesterday after weeks of controversy. He planned to register as a sophomore at the school tomorrow.

Jimmy, who says he wants to study to become a gynecologist, came to Washington last month under the impression that he had been appointed as a house page under the sponsorship of Rep. Barrat O'Hara, D-Ill. Officials believed he would have been the first Negro page in the house or senate.

But Jimmy's hopes were dashed. He was told on arriving that his appointment was the result of a patronage mixup and that he did not have a job.

Under the arrangement now completed, Rep. James Roosevelt and four other congressmen have jointly hired Jimmy at approximately a page boy's salary—\$337.28 a month.

### JERUSALEM GETS SNOW

JERUSALEM, Israel Sector, Feb. 25 (AP)—Several inches of snow carpeted Jerusalem yesterday in a freak storm. Ice and snow cut this city off from the rest of the country on the highway through the Judean hills leading to the coastal plain and Tel Aviv.

### LEGAL ADVERTISEMENTS

UNITED STATES DEPARTMENT OF THE INTERIOR BUREAU OF LAND MANAGEMENT Notice for publication Public Sale, Feb. 9, 1959. Under provisions of section 2455 R.S. (43 U.S.C. 1171), there will be offered to the highest bidder, but not less than the appraised value, at a public sale to be held at 2:00 o'clock p.m., on the 2nd day of April next, at Land Office, Boise, Idaho the following items of land: Land described: NW1/4SW1/4, Sec. 25, T. 11 S., R. 16 E., B.M., Idaho, 40 acres, appraised value \$295.00. The lands will be sold subject to the Act of July 17, 1914, which may require the reservation of all oil and gas deposits to the United States. The Bureau of Land Management has not searched the County records to ascertain the existence of any adverse claims. Bids may be made by the principal or his agent, either personally or by mail. Bids for a parcel must be for all the lands in the parcel. Bids sent by mail will be considered only if received at Land Office, Boise, Idaho prior to 2 o'clock p.m., on April 2, 1959. Bids must be in sealed envelopes accompanied by certified checks, post-office money orders, bank drafts, or cashiers' checks made payable to the Bureau of Land Management for the amount of the bids. The envelopes must be marked in the lower left-hand corner "Public Sale Bid, L-20844 Sale held 2:00 p.m., April 2, 1959." The highest bidder at the sale will be required to pay immediately the amount thereof. Any adverse claimant of the above-described land should file their claims, or objections, with the undersigned on or before the time designated for sale. Any contiguous owner claiming a preference right must assert such right to the undersigned within 30 days from the above sale date. However, contiguous owners will not be able to assert their preference rights to any parcel for which bids are not received. For reimbursements to owners of authorized improvements on the lands, payment of cost of publication, and other requirements, see 43 CFR, Part 250. For further information, write: Donald I. Bailey, Land Office Manager, P. O. Box 227, Boise, Idaho.

### Army Reserve Units Change For New Style

Changes affecting Magic Valley units of the army reserve through the regular army's organizational shift to the "pentomic" concept include combining the 361st field artillery battalion's headquarters battery, Twin Falls, and service battery, Shoshone, into a headquarters and service battery, second artillery battalion, 96th division. The unit is split between the two communities. Battery B, 361st field artillery, Twin Falls, will be changed to the 115-millimeter howitzer battery, second battalion, 96th division artillery, Burley.

Battery C, 361st field artillery, Burley, will be changed to the 105-millimeter howitzer battery, second battalion, 96th division artillery, Burley.

The 809th military police company, Twin Falls, will change to the combat support company, fourth battle group, 96th division, Twin Falls.

Detachment two of the 301st special forces, Twin Falls, will be retained as a non-divisional unit without change.

The reserve shifts were announced in Seattle by Maj. Gen. Francis M. Day, commanding general of the tenth army corps. Units will be reorganized before going on the two-week annual active duty training in the summer.

Not affected are assigned students at army reserve schools and reservists participating in unpaid training units.

The 96th infantry division of Idaho, Montana, Utah and Arizona has been designated a reserve combat division containing five battle groups with supporting artillery, armor, engineer and service units, to be commanded under the "pentomic" concept by Maj. Gen. LeRoy H. Anderson, Conrad, Mont.

### Orbiting Weather Bureau

Technicians fit the satellite shell over instruments contained in the new Vanguard II, which has since been successfully launched from Cape Canaveral. The 20-inch sphere acts as an orbiting miniature weather bureau, picking up information regarding hurricanes and transmitting it back to Earth. (NEA telephoto)

### Los Alamos Blast Slays 2 Workmen

LOS ALAMOS, N.M., Feb. 25 (AP)—A detonation of high explosives killed two employees of the Los Alamos scientific laboratory last night.

The victims were Leo G. Guerin, 35, Santa Cruz, N.M., and Raymond A. Means, 31, Los Alamos.

No radioactive materials or radiation was involved, officials said. The accident occurred at building 280 of S-site during a normal machining operation of chemical explosive used by the laboratory to study the physical phenomena of shock waves.

### Road Remade

LONDON, Feb. 25 (AP)—Britain got its only superhighway — an eight-mile stretch only 82 days old — back into operation yesterday. Embarrassed politicians, officials and builders felt a lot better.

Rain, frost and cold wrecked the motorway, which bypasses the city of Preston, and it had to be closed to traffic Jan. 21 after it had been in use only 48 days.

Cracked and buckled sections were resurfaced.

### FIRE KILLS 12 COWS

GRACE, Feb. 25 (AP)—Twelve valuable milk cows and some other livestock were killed yesterday when fire leveled a barn on the Merrill Hulse ranch one and one-half miles west of Grace. Hulse estimated damage at \$10,000.

### COMEDY SET

FILER, Feb. 25—A comedy, "The Curious Savage" will be presented under the direction of Mrs. Barbara Gaumer, high school speech and English teacher, on Friday afternoon and at 8 p.m. Monday and Tuesday.

Railroads in Ireland are now completely dieselized.

### American Working Girls Are Getting Older, Hal Discovers

By HAL BOYLE  
NEW YORK, Feb. 25 (AP)—Things a columnist might never know if he didn't open his mail:

The American working girl is growing older. Half the women in this country holding jobs outside the home are over 40, whether they admit it or not.

We are advised to have our teeth checked every six months, but more than 53 million Americans haven't visited their dentist in more than a year.

One of the Hal Boyle things that annoys the average farmer is that 10 per cent of his investment is tied up in fences. And what can you grow on a fence?

Millionaire's woes: If someone gave you a million one-dollar bills, and you counted them at the rate of one a second for a full eight-hour day, five days a week, it would take you nearly seven weeks to find out how wealthy you were. But it's nice work if you can get it.

The phonograph record industry is one of the most competitive in the world. It's a 220-million-dollar-a-year business. But look at the odds: Only 30 out of every 1,000 records make a profit, only one in a 1,000 sells a million copies.

You know what the oldest handmade material is? Glass.

Some authorities believe a three-to-six-month engagement period is best before marriage. A longer engagement is no guarantee of a happy marriage. It may only indicate one of the partners is trying to postpone the inevitable.

Does public necking annoy you? Then move to Egypt. In Cairo a husband and wife can be arrested for kissing on the street or in a park.

How nervous are Americans? A survey showed one adult in five is a nail biter.

Job-in-a-name department: In White River Junction, Vt., George Beard is a barber, Denny Blood is a butcher, and E. H. Plummer is a plumber.

Our quotable notables: "A thoughtful modern wife," says actor Walter Slezak, "is one who not only knows what her husband's favorite

dishes are but also what restaurants serve them!"

The female armadillo has an odd habit. She always gives birth to quadruplets, and the babies in each set are always of the same sex.

Plastic surgery isn't new. Physicians in India 4,000 years ago were adept at rebuilding mutilated noses by using a flap of skin from the patient's forehead. Doctors who rebuilt noses in Italy during the 17th century were accused of "tampering with the will of God."

Police say it is harder for them to locate missing women than missing men. The reason: A woman who wants to evade detection finds it easier to change her appearance.

How healthy are you? The average American now suffers an injury

or illness 2 1/2 times a year, not including hangovers.

What is the dearest household chore? I'd say dishwashing. But a poll showed most wives complained that dusting is more tiresome.

Here's bad news for hypochondriacs: In 1958 only 370 new pharmaceuticals were introduced, 30 fewer than the year before.

It was Michel de Montaign who observed: "A wise man never loses anything if he have himself."

### ABOARD SUBMARINES

BURLEY, Feb. 25 — Terry M. McIntosh, son of Mr. and Mrs. Marvin McIntosh, and Robert R. Hannah, son of Mr. and Mrs. Robert Hannah, both Burley, took part in an anti-submarine warfare exercise off the coast of southern California. Both are seaman apprentices. McIntosh is aboard the destroyer USS Agerholm, and Hannah is serving on the USS Menhaden.

### Damage Mailbox

BURLEY, Feb. 25 — Guns were confiscated from three boys charged with damaging a mailbox on the James Warner place northwest of Oakley Saturday night, and if they replace the box, no action will be taken, reports LePage Layton, Cassia county sheriff.

The shooting was reported by Golden Harper, Oakley.

BEAM... the world's finest bourbon since 1795

**JIM BEAM**

One Beam family for six generations...

One Kentucky Bourbon formula for 164 years...  
One purpose always—the world's finest bourbon!

JACOB started distilling in Kentucky under his own secret formula in 1795—or just about the time bourbon was born.

DAVID, son of Jacob, increased the capacity of his father's plant, but continued the by-then famous Beam formula.

DAVID M., son of David began a modest but marked expansion of the Beam business as the frontier days were waning.

COL. JAMES B., (Jim Beam), son of David M., links Beam's historic past with the present day, as head of the Beam family from 1823 to 1940.

T. JEREMIAH, son of Col. James Beam, is 8th generation head of the house of Beam. He supervises the making of Beam bourbon from the purchasing of the grain to the taste-testing of matured whiskey.

CARL, 5th generation, Beam's Master Distiller—supervises the production of Beam bourbon, ably assisted by sixth generation members, Booker and Baker.

What makes Beam bourbon taste so good? More than anything—it is the fact that today, as for 164 years, it is still the Beams who make BEAM, in Kentucky where bourbon was born.

The precise measure of choice grains in the formula, the rare and priceless strains of the sweet jug yeast, the exacting ritual of hilltop aging—these are parts of the secret formula that have remained within the Beam family for over a century and a half.

That's why you can always buy Beam bourbon with trust!
