ALGIERS, Algeria, June 9 (AP)—Fires triggered by bombs of European terrorists raged through Algiers today, destroying schools and public buildings and damaging the U. S. information center. A roaring fire swept through the ground floor of the often-bombed information center located at the heart of Algiers' European section. U. S. Consul-General William Forster said damage was heavy but declined to make an estimate. It was one of a dozen bombs and arson attacks carried out by the terrorist secret army of the National Liberation Front in a three-day campaign. The underground organization has vowed to free rulers and officials of the future Moleen rulers of Algeria.

India Warned By Red China On Frontier

TOKYO, June 9 (AP)—Communist China has warned India of a border clash "any moment if India continues what it calls military provocations." It said that the door was still open for negotiations. The warning was contained in a note by the Peking government in a series of exchanges with India. The note said that the Chinese government has set up another new military group in the border area. The note also said that the Chinese government has set up another new military group in the border area. Guard Units Of 2 States Begin Camp

BOISE, June 9 (AP)—Convoy of army national guardsmen from Idaho and Nevada rolled into Owyhee Falls today for two weeks of summer training. The 10th armored cavalry regiment from southern Idaho and the 14th field artillery from Moscow and Lewiston joined artillery units from Bonners Ferry and Coeur d'Alene which were already in camp.

Deadlock Is Reached By Laos Princes

(See photo on page 9)
VIENTIANE, Laos, June 9 (AP)—Diplomatic sources said today that a deadlock over formation of a coalition government, which was proposed by Prince Phoumi, was broken. Prince Phoumi, who has made bitter anti-American statements in the past, was associated with a little paratroop captain, King Le, who overthrew the present government of Prince Souvanna Phouma. Prince Phoumi's government was ousted from the capital by the rightist Gen. Phoumi Nongue in December, 1960. After reaching rebel territory in the Plain de Jarres, Prince Phoumi's government formed a coalition government, which was proposed by Prince Phoumi, was broken.

150 Searchers Fail to Find Hunter's Body

OAKLEY, June 9 — More than 150 searchers in trucks, jeeps, on horseback and afoot combed the rugged timber-covered country southwest of here today in a vain effort to find the body of Floyd Dorsey, 19-year-old deer hunter who perished in a sudden and savage snowstorm last fall. The searchers, many of them on foot, fanned out in groups of 10 and covered an area divided into strips about half a mile wide and two to three miles in length. They covered an estimated 50 square miles. An auxiliary state policeman said 40 jeeps and pickup trucks were registered for the search this morning and at least that many men on horseback were registered. The Paul youth was last seen on Oct. 21 by a group of women when he had coffee at their camp at Pickett corral and left in spite of their protests to retrieve a deer he had shot.

Rodeo, Races, Parade Mark Outlaw Day

RICHFIELD, June 9 — The eighth annual Outlaw Day celebration here Saturday drew an estimated 1,000 persons to a parade of 18 float entries, rodeo events, races and the queen contest. Named queen was Carole Wiley, daughter of Mr. and Mrs. C. R. Wiley, Richfield. Janet Armstrong, 1962 queen, officiated at the crowning ceremony.

Kennedy-Led Ticket Given Eastern State

(See photo, page 10)
SPRINGFIELD, Mass., June 9 (AP)—Massachusetts Democrats have offered the voters this year the ticket of John F. Kennedy, the late president's youngest son. Kennedy, who won the endorsement of the Democratic state convention last night, was the only candidate in the primary. U.S. Warns Reds About Gun Blasts

BERLIN, June 9 (AP)—East German machinegun blasts at 14 desperate refugees who escaped on a stolen pleasure boat brought a grim protest and warning from the United States today that border gunplay is leading to a serious trouble in this divided city. Maj. Gen. Albert Watson III, the U. S. commandant, charged in a letter to the Soviet commandant Maj. Gen. Andrei I. Solovayev, that the actions of East German guards were criminal, provocative, irresponsible, lawless and dangerous.

Peruvians to Vote Sunday On President

LIMA, Peru, June 9 (AP)—A former top boy of Peruvian politics, an ex-dictator and a leftist with out-right communist sympathies, will be voted out of office Sunday in a presidential election which has brought threats of civil war and fears of American intervention. The campaign has been marked by two listed-oratorical shouting matches between the incumbent and his opponent.

Rains, High Wind Batter Havana Area

HAVANA, June 9 (AP)—Torrential rains and 45-mile-an-hour winds battered Havana today, destroying 12 homes and knocking out electric power and telephone service in some areas. Firemen report they made 41 emergency calls, most of them to help motorists stranded in flooded areas.

Idaho DAV Told of Legislative Program

"The emphasis on our legislative program has been greater this year than it has for many years because of our fight to obtain an increase in compensation," Fred B. Plummer, Albuquerque, N.M., a member of the national Disabled American Veterans finance committee, declared Saturday evening during a banquet concluded a three-day convention of the DAV's Idaho department. Department officers were elected during the Saturday afternoon business session and were sworn in by the Idaho State Board of Veterans Affairs.

Plane Lands Okay Despite Tire Blowout

NEW YORK, June 9 (AP)—An Air France jet, its 80 passengers huddled in the tail end of the plane, made a safe landing at Idlewild airport tonight despite a blowout of one of its nose wheel tires on takeoff from Orly field in Paris. Last Sunday's chartered Air France plane crashed on takeoff from Orly field, killing 10 of the 12 persons on board.

U.S. Carriers Are Obsolete, Reds Believe

MOSECOV, June 9 (AP)—Soviet fleet admiral said today that the United States' U.S. carriers would be "drifting carriers" in atomic war. Adm. S. G. Lavrov, deputy commander of the Soviet fleet, described the growing U.S. fleet of rocket-carrying nuclear submarines as a "substitute for what he called U.S. inferiority in intercontinental rockets."

T. F. Library May Report Is Approved

Members of the Twin Falls library board of trustees approved the monthly report which was submitted by T. F. DeVolder, library director, during the monthly meeting Wednesday night at the library.

The members approved monthly bills totaling \$3,982.77 for the month included income for the month of \$2,028.82 out of town subscriptions; \$616.15 from book and collection; \$61.15 from record income; \$77.55 from income; \$50 from Newsweek's club; \$10.37 from sale of surplus magazines. Total income including postage balance was \$4,013.77.

In other business the library board voted to raise the fine rate approved on books from three to five cents effective July 1. Proposals to raise the out-of-town subscription rate was postponed until the next board meeting July 3.

Dr. E. M. Wright, board chairman, announced that bills would be released shortly for the replacement of the library roof. Specifications are being drawn up by Harold Gerber, local architect. The board also approved auditing of library books effective July 1 by Mrs. Olen Cannon, certified public accountant.

In further reports to the board, DeVolder gave details of the meeting of the Idaho Library association held in McCall May 24.

DeVolder's report also indicated that during the May meeting 51 adult, 47 juveniles and 13 youth books purchased and a total of 117 adult, 14 juvenile and 13 youth books donated to the library.

Books worn out, lost and withdrawn were 118 adult, eight juveniles and one youth for a total of 127. Of these 98 fiction were missing in the inventory, eight lost and paid and 18 worn out.

Four-hundred books were rebound for the adult division, 35 for the juvenile department and 13 for the youth room. Books and magazines repaired in the library totaled 174. 20 photograph records were withdrawn during May. There were 109 new adult readers registered and 44 juveniles, while there were 151 adult and 45 juvenile withdrawals.

Total circulation of all items during the month was 8,653. Of the total adult books checked out there were 2,513 fiction, 1,484 non-fiction, 280 periodicals, 37 pamphlets and 18 films. Children's circulation amounted to 2,218 fiction, 524 non-fiction, 24 periodicals and 21 pamphlets. Youth room circulated 744 fiction, 191 non-fiction and seven pamphlets.

The library was open 26 days for the circulation of books with an average daily circulation of 310 items. The largest daily circulation was 641 while the smallest was 151.

At the meeting the trustees inspected the library during which DeVolder pointed out the general need for washing walls and painting in various departments.

Proposal for Dispute Made By Kennedy

WASHINGTON, June 9 — President Kennedy proposed tonight a plan of arbitration in a dispute between the Flight Engineers union and three major airlines.

A statement from Secretary of Labor Arthur J. Goldberg said the engineers, who have been threatening to strike, and the three airlines will discuss the proposal with federal mediators and report to him at 8:30 p.m. Wednesday.

A spokesman for the union said there was little chance of union acceptance of an arbitration "Our position all along — and it has not changed — is that we will not arbitrate issues involving basic job security and job rights."

The major issue has been a proposal by the airlines to cut the cockpit crew on long-range jet airplanes from four to three men by combining the duties of one of the three pilots with those of the flight engineer.

Train Stops as Blaze Put Out

SALT LAKE CITY, June 9 — A southbound Southern Pacific passenger train made an uncheduled stop tonight when lightning struck the train and set smoke billowing out the windows.

The flames were doused in minutes after the train stopped by six county fire units. Overheated wires were blamed for starting the fire that burned through a wooden panel, causing smoke damage.

Authorities said a few ditches were forced to evacuate the car but there were no injuries.

The dining car was hooked up in the middle of the 15-car train which later resumed its travel to Los Angeles from San Francisco with the damaged car.

1,000 Try to Stop Supplies For Polaris

HOLY LOGG, Scotland, June 9 — More than 1,000 anti-nuclear demonstrators converged here today for a sit-down attempt to stop supplies to the U.S. Polaris submarine fleet ship Proteus. Police quickly broke it up and arrested 91.

The squatters included men with long hair and "beards." The police heavily outnumbered and with the royal navy frigate Exmouth standing by to help if necessary, scattered the demonstrators. They were charged with breach of the peace if they failed to move on at the first request.

Most moved on. The others ignored the warnings, but put up a resistance. Men and women had to be lifted bodily from the entrance to Holy Loch's Armadale pier in to waiting police vans. They were carried off to jail cells around the country.

They had come from as far south as London and as far north as Aberdeen. They were organized by Scotland's Committee of

Congratulations

The Times-News congratulates Frank Barnett on his appointment as Twin Falls police chief after serving several weeks under the handicap of an "acting" title. In many ways, it is an imposition to put a man to act in an official capacity without a man to act in that capacity. In such circumstances the acting official has all the responsibility of the job with little or none of the authority that accompanies it.

In cases such as experienced by Mr. Barnett during the few weeks he has served without title, all the advantages lie with the city administration. A man is given an opportunity to prove he is capable of handling a position, yet the administration has not committed itself. The arrangement is not fair to the individual.

Inasmuch as Mr. Barnett apparently proved to the satisfaction of the city manager and city commission he is qualified to hold the position of police chief, it is unfortunate that the vote of ratification was not unanimous.

Now for the benefit of the new chief, it would be a fine gesture if the vote could be amended to show unanimous approval. The democratic right—our own duty—to disagree has been served, and such amendment would be a graphic illustration of solid support for the new chief.

It's no secret that the Twin Falls police department has been divided and subjected to unusual stress by the circumstances of the past few months. It is something that could be expected when not enough thought is given soon enough to the problem of succession. It would be well for any police department to have an assistant chief at all times with the clear understanding that the assistant is vacant for any reason, including vacations. With such suitable advance planning, it might be possible to avoid some of the pitfalls of the past. There also would be no need for any head of the department to be in the position of wondering about his authority.

Let's hope that the disagreements and troubles of the past few months are gone and that everyone concerned joins forces with the new Chief Frank Barnett as a unit. The department will continue its basically fine record. If there are any shortcomings, then Chief Barnett should be able to count on assistance of men in the department, city commission and everyone in the community. Congratulations, Chief Barnett; may your tenure as chief be long and pleasant.

HE NEEDS HELP
If there is one man in the United States today who could be expected to be bitter toward the federal administration, that one man is Roger M. Blough, chairman of U. S. Steel corporation. Granted that Mr. Blough may be largely responsible for the circumstances of his own life, he cannot be held responsible for the government's overreactions which prime purpose in life is to push business around. I do not think this is the case, nor do I think we can let ourselves fall into the critical state of mind that kind of thinking generates.

Yet, the chairman of U. S. Steel issues a statement in which he declares there can be no proper understanding of business and government and that it must be based on a mutual confidence and respect for each other's responsibilities. Business cannot afford to think of those in government as men who overloads whose prime purpose in life is to push business around. I do not think this is the case, nor do I think we can let ourselves fall into the critical state of mind that kind of thinking generates.

Certainly those are not the words of a bitter man or one who feels unkindly toward government. As a matter of fact, Mr. Blough questioned whether industry was doing everything it could to increase the government's confidence in it. "Confidence is a bridge; it needs support at both ends and it needs to be constantly kept in repair," declared Mr. Blough. Apparently the U. S. Steel chairman is doing his share toward repairing some severe damage to the government's confidence between his segment of business and the government. But he cannot repair all the damage by himself; he needs help, and additional assistance can come only from the government.

Mr. Blough's point is well-taken. Neither government nor business nor any other important segment of the nation's economy can function effectively without confidence to the other. Certain business disregards other interests in the economy and operates at cross purposes, there can be only trouble and misunderstanding.

Thinking among the various important segments of the economy has not been too good in the past. If statements such as that issued by Mr. Blough led to a series of conferences, everyone might be glad to help the government. For all concerned to be aware of the many problems and plans of other segments of the economy. At least it would eliminate many misunderstandings.

THINK TWICE, NOW! Dear Sir: The letter of "Crowded Quarters" relative to housing for mythical future use rather intriguing me, as I am somewhat similarly afflicted.

C. Q. speaks of keeping things in use some day which never comes—I would amend—that by saying which never comes while you keep them.

I have learned that, no matter what the nature of the article nor how long it lies around useless—seven years within a month after I ditch it, some occasion arises where it is needed. That never fails.

VITAL INFO DEPT. Liked the picture in the paper about Carl Petersen and his Davidson and his fish, but wouldn't they say where they caught those beauties? (Twin Falls)

Pot Shots note: Pot shots scribbled to say any reason for secrecy to me. I am sure that the fact, the local of the fishing trip was the whole point for the photo. The critics caught those with my camera and their camera, the fellow who took the picture, Ray (D) C. Martin, Boise resident who publishes the Idaho Fishing and Hunting Guide, also spotted a four-pounder caught the same day. There were plenty of good-sized fish coming out of the water that second day of the season. Does that help you? And who would have guessed it!

Poor Man's Plato

By HAL BOYLE
NEW YORK, June 9—Young men are showing it up for an office visit and 33 for a home call. It was a regular Saturday morning chow to carry out a letter with a moral plea from the basement.

Plato was still the bane of stress awakes. Men wore two-piece bathing suits. A fellow who showed up in nothing but swim trunks would be ordered off the beach.

Few people played guitars, but it was a real social scene to be able to strum a lute. A cat was a useful pet. It was expected to farm at least part of its living by catching mice.

Half the people in town still kept chickens in their backyards, and it was a childhood delight to go out and collect the eggs. You couldn't buy a ticket to the burlesque theater unless you were old enough to be in long pants.

Steady counted calories, and a meal without gray soup wasn't a meal. Prohibition ruled the land, and everybody else in the family was banned from the cellar—as was a white father who bottled his home brew.

Yep, those were the days. Remember? Your father's bath in a member?

The Doctor Says

By HAROLD THOMAS HYMAN, M.D.
Having been born and bred, I did not confuse the hardships and risks of farm life until I moved to the country 12 years ago. I was particularly impressed with a recent article on occupational diseases in agriculture.

This article, which is little appreciated, has been given to the health of the farmer. The farmer is an independent worker with a relatively small operation. His home and workshop are combined, and his labor laws do not apply. The work is not limited. Diseases of work arise, due to changes in rainfall soil conditions, machinery breakdowns and seasonal demands, the workday was particularly tiring. Safety equipment is not furnished and safety rules enforced as in other occupations.

What makes the situation all the worse is the fact that farm accidents, in the home as well as in the field, are in frequency only less than those of other occupations in mining and construction.

When these accidents occur, it is very hard to get the farmer to leave what he is doing to seek competent medical aid.

Sanitation cannot be as well supervised and controlled as in an urban community. In addition, the farmer's occupation exposes him and his family to proper risks from dusts and pollens that may produce hay fever.

Interpreting the News

By JAMES MARLOW
Associated Press News Analysis
WASHINGTON, June 9 (AP)—It could not be more apparent in this world.

All over people, politicians and even national took sniffs of optimism from the news.

It has been possible for much of the past few months.

Millions of people's hopes are up when Secretary of the Treasury Douglas Dillon said the Treasury will be able to raise money to Congress next year a top-bottom cut in income tax rates.

Japan's economy is still growing as fast as it has in 12 years.

Perhaps the most pathetic sign of optimism came from Paris where the top men of the government were still meeting in Algeria are in jail.

The No. 1 man, ex-Gov. Paul Robeson, was still in jail.

It was not all good news. The news was still pessimistic.

There was still a lot of pessimism.

There was still a lot of pessimism.

Chevrolet Fleetline Pickup

The truck that's as good as your word
When you promise something will be there, a Chevrolet truck will help you keep your word almost to the point of monotony. It will do its job over and over and over again, with seldom any trouble, at the very low cost. What more can you ask from a truck? Because of their reliability, people have put more Chevrolet trucks to work every year since 1937. That's a strong vote of confidence. If good service is vital to your business, make your truck a Chevrolet and make your word more dependable than ever. Call your neighborhood Chevrolet dealer soon.

Jerome 4-H Group Planning For 3-Day Summer Camp

JEROME, June 9 — Jerome 4-H groups have made plans for a 3-day camp which will be held June 27-30 at Easley Hot Springs. All 4-H members are eligible to attend. The cost is \$2.50 per camper, payable at the county agent's office before June 20. This fee includes transportation, meals, lodging books and gave suggestions on how to win a scholarship for a trip to Moscow. They also discussed how bank members will finance 4-H projects. Members were urged to talk with them and have a parent or guardian also sign the note. The Las Caballitas 4-H club planned a swimming party. The meeting of the Broken Arrow 4-H club, led by Walter Shouse, was held at the Shouse home. Linda Howard was welcomed as a new member. The Grandview 4-H club will have a car-wash at the Union 7th Street Saturday. Kelly Jackson was elected vice president. Vivian Ward was assigned as chairman to make posters for the car-wash. Eden Calder, Betty Kulin, and Handy Fliss will assist. Loren and Bruce Carpenter were added to the club roll. Lada and Leslee Lovestock club recently organized. Charles Ward is the leader. Members discussed how to judge a good 4-H calf. Susan Bowen discussed the 4-H flag and colors and what they mean, the national 4-H creed and how and why 4-H clubs were formed when this Shady Grove Livestock 4-H club met. Mike Zahn reported on paperettes for the clubs wrap-up. Timothy Kinas was welcomed as a new member. A picnic in the Twin Falls canyon park was held Thursday by the Classic Ladies. At their last meeting Marv Ann Westfall demonstrated how to make small rye acid proof. Kinky Black demonstrated making cake from a mix and how to make frosting. She also "emerged" breadmaking a saving time machine and winning the bobbin.

telling the amount of feed to feed the calves. George Bier distributed the health record book. GOP Policy Hit By Demo Leader

WASHINGTON, June 9 (AP)—Democratic National Chairman John M. Bailey today called the new Republican policy statement "a declaration of platitudes" that is "apocryphal, shallow and narrowly partisan in scope." Bailey said in a statement that the "declaration of principle and policy" released Thursday by congressional Republicans "demonstrates vividly that the Republican party is desperately short of both commodities." "The Democratic leader said good intentions and pious hopes are no substitutes for concrete proposals," and "just about the only thing the Republicans care close to being specific about is what they are against."

Area on Nuclear Tests Extended

HONOLULU, June 9 (AP)—The United States announced today a temporary extension of the Johnston Island nuclear test area for the next high altitude test. Joint task force 8 said the test will be in the mountain range, designated at an altitude of hundreds of kilometers, the largest of the high-altitude nuclear test areas and is expected to be available in Hawaii. It previously said the test would be conducted next week, weather permitting. The task force said the area was extended because of expected light intensity from the test, to be conducted at night.

Information Is Sought on Missing Child

TACOMA, Wash., June 9 — A \$5000 reward is being offered for information leading to the return of Ann Marie Burr, 7 Tacoma, who vanished from the family home here during a storm June 3, 1951. Through contact with 2000 street-vendors and newspaper carriers across the nation, Mr. and Mrs. Donald Burr are attempting to locate their 20-year-old daughter. The missing person may have seen their 7-foot, 2-inch, hazel-eyed, blond-haired daughter. Tacoma police, after extensive investigation, believe an intruder entered the home and took the child from her bedroom. When last seen, the child was wearing a light blue flowered night gown, a silver chain bracelet and a small chain around her neck with two religious medals. The distraught parents refuse to give up hope. Maybe the efforts to locate Ann Marie will all be in vain. Burr said, "But my wife and I will have the satisfaction of finding everything." Any information concerning the missing youngster should be reported to Tacoma Office of Police, P. O. Hager, county-city building, Tacoma.

Bailey Marries Barbara Windsor In Wendell Rites

WENDELL, June 9 — Barbara Windsor, daughter of Mr. and Mrs. David H. Windsor, Twin Falls, became the bride of William Bailey, son of Mr. and Mrs. Philip L. Bailey, Wendell, in rites May 24 at St. Paul's Lutheran church, Wendell.

The double ring ceremony was performed by the Rev. Harry Spaulde. Wedding music was played by Emil Linderman, duet.

The bride wore a street length gown of white crepe with a train of Beverly Bailey, was fashioned with a fitted bodice and long sleeves and a short capelet, a gift of the bridegroom.

The bride's elbow length tulle veil was borrowed from the sister who is now a bride. She carried a bouquet of white orchids and red carnations and wore a pearl drop earring, a gift of the bridegroom.

Marilyn Annette Windsor, sister of the bride, was maid of honor, and Beverly Bailey, sister of the bridegroom, was bridesmaid. Both wore red cotton dresses identical. They were fashioned with round necklines and gathered skirts. Both dresses were made by Miss Bailey.

They carried bouquets of white carnations.

Harold Lee Jones, brother-in-law of the bridegroom, was best man, and Marvin Thorne and Larry Adams, Wendell, were ushers.

The mother of the bride wore a green cotton fitted dress. The bridegroom's mother selected a light cotton suit. Each wore a pink carnation corsage.

Some 150 guests attended the wedding reception.

Ray Ann Roessler, Flax, cousin of the bridegroom, was in charge of the guest book. Gifts were arranged by Miss Roessler, and Diane Aufderheide, Wendell.

The interlarded wedding cake topped with wedding bells and all of the valley, had a heart-shaped layer for the bride. This cake was cut and served by Mrs. Martin Roessler, Flax, aunt of the bridegroom.

For a wedding gift, the new Mrs. Bailey chose a brick cottage with white accents.

The bride was graduated from Redlands high school, Redlands, Calif., and Hollywood beauty college, Twin Falls. She was graduated from Wendell high school and is serving in the navy aboard the USS submarine Volo, stationed in San Francisco.

The couple plan to reside in San Francisco.

Out-of-town guests were from Caldwell, Nampa, Eden, Hazelton, Moha, Bull, Flax, Twin Falls, Goodwin and Hagerman.

Wool Is "In" For Fall, Winter Evening Wear

NEW YORK, June 9 (AP)—It will be wool, wool for the wool, cool, cool of the exciting next fall and winter.

The unconventional use of sherry wools for formal apparel shuns throughout the new fashion collections being previewed by New York garment manufacturers.

Satin is teamed with pale lavels in evening suits. Woola show up as shiny, floor length evening gowns. And floral brocades line tweed coats or other bulky woollens and top short formal dresses—repeating—the brocade.

Designer Jacques Thiffaut of Moule Sato and Fuzan showed floor length formal sculpturing the body in chiffon weight wool in black or Egyptian clay, a reddish brown hue.

Bill Blass, designer at Maurice Rentner, used soufflé wools for long formal with bared backs and halter or scoop front necks.

Luis Estevez did sheer wool sheaths with chiffon, topings to cover otherwise bare shoulders.

At Matouise, the show stopper was a belly green coat whose surface looked deep-pled in an unusual sheen. It (upper) white coat's formal gown; the satin name for ivory after Mrs. John F. Kennedy's trip to India.

Harmony Bells Report Parley

BURLEY, June 9 — Harmony Bells 4-H met, with Linda Gillespie giving a talk on friendship and demonstrating apple sauce cookies.

JAIPUR WINS BELMONT STAKES BY "NOSE"

Admiral Voyage Second in Tight Stretch Drive

NEW YORK, June 9 (AP)—Favored Jaipur nosed out Admiral's Voyage right on the wire today in a blistering finish of the \$163,800 Belmont stakes and brought realization to the life-long dreams of his owner, George W. Widener. It was perhaps the most wide open of all Belmonts, run as the grueling event for 3-year-old horses was inaugurated in 1867 at old Jerome park in the Bronx. Fred W. Hooper's Admiral's Voyage—running the way in the 1 1/2-mile race but couldn't hold off Jaipur and broke Willie Shoemaker in one breath-taking instant at the finish.

Admiral's Voyage, the colt who was supposed to travel the long route of the race, got second place by 1/4 length over Crimon Satan, from Peter W. Saltman, Sr.'s Crimon King farm, and George W. Pope's Decidella, the Kentucky derby winner, finished fourth. Donald P. Ross' Great Money, Tracurus victim, felled in the home stretch and finished next to last in the field.

A crowd of 50,000 turned out on a sunny day with the temperature in the mid 80s. It was the third target to witness the triple crown finale.

Widener, chairman of the American jockey club and former president of Belmont park, has been trying to win this big prize since his 10th Jack High finished third in 1929. He had started eight horses in seven Belmonts with an entry of two colts in 1944, but his best previous showing was three second places. "This was the third Belmont," said the 31-year-old native of Dallas, Tex., who won with Gallant Man in 1957 and South Dancer two years later.

Jaipur, a dark bay son of Nurullah-Rare Perfume, by Eight Thirties, returned \$170, \$4,400 and \$140 as the most-prized Belmont favorite since Partholone came in New York in 1940. Admiral's Voyage returned \$740 and \$520, while Crimon Satan paid \$270 to show.

Jaipur, who had won the \$130,700 Derby May 30 at Garden State Park on a disqualification of Crimon Satan, collected \$192,500 for the biggest prize in Belmont's history.

The winning time was 2:26 4/5.

Bump, Nodding Head Let Jaipur Take Win

NEW YORK, June 9 (AP)—A bump and a nodding head made the difference between victory and defeat for Jaipur in the Belmont stakes.

Willie Shoemaker, Jaipur's pilot, admitted after the triple crown classic that Crimon Satan, "with-controversial" Manual Years in the saddle, bumped him about a furlong from home. It wasn't a solid bump but "I know we must have done something," he said. "So did Jaipur, I guess, because the bump made him get fussy. He really leveled off by those final strides."

From, who was suspended for 10 days for rough riding in the Preludes last month, also admitted that Crimon Satan "bumped" Jaipur by the way for the wire.

"I thought I was it at the half-mile but the way my horse was running," the fiery Panamanian jockey said. "But then he started heaving in. I whip with my left to try and get him straightened out but it was no good. He was heaving so bad I took him up near the finish."

Shoemaker also revealed he switched his whip from his left to his right hand as Jaipur, Crimon Satan and Admiral's Voyage drove through the stretch in a furious finish.

"The Jaipur didn't take kindly to my left-hand whipping so I switched to the right and hit him a few good whacks," said the little Texan. "I still wasn't sure I had Crimon Satan beat but after that bump he came on and just dropped his head on the wire in time."

Bravilo Barco, who rode Admiral's Voyage, sadly watched a return of the race on a television set in the Belmont park jockey quarters.

"My horse ran a good race but not quite good enough," said the grim-faced Panamanian, who last year booted Sherlock to an upset victory over Carry Back in the same race.

Shoemaker flew in from California at 7 this morning for his engagement on JAIPUR and dressed hurriedly after the Belmont in order to catch a 7:30 p.m. plane for home.

His victory aboard Jaipur was Shoemaker's fourth straight of BALTIMORE, June 9 (AP)—The Baltimore Colts signed star and Cino Marchetti to his fifth season in the National Football League today.

the day and gave him the Belmont park leadership. He also leading his rivals at the current Hollywood park meeting. (That's not successful county computer as he dashed for the airport.)

Leading the Chisox onslaught were Luis Aparicio, who belted his third homerun of the season, a double and single; Nellie Fox, who tripped home a pair of runs; Floyd Robinson, who had a double, triple and two hits batted in; and Joe Cunningham, who slugged, doubled and tripped.

Cleveland announced a big-swing attack featuring Willie Kikkawa and Tito Franco, then June 9, for a 14-day victory over the rival Boston Red Sox.

Kirkland hitting .203 at Chicago, then, smashed a three-run homer, two singles, tripled twice and drove in four tallies. Franco had a homer, tripled once and scored three times and had two RBIs.

Chuck Cottler blasted a home run into the Senators' bullpen in the bottom of the 10th to give Washington a 4-2 victory over the Detroit Tigers in the third straight thriller between these two teams.

Cottler, goat of Detroit's victory Friday night, doubled an leadoff batter in the ninth and scored the tying run on John Schmitz's single.

STARTING OUT POORLY, Sam Sneed was forced to blast out of a trap on the first hole of Saturday's round in the Golf class at CHITON, N.C., and that set the pace for one of the summer's poorest rounds of the year. Sneed, who entered the day with a two-stroke edge on the field, ailed to a 78 and fell out of contention. (AP wirephoto)

Berra's Homerun Lets Yanks Drop Baltimore 7-3

By The Associated Press
Yogi Berra, appearing in his 2,000th game in a pinch-hitter's role, crashed a three-run homer to clinch a five-run rally by the New York Yankees for a 7-3 triumph over the Baltimore Orioles Saturday. It was the fifth straight victory for the Yankees whose scoreless pitching was snapped at 2nd, consecutive innings when Cal Koonce broke through with a run, the third inning. Prior to Saturday's game, Baltimore had 34 field goals and the combination of Willie Gray and Frank Coates had pitched back-to-back 9-inning games.

Armed Palmer, Pa., June 9 (AP)—Armed Palmer, Pa., took the second step in a four-step climb to the pinnacle of professional baseball on the Los Angeles Angels defeated Kansas City 5-1. Chance, picking up his fourth victory in seven starts, was hit by a batter for 10 hits. But the Athletics could score only in the sixth, when Palmer, Pa., took to the open as part two of the goal was set for himself—the grand slam of the Masters. U.S. and British tournaments, all in one year. Palmer came close in 1960, winning the Masters ahead of the open before slipping to second in the British classic and to seventh in the PGA. With the 1962 Masters title already achieved, the 32-year-old strongly seems in an even better position to accomplish what experts consider to be a sweep together than Bobby Jones' feat of 1900.

AROUND JUNE PARK—The fight between Gene Fuller and Paul Pender will have the National Boxing association's blessing for all. Further, the NBA is "very happy" that the title claimants will meet at Bozeman, Mont., Aug. 28, and settle the middleweight title.

Fuller and Pender, both of whom have been in the sport since they were 15, are both from the same area in Pennsylvania. Fuller is a former world champion and Pender is a former world champion. They are both considered to be top contenders for the middleweight title.

The fight is being promoted by the National Boxing Association and is expected to draw a large crowd. The two fighters are both well-known names in the sport and their bout is expected to be a highly competitive one.

T. F., Rupert Take Wins in Legion Play

The Twin Falls "A" team blanked Shoshone 9-0 and Rupert dropped the Twin Falls "B" team 6-4 in Stars Valley American Legion junior baseball Friday night.

Rupert came up with a four-run outburst in the fifth inning to wipe out a 1-1 deficit with DH Manning providing the key single. Al Shoshone, four Twin Falls pitchers combined to hold Shoshone hitless while the entire club contributed at least one hit to the cause.

The Twin Falls "B" club spotted Rupert an early run but came up with three in the second inning. Catcher Ed Storey started it off with a single and the Twin Falls club largely relied on walks and wild throws to score the three runs.

Rupert got to Gary Dillon in the fifth inning as Bob Nielson opened with a single followed by a walk and an error. That score was followed by two runs and Rupert went ahead for good when Manning lounded his single to right field.

Rupert added an insurance run in the top of the seventh after two were away and then held Twin Falls in check for the last three outs.

The "A" club relied on the pitching of Jim Blacketer, Rusty Eller, Mike Archer and Kendall Kinghorn to blank the young Shoshone crew, participating in its first year of Legion ball.

All-Star List Is Announced By Coaches

CHICAGO, June 9 (AP)—Head Coach Otto Graham and his staff have selected a squad of 50 players from 24 states to compete in the annual All-Star football game in Soldier field Aug. 3.

The All-Stars will champion the Green Bay Packers, champions of the National Football League which has provided the opposition since the inception of the game in 1924.

In all, the professionals hold a 18-6 edge in the classic series with two games ending in ties. The Philadelphia Eagles last year whipped the All-Stars, 28-14.

Crabham's list of players, all centers during the 1961 season, is not final because several members are in military service. However, his reserve list includes players from eight major college conferences.

The "Southerners" conference heads the list with eight players while the Southwest conference will contribute five men and the Big Ten four.

Some of the bigger names who will participate in the All-Star game will be quarterback John Hadl of Kansas and Roman Gabriel of North Carolina State.

Head coach Angelo Dabiero of Notre Dame and Ernie Davis of Syracuse; fullback Bob Ferguson of Ohio State and such outstanding linemen as Merlin Olsen of Utah State, Ray Jacobs of Northwestern and Charles Bryant of Ohio State.

Nicklaus Ties Gonzales to Head Davis Cup Team 65 Record in Golf Classic

CLIFTON, N.J., June 9 (AP)—Jack Nicklaus, with a 65-hole record of 65, and Arnold Palmer, with a 67-hole record of 67, tied for the lead in the 53rd annual U.S. Golf Classic with 207 total as the tournament ended Sunday.

The 50-year-old Nicklaus carried a one-stroke lead into the third round, skied to 101 over the par-72 Upper Merion course in the final scramble for the classic and fell seven strokes behind the pace at 214.

Meanwhile, Palmer, the Major League baseball player, who had money winner for the third Green Litter, the previous Open straight day failed to break par, finishing with 208 after a third round of 70.

Three were tied at 209—Paul Hanesy, with 69; Wes Ellis, 70; and Tom Weir, 71.

For the 100th and 101st time, the U.S. Open will be held at the Forest Hill Country Club in Oakton, Pa. When the officials meet Saturday, they will decide on the venue for the 102nd U.S. Open.

Three Hawks and 211 Bats were tied at 210. The final for the final round Sunday.

Allen Powers Braves Past Billings 5-2. BOISE, June 9 (AP)—Marcel Allen hit two homers and City Central held Billings to four hits as the Braves won 5-2 tonight.

Correll gave up only two hits, one in the third and another in the fifth. Then, after one away strike, Walter Feather walked and went to third on Wilson Bostain's double. Lavelle Correll singled from both bases.

Life in MAGIC VALLEY

Mrs. Julia Parks Ballard, a Declo resident for more than 50 years who may be the only mother in the world to have five sons who are all former jockeys and all became well-known horse trainers and racing officials. She was honored at an open house last Sunday for her 50th birthday. Her first husband, Fred W. Ballard, died in 1912. She lived there until her marriage to Mr. E. B. Ballard, an Asador, Idaho, in 1914. They had three sons who are all jockeys in the LDS church. Mrs. Ballard has served as the president of the Declo ward in the LDS church for two different presidencies in the Declo ward and has been a visiting Relief Society leader since the society was formed in Declo in 1914. She also has served as state Missionary and as a Relief leader in the MIA.

Patke died in 1935 and in 1941 she married Frank Ballard who died in 1950. Mrs. Ballard says her sons' interest in racing started shortly after World War I when one son, Van, started to ride horses at the fair and rodeo.

The racing bug hit time was in 1922 and 1924. The world record was set by all became jockeys. Four of them turned out to be good trainers, and the fifth was a jockey in the racing world.

Van Parke, the third of the family to be a jockey, was the first to be the top rider and became the world's champion jockey in 1922 and 1924. His record was established at the race track in LaGrange, Ky., when Van rode 100 miles in 24 hours, five straight days.

He rode in four other races those two days, finishing second and third in the other two. He made the money in the other two. His racing has never been beaten.

Normal school in 1924. In those days, she recalls, one went to normal school a year, taught two, then went back for a summer session. After following this pattern for three years she married Omar Fricks, a cattleman, in 1927. They had a ranch at KING HILL, for many years until in 1947, Fricks was thrown from a horse and received injuries which incapacitated him. Until this time she had served occasionally as a substitute teacher at King Hill and GLENVIEW FERTILE.

After his accident they moved to GOODING and she started 15 years of extension courses, night classes and summer school, which finally led to her bachelor's degree this summer.

She took classes at JEROME and TWIN FALLS and two summers committed to Boise for summer school.

Now for the first time in 15 years she has not been enrolled in summer and night classes. What is her plan? To keep on teaching special education students in Caldwell where she has taught the past three years.

Sandy Reelected Board Chairman
VACOP Parke, who still maintains a home in Declo, spends the winter months in Reno, Nev., where he is director of racing at Turf Paradise race track. In the summer months he goes to Portland, where he is a state racing commissioner.

A brother-in-law of the Parke brother who married Betty Parke, Elmer Kalesky, Hollywood, Fla., is also a trainer at Hollywood and is now with his family in Toronto, Canada, to spend the summer.

Three other sons went into different fields. They are Norval Parke, Declo, Elmer Parke, GOODING and Gilbert Parke, JILLY and Phoenix, a Law Teacher (Della) Hogg lives in Nampa. Mrs. Ballard has 27 grandchildren and 24 great-grandchildren.

Mrs. Ballard has spent the past three winters in Florida and Louisiana and Phoenix with her children and has attended many of the prominent races at the different race tracks.

She goes by jet plane and Airs during the past 50 years she has seen many wonderful events take place. She is alert to all the great advancements that have taken place. This is a wonderful world to live in and this is the greatest age—arguably the greatest in the history of the world.

When Mrs. Omar Fricks received her diploma last week at the College of Idaho it was 38 years since she took her first college course.

She first enrolled as a college student at the former Leavitt

AS YOUR MINISTER SEES IT

"Pentecost, the Birthday of the Church"

BY THE REV. DONALD W. HOFFMAN, Pastor, First Christian Church

This is the day of Pentecost, a Jewish feast day also called the Feast of Weeks, the Day of Firstfruits. During the Passover feast, a ritual opening ceremony was held in the temple, which lasted seven days. On the morning after the first day of the week, which was the first day of the week of our Sunday, was observed as Pentecost in the earliest churches. It was an agricultural festival. Later, it was observed as a commemoration of the giving of the Mosaic Law of Sinai, which supposedly took place 50 days after the exodus from Egypt.

It was on this day, seven weeks after our Lord's resurrection, that God poured out His Holy Spirit upon His apostles, the 12 then including Matthias, who took the place of Judas, 3,000 people who received the word and were baptized were added to the church. This was the beginning of His church, for on that first Pentecost the church was born. It was the breaking of bread and the prayers. (Acts 2:42)

This church was the "Body of Christ," His "Bride." It was the church of which He said, "I will build My church." He is the head of this church. It had great faith in His teaching and was that of the inspired apostles. His government was congregational, under the spiritual guidance of the apostles, as long as they were alive; then it was the church of His disciples, whose worship centered around the Lord's Supper, or Communion, and the praise worship of God the Father.

His terms of admission were faith in Christ, repentance for sin, baptism (by immersion) in the name of the Father, Son, and Holy Spirit, and the public profession of one's faith, and the baptism of the Holy Spirit.

It is renewed every 50 days by an oblation. Strosener has been a member of the church since 1941. He has ruled since 1941. The 1962 elections will be free but that the state of election is a geographical one.

Paraguay has turned back several times in the past. Student leaders report a well organized pro-communist group in the university and among some of the opposition parties. But they argue that Strosener is attempting to discredit his opponents by applying the 20 million dollar budget to the government, a bureaucracy of some 50,000 people.

There is no evidence that the Strosener dictatorship has ever reached the level of bloodletting that marked the Trujillo and Batista regimes in the Dominican Republic and Cuba, but there are countless stories of prison camps, tortures.

Foreign observers in a position to know say Strosener has yielded considerably on his opposition to the military and political prisoners. Some prisoners obtained freedom by paying time in gasolin.

Planned Kennedy Tax Bill Will Offer Some Relief for Industry, Consumers

By STERLING F. GREEN, AP Economic Affairs Writer

WASHINGTON, June 9 (AP)—The business recovery unexpectedly catches fire, the 1963 tax bill which President Kennedy plans to send to Congress later this year will call for tax relief totaling perhaps 5 billion dollars a year for industry and consumers.

Tax rates from top to bottom would be cut under the broad program now being drawn up by the administration.

Secretary of the Treasury Douglas Dillon says the tax package is aimed at spurring maximum long-range economic growth. He says no decision has been made on how far to go in offsetting lower tax rates by increasing the base of the tax structure and closing loopholes.

Most officials now are said to favor a solid tax reduction for business and consumers. It would be, in effect, a raise in take-home pay for workers, a source of fresh capital for investors and a boost in the after-tax profits of industry which would be available for reinvestment.

Estimates of the net tax relief are running as high as \$5 billion a year, though more frequently mentioned, being about the minimum cut which would make enough difference in consumers' psyches to encourage purchases of new cars, homes and major appliances.

Reductions in the top income tax rate from 91 per cent to 70 per cent has been considered, at the other end of the taxable income scale, the basic 20 per cent might be dropped to 15 per cent.

To meet the shortage of funds, the basic 20 per cent might be dropped to 15 per cent.

There are some signs of progress. Under Strosener's coalition, the country has built up its river fleet to a total of 30 ships of 1,000 tons. Construction of low-cost housing for workers is under way. The poor don't seem as bad off as their counterparts in other Latin-American countries.

Drawing Is Set Monday For Blaine

HAILEY, June 9—One hundred pairs of blood is the quota set for the Red Cross blood drawing to be held from 7 to 8 p.m. Monday at the high school gymnasium.

Paraguay Ruled by Dean of Latin-American Dictators

ASUNCION, Paraguay, June 9 (AP)—Paraguay has become the main export of this landlocked nation ruled by the dean of Latin-American dictators.

By unofficial estimates, from 50,000 to 750,000 citizens have fled the country in the past few years. The latter figure would represent nearly half the population.

Most of the emigrants go to Argentina, Buenos Aires, 1,000 miles away, is a sort of Mexico. Why do they go? The reasons range from the political instability to limited job opportunities.

The emigrants have included the bulk of the political opposition to President Alfredo Stroessner.

Thousands of others, any oppositionists remain, but their effectiveness has been muted by the Strosener dictatorship.

The state of siege has been in effect, with brief lapses, for 12 years. It is renewed every 90 days by an oblation.

Foreign observers in a position to know say Strosener has yielded considerably on his opposition to the military and political prisoners.

MAGIC VALLEY PORTRAIT War Memories: Marine Sergeants Are Not Necessarily Good at Cooking

ROBERT W. STEPHAN

Marine sergeants can't cook. At least they couldn't cook in World War II. Well, at least one of them couldn't cook and Robert W. Stephan, a local attorney, is sure of it. He learned this the hard way.

Through the years, though, times have changed and now Mrs. Stephan is a good cook, he claims. He met her at Camp Pendleton, a major local attorney, and Mrs. Stephan, who still resides here.

He graduated from the Twin Falls high school in 1935 and then entered the University of Idaho for two years study. He transferred to Southern University and graduated from that institution in 1939 with a BA degree.

About that time he decided to enter the marine corps and volunteered for duty, being sent to an officer training class at Quantico, Va.

From there he was graduated as a second lieutenant and was assigned to the 1st Marine Division at the same location. Following his graduation from this course he was assigned to San Diego.

It was just about 30 days after Pearl Harbor that he was sent to the Samoan Islands. He was what the marines call an infantry officer.

"Our outfit did not fly or ride," Stephan recalls. "We hiked."

He stayed on the islands for 20 months, and then was sent back to the States. He was assigned to a near Oceanic, Calif., and is now, and was then, the largest marine corps camp in the nation.

He returned from the islands with the rank of captain but soon gained major ranking. He was then sent to the Hawaiian and Midway Islands for further duty.

He received his discharge in April, 1946, after a total of nearly six years with the corps. He was listed as one of the senior majors in the corps when discharged.

The Mrs. Stephan-to-be sergeant — was discharged at the same time as the major and was assigned to San Diego.

Mrs. Stephan had also entered the corps with the idea of officer training but fell away through the course a half and a couple of broken ribs caused her to drop out, until another opening for training appeared.

Stephan is active in many fields. He maintains membership in the American Bar association, and the Idaho Bar association. He is a Shriner and a member of the Masonic order.

After their marriage they returned briefly to Twin Falls then went to Moscow where he entered the University of Idaho for the study of law. It was during this time, Stephan recalls, that he discovered his new wife knew nothing about cooking.

They started married life at a school in a trailer which, he said, permitted him to note the lack of cooking skill at close range.

She had learned a little about cooking, he recalls, when they then sent to the Hawaiian and Midway Islands for further duty.

He received his discharge in April, 1946, after a total of nearly six years with the corps. He was listed as one of the senior majors in the corps when discharged.

HEAVY ROAD CONSTRUCTION EQUIPMENT is pressed into service in a program which will be approximately five more miles of the Rock creek road to Magic Mountain graded and oiled. In this instance the new road is to replace the curved road which is seen at the left. This is one of several minor changes in the old route. The work is being done by the Eaton Construction company, Wendell. (Times-News photo)

Heavy Equipment Modernizing Road to Magic Mountain Ski, Picnic Regions

It is a long way from now until about five miles of the road, should be canceled because the Magic mountain but when that comes there will be only 11 more toward the ski area. The work will run from end of the present, oil nearly five miles of gravel road left between the equipment of the Eaton Construction company, Wendell, driving up the canyon for picnic area. However, traffic will go through and no planned installation to protect the road.

100-Pint Quota Slated for Bull

BLUM, June 9.—West End residents are urged to meet the 100-pint quota set for this area when the West Cross bloodmobile pays its annual visit from 11 p.m. through 3 p.m. Tuesday at the Bull-Moose hall.

It is noted area residents received 184 pints of blood last year and only 151 pints were donated. Members of the local WFF will set up the equipment. Jay-C-Ettes who will serve as typists and receptionists are Mrs. George Fritz, Mrs. Webb Malone, Mrs. James Russell and Mrs. Larry Records.

Serving as nurses-aides will be Mrs. Jack Fields, Mrs. Jerry Knapp, Mrs. Frank Glase and Mrs. Elvin Noh. The three local physicians and registered nurses will help with the drawing.

work to hold unemployment to two per cent of the labor force. Last year it averaged 7.2 per cent and a mid-April report showed 48,500 unemployed or 7.5 per cent of the labor force. The prime minister says unemployment will be at the lowest level in history by the end of summer.

The New Democratic party is headed by T. C. Douglas, former socialist premier of Saskatchewan. It contends dollar devaluation is a sign of economic malaise to be remedied by planning and urges a national medical care program. It rejects nuclear arms in any form.

The Social Credit party headed by Robert N. Thompson, of Alberta, promises an end to budget deficits. It assists the idea of "the welfare state." Thompson lumps the two major parties together as "the Pearson-baker-team."

Each voter casts a ballot for a member of parliament from his district. The leader of the party which wins a majority of seats becomes prime minister and forms a cabinet.

Liberal Party Hopes to Gain Canada Power on Issue of Dollar Devaluation

OTTAWA, June 9.—Another dollar, another dollar? Lester B. Pearson's Liberal party, striving to take over the government in Canada's election June 18, has a new version. "Another day, another \$23 cent."

It is a jibe at the ruling Conservative party of Prime Minister John Diefenbaker, who decided to devalue the Canadian money just seven weeks before the election.

Diefenbaker, 67, routed the Liberals in 1957 and went on the next year to pin down the dollar.

This year's campaign, dull at the start, has grown into a noisy, tough-talking specimen. Pearson recalls what he calls the wiled years of Diefenbaker's rule and appeals for a mandate to "clean up the mess." The Liberals urge: "Get Canada's money forward again. Take a stand for tomorrow, vote Liberal today." They say Canada's prestige has fallen under the Conservative government.

The Conservatives, with the prime minister leading the way, see their drive for votes to defense of their record, plus a wide-ranging program for the key provinces are Ontario with 85 seats and Quebec with 40 seats in parliament against 40 seats for the Liberals and eight for a minor party now called the New Democratic.

The present standing is 203 seats with three vacancies. The key provinces are Ontario with 85 seats and Quebec with 40 seats in parliament against 40 seats for the Liberals and eight for a minor party now called the New Democratic.

Antisubmarine Warfare Is Major Job In Modern Conception of War on Sea

PEARL HARBOR, Hawaii, June 9 (AP)—The old adage of the U.S. navy acquiescing comfortably when they hear antisubmarine warfare described as "hills and seas" at sea.

"Sure, that's part of our job," says Vice Adm. John S. Jimmy Thach, commander of antisubmarine warfare forces (ASW) in the Pacific. "But it's comparable to saying a successful quarterback in football tends to know only how to throw the ball."

The admiral's point is well taken. By the very nature of its organization, ASW encompasses the spectrum of the navy: planes, helicopters, ships, shore stations, and the submarine itself in light sea operations.

The recent firing of a submarine-launched Polaris missile with a nuclear warhead on the Christmas Island nuclear series demonstrated the threat of submarines. American and Soviet. It showed that the Polaris can do its job.

U.S. naval authorities know the Soviet Union has the same sub potential, if not as refined as the Polaris. They predict it is only a matter of time before the Russians have something comparable.

With its range of up to 1,750 miles, the Polaris missile could hit any target in the Soviet Union or communist China.

"Intelligence" sources estimate the Soviet submarine fleet includes about 30 missile-launching subs, of which 10 are nuclear-powered. The Soviet missiles are of shorter range—about 350 miles—and only two to four can be mounted on each sub.

The Pacific ASW command maintains a 24-hour watch over millions of miles with some 100 combat ships, 500 aircraft, nearly 40 submarines and 24 shore coordinating centers. Its headquarters is at Pearl Harbor's Ford Island, hard by the sunken battleship U.S.S. Arizona, America's monument to unpreparedness.

ASW forces are broken into hunter-killer or HUK groups operating through specified zones. Key areas in this ocean is the Western Pacific from the Kamoharui peninsula past Formosa and the Philippines to Vietnam and Thailand.

A HUK group—submarines, land-based and carrier planes,

helicopters, destroyers—is highly mobile and plays on the strength and weakness of its components. Using an aircraft carrier as a nerve center, a HUK group can cover a wide area and move in on an enemy using the weapons and specific skills of each of its parts.

Weather and sea channels stand as natural allies of the West against the submarine. Southwest subs must move to the outer sea through narrow straits which can be closely watched—and are. And many Soviet ports, notably Penzance, are kept operational part of the year through use of icebreakers.

It is no coincidence hunter-killer groups do a lot of their work in the North Pacific along Kamoharui, for Petropavlovsk, the Japan sea for Vladivostok, the Iceland-Barrow gap from the Norwegian sea for Murmansk and the Denmark straits for ports near Leningrad.

Nuclear submarines have complicated ASW because of their faster speed and ability to remain submerged for long periods

ence in this area and raise standards. Why does he want to stay in a small town, and teach on an enemy using the weapons and specific skills of each of its parts?

"A town like Murtaugh is a fine place to raise a family and of time.

On land ASW's problems are twofold: lack of public interest and too little money. The operation doesn't have the glamour of air war or the performance of space development. ASW is a grimy, messy job but one that has to be done.

Thach asserted that the same study and priority—and money—should be given to ASW as to development of modern killer submarines.

"The defense facilities are really the key to this thing," he said. "What we come down to, with both sides having the same potential, is the ballistic balance resting with the side with the best ASW team."

Driver Class Set Monday For Rupert

RUPERT, June 9—A summer session of the driver training class to be conducted by four teachers from the Mindoka county high school will begin Monday, according to Elmer Edgington, who is in charge of the program.

Students wishing to take the course are to provide their own transportation. Monday, with a bus schedule to be worked out during the first day's session. Classes will be held daily from 9 a.m. until noon for 12 days.

Five days will be given to classroom instruction, ending June 22. A minimum of 30 hours of classroom instruction is required. The driving instruction will be completed during July 2nd August, with schedules to be worked out convenient to the students.

Instructors will include Harold Hurst, Glen Maughan, Grover Newman, Leland Hepworth and Leland Durfee. According to Edgington, there are 10 qualified instructors at Mindoka who have all completed the course at Boise junior college.

Edgington reported that there are 120 students registered for the June classes, and that any students interested in signing up for classes could contact him at the high school or at his home. He reminded teenagers that after July 1, all those under 16 years of age who apply for a driver's license, will have to have a certificate from a driver training course. This course is sponsored by the department of law enforcement, and is not paid for by the school district. Edgington said. Money for the courses come from the drivers' license fees.

The summer program is offered

because of the lack of time to fit it into the school program during regular school time. With the enrollment of 400 freshmen this fall, the demand for the course would be too great to handle in the limited time schedule.

Edgington pointed out that many insurance companies were reducing the insurance rates on teenage drivers who had completed the course.

Thach, who helped develop modern antisubmarine tactics, sees the million square miles of the Pacific and eastern Indian Ocean as "the key to ASW."

"The Soviet Union has 40 subs at latest count, for the biggest fleet in the world, has several vessels kept open the year round. Its neighbor, communist China, has built the fourth largest submarine armada, starting from scratch 10 years ago.

"I've never had subs during the Korean war," Thach said, "the whole story there might have been different. Our sailors would have been magnified many times."

Thach believes if trouble comes from beneath the sea, the warning signal will be sounded in the Pacific.

"The Pacific is a larger and more uninhabited area," the admiral said, "without the expense of ice, rough water and difficult undersea terrain of the Atlantic."

The navy operates more freely in the Pacific than in the Atlantic. The reason is politics. The Atlantic problem is compounded by split commands and overlapping authorities involved in NATO. The navy declined to comment officially, but high-ranking officers said in agreement when the subject is raised.

How is ASW doing its job and what improvements are needed?

From Thach, one answer: "We're making progress. Our problem requires major advances in techniques and equipment to keep up with the advances made in modern submarines. Maybe we've improved the past five or 10 years by 400 per cent. But with the scientific development of the submarine, our progress has not been enough. We still have a long way to go to be able to neutralize nuclear and missile-carrying subs. We are fighting today's battles with yesterday's weapons."

U.S. attack submarines have a major superiority over Soviet boats, a statement verified by almost every military aide the admiral has met. But these same authorities add: "There is no reason to doubt that before long they (the Russians) will have reached the same standards of excellence the United States has attained."

MEALTIME PLANNING IDEAS FROM CHALLENGE FOR BUSY HOMEMAKERS

HAPPY LUNCHING to you, with this Spicy Cheese and Peach Salad! It's the heartiest, tastiest salad idea in many a year... and there's plenty of protein punch in this salad, thanks to the cottage cheese. Here's how it's made. Soften two packages of unflavored gelatin in 1/2 cup of cold water. Stir over hot water until it's dissolved, then combine with 1 pound

Challenge Cottage Cheese, 1/2 pound crumbled bleu cheese, 1/2 cup mayonnaise, and salt and pepper to taste. Last, fold in 1/2 pint Challenge cream, whipped. Turn into a lightly oiled one-cup mold... and chill until firm. Serve unmolded with sliced peaches; lemon mayonnaise or french dressing makes a luscious topping. Serves 6.

COLD CUT SUPPERS PACK A TASTY SURPRISE when you serve up these Cottage Cheese Cakes! They're a crispy delight, heartily satisfying to the appetite, and packed with protein. Easy! Definitely! Just combine one pound of Challenge Large-Curd Cottage Cheese with 1/2 cup chopped nuts, 1/2 cup bread crumbs, 2 eggs, 1/2 cup chopped celery, 1/4 cup chopped green pepper, and 1/4 cup chopped onion. Salt and pepper to taste. Shape this mixture into flat cakes. Sauté on both sides until lightly browned. Serve up with hot tomato sauce, your favorite cold cuts, and watch the smiles break out around the table! This recipe will serve 6-8 people. Protein-packed Challenge Cottage Cheese is available at your store or door.

 attracted attention at a time like this?
 So your head meets the lake. It's not bad. That sun is getting higher and nice and warm. You take a deep breath, and a sigh goes over your nose. Your chest and what happens?
 You are asleep.
 And being asleep, who cares about fishing?
 The elderly couple seated near the boat dock are fishing. At least they look like they are. But their eyes wander here and there, their thoughts are far away and they are soaking in the warm sunshine reflected off the water.
 This is fishing.
 Who cares if the fish (if there are any) are not biting just now. This is living. All is done. There is no pressure. In fact, there is no nothing. You could just as well be the man on the moon. That is the kind of relaxation there is when nothing bites and the sun is warm in the early morning.
 So the elderly couple on the dock, at least one of them, gets a nibble.
 The fellow who has his head resting on the log sits and through half closed eyes notes that there is an open space at the shore.
 So the spell is broken. The mind is no longer lazy. The sun suddenly is not so pleasant. The world has returned from a trip to someplace or other. The old competitive spirit returns. Fill the creel!
 The minutes pass into hours and the hours keep pace so that soon the day has ended, and so has the trip.
 The warm sun is cold. The water is still. The people are gone.
 You are home and have been fishing. Webster defines a fisherman as "a person who fishes for sport or for a living."
 Webster could just as well have added:
 "One not especially interested in fish."

Sandwiches Are Made at Parley

HOLLISTER, June 9 — The Hollister-Hoover 4-H club met at the home of Mrs. Steve Pastor with Christy Thompson and Juanita Meyer demonstrating tuna fish and sweet pickle sandwiches.
 "Rose Ann" Pastor and Ellen Picnor made cream cheese and jelly sandwiches, and Susan Picnor and Helen Meyer, egg sandwiches. Stephanie Pastor and Beverly O'Brien made a fruit crisp.
 Roll call was ways mother used to chop nuts. Sue Picnor led the pledges. Mrs. C. M. Lanting was a guest.

Club Meets

The Sun-and-Sluc 4-H club met Friday morning at the home of Mrs. Clarence Hollifield.
 Demonstrations were given by Christy Hills on "How to make a package cake" and Nancy Hollifield on choosing patterns.
 Entertainment by E. J. and Stanger followed the 4-H pledge. Assignments were given to conclude the meeting.

Study Course Area Journalists Receive Stipends

POCAHELLO, June 9 — Two Made Valley high school journalists have been awarded \$100 Idaho State Journal scholarships according to Frank Host, acting chairman of the Idaho State college Journalism department.
 The students, selected for the area for the United States Chamber of Commerce, at the time of medical care for those Thursday. In addition, a stipend was given to the student who had the most outstanding record in the course. The stipend was \$100. The course is designed to acquaint the American people with the threat of communism. Stark and Host observed the program in a way of living under the two different forms of government and stresses the importance of understanding these differences.

FLOP ON THE NOGIN and the little girl proves she is not as defenseless as indicated. Larry Iverson is on the receiving end of this evergreen snowball brought down by Debbie Warr as they frolic in a snowdrift in the south hills. The fact there is snow in the area this late in the year is even more unusual than the defenseless girl theory being exploded. (Times-News photo)

WORK OF EAGER BEAVER is explained to Debbie Warr by Larry Iverson. Location is in the south hills where deep snow drifts still abound and spring is late in coming. In growing up, little girls learn to listen and "play possum" until an opportunity for mastery presents itself. (Times-News photo)

Mowing, Snowing, Boy, Girl, All Add Up to Fantasy Which Proves Point

Never underestimate the power of a woman.

As far as that is concerned, never underestimate the power of even a woman-to-be-like, for instance, a little girl.

Case in point concerns Debbie Warr and Larry Iverson, friends and neighbors in Twin Falls. Only a fence separates their respective homes and so both are a part of the neighborhood "gang."

In fact, the children in the area really do have a club (referred to as gang) and Debbie is treasurer. Only trouble is the club has no money so Debbie has little, if anything, to do. And that is the reason for this story.

Larry is the rough and tumble type. Debbie is the shy, retiring little thing. That is until certain situations develop.

Typical youngsters are the two. When lawn mowing time comes, Debbie can watch while Larry does the work. When he explains the life of beavers and their habits she listens attentively.

But let him turn his back in a snow bank and he has "had it." The shy little girl is suddenly a "beaver" capable of giving Larry a run for his money.

So, never underestimate the power of a woman—a little

New Trial Eyed In Robbery Case

BURLEY, June 9—Defense attorneys for two 21-year-old Burley men convicted of robbing the Elks lodge caretaker last Feb. 10 have until Wednesday to submit briefs asking for a new trial.

Judge Edward H. Heap recently sentenced Gary W. Baker and Donald Eugene Rollins to 2 1/2 more than four years in the Idaho prison after they were found guilty by a district court jury.

STARTING A BALKY MOOSE is work for a boy. Girls can watch but seldom help. Larry Iverson wrestles with a moose while Debbie Warr looks on, but still not about to aid him. It is all part of the process of growing up for the "sex," which more often than not is a minnow. (Times-News photo)

Mrs. Hewlitt, Gibbs Given Rupert Award

RUPERT, June 9—Mrs. Ethel Hewlitt, clerk at the Midway grocery, and Ted Gibbs, meat cutter at Safeway, were named as the most courteous and personable annual employer-employee banquet Wednesday night at the St. Nicholas parish hall.

The banquet climaxed a month-long contest, with customers at Rupert business hours voting on their choice, and final judging done by a committee of seven.

Featured speaker at the banquet, was Dr. Donald Walker, president of the Idaho State college.

Two Vocal Selections by Claud Bowman, Accompanied by Mrs. Howard Bruns

The winners of last year's contest, Mrs. Betty Darnell and Chester Friesen, were introduced. The committee in charge of the banquet were Mrs. J. A. Kiehn, Chester Friesen, Clarence Burre and Wayne Bell.

Judges for the finals in the contest were Mrs. Ruby Gilmore, chairman, Mrs. Carl Geely, Mrs. Ed Smith, Mrs. Beth Trumbull, Jay Broadhead, Herbert Vaughan and John C. McPhee.

Mrs. Gilmore presented winners with \$25 bonds plaques.

The Flint

OKAY, MISS MORRIS, IF YOU'RE TOO BUSY TO HELP GET YOUR STOLEN NECKLACE BACK, I'LL LEAVE!

LET THE INSURANCE COMPANY WORRY, AIR FLINT. 'BYE!

THAT GUY WAS EAVESDROPPING, I'LL BET. SOMETHING ABOUT HIM, TOO!

WISH I COULD REMEMBER WHERE I SAW THAT MAN.

WITH \$20,000 IN MY LITTLE PLAIN PACKET, ACCORDING TO INSTRUCTIONS, I WAITED TO RECOVER THE STOLEN NECKLACE.

MAN WANTS TO SEE YOU BACKSTAGE, SIR!

THANKS, CUTIE. BUY YOURSELF A SPORTS CAR.

I HEARD A SOUND AND CAUGHT A VERY BRIEF GLIMPSE OF A MAN...

I THOUGHT YOU HAD A FAT HEAD, BUT I GUESS IT'S HARD.

THE MUG THAT WAS TO SELL BACK YOUR STOLEN NECKLACE TO THE INSURANCE COMPANY MADE THAT POINT.

I SAW HIM. HE ROBBED ME OF YOUR FUR COAT—WHICH YOUR ACCOMPANIST BORROWED.

THE NECKLACE WAS IN THE LINING, MISS MORRIS!

YOUR ACCOMPANIST, CLEO JONES, WAS THE THIEF!

HER NAME ISN'T JONES, MISTER. CLEO IS MY SISTER, AND DON'T TRY TO PIN ANYTHING ON HER!

DANGEST AGGREGATION I EVER DID SEE!

YEAH, BUT THOSE FELLA'LL PULL OL' GUZ OUTA HIS PREDICAMENT, IF ANYBODY CAN DO IT!

VIGILANTES OF TH' SKY? I'VE NEVER HEARD OF 'EM!

THEY JUST GO ABOUT TH' BUSINESS OF BIRD-WATCHIN'!

AW, WHATCHA THINK A BIRD-WATCHING SOCIETY CAN DO ABOUT POOR OL' GUZ, FOR CAT SAKE?

GADFRY! WHAT A HORRIBLE WAY TO HAFTA GO!

...TH' ONLY BRIGHT SPOT IN THIS AWFUL BUSINESS IS KNOWIN' GOOD OL' OOP KNOWS WHAT HAPPENED TO ME...

...AN' THAT SOMETIME HE MIGHT COME ALONG AN' FIND MY POOR OL' BONES BLEACHING DOWN THERE AMONG THOSE ROCKS

OH OH!

MAYBE I CAN SHAKE LOOSE FROM THIS LONG-NOSED NIGHTMARE AFTER-ALL!

WELL, ANYHOW, I'LL HAVE TH' SATISFACTION OF BELTIN' HIM A COUPLE 'FORE I GO DOWN!

HOLYCOW!
