Demo Bill Voted by President

WASHINGTON, July 7 (UPI)—President Roosevelt today vetoed the Demo-Bill, a sweeping bill to provide for a new housing program. The bill would have authorized \$100,000,000 for the construction of 200,000 new homes. The president's veto was based on the grounds that the bill was unconstitutional and that it would have caused a severe drain on the treasury. The bill had passed both the House and the Senate. The president's veto was the first of its kind since he took office. The bill was vetoed after a long and bitter struggle in the White House. The president's veto was based on the grounds that the bill was unconstitutional and that it would have caused a severe drain on the treasury. The bill had passed both the House and the Senate. The president's veto was the first of its kind since he took office.

Long Is Frantic From Fear, Mentally Inured And Near to His Death

NEW ORLEANS, July 7 (NEA)—Contrary to what we have been told officially in meaningless wire like "overwork," "small stroke" and "heart condition," Huey P. Long is a nervous wreck. He is frantic from the fear of a nervous breakdown. He is mentally damaged to a considerable extent and is further damaged likely at any moment. He is on the edge of death.

Long—Man Under Pressures

By WARD CANNEL (Copyright 1936 by NEA Service) (Continued on Page 2, Column 7)

In short, the elected executive of the state has been completely out of his mind and is a physically exhausted man. The diagnosis of Long, made after examinations in three hospitals by scores of doctors and technicians and explained to me by professional people who could lose their jobs if their names were made public, is as follows: "Some of them will be fired any day. Some of them are known Louisiana doctors told me: 'It is a relief to get this story off my chest. If the governor wants to hide from the facts, that's one thing. But the people of this state are not going to be fooled. His honesty—and that of his colleagues—will not be allowed to be hidden. Many scholars and intimate understandings of this state are being lost to the people. You can understand my position in this state, the health of this state, the health of this state, the health of this state. For in this state, the health of this state, the health of this state, the health of this state. (Continued on Page 2, Column 7)

Mays, Aaron Hits Provide National Win

PITTSBURGH, July 7 (UPI)—Willie Mays and Hank Aaron today won a national win in a game between the Pittsburgh Pirates and the Cincinnati Reds. Mays hit a home run and Aaron hit a home run. The game was a 7-6 victory for the Pirates. Mays and Aaron were named MVPs for their performances.

Zoning Meet Dates Set by T.F. Officials

The city commission set dates for a public hearing on the proposed zoning of the city. The hearing will be held on July 10, 11, and 12. The commission will also hold a public hearing on the zoning of the city on July 13, 14, and 15.

Benson Puts Final Touch On Tax Case

BOISE, July 7 (UPI)—Attorney General Frank Benson put the final touch on his tax case today. He filed a petition with the Supreme Court to set aside the tax case. Benson is seeking a writ of habeas corpus for himself. The case is a result of Benson's conviction for tax evasion.

Hero's Son Goes To U.S. Academy

WEST POINT, N. Y., July 7 (UPI)—The son of a hero, a young man who was killed in World War I, has been accepted for admission to the U.S. Military Academy. The young man is the son of a hero who was killed in World War I.

Housewives Might Get Extra Mileage From Grocery Money; Pork Price Down

WASHINGTON, July 7 (UPI)—Housewives may get an extra mile out of their grocery money, according to a report from the Department of Agriculture. The report says that the prices of many grocery items are expected to drop. Pork prices are also expected to drop.

38 Hostages Freed Safely

As Tear Gas Attack Ends

Western Prison Rebellion

2 Tear Gas Bombs, 2 Minutes Used to Capture 4 Prisoners

MONROE, Wash., July 7 (UP)—Thirty-eight hostages held for 15 1/2 terror-filled hours by four "kiki crazy" young convicts were freed unharmed at the state reformatory today in a surprise tear gas attack. Armful officers carried out the rescue at 4:03 a. m., two hours before the third and latest deadline set by the rebelling prisoners. Reformists had better knives and long forks in the kitchen Thursday afternoon in the reformatory escape attempt. Threatened violence by the three guards held hostages.

Plane Hits Wire and Crashes; Pilot Safe

JEROME, July 7—John Birelow, Twin Falls, escaped injury when the Piper Cub he was flying hit a telephone line about 7:30 p. m. Monday, approximately five miles southeast of Jerome.

Property Tax Carries Huge Load in State

SUN VALLEY, July 7 (UPI)—Property taxes continue to carry a heavy load in Idaho, according to a report from the Department of Finance. The report says that property taxes are the largest source of revenue for the state.

Employment For Military Men Probed

WASHINGTON, July 7 (UP)—A new law prohibiting the employment of military men in civilian jobs is being investigated. The law is being investigated by the Department of Labor.

Background Of Convicts Is Reported

MONROE, Wash., July 7 (UP)—The background of the four young men who rebelled at the Washington state reformatory was reported today. The report says that the men were all from the same area and had similar backgrounds.

Snack Replaces Indians' Attack

AMERICAN FALLS, July 7 (UPI)—A sign that meant disaster to the Indians was replaced by a sign that meant a snack. The sign was replaced by a sign that said "Snack" instead of "Attack".

Waterfront Destroyed

PICTON, N. S., July 7 (UPI)—A major fire destroyed the waterfront of Picton, Nova Scotia, today. The fire destroyed many buildings and caused significant damage to the waterfront.

NEWS BULLETINS

BOISE, July 7 (UPI)—The search for Charlene Zahm entered its second week today without a clue to her strange disappearance.

NEW YORK, July 7 (UPI)—Steelworkers' union President David J. McDonald said today that the steel industry is in a "bad way" and that the steel industry is in a "bad way".

WASHINGTON, July 7 (UPI)—The Senate appropriations committee today approved a defense bill carrying more than \$6 billion for military warfare.

WASHINGTON, July 7 (UPI)—The Senate appropriations committee today approved a defense bill carrying more than \$6 billion for military warfare.

WASHINGTON, July 7 (UPI)—The Senate appropriations committee today approved a defense bill carrying more than \$6 billion for military warfare.

Zoning Meet Dates Set by T.F. Officials

(From Page One) can recover on the days the north-east plan is watering, he added. So far this plan has worked out fine, he said, but added that there has not been an executive session. Acting Commission Chairman James Norfield said the city would continue the present water regulations. In other business at the regular Monday night meeting, commissioners passed a resolution authorizing the release of a title acquired by the city from Paul Daver because of delinquency of local improvement district assessments for the years 1934, 1935 and 1936 which were paid.

Mays, Aaron Hits Provide National Win

(From Page One) league winning streak this mid-summer game and was the national league's 11th victory against 15 consecutive opponents. After Mays' hit, Bud Dalesy, the Kansas City southpaw, came in to hit out the fire, but it was too late.

Magic Valley Hospitals

Magic Valley Memorial hospital, which is located on Main street, is open from 2 to 4 and 7 to 9 p.m. in all rooms, from 11 a.m. to 8 p.m. ADMITTED: Eugene Harter, Woodie Harley, Delbert Jackson, Leslie Woods, William D. Johnson, Jr., et al.

Mishap on River

Members of the Twin Falls fishing club heard news of a mishap on "clubbership" responsibility on their Tuesday noon luncheon. Shinn stressed the American government is a representative democracy and that the people who represent citizens in government are not always the best available. They are to serve the largest group.

Works at Lodge: "Thayer" Blake, daughter of W. and Mrs. C. H. Wilcox, Twin Falls, is spending the summer at Lake Lodge, Wyoming, where she is employed. She will resume her studies at the University of Utah in the fall. Photographers to Meet: The Twin Falls Camera club will meet at 8 p.m. Thursday at the home of Mrs. Mrs. Claude Oliver. Pictures of lower arrangements will be taken. Ted Hicks will give the lesson on background.

Break in Probed at Burley House

BURLEY, July 7.—Burley police are continuing their investigation today into the break in the T. J. Cannon, who died June 29, was filed in probate court Monday afternoon by the probate court. An old wedding ring, a woman's small watch and 450 cash were taken as a result of the burglary. The burglary was evidently done for "apple" officers said, as water in the kitchen sink was disturbed and the kitchen turned on. The entrance was gained Sunday night or early Monday morning by breaking the small pane of glass in the rear door. Drawers in the house were ransacked.

Governor Is Near Death, Writer Says

(From Page One) of half-reason is accepted as "the way things are." Long himself accepted as both the law and its defiance. And more often than not, the shrew has replaced himself as the public enemy. Strangely, psychiatrists tell me Long had been diagnosing himself as a public enemy since he was outburst in the legislature in early May. What kind of politician, the doctor asks, exposes the truth about the way his relatives were killed, or how he manipulated church groups or what extremes he would use to be governor? What kind of official reveals the lives of mental hospitals? He claims he's not sick—and that he's not a psychiatrist to treat him? What kind of middle age is it that finds the preoccupied with children—any children—and adults after 27 years decides he's going to divorce his wife who has borne him no children to perpetuate the same, fortune—and fate—the name of Long?

Boaters Are Safe in Utah After Scare

GREEN RIVER, Utah, July 7.—Boaters here, women and children feared lost or stranded by delaying the Colorado river's dam yesterday. But just where all of them were stranded is a puzzle for hours yesterday. That was because the Utah dam country southwest of the river is a mile that often the only way to communicate with a friend in need is to get on a horse and ride. One man and wife—Mr. and Mrs. Phillip Seely, Berkeley, Calif.—were rescued by helicopter from the river bank deep Garet Canyon. The other made their way—apparently in three rubber mats in which started—to Hite, their destination below Garet Canyon. The Seelys were taken to a planked Hanksville where they were joined by members of a party, including its leader, Dr. O. Miller, Berkeley, Calif. A night-walker in the mountains made their way in by Jeep from Hite. The new boat, 107 ft long and 20 ft wide, can transport 100 passengers at a cruising speed of more than 8 miles per hour for 4,000 tons.

Burley Hears Flight Report For Airlines

BURLEY, July 7—Members of the Mini-Casta airport committee met at the Monday noon meeting of the Burley Chamber of Commerce at Councilman Charles W. Coats' apartment for a preliminary certification for flights from Boise into the city. This is an extension of the flight line from the Burley-Rupert airport to Salt Lake City via Logan and Ogden.

The Burley-Rupert airport has been operating on a temporary certificate which expired last week. Coats has been working toward a permanent basis for the airport, which is located on the south side of the city.

Palmer Saterstrom, director of the airport, reported that the airport had placed on the market six Fairchild 50 aircraft which will replace six DC-24s now in operation. The jets caused land on the present airport, so unless the new airport is obtained, it could mean a move into the hills at all. He said that the airport is now being developed into a permanent basis.

John Miller, manager of KDBA, reported that the airport is now being developed into a permanent basis. He said that the airport is now being developed into a permanent basis. He said that the airport is now being developed into a permanent basis.

Mr. Anderson announced that the airport is now being developed into a permanent basis. He said that the airport is now being developed into a permanent basis. He said that the airport is now being developed into a permanent basis.

Man-Caused Blaze Burns 5,000 Acres of Public Rangeland

One of four tankers manned by bureau of land management crews fights a blaze which burned approximately 5,000 acres of rangeland and scrubbrush Monday afternoon three and one-half miles south of the Nitch Butte lookout station near Shoshone. Twenty men fought the blaze which was reported at 1:45 p.m. and cleared out by 8 p.m. Monday. Officials said the fire was started by a man burning unwanted property. (Staff photo-encraving)

Visitors Study Area's Project

RUPERT, July 7—A group of 150 visitors representing several different countries made a tour of the Northside project with Prof. James T. Brooker of Utah State University as the group leader. Dr. Brooker is a geologist and is accompanying them through the state, as with them.

Prior to their stop in Rupert, the group had visited the Aberdeen area, arriving in Rupert for a lecture session held at the armory. William A. Kirtley of the bureau of reclamation spoke on the "Design and application of pumps for irrigation" and Robert Harrison of the farmers home administration discussed the federal loaning program.

Studies were made of a lift on the old project as well as a fully developed system on the new project. Countries represented included Great Britain, France, Germany, Italy, Iran, Israel, Japan, Peru and Yugoslavia. From Rupert, the group of 150 men went to Twin Falls and on to Boise.

ARRIBATION AWARD OK'D NEW YORK, July 7 (UPI)—United Press International and the Commercial Telegraphers' union, bargaining unit for the company's telegraph operators, today accepted an arbitration award providing a \$4 weekly wage increase retroactive to midnight Jan. 21, 1959.

Nice Climate

LONDON, July 7 (AP)—Moscow Radio reported today Soviet scientists have found that the climate of Siberia is "highly salubrious".

Siberia is best known to western world as a dumping ground for political undesirable. First under the czars and then under the communists. But the broadcast said Siberia's climate "has a most beneficial effect on the nervous system and in several other ailments."

Bliss Residents Report Activity

BLISS, July 7—Mr. and Mrs. Ed Daniels, Ft. Bragg, N. C., visited Mr. and Mrs. Sterling Dray. Don'ts Libbrecht, Clarkston, Wash., is visiting her uncle and aunt, Mr. and Mrs. Pete Coran.

Mr. and Mrs. Leo Hobbey and Mr. and Mrs. Don Pace spent the Fourth of July at Moscow, south of Oakley, attending a community picnic. Mr. and Mrs. Ross Smith, Porterville, Calif. a brother and sister-in-law, and Mrs. Lee Allen, daughter-in-law, and children, spent the week-end with Mr. and Mrs. Clyde Allen.

Local Couple Notes History Of Elba Area

ELBA, July 7—Various items of historical interest were photographed and several pioneers of the area interviewed during the past few days by Mr. and Mrs. O. A. Ketter, Twin Falls.

Ketter, a Twin Falls photographer, is volunteer field representative of the Idaho State Historical society. In addition to the Elba area, the Kettlers also visited the Albion and Almo sections. They were accompanied by their children, John and Peggy.

Material gathered during the visits will be used in historic lectures before various organizations. The pictures will illustrate the lectures. Findings along pioneer lines also will be incorporated in a report of southwestern and southeastern Idaho which will be prepared for inclusion in the society reference section.

Pictures taken during the visits included those of typical pioneer homes, items of historic interest, cemeteries and individual pioneers. At Elba, the Kettlers were aided by Roy Eames and George Heworth while at Almo, Mr. and Mrs. Henry Ditzgod and Fred Hoger were contacted. At Almo, Mr. and Mrs. Will Eames, were interviewed. Eames, a pioneer of the area, is now 93 years old. Mrs. Eames, also an area pioneer, is a daughter of Harold King, who was a Pony Express rider when 20 years old. Mr. King's grave in the Almo cemetery was among those photographed.

Other pictures taken included one of Will Eames holding a six-shooter he found years ago at the site of the Almo massacre where 300 pioneers of a wagon train lost their lives by Indian action in 1842. Exams at one time owned the area where the massacre took place and where the 300 victims were reported buried. The site, now a pasture, is only a quarter mile from the location of Almo.

Driver Is Cited After Car Smash

RUPERT, July 7—A driver was cited for driving without a driver's license and driving a vehicle with defective brakes after an accident at 4:25 p.m. Saturday on highway 24 east of Rupert on highway 24 north.

Robert McCann, Rupert, drove his 1952 Chevrolet north on highway 24 from a side road and was involved in an accident when the rear of his car was struck by a 1952 Plymouth owned by Peter Carter, approaching from the south. Carter intended to pass but he could not because of some traffic. He applied the brakes but the wheels did not stop and he crashed into the rear of the McCann car. The car was damaged and Carter was injured.

Married Twice

HUNTINGTON, N. Y., July 7 (AP)—Mrs. Roland Earl, 42, was married today for the second time after she had been divorced from her first husband. The original wedding pictures were stolen from the photographer.

The caterer for the wedding offered to post the bill for a "retake." The time a special deputy sheriff followed the photographer back to his studio.

IMMIGRANT DECLINE NEW YORK, July 7 (AP)—Burdick said because of some factors continued to decline since 1945. He applied the law. The total of 214 for the last year, which was a record since 1945, was reached into the last of the 1950s. The decline of the year for the last year was a record since 1945.

Soviet Rocket Flight Points To Spacemen

LONDON, July 7 (UPI)—Soviet scientists today hailed the rocket flight of two dogs and a rabbit as proof that man soon will be flying through space. One said that day will "not be far off."

Western scientists are working desperately to beat the United States in the race to send a man into space. The Russians might succeed this year.

They based their predictions on the fact the Soviet already has the first major space "ride"—the first satellite and the first gravitational field and became a planetoid around the sun.

They also were impressed by the weight of the latest Soviet rockets and dogs—slightly more than two tons, or perhaps eight tons, the weight of the American rockets. The weight of the American rockets is paid for by the money of Able and Baker.

On May 15, the first of the U. S. rockets has not been announced. One Soviet scientist, P. K. Ignatov, said today in a Moscow radio broadcast the space trip was the third for the same animal.

One cannot fail to mention the importance of repeated rocket flights for the same animals. "The present launching was the third for the dog 'Dartag'."

Such kind of experiment may prove that the conditions which are created during rocket flights are not so harmful to the organism.

One of the rabbits was included with the two dogs to expand the scope of Russian space flights and obtain scientific material on the subject. The rabbit is more resistant than the dog.

The American target date for the first manned space flight is the autumn of 1950. British and other western scientists think the date may make their big this year.

"Job" Selling Soldiers Get Prison Terms

FR. LEWIS, Wash., July 7 (UPI)—There may be a soldier in a nice suit in Paris today and one in a suit in Copenhagen and Huller. If so, he probably isn't talking.

Coogan and Huller are Sgt. William E. Coogan, 28, Watervliet, Mass., and Spc. 3rd George D. Huller, 23, Patuxent, N. J.

Assignments Reddled. They are in the stockade here because the army says they peddled clothes overseas assignments for prices up to \$200.

This went on for two and one-half months. The army broke it up six months ago, but didn't tell about it until yesterday. Officers said they weren't sure how much the pair raked in—maybe \$2,000, maybe more.

Coogan and Huller pleaded guilty to a half dozen violations. They are awaiting review of their court-martial convictions.

Coogan gets 15 years. Coogan, an army career man with 12 1/2 years service, was sentenced to 15 years hard labor, and dishonorably discharged.

Huller, who joined the army in 1951, received three years at hard labor and a bad conduct discharge. Both men lost all pay and allowances and were broken to the rank of recruit.

Russian Visits California

In a setting of towering redwood trees, Soviet First Deputy Premier Ilya Kovalyov, right, finds a responsive audience as he thanks his Bohemian club host—and newspaper—at exclusive Bohemian Grove near Guerneville, Calif. Kovalyov and his party were entertained near and given a lively luncheon in an area owned by Russian fur traders in the first half of the century. He visited Detroit minus a mayor's welcome. (AP wirephoto)

Writer States Court Hasn't Backed Down

By JAMES MARLOW. WASHINGTON, July 7 (UPI)—Don't buy the idea the supreme court is backing down under criticism. The facts don't bear it out.

The attacks on the court in the 1952-53 term were bitter although less widespread than in the past. But this was a fairly mild term.

There's a good explanation for that. The nine justices didn't have to cope with issues as explosive as some of those in recent years.

Court "Held" Ahead. The court continued to plod along steadily in its role as guardian of individual rights and freedoms. Its most publicized decisions were in that field.

As usual, they didn't please everyone, not even some of the justices themselves. The harshness of some of their criticism of one another's opinions might indicate some conflict within the court itself. That's only a guess.

Justice Black, always voting on what is called the liberal side, complained in a moment of exasperation that the court is in retreat. Any impartial study of the

court's work would have a hard time proving it.

Court Backs Decision. One example: In decision after decision the court never budged an inch from its 1954 ruling outlawing racial segregation in public schools.

Ever since that 1954 opinion—and subsequent ones protecting fair-treatment rights of communists and non-communists—the court has been battered with denunciations.

Those opinions cut across many fields—states rights, the federal employee security program, the southern laws of the states, and congressional investigations of communism.

Impeachment Talked. As a result the justices have been told they were going too far, that they were usurping power that belonged to the legislative and executive branches of government, and that they were a nuisance. Some southern Democrats talked of impeaching them.

This year even the American Bar association at its February convention was split between those who wanted to chastise the court in an ABA resolution and those who didn't. In the end the ABA avoided direct criticism.

Wagon Train To Arrive in Rupert Area

BURLEY, July 7—Dick Carver, scout for the Oregon Central wagon train met with representatives of the Burley, Rupert and Paul Chambers of Commerce Monday afternoon at the home of Mrs. Hazel Jean Hunter, Rupert, and announced that the caravan would arrive in Rupert on Wednesday afternoon.

The Rupert chamber has made arrangements for them to camp at the junior chamber, and entertainment will be furnished that evening by people of Rupert and Burley.

The train will come to Burley Tuesday in full routine at 9:30 a.m. Thursday. They will camp at the fairgrounds and breakfast of legumes and breakfast of legumes served them by Jack Simon, Burley.

Mrs. Hunter, Huger, and Jay Maxwell, Paul, who are the chairman of the respective chambers. Food for the breakfast will be furnished by the merchants.

Anyone interested in taking pictures of the wagon train is welcome to come to the fairgrounds Thursday morning.

MIA Units Give Church Services

HAGERMAN, July 7.—The program for the evening service at the LDS church Sunday was presented by young women and men of the Mutual Improvement Society.

Lydia Wood gave the welcome and acted as master of ceremonies.

Mrs. Jack Allen gave the opening prayer, and speakers included Arlene Hansen, Wilma Elise, Monte Peterson, Louise Zeller, Gann Peterson and Ed Larson, first conductor.

United States farm families had 7500 fewer accidental deaths in 1952 than in 1947.

Prisoner Is Married

Ethel Lee Bostick holds hands with prisoner Burton Gladstone in Jacksonville, Fla., after their marriage. The bridegroom will spend his honeymoon—and then some—at the Florida state prison after being sentenced yesterday. He faced sentences on 21 break-ins that could have sent him to prison for 20 years. Gladstone pleaded guilty to the charges but criminal court Judge William T. Harvey deferred sentencing Gladstone so that he could marry the girl. (AP wirephoto)

Rites Honor Mrs. C. Outley

BURLEY, July 7.—Funeral services for Mrs. Clara Ann Outley were held Friday afternoon at the Burley LDS stake tabernacle with Bishop Allen Carter officiating.

Funeral prayer was given by Max Edward Larson, invocation by Bishop Francis Carter and the benediction by Paul Larson. Burial services were held at the cemetery and speakers were Bishop Leonard Outley and Bishop Orville Brewer.

Music was played by Linda Manning and Catherine Zilliox, and solo were sung by Mrs. Edith Corleau, Hal Mathews and Mrs. Barbara City who were accompanied by Linda Manning, Jean Mathews and Sherry Gid. Pallbearers were Charles Larson, Gerald Larson and Eldon J. Larson. Burial was in the cemetery.

Floral arrangements were under the direction of the eighth ward Relief society assisted by grandchildren Jean, Nancy, Peggy and

More Taxes, too

LOS ANGELES, July 7 (UPI)—The fire department explained very patiently why it couldn't approve the action of a citizen who painted a nearby fire hydrant pink to match his house.

"We don't lack a sense of humor or beauty," department spokesman Earl Leonard said. "But it means we have to repaint the hydrant. And that means more work, which means more money, which means more taxes."

Body Scarle, Terr. Kathy, Debbie, Cheryl, Johnny and Gerald Larson.

Funeral rites were held in the Pleasant View cemetery with Bishop Isaac Lee dedicating the grave.

AEC Coming Clean About Dirty Bombs

WASHINGTON, July 7 (UPI)—The atomic energy commission is coming clean about the dirty H-bomb.

In recent weeks it has removed from secrecy this information vital to public defense planning. One scientist called this "an information breakthrough."

For the first time since the monster Bikini test explosion of 1954—the AEC has admitted existence of what long since had come to be known in non-official circles as the "dirty-fission" bomb.

From the standpoint of radioactive fallout, the H-bomb was perhaps the dirtiest nuclear weapon ever exploded although the Russians came close to matching it in their test last October.

Bomb Awakens World

It was the Bikini bomb which awakened the world to the fact that early fallout, containing the earth as far as 200 miles downwind of an explosion, might be the worst killer in a nuclear war.

Apparently this weapon had something in it which made it far dirtier than an undusted H-bomb should be. Scientists outside the government deduced that this something was the cheap and plentiful form of uranium called U-238.

For five years the AEC refused to confirm or even comment on this. The H-bomb role of U-238 was ignored in the "effects of nuclear weapons" published by the government in 1957.

Idea Confirmed

Then at congressional fallout hearings last May 8 to 8 an AEC staff member confirmed officially that U-238 is, indeed, a major component of some high yield H-bombs. That part of his testimony, especially cleared for the hearing, went practically unnoticed at the time.

Had this one item not been declassified, however, it would have been difficult at best and later hearings to put in the public record new information about fallout which is expected to have considerable impact on civil defense plans.

Fission Is Radioactive

It takes an atomic fission bomb to trigger a hydrogen fusion bomb. The end products of fission are intensely radioactive whereas those of fusion are harmless. So the cleanest H-bombs are those which have the smallest fission-fusion ratio.

On March 1, 1954, the only fissionable material, the plutonium to exist were scarce and costly, uranium-235, derived by separation from the many-fold more abundant U-238, and man-made plutonium 239.

But the March 1 explosion was so dirty that scientists were convinced it was something special. They concluded it consisted of an ordinary fission trigger and a fusion charge plus a jacket of U-238 which was made to undergo fission by fast neutrons, energetic sub-nuclear particles released in great numbers by the fission reaction.

County Receives Certificate on Brucellosis

Twin Falls county commission chairman H. C. Larsen, second from right, receives a modified certified area certificate for brucellosis from Dr. E. H. Harst, second from left, district supervising veterinarian for the U.S. department of agriculture. Looking on are Harold Lancaster, left, and Henry H. Crow, right, county commissioners. The certificate is issued jointly by the Idaho bureau of animal industry and the department of agriculture. (Staff photographing)

T.F. County Is Modified Brucellosis-Free Region

Twin Falls county has been listed as a modified certified brucellosis-free area after a series of tests on cattle herds by members of the animal disease eradication division of the agricultural research service.

In certifying the county, 1,667 herds containing 53,232 cattle were tested and 40 herds showed a total of 74 reactions. This was .28 per cent reaction and 2.4 per cent of 1 herd was infected with brucellosis.

The herds were tested by two methods. The DICT or milk test was used on 1,017 herds with 15,225 cattle showing negative reactions. A sample of blood taken from each animal was used on 850 herds with 11,000 cattle. It was this second group that had reactions.

The division said all of the reactions have been eliminated by slaughter.

It was, they concluded, a fission-fusion reaction.

SECURITY TIGHTENED
CIUDAD TRUJILLO, Dominican Republic, July 7 (UPI)—The Dominican government tightened security measures today against the possibility of a terrorist campaign or an armed invasion aimed at overthrowing the Trujillo regime.

Connie Raye Hanks, Rupert, Is Horse Show Queen Entry

Connie Raye Hanks, 18-year-old miss from Rupert, is sponsored by the Rupert Chamber of Commerce and rodeo committee as a queen contestant for the Magic Valley Western Horse show July 23 and 24.

She is the daughter of Mr. and Mrs. Sterling Hanks and rides her own palomino horse. She was a queen attendant last year at the Rupert rodeo. A 1959 graduate of Minico high school, Miss Hanks was active in Glee club, Pep club, G.A.A., Jazzette and choir. She plays the piano and dances.

Hobbies for the young horsewoman include sailing, swimming and horseback riding.

CONNIE RAYE HANKS

Father of Rupert Resident Is Dead

RUPERT, July 7—Funeral services for John W. Cameron, 78, DeCelle, father of Clark Cameron, Rupert businessman, will be held at 1 p. m. Wednesday at the Pocatello 14th ward LDS chapel.

Mr. Cameron died at his Pocatello home Sunday morning of a heart ailment. He was employed by the Idaho Power company for 13 years prior to his retirement 13 years ago.

He had visited in Rupert many times and was well known in the area.

Survivors include three sons, Clark Cameron, Rupert; Roland B. Cameron and Don I. Cameron, both Pocatello; two daughters, Mrs. Frank Stratton, Mesa, Ariz., and Mrs. George Gibby, Torrance, Calif., and two brothers and three sisters.

Infants Blessed At LDS Service

HEBURN, July 7—The Sunday of the Epiphany LDS service was dedicated to the new babies. Mrs. Art McClellan and Mrs. Mrs. Harold Baker, Mada Babinfield was confirmed as a member of the church.

Dr. H. Peterson was authorized as a teacher in the new babies. Mrs. Marjorie Cook, Jessa Henson, Gene Rofford and Allen Hulse were named as visiting teachers in the Relief society.

Memberships of the Heberston Branch family and the Heberston Branch family were read. Prayers were offered by L. H. Brady and Virgil Coulson.

INDIAN HILL PASSED

WASHINGTON, July 7—A 17-hour yesterday passed a bill on the Indian Hill. The bill was passed by the House of Representatives 318-112. The bill is now in the hands of the Senate.

New Bridge Due

OMAHA, Neb., July 7 (UPI)—The Union Pacific railroad will replace a 247-foot span near the American Falls dam in Idaho some time this fall, the railroad said today.

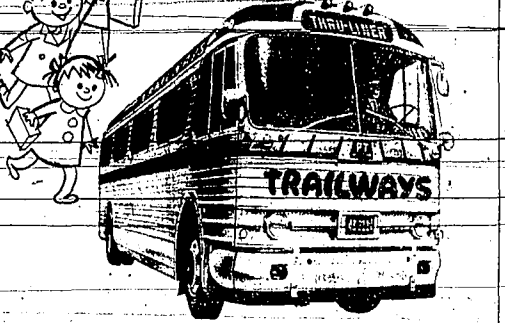

The old section was built over the Snake river in 1909 and is being replaced to "insure continued safe and smooth service," a U. P. construction engineer said.

Pacific Northwest Nurseries and Florist Shops go First Class with NATURAL GAS

NATURAL GAS provides uniform, healthful heat to plants in many Pacific Northwest home greenhouses such as this one (at right) in the home of Mrs. Ralph Gibson, Boise, Idaho. "Clean, constant, draft-free warmth is of the greatest importance in the propagation and growth of delicate plants," says Mrs. Gibson. "I find natural gas the perfect fuel for my greenhouse."

FORREST AVERHILL, shown with his son Allen, in their large commercial nursery at Snohomish, Washington, prefers controllable, constantly uniform, always-clean Natural Gas heat to the four other fuels he has used during his 45 years as a professional nurseryman.

CHOICE ORCHIDS require precisely controlled care. Here, Carl B. Berson, owner of Glenrose Greenhouses, Spokane, inspects beautiful Cattleya (Clementine Goldfarb), Princess Margaret Crowborough, Mount Royal and Monterey) and Cyripedium Y.C.P., Maudine Var. Magnificum) orchids. Natural gas heat is used throughout Glenrose Greenhouses because of its purity and perfect controllability.

SHINING CLEAN ornamental leaf plants, African violets blooming with health—that's the kind of indoor beauty every gardener wants, and the kind clean, pure, uniform natural gas heat helps you to have. Mrs. Roy C. Mitchell enjoys her decorative house-plant garden in her Spokane all-gas home.

An advertisement of PACIFIC NORTHWEST PIPELINE CORPORATION

To put natural gas to work for you call the gas company that serves the area in which you live. If natural gas is not available in your area, call your propane dealer.

Disabled American Veterans, Auxiliary Install Officers

Monday night in the DAV hall. W. H. Helwall, center, was installed as commander, and William C. Suterfield, left, junior vice commander, Frank Horejs, right, was installing officer for installation. Officers had earlier, at a chapter-meeting held earlier. (Staff photo-engraving)

Mrs. L. W. Helwall, second from left, was installed as commander of the Disabled American Veterans auxiliary Monday night in the DAV hall. Other officers are Mrs. W. C. Stone, left, treasurer, and Mrs. Frank Horejs, right, adjutant. Mrs. T. M. Knight, second from right, was installing officer. Mrs. Knight is the past department commander. (Staff photo-engraving)

Idaho Solon Blasts ABA About Rules

WASHINGTON, July 7 (UPI)—Henry Dvorshak asserted today that the American Bar association is establishing "unreasonable" qualifications for federal judiciary jobs.

Dvorshak made the comment after being told by national Republican Chairman Thurston Morton that none of the names of Idahoans submitted for appointment to the ninth circuit court was considered qualified.

Dvorshak said that Walsh had referred to "the professional observations made by the American Bar association."

The Idaho senator said he disagreed with the efforts of the ABA to set itself up to handle appointments.

Morton plans to support Idaho in getting the appointment and the Grant state lawmaker, but he says that he is discouraged with the attitude of the justice department.

The appointment is to fill a vacancy left by William Henry, former Boise resident, who retired.

STREVEPORT, La., July 7 (UPI)—Three executives escaped without serious injury yesterday after an Air Force Globemaster transport crashed and caught fire on take-off while carrying unarmed atomic weapons.

No Fears

LONDON, July 7 (UPI)—A principal who keeps his pupils happy for his pupils said today they do not mind his pupils listening up during class recitation in his "free expression" school.

The speaking pupils range in age from 5 to 10. The 5-year-old is Julian Leslie.

"Some smoke 10 a day," said Principal Jimmy East, a graduate of Cambridge.

"We are producing social, self-reliant children untroubled by hidden fears," he added.

Court Reverses Timber Sale Suit

BOISE, July 7 (UPI)—A case involving a timber sale contract has been reversed by the Idaho state supreme court.

The case involved a contract for the sale of timber by Mrs. Albert G. Morrow to the William Berkland Forest Products company.

The case was heard in Idaho county district court.

Mrs. Morrow sued the Berkland company asking the court to grant her option to sell 10 million board feet of timber on her property for \$4,035.

In the suit, Mrs. Morrow contended that Berkland was selling timber from the land in greater quantities than they had represented to the owners as being on the property.

Three Sustained At Church Meet

HAGERMAN, July 7 (UPI)—Three workers were sustained at the fast-day services held following Sunday school at the LDS church.

Mrs. Belle Morgan was sustained as librarian; Mrs. Joe Haycock as coordinator and chorister for the Junior Sunday school, and Emerson Pughlin as a teacher in the Sunday school.

Services were conducted by R. K. Benford, Duane Hansen gave the opening prayer, Mrs. Neil Anderson acted as chorister, Mrs. Cle Prince was organist and Wilbert Chitt gave the closing prayer.

Contract Given

IDAHO FALLS, July 7 (UPI)—A California firm has been awarded the \$1,470,000 contract to construct a sodium boiler plant at the national reactor station near here.

The atomic energy commission said Diversified Builders, Inc., Paramount, Calif., was awarded the contract after the apparent low bid of Mahan Construction corporation, New York, N. Y., rejected by the AEC for unspecified reasons.

2,000 CHICKENS LOST ROWLEY, Mass., July 7 (UPI)—Donald Hart lost 2,000 chickens when fire destroyed his poultry house. He estimated his loss at \$7,000.

U.S. Profit Tax Keeps Many From Taking Gains on Stock

NEW YORK, July 7 (UPI)—The bill in its official publication, The Examiner reports many a stockholder, "the difficulty of cashing in today on his profits, holding a taxable transaction in the of the last year or so and invest in a new house."

But there's one thing that tax purposes unless carried out in the regular course of business, there may be quite a bit less money in the pocket."

Most of those who take a nice profit in their stocks limit their gains to 25 per cent of the cost or collected include France, Italy, the Netherlands, Belgium, Luxembourg, Ireland, and the United Kingdom.

On this side of the Atlantic there are more than 100 countries in which capital gains tax is levied. Some hold true for Canada, Brazil, Mexico, Argentina, Chile, Colombia, Costa Rica, Panama, Peru, Uruguay, Venezuela, and Bermuda.

Other free of the tax are Australia, New Zealand, Japan, Pakistan, the Dominican Republic, and South Africa.

The U. S. congress should amend the law to allow the investor to pay the tax on the gain, according to the New York Stock Exchange.

The exchange cites an example of a stockholder who has a \$100,000 worth of certain shares that have risen 100 per cent since he bought them. He would have to pay \$100,000 in tax on the gain.

2 Students Will Study at Capital

BOISE, July 7 (UPI)—Two Idaho college students yesterday began a two-month summer course which will give them practical experience in state government.

The project is a cooperative one involving the office of Gov. Rob- ert E. Stanley and three state weeks each in two of the three departments of public health. After that they will return to the public health office for a one-week evaluation period.

The two youths are Charles Oldham, Blackfoot, who is working on his master's degree in political science at the University of Idaho, and Dean Hansen, Pocatello, who will be a senior in September at Idaho State college.

They will spend this week on an orientation course in the government office, then will spend 14 weeks in the departments of public health. After that they will return to the public health office for a one-week evaluation period.

Queen Leaves Chicago, After Exciting Day

CHICAGO, June 17 (UPI)—A resident but third Queen Elizabeth ended a one-day, whirlwind tour of the city today and headed back to Canada.

She pulled away with Prince Philip aboard the royal yacht Britannia after massed thousands of friendly, cheering Chicagoans bade them a noisy, affectionate farewell on the fireworks-lit shore of Lake Michigan.

Queen Elizabeth, 44, was a triumphal, 14-hour visit to the capital city of the corn belt and America's second largest city.

Chicago Has Big Day
"For Chicago, it was a proud and historic day that symbolized the city's emergence as a world port and gave midwesterners their first glimpse of the reigning British monarch.

They liked what they saw. Mayor Richard J. Daley, host at a wind-up state dinner in the Congress Hilton hotel, voiced the city's attitude when he told the queen: "Your majesty, come back again and bring the children."

Prince Philip received so much applause when he was introduced at the dinner that Daley, known for his astuteness in politics, whispered to a companion that he knew that Philip was not running for public office here.

Bomb Scare Map Day
The queen's all-American welcome to this busy metropolis was marred by a brief bomb scare and one near-miss scene and interrupted briefly while she had a dentist replace a tooth filling.

The bomb scare came at 3:17 p. m. when a lightning bolt struck the headquarters and numbered "here a bomb set in the museum of science and industry to go off at 3:30."

Before the queen arrived at 3:40, bomb squad detectives satisfied themselves that the call was the work of a crank or prankster. The queen's museum visit went off without a hitch.

Parade Is Highlight
Highlights of the day for Chicagoans, and possibly for Elizabeth and Philip, was the royal parade down Michigan boulevard to the state dinner.

Police said 350,000 persons saw the queen's coronation. The parade ran three quarters of an hour behind schedule—no sea her off.

In all, police estimated that 2,500,000 persons saw the queen during the procession-filled day.

FBI Nabs One of 10 Most Wanted
WASHINGTON, July 7 (AP)—George Edward Cole, 21, one of the FBI's 10 most wanted fugitives, was arrested here in Des Moines, Ia. He was wanted in the slaying of a police officer during the robbery of a bank in Francis, Mo.

Cole surrendered quietly to FBI agents who drove him to the station where he had been working for the last two years, asked that the car be filled up, and then arrested him.

S. Edgar Hoover, director of the FBI, said Cole was added to the list of 10 most wanted fugitives Feb. 25, 1933.

"Sure You've Got a Good Hold?"

Russ Turn Down Some U.S. Firms' Plans at Moscow Fair

NEW YORK, July 7 (UPI)—Russian officials have turned thumbs down on six weeks of American cosmetics at the Moscow fair because they fear that Russian women would stoppage for glamor.

The decision caught Coty, Inc., a major American cosmetic firm, with \$150,000 worth of powder and lipstick which had been specially packaged in Russian containers for distribution in Moscow when the fair opens July 25.

"We thought we had the green light until Russian officials told us they feared there might be a stampede on the city pavilion that would be dangerous to life and limb," said Philip Cortney, president of Coty. "We assured them we would handle the crowds safely, but they would not be persuaded."

Cortney said negotiations were in progress between the United States Information Agency (USIA), which makes all arrangements for American exhibitors, and Russian officials to allow Coty to sell its cosmetics in Moscow stores at prices equivalent to what it charged for Russian cosmetics.

But Cortney said no decision has been made. Sources in Moscow indicate that the Russians do not want Russian women to have the chance to compare Russian cosmetic products with American cosmetics. Russian cosmetics are expensive and the choice is extremely limited.

Coty was not the only company struck with unwelcome news. General Motors ordered an undisclosed number of miniature plastic cars for distribution at its pavilion, but the Russians decided GM would have to be satisfied with its exhibition of full sized models because the miniature might create competition for Russian toys.

The Russians also are keeping General Mills-General Foods on the rack while they decide whether or not to handle of processed foods. They would create a traffic jam at the fair, but they have okayed the distribution of free plastic cups by an American firm, a pamphlet on Lincoln by an insurance company, and cigars in Russian by several American companies.

The Pepsi-Cola company pulled

Scientists Set Out to Locate Spot to Drill Hole in Earth

LA JOLLA, Calif., July 7 (UPI)—Scientists set out to sea today in search of a site for drilling the world's deepest man-made hole to a project aimed at answering age-old questions about the Earth's interior.

Nearly a score of scientists were aboard three ships assigned to the three-week survey called "Expedition Penafra." The Hugh M. Smith of Scripps Institution of Oceanography and the Sigsbee of the naval electronics laboratory left yesterday. A third vessel, the Spencer F. Baird of Scripps, leaves today.

The experts will make electronic soundings to determine the thickness of the Earth's crust, take bottom casts, measure gravity records, depths and local weather. Somewhere—perhaps off Guadaloupe Island, about 300 miles to the south—the scientists hope to find a spot for drilling from sea level 30,000 feet into the Earth's mantle.

Four ships conducted a similar survey in the Atlantic in 1929. The Bantle Fe trail became an important trade route in 1822. Regular airmail service from Independence, Mo., began in 1849.

Meeting Set

JEROME, July 7—Jerome County Rod and Gun club will hold a special meeting at 8:15 p. m. Wednesday at the Northside club to formulate resolutions on limits for the upland game bird season.
