U.S. to Fire Tunnel and Lab A-Tests

WASHINGTON, Sept. 6 (AP and UPI)—Lifting its three-year lid on atomic tests, the United States will set off underground nuclear explosions in the next few weeks to develop more advanced weapons. We have no other choice," President Kennedy announced yesterday after getting the word of the Soviet Union's third atomic blast in five days. The American tests will start this month. Authorities indicated the first explosions will be small by atomic standards. The aim is (1) to improve battlefield a.r.m.s. like those now in the hands of U. S. troops in Europe and (2) to gain know-how on anti-missile rockets. "Because they will be below ground and in practice the U. S. tests will not produce the fallout of radioactive air particles potentially dangerous to life. Kennedy still held open last Sunday's U. S.-Soviet offer to discuss signing a partial test ban treaty. Kennedy still held open last Sunday's U. S.-Soviet offer to discuss signing a partial test ban treaty. Kennedy still held open last Sunday's U. S.-Soviet offer to discuss signing a partial test ban treaty.

NLRB Gives OK to Delay Union Ballot

REYNOLDS, Sept. 6 (AP)—Postponement of the election for union members of the American Iron and Steel Institute is being granted Tuesday by the national labor relations board, according to a spokesman for the firm. The NLRB, at the company's request, has postponed the election for Aug. 16, which was set for Sept. 8, because of a strike by the union. The American Federation of Labor is taking the election to be held after Sept. 16, but the company objected on the grounds the election had already taken place. The election was scheduled for Aug. 16, but the company objected on the grounds the election had already taken place. The election was scheduled for Aug. 16, but the company objected on the grounds the election had already taken place.

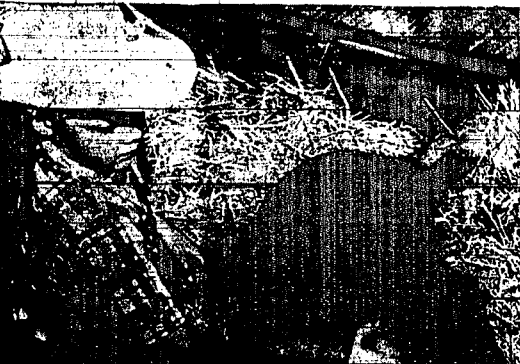

Ada County's Farmers OK Spraying Ban

MERIDIAN, Sept. 6 (AP)—Ada county farmers, by a vote of 10 to 62, have approved a proposed aerial crop spraying ban in the county. The referendum was called by State Agriculture Commissioner Robert C. Huggins. The referendum was called by State Agriculture Commissioner Robert C. Huggins. The referendum was called by State Agriculture Commissioner Robert C. Huggins.

Rehearing Denied

BOISE, Sept. 6 (AP)—The Idaho supreme court today denied the appeal of Robert Cook, 32, for a rehearing of his case. Cook was charged with the murder of his wife. Cook was charged with the murder of his wife. Cook was charged with the murder of his wife.

The convention will include a breakfast with the American Legion hall. Realtors will hold round table discussions before breakfast. The convention will include a breakfast with the American Legion hall.

Clouds Reported, But 'Good Crowd' Begins T.F. Fair

FILER, Sept. 6—Despite cloudy weather and a fall tinge in the air a "good crowd" poured into the Filer fair grounds Wednesday morning as the four-day Twin Falls county fair and rodeo got under way. Tom Parks, fair secretary-manager, reported a slow start Wednesday morning, although no official count was available. Activities Wednesday morning included judging in most categories, with no final results available. Several top cowboys have signed up for the rodeo, which begins at 8 p.m. today. Prior to the first night of the rodeo, the fair and rodeo parade will be held, starting at 7:30 p.m. The Filer high school band will play before the rodeo starts.

Stores Close

All Twin Falls businesses, including grocery stores, will close at 1 p.m. Thursday in observance of the rodeo. The Twin Falls county fair and rodeo, which will close at noon. County officers at the courthouses will remain open, but employees will be able to attend the fair if they wish.

Burns Creek Destined for Pigeonholes

WASHINGTON, Sept. 6 (AP)—The House today put the Burns-Creek-Boise irrigation project in Idaho into the pigeonholes of a committee. The project, center of a continuing public-private power controversy, was held in a committee. The project, center of a continuing public-private power controversy, was held in a committee.

Four Crack Guard Units Are Alerted

Chairman of States Battle Fete Resigns

WASHINGTON, Sept. 6 (AP)—Maj. Gen. U.S. Grant III has submitted his resignation as chairman of the Civil War Centennial Commission. It was accepted today.

The retired army general was understood to have cited illness as the reason for resigning. But it was reported that the commission's displeasure with the commission's unannounced decision to remove Karl S. Betts as its executive director.

Sources close to the commission told United Press International that the racial dispute which arose at a centennial celebration in Charleston, S. C., several months ago partially was responsible for the decision to oust according to one source.

Grant strongly urged the commission last week to allow Betts to remain as executive director. This source said the commission ignored Grant's plea and decided to make Betts a special consultant.

Betts, questioned about the reports, told a reporter he had no comments to make. The commission had removed Betts because of the heavy emphasis which had been placed on Civil War battle reenactments.

One official said there was considerable displeasure with what he called "the Hollywood" approach to the centennial celebrations.

Another source said the commission had hoped the centennial would spark more interest among serious civil war historians and students.

Drugstore Robbery Suspects in Custody; Employees Were Held at Gunpoint During Holdup

George Cross, left, and George Bevell, employees at Magic Valley drugstore, Addison avenue west and Main street, point to where two armed gunmen made them sprawl out on the floor in a store room while the thieves robbed the store Tuesday night. The gunmen got away with approximately \$25 in cash and checks. Cross and Bevell were forced to strip, the robbers blindfolded and wallets and were told, "Don't get up until we leave or you'll get your heads blasted off." (Staff photo engraving)

These two men, both of whom have prior felony convictions, according to Twin Falls police, were arrested on highway 30 near Filer at 5:10 a.m. Wednesday and charged with the armed robbery of the Magic Valley drugstore, Twin Falls, at 11 p.m. Tuesday. They are Rufus William Freeman, 23, left, and Jerry McGuire, 21, both Boise. (Staff photo engraving)

Former Prisoner Sentenced Again

MOUNTAIN HOME, Sept. 6 (AP)—Eugene Howe, 60-year-old former inmate of prisons in Montana and Washington, pleaded guilty yesterday to second-degree murder and was sentenced by District Judge Keith B. Ewing to 10 years in the Idaho penitentiary.

Howe was charged originally with first-degree murder in the fatal shooting of Mrs. Wilsons, 50-year-old waitress and cab driver from Mountain Home.

The charge was amended last month to second-degree murder. The woman was found shot in the head on the Mountain Home desert on April 20 and Howe was arrested later the same day.

Leaders Session Slated for Buhl

BUHL, Sept. 6—The Buhl high school will serve as host for the annual student leadership workshop, sponsored by the Big seven schools, Thursday afternoon, announced Elwood Gledhill, principal.

Elmer Crowley, Boise, executive secretary of the Idaho Education association, will be guest speaker at the banquet which will climax the afternoon sessions. Ernest Crater, Twin Falls, commissioner for the fourth district athletic program, is also

slated to speak at the banquet. Representatives such as student body presidents, cheerleaders—juniors—captains and pep club presidents from Burley, Rupert, Buhl, Twin Falls, Filer, Jerome, Gooding and Mountain Home are expected to attend the workshop which will start at 3:30 p.m.

Purpose of the workshop is to foster better relations between the schools by discussing various problems confronting the schools and offering solutions to these problems, reports Gledhill.

Some monkeys of the old world have cheek pouches for storing food.

Haggard Is Head Of Student Body

BUHL, Sept. 6—Joe Haggard was installed president for 1961-62 of the Buhl high school student body during a special assembly last week at the high school.

Mitch Maughan was installed vice president, Jerilyn Fape, secretary-treasurer, and Rodney

Rutherford, sergeant-at-arms; Joyce Cox, Bill Hatfield and Gene Schultz were installed as senior senators; Donald Louchmiller, Katherine Shilde, and George Wells, junior class senators; Mary Sue Boner, Allen Boyd and Owen Gledhill, sophomore senators; Randy Baxter, Clark Griffin and Mike Pierce, freshman senators. Mary Unickler will serve as secretary for senate meetings.

Home room representatives include Jerry Macheck, Judy Lovv, Betty Shriver, Pat Henderson, Tom Skeem, Jill Mathews, Gloria Casper, Susan Skeem, Bruce Dickey, Terry Dowd, Judy Jaker, Zornie Zornik, Maxine Berwick, Kay Sullivan, Ellen Erickson, David Babington, Helen Christensen, Jon Anderson, Marie Wasko, Charles Carter and Douglas Karel.

THE NEWS

Published daily and Sunday at 110 Second Street West, Twin Falls, Idaho, by the Times-News Publishing Company, Inc.

No Design for Peace

While talking out of both sides of their mouths at the same time, the Russians are now following the line toward peace.

Any thinking person cannot avoid the conclusion that Russia's actions are not those of a nation desirous of maintaining world peace.

Nations, like men, can be evaluated only by their actions, not their words.

While all of this has been going on, there has been much talk of "world opinion" against the Russians, "propaganda" victories or defeats and similar pointlessness.

Shouldn't we stop being so naive? Public opinion is a grain of sand in the desert.

The sooner the free world recognizes that Russia is evaluating the communists by their deeds, not by their words, the sooner the free world will have a chance of remaining free.

SHE WILL RETURN
It was good news to read that Mrs. Ernest Hemingway is back in the United States after flying to Cuba.

When Mrs. Hemingway quietly left Ketchikan a few weeks ago for Cuba, many people had grave misgivings about the trip.

What happens to the manuscripts is Mrs. Hemingway's business. Apparently they will have close consideration because the manuscripts were shipped to New York.

Until then, Mrs. Hemingway should be permitted to live her life without eternal questioning and prying.

TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—The charge that the interstate commerce commission's proposal to subsidize railroad passenger service is like a left-handed cork screw.

EVERYBODY'S GRAVY—The government is currently subsidizing farmers, shipping lines, veterans, home builders, unemployed, airlines, the wealthy, the poor and you.

COMPETITORS GET IT—Furthermore, the competitors of the railroad have no subsidies. The trucking industry pays less in taxes than railroads spend for maintenance of roads.

MORE SUBSIDIES—The subsidization of the railroad, competitors don't end there. The trucking industry pays less in taxes than railroads spend for maintenance of roads.

MONY IS MONY
Dear Pot Shots:
While looking through the usual accumulation of odds and ends the other day, I spotted a one peso note that was a souvenir from a vacation in the Philippines.

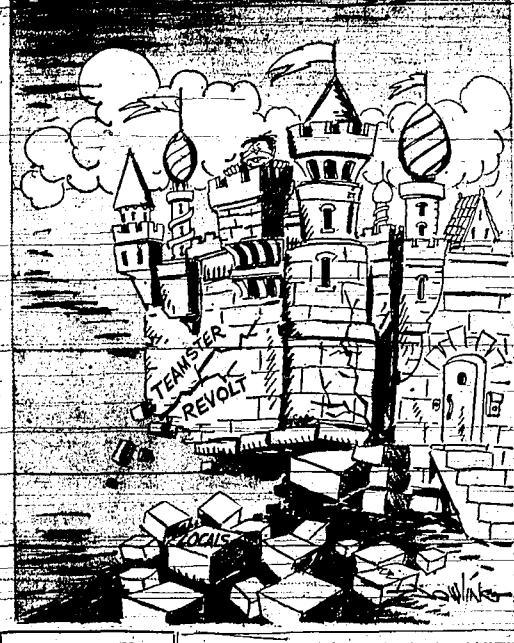

Views of Others
Civil defense officials have recently complained of public apathy.

IT'S EASY TO TALK
The other day we happened to be in a restaurant, and our companion at the counter was a stranger.

RELAXED, EASY
After considerable study, I think the alternate formal and informal sessions of the city commission are a fair idea.

FAMOUS LAST LINE
"Whoa! What's that?"

HOW THINGS APPEAR FROM PEGLER'S VIEW

ST. LOUIS—We are slow to realize that the nature of our government is the nature of the powers and the process by which the rule is made.

Republic, democracy, dictatorship, anarchy, oligarchy, it is none of these but all of them. It is an accomplice of the forces of human rights and the rights of property done by the usurped authority of the program.

There is a warn, wretchedly balanced but honest record of his numerous and expensive counsel. Unless the record had the August parliament of the Trustees as our heroes.

COVERING THE CAPITAL WITH PETER EDSON

WASHINGTON, (NEA)—President Kennedy's first year in office has been a record for price increases.

Calling congress into special session to pass a price rollback law would not be popular and might not succeed.

Before World War II, before the steel industry was nationalized, Roosevelt sent Leon Hegger to tell the steel masters that they had to control their prices.

Data Sought On Running Peak Areas

WASHINGTON, Sept. 6 (AP)—Information is now being gathered in the Pacific Northwest for an overall policy to develop and manage high mountain areas administered by the forest service.

Orville L. Freeman, secretary of agriculture, intends to create a long-range policy for such areas which have often led to controversy over their proper use.

Freeman told the forest service to "examine the various renewable resources, evaluate both the tangible and intangible possibilities and explore the alternatives of management that may be required to attain them."

The policy will cover timber management, scenic and recreational values, water conservation and use, grazing, mineral resources and wildlife preservation.

The forests subcommittee of the house agriculture committee plans to make a study trip and hold hearings on this and related subjects in Washington and Oregon after congress adjourns.

More of Idaho Schools Set up Driver Course

BOISE, Sept. 6 (AP)—First reports indicate at least a doubling in the number of Idaho high schools offering driver training as part of their regular school program.

Glenn Nutting, supervisor of driver training in the state department of education, said reports on the number of schools planning to take part in the new driver instruction are far from complete.

But he said of those already responding to a survey, 36 report they will include driver training in their school program. That compares with only 15 last year.

The 1961 legislative increased driver license fees and earmarked the additional proceeds for driver training instruction in the public schools.

Methodist Family Camp Has Talks by Chamber Official

"There never was a time when the need for strengthening family ties was greater." Erwin Schwiebert, Chamber representative of the U. S. Chamber of Commerce, said Sunday at the annual family camp sponsored by the Magic Valley Methodist Men's club at Camp Sawtooth north of Fairblair.

Dudley Stroud, Jerome, conducted the Sunday church service also held out of doors. Schwiebert stressed the importance of communication between couples as a deterrent to divorce. He urged the church members to become better informed on current issues and be sure they "had their feet on solid ground" before taking a stand on social issues.

He stressed the importance of the new constitution of Christian social concerns which combines the work of the former boards of temperance, peace and ecology and social-relations-of-the-national church.

The speaker, who ran unopposedly on the Republican ticket for a seat in congress from Idaho's first congressional district a few years ago, warned:

Mrs. Roosevelt In Hospital for General Check

NEW YORK, Sept. 6 (AP)—Mrs. Franklin D. Roosevelt went into Columbia Presbyterian medical center yesterday afternoon for what her secretary described as a general check-up.

The secretary, Miss Maureen Corr, said the former first lady had gone to her doctor yesterday morning and he ordered an immediate check-up.

Mrs. Roosevelt will be at the medical center for several days, the secretary added.

Members from The Paul and Rupert churches were in charge of food preparation and members from the Twin Falls area handled the

Suit Filed Over Project at AEC

BOISE, Sept. 6 (AP)—The U. S. government has filed suit in federal court asking \$100,000 from Diversified Builders, Inc., and Atomic Deposit Company, Maryland, on behalf of a subcontractor at the national reactor

testing station near Idaho Falls. The subcontractor, Idaho Crane and Rigging company, claimed this amount was owing it by Diversified Builders for work performed beyond original contract specifications and because of "costly and unjustified construction procedures" and delays here before moving to Oregon.

STUDIES IN HAWAII

GOODING, Sept. 6 (AP)—Norma Lee, daughter of Mr. and Mrs. Dale Lee, Fairfield, and her grandmother, Mrs. Hazel Chier Florida, sailed today from San Francisco for Hawaii where Miss Lee will enter college.

She is a granddaughter of Mr. and Mrs. Hyrum Lee, Gooding, and attends elementary school here before moving to Oregon.

GREETINGS EXTENDED

WASHINGTON, Sept. 6 (AP)—President Kennedy extended warm greetings and every good wish last night to American Jews celebrating Rosh Hashanah, the Jewish new year. "I know that all Americans of every faith join with me in this greeting and wish for an abundant and peaceful year," the president said in a statement.

New Maintaining Colonaid Stops CONSTIPATION DUE TO DEHYDRATION

without gas, bloating or cramps

Most constipation is caused by what doctors call a "thirty" colon that does so much moisture that its contents become so dry they block the bowels so shrunken they fail to stimulate the urge to purge that propels and expels waste from your body.

To regain normal regularity, the dry, shrunken contents of your colon which now block your bowel must be reconstituted. Second, bulk must be brought to it. R-1-R-3-CH STIMULATE colon action; in a normal urge to purge. And, of all laxatives, only the Colonaid possesses its great moistening capacity plus its stretch-activating bulk. So effective it

relieves even chronic constipation overnight, yet it is so gentle it has been hospital-proved safe even for women in clinical stages of pregnancy.

Superior to 314 style bulk, salt or drug laxatives, Colonaid neither gas, bloats nor irritates, won't interfere with absorption of vitamins or food nutrients; in clinical tests, did not cause rash or other reactions.

It's a revolutionary fact. Exercise tones your body! And Colonaid activates your colon to tone it against constipation overalls. So, for positive relief from constipation, get amazing, moistening new Colonaid today! INTRODUCTORY SIZE \$3.95

N. Y. Demos' Power Is at Ballot Stake

NEW YORK, Sept. 6 (AP)—New York holds a mayoral primary election tomorrow that may decide the political future of some Tammany hall and some Democratic party leaders.

In a bitter power struggle, Mayor Robert F. Wagner is seeking nomination for a third term run-off against the machine leaders against state Comptroller Arthur Levitt.

The real race, however, is between Wagner and Levitt's chief supporter, Carmine G. de Sapio, head of famed Tammany hall. The split between Wagner and de Sapio actually started before the 1960 presidential election, but John F. Kennedy, then his paragon, got a truce that helped him win the presidency.

Most observers agreed the primary would be a close election but would be determined by any number of factors, including the weather, the polling time and perhaps even the attendance at the New York Yankees-Washington Senators baseball game here.

A big primary turnout—more than the minimum provision of 10,000 among the 2.5 million registered Democrats—was assayed a good sign for Wagner.

Wagner, 51, a regular party man for 25 years, has sided with Mrs. Eleanor Roosevelt, 76, who was hospitalized yesterday for a check-up and former Sen. Herbert H. Lehman, 84. They charged that de Sapio was bossing the party, deciding who could run for what positions and vetoing party membership applications.

Levitt, 49, a former state Comptroller, is running to retain his first assembly district leadership, could turn them down the road to political oblivion.

COMPACT TO MEET SPOKANE, Sept. 6 (AP)—The Columbia Interstate Compact commission, whose agreement on Columbia river basin waters has been approved by five of seven states, will meet in Seattle on Monday.

The material of some stars is so dense that a cubic inch of it may weigh as much as 80 tons.

Farewell Set

JACK PETERSON, son of Mr. and Mrs. John Peterson, Filer, who will be honored at a farewell luncheon at 3 p.m. Sunday at the Filer LDS chapel. He will enter the mission home in Salt Lake City Oct. 9 prior to leaving on a coast-to-coast mission. He attended Ricks college, Rexburg, where he was a member of the chapel choir, Strangers and the college band. (Staff engraving.)

Thick Water New Weapon Against Fire

CHICAGO, Sept. 6 (AP)—Adhesive water and chemicals that literally uproot flames were described by fire researchers yesterday as promising new weapons for slaking the heavy annual toll in life, property and the nation's economy.

Dr. C. S. Grove, Jr., Syracuse, N. Y., university said that water thickened with compounds can smother the flames in a vigorously burning room in 20 seconds.

Dr. Raymond Friedman of Alexandria, Va., said certain chemicals attack the root of the flame stem before gases alter air-car mix and enlarge the plume. The scientists made their reports at the first International Symposium on fire control at the American Chemical society's 140th national meeting.

Grove said thickening agents, such as carbomethyl cellulose, give water a clinging power that sharply reduces runoff and cuts down the chances-of-reignition from heat.

Water runoff, in many cases, progresses as costly as the fire. Grove said many tests have shown that "viscous" water in many times—probably five times—as effective as plain water.

Anchorage Has Sharp Tremors

ANCHORAGE, Alaska, Sept. 6 (AP)—A sharp earthquake rocked the Anchorage area early yesterday but there were no reports of damage or injuries.

At Sitka, the coast and geologic survey recorded the quake and placed its center somewhere in the Alutian islands region of the north Pacific.

At Pasadena, Calif., the California Institute of Technology's seismological laboratory said the quake had a magnitude of 6.1 on a scale which rates major shocks at seven or higher and said it was "potentially destructive."

Here's How Idaho Solons Used Power

WASHINGTON, Sept. 6 (AP) — Here is how Idaho members of congress voted in recent roll calls:

Senate:
On passage 68-34 of bill to promote conservation of migratory birds by acquisition of wetlands, For — Henry Dworshak, R., and Frank Church, D.
On amendment adopted 70-19 to extend Civil Rights Commission for two years, For — Dworshak, Church.
On passage 69-24 of comprehensive bill to authorize \$25 billion dollars foreign aid program with qualified authority for five-year development loan, For — Church, Agatoni-Dworshak.
House:
On rejected 172-233 empowering attorney general to raise salaries of certain attorneys in the justice department, For — Ralph Harding, D., Arden Gracie Pfost, D.
On motion rejected 470-213 to continue aid for school bills, this killing bill, For the motion — Pfost and Harding.
On passage 295-122 of compromise bill to authorize \$4.5 billion for aid program and five-year loan, For — Harding, Agatoni-Pfost.

Proof
WASHINGTON, Sept. 6 (AP) — Army scientists, solemnly investigating the effects of apoplexias, have discovered what many Old Army men know — but a lot of back lines makes a wreck of a man. Making public results of the study, the army said scientists at the Walter Reed army institute of research learned that: "Under prolonged sleep loss the nervous system begins to behave abnormally. It is temporarily in need of a tuneup, it alternately misfires, runs normally for a while, and fails again."

King Hill Man Is Discharged

KING HILL, Sept. 6 — Harold Southwick, who served with the U.S. army in Frankfurt, Germany, was discharged today and returned to his home in Hamilton, N.Y., and is now at home with his parents, Mr. and Mrs. Clyde Southwick.
Mr. and Mrs. Donald McCown and family, Hiram, Okla., have moved to the Lakin, Okla., ranch here. He is stationed at the air force base at Mountain Home.
Eugene Greer, Caldwell, is visiting his parents, Mr. and Mrs. Arthur Greer, on route to Salt Lake City where she will attend the University of Utah and work toward her master degree in a teaching degree. She also will teach reading in England.
Sp. 4's Floyd Southwick, who is on furlough from the army and was stationed in Panama, visited his parents, Mr. and Mrs. Clyde Southwick. He reported the missile test center, Ft. Yuma, Ariz., for assignment.

34 LOSE LICENSE
BOISE, Sept. 6 (AP) — Thirty-five driver's licenses were revoked for driving while intoxicated and 21 driver's licenses were suspended for reckless driving in Idaho last week, the state department of law enforcement reports.

Private Retirement Funds Grow in U.S.

Private retirement funds in private industry are growing at the rate of about four billion dollars a year. As chart left shows, the money accumulated in all private plans now totals some 44.7 billion (as of 1958), not far below the total for all governments, railroad and civil service. While federal social security remains the chief source of retirement for most workers, private plans are covering more and more people. Chart, above, reveals that 25 per cent of all workers covered by social security in 1958 also had supplemental plans. Strikingly enough, no one "owns" this great sum of money 43 billion dollars; it has become a new financial tool of industrial management. Private-pension funds are now the largest purchaser of stocks.

LEADER TO BE PICKED
PARIS, Sept. 6 (AP) — President Charles de Gaulle says that he will establish a provisional Algerian executive — with or without rebel cooperation — to lead the area to self-determination and eventual freedom.

Neutrals Ask Halt to War Preparation, Colonialism

BELGRADE, Sept. 6 (AP) — The conference of 25 nonaligned nations ended today with an appeal to the United States and the Soviet Union to halt "war preparations" and start negotiations for peace. It dems chiefly with colonialism and —

Kennedy. Conference sources said earlier that Moscow would also urge Khrushchev to agree to the U.S. British proposal for a moratorium on nuclear weapon tests in the atmosphere.

Indonesian President Sukarno and President Modibo Keita, Mali, were delegated to deliver the appeal to President Kennedy in Washington, on Sept. 17.

1. Declared the U. S. naval base at Guantanamo Bay "affects the sovereignty and integrity of Cuba."
2. Called Algerian rebel claims to French-held Sahara desert territory "just and necessary" and offered to aid the Algerians in their struggle with France.
3. Demanded immediate evacuation of French armed forces from Tunisia soil.
4. Demanded immediate freedom for Portugal's 400,000 slaves in Africa and India refuse to permit a plebiscite in Modern Kashmir.

Nothing was said about Soviet domination of Eastern Europe, Chinese communist occupation of Tibet or India's refusal to permit a plebiscite in Modern Kashmir. Indian Prime Minister Nehru left for Moscow today on a visit he had scheduled before the Belgrade conference, but Indian diplomats said their leader would carry to Soviet Premier Khrushchev the conference's appeal that he must urgently with President Kennedy.

Colorado's Cold Damages Beans

DENVER, Sept. 6 (AP) — Colorado farmers report the week of frost or frosts and sub-freezing temperatures caused an estimated one million dollars in crop damage. Heats of pinto beans, the major crop of the area, were blackened by the frost. The bean crop, said to be the best in the state, was estimated to be harvested this week.

Plane Piracy Law Signed By President

WASHINGTON, Sept. 6 (AP) — President Kennedy signed into law yesterday a bill declaring the hijacking of aircraft an act of piracy punishable by penalties up to death.

It would allow lesser penalties of 20 years to life in prison.

The measure was enacted by congress in reaction to the seizure of commercial planes whose pilots have been forced at gunpoint to fly to Cuba.

The measure also would impose penalties up to five years and a \$5,000 fine for giving false information about plane hijackings and up to a year in jail and \$1,000 fine for illegally carrying concealed weapons aboard an aircraft.

The statute gives justice the sole authority to decide the death penalty for aircraft piracy, except in cases where the defendant has pleaded guilty or waived a jury trial.

In these cases the trial judge could impose the death sentence in his own discretion.

Drivers Test Cuts Insured Youth's Fees

NEW YORK, Sept. 6 (AP)—A new drivers test is slashing auto insurance fees for boys and young men who are really good drivers.

The test successfully predicts whether the male aged 16 to 20 is likely to be a safe driver or an accident-prone hot-rodder, according to Charles F. Hanes, a psychologist at the University of Tennessee, Knoxville, Tenn., said today.

The test is purely psychological. It does not involve vision, reaction or any driving skills—just general attitudes.

The young man who scores high gets insurance at the same rate which adults pay. Lower scores kick up premiums. Those in the lowest group pay four times the adult rate.

At present, most insurance companies automatically charge double the adult rate for teenagers 16 to 20, because this age group has such a high proportion of accidents, Hanes said.

Police Move "Ban Bomb" Demonstrator

Police carry away smiling non-violent "ban-the-bomb" demonstrator after he was ordered to leave the Soviet embassy in London during demonstration against the resumption of nuclear testing by Russia. Police arrested 113 persons in connection with the demonstration. (NEA telephoto)

First U.S. A-Tests Likely To Be Small, Scientist Says

WASHINGTON, Sept. 6 (AP)—The first U.S. underground nuclear tests ordered by President Kennedy probably will be little explosions involving nuclear weapons for infantrymen and improved land mines, torpedoes and air-to-air missiles, says Dr. Ralph Lapp.

But Lapp told a newsmen the tests might eventually involve digging very deep holes to test new and improved concepts of more compact warheads for the Minuteman intercontinental ballistic missile.

Lapp is an atomic scientist, not connected with the government, but he keeps close tabs on nuclear developments.

He said that presumably the early new tests would be limited to explosives packing less than the equivalent of 100,000 tons of TNT—to eliminate any danger

of fallout resulting from explosions in the presumably moderate-depth test tunnels now available.

Lapp said "all sorts of tactical devices" could be tested at 100,000 tons of TNT equivalent.

For one thing, he said, an early test might involve the proof-testing of the Davy Crockett, designed for use by infantrymen as a nuclear anti-tank weapon.

Improved versions of land mines, torpedoes and air-to-air missiles also could be so tested, he said.

But Lapp said a major conceivable requirement by the

United States could be an improved version of the warhead for the Minuteman ICBM. However, he added, this must be done in special, very deep holes, and these presumably are not yet available.

Miss Anderson, Larsen Marry in Temple Service

BUHL, Sept. 6 — Bonnie Jean Anderson became the bride of Kim Paul Larsen in double ring wedding rites solemnized by President William Killpack Aug. 24 at the Idaho Falls temple.

The couple was accompanied to the altar by the bride's parents, Mr. and Mrs. Andy Anderson, Mr. and Mrs. Paul B. Anderson, Mr. and Mrs. Homer Taylor, Reardon, and Mary Johnson, Buhl, who were guests.

After the ceremony a wedding breakfast was served in the Flamingo motel dining room in Idaho Falls with the bride's parents as guests.

A garden reception was held that evening at the home of the bride's parents in a large covered butternut fastened to the back of the gown and accented with a classic design form length gown of delustrated bridal satin re-embroidered with delicate lace and studded with seed pearls.

A beaded necklace and pointed earring were features of the high empire bodice. The gown covered buttons fastened the back of the gown and accented with a classic design form length gown of delustrated bridal satin re-embroidered with delicate lace and studded with seed pearls.

Wed in Idaho Falls Rites

MR. AND MRS. KIM PAUL LARSEN (Dudley photo-staff engraving)

A cultured pearl necklace centered with a diamond suspended from a silver chain and a matching pearl cluster ring, both gifts from the bridegroom, were the bride's jewelry.

Miss Johnson, Salt Lake City, was maid of honor and Karen Taylor, cousin of the bride, Logan Utah, and Mrs. Dean Johnson, Salt Lake City, were bridesmaids. Miss Anderson, sister of the bride, was junior bridesmaid.

Each wore an emerald green satin brocade street length gown embellished with a magenta floral design. Each dress was fitted with a fitted bodice, a beaded neckline, three quarter-length sleeves and a modest full skirt.

Each wore an emerald green satin brocade street length gown embellished with a magenta floral design. Each dress was fitted with a fitted bodice, a beaded neckline, three quarter-length sleeves and a modest full skirt.

A picture window revealed the garden setting where guests were seated at individual tables which were draped with pastel shades of cloths and centered with silver and white acorcion lanterns. Antique gold lamp posts bearing pink crystal candles flanked the individual tables.

Wrought iron holders on patio posts with lighted pink spiral rods held up the white tulle suspended from pink and white satin streamers and an array of pink and blossoms completed the table decorations.

The bride's mother presented a gold colored dinner dress accented with a white formal dinner jacket with three buttons and a white boutonniere.

Food for Americans

BREAKFAST BOOSTER

Now that schools are reopening, nutritionists and educationists are stressing that a child's breakfast should provide from one-fourth to one-third of his daily food needs. The child who goes to school after a good breakfast generally is more active physically and more alert mentally than those who skip breakfast.

We rode with a Chicago taxi driver, a healthy, young fellow who beamed up the nutritionists. "My old lady would never let me go to school without a good breakfast," he told us. "She knows I can't drive carelessly and well without—well, this morning she gave me green chili, oatmeal, bran, crunch coffee cake, and coffee. See what she means by a good breakfast?"

University of Iowa scientists report that survey of office and factory workers shows that men and women who eat an adequate breakfast do more work than those who do not. A breakfast coffee break helps, breakfast is much better in work output results.

DRAG CRUNCH COFFEE CAKE (Yield: 16 pieces)

1 cup butter or margarine melted

1/2 cup brown sugar, well-packed

1/4 cup bran flakes or raisin bran flakes

1 teaspoon cinnamon

2 cups prepared blinnit mix

1 egg, slightly beaten

1/2 cup milk

Mix together melted butter or margarine, brown sugar, bran flakes or raisin bran flakes, and cinnamon. Combine blinnit mix, egg and milk and stir vigorously until cream-colored. Pour batter in greased pan (8 by 8 by 2 inches). Sprinkle half of cereal mixture over top. Cover with remaining butter and top with remaining cereal. Bake in a moderate oven (375-degree F.) until done and brown, 20 to 25 minutes. Serve warm.

Castleford Miss And Partin Wed In Chapel Rites

BUHL, Sept. 6 — Wanda Lee Wieceaver, daughter of Mr. and Mrs. Joe Wieceaver, Castleford, was united in marriage to Mr. Marcia Robertson, Pleasant Grove, Calif., and John L. Partin, Buhl, in chapel rites. The bride's vows at 8 p.m. Tuesday, Aug. 23 at the Buhl First Christian church.

The Rev. Roy L. Titus, Boise, retired minister, performed the double ring ceremony before a background of lighted tapers and cathedral baskets of white gladioli. The Rev. Delmar Talley, minister, officiated at the altar.

The bride, given in marriage by her father, wore a floor length gown of lace and silk with a round neckline that dipped to a V in back accented with a satin bow. The dress was accented with a fitted bodice of lace applique over satin and long lily point sleeves.

The skirt was designed with a lace insert trimmed in seed pearls. Her elbow-length veil of illusion, applied with a soft pill box had trimmed with small flowers and seed pearls. The entire ensemble was accented with a matching veil.

The bride carried a bouquet of yellow gladioli, white lilies, and white roses. She wore a pin set on a white Bible, a gift of the bridegroom. She wore a pin set on a white Bible, a gift of the bridegroom.

Burley Student Completes Trip To Scandinavia

—BURLY, Sept. 6 — Marjorie Nielsen, Burley, returned home Friday after a two-month visit to Sweden. Her parents, Mr. and Mrs. Robert Lambert, met her in Hoboken, N. J. Aug. 24.

Miss Nielsen is one of 37 students who went to Sweden under the direction of the American field service. Her Swedish "family" lived near Stockholm. During her visit she toured Stockholm and parts of the country.

Miss Nielsen and her family went sight-seeing in New York, Philadelphia and Washington, D. C. They visited relatives in Kansas and arrived in Burley Thursday evening.

IDAHO DEPT. STORE of Twin Falls

Hearing Slated Thursday On Eradication Project For Roseworth Reservoir

A public hearing to discuss the feasibility of a trash fish eradication program on Roseworth reservoir will be conducted at 7:30 p.m. Thursday at the Idaho Power auditorium in Twin Falls. District fish biologist Stacey Gebhardt, Jerome, said a heavy increase in muskie plus the low water level in the reservoir indicates this week-end would be ideal for such a project. He added since the water conditions are so low throughout the area, the fish and game department plans to replant the reservoir with fingerlings and catchable size trout next spring and open the impoundment with the general season. Usually reservoirs are closed the year after eradication program.

Bellevue Will Host Bliss in First Game

BELLEVUE, Sept. 6—The Bellevue Bulldogs, one of the powers in the Snake River conference, will get an idea of how their fortunes will fare this year when they host the rugged Bliss Bears Friday afternoon in their opener. Coach Gerald Wunderlich, starting his second year at the Bulldogs' helm, lost six men off last year's squad and has five returners remaining. Still other coaches in the conference expect the Bulldogs to be strong again this year.

Tigers Absorb Sixth Defeat, Fall 7 1/2 Games Behind Yankees

The slumping Detroit Tigers fell 7 1/2 games behind the league-leading New York Yankees Tuesday night as the Baltimore Orioles won a completed suspended game and a 1-0 shutout in the regularly-scheduled contest. The twin losses extended Detroit's losing streak to six, their longest of the season. Baltimore took the

Hornets Have Depth With 22 Lettermen

DECOLO, Sept. 6—Although the Decolo Hornets lost some key men from last year's squad, coach Lincoln Hatch and his charges look toward the Decolo Valley conference schedule with experience two Magpie Valley positions. The Hornets lost most of last year's backfield but the line will remain nearly the same. Decolo opens its season in a non-conference test Friday by hosting Rockland.

Froehling Is Upset Victim In Net Meet

FOREST HILLS, N. Y., Sept. 6—The U. S. Davis cup picture was thrown into further confusion Tuesday when Donald Dell of Bethesda, Md., upset eighth-seeded Frank Froehling in the third round of the national tennis championships.

Bruins Prime for Grid Opener With Minico Spartans

Expecting a "typical season opener" Coach Paul Ostin will send his Twin Falls Bruins against the Minico Spartans at Rupert Friday night in the first game for both teams. Minico, which was impressive in a jamboree last week-end, rated a slight edge over the Bruins who will try to instill some experience into their young corps before the conference games roll around.

Executives of Prices-Fixing Firms Target

WASHINGTON, Sept. 6 (AP)—Sen. Ed. Brooke, D. Tenn., called today for stiff penalties against corporate presidents who work at price-fixing rigging and bid-rigging by subordinates.

Brooke opened senate hearings on five bills to tighten the antitrust laws by placing responsibility on top management of America's big companies for actions of men working for them.

As his first witness, Brooke called Sen. William Proxmire, D.-Wis., author of legislation to require companies convicted of price-fixing to fire the employees involved under certain circumstances.

Brooke said he wondered why the presidents of the General Electric company and Westinghouse Electric corporation were unaware of illegal price-fixing which erupted in a major scandal last winter and spring.

He said the corporate officers should have known that CE and Westinghouse secretly dumped markets and fixed prices as long ago as 1950, "and more or less continuously since that time."

Under a bill offered by Brooke and Sen. John A. Carroll, D.-Colo., company presidents and managers of firms convicted of price-fixing could be sent to jail for one year and fined \$100,000 if they had "reasonable cause to believe" the firm was about to violate antitrust laws.

Another bill under consideration by Brooke's monopoly subcommittee would stiffen antitrust penalties against those involved in price-fixing.

Still another measure—this one cosponsored by Sen. Philip A. Hart, D.-Mich.—would require government contractors to file submitted identical bids any time within the past two years to swear that current bids were prepared in cooperation with competitors.

Gem Chamber Parley Slated

BURLEY, Sept. 6—Plans are complete for the annual meeting of the state Gem Chamber of Commerce to be held Thursday morning at the Copeland Hotel in Burley.

The meeting is being presided over by J. H. Harris, state president.

Charles Hendricks, president of the local chamber, is chairing the group and Robert Day, vice president of this area from Twin Falls, will conduct the meeting.

A discussion on the wilderness bill will be held by Harris.

Other speakers will be Murray Moier, UPI international manager, who covered the Alan Shepard space flight, and a speaker who was with Shepard when he was decorated by President Kennedy.

All members of the Burley Chamber of Commerce are urged to attend.

There will be 16 state chamber directors present and a member of the national resources committee, chamber members from Gooding, Jerome, Twin Falls and Rupert, according to J. H. Harris, state chamber president.

X15 Tests Put Off One Week

EDWARDS AIR FORCE BASE, Calif., Sept. 6 (AP)—The national aeronautics and space administration (NASA) will not be able to test the X15 rocket plane this week because of mechanical problems, it was announced yesterday.

NASA had planned to queue two flights of the experimental plane into this week but the agency said the next flight now won't be attempted before Tuesday.

One of the two flights canceled was to have been an attempt at a speed record of 3,700 mph in an hour by pilot Joe Walker. The other was an orientation flight for air force Capt. Robert Rank.

U.N. ENVOYS OK'D

WASHINGTON, Sept. 6 (AP)—The senate has confirmed 30 nominations of Adlai E. Stevenson and the four other members of the U.S. delegation to the 16th session of the United Nations general assembly.

Khrushchev's Bomb

When the Russians speak of 100-megaton bombs, this is what they mean. The center circle with white cross indicating "ground zero," symbolizes the Hiroshima bomb dropped during World War II. Its fireball covered 400 feet from center point in all directions. The radius of the 15-megaton bomb, now the target, would be two miles. The diagram compares the radius of the two with that of the proposed Russian bomb, estimated at five miles from center to outside margin of fireball. Fallout from the big bomb would cover 140,000 square miles.

Ability of Strontium-90 to Trick Human Body Hinted

NEW YORK, Sept. 6 (AP)—The scientific hope that strontium-90 could treat cancer by mimicking the chemistry of people and other mammals has yet been subjected to a natural environment in this atomic age.

It also noted that the dog's skeleton was excellently formed and his bones were in a top condition of health. In short, there was no evidence that even a high daily level of radioactive strontium-90 throughout his life had done the animal any harm.

The scientists noted in their report that the daily level of dietary strontium-90 had been much higher than any mammal has yet been subjected to in a natural environment in this atomic age.

It also noted that the dog's skeleton was excellently formed and his bones were in a top condition of health. In short, there was no evidence that even a high daily level of radioactive strontium-90 throughout his life had done the animal any harm.

Strontium-90 is a beta emitter chemically because it is radioactive on a long-lasting basis. It is generated in atomic bomb explosions and then, through continuous atmospheric "fall-out," lots of it is around.

Strontium-90 is a beta emitter chemically because it is radioactive on a long-lasting basis. It is generated in atomic bomb explosions and then, through continuous atmospheric "fall-out," lots of it is around.

Most animals acquire it by eating the plants. People come to it by eating the same plants and consuming the meat and milk of the animals.

It is tricky in-body chemistry depends upon the similarity to another metallic element, calcium, which body chemistry must have for bone formation and repair.

Strontium-90, from calcium and marrow, some kind of mass disaster may await the populace spread and their strontium-90 fall-out gets considerably higher than it is now.

But ecologists had some scattered and inconclusive reasons for hoping the body chemistry of mammals could and did discriminate against strontium-90.

There were some indications that where strontium-90 and calcium were equally available in the diet, the absorption of the strontium was as much as four times that of strontium-90.

The fall-out rate of strontium-90 could be many, many times higher than it has ever been without offering the slightest threat to people who drank the milk and ate the meat of animals which absorbed the radioactive mineral.

But now comes Dr. Dety J. Sloner of the University of Utah, Salt Lake City, and M. Goldman and C. Anderson of the University of California, Davis campus, to say it is not conclusively true and probably isn't true at all.

They began controlling the diet of a beagle bitch at the beginning of a pregnancy. The diet also contained the same amounts of calcium and strontium-90 throughout the period of gestation and then through the nursing period.

When the young were weaned and were on their nutritional own, their diet was precisely what the mother's had been. This was carried on for approximately nine and seven months—the whole period of growth from birth to adulthood.

Bones of one dog were then subjected to minute chemical analysis. There had been no discrimination. Strontium-90 and calcium were distributed through the bones in precise proportions to the amounts which had been contained in the diet from before birth to death.

Lost Tourist Remembered

FAIRBANKS, ALASKA, Sept. 6 (AP)—Remember William Waters, the Kentucky tourist who was lost for 67 days in the Alaska wilderness.

A lot of people have. Old friends and total strangers have sent him their best wishes since he was found a week and a half ago, gaunt and near death, by two moose hunters.

Waters, 42, Erlanger, Ky., was lost June 20 while on a fishing trip to the Big Lake area, 120 miles northeast of here, on Aug. 26 before he found his way out, crawling to the creek bank where the two hunters dragged him into their boat.

Waters is up to 130 pounds now—40 more than he weighed when rescued. He has been walking a little about his hospital room. He was placed on a high protein diet yesterday.

"When the nurses brought in that fried chicken," he said, "I could hardly believe my eyes."

Associated Press accounts of Waters' exploit, brought him letters from strangers as far away as Maine and Florida. Most expressed amazement at his survival and praise for his courage and will to live.

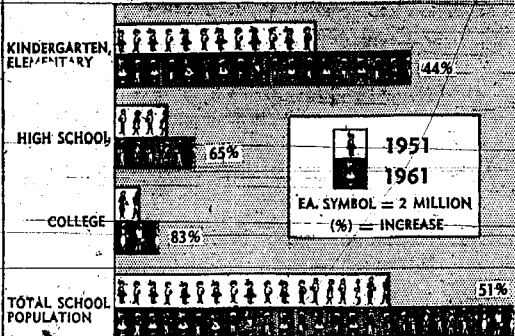

A. P. Johnson bakery gave him a birthday anniversary cake Saturday. His birthday was Aug. 24 two days before his rescue. He didn't know what day it was, then, because he had lost track of time.

NO NEWS MEET

WASHINGTON, Sept. 6 (AP)—President Kennedy will not hold a news conference this week, the White House announces.

1.8 Million More Students

INCREASE IN U.S. SCHOOL POPULATION 1951-'61

The classrooms of the nation have opened their doors to 1.8 million more students a year than last. Total school enrollment is now 19.7 million, compared with 20.7 million in 1951. The chart above shows the growth in all divisions of education for the 10-year period.

U.S. Will Protest Spud Restriction

WASHINGTON, Sept. 6 (AP)—Sen. Frank Church, D. Ida., said yesterday the state department has agreed to protest Swiss restrictions on the import of American potato products.

However, he said he was told that the restrictions may be within the provisions of trade agreements.

Church said he also has received word from the White House

that President Kennedy has asked the treasury, state and interior departments to investigate present government policy of selling "free-silver-for-coinage" silver.

Church and other western senators wrote the President, contending the silver sales were depressing the market.

New Hampshire has the lowest home title rate of any state in the union. It was 0.3 per thousand in 1958, the latest year for which figures are available.

UTAH MAN FINED

BURLEY, Sept. 6—Leo Walter Peterson, 46, Brigham City, Utah, was fined \$50 Tuesday by Justice of the Peace Alfred Crane for driving on a revoked Utah driver's license.

SINGER SEWING SERVICE CALL SINGER SEWING CENTER 120 MAIN NORTH

Gem Dental Unit Officers Selected

SUN VALLEY, Sept. 6 (AP)—A. G. DeWitt, Boise, was installed president of the Idaho State Dental Association group's annual convention which concluded last night.

Dr. Thilo Cornell, Lewiston, was named president-elect. Also elected were Dr. Ken Gilbert, Boise, secretary, Dr. Boyd Bryson, Boise, treasurer.

Dr. Edwin H. Lee, Ririe, outgoing president.

New trustees are Dr. Rex H. Twinn, Boise; Dr. Robert Williams, Jerome; Dr. Loren Hood, Coeur d'Alene; Dr. Mervyn Stowman, Nampa; and Dr. A. McCabe, St. Maries.

Judging Set

SHOSHONE, Sept. 6—Estelaine Pomona Grange will meet at 8:30 p.m. Thursday at the Richfield Grange hall.

Entries for the state ballroom contest are to be taken at the meeting. After the judging of the entries, they will be awarded with money raised being divided among the first, second and third place winners.

LOAN ANNOUNCED

WASHINGTON, Sept. 6 (AP)—The community facilities administration has announced a loan of \$10,500 for preliminary planning of a nursing home in Ada county, Ind., to cost an estimated \$880,000.
