YOUR BIRTHDAY and HOROSCOPE

MONDAY, OCT. 1—Born today, you have that degree of appearance which, though not necessarily linked to any formal religion, enables you to establish and live by a highly idealistic code of ethics. And you are here to do it. This is not a whim; it is a rather an absolute faith in your own beliefs. You are highly intuitive and, as long as you do not begin to gamble a great deal on the advice of intuitive alone, your "inner voice" should be of great help to you. Always remember, however, that intuition without reason is a very uncertain guide for action. Use your head too! Because of your enthusiastic, compelling personality, you should never lack for friends and admirers. Take care, however, that you are selective in your choice of intimates, for there are those who, realizing the brightness of your star, would like to bask in its light and reflect in its glory. If marriage, if you are wise, is the object of your matrimonial affections is for you, not your success!

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing solution with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinking) took place. Most amazing of all—results were as thorough that sufferers made astonishing statements like "I've never known it to be a problem!" The secret is a new healing substance (Bio-Dynin)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H®. At all drug counters. (Advertisement)

DODGE PRESENTS THE DEPENDABLES FOR 1963!

Dodge Dart 2-door hardtop

1963 DODGE... BEAUTIFUL NEW ENTRY IN THE LOW-PRICE FIELD

Compact Dodge Dart GT 2-door hardtop

1963-DODGE DART... A FRESH NEW COMPACT IN THE LARGE ECONOMY SIZE

INTRODUCING THE 1963 DODGE

Now a complete new line of cars in the low-price field. The 1963 Dodge! People who see it just naturally get carried away. Reasons? 1. The looks. Great! 2. The price. Low! Wouldn't you rather own a Dodge than other low-priced cars? 3. The room. Big! Notice how the roofline sweeps straight back. That means ample headroom for the people in back, not just the ones in front. Seats? Your choice of models with sofa style, buckets or folded-down center arm rest. 4. The upkeep. Low! Dodge is rust-protected. The body fully unitized. The brakes self-adjusting. A major grease job lasts 32,000 miles, an oil change 4,000. 5. The feel behind the wheel! Like nothing else! Five strong engines to choose from. Smooth-going torsion-bar ride. Easy low-friction steering. Comfortable chair-high seats. Nylon, leather-grained vinyls. There are several hundred more reasons why. Your dependable Dodge Dealer has them all. See him. Drive the new '63 Dodge and get carried away yourself.

NEW 5-YEAR/50,000-MILE WARRANTY! Your authorized Dodge Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair for 5 years or 50,000 miles, whichever comes first; on the engine block, head and internal parts; transmission case and internal parts; torque converter; drive shaft; universal joints (excluding dust covers); rear axle and differential, and rear wheel bearings—provided the vehicle has been serviced at reasonable intervals according to the Dodge Certified Car Care schedules. Factory approved remanufactured parts may be used for replacement.

INTRODUCING COMPACT '63 DART

At last. A compact that doesn't give anyone the sardine treatment. The 1963 Dodge Dart! Now everybody gets a fair shake on the road. Note the roofline. It goes straight back. Result: Even rear-seat hat wearers are treated with deference. And so are those who like some action for a change. Dart's standard engine leaves the run-of-the-mill compacts waiting and waiting. Its optional engine (just a few bucks more) is the same way, only more so. Compact outside. Lots of sheddable, easy on gas. Few compacts cost less than Dart. None offers the value. A unitized body, for example, that's rust-protected. 32,000 miles between major grease jobs. A torsion-bar ride. An alternator. A high-speed starter for fast starts. Two series. Nine models including two pizzazz convertibles. See your Dodge Dealer for the car that's too roomy to be a compact, too thrifty to be anything else.

NATIONAL WHIRLIGIG

WASHINGTON, Oct. 1—American and Allied stock has begun to rise on the news of the political and economic situation. The news which has impressed many neutral and uncommitted nations, and has been checked by administrative intermediaries when they are requested here for the recent conference on international finance.

The United States and Western Europe, although largely psychological, derived from Nixon's announcement of a willingness and intention toward early efforts to eliminate today's tensions and to create a new world order, and the democratic and communist societies. It appears that the "perennial" boom has overreached itself in a main effort to establish itself in Asia, Africa and India.

Another reason is the shifting attitude of the Allies, especially the British and Western Europe. The strengthening of the anti-communist combine does not show only in increased military power. Including the program which has been made toward formation of an economic union with the European Community and the North American cooperation with that organization.

FAITH IN AMERICA'S COURAGE—Although the anti-Castro resolution adopted almost unanimously by congress has been attacked here in technical and constitutional grounds, the Monroe Doctrine, no such ambiguity prevails abroad. It means to them that the United States is committed here to expand his Cuban beachhead by political or military means. Our entry into two world wars, although it was not unexpected for those crises has not been forgotten.

The West's gains on the economic front, with their implications for the nations in Latin America, Asia and Africa, have been especially impressive to foreign officials here for the discussions of financial matters. The market has become such a successful venture that Khrushchev has taken alarm. He recognizes it as a major force in the economic world.

Despite some difficulties, it is expected that Britain will eventually join, whether she does or not, the new trade expansion permit. The English and her six-nation European Trade Association that extends the six members of the European Community.

THE LURE OF MARKETS—This aggregation of some 600 million people living in a civilization—will act as an economic magnet for every neutral throughout the world. Overseas nations, which are in the process of development, and no income for the purchase of essential machinery and manufactured goods. In addition, there is the need for capital investment in their industrial development.

This pressure will be even more severe because of the breakdowns of both the industrial and agricultural orders within the Soviet bloc and Red China. The Communist bloc will be unable to sustain its industrial life in the material progress, and in the country's failures. This has never been advertised so widely as today.

KHRUSHCHEV AN UNRELIABLE ALI—Although he reiterates his eternal friendship with Mao Tse-tung, Khrushchev has agreed to sell the United States his uranium and plutonium, but has delivered to Poling. The aircraft offered to Nehru are MIG 19's, while those he turned over to Taiwan were MIG 17's. Yet his Oriental ally is virtually at war with New Delhi against that common border.

Although U Thant of Burma has commanded admiration with his performance as acting secretary general, Khrushchev may try to oust him at the next session. He may try to establish control, which would mean paralyzing control by Russia.

SMITH RECOGNIZES SEPARATE STATUS—A remark by Vernon G. Smith in a speech at Idaho Falls Friday night clearly substantiated the issues of Idaho's current gubernatorial campaign.

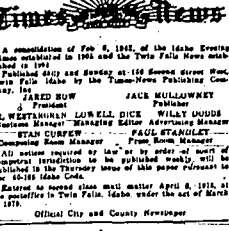

Smith said he prefers to speak "as a candidate for governor rather than as the Democratic candidate." He said that he is not a Republican or a Democrat.

It is exactly what many Idahoans, including many critics of Smith's campaign proposals, have been contending all along. His expression of the issue of separate status should help to create one area of agreement among the voters and the voters of his program.

Cautious Optimism

Republican leaders charged with spurting more activity in the South look hopefully of adding 10 to 12 congressional seats, to the seven they already have in the area.

But more cautious party men think the gains are more likely to fall in the range of four to seven.

Hope is at its highest in Florida, where there are four brand new seats; Texas, with one new one; North Carolina, South Carolina, Georgia and Virginia.

Watching the strengthening GOP effort in the South, political specialists disagree as to the long-range southern prospects for the party.

Some, including individuals in the party's upper echelons, believe the Republicans have a very limited prospect so long as their southern leaders present themselves—as many do today—in more conservative garb than the rival Democrats.

But others argue that the conservative posture is the natural one for the Republicans, that it will make the party more cohesive nationally, that in this stance it has a good chance to win millions of conservative southerners now still tied to the Democratic Party.

The contention is made that Negroes vote in larger and larger numbers in the South, they are mostly likely to choose the Democratic Party as their habit—as they have done in overwhelming percentages in the great northern urban centers.

Those who contend thus also predict that this and other factors will tend to push the southern Democratic party toward the liberal end of the spectrum.

In this view, the net effect would then be to have a national Democratic party which would offer the more liberal—the Republicans offering uniformly conservative alternatives everywhere.

PEOPLE AND THE PRESIDENT

We like to say that in a democracy such as ours the real decision-making power rests with the people.

This is true enough, but only of course in an indirect sense. We choose the president and our representatives in congress, and they make the actual decisions.

Naturally, any citizen can transmit his views on particular issues to congress or the president—and millions do.

In the recent decade, however, much argument has raged over the comparative importance of these two branches of government in the citizen's mind.

Under leadership of Roberta S. Sigel of Wayne State university in Detroit, some new research has been undertaken recently. Sigel and his colleagues are working only in the Detroit area. Dr. Sigel warns against applying the findings on a wide national scale.

Nevertheless, as set forth in a paper she delivered before the American Political Science Association in Washington, the results are interesting and perhaps suggestive.

They show 75 per cent of the survey respondents want a strong president in foreign affairs. They feel so strongly that, in answer to a specific query, 75 per cent said they would want the president to send troops abroad if he thought it necessary—even though most Americans might clearly oppose such action.

Overwhelmingly, in the foreign field, the survey respondents evidently do not trust their own powers of judgment or that of their representatives.

Though domestic matters are often as complex, and are often entangled with foreign questions, the Sigel study shows much less tendency to "turn everything over to the President" on the home front.

For example, when asked what should be the lead in decision-making here, with 40 per cent wishing to leave this power with congress.

Moreover, many who seem perfectly willing to grant the President immense authority appear almost equally anxious to apply some curb on that power. Investigators found that 66 per cent of the respondents approve the existing two-term limit on presidential tenure, and only 11 per cent think it should be longer.

Some students of U. S. elections have been asking a decade that American voters lately have been deliberately playing congress off against the President. The Sigel findings evidently support this notion.

Disaffectioners are the main reason Americans want the man they elect. The House liberally equipped with the White House want a time-limit on his use of it. And they want to retain one big decision. To throw him out if they don't like the job he

Smith Talks To Rally At Shoshone

SHOSHONE, Oct. 1—Vernon K. Smith, Democratic party gubernatorial nominee, addressed an overflow crowd at a rally Friday evening held in his behalf by the Lincoln county Democratic central committee. A banquet at the Manhattan club preceded his speech.

Mrs. Floyd O. Kitting, chairman of the committee, introduced committee members and thanked those who had helped make the event a success. Victor Heston, Shoshone, was chairman of general arrangements. Joseph Hill Kermer, precinct committeeman, and Floyd O. Kitting, state committeeman, and Mrs. Eugene Alexander, state committeewoman.

Lloyd Walker, Democrat state party chairman, was introduced and gave a short address to Democratic workers. County Democratic candidates were introduced, along with many other candidates from surrounding counties.

Smith told the group, "The enabling law which might permit the counties of our state to vote for themselves on the issue of casino gambling, has become a major issue because the political-machine Smyliecrats have such a poor record of accomplishment during the last eight years of do-nothing Smyliecrats, that they have nothing to offer except failure."

"But," Smith continued, "there are many important issues in the governor's election, and one of the most important is economy. Smyliecrat political machines have wasted us to a point of unbearable state taxes. People of our state should know that the results of the last eight years...

Smith's extravagant spending of our general fund tax obligation has almost doubled from a little over one million dollars to 28 million dollars. Hard-headed economy can and will hold the line against more taxes.

"Economy in government is obviously something that the governor never heard of. Cheap Bonneville electric power is a special interest for deep seat pumping to develop our arid potential farm lands, to bolster the supply of electric energy for REA, and municipalities to prevent the loss of any of the means of holding some of our industries that are about to abandon ship because of our ever increasing taxes. We Idahoans help to pay for Bonneville dam and there is no good reason why some of the power that is generated from Idaho water should not be brought back to Idaho to help develop industry and agriculture."

Smith went on to say, "The Democratic senator and congressional incumbents in congress are doing a tremendous job in Washington trying to get an amendment to the department of interior regions to put southern and eastern Idaho within the Bonneville power marketing area. That they cannot do the job alone. It also takes a favorable state legislature and a favorable governor to pass necessary state legislation and state public utility regulations to actually get this power into southeastern Idaho. I stand 100 per cent with you, Chum, Ralph Harding and Grace Frost and Compton White in this unified plan to bring cheap Bonneville power in southeastern Idaho."

Smith reiterated his stand on labor, and said, "There is not a working man in the state of Idaho who can afford not to support me. I insist upon raising the minimum industrial accident benefits. Injured workman and family can live on the small accident benefits of today. Jobs are important to working men, especially with unemployment...

He also mentioned the tax philosophy of "killing the goose that lays the golden egg" in regard to business and industry. He said, "The tax structure that is preventing industrial growth. Taxing corporations and industry is a vote-killer. But when state taxes have become so discriminatory as to stop industry at its source, then this type of tax philosophy backfires by hamstringing industrial development."

Smith also called the group's attention to the change in the governor's election law six years ago which permitted a governor to succeed himself to a second term and said, "I believe we should repeal the Emery law which permits a governor to succeed himself to a second term."

News Around Idaho

BOISE, Oct. 1—General business in Idaho reflected by employment payroll and trade increased this year and is expected to continue good, the first security bank said today. The report said total employment was slightly below that of a year earlier for the third quarter, but payroll because of increase in wages and cost of materials and work, excellent crop year for sugar beets and alfalfa and improved outlook for potatoes and potato processing are reflected in the trend.

BOISE, Oct. 1—A break in the weather in Deer Point, the location of the transmitter for Boise's two television stations, disrupted television shows in Boise, Valley Sunday afternoon for five and a half hours. The power break occurred at 3:31 p.m. and returned at 4:00 p.m. The line which runs through the mountains area north of Boise was apparently shot into by someone's carelessness with a large cable cutter. The power break was apparently not intentional, the power company said.

BOISE, Oct. 1—The Idaho investors convention in Pocatello, which starts Tuesday, is being held one day longer this year to accommodate a workshop session moderated by Arthur C. Westbrook, Democratic second district congressional candidate. The convention will end on Friday, Johnson said one of the most important phases of the convention is the committee work to analyze and discuss the current state of the various phases of personal property in determining the assessed value for 1963.

REXBURG, Oct. 1—Idaho Republicans now have an opportunity to show their leadership is not pure political opportunism. Howard Foster, Democratic second district coordinator, said Sunday. Foster said Ralph Harding and Grace Frost, Idaho Democratic congressmen, are battling their hearts out for Burns Congressional district. They are being opposed by the command and other Idaho candidates. The entire Republican slate of opposition of the power monopoly and the entire Republican party in congress. He said the Republican leadership can be party by obtaining votes in congress for needed Idaho projects.

WESTMOND, Oct. 1—A 25-year-old airplane pilot at Larson Air force base was killed early Sunday in a low altitude crash. State police identified the victim as John Bennett of the 87th medical group. He was sitting in a parked car with Charles P. Johns of Portland, Oregon, in the front seat. The car was struck by another car driven by John N. Aketoy, Spokane, police said.

BOISE, Oct. 1—Twelve privately owned power companies which operate in the Pacific Northwest and Canada were represented at the opening today of the Annual Business Development conference of the Northwest Electric Light and Power association. The conference continues through Wednesday with workshop sessions making up much of the program. Host to the meeting is the Idaho Power Co., which serves southern Idaho and eastern Oregon.

Green Bay's defense was equal to as strong as its offense. It intercepted five passes and allowed only 85 yards rushing. The Packers' defensive unit has three interceptions on touchdown to Minnesota in the first game. Paul Hornung, who sat out most of the game after a hand injury because of a concussion, converted after each of Green Bay's seven scores to run his league-leading point total to 40.

GIANTS AND DODGERS STARTING PLAYOFF

Season of 1951 Being Repeated By Arch Rivals

Yankees Just Wait to Find Opponents

By Arch Rivals

NEW YORK, Oct. 1 (AP)—The players are different and even the home cities of the two clubs have changed but it was 1951 all over again for the Giants and Dodgers as these two arch rivals engaged in the first of another post season playoff for the National League pennant. Just as it was the case 11 years ago, it was the Giants who overtook the Dodgers. The Giants, managed by Alvin Dark, the '51 team captain, didn't have to make up as much ground this time, but in some ways, the Dodger collapse was even greater.

The 1951 Dodgers developed a 134-game lead of nine games but it was due to a tremendous Giants' surge rather than a Dodger collapse. The Giants, managed by Walter Alton, admitted, had no one to blame but themselves.

They had held the lead since July 7 and at one time, on Aug. 6, were 34 games in front of the Giants. Only a week ago, on the morning of Sept. 23, the Dodgers led the Giants by four games but in some ways, the Dodger collapse was even greater.

The double crusher came yesterday when the Giants ripped Houston 2-0 on an eighth inning homerun by Willie Mays and St. Louis blanked the Dodgers 10-0 on an eighth inning homerun by catcher Gene Oliver. It was only the second Giants victory in four games but it was enough to send the Dodgers' record on a three game losing streak.

Johnny Podres, going the distance for the first time since he pitched in the playoffs, was not only five hits, but he hit the hurting spot to Curt Simmons. The veteran Cardinal pitcher also allowed five hits but did not permit a runner beyond second base. The average record at 10-10 and registered his third victory in four decisions when the Giants ripped Houston 2-0 on an eighth inning homerun by Willie Mays and St. Louis blanked the Dodgers 10-0 on an eighth inning homerun by catcher Gene Oliver.

"It was the game I've ever pitched in my life," Podres boasted. "Yes, better than even the game I pitched in when I was named 'Mr. 1955' when I pitched the one hit, brought in the fourth pennant playoff in the National League annals."

"I felt I was in command all the way the veteran left hander added. "Just one quick check to hide his disappointment, refused to blame the Dodger collapse on anyone else but the pitcher of the left pennant race."

PICTURE OF DEJECTION, Los Angeles Dodgers walk from their dugout Sunday after losing 1-0 to St. Louis Cardinals and being forced into a pennant playoff with San Francisco. Players include Ken McMillen (14), Pete Richter (foreground), Willis Davis (right foreground) and Maury Wills (No. 26, background). (AP wirephoto)

Few Words Give Feelings For Players

By The Associated Press

"I knew it was gone," said smiling Willie Mays.

"Damn it, damn it," said dejected Johnny Podres.

"Just about summed up the feelings of the players yesterday at the two focal points of major league baseball—in San Francisco, where the Giants won, and in Los Angeles, where the Dodgers lost all dignity today in the fourth pennant playoff in the National League annals."
