

Three More Die on Highways For Valley; Two Boys Killed Near Gooding, Children Hurt

Hopes Vanish for Averting Walkout in Steel Industry

NEW YORK, July 11 (AP)—Hopes practically vanished today for averting a steel strike next Tuesday night, with both the industry and Steelworkers Union discounting the chances for a peace bid. The chief industry negotiator said his only possibility of agreement, and the union ruled out any extension of the expiring two-week strike pact. The industry revealed it has proposed yielding some wage and welfare benefits improvements under a proposed new two-year contract provided that the union accept a non-unionizing cost concession.

NEWS BULLETINS

ONE JAPAN, July 11 (AP)—Four persons perished, 40 were injured, and one is missing in a chemical factory explosion on western Honshu, police said the blast following a fire in an ammonia gas plant.

ALGERIA, July 11 (AP)—Fighting between French troops and Algerian nationalists raged in eastern Algeria through the night. A French army commander reported in a report that 136 rebels had been killed and 95 captured in several engagements. "It was one of the highest tolls of rebel casualties reported for any two-day period in the Algerian war."

NEW YORK, July 12 (AP)—A huge trans-Atlantic jet plane, after four hours of flying, landed today for its scheduled stop-off in London, settled to the runway with most of its wheels down in landing.

HAWAII, June 11 (AP)—Secret police fought a gun battle in a Hawaii suburb today with a group of Cubans suspected of plotting against the government. Police shot and killed one Cuban, and arrested another. The police also arrested several other Cubans suspected of plotting to upset Prime Minister Pierson's government.

Ministers Arriving For Geneva Parley

GENEVA, July 11 (AP)—Ministers began arriving today for the second round of the Geneva conference with both East and West expressing hope for an agreement. Soviet foreign minister Andrei Gromyko, the first top official to arrive, talked at a conference of the press. The government already had been agreed upon. The Geneva conference of foreign ministers, he told an airport audience, could serve to clear the way for "adoption of radical decisions on burning and outstanding international problems at the forthcoming summit meeting." Soviet proposals in Berlin, he added, were "good proposals for reaching agreement with the Soviet Union that would provide a freeze on the status quo in Berlin for several years and at the same time would provide a freeze on the status quo behind the Western Wall. Three Western ministers, Christian A. Herter of the United States, Maurice Couvreur of Belgium and Maurice Couvreur of Belgium, are due Sunday. The other Western ministers are British, French, and the United States are hopeful of reaching an agreement with the Soviet Union that would provide a freeze on the status quo in Berlin for several years and at the same time would provide a freeze on the status quo behind the Western Wall. Three Western ministers, Christian A. Herter of the United States, Maurice Couvreur of Belgium and Maurice Couvreur of Belgium, are due Sunday. The other Western ministers are British, French, and the United States are hopeful of reaching an agreement with the Soviet Union that would provide a freeze on the status quo in Berlin for several years and at the same time would provide a freeze on the status quo behind the Western Wall.

Canada Will Back U.S. on Berlin Views

OTTAWA, July 11 (AP)—Secretary of State Christian A. Herter left Ottawa today for Geneva to meet with Canadian leaders. He departed with new assurances the Canadian government stands behind the Western Wall. Herter's determination not to abandon the people of West Berlin. Herter talked here with Prime Minister John Diefenbaker and Foreign Secretary Howard Green. Herter's arrival in Geneva is the first of several international conferences of general international conferences were considered as well as special interest to the United States and Canada.

Burma Villagers Enter Thailand

BANGKOK, Thailand, July 11 (AP)—Some 500 Burmese villagers have entered Thailand from Burma today. The villagers, who were fleeing from the fighting in Burma, were welcomed by Thai officials. The Thai government has agreed to accept the refugees and provide them with food and shelter. The villagers are expected to be resettled in various parts of Thailand.

DeGaulle Returns From Africa Trip

PARIS, July 11 (AP)—President Charles de Gaulle returned today on an 11-hour flight from his African tour. He was greeted by a large crowd of supporters. De Gaulle's trip to Africa was highly successful, and he is expected to announce new policies for France's African territories.

Bull Scouts Surprise Oregon Caravan With Attack; Horses Are Frightened

OREGON, July 11 (AP)—The Oregon Caravan, a group of people traveling through the state, was surprised by a group of bull scouts who attacked them. The caravan members were frightened, and their horses were also frightened. The bull scouts claimed that the caravan was in their territory and they were protecting their land.

Brush Fire Routs Doe

A shattering head-on collision two miles west of Gooding late last night hooded the day's traffic toll in Magic Valley to three known dead with a fourth possible fatality. Gooding county Sheriff Guy P. Coles were still at the scene early today investigating the crash which was described as a "mess." Injured people were being given emergency treatment at the Gooding Memorial hospital. None of the people involved in the crash, described as a family in one car and three Gooding boys

Four Dead

At 1 a.m. today, the Gooding county sheriff's office advised the "Times-News" that the toll was four in the crash west of Gooding.

Embers Still Guarded At Hollywood Blaze

HOLLYWOOD, July 11 (AP)—Even as firemen ground today the smoldering embers of a disastrous brush fire flared into new flames which damaged another house in Laurel canyon. The new blaze, a brief one, was among many flareups fought down today by 150 men on the alert against a renewal of Friday night's inferno in the hills north of the film capital. The fire earlier had destroyed an estimated 28 homes and threatened hundreds of others.

Europe Gets Freak Storm

LONDON, July 11 (AP)—Frankish weather spread across Europe today with violent storms and dense fogs. The weather was described as a "freak storm" with heavy rain and strong winds. The storms caused significant damage in several areas.

Boy Saved After Buried in Sand

CARLE PLACE, N.Y., July 11 (AP)—A 10-year-old boy was saved after being buried in sand. The boy was playing in a sand dune when he became trapped. Firefighters and rescuers worked for several hours to dig him out.

Heads Division

MOUNTAIN HOME, July 11 (AP)—A division of heads was found in a field. The heads were described as "mysterious" and were found in a field near Mountain Home. The discovery has caused a great deal of speculation.

Boys Held

GLENN FERRY, July 11 (AP)—Two boys were held on suspicion of a crime. The boys were described as "troublemakers" and were held in a local jail. The crime they were suspected of is still under investigation.

Mysterious Cluster of Bright Lights

HONOLULU, July 11 (AP)—A cluster of bright lights was seen in the sky over Honolulu. The lights were described as "mysterious" and were seen by a large number of people. The cause of the lights is still unknown.

Flash by Planes Over Pacific Ocean

Hearing Set

The case Committee and Culbertson Livestock Transportation company, will be heard at 1:30 p.m. Monday August 11, in the partition chamber of the Twin Falls city hall.

Wagon Train Passes Through T. F.

A woman participant in the Oregon centennial wagon train cross-country trek smiles as her wagon makes the turn at Five Points west on the way out of Twin Falls. The bearded driver loaded pamphlets to bystanders as the wagon passed through Twin Falls on its way to the Buhl labor camp where it is camping for the week-end. (Staff photo-courtesy)

Annual Report of Twin Falls Library Activities Discussed

Library projects, the budget for 1969-1970 and personnel reassignments occupied the time of the Twin Falls library board of trustees at a meeting Wednesday afternoon.

Expansion of shelving space by adding a balcony in the non-fiction section of the library would amount to \$10,000.

The board continued study of the project and suggested that a memorial fund might be started to finance the project.

A study also was made of the annual report for 1968-1969 which will be presented to the commission Monday.

A letter of resignation from Dorothy Evans resigned as librarian Monday.

Books worn out and withdrawn totaled 12 adult and 58 juvenile, 20 juvenile books were purchased and 18 adult and one juvenile book were received as gifts for a total addition of 127 items.

Photograph records withdrawn for a total of 12. Photographs circulated were 48 adult, and 20 juvenile, a total of 68.

Former Gooding Youth, 18, Dies GOODING, July 11—The death of Orla Johnson, 18, son of Mr. and Mrs. Orlan Johnson, Sacramento, Calif., in a car accident Wednesday evening was reported by relatives.

He was alone in the car and ran into a tree, killing him instantly. He was born in Gooding and spent his boyhood here.

Final Honor Paid To Theo Spencer

CALLS ON POPE VIATICANO CITY, July 11 (AP)—Antonio Scuti called on Pope John XXI today in his first official visit to the Vatican as Italian premier. They talked for 45 minutes.

Gun Accident Victim Needs Card 'Deluge'

Unless his friends rally around him he may not have a very happy birthday July 13. Jim, who was seriously injured in a gun accident Saturday, is recuperating in Albuquerque, N. M., after reconstructive surgery in Salt Lake City.

Jim went to the Salt Lake hospital for X-rays June 8 and was there only a few days. However, his doctors decided the time had arrived for removal of his injured eye and other surgical repair work, so he was confined for a three-week period.

When he flew to Albuquerque last week, Jim was able to walk to the plane. He is now home with his father. His spirits are pretty low, however, and when he faces his 17th birthday on Saturday, a deluge of cards from his close friends and family will be needed to cheer him up.

Grangers Advised To Eat More Eggs

Thod McCloskey, agriculture committee chairman, told members of the Knoll Grange at a meeting Friday in the Knoll Community Hall that if everyone would eat an extra egg a day it could help to reduce the egg surplus.

The youth committee advised members that the Grange sponsored 4-11 club and two other clubs will meet next week at the hall to learn how to judge.

Mrs. Bryan Pilot, lecturer, announced a safety program for the next meeting and told about the On to Oregon cavalcade. Gertie Clark, granddaughter of Mr. and Mrs. T. M. Knight, read her essay, "Walk in Solitude," which she won first place in a contest at Pocatello high school.

Visit Starts

Recites Vows

MRS. CHARLES E. VANCE, JR. (Dudley photo—staff engraving)

Miss Hauser and Vance Marry in Twin Falls Rites

Baskets of pink and white gaid... and chrysanthemums formed the background for the double ring ceremony Friday afternoon...

The bride is the daughter of Mrs. Louis Hauser, Twin Falls, and the late Mr. Hauser, Nevada, Eureka, California, Canada. The bridegroom is the son of Mrs. Charles E. Vance and the late Mr. Vance.

Performing the rituals on the patio at the home of the bridegroom's mother, was the Rev. Paul E. Kenny of the Kimberly Christian church.

A spray of white lily stem accented by applied lace was worn by the bride. It was styled with deep-point sleeves, a lace peplum and chapel train. A lace and pearl-crowned hairdo held the bride's tresses.

She was attended by Beverly Brown as maid of honor. She wore a gown of pink tulle with a ruffled collar and a ruffled skirt.

For her daughter's wedding, Mrs. Hauser chose a gray and white afternoon dress with white accessories. Mrs. Vance chose a tan linen dress with tan and white accessories.

A pink reception was held at the Pine room in the Regency hotel following the ceremony. A three-tiered wedding cake topped by a miniature bride and bridegroom also was served.

For traveling the new Mrs. Vance selected a heavy linen dress with white accessories. Her corsage was the orchid from her bridal bouquet.

Prior to her wedding the bride was honored with a shower given by Mrs. Maurice Nelson and Mrs. Bill Dwyer at the Melton home.

Following a wedding trip to Yellowstone national park, the couple will reside here where he is employed by the International Gas company.

Special out-of-town guests included Mr. and Mrs. Lawrence Bunnell and daughter, Mrs. Kay Walcott, all Lebanon, Ore.

SHOW PLANNED OAKLEY, July 11 — JMA officers, under the direction of Mrs. Rose Wilson, drama director, met Tuesday evening with department members to make plans for the road show to be given the last of this month.

Committees Are Named at Meet Of Area WOTM

JEROME, July 11—Mrs. Duane Heasler, senior regent of the Women of the Moose, appointed their committees for the coming year at the regular meeting this week of the group.

Chairmen include Mrs. Ernie Peterson, Mooseheart; Mrs. Homer Van Matton, Moose; Mrs. Joseph Smith, publicity; Mrs. Warren Ward, library; Mrs. Dan Blount, children; Mrs. Edna Blount, social service; Mrs. Theogene-Maddox, financial guide; Mrs. Jesse Gowen, membership; Mrs. Levi Wolverton, homekeeping; and Mrs. Gene Broughton, attendance.

Mrs. Heasler presided at the business meeting. Mrs. Edna Blount and Mrs. Ed Lewis were appointed to work with the Local Order of Moose to improve the food stand at the fairgrounds.

The audit committee—Mrs. Ted Chaste, Mrs. Sylvia Boshuis, Edna Martin, reported a meeting to audit the books.

Ruth Ann and a set of thank-you notes, which was read at the meeting, for the help she received in her nursing training. Miss Glass was graduated from the Sacred Heart school of nursing June 9.

Miss Glass was under direction of last year's officers.

Treatments were served following the meeting by the men of the lodge.

The retirement committee for the next meeting includes Mrs. B. Williams, Mrs. Luther Williams, Mrs. Byron Ward, Mrs. Levi Wolverton, Mrs. Melvin Jackson and Mrs. Gene Broughton.

Social Calendar

LD's second ward Relief society will hold an outdoor luncheon to honor visiting teachers at 1 p.m. Tuesday at the home of Mrs. Rosa Ward, two miles west and one mile south of the South Park store.

Those desiring transportation may call at the church.

General Mrs. Home Demonstration club will hold its family covered dish picnic at 12:30 p.m. July 19 at Hartson park.

The enrollment of Mrs. Charles Westover will furnish dinner and beverage. Members are asked to bring table service. The picnic will take the place of the regular meeting this week.

Smiling Through club will meet at 2 p.m. Monday at the home of Mrs. George Stoddard, 161 Pierce street.

Amore class of the First Baptist church will meet at 8:30 p.m. Monday at the home of Mrs. Marian Langdon, 313 Fourth avenue west, for a potluck supper. Members are asked to bring table service.

Magie Valley Saltpitball club will meet at 1 p.m. Monday at the home of Mrs. Alma Hicks for a picnic. Roll call will be poems, talks or stories about violas.

Bowl and Blossom club will meet at noon Wednesday for brunch at the home of Mrs. Russell Miller, 1224 Spruce avenue. A workshop for members will follow. Those attending are asked to bring material.

SHOSHONE — North Shoshone Home Improvement club will hold a picnic at Sun Thursday at the Jerome city park. Husbands and children of members are invited.

Lend-A-Hand club will meet at 1 p.m. Friday for a no-hat luncheon at the home of Mrs. Ray Butler, 625 Second avenue west.

Selects Date

NAOMI QUALLS (Ledcom photo—staff engraving)

Miss Twin Falls Of 1959 to Wed In August Rites

The engagement of Naomi Qualls, Miss Twin Falls of 1959, to K. Charles Brown, is announced by her parents, Mr. and Mrs. Clifford T. Qualls.

Caroling Aug. 30, the couple will be married at the First Methodist church by the Rev. W. A. MacArthur.

Miss Qualls is employed at the Twin Falls clinic. Her fiance, the son of Mr. and Mrs. Harold Brown, is employed by the A-1 Carpeting service, Reno, Nev. Both are graduates of Twin Falls high school.

Hale Reunion Is Held at Oakley

OAKLEY, July 11—A reunion of the family of Mrs. Jane R. Hale and the late Russel Hale was held this week at the family home here.

Out-of-town family members attending were Ballard Hale and children, Ogden; Mr. and Mrs. Quentin Hale and children, Bountiful, Utah; Mr. and Mrs. Rodney Hale and child, Provo; and Mrs. Jack Christensen and children, Twin Falls.

Unable to be present were Edsel Hale and Mrs. Marva Chambers.

Day Discussed At Girls' Parley

Plans were made for achievement day at the Sew or Save club meeting Wednesday afternoon at the home of Mrs. Marvin Sheridan, leader.

Mrs. Sheridan and Mrs. Paul McCollum assisted each member with their sewing project.

The club will meet next week at the home of their leader.

Mrs. Rehwal Is Renamed Head Of DAV Women

Mrs. LeRoy Rehwal was re-installed as commander of the Re-United American Veterans auxiliary by Mrs. P. M. Knight, past department commander, Monday night at the DAV hall.

Officers assuming duties are Mrs. Harold Armstrong, senior vice commander; Mrs. Lydia Graybill, junior vice commander; Mrs. M. A. Knight, chaplain; Mrs. W. C. Blount, treasurer; Mrs. Frank Horvick, industrial; Mrs. Murray Blades, sergeant-at-arms; and Mrs. Carl Sutterfield, conductress.

Committee chairmen will be appointed at the next meeting.

Reports of the recent department convention, Boise, given by Mrs. Blades and Mrs. Knight, it was announced Mrs. Rehwal was elected department chaplain and Mrs. Sutterfield was appointed department conductress.

Attending from the local chapter were Mrs. Blades, Mrs. Lydia Graybill, Mrs. Harold Armstrong, Mrs. M. A. Knight, Mrs. W. C. Blount, Mrs. Frank Horvick, Mrs. Murray Blades, Mrs. Carl Sutterfield, conductress.

Announcements of coming events include the annual birthday anniversary and gift exchange July 28 at the home of Mrs. Ed Brackett; the family picnic Aug. 9 at Charles Brown, which will members of the chapter and auxiliary and their families are invited, and dining No. 2 meeting at 8 p. m. Aug. 17 at the local DAV hall.

Reported on the sick list are Mrs. Mark Smith, Mrs. Janet Kosh, Jr. and B. Pender, national service officers, who is in the Boise veterans hospital.

Granddaughters of Mrs. Knight, Gladys and Valerie Jean Clark, Provo, Utah, were visitors.

Refreshments were served by Mrs. Brackett and Mrs. Stone.

August hostesses will be Mrs. Gene Helms, Mrs. Louise Julian and Mrs. Inez Fletcher.

Golden Age Club Picks New Slate

Pete Ehler was elected as president of the Golden Age club when it met Friday evening at the DAV hall.

Mrs. Ernest Priehard was chosen as vice president, and Elizabeth Hester, secretary.

Mr. and Mrs. E. P. Brackett are the retiring president and vice president, respectively, and Mrs. Mary Bolton, secretary.

Community singing opened the evening with Mrs. William Arroya, program chairman, in charge.

Cards and dancing followed the business session and a sack lunch was served.

ATTEND REUNION

WENDELL, July 11 — Mr. and Mrs. Jack Gough and sons attended the Hansen family reunion last week in Buhl. More than 50 persons were present.

Twin Falls So-Journey Club Has New Leaders

Mrs. Claud Wilbille, right, was installed president of the So-Journey club Saturday afternoon in a garden party meeting at the home of Mrs. D. O. Walker. Installed vice president was Mrs. Charles Looney, center. The new secretary is Mrs. James Cunningham, left. Not pictured is Mrs. L. James Koutnik, treasurer, Mrs. Earl (Tex) Goodson, retiring president, and installing officer, presented the women with concert. Guests were Mrs. Robert Brown, Mrs. Elsie Bason, Mrs. Deward Lawley, Mrs. John Mitchell and Mrs. Jo Kreppek. Mrs. Wayne Meyers was welcomed as a new member from the Newcomers club. (Staff photo—engraving)

Public Welfare Topic Is Given At Hansen Meet

Mrs. Rose Sinclair, second state vice president of the American War Mothers, was chosen as a delegate by the local unit at a meeting Friday afternoon to attend the national convention in September at Loveland, Colo. Mrs. Emma Blatsch also will attend.

During the business meeting at the American Legion hall it was reported that Mrs. William Stone received a table cloth at the state session in Loveland. Mrs. Elms Bryman was reported convalescing at the Wood River Convalescent center, Shoshone.

Plans were made for the annual potluck picnic to be held Aug. 12 at the home of Mrs. B. P. Vics. Ed Taylor street. All AWM are welcome and may bring a guest.

A gift donated by Mrs. D. Blum-ford will be sent to the national convention. Mrs. J. Sinclair was a guest and assisted Mrs. Rose Sinclair in serving refreshments.

It was decided that a project for the achievement contest for the group would be left to the discretion of the executive committee since there will be no summer meetings until Oct. 6. It also was decided that each member be assigned to cover the cost of the project, which also will be assisted by the committee.

Mrs. Grant Carlton was secretary.

30-DAY PHEASANT SEASON, HEN LIMIT ASKED BY SPORTSMEN

Crop Damage Spurs Bid For Hen Opening Over Last 10 Days of Season

SIOSHONE, July 11.—An open season on hen pheasants over the last 10 days of a 30-day season was recommended to the state fish and game commission by the Fourth District, Federated Sportsmen club Friday night. After hearing conflicting reports of heavy pheasant damage on the Northwest and negligible depredation on the south side and the Burley-Rupert areas, the district upland game committee approved a 30-day season with a limit of four roosters. On the last 10 days of season, it is recommended, no limit should be included but the aggregate be a four-Northwest farmers, particularly those in the area south of Weidell, called for almost open warfare against the pheasants. A recommendation from the upland game committee, apparently hard hit by a surplus of birds, called for a four-day limit that would include two hens for the full 30 days.

18-Year-Old Sets Record in Swim Meet

LOS ALTOS, Calif., July 11 (AP)—Mike Troy, 18-year-old Indiana university sophomore, tonight established a world record when he swam the 200-meter butterfly in 2:16.4 during the AAU national men's championship. Four new American records and new meet standards also were set. Troy, who is swimming for the Indianapolis athletic club, set his name in the book of world records because the International Amateur Athletic Federation last year decreed that the first person to break 2:17 would be recognized as the holder of the world record.

Dodgers Whip Braves, Climb Into Second

By The Associated Press
A five-run outburst in the fourth inning, featuring Roy Campaner, Demeter and Charley Neal, pulled the 4-6 Los Angeles Dodgers from behind and gave them a 7-5 victory over the stumbling Milwaukee Braves Saturday.

Caldwell Miss Mas Bowling Golfing Crown

PORTLAND, Ore., July 11 (AP)—Ben Wiley of Vancouver, B. C., won the Pacific Northwest amateur golf championship Saturday with a score of 149 over Dick Sterns of Portland while the women's title went to Shirley Engstrom, an 18-year-old from Caldwell, Idaho, who blitzed Elaine Potts of Astoria.

Ingo Plans To Be 'Fighting' Champ

STOCKHOLM, July 11 (AP)—The Swedish champion, world heavyweight champion Ingemar Johansson said today, "I won't try still a championship fight with my opponent."

9-Hole Meet Ends City Golf Clinic

Twin Falls Junior golfers collected nine-hole tournament Friday to mark the conclusion of the city recreation-sponsored golf clinic on the directions given by city course pro Cliff White.

ISC Receives 25 Job Applications

POCATELLO, July 11 (AP)—Athletic director John Vasser of Idaho State University announced he had 25 job applications in mind yet for a replacement for departing coach Jack Vesser, who said he has received 25 applications since Greyhound was announced as coach Tuesday, said he hopes to recommend a candidate for the job.

Cure Sought for Knuckballer

MADISON, Wis., July 11 (AP)—Manager Paul Richards of the Baltimore Orioles has prescribed a cure for the knuckballer's breathing plagues and fast ball. The Oriole manager also thinks the knuckballer's fast ball might help put Wilhelm back in the winning ways. He's been seeking a cure for the knuckballer's fast ball, losing four in a row after winning nine straight this season.

Keeping Reins Tight

A track employee tried to keep a tight rein on Lady Noon as the filly reared in the Hollywood park track and started to fall backward with Johnny Wadley. Fortunately the jockey fell free and scrambled out of danger as his mount regained her feet. The rider escaped with only a bruised knee. The high-strung thoroughbred horse was not injured. (NRA photo)

Grandslam Homer, Row With Empire Sends Boston Past Yanks

By The Associated Press
Don Buddin's grandslam homer of Bob Turley in the 10th inning of a stormy marathon enabled Boston to pull out an 8-4 victory Saturday over the stumbling New York Yankees. It was the third straight triumph for rollicking Red Sox over the world champions who saw umpire Bill Summers banish their battery at the start of the odd Duran-fired fast ball. Summers called it a third ball and the heated words of catcher Yogi Berra brought his quiet dismissal as soon as the senior arctic could pull the mask from his face.

Miss Gunderson Wins Western Golf Crown

By The Associated Press
CHICAGO, July 11 (AP)—In a match of spectacular shots, Jo Anne Gunderson, Seattle, defeated Marg Lindsay, Decatur, Ill., 6 and 4 today to win the 69th women's Western amateur golf championship. Miss Gunderson, 20-year-old physical education major at Arizona State and 1957 runner-up at a national amateur tournament, never was down and only once did her 34-year-old opponent, the Western's 1952 champion and 1952 Country club team member, pull even. That was on the sixth hole of the morning round.

Castellani Is New Coach for Minneapolis

MINNEAPOLIS, July 11 (AP)—Johnny Castellani was named coach of the Minneapolis Lakers today in a move that reunited him with his college meat tick, high-scoring Elgin Baylor.

Olmedo Returns to Scene of Defeat

CHICAGO, July 11 (AP)—Alex Olmedo, his tennis star playing meteorically, returns this week to the scene of past defeat in the 1958 annual national clay court tennis tournament.

Ezzard Charles Sets Boise Bout

BOISE, July 11 (AP)—Ezzard Charles, former heavyweight champion, will fight Boise coach Oscar Lopez here July 20. Promoter Al Berro, who announced the fight Thursday, said Lopez has been in Boise's fight grounds since the 23rd.

U.S., Russians Set Track Meet

PHILADELPHIA, July 11 (AP)—The U.S. and Russia meet head-to-head in a track and field competition here Saturday and Sunday and this time the American team is expected to have a better showing than in their first meeting with the Soviets in Moscow last year.

Campbell, Palmer Are Tied Going Into Final Round

PITTSBURGH, July 11 (AP)—Riding a steady succession of accurate putts, Joe Campbell of Knoxville, Tenn., forged a sub-par win with Arnold Palmer, of Ligonier, Pa., today after 54 holes of the Western open golf-championship. Campbell, who set a course record of 65 at the Pittsburgh Hotel Club in the opening round, came back with a 71 today and a 54-hole total of 202.

Humphreys, Allen Gain Tennis Finals

BOISE, July 11 (AP)—Favorites Albert Allen, Boise, and Brad Humphreys, Pocatello, fought through the opening rounds today to make the finals in the state boys tennis tournament here.

Boise Manager Leads Pioneer Loop Batters

SALT LAKE CITY, July 11 (AP)—The favorite in the Boise Braves is their manager, Bill Sluiter. Bill Sluiter, who owns the Pioneer League's best batting average at .322.

Sketch Is Bad But Result Is Still Correct

LOS ANGELES, July 11 (AP)—Mexico Joe Becerra boxed the way he drew, he wouldn't be the banishment champion of the world. If his art work is something less than professional, it's at least accurate.

Castellani Is New Coach for Minneapolis

MINNEAPOLIS, July 11 (AP)—Johnny Castellani was named coach of the Minneapolis Lakers today in a move that reunited him with his college meat tick, high-scoring Elgin Baylor.

Olmedo Returns to Scene of Defeat

CHICAGO, July 11 (AP)—Alex Olmedo, his tennis star playing meteorically, returns this week to the scene of past defeat in the 1958 annual national clay court tennis tournament.

Ezzard Charles Sets Boise Bout

BOISE, July 11 (AP)—Ezzard Charles, former heavyweight champion, will fight Boise coach Oscar Lopez here July 20. Promoter Al Berro, who announced the fight Thursday, said Lopez has been in Boise's fight grounds since the 23rd.

U.S., Russians Set Track Meet

PHILADELPHIA, July 11 (AP)—The U.S. and Russia meet head-to-head in a track and field competition here Saturday and Sunday and this time the American team is expected to have a better showing than in their first meeting with the Soviets in Moscow last year.

WE ARE HAPPY To Announce The Appointment OF LEE LUCICH As Our New SERVICE MANAGER

With more than 10 years experience both as a mechanic and service manager here in the Twin Falls area Lee Lucich is very well qualified. We are indeed happy to secure him as our Service Manager and feel sure that you will have no problems with your car when you bring them here. Let take this opportunity to welcome all his friends and customers to stop in and see him.

Public Forum

He Protests Use of Federal Funds on Church Hospitals

Editor, Times-News: I understand that the Hill-Burton federal aid to hospitals. Of course, our tax money provides this fund. I understand that this act passed about 10 years ago. Roman Catholic hospitals have received 112 million dollars of this money. This means that 80 per cent of all Hill-Burton funds have gone to Roman Catholic hospitals. I think we will agree that it perhaps is in our interest for federal

aid to be given to hospitals that are owned by cities, counties and states. Just as a federal aid is given to help construct public school buildings and public highways. If the American people expect to maintain separation of church and state why should government money be given to one religious institution? Does anyone know of any Hill-Burton money being given to support a Methodist hospital or a Lutheran hospital or a Seventh-day Adventist hospital? I bitterly protest giving federal aid to subsidize any privately owned or religiously owned institution. The last time you paid your hospital bill you very likely concluded that hospital care was "charitable institutional" so far as financial cost is concerned. Roman Catholics ought to stand on their own feet the same as every other privately-owned institution. For additional facts on this topic see the June, 1959, issue of "Christian Heritage" magazine page 12.

WALTER E. STRAM
(Christian Minister)
(Twin Falls)

Writer to Forum Defends Position Against Enemies

Editor, Times-News: Because of stories originated from those responsible for influence—reputation—fame—leave Twin Falls. He writes to state that she has never denounced the Bible, nor is she a member of any of the many cults and creeds she has tried to help understand the deceptions working for power within.

She is not a member of the Theosophical society, nor has she ever denounced that organization, nor any other established for the information and welfare of humanity. She believes that cults and creeds, like science and art, or anything else progressive are all intended to help men at their various levels. Her work is unconditional as well as inter-denominational, anywhere help is needed which she is able to give because of her travel, investigation and expanding ability. She has a deep understanding of the "why" of what happened to her family.

She is sponsored by scientists, teachers with high principles who have come to understand the need for the eradication of certain evils which are breaking homes and causing heartaches and misery until victims become intelligent enough to combat the situation intelligently.

At the time our family was stalked by racketeers who had inheritance in view, we knew nothing of the tactics, nor even of the existence of certain people who work for the confidence of intended victims, whose friends and relatives are then turned against the help of another if he becomes was enough to resist advances made for control.

Those who trust are soothsayers and deluded by their names and addresses attached. The evidence is arranged to be so convincing that soldiers from the law recognize the deceptions, all efforts against the victim purposefully leading to a general public opinion which would make it quite improbable that anything the victim might try to tell would be believed.

Victims are forced or influenced to assign everything they have to someone they trust to protect it and then this one is worked upon in the same trust and confidence it is right to do so. There are several clever angles of the assignment deception which every

Official Praises Paper's Account For Range Tour

Editor, Times-News: The Times-News is to be commended for the concise coverage and detailed writeup on the Twin Falls soil conservation district's annual grass seed range tour on June 21 issue. The Times-News reporter on the tour did a complete and accurate job of recording the events of the tour and the discussion and comments of various individuals.

Having served as area conservationist for the soil conservation service for a number of years in Magic Valley, I get a great deal of personal satisfaction in seeing the progress being made by the individual soil conservation districts. Certainly the 100,000 acres of grass seed in the Twin Falls district has and will continue to improve the agricultural economy of that area. The large attendance during a busy farming season certainly indicates the high farm interest in range work.

I enjoyed being on the tour and shaking hands with friends from Magic Valley.

LUTHER JONES
(State Soil Conservationist)
(Boise)

one should understand for his own protection. Under much pressure from several sources, the writer, in desperation, granted her husband a divorce for family protection from threats against their lives, threatened lawsuits and other efforts to attack inheritance. She then went forth with determination to expose those who had caused her trouble and found they were well organized racketeers with silent workers everywhere. She found many victims with little or no money through gifts and drugs so accompanying mental imprudences could bring them to bankruptcy if they were told against another.

Victims were solicited to work against their loved ones with misinformation which they were made to believe themselves. At the same time something else went out to be "heavy-handed" treat their own hands in case they might discover the deceptions and try to reveal the findings.

If a victim tried to defend himself or himself was threatened and he was disposed of if possible. Because of information being given to the contrary by those who contributed to the forced breaking of her home and driving her out of Twin Falls for their own personal gain, the writer invites anyone interested in the truth to the Rogersman hotel, Room 101, and the letters of contact which prove the other stories to be the influence of subversive characters who work as clever for a while as to make law protection impossible.

Any further information about her perfectly legitimate activities can be found by writing the Space Men headquarters, 1348 Spruce Street, Boulder, Colo. (Business and Professional building). Give destination to be sent to Space Men, Business Women's club building, 1457 Glenwood, Denver.

As proof of the type of work she is doing she will give some interesting information on the truth about space men and flying saucers which is aimed for the protection of humanity in the midst of this atomic age, Sunday at 2 p.m. at the grandstand in the Twin Falls auditorium. More information Friday at 8 p.m. in the Idaho Power auditorium.

Food Meeting to Be Held at Hotel

Headquarters for the Idaho School Food Service association convention will be the Rogersman hotel, Cecil P. Olsen, Boise, director, advised here Saturday. The three-day convocation will begin with registration at the Twin Falls high school at 1 p.m. Monday.

About 120 delegates are expected at the training meeting. Mrs. Ruth White, president, will conduct the business meetings in addition to teaching some of the classes. A 6:30 p.m. banquet will be held in the Rogersman hotel, Foundation room. The organization will elect new officers at closing business sessions Wednesday afternoon, Olsen said.

Nelson Installed Lions President

BURLLEY, July 11—Leslie V. Morgan, international counselor, installed the newly elected president of the Boise Lions club, Newell Nelson, at his weekly Friday noon luncheon meeting at Country Club.

Other officers installed are Truman Bradley, first vice president; William Nelson, second vice president; Jose Taylor, secretary; Ben Dale, treasurer; Don Norton, lion tamer; Jim Dunlap, tall waiter; and Russ Jensen, Jim Morgan, Al Thorton, and Leslie Morgan, directors. Herman Drake, outgoing president, thanked the club for its cooperation during the past year. Nelson also spoke to the group.

Family of Six Top Cowhands Works Some 1,500 Brackett Ranch Cattle

Jean Brackett, 16, darts through the sagebrush in the high country on the Idaho-Nevada border and leaves a loop for an errand young calf. There are six children in the Brackett family. They have lived on a ranch all their life and the girls, as well as the boys, are adept in the ways of the cowhand. (Staff photo-entouring)

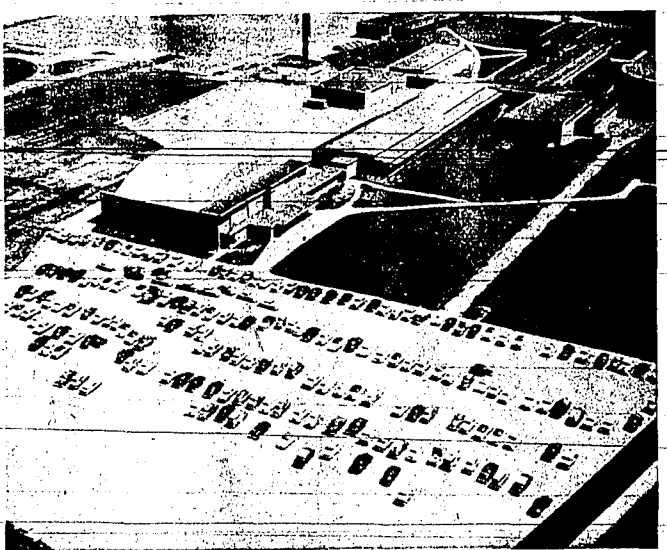

When these girls get through with this calf there won't be any doubt who owns it. Ann Brackett is welding the electric branding iron, while her sister, Jean, holds the calf. Chet Brackett has just roped the calf and brought it to the branding and vaccinating area. He walls in the saddle while his sisters finish their part of the work. (Staff photo-entouring)

The Ney Brackett family, Three Creek, works together to care for 1,500 cattle on the "Cross X" ranch. They live on the ranch near Three Creek during the non-school months and during the winter they live on a farm near Hagerman. All the family, both boys and girls, have been raised on the ranch and are trained in every aspect of cattle ranching. Even the girls can ride and rope with the best of cowhands. From left, are Ney Brackett, Mrs. Brackett, Ann, 18, twins

What Is Relationship Between Cars and Grades?

At the time this aerial photo was taken of the Twin Falls high school parking lot before summer vacation started, there were some 200 cars on the lot, all of them registered with the high school principal. Students registered cars for the first time during last school year under a control program authorized by the school board. However, there was no control over those students who chose to evade the program by parking their cars on nearby public streets. This loophole is one of the big reasons it is not possible to get an accurate picture of the auto-grades relationship here. (Staff photo-entouring)

Teen-Age Use of Cars and Effects On Grades Puzzle Administrators

The question of teen-age driving and how it affects grades puzzled school administrators more each year. Two years ago the student car problem came to the attention of Willis G. Nelson, principal of the Madison high school. Nelson studied grades of students who drove cars to school and those who didn't. He felt the results here cut his conclusions that student driving had a direct effect on grades. The Madison high school study of a class during the four years of high school. Nelson believed the listed proof that cars contributed to low scholarship. V. L. Lefebvre, principal of Twin Falls high school, compiled a brief study to determine the ratio of students who drive cars in comparison to those who don't drive in each grade bracket. Lefebvre used the grade averages of the Twin Falls class of 1959. There were 226 students in the 1959 graduating class. Lefebvre computed this ratio of students who drove cars in the 1959 graduating class. One of six B students had a car, one of two C students had a car, and this ratio reversed itself in the D category and in the F and drop-out category where six students drove cars for every one who did not. Lefebvre notes it is impossible to draw any concrete conclusions from studies such as these. He explains this is a sampling from only one class. To draw accurate conclusions he says such a study must span the driving habits and grade levels of several graduating classes. He points out the Twin Falls ratios are based only on the car registration list, and that many students who have ready access to the family car don't have those cars registered because they don't drive to school or else park off the school grounds.

The United States has been feeling the past few months that wave of interest in financial investments that has flooded across the country. This attitude toward stock ownership has its political as well as economic ramifications. Melville Nelson explains the reason for American sharing in the profits of American industry through stock ownership, we have solved the problem of communizing and socializing in America. Although Idaho follows shortly behind the national interest in investment buying, according to Melville there has definitely been an increase in interest in investments here in Twin Falls since last fall. He attributes this to two primary causes. "The public thinking has turned to interest in securities because of a fear of future inflation and the lack of confidence in the purchasing power of the American dollar." Such investors want to get their money invested in a type of investment that will keep pace with the inflated dollar, plus the effort on the part of the business to get more people to invest in the national industry. And more persons are asking themselves, "we are a capitalist nation, why not share in the profits of these companies?"

Progress on Kayak Project Shown by Explorer Scouts

Your Explorer Scouts, members of post 67, kneel by two kayaks they are constructing. The kayak on the left is covered with canvas and is ready for the final touches. The kayak on the right is simply the framework. From left the boys are, (front row) Neal Custer, son of Mr. and Mrs. Marvin Custer; Hilky Willard, son of Mr. and Mrs. Claude Willard; back row, Jim and Howard Kelly, sons of Mr. and Mrs. Art Kelly. The boys earn money to buy materials. (Staff photo—Erving)

Explorer Scouts Build Own Kayaks in Preparation for Trip on Snake River

Twin Falls Explorer Scouts post 67 has started a project to build their own kayaks. The project is sponsored by the Twin Falls Methodist church. The kayakers will use the kayaks for a long kayak excursion on Snake river from Blue lakes to Thousand Springs. The 14 members of the post are in the process of running a small kayak factory. They have completed five kayaks and eventually hope to build one kayak for each member. Donald Baldwin, post adviser, explains that post members recently chose boat building as their specialty. Each post throughout the nation is being encouraged to choose a specialty in which to excel. The post is sponsored by the Twin Falls Methodist church. Posts choose such things as taxi, derby, radio electronics, astronomy, or any field that strikes members' fancy. Baldwin explains his post chose the kayak project because of the abundance of navigable water in this area. "We figured we had plenty of water around here, so we decided to kayak in the water. Last Tuesday Baldwin took several members from the post to a point just above Thousand Springs and then attached a 34-horsepower outboard motor to his kayak and pulled three other kayaks up to Devil's Corral. The boys have been making the various wooden parts of the kayaks at the Potlato Equipment company. They use power tools available there and their own tools to put the kayaks together. Baldwin estimates it takes about 20 hours to build the kayaks and about \$20 worth of materials is needed. Earning Money Most of the boys are doing the major portion of the construction by themselves. Baldwin says the boys are paying for the kayaks with earnings from such work as mowing lawns, hoeing beets and working in stores in Twin Falls. Baldwin adds the post hopes eventually to sell some of the kayaks and turn the money back into the post treasury. He estimates the kayaks will sell for about \$16. They are canvas-covered with a plastic frame. The canvas is painted with aliphane dope and then a layer of rubberized paint is applied. Canoe Plan Dropper Post members originally intended to construct fibreglass canoes, but they proved too expensive, about \$40. Eventually post members plan to build sails for all the kayaks and possibly use the money back into the post treasury. The light, 35-pound kayaks will move through the water at about five miles per hour when equipped with a 15-foot sail made of an old bedsheet. Baldwin notes there is a possibility of getting kayak calling races organized between different Scout posts throughout this area.

This is one of the kayaks just finished by Explorers of post 67. Eventually they plan to build about 14 kayaks, one for each member of the post. Later in the summer they plan to take a river excursion from Blue lakes to Thousand Springs. Don Baldwin, left, post adviser, points out the kayaks will be useful in teaching water safety, sailing, and other water activities. (Staff photo—Erving)

Hansen Citizens Report Journeys

HANSEN, July 11—Gladys Southman, Pocatello, left for her home after visiting her aunt, Mrs. Jack Long, and family, Mr. and Mrs. W. C. Schiffrin, Los Angeles, and other relatives. Mr. and Mrs. Carr Wiseman left for their home in Milford, Utah, after visiting his mother, Mrs. C. M. Wiseman, Hansen, and her mother, Mrs. Anna Werner, Twin Falls, and other relatives. Mr. and Mrs. Kenneth Werner and family, Kansas City, Kan., visited his mother, Mrs. Anna Werner, and brother, Clarence Werner, Hansen. They also visited his sister, Mrs. Carr Wiseman, a former Hansen resident, who is stationed with the air force in Kansas City. Mrs. Burton Smith returned from Caldwell, where she has been visiting her mother-in-law, Mrs. Nora Smith, and Mr. and Mrs. A. B. Cobb. Her daughters remained at Caldwell. Life in MAGIC VALLEY

"Snookie," 3-year-old Boston terrier owned by Mr. and Mrs. Dan Shaver, Buhl, enjoys "smoking" a pipe as well as her master. She started the habit two years ago, first she sat on the arm of her master's chair watching him smoke his pipe, and would then start whining and look longingly at his pipe. The Shavers finally came to the conclusion she wanted to hold a pipe. They gave her an old pipe, but it didn't seem to suit her. Finally they purchased a small black pipe, which she has been "smoking" ever since. When she has the pipe in her mouth she holds it in her teeth and smokes it. She has shed it during hot weather but also wears an overcoat during cold weather, having two changes, one red and a green one. The Shavers have had the dog since she was three months old and have trained her. They purchased the dog to give to a niece as a gift. It seems the niece had not to have the dog. The Shavers even tries to "talk" when she takes it to give her to their niece, but became so attached to her, they decided not to part with her.

Northwest Folks Visit in Wendell

WENDELL, July 11—Mr. and Mrs. Jack Tiffany and three children, Everett, Wash., are visiting Mrs. Margaret Beteridge, mother of Mrs. Tiffany. They also will visit in Twin Falls and Boise. Mrs. Grace Urban has gone to Tumble, Mo., to visit her mother, Mrs. H. H. Irwin, who is 85 years old. Stan Wayman, Dugway, Utah, was a guest this week of his niece, Mrs. E. E. Parr. Mr. and Mrs. Ray Tener returned Tuesday from visiting Mr. and Mrs. Ray Tener, Kimball, Neb. Mrs. Myrtle Jeffries, Idaho Falls, is visiting Mr. and Mrs. Frank Jeffries.

Return Home

GASTLEFORD, July 11—Mr. and Mrs. H. F. Eastwood have returned home from visiting Mrs. Cook and children, returning with them for a week's visit. House guests of Mr. and Mrs. Earl Hudson were their daughter-in-law, Mrs. Helen Hudson, Panama City, Fla., and Mrs. and Mrs. Robert Hudson, Port St. Joe, Fla.

VISIT IN HANSEN

HANSEN, July 11—Mr. and Mrs. Harold Frost and family, who have left after visiting Mr. and Mrs. H. V. Walker and family, and Mrs. Raymond Pauley, Twin Falls, Mo. Former residents of Twin Falls, Mr. and Mrs. Walker family and other relatives.

Daughter Helps With Chore of Spraying Dairy Barn

Lois C. Hranec, farmer's spouse of Hansen, sees that the spray gun-used by his daughter, Arlene, to spray flies in the dairy barn, is working properly before going out into the corral to use his larger power-driven spray outfit. Hranec is also considering the use

of a cord dipped in Dioxanone or Parathion later in the season. Reports from the department of public health, Boise, state that the residual effect of these drugs are from five to six months in some areas in the country. (Staff photo-entouring.)

Highly Reproductive Flies Are Large Problem for Magic Valley's Dairymen

During a summer season, if all the offspring survived, one pair of flies would produce 101 septillion more flies, according to Keith A. Harvey, acting director of the southeastern district health unit. Among Harvey's other duties, he is also inspector of grade A dairies in the health district.

Dairymen are familiar with milk rejected by creameries because of the presence of one fly in a can of milk or with fly specks on the walls and ceilings in their barns that are so annoying when the inspector makes one of his visits.

Transmit Diseases
Besides spreading bacteria counts in milk, flies transmit disease like typhoid, infectious hepatitis, dysentery, and are even suspected of transmitting polio.

On the farm, the mass and stable fly breeds in blood-sucking habits.

Odd Hunks of Metal Are Found in Disposed Cows

Among objects found in about 50 per cent of the disposed cattle brought into the point of the Idaho State and Tallow company, Twin Falls, are metal objects such as pins, paper clips, bent balling wire and barbed wire, some six or seven inches long. Recently a group of nails enclosed in a rubber band were found in an animal.

A local veterinarian states that in time many metals are dissolved by the tremendous vat of digestive juices in the cow's stomach, but some come out by personnel at the rendering company who find many shiny objects turned over to the veterinarian reported about many cases of indigestion are really metal shanks in the rumen of the animal. He adds that the insertion of pellet-shaped magnets with the rubber band into the rumen, has helped keep much trouble out of the feedlot.

Warm Temperatures of Milk Help Boost Count of Bacteria

Not only dairy utensils but warm temperatures of milk delivered to milk plants in the city will increase the bacteria count and cause rejection of summer milk. A usual rule is to show how fast bacteria multiply in milk kept overnight without cooling. In double the count every 20 minutes. The milk from the herd, at 60 to 70 degrees, will double in 20 minutes. The count will be 100,000 in 40 minutes, 4,000,000 in 80 minutes, and so on. In six hours, the bacteria count will be more than 131 million, which will be rejected under any test.

Insurance keeps your investment from sinking, too!

Grange Meets

Members of the Twin Falls Grange met Friday to write Idaho Senators and representatives, recommending the federal government to increase funds for controlling noxious weeds on federal lands.

Members of the board met on Tuesday at the home of Mr. and Mrs. Robert Harvey when a cent roast and hamburger supper will be held Sunday, Aug. 2, at the Mountain club.

The Grange will meet again July 23, at the home of Mr. and Mrs. Robert Harvey when a cent roast and hamburger supper will be served.

Harvey states point out that flies are building resistance to these chlorinated hydrocarbons. The effectiveness of these sprays has varied from two to four weeks in Magic Valley dairy barns. A comparatively recent insecticide which bears by the trade name of Trithion has been reported to give a residual effect for six to eight weeks.

Cords impregnated with parathion or dioxanone, 30 feet of cord for every 100 square feet of space, has given residual effects of five to six months in dairy barns, according to Idaho public health department.

Lowest Toxicity
Contact spraying of flies in dairy barns is accomplished best by Pyrethrum and allethrin, which are highly recommended by the Idaho health department. Both chemicals have about the lowest toxicity to man, and are used in many insecticides.

A warning was issued by Harvey in connection with thermal granulators. These insecticide vaporizers are becoming increasingly popular in homes, farms and food establishments. The equipment dispenses lindane and DDT, both of which are toxic. Dosage rates have been too heavy in closed areas, and they are prohibited in milk rooms, milk processing plants and other similar establishments, he notes.

SCAM REMOVED
LONDON, July 11 (AP)—The Duchess of Windsor has had a successful operation for the removal of a skin blemish, some of it being from a fall aboard ship last May.

Correction

The seven-acre field abandoned to weed growth to permit effective spraying by the county weed bureau, was mistakenly described as situated on a road by Mark Knut.

The field is owned by Stanley Crow, two miles west and one and one-fourth miles south of South park. In a photograph of three men inspecting the field, Stanley Crow was mistakenly identified as Mark Knut.

Alfalfa, Soil Nutrients In County Being Tested

An opinion about nutrients in alfalfa and the soil in which it is grown in Twin Falls county is being forthcoming from a soil and plant analysis survey being run by the University of Idaho extension service in cooperation with the National Plant Food Institute.

Warren Digh, Twin Falls county agent, took samples of alfalfa and soil prior to the first cutting of alfalfa. Samples came from seven different area farms, which included the Salmon tract, Artesian and Back creek areas.

Plant samples will be analyzed for protein, phosphorus, potash, calcium, and boron. Soil samples will get a routine check at nitrogen, available organic matter, available phosphorus and potash.

Weed Board Asks More U. S. Funds

Members of the Twin Falls weed board met Friday to write Idaho Senators and representatives, recommending the federal government to increase funds for controlling noxious weeds on federal lands.

Spud Inspection Shows No Second Growth

Wayne Parish, right, fieldman and spud buyer for J. H. Henry Produce company, Kimberly, is checking a field of early potatoes grown by Floyd Stanger, right, near Hansen, on highway 30. Parish didn't find any hills with second growth, which was apparent in many fields of new ground planted between April 1 and 20. Stanger, who also farms pumpkins south of Hansen and on Haxelton place, said he saw some second growth damage on the newer ground but not on his home place. (Staff photo-entouring.)

Quality Loss From Second Growth in Russets Planted Early May Be High

Repeats from various potato buyers and fieldmen throughout Magic Valley indicate that the quality of early planted Idaho russets may be high because of unusual June weather. One report from Minidoka county also revealed that the quality of russets planted between April 1 and 20 will probably be up about 30 per cent, and damage to No. 12 about 50 per cent, to some degree.

Wheat also reported about 30 per cent of the early crop he inspected had some damage during June's hot and then cold spell, some of it being some of it being from a fall aboard ship last May.

High Price for Early Potato Crop Brings Futures Guesses

What will street sales of Idaho russets in the Chicago market, quoted at \$2.20 per hundredweight, would mean about \$1.50 to the grower, if he had any, some price as the russets. Reporters indicate that these prices are beginning to command the same high price may be here for "earlies" at harvest time in early September.

Presently in the King Hill area, Bob Weaver reported he saw only four acres of Gems which are about ready now. Other early spuds and buyers are looking hopefully for a price of about \$2 to \$2.50 for Idaho russets in early September.

Paul L. Hansen, Heyburn area manager for Simpkins, reported neither he nor his four fieldmen were alarmed over any second growth in the "earlies" on the north side, nor about the stolon formation which occurs in any sudden change of weather. He is concerned, however, with the frost that settled in this area Tuesday night. Hansen said it arrived across the leaves turned black eight inches down from the top, which will set the tuber formation back from 8 to 10 days.

WORK ON PROJECTS

HANSEN, July 11—The Learning Lease 4-11 club dispersed with its business meeting and worked on projects at the last meeting held with Mrs. M. P. Wellhousen, Marilyn and Betty Martens served refreshments.

Wheat also reported about 30 per cent of the early crop he inspected had some damage during June's hot and then cold spell, some of it being some of it being from a fall aboard ship last May.

Paul L. Hansen, Heyburn area manager for Simpkins, reported neither he nor his four fieldmen were alarmed over any second growth in the "earlies" on the north side, nor about the stolon formation which occurs in any sudden change of weather. He is concerned, however, with the frost that settled in this area Tuesday night. Hansen said it arrived across the leaves turned black eight inches down from the top, which will set the tuber formation back from 8 to 10 days.

Another who thought that the second growth was worse on new ground was a fieldman for the Simpkins area. He also said it was worse on sloping ground, because of the greater exposure to the heat in June, and the poorer intake of irrigation water.

Paul L. Hansen, Heyburn area manager for Simpkins, reported neither he nor his four fieldmen were alarmed over any second growth in the "earlies" on the north side, nor about the stolon formation which occurs in any sudden change of weather. Quality Loss From Second Growth in Russets Planted Early May Be High

Repeats from various potato buyers and fieldmen throughout Magic Valley indicate that the quality of early planted Idaho russets may be high because of unusual June weather. One report from Minidoka county also revealed that the quality of russets planted between April 1 and 20 will probably be up about 30 per cent, and damage to No. 12 about 50 per cent, to some degree.

Wheat also reported about 30 per cent of the early crop he inspected had some damage during June's hot and then cold spell, some of it being some of it being from a fall aboard ship last May.

Girls Help Cut Steer From Herd as Family Works Cattle on Range

Three of the Brackett girls cut a steer from the herd. Except for extremely busy times of the year, such as the haying season, the family takes care of 1,500 cattle. Their father, Roy Brackett, runs the country in south Idaho and northern Nevada.

During the winter the family moves to a farm near Hagerman and the children attend school there. But the youngsters are always anxious to return to their summer home.

Mother on Hand to Help With Chow

Mrs. Nov Brackett, left, helps her daughter, Ruby J., 13, to some beans from a Dutch oven. Beans still are a popular fare on a working cow outfit. The only major difference is that a four-wheel drive station wagon has replaced the old horse-drawn chuckwagon. (Staff photo engraving)

Six Top Cowhands on Brackett Ranch Have Voice in Running 1,500 Cattle

(Continued From Page 11)

16, twins, Bert, 14, Ruby J., 13, and Chet, 11.

Except for in the spring when Brackett gathers all his cattle in one big herd for classification, the Brackett family stone take care of the ranch.

According to Brackett, "This is the best working bunch of hands I've ever seen." He attributes their interest in the welfare of the ranch as the reason for their enthusiasm.

Interest in field

In an age when the younger generation is sometimes prone to "lose interest" in parents' farming or ranching activities and cast their eyes toward city jobs that involve less hours, easier work, and possibly more money, Brackett has succeeded in holding the interest and enthusiasm of six imaginative and hard-working youngsters.

How do you capture the interest of such "hot" youngsters? Brackett has been able to do this by making his children realize they have a share in the future of the ranch.

One way is to give each some cattle. He explains that when each of the boys was younger he gave them a few head of cattle.

Here's How It Works

Through the years the boys' herd has grown to about 30 head of cattle. They use the same "Cross Y" brand, but they put the brand on the ribs instead of the hip. The girls don't have their own brand, but Brackett has told them anytime in the future they may have the cows or the money equivalent of each boy's herd to use as they see fit.

Brackett points out that since each youngster has a tangible in-

vestment in the ranch's operation, they naturally have a greater interest in its care and welfare.

This was illustrated graphically several years ago by an incident at the Brackett dinner table following a hard day's work in the hay fields.

Had Been Working

The Brackett children, who were considerably younger then, had been working feverishly all day digging poison parsnip or water hemlock from the hay fields.

During the course of the dinner that evening one of the hired hands "reared" the children about how hard they had been working that day.

This ruffled Ann who declared "sure, and if you had an interest in this place like we do, you'd work harder, too!"

This silenced the man and yielded the opinion of all the children.

Explains Why

Explaining why it is almost impossible to get such good hands, Brackett says, " fellows who have the ability of these kids don't work for wages — they have their own ranch."

Although the children are getting firsthand experience in the fine art of managing a large ranch, Brackett is not one of those parents who insists the children should follow in his footsteps, even though the Brackett family has ranched there since 1860.

He realizes each individual must choose his own life's work in order to be truly happy, and successful. He has told the children that anything they want to do is alright with him, but he has explained to them that until they

of Hagerman, was a good example of the family making a decision together.

During the actual ranch operation no job is too difficult for any of them. For example, on the day concerned in this story, the family helped get breakfast. Then Brackett hauled horses to a point between the Jarbidge mountains and Elk mountain. The boys started driving cattle to a point of concentration miles away. Later in the morning the girls aligned them. By noon they had assembled a herd of about 500 head and were ready to begin branding and vaccinating.

Girls Rope, Too

Both boys and girls roped the calves and took part in the myriad chores. The girls throw a wicked loop and can wrestle the calves to the ground just as ably as any experienced cowhand.

And the amazing thing is they can do this and still look fresh and pretty. This is a change in itself, for most cowhands aren't known for their beauty.

Ride Hanks

After the spring and early-summer cattle classification is over and the cattle are put in their respective ranges—this simplifies the fall roundup—they spend the rest of the summer riding the range fixing fence and working in hay fields.

According to Brackett, the girls work the hay fields, too. The girls drive buck rakes, sandwiche this work with work in the corals and housework.

Around the ranch there is plenty of work. They care for chickens, horses, 4-H calves and milk cows. Brackett notes that even the girls can milk the cows.

They also have time to break horses. Brackett says the youngsters get their own horses when

they are first able to catch, saddle and ride a horse. Bert holds the record—he got his first horse when he was 4 years old.

Such self-reliance is common among the Brackett cowhands. Last fall Brackett was unable to be on hand when the time rolled around to slaughter a steer, so the youngsters did it.

In the fall they take the harvest vacation that is given most students at Hagerman high school. But, as Brackett says, "They work with cows instead of spades" the herd. They wear and dehorn calves and classify the herd into the weak and strong cattle. The weaker cattle are kept nearer the ranch during the harsh winter weather.

Asked what he believes the youngsters get from such close association and hard work, Brackett says, "For one thing they get a kind of comradeship that they can't get elsewhere."

Brackett feels he has a certain advantage in that he was raised outdoors and he wants to give that advantage to his children. He adds, "There is an advantage to this type of life, and I feel sorry that more kids can't spend more time outdoors."

"Mother Nature and Father Time will heal a lot of wounds. If more kids were busy, there wouldn't be the high rate of juvenile delinquency."

Evidently Brackett has a formula for raising children that should be adapted to city living in some manner. Maybe one of the keys to his success in raising six healthy, intelligent and curious youngsters on a remote ranch in southern Idaho is the manner in which he always starts a work project.

He says, "I never ask them who would do a certain job — I ask them who wants to do it."

There are no clock-watches on the ranch.

Navy Man Visits

KING HILLS, July 11—Mr. and Mrs. Harley Heim and family, San Diego, are visiting his parents, Mr. and Mrs. Emery Heim, and family. Heim is on leave from the navy. Joe Hiteaman, son of Mrs. Denver Allred, and Worth Heim, son of Mr. and Mrs. Emery Heim, have

gone to San Diego to begin basic. Their parents' accompanied training after existing in the navy.

Girl Cowhand Wrestles Down Calf in Roundup

Ann Brackett, 18, a 1959 graduate of Hagerman high school, wrestles with a young calf during a late spring roundup on the Nov Brackett ranch, Elmo Creek. Her brother, Chet, 11, has just roped the calf and pulled it from the main herd. Next fall Ann will be a freshman at Colorado Women's college, Denver. (Staff photo engraving)

Guests Noted by Fairfield People

FAIRFIELD, July 11—Guests at the Chester Dickinson residence were Mr. and Mrs. T. Walruth, Orofino.

Mr. and Mrs. I. J. Manweiler, Rathdrum, and Jack McVay, New Haven, Conn., are visiting Mr. and Mrs. Howard Manweiler and son, Mark.

Mr. and Mrs. Max Hansen and family attended the wedding of Mr. and Mrs. Raymond Brooks in Boise July 4.

Mr. and Mrs. David Williams and daughter are visiting with Mrs. Laura Reynolds. They are from Oregos, N. V.

Mr. and Mrs. E. M. Cunningham have returned to Fairfield from Idaho Springs, where while they have been residing for some time.

New, Powerful Telescope Smaller Than Old

Norman Herrett has invested in a new telescope that is approximately eight-times more powerful than the former telescope that has been used at the observatory the last several years. The new telescope is on the left, and is much smaller than the older, less powerful telescope. The new telescope is a new concept in telescope optics and, according to Herrett, this is the largest such telescope that has been made in the United States to date. (Staff photo-gravering)

Revolutionary New Telescope Arrives For Use by Observatory in Twin Falls

Norman Herrett, guiding light behind Herrett's Observatory, Twin Falls, has a Maklutor Chaldorite Cassegrain, a new revolutionary design in observatory telescopes. In the layman's language, it will enable the observer at the observatory to view pockets and craters on the moon as if they were no further away than Idaho's own Sawtooth mountains.

Delivered June 27
Herrett's new telescope was delivered June 27 after being under construction more than a year. It was made for him by John Mellish, Escondido, Calif., a well-known lens grinder since 1947.

The new telescope has been installed in the observatory and is ready for public use. The other telescope which has been used for the past three years, has a focal length of eight and one-half feet. The new telescope has a focal length of 18 feet and a magnification power of 800, compared to the older telescope's power of 100.

Smaller in Size
The odd thing about the new telescope is that it is the smaller of the two telescopes in size. Herrett explains the new telescope is a revolutionary design and the first "make" change in telescope optics in 200 years.

The telescope combines the features of the two main systems, the refractor and reflector telescope. "By an extremely complicated lens and mirror design the light rays are passed back and forth through mirrors, increasing their magnification each time. This makes it possible to cut the physical length of the tube to 36 inches for convenience in handling, transportation and housing."

The telescope has a 10-inch diameter lens, and the lowest power possible is 200, compared to seven power magnification offered by the average binocular.

Designed by Russian
This high magnification will enable a skilled operator to distinguish objects on the moon as small as a conventional city block.

Herrett notes the new telescope was designed a few years ago by a Russian astronomer named Maklutor. Although there is an optical company in the United States that makes a small telescope utilizing the Maklutor design, this is the first one Mellish has made.

Herrett says so far as he knows, this is the largest Maklutor design telescope in the United States. Herrett first heard about the design five years ago and has been interested in getting one since then.

In terms of this telescope, Herrett notes this observatory will enable local astronomers to reach further out into space and study different constellations and to delve further into the smaller centers of the moon.

Photos Planned
He adds the presence of another telescope enables more persons to enjoy the facilities of the observatory at the same time.

Herrett says the telescope probably will be used for photographic work in the future.

Herrett directs the equipment at the observatory is available for the public use. Calls or groups of 20 to 50 may phone for an appointment at Redwood 3-0658. During the next month observers will have the opportunity to see three planets in one evening, Venus, Jupiter and Saturn, and their respective moons. The public also can visit the observatory, without appointment, during the evening hours, between July 10 and 15, to observe the new moon.

MAGIC VALLEY PORTRAIT John Flatt Has Contacted Big Number Of People as Educator and Salesman

There are few men in this country who have had as much personal contact with so many people as John Flatt, presently a chemistry teacher in the Twin Falls high school, former principal of Twin Falls high school, and for the last three years a part-time insurance salesman for the Equitable Life Assurance society.

He has taught in the Twin Falls high school since 1928 and estimates that during those years he has gotten to know about 15,000 students relatively well.

Has Been Active
Throughout the "hazy" years he has been active in education. He has been active in educational affairs in Twin Falls and the state and also an active participant in various community affairs.

Flatt was born in Nepesee, Idaho, the son of a wheat farmer and cattle rancher and one of nine children. After attending public schools in Nepesee he entered Spokane university. He says, "I went to school with \$400 in debt and \$20 in my pocket." He was able to enter college because of an athletic scholarship.

When he first entered college he originally intended to go into dentistry, but an unusual accident changed his plans. He was struck in the left eye by a baseball. Because of the damage that was caused he was advised not to go into dentistry because of the great amount of reading required.

Never Been Lazy
"So he transferred to education, and has never been lazy. After I realized that by teaching you could help young people grow into better people, I didn't have any regrets."

After graduation from college in 1928 he taught school at Crainville, Idaho. There he taught science classes, coached all the sports, and also served as principal.

In 1928 he came to Twin Falls from 1928 to 1941 he coached all branches of sports and taught various science courses, general science, biology and chemistry.

From 1941 to 1956 he was principal of Twin Falls high school. In 1956 he changed from administrative work to teaching chemistry.

He has enjoyed the many years he has taught in the public schools. "I get a great deal of satisfaction out of teaching young people," he says.

Flatt notes it isn't just enough to attempt to teach the various school subjects to students. "A teacher also must give a philosophy, objectives and purpose to the students. If we are going to perpetuate the American way of life we must do this with our young people."

He has always tried to get the student to reach his fullest capabilities.

"I try to make them feel important and that they are worthy, while and that they have a duty to serve their fellowman. I don't care accomplishing the work in hours, between 7 and 10, to observe the new moon."

JOHN FLATT

think you can say a life is successful unless it has been devoted to the betterment of mankind.

"I've never been able to get away from what my mother once told me. She said, 'Mind a spot where you can do the greatest amount for the greatest number.'"

Asked if he has seen a change in high school students during his teaching years, he says, "I believe they are more self-reliant and more wholesome, in their overall concept of life, their community, and their government than they were 20 years ago."

He believes the average high school student of today is a much more sophisticated person than his counterpart several years ago.

"These past few years have been dynamic years and they have been alive to them." He points out that young people of the nation are serving their fellowman. "I don't care accomplishing the work in hours, between 7 and 10, to observe the new moon."

Both science and the well-balanced school curriculum is a must today. Technical advancement is fine, but it must be paralleled with advancement in the arts.

Speaking of young persons who are considering entering the teaching profession, he says, "If they like young people and want to make a contribution to their fellowman, there is no better way of life."

"I'm so bold as to say that through our educational system our way of life will be perpetuated. Our young people are our greatest national resource."

"I sometimes tell my students that they can't all be A's in certain subjects, but that they can all be A's in citizenship, motherhood and fatherhood."

"High School Activities Flatt entered the part-time insurance business three years ago.

Unit to Serve Banquet for Class Events

During the summer he works at this full-time, and during school he works just on Saturdays.

He has seen many cases where the lack of insurance work has been essential. He notes he has made many of these insurance cases a hobby.

Life Insurance
He explains this interest in insurance was prompted during the course of his teaching career when he had seen many cases where the lack of a good insurance program had ruined estates and left survivors with next to nothing to live on. He felt that insurance work because it can do so much for so many," he says.

Right now he is trying to keep up with his thriving business, and he estimates he will make the million dollar mark in insurance sales during this year.

Flatt was elected the first president of the Idaho State Principals' Association in 1954. The purpose of the organization was to include the principals throughout the state together and standardize the education requirements of high school students. He also wrote the constitution for that association.

Received Certificate
In 1954 he received a certificate of appreciation from the National Association of Secondary School Principals for distinguished service to the advancement of secondary education during that year.

In 1947 he was president of the Twin Falls Kiwanis club. He also has received the Junior Chamber of Commerce distinguished service award for general service to the community.

And he has served on many committees that have contributed to the community's growth, such as committees that worked for the new hospital, airport and city hall.

Preaches Job
Currently he is serving on the parks and recreation committee and the finance committee for the new civic auditorium. He is serving on only two committees now because he doesn't want to spread his committee work too thin, and he adds that he likes to encourage younger persons to take part in community affairs.

"A community can't grow unless

KINO HILL, July 11—The Kino Hill Grange will serve the banquet Aug. 1 for members of the Reducing Club from 1943 to 1951.

The event will be held at the Grange hall with Mrs. William Cain, home economics chairman in charge of arrangements.

At the Grange meeting a week, Arthur Gray reported on the new midway made at the Grange hall with Mrs. William Cain, home economics chairman in charge of arrangements.

Members voted a 50 cent membership fee for the Grange club training fund.

It was reported the Idaho State Principals' Association will hold its annual summer picnic at 7 p.m. Tuesday in the Hull Memorial park in Glens Ferry.

Those attending are asked to bring a covered dish and their own plate.

Refreshments were served by Mrs. William Cain and Mrs. Cecil Dett.

STATIONED ON COAST
RUFERT, July 11—Martin Arthur Cpl. Thomas C. Ruffert, 21, of the 1st Marine Air Squadron two at 2100 Roosevelt square at Santa Ana, Calif., is serving with training corps at the Washington Curatorial Journal.

Retirements were served by Mrs. and Mrs. William Cain and Mrs. Cecil Dett.

These attending are asked to bring a covered dish and their own plate.

Refreshments were served by Mrs. and Mrs. William Cain and Mrs. Cecil Dett.

Area Interest Increases In Purchase of Stock

Decline in the purchasing power of the dollar. The value of common stocks has increased in proportion to the overall growth of our economy for the past 100 years.

Second Reason
Melville says the second reason for interest in the stock market is "More education of the public in relation to the stock market as a whole." He explains this comes from special publications and all the mass media.

"The companies, in their annual meetings, have tried to get the idea of investing in a share of the American business across to the public as a whole."

According to Melville, big business need the little man's dollar to finance expansion for new plants, equipment, research, personnel and all the other dollars eating projects of big industry.

Owned by Little Man
Pointing out how some of the largest organizations are owned by the little man, Melville says, "For example, no one individual or corporation owns as much as one-tenth of one per cent of the stock in American Telephone and Telegraph."

Melville says there are three basic ways in which an investor can invest in the stock market through an outright purchase of stock through a broker-dealer investment firm, by buying stock from an individual owner, or by buying shares in investment trusts, or mutual funds, either in lump sum purchases or on a monthly or quarterly basis.

The last method is a rather common manner in which new investors make their investments.

Experienced Investors
The mutual funds are run by experienced investors. The investors' money is invested for them in many different securities, giving them a broad diversification and a certain degree of protection against risk.

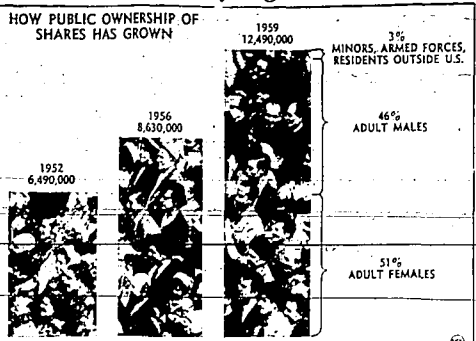

According to J. P. Doherty there are now more than 200 such funds in the United States, with a gross value of over 10 billion dollars now and growing rapidly.

Doherty says that new investors don't fall into any particular age group, but he adds that most of them are usually older people with an established income.

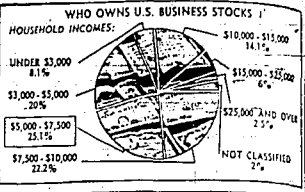

Monthly Investments
He says many people who invest in the mutual funds invest only a small amount each month, and he adds that most of the funds pay dividends either quarterly or semi-annually.

According to E. W. McRobert the public's interest in these funds

One of Every Eight Adult Americans Owns Stock in Public Corporations

One out of every eight adult Americans now owns some stock in public corporations. Over half of them are women. The total number of shareowners has almost doubled since 1925. As chart above shows, there 12.5 million Americans are part owners of 5,100 publicly held companies. Contrary to claims the commission might make, the average U.S. "capitalist" is in the \$7,500-\$10,000 income bracket (chart, right). Figures are from the New York Stock Exchange.

He adds the market "is no longer at times, but that the trend is definitely higher."

He feels the public is overcoming its fear of investing money. And he says, "I think they didn't realize that what they were actually losing was the purchasing power of the dollar."

More Money Made
"People live on what dollars buy, not dollars."

For Ulrich notes the average working man is becoming interested in investments because they are limited to the wealthy man, and because the average man is making more money today.

He notes that America rests on two primary foundations, agriculture and industry. He says the

same life insurance companies that are ready to invest any surplus they may choose to invest.

That as long as industry and agriculture are prosperous the government and people will prosper.

Like Melville, he points out that as long as people share in the profits of industry, the "less likely" is communism apt to pose a threat.

He claims this flush of interest in investment is a good bulwark against communism.

Four Points
Asked what a person should consider before he invests, Ulrich says he has four points he always recommends to new accounts, they should have a checking account in a local bank, they should have some type of liquid savings in case

of emergency, they should be ready to invest any surplus they may choose to invest.

SAILOR TO VISIT BUFFALO
PILER, July 11—Carroll R. Piler, a U.S. Navy aviator, is scheduled to visit Buffalo, N.Y. July 13 as part of Operation "Island Breeze."

Mr. and Mrs. William R. Blanton, destroyer USS Henley, is scheduled to visit Buffalo, N.Y. July 13 as part of Operation "Island Breeze."

the CALIFORNIA SILHOUETTE comes to the PARIS

Earmarked for great fashion heights, Catalina's Mutones are another exciting example of The California Silhouette. Here, the ultimate in a new, textured look for Fall is achieved by merging four compatible shades in a blend of 80% Wool and 20% Alpaca. The result creates a striking and rare color effect coordinating knitted sweaters and woven separates to a point where they appear almost inseparable.

- SHORT HOP** - Mutone ¾ sleeve short length cardigan with large ribbed collar, natural wood buttons. 80% Lambswool, 20% Alpaca. **13.98**
- PLAID CLASSIC** - Mutone Lawford plaid straight skirt, six front fit darts, seat lining, side zipper, back kick pleat. **14.98**
- JET STREAM** - Mutone long raglan sleeve bulky knit V-neck slip-on. 80% Lambswool, 20% Alpaca. **12.98**
