

Mrs. Pfoest Says No Bar Found To Senate Move

BOISE, Aug. 17 (AP)—Rep. Grace Pfoest, D., Ida., says attorneys have advised her that nothing prevents her from giving up her congressional nomination to run for the United States senate. Mrs. Pfoest arrived here by plane from Washington, D. C., for tomorrow's meeting of the Democratic state central committee. The committee is expected to nominate the veteran congressman for the four-year senate term left vacant by the death of Republican Sen. Henry Dworshak. The Democratic group also will pick a replacement for Mrs. Pfoest as nominee for congress in the first district.

Boise Worker Is Killed in Paul Mishap

PAUL, Aug. 17—A Boise construction worker was killed and another was hospitalized Friday morning when a crane belonging to the Watkins Construction company struck a high power line while working on a trench.

Killed was Hoyt L. Dodge, 25, who jumped from the cab when the crane struck the power line at 7:30 a. m. According to Steve Bales, a Watkins employee, the crane struck to help Dave Bateman, 46, who was working in a trench. The crane was being moved by a chain to get the boom into position. When the boom struck the power line the current passed through the chain. Bateman was knocked unconscious and taken to Minidoka Memorial Hospital, where he died. The other man, who was injured, was taken to St. Luke's hospital. He received first degree burns on his face, chest and neck. He is in shock, according to the attending physician, but he is expected to recover.

Mrs. Pfoest said the 20-day provision had been pointed out to her by Bateman after she contacted him to ask him about proper procedure for her resignation as congressional nominee.

Asked if she knew why Walker said she did not, Mrs. Pfoest said she did not. But she added that she had talked to the state chairman before announcing her candidacy for the senate nomination. Walker said he was "very enthusiastic about my running."

Democratic Chairman Lloyd Walker, Twin Falls, had said if Mrs. Pfoest accepts the senate nomination there might be legal action questioning its validity.

Mrs. Pfoest said that at her request, Idaho Atty.-Gen. Frank L. Benson had written opinion on the section of Idaho law referred to by Walker. The statute says a person declining nomination must file the declination within 30 days after the primary.

"I also had the library of Congress prepare a brief," said Mrs. Pfoest in an interview at the Boise municipal airport. She had the briefs gone over by several attorneys.

She said she indicated there was nothing to prevent me from abandoning my congressional nomination and that this is a unanimous opinion of several attorneys."

Mrs. Pfoest said the 20-day provision had been pointed out to her by Bateman after she contacted him to ask him about proper procedure for her resignation as congressional nominee.

Asked if she knew why Walker said she did not, Mrs. Pfoest said she did not. But she added that she had talked to the state chairman before announcing her candidacy for the senate nomination. Walker said he was "very enthusiastic about my running."

Furious Words Between Symington, Humphrey Mark Blow-up of Probe

WASHINGTON, Aug. 17 (UPI)—The senate stockpile investigation exploded today into a furious exchange between Sen. Stuart L. Symington and George M. Humphrey that left spectators amazed and both men questioning the integrity of the other. The uproar came after Symington charged that the government had a "clear case" against the income tax returns of the M. Hanna company, which Humphrey headed before he became President Eisenhower's first secretary of the treasury in 1953.

Kennedy Backs Public Power at Start of "Non-Political" Tour

PIERRE, S. D., Aug. 17 (UPI)—President Kennedy campaigned in the water-conscious West today for greater public awareness that the massive government hydroelectric projects are of national, and not merely regional, importance. The President stood on the base of the huge Oahe dam, constructed and operated by the army corps of engineers, and told an open-air audience that continued resource development is as important to national security "as any military alliance or missile complex."

Swedes Give Permission For Abortion

STOCKHOLM, Aug. 17 (AP)—Mrs. Sherri Finkbine was admitted to the Caroling hospital today within hours of winning permission for the legal abortion. The operation was the first she was denied in the United States.

It was performed almost immediately after Mrs. Finkbine's admission to the hospital.

Permission for the abortion was granted by the state medical board this morning on the grounds that prolonged pregnancy and birth might endanger her physical health.

The 30-year-old Phoenix, Ariz., television performer, already the mother of four, had feared her fifth child would be born deformed because she had taken the drug thalidomide during the early stages of her pregnancy.

Recognition For Peru U.S. Given by U.S.

LIMA, Peru, Aug. 17 (AP)—The United States recognized Peru's military government today.

The United States suspended relations July 18 after a military junta took over.

Because of diplomatic differences has been forecast for the past week or so and informants said last night the resumption would be announced today.

Diplomatic relations, along with \$1 million dollars in U.S. aid, were suspended when the score—Washington's disapproval of the ouster of a civilian government by the military. In the interim, U.S. officials sought evidence that the new regime would pursue democratic ways.

Radioactivity Climbs After Nevada Tests

WASHINGTON, Aug. 17 (AP)—Government scientists reported today that—radioactivity—iodine levels took up for the second time two Far West monitoring stations because of fallout from Nevada tests over Nevada.

The public health service reported an average concentration of 580 microcuries of iodine-131 in each liter of milk from 30 to 40 in Idaho, Utah, The Laramie, Wyo., station topped up a 370 reading.

Elsewhere in the nation, however, radioactive iodine fallout remained at low levels, the service said. The national average rose from 30 in June to 40 in July, though, because of the two high readings.

Harding Says Freeman Farm Bill Being Misunderstood

Rep. Ralph Harding, here, at committee. He is the first Idaho congressman ever to serve on this committee, he said, and he said he had been misled by the committee immediately brought increased appropriations for Idaho and specifically three million dollars increase in government funds for the Idaho FHA program.

He explained he feels his service credit for the additional benefits Idaho received. All bills have to go through the house and senate committees before they get to a vote. Harding said he specifically three million dollars increase in government funds for the Idaho FHA program.

Satellite Bill's Passage Looms

WASHINGTON, Aug. 17 (AP)—The senate cleared its clock today for expected passage of the administration's communications satellite bill.

Opponents of the measure—throttled by a debate limitation—offered 47 amendments to the bill and saw each killed by standing "no" votes.

Abandoning their delaying tactics, they submitted many of these proposals in a block.

House Votes GI Insurance Plan

WASHINGTON, Aug. 17 (AP)—The House has passed a bill to reopen the GI insurance program to disabled veterans of World War II and the Korean war—but not to able-bodied ones.

The bill now goes to the senate.

After signing bill for the Mann Creek federal reclamation project in Idaho, President Kennedy handed a special message to Congress, signed by Sen. Frank Church, D., Ida., center, also left a post. (AP wirephoto.)

Parade Winners at Gooding Reported

GOODING, Aug. 17—Winners of the two parades which opened the Gooding county fair and rodeo Thursday were reported today as judging in the three-day event neared completion. Large crowds were reported by Mrs. Elmer Meyer, fair board secretary, but as entry is free there were no tabulations available. Fitting and showing of 4-H livestock was held Friday morning in addition to 4-H home economics demonstrations. Grand champions in the open classes include Robert Schiffer, Holstein cows 4 years or older; Carolyn Conrad, junior and senior champions in the jersey heifer class; Beverly Hester, Milking Shorthorns 4 years or older.

Star's Estate Value Passes Half Million

NEW YORK, Aug. 17 (AP)—Katharine Hepburn's estate, valued at more than \$1 million, left an estate estimated in excess of half a million dollars.

The will, executed here on Jan. 10, provided for \$100,000 trust fund to provide \$5,000 a month for the maintenance and support of her three children, Gregory, Robert and Christopher. The trust also provided for \$250,000 a year for the maintenance and support of her daughter, Michael, a friend and mentor of the actress.

Local Jurors Deadlock on Traffic Case

Forty-five minutes of deliberation Wednesday afternoon resulted in a deadlock on the jury in the trial of Albert D. Baker, who is charged with driving a car through a red light.

The jury was composed of 12 members, six men and six women. The jury was unable to reach a verdict on the charge of driving through a red light.

Dedication

LEWISTON, Aug. 17 (AP)—Two governors, two U.S. senators, a host of dignitaries and several thousand spectators will gather in a broad meadow on the grass east of here Sunday for a dedication of the Idaho-Montana line, which will be the scene of the official opening of the Lewis and Clark Highway. Governors Robert E. Boyle of Idaho and Tim Babcock of Montana will say a log opening the road to the west. Gov. G. D. Tamm, will deliver the major address.

5 Americans Freed From Pre-Red Jails

VIENNA, Aug. 17 (AP)—Five Americans from pre-communist jails in Czechoslovakia were freed today, but they are hungry, they sometimes ate weeds.

The Americans arrived here in a Soviet Illyushin transport plane after their release by pro-communist forces which captured them more than a year ago during the Russian civil war.

Mrs. Kennedy Watches Dancers

RAVELEO, Italy, Aug. 17 (AP)—Mrs. John F. Kennedy relaxed today at an informal evening lunch where dancers did the twist and hula. Mrs. Kennedy did not join the dancers.

Earlier in the day, Mrs. Kennedy went for a sail aboard the Angeli yacht in the bay of Salerno. When the yacht headed back to shore, Mrs. Kennedy dived off the deck to swim back to the beach house.

Tabernacles Setting for Miss Hill, May Rites

ROBERT, Aug. 17—The Relief society room in the Hancock tabernacle, Fossilville, was the setting for the wedding of Miss Hill, daughter of Mr. and Mrs. Robert Hill, Grace, to Mr. Howard May, Rupert, July 17.

The double ring ceremony was solemnized by President Dee L. Anderson. The bride wore a floor-length gown of Chantilly lace and a fitted corset with a sweetheart neckline and a short lace overblouse with three-quarter length alternating gossamer and tulle ruffles. Her sheer illusion tulle veil was held by a circle of pearlized green blossoms and tulle of the valley. The bride carried a cascade of white roses and stephanotis accented with blue and silver leaves.

Maid of honor for her sister was Lynn Hill. Bridesmaids were Ann Lloyd, Katherine Unsworth and Jean Lester. Sister of this bride was also present.

Each wore a semi-queen gown of pale blue tulle taffeta. The bride's hair was styled in white epineurals with blue and white ribbons. Her accessories included a pearl necklace, earrings, and a bracelet. The groom wore a tuxedo with a white shirt and a blue bow tie.

Flower girls were April Jean and Mary Ann. Ring bearer was Ronald Sanders. The reception was held at the Hancock tabernacle. The bride and groom were accompanied by their families.

MR. AND MRS. WILLIAM C. GRANT (Dudley photo)

Donna Eilers, Grant Repeat Marriage Vows

Donna-Marie Eilers, daughter of Mr. and Mrs. Irving Eilers, and William C. Grant, son of Mr. Adolph Grant, Raymond, Neb., were united in marriage August 14 at Immanuel Lutheran church, Twin Falls.

The Rev. Robert Brown, pastor of the church, officiated. The bride wore a white gown with a blue sash and a white veil. The groom wore a tuxedo. The ceremony was held in a beautiful setting.

Agent Gives Data About Key Awards

PLER, Aug. 17—Requirements for the Stevens key awards were explained Friday by Olan Genn, Twin Falls 4-H county agent.

To be eligible for the award, Genn said, members must have passed their 1961-62 club year-end report by Jan. 1, 1962, have completed four years of 4-H club work, one year of junior leadership and their application form must have a total of at least 125 points.

Genn also announced at a meeting of the Pler 4-H council that club members who will need to be excused from school for Twin Falls county fair should turn in their excuse blanks at the 4-H office or to their school principals.

Raymond Ohlenschlaen, president, is in charge of the meeting. JOANN OWEN served as secretary in the absence of the secretary.

Julie Anderson, reported, that the Twin Valley 4-H club had made a profit of \$10.50 at the conclusion on Achievement day.

Mrs. Arlene Hurst, Twin Falls home demonstration agent, told the group how Buhl holds its 4-H club classes in the morning of Achievement day—before the plan serves to work out well.

Mrs. Hurst expressed her disappointment that more home economics girls had not attended the modeling practices. She also regretted that no one from the Twin Falls county had given demonstrations on dairy products, bread, hard or lamb.

Achievement days were discussed at some length by the group many of whose members felt that it would be better to just evaluate 4-H projects on that day, rather than judge them. It was agreed by all present that members would gain much from watching the fitting and showing demonstrations and would learn how to show their own animals.

A desire was expressed for more constructive criticism on the 4-H horse projects. The question was raised whether any demonstrations previous to the fair only apply in the home economics department.

Rulings on the horns of beef at the fair were explained by Genn who said that the National 4-H council suggests all animals be shown without horns. Male animals are outlawed in 4-H at the fair.

The good and bad points of using tranquilizers on show animals were brought out and most members agreed that use of such drugs did not make animals show at their best. However, it was agreed that the use of tranquilizers should be left to the decision of each individual.

Genn instructed members who will take 4-H horses to the fair. He stated that strict regulations will be placed on horses and riders.

Tom Parks, fair board secretary, said if the council would suggest some one for a night watchman during fair week, that he would deputize the watchman so he would have the proper authority.

The district fair program was read by Ohlenschlaen.

Judge Uses Odd Sentences In Effort to Cut Traffic Toll

SANTA MONICA, Calif., Aug. 17.—When Judge W. Blair Gibbens took over this beach city's traffic court last October, it didn't take him long to become concerned about rising traffic violations.

So, he sentenced a young woman an spectator to four hours of watching wreck victims brought into a receiving hospital emergency ward, made several young men spectators don jail uniforms and sweep streets of traffic accident debris, showed 100 violators a color-sound police movie of traffic accidents that pictured the dead, the dying, the mangled—a truck driver burning alive.

During the show, two women had to be treated for nausea and shock. "I want to reduce accidents, which have killed more Americans than wars, not to mention the pain, suffering and economic loss they bring," the judge said.

Judge Gibbens, 61, is a veteran of 35 years of legal practice. He gives violators a choice of a conventional sentence or a short, odd one—like five days in jail or one day of sweeping. He cut \$3 off the fines of those who viewed the traffic film.

Is it working?

"Traffic citations have dropped 30 per cent. Accidents appear to be down as much as 10 per cent," said the judge.

Space Flight Of U.S. May Be Delayed

BLAUGHER, Va., Aug. 17 (AP) — D. Brainerd Holmes, director of manned space flight programs, said today that the flight of the first U.S. Mercury satellite, scheduled for Sept. 15, probably will be delayed until the middle or end of September.

This was the first official indication that there may be a delay of one or two weeks in the flight. Previous published reports had set the launching date at Sept. 15.

Holmes told the Associated Press that even if everything is going perfectly all the way, the flight will be delayed to make more than the scheduled six orbits.

The national aeronautics and space administration official made it clear that even though the Russians are expected to launch their satellite in the next three and four days respectively this week, there will be no extended flight for Schirra.

The flight is not expected to be large enough to contain the oxygen and other supplies needed for longer missions.

Pool Project Outlined for Wendell Meet

WENDELL, Aug. 17 — Mrs. Ray Peterson, member of the recreation committee, reported on the swimming pool project at the Tuesday evening dinner meeting of the Wendell Chamber of Commerce at the Bookman's cafe.

A work committee was set up for Wednesday evening to prepare the chamber floor to be entered in the Gooding county fair parade on Thursday night. Mrs. Peterson was appointed to head the work committee. The secretary was requested to send a letter to the Board of Health to request a permit for the parade. A decision will be made at the September dinner meeting concerning the most appropriate time for the parade. The date of the parade will be held on Sept. 24. The parade will be held on Sept. 24. The parade will be held on Sept. 24.

Hailey Street Project Begins

HAILEY, Aug. 17 — Seal-conting the eight and one-half miles of Hailey city streets began Thursday with the city engineer, states it will take approximately five days to complete the work which is being done by Barnhart and Wheeler, Pocatello.

James Carney, Twin Falls, who recently purchased the William Jacklin property lying between the street and the city limits and Big Wood river, met with the city council at their regular meeting this week and requested city water service for the new home he has erected on the property.

Carney will subdivide the land and plans to sell lots.

News Around Idaho

MCALL, Aug. 17 (AP) — A lightning storm set a number of forest fires in southwestern Idaho Thursday but officials said today none is regarded as dangerous. Most already were reported under control and Payette national forest officials here said the others were not expected to cause any difficulty, barring unfavorable weather conditions. One new fire was reported on the Boise national forest, in the Bear Valley area, but officials said it was controlled quickly.

BOISE, Aug. 17 (AP) — Bids on two southwestern Idaho forest way projects were asked today by the U. S. bureau of public roads. One project involves resurfacing of the existing roadbed, laying of a crushed aggregate base and a bituminous surface on 17 miles of the road from Cascade to Warbler. The second project involves resurfacing of a 0.3 mile stretch of the McCall-Warren highway damaged by a landslide.

REXBURG, Aug. 17 (AP) — A lightning-caused fire was reported under control today after destroying about 1,000 acres of watershed near Hedo, 16 miles southeast of Rexburg. Crews with much water equipment moved in to halt spread of the blaze. Butch Zuberhizer, an official at the Targhee national forest headquarters, said the fire was on a burst of land management land east of the Kellogg-Canyon road, in foothills bordering on the Targhee forest.

North Carolina Town Lives Science Fiction Nightmare

WALDEN, N.C., Aug. 17 (AP) — A town in North Carolina lived a science fiction nightmare. Needles at the Walden Bosley mill stopped for a few minutes, then began running backwards, entangling, instead of knitting socks.

Conveyor belts in manufacturing plants began backing up, hurdling goods toward the wrong end of production lines.

Power boilers spewed flames and smoke as forced draft went normal.

Leads a few unbelievable moments. Then the electric power stopped for a few seconds and returned to normal.

Mrs. Thietten Is Taken by Death

KIMBERLY, Aug. 17 — Mrs. Rose L. Thietten, 84, 312 Main street south, Kimberly, died at 8:30 a.m. Thursday at the Sky View Manor, Twin Falls.

She was born Nov. 18, 1877, in Clark county, Mo., and came to Kimberly from Arlington, Va. In 1947, she was married to George Thietten Aug. 17, 1890, at Loraine, Ill. She was a member of the Episcopal Methodist church. Her husband died in June, 1942, and two sons and a daughter also preceded her in death.

Surviving are a son, Claude Thietten, Kimberly, a sister, Mrs. Maude Hoffin, Missouri, and two grandchildren.

Funeral services will be conducted at 2:30 p.m. Saturday in the Reynolds chapel by the Rev. John B. Sims, Kimberly Methodist church, concluding time will be held in Sunset Memorial park.

T.F. Camera Club Sets Field Trip

PILER, Aug. 17 — The Twin Falls Camera club will meet at 9 a.m. Monday at Fairchild for a field trip.

Red Square Readied for Celebration

MOSCOW, Aug. 17 (AP) — Platoon of workers "rolled" today the Red square for the Soviet Union's reception for its astronaut twins, MAI Andrian Nikolayev and Liouk. Col. Pavel Popovich.

Just when the record-breaking astronaut will be given the welcome that Premier Khrushchev has promised them remained an official secret. But the general impression was that it will be Saturday, the eve of Soviet air force day.

Trimmings which go with big events were up in Red square while Nikolayev and Popovich were flown to a new base, closer to Moscow, for a continuation of the debriefing begun on their landing Wednesday in Kazakhstan about 1,500 miles southeast of this city.

Along Fences and Canals

One hundred and twenty acres of sweet corn on the Charles East ranch at King Hill has been harvested and hauled to the Green Giant cannery at Bull for processing.

Local farmers report no more information has been received on the unidentified airplane flying over the farms in the area last week. Farmers are finishing their second crop of hay this week and most of the grain has been combined.

Most District farmers have completed their second crop of hay, and many are ready to combine grain.

Two planes are back at Fairfield to spray for grasshoppers for farmers who didn't have fields sprayed before. County Agent John Paulson believes spraying will be completed in about three days.

Newell Brooks, William Stoen and other farmers are combining the east end of Camas prairie. Jim Kevan is combining near Johnson Hill and John Humphrey combined one field on the west end of the valley near Corral. It will be a week or two before the entire wheat harvest will begin this year.

Some 250 Hereford feeder cattle were sold this week from the Earl Richards' farm, King Hill, operated by Mr. and Mrs. Paul Erickson.

Watermelon harvest is under way at the Weasley Pink melon farm and the Robert Graham ranch. The melons are picked, loaded into trucks and delivered to Idaho Valley stores.

Mr. and Mrs. John Baptie, King Hill, have returned from Madison where they imported pasture-lamb-and-sheep-and-walrus-killers. The sheep soon will begin to shear and the Baptie ranch where they are fed throughout the winter and lambing operations are held.

Jack Lewis moved 45 cows and calves from the James Lewis pasture south of Dietrich to his farm near Richfield.

Ever Freeman has just completed his second cutting of hay as well as harvested his pea crop and is getting ready to thresh his grain this week on his ranch south of Bull.

The John Wilsons who have a fruit orchard north of Bull will not see peaches this year. The trees never even bloomed this year as the below zero winter weather from the dormant stage. However, Mrs. Wilson reported the apple crop is doing well and will be picked around Oct. 1.

Mr. and Mrs. Charles Kasl, King Hill, went to Fairfield to look over their cattle and ranch which is operated by their son, Albin Kasl.

James Criffield has been harvesting grain at the John Sanborn ranch, Hagerman. Criffield rents the Sanborn ranch in Pasadena Valley.

About 350 acres of wheat is being combined at the Mahoney ranch of Albion. Larry Mahoney is reporting preparatory to seeding creek wheat grass for pasture. He reports the tile pipe installed several months ago from a spring on the upper ranch is paying dividends now during the dry weather.

Bert Neyman is finishing combining about 320 acres of wheat at his ranch southeast of Albion and reports a bumper crop.

Ira Pearce, who recently purchased the Emmett Crystal ranch near Albion, has moved his family there from Colgate Grove. Pearce will build an addition to the house. Pearce raises purebred sows and horses. The Crystals are taking an extended trip on the West coast.

Chris Wegman is one of the first farmers in North Shoshone area to finish his wheat and mixed grain harvest. He reports his wheat averaged 21 1/2 bushels to the acre and mixed grain on one 14 acres produced 168 bushels of grain.

Referendum Vote Faces American Wheat Farmer

WASHINGTON, Aug. 17 (AP)—Farmers will vote, undoubtedly favorably, on a referendum to amend the 1933 wheat act to reinstate a control program in effect for wheat until this year's crop is harvested.

The referendum offers growers little choice other than acceptance, they approve the act, or should they reject it, the support rate would drop to \$1.50 and there it would be available only to those farmers who planted within acreage allotments—given them under the rejected program.

The old program, enacted in 1933, provides for a national minimum planting allotment of 65 million acres and marketing quotas based on this allotment. It also sets aside this program that the present wheat surplus was grown and accumulated.

TASTES BETTER WASHINGTON, Aug. 17.—The U. S. department of agriculture food specialists say high fat content is not essential to produce good eating quality in cooked lamb and that test cuts can be tender, juicy and flavorful.

Brother, Sister Team Wins Fete

GREAT FALLS, Mont., Aug. 17.—The grand championship steer show of the 1923 Idaho State Fair in Great Falls has been awarded to "Lethal," a type Hereford born to 10-year-old Donna Phis, Chester.

Conference Is Proposed for Meat Groups

KANSAS CITY, Mo., Aug. 17.—The livestock auction markets association and National Livestock Dealers association have expressed their approval of the U. S. department of agriculture's recent action in proposing an industry committee to review current regulations for administration of the packers and stockyards act.

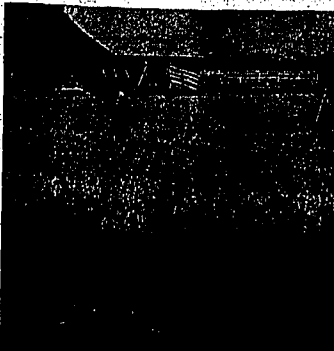

The USDA proposal is contained in letters to the presidents of the industry trade associations of all segments of the livestock, meat and poultry business directly subject to the act and those affected or concerned with the implementation and administration of it.

Livestock auction markets and dealers comprise the largest number of registrants under the act.

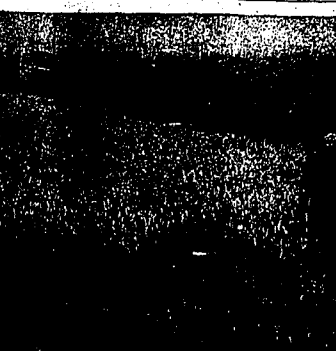

Concerning the USDA proposal, Raymond Schell, president of the markets group said, "The association fully endorses this idea and will lend its full support and cooperation to the extent necessary to accomplish this objective which we deem to be vital and important."

William D. Reamy, president of the Dealers, added, "The Dealers association welcomes and endorses the proposal for a conference of the industry under the act which might be implemented and administered to the most effective advantage."

The conference, in effect, would be a working task force from all elements of the associated industries acting in cooperation with the USDA.

ELIMINATION OF A BLIND CORNER for drivers was the purpose in the mind of Radford Walker, southeast of Kimberly, when he arranged crops in this fashion. Instead of running silage corn right up to the corner, he planted

a mixture of wheat, oats and barley in an area extending for about 200 feet along each side of the field. Walker and his son, Gene, right, are shown standing in the grain planting. (Times-News photo)

Prices Paid For Wool to Begin Slump

WASHINGTON, Aug. 17 (AP)—In a review of the wool situation, the department of agriculture says prices received by growers for sheep wool will begin to decline moderately from the May-June level during the remaining months of 1962.

The anticipated decline reflects the easing of mill demand for wool as the mills are beginning to reduce the backlog of unfilled orders for apparel fabrics.

In addition, prices of many of the competing man-made fibers have been lowered during the past year, resulting in increased price competition between the two.

The foreign agricultural service has estimated world sheep numbers in 1962 at 992.5 million head, up 1.2 per cent from 1961, but slightly below the record high of 993.5 million head in 1960.

Of the world total, the United States has 31.4 million head. This is 4.9 per cent of the total of 33 million head in 1961. Oceania, Australia and New Zealand, is the largest sheep producing area in the world. It has the sheep in Oceania were gathered into one band it would contain more than 252 million animals.

PROMOTED RACINE, Wis., Aug. 17.—Beyard Washburn, presently sales manager of the J. I. Case company branch, Salt Lake City, has been named product manager, harvesting by Morris W. Keld, vice president-marketing.

WHICH IS BEST FOR YOU? Innes HAS THE RIGHT EXTRA W-I-D-E METHOD FOR HARVESTING EDIBLE BEANS... AND

1 WILL EXACTLY FIT YOUR PROGRAM!

1 Innes BEAN WINDROWER

Now you can form an easy-to-pick-up window from four, six or eight rows with the new Innes lines. Innes forms the window above the ground, above the dirt and stones to give you cleaner, faster drying beans. Reduces losses to a minimum, cuts losses from wind and rain. Saves combine, repairs and wear. Truly, it's the most versatile method to harvest edible beans.

2 EXTRA W-I-D-E 15L CON SWATHER
 Mount an EXTRA W-I-D-E 15 L.C. on your S.P. Swather and you'll have a window swather. EXTRA W-I-D-E especially with model 10 to 172" wide. Windows are wider and dry faster than raised beds, and users report less than 3% dirt.

Whichever Windrowing Method Used, You'll Want the Innes 15L-C

on Your Combine for Many Window Work... 15' wide or the EXTRA W-I-D-E from 100" - 172" wide that uses full power of your big, modern combine, even picking up two windows at a time to handle lower density never weep, can't plug... and costs up to 43% less.

Area Farmer Eliminates Blind Corner On Rural Road by Planned Planting

Radford Walker has a personal interest in traffic safety because his father met death at a blind corner accident.

The well-known area farmer, residing southeast of Kimberly, is doing his part in planned agriculture on county roads by planting in his fields.

A good example is one of his fields which meets an intersection one mile south and one mile east of Claborn corner. Rather than plant silage corn right up to the corner of the field he has planted in a corner triangle with a

mixture of wheat, oats and barley. The result is worth the effort, motorists approaching the corner from the north or from the east find that they have a clear view of cross traffic in an area extending some 200 feet back from the intersection.

"I've had close calls myself on blind corners," Walker said, "I could see no real reason for making this a blind corner when it was not necessary. That is why I planted as I did."

His son, Gene, shares his father's concern over the rising death toll on Idaho's roads, with perhaps a majority of the deaths in this area, being on rural roads.

OFFERS RECEIVED WASHINGTON, Aug. 17.—Two offers to process butter from commodity credit corporation—The U. S. department of agriculture. One bid involved 77 million pounds of butter at 47 cents per pound; the other 93 million pounds at 49.7 cents.

TWIN FALLS — BURLEY — RUPERT — JEROME

Forecast for Potato Crop Is Uncertain

BURLEY, Aug. 17—The only detailed estimate which can be reached on the cloudy Idaho potato production picture for 1952, according to Vincent S. Cross, Minidoka-Cassia extension potato agent, is that the quality will be the best since the weather was so good. The agent reports tabulations from growers planting approximately 30,000 acres of the crop in the area indicate a five to six per cent decrease in plantings compared to last year. Personnel and fieldmen show an average of 70-75 in to 100 to 150 feet of row on nine-inch plantings in 1951.

Poor planting conditions were caused by many factors, Cross explains, including a cold wet spring, shortage of seed which was scarce, temperatures above normal, and failure to warm seed. The average planting date was approximately 10 days later this year than last and this will definitely lower the yields if potatoes are not planted by the normal Sept. 7 to 15 frost period, Cross adds.

Farm Group Hears Buyer At T.F. Meet

Jerry Wilson, Twin Falls, a bean buyer and shipper, spoke on bean production problems in shipping when he addressed members of the National Extension organization during the monthly meeting Tuesday evening in the Idaho Power auditorium in Twin Falls.

Everett Buehler, Buhl, spoke on foreign exports and bean production in the United States. Meeting with the group, along with Wilson and Buehler, were Steve Barlow, Hamilton, and Tom Peterson, Oboon, and a representative of the Western Bean Dealers Association in Twin Falls.

The committee members pointed out they were very concerned with the very heavy frost today. Their purpose is to work closer to the farmers so as to get a better understanding of their problems and also to give the farmer a clearer picture of warehouse problems.

Englishman Studies Horticulture Of Area at Filer Research Center

BY GARY, EDWARD LEBERMAN
FILER, Aug. 17—Americans and Englishmen have a great deal in common and are very much alike in many ways, asserted Peter Robert Taylor, Young University of London student, who is presently working in the Magic Valley and is conducting his horticulture studies in the area.

"If the English people seem to be the Americans, it is because of the common background, especially the tourists, give the impression that anything new that is discovered is always done first by Americans."

Taylor has been in the United States a little over three weeks. It is his first trip to America. Four years ago his parents, while on a vacation trip to the Bahamas met Dr. and Mrs. Dean Atfield, Twin Falls, when Peter's parents told the Atfields of his practical study of horticulture. They suggested that Peter write to the Agronomy research center, asking for a summer job. He could study methods of agriculture and horticulture worked at the center. He is especially interested in the hybrid corn breeding program studied at Atfield.

The young man has finished two years at Wye college, the agricultural faculty of the University of London. Since it is a three year course, he will graduate next year. Since it is a three year course, he will graduate next year. Since it is a three year course, he will graduate next year.

Export of U.S. Farm Items Reaches Record Proportions

WASHINGTON, Aug. 17—The value of U.S. farm exports in fiscal 1951 reached a record of \$1,800,000,000. This was 264 million dollars more than the total exports of \$1,536,000,000 in fiscal 1950.

The agriculture department's economic research service said the volume of exports also was slightly above last year's record. Major items included grain, meat, and cotton. Total farm exports in 1951-52: Feed grain exports increased 180 million dollars and wheat 185 million dollars, while cotton shipments declined 285 million dollars.

Cheddar Cheese

WASHINGTON, Aug. 17—A cheddar cheese contract for more than one million was awarded by the U.S. Dept. of Defense to supply 1.6 million cases of cheese spread to the military service.

New Farmhand Beet Harvester
Gets MORE Beets, CLEANER Beets
The All New Farmhand
Tank-Type 1-Row BEET Harvester
with automatic row finder and all the PLUS features of the popular 250-2-row harvester

See the machine that tops them all for speed, best recovery and cleaning capacity. A new design, 250-2-row, two 24-40 in. rows, or two 14 in. rows on a bed and the Model 250-1 which handles two 24 in. rows. There's a machine to fit any row spacing, any soil conditions.

And The Unbeatable
250-2-ROW HARVESTER

These new Farmhand multiple row Sugar Beet Harvesters get all your beets—and get them cleaner than ever before and possible. Why? Because Farmhand's famous patented lifter wheels are now incorporated with a new cleaning system that gives every beet twice the amount of cleaning action. Farmhand's rubber flaps rasp off most of the dirt as the beets are lifted out of the ground. All beets travel the full length of the new rink system. "Rubber" spacers between steel rinks give a flexing action for added cleaning efficiency, and prevent rock damage or jamming. More than twice as much cleaning chain as on other machines give Farmhand Harvesters unexcelled cleaning ability.

New Farmhand Beet Harvester
Gets MORE Beets, CLEANER Beets
The All New Farmhand
Tank-Type 1-Row BEET Harvester
with automatic row finder and all the PLUS features of the popular 250-2-row harvester

See the machine that tops them all for speed, best recovery and cleaning capacity. A new design, 250-2-row, two 24-40 in. rows, or two 14 in. rows on a bed and the Model 250-1 which handles two 24 in. rows. There's a machine to fit any row spacing, any soil conditions.

And The Unbeatable
250-2-ROW HARVESTER

These new Farmhand multiple row Sugar Beet Harvesters get all your beets—and get them cleaner than ever before and possible. Why? Because Farmhand's famous patented lifter wheels are now incorporated with a new cleaning system that gives every beet twice the amount of cleaning action. Farmhand's rubber flaps rasp off most of the dirt as the beets are lifted out of the ground. All beets travel the full length of the new rink system. "Rubber" spacers between steel rinks give a flexing action for added cleaning efficiency, and prevent rock damage or jamming. More than twice as much cleaning chain as on other machines give Farmhand Harvesters unexcelled cleaning ability.

Cattle Feeders Gather For Sun Valley Session

BOISE, Aug. 17—A two-day, two-night session for the first annual mid-summer get-together of the Idaho Cattle Feeders Association... Ralph Omsland, Twin Falls, president of the association, announced with a new policy adopted by the feeders board of directors, the association will sponsor annually a state-wide...

Insecticides Kill Even in Concrete Use

WASHINGTON, Aug. 17 (AP)—Researchers are trying to develop a method to keep new buildings free of termites by mixing an insecticide into the concrete foundation. Entomologists at the University of Wisconsin, working in conjunction with the agriculture department's forest products laboratory at Madison, found that dipterous insects that crawl over the concrete through their feet...

Testing work began in 1950 and will continue until 1963. The method is effective as long as the termites are not recommended as a long-term control measure for the post-war era.

NEW HONORED—WASHINGTON, Aug. 17 (AP)—Sherman M. Johnson, deputy administrator of the economic research service, and Dr. Richard M. Hoar, recently retired chief of the forest service, have been elected to membership in the Royal Swedish Academy of Agriculture and Forestry.

DAIRYMEN can now prevent clogging of their pipes that may be slowing up their pipeline milking operation with the new in-line filter. The filter body is stainless steel and does its work at the end of the milk line—the milkroom. Milk drawn through by gravity without disturbing the vacuum supply which is necessary for a good job of milking.

New Filter Added to Milking Assembly to Help Sanitation

CHICAGO, Aug. 17—A new in-line filter for milking lines, which can be installed in multiple milking operations, is announced by Babcock & Wilcox Co., Chicago. The filter is designed to prevent even the possibility of partially clogged strainers that might slow up the milking operation. Since the filter is located in the discharge pipe, it can not affect the vacuum supply so necessary to do a good job of milking.

allows one to surge in-the-line milk through the filter entirely by gravity. The milk is not forced through by air or forced through by vacuum, but it is drawn through by gravity. The filter is designed to prevent even the possibility of partially clogged strainers that might slow up the milking operation. Since the filter is located in the discharge pipe, it can not affect the vacuum supply so necessary to do a good job of milking.

U.S. Finances Big Part Of Record Farm Exports

WASHINGTON, Aug. 17 (AP)—The government financed almost 1.6 billion dollars worth of farm exports which went overseas in fiscal 1962. This was 31 per cent of the record total farm exports of almost \$4-billion-dollar.

Diseased Animal Law Is Amended

WASHINGTON, Aug. 17—Federal regulations governing payments to farmers for cattle destroyed because of livestock disease were amended by the U.S. Department of Agriculture. Effective Sept. 6, premises without building, holding facilities, or other equipment are exempt from cleaning and disinfecting requirements.

Canadian Wheat

WASHINGTON, Aug. 17—The foreign agricultural service says Canada's 1962 wheat crop totals 124 million acres, an increase of six per cent over 1961.

Balance Credit, Needs Warns Finance Official

EDGEWATER PARK, Miss., Aug. 17—American farmers, now using growing amounts of capital, should seek to maintain a proper balance between their long-term and short-term debts, a national credit official advised here today. According to Don H. Blahnik, deputy governor and director of land bank service for the farm credit administration, "farmers stand to save in interest charges by keeping their capital debt as opposed to debt for operating expenses on a lower-cost, long-term bank."

VOLCO BUILDERS SUPPLY JEROME-TWIN FALLS-BURLEY

MOUNTAIN STATES IMPLEMENT CO. 126 2nd Avenue South

EXAMINING some Siberian wheat grass in the Rock creek area are Clif McDowell and his daughter, left, and Clarence Hodrick, right. McDowell raised the grass on his ranch and for the first year the results appear to be excellent. The grass was planted on some of McDowell's poorest land. The scene is com-

bled shortly after the grass is cut. Raising grass seed requires two to three irrigations per year and little work once the seed is planted. The seed was provided by the Twin Falls soil conservation district. Grass is an excellent soil builder. (Times-News photo)

Members

GOODING, Aug. 17—Double Diamond Herefords were among the 129 Hereford breeders named to membership in the American Hereford association during July. The July additions to the official roster boost the association membership to an all time high of 44,211.

Grazing Best In Years for Areas of West

DENVER, Aug. 17—The agriculture department said today western ranges were providing the best summer grazing since 1958. The department said here grazing conditions showed the usual seasonal decline in July in the 37 western states, but were still much above average in most places. "Rangeland conditions were the best since 1958," the department said. "Conditions were generally favorable except for some dry areas in the southwest. The department said good precipitation during July supplemented already favorable soil moisture supplies in the plains and the Rocky mountains. "Overstating is in abundance in the northern and central plains and is adequate over much of the southern plains except in southern Texas where dry weather has caused serious deterioration of grass," the department said.

Wholesale Milk Price Declining

WASHINGTON, Aug. 17—Although an upturn in wholesale milk prices was primarily the result of a four per cent increase in the mid-July dairy products index, the increase was less than seasonal, four per cent under a year earlier, and the lowest for the month since 1958, the U.S. department of agriculture reports. The index of prices received by farmers as a whole was up 4 per cent, and the index of prices paid for commodities and services was two per cent above a year earlier.

Production of Grass Seed Can Boost Depleted Soil With Minor Investment

ROCK CREEK, Aug. 17—Grass seed production on the Clif McDowell ranch has produced excellent results for first year of growth. The Twin Falls soil conservation district made the seed available this spring through the soil conservation service and the Aberdeen field station. McDowell impressed with growth of the two varieties he planted, Alkar and Siberian wheat.

The anticipated yield will be about 400 pounds per acre on the Alkar and slightly higher on the Siberian. The grass was planted on some of the poorest fields. The Alkar is now almost chest high. The Twin Falls soil conservation district has the largest grass seed program in western states with almost 100 cooperator participating. Some 120,000 acres of land have been seeded in the county since the program began nine years ago. From a "money standpoint," almost \$10,000 worth of grass seed is produced. The advantages of growing grass seed are little effort in raising it to maturity in the crop two or three irrigations per year suffice; seed can be sprayed out of some older grass vehicles depleted soil and it can furnish excellent pasture when turnip root germinated. Generally, the grass is held in seed production for four years; then it can be converted to pasture at almost no cost. The only disadvantage is that the first year is a low yield year, and the return is minor. After the initial planting, the only thing required is one early cultivation and some irrigation. Production increases after the first year. Many Twin Falls county farmers are looking to grass seed production as a means of putting some into a land squeeze. It should be pointed out that the better the land, the better the yield. Some growers have realized over \$100 per acre with grass seed, but they can realize more profit from poor land with grass than they can with hay or corn.

Once the cooperator signs with the grass seed program his only responsibility is to repay to the soil conservation service the seed that was made available at no charge to the user. He has received inquiries from Norway, Finland, Spain, Ireland, Denmark, Canada, France, Peru, Egypt, Sweden, Mexico, the Netherlands and West Pakistan. In the article, the Idaho-Chemical center now processes for oxidizing potato starch, potato flocculant showing excellent per-

formance in effecting rapid settling of a phosphate tailing and a core binder from the potato which gives a higher green strength in sand molds than a commonly used corn starch binder. Products from waste would aid the general economic picture for potato processing and reduce stream pollution. The recovery of calcium from waste peeling solutions was found to be economical. Pollution can be greatly reduced by the growth of bacteria on protein water from starch plants. Such a procedure would involve minimum capital investment and the solids recovered could be used for fertilizer or feed supplement. "Such uses for the potato can contribute to the general stability of the market with a greater return to both grower and processor," Dr. Jackson concluded.

NO INCREASE WASHINGTON, Aug. 17—Shipment of dairy products abroad did not increase in 1961, although U.S. agricultural exports jumped four per cent above the previous year's 4.9 billion dollars, recent U.S. department of agriculture figures revealed.

He has received inquiries from Norway, Finland, Spain, Ireland, Denmark, Canada, France, Peru, Egypt, Sweden, Mexico, the Netherlands and West Pakistan. In the article, the Idaho-Chemical center now processes for oxidizing potato starch, potato flocculant showing excellent per-

Games Wheat Acceptable For County

Twin Falls County Assn. Donald Youls says his office has had several requests regarding the adaptability of Gaines wheat to southern Idaho conditions. Gaines has not been grown in Southern Idaho irrigated and dryland nurseries prior to this year.

The short white winter wheat was developed by Washington State university for the Palouse area and is superior to Lemhi under irrigation at comparable levels of fertility.

How a winter wheat will fit in with Twin Falls county farming practices has not been tried. There are many varieties of grass seed. Each is adaptable to different soil and climatic conditions.

Seed dealers, as well as county agents, have a list of northern wheat growers for farmers who are interested in this new variety. Gaines is not adaptable to southern Idaho drylands as the quality would not be acceptable for either pasture purposes or for bread flour, said Youls.

There are many varieties of grass seed. Each is adaptable to different soil and climatic conditions.

Strikes Fire

SHOHONE, Aug. 17—Striking a match on a baler after dark resulted in a fire at the home of Hopalong place north of Shoshone Tuesday evening. There was gas leaking from the tank. Hopalong discovered when the blaze burst up. The north Shoshone Wood River Valley district truck answered the call and neighbors helped put out the blaze. There was no damage to the baler and some hay and weeds on the baler and nearby burned.

Buhl Corn Pack Is Nearing Peak

BUEL, Aug. 17—Seasonal corn pack operations at the Green Clark company were expected to go into full swing by the end of the week, company officials report. At present, some full crew is working and when the pack goes into full production two shifts will operate on a 24-hour basis. Cool weather has slowed the corn harvest slightly, officials say.

GETS 2 AWARDS WENDELL, Aug. 17—Melvin Jones, chairman for Cichy Valley Breeders association, and Mrs. Verna Jones, publicity director for the association, returned this week from the OVBA conference for technicians held in Logan, Utah. Jones received two awards, one for his five years of service with the association and one for more than 1,000 first breeding services.

Potato Tour Planned in Minidoka-Cassia Areas

ROBERT ANDERSON, a three-day potato tour in Minidoka and Cassia counties is being announced by Vern France, extension potatoist for the two counties for Monday through Wednesday.

The tour will feature rotations, irrigation, fertilization and chemical weed control. The use of grain in a potato rotation will be demonstrated on each of the tours because of the ability of potato to control weeds.

At 10:30 a.m. Tuesday, farmers will tour the 8th Center farm, 910 west, 200 south in Minidoka county and at 11:15 a.m. they will tour the Elaine Hodges farm, 925 north, 600 east in Cassia county.

On Wednesday the tour will feature growers using sprayers. Members will meet at 9 a.m. at the Nordland cafe on the Madison road, 11 miles north of Buhl. At 10 a.m. grain, potato and best rotation will be seen at the Warren Horns ranch, east of the Idaho Youth ranch. At 10:30 a.m. the group will see an applied weed control at Jerry Morgan ranch, 500 east, 1100 north.

The tour will conclude at 11 a.m. at the Dale Klingler ranch, 800 east, 1200 north where potatoes on new land will be viewed.

BRUCELOGIS AREA WASHINGTON, Aug. 17—Vern France, extension potatoist for the two counties, reports the U.S. department of agriculture.

Area Farm Youth Gains Honors

GOODING, Aug. 17—Vern France, son of Mr. and Mrs. Earl France, route one, Gooding, has been selected to receive an American farmer degree, to be awarded him at the Future Farmers of America national convention at Kansas City, Mo., Tuesday, Oct. 9.

Announcement of the selection of Vern for this honor is made by Charles Clark, Gooding high school vocational agriculture instructor.

Vern entered Gooding high school in 1956 and was graduated in 1960. His vocational agriculture teacher was Lee Dahl, now Gooding high school principal. Degrees Vern has received from FFA are green hand in October, 1957; state farmer, March 29, 1959, and he was selected a candidate for American farmer October, 1961. Offices Vern has held include chapter parliamentary, district president one year, state FFA president 1961-62. He was named outstanding freshman, outstanding senior.

When he began vocational agriculture in 1956, Vern had four beef heifers. At his present project he has a 10 percent family partnership and is renting 200 acres on his own. The family project includes 240 acres on which 300 head of feeders and stock of field cows. Vern feeds 800 beef animals each year and has 200 cows. Vern has attended University of Idaho for one year.

Most Restrictive Waterfowl Rules In History Set up

WASHINGTON, Aug. 17 (AP)—The most restrictive duck-hunting regulations in the U. S. history of the sport were announced Thursday by the interior department. The Mississippi and Central flyways, which receive most of their ducks from the drought-ridden prairie provinces of Canada, will have the shortest seasons with an allowable maximum of 25 days. Bag limits will be two ducks and six coots with possession limits of four ducks and six coots.

Last year these two flyways had maximum seasons of 40 days. In the Atlantic, Mississippi and Central flyways, which receive most of their ducks from the drought-ridden prairie provinces of Canada, will have the shortest seasons with an allowable maximum of 25 days. Bag limits will be two ducks and six coots with possession limits of four ducks and six coots.

The Atlantic flyway will have about the same regulations as last year with an allowable maximum season of 60 days and daily bag and possession limits of two ducks and six coots.

Secretary of the Interior Stewart L. Udall said the lighter restrictions are necessary because the duck population has hit a record low, largely because of drought in the prairie provinces of Canada which is the continent's principal "duck factory."

On the opening day of the season for ducks and coots in all flyways, including both opening days of split seasons, the shooting hours will be from noon standing until sunset.

On the opening day of the season for geese, cranes and whooping cranes, the shooting hours on all species will be from noon standing until sunset.

The outside dates for ducks and coots will be Oct. 17 to Dec. 30 in the Atlantic, Mississippi and Central flyways and Oct. 6-Jan. 31 in the Pacific flyway.

Outside dates for goose seasons will be Oct. 1-Jan. 13 in all flyways except the Pacific where they will be Oct. 6-Jan. 6.

The new regulations for the first time permit the hunting of geese, cranes and whooping cranes west of the Continental Divide in the Pacific flyway.

The detailed regulations by flyways: Pacific flyway—Arizona, California, Idaho, Nevada, Oregon, Utah and Washington—may select concurrent open seasons of 15 consecutive days with a daily bag limit of eight ducks, and a possession limit of 15 ducks and gallinules, singly or in the aggregate of both kinds, or an optional daily bag and possession limit of six geese and an additional daily bag and possession limit of five ducks or 10 consecutive days with a daily bag limit of five and a possession limit of six geese.

The states may select an open season for geese, except those of a split-season, totaling 75 days with a daily bag and possession limit of six geese.

In all states in the flyway, the daily bag limit may not include more than three geese of the dark species; provided that in the states of Utah and Arizona, the dark species are limited to one in the aggregate of both kinds. In Washington, the daily bag will be three geese and the possession limit six.

In all states in the flyway, the daily bag limit may not include more than three geese of the dark species; provided that in the states of Utah and Arizona, the dark species are limited to one in the aggregate of both kinds.

SPORTS

ST. PAUL, Minn., Aug. 17 (AP)—Six players led the par-battering at Keller course Thursday in the \$50,000 St. Paul Open golf tournament with six-under-par 66 to share the first round lead.

Joe Campbell, Fendleton, Ind.; Rex Baxter, Jr., Amarillo, Tex.; Frank Wharton, Mamaroneck, N. Y.; Dave Ragan, Sun City, Okla.; Doug Sanders, Oak City, and Bob Shave, Willoughby, O., moved to the front as younger players dominated the first round.

Trailing by one stroke with 87 are veteran Pete Cooper, West Palm Beach, Fla.; Johnny Post, Quil Hills, Miss.; Buster Cupit, Fort Smith, Ark.; and Dave Hill, Jackson, Mich.

Hot putters and deadly wedge play on the par-72, 6,557-yard course accounted for the burst of scoring in which 44 players in the starting field of 118 broke par and nine others matched it.

National PGA champion Gary Player took a heavy hit on the easy par five 18th and finished with a 70, and defending champion Don January holed out with a 71.

Moore Favored. HESLHINKI, Finland, Aug. 17 (AP)—Davey Moore, left world featherweight champion from Ohio, was a prohibitive favorite Thursday to beat Finland's Olli Miettinen Friday night in Scandinavia's first world title fight. Only a brave few gave the comparatively inexperienced 22-year-old Finn a chance against the skilled, 22-year-old American who was making his fifth defense of the crown.

Four Repeaters In Legion Play. ALZBUS, Okla., Aug. 17 (AP)—Four of the six teams in last year's American Legion regional baseball tournament here will be on hand Friday for the opening game of 1962. The four regional repeaters are Billings, Mont. (42-8), winner of its last four regional titles; Anadarko (35-4); Lawton, Okla. (23-11); and Aurora, Colo. (23-8). The other teams are Lawrence, Kans. (28-13) and Casper, Wyo. (22-8). Lawton plays Lawrence in the first contest at 1 p.m. Friday. Billings takes on Casper this same afternoon. Anadarko and Aurora meet at 8 p.m. Friday. There will be two games Saturday, Sunday and Monday, at 3 p.m. and 8 p.m. The finals will be Tuesday, 8 p.m. In last year's tournament Billings downed Anadarko 2-1. The winning state team will represent the district in the national championship at Bismarck, N. D., against six other teams.

TRY TIMES-NEWS WANT ADS FOR FAST SELLING RESULTS. Detroit automotive engineers asked for it... AMERICAN OIL RESEARCH DEVELOPED IT...

The Final Step to assure the Finest Gasolines ever sold! Today's cars need gasolines free of microscopic particles that used to be no problem. These contaminants clog the filter car makers put in fuel lines to protect precision carburetors. Filter clogging cuts power and acceleration, can even stop your car.

American Oil Research found a solution—the American Final/Filter, the red filter you'll see on the pump nozzle only at American Oil Dealers. As an extra cost, American's Brand Gasolines are Final Filtered as they go into your tank. Look for the American Final/Filter—the gasoline improvement you can actually see!

Schools Will Start Aug. 27 For Wendell

WENDELL, Aug. 17 — Wendell schools are scheduled to open Aug. 27, says Supt. Wayne H. Page. Pre-registration for high school students only will be held Friday, Aug. 24.

Juniors and seniors will register from 9 a. m. to 12 and freshmen and sophomores, from 1 to 4 p. m. Any high school student unable to be present for pre-registration should notify Ray Turner, high school principal, well in advance.

Registration grades one through eight will be held the first day of school in the classrooms. Pre for elementary students will be \$2.50. Fee for high school registration will be \$7 which is returned at the end of the school year. Books are reasonably priced.

Laboratory fee and workbooks to be used in the sciences will be necessary in English, all sciences, band, typing and American history. Students doing typing work will be \$2 and there will be extra charge for instruction.

Student insurance will be available at \$1.00 and information will be sent to the parents by mail. Students doing typing work for high school will be \$4 and for junior high students \$3.50.

Football practice will begin Monday, Aug. 20. All players will be required to use mouth protectors. They are to hand players and are to be paid for by the players at \$2.75 each. Other insurance is available for players at their own expense.

The hot lunch program will begin Sept. 3. The cost will be the same as in other years. Mrs. M. Olson, Mrs. Marie Marbit, Mrs. Juanita Price and Mrs. Mary Eves will be in charge of the Wendell kitchen and Mrs. Irma J. Jones will be the cook at the Orchard Valley unit.

Principals in the school system are Ray Turner, high school and junior high and Albert C. Dennis, elementary school principal.

Teachers are first grade, Thelma Webb, Clara Ellinger and Rosemary Lawton; second grade, Joan M. Irons, Marilyn Moore and Edna Mies; third grade, Jeannette Powell, and Bonita Tronsson; fourth grade, Grace Martin, and Edna Mies; fifth grade, Ruth Galois and Ressa Stevenson; sixth grade, Theresa Dennis and Thomas Vaughn.

Seventh- and eighth-grade mathematics and physical education, Ralph Fink; ninth-grade social studies and physical education, Mrs. Ella Mae Parker; seventh and eighth grade science, Ken Dixon and Junior High English, John Olaf.

The annual teachers are Elvira Behrens, Earth science, world history, physical education and football coach; Elvira Behrens; Annette Eaton, English, II and III; Barbara Page, English I and II; Evelyn May, English I; and Elvira Behrens, biology; Roy Dorn, vocational agriculture; Frances Lamb, library; Elizabeth IV, Health; Lamb, Spanish-American government; Hazel Lawton, home economics; Edward Olson, Jr., science, mathematics and assistant coach, and Roger R. Hoagland, music.

Vera Hansen will teach first to sixth at Orchard Valley unit. The annual teachers meeting will be held Saturday, Aug. 25, in the high school study hall promptly at 9 a. m. There will be a preschool picnic dinner at 6:30 p. m. and a picnic dinner at 7:30 p. m. for the group will meet at 8 p. m. to get acquainted and the dinner will be at 5 p. m. for faculty members, school trustees, their spouses and children.

There will be no school on Labor day and Veterans day. School will be dismissed Oct. 11 and 12 for teachers institute; Nov. 22-23 Thanksgiving; Dec. 24 through Jan. 1 Christmas; April 12-15 Easter; graduation is scheduled for May 12 and school will be out for the year May 17, 1962.

Kimberly Slates Benefit Barbecue

KIMBERLY, Aug. 17 — A benefit barbecue was held this week by the committee of the Kimberly recreation program for the child barbecue to be served from 6 to 7:30 p. m. Saturday.

Boys and girls who have participated in the recreation program this summer have been selected to make a list of items to be used for the program next summer.

The barbecues will feature Bertha chickens cooked over their open pits at the park grounds. The menu for the barbecue was furnished by the Chamber of Commerce. After the barbecue arrangements will be given by Leonard Fisher will act as master of ceremonies.

Balances among the youngsters will start at 1:30 p. m. The Arnold's team playing the Valley Sporting Goods, and person's vs. the Stern Crew's championship game between Jacobs and Widmers will be played at 4 p. m.

TWINGLED WRECKAGE AND THE DEATH of a 68-year-old Twin Falls man, Dewey Robison, resulted when these two vehicles collided at a rural intersection on Highway 39 three miles south of Jerome Tuesday. Officers said the 1953 Nash Mr. Robison was driving apparently ran a stop sign on the highway and collided with a 1959 Pontiac station wagon driven by Leonard C. Scott, Twin Falls. Scott was not seriously hurt. (Photo by State Patrolman Marvin Wright)

Paul Class Reunion Held

PAUL, Aug. 17 — The 1952 graduating class of the Paul high school will hold a reunion party after the 10-year event was held at the Copper room in Burley.

Harold Gampe, Twin Falls, was master of ceremonies. Donald McGregor gave the invocation. Speeches were read by Howard Knapp and the history of the class was given by Elvina Prentiss.

Gifts were presented by Darlene Larson to Roland Harper, Ogden, for having the least hair; M. C. Conner, Brigham City, Utah, bachelor of the class; Jess Brown, Salt Lake City, former principal of Paul, was honored and Wayne Brewer, Paul, received a prize for having the most children and Elmer Peterson, Paul, for being married the shortest time.

A gift was presented by Donald McGregor to Mrs. Don Prentiss, general chairman for organizing the reunion. Each member spoke briefly on his activities the past 10 years.

A short business meeting was held and Mrs. Prentiss was re-elected general chairman. Mrs. Mary Truscott gave a farewell reunion poem. The benediction was given by Wayne Brewer.

A potluck family picnic was held at Banbury hot springs with Lisa Bell hosting the event.

ATTENDS FESTIVAL
PILER, Aug. 17 — Mrs. T. S. Nicholson returned this week from Long Beach, Calif., where she attended the four-day art festival of the International Teachers Association and Teachers organization. This organization meets every two years and holds a display of newly-painted, and also available old pieces of handpainted china from all over the world.

Ketchum Shoot Set for Archers

KETCHUM, Aug. 17 — The O-Two-Kwa bowmen of Twin Falls will host the annual invitation-only broadhead shoot Sunday at the Warm Springs ranch at Ketchum. The shoot will be in cooperation with the Warm Springs ranch and is open to all archers, and will initiate a new archery club at the Ketchum area.

The new 100-yard course will feature field round and animal targets over an extensive area. Registration will be from 8 to 9:30 a. m. Trophies will be awarded in all divisions.

The course is located one mile from Ketchum on the Warm Springs road, the first road on the left across the Wood River bridge. Camping space is available at the range. A lunch stand will be in operation at the club-house.

Singing Mothers Plan Utah Event

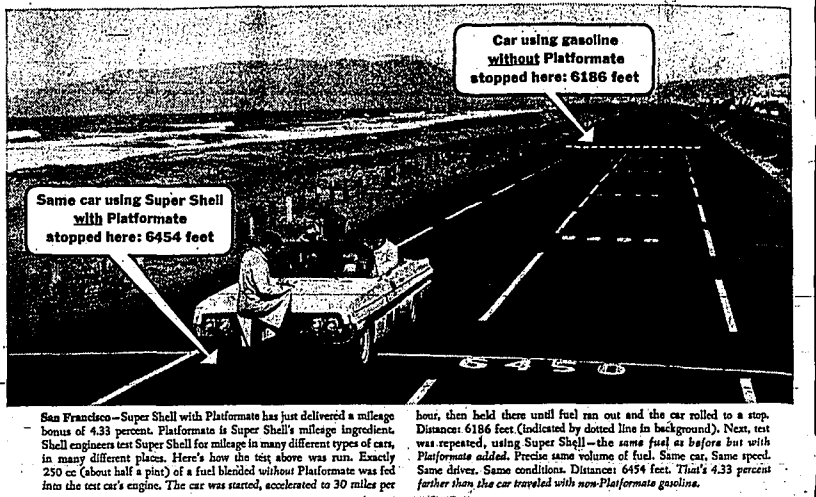

BURLEY, Aug. 17 — Singing Mothers from seven LDS stakes in Magic Valley met at the fifth-seventh ward chapel here Tuesday to practice nine songs they will sing at the General Conference set for October in Salt Lake City.

Mr. Frank Madison on Provo, Utah, directed the chorus. Her husband spoke briefly and directed one song. Both Mr. and Mrs. Madison have Ph.D. degrees in music. Stakes represented included Cassia, Burley, Minidoka, Raft River, Blaine, Twin Falls and Gooding.

There will be 70 bands in the parade. Bidders are required to bid a bid amounting to 10 percent of interest and premiums at, or above par at which bidder will purchase the bonds. The bonds shall be sold to the bidder by the right of the council to reject any and all bids. Permission was granted to men brothers by the council operate a tent stand on street and Park areas on the fair.

COLONIAL CONCRETE COSTS NO MORE Than Ordinary Concrete

CAN'T GET AUTO INSURANCE? We Will Insure You! Taber Insurance Agency 115 Shoobee No. 733-1274

San Francisco—Super Shell with Platformate has just delivered a mileage bonus of 4.33 percent. Platformate is Super Shell's mileage ingredient. Shell engineers test Super Shell for mileage in many different types of cars, in many different places. Here's how the test above was run. Exactly 250 cc (about half a pint) of a fuel blended with Platformate was fed into the test car's engine. The car was started, accelerated to 30 miles per hour, then held there until fuel ran out and the car rolled to a stop. Distance: 6186 feet (indicated by dotted line in background). Next, test was repeated, using Super Shell—the same fuel as before but with Platformate added. Precise same volume of fuel. Same car. Same speed. Same driver. Same conditions. Distance: 6454 feet. That's 4.33 percent farther than the car traveled with non-Platformate gasoline.

MILEAGE TEST

New documented tests prove that one of Super Shell's 9 ingredients packs extra mileage into every gallon

This picture above was snapped a few moments after Super Shell with an extra mileage ingredient called Platformate delivered a mileage bonus of 4.33 percent. That's a typical result from a series of mileage tests Shell engineers recently ran on the outskirts of San Francisco. The tests compared two gasolines. One was a gasoline Shell scientists purposely blended without Platformate. The other was Super Shell—the same gasoline as before but with Platformate added. Shell engineers used a 1962 convertible for the tests. You may be driving a similar car right now.

In test after test, Super Shell with Platformate consistently took the car about 4 percent farther than the gasoline blended without Platformate.

NOTE: For more details on these tests, see caption under picture. And for technical data, write to the Shell Oil Company, 50 West 50 Street, New York 20, N. Y.

Anti-knock mix—to resist all kinds of knock. Alkylate—to help control "high-speed knock." "Cracknecked" gasoline—for power. Anti-riser—added in cold weather to help check carburetor icing stalls. Gum preventive—to help keep carburetors clean inside.

Super Shell has 9 ingredients for top performance. Extra mileage is just one part of the top performance story. Super Shell's other ingredients complete the picture. Here's what they are and what they do.

TCP* for power, mileage, longer plug life. Pentane mix—for fast "warm-up." Butane—for quick starts.

Super Shell—the gasoline with 9 ingredients for top performance
