

Weed Fire Kills Elderly Man on Rupert Acreage

RUPERT, March 30—The badly burned foot of Fred L. 81, city day resident of Rupert, was found by a neighbor a little after 6 p.m. Thursday in a berry patch on his property just north of the Rupert city limits.

The elderly man, who was hampered in his movements by crippling arthritis, had been burning weeds on his acreage. G. L. Dean, who lives nearby, noticed that the fire had spread beneath some fruit trees. He went to the house to warn Lucy first.

Lucy had lived alone since his wife died several years ago. Mrs. Minnie, county coroner Robert C. Walk said the man apparently was overcome by smoke and the fire burned for some time before he was found. Walk said no autopsy is planned.

He was born Dec. 16, 1880, at Reed, Okla. He came to South Dakota before he came to Rupert in 1914. In 1917 he married Anna Fine in Rupert. She died in 1940. Mr. and Mrs. Dean again in 1943 to Mrs. Ada Kahlin and she died several years ago. He was a member of the Independent Order of Old Fellows at Rupert.

Survivors include a son, Edward, of McClain, Okla.; a daughter, Darcy and Mrs. Vern Jones, all Salt Lake City; a step-son, Virgil Kahlin, of Idaho Falls; a step-daughter, Charles L. Lewis, of Salt Lake City; a step-son, George L. Lewis, of Salt Lake City; a step-daughter, Mary, of Salt Lake City; a step-son, Frank Lewis, of Salt Lake City; a step-daughter, Joseph McNary, of Salt Lake City. Funeral services are pending at the Walk mortuary in Rupert.

U. S. Submits Arms Plan at Geneva Talk

GENEVA, March 30 (AP)—The United States will submit to the Geneva disarmament conference a plan calling for elimination of national armaments within nine years and their replacement by a United Nations force, reliable sources said today.

The American plan is to be submitted to the Soviet draft treaty for general and complete disarmament within four years, including the United Nations force, reliable sources said today.

It was understood Secretary of State Rankin and William Foster, director of the arms control and disarmament agency, were meeting in Washington with British principals today to put the finishing touches on the plan.

The west complains that the Russian four-year plan gives the Russians an undue military advantage in the early stages and includes a large number of proposals for international controls to insure each nation destroys its arms on schedule.

Single Fund Drive in T.F. Under Study

Some 28 persons attended an early morning meeting Friday at the request of the solicitation committee of the Twin Falls Chamber of Commerce to explore the feasibility of a single fund drive for the city.

The group determined the first year in such an effort. It was decided to hold a fund drive for the year 1963.

MRS. JOHN F. KENNEDY is welcomed back to Washington by Paulist Ambassador to the U. S., Ais Ahmed and his wife, who headed a reception line to greet Mrs. J. F. Kennedy and her husband as they returned from their 10,000-mile semi-circular tour of India and Pakistan. President Kennedy, who boarded the plane in Washington to meet his wife, follows her along the line. (AP wirephoto)

Salmon Tract Farmers to Get .74 on Water Shares for '62

HOLLISTER, March 30—More water, the most in several years, was the prediction given drought-weary Salmon tract farmers and ranchers Thursday evening by officials of the Twin Falls soil conservation district.

Nearly 100 Salmon tract ranchers and farmers jammed into the Hollister Grange hall for the annual water forecast meeting. They were rewarded with the news they could expect .74 on an acre-foot of water per share of stock in the Salmon Falls Cattle and Horse Company.

Blackfoot Boy Gets Star Farmer Honor

BURLEY, March 30—A Blackfoot high school senior was named the star farmer of Idaho at a special recognition ceremony Friday afternoon at the second day of the 31st annual convention of the Future Farmers of America.

The selection of Gary Pratt, son of Mr. and Mrs. Eldred Pratt, Blackfoot, climaxed the morning of 67 boys for the state farmer degree this election at the third convention session in the Burley high school.

The students are debating on "Federal aid to education," Paluska said. The tournament continues through Saturday afternoon when the winners will be announced.

Paluska said students from Mobo, Kuna and Kimberly are competing in the division of Boise, Payette, Caldwell, Minidoka, Burley and Twin Falls. The winners will be announced.

Area Debate Final Under Way in T. F.

Some 60 southern Idaho students are debating in the regional debate tournament Friday afternoon at the Twin Falls high school. The tournament is being held at the Twin Falls high school.

The winners will be announced Saturday afternoon. The tournament is being held at the Twin Falls high school.

New Opponents to Stud Order Cited At Idaho Hearing

POCATELLO, March 30 (UPI)—New confidence that a proposed national potato marketing order will be stopped at least within a year was given today as the reason for Idaho's fierce opposition. Nyan Rydbeck, chairman of Gov. Robert E. Smylie's potato industry coordinating committee, said today unexpected opposition to volume controls at other hearings is the reason. Idaho growers two months ago were prepared to make new concessions, especially along the line of federal inspection, call regulations, and grade labeling on supply with demand.

But testimony has shown many farmers are against volume control is the heart of the proposal which seeks to balance supply with demand. Idaho's original lack of confidence was based on the fact that the three Idaho delegates were about to fight against the order when it was drafted by a national USDA committee.

With the new "go" position on the entire order, Idaho growers and processor winners are blasting proposed call regulations, especially in the processing industry.

"It calls can be turned into a first-rate product," packer Bill Anderson of Blackfoot testified today at the hearing.

"I am unalterably opposed to a federal call regulation, fresh or processed," he said. "The processing industry is not interested in using every bit of usable potato."

There is a split evident, however, among "fresh marketing" growers and some processors over proposed call regulations.

Growers who ship chiefly to the fresh market have indicated they desire national call regulations to ease eastern producing areas not working under regulations from shipping calls to metropolitan markets nearby.

Robert Lamb, American Falls, manager of the Idaho-Washington processing plant, said yesterday that the call regulations would "materially hurt" the Idaho grower.

"Cuts in Idaho production would amount to about 20 per cent of the output," he said. "I doubt if the Idaho potato industry could stand the economic burden imposed by such a regulation."

Growers' anger has often been expressed "anything useful" but added that the end product was of high quality.

French Smash OAS Plans of Terrorism

PARIS, March 30 (UPI)—The French government announced tonight that it smashed plans by the outlawed secret army organization for a major terrorist offensive in France after the Algerian cease-fire. Ministers of the Interior, Roger Frey, told the cabinet that the offensive was to have been launched four days after the cease-fire, which was announced March 18 and which went into effect the next day. It was known as the "Sergeant plan," he said, and was named after Jacques Sergeant, one of the top OAS terrorists still at large.

Frey told the cabinet the plan was captured by police shortly before the cease-fire took effect. He said this enabled the government to arrest a large number of OAS terrorists and to prevent the offensive from being carried out.

Low Bid for School Wing Hits \$83,176

OLTS C. Hall Construction Company, 1328 Eighth avenue east, has submitted the lowest bid for construction of an extension to wing "B" of Twin Falls high school of \$83,176. The school is a high school.

Bids for the high school addition during a special meeting of trustees for Olts C. Hall construction company were opened Thursday evening during a special meeting of trustees for Olts C. Hall construction company.

One of those arrested was Gilbert Vincent, described as Sergeant's chief aide. Gilbert spokesman Louis Terrence said Frey described Vincent to the cabinet as "an extremely dangerous terrorist."

Frey told the cabinet that a major OAS network was arrested and 40 of its members arrested. He said it was as important as the arrest of Vincent, who was in Britain, of whom more than 100 members so far have been arrested.

Frey told the cabinet that in the past 10 months police have seized 3,160 pounds of explosives in the area of the school.

Prizes Await Winners of Flying Kites

More than 60 prizes will be given away Saturday at the kite-flying contest, announced Ernest Crater, superintendent of Twin Falls parks and recreation department.

The kite-flying contest, sponsored by the city of Twin Falls, will be held from 10 a.m. to noon Saturday at the high school athletic field.

All kinds of kites may be entered but all must be home-made and made of paper or wood. Anyone can enter the contest, young, old, adults as well as youngsters, since there is no age limit.

Hit-Run Car Spills Rider

MARMA PETERSON, 218 B. Lakota boulevard, daughter of Mrs. and Mr. Harry J. Peterson, was killed in "a really good" accident Friday morning when she was struck by a car which she was taking Thursday evening after a hit-and-run accident on Blue Lake boulevard.

Mrs. Peterson was driving south on the boulevard on an Alameda motorcycle. A vehicle was driven north on the same street and a left turn in front of her. The driver of the car drove off after the accident and car collided.

Suspects Are Returned for Elk Charges

ELKO, March 30 (AP)—Mrs. Mary Louise Landcaster, 21, was returned here from Idaho for arraignment today on charges of kidnapping from the Lavetti slaying of two men in a holdup last Monday morning.

Her husband, Lloyd Landcaster, Jr., 35, was also being held here on a murder charge. A preliminary hearing will be held today. Total capacity of the reservoir is 100,000 acre-feet.

The year 1921 was the only time the reservoir has been nearly filled. During the 1921 crop season, tractors received only 21 acre-feet of water per acre.

The year 1958 was the last season the tract experienced a near normal water supply. The amount of water stored in the reservoir at this time last year, total capacity of the reservoir is 100,000 acre-feet.

Residents Asked to Delay Use of Water for Lawns

A plea to refrain from springing lawns until April 15 is made by H. L. Derrick, city manager. The city is asking residents to delay watering their lawns until April 15.

Derrick explains that canal water will not be available to the city until April 15, and that city employees can't meet the demand if residents start irrigating.

Show

Six or eight members of the Lawrence W. orchestra TV show will present a concert in Twin Falls this evening. The concert will be held at the Twin Falls high school.

The concert will be sponsored by the Twin Falls Chamber of Commerce. The concert will be held at the Twin Falls high school.

Muddy Roads Close Howell Canyon Lifts

BURLEY, March 30—The road into Howell canyon and the Howell canyon lift is closed today because of mud on the road.

The mud is caused by heavy rain in the area. The road is expected to be closed until the mud is cleared.

Won't Cross

PITTSBURGH, N.Y., March 30 (AP)—Some construction work reportedly refused again today to cross picket lines established by an office employees union. The union is refusing to cross picket lines.

U.S. Outflow Of Gold Said On Increase

WASHINGTON, March 30 — The outflow of gold from the United States is increasing again and threatens to run well above 1961 levels.

Monetary authorities are experimenting with 20 promising countermeasures.

The treasury announced Thursday that foreigners bought 109 million dollars of U.S. gold in the past week. That boosted March sales to 380 million dollars, compared with 99 million dollars in the first two months of the year.

Ironically, while gold sales threaten to increase, there is nothing to indicate that the country's balance of payments deficit will exceed the 1961 level of 2.5 billion dollars.

The January-March payments deficit is expected to total about 1.5 billion dollars, on a seasonally adjusted basis, compared with 1.4 billion dollars a year earlier. The total U.S. supply is at a 24-year low of 18.6 billion dollars.

Knowledgeable financial sources said that, despite the unfavorable gold outlook, the United States is hoping that sales will be held to 1961 levels through the use of two techniques.

The treasury and federal reserve system are ready to deal aggressively in foreign currencies. The treasury started such dealings last year, according to informed estimates, was able to head off an additional 900 million dollars of gold sales that time through its currency operations.

Here is how dealings in foreign currencies can reduce sales of gold: Assume that Britain has 200 million dollars in U.S. dollars, which it intends to use to buy U.S. gold. The treasury or federal reserve could buy or borrow an equivalent amount of pounds sterling, using the British currency to buy up Britain's dollars. In other words, there would be a swap of sterling for dollars instead of dollars for gold.

A number of European central banks have reached an unwritten understanding that they will help the United States curb speculation in the London gold market.

For more than a year, the Bank of England has been supplying the London market with enough gold to keep a lid on prices—in order to discourage speculation. However, the British bank has offset its market sales of gold by buying bullion from the United States.

5 Workmen Die In Boiler Blast

ORENSBORO, N.C., March 29 — A coal-fired boiler at a pipe foundry exploded with a force that killed five workmen and injured 13 others.

The blast occurred at the huge Fomona Turb. Galle company plant. It erupted with such force that boxcars parked on a nearby siding were jolted from the tracks.

Three of the injured were reported in critical condition. A fourth, a 60-year-old man, was taken to a hospital with a broken leg. The bodies of the victims for nearly two hours.

She Paid

CAMARILLO, Calif., March 29 — Two weeks after a 21-year-old woman refused to pay a \$10 fine for failing to stop at a boulevard stop sign and spent two days in jail.

Earlier this week she was cited for speeding and running a stop sign. She threatened to go to jail in protest rather than pay the fine.

But the prospect of six days in jail proved too much for the Camarillo housewife. She paid the \$10 fine.

Eastern Man To Talk for Health Meet

GOODING, March 30 — Dr. Robert T. Hewitt, Bethesda, Md., director of Western Council on Mental Health Training and Research, will be the keynote speaker for the 10th annual Mental Health association to be held in Gooding April 5-7 at the Lincoln Inn.

He succeeded Dr. Warren T. Vaughn as director on the council last October. He has many special consultant assignments in the western states, particularly in Colorado and Alaska where he conducted surveys to aid in the establishment of modern health programs.

Dr. Hewitt is a diplomate in psychiatry of the American Board of Psychiatry and Neurology. He holds a medical degree in public health from Johns Hopkins university, is a fellow and member of the committee on Standards and ethics of the American Psychiatric association.

He is a member of the American Health association and has served on study committees of the joint commission on mental health and illness.

Dr. Hewitt will deliver his address Saturday morning, April 7.

Activity of T.F. Students Noted

UNIVERSITY OF IDAHO, Moscow, March 30 — Judy Ritz, a freshman majoring in education from Twin Falls, was named during freshman week as the most outstanding freshman in the college of education.

Rosalie Bishop, a freshman music student from Twin Falls, recently was tapped for membership in Sigma Alpha Iota, a national music fraternity for women.

James Kelly, a freshman majoring in mechanical engineering from Twin Falls, was elected architect-historian for Beta Theta Phi fraternity last week.

See Dr. Stark, the Mor-Gro Gardner, Mon. noon, KREX-TV, midday program, Globe, Sect. A-1.

DR. R. T. HEWITT who will speak at the Idaho Mental Health association convention to be held April 5-7 in Gooding at the Lincoln Inn. He is from Bethesda, Md., and is director of the Western Council on Mental Health Training and Research.

Banquet Set

KIMBERLY, March 30 — Paul Gwyn, Twin Falls high school athlete, will be guest speaker at a banquet at 7 p.m. Saturday at the grade school lunch room.

The event will raise funds to purchase equipment for the Kimberly recreation program. Bob Nieren will be master of ceremonies. Mrs. and Mrs. John Feldhusen are general chairmen and Mrs. Lewis Suiter is in charge of table decorations. Girls on Mrs. John Stout's softball team will serve.

BUST STOLEN PHILADELPHIA, March 30 679 — Fraternity pranksters were prime suspects in the theft yesterday of a foot-high bust of Benjamin Franklin from the lobby of Houston hall at the University of Pennsylvania, which Franklin founded. But officials said they have plenty of Franklin busts. "When we need another, we just go up in the attic and get one," a spokesman said.

FRIDAY, MARCH 30, 1962

Dairy Prices On Butterfat, Milk Slashed

WASHINGTON, March 30 — Secretary of Agriculture Orville L. Freeman today slashed federal dairy price supports for milk and butterfat for the marketing year beginning Sunday.

The support for milk was cut to \$2.11 per hundredweight and for butterfat to 37.2 cents a pound.

The rates represent 25 per cent of parity—the minimum permitted by law.

The supports were cut from \$3.40 per hundredweight for milk and from 64 cents per pound for butterfat. These represented 83 per cent of parity for milk and 81 per cent of parity for butterfat.

Freeman said he had not signed a law to cut the dairy supports. He could have set higher supports only if it was necessary to assure an adequate supply for consumers.

Freeman noted that there was a surplus of both milk and butterfat and no necessity existed for a higher support to assure adequate supplies.

Even at 75 per cent of parity the cost of the dairy program for 1962-63 would be about \$23 million, Freeman said.

"Time makes a dramatic change in the necessity of a supply management program if the income of dairy farmers is to be protected," he said.

SERVES ON SHIP DIETRICH, March 30 — Mr. and Mrs. H. B. Paulsen report their son, Roger Paulsen, senior apprentice, is serving aboard the attack transport USS Montrose, which participated in exercises "Pop Sun" on the southern coast of California recently.

Freeman said he had not signed a law to cut the dairy supports. He could have set higher supports only if it was necessary to assure an adequate supply for consumers.

Freeman noted that there was a surplus of both milk and butterfat and no necessity existed for a higher support to assure adequate supplies.

Even at 75 per cent of parity the cost of the dairy program for 1962-63 would be about \$23 million, Freeman said.

News Around Idaho

Major highways throughout Idaho were reported today to be free of snow and dry. State police said the only hazard to driving was water-fall flooding across U. S. Highway 20-N in the Bancroft area in the southeast. Traffic was going through, however.

BOISE, March 30 (AP)—Burnell Lang and his wife, Ruth Lang, of Bonner county, filed a \$30,000 damage suit against Albertson's in U. S. district court Friday. Their complaint charges that Mrs. Lang suffered back, leg and hip injuries when she fell in the Albertson's Food-Center store in Spokane, Wash., March 27, 1961. They claim that Albertson's was negligent in leaving small steel uprights embedded in the floor, which the petition said caused her to fall.

ELK RIVER, March 30 (AP)—The Mead and Howard Lumber company sawmill, shut down since last December, burned to the ground Thursday. Cause of the blaze was not known. The sawmill was located, the shop, several residences and a supply of a million board feet of logs escaped the flames. Damage was estimated at \$30,000 by co-owner Jack Mead.

CRAIGMONT, March 30 (AP)—Lieut. Gov. William E. Drevlow said here Thursday he still hasn't decided whether to run for reelection and added, "There has been some pressure put on me about that." Asked if he intended to seek reelection, the Craigmont Democrat said, "I wouldn't be surprised that it could happen, but I can't say one way or another yet."

BONNERS FERRY, March 30 (AP)—Gov. Robert E. Smylie asked Thursday that the army corps of engineers take immediate action to strengthen a dike on Kootenai river here. Smylie said the work needs to be done before the start of the spring runoff. The dike is being cut away by the river flow and a bridge will be weakened if the dike is not bolstered, Smylie said.

FOCAVELLO, March 30 (AP)—The Focavello school district is offering a \$250 reward for information leading to the arrest and conviction of anyone responsible for calling bomb threats at city schools. Supt. Dorsey Riggs said the money will not come from district funds, but has been provided by public subscription. The reward is being offered in answer to a series of bomb threats that have interrupted classes in several schools here.

Red Band Is Turned Back By Viet Nam

DONG LAUN, South Viet Nam, March 30 (AP)—An estimated 30 communist guerrillas were killed and several wounded Thursday when they tried to ambush a government patrol nine miles south of here, it was reported today.

Five government soldiers were killed, including a captain, and eight were wounded.

The guerrillas exploded an electric mine beneath a truck carrying government troops and a load of gasoline.

The communists apparently underestimated the firepower of an American-made armored scout car, which rolled down withering fire which repelled wave after wave of attacking guerrillas.

The Reds finally faded back into the dense jungle along the road and disappeared, carrying many of their dead and wounded with them.

The government truck was blown to the side of the road and destroyed by fire. The guerrillas, using captured American bazookas, also destroyed two armored scout cars in the convoy.

GETTING ACQUAINTED with their new office are Mike Utlican, left, and Dean Patterson.

GETTING ACQUAINTED with their new office are Mike Utlican, left, and Dean Patterson. The two new firms, a partnership, and purchase the Stock Growers Commission company early this week. Several changes in the yard and considerable remodeling are planned by the partners. They will continue the Saturday sale. Patterson will move his family from Gooding to Twin Falls in the near future and assume most of the office chores. (Times-News photo)

Tax Revision Bill Is Termed Demo Victory

WASHINGTON, March 30 (AP)—Administration leaders in congress hailed today President Kennedy's tax revision bill victory in the house and turned their attention to a senate fight expected to be just as hot.

An almost straight party-line vote saved the bill in the house Thursday. Passage by a vote of 219 to 197 came a few hours after the President at his news conference made a personal plea for the measure. The house action was considered his biggest triumph of the 1962 session.

Rep. Hale Boggs of Louisiana, the Democratic whip, said: "This sets the pattern for the Kennedy program this year. These were Democratic votes."

On final passage, 218 Democrats and a lone Republican, Rep. Richard J. Poff of Virginia, supported the bill, while 197 Republicans and 34 Democrats voted against it.

Troubles

MARSHALL TOWN, Ia., March 30 (AP)—Marshals and beavers have added to the troubles of this flood-threatened central Iowa town.

Armed men were patrolling the dikes watching for the troublemakers, who like to gnaw on the plastic material placed by skindivers inside the dikes to plug leaks caused by the surging Iowa river.

Masked Men Rob Bank—Escape in

LA BELLE, March 30 (AP)—Two masked gunmen robbed a bank today and escaped with between \$30,000 and \$50,000 in a five-mile blaze of gunfire with scores of pursuing policemen.

The bandits, one carrying a submachinegun and the other a pistol, terrorized 34 persons in the bolt holdup at the West Lynn branch of the Essex Trust Co. in this industrial city on Massachusetts' north shore.

A policeman was shot and slightly wounded in the exchange of bullets as the bandit getaway car roared through four communities and eluded police.

Top Reds Are Charged With Breaking Law

WASHINGTON, March 30 (AP)—Cos Hall and Benjamin J. Davis, identified as top officials of the U.S. communist party, pleaded innocent today to charges of violating the internal security act of 1950.

Hall, 51, and Davis, 53, were accused of failing to register the party with the attorney general as directed by the law.

The justice department described Hall as general secretary of the party and Davis as national secretary.

U.S. Dist. Judge Matthew J. Peck, after their attorneys 25 days in which to file motions attacking their indictment by a federal grand jury. They were allowed to remain free under bond of \$5,000 each.

JUNE VISIT SLATED
MANILA, March 30 (AP)—Philippine President Diosdado Macapagal will visit the U.S. Capitol June 10-23 at the invitation of President Kennedy, it was announced today.

Cancer Tests Developed in Middle West

DETROIT, March 30 (AP)—Two Detroit doctors say they have developed a new method of cancer detection by using easily obtainable drugs that would make leave after one or two tests.

The doctors, J. Edward Berk and Sheldon M. Kantor, developed the testing process in extensive clinical tests which began late in 1959. They say their tests have proven 90 per cent accurate.

Their method calls for oral administration of the drug, lymycin, which is naturally fluorescent. According to the doctors, specimens of the contents of a patient's stomach are then placed under a normal ultra-violet lamp. If cancer is present in the stomach, the specimens glow. If there is no cancer, there is no change in the specimens.

Their research will continue at the Yates Memorial Cancer Center of the Michigan Cancer Foundation. Berk is medical director of Sinai hospital and professor of medicine at Wayne State university. Kantor is a medical oncologist at Sinai.

They said the research had been conducted primarily as a method of discovering stomach cancer, but added the nature of the drug would allow its use in detection of other cancers.

Berk, expressed caution and said that the test was "dependent on our ability to understand our organs" and needed more study and refinement.

Guido Takes on President Post, Carefully Eyed

BUENOS AIRES, March 30 (AP)—Jose Maria Guido formally assumed the office of president today under the watchful eye and guiding hand of Argentina's military leaders — and amid a few shouts of "Viva Frondisi!"

The oath-taking ceremony was the second for the former senate president.

The military chiefs were not happy that he took the oath before the supreme court Thursday without informing them.

Masked Men Rob Bank—Escape in

LA BELLE, March 30 (AP)—Two masked gunmen robbed a bank today and escaped with between \$30,000 and \$50,000 in a five-mile blaze of gunfire with scores of pursuing policemen.

The bandits, one carrying a submachinegun and the other a pistol, terrorized 34 persons in the bolt holdup at the West Lynn branch of the Essex Trust Co. in this industrial city on Massachusetts' north shore.

2 Men Buy Cattle Sales Firm in T.F.

Mike Utlican, Glenn Perry, and Dean Patterson, Gooding, have formed a partnership and purchased the Stock Growers Commission company in Twin Falls. This transfer was made early this week.

Wayne Bell, former owner, had operated the company more than 20 years. The company is the oldest commission company in Twin Falls and quite possibly the oldest in Magic Valley, said Patterson.

Utlican has been a rancher in the King Hill area for the past 20 years and Patterson has been associated with livestock commission companies for several years.

The cafe at the company yard has been leased and it is the hope of the partners that the first sale Saturday, will be a good one. They plan to continue the Saturday sale. In addition many features of the yard will be remodeled and changes are anticipated.

They invite all persons interested in the livestock business to drop in and get acquainted. Patterson will move his family to Twin Falls in the near future.

Best Friend

NEW ORLEANS, La., March 30 (AP)—A dog may be man's best friend, but the women are lined up on the side of the cat.

Under pressure from a group of women called the Animal Haven's League, the city council voted 8-0 Thursday against applying to cats a city ordinance that punishes owners of dogs who soil public sidewalks or private lawns.

FAIRFIELD, March 30—Mr. and Mrs. R. W. Pierce were honored at a dinner at the home of Mr. and Mrs. Ed Shiff in honor of the couple's 25th anniversary.

GEM STATE GRAND GUARDIAN, Mrs. Wayne Woodward, Emmett, is presented a corsage by Kay Wilkinson, honored queen of Twin Falls Bethel No. 56, Jobs daughters. Mrs. Woodward made her official visit to the Bethel No. 56 Jobs daughters Bethel No. 56 Wednesday. She is being escorted by Mrs. Ed Shiff, daughter of the bride. A workshop for council members was held at the home of Mrs. Erma Scott. (Times-News photo)

Mays Marries Donna Tritt in Ohio Ceremony

Donna L. Tritt, 27, Paso, Texas, bride of the late Capt. Ralph Mays, son of Mrs. Rodney Tegan, Twin Falls, and Col. Henry Mays, St. Louis, Mo., was married in a base chapel, Wright-Patterson air force base, Ohio.

The reception table was covered with white and orange cloth draped with scalloped greenery caught with anaparragons and accented with pink ribbon. The centerpiece was a silver bowl of pink roses and anaparragons topped with white satin. The table was flanked by pink lilies in silver candelabras.

The bride is the daughter of Mr. and Mrs. Russell Hollenback, Mountain Home, former Fairfield resident. McCammon is the son of Kenneth McCammon and Mrs. Algrit Gibson, Bliss.

Miss Hollenback Is McCammon's Bride in Service

FAIRFIELD, March 30—Francis Elise Hollenback, Mountain Home, and Harvey D. McCammon, Shoshone, were united in marriage March 23 at the Shoshone Methodist church.

"Magic Valley's Most Interesting Store"

Among Fences and Canals

George Allen is trading a 5-year-old quarter horse stallion with option to purchase the animal at his farm southeast of King Hill.

Mr. and Mrs. Ewan Guthrie have leased the Earl Vinsant farm 2 1/2 miles northwest of Shoshone.

Sheep shearing operations have been completed at the Ray Hudson ranch northwest of Buhl.

The Jack Claborn, Jr., family is comfortably settled in the new addition to their home northwest of Kimberly.

Edward Dahlquist, son of Mr. and Mrs. O. H. Dahlquist, Buhl, is very happy about his purchase of a welder and machine.

Mr. and Mrs. Albert Pelley have lost a calf because of a coyote at their ranch bordering the town of Richfield.

Despite muddy weather, some farmers in northwest Shoshone managed to keep up on outdoor work.

Several hundred head of cattle belonging to W. W. Knox were treated from the Shick ranch west of Glens Ferry last week-end.

Fonds in the northwest Shoshone area are now covered by swans. Between 100 and 150 were counted on the pond on the O. H. Avery place by Kevin Bryant.

A three-inch long baby jackrabbit seems to be well on its domestic feeding since becoming the "prize" possession of the Denzle Everett children in Shoshone.

Charles Kasi and a crew of riders have trailed about 300 head of his black Angus and Hereford cattle to their deeded rangeland.

Harvey Gardner, Salmon tract farmer, has crowned 70 acres of hay already this spring.

The whole family was out helping "pick rocks" in a field on the George Denton farm at Filer this week.

Mrs. Anton Bobal, southwest of Filer, is having all of the poplar trees removed on her farm.

New Tests to Determine Price Support on Grain

Producers who take out loans on warehouse-stored wheat will be offered price support loans on the basis of sedimentation values recorded on storage documents by the warehousemen.

Sedimentation tests will be made on hard winter, hard red spring and hard white wheat which is put under price support loans, said Boyd.

The tests are part of the agriculture department's effort, in cooperation with wheat producers and their organizations, to increase markets for U. S. wheat and to increase returns for producers on the basis of quality.

Boyd noted that the sedimentation test reveals the quality of the wheat at the time it is tested. The objective of the program is to reflect the value of quality in support prices to producers providing an incentive for growers to raise higher quality wheat varieties, Boyd said.

According to Boyd the tests will be made by the agriculture department through the state and county offices. Settlement with farmers on the 1962 crop farm stored wheat delivery will be on the basis of sedimentation value.

MEAT EATERS are changing their habits, according to Otis Florence, Jr. of the Independent Meat Company. It inspects a side of choice grade beef, but said that the average consumer is purchasing about as much of the next lower grade. (Times-News photo)

Deposits of salt in drainage leeches them down and out. The salts have a very bad effect on crops as they delay the germinating of seed and leave bare spots, and uneven stands. Yields may be reduced as much as 25 per cent.

PRE-PLANT FERTILIZATION Start your crops off right - apply fertilizer before planting. ANHYDROUS AMMONIA is an excellent fertilizer for early application. 82% NITROGEN Gives your crops a fast start and provides long-lasting plant nutrients.

USS Nitrogen Fertilizers Order USS Anhydrous Ammonia, made by United States Steel, for increased yields at harvest time.

Persons Who Eat Meat Are Changing Their Eating Habits, Florence Says

People who eat meat—and that is practically everyone—are changing their eating habits. That is the opinion of Otis Florence, Jr., general manager of the Independent Meat Company, expressed during an interview to determine his ideas concerning a nationally-syndicated article claiming that the most expensive beef is not always the best for the individual's health.

Manuel Grafton, writing in McCall's magazine, had declared that "among the things the average American fears as he once feared wilds is fat. . . . In the light of this feeling, it is strange there should be one decisively increased form of fat intake virtually promoted, in an indirect way, by the United States government."

In discussing the article, the local meat firm official said that the government is not promoting any certain grade of meat. "All they do is grade the meat so the consumer knows just what he is buying. There is no pushing of one grade above the other. That is a matter that is strictly up to the individual, Florence declared.

The article contended that the higher grades of meat have the most fat in them and Florence conceded this point. He pointed out, however, that the four top grades offered are labeled prime, choice, good and standard.

"Actually," Florence said, "we are becoming a nation of travelers and 'outer-outers.' People like to be entertained. We find that almost all the prime cuts go to the fancy restaurants and exclusive clubs. Very little is purchased by the average man."

"We also have found that the information that experiments involving 'ribeyes' and 'meals' shows that the ribeyes have much lower blood cholesterol than meal eaters. This indicates that by consuming protein in small quantities more frequently rather than in large doses, two or three times a day, the ribeyes gained increased efficiency of protein utilization. The U. S. is one of the few countries in the world where only three meals a day are consumed by most people. From meat, Florence said, the average American is now eating less fat than before. More advanced breeding, he pointed out, tends toward marketing the meat animal sooner and, as a result, there is less fat on them. Also, packers and processors remove much more fat than heretofore and this fat is returned to the butcher shop. It goes right down to the consumer, who leaves more fat on the plate than our pioneer families used to leave. "Getting back to this nibbling theory," Florence stated, "it might be just as true as it seems. Our national researchers tell us that certain populations in other portions of the world generally have lower levels of blood cholesterol. It might not be due to the fact that they consume less saturated or animal fats than we do in the United States as has been concluded in some instances. It might be due instead to the fact they are nations of nibblers rather than meat eaters. But in any event, he concluded, most Americans eat meat in one form or another most of the time. He stated that he has been

Controls for Weeds Cited in Minidoka

RUFERT, March 30—Information on weed control measures compiled by the USDA and the University of Idaho extension service, is being sent out this week by the Minidoka county agent's office, according to Vance Smith, agent.

The combination of suitable crops in rotation, and the use of chemical sprays was listed as the best way for this type of weed control. The crops suitable for this type treatment are pasture corn, cereals, or grass plants. These can be sprayed with 2, 4-D. Short season crops such as beans and potatoes can be used to advantage, and a thick stand of alfalfa cut three times a year for hay and maintained in vigorous condition for four years.

It is very effective in controlling most noxious weeds, the report states.

Fertilizers suggested to use with the various crops in this type treatment include nitrogen for cereal crops, corn and grass pastures.

Smith said that if soil tests indicate it, the use of phosphate would probably help considerably on alfalfa.

Grain or corn should be planted for two consecutive years, Smith pointed out, when starting a crop-rotation program for weed control. Twice a year spraying with 2, 4-D is recommended for these crops.

After two years of alfalfa cut for hay, or grass pasture that has been sprayed twice a year with 2, 4-D, the field should be plowed and planted to beans, potatoes or cereals. This rotation may be repeated, Smith said, if necessary in the control of the weed problem.

Weeds in the seedling stage are most vulnerable, and may be killed by cutting the roots by cultivation, or by spraying with 2 pounds of 2, 4-D per acre within the first month of growth, Smith said. The idea of this treatment is to kill them before they become established, he pointed out.

To keep weeds from seeding from ditch banks, perennial grasses can be encouraged to grow there instead, and a spray of 2-D twice a year may be used.

These suggested methods have been tried and proved, Smith said, and any farmer with a noxious weed problem who follows the outlines may expect to get good results.

Information on particularly types of weed problems in Minidoka county may be secured either at the county agent's office, Smith said, or from Cliff Ford, KIDA, county weed supervisor.

Buhl Farmer Says Planned Legislation Hurts Producer

CECH CALHOUN

CECH CALHOUN, more than 20 years ago, has devoted much of his time to a campaign against passage of house bill 10010, now in congress committee.

The Buhl farmer has lived in the state for 27 years and has been an Orange member for that length of time. He served as master of the Fairview Chapter for two years and was also master of the Twin Falls Pomona Chapter for a similar period. He has been active in the state Orange and for eight years was the Pomona legislative committeeman.

He declared the introduction of the bill has a fortunate angle because it permits open discussion and debate to farmers. The bill has to do with the setting or production quotas and acreage controls on all crops which are now in surplus.

"Today farmers are faced with new and more drastic interference by the political planners. Over the years the terms surplus and surplus have been used as synonymous with disaster," he declared.

"I am convinced that the Kennedy administration has done a great service to the American farmer by introducing a bill which sets the terms of political control of agriculture.

"We know where we stand, we now have the issue out in the open and no amount of double talk will change the color of its clothing."

Points in the new bill which Calhoun feels should be remembered, include:

- (1) The right of the secretary of agriculture to condemn lands without due process of law;
- (2) marketing orders which are impossible to repeal under the present voting setup;
- (3) All allotments on acreage allotments;
- (4) the commodity control program favor large private interests.

He said that the bill will hurt the small ones, and leave the entire industry in the hands of politics.

In addition he warned the bill proposes a three price structure for wheat. This would be 100 per cent of parity for that used within the United States, a lesser price for that exported and still a third price for that in excess of this latter to be classified as feed.

"Such classification would be sold under a certificate carrying market value," Calhoun declared.

"The opportunity for undercover deals in certificates is unlimited without strict federal control and threat of jail sentences."

"This portion of the Kennedy-Freeman bill would be a blessing to the large dry land growers, which could produce at the export

CECH CALHOUN

Plant Sold

BUHL, March 30—Federated Milk Producers association has purchased the Cloverleaf-Pet dairy plant in Buhl. The plant is the Buhl plant of the Pet Milk company.

The Pet Milk company owns plants at Buhl and Richmond, Utah, and the purchase of the Salt Lake City plant, doesn't affect those operations in any way.

The plant purchased by Federated from the Pet Milk company of St. Louis, Mo., involved bottled milk.

Blow Season for Plains Is Noted

WASHINGTON, March 30—The current report of the 1961 season in the Great Plains shows 618,420 acres of land damaged so far this season. The blow season runs from Nov. 1 through May 31.

Of the total land damaged, 412,848 acres, or 67 per cent, were in the northern great plains, and 205,572 acres in the southern Great Plains.

Texas reported 131,025 acres, or 44 per cent, of the land damaged in the southern plains. Montana reported 144,100 acres and North Dakota 114,600 acres damaged in the northern plains. The total for Montana and North Dakota was 63 per cent of the land damaged in the northern plains.

Meet Sunday

JEROME, March 30—The South Central Idaho Homeless association will hold a meeting Sunday at 1 p.m. at the Pleasant Plains schoolhouse, six miles north of here.

There will be a potluck lunch according to Mrs. Gordon M. Martin, association secretary. All Homeless members are invited to attend whether their heads are registered or graded.

Bureau's Land Retirement Idea Described as 'Bridge'

WASHINGTON, March 30—Charles B. Shuman of the American Farm Bureau federation describes his group's crop-land retirement plan as a "bridge" between where we are and where we want to go.

"It's a temporary bridge (for farmers) to change direction, to shift gears," the Farm-Bureau president told a news conference.

The crop-land retirement bill calls for voluntary land retirement for which farmers would receive payments, and lowered price supports on surplus items. It is in direct opposition to the administration farm proposals which call for mandatory land retirement and higher price supports.

"It's a temporary bridge for the farmer to pour on fertilizer and over-produce in an effort to keep up his income. The administration claims the bureau plan would cost more than the administration plan and would cost farmers a million dollars a year in income. Shuman said the bureau plan would cost money, but it's sure less than that anticipated by the administration." He said cost estimates presented by the administration "are political figures out of the front office." He said the ad-

ministration plan would be permanent whereas the bureau plan would be temporary. Shuman ruled out the possibility of a compromise between the farm policy views of the administration and the bureau toward a highly controlled agriculture and the bureau toward a market price system.

Shuman said if the administration "will take one positive step toward a market price system, then compromise is possible." He said the administration establishes artificial prices, whereas the bureau wants the price at the market place to prevail.

He estimated the bureau's 1.6 million farm family members represent "roughly 50 per cent of all commercial farmers. The bureau long has been a potent force in farm legislation."

Shuman said the bureau is "strongly opposed" to a mandatory feed grain program, and would oppose an extension of the present program if the administration omnibus farm bill goes down in congress.

A PICTURE OF one of Magic Valley's famed attractions is admired by Robert Cosgrove, Le Sueur, Minn., board chairman of the Green Giant company, and his wife, Eleanor. Both the firm executive and his wife had praise of the area after a visit here. The picture was taken at the Twin Falls airport prior to their departure for California. (Times-News photo)

High Magic Valley Corn Production Result of Good Farming Practices

By O. A. (Gus) KELKER
Farm Editor

Corn production in this general area is more than double the national average and is mainly the result of good farming practices.

As was a statement made by Robert S. Cosgrove, Le Sueur, Minn., board chairman of the Green Giant company, which operates a large processing plant

in Buhl. The company executive, accompanied by his wife, Eleanor, was in the Buhl and Twin Falls area for nearly three days this week. During this time he inspected the Buhl operation and some of the farm land which produces corn processed at the plant.

At the same time Cosgrove announced that the company is now experimenting with the raising and processing of asparagus in the Buhl area.

"After a thorough study across the country, we came to the conclusion that asparagus would do well in the Buhl area," Cosgrove said. "We then started a growing program there, but because of the nature of the crop, it will be about four years before production quantity is reached. When this is reached then the Buhl plant will process asparagus in addition to corn."

Asked concerning the eventual expansion of the Buhl installation, the board chairman declared that "over the long run, the expansion at Buhl will consist of a 150 per cent increase in acreage instead of the usual 15 per cent. This new product is available in 30 pound bags.

"The new product contains all necessary micro-nutrients and a concentrated fermentation product for building top performing layer feeds," said Richard G. Saunders, sales and marketing director of the division.

"The product was developed at Borden's nutritional research laboratory and test farm, Rign. 711. According to Saunders, the product required a year's work on local protein bases.

"The advantages of this new ration are increased egg production, improved feed efficiency, a saving of \$1.50 per ton over conventional rations and the production of higher energy machines without adding costly fat.

More information of Borden's 800-P can be obtained by writing to the Borden special products company, 820 Madison avenue, New York City.

Low Protein Count Noted In New Feed

NEW YORK, March 30—A new poultry feeds supplement has been developed by Borden Special Products company, feed supplements division.

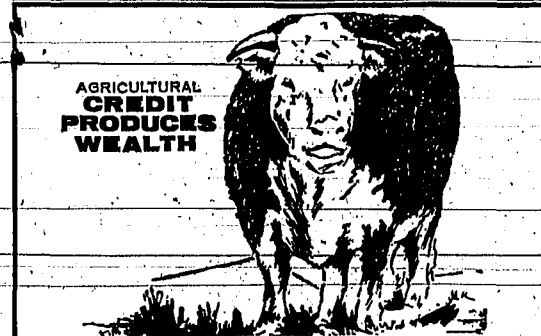

The new product, Borden's 800-P, has a low protein content and is recommended for use at the level of five pounds per ton of dry mash. The result is a mash with a 15.5 per cent protein content instead of the usual 15 per cent. This new product is available in 30 pound bags.

"The new product contains all necessary micro-nutrients and a concentrated fermentation product for building top performing layer feeds," said Richard G. Saunders, sales and marketing director of the division.

"The product was developed at Borden's nutritional research laboratory and test farm, Rign. 711. According to Saunders, the product required a year's work on local protein bases.

"The advantages of this new ration are increased egg production, improved feed efficiency, a saving of \$1.50 per ton over conventional rations and the production of higher energy machines without adding costly fat.

More information of Borden's 800-P can be obtained by writing to the Borden special products company, 820 Madison avenue, New York City.

AGRICULTURAL CREDIT PRODUCES WEALTH

Cattlemen know that a steer on the range never looked like this without human help.

To make this steer a valuable resource, it takes human ingenuity and effort, equipment and money at the right time. Through the wise application of these human elements the land produces wealth for human beings.

Production Credit Association loans are made for the express purpose of aiding the rancher to produce more wealth from his land.

Your PCA office works constantly with farmers and ranchers to improve methods, give financial counsel, and to furnish ready cash for buying stock, feed, and equipment or paying labor. PCA people are farm-minded citizens proud to assist in planning and financing the greater production of wealth to make America stronger.

JEROME, March 30—Carroll Wilcomb, general manager of the North Side Canal company, said the first water will probably be turned into the canals around April 15. Wilcomb pointed out this will depend on the weather between now and then and the amount of rainfall.

Canal employees are working to complete all the planned repair work before the water is turned in.

Jerome, March 30—Carroll Wilcomb, general manager of the North Side Canal company, said the first water will probably be turned into the canals around April 15. Wilcomb pointed out this will depend on the weather between now and then and the amount of rainfall.

Canal employees are working to complete all the planned repair work before the water is turned in.

Receipts for Cash Reach Same as '61

WASHINGTON, March 30 (AP)—Cash receipts from farm marketings during January and February total about the same as a year earlier.

Both prices received by farmers and the volume of marketings averaged about the same as for the first two months of 1961, the department of agriculture said in a review of the general agricultural situation.

Livestock production receipts equaled the year-ago total as a two per cent decline in prices was offset by a rise in marketings. Prices received by farmers for hogs, lambs, milk, broilers, eggs, and turkeys during January and February averaged lower than a year earlier.

Receipts from crop marketings were close to the total for January-February of last year. Prices received averaged nearly three per cent higher than a year earlier, but marketings were down about the same amount. Wheat, cotton, and commercial vegetable prices were major items showing price gains from a year ago. Market prices of corn, soybeans, potatoes, and fresh fruits averaged below year-ago levels.

Plentiful Foods Program Aimed at Assisting Diet Levels and Markets

WASHINGTON, March 30 (AP)—The plentiful foods program is one of the agricultural department's underlining objectives to improve dietary levels and to expand current and future markets for food.

The program is a direct outgrowth of a World War II effort to manage civilian food supplies by encouraging consumers to shift from rationed and other scarce foods to those in more abundant supply.

The specific purpose of the program is to increase the commercial marketing of foods that are in peak seasonal supply or are otherwise plentiful. It is built upon the principle that, by encouraging consumers to shift from rationed and other scarce foods to those in more abundant supply, the program is to increase the commercial marketing of foods that are in peak seasonal supply or are otherwise plentiful. It is built upon the principle that, by encouraging consumers to shift from rationed and other scarce foods to those in more abundant supply, the program is to increase the commercial marketing of foods that are in peak seasonal supply or are otherwise plentiful.

A continuing activity under the plentiful foods program is to provide information on foods in need of merchandising attention. Each month a national and five regional plentiful foods lists are issued to cooperating trade and

wants the lists to stay away from strictly luxury and non-luxury items. However, there is no preclude between luxury and non-luxury items.

Because the department is concerned with reaching all consumers, the plentiful foods list is not designed as a guide to the best buys for a nutrition standpoint, for families with limited food budgets.

FIVE ACTIVE KIDS are held by Caryn, Curtis and Clair Loeffler for their first picture last week. The quintuplets, rare in goats, were born March 22, increasing the family herd from

three to eight. The mother, Isabelle, isn't very impressed with it all. The only worry she is faced with is trying to set five places for dinner. They are in good health. (Times-News photo)

Quintuplets Born to Nanny Goat at Rupert

RUPERT, March 30—The smallest herd belonging to the three children of Dr. and Mrs. Cecil Loeffler, Rupert, was increased by 200 per cent last Friday with the birth of quintuplets to their nanny goat, Isabelle.

All five "kids" are doing well, but the mother doesn't seem to

be impressed with all the attention she is getting, or even with the five mouths to feed. They just line up and take turns at meal time.

It remains to be seen if she will be able to accommodate her five customers or not without help. So far, there have been no complaints on either side.

Livestock Unit Slates Meeting

BOISE, March 30—The Idaho Livestock Auction association will hold its annual meeting at the Downtown hotel in Boise Saturday and Sunday, according to H. GHOSE DAVID, chairman, president of the organization.

The youngsters consist of four nanny goats and one billy goat, according to Mrs. Loeffler. The Loeffler children who have raised Isabelle from a kid are really excited over the additions to their goat family.

Construction of Building Noted

RUPERT, March 30—Work is progressing according to schedule on the new office building of the Minidoka Irrigation district, going up one-half mile west of town on the Sugar factory road. Machine sheds are

being moved from the former location at the corner of 2nd and Fourth streets. This location has been purchased by Safeway and is the future site of a super market. The present office building will be razed and removed as soon as the new quarters are ready for occupancy, according to Edon Stephenson, manager.

NOTICE!

Land Diversion Figures Are Released Relative to County

Twin Falls county farmers and ranchers have signed up to divert 283 acres from barley, corn and grain sorghum production under the 1962 feed grain program, announced Carl Boyd, Twin Falls county agricultural stabilization and conservation committee chairman.

The diversion is from a base acreage based on the 1959 and 1960 plantings on 43 farms in the county.

The sign-up period will continue through the last of March and some farmers can still participate in the 1962 program if they sign up.

According to Boyd, 169,468 farms signed up during the first 10 days of the period on the national level. This will divert 1,232,200 acres from production of corn and grain sorghum. Of the total about 3,017,000 acres that produced corn. There are about 5,708,400 acres of corn base established.

Some 504,200 acres will be diverted from the grain sorghum base of 1,063,700 acres of farms

SIMPLOT SOILBUILDERS

Agent Urges Testings for Soil Samples

JEROME, March 30—Jerome county farmers are urged to get their soil samples into the county agent's office for testing. The tests will take a great deal of the guesswork out of fertilizer applications. W. O. Priest, county agent, says.

Cost is \$1.50 per sample for laboratory fees. The standard test gives soil reaction, salt content, available phosphate, available potash and per cent of available nitrogen.

Priest said it takes approximately two weeks after the sample is received at the office to get the results back to the farmer. Sample envelopes are available with instructions for filling out the sample. Priest asked farmers either to pick up the envelopes at the county office or call and they would be mailed.

The samples are taken from different areas on the farm and a composite sample sent in for the tests. Priest said farmers have just recently been able to procure the samples and the bulk of them will come into the office within the next two weeks.

Priest reminded owners of fruit and nut trees that the application of a delayed dormant oil spray should be made immediately. This spray controls scale insects. However, if it is delayed too long the buds will have broken and there will be a burning and set back on this year's growth.

Blaine Sets Two Annual Water Meets

HALLEY, March 30—The Blaine soil conservation district will sponsor two annual water conservation meetings this year. The first will be held at 8 p.m. April 9 at the LDS church in Carey and the second at 8 p.m. April 10 at the Bellevue school. Keith Johnson, Carey, district chairman, will conduct both meetings.

Morland Nelson, Boise, state soil supervisor for the soil conservation service, will present the expected water supplies. Gordon Drage, Carey, district supervisor, will present his year-by-year report of the activities of the district.

An RCB engineer will discuss principles of using water for the benefit of the farmer and the general welfare of the farmer.

The extension and soil conservation services will show slides and films.

Floyd Dorius, work unit coordinator and William Woody, engineer and snow surveyor, will discuss the water supply, flow, reservoir storage, etc., as based on the comparative snow-water content at the same spot on the same days over a number of years. Other factors as measured soil moisture, frost content of the soil, etc., will be considered for arriving at final figures.

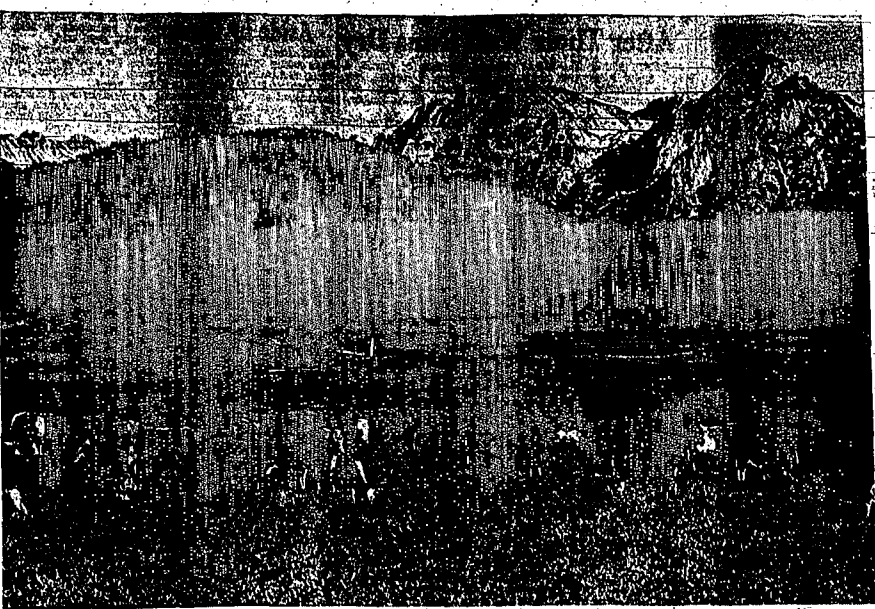

Expected water for irrigation, reservoir, and drainage, waterways, fishing, boating and wild game is of universal interest, they note.

Although the soil conservation service has the leadership responsibility for snow surveys and water forecasts, other government agencies, private companies, and many individuals assist in gathering the measurements for these forecasts. It is a cooperative service to the public.

Funds Used

BROOKHOLE, March 30—All funds allocated to Lincoln county for the 1954-55 program have been obligated. Eugene Alexander, chairman of the Lincoln county agricultural, stabilization and conservation commission, announced.

No further requests for cost-sharing assistance can be accepted until such time as additional funds are received. Further announcement will be made when the program is reopened for sign-up.

CATTLE GRAZING, particularly in the West in areas like the Sawtooth National Forest, is an important national forest use. Livestock (including sheep) are confined to designated areas, called grazing allotments. Probably one of the most scenic areas in which cattle graze is in Stanley basin, where the above picture was taken last fall. Grazing allotments have been outlined by the forest service.

Summer Ranges in Sawtooth Forest Graze 17,000 Cattle, 130,000 Sheep

Summer ranges in the Sawtooth National Forest support the grazing of more than 17,000 cattle and 130,000 sheep, it was estimated by J. L. Sory, forest supervisor.

Although practically all Sawtooth areas are still deep in snow, the supervisor said that many permits have been issued and more are being processed.

"Local ranchers and farmers graze their livestock on national forest ranges under permit," Sory said. "They purchase the annual forage crop by paying a fee for livestock grazing. Livestock is confined to designated areas called grazing allotments."

He added that grazing of cattle and sheep is "an important national forest use."

"Summer grazing on high mountain ranges" helps "round out yearling livestock operations for many ranchers and farmers. Range livestock production is important to the economy of many communities."

Concerning the permits, the supervisor pointed out that "reservations give preference to established dependent ranch owners and protect them from competition in the use of the range."

"In the case of the Sawtooth forest areas," he said, "the livestock are owned by 575 grazing permittees."

"The suitable range is divided into 159 grazing allotments to facilitate grazing administration. Forest officers work with associations of permittees on

Jerome's Hay, Mixed Grain Acreage Higher Than in '61

JEROME, March 30—W. O. Priest, Jerome county agent, predicts that hay acreage and mixed grain acreage plantings in Jerome county will be slightly higher than last year. Sugar beets will be about the same he said, depending upon the amount of the contract.

Sugar beets and peas are the only two contracted crops in Jerome county. The east end of the county raises peas and Priest anticipated this acreage will be slightly increased.

Jerome county farmers will also increase their bean acreage, according to Priest.

"Wheat will be down this year because of acreage restrictions," he said.

Priest declined to predict the potato acreage. "While it looks like it will be down this year, it is a long time until potato planting time. If prices on potatoes hold, more farmers will plant them," he declared.

A few Jerome county farmers are planting in the sandy areas but overall three or four extra days are needed before most of them can start. Farmers now are mostly spreading manure and fertilizer. Priest pointed out that spreading of fertilizer is about three weeks later than normal.

Named to board of R. I. Hahn, president of Walker Manufacturing company, has been named to the board of directors of the J. I. Case company.

Inspection Made By Water Group

KING HILL, March 30—Members of the board of directors of the King Hill Irrigation district toured the canal this week at the head end at the Malad bridge near Hagerman.

They inspected the work done on the bridge structure which holds a cyphon which crosses the Snake river at the Idaho Power station at the Malad river. They also viewed the work done at a Moore, manager, and directors, previous break which occurred two years ago. Also inspected the Carnahan and were the 35 miles of canal in Don Thompson.

—Pouring water from a mill can into a bucket to take into her home, six miles south of Jerome, is Mrs. H. F. (Deko) Rediker while Patrick, 7, watches his mother, Mr. and Mrs. Rediker have hauled water from Jerome since Feb. 1 when their well went dry. Well drillers are now drilling a new well on their property. (Times-News photo)

Jerome Family Hauls Water After Their Well Runs Dry

JEROME, March 30—Maggie Taylor, housewife, never stops to appreciate the convenience of water at the touch of a tap.

Since Feb. 1, Mrs. H. F. (Deko) Rediker has had to pour all the water from a bucket. They haul the water from town in 10 gallon milk cans.

—Mr. and Mrs. Clarence Yingst, Mrs. Rediker's parents, who live directly behind them, also have been out of water. They have even had to haul water for the cattle.

When the well first went dry Feb. 1, they contacted drillers to drill further. At first they hit rock and then clay. The Redikers were told that "when you hit clay close to the rim of the Snake river canyon, you won't find water."

Since three weeks ago, the little trickle of water they did get has dried up. They have now flows down the deeper hole and they are completely without water.

The Redikers have three small children, Patrick, 7, Carrie, 4 and Julie, Ann, 7 months. Mrs. Rediker travels six miles into Jerome to wash in the laundry.

—Last Friday the well drillers told them they would know in two hours if they could reach water. They were planning on using a new type rotary drill that goes down 50 feet an hour. They hit cinders just below the surface which the rotary drill couldn't penetrate. Since then they had been using a conventional type drill.

Make Record

RICHFIELD, March 30—Only three cows made the achievement record of more than 60 pounds of butterfat for March in the Dairy Herd Improvement association, reports Scott Erwin, Richfield, area representative.

Betsy, owned by Roger Freeman, averaged 62.05; Hope, owned by Ralph Riley, Jr., 61.05, and Peggy, owned by Grant Stephens, 60.08 pounds of butterfat.

Freeman Forecasts Surplus U. S. Crop Far Into Future

MOORHEAD, Minn., March 30—Agriculture Secretary Orville L. Freeman has forecast continuing farm surpluses "as far ahead as can be seen."

In a speech at the "Greater Moorhead days" celebration, Freeman said surpluses of 6 to 8 per cent a year would continue and warned that without federal aid farmers would endure a "searing agricultural depression."

The agriculture secretary said, "an abandonment of farm programs would result in prices and incomes at disaster levels—where they would stay for a long time."

He said farmers are unable to make "desired adjustments" to take care of excess supplies or reduced demands for their products. "Farmers often increase their output despite lowered prices in a lonely effort to stay in business," he said.

Freeman said extreme and sustained price drops result in cutting output.

Some Funds Set Aside by Group

Carl Boyd, chairman, Twin Falls county agricultural stabilizer and conservation committee, reported today that a \$25,000 fund has been set aside by the committee for the 1962 ACP program and will continue until funds are exhausted, said Boyd.

new farm ACP participation. The amount set aside is \$5,000. A new farm is one that didn't participate in 1954, 1959 or 1961, Boyd said.

This announcement will not affect the ongoing seed program, which will be announced later, Boyd noted.

Applications begin immediately under the new farm program and will continue until funds are exhausted, said Boyd.

ELEVATOR PURCHASED
PORTLAND, Ore., March 30—F. H. Peavey and company, Minneapolis, based grain merchandising and export firm, has purchased the Balfour, Guthrie elevator in Portland. It will mark the first time the Peavey company has operated an elevator since 1888.

Poultry Unit Releases Information on Prices

CHICAGO, March 30—According to the American Feed Manufacturers association, U. S. egg prices will average 29-30 cents a dozen at the farm level during April-June. This is two to three cents under the price a year ago.

The July-September prices are likely to be 33-34 cents at the farm level or about one to two cents below the same period a year ago.

A report issued by the association, says total broiler production and average farm prices for the first half of 1962 will be equal to a year ago. It is not clear how this will affect chick placements of the third quarter, many of which will be marketed during the last quarter.

The association advises a cautious attitude in production planning.

The report further added that U. S. farm turkey prices may average about 22 cents for the September-December period or about four cents above the same four months in 1961. The January-June hatching is likely to be 10-15 per cent under a year ago and this may boost the price.

The report is issued by the poultry survey committee, comprised of four top college poultry economists. The members are Dr. Ralph L. Baker, Ohio State university; Dr. William R. Henry, North Carolina state college; Dr. Richard L. Kolbe, Purdue university and Dr. Henry E. Lenzler, Michigan state university.

Several other economists from industry and the department of agriculture also serve on the committee in an ex-officio capacity. The committee meets four times a year.

The committee based its expectations upon large egg supplies in the second and third quarters of 1962 and the supply of eggs will probably be close to the fourth quarter of 1961.

The egg hatch will be below year ago during the early part of the year and will be above a year ago during the late part of the year.

The laying flock will be about the size of the one that began laying on October of 1961, according to the report.

ably will continue to increase the committee reported.

Broiler prices to farmers will be about 15 cents for the April-June quarter and some decline is foreseen as the quarter progresses. April-June marketings will average three per cent under the same period of 1961.

Total production of "big" birds will average about the same as a year ago. Caution is urged in the broiler industry because of possible heavy supplies continuing into the fourth quarter.

See Dr. Stark, the Mor-Gro Gardener, from noon KLEK-TV, mid-day program, Globe Beck. Adv.

Buhl Notes Protests for Tax District

BUIH, March 30—A delegation of residents from the McCollum district met with the Buhl city council Tuesday evening to protect the formation of a sewage improvement district for that area.

Some 60 persons signed protests which were submitted to the council. Greg Miller and Charles Fluke representing the Hoffman, Fluke and Miller firm, Twin Falls, explained the engineering phase of the operation.

John Hopeworth, city attorney, along with council members, described the program, noting petitions had been submitted earlier to the council requesting action on the sewage problem in that area.

It also was pointed out the sewage condition in the McCollum area is definitely a health hazard not only to the residents living there but to the entire community.

No action on the matter was taken by the council. However, a public meeting will be held at 8 p.m. Monday in the local VFW hall at which time the residents will have an opportunity to obtain further information on the project. John M. Barker will serve as the moderator and Charles Fluke as engineering firm will be present.

In other business the city council designated Jess Eastman as agent to lease, but not to exceed, 250 shares of city water stock in the Twin Falls Canal company for the season at \$10 per share.

Sawney store and Don, and Dean's dairy were granted milk licenses for 1962. Luther Griggs was hired to work on the city garbage disposal plant; George Soloska was hired to operate the street flusher and Lloyd Loos, for the city park.

Narcotics Men Seize Cocaine

MIAMI, March 29—Federal narcotics agents announced today the seizure of half-million dollars worth of cocaine, believed smuggled from Cuba, and the arrest of five persons.

Included in the haul were four and one-half pounds of cocaine. Agents said its value on the retail market would equal \$500,000.

IONOSPHERE PROBED

WALPOLE ISLAND, Va., March 29—The National space and aerodynamics agency launched an ionospheric probe with a four-stage Scout booster early today. NASA officials confirmed that all three upper stages of the Scout fired on schedule. The payload, carrying test instruments, was expected to reach an altitude of about 4,000 miles.

SNOW DEPTH on the Salmon reservoir watershed is stressed by Norman Nelson, Boise, state soil conservationist, as he relates the good news to Salmon tract farmers and ranchers that they can expect more water this season than they had in several years. Nearly 100 persons jammed into the Hollister Grange hall for the annual water forecast meeting. (Times-News photo)

Hollister Group Has Optometrist

HOLLISTER, March 30—Dr. T. J. Tuppen, Buhl, optometrist, guest speaker at the Hollister Grange meeting this week, discussed diseases of the eye and the need for proper fitting of glasses when needed.

Mrs. Heber Loughmiller thanked all who helped with the bloodmobile last time.

The next meeting will be a program by youth of the community, with one member from each group, including Cub Scouts, Boy Scouts and 4-H groups. Closing thoughts was given by Mrs. Heber Loughmiller.

"Refreshments" were served by Mr. and Mrs. LeRoy Fleener. Mr. and Mrs. Howard Mills will serve April 11.

Double Park

LOS ANGELES, March 30—Gov. Edmund G. Brown says that Richard M. Nixon hopes "to double park outside the state capitol while he checks the road map to Washington."

Brown told a \$100-a-plate Democratic fund-raising dinner Thursday night that the former vice president, now seeking the Republican gubernatorial nomination, wants to convert the governor's office "into Nixon-for-president national headquarters."

TRY TIMES-NEWS WANT ADS

Training Snag

FOLEY, Ala., March 29—A telephone company executive may have to stop military training for his 23 women employees because the government has spiked his guns.

Bearded bachelor John McClure Snook, 42, said the seizure of eight automatic weapons by U. S. treasury agents had left his quasi-military organization "up in the air."

"Right now we don't know what change this is going to bring about," Snook said.

Agents of the alcohol tax unit seized eight submachine guns and automatic carbines last week for failure to be properly registered with the government. The agents said a determination would be made on the amount of registry tax owed on the weapons.

MISHAPS GROW

CHICAGO, March 30—The National Safety Council reported Thursday that traffic mishaps claimed 2,410 lives in the United States in February, an average of 7 per cent over February, 1961.

Soroptimists In Twin Falls Get Booklets

Civil defense booklets published by the University of Idaho extension service were distributed to members of the Twin Falls Soroptimist club during its March dinner meeting Tuesday evening in the Rogerson hotel Desert room.

Florence Schuler, program chairman and civil defense chairman, distributed the booklets and introduced Mrs. Lyons Smith, who talked on collecting glass bottles. She displayed many pieces of old glassware handed down in her family and purchased throughout the country.

Many items in the collection of bottles was accumulated from digging in ruins of various ghost towns in Idaho, Nevada and California.

Mrs. Smith told the history of glassmaking.

Guests at the meeting were Mrs. John Fredrickson, Mrs. Glen Cannon, Mrs. James Busby and Mrs. Ralph Harris.

Arms Parley Ban Pact Is Being Made

GENEVA, March 29—Negotiators at the 11-nation disarmament conference today assigned their American and Russian co-chairmen to draft a preliminary treaty to ban nuclear arms and the world's arms race.

Ambassador Arthur W. Dean and Soviet Deputy Foreign Minister Valerian Zorin was asked jointly to prepare the document. The action was agreed upon in a 10-minute three-hour plenary session of the three-week-old conference.

Earlier in the day, two leading personalities who have been attending the talks—Foreign Minister Andrei A. Gromyko of Russia and Howie C. Green of Canada—flew back to their home capitals, declaring themselves reasonably pleased with the progress of the conference.

All the delegates agreed to submit any comment on the agreement for a draft preamble to the U.N. secretariat here by Monday morning.

Dean and Zorin will consider these proposals as they get down to their task of writing an agreed preamble. They expect to report back to the full conference with a finished document by the middle of next week.

Two Men File For Judgeship

BOISE, March 29—One incumbent district judge and lawyer who aspires to such position filed nominating petitions today in the office of Secretary of State Arnold Williams.

Judge Henry S. Martin, Idaho Falls, filed petitions to succeed himself as a judge in the ninth judicial district.

George R. Phillips, Post Falls, filed petitions for the 11th judicial district seat now held by Judge Arthur F. Oliver, who already has filed for re-election.

Life Saved

SAN DIEGO, Calif., March 29—The life of an elderly woman was saved yesterday because an angry telephone subscriber complained about his two-party line.

The magnificent subscriber complained he couldn't use his line—and the telephone company sent a repairman to investigate.

Representative Norman A. T. Kling went to the home of the other subscriber on the line, Mrs. Loretta Newman, 70.

Kling found Mrs. Newman's telephone ringing near her from the fallen receiver.

Kling summoned an ambulance and Mrs. Newman was taken to Mercy hospital. Doctors said she had a stroke and apparently had attempted to telephone for help.

Work Units Reported for Area C. of C.

JEROME, March 30—Ed Barber, Chamber of Commerce president, announced the directors in charge of the standing committee, at the Wednesday noon meeting.

Directors include Ken Rice, treasurer; Frank Titus, industry; John Steile, Jr., announced the Easter egg hunt will be held at 2 p.m. April 21. Girl Scouts and Boy Scouts will handle the distribution and placing of the eggs. A free movie will follow the hunt.

Fourth of July activities were discussed. Representatives from Gooding, Wendell, Jerome and Shoshone will meet to discuss where the celebration will be held.

Henry Dougl Pharris was elected chairman of the merchants committee recently.

John Steile, Jr., announced the Easter egg hunt will be held at 2 p.m. April 21. Girl Scouts and Boy Scouts will handle the distribution and placing of the eggs. A free movie will follow the hunt.

Fourth of July activities were discussed. Representatives from Gooding, Wendell, Jerome and Shoshone will meet to discuss where the celebration will be held.

Plea Changed in Case of Assault

BURLEY, March 30—Judge Robert Tway reported today that Evan Elliott, who pleaded innocent in district court to attempted murder charges, has changed his plea to guilty on a lesser charge of aggravated assault.

Elliott is accused of assaulting Robert Wiley, hunter, with a pocket knife in the parking lot of the Oasis club in Burley last Oct. 31.

Judge Tway ordered a presentence investigation and sentencing for April 9.

6-Player Trade Announced for Lions, Browns

DETROIT, March 30 (AP)—The Detroit Lions of the National Football League traded quarterback Jim Ninowski, halfback Howard Hopalong Cassidy and lineman Bill Glass to the Cleveland Browns Thursday for quarterback Milt Plum, halfback Tom Watkins and linebacker Dave Lloyd.

JIM NINOWSKI

MILT PLUM

Glass played his college ball at Baylor and completed four seasons with the Lions. Plum is a five-year veteran in the NFL and a Penn State graduate.

Watkins played at Iowa State and last year was his first in the NFL.

Lloyd played at Georgia and came to the Browns as a linebacker in 1959.

Although it was recently criticized Cleveland Coach Paul Brown for his system of calling all the players from the bench, a Brown spokesman said this was not a factor in trading Plum and that the deal had been under negotiation since January.

Ninowski, however, said he was very unhappy over being traded and has no intention of going to Cleveland. I'll quit football if I have to.

He said he was a wholesale sales representative and had other business interests in Michigan.

George Wilson, Lion coach, said Ninowski's statement would have no effect on the trade. He said, "We're not at all concerned, he's the property of Cleveland."

Arthur B. Modell, Cleveland board chairman, said, however: "The deal is conditional on all six reporting, as I understand it."

Akron Defeats Utah Collegians

CLEVELAND, March 30 (AP)—Akron's veterans broke loose from a tie in the last three minutes to defeat Utah's collegians, led by All-American Billy (The Hill) McCall, 70-60 in the National AAU basketball tournament Thursday night.

The victory ends Akron's season. Bartlesville, Okla., in Fred's semifinals. Bartlesville defeated Middle College, 60-52. The other semifinal matches Denver, an 85-55 winner over Williams, N.Y., against the U.S. Marines, who topped Port of San Diego 82-50.

McCall scored 33 points but missed on two key free throws in the winning minutes.

Cornell Green, Utah State star this season, fouled out with two and one-half minutes left when he hurt the Salt Lake center. He scored 16 points. A Utah State teammate, Daniel Harvey delivered 11 points but he fouled out in the critical minutes.

Shaw Is NAIA's Leading Scorer

KANSAS CITY, March 30 (AP)—The individual basketball scoring championship of the NAIA goes to sophomore Willie Shaw of Leavenworth College.

Final statistics released Thursday show Shaw edged runner-up Roger Birkhead of Jacksonville (Fla.) with an average of 22.6 to 22.0 points per game.

Canadiens Win
MONTREAL, March 30 (AP)—Blomping from behind with three goals in the last nine minutes the Montreal Canadiens took a 2-0 lead over Chicago in their Stanley Cup semifinal playoff Thursday night by defeating the Black Hawks 4-3.

JOHANSSON SIGNS
LONDON, March 30 (AP)—Former world heavyweight champion Ingemar Johansson of Sweden aligned Thursday to fight Dick Richardson, European heavyweight, this summer. The fight probably will be staged in Göteborg, Sweden, June 27.

Moore Faces Lavarante in Bout Tonight

LOS ANGELES, March 30 (AP)—Archie Moore has swept through many a roadshow in his 29 years of boxing and now he faces another fork in the trail of his career.

"The Old Man," as younger fighters refer to Moore, takes on 26-year-old Alejandro Lavarante, promising Argentine heavyweight in 10 rounds or less at the Sports Arena Friday night.

A win over the 6-foot, 4-inch, 210-pound Lavo will propel Moore to a \$35,000 payday. Archie hopes then to trim down to 175 pounds and defend what claim he has left of the world light-heavyweight title. Middleweight champion Gene Fullimer would be the opponent.

Suppose Moore loses to the Latin?

"I am a positive thinker and my only thought is to succeed," he said Thursday.

This will be bout No. 518 in Moore's long career and only the 22nd for Lavarante, who was yet to be born when the old MongOOSE had his first ring encounter. Now 45 or older, Archie surely must retire before too long.

Moore's advisor, shrewd old Jack Kearns, has his man in the best shape he's seen him in more than a year. Kearns thinks Moore will weigh in at 162.

Pinkie George, manager and developer of Lavarante, views the match as a tossup.

The betting remained about the same Thursday—6-5 and take your pick.

Century 21 defeated Paul K. 2-1. Denton Drilling defeated Hinkle 2-0. Ledbetter's defeated Kimbly 2-0. Gammage's Auto Court 2-0. Auto Court 2-1. High handicap team game, Herman's American, 262. High handicap team series, Twin-Tex Lettering, 257.

Chamberlain And Russell Still Dueling

BOSTON, March 30 (AP)—By the time Boston's Bill Russell and Philadelphia's Wilt Chamberlain settle their personal basketball duel, the outcome of the game is almost secondary.

The fact is, if either side of the court are anything but friends on it though they are usually so close it would take a bulldozer to get between them.

Russell scored a unanimous decision over Chamberlain in the third of a current best-of-five National Basketball Association playoff series last night.

And it was Russell, more than anyone else, who led the Celtics to a 2-1 edge in games with a 120-114 victory over the Warriors.

The teams are battling for the right to meet in the Western division—champion—with Boston seeking an unprecedented fourth consecutive NBA championship. Los Angeles leads the Detroit Pistons, three games to none, in their series which remains, and could end, in Detroit tonight.

Skiers Prep for Western States Junior Events

SUN VALLEY, March 30 (P)—Youthful skiers went through their final practice runs Thursday in readiness for the Western States Junior Team championships at this southern Idaho resort. The downhill race is scheduled Friday, followed by the slalom Saturday.

Minos Peps Up St. Louis Cardinal Club

MIAMI, Fla., March 30 (P)—Sturmire Greats Minos, tireless and comely antics is peeping up the St. Louis Cardinals.

He's hitting the ball with authority, he's running the bases, he's clowning and keeping the squad happy, and he's happy himself with his wife and two sons with him for the first time in spring training.

"I feel like I just started baseball yesterday," says the colorful Cuban who performed from 1951 to 1954 with the Chicago White Sox and Cleveland Indians and built up a lifetime batting average of .394. He came to the Cardinals last winter from the Sox in exchange for Joe Cunningham.

"I'm only 32," he says. "The Cardinal roster lists him as being born Nov. 29, 1922, which would make him 39 going on 40. I don't come back, he may have aged that milestone."

He doesn't throw himself into entreatments with the enthusiasm of the youngest players but otherwise he is the Minos of former years.

"I'm born with speed, I die with it," he says. "If I hit the ball I run."

He's happy to be a Cardinal.

"I think the Cardinals are great. I made a speech at one of their parties and I said that because it's the way I feel. Gee whiz, I'm glad I was traded."

"Things are going good. I got hit with a pitch on my right elbow, but I play better when I'm hurt."

"I'm going to stay in baseball as long as I can because I love the game."

Track Coach Is Recruit Booster

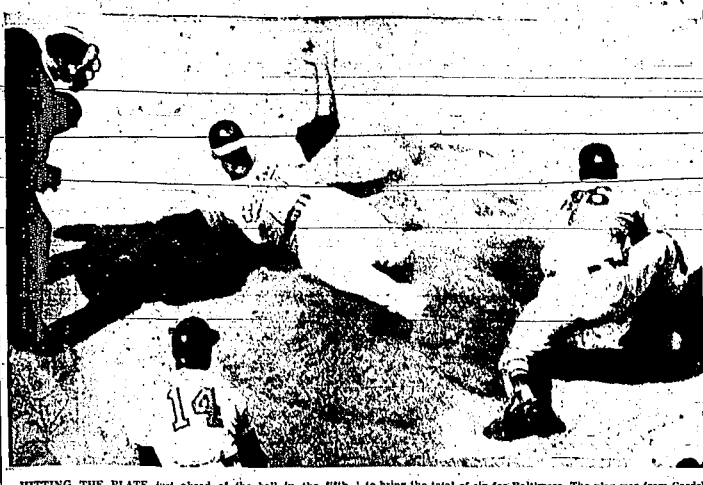

MOSCOW, March 30 (P)—University of Idaho track coach Bill Soreby is a real booster for the school's football recruiting program as graders join his squad in the spring.

Of eight fun places picked for Varsity trackmen in a recent meet, five went to freshman or varsity football quartermen.

In freshman events, quarterback Joe Chapman, O. O. U. d'Alone, won the low hurdles; and Darrell Niche, Bakerfield, Calif., won the shot put, and tackle Max Letzlow, Los Altos, Calif., took the discus event.

All-around athlete—Reg. Carolan, San Anselmo, Calif., took the varsity shot put and is tuning up for the decathlon.

Sprinter Bob Johnson, Englewood, N. J., is a consistent winner.

HITTING THE PLATE just ahead of the ball in the fifth inning of the game between the Baltimore Orioles and St. Louis Cardinals Thursday in Miami, Fla. is Oriole first baseman Jim Gentile. Jackie Brandt's hit to left field brought in two runs.

Orioles Top Cards for Five in Row

By The Associated Press

The streaking Baltimore Orioles won their fifth consecutive exhibition baseball game Thursday, beating the St. Louis Cardinals 7-2 behind the combined three-hit pitching of Steve Barber and rookie Jim LeVeh.

Barber, on leave from the army and scheduled to be a week-end hurler with the Orioles this season, checked the Cards on one run and two hits for the first six innings before LeVeh came on to wrap it up at the Orioles' Miami, Fla., home base.

Rookie shortstop Julio Olney got all three St. Louis hits, beating out a pair of infield hits off Barber and tagging LeVeh for a homer in the seventh. Outfielder Jackie Brandt swung the big bat for the Orioles, driving in three runs with two hits.

In other Florida games, the Los Angeles Dodgers edged the New York Yankees 4-1 in 10 innings at Vero Beach, Cincinnati trounced Philadelphia 15-8 at Clearwater, Chicago's White Sox thumped Pittsburgh 11-5 at Sarasota, Milwaukee defeated the New York Mets 6-3 at St. Petersburg, Minnesota beat Detroit 7-4 at Lakeland and Kansas City defeated Washington 6-1 at West Palm Beach.

In Arizona and California clashes, the Chicago Cubs whipped Houston 7-0 at Mesa, Boston defeated Minnesota 4-2 at Scottsdale and the Los Angeles Angels defeated Cleveland 7-4 at Palm Springs with former President Dwight Eisenhower looking on.

THE TIMES-NEWS Friday, March 30, 1962 17

SPORTS

Solons Order Probes Into Game Fixing

AUSTIN, Tex., March 30 (P)—The house investigating committee ordered the Texas department of public safety Thursday to launch a fullscale investigation of reports of game fixing in Southwest conference basketball.

Following an eight-hour hearing, Committee Chairman Rep. Charles Ballman said "based on information presented today, the committee felt it warranted a continuation of the investigation because of the serious nature of the allegations."

Ballman's statement also said that representatives of the conference and its member schools "disclosed the information known to them and extended their fullest cooperation to the committee."

A parade of top conference officials, coaches and department of public safety personnel appeared before the committee in its day-long secret session.

The investigation was sparked by New York sports columnist Gene Roswell, who wrote that Eastern gamblers "are having headaches with the hoop shenanigans reportedly coming out of the Southwest conference. It points up the SWC game money-like water and most book won't carry their action."

Roswell said rumor had it that referees, not players, were involved.

"Twenty-two conference officials voluntarily took lie detector tests

Tells Score

FALLS SPRING, Calif., March 30 (P)—Former President Dwight D. Eisenhower paid a repeat visit to watch the Los Angeles Angels in an exhibition ball game Thursday and made a rare disclosure—his golf score.

He told newsmen that he shot six pars and a birdie on the first seven holes. Then he hit the water on the eighth and finished the nine holes with a three over par 39 for the Eldorado Country club course.

It was Eisenhower's first visit to see the Angels since he paid a surprise visit a year ago.

Ferrier Leads In Azalea Open

WILMINGTON, N.C., March 30 (P)—Jim Ferrier, back on golf's professional tour at the age of 47 after a six-year layoff, fired seven birdies Thursday as he shot a five-under-par 67 to take the first-round lead in the 72-hole, \$20,000 Azalea Open tournament.

He birdied four of the last eight holes for an income 32 to take a one-shot lead over four rivals.

These include Gary Player of South Africa, Jay Hebert of Miami, Fla., Dave Hill of Denver, and Tom Nieporte of Locust Valley, N.Y., winner here two years ago.

In all, 25 of the 135 players broke par and 10 equaled it on a day marked by bright sunshine and a light breeze in mid-afternoon.

Paret Moves Arms, Stays Unconscious

NEW YORK, March 30 (P)—Former welterweight champion Benny (Kid) Paret, unconscious for the fifth day and in a moderate coma, occasionally moved his arms, hurray! The latest bulletin from Roosevelt hospital, however, reported his condition unchanged. The report added that the 25-year-old Cuban does not recognize people. Paret was knocked out by Emilio Giffith in the 14th round of their bout at Madison Square garden Saturday night. Doctors said Paret's condition was critical and that he had only a slight chance to live.

Paret's mother, Mrs. Maxima Crespo, said in Havana Thursday that she hoped to see him in the United States Friday. She said a flight to Miami is being arranged through the Cuban national physical education institute.

Mrs. Crespo, 65, added she knows no one in Miami. She does not speak English.

Interviewed at the home of a sister, Mrs. Crespo said she believed her son would recover. "But I have delivered my hopes to the great power of God," she said. "I never wanted him to fight. I don't want him to fight any more."

Dr. Manuel Acosta, Paret's personal physician, talked to hospital authorities and admitted there was only a slight chance that Paret would recover. Two neurologists said that, at best, the fighter's chances were less than 5 in 100.

Meanwhile, in Tokyo, a Japanese boxing commission doctor said, medically speaking, boxing should be outlawed.

Dr. Takashi Sakabe, co-author of a five-year study on injuries caused by boxing, added he was personally opposed to banning the sport "as studies show that doctor supervision is given, serious injuries can be prevented."

He said that from a medical viewpoint there was justification for stopping the sport because of the preponderance of head and eye injuries is caused.

The Tokyo doctor said that of 310 boxing injuries surveyed during the past five years almost all were of the head or eye variety.

However, he declared much could be accomplished by requiring strict supervision during training and stopping fights after a fighter has been knocked out.

Sakaba and a boxing commission spokesman said they thought the grave injuries to dethroned welterweight champion Paret could have been avoided.

"Paret's head was completely out of the ring," the spokesman said. "We don't allow such things here."

And in London, Lady Edith

Prisoners Plead Guilty for Trial

HAVANA, March 30 (AP)—A Cuban biggest trial show pleaded guilty to crimes against the state and waived their right to defense, government sources said today. The present legal proceedings have produced perhaps the largest mass confession of crimes since the Soviet purge trial of the 1930s. "The mercenaries admitted their crime and said they did not wish to risk any punishment in their defense," the official press said.

On the Cover

National Library week, April 8-14, will be just like any other week for Mrs. Henry Jones, Jr., general library assistant shown hard at work on this week's cover.

Books must be indexed, other books must be unpacked, cards for books must be typed and reindexed, and books must be placed in their proper slot on the library shelves.

Hundreds of books are purchased each year for the local library and, although some library patrons may think they are not taken out of the box and put on the shelves, the books go through some 14 to 17 vital phases from the time they are ordered until they are assigned a place among other volumes.

DeVolder anticipates that the books on the cover will be on the shelves and available to library patrons by the time National Library week rolls around.

SOPHIA LOREN, winner of the Cannes film festival award for her portrayal of an Italian woman in "Two Women," is shown in a scene from the film which starts Friday at the Idaho theater.

"Two Women" Is Dramatic Victory by Sophia Loren

Not since the legendary Garbo era has an actress made an impact on motion picture audiences all over the world as the beautiful Sophia Loren, who co-stars with Jean Paul Belmondo in the Joseph E. Levine production, "Two Women," for which she won the best actress award at

Tiomkin Is Sure Bet in Oscar Race

HOLLYWOOD, March 30 (UP)—Only three things are sure bets in Hollywood—swimming pools, milk coats and Oscar nominations for Dimitri Tiomkin.

The Russian-born composer was nominated for the 19th and 20th times this year, which must be some sort of record in Academy award annals. In 18 previous trips to the post, he has won four statuettes.

Consequently Tiomkin must be one of the great losers in Academy award annals. In 18 previous trips to the post, he has won four statuettes.

LOLD AND MASTER, Dick Van Dyke, dreams that he is a father of the century. He disciplines his son, Larry Matthews, according to the stern practices in vogue at that time on "The Dick Van Dyke Show" Wednesday on the CBS television network.

Kennedy Has Awareness on TV Cameras

HOLLYWOOD, March 30 (UP)—"President Kennedy is as good a performer as any actor in television history," says a producer.

"As a TV performer the President is a real professional," Abbott went on. "He wears no make-up and still manages to look fabulously attractive."

"He's so knowledgeable he prefers to rely on the cards, and he doesn't stay in the same room with teleprompters. But he is acutely aware of such things as camera angles, TV lighting and his appearance. His life is always straight."

Freedom was stamped out within the Russian lands. By his bigoted anti-Catholicism Ivan brought down the curtain between Russia and the west.

"The President was easier to nail down for his appearance than any of the stars," Abbott said, admitting that he is a life-long Democrat.

and persons who cannot pronounce Dimitri) will discover he has increased his Oscar collection to five or perhaps six.

He is in the running for the best music score of a dramatic picture, "The Guns of Navarone" and the best song, "Town Without Pity."

Tiomkin's greatest hit was his award-winning score for "High Noon."

But Dimitri is above worry about his chances of copping another Oscar. He frets on a higher plane—the entire music industry involved in motion picture awards.

Ivan the Great's Story Is Revealed by Author

Ivan the Great of Moscow, by J. L. I. Fennell (St. Martin's): The story of Ivan III, who set the obscure Slavic principality of Muscovy off the road to world power—and, seemingly, imparted to it characteristics which have outlived him by centuries.

Crane Eden, by Earl Conrad. This novel describes the twilight of a demagogic swash-buckler. Hollywood hero slowly comes apart on a lush Caribbean island with his post-nuptial mistress.

Oh, Mary, This London, by Michael Campbell (Orion). Two Londoners on the loose in London looking for adventure can produce much to write home about, and the two madcaps in this hilarious tale do just that.

Colonel Glenn Good Example Of TV Help in Making Hero

NEW YORK, March 30 (UP)—The excitement generated by Col. John Glenn's television role in making a popular hero.

Television has the power to help make a hero, just as it has been already demonstrated that it can go a long way toward making a hero out of only thing television can't make, apparently, is a major contribution to the arts.

"All Fall Down" Receives Rave by Hollywood Writer

BY BOB THOMAS
HOLLYWOOD, March 30 (UP)—Hollywood's next big new wave if it could make more films like "All Fall Down." The new picture is a hard-boiled realist, as any of the European art films, yet without that phony artness that many of these films have.

NICEST GIFT for birthday or anniversary is a portrait photograph of the man in your life.

Here Are Tips on How to "Shoot" Dad, "Frame" Him

If you would like to stand dad up on the piano, (framed, of course), you had better have a winning strategy with you.

YOUTHFUL COMPOSER sits at the piano and works on a song he is hoping will be published. Gene Schneider, 13, son of Mr. and Mrs. Clarence Schneider, 615 Jackson street, has been playing the piano since he was 5 years old and often devotes his leisure time to entertaining some 40 citizens at Sky View Manor. The song, "Idaho Centennial Waltz," is a commemorative song to the state. (Times-News photo)

Gene Schneider Spends Many Hours With Piano

Gene Schneider, 13, son of Mr. and Mrs. Clarence Schneider, 615 Jackson street, is a busy boy who spends many constructive hours each day seated at the bench of his piano composing songs.

One of his recent accomplishments is the "Idaho Centennial Waltz" that he is trying to have published. Playing the piano at home, however, is not his only pastime because he devotes about every Saturday to playing music for persons at Sky View Manor. On his own initiative, he organized and played the piano at a Halloween party last October.

Schneider has been playing the piano since he was 6 years old and to date shows no indication of exhausting his creativity.

Electronics Is Key for French

NICE, France, March 30 (AP)—French housewives are getting a practical lesson in electronics at a new discount supermarket in Nice.

At the store—a superstore—everything the shopper sees something she wants, she just picks up an IBM punched card, reads the merchandise and the checkout counter she gives the cards to the clerk and a machine checks on them, printing out invoices. One copy goes to the shipping department. The shopper doesn't have to carry anything heavier than the cards.

EXPENSIVE PROB
HOLLYWOOD, March 30 (AP)—The film "The Sandlot" starring Steve McQueen, Dirk Bogarde and Anthony Quinn, is slated at 2:30 p.m. today.

Feature, March 30-31, 1962

TEEN TIMES

JEROME HIGH SCHOOL
Students' faces were either sad or grinning today at Jerome high school. Report cards were issued Thursday.

The schedule for next week includes a program at 9 a.m. Thursday by the Union Pacific and land grant colleges, telling the story of land grant colleges and the advantages of college training. The Literature club will meet at 7:30 p.m. Thursday and on Monday at club time will be shown at 12:15 p.m. The GAA meeting will be held Tuesday noon. The Key club will meet at 11:30 Wednesday.

FILER HIGH SCHOOL
The junior-senior banquet and prom will be held at Filer high school Saturday.

RICHFIELD HIGH SCHOOL
Thirty-eight members of the Richfield high school girls drill team entered competition at the tournament during the junior varsity basketball tournament. This was Richfield's first year of drill team organization. Mrs. William Kaatz, a faculty member, is director. Mothers who accompanied the group to Arcore Mrs. Carl Riley, Mrs. Ralph Riley, Jr. and Mrs. Odell Chatfield.

The Richfield Jayvee team won its first game at Arcore 61-40 over the Arcore freshmen. Other teams in the tournament, which ends Tuesday, are Arjo sophomore team, Clark County, West Jefferson county, Carey Jayvees, Fifth Jayvee team and Challis Jayvee. Richfield plays Challis Monday evening.

BURLEY HIGH SCHOOL
About 600 high school students throughout the state began arriving Wednesday in preparation for the 11th annual Idaho State FFA convention. Faculty members and high school students were busy all week getting ready to lead delegates from 72 FFA chapters in the state. The convention will consist of a parliamentary procedure and public speaking contests, banquets, election of officers and other activities. A dance will be held in the high school gymnasium Friday night.

KIMBERLY HIGH SCHOOL
School students at Kimberly will have things to do during the summer recess because plans are being made to have a summer recreation program, sponsored by the Kimberly recreation committee.

Paul Ostry, Twin Falls high school athletic director, will speak at a dinner Saturday evening in the grade school hot lunch room at 6:30 p.m. Several activities young people may participate in during the summer. Freshman girls have been busy this week trying out for the physical education activities that will be held at Idaho State college Saturday. The activities, called "Play Day," will include such sports as basketball, badminton, archery, table tennis and swimming, and will be conducted Saturday morning on the campus.

The high school recognition banquet will be held April 13.

Students Prefer Milk-Based Drink

NEW YORK, March 30 (AP)—A milk-based drink headed the junior varsity basketball tournament. This was Richfield's first year of drill team organization. Mrs. William Kaatz, a faculty member, is director. Mothers who accompanied the group to Arcore Mrs. Carl Riley, Mrs. Ralph Riley, Jr. and Mrs. Odell Chatfield.

The more conservative undergraduates and sophomores tend to favor simple mixtures such as one-third milk and two-thirds chocolate cream soda, a drink that originated at the Connecticut College for Women in New London.

The survey was sponsored by a soft drink company.

RING TO FILMS
HOLLYWOOD, March 30 (AP)—Roland LaStarra, former top-ranking heavyweight boxing contender, who retired from the ring, stars in the film "Reprise" and has been signed for a featured role in "The Game," a new picture currently in preparation.

151 ROSE ST. TWIN FALLS 733-2179

DAUGHTER IS INTRODUCED to her prospective in-laws during a scene from "The Parent Trap," now showing at the Orpheum theater. The father is played by Brian Keith and the daughter by Hayley Mills. The movie has been nominated for several Academy awards.

They Guzzled Recklessly at Hollywood Party for John C. Gable, One Year

HOLLYWOOD, March 30 (AP)—Talk about drinking parties, a recent movie-land soiree saw most of the guests arrive with their own bottles which they polished off during two hours of reckless guzzling.

The occasion was the first birthday anniversary of John Clark Gable, the late actor's only child.

Kay Gable, John Clark's mother, freely admits the blowout was a huge success. But she still is astonished by the amount of drinking that went on in her rustic, ranch-style home.

The guest list included some of Hollywood's brightest names. There were the Crosby kids, Har-

ry, Mary Francis and Nathaniel, offspring of Bing and Kathy. Gizelle McKenzie's year-old McKenzie Duffy Shultzerworth also was on hand for the festivities.

Christopher Edger Betgen, the ventriloquist's 5 1/2-month-old son, didn't have much to say, but he brought his own diapers.

Nicky Hilton's two sons, Conrad Hilton III, 1 1/2, and Michael O'Leary, 4 1/2 months, fell asleep in the midst of the whoopee-dee-doo.

"Some of the anklest group were there too," Kay laughed. Bob Crosby's youngsters, Charles and Elizabeth (4 and 5 years old) helped maintain order. So did Kirk Douglas' boy Eric, 13. But Dana Wynter's 2-year-old Mark wasn't too helpful.

"It wasn't a terribly expensive party. The kids brought their own bottles, and pabulum flowed like champagne."

In her second year of widowhood Kay Gable is vital and happy with her life. She lavishes attention on Gable's son as well as her two children by Adolph Spreckles, Bunker and Joan.

"How proud Clark would have been to see his son at this age," she said. "He is a handsome boy. He's getting to look more like Pa every day. He weighs 25 pounds already and is growing like a weed. The doctors say he is physically perfect."

Kay still receives handmade, logs for the little fellow from Gable fans the world over.

ACTOR GREGORY PECK and 8-year-old Mary Badham, who is making her screen debut in the movie version of "To Kill a Mockingbird," study their lines during a break in their film duties in Hollywood. Peck, who stars in the movie, says, "This is one picture about the South that isn't sick." (AP Wirephoto)

Young Actress Is Tapped for Show

NEW YORK, March 30 (AP)—Kathy Dunn, 14-year-old singer, dancer and actress selected by Bob Banner associates to play the daughter to David Wayne and Georgeann Johnson in "Kings of Broadway" next season will appear in at least 10 of the initial episodes on NBC-TV.

The television series will revolve around a father-mother vaudeville team of the 1930's.

YOGA PRACTITIONER
HOLLYWOOD, March 30 (AP)—Stefanie Powers, who makes her film debut in Blake Edwards' "Impassioned in Terror," is an advocate of yoga and practices the philosophy daily.

Veronica Lake Happy at Present as Working Girl

VERONICA LAKE
The "peck-a-boo" look film star of the 1940's, is shown above in 1958. Today she works on tables and serves as a part-time hostess in the cocktail lounge of a hotel in New York borough of Manhattan. (AP Wirephoto)

NEW YORK, March 30 (AP)—Veronica Lake, whose peck-a-boo hair style made her a favorite pin-up to thousands of lonely GIs in World War II, now is living a life that vaguely resembles many of the roles she once portrayed on movie screens.

The 42-year-old blonde, somewhat faded but still beautiful, has been discovered working for meals and tips in the bar and restaurant of a modest, women's hotel on Manhattan's east side.

Ever since World War II, she has been waiting on tables, offers have poured in from the entertainment world urging her to try for a comeback.

There were telephone calls offering her a \$15,000 engagement in Las Vegas, a part in an off-Broadway play, a role in a 20th Century Fox movie and a chance to appear on television in "Naked City."

All of them were refused.

The sudden rush of renewed publicity yesterday caught Veronica off guard. She had, it seems, become accustomed to the obscurity that had fallen upon her in recent years.

Reporters were asked to leave with the promise that they could interview her "in a couple of days," and she firmly insisted that there be "no pictures."

But as the evening wore on, she relaxed and began to talk about everything from her old movies to the effect of St. Patrick upon the Irish.

Slipping Rob Roys, she propped up her aching left leg at a booth in the Colonnade room of the Marsha Washington hotel where she works and talks to the customers, many of whom are old fans.

Beside her were crutches to support an ankle set 14 times in the two years since a fellow actress was dating fell on it. Her leg hurt too much to work, so she talked about the accident, although she was reluctant to discuss the possibility of a comeback in show business.

"I'll take the right part when it comes," she said, affecting the voice and manner of a prima donna. Then, with a touch of sadness, she added: "I don't know."

But, perhaps the most unfortunate part was the decision of ABC to re-run immediately after the show the final moments of the fight, complete with scenes of emergency treatment of the unconscious man.

It is somehow ironic that this occurred at a time when television's critics are complaining of excessive violence and brutality in its program content. But the offensive violence and brutality in the only type—boxing—compounded of five weeks that miss their mark by inches and heroic tussles by a mere inches breakaway furniture.

Music Is Termed As "Unearthly"

HOLLYWOOD, March 30 (AP)—Musical score for Albert Zugsmith's "Confessions of an Opium Eater" was described by composer-director Al Glasser as "unearthly and down-to-earth."

Glasser will use jazz stars Alvino Ray on alto saxophone, Shorty Rogers and Alex Golden on trumpet, Buddy Collette on flute, Benny Carter on clarinet, Miller Anderson on trombone and Doc Hoffman on organ.

Actress Signed

HOLLYWOOD, March 30 (AP)—Character actress Aline MacMahon has been signed for a co-starring role in Broderick Johnson's "Diamonds Are Forever," which goes before the camera this month in Hawaii.

MacMahon's latest screen appearance was in "The Young Doctors."

ERNE KOVACS, flaked out in the corner of a room, is the subject of intense interest in this scene from the movie, "Ball a Crooked Ship," which starts Sunday at the Motor-Vu theater. Others in the film are Robert Wagner, Dolores Hart, Carolyn Jones and Frankie Avalon.

Oscar Nominees This Year Are Lacking Glamour of Past Years

HOLLYWOOD, March 30 (AP)—This year's academy award nominations pinpoint movie town's current lack of glamour. Nominees for best actor, including, with few exceptions, are not box office stars. Only one or two have the dash and excitement of award winners of past years.

Rock Hudson and Dori Day, the two biggest stars according to box office ratings, are not in the running. Neither are such other magnetic personalities as Elizabeth Taylor, William Holden, Marilyn Monroe, Frank Sinatra, Shirley Maclaine, and Marlon Brando.

Purists, who look on movies as an art form, say academy awards are presented for the best acting jobs, not for colorful exploits off-screen.

Others say the awards are worthless unless the public cares about the winners.

Not too many years ago the statuette went to performers who combined talent with glamour. Look at the record: Joan Crawford, Bette Davis, Ginger Rogers, Gary Cooper, Loretta Young, Laurence Olivier, Humphrey Bogart, Grace Kelly, Clark Gable and Ingrid Bergman.

Compare them with today's contenders.

Piper Laurie, Geraldine Page and Sophia Loren are three of the leading ladies in the running for the best actress of 1961. Note are responsible for box office stampedes, Audrey Hepburn and

Whitman and Maximilian Schell. The latter is best known for being the brother of actress Maria Schell.

Paul Newman, nominated in 1956 and loser to David Niven, is the only one of the five who faintly resembles the traditional award-winning screen hero.

Here's One Plan for Brides-to-Be of All Ages

The few weeks preceding a wedding are exciting but busy for a bride-to-be. Whether she's a daisy-pyed 20 or a mature woman.

The few weeks preceding a wedding are exciting but busy for a bride-to-be. Whether she's a daisy-pyed 20 or a mature woman.

The few weeks preceding a wedding are exciting but busy for a bride-to-be. Whether she's a daisy-pyed 20 or a mature woman.

FOR BRIDES OF ALL AGES, organization and planning are absolute musts. The beautiful bride is no accident. She has left nothing to chance. This bride-to-be, left, watches her pre-wedding and is careful to avoid rich food at parties. Here, she has snack of milk and wheat wafers as the opens wedding gift. Maid making, center, is essential to efficient organization. Mature bride, right, is radiant on her wedding day, thanks to well-planned program of beauty care.

Green Carpet in Yard Is Possible

WASHINGTON, March 30 (AP)—You can surround your house with a shimmering green carpet this summer if you do some preparation today.

There are three things to remember in your campaign for a green lawn—prepare the soil, select the seed, and then help these two along.

Work the soil when it is moist, not sopping.

Acidity, a prime requirement for a good lawn, varies in the soil, depending on your locale. A county agricultural agent or an inexpensive soil testing kit will tell how much acid the soil has.

When you're ready to plant, also rake in an inorganic fertilizer, such as nitrogen phosphoric acid and potash.

Kind of seed? Saint Augustine Bermuda and zoysia grass seem to sprout best in the South.

Lawns in New England and the North are better if bentgrass is used. Kentucky bluegrass favors Midwest areas. Other parts of the United States need mixtures. Consult your local garden dealer for help on selection.

To plant directly, broadcast the seed as did the pioneers, or use one of the automatic sowers on the market. After mixing the

Slacks, Sport Shirts Are Tops

WASHINGTON, March 30 (AP)—It's hard to tell the difference between the man with a golf date and the man on his way to the factory these days. Work shirts and hooded overalls are going the way of the buggy whip. Slacks and sport shirts are taking their place.

The U.S. department of agriculture, which keeps tabs on such things, also reports that less than a third as many big overalls are being produced as in 1959. And work pants—like more like sports slacks—are replacing dungarees and overalls

Accident Rates Are Blamed on Hurrying Males

SHEPHERD, Calif., March 30 (AP)—One more observation on the argument over women versus men drivers comes from one of the women in the annual Mobil Economy Run.

"Men drivers are always in a hurry," said Mrs. Patricia Sawyer, mother of three. They regard everyone else on the road as a rival.

Maybe that's why they cause seven times more accidents than do women each year.

Mrs. Sawyer, 41, will make her third trip as a driver in the run from Los Angeles to Detroit March 31-April 5 or husband was scheduled to be her co-driver. He was killed in the December 1959 airplane collision over New York City.

Moving Day Can Be Easy If Planned

CHICAGO, March 30 (AP)—Moving day, as much a spring proverbial as the violet, can be easier with these tips from a home care company.

Take a before and after look at the new address and plan these jobs, said experts with servicemaster.

Before moving day:

- Send the carpets for professional cleaning, arranging to have them delivered directly to the new house. For long distance moves, the carpets can be delivered just ahead of the movers arrival, all ready to travel.
- Be a "good neighbor" and clean discarded odds and ends from basement, attic and garage.
- For the smoothest transition from old to new quarters, pack necessities (toaster, soap, bath towels, coffee pot) in a separate box. Bundle cleaning tools together in an easily accessible carton. Label all cartons and tag each piece of furniture for its location in the new home.
- Now, after moving day:
- Clean furniture after delivery. If brighter rooms in the new home make some of the upholstery look faded or soiled, consider having it cleaned professionally. Often the fabrics can be brightened sufficiently to lower the number of pieces which will have to be replaced.
- Clean and re-line kitchen cabinets and drawers before putting away so much as a dishcloth.

On My Own Time

BY BOB HARTLEY

Noticed anything missing lately? Well, we have and if you stop to think, you have too. We haven't heard the fallout shelter harangue lately.

While some businesses may be enjoying a good year, it has come to light that the fallout shelter game ain't what it used to be. A few months ago there was a booming and promising business, thanks to the book and Mikita Khroushchev Reports are lifting in that those who invested heavily in the fallout shelter business across the nation are having a pretty tough time of it now. Some would point to this and many other examples and say that the public is fickle, and that might be the best answer.

There are other examples of similar behavior on the part of the public. Not so many years ago everyone was hyped on the part of the public. Not so many years ago everyone was hyped on the part of the public. Not so many years ago everyone was hyped on the part of the public. Not so many years ago everyone was hyped on the part of the public.

And even more noticeably missing is advertising for shelters. Also there is an absence of leaflets from politicians and the government urging the building of shelters and telling us how to do it.

What if there's one celebration that politicians don't observe during an election year? It's coming up early in April. The week of April 9-15 is National Noise Abatement week.

The police car pulls another to the side of the road. The cop glasses at the driver's license and sees "corrective lenses" as a notation. Whereupon the officer says, "What are you glasses?" The nervous driver replies, "I've got contacts, and my glasses, with advice anger in his voice, retorts, "I don't care who you know, you're supposed to be wearing glasses."

There are two big events shaping up for April. First, music lovers can expect an exceptional treat on April 26 when the Boise Philharmonic orchestra makes an appearance in Twin Falls. Mrs. David Mead and Roger Yocum will be soloists that evening. The other which should be noted on your calendar is the opening of the baseball season in Magic Valley. The Cowboys will start their season April 22 here against Idaho Falls.

Our leader is back from the foreign policy briefing in Washington—with one regret. Caroline Kennedy wasn't one of the speakers.

Ben Plating, managing editor of the Idaho Falls Post Register, reports that L. P. Democrats are trying to get Harry Truman to speak at a testimonial dinner for Ralph Harding in the future. A local Republican is quick to note with glee that it's a good thing. Asked why, he replied that so far Harry has supported Averell Harriman and Stu Symington and look how they did. While there is much difference of opinion about the former president, there's no denying he is an interesting speaker and a delight for the press. It would be hard to find an occasion when Harry sticks strictly to a prepared speech and didn't wander to make a point and good copy.

For those of you who enjoyed Tennessee Ernie Ford on his television program and a few years ago on his daytime show, you'll be interested in the format for his ABC TV daytime program which starts Monday. The show will kick off with comedy, include music, have a sing-along feature and wind up with an inspirational song.

Heading in on the television set Sunday will be a full report of the twofold tour of India, Pakistan and London by Mrs. John F. Kennedy. Sandra Vanocur of NBC-TV made the entire trip with the First Lady and he will narrate her exploits. It was quite a trip and could be quite a show.

We are fortunate enough to be able to say we have spent some enjoyable evenings watching entertainment from the Berlin Symphony orchestra right on down the list. But we can't think of an evening when we enjoyed ourselves more than last Saturday when the Lindberghs presented a concert here. While we agree that persons have different ideas about entertainment, most in this area know public affairs. Therefore, it's only fair to assume that anyone who left after the concert without having fully enjoyed themselves should have their heads examined.

Things that nag: Rude clerks in stores; persons who complain that golf is nothing but "chasing a little white ball all over the country," and those who get impatient waiting in line at a grocery store check stand.

Shedding Tears Comes Naturally

CHICAGO, March 30 (AP)—Weep some more, mummy—when you're watching those tear-jerking flickers.

In fact, you can weep bigger and better tears if you're under 30—and science will vouch for it. The free-flowing tear drops are just another sign of being a woman. My researchers for an eye clinic at the University of Pennsylvania found that women cry more naturally. But women from age 16 until about 30 have more tears than others. Far more than men in the same age bracket.

Beyond age 30, the tearful battle of the sexes ceases. Males weep as much—or at least at the same rate—as females.

IN WHOLESALE CASH—HOLLYWOOD, March 30 (AP)—Jack Druschen, co-starred in Millie's "Rehearsal for Alford Art," opens in Philadelphia at the Philadelphia Theatre on Jan. 31. It's the first time in the U.S. since the movie was released.

Women Worse Than Men at Tightwad Bit

CHICAGO, March 30 (AP)—One study shows it's the wife who's the tightwad in most families.

The average man would happily give his wife more money to spend if she would only let him, says a coming film.

A pilot study by the public relations board shows it's the little woman who looks upon going to the "hairdresser, new hats and drink" as a dinner as extravagances.

This is not to say most husbands have ignored the wisdom to understand that milk is no luxury. But if husbands aren't quite that wise, the study still indicates they would rather buy something for the wife and children than for themselves.

Not so for the ladies. Most are ready, the study indicates, to cut out their husbands' beer and cigar money when the budget runs low. Husbands' bowling and spending for home repairs also come under the heading of extravagances in most wives' books.

More evidence that men are more generous: Most of the husbands studied were labor-saving household appliances for their wives, but the women saw their husbands' labor-saving appliances as power lawn mowers.

Producers of FALLS BRAND Products

Presents This Week's

MENUS

By Helen McCully

As you know—dinner is the problem meal—hence our new menus for dinner only, with a recipe for each dinner.

Here are five Dinner Menus to enjoy this week.

MONDAY Dinner Menu

Falls Brand Assorted Cold Cuts
Baked Macaroni and Cheese Cabbage Salad
Lemon Pudding

Coffee Milk

BAKED MACARONI AND CHEESE

2 1/2 cups macaroni
1/2 cup butter or margarine
1/4 cup flour
2 1/2 cups milk
1 teaspoon salt
Dash pepper
2 cups grated Cheddar cheese

Start oven at 325 degrees F. or moderate and set on a medium casserole or baking dish.

Cook macaroni according to package directions until tender. Drain thoroughly.

Melt butter or margarine in a saucepan. Stir in flour smoothly. Add milk gradually and cook, stirring constantly, until sauce bubbles. Season with salt and pepper.

Cook macaroni according to package directions until tender. Drain thoroughly.

Melt butter or margarine in a saucepan. Stir in flour smoothly. Add milk gradually and cook, stirring constantly, until sauce bubbles. Season with salt and pepper.

TUESDAY Dinner Menu

Falls Brand Flank Steak with Vegetables
Rye Bread Endive Salad
Coffee Milk

FALLS BRAND FLANK STEAK with VEGETABLES

1 1/2 pounds Falls Brand Flank Steak
2 tablespoons flour
1 teaspoon salt
2 tablespoons shortening
4 potatoes
1 large onion
1 green pepper
1 teaspoon salt
1 teaspoon pepper
1 can (11-ounce) stewed tomatoes

Start oven at 325 degrees F. or low. Make shallow diagonal slit across each side of flank. Mix flour and salt together and rub on both sides of meat.

Heat shortening in a skillet, add meat, and brown both sides over a brisk heat.

Pare potatoes and cut in slices; peel onion and slice; trim pepper and cut into thick strips. Put these vegetables on top of flank steak, add salt, pepper, and stewed tomatoes. Cover and bake 2 hours. Serve 4.

FRIDAY Dinner Menu

Cheese Omelet
Creamed Spinach, Whole Kernel Corn, Buttered Orange, Grapefruit and Watercress Salad
Coffee Milk

CHEESE OMELET

8 eggs
1/4 cup light cream
1 teaspoon salt
1/2 teaspoon pepper
1 tablespoon butter or margarine
1 cup grated Cheddar or Swiss cheese
Few sprigs parsley

Beat eggs until yolk and whites are mixed. Stir in cream, salt and pepper.

Heat butter or margarine in a large skillet. When hot pour in egg mixture. Cook over a low heat, lifting edges with a fork to allow the uncooked egg to reach the bottom.

When omelet is evenly cooked (bottom should be quite firm but top still soft), sprinkle with cheese and chopped parsley. Cook until cheese melts, fold omelet in half with a spatula, and transfer to a warm platter. Serve 2.

SUNDAY Dinner Menu

Falls Brand Pork Cutlets
Baked New Potatoes Casserole Salad Strawberry Sundae

Coffee Milk

FALLS BRAND PORK CUTLETS

1 egg
1 1/2 teaspoons salt
Dash pepper
6 Falls Brand Pork Chops
1/4 cup fine cracker crumbs
1/2 cup shortening
1 tablespoon butter or margarine
2 tablespoons sugar
Pinch dried basil

Mix egg, 1 1/2 teaspoons water, 1/2 teaspoon salt, pepper together. Dip chops in mixture. Coat with cracker crumbs. Heat shortening in a skillet, add chops, and cook over a low heat for 10 to 15 minutes on each side.

While chops cook, slice the tomatoes and cut into chunks. Put into saucepan with butter or margarine, tomatoes, 1/2 teaspoon salt and basil. Cook, uncovered, over a low heat for about 10 to 15 minutes or until tomatoes make a thick sauce. Stir occasionally. Serve over the cutlets (4).

* Delicious with Bacon Dressing. Recipe is in most general cook books.

WEDNESDAY Dinner Menu

Falls Brand Sausage and Pineapple
Cucumbers Green Salad
Coffee Milk

FALLS BRAND SAUSAGE and PINEAPPLE

1 pound Falls Brand pork sausage
1/2 cup dry bread crumbs
1 tablespoon chopped mint or parsley
1/2 teaspoon salt
1/2 teaspoon pepper
1 can (9 ounces) pineapple slices
1 tablespoon prepared mustard
Brown sugar

Combine sausage with bread crumbs, mint or parsley, salt, pepper. Shape into 4 patties.

Drain pineapple and pour 1/2 inch of pineapple syrup into skillet. Heat, add patties, cover and cook about 8 minutes. Remove cover, turn patties, and cook another 8 to 10 minutes. Lift out sausage and keep warm.

Spread pineapple slices with a thin coating of mustard and sprinkle with brown sugar. Fry a minute or so on each side.

Serve a slice of pineapple on each sausage patty. Garnish with parsley. Serves 4.

FOOD TIPS

Need a sweet in a hurry? Pour a generous dollop of maple syrup over sliced bananas.

FOOD TIPS

Here's a quick lunch idea: Heat drained asparagus in rich white sauce. Serve over toast.

Independent Meat Company sincerely hopes the New Look in Menus by Helen McCully will be more helpful and enjoyable to read and use.
