

New Attack Is Reported Starting in South Laos; Negotiation Steps Taken

QUENTIANE, Laos, May 26 (AP)—The rebel Pathet Lao was reported mounting a new attack in southern Laos today as Souvanna Phouma, the neutralist premier, took the first steps to renew negotiations for a coalition government. A military spokesman for Prince Boun Oum's pro-Western government said the pro-communist forces were threatening Saravane in southern Laos, but he denied reports from Thailand that the Pathet Lao had fallen from the area.

Unknown Force Blamed in Crash

CENTREVILLE, Wis., May 27 (AP)—An unknown explosive force from within ripped apart a Continental Airlines jet in flight, killing the 45 persons aboard, a civil aeronautics board spokesman said today. Another source said it appeared unlikely that the explosion Tuesday night could have resulted from anything other than a bomb. The source declined to be named. While CAB investigators sought the cause of Tuesday night's crash, Robert F. Siv, Continental president, said in Denver that there was "sufficient evidence to indicate the probability that a man-made explosive had been set off within the aircraft. He also asked the FBI to investigate."

Inquest Set In Death of Bannock Boy

EDEN, May 26 — An inquest into the death of Richard Chad McCowan, seven-year-old son of Mr. and Mrs. Richard C. McCowan, Pocatello, who was struck by a truck on the highway near the Bannock border and Atoppeu in the western Idaho. The inquest is scheduled at 4:30 p.m. Monday at the Crispin Home, Monday night. The boy was killed when struck by a 1959 Ford driven by Henry Schutte, 28, Eden, on a county road one and one-quarter miles south of here.

Schutte told officers that he came over the crest of a hill and saw the car. He said he saw the car and the boy. He said he saw the car and the boy. He said he saw the car and the boy.

Atoppeu, Indian chairman of the international control commission, said he had received a letter to King Seng Vannak asking for an audience to discuss the new small-printing of Laos' three spring princes soon after the election.

Cocoa Beach Readies Astronaut's Welcome

COCOA BEACH, Fla., May 26 (AP)—Across four lanes of busy highway they hung out the welcome sign today for another local boy who made good. "Welcome back, Scott, to Cocoa Beach, your home away from home," proclaimed the big streamer across state highway A1A, just at the edge of town. And up that same highway Malcolm Scott Carpenter, America's newest space hero, will ride Sunday at the head of a mile-long motorcade to receive his homecoming welcome.

Deadline for Registration Is Saturday

Deadline for registration of voters for June 5 primary election in Twin Falls county is 5 p.m. Saturday, according to W. Stivers, county clerk.

Absent voters are being accepted for the primary election. Persons who will be away on election day or unable to vote in person may write to their precinct or to the courthouse for a ballot. After voting an absentee ballot, the voter must return it to the county clerk's office.

The 1962 meeting will be held at Sun Valley with the Twin Falls Times-News serving as sponsor.

Gooding Man Given Award

WASHINGTON, May 26 (AP)—The interior department has selected a Gooding resident for one of its five 102 conservation service awards.

State Sen. Don Fredrickson, a Gooding Democrat, was chosen for his outstanding achievements in furthering the objectives of natural resource conservation programs in Idaho. He is immediate past president of the Idaho League of Soil Conservation Districts and is past area director of the national association.

Fredrickson is a director of the Idaho Wildlife Federation and is chairman of the Idaho Landowner-Sportsmen Council. In the 1960 election he served as chairman of Farmers for Kennedy-Johnson in Idaho.

Red Wall in Berlin Ripped by 4 Blasts As Tension Mounts

BERLIN, May 26 (AP)—Four blasts in 15 minutes ripped the red wall in Berlin today and heightened tension over the fatal shooting of an East German border guard. A Soviet commando police trooper pushed to the scene and a Berlin radio blast appeared when one pre-dawn explosion knocked a six foot hole in the wall. Another blast buckled the masonry. What damage was done by the other two detonations, if any, could not be seen from the West.

Western authorities said they did not know who set off the explosions, but speculated they were the work of at least two groups behind the wall.

The East German news agency ADN declared, however, the blasts were a continuation of "murder attacks" begun Wednesday when an East German border guard was shot and killed in an exchange with West German police.

Otto Winzer, deputy foreign minister of East Germany, fired off protest letters to the three western powers, demanding that they stop the "murderous" attacks and that they stop the expansion to the West.

Saturday was the 10th anniversary of the formation of the German Democratic Republic. The East German government said it would observe the day with a solemn ceremony.

Terrorists in Algiers Burn Bomb Schools

ALGIERS, May 26 (AP)—Secret police reported today that a terrorist organization had burned and damaged public schools and buildings today in Algiers to leave only debris and ruins for an independent Algeria.

Police reported a dozen elementary schools were destroyed or damaged by plastic bombs, phosphorus and other explosives. The schools were attached to gasoline canisters. Two town halls were also damaged.

A secret army radio broadcast said the terrorists had burned and damaged public schools and buildings today in Algiers to leave only debris and ruins for an independent Algeria.

General Lauds CAP For Search, Rescue

The civil air patrol "carries the brunt of search and rescue" operations in the United States, said Maj. Gen. Harold R. Maddux, commander of continental air command, in a letter published Saturday night. In carrying out rescue operations, CAP members "must demonstrate their extraordinary flying skills," he noted, in an address to officers and members of the CAP attending the annual Rocky Mountain regional conference here.

The 1962 conference was held at the Sheraton Hotel and attracted approximately 200 officers and members of the CAP, reported Col. David Shuman, Idaho wing commander.

General Maddux noted that "all of us, with only a few exceptions, are here to help one another. We are here to help one another. We are here to help one another."

"We also have to be sure of our own safety. We must be sure of our own safety. We must be sure of our own safety."

"I do not mean only the training of American youth. Our adult pilots have been even more urgently, and you must be sure of your own safety. We must be sure of our own safety."

More Marines Are Added to Seventh Fleet

WASHINGTON, May 26 (AP)—Another 1,000-man marine battalion, landing team has been added to the Seventh Fleet to replace the one leaving for Hawaii, Pentagon sources said today.

The marine battalion is being moved with unusual speed to fill up the forward-deployed elements of the Seventh Fleet's amphibious command.

The converted carrier Valley Forge was used as a helicopter base for supplies and accompanying transports which carry the marine units to the island.

At Okinawa, the fleet base, the 1st Marine Division, reinforced into an 1,000-man unit, quickly embarked and the ship sailed for Hawaii.

Lloyd Webb Notes Delays In Area Court

BURLEY, May 26.—The serious delay in trying district court cases was criticized by Lloyd Webb, Democratic judge for Eleventh district judge, here today.

Webb expressed his admiration for the ability and knowledge of the courtroom, but noted that this failure to dispose of the cases brought before him in a reasonable amount of time had caused such a backlog as to keep some cases undecided for as long as two years.

He stated, "You are all aware of course, that the situation here is the fault of the legislature of the year that two judges from another district were brought in to do some of the cases. It was being if I believe for a number that the judge could solve it's problem. However, I would a child, I am not sure, but I don't believe that he can't.

Webb also said he believed it was not a fair trial for four children gave him a greater knowledge of the situation than the state's attorney.

He concluded saying, "I expect if I am elected to administer justice I will promptly but judiciously with fairness to everyone."

Market Shuns President's Speech, Dips

NEW YORK, May 26 (AP)—Stocks took another frightening 21 billion dollar plunge to the lowest level since 1957 today, this week, totally disregarding a presidential pep talk for investment, bright business and economic news, plus an important access.

The market seemed to be feeding on its own gloom and investors, intent upon saving some of their accumulated capital gains before they were wiped out, rushed to liquidate—only making matters worse.

Many analysts felt the action during the week was blind selling which had accumulated to totally unrealistic proportions.

Others thought the whole market was in a panic, a panic that was re-ignited in the light of disappearing inflationary influences prevalent throughout the past week and fears of intensifying world competition for industrial markets.

Nobody ventured a guess as to where the decline would end. Dow theorists who had been saying investors who had believed their sign posts were signaling a market rally this week.

Nothing was heard, least of all the growth stocks whose late-prior earnings rises were cited as reasons for leaving investors on margin with little choice but to put up additional cash to secure loans or be sold out at big losses by their brokers.

Investors were also disgruntled by the unexpected large number of questionable practices and deals turned up by the securities and exchange commission in its increasingly aggressive probe of stock dealings.

Each session was punctuated with a liberal dosage of favorable business news in such key fields as auto, construction, activity and retail sales but the market showed no interest.

Things at least for the moment, only went from bad to worse after the president said he was sure the market would follow the trend of business and the economy.

Rep. Carpenter's three credit actions produced a short-lived market rally Thursday morning but by closing time renewed selling had grabbed up all but

Industrial, Government Gap Is Wide Despite Conference

NEW YORK, May 25 (AP)—Business, labor and government had an unusual economic summit meeting the past week but the gulf between them wasn't visibly narrowed.

The government was taken to task for what business leaders tax for what business leaders and unions renewed their old arguments.

On other fronts, representatives of the steel, automobile and other industries got in their attacks against the government's price-fixing program, management and labor.

President Kennedy told the business conference at his outdoor golf and tennis estate that the government would cooperate in raising production to increase the benefits which workers, management and stockholders can share.

"If we can operate this economy at all below, then the dilemma that comes of that fall blast is going to be a much easier task," he said.

The president asked the 300 conference members to drop their party labels and join the government in trying to solve certain economic problems.

But for instance, AFL-CIO President George Meany contended that business was refusing to support free collective bargaining.

Despite the blurring, Kennedy said he felt that in private discussions the conference showed that business was willing to support free collective bargaining.

There were few concrete economic developments during the week.

Rally Pushes Grain Market To Recovery

CHICAGO, May 26 (AP)—A strong rally late yesterday ended grain futures to recover some of the losses sustained earlier in the week under heavy liquidating sales.

Compared with a week ago on the Chicago board of trade, wheat was up 11¢ to 78¢ a bushel, corn 10¢ to 21¢ a bushel, and soybeans 8¢ to 21¢ a bushel.

The rally was spurred by reports of better harvest prospects in the Soviet Union and by speculation that the government would buy grain for the year.

The rally was also helped by a report that the government would buy grain for the year.

TWO MAJOR EXECUTIVES of the Minneapolis-Honeywell Regulator company are shown boarding their private DC-3 plane at Jodelle field after attending a conference of the Society of Apparatus Manufacturers association at Sun Valley. From left are P. B. Wihart, chairman of the firm's board of directors, and Henry F. Dever, vice president. The Minneapolis-Honeywell company has 45,000 employees and will probably gross about five million dollars this year, according to Wihart. Dever and Wihart were scheduled to fly from Twin Falls to Denver, where they visited one of the company's 10 divisions. (Times-News photo)

ONE FEATURE that will be on display during the Show of Homes June 2-10 at Alturas drive north, Twin Falls, is the built-in electric oven shown by Hal Walker, coordinator of the show. Home Show, Show of Homes Slated in T.F. During June

Magic Valley residents will Alturas drive north, Twin Falls, have a chance to see new homes, displays of equipment and appliances for the home at the Magic Valley Home show and Show of Homes.

The Home show will be held June 7-10 at the Twin Falls high school gymnasium, reports Tom Wilkins, manager of the show. Wilkins said there will be some 200 exhibitors displaying merchandise and giving various demonstrations. The Home show is sponsored by the Snake River Valley Electrical association.

The Home show will be open from 4 to 8 p.m. June 7-8, and from 10 to 2 p.m. June 9-10, Wilkins said. There will be several outside displays, prizes, and a show of homes.

Main display at the Home show will be a full-scale replica of the modern display kitchen designed and built by Whirlpool corporation for the air forces. This kitchen will show how the United States plans to feed three astronauts on a 14-day mission in outer space.

The kitchen looks much like an average kitchen for home use. It contains storage cabinets, freezer, refrigerator, oven and sink, and a range. Viewers will see, when demonstrated, how hard it is to eat when no knives, forks, spoons and plates are used. Demonstrations of the kitchen will be given every hour.

Some 20,000 people are expected to see six Gold Medallion homes June 2-10, according to Hal Walker, coordinator of the Show of Homes. The Show of Homes will be held from noon to 9 a.m. June 2-10, at the end

Calvin Hawk Succumbs to Heart Attack

RUPERT, May 26—Calvin H. Hawk, 51, former teacher and employee of the Project Mutual Telephone company, died at his home south of Rupert Friday of a heart attack.

He was born Jan. 4, 1911, at Rupert and graduated from Rupert high school in 1930. He had attended the old University of Idaho, equine branch, at Pocatello.

Mr. Hawk graduated from the old Albion state normal school in 1934. He taught school until 1938 and was a part time farmer.

He had been employed by the telephone company for the past six years. Mr. Hawk was a member of the Trinity Memorial Episcopal church in Rupert and the Masonic lodge, A.F. and A.M. No. 85.

He married Ruth Bagnall on Nov. 4, 1934, at Shoshone. Survivors include his widow and two daughters, Linda Lee Hawk, and Carol Lynn Hawk, all of Rupert; one sister, Miss Virginia Hawk, a teacher with the fire force at Seultchboro, England; three brothers, Harold D. Hawk, Twin Falls; George W. Hawk, Pocatello; and Donald E. Hawk, Rupert.

Funeral services are pending at the Walk mortuary, Rupert.

May Heyday Is Staged by MIA At Shoshone

SHOSHONE, May 26—In a May day Heyday program in a LDS MIA meeting, Germany, Japan, Spain and Scotland were highlighted.

Mrs. Ben Gomm and Stanley Larson, sports directors of the MIA, were in charge of arrangements.

The community was divided into four sections.

Mrs. Glen Croft conducted the meeting. Music was led by Karen Dille and Louise Larsen, accompanist.

M. J. Dille was chairman of the German section, which featured a German band, a dance and a talk on the country. Roy Hubert, who served a two and one-half year mission in Germany for the church, told of the people, their customs, the country and especially stressed the use of the forests by the people there.

He said they eat about five times as many children are prohibited from seeing certain movies by a strict enforcement of an age level. The German people are very industrious and the climate is similar to ours, but it seems colder in the mountains.

David Johnston and daughter, Becky, danced the polka. Playing the band were Dille, Karen Dille, Steven Tyson, Bill Black, Lloyd Knowles and Howard Knowles.

Japan was represented by people in the southwest section of town, under the direction of P. N. Sigurd. Mrs. W. A. Hall and Mrs. Edwin Webb, Mrs. Webb read information about Japan and the Japanese.

Mrs. Gomm was in charge of the Scotland display, headed by people in the northeast section of town. Becky Gomm, Heidi Forbes and Cindy Prumel danced the highland fling; the Vern R. Thomas family sang and Frank Finlayson, a native of Scotland, did the sword dance.

Spain was represented in a talk by Mrs. Max Jensen, chairman. She told of the color of the land, people, costumes, crops and customs.

Kathy Forbes and Charles Oneda danced the LaJota, a Basque dance. Mr. and Mrs. Richard Hunt sang a Spanish song.

Games were directed by Mrs. Gomm. Included in the refreshments were Scotch bread and Peppylois, a cookie from a Scottish recipe.

From Berkshire come the first stockings fashioned with sound waves!

New ULTRASONS

shape themselves to fit your legs —every step you take!

HERE, at last, are stockings that never lose their fit! Berkshire's fabulous new Ultrasons won't bag, sag or wrinkle.

The secret is a new ultrasonic process—the greatest advance in stockings since nylon was invented!

More flexible, more comfortable

Ultrasons are the first stockings actually treated with ultrasonic sound, so they'll flex with every movement of your legs.

Walk, sit, stand, stoop, Ultrasons stay smooth from top to toe.

The new ultrasonic process makes Ultrasons more porous than other nylons. They keep your legs and feet cooler, drier in the hottest weather.

Guaranteed run barrier

Every pair of Ultrasons has Berkshire's famous NYLON® Run-Barrier. Guaranteed to stop any runs starting at the top or toe from entering the sheer leg area—or you get a new pair free!

Ultrasons come with seams or seamless in four muted shades. All matte-finished—fashion's subtle new look for 1962.

Discover today how shapely your legs can look in Berkshire's new Ultrasons. Only \$1.65 a pair.

Freight Rate For Wheat

The department of agriculture's freight rate reduction on wheat will discriminate against Idaho, and the state's wheat growers are "being sold down the river" by the department, Oral Harsten, second congressional district candidate, said in Twin Falls Friday.

"The proposed 70 cent rate on wheat shipped from the Midwest to the Pacific coast will mean that wheat can be shipped at a

wheat grower must pay the cost of shipping it to the coast. Idaho wheat growers who spent their own money to develop an export market during the 1950-61 crop year will be more than 43 million dollars in wheat sold in excess of the freight rate." Harsten said "in the future of fair treatment for Idaho wheat growers, the department of agriculture should abandon its policy of giving favored treatment in the Midwest and cancel the rate reduction."

There's nothing just as good as a good flag for Idaho. Globe News-Advertiser.

HOLDING A PINT OF BLOOD are Roy Babel, 553 Buchanan street, Twin Falls, and his four-year-old son, Michael Babel. This pint of blood is similar to the one Babel gave as a blood replacement at the May blood drawing. He gives blood replacements for the blood his wife used during an operation in Salt Lake City. Any person in Twin Falls can give blood replacements at each drawing. (Times-News photo)

Babel Urges Citizens to Donate Blood at Drawings

Roy Babel, 553 Buchanan street, Twin Falls, is a Twin Falls resident who regularly gives replacements at Red Cross blood drawings.

Although Babel has given blood for years, he just started giving blood replacements a few weeks ago when his wife was operated on in Salt Lake City. She used three pints of blood, which was transferred from his blood bank to Salt Lake City.

"Blood needed to be replaced in Twin Falls so someone else could use the blood. So Babel started to give blood for replacements."

"When the emergency arose and blood was needed, I gave some. I've been giving blood replacements to replace the blood my wife used in an operation in Salt Lake City."

"Giving blood now is easier than years ago."

"Now the nurse gives you a pain killer at the spot where she will draw the blood. Before they didn't do anything but just start drawing the blood without applying anything to kill the pain."

Babel said he has been giving blood intermittently for several years and he believes everyone should give blood regularly.

The next visit of the Red Cross bloodmobile will be July 16 at the American Legion hall. Anyone wishing to give blood replacements then may do so. Persons giving replacements should mark replacement on the card you sign at the drawing. Mrs. Mason said.

When a friend or relative uses blood a donor then should give blood to replace what they need.

Letter Painted atop Mountain

HAILEY, May 26—Male members of the graduating class of Hailey high school climbed to the top of DeWitt mountain and there placed a 65-foot high letter "H". Builders of which the letter are made are set into two-foot-deep trenches. Ten gallons of white paint were used to paint the letter. The climb was made by way of Colorado gulch.

Those who participated were Jim Berry, Richard Board, Jack Boggs, John Hutchinson, Terry Croft, Byron Downard, William Dugger, Noel Edwards, Dale Glesky and Lynn Hammon.

The letter was placed on the almost perpendicular face of the mountain which faces the school.

Only Mechanical Trouble Seen as Stumbling Block

INDIANAPOLIS, May 26 (AP)—Rufus (Purnell) Williams, the race driver's race driver, is an almost unanimous favorite to win the 46th 500-mile classic Wednesday night at his white Agajanian Special stays in one piece, 25-year-old Torrance, Calif., pro is the solidest choice since Bill Huthebe's victory in 1955.

FROM ALL ANGLES

By LARRY HOVEY

Preparations for the 1962 football season is opening earlier than in previous years. Many of the players must wear protective gear—similar to the equipment used by boxers. And

Bill didn't make it. He was the pole sitter until he had the race since the classic was started in 1911.

Ward's car produced a pitfall that sent Vukovich hurtling over the wall.

Ward, now of Indianapolis, will be one of Jones' major opponents Wednesday in a high speed race. He was in 1950 and has lost none of his racing cunning at the age of 41.

Jones will be making only his second start in the 500-000 International raceparks but other notable contenders include Jim Hurtubise, called him the "greatest" before he ever drove into the old 1/2 mile track.

Jones led the 61 race twice but was dropped back to 12th by a lack of fuel and a flying bolt that struck him in the forehead. He came back this year in the same car, an A.J. Watson creation with an Offenhauser engine, and broke the one-minute barrier for one lap. His finest circuit in the one trials was 1:07.23 miles per hour.

Huthebe, who held the old record of 1:00.74, twice won the race in practice but qualified in the last minutes of the trial session with car he has never used before. The result is that he starts in 20th place in the 25-car field.

Ward was the second-fastest qualifier. Behind him were Watson and Bobby Marshman, another highly regarded sophomore driver who has three career starts by doing 143.94.

WINNER BY THREE YARDS IS Frank Budd, Villanova university's first-footed star. He won the IC4A track meet at Villanova, Pa., Saturday in 36 seconds in sprinted his school's try for the meet championship. Second in the 100-yard dash was Paul Drayton, left, Villanova university. Third was William Jackson, Morgan State; John Duryn, Penn State; fourth, and Oliver Dobbins, Morgan State, fifth. (AP wirephoto)

BYU Collects Eighth Straight Skyline Track Championship

DENVER, May 26 (UPI)—Brigham Young university smashed to its eighth consecutive Skyline conference track and field championship today by scoring 25 1/2 more points than second place New Mexico. Two loop records were broken and seven Denver university stadium marks were bettered. One stadium mark was tied in the league's final title match. BYU scored 70 1/2 points, New Mexico 45. University of Utah 35 1/2, Utah State university 24, Wyoming of Denver 21 1/2, Wyoming failed to score.

Miss Creed Wins Amateur Golf Tourney

RICHMOND, Va., May 26 (AP)—Clifford Ann Creed, a relentless 5-foot, 3-inch 100-pounder from Alexandria, La., won the Southwestern women's amateur golf championship today with a 6 and 3 victory over Margie Burns of Greensboro, N.C.

It was the eighth tournament victory of the year for Miss Creed, 23, who won the first four holes of her scheduled 36-hole match against the dead game, dead tired Miss Burns and never once trailed.

For the 11 holes they had to play before Miss Creed closed out the match, the Louisiana star only took two strokes over par. She piled up a five-hole lead by the end of the morning 18 and though Miss Burns played fine hole-in-one after hole-in-one, she could erase her deficit.

Miss Burns was nine strokes over regulation at the James River course when the match ended at an end.

Villanova Collects IC4A Track Championship as Budd Takes Two Firsts

VILLANOVA, Pa., May 26 (AP)—Villanova's powerful forces rolled in their third straight IC4A outdoor track and field championship and fifth in the past six years—Saturday on the wings of a double first and a first and second by Pat Traxnor, Junior Jim Elliott's legions fared about 100 points in each, which saw seven records broken and one tied and returned the championship trophy, but all Villanova really needed was Budd, Traxnor and Paul Drayton. Among them, they scored 27 points, more than second place Yale, which finished with 23 points. Morgan State had 20, New York university 22, Maryland 17, and Penn State 16.

Maris Told to Forget Hits, Go for Homers

NEW YORK, May 26 (AP)—Roy Maris, the Yankees' first baseman, was told today by Coach Yogi Berra to forget his hits and go for home runs. Suspension of Jockey Is Cut To 10 Days

BALTIMORE, May 26 (AP)—The suspension of jockey Willie Ruff was cut to 10 days by the Maryland Jockey Club today. Ruff was suspended for 30 days for betting on horses. The suspension was cut to 10 days because Ruff had not bet on horses for 20 days.

Maris' coach, Yogi Berra, told him to forget his hits and go for home runs. Berra said that Maris had hit too many hits and not enough home runs. Berra said that Maris should focus on hitting home runs.

Bees Top Seattle On 8-Run Inning

SALT LAKE CITY, May 26 (AP)—The Seattle Mariners exploded for a crucial series between the Pacific Coast league's top two teams. The victory put the Bees on full parity in front of the second place Rangers.

Three errors by Seattle combined with five hits by Salt Lake to give the Bees their biggest inning of the season in the opening frame—Curt Jensen, Scheller and Archie Steen committed the key miscues.

Jensen and Steen tried to make up for the damage they committed by emptying home runs as Seattle peaked away at the Bees. Led the Rangers fifth inning, Jensen and Steen allowed only one run after conceding two in the bases jammed and none out.

Grim Is Released By Kansas City

KANSAS CITY, Mo., May 26 (AP)—The Kansas City Athletics today gave pitcher Bob Grim two months' release and purchased the contract of pitcher Gordon Jones from his Portland farm club.

Grim had appeared in 11 games for the Athletics in 1961 but had only one win and a 4.23 earned run average. Jones, 32, has a 3.00 earned run average. He has pitched with the Los Angeles Cardinals, the San Francisco Giants and the Baltimore Orioles.

Another pitcher from Portland, Bill Hunt, was released today.

Junior High Art Students Place High in State . . . Twin Falls Groups to Participate in New Program . . . Routine Trip to Library Turns Out to Be Party for Teacher . . . Work on Antelope Study.

The Magic Valley Newspaper Serving Nine Irrigated Counties TWIN-FALLS, IDAHO, SUNDAY, MAY 27, 1962

That We Here Highly Resolve That These Dead Shall Not Have Died In Vain. —Abraham Lincoln

HEARTACHE OF PAST YEARS and a prayer for the future of the nation is contemplated by Mr. and Mrs. Coe M. Price, of Twin Falls, as Memorial day nears. Their two sons, First Lieut. Gerald M. Price and Second Lieut. Richard C. Price, both killed in World War II. Both boys were graduates of the local high school. (Times-News photo)

Advancing or Ending of Public School Life Is Matter of Age

By O. A. GUST, KELLER Times-News Feature Editor

Even a quick review of the basic facts seems to be all a matter of age.

And at the time this all takes place the question has not reached the point where it is really a tie to over a point. It is only a matter of time that does form the basis of this "study" so must be "each into consideration."

In one case the age is 11 years, and in the other to John McClusky. In the other case the age is 18 years, and is claimed by David McClusky.

It might be well to point out right here that these are McClusky's of what's new. There are the narrow, Dr. and Mrs. David A. McClusky. Then, of course, there is Karen, who will be in the second grade at Washington school next fall, and Mary, who will be a sophomore, as well as Robert, upcoming junior.

But this story concerns only John and David, mainly because both are taking a big step so far as their individual lives are concerned.

For John, as for all sixth grade "reads," it means something entirely new — junior high school and a teacher for every subject. No longer will he stay in one room and have one teacher for everything.

Now the (think) he will be liberated, and so he leaves grade school walking on clouds a mile high. Summer is just a little bit looking forward to late August and school month.

Probably, although not admitting it, he does have some misgivings about the step up. For six years he has been among friends he has cultivated all that time. Now he will meet new boys and girls from other schools. It is a sort of melting pot, like the nation itself.

But in any event, John will be growing up at only 11 years and the horizon is bright, new and exciting ahead of him.

Then there is David. He is now a graduate of Twin Falls high school and looks forward to September and his entry as a student at the University of Idaho for a baccalaureate.

There has been, for him, the thrill of graduation and gala dances and parties such as all seniors know, but the undercurrent is serious, in comparison to that felt by John as he faces junior high.

David realizes that he now faces a period in his life where, for the most part, he will make (Continued on Page 4)

GRADE SCHOOL TO JUNIOR HIGH is a big jump and proving a big thrill to John McClusky. Right now he's free! At 11 he starts a new challenge with a teacher for every subject. (Times-News photo)

Life of Service Comes to End For Sadie, Seeing Eye Dog

Sadie is dead. Perhaps, if you are new in the city, the name Sadie means little to you. But, on the other hand, you have been here any time planned retirement was written, and ready to be placed into type that the well-known dog has seen what she died. For humans beings the most likely retirement age is somewhere around 65. The govern-

WIFE OF SUDDEN SEPARATION between Sadie, a "seeing eye" dog, and her master, J. Hill, did not show when this picture was taken the day before she died. Because of her age, the Twin Falls businessman had decided to retire to relieve his constant companion and the picture was taken to accompany a story announcing the fact. (Times-News photo)

mentally witnessed 13 summers but in a dog's life one year is equal to seven for a human. Fluctuating on this basis made the animal 93 years old.

As it is with all life, Sadie had reached the point where she was just wearing out. Her heart was just as strong as it ever was and her will to do her job was still there, but her body was falling behind. Examination disclosed she had arthritis and her eyes were developing cataracts. Recently she slipped a disk in her back. This had partially healed but still troubled her.

Sadie was the second guide dog that had been owned by Hill. The first, Leda, also served for 13 years before she died.

The attachment of a "seeing eye" dog for the master, and the master for the dog, causes the animal to become one of the family.

In the case of Sadie, she slept on a special rug at the side of Hill's bed. No matter when he got out of bed, Sadie got up with him. In fact she worked so close to her master that Hill says "she got miserable if I only left her for a little while."

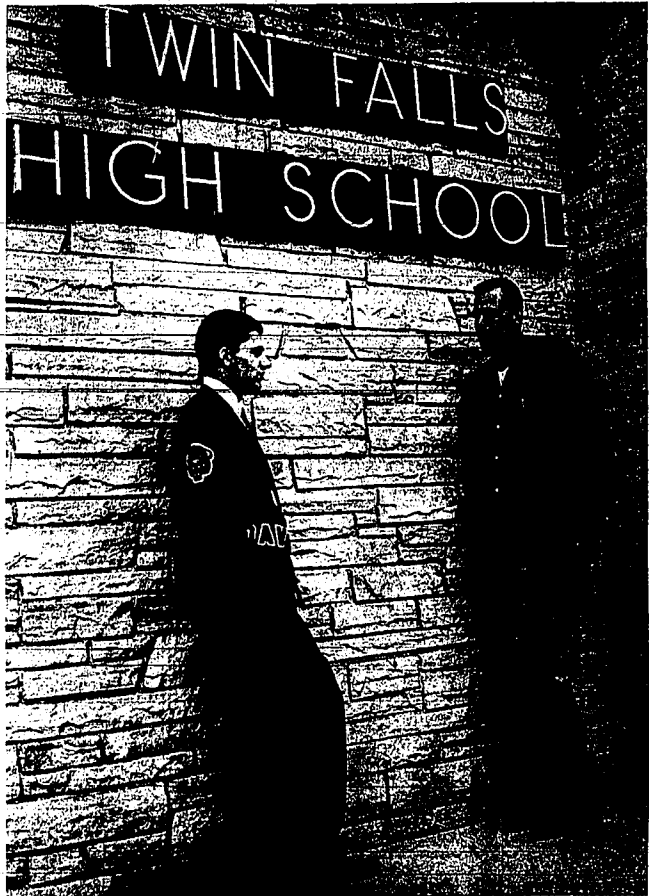

Sadie was 2 years old when Hill was introduced to her at the Seeing Eye, Inc., Morristown, N. J. When he went there to purchase his first dog he spent a total of four weeks in training. The second trip to pick up Sadie saw him there for a period of only 10 days. Sometime in June, when he makes his third trip East, his length of stay will depend on how long it takes a new dog "to get used to me," Hill said.

Selecting a new dog for a blind person is an exacting task. To start off, the trainer will put a harness over his shoulder and then play dog while guiding the blind person across a street.

In this manner, Hill points out, the trainer determines the reaction and coordination of the blind person in addition to their equilibrium. Their ability to start, stop and turn is also checked closely. These findings are tabulated and matched with like tests taken of various dogs in training.

For instance, Hill points out, there are fast dogs and slow dogs. Just as there are fast and slow human beings. The master and dog must be matched evenly in this respect. Sadie was chosen as a fast mover.

The Seeing Eye trains mostly German shepherds. All dogs, of course, do not qualify and many are disqualified even before the (Continued on Page 4)

HIGH SCHOOL TO COLLEGE is a serious step and for David McClusky, as for all senior graduates it will mean a change of pace. Richard Baum, dean of boys, cautions graduates to remember "from now on it's up to you. There will be no more pushing from parents or teachers. If you falter, others are waiting to take your place," he adds. (Times-News photo)

Career of Seeing Eye Animal Ends

Continued from Page 23
time comes for them to meet their potential masters. Even after that, some do not make the grade.

Hill says when using a guide dog it is best for the human to be completely blind and put all trust in the intelligence of the dog. There must be complete confidence between the human and the animal. If one distrusts the other, then the association will not work.

"Dogs are living, thinking and intelligent beings," Hill said. "They are sensitive and responsive to the people they love. A dog has reasoning power and is required to think."

When Sadie died it was like losing a member of the family for Hill.
"But when she was old and not well it was not fair to work her," Hill declared.
In a recent letter to Hill, George Wernke, Jr., an official of the Seeing Eye, wrote that "Sadie has done a magnificent job for you and with you, we salute you both. She has proved to one and all the validity of the dog guide concept."

The Seeing Eye concern is at, Morrison, N. J., and operates entirely on voluntary contributions and grants.

Sends Delegate

MILLER, May 26—A resolution was passed at the Tuesday meeting of the River Kiviana club to pay the transportation for one of their members to attend the International Kiwanis convention in Denver in June. The delegate has not yet been selected.

A film, "The Greatest Gem," was shown during the program.

PRIZE WINNING WORK is displayed by these junior high art students of Mrs. Lawrence Culver. From left to right are: Alicia Taylor, ninth grade; Helmut Stralberger, ninth grade; Johnnie Ford, seventh grade; Kenny Louder, eighth grade; and Tricia Millon, eighth grade. The posters and art work done by these students placed in several contests throughout the state of Idaho sponsored by the many civic groups and clubs. Mrs. Culver had some 110 students studying art at the junior high school this year. Two other students received honorable mentions. (Times-News photo)

Art Students at Junior High Place in Many State Events

During the course of a school year the ablest receive proper credit and recognition on the sports pages; the editor receives credit and outstanding scholars have their names published and athletes are placed by them.

Johnnie Ford won first place and contests is on a voluntary basis second grand prize in a literature. Mrs. Culver has some 110 students studying art at the junior high school this year. Two other students received honorable mentions. (Times-News photo)

The seventh grade learns interesting and simple design. As the two other students, Becky Vaughn and Pam Stephan received honorable mention in a colors, perspective, patterns and "wire handicapped" contest. Mrs. Culver pointed out that many of her students are just beginning to learn fundamentals of art and the winners should be proud of their accomplishments. She noted that most of the other interested instructors in the same contest, including Mrs. Culver, shared in the same contest.

GETTING READY TO TAKE their bird-houses to their permanent locations on the upper Wood river valley are Vern Butler, left, his wife and Grant Hemmer. The two men will have 25 of these houses at different locations in which they hope blue birds will make their nests. They are distributing the new homes as soon as weather conditions make the roads passable. (Times-News photo)

Life in MAGIC VALLEY

A new housing enterprise for HALLY has been launched this spring by Grant Hemmer, city veterinarian, and Vern Butler, building contractor. They have built 25 bird-houses the past several months and, as the roads have become usable, have transported them to permanent locations on tributaries to the Wood river. One was placed at the location of the Beano cabin several miles up Quilgee gulch and another near the mouth of the gulch. Several more were taken to Deer creek. They remain to be put up in the Galena and Boulder basin areas as soon as side roads are open.

The houses are constructed of one-by-four inch shiplap lumber and have only one room, with but one entrance. They have proved extremely popular with their inhabitants, who migrate to the mountains for the summer months.

After the families which are hatched there make things too crowded, everybody moves out. All that time the inhabitants of the houses no longer need a nest, and the entire outdoors is their domain.

Bluebirds usually return to the Wood River valley as soon as the snow has melted. They are a gregarious species and usually return to the wood 'houses in the valley around Hally. Sparrows usurped them, however, and the station, a comparatively new bird here, seemed to drive the bluebirds away. The swallows also like their nests.

Remember, bluebirds start to nest the first part of June. If the eggs are destroyed they will lay a second setting. Last year they observed young birds just starting to fly in the Galena area around July 17.

Remember studied birds for years. While in Alaska for several years he spent much time with this hobby. Butler has had many different kinds of birds as pets. His experience has been with species in the southlands.

Both men and their wives are willing to see just how many bluebird families inhabit the homes they made for them.

With this playing statistics in juvenile delinquency and some high school graduating seniors seeking "head" One year, though, this year are feeling pretty proud. After graduation exercises at the high school, they will be the entire class attended the movie, "Ben Hur," then under supervision of parents, cooked an evening breakfast at the Memorial hall.

Considerable planning went into these events, and to many graduation parties in Magic Valley, Jerry Allen, class president, visited major of the city, the theater, C. M. Wilson, and proposed the late movie idea. For Wilson means activities to celebrate the evening, but he was glad to do so.

This leadership ability of young Allen's, however, is also something that didn't happen overnight. He has been in the school for some time, having been elected class president all four years of school. One year, though, he felt someone else should take

typing class. A special one-hand book was ordered.

He starts at the typing, and perfect," Thomas states.

Another rather unusual record in Thomas' classes turned up this year when three boys took the lead in typing. They are typing one student, too.

Kella Thomas types 75 words per minute. Jim Haddock, 60, and Jim Haran, 60 words per minute. Thomas said this is the first time he has ever had three boys in the lead in first year typing. Usually the girls take to this sort of thing better than the boys.

Contest Rules Outlined for Bureau Meet

SHOSHONE, May 26—Grassman of the Year rules were explained to members of the Shoshone Community Farm Bureau by Ward Mills at the group meet at the home of Mr. and Mrs. Mills Wednesday.

Mills is a committee man for the county contest this year. He reported all entries should be in by June 11. In Lincoln county this year there will be two winners, one for restricted ranch and one for dry farm.

This seems to be the only fair way to handle the contest, committee members felt, and they will recommend to the state a similar program be instituted on this level.

The Lincoln county judging tour will be held in June. The organization was granted a booth for the July 4 celebration, members reported.

There was considerable discussion on ways to get out the vote at the June 5 primary election. The rambling issue also was discussed.

The next regular meeting is set for June 28 at the home of Mr. and Mrs. Ervin Brown, and a discussion was held regarding the county talk-talent contest.

Of course doctors support health care for the aged...

The Administration's health care plan now before Congress is not what you may think it is

This compulsory plan, the King-Anderson Bill (HR 4222) would NOT provide all the health care the aged need. In fact, it wouldn't provide ANY CARE for many senior citizens . . . and would cover ONLY ABOUT 25% OF THE COSTS of caring for those eligible under the plan.

- This plan would provide no care for those most in need — the 3,500,000 elderly not covered by social security. Regardless of their health or financial problems, these people would receive no care.
- This plan would not pay for the services of an aged patient's family doctor.
- This plan would not pay for drugs used outside a hospital or nursing home. Furthermore, some commonly used effective drugs would be denied to elderly patients by the King-Anderson bill.
- This plan would not pay all hospital charges. Every patient would have to pay at least \$20 and as much as \$90 for hospitalization — plus \$20 for each complete diagnostic study. While many of the aged could not afford such charges, those who are wealthy or well-to-do could pay these bills . . . get the balance of the cost of hospitalization at the expense of the working people who would be paying increased payroll taxes.

LET'S HELP THOSE WHO NEED HELP

There is a better way . . .

FURTHERMORE . . .

The King-Anderson Bill would force all wage-earners and all employers to pay a substantial increase in payroll taxes . . . to buy health care for millions of the self-reliant who can afford to take care of themselves.

In addition, the proposed plan would lower the quality of medical care — with the Federal Government controlling standards of practice in the nation's hospitals.

We believe all our aged should receive all the health care they need, when they need it.

We favor voluntary programs to help those who need help . . . to preserve the right of the self-reliant to take care of themselves.

These programs are available now. They include private health insurance and prepayment plans for those who can afford them . . . the Kerr-Mills Law for helping those among the aged who need help.

- Voluntary health insurance is now available to all of the aged all over America. More than 8,000,000 people over 65 (53% of all our senior citizens) already have it.
- The Kerr-Mills Law enables the individual states to guarantee to every aged American who needs help the health care he requires.
- The Kerr-Mills Law allows each state to provide as wide a variety of health services as it chooses . . . puts no time limit on the individual's eligibility to receive these services.
- By helping only those who need help, the Kerr-Mills Law avoids waste of tax dollars.
- Kerr-Mills has been in effect in this state for more than one year and is working satisfactorily.

Let him know that you are opposed to the King-Anderson Bill (HR 4222) and that you favor giving the Kerr-Mills Law a fair trial.

Grange Holds Memorial Rite

MEMPHIS, May 26 — Memorial services were held at the Highfield Grange, Wednesday evening honoring two past members, Russell Powell and Harry Holt.

Mrs. Walter J. Stubbs, chairman, was assisted in the ritual and floral rites by the three graves, Mrs. Edna J. Stubbs, Mrs. Beva Powell and Mrs. John Base. Mrs. Eugene Alexander, registrar, read the obituary of Memorial day.

Grave flowers were placed in the absence of Rev. Eaves, who is a Twin Falls hospital patient. Grange members gathered on the campus grounds of the Highfield Grange to observe a ceremony this year. Two winners will be chosen.

An annual was named Outday day last summer's chairman, Mrs. Orla Chaffin, chairman of the side Grange home economy committee, sponsored sewing projects will be added at the Highfield Grange. Monday she served 200 dinners were entered for the Mrs. Edna J. Stubbs.

Twin Falls Groups to Participate In International Living Program

Twin Falls will join other communities throughout the United States in participating in a plan called the "Experiment in International Living" which is designed to encourage people of one nation to understand those of another.

Organization of a committee which will handle preliminary arrangements which is hoped will get the program under way this summer, has been completed. Leading the group is Elmer Holmberg, Twin Falls Bank and company officer and Exchange club representative. He will serve as chairman.

Other members of the organizing committee will include: Mrs. W. A. Harner, Evans; Mrs. John Breckenridge, chapter AO, PEO; Mrs. Tom Perry, chapter AO, PEO; Mrs. Edward Dabcock, chapter AO, PEO; Mrs. J. J. Peterson, chapter BE, PEO; Delmore (Elmer) Holmberg, Rotary; Mrs. R. P. Barry, publicity; Mrs. E. W. McRoberts, secretary, and Mrs. Peter Link, adviser. Other club groups are in the process of selecting representatives to serve on the host committee.

The experiment in international living program was founded in 1952 by Dr. Donald B. Watt, Putney, Vermont, where headquarters are still maintained. It is an independent, non-profit, educational organization financed by fees, foundation grants, gifts and government contracts.

The experiment consists of several programs. At the present time Boyington is making a study of "experiment ambassador" program in which a sponsoring organization or group of organizations welcomes a person between the ages of 19 and 30 years, from another country for a period of two months. The sponsoring unit will provide home hospitality with one-to-four families. The

MORE Than Power

COMES FROM THESE LINES

They Produce Needed Tax Revenues

In facing up squarely to the financial problems of state and local government, as well as to those of public education, Idaho taxpayers have come to realize the importance of tax revenues from investor-owned business like Idaho Power Company. Without those tax revenues, the direct tax on individuals would necessarily be increased in very substantial amount—or taxing districts would face a critical dilemma.

There is no halo attached to the "taxpaying process." It is simply and unavoidably a cost of doing business which in the case of Idaho Power represents about 30 cents of each dollar received from power consumers. It is our largest single item of expense, and amounted to \$12,200,000 for the year 1961 with the larger share going to Idaho. Obviously, it is also the largest component of electric rates which are still a third below the national average.

Like other taxpayers, Idaho Power would welcome a tax reduction which could be passed along to the benefit of consumers, but this is not likely. The hard fact remains that tax revenues from businesses like ours are needed by government and by schools.

This being the case, advocates of tax-free federal power for Idaho, including those who seek to escape their proper share of the tax burden, do a genuine disservice to the state and to its various branches of government.

All taxpaying enterprises, including ours, merit public understanding of the role they play in the tax support of needed public services. Elimination of this role spells complete change in the economic system upon which American government and public institutions rely.

There are 4,237 Idaho owners of Idaho Power Company, and they hold corporate voting power exceeding that of Company shareholders in any other state.

Few other business enterprises approach the widespread local ownership Idaho people have in Idaho Power Company. In addition to the more than 4,000 direct owners, there are the thousands of indirect owners represented by insurance company policies, employee pension trust funds and other institutional investments.

Directly or indirectly, you and your family are likely to be part owners of Idaho Power Company.

PROMCHON ANTELOPE FAWN is held after being captured for tagging and marking. Roger Williams, left, game biologist, prepares to attach ear tag as conservation officer Harriet Henschel holds fawn. This is one part of a many-phased conservation study.

Work Continues on Antelope Study Game Department Started in 1956

Just HUNDREDS of Idaho Park and Game Department's seventh time around this spring as Idaho's major for- tress rangers in the upper Lemhi and Palouse valleys once more under intensive surveillance in a continuing study program that began in 1956 and the end is not yet in sight. It may never be. The fish and game department wants to know the annual increase or decrease of the antelope and deer herds, and this may change from year to year. In any case, the sale of fawns to zoos and adults may be studied every season.

Nevertheless, a sizeable dent has been made in the job of trapping, tagging and marking antelope. Each morning and late afternoon, rangers with their gear runners, such as roundup, are possible of course, because of the flexibility of aircraft, especially helicopters for such work. For even fawns of three days or more usually escape capture by men and dogs, younger ones are more over-sized butterfly nets.

Fawns are found by watching and listening for their bleating and calling. The best times, observers working in teams and using two-way radios and walkie-talkie radio units cover distances of two or three square miles. Dogs and men, pursue them and put them down again. A very young antelope tends to stay put, under pressure, allowing the hunter to approach and mark before it can be found and marked.

Later when bagged by a hunter or observed from a distance, a tagged and marked fawn gives evidence of herd movement. A cooperative hunter may turn in the known-age jaws for laboratory study, and this aids in the growing data on age classes, trapping and marking.

Defenses with the ornate butterfly net — and strong wind and rain — are only some of the qualifications a worker must bring to the antelope population study. In addition to fawn tagging and marking, he also must: (1) Measure gestative or mating marks; (2) Observe marked individuals over long periods; (3) Collect weather data; (4) Make counts to learn reproductive success; (5) Collect lower jaw from hunters at checking stations; (6) Live-trap, tag and mark adult ruminants; (7) Collect urine, feces and rumen samples for laboratory; (8) Collect fawn-toe ratio figures; (9) Build up fawn survival data through

Showing antelope study project which was started in 1956. One of the major findings is that the great influence soil fertility and moisture have on the reproduction and growth of antelope. (Fish and game department photo)

SCENIC AREAS along famed Snake river canyon are sometimes spoiled for tourist attractions by dumping of refuse in unguarded places. One such area is along old highway 30 which skirts the canyon west of Marlaugh. "By order of the sheriff" signs seem to have little effect on the practice. Fresh trash shows the practice is continuing despite the warning. The practice is not limited to the Marlaugh area. (Times-News photo)

Theme Listed For Burley's Graduation

BURLEY, May 26—"This above all—to thine own self be true," quotation by Shakespeare, was the theme of the Burley high school 1962 commencement exercises Wednesday night at the Burley high school gymnasium. Bill Garrard, class president, gave the welcoming address and Magda Tor, exchange student from Spain, gave a greeting from her country. Other addresses were given by Wesley Kenneth Darrell, Gerald Woodworth, Boyd Earl and Marjorie Nielsen.

Invocation was given by Mary Chisholm and benediction was offered by Mark Wilson. Processional and recessional music was played by the high school band under the direction of Ronald Archibald. Connie Rohrbach directed singing of the class song with Mrs. Eva Bowen as accompanist.

Members of the woodwind quartet who played a number were Lee Ketch, Nancy Hoff, Boyd Earl and Sharon Easton, accompanied by the high school band. David Glasgow, Bill Whitington, Warren Boddy and John Haight sang, accompanied by Sherry Mullikin.

Members of the girls azelet sang. They are Bandy Garrard, Marjorie Nielsen, Susan Hansen, Connie Rohrbach, LuAnne Jolley and Linda Kidd, accompanied by Karon Harris.

Scholarships were presented by Mrs. Lia Darrington, chairman of the scholarship committee, and Earl H. Easton, principal of the Burley high school. Awarding the diplomas were Joseph Gillett, C. H. Darrington and Earl H. Easton.

Graduates are Boyd L. Earl, Bill G. Allen, Dean G. Allen, P. Kent Allen, Jim T. Anderson, Jim R. Anderson, Larry D. Anderson, Richard E. Anderson, Robert Anderson, Gary Aaker, Jack Bailey, Don Badger, Robert Beck, Calvin Beutler, J. Lanby Brewer, Richard Burton, Perry A. Carson, Glen J. Church, Alma Clark, Mark Wilson, William A. Whitington, Terry Gerald A. Woodworth, Wesley Darrell, William E. Garrard.

Mary Chisholm—Magda—Tor Monce, Katharina Kuba, Nancy Jane Hoff, Sharon Easton, Marie Broadhead, Reba Bronson, Dana Elie, Elaine Blackburn, Thelma Birch, Margaret Dalton, Sandra Beck, Pamela Deal, Sandra Barry, Rebecca Baker, Mary Allen, Leatrice Adams, Karon Harris, Lonnie Jolley, Linda Kidd, Connie Rohrbach, Susan Ann Hansen, Randy Garrard and Marjorie Nielsen.

Advancing or Ending of School Life All Tied up With Age of Student

Continued from Page 2
The rest of their lives. I told Dave the way he would find someone ready to take his place if he failed to make the grade. Really, though, Dave will not have this trouble."

The dean of boys pointed to David's scholastic and personal participation record as a good one. Not the best and not the worst, but above average, making it a good one. During his three high school years (ninth grade is in junior high in Twin Falls) he has been

decisions they make will last for the rest of their lives. I told Dave the way he would find someone ready to take his place if he failed to make the grade. Really, though, Dave will not have this trouble."

Classroom: Forrie L. Coffey, Dennis L. Daniels, George A. Darst, Donald E. Day, Jr., Grant C. Dayley, Ted V. Denney, Laurence D. Dawson, William, Lawrence, Jack Estes, Jimmie Flowers, Ronald K. Fowler, Lee W. Frodsham, Richard J. Funke, Neal Giles, James H. Juliette, Phillip Gray, Morris Lee Oreswell, Donald Gutles, Willard W. Harpster, Gilbert A. Hart, Marshall C. Hines, Dan F. Jensen, Kenneth F. Hinz, Daryl E. Hunter, Michael V. Jones.

Outside interests include high rankings in Boy Scouts (Eagle), master counselor in DeMolay and work in Westminster fellowship in the First Presbyterian church. Also even with this school life of participation, he still graduated in the first one-sixth of his class.

So he has a lot to do with it. John, at 11, is jumping. David, at 18, is considering his future. They are typical of all students in the Twin Falls system. In fact, they are typical of students everywhere. They will grow up and take their place in life. And meantime Dean of Boys Boyd Earl gets ready for the coming school year and more council desire to seek competition in (football).

Captain EASY

by *LESLIE KRAMER*

EASY, I'M GLAD YOU LAID THE 'GHOST' TO REST AT MY COUSIN WILCO'S! SHE'S FEELING MUCH BETTER, NOW!

YEE... THAT SCREAMING NEW NEPHEW AND NIECE CREATED THE 'GHOST' WITH A HIDDEN MOVIE PROJECTOR, GUN!

IF HER HEART ATTACK HAD BEEN FATAL, THEY COULD'VE BEEN CHARGED WITH MURDER!

EASY, I WISH YOU'D GO OVER TO 'RELAX' MAGAZINE AND FIND OUT WHY M'FREE INDUSTRIES CAN'T BUY ADVERTISING SPACE WITH THEM!

RELAX IS SUPPOSED TO BE A WEEKLY NEWS MAGAZINE, ISN'T IT, SUN?

YES... I'VE BEEN HEARING ABOUT IT FOR SIX MONTHS, BUT I HAVE YET TO SEE THE FIRST COPY!

RELAX IS SUPPOSED TO BE A WEEKLY NEWS MAGAZINE, ISN'T IT, SUN?

YES... I'VE BEEN HEARING ABOUT IT FOR SIX MONTHS, BUT I HAVE YET TO SEE THE FIRST COPY!

COME TO THINK OF IT, MY OLD FRIEND, RANDY RICKS IS THE PUBLISHER!

RIGHT! HIS FATHER LEFT HIM A STRING OF TEXAS OIL WELLS!

RELAX HAS ITS OWN BUILDING... MUST BE A BIG DEAL! I'LL GO RIGHT OVER AND SEE RANDY!

HOW ABOUT ONE O' YOU ELEVATOR JOCKEYS TAKING ME TO THE OFFICES OF 'RELAX' MAGAZINE?

LATER, PAL! WE JUST STARTED THIS GAME!

BLAZES! THE ELEVATOR STARTER IS ASLEEP IN THAT HAMBOK!

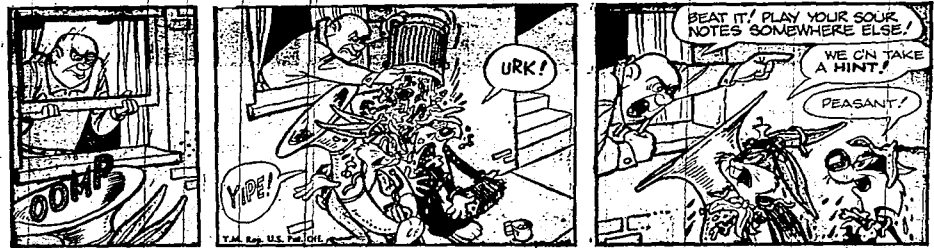

I MUST SAY THE EMPLOYEES IN THE RELAX BUILDING BELIEVE IN BEING RELAXED!

CAPTAIN EASY, TO SEE RANDY RICKS!

GO RIGHT 'IN, BUT BE QUIET... HE'S HAVING AN EDITORIAL CONFERENCE AND YOU MIGHT WAKE HIM!

Vic FLINT

I HAD A WONDERFUL TIME, VIC...

... BUT DO YOU REALLY THINK THAT SINGER IS TRYING TO DETRIBUTE THE INSURANCE FIRM?

NO EVIDENCE YET, LIBBY, BUT THE COMPANY IS SUSPICIOUS.

GOOD NIGHT, SEE YOU TOMORROW, HONEY!

AFTER LEAVING LIBBY LANE, I DISCOVERED A FUR-COATED HITCHHIKER IN MY CAR.

YES - INDEED, MR. FLINT! I FOLLOWED YOU FROM THE KOREAN CLUB!

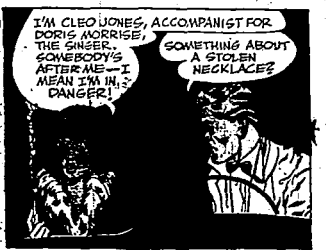

WELL! OF ALL THE--

THAT'S MY GIRL FRIEND, MISS. I DON'T THINK SHE'S LIVING THIS!

I - I NEED HELP!

I'M CLEO JONES, ACCOMPANIST FOR DORIS MORRIS, THE SINGER. SOMEBODY'S AFTER ME - I MEAN I'M IN DANGER!

SOMETHING ABOUT A STOLEN NECKLACE?

I KNEW YOU'D SUSPECT ME! I DIDN'T STEAL IT! HONEST!

DO I BELIEVE THIS OR NOT?

TO PLAY SAFE, I FOUND HER A HIDEOUT AT A CASINO HOTEL.

I BORROWED MISS MORRIS'S COAT, MR. FLINT... WOULD YOU RETURN IT?

A COUPLE OF QUESTIONS FIRST--

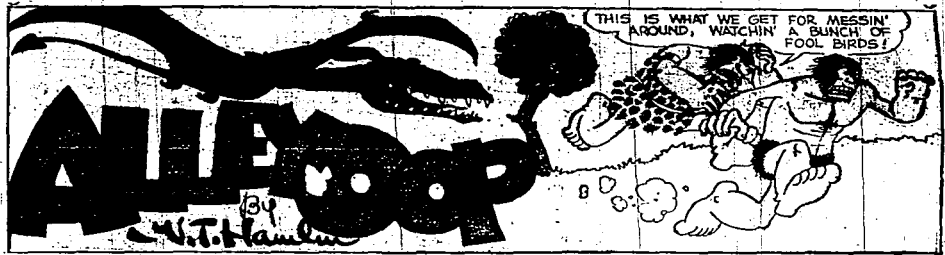

NOT TONIGHT. TOMORROW I'LL TELL YOU EVERYTHING!

LATER, WHEN I PARKED MY CAR FOR THE NIGHT...

I KNOW A BABE WHAT WANTS A FUR COAT, BUDDY!

ALLOP

THIS IS WHAT WE GET FOR MESSIN' AROUND, WATCHIN' A BUNCH OF FOOL BIRDS!

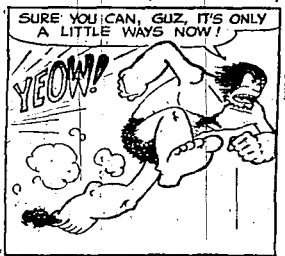

SAVE YOUR BREATH, GUZ, YOU'RE GONNA NEED ALL I GOT AN' THEN SOME!

WE'LL BE SAFE WHEN WE GET INTO THAT GROVE OF TREES UP AHEAD!

I'LL NEVER MAKE IT, OOP, I JUST CANT!

SURE YOU CAN, GUZ, IT'S ONLY A LITTLE WAYS NOW!

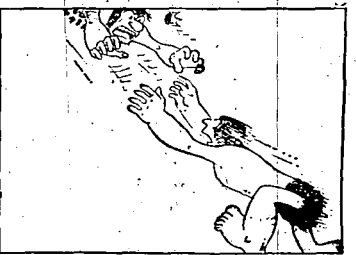

YEOW!

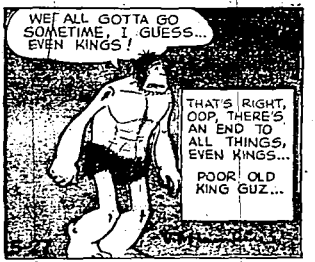

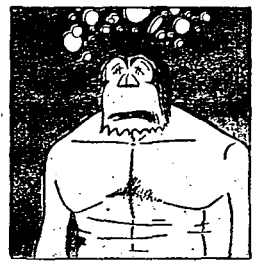

HELP! OH, MY GOSH!

I'M COMIN'!
