86th Congress Is Back in Business; Politics Is Assured

WASHINGTON, Jan. 6 (UPI)—Congress got back into business today. And in this congress, brimming with Presidential election year issues, convened for its second session today—with pledges of action on social legislation but no promises of major tax cuts. Speaker Sam Rayburn, Texas, predicted that Congress will boost the minimum wage to \$1.25 an hour, liberalize the social security program. He also invited the house to act ahead of the Senate on a civil rights bill.

The House will consider the fresh issue of the next fall's election. It could make or break the hopes of members aspiring to gain higher office or hold what they have.

A consequence of this stood out clearly—the handshaking, backslapping and good-fellowship that always attend the reconvening of Congress.

Most bills are shaping up for investigations in many fields—foreign affairs, defense policy, television, outer space, drug prices, etc.—but the most important legislator's name before the public and sometimes influence votes.

Due for early consideration are civil rights, education, health care, subjects that divide Congress, carry a lot of emotional impact, and have political overtones.

Before Congress convened there was a hint that perhaps the President is a little sensitive to press

Budge Requests Big Increase in Domestic Sugar

WASHINGTON, Jan. 6 (UPI)—Rep. Hale Boggs, D-La., called for amending the 1948 sugar act to increase 1964 quotas for domestic sugar-producing areas by 35%.

The bill also calls for corresponding reductions in the quota for Cuba.

Budge is introducing the bill in the hope of favoring the Cuban sugar industry. In the past, he said, it has been the United States that was trying to carry out its good neighbor policy.

"We can't just sit back and let the Cuban oligarchs torture any kind of sugar," he said.

He added that there is no hope or expectation of cutting taxes.

"I am very much disappointed in the bill," said Rep. John Cannon, R-Mass., who voted against the bill.

Criticism of the gap between U.S. and Soviet missile stocks.

In a brief informal talk to off-duty members of his church—the National Presbyterian—Boggs warned "Americans against becoming hysterical over the missile achievement of our allies."

The President, Vice-President

Richard M. Nixon and some mem-

bers of Congress received holy orders at the service.

The same day, for example, from Rep. Clarence Cannon, D-Mo., chairman of the house appropriations committee.

"We are going to step up every year," complained Cannon at night.

"The interest on the national debt goes up and up. War-

fare, inflation, interest rates, and there is no hope or ex-

pectation of cutting taxes."

"I am very much disappointed in the bill," said Rep. John Cannon, R-Mass., who voted against the bill.

2 Idahoans Attack U. S. Aid Policies

WASHINGTON, Jan. 6 (UPI)—Senators John B. Anderson, Texas, and Hubert Humphrey, Minn., yesterday charged that the "fire of anti-Americanism" fed by military aid programs that equip dictators in South America.

Both feel there should be less military aid and more emphasis on a form of loans than outright grants.

Military Aid Bad

Democrat Anderson said yesterday the "fire of anti-Americanism" fed by military aid programs that equip dictators in South America.

Republican Sen. Henry G. Dworshak said our aid is far more military than economic in an effort to bolster the strength of the hemisphere against outside aggression.

As a result, he said, "we are nurturing the seeds of revolution" in South America.

Johnson Indicated that, after hearing the President's message, he expects Congress to adjourn by July 10. The Democratic national convention meets July 11 in Los Angeles.

The opening day sessions of both the house and Senate were mostly ceremonial. Only round robin greetings were exchanged.

Johnson would not budge from his prior statements disavowing a peace intent in a presidential election.

He predicted a "constructive" session with "action" expected on civil rights, education, foreign policy, highway, social security, amendment of the constitution, and other legislation.

Johnson said that the "fire of anti-Americanism" fed by military aid programs that equip dictators in South America.

"They offer a little aid at strategic points but not enough to actualize our mutual interests in our past good financial relationships," he added.

Church said that, "we must assist in our hemisphere in three ways—military assistance to South America, and substitute technical and economic aid."

Businessmen Talk Boom Year in '60

By The Associated Press

Business leaders are hailing the steel strike settlement as assurance that 1960 will be a boom year but expressed concern that inflationary results may push prices up.

The settlement—the most welcome news we could hear in the first week of the year, said L. L. Colbert, Detroit, president of the Automobile Manufacturers Association.

He said the strike will end in time to finish his work in time.

The senate opening was ad-

dened by the death earlier today of Mrs. Sturm Thurmond.

**Northwest Dam
Backed, Opposed**

SALMON, Jan. 6 — The proposed high Mountain Sheep

dam on the Snake river was pic-

tured as a major factor in the economy of the Pacific Northwest.

That came from proponents of

the dam which Pacific Northwest

power companies and the building

company is seeking a prelimi-

nary permit from the Oregon

water resources board and a hearing

is set for Feb. 15.

There was another picture of

what the dam would do: It would bypass another blocked

area of the river, but the dam's body burst by other of the region's dams would have trouble going.

This view came from James Cal-

lum, executive secretary of the Columbia River Fish and Game

Fathers association. He said there

should be no more dams at all on

salmon streams.

**Head Shavers
Were to Get
3-Day Passes**

TONGUEJUCHON, Korea, Jan. 6 (UPI)—The U. S. army admitted today the front-line soldiers who shaved the heads of two Korean prostitutes had been promised

passes to get three days off

for catching a thief or a prostitute

in the company area.

The two women, Kim Soon At, 21, and Chang Ja, 20, said

Capt. John C. Chayton, 38, of

Wyoming, commander of the seventh

infantry division tank company,

an army spokesman said.

Preliminary investigation indicated

this was untrue.

The men also claimed to

have been promised passes for

the head shaving and said they would

be unable to earn any money unless their hair grew out again

in a measure and we hope that our

Jewish friends realize this," the

Rev. Mr. Strand added.

**Review Asked on
Log Taxes Policy**

HOLLYWOOD, Jan. 6 (UPI)—Another re-

view has been asked of the taxing

policy on logs cut from Idaho state

and federal lands.

The review, from north Idaho

and Montana, was requested by

the Republic of Korea foreign

ministry meanwhile was studying

the case carefully and was taking

what appeared to be a cautious

stance before deciding whether

to lodge a protest with the U. S. embassy.

A spokesman for the U. S.

Military had promised the peace to soldiers under his command but

no passes were ever issued

and no passes were ever issued

to the men after the day of the

shaving and had since been re-

scinded.

Republic of Korea foreign

ministry meanwhile was taking

what appeared to be a cautious

stance before deciding whether

to lodge a protest with the U. S. embassy.

It is easy to speculate that the communists are behind the new outbreak of anti-Semitic incidents. There is also a desire to do so, because it is the time for negotiations over the German future approaches, but the speculation may not be well-founded.

In the first place, there is no denying that there are Nazis left over the German front, and Nazi organizations continue hoodwinking perfectly capable of the acts.

Elements Weak

The communists, Khrushchev's adherents, who have sought recently to lead Germany, are not the ones thinking away from such fields as anti-Semitism. That claim is neither representative nor powerful. But in Germany and the rest of the world, there are enough Nazis, the numerous latter writers, who are willing to act irreverently to create the impression of an organized movement.

The communists, in their conspiracy of disunity, would be in constant danger of discovery, and the resultant danger to the communists would be very real.

The communists have always been extremely wary of charges of anti-Semitic, racism, and circum-

stances. The communists still go for it.

Starting up hatred is not the way to win friends, although Chinese communists still go for it in a big way.

He replied that the U.S. didn't start its rocket program "early enough" and "we are not running fast enough now."

Dr. Ritchey is a long-time advocate of solid-fuel rocket engines. His idea is to put a large payload into space.

Valley People Are Urged to Check Diphtheria Immunity

Because of the recent outbreak of diphtheria at the University of Idaho, all Magic Valley residents should check on the status of their diphtheria immunity, urges Dr. W. W. Gred, medical consultant of the south-central district health department. Dr. Gred says a booster shot is needed every year to maintain diphtheria immunity. He points out that the last case of the disease in the area occurred in 1953, in a child in Twin Falls county. At that time about 80 per cent of the population was immunized.

In former years children were considered most susceptible to the disease, but now young adults in the 20 to 30 age category are con-

sidered the danger spot, because those who were immunized three years ago have lost their immunity.

Care of Your Children

By ANGELO PATRI

The younger children, those in the third year classes especially, like to carry their most treasured possessions about with them. These hold many meanings to them that are not clear to their elders. They endow live ones with certain feelings, charge them with secret knowledge and turn them into gods of their own extensions of themselves.

Childhood, in spite of what older people who have forgotten how tiny they once were, may still be the toy box of the past, the companions filling a place that actual live ones do not fill.

Because these possessions are not visible, teachers look on the presence of such treasures in the classroom without pleasure.

"Bring that thing here. You are

not to bring it to school."

"Put your things in your

book bag."

Teacher, beware. Don't ever say that, "you are not to bring that to school." It implies, "keep it all in there." In doing, any such "rule" tells your students that you are not to bring it to school.

Childhood, in spite of what older people who have forgotten how tiny they once were, may still be the toy box of the past, the companions filling a place that actual live ones do not fill.

Teachers have to watch for such things as the loss of a pencil or the trust of the children while preventing waste of time if occasionally an accident.

Bring that thing here. You are

not to bring it to school."

Occasionally a child will

happily go to bed now! Only 25¢.

College Football Coaches Ask Free Substitution Rule

NEW YORK, Jan. 6 (UPI)—College football coaches Tuesday strongly recommended the return of unlimited substitution and the platoon system, voted out of existence seven years ago. But there was no assurance that the national rules committee will accept this recommendation.

It meets at Miami Beach next week. The rules committee of the American Football Coaches Association, a body with limited influence, came up with the suggestion to do away with all limitations on substitutions by college coaches. More than two-thirds of those casting ballots favored free substitution as opposed to the present system of liberalized "wild card" substitution rules.

The decision, however, will be made by the NCAA rules committee, which is meeting today for some 500 coaches. In the past, the committee often ignored or altered the recommendations of the coaches. Seven members are known to have strong objections to the return of platoons.

Free substitution was ruled out last year after a vote from the NCAA's council to retain the platoon system while preserving the beneficial features of liberalized substitution. The first limitations on substitutions were the ones that have been liberalized every year since then.

A poll taken and conducted by the AFCA after its annual meeting by former Columbia coach Lou Little, showed 302 coaches favoring free substitution as opposed to 131 who wanted to keep the rule, with a change in the system of recording substitutes. Sixty-seven wanted to allow two "wild cards" per game.

The present rule permits the insertion of a single player anytime the clock is stopped.

The rules committee also decided that two other controversial rule changes adopted last year, the widened goal line and the 10-second time limit, had proved generally satisfactory and should be retained.

Aggies Will Meet Redskins On Saturday

LOGAN, Utah, Jan. 6 (UPI)—A normally strong State basketball squad sparked by little Max Ferry tests its new-found national rating against a fifth-ranked team Saturday night.

Utah State made the AP's top 20 this weekend—17th.

Most observers will tell you the little-known Aggies will beat the Utah State attack, click Ferry.

Ferry, a 5'7, 100-lb. guard from Columbus, Ind., has been the sparkplug for the Aggies' surprising team, which has reeled up a 10-2 record.

Utah State will get its biggest test of the year Saturday night as the Aggies battle defending Skyline Conference champion Utah. The Utes are 10-2, second in the conference.

In the Aggies' spring an upset, Ferry—probably—will have a lot to do with it.

The Aggies' most outstanding player in the Oklahoma City all-college tournament showed his ability by capturing the most valuable player award.

The combination has made the Aggies the most serious contender for the Skyline title.

The two teams, both 6-6, 4-2, are Tyler Wilburn and Cornell Green, a pair of spring-reared rebound stars.

Aggie coach Jerry Schell and Ralph Cullimore, this quintet has played almost all the time during the Aggies' victories. With the taking the height of their opposition, they all are good rebounders.

But whether this can offset the Aggies' size, and offensive power of the Utes, remains to be seen Saturday night at Salt Lake City.

Wyman Holds Top Scoring Total for Pros

NEW YORK, Jan. 6 (UPI)—Mike Wyman's Jack Twyman rolls along in the lead straight away as top point-getter in the NBA basketball association. Although Philadelphia 76ers' Bill Chamberlain has the most per game average.

Twyman, 6'6, of the Western division's 1st-place club, has scored 1,267 points in 40 games for an average of 31.7 per game.

Chamberlain, 6'10, of the Eastern division, is 2nd in 32 games for 34.6 average. The NBA determines its leader by total points, not average.

The NBA figures, released today, include games of Sunday, Chamberlain, in second place, has big margin over third-place Twyman. The 76ers' 1st-place race has 999 points in 34 games for a 28.7 average. Next comes Lynn Haydon of Minneapolis with 225 points in 31 games for a 7.3 average.

The two trailers, both 6 feet 4 inches, are Tyler Wilburn and Cornell Green, a pair of spring-reared rebound stars.

Aggie coach Jerry Schell and Ralph Cullimore, this quintet has played almost all the time during the Aggies' victories. With the taking the height of their opposition, they all are good rebounders.

Olympic Ski Team to Vie In-Europe

ASPEN, Colo., Jan. 6 (UPI)—The U.S. Olympic Alpine ski team to be selected here Friday night will feature Denver by air Saturday for European competition in two races later this month.

Dr. Amos R. Little, Jr., of Helena, Mont., Alpine team manager, said Tuesday the team was scheduled to match the American team in flight European competition in advance of the Winter Olympics opening at Squaw Valley, Calif., Feb. 18.

Dr. Little said the eight men and women chosen on the team will compete first at Klubelund, Austria.

The European trip was scheduled after the Europeans team applied Aspen officials they would be welcome to the Rockies.

Paul Kuefner, assigned Tuesday as head football coach at Wake Forest college to take a job with a football team in the Midwest, has accepted premises of a franchise for Minneapolis-St. Paul "so confident the all-new NFL interest will be able to get him," he said.

"I'm going to Washington to visit members of that committee."

For a while Kuefner had refused to even talk about a franchise.

The former marine corps hero, 39, 20-year-old Kuefner, who served with the 10th mountain division in Korea, had planned to go to the University of Louisville, which failed to pass a franchise in Minneapolis-St. Paul as the result of "harassment."

He believes violates anti-trust laws.

Kuefner, a member of the anti-monopoly committee, headed by Sen. Estes Kefauver, D., Tenn., now knows of the situation.
