

**Director for
Camp Fire Is
Taking Class**

Mrs. James A. Vandenberg, executive director of the Twin Falls council of the Girl Scouts, will conduct a basic training course for Camp Fire Girls' professional staff members Jan. 10 through Jan. 12 at Lake Minidoka. The three-day sessions will be conducted by members of the national headquarters staff and emphasis will be placed on organization, personnel operation, organization, administration, finance and community and other relationships.

The course will be attended by staff members from 22 states and the District of Columbia. Mrs. Vandenberg will be absent from the local office Jan. 8-10. In her absence, Mrs. Kenneth Gibson will work at the Camp Fire office from 9 a.m. to 4 p.m. Write for information on Camp Fire business on other days may be obtained by phoning Mrs. Frank Moremen, REDwood 3-4975, or Mrs. Custer, REDwood 3-2660, or REDwood 3-8901.

**Free Nations
Eye Relaxing
Period Ahead**

By J. M. HODGES
Associated Press News Analyst

The free world is entering a period of danger about which its leaders have been silent ever since the cold war started.

This is a period in which the easing of fears physical danger could lead to lack of alertness and a critical increase in political danger.

Relaxation Felt Dangerous

"Indeed, it is a period in which a return to normalcy and a sense of security could produce a quick return by the Soviet Union to the policy of physical threat which was so effective during the first years after World War II when the West lay undefended."

"The world welcomed the New Year with a sense of relief and an air of hope that 1960 would see the end of the long-standing relations with Moscow."

For the first time in many years there has been a real desire for dismantlement for a start toward real world cooperation—outweighed—dragons

that in the background remained in the hard, factual situation that trying to make peace between democracy and totalitarianism, expansionism and contractionism, over Niagara Falls in a barrel padded with little more than hope.

Hertz Sounds Warning

Other nations also have attempted to keep this in the forefront during the New Year's wave of optimism that was that of U.S. President Dwight D. Eisenhower.

Hertz, who has not always been too clear about what he himself believes in the future book, said that the world was basically unchanged, and that as far as he had not followed upon peaceful words.

This comes as a reminder that finally what is going on now is a continuation by different methods—and under a different guise of what Stalin began immediately after World War II.

**Lewiston Police
Chief Quits Post**

LEWISTON, Jan. 5 (UPI)—A month-long rhubarb between the mayor of Lewiston and Police Chief Lloyd Rossman ended in the resignation of Rossman at a city council meeting here last night.

Rossman, who came here from Milton, Pa., in 1958, submitted a letter which he said should be considered before the council did not feel his services were being operated properly and efficiently.

A council member said the council accepted the resignation for the sake of the police department and community.

Rossman, who had been criticized several times in December by Mayor Marvin Dean,

2 Firms File

BOSTON, Jan. 5 (UPI)—Firms filed articles of incorporation with the secretary of state yesterday. They were Dyson's Inc., Bole, of a capitalization of \$50,000. Incorporators were Donald Dyson and Thelma M. Dyson, both of Boston; Geraldine Dyson and Gerry Dyson, both of Worcester, Mass.; Inc., a Kimberly-Clark division, at a capitalization of \$250,000. Louis E. Shewmaker, Kimberly, and Donald E. Shewmaker, and Co., Keith Shewmaker, both of Jerome, are the incorporators.

First Arrival for Minidoka County

Mrs. Jay Maxwell, Paul, and her daughter, who was the first baby born in 1960 at Minidoka County hospital, will receive many gifts from Rupert merchants. The new Miss Maxwell, who appeared at 2:25 p.m. Saturday, is the seventh girl to win the stock derby at the Rupert hospital in the last 10 years. Last year's winner was twin-daughter of Mr. and Mrs. Helen Ramsey, Rupert. (Courtesy photo-engraving)

**U.S. Industry
Eyes Use of
Import Steel**

NEW YORK, Jan. 5 (UPI)—The steel industry is looking for the customers it looks to foreign producers because of the strike-induced shortage?

That is the question faced now by the industry as the dispute was settled.

With a grand round-up for eight steel already under way for foreign markets, imports spurted during the long strike.

"What the continuing effect will be, we don't know," said an industry spokesman. "We just have to wait and see how many of our customers come back to us. Certainly, we think the majority will do so."

Steel imports in 1958 totaled 1,702,818 tons. They started rising early in 1959 as users began building up stocks in anticipation of strike.

In the first 10 months of 1959 imports totaled 3,393,464 tons,

Record and Tie

CHICAGO, Jan. 5 (UPI)—Michigan's 34 traffic deaths over the three-day New Year holiday set one record and the over-all accident rate another.

The final count of traffic fatalities topped by 10, the previous high for a three-day New Year week-end reported in 1955-56.

Accidents reported from 6 p.m. Friday to midnight Sunday.

Besides traffic fatalities, 33 persons perished in fires and 16 died in miscellaneous accidents.

The total of 513 tied the overall record for a three-day New Year holiday, also set in 1955-56.

Deaths should not be halved more than three or four times a year, says the American Humane Association.

**Emotions Mixed After Close
Decision in Steel Discussion**

WASHINGTON, Jan. 5 (UPI)—As they say in sports after a close decision, the steel strike discussion ended yesterday with mixed emotions.

The big moment came in the banquet room of the Sheraton-Carlton Hotel, the home of the International Steelworkers Union, Seattle, Wash.

No details of the settlement were announced, but it wasn't far off the mark to say that David J. McDonald, president of the United Steelworkers union, puffed cheerfully on his pipe. He had been shaved, like a man who not only has confidence in his winning game, but who also has had time to do his tobacco-chomping.

Slitting between the two was R. Conrad Cooper, the industry's chief negotiator, puffing easily on his cigar. He didn't look as if he had shaved, or even wanted to, his pipe speech showed how he felt.

"In light of all the circumstances, I'm glad," Cooper said. "I think the settlement is fair to the companies to accept the recommended settlement."

Slitting between the two was R. Conrad Cooper, the industry's chief negotiator, puffing easily on his cigar.

"David J. McDonald, president of the United Steelworkers union, puffed cheerfully on his pipe. He had been shaved, like a man who not only has confidence in his winning game, but who also has had time to do his tobacco-chomping."

The room was so crowded the participants had trouble getting around. But they did, and they had their voices. At the end of the news, other than that the settlement had been reached, no word on the amount of increase.

McDonald, who was happy about the news, said, "It's good to know that the price of steel may eventually be."

For all the praise, and most of the credit, was given Vice Pres.

John Richard M. Nixon, who, in his speech, which a press agent later described as "eloquent and eloquent,"

said, "What a lovely windfall at the end of the year."

And the best of it was that the strike, which had been ambling along, was able to fly out to the Rose bowl and enjoy itself.

Alfred E. Nixon wasn't there, but his wife, Helen Klein, had been hitting winter consistently, and had every hope of coming to the Rose bowl, but, alas, partly

The room was so crowded the participants had trouble getting around. But they did, and they had their voices. At the end of the news, other than that the settlement had been reached, no word on the amount of increase.

Blackfoot Driver Receives Safety Award

Byrd E. Colson, center, Blackfoot receives a \$100 savings account from Robert C. Thomas, manager of the Shelley office of the Idaho First National bank, after he was named Idaho's first "driver of the month." At right is Ray Rohrbacher, Idaho state police officer who nominated Colson for performing such a good job of driving his truck. Motorists are being "clerked" throughout the state as nominees for the monthly safe driver award.

U.S. Package Industry Now Growing Fast

NEW YORK, Jan. 5 (AP)—Americans are becoming more particular about their shopping habits. And the various segments of the container industry expect to get consumers even more attached to quality products and containers. The value of container department of commerce records show, is growing 18 per cent faster than new materials and devices used in the manufacture of goods and services. Packaging consumption is growing faster than the population, which has been flat.

New Process Sought. The growing demand of consumers for convenience packaging and more attractive packaging, which sparks the manufacturers to try new materials and new processes. New packagers reached state record for sales volume last year than any previous year.

The packaging industry is now estimated to be doing a 10-billion-dollar annual sales business.

Some eight billion of the bottles and jars are hold baby foods, salad dressings, soups, cereals, jellies, chili sauce, picnics, olives, honey and instant coffee.

Alaska Is Warmer As U. S. Shivers

JUNEAU, Alaska, Jan. 5 (UPI)—Temperatures were 15 degrees warmer in the grip of arctic cold yesterday. It was hard to find any place in the vast state of Alaska far below freezing.

An unseasonable warm wave covered most of the far north. Temperatures were up to a balmy 41 at 4 p.m. Sunday in Anchorage, 41 at 4 p.m. Saturday in Fairbanks, a record 30 yesterday in Fairbanks. The warmth it has ever been in Fairbanks on a Jan. 4 was two degrees above the record for Jan. 26. Usually at this time of the winter it is 30 to 50 below zero in the interior cities.

Weathersman said a Pacific storm brought in the unseasonable warmth.

Driver From Blackfoot Given State's First Safety Citation

A flawless 30-year driving record, courteous driving habits and an act or service beyond the ordinary call of duty won a Blackfoot man the title of Idaho's first "Driver of the Month," and he was named Idaho's first "Driver of the Month."

In addition to this honor Byrd P. Colson, chairman of the automobile division of the Shoshone branch of the Idaho First National Bank, presented Colson with a plaque and a \$100 check.

Colson was selected from among 15 candidates "selected" by the state police during the month of December. The award was made this week by a committee composed of officials of the state highway law enforcement and the Idaho First National Bank. Officers of the bank and the department of law enforcement were present to witness the presentation.

Rohrbacher explained that Colson's actions aided materially in speeding up the reconstruction of the bridge over the Snake River at Donnelly.

Colson accepted the road sign.

Ray Rohrbacher, state police officer stationed at Blackfoot, stated: "I was called to the scene of the accident to determine the cause of the accident.

Best "Driver of the Month" competition in the thousands of Byrd P. Colson throughout the state of Idaho and the nation who are contributing to better driving and better safety on our highways.

"What are the people whose good citizenship translated into terms of action makes it possible for better and more effective traffic control? What are the drivers who have entered their best traffic conditions to a critical condition which could have resulted in further property damage and personal injury?"

"I am more than pleased that Colson is being recognized and my congratulations go to this Idaho man who has never seen him do anything that was hazardous to the public safety," said Lt. Colson.

State police are issuing "Certificates" for safe drivers who will be considered for the January "Driver of the Month" award.

Gov. Robert E. Smylie, when told of Colson's selection as Idaho's first "Driver of the Month," commented:

"I am very pleased that Colson

3 Workmen Killed In Seattle Mishap

SEATTLE, Jan. 5 (UPI)—Three workers were killed in a house collapse yesterday under tons of wet sand in a cave-in at an apartment house project.

Three other men, one of them

a carpenter, had come to observe his driving habits almost every day for the past half a year and a half and had never seen him do anything that was hazardous to the public safety," said Lt. Colson.

State police are issuing "Certificates" for safe drivers who will be considered for the January "Driver of the Month" award.

Gov. Robert E. Smylie, when told of Colson's selection as Idaho's first "Driver of the Month," commented:

"I am very pleased that Colson

Stewart Cole, 30, who was buried to his neck before the cave-in and stopped, were spared.

Killed were Richard H. Johnson,

John D. Berdahl, 26, Berdahl,

and Daniel F. Griffin, 27, Griffin,

all of Seattle.
