

Nazi Hanged; Debt Paid for Role in War

Continued from Page 1
On Dec. 1, 1946, by a special three-judge tribunal, the court found him guilty of acts of unparliamentary conduct of the death penalty and a fine of 100,000 marks. He was hanged on the gallows in the presence of a large crowd. The court also ordered the state to pay the costs of his defense.

The Israeli supreme court rejected Pichmann's appeal. He was hanged on the gallows in the presence of a large crowd. The court also ordered the state to pay the costs of his defense.

The Canada-born Protestant clergyman reported later that Pichmann was not a Nazi but a defector. Pichmann, who earlier had expressed a belief in God but later had turned to atheism, was hanged on the gallows in the presence of a large crowd.

It did not have time to read the Bible. He has been in his military. I am ready to die.

Senator Says Defense Case To Pale Estes

WASHINGTON, June 1 (AP)—Senator Stuart Symington, D., Mo., said today the Billie Galt defense case is a "pale" version of the defense case against Estes.

Magic Valley Hospitals

WASHINGTON, June 1 (AP)—James Van Buntin, C. Brower, Mrs. Clifford Blount, D. D. Eastman, Reno, Mo., and Mrs. Lawrence E. O'Connell, Jr., of Twin Falls, are among those who have been named as potential donors for the Magic Valley Hospital.

Magic Valley Funerals

TWIN FALLS — Funeral services for Joseph E. Eisenman will be held at 11 a. m. Saturday at the White mortuary, with the Rev. Henry Gerhardt, associate pastor of the Twin Falls First Methodist church, officiating.

Tonight's Events

(Editor's Note: These and other events are listed in the "What's Happening" column on page 2 of this paper.)

Weather, Temperatures

MAGIC VALLEY AND CAMAS PRAIRIE—Partly cloudy this afternoon (night) and Saturday. A few showers or thunderstorms are expected Saturday night. High temperatures will be in the 80s. Low temperatures will be in the 40s.

FIVE-DAY FORECAST, SATURDAY THROUGH WEDNESDAY
Temperatures will average from two to five degrees below normal. An important factor is the temperature. Wind will be occasionally westerly about 15 miles per hour in the afternoon.

TEMPERATURE FORECASTS
Twin Falls and vicinity, North Side—High today and Saturday, midday 70, low tonight 40 to 45.

WEATHER SUMMARY
Widely scattered showers and early evening thunderstorms were a factor in the report on many districts.

IDAHO TEMPERATURES
Twin Falls, June 1, 1962
High 70, Low 40

NORTH-IDAHO—Partly cloudy through tomorrow with a few showers both days and nights. Low tonight 35-45.

NEW YORK, June 1 (AP)—The lowest temperature reported to date in the United States this morning was 10 degrees at Imperial, Calif. The highest reported yesterday was 101 degrees at Imperial, Calif.

Burley Plant Will Install New Facility

BURLEY, June 1 (AP)—Completion of a \$1,000,000 water clarification and disposal system at the Idaho potato processor plant here was announced today by R. R. Bohannon, vice president and general manager.

The installation has been designed by John H. Kauter, company engineer, and outside engineering company engineers and is expected to be one of the most modern in the industry.

Preliminary work was conducted last week and the contractor, Bohannon added.

Favoritism

WASHINGTON, June 1.—A mathematical breakdown of the amount of steel required for national defense by the President's Economic Body and Defense Security Commission estimated the steel cost for a \$4 billion increase in 1962 production of steel at \$200 million dollars.

Here is what the President's Economic Body and Defense Security Commission said in its report on the increase:

"It would add, Secretary McNamara said, an estimated 1 billion dollars to the cost of our defense program. This is a very large sum of money needed for national security and defense."

It is probable that the report made the deepest impression on the President's TV audience. It is estimated 40 million people saw it. It also led to place officials of the United States Steel corporation in a split and apologetic light.

Anyone for Voting?

The first phase of Idaho's 1962 election comes to an end at the polls next Tuesday and some observers are convinced the voter turnout is going to be disgracefully light. However, what evidence is available indicates a good to heavy turnout Tuesday.

Those who believe voters will be conspicuous by their absence Tuesday say the candidates have been doing a good job of campaigning and the state's newspapers have been doing an excellent job of covering the election issues. But they claim election interest ends with the candidates and the press. No Democrat respondent has made the assertion that the public is apathetic about everything, and particularly about the primary election.

On the other hand, there is generally a high percentage of registration carrying over from 1960's general election which resulted in heavy turnout. In Idahoans presently are visiting the World's Fair in Seattle and there is an excellent demand for absentee ballots from fair-visitors who will not be home next Tuesday.

True, registration activity hasn't been anything out of the ordinary, but then Twin Falls county Clerk T. W. Stivers estimates at least normal activity for registrars. And Saturday is the deadline for registering or transferring registration. That viewed from the standpoint of voter slump carrying over from the 1960 presidential election, registration is still excellent.

In Twin Falls county, an estimated 82 per cent of the eligible voters cast ballots, but the percentage of registered voters who voted was only 67 per cent. (A reliable 97 per cent) Clerk Stivers reports 19,787 ballots cast in Twin Falls county in 1960 out of a total registration of only 20,397.

So much for voter registration and absentee ballot requests, both of which are being done very well Tuesday. A glance at the ballot doesn't give the picture. A five-way race for the Republican nomination for second district congressman and a six-way race for the U.S. senate nomination for governor, attorney-general and county commissioner, all of which have stirred additional interest here and there. Extra interest on the Democratic side has been shown for the nominations of second district representative, lieutenant-governor, attorney-general and county commissioner. In addition, a behind-the-scenes struggle for control of the Twin Falls county Democratic central committee.

Magie Valley counties, there may not be as much interest in county races, but the state competition is still there. All in all, the picture is pretty much the same across the state with all indications pointing to a good to heavy turnout Tuesday.

For voters who don't care to stand in line, the best advice right now is to vote early.

EXCEPTION
Nearly every administration of the federal government has its skeleton in the closet that it would just as soon forget. There's some indication that when Mr. Kennedy, St. Edward Day is the present skeleton.

When Mr. Day was passed over for a speech assignment in the recent Kennedy assault on behalf of the medicare plan, some curiosities were aroused by what appeared to be an oversight. All that is interesting to know is that Day didn't show up at the official function on behalf of medicare. Unless his sentiments have changed drastically in the past two years, Mr. Day couldn't be counted on for much support.

It is no wonder Postmaster General Day didn't show up at the new construction program as it now stands, but he so badly underfunded that major tax increases may be needed just to pay for benefits already promised. When it comes to a multibillion dollar addition to the program, we can't afford it!

There are no wonder Postmaster General Day didn't show up at the new construction program as it now stands, but he so badly underfunded that major tax increases may be needed just to pay for benefits already promised. When it comes to a multibillion dollar addition to the program, we can't afford it!

Any way the situation shows there is opposition to medicare. It is besides the American Medical Association. If there are contrary thoughts on the President's cabinet, there's likely to be a lot of opposition cropping up here and there.

WASHINGTON, June 1.—A mathematical breakdown of the amount of steel required for national defense by the President's Economic Body and Defense Security Commission estimated the steel cost for a \$4 billion increase in 1962 production of steel at \$200 million dollars.

Here is what the President's Economic Body and Defense Security Commission said in its report on the increase:

"It would add, Secretary McNamara said, an estimated 1 billion dollars to the cost of our defense program. This is a very large sum of money needed for national security and defense."

It is probable that the report made the deepest impression on the President's TV audience. It is estimated 40 million people saw it. It also led to place officials of the United States Steel corporation in a split and apologetic light.

FIGURES, STEEL TRIMMED—Donald M. Ewing, associate editor of the *Sturtevant (La.) Times*, was skeptical about the presidential estimate. He submitted his own calculations to the public relations director of U.S. Steel in New York City.

The 1960 production of steel, Editor Ewing pointed out, was 100 million tons, or 100 million tons. (Actually, it was 92,531,000 tons.) A \$4 billion increase, therefore, would total only 96 million tons, or 4 per cent less than the 1960 production. The increase cost would be far less than the Kennedy McNamara estimate.

In his reply to Editor Ewing, Charles W. Huse, public relations director, gave even a sharper criticism of the *Sturtevant* estimate. The 1960 production had more current reports than Mr. Ewing's totaling about 100 million tons. But due to cropping, trimming and other cutting operations, the actual amount shipped into industry was only 60,125,000 tons.

Thus, an average increase of \$4 a ton would come to only \$390,750,000 for the whole industry, not U.S. Steel alone.

\$60 MILLION DOLLARS OFF—According to Mr. Huse, a \$4 a ton increase in steel production would mean a \$60 million decrease in steel production.

On that basis, the \$4 a ton increase would mean a \$60 million decrease in steel production. The 1960 production of steel was 100 million tons. A \$4 a ton increase, therefore, would total only 96 million tons, or 4 per cent less than the 1960 production. The increase cost would be far less than the Kennedy McNamara estimate.

In fact, the price of steel would have to be raised to \$50 a ton to meet the President's figure.

McNAMARA'S STRANGE ROLE—Aside from the egregious error, the incident throws a strange light on the role of Defense Secretary McNamara. He has been recognized as the most non-political member of the cabinet. He has been eulogized as one of the ablest and most honest men in the cabinet. Indeed, the business conservatives accepted his appointment as assurance that the administration would be fair to the federal government.

He came to Washington from the presidency of the Ford Motor company, where such a mistake in estimating steel production would have been a disaster in view of the background, the question naturally arises as to how he could have made such a grossly misleading and erroneous data to the President.

FIGURE-HUNTERS DETOURMENT—Another concern is the identity of the *Washington Post*, who, presumably, did the detailed work on this supposed estimate. The bill would cost the taxpayers' money. It certainly should be incumbent on it to be accurate in the accounting of his economic staff did not check on the McNamara estimate before going on television with such a statement to the American public. It raises grave doubt as to the administration's general conduct of its fiscal and fiscal policies, the federal government.

VIEWS OF OTHERS

LAGGING SHELTER PROGRAM
In a no-to-no-tenable world, the delinquency in the shelter program is a disgrace. The program has been delayed as long as a year. It is a disgrace. The program has been delayed as long as a year. It is a disgrace. The program has been delayed as long as a year. It is a disgrace.

FOUR ACRES OF LAND
The United States owns about 188 million acres of land which is roughly equivalent to four acres for every one of us. According to the United States record, the government owns 340 million acres of land in the continental United States. It is a disgrace. The program has been delayed as long as a year. It is a disgrace. The program has been delayed as long as a year. It is a disgrace.

**BECKER LOUGHMILLER**

...seeking Republican nomination as commissioner from district three in Twin Falls county. The district three commissioner position is presently held by Russell (Bud) Larsen, Kimmerly, who is running for the nomination as lieutenant governor. Mr. Loughmiller was first person to file for the position. He farms southwest of Twin Falls, Loughmiller has held no previous political office and is active in various farm organizations, including Grange and the Twin Falls Farm Bureau. He is a board member of the Salmon River Canal Company. Morrison has served for 20 years as a member of the board of school board. He has been active in both educational and agricultural programs in the county. Morrison farms and raises stock on a ranch west of Twin Falls.

Mail Female

MADISON, Wis., June 1 (AP) — Marge Silber, a University of Wisconsin freshman, expressed a desire to change her mind and get into trouble. She tried to retrieve some letters she had just dropped into a mailbox and got her arm caught in the letter slot. It took her 15 minutes to get out and then she had to wait for postal inspectors who were trying to tamper with mail.

Larsen Returns From State Tour

Russell C. (Bud) Larsen, Democratic candidate for lieutenant governor, returned to Twin Falls Tuesday after a state-wide tour.

"I am really encouraged following this state-wide tour—although I started this campaign as a dark horse with few giving me a chance to win. I now feel I have pulled up to the point that this last week's campaign could put me over the top," he said. "I am truly grateful for the fine reception that I have received everywhere."

Road Incidents Nearing Record

CHICAGO, June 1 (AP)—Traffic fatalities killed 107 persons during Memorial day, two under the record toll for the one-day holiday period in 1955. A total overall toll of 201 road deaths was recorded during the 36-hour holiday period. In addition to the 107 fatalities, 9 persons lost their lives in boating accidents, 38 drowned and 17 were killed in miscellaneous mishaps. The total topped the previous record of 194 in 1952.

Kiwanis Official Visits Filer Club

FILER, June 1.—Lieut. Gov. Wally Hollenbeck made his official visit to the Filer Kiwanis Club at the Tuesday luncheon. Hollenbeck was accompanied by his daughter, Katie, who sang a waltz during the program presided at the piano by Mrs. E. A. Deem. Hollenbeck conducted a quiz on Kiwanis facts for the club members. Guests included Robert Evans, Filer; Craig Nelson, Porterville; "Stix" Lake, City; Larry Holloway and Leon Kay, Calif.

LEAVES FOR JOB

KING HILLS, June 1.—John Ellis left Monday for Idaho Park where he will be employed by a road construction crew.

Friday, June 1, 1962 Twin Falls-Times-News 7

Around Fences and Canals

Problems in the farm of deep mud slowed up the potato planting in the Darwin Nalbur farm last week. With the sun and wind in the past few days, that should be the finish, or at least to the machinery out of the muddy field.

Marjorie Giraud, Aquella, is putting the finishing touches on a job to build a 400-foot levee of earth by the side of her dairy herd. The algae will provide feed for his dairy herd.

The Carl Williams family put in long hours last week cutting the last of the potatoes by their cellar to make room for certified seed being brought down from Ashton by Williams. The last night of the season took until 3 a.m.

DeWitt Hunsaker is another Northside grower waiting for the ground to dry so he can finish planting his potatoes.

Wallace Taylor and Glen Taylor, Almo, are doing some fencing in the Junction area.

Jack Erickson is digging a well on his land south of Almo.

Farmers at the Deer creek ranch are building boundary lines on the portion of their ranch lying up Greenhorn gulch. Last summer they built some 10 miles of new fence in Deer creek valley.

Several ranchers in the Carey valley are planting corn for the first time this spring. They are using the top of the valley, where the water is in the Little Wood river area; Boyd Hunsaker, who raised his in the Little Wood river area; Harold Grier, Ota Dufur on lower Silver creek, and William Shindler in the Big Wood river valley, are also planting. Lee Peterson on the Deer creek is planting the corn for his second year. The corn will be placed in "pir" slots for winter feeding.

Farmers in Lincoln county have taken a recess in irrigating because of the heavy rains.

Sheep and cattle herds in northwest Shoshone have been hit by dogs, owners of the herds report. The Ervin Brauns lost three by dogs, McKendrick lost one and two others were crippled. Earl Elmer also reported a dog got into his sheep herd. The German Braun said the dogs had been bothering his cattle. McKendrick said he is often bothered by both dogs and coyotes in his sheep.

Planting of beans and thinning of beets by migrant workers have been delayed in the King Hill area because of the rainy weather.

Arthur Grier, King Hill farmer, is discing eight acres of fields under the feed grain program this season.

Mr. and Mrs. George Allen have completed corrals for their horses and their ranch south of King Hill. They will be used for training purposes.

Summit-Ogden-Clear-Creek and Harold Omsen, Yonah, Utah, purchased Hereford herd areas with Wallace Taylor, Almo, last week.

Jerry Ziesendorf, Gooding farmer, is ready to plant beans if the weather will cooperate. He reports he has had the bean ground ready for planting, but rain has prevented planting them. Jerry also planted about four acres of hybrid grain, mostly as an experiment.

Karl Davis, sheep breeder for the Glen Briggs ranch at Mur-tach, shipped the first band of 671 lambs to John Cull, Oden. The lambs were loaded at Bunt. They had been pasturing on the top of the mountain since October. The lambs that had been placed with the average weight of 90 1/2 pounds for the 4-month-old lamb.

New Bulletin Contains Cost Figures on Feeds

CHICAGO, June 1—A timely bulletin that will help feed manufacturers to budget all the costs which they will incur, Ray said, "and he should also compare the quantity and cost of the feed he can produce with the quality and cost of the product he can purchase."

Among the items of cost that must be considered are the original investment in the plant, operating cost, which would include such items as equipment, depreciation, fuel, labor, and maintenance. Such things as pelleting, mashing, the addition of fat and vitamins, and the cost of the various ingredients used in feed are items that must be properly evaluated before the profitability of this venture.

Ray pointed out that today's complicated feeding rations require a great deal of study just to keep up-to-date with the changes in available nutrition.

"Our bulletin in this bulletin," Ray said, "is to point out factors and factors that the farmer should consider before going into farm feed manufacturing." A copy of the booklet may be obtained by writing "The American Feed Manufacturers Association, 53 West Jackson boulevard, Chicago 4, Ill."

Voluntary Land Retirement Program Outlined by Story

PHILADELPHIA, June 1—An outline of a voluntary land retirement program for farmers would be as effective and less costly as the present price support system, according to a report issued by the June issue of Farm Journal.

The program is advocated by some Purdue university farm economists, W. C. Bottom, J. O. Dorschner, and R. K. White, who are authors of a booklet on the new study involving 23 states receiving federal farm income.

"You retire more production from the farm when you take out the land," Professor Bottom said. "And you help the people make changes. Farmers could retire from the farm earlier, others would have their land retirement pay-back in a job of their own. Such a program call for a special class of farm income beneficiaries. The program," says Professor Bottom, "is the only one that meets the demand for food grow-

GRAPHIC RESULTS OF WEED KILLER used in connection with sugar beets is shown at the farm of Oren Boone, north of the city. Weed growth is heavy in the untreated portion of the field while the treated areas show only sugar beets above ground. Inspecting this test field are J. R. Simplot, chairman, president of the Amalgamated Sugar company, Ogden, Utah; Boone, M. K. Cherry, field man for J. R. Simplot company; Robert Day, manager of the sugar company facilities in Twin Falls, and Joe McCollum, general manager of Simplot's. Neither the treated or untreated areas were touched after planting. Fields heavily infested with weeds can choke plant growth. (Times-News photo)

Boost Noted For Animal Populations

WASHINGTON, June 1 (AP)—The livestock agricultural service estimates the world's cattle and buffalo population in 1962 at 200,000,000 head. This is 20 million more than the 1951-52 average. The increase in the past nine years amounts to more than the total for the United States and Canada.

PAS said world hog numbers reached a new record high of 463 million head during January, 1962. The total was four per cent above January, 1961, and 40 per cent higher than the 1951 average, there were gains in all areas except Oceania.

The substantial increase in cattle numbers made it possible to increase beef and veal production in the 41 major most productive countries by 19 per cent compared with the 1951 average.

The world's major hog producers are China, USSR, United States, Brazil, West Germany, Poland and Mexico.

OWNERSHIP. WASHINGTON, June 1—In the Soviet Union, the government owns all the commercial (livestock) in the United States. The government owns all about 25 per cent. In Canada, the government owns 90 per cent of timberland. In Great Britain and Ireland, 20 per cent and in Finland, Sweden and Italy, 30 per cent.

Graphic Results Shown on Test for New Chemical Weed Killer in Beets

By O. A. (Gus) KELKER, Farm-Trench Editor

It was really something you had to see to believe. There were lots of sugar beets coming out of the ground but few, if any, weeds. That is the way it was in a test field at a new, short-cut weed killer.

In the areas where no treatment had been given the soil, weeds were in profusion. The test plot of treated and untreated areas is on the farm of Oren Boone, north of the city. The chemical is called Tiltam and is produced by the Bluffton Chemical company and distributed by J. R. Simplot company.

A companion chemical, called Eplam, is used for weed control in crops other than sugar beets.

Tiltam is for use with sugar beets only.

The chemicals are herbicides which control a wide range of weeds both grassy and broad-leaved. This is true when applied immediately before planting (an outside time of some 20 minutes) and mixed thoroughly into the top few inches of soil. The primary benefit is that the weeds are controlled while the crops are permitted to grow without harm.

Success of the kill depends on proper application of the chemicals. It is pointed out.

The soil is prepared as usual for planting and the chemical is applied with standard low-pressure multi-nozzle boom type sprayers. The application must be at exactly the rate shown on

the chemical supply container.

In sugar beets the weed kill could result in a great labor saving and therefore more money per acre for the farmer. The chemicals are not expensive.

The results of tests at the Boone farm were inspected this week by A. E. Benning, president, Amalgamated Sugar company, and Robert Day, local plant manager. Also present were, aside from the farm owner, Joe McCollum, general manager for J. R. Simplot company and W. K. Cherry, field man for the same concern.

On Feb. 20, the company announced it was discontinuing its contract production programs on broilers and turkeys and stopping the financing of turkeys. Six mills were closed at that time.

"We believe it is clearly in the best interests of our shareholders to discontinue General Mills' feed business, to sell the assets of the feed division and release capital funds for operations that offer greater opportunities for profit and growth."

General Mills has been in the feed business since 1922 when it purchased the Larrows Milling company, Detroit. General Mills' Larro brand of formula feed has been sold on a national basis ever since.

General Mills to Withdraw From Making Poultry Feeds

MINNEAPOLIS, June 1—General Mills is planning to withdraw from the feed business, was announced today by Gen. E. W. Rawlings, president of the company. "No closing date has been set," General Rawlings said. "We plan an orderly liquidation and will continue to produce feed at certain locations until we have fulfilled all of our customer and other commitments. We will continue to sell feed mills and have prospective buyers 'on most' of the others."

General Mills has been in the feed business since 1922 when it purchased the Larrows Milling company, Detroit. General Mills' Larro brand of formula feed has been sold on a national basis ever since.

Two-Nosed Calf Dies; Owner Says End Was Unexpected

The heifer with two noses and two tongues, born on the R. J. Hines farm, died Thursday.

However, the calf ranch west of Burgenon, died. It was born on the ranch about six weeks ago. He said it looked healthy until

it died. It had a good appetite (two tongues, born on the R. J. Hines farm was active. Death was unexpected.

In addition to the two noses and two tongues, the animal had two distinct roots in its mouth but only one lower jaw.

Lamb Pool

Twin Falls county livestock marketing association lamb committee has set Thursday as the date for their third and last lamb pool.

Lambs will be received at the Filer stockyards from 7:30 to 10:30 a.m. Twin Falls county lambs will be marked Tuesday and become county lambs will be marked Wednesday.

Growers desiring to ship should contact either county agent.

Editor Is Named For Farm Bureau

CHICAGO, June 1—Delmer E. Groves has been named editor of National Agriculture published by the American Farm Bureau Federation. Shuman in announcing the appointment, President Charles D. Clifton said the successor is Groves, who was recently named to the newly created post of new director of the federation.

Mr. Groves is a long-time farm magazine editor who grew up in a Farm Bureau family in Eastern Ohio. For the past few years he has been managing editor of Michigan Farmer, East Lansing, Michigan, and was associate editor for ten years of the Ohio Farmer in the Home State Farm Publications headquarters office in Cleveland, O.

Good Record Valuable for Modern Farm

WASHINGTON, June 1—Record-keeping, vital to the modern farmer, is of equal value to the farmer's off-farm business—the cooperatives. It was stressed this month by a farm credit administration official.

The National Milk Producers' federation has recognized the importance of good accounting records and has developed standard income and expense accounts for dairy cooperatives, bargaining associations, and cheese plants. The federation also carries on a cost ratio survey providing managers of cooperative dairies with a method of comparing their efficiency of operations with other similar operations.

Also in the process of development is a cost accounting system for dairy cooperatives which accurate costs of manufacturing various dairy products may be obtained. Cost of processing dairy products takes on added significance and becomes more important as the cost of cheese, farmers and their cooperative tightens.

An audit report although perhaps routine in nature, should not be considered routine in the same sense as the audit made of the farm. It is the cooperative bank service director. "An audit report should be accurate in character of the co-op's financial condition and a measurement of its operating results. It should provide a solid base upon which to make future decisions. Such reporting provides members of the co-op and to provide the necessary information to borrow money."

Farm Prices Hold Steady; Trend Is up

WASHINGTON, June 1 (AP)—The agricultural department said today that receipts from farm marketings in January-April were about the same as in the same period last year.

Both prices and the volume of marketings averaged about the same as in the first four months of last year, the department said in a report of the general agricultural situation.

In the livestock group, receipts from farm marketings were about the same as in the same period last year. Cash receipts from poultry marketings were about the same as in the same period last year. Receipts from other livestock marketings were about the same as in the same period last year.

Receipts from farm marketings were about the same as in the same period last year. Cash receipts from poultry marketings were about the same as in the same period last year. Receipts from other livestock marketings were about the same as in the same period last year.

Trend Higher In Farm Real Estate Price

WASHINGTON, June 1 (AP)—The farm real estate price index will be about 100 in 1962, according to the economic research service.

USDA said advance reports of 1961 sales—more of which is payable in 1962—showed a 10 percent increase over 1960. The total sales of 1961 were \$1.2 billion, up from \$1.1 billion in 1960, and an average of 62 cents in 1961 compared to 57 cents in 1960.

USDA said taxes on farm personal property also have risen steadily. The average increase on personal property was estimated at 277 million dollars.

THIS SIZE ALFALFA is displayed by Leonard Winkler, Piler farmer. He carried the alfalfa in the spring when the plant was about 12 inches high. The alfalfa was planted in the fall. The central root below the crown measured 1 1/4 inches in circumference. (Times-News photo)

Agriculture Agency Lists Accomplishments of Century

BURLEY, June 1—Accomplishments of the department of agriculture were called to attention this week as the second century of its work began.

According to Ivan Hopkins, deputy extension agent—double centennial is celebrated in 1962. It was on May 15, 1862, that President Lincoln signed the act creating the department. On July 1, 1862, he signed the Morrill act which started the land-grant college system. The University of Idaho is a land grant college.

As early as 1862, USDA was studying the problem of butter adulteration. Shortly after the turn of the century, meat inspection was begun. Later came meat grading, poultry inspection, the grading of fruit and vegetables, research in human nutrition and some economic. New uses have been found for wool and cotton and many new fibers have been developed by USDA research.

To maintain forests, USDA scientists have fought insects and diseases with new chemicals from the ground and from the air. At home, they have given the housewife the airtight kitchen can.

The U-shaped kitchen can came from USDA laboratories. So did the meat-type hog, the Ball's turkey, and research in quality that has led to longer life for many fresh fruits and vegetables.

Dairy farmers throughout the country sell an increasing amount of their production as whole milk to plants and dealers while sales of farm-kenned cream declined. Retail sales of milk and cream by farmers is on the downturn. Farmers use less milk at the source of production.

Idaho farmers marketed one and one-half billion pounds of milk to wholesale plants and dealers in 1961, compared with 280 million pounds in 1950. Sales of farm-kenned cream dropped from the equivalent of 120 million pounds of milk in 1950 to 42 million in 1961. The average period retail sales by farmers fell from 34 million pounds to 18 million pounds.

Idaho farmers used only 115 million pounds of milk they produced in 1961, compared with 154 million in 1950. This indicates a rise in farm property taxes directly related to the growing dependence on state and federal government services. Projections of state and local governmental services in the next few years indicate that taxes on farm property probably will continue to rise.

Several Spud Fields in Area Will Have to Be Replanted

BURLEY, June 1—Several potato fields in Marsa Ector and the surrounding area which were pre-fertilized, has resulted in almost 100 per cent seed piece decay. Virgil Gross, extension potato agent, said that the cause for this has been planting seed with a high sugar content. The seed was not properly stored and did not have enough starch available for rapid surface healing.

Proclamation Postponed on Wheat Quotas

Proclamations relating to marketing quotas and acreage allotment for the 1962 crop of wheat have been temporarily postponed, according to an announcement by Secretary of Agriculture Orville L. Freeman.

The postponement was announced by Freeman in a letter to the secretary of agriculture for the 1962 crop of wheat. The proclamation is to be issued by the secretary of agriculture for the 1962 crop of wheat. The proclamation is to be issued by the secretary of agriculture for the 1962 crop of wheat.

Carl Boyd, Chairman of Twin Falls county agricultural stabilizer, reminded wheat growers that the wheat stabilization program provided under legislation enacted last year applies only to the 1962 crop of wheat. Under the program, individual farm wheat allotments were reduced 10 per cent below what they would have been without the program. The program is to be issued by the secretary of agriculture for the 1962 crop of wheat.

Spud Plantings Delayed by Rain

BURLEY, June 1—Considerable delay in potato planting is being caused by the heavy rainfall of the past month, according to Vance Smith, Minidoka county agent. Ordinarily the crop should have been put in between May 15 to 20 and if the delay lasts much longer, the harvest will be materially affected, Smith said.

Some potatoes are being harvested off white sweet alfalfa hay crop, Smith said, but would cause no damage.

Other effects of the unusual wet spell is a lighter color in the hay crop, Smith said, but would cause no damage.

Odd Flavors in Milk Poled Out

WASHINGTON, June 1—As of today, the USDA has ordered that grass flaxers can be removed from milk by a new low-cost process. The USDA has ordered that grass flaxers can be removed from milk by a new low-cost process.

Pet Milk Acquires New Holdings in Food Sales

ST. LOUIS, Mo., June 1—The acquisition of a subsidiary of Signal Oil and Gas Co. by Pet Milk Company has been announced today by the latter's chairman, Theodore R. Gamble, president of Pet Milk.

The business and assets of Laura Scudder's, a major producer of potato chips and snack foods in California, were acquired by Pet in a cash transaction. The amount was not disclosed.

Laura Scudder's was founded by the late Laura Scudder in 1924 and purchased by Signal Oil and Gas Company of Los Angeles in 1957. Sales are in excess of \$5 million annually. In addition to potato chips, Laura Scudder products include corn chips, cheese puffs, pretzels, peanut butter and mayonnaise.

Laura Scudder's distributes its products throughout California, Arizona, Nevada and Utah. The company's headquarters are in Anaheim, Calif. It also has production plants in Fresno, Calif. and Salt Lake City, Utah, and more than 40 distribution centers.

There is an excellent development in Pet Milk company's growth and diversification program, Gamble said. "It places us strongly in the snack food market, one of the fastest growing segments of the food industry."

Duration of Farm Loans Is Increased

WASHINGTON, June 1 (AP)—The average size of farm mortgages has gone up, the mortgage term lengthened, and the interest increased, according to the agriculture department today.

The average size of farm mortgages increased more than 100 per cent from \$4,500 to \$10,600. The average interest rate on farm mortgages lengthened from 8.5 to 10.7 years. The average interest rate rose from 4.75 to 5.41 per cent.

The direction of change was the same for all regions and lenders but the magnitude of the change varied, the department said. For example, life insurance companies increased their average maturity from 17.2 to 19.1 years, whereas bank mortgages increased only from 4.1 to 4.5 years. The size of loans made by individuals increased 100 per cent during the decade compared with a 25 per cent increase for banks.

Farm mortgages loans in the Appalachian, Southeast, and Delta regions were for amounts annually carried shorter terms, and had higher rates of interest than did loans in the rest of the country. Regional variations were due partly to differences in the size and character of farms but also, especially to the varying extent to which the different lenders' portfolios included mortgages.

Control weeds with Eptam in BEANS

Pacific Northwest growers solved some of their toughest weed problems in 1961 with an application of Eptam immediately prior to planting. Eptam controls watergrass, wild oats, quackgrass, yellow nutgrass, redroot pigweed, lamb's-quarters, hairy nightshade, and a number of other grass and broadleaf weeds.

Eptam can repay several times its cost in reduced weeding and cultivation, more efficient use of water, healthier plants and heavier harvests. Many a grower reports: "Without Eptam, I wouldn't even try to farm this land!"

Shovel Aids In Planting Games Wheat

WASHINGTON, June 1.—A new shovel, specially designed for the production planting of wheat, was announced today by John Deere.

The new shovel needs only a minimum of horsepower to pull and is designed to plant wheat in a row 15 to 20 inches apart. It is designed to plant wheat in a row 15 to 20 inches apart. It is designed to plant wheat in a row 15 to 20 inches apart.

Egg Supply Continues To Increase

WASHINGTON, June 1.—A review of the poultry and egg production in the United States continues to exceed that of a year ago, and that a setback in the second quarter compared with the first quarter.

The department said prospects for the summer are for egg supply to remain above 1951 levels as much as 10 per cent above the second quarter.

New Yorker Says Few Funds Spent

WASHINGTON, June 1.—Dairy farmers have not been overjoyed with the government in their deal with the farm program, it was said today by Rep. Kenneth Keating, New York.

Keating said that dairy farmers are not getting the full benefit of the program and that the government is not doing enough to help them.

Carryover on Four Feed Grains Is on Downgrade

WASHINGTON, June 1.—The carryover of four feed grains is on a downgrade, according to the department today.

The department said that the carryover of corn, oats, sorghum and milo is expected to be about 75 million tons, down from 80 million tons last year.

Jerome Will Host Arabian Horse Event

JEROME, June 1.—The International Arabian Horse Association will hold its fourth "play day" at the Jerome county fairgrounds at 1 p.m. Sunday.

The event is a fun day for the coming horse show season and will offer area horse raisers a chance to ride before entering the upcoming shows.

Research Now Fighting Medusahead Range Weed

UNIVERSITY OF IDAHO, Moscow, June 1.—Medusahead range weed costs millions of dollars in lost forage land in Idaho each year and is an increasing problem in the state.

Current research, however, is beginning to show promise in controlling the weed.

Cattle Sale Will Offer 82 Animals

ROANOKE, Va., June 1.—The auctioneer's hammer will ring down the curtain on the 77th annual convention of the Holstein-Friesian Association of America here June 7, when 82 animals will be offered.

The animals are being offered by a committee headed by George A. Miller, Rocky Mount, Va.

Milk Rationed

WASHINGTON, June 1.—Milk rationing was begun recently in Havana, Cuba, as a result of a research service report said.

Factors responsible for the shortage of milk in Havana include the slaughter of milk cows for beef in 1949, cattle exports, poor herd health and reduced availability of protein feeds and the new rationing.

Entries at Spring Dairy Show At Jerome up 15 Per Cent

The show is being held Saturday at the Jerome fairgrounds over approximately 100 acres of ground. The show is being held Saturday at the Jerome fairgrounds over approximately 100 acres of ground.

Dairy Amendment Could Cut Surplus, Aid Farm

WASHINGTON, June 1.—The Senate on May 25 rejected a dairy amendment to the general farm bill which would have increased production and reduced surplus.

The amendment would have given dairy farmers a referendum choice between supply management with 90 per cent of production for the government and a continuation of the present program with support between 80 and 90 per cent of production.

AGRICULTURAL PRODUCES WEALTH

Strength comes from produced resources—from the improved range and range management practices from the investment in better methods which make for better gains.

Agricultural production credit is the tool most used by ranchers to make the land produce for the betterment of the Nation's Credit Association system constantly to create additional wealth from the land.

ELECT DONALD "DON" ADAMS
STATE INSPECTOR
of
MINES
Democrat
Elect an active underground miner who is dedicated to a positive safety program and will do everything in his power as a miner—benefiting the trust of Idaho voters.

Education Set As Concern by Democrat's Wife

SALMON, June 1—A background of activity in the public school system is the concern of Mrs. Helen Herndon to last education as the most vital issue in the election in which her husband seeks nomination for governor of Idaho. In her estimation there is no question as to the primary issue before the voters. She lists it in just one word: "Education."
"I am vitally interested in education," says Mrs. Herndon. "I have been a Democratic candidate for governor. I am a longtime active member in the party organizations and I know the importance of education to the future generations of our country."
Mrs. Herndon has served as a high school teacher and she holds a teaching certificate in the secondary schools, although she is not employed at the present time.
She has been district PTA president and served as a member of the White House conference on education.
Her interests are not confined to schools, however. She is a past president of the PTA and is active in the Order of Eastern Star and Daughters of the Nile. She has served as chairwoman for the American Legion auxiliary in Salmon and has been regent of the Salmon unit of the Order of the Eastern Star. She is also a member of the American Legion auxiliary in Salmon and has been regent of the Salmon unit of the Order of the Eastern Star.

Music Program Noted by Guild

BOZEMAN, June 1—Mrs. Kurt Moss, Twin Falls, gave musical biography of Arthur Miksh during the annual Readers Guild meeting at the Kimberly Methodist church, Miksh, world famous Hungarian pianist, was given by Mrs. Moss' husband.
Mrs. Fisher presented vocal recital, accompanied at the piano by Dinna Jacobs. Numerous monologues were given by Dinna Jacobs. The program was under the direction of Mrs. J. Garland Obitz. Mrs. Ralph Manning and Mrs. Mabel Reichel served. Hostesses were Mrs. Thomas, Mrs. Joseph Laughlin, Mrs. Mabel Jeffers, Mrs. H. C. Birnk and Mrs. John Nelson.
The next meeting will be held at the home of Mrs. J. Garland Obitz, assisted by Mabel Reichel. The program will be in charge of Mrs. Robert Stradley.

Young Marrieds Stage Social

SHOSHONE, June 1—Members of the Young Marrieds' class of the LDS MIA held a social night at the home of Mrs. J. O. Simpson. The couples in charge of activities were Mr. and Mrs. Del Hilt, Mrs. Mrs. Jack Allen, Mr. and Mrs. C. O. Simpson and Mr. and Mrs. Cal Hiltman.
The next meeting will be held June 8.

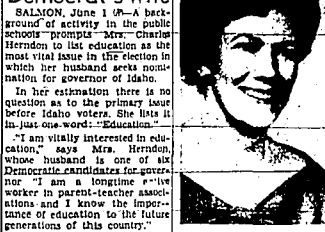

Burmah Society Reports Session

RICHTFELD, June 1—Plans to sponsor a queen candidate and host for Outlaw day, June 8, were made by the Burmah club at a meeting at the home of Mrs. Mary Johnson. Thurnham Hansen was co-hostess.
Mrs. F. N. Stowell, Mrs. J. O. Freeman and Mrs. Eugene Freeman were named to the float committee. Mrs. Hansen gave a Bible reading. Mrs. Eva Sorenson won the hostess prize.
The June 8 meeting will be held at the home of Mrs. Sorenson.

Food for Americans

By GAYNOR MADDOX
MAINE LOBSTER PANCAKES
We have known Edmund B. Lobster for many years, both as governor of Maine and now as Maine's United States Senator. He is a sturdy fellow and his wife is one of the most friendly and natural people anywhere. He has a fine estate, combining the foods of his native Maine with those of his parents' native Massachusetts.
Occasionally the popular senator takes a hand at the stove. One of his traditional Christmas dishes with the Maine flavor, which they are in Washington or August. He insists on preparing it himself for his wife, children and relatives.
He likes Maine lobster pancakes, he told us. But he says his recipe has a Polish accent.
Senator Mankie's Lobster Pancakes (Yields 14 to 18) 1 cup milk 1/2 cup peas 1 cup buckwheat flour 1 egg, well beaten 2 tablespoons melted butter Warm one-half cup milk and scald with one-half cup flour; mix thoroughly and

'Go-to-Church' Sunday Slated By Rebekahs

SHOSHONE, June 1—Plans to observe "Go-to-Church Sunday" were made by members of the Rebekah lodge. They attended church in a group at the Baptist church.
A report was given on the Rebekah tea. A special program was presented by the Rebekahs by a Klinton band, under the direction of Mrs. Don Howe. Features women of the Society were Stephanie Home Improvement club, Jennie Bennett and Barbara Horn—played piano and Diane and Susan took played cards.
The olive tea fund will go into the United Nations youth-plumage fund.
The group decided to rent a food booth at the county fair this year.
A joint memorial service will be held with the Odd Fellows lodge, July 17.
Refreshments were served by Mrs. George Horn and Mrs. G. E. Hennings.

So-Journey Card Fete Held

BOZEMAN, June 1—The monthly card party at the home of Mrs. Arthur Emerson, co-hostesses were Mrs. Hugh Brown and Mrs. Edwin Parker.
Ree members welcomed Mrs. O. N. O'Neil, Mrs. E. Berg and Mrs. L. I. O'Neil. Guests were Mrs. Robert Giddaway, Mrs. Howard Littlefield and Sharon Graybill.
Mrs. Harold Wyckoff won high bridge prize; Mrs. Sidway, second; and Mrs. Littlefield, third.
Pinocle prizes were won by Mrs. Walter Prince, high; Mrs. Barker, second; and Mrs. C. H. Wilcox, low.
Mrs. Helen Young Vives will hold their children's party at 2 p.m. Saturday at the home of Mrs. William J. Williams. Members are asked to meet at the YWCA at 1:45 p.m.; the group will then go to Mrs. Williams home.
"May Basket Exchange Noted"
A may basket exchange featured a meeting of Mountain View club at the home of Mrs. Ted Emerick. Hostess was Edna Henton.
"May basket prizes were won by Mrs. Vante Pulsipher, first; Mrs. Lawrence Campbell, second; Iva Dithman won the white elephant gift and Emma Brubak—the guest prize."
Games were conducted by Mrs. Vernon Golden. Donations were made to the Central Patsy school and the heart, cancer and polio funds.
A card was signed to be sent to Mrs. Emmet Bauer, who has a broken foot.
The club's June tea will be held at the Vance Pulsipher home, June 2.
Guests were Jeanine Smith, Edna Calhoun and Emma Brubak.

Women's Role in Church Debated

ELBA, June 1—"Women and church activity" was the theme of the social science lesson given at the Relief society meeting of the lesson given by the assisted by Mrs. Art Ward.
Music was given by the section of Mrs. Louisa Tuttle, with Mrs. Rex Beecher as organist. Prayers were given by Mrs. Arden Wicks and Mrs. Beal Pettinell.
Lessons will not be given again until October.

Mrs. Marlon Undhjem Is Magic Valley Women's Amateur Golf Medalist

GODDING, June 1—Mrs. Marlon Undhjem, Twin Falls, playing with a broken arm, was medalist winner Thursday at the Magic Valley Women's Amateur golf tournament with a low of 54. Mrs. Undhjem squeaked by the second place winner by one stroke. She shot a 41 on the first nine and 45 on the second for the 84 total. Anita Grey pushed her all the way with a total of 85 for the 18 holes. Sergeant Sorenson, Burley, was third with an 89 and Mrs. Mildred Barlow, last year's runner-up, was fourth with a 90 for the day. Connie Everton ranked up at 93, Jeanie Hirstenson, Bliss, 94, and Vera Howard a 95.

Dodgers Whip Mets, Close in on Giants

By The Associated Press
The Los Angeles Dodgers streaked to their 11th straight victory and closed in further on the National league lead Thursday night, beating New York's hapless Mets 6-3. By winning, the Dodgers moved to within one-half game of San Francisco, a 2-1 loser at Philadelphia. By losing, the last-place Mets suffered their 11th successive defeat.

Indians Spoil Roberts' Bid For Victory

By The Associated Press
The Cleveland Indians, spelling veteran right-hander Robin Roberts' bid for his first American league victory with a four-run outburst in the fourth inning, edged the Baltimore Orioles 3-2 Thursday night.

Wild Pitches Let Yankees Edge Billings

By The Associated Press
An error by third baseman Brooks Robinson started off a brilliant pitching duel between Kansas City's Jerry Yanke and the Senators' Steve Hamilton, giving the Athletics a 1-0 victory.

State Trapshoot To Begin Today

Seven-School Loop Studied In Northwest

HAYDEN LAKE, June 1—A seven-school basketball league was talked up here Thursday and athletic directors agreed formation of the circuit would be beneficial to all concerned.

Indians Spoil Roberts' Bid For Victory

By The Associated Press
The Cleveland Indians, spelling veteran right-hander Robin Roberts' bid for his first American league victory with a four-run outburst in the fourth inning, edged the Baltimore Orioles 3-2 Thursday night.

COWBOYS WIN, GET SHARE OF LOOP LEAD

Weber Fans 14 In 2-0 Win Over Boise's Braves

BOISE, June 1 (AP) — Magic Valley's Don Weber struck out 14 and allowed only three hits as the Cowboys nipped Boise's Braves Thursday night in a pioneer league pitcher's duel to go into a tie with Billings for the league lead. Boise's Jerry Hummitch also fanned 14 and walked only one.

15 Clubs to Take Part in Invitational

Representatives from 15 golf clubs are expected to participate in the Ladies Golf Association invitational tournament to be held at the Boise Country Club on Wednesday, Thursday and Friday. The event is being sponsored by the Boise Golf Club and the Ladies Golf Association. The tournament will feature a total of 15 clubs, including the Boise Golf Club, Ladies Golf Association, and several other local clubs. The event is expected to be a major success for the area's golf community.

Matern Belts Grandslam in Pocatello Win

CHICAGO, June 1 (AP) — Matern belted a grand slam in the ninth inning and Pocatello beat Idaho Falls Tuesday night. Matern's performance was a key factor in the team's victory, as he hit four home runs and drove in several runs. The game was a high-scoring affair, with both teams putting up a lot of offense.

Putter Fails, Palmer Slips At Memphis

MEMPHIS, June 1 (AP) — The golden touch Arnold Palmer slipped to Thursday as he failed to make the cut in the Memphis Open golf tournament. Palmer's performance was disappointing, as he struggled throughout the tournament. He finished in a position that did not allow him to advance to the next round.

Breakdown of 35-Cent Part Ruins Chance

INDIANAPOLIS, June 1 (AP) — A 35-cent filling ended Mickey Thompson's and grand prix driver Curney's chance to challenge the Offenhausers in Wednesday's 500-mile auto race. Thompson's pit stop was a critical moment in the race, as it allowed the Offenhausers to take the lead. Curney's team was unable to make up the time lost during the stop.

Five Ends Sign N.Y. Titan Parts

NEW YORK, June 1 (AP) — The New York Titans of the American Football League announced Thursday that five ends have agreed to terms for the 1962 season. The team is looking to strengthen its defensive line for the upcoming season. The five ends signed are expected to be key players for the team.

Counties Win Spokane

SPOKANE, June 1 (AP) — Joe Taylor's two-run single and a costly error led to a three-run Vancouver rally in the seventh inning that gave the Mounties a 4-2 win over Spokane Thursday night. The game was a close contest, with both teams putting up a lot of offense. The Mounties' victory was a significant one for the team.

Rodger Ward Is Winner of Record Purse

INDIANAPOLIS, June 1 (AP) — Rodger Ward of Indianapolis won the Indianapolis 500 mile race in record time Monday night, picking up a record purse of \$14,518 as Thursday night's victory dinner. Ward's time of 2:28:56.40 was the fastest in the race's history. The 41-year-old two-time winner will share the purse with co-driver Bob White, Milwaukee, who will receive \$3,629.50. The total purse last year was \$400,000. Ward's victory was a significant one for the team.

KAREN THURSTON
Daughter of Mr. and Mrs. Leo Thurston, Barley, will be honored at a farewell luncheon at 2 p. m. Sunday at the LDS Star ward chapel; she will enter the mission home June 18 prior to leaving for a mission in the Central Atlantic states with headquarters in Roanoke, Va. She was graduated from Barley high school and Ricks college, Restburg.

Salvation Army Drive Reaches Level of \$2,500

The Salvation Army fund drive started two weeks ago on behalf of the local unit has raised some \$2,500, according to L. James Koutnik, board member.
The first phase of the drive is by mail contact and has received "wonderful" response, Koutnik said. The second plan is by personal contact and has not been completed.
At a Friday noon meeting the advisory board planned to work out the details of the personal contact campaign and report on progress toward the \$10,125 goal.
The money will be used to continue services of the Salvation Army in Twin Falls.

Mishan Breaks T.F. Man's Leg
A pry bar, being used by George Mitchell, 40, 604 Adams avenue east, Twin Falls, slipped and cracked him across the right shin breaking his leg about 7:30 a.m. Thursday.
Mitchell, assistant elevator foreman at the Twin Falls Flour mill, was reported in good condition Thursday evening at Magic Valley Memorial hospital. The accident occurred at the flour mill, police reported.

Whiteside, Barley; \$10 each; Nelson Stephenson, Salt Lake City; \$27; Donald J. Brien, Jerome; \$11.50; Blaine A. Steele, Bliss, \$10, and Gordon Peterson, Denver, \$12.
LARRY HAYNES, Springfield, Mich., \$15, no breakaway switch on trailer; **DAVID MITCHELL**, Salt Lake City, inadequate mud flaps, and Lawrence Robertson, Nampa, \$15, fictitious display of license.

"Withholdings" Data Reported

Wage earners can increase the regular withholdings from their pay by reducing the number of exemptions for dependents claimed for withholding purposes, or by asking their employers to deduct any other amount from their pay.
Employees at the beauty college will donate the food for the sale and all proceeds will go to the Salvation Army.
Coffee, rolls and Coca-Cola, donated by the Coca-Cola Bottling company, also will be sold.

Vacation Bible School Planned

Over three Baptist church vacation Bible school begins at 9 a.m. Monday and will continue for two weeks, announces the Rev. Joe Wood, pastor.
The theme of the two-week school, "Patriots for Christ," gives an indication of the "two-fold emphasis which is loyalty to our nation and loyalty to our Savior," the Rev. Mr. Wood said. Classes are planned for pupils from 4 years old through junior high school age. Students are asked to pre-register Sunday during Sunday school.

Rita Moreno Plans to Place Her "Oscar" in Linen Closet

HOLLYWOOD, June 1 (AP)—Traffic and parking services at the Academy Award dinner, Rita Moreno says she has found the perfect spot to display her Oscar—in the linen closet.

Unlike most performers who have grabbed the golden ring, Rita will not spotlight her trophy in a place of honor.

"I'm going into the linen closet for a very good reason," she explained. "I look at it this way. Winning the award was a wonderful moment in my life. It can never happen again in the same way. But that is past now and I must look forward to new things and other achievements."

But why exile the Oscar?

"I'm not doing it to be blasé or in the same spirit with whoever it was who used the Oscar as a doornop."

"I think it would be presumptuous of me to have that naked little man on display in my living room. And I don't want to be presumptuous."

">

Since Rita's life changed as a result of winning the academy award for best supporting actress in "West Side Story," she said, she will put the Oscar in a place where she can see it every day.

"I'm not doing it to be blasé or in the same spirit with whoever it was who used the Oscar as a doornop."

"I think it would be presumptuous of me to have that naked little man on display in my living room. And I don't want to be presumptuous."

Also people want to know what my measurements are now, for some reason I cannot understand. I don't believe in giving out such information. It isn't important.

"Most actresses lie about their measurements anyhow. They give bigger bustom measurements and smaller waistlines than they actually have. Maybe I should say I am 100-16-32 just to make everyone happy."

WHAT'S MY LINE might be the phrase most aptly describing the scene above. If you're correctly advised that the slightly extending above being a girl, a horse, an animated chipmunk and a resident of Dodge City, "The Dick Van Dyke Show" is talking crissle of "Mister Ed," the star of "The Mary Show" and "Diana" (Cher) Weaver of "Fanny Hill" have crossed the border.

Freak Hollywood Swimming Pool Creates Unique Problem

HOLLYWOOD, June 1 (AP)—A major problem that Arthur O'Connell has in shedding his bachelorhood after 34 years is how to get rid of a swimming pool so he can build another one.

O'Connell finds himself in the same situation as the fellow being the opening of the 1963 fishing season.

"This time he has plausibly become excited about the Washington, D.C. Aquatic, Mrs. W. Lutz Duntch, his wife.

Three teen-need children, so O'Connell first shopping for a place big enough to house his instant family.

He found a big old manse in Beverly Hills which seemed ideal except for the swimming pool.

"The pool was a big old manse in Beverly Hills which seemed ideal except for the swimming pool."

"The pool was a big old manse in Beverly Hills which seemed ideal except for the swimming pool."

On the Cover

Everyone once in a while the fishing season is "when a man goes to the lake and catches a fish that far away lake in his eye."

Come Monday, thousands of Magic Valley fishermen will head for their favorite lake or stream to celebrate the opening of the 1963 fishing season.

Getting fishing equipment together, in preparation for the season are W. J. Durkin, 1548 Heyburn avenue west and his son, W. J. Durkin, 1548 Heyburn avenue west.

Throughout the valley, anglers are being advised by Big Wood river, Little Wood river, Clear Lake, Riley creek, and the Magic Valley reservoir.

The Magic Valley area has much to offer local and resident anglers, with a variety of streams and well-stocked lakes.

Water Drops as Glenn Went up

ST. LOUIS (AP)—Employers of the St. Louis County Water Commission are expected to know that Col. Glenn was on the job at 8 a.m. on the day of his flight because the company's pressure graph began to show a drop in water usage in the county by 8:45 a.m. the drop was several zones water pressure pumps were out of.

An hour later, when Glenn was in orbit, water usage returned to normal.

Bad Examples From Adults Are No Help to Teen-Agers

NEW YORK, June 1 (AP)—The next time you run a "good" sign, defend a wrong, or rib, you'll probably damage the teen-agers about you.

You hamper their search for significance when you wink at a wrong. You're showing the boys and girls searching for a sense of values how the double-standards work.

"Virtue Pay"

Youth, looking for models to emulate, sees that you wink at a better than virtue, and mediocrity usually is a better choice than excellence.

This dilemma of youth was reported at the recent 38th annual conference of the Child Study association.

Dr. Dana L. Farnsworth, director of health services at Harvard university, was among sociologists, psychologists and educators discussing the question.

"Can Parents Help?"

"How can parents aid those who are searching for a sense of values how the double-standards work?"

Dr. Farnsworth's analysis showed that what's wrong with the youngest generation apparently is the double-standard practiced by the older generation.

This is a double standard which young people are presumably supposed to formulate their

ideas included the following:

Traffic and parking regulations being ignored and evaded.

Police and other government officials.

Parents of mediocre quality gaining much more money in a few months making recordings of off-color songs than serious and well-trained musicians can earn in a lifetime.

Parents attacking schools for not having created an atmosphere wholesome enough to prevent cheating when their children are caught cheating.

Growing evidence supporting the general acceptance of the idea that stealing from a large

organization is of a different order of importance or seriousness than stealing from an individual.

Intolerance of religious group characters, real-life personalities of college.

Commercialization of college of life.

"If I persisted in giving examples from everyday living that suggest a weak back knowledge on the part of our adults as to what is needed in the development of young people with strong and high ideals," he said, "you could conclude that it was becoming a common sound."

"But I am angry."

OUR ANCESTORS by Quincy

"It's crazy—but I keep wondering if the dogs could pull this thing!"

Powerful Amplifier Isn't Touted for Use in Homes

BY PRESTON MCGRAW

The most powerful all-transistorized high fidelity amplifier now available is 50 watts. Peculiarly enough, use in a home high fidelity system is not cited prominently by the maker as an advantage.

The amplifier is Altec Lansing corporation's 351A, which weighs 14.5 pounds. It is a basic amplifier. It takes its input through a preamplifier-control system, to provide stereo sound.

One of the chief selling points of the 351A's merits is that there is no transistorized preamplifier-control system to go with it. It must be used in conjunction with a vacuum tube preamplifier-control system.

But this is how 20 351A's are stacked up with two 60-watt vacuum tube basic amplifiers in a listening post:

"There is less hum with the transistorized amplifiers."

In the middle and high frequencies, the transistorized amplifiers provide a more natural, transparent sound, especially on transient.

In the low frequencies, the tube amplifiers offer a better job on orchestral passages of great volume. They provide a better instrumental separation.

KILROY WAS HERE

HOLLYWOOD, June 1 (AP)—Warner Brothers has scheduled a new TV series titled "Kilroy Was Here."

The stories will be comedy adventures of soldiers in World War II. Series is planned for 1963-64 showing.

Several big manufacturers this spring are producing complete matched or coordinated outfits — shirts, slacks, caps, gloves, socks and jackets to pull over the neck.

Here is a rundown on the major selling items, trends and best sellers:

Shirts — Emphasis on knit shirts which stretch, almost all of them machine washable. Fabrics run from fine to medium with combinations of synthetic, rayon, flax and best quality. Nylon and best quality.

Slacks — Nylon and best quality. Nylon mesh at strategic places to give easy freedom of action. The Gray Flannel jacket has a rise over the back of the shoulders that has been open for extra ventilation. McGraw has mesh insets at the shoulder that are covered when not being stretched.

U.S. Well-Dressed Golf Players Keep Firms Busy

NEW YORK, June 1 (AP)—The best dressed athletes in the world, perhaps, are the golf pros who follow the sun from tournament to tournament on the winter circuit wearing an assortment of garments that set the styles for the duffers who are to follow.

The golfing season is upon us, Father Day just around the corner and the ever-resourceful sports-car manufacturers are outdoing themselves to outfit the six million American golfers who rise at the crack of dawn to make sure of getting in 18 holes.

The American Institute of Men's and Boy's Wear assures the golfer that never in history has such a practical and appealing selection of leisurewear been available for the man who plays golf despite the 10-n-g waits at many golf courses.

Several big manufacturers this spring are producing complete matched or coordinated outfits — shirts, slacks, caps, gloves, socks and jackets to pull over the neck.

Here is a rundown on the major selling items, trends and best sellers:

Shirts — Emphasis on knit shirts which stretch, almost all of them machine washable. Fabrics run from fine to medium with combinations of synthetic, rayon, flax and best quality. Nylon and best quality.

Singer Acts

HOLLYWOOD, June 1 (AP)—Singer Guy Mitchell is taking a vacation in a "Kilroy Was Here" dramatic act. Mitchell will play a ruthless killer in "Broken Trail" for Columbia Pictures.

A few years back, Powell's singing career waned. He made a seasonal "comeback" as a tough detective. Then he branched out into television production and now heads Four Star Productions Inc., which operates out of Republic Studios.

NEW VERSION of the mirror-over-the-maned effect combines small framed mirrors with a larger one and dull gold Oriental plaques and pictures. The reflective advantage of mirrors to make a narrow room appear wider is not lost in this arrangement.

Wall Decorations Can Be Dilemma for Painted Area

Wall decorations present a dilemma to the homemaker who has had walls freshly papered or painted. Should the old pictures, mirrors and bric-a-brac be rehanging in the same locations? Should new arrangements be tried? Should you chuck the old and try for something completely different?

The practice, unaltered walls with old nail holes spotted and covered and frame marks erased offer a clean slate, so to speak, for new ideas.

A report by Anne Cain, a mirror consultant to a large glass manufacturing firm, has some ideas which may enlighten us. Miss Cain points out that a few seasons back, slim mirrors were used in twos and threes were popular with homemakers to add richness of pattern and color both to large wall areas and stairway settings.

The newest ways to incorporate mirrors into wall groupings is to combine framed mirrors with other wall accessories. Possibilities are extensive and range from the use of two or three actual framed mirrors—perhaps in hexagonal or octagonal shapes—interspersed with art objects or sculpture to a larger grouping consisting pictures, plaques and mirrors.

The groupings may carry out a color, such as a gold motif, or it may combine colors. Dull wood frames may be used with bright frames. There is no reason why unframed mirrors should be framed in a walnut-stained or mahogany molding combined with other framed pictures.

An effective grouping pictured in this article combines a large

Tired of Traditional Concrete Colors? Try Tinting Your Patio or Driveway

Concrete is a good durable material for patios, drives and basement floors. But you may grow tired of the uniformly gray color. Concrete can be colored while being installed, or much later. In new construction, the color in the form of a dry powder can be mixed with the concrete before pouring. Use only materials intended expressly for this purpose. Coloring materials are available at paint stores or building supply firms.

Mixed Dry
The powder is mixed with other dry ingredients before water is added. Dry materials should be mixed until they are uniform in color. It is difficult to determine the resulting color without trying out the mixture in small batches first. Measure your proportions very carefully and make note of them.

Save Money
Rather than color the whole batch of concrete, you can save money by coloring only enough for a layer about an inch thick, you will have to mix and pour two separate batches.

Four the base and roughen the surface with a broom. Allow to set until surface water has gone. Then apply the coloring. The base should still be soft enough for bonding.

The above methods are fine if you mix your own concrete. But let's say that you have contracted for a cement mixer to come in and drop a load of concrete. If you are doing the finishing, you can still work color into the wet material by sprinkling the coloring powder on top of the material as soon as it is firm enough to support boards for a finish.

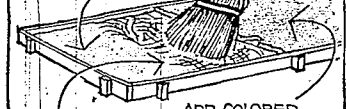

Dust the powder on the surface as evenly as possible. Then work in with a wood float, then with a steel trowel. Work lightly with the steel trowel, or you will bring lime to the surface which will discolor it.

Clean Surface
Staining and painting are methods used on older concrete. With either of the latter methods, you will have to make sure the surfaces are clean. Use a detergent to remove stains. In stubborn cases use lye, but handle it carefully and rinse thoroughly. Wear rubber gloves, boots and goggles.

Apply finish when surface is dry. Use a concrete stain, not

WHEN LAYING COLORED CONCRETE—

TIPOUR BASE BATCH—UNCOLORED—FIRST

ROUGHEN SURFACE WITH BROOM

ADD COLORED BATCH WHILE FIRST IS STILL WET FOR BOND

wood stain. Apply according to directions. Remember that color intensity is determined by the amount of penetration, so brush out smoothly. Don't allow puddles to form. Most stains require more than one coat plus a finish coat.

Use paints that are designed for cement surfaces.

Trick Moths This Summer

WASHINGTON, June 1 (AP)—Before tucking away winter woollens, moth-proof, please.

Department of agriculture entomologists report you can do it yourself with any of several insecticides now on the market.

Most come as liquid solutions to be applied with a sprayer or in pressurized spray containers of their own.

Just hang the clean woollens, including blankets, on an outdoor line and spray with the chemical solution until the surface is moist but not wet. Allow garments to dry, then store.

If you apply too much solution, it can cause a white deposit after the fabric dries. The entomolo-

gists say don't worry about this, if it happens. After storage, usually you can brush off the excess. If not, dry cleaning will make the frosty looking things come clean.

GI'S LIKE "SING ALONG"
NEW YORK, June 1 (AP)—Most popular television program with American soldiers and their families stationed in Europe is "Sing Along With Mitch," according to a poll held by the American Forces Network with headquarters near Frankfurt, Germany.

Film Star Is Off-Screen Cooking Fan
HOLLYWOOD, June 1 (AP)—Robert Taylor, a rugged man on and off screen, can't do Hollywood's best cooks, specializing in pies.

"Right now, I'm leaning towards pecan," he said. "They're easier. But I hate other kinds, like mince or apple."

"I've been cooking for as long as I've been in pictures," said Taylor, whose movie career is more than 20 years old. "I've got a heck of a cookbook collection, about 100 or 150. I took all the goodies out of each one and put them into a single book. I call them mine."

Taylor is proud of his chicken à la king, potato salad and pecan pie.

"Taylor doesn't mind giving out his pecan pie recipe. Start with a 5-inch pie crust and add the following ingredients:
1 cup of brown sugar, 1 tablespoon of dark syrup, 1 tablespoon of flour, 1 quarter pound of melted butter, 1/4 teaspoon of salt and 1 teaspoon of vanilla extract.

"Combine all this and heat it right up to a boil," said Taylor. "Add very slowly to the mixture 3 beaten whole eggs and keep stirring all the time."
When that's done, you add a good heaping cup of chopped pecans and pour it all into the pie shell. Bake at 325 degrees for 10 minutes, reduce heat to 225 and finish baking at between 45 and 55 minutes.

On My Own Time

BY BOB HARTLEY

We hope the guy who always plays the role of the down-trodden citizen and says the "little fellow" can't do anything about anything was paying attention this week when analysts delved into the befuddling turn of the stock market. It was revealed to the best of their knowledge that the little man or "small stockholder" played an important role in the gyrations of the market. It is believed that a multitude of "little men" those who own just a few shares of stock, were responsible for the sudden movement.

This is not meant as chastisement of the small stockholder, but rather is used as an example of the tremendous power the so-called "little man" still has in this democracy and particularly with such a vital part of the economy.

Suffice it to say that everything apparently has turned out all-right that in a way it's refreshing to know that the "big men" don't have near the control they'd like to think they have.

The League of Women Voters on a statewide basis and right here in Twin Falls county has performed a great service to voters by printing candidate information in last Sunday's Times-News and sponsoring radio broadcasts of messages from the hopefuls. We believe a great deal can be learned about candidates by reading what they have to say and assessing their experience, education, etc. One significant fact which was revealed in the Times-News is that the candidates for senate, house and county and impressive education backgrounds. While this does not guarantee the soundness of the individual or that he will be an outstanding office-holder, it does mean that the foundation has been laid. It should stand as an example to young men and women that a solid educational background is a helpful asset on the road to success.

Through thousands of feet of authentic wartime film, the climactic clash of World War II's great adversaries, Gen. Dwight Eisenhower and Adolf Hitler, comes to life Sunday on NBC-TV in "D-Day Revisited," on the Show of the Week. Researchers looked more than a million feet of film to get the 47th used in the hour-long show which should provide varied memories of times past.

Re-medicate: A retired friend says he's flabbergasted at all the interest in his health from the AMA, administration, Republicans, etc. But his solution to the pressing problem is a do-it-yourself medical care kit for the aged complete with handy scalpels, gages, col. gut, etc., which would take the aged off the hands of the doctors and not cost the taxpayers a cent.

Don't underestimate the power of an international wire service such as the Associated Press and United Press International. A good example of their importance in shaping world opinion took place recently in connection with the stream of refugees from communist China into Hong Kong. The Associated Press moved on its wirephoto facilities for publishing in newspapers of May 11 a picture of a Chinese woman crying and an elderly man being carried back to China after being refused in Hong Kong. It was a heart-rending picture of poverty and sorrow. The picture, which was printed widely, brought thousands of offers of refuge for the woman and shortly by the way of the Associated Press, the man and his family were recently remarked in a note to editors that it was highly impressed by the spontaneous response of Americans to the plight of the unfortunate. It takes something such as this to prove once again that, regardless of color, we can extend a helping hand in time of crisis.

There are those who live from fishing season to fishing season, always during those delightful days from June through October when fishing spots — well-known and relatively unknown — are an invitation not to be denied. The large majority of the Valley population who fish begin at the starting gate Monday as another Idaho fishing season begins. While some look on June 21 as the first official sign of summer there are thousands in this area who contend summer officially has begun when you can wet a line somewhere besides the Snake river.

While personalities or issues may help you make up your mind Tuesday in the voting booth, you will still find yourself encountering in one of the pitches made by candidates during the campaign. One group is the "I am the people's candidate" type and the other is the "My opponent is a bum" type. There's no middle ground. Take a look at your favorite and see what category he fits best.

When asked if he was buying stock while the market was at its lowest the other day, the office comrade replied: "If I sold everything I own I might be able to buy one share of IBM — of margin, of course."

Just a reminder that the Pioneer League first half of the season ends June 27 and the Coeur d'Alene League's season ends June 28. Both leagues with the best of them for front money. A sudden surge by the Cowboys as the first half ends could put the local team in the post-season playoff against the second half winner. Some changes in personnel in the large expansion and the local team will have a challenge in their season still; there promises to be some excellent baseball in store for area fans this summer.

Kinda makes you wonder what the marines would have used for ammunition if things had been tough and go in Thailand earlier this month. We noticed by wire service reports that several days after the troops landed they were shipped live ammunition. Even the marines might have trouble holding off the reds with rifle bullets and guts.

DRYSDALE IS AN ACTOR, too. Pitching ace Don Drysdale, right, of the Los Angeles Dodgers, does a bit of acting in the accompaniment of an accordion played by actor Jimmy Stewart during a break in the filming of an Alcoa Theater show. It stars Stewart. Drysdale plays the role of a pitcher on a better news ball club. After finishing his bit of acting, Drysdale caught a few hours' sleep, then pitched a four-hitter for the Dodgers. (AP wirephoto)

Moonlighting Pitcher Is Natural Actor

HOLLYWOOD, June 1 (AP) — Actor by day and pitcher by night is handsome young Don Drysdale, the Los Angeles Dodgers' moonlighting mound ace.

How does he do it?

Easy, says he; baseball players are natural actors.

This confirms something long suspected by those who have watched those conspiratorial confabulations between pitchers and the manager while the batter rages in wonderment. Pure ham. Drysdale almost admits as much. He is the most experienced of the big-league actors, having played such television shows as "Lawman," "The Millionaire" and "Riflemen." You can see him again tonight on "The Donna Reed Show."

Mr. Don has managed his double career with no trouble.

Sneezing Factor Is Predictable

NEW YORK, June 1 (AP)—Certain weather factors are good predictors of how bad the annual hay fever season will be, report investigators from the University of Michigan.

The researchers, headed by James B. Harrington, Jr., of the department of engineering mechanics, reached the conclusion after studying weather and pollen counts for the last 16 years.

At warm, rainy dry and relatively dry June tend to increase seasonal concentration of pollen, the team reported in "JEP," the Journal of the American Academy of General Practice.

from the front office. And why not? One day last week he finished a role in an Alcoa Theater show starring James Stewart and directed by John Ford. He went home, caught a few hours' sleep, then went out to Dodger Stadium and pitched a four-hitter. He can't complain about that.

"I took radio speech at school, but no acting," he reported. "Don't need it. Baseball is pretty good training for an actor."

"You take a pitcher, it's got to stand out there on the mound and shake his head at the catcher's signals until the batter starts to think: 'Gee, just what is he going to pitch?' or 'How many different pitches does he have, anyway?'"

Time Nearing to Think About Dad

The one day in the year when everyone in the family thinks of dad isn't far off.

Father's day presents can range from the magnificent to the minuscule. And if they are chosen with care and thought, pop is certain to feel like a king.

Lean to leisure-time gifts, and chances are you'll score a hit. Socks and a sport shirt to wear in, a hobby item to please—all casual-time necessities—will be a rich area for gift selections.

Hobby presents such as power tools or photographic equipment can provide fun through the year. A good he-man camera he can act a grip on, one that's versatile enough to take snapshots and slides is a good choice. One such camera, priced to please the budget-minded, acquires inexpensive flashbulbs, jellybean size, for easy carrying.

If his closet looks bare, and dusts as well, add some sportswear in any of the new custom fabrics. And remember that stripes are big this season in sport shirts and jackets.

Styling is tailored and trim in the new frosted weaves, corded denims, knits and even stretch fabrics. Even the accessories are so. No denim and stretchers are available now in drip-dry and crease-resistant blends to maintain crisp good looks.

Outdoor-loving dads will go, too, for the new lambskin shirts and zip jackets, in which a light-weight foam backing provides fabric for comfort without bulk. Summer slacks borrow an idea from the ski slopes and s-l-r-e-e-b-h.

For the nautical, there's an array of alicker-cloth jackets (trimmed with signal flags), bold

KEEP UP APPEARANCES! of outdoor metal and vinyl cork furniture by washing with detergent. Follow on metal surfaces with a protective waxing with automobile wax.

striped knit pullovers and slim duck deck pants.

With many new styles and hobby items to select from, no family should be at a loss for an appropriate gift for dad.

Call It Bowler or Derby, It's Still Crash Helmet in London

LONDON, June 1 (AP)—The English bowler has known in America as the derby, has come full circle and is a crash helmet again. It is about all you see in London these days except for the felt Coonies which resemble Robin Hood hats.

A few of them are seen in New York, but not many since the days of Al Smith, who wore a brown one, before which he horrified the English. The English ones are black and are neatly always accompanied by a tightly furled umbrella, which is hooked over one arm and never, never used as a cane.

The bowler came into being in 1861 and is generally credited to William Coke of Norfolk, relative of the Earl of Leicester, one of the best riders in England but a rather daring one who discovered the need when he and his horse were in the woods in pursuit of a fox.

Hunters wore top hats with their pink hunting coats in those days and Coke left a trail of them through the woods. Eventually he thought up one that was rounded on top to slide off the branches and strong enough to protect his skull—the official crash helmet.

Coke took the design to London's most famous hat makers, Locks of St. James's. Locks sent it to some people named Bowler who made it up to specifications. The hat—known as a bowler—almost revolutionized riding in England.

Edward Henry Stanley, the 14th Earl of Derby, came along about then and popularized it, even further but confused the issue. Some people began calling them "derbies" but pronounced Derby, of course, in the British fashion.

It was the 12th earl of Derby, also named Edward Stanley, who originated the race of the same name as Epsom Downs in 1760, a fact that has led to further confusion among people who think they were the same person.

The crash helmet, bowler eventually replaced the top hat altogether for riding and is about all you see if you are out hunting foxes, and with the exception of the Coonies and odd affairs worn by Louis XIV, London is a sea of bowlers.

The return of the bowler to its original protective function is based on the strange behavior of an American of the British Bobbies and the underworld who have an unwritten law that neither will carry firearms.

News About Stamps

The always beautifully designed "Pro Patria" series, 1961 edition, of semi-postals has just been issued by Switzerland, under the aegis of the philatelic agency in America. There are five stamps in the set, four of which are the five arts and the fifth honors an outstanding Swiss artist.

Swiss postal authorities decided that the tribute to a Swiss artist, traditionally part of the annual Pro Patria issue, should be featured in the Zurich edition. The honored individual this year is Jean Fritz, an artist whose work appears on the 5 c plus 5 value.

The four fine arts stamps depict old Swiss scenes from different cantons. The 10 plus 10 shows a silver half-cantone. The 20 plus 20 shows a silver cantone. The 25 plus 25 shows a silver cantone. The 30 plus 30 shows a silver cantone. The 35 plus 35 shows a silver cantone. The 40 plus 40 shows a silver cantone. The 45 plus 45 shows a silver cantone. The 50 plus 50 shows a silver cantone.

Men's Fancy Sweaters Are Products "by Maglierie"

NEW YORK, June 1 (AP)—Northern Italy is famous for its Venetian, the Poenale, the Ciro Rivera, heavy industry and for Maglierie. A maglierie, as everyone knows, is a small factory that knits and sells some of the handloomed sweaters of the world.

Maglierie were discovered many years ago by American tourists who winced at some of the prices but bought sweaters anyway because they were so elegant. But it was Maurice Brown, a Paterson, N. J., builder and textile manufacturer, who made the other tourists ask "why didn't I think of it first?"

Brown, on vacation with his wife Edith, spotted the sweaters while visiting near the picturesque village of Brugherio outside of Milan.

Within five years the firm of Cino Paoli went from a tiny importation firm to a flourishing \$1-million dollar enterprise with 40 production centers thriving throughout Italy.

Cottolucio now is vice president in charge of sales and the chief designer although he admits that he mainly does it to give: to Italy and make constructive criticisms he thinks will please the American market. He is often to work on the 1963 Spring designs.

He consulted with Saul Norick, his son-in-law who had just finished his Ph.D. in physics, and with David Gottlieb, a distinguished physicist with a fierce-looking manner who had spent his life in the men's wear business.

They needed an Italian-sounding name for their import business so they thought up Cino Paoli. The "Cino" came from the Brown's son, George, and the "Paoli" from their daughter Paula. This was in 1956.

They persuaded the Brugherio manufacturers to move to Milan where their creative flair for design could be executed on a large scale and where the mill could concentrate on American sizes.

Middle-Aged Stars Are Doing Well in New Comedy Releases

HOLLYWOOD, June 1 (AP)—In his swing back to comedy, Hollywood is not sending boys to do a man's work. Four of the new releases have middle-aged male stars playing, what they were playing 25 years ago — and doing it as well as ever.

Cary Grant's new "That Touch of Mink" harks back to "The Awful Truth" (1937), "Holiday" (1938), and a host of other smooth performers. His style remains as polished as the metal has been changed to keep up with the times.

"Mink" offers a familiar theme: will working girl Doris Day accept a pool as tycoon Grant's mistress? But you can guess the ending.

The producers saw no reason to alter the formula that has made millions with "Pillow Talk," "Lover Come Back," and "The Mirror." It is all there: the stunning sets, the gorgeous clothes, the sly talk.

"That Touch of Mink" is also very funny. Thanks are largely due to some double-meaning racy playing, what they were playing; and an accomplished cast, especially veteran Grant.

Who harks to films "Kong," Bob Hope and Bing Crosby are back on the same route that has taken them to Singapore (the 1940), Zanzibar (1941), Morocco (1942), Utopia (1946), Rio (1947) and Bali (1952). It's a pleasure to report that they're still headed in the right direction.

"Mink" pictures aren't supposed to make any sense, and the latest one well qualifies. Many of the gag lines are rote, but there is enough merriment to make you glad the old pros are together again.

Fred MacMurray's credentials for screen comedy go back to "The Gilded Lily" in 1935. His

JOAN BENNY tests her word skills with her father, Jack Benny, in the West Coast edition of "password" Tuesday, May 29, on the CBS television network.

Designer Is Ghost Breaker

CHICAGO, June 1 (AP)—Kitchen designer Lewis P. Thompson has turned "ghost breaker." He's out to exorcise the specter of bizarre days that still influence the design and layout of many kitchens.

"The ice man is the liveliest ghost of all," said Thompson, a pointed out that the ice-carrier's "drifty" entrance—though long forgotten — still results in frequent placement of the refrigerator at the back door.

Refrigerators should have the freedom of the kitchen and be more conveniently placed, Thompson advised.

He maintains that the range, too, has been "living in the past" and suggested moving it from the kitchen to the dining room. The dining room no longer is the only dining spot in the house, he said.

It's high time, too, said Thompson, to dispense with the obsolete formula for laying out the kitchen as "corridor," "L" or "U" shape. "The shape of a more efficient 'working triangle'—the sink, range and refrigerator from the three working corners in the triangle, with walking distance between any two centers held to a maximum of 22 feet.

Thompson claims that the notion that cabinets must be situated along the walls, as once was customary, still influences building contractors out from the wall — peninsula or room-dividing style to create new cabinet-top counter space.

CLEAN HANDS
SOUTH CHARLESTON, W. Va. (AP)—East South Charleston garbage truck now carries a tank of water soap and paper towels. City council made the arrangements after the garbage men complained that they had no change to wash before eating lunch.

deft style remains undiminished, evidenced by the current "Bon Voyage."

This is Walt Disney's most adult film, and it is a visual and comedy delight. The story concerns an American family's tour of Europe, and that provides ample chance for scenery and romanticism.

Another graduate of the comedies of the 1930's, James Stewart, is back at the old stand after a succession of adventure stories. Like MacMurray, Stewart goes on a family holiday in "Mr. Hobbs Takes a Vacation."

Taken from the same vein as "Father of the Bride," the film is an often hilarious telling of the familiar problem—the American trials versus his family and the world around him.

George Chakiris Builds Legends

HOLLYWOOD, June 1 (AP)—Stand back and watch the legends grow around Oscar-winning George Chakiris, for men he's a natural.

It's all there—the struggling young performer, the overlooked talent, the chances that went out the cutting room window. And joy, the big break that began like all the rest and then: Overnight fame!

All this the character actor has. He's a handsome, charming bachelor, too—Hollywood's most eligible, his backers happily proclaim.

George, 29, won an academy award for his tingling portrayal of the Puerto Rican gang leader in "West Side Story." He copied the best supporting actor award in an exciting film that took 10 Oscars, including best picture of the year.

The room buzzes when he walks in and autograph seekers besiege him, but it's novel, and he goes for it. Things like this are fresh in his mind: "I did a scene for 'The Girl' with Rox Russell. I was put out. I was one of four sword dancers for 'Brigadoon'; it was cut."

All told, he had chorus dance parts a half dozen times and never got off the ground.

Paramount dropped him and Chakiris says he went jobless for almost a year.

It's Breather Time for Most, But Chamberlain Is Working

NEW YORK, June 1 (AP)—This is vacation time for most, but for the hard-working performers and crew of television's filmed series.

The big studios are quiet. The stars whose series have been renewed for another season have scattered — to Europe, to hideaways, to summer theaters — for a real change of scenery or a change of pace. They'll return, ready for work, in early July.

But not all have a long and leisurely vacation. If Edward Chamberlain, 27, the blond star of NBC's hit series, "Dr. Kildare" has been fighting a losing battle with the calendar all this season. He will be back in his white jacket and draped with his stethoscope in a couple of weeks. But meanwhile he's having his first taste of the joys of leisure. He's stardom on a visit to New York.

Chamberlain has truly had meteoric career in television. He got into professional acting with such roles in 1960 and was chosen to play the title role in the perfected series less than a year later. By last October, after only a few episodes of "Dr. Kildare" had been shown, it was obvious that both the show and the actor playing the title role were among the season's smash hits.

George Chakiris Builds Legends

HOLLYWOOD, June 1 (AP)—Stand back and watch the legends grow around Oscar-winning George Chakiris, for men he's a natural.

Independent Meat Company
Producers of **FALLS BRAND** Products
Presents This Week's

MENUS

By **Helen McCully**

As you know - dinner is the problem meal - hence our new menus for dinner only, with a recipe for each dinner.

Here are five Dinner Menus to enjoy this week.

TUESDAY
Dinner Menu

Falls Brand Hamburger with Mushrooms
Buttered Green Lima's, Spring Vegetable Salad
Cherry Pie

Office MILK

FALLS BRAND HAMBURGER WITH MUSHROOMS

1 pound Falls Brand hamburger
1 pound mushrooms
1 medium onion
1 clove garlic
1 teaspoon salt
1 teaspoon black pepper
1 teaspoon may
1/4 cup sweet or commercial sour cream
1 tablespoon butter or margarine
3 tablespoons Worcestershire sauce

Mix hamburger with very finely-chopped mushrooms, chopped onion and garlic, salt, pepper, cream or sour cream. Combine thoroughly.

Shape into 1/2 inch and fry in heated butter or margarine until browned on both sides and cooked to your taste. Pour Worcestershire sauce into skillet and simmer with the meat mixture. Serve with hot mashed potato, 2, cream 5.

WEDNESDAY
Dinner Menu

Falls Brand Sausage Ragout
Steamed Rice
Green Bean Salad
Baked Custard

Office MILK

FALLS BRAND SAUSAGE RAGOUT

1 small onion
1 pound Falls Brand sausage links
1 pound mushrooms
1/2 medium onion
1/2 medium green pepper
1/2 medium eggplant
1/2 medium sugar
1/2 teaspoon salt

Peel onions and cut in half; cut sausage links in half; cut tomatoes in quarters.

Mix shortening in a skillet. Add onions and sausage. Cook over a moderate heat for about 15 minutes. Add tomatoes and seasonings to meat mixture. Cook to a boil, then reduce heat to moderate and cook about 15 minutes longer. Stir.

THURSDAY
Dinner Menu

Falls Brand Ham Kebabs
French Fried Potatoes
Asparagus Salad
Chocolate Pudding

Office MILK

FALLS BRAND HAM KEBABS

The amount of the particular ingredients naturally depends on the number of kebabs you plan on making. One kebab holds about 4 cubes of Falls Brand boiled or baked ham cut into inch squares; three or four pieces of raw-green pepper; three to four chunks of canned pineapple apple.

Thread ham squares, pepper pieces, pineapple chunks alternately on skewers. Broil 3 inches from pre-heated broiling unit for about 35 minutes. Turn and baste frequently with a mixture of melted butter and pineapple syrup, drained from the pineapple chunks.

FRIDAY
Dinner Menu

Salmon and Egg Salad
Hot French Fries
Tomato Glices
Chocolate Cake

Office MILK

SALMON AND EGG SALAD

1 can (7 1/2 ounces) Salmon
4 hard-cooked eggs
1 cup sliced celery
2 tablespoons chopped onion
2 tablespoons sliced parsley
Salt
Dash pepper
1/2 teaspoon lemon juice
1/4 cup mayonnaise

Drain salmon, remove and discard bones and skin, fork into blue-size pieces. Cut eggs into eighths. Combine salmon, eggs, and celery in bowl.

Mix onion, parsley, salt, pepper, lemon juice, and mayonnaise together. Add to salmon mixture and toss gently. Garnish with sliced green. Serve 4.

Independent Meat Company sincerely hopes the New Look in Menus by Helen McCully will be more helpful and enjoyable to read and use.
