Ministers Pressing Diefenbaker To Quit in Face of Atom Updrear

OTTAWA, Feb. 5 (AP)—A group of cabinet ministers was reported pressing Prime Minister John G. Diefenbaker today to resign in an effort to save Canada's conservative government from being toppled by a no-confidence vote stemming from the nuclear warhead crisis.

Without naming them, informed quarters said six members of the 21-member cabinet agreed to put the issue to Diefenbaker after social credit leader Robert Thompson promised to back the government with his party's 30 votes if the prime minister stepped down.

This would mean a compromise could be arranged, or Diefenbaker himself dissolved parliament in a vote of no-confidence.

"I am certain," said Thompson, "that in a showdown tonight in the house of commons, the government will mean a general election in April."

Stickbacks know how they like the water.

Who knows water better than a fish?

The fish we employ as water experts are tiny Sticklebacks. We pay them liberally in brine-shrimp, no salary deductions.

It's all because we use millions of gallons of water daily in our refineries. After use, it is treated with algae, bacteria, chemicals, sunshine and oxygen, to make sure the water is clean and pure when we return it to stream or sea.

As an ultimate safeguard, we let our Sticklebacks test the water, before it is released. If they like it, we know it will be happy water for any fish.

The object is to keep our streams and coastal waters pollution-free, with abundant fish to nibble your hooks, and clean playgrounds for your water sports. Many other industries which depend upon water are equally careful. Our common concern is to protect a priceless heritage.

Planning ahead to serve you better

Who Did You Vote for? Bob Kennedy Doesn't Give Reply

WASHINGTON, Feb. 5 (AP)—Because he's a bit busy these days, Atty. Gen. Robert F. Kennedy may never get around to answering a questionnaire from the Harvard class of 1948. So his old classmates may never get his answers to such burning questions as: "For whom did you vote in the 1960 presidential election?"

Q—"If we were to elect a president today, whom would you vote for?"

Q—"What do you think of the present administration?"

The questionnaire, being used for a 15th anniversary class report, was addressed to the man who is a brother of, managed the 1960 presidential campaign of, serves in the cabinet of and is the closest confidant of President Kennedy.

Q—"The attorney-general also got a letter chiding him for failing to answer earlier question sheets."

"In case they are buried among your unpaid bills," says the letter, "we are enclosing another regular questionnaire."

If Kennedy doesn't return the questionnaire, the Harvard class of 1948 may never learn how he really feels about being head of the justice department.

Question No. 4 is: "Are you satisfied with (a) your vocational field? (b) the organization? (c) your position in the organization?"

Judge Puts Off Ruling On Negro

MIAMI, Fla., Feb. 5.—A federal judge has delayed a ruling on the constitutionality of a law barring application to the University of Mississippi until the 22-year-old Negro exhausts all administrative remedies.

U. S. District Judge Sidney Meyers said Monday that he will grant his rejection to the University's committee on admissions.

The committee had overruled Registrar Robert Ellis, who testified he turned Greene down because Greene's scholarship record wasn't good enough.

Ellis is chairman of the admissions committee, which includes the deans of the various schools, divisions and colleges, the dean of students and the dean of women.

Mize, who twice ruled against James H. Meredith's admission until an appeal court reversed him, deferred action after a one-day hearing of Greene's suit, seeking a court order directing the university to enroll him.

Ellis testified that he had approved two quarters at Mississippi Vocational School for Negroes about 1940. He said that school grades were even poorer, Ellis said.

Odd Marking May Trace Castro Drugs

NEW YORK, Feb. 5.—Some of the drugs sent to Fidel Castro as ransom for Cuban prisoners carry a special marking.

They are labeled this way as means of tracing whether Castro sold or bartered them abroad rather than using them in Cuba, a pharmaceutical manufacturer says.

Drugs accounted for about half of the \$25 million in goods which Castro made the price for releasing 1,113 Bay of Pigs prisoners in December 1961.

But some items requested by Castro made wonder whether the Cuban government really intended to use them all in Cuba, or exchange or sell them for other products his economy or his military establishment needs, this informant said.

So a tracer, one pharmaceutical manufacturer put a special mark on the packages of drugs he supplied. The drugs were not altered in any way.

"We'll be able to tell if they show up in Russia or South America, or even eventually in the United States," said this source, who asked not to be identified.

Chemist Reports Data on Potato-Alcohol Production

Data referring to production of alcohol from potatoes was reported this week by William Routh, Twin Falls, chemist for Idaho Power Foods, Inc.

Routh noted that at one time potatoes were used extensively for alcohol production in Germany and special types of potatoes containing 18 to 20 per cent starch were developed for this purpose.

"Distillation of potatoes by fermentation," Routh declared, has never achieved any degree of commercial importance in the United States except for brief periods during and immediately following World War II.

If pointed out a small experimental alcohol plant was owned and operated by the state at Idaho Falls before the war in an effort to solve the problem of disposing of cull and surplus potatoes.

This did not prove to be a practical venture for the state. Except for special applications, Routh went on, potatoes are not considered an economical raw material for use in fermentation.

Since potatoes consist of about 80 per cent water, he added, they are subject to spoilage unless dehydrated. Transportation costs he minimized by locating the processing plant in a potato producing area, but even then, Routh stated, the potatoes are not ordinarily compete with blackstrap molasses.

Synthetic processes for alcohol production using petroleum as a raw material also have significant economic advantages over potatoes, the chemist said.

Alcohol may be produced from many vegetables, fruits, tubers, etc., that contain natural sugars, he pointed out. Out of the many sources available for alcohol production, he asserted, potatoes have been regarded as one of the most economical.

He said that after four to eight weeks at low temperatures a maximum sugar concentration is reached, amounting to as much as 10 per cent in such sugar-rich varieties as White Rose and to about three per cent in poor sugar accumulators such as Russet Burbank.

YOUR BIRTHDAY and HOROSCOPE

TUESDAY, Feb. 5 — Born today, your nature seems to be divided equally between that of the dreamer and that of the extremely practical individual. This is a combination that, with intelligent direction behind it, is hard to beat. It means new and vital ideas on the one hand, and how to make the most of them in a realistic way on the other. With your "gifts-of-imagination-and-difficulty reaching your goal."

You have a real talent for performing before an audience. In your career choice, this does not necessarily mean the stage. Lecturing, teaching, "publicizing" all would suit your ability for getting yourself or your "message" across to the public. And in any of these fields, your sharp ready tongue — rightly used — would be of service. Only take care to go overboard here!

You have a sense for the dramatic, which you must cultivate and use wisely. Avoid allowing this trait to develop in the wrong way, however, for if it should, you might begin to dramatize things all out of proportion and as a result misjudge both yourself and others. You must use it!

Among those born on this date are: John Carradine, actor; Adlai Stevenson, U. S. Ambassador to the U. N.; Dwight L. Moody, famed 19th century evangelist.

Warden Asks Death Penalty Moratorium

BALT LAKE CITY, Feb. 5 (AP)—A warden prison warden from California urged the Utah legislature Monday to call a four or five-year moratorium on use of the death penalty so that the same can be studied, "carefully, rationally and soberly."

Clifton T. Duffy, warden at San Quentin prison for more than 20 years, addressed a late afternoon hearing before the senate-house judiciary committee.

Duffy criticized capital punishment on all fronts, saying it is a mockery to our justice that the state will enter into legal killing.

He said it is not administered justly, that it is not a deterrent to crime and that it is morally wrong.

Duffy's appearance before the judiciary committee was in connection with a bill to abolish capital punishment which is now before the legislature. Sponsors of the bill include Sen. Frank J. La Follette, Sen. Frank J. La Follette, Sen. Frank J. La Follette.

Duffy said that to all his years of prison work, he has yet to talk to a warden who favors capital punishment. One reason for their opposition, he said, is that "it isn't equal justice."

Williams Increases Big 7 Scoring Lead

Robb Williams, Jerome's junior center, stretched his scoring lead in the Big Seven conference to two full points this week as the Tigers maintained a one-game edge over the Buyl Roberts in the team standings. The two clubs will meet in a crucial test Friday night at Buyl and in that game most of the conference action leads will be tested.

Buyl holds four team leads in free throws and fouls while Jerome continues to pace all defense. Williams, with 25 points in his last two games, is hitting 100 percent of the conference and overall. That gives him a two-point edge over Buyl's Mitch Maughan in the league race but Maughan is only two-tenths of a point behind for the season honors. Maughan established his lead with two points in a game last week.

In third place is Oakley's Mark Martindale, who is averaging 10.7 and 11.2. Ron Page, Minico senior, is hitting at 10.3 and 9.2 while Buyl's top forwards, Glen Gilman and Grant Martinson, are tied at 10.1. However, Gilman is 11.3 for the year while Martinson is 9.2.

Buyl leads in free throw percentage with an 86.6 percentage in the Big Seven and 78.2 in the overall. Oakley is right behind on the season with 76.6. Offensively, Buyl is hitting each hoop for 56.4 points per game and all opponents for 55.9. Jerome continues to cling to the defensive record with 34.4 in the league and 35.7 overall. Buyl continues to whistle away and is down to 31 now.

Martindale is the individual leader in both free throws and fouls. He has 42 conference free throws and 40 for the year, 32 free fouls and 68 fouls since December. Allen Dowd, Buyl, is second with 21.

The Big Seven schedule for the week-end finds Godee at Buyl, Jerome at Buyl and Buyl at Minico Friday while Minico is at Jerome Saturday.

Conference standings (overall win-loss record in parentheses) include:

AAU Hopes to Land World's Top Vaulters

NEW YORK, Feb. 5.—The dream pole vault competition, combining together all eight members of the exclusive 10-foot club, may be foiled later this month by the still unsettled track and field war.

The Amateur Athletic Union announced Monday that seven of the eight men who have attained that extraordinary height, including the fabulous, Finn Pentti Nikula, are expected to appear at the 15-foot mark in the National AAU indoor championships at Madison Square garden Feb. 22.

The absentee may be C. K. Yang, the Nationalist Chinese star from UCLA whose 16 foot 3 1/2 inches is second only to Nikula's amazing 16-8 1/2, recorded last Saturday in the remote village of Jalavihi, Finland.

"We have sent an invitation to him but haven't received a reply," said Col. Dan Hull, executive director of the AAU.

Hull said the other seven had indicated they would be on hand and he predicted: "We may get the 17-foot vault in this meet."

"We still hope Yang will be persuaded to compete," Hull said. "It is inconceivable to me that he would be held out of such an important meet, particularly in view of our agreement in the MacArthur meetings that all suspensions and restrictions against athletes would be lifted."

Oklahoma State Shocks Colorado

STILLWATER, Okla., Feb. 5.—Oklahoma State secured a 50-40 victory over Colorado in a Big Eight conference basketball game. It was Colorado's first loss in the conference.

Oklahoma State, playing its cautious control game, got balanced from its inside players. Hank and Wiley led with 12 points each. James King got 10 and James Cooper added nine.

Utahs Breeze To Win Over Montanans

LOGAN, Utah, Feb. 5.—Utah State jumped to an early lead last night and sailed on to an 85-57 victory over Montana State university.

Montana's reserve guards Dave Miller and Dave Sumner sparked a late Orizley rally that flustered Aggie reserves and quickly narrowed a 31-point deficit to 17.

Aggie coach Ladell Anderson then inserted veteran guards Mark Hixon and Reid Goldberger and Utah State preserved an 18 point lead.

The Aggies led 45-30 at intermission.

The victory was Utah State's 10th straight and gave them a 17-3 record. Montana is 9-12.

The two teams played once before this season and Utah took that one 44-38.

Montana star center, 6 foot, 11 inch Steve Jett left the game at the 15-25 mark in the second half on personal fouls.

Aggie sophomore Wayne Estes and junior Troy Collier shared scoring honors with 22 points each.

Sikes Cited as Best Golf Putter

CHICAGO, Feb. 5.—Dick Sikes, winner of the national public links title the last two years and a member of the U.S. team that will play in the Walker cup matches in Scotland this spring, was named golf's putter-of-the-year Monday.

The team University of Arkansas senior was voted the honor 192 by officers and directors of the Golf Writers Association of America. He will receive a trophy at the writers' annual meeting in Augusta, Ga., April 1.

Sikes, who compiled an amazing 50 one-putt greens in winning his first Public Links crown in 1961 at Detroit, becomes the fourth player to take the award. The others are Art Wall, a four-time winner in 1956, Deane Beman and Jerry Barber.

COACH QUILTS—years ago to direct his basketball team, said Monday he is resigning from the University of Utah to join Leitch in the second round of the tournament.

Leitch, who has been coaching at Buyl since 1958, said he will have to face Gary Pedrow, Buyl's first rounder.

The coaches of the seven participating schools seeded the top wrestlers in each event. Favored at 88 pounds is Schmidt, while Whitaker, Minico, and Schmidt, Buyl, have the 104 pound boys. Whitaker and Minico's Shuster hold the 114 pound nod with Jerry getting the boys.

Defending champion Combs has a first-round rest in the 123 pound class with Buyl's Doyle Winn expected to be his toughest competition. In the 130 pound event, Rocky Newcombe, Buyl, and Bob Freeman, Buyl, appear tough while Minico's Garner and Duin, Buyl, are the boys.

The toughest divisions are expected to be in the 147 through 154 pound class. In the lightest weight, Buyl's Catoen led the opening drive while Leitch, Satterville, Twin Falls, and Minico's Rogers collide in the 147 pound class.

At 149 pounds, Clarence Sparks is a former champion but his competition will come from Jerome's Morrison, Buyl, and Orville Williams, Twin Falls. Twin Falls' George McAdams is undefeated but must beat Sonny Bowlin, Buyl, and Minico's Jim and Walt Buyl, at 154 pounds.

Don Wedgwick, Minico, is the 168 pound class while his Pedrow, Leitch and Arthur at 185 pounds.

But Satterville, Twin Falls' undefeated heavyweight, already assured of a trip to the state tournament at the bye into the finals. There are only two others in that event.

The champions and runners-up in each weight class will advance into the state finals at Idaho Falls later in the month.

Union Will Discuss Utah Copper Strike

BALT LAKE CITY, Feb. 5 (AP)—Regional and local officials of the United Steelworkers union were to meet here today to discuss a wildcat strike that halted operations at Kennecott Copper corporation's Utah smelter Monday.

Members of Local 4347, United Steelworkers of America, walked off their jobs at the smelter in nearby Moab in a dispute over new wages for overtime workers. More than 1,000 workers were immediately affected by the walkout and the company says more of its 6,000 Utah copper dividing employees could be affected if the walkout continues.

Norman H. Jordan, president of the local union, said that a "membership action was not sanctioned by the union." He said the men objected to installation of vending machines which dispense soup, drinks and sandwiches. They said the company had given workers the option of sack lunches or a hot lunch brought by caterers.

STOCKHOLM, Sweden, Feb. 5 (AP)—The Nobel committee of the Swedish academy approved 81 candidates Monday for consideration for the 1963 Nobel Prize for literature, the highest number ever. GILBERT HUNTER, left, relied on the Red Cross blood bank to help save his life when he was shot, along with Larry Sager, Oakley, Nov. 28. Hunter received three pints and Sager six. With Hunter is Art Berger, chairman of the Hunter-Sager recovery fund drive which closed Feb. 10 in Oakley with a benefit dance at the state house. Blood donations are badly needed in the Oakley area, according to Mrs. Ira Buckley, who is in charge of the blood drawing from 10 a.m. to 2 p.m. Wednesday at the Legion hall. The quota is 75 pints. Water on Road Blamed in Crash

BELLEVUE, Feb. 5—Water on the road was the partial cause of a 1961 Kenworth tractor-trailer going off the road one-half mile east of the highway 20-23 junction on highway 23, about 5:20 p.m. Sunday, according to investigating state patrolmen. The truck, driven by Lavelle D. VanLeuven, 40, Boise, was passed by a car while going through a pool of water on the road. The car threw up water on the windshield and VanLeuven reached to turn on the wipers. As he did so the truck skidded off the slick surface of the road and hit at Idaho Power company pole, police said. The front panel and bumper of the truck were damaged.
