A NEW INSPIRATION FOR THE MOTORING WORLD

You are looking at the completely new Cadillac for 1961—a motor car that will inspire the automotive world for years to come.

While unmistakably Cadillac in stature and in majesty, it represents a totally new concept in fine car design.

Its graceful silhouette reveals less over-all length and increased head room. Its delicately formed roof lines provide an almost uninterrupted pan-orama of vision-while a crisp, new sculptured design of front, rear and sides confers a degree of distinction that is entirely new to motoring.

is entirely new to motoring.

Beneath this visual elegance resides a host of dramatic engineering advancements—an even finer, quieter and smoother-performing engine. ... an entirely new front suspension system ... a lubrication-free chassis ... wonderfully improved steering and braking... and greatly increased maneuverability and handling case.

This new world of motoring pleasure has been interpreted in eleven indi-vidual body styles—each with an ex-ceptionally wide solection of beautifully crafted and appointed interiors... and an unusually generous choice of accessories, fabrics and colors.

Your dealer will be proud to introduce you to the antirely new 1961 Cadillac at any time: We sincerely believe that you will find it an inspiration in motor car quality and goodness.
