Weather, Temperatures

MAGIC VALLEY - Fair through Saturday but with variable high cloudiness Saturday. No much temperature change. Outlook for Sunday, little change. Temperatures at 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

AGRICULTURAL WEATHER SUMMARY

High pressure in the upper levels over the eastern Pacific and over northern Canada is responsible for the sunny skies and rising temperatures being experienced over the valleys of southern Idaho and eastern Oregon. This high pressure system is blocking a storm system from the Pacific Ocean and is keeping it from reaching the intermountain region for the next few days at least. Maximum readings are expected to reach into the upper 60's and into the upper 50's over the valleys today. Low pressure off the California coast will move to the south of us but affecting our weather. The outlook through the week-end is for continued fair weather and warm afternoons with high temperatures generally reaching into the 50's on Saturday. Nighttime temperatures will cool down again with readings mostly in the 20's.

FIVE-DAY FORECAST

Nearly ideal early spring conditions will prevail through next Wednesday over southern Idaho and eastern Oregon. Temperatures will average near to about four degrees above normal with no major changes through Wednesday. Normals for this period are Boise - 40 and 26, Gooding, 43 and 26, Twin Falls - 41 and 27, Burley 40 and 25, Pocatello 44 and 25, and Idaho Falls 41 and 27.

TEMPERATURE AND PRECIPITATION

Station	Max.	Min.	Precip.
Boise	40	26	0.00
Gooding	43	26	0.00
Twin Falls	41	27	0.00
Burley	40	25	0.00
Pocatello	44	25	0.00
Idaho Falls	41	27	0.00

Income Tax Boost Eyed To Get Fund

(Continued From Page One)

granted charters in Idaho without regard to the rules on one bill. The vote on final passage was 52-24 after a 31-24 vote against putting the measure on order for debate.

The Democratic minority in the senate refused to agree to suspension of the rules on one bill, thus preventing immediate consideration of it. A measure would establish a state board of natural resources. The bill will come up for final consideration under normal procedure Saturday, but refusal to permit action under rules suspension meant some delay in getting the bill to the house.

The bill carried over a recommendation of a study committee headed by Dr. D. R. Theophilus, president of the University of Idaho. The board would be intended to serve as the coordinating agency for all departments concerned with the study.

Several minor general fund appropriations bills were introduced in the house. One bill, which would annually introduce, was reported out by the senate finance committee as the senate would read the bill. The bill follows closely the spending recommendations of the governor.

The senate passed and sent to the governor a measure, amended in the house, to facilitate employment of young people. The legislature earlier this session voted to increase from 75 cents to 81 per hour. The state's minimum wage is the lowest in the west.

JEROME - Graveside services for Joseph H. Otto will be held at 2 p.m. Saturday at the Jerome cemetery. Final rites will be held at the Wilson funeral chapel Monday until time of services.

T.F. Scouter Talks at Cub Scout Event

FILED, March 8—Maurice L. Scott, Twin Falls, representative of the Twin Falls Area Council of Boy Scouts, was guest speaker at the annual blue and gold banquet of the Cub Scout pack held at the Elks club last night.

Loren Anderson, committee chairman, was featured speaker at the banquet. The opening prayer was given by Ernest Hall, pastor of the Presbyterian church. A three-year-old son of the pack was presented a plaque for his achievements in the past year. Mrs. John Perry presented three-year-old son of the pack. Wolf badges were presented to Brent Decker and Dallas Pate by Mrs. Decker and Mrs. Pate. Mrs. Decker and Mrs. Pate also presented a plaque for their achievements in the past year.

Arrangements for the banquet were made by the pack committee. The program was well attended and the evening was a success. The banquet was held at the Elks club and was a great success. The pack committee is planning to hold another banquet in the near future.

No Contract Reached on Spud Prices

RUPERT, March 8—Officials of the Potato Bargaining and Marketing association announced today that no contract has been reached with the R. S. Blimpot company on a contract price for the 1963 crop.

The contract chairman for the local group, said that the farmers are not satisfied with the prices offered by the company. The contract is about six to seven cents less than last year's. The farmers are still in a meeting here earlier this week with 24 directors present, representing the local potato growers and Twin Falls counties.

Valley School Groups Give Music Event

WEDNESDAY, March 8 — A concert was presented by the Valley School Music Groups at the Valley High School auditorium under the direction of Charles Knevel, Wednesday evening.

The major band played "Cerebral March," "Brahm's First Symphony," "The Waltz," "Largo," "The Swan," and "His Majesty." A quartet was presented to Jim Rogers from their appreciation of his work with the band the past year. Gary Kincaid made the presentation.

Danny Beard sang "Climb Every Mountain," accompanied by Hammond, accompanied by the piano. Brenda Glenn grade chorus, accompanied by Warren Adams sang "Jacob's Ladder" and "Rocke Ye Pure of Heart." The quartet sang "I'll Walk with God," accompanied by Mrs. Jim Freeman. Members of the band sang "The Lord's Prayer," "Diana Pharris, Susan and Dina Pharris, and Brenda Glenn. Members sang "How are Things in Gloamora," accompanied by Diana Pharris and a solo of folk songs.

Warren Adams played a clarinet solo, "Brenda Glenn sang 'The Lord's Prayer' and 'I'll Walk with God.'"

A bass solo was played by Jim Rogers, accompanied by the band. His selection was "Voice of the Vikings" by Dave Bennett.

The senior high school mixed choir sang "Viva" from the "Merry Widow" by Franz Leher; "My Love is Like a Red, Red Rose" by Robert Burns; "Canon" by Purcell; and "Camelot," accompanied by Brenda Glenn.

The instrumental band, consisting of sixth and seventh graders, played two French dances and an Irish folk song. Concluding selections were played by the mixed intermediate and senior bands.

"Woodland Serenade" by James featured solos by Jerry Hughes and Gary Kincaid.

10 Lenten Services Planned For Tyler Baptist Church

Ten Great Days, a series of 10 Lenten services beginning Wednesday and continuing through Friday, March 22, at the Tyler Street Baptist church, 283 Tyler street, will feature Dr. Earle E. Matteson, Tucson, Ariz., as speaker and musician.

Dr. Matteson has wide experience in youth work, education, music and the pastoral field. He is a pastoral consultant for a national psychology service in Tucson.

He received a bachelor of arts degree from the University of Minnesota and a master of theology degree from Northwestern University. He is the author of "The Effect of Regeneration on Character," which was a study of juvenile delinquency problems as related to Christianity. He received a master of arts degree from the University of Arizona in education, and a Ph.D. with another thesis, "The Functions of the President of a Christian College."

He has an honorary doctor of divinity degree from Northwestern college and was elected to the national honorary educational fraternity, Phi Delta Kappa, because of his work at the University of Arizona.

His vocational activities include work as youth and music director in Minnesota, three years as youth evangelist for the Minnesota Baptist convention four years as youth and music director for the First Baptist church of Tucson, and 10 years as pastor of the Palo Verde Baptist church, Tucson.

The Palo Verde church has grown from a few dozen members to 400 members while Dr. Matteson has been pastor.

In addition to the nightly messages, Dr. Matteson will include a musical program each evening. One section of the programs will include songs of the South. Sermons will be made on the needs of youth as well as adults in the series.

The Sunday services will begin at 11 a.m. and 8 p.m., with weekday services at 8 p.m. The weekly is invited to attend.

DR. EARLE E. MATTESON

Dillon Says U. S. Faces More Losses

PRINCETON, N. J., March 8 — Secretary of the Treasury Douglas Dillon today said the United States faces additional losses of gold and a continuing deficit in its balance of payments this year.

"With that prospect, he said, the government must redouble its efforts to reduce the outflow of dollars in foreign aid programs and stimulate the economy at home."

Dillon, in a speech prepared for the American Bankers Association's annual monetary conference, called the need for improving the U. S. payments position one of the most telling arguments in favor of President Kennedy's tax program.

"I am convinced that tax reduction, prudently financed and accompanied by persistent and firm expenditure control, can play a major role in that improvement," he said.

DONALD LEE AIKEN, son of Mr. and Mrs. Owen D. Aiken, route 1, Paul, will be honored at a farewell testimonial at 4:30 p.m. Sunday in the Paul second ward LDS chapel. He leaves April 1 for Copenhagen, Denmark, where he will serve a two and one-half year mission.

Reminder

MIAMI, March 8 — More than 50 residents of Miami Springs scurried to city hall to pay delinquent water bills yesterday.

"I never saw anything like it," one clerk said. "They came rushing in as fast as they could, with the money in their hands."

Then the truth was learned. A road grader accidentally cut the main water line into Miami Springs. Many residents thought their water had been cut off because of non-paid bills.

BIRTH REPORTED
PAUL, March 8 — Word has been received of the birth of a daughter to Mr. and Mrs. Will Knudsen in a Salt Lake City hospital. Mrs. Knudsen is the former Linda Jenkins, daughter of Mr. and Mrs. Eugene Jenkins Paul. The baby is the first grandchild for the Jensens.

NATIONAL WHIRLIGIG

By ANDREW THILLIE

WASHINGTON, March 8.—It may seem a curious thing, but President Kennedy is hoping the Republicans' Party next year will be the man most experts believe has the best chance of winning the White House.

Rockefeller's appraisal of the situation is not surprising. He thinks Kennedy will be much easier going than the Democrats. He thinks Rockefeller than against either a conservative or a man who is likely to be accused of "neo-fascism," a man who will be unable to create clear-cut issues.

Rockefeller lately has assumed a more conservative posture, having nothing to worry about in liberal New York State since 1960. Kennedy than even Sen. Barry Goldwater of Arizona, and has had the experience of Kennedy of New York, who is a kind of Washington advance man for the Rock.

A LIBERAL CONSERVATIVE.—It is clear at this point that Rockefeller will try to unseat Kennedy from the vantage point of an authentic conservative with deep roots in the Republican Party. He is going to win any measure of support from the Taft wing of the Republican Party.

But the White House thinks he will fall in the North, with his liberal majorities. He cannot afford to lean so far to the right. In the North, he must come out foursquare for civil rights, and this does not always work for Rockefeller.

MEASURE OF CONSERVATISM.—GOP conservatism is not the men as the 1964 nominee. They would give their right arm if it could be Goldwater, but Goldwater has and he'll run for reelection in 1964. He has no reason to disbelieve him.

Depending on their records from here in Governor Rockefeller's record is a good one. He has given them as bona fide conservatives. It is somewhat odd that Goldwater, by the time the GOP convention is held, will be the old-line Republican conservative.

IS A BIG FACTOR.—Most importantly, perhaps, is that the Republicans and the Democrats are going to be very much involved in politics in his role. The conservatives gain a speaking admission for Ike, and they will not ignore his counsel.

THE 1964 RACE
An Associated Press news story from Washington says President Kennedy believes he is going to have a hard time when he runs for reelection in 1964. The issue is not the election of Franklin D. Roosevelt, all Democratic candidates have had a record of success in the past half century.

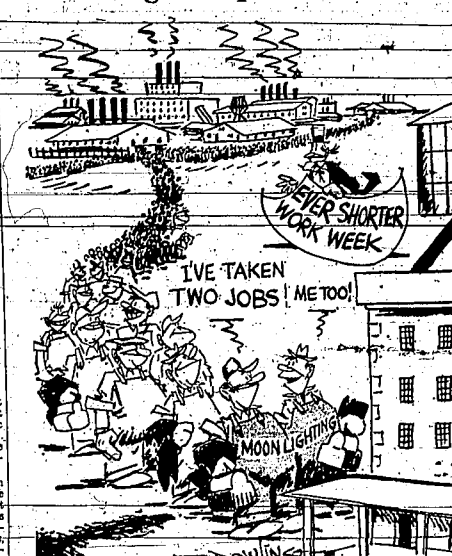

It is an appalling standard of morality that Rep. Adam Clayton Powell has set forth for the nation. He is not content with the corruption, of taste and decency appears to be good enough for him. Criticized for night club dancing, he has now been indicted for bigamy.

HARD TO VANISH
In two days, four million men escaped in Maglo Valley. Perhaps they shouldn't have escaped in the first place, but the fact all your recaptured within short distances of the point of escape speaks well of law enforcement organization.

LONG HOURS
Long hours are being put in perfecting plans for intercepting any fugitives in Maglo Valley. Within minutes after a jailbreak or commission of a crime such as a bank holdup, Maglo Valley's law enforcement officers put out a net that's difficult to avoid.

Solving Unemployment Problem

POT SHOTS

THEY SURE ARE!
Dear Sir: It's happening already. Spring is here. It's time to get ready for the little trouble telling when spring actually arrives, but our dollars don't even compare with those folks back east.

I saw in the paper where they're neck-deep and deeper in spring. These folks must like hot but not so hot for their year after year. No, I'd just as soon try to outguess the weather in Magic Valley.

AMONG THE NEWS

FAMOUS LAST LINE
"He left by instinct."
GOLFERS IN THE FOURTH ROW
By JAMES MARLOW
Associated Press News Service
WASHINGTON, March 8 (AP)—Thirty years ago this week President Roosevelt's last line was "I'm going to be a golfer."

ABILITY FOR THE GENERAL WELFARE.
The 1954 President Pierce said the welfare clause of the constitution is the best guarantee we have to provide for the people. That's what the constitution is all about.

He never balanced the budget in 12 years in the White House. That was not the kind of thing which could matter much to a man who was hungry or out of a job or a home.

Before 1912 the British had no unemployment law, old age pension, or child allowances. Germany, early in 1928 under Bismarck, put through an unemployment law.

He never balanced the budget in 12 years in the White House. That was not the kind of thing which could matter much to a man who was hungry or out of a job or a home.

COVERING THE CAPITAL WITH PETER EDSON

WASHINGTON, March 8.—Analyzed by the committee's staff under Murray Dabbin, the bill will be made before July 1. Then it will be up to Congress to decide what to do about the situation.

Under the U. S. Constitution, the executive branch has the power to regulate interstate commerce. Many businessmen now feel, however, that state action with business across state lines is a restraint.

The Supreme Court has recognized that it is institutionally incapable of solving this question as a broad principle. But the court has the power to decide if a state can tax a reasonably apportioned share of the income of a business which has its offices in the state.

The Supreme Court has recognized that it is institutionally incapable of solving this question as a broad principle. But the court has the power to decide if a state can tax a reasonably apportioned share of the income of a business which has its offices in the state.

MARQUIS CHILDS WRITES ON WASHINGTON

WASHINGTON, March 8.—Every missile, every gun barrel, every soldier in the communist bloc, there is nevertheless a big blank spot in the picture, it contributed to the Big Bear but for in 1961 and it may have added to the peril of the October confrontation. And, what is more, the public prints seldom mention it.

THE DETAILS
The details of the October crisis of 1961 in the government was written by the Kremlin specialists and the hard-line intelligentsia. The specialists were saying that Premier Khrushchev would be most unlikely to compromise on the Berlin issue.

JOHN MCCONE, director of the U. S. Bureau of Intelligence, in government as early as last August, before Sen. Kenneth Keating's report on the Soviet satellite in Cuba. He believed the Soviets were about to install offensive capability. This was his view of the situation.

McCONE on Aug. 24 left for Europe on his honeymoon. At that time, the Soviet satellite in Cuba was still in the process of being established. He was not in the country when the crisis occurred.

MRS. MARY FERGUSON, 35, who weighs 244 pounds and stands five feet, two inches tall, hopes to lose 50 pounds by leaving home to spend two weeks fasting from all food in a Long Beach hotel room. She'll start on March 17. She'll fast under medical supervision and take only coffee, tea, bouillon and vitamin pills. (AP wirephoto)

Desire for Easter Outfit Leads to Plans for Diet

LONG BEACH, Calif., March 8 (AP)—I want some new clothes for Easter, but I can't find anything to fit me." In the case of Mrs. MARY Ferguson, 35, this is almost literally true. She is 5 feet, 2 inches tall and weighs 244 pounds. That's why Mrs. Ferguson announced yesterday she's going to leave home to spend two weeks fasting from all food in a Long Beach hotel room. She'll start on March 17. She'll fast under medical supervision and take only coffee, tea, bouillon and vitamin pills. (AP wirephoto)

Bureau Discusses Wheat Problems

HOLLISTER, March 8 (AP)—A tape recording and film strip regarding the wheat referendum were presented to the Salmon Trade Community Farm Bureau Wednesday at the regular monthly meeting held at the Hollister Grange hall. Fred Thompson, Pocatello, and Curtis Harris, county president, presented the program. Evert Rasmussen, Eddle Joellin and Byron Longmiller were appointed as a committee to help raise funds to purchase the Farm Bureau's views on the wheat referendum. Resolutions were served by Mr. and Mrs. Gene Cliff and Mr. and Mrs. L. E. Joellin.

Church Says Change for IRS Delayed

WASHINGTON, March 8 (AP)—Sen. Frank Church, D-Idaho, said today Treasury Secretary Douglas Dillon has delayed a proposed plan for reorganizing the internal revenue service (IRS). Church also announced he has reintroduced a Salmon river preservation bill. He said this measure was to prevent construction of dams on the Idaho river—pending solution of the fish migration problem. Church said he was informed the reorganization plan announced earlier this week by the IRS would call for the transfer of 31 supervisory positions from Boise to Salt Lake City. Church said he protested to the internal revenue service, the treasury and the White House. "I hope the secretary will decide against such a drastic cut in the Idaho office once he has reviewed the proposal," Church said.

Hailey Genealogy Society Elects

HAILEY, March 8 (AP)—Officers were elected at a genealogical society meeting Tuesday night in the seminary room of the Hailey ward LDS church. Charles Haskell, Carey, was named president. Mrs. William Horting, Bellevue, vice president, and Mrs. Fred C. Doney, Hailey, secretary. Mrs. Lloyd E. Smith is instructor for the group, which will meet each Tuesday evening for 10 weeks. Haskell gave the opening and closing prayer.

News Around Idaho

BOISE, March 8 (UP)—The first time in history a visit is planned to Idaho by the president of Toastmaster International, officials of the Boise Toastmaster organization announced today. Frank Spangenberg, president, will be in Boise Monday and will be a special guest that evening at an area speech contest. Charles Spencer, Boise, district 16 lieutenant governor, said.

POCAHELLO, March 8 (UP)—Always plagued by the problem of having other schools here away its instructional staff at higher salaries, Idaho State university stands to lose more capable young faculty this year than last. President Donald E. Walker said Thursday. Several faculty members have already submitted resignations, he said, and others have informed their department heads that they are considering job offers outside the state. Dr. Frederick Schuster, assistant professor of geology, has accepted a position at the newly created Southern Colorado state college, Pueblo. He will become head of the geology department and salary some \$1,200 greater than he now receives. Dr. Donald O. Johnson will teach next year at the University of Minnesota and Dr. Andrew H. Rugh will join the staff of Sonoma State college in California. Both are assistant professors of history.

BOISE, March 8 (UP)—Federal Judge Chase A. Clark sentenced Ervin W. Simpson Thursday to one year in prison for fraud sale of vending machines, but suspended the sentence and placed him on probation for one year. He was one of more than a dozen charged in the connection with the case brought by the government.

By The Associated Press
Light snow covered U. S. highway 10 in Fourth of July canyon Friday but elsewhere in Idaho all major highways were reported bare and dry. State police said the Fourth of July canyon stretch of highway was well sanded.

Legislature Plots Through 60th Day of Its Session

BOISE, March 8 (UP)—Idaho's legislature passed through what was scheduled to be the final day of its session yesterday without action on the major bills. Leaders before it and leaders had virtually abandoned any hope of reaching adjournment Saturday, the 60th day of the session, normally a day of frantic activity to reach adjournment.

But both the house and senate moved at a slow pace and the house spent much of its time in recess for caucuses and the senate for conferences on legislation before it.

The senate bill had not acted on a proposal to transfer four million dollars from the permanent building fund into the general fund to help balance the budget, on an appropriations bill as requested by the house to give a signal to its tax-writing committee on how much must be raised.

The appropriations committee was reported standing pat on its budget recommendations totaling 100 million dollars.

Leaders hoped they had one more day to make a deal with agreement on a compromise public school formula that contains features of a formula submitted Tuesday in a formula revised in the senate and a revised version of the present formula.

Rep. Pete Conrath, R. Blaine, house speaker, said he has given up on the deal for a moment Saturday night and expects the session to continue early next week. He said he believes it will end by Wednesday.

The house spent much of the afternoon in a two-stage battle over a nonpartisan bill that would eliminate the state chartered banks because the chartered banks have consent of the existing banks before they can be established.

Rep. Dorell Manning, D. Bannock, said it is needed to put state banks on a competitive basis with the chartered banks because the controller of the currency has followed a policy of favoring the state banks.

He said 12 charters have been granted to federal system banks without regard to the law.

Rep. Ray Turner, R. Twin Falls, led opposition, contending that the Bank of Idaho alone would benefit at the expense of independent state banks.

"A branch bank could open in a place and even operate at a loss until it has accumulated a bank out of business," he said.

The bill passed 30-27 but later in the evening a motion of Arvil Miller, R. Bingham, to recon-

Guest Minister Set for Hansen
HANSEN, March 8 (UP)—The Rev. Dr. Hans Hansen, pastor of the Methodist church in Paul, will be guest speaker at the evangelistic fellowship service to be held at the Hansen Community Methodist church from Sunday evening through Thursday.

The Sunday service will begin with a potluck supper at 6:30 p.m., with the preaching service from 7:30 to 8:30 p.m. Services also will be from 7:30 to 8:30 p.m. the rest of the week.

The Rev. Mr. Hans Hansen has served parsonages in Paul and has done staff work at youth camps in both the Idaho and California-Nevada conferences.

DISTRIBUTION SET
CLOVER, March 8 (UP)—The wheat referendum will be discussed at a meeting of the Clover Community Farm Bureau at 8 p.m. Tuesday in the Clover Lutheran school.

BOXES OF BOOKS, 5280 pounds of books to be exact, are loaded onto a truck for a journey which will take the books to the Philippine Islands. The books all are textbooks and educational matter collected by Kayser Lodge No. 91, AF and AM, Twin Falls. The collected books will be shipped by the navy to the islands as part of its world-wide "project handiaps." In front, from left, are Chief Petty Officer David (Pappy) Yocum, local navy recruiter, and Carl Sobel, 1880 Oysterish avenue north, past master of Kayser Lodge. On the truck, from left, are Jack Viscaglia, 265 Blue Lake boulevard north, master of Kayser Lodge, and Chief Petty Officer W. G. (Tommy) Thompson, Boise, navy recruiter. The books will be flown from Boise to Seattle for shipment from the naval supply depot. (Times-News photo)

Local Musicians To Go on Tour

Six musicians from Twin Falls will participate this spring in the largest music tour in the western United States as members of the Brigham Young University combined chorus and symphony orchestra. The tour is scheduled April 8-11.

The 400-member group is composed of 300 singers and 100 instrumentalists. It will perform two of the world's great choral masterpieces, "Magnificat in D" by Bach and "Beshamesse Feast" by Walton.

Local musicians are Cheryl Schow, daughter of Dr. and Mrs. Douglas Schow, Ross Egbert, son of Mr. and Mrs. William E. Egbert; Sharon Miller, daughter of Mr. and Mrs. A. D. Miller; Lynne Hamilton, daughter of Dr. and Mrs. Lloyd Hamilton; Don Van Noy, son of Mr. and Mrs. Melvin J. Van Noy, and Camille Easton, daughter of Mr. and Mrs. Arlon J. Easton.

Amendment Heads for Ballot in '64

BOISE, March 8 (AP)—A proposed constitutional amendment sponsors said it is intended to enable the development of an inland seaport at Lewiston within the next two years. The measure would be on the ballot at the next general election.

The bill was introduced by Sen. R. M. Wetherell, D., Boise, on Feb. 27. The measure proposes to amend the constitution to allow the state to issue bonds to finance a seaport at Lewiston. The measure would be on the ballot at the next general election in 1964.

Pieper Plans Anti-Pirating Bill Battle

BOISE, March 8 (AP)—Rep. Don Pieper, D., Bonanza, says he will continue to wage a determined battle against a bill which would pass the house by a vote of 37 to 17.

Pieper, who has spearheaded an attack against this and a similar measure two years ago, said the rural electrification administration and several power companies are backing the bill. He said he hopes to see the bill passed, however.

Pieper, a veteran of the legislative arena, instituted a number of parliamentary maneuvers to forestall action on the bill. He pointed out that there are 37 members of the house who are in favor of the bill and that this is a fact which cannot be denied.

Governor Vetoes Office Reference

BOISE, March 8 (AP)—Gov. Albert C. Boylvin vetoed Thursday a bill which removed from one section of Idaho law reference to the office of county surveyor.

There no longer is an elected county surveyor said the bill was intended to delete the reference for that reason.

But Boylvin noted that another bill recently introduced for concurrence in senate amendments, also eliminate reference to the office of surveyor in some provisions changing, in the same section, in maximum salaries for other offices.

Legislative Log

SB1 (Welfare)—Exempting Minner county from law requiring state banks to provide reserve funds within their districts.

HB96 (Insurance, public utility)—Deleting an obsolete reference to state law to conform to federal law by increasing the aggregate amount of state bank deposits which may be made from 66 per cent to 70 per cent.

HB111 (Judiciary and rules)—Deleting an obsolete reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB112 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB113 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB114 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB115 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB116 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB117 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB118 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB119 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB121 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB122 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB123 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

HB124 (Judiciary and rules)—Deleting reference to county courts and allowing local governments to hire a registered engineer or surveyor of their choice.

Senate Defeats Attempt to Start Election of Fish, Game Commissioners

BOISE, March 8 (AP)—An attempt to amend the constitution to allow the election of fish and game commissioners failed in the senate today.

The measure would have allowed the voters to elect a commission to select the fish and game commissioners. The senate voted 34 against to only seven in favor.

Don W. Samuelson, R., Bonner, led the attempt to amend the constitution. He said the measure would allow the voters to elect a commission to select the fish and game commissioners.

Opponents of the plan argued it would be a step back in the management of the state's wildlife resources, and that it would result in putting control of fish and game back to the voters.

Sen. George Blizz, R., Twin Falls, said that "all are fish and game experts."

Sen. Lloyd Barron, R., Chama, said the bill would make no change in Idaho laws setting up voting requirements, which require a residence of six months.

Sen. R. H. Young, R., Canyon, spoke against the measure, saying it "attempts to preserve the voting right for someone who cannot otherwise qualify."

Sen. R. M. Wetherell, D., Boise, said that in some states it is almost impossible for military personnel to meet requirements for casting absentee ballots.

Sen. R. H. Young, R., Canyon, spoke against the measure, saying it "attempts to preserve the voting right for someone who cannot otherwise qualify."

Sen. R. M. Wetherell, D., Boise, said that in some states it is almost impossible for military personnel to meet requirements for casting absentee ballots.

Vote Chance Permitted to Newcomers

BOISE, March 8 (AP)—Persons who have lived in Idaho only 60 days would be permitted to vote for president and vice president when they could not meet residence requirements in voting for other officers, under terms of a bill passed Thursday by the senate.

The measure implements a constitutional amendment which was approved by voters at the general election last November. It allows new voters to vote for president and vice president.

Sen. Lloyd Barron, R., Chama, said the bill would make no change in Idaho laws setting up voting requirements, which require a residence of six months.

Sen. R. H. Young, R., Canyon, spoke against the measure, saying it "attempts to preserve the voting right for someone who cannot otherwise qualify."

Insurance for Borrowers Rejected in Assault on Bill

BOISE, March 8 (AP)—Idaho's first attempt to require insurance for borrowers was rejected in the senate today.

The measure would have required borrowers to purchase life insurance as a condition of borrowing. The senate voted 34 against to only seven in favor.

Rep. Alvin Benson, D., Owyhee, introduced the bill. He said the measure would require borrowers to purchase life insurance as a condition of borrowing.

Rep. Don Pieper, D., Bonanza, led the assault on the bill. He said the measure would be a burden on borrowers and would not protect them.

Rep. James Monroe, D., Nez Perce, said he had not seen the bill in the legislature. He said he would support it if it were to pass.

Rep. James Monroe, D., Nez Perce, said he had not seen the bill in the legislature. He said he would support it if it were to pass.

Duplicate Bridge Club Holds Play

Eight tables were in play when the Magic Valley Duplicate Bridge club held its weekly afternoon session at the home of Mrs. Charles Beymer.

North and south winners were Mrs. Harry Light and Mrs. Arlene Kelly first; Mrs. A. J. Lindemeyer and Mrs. Joe Shelby second; and Mrs. A. J. Russell and Mrs. C. E. Wadsworth third.

East and west winners included Mrs. S. L. Thorpe and Mrs. Charles Wetherell first; Mrs. J. Miller, C. McMillin and Mrs. H. Miller second; and Mrs. L. E. Salladay and Mrs. Joseph Sever, Jr. third.

Rep. Herman McDowell, D., Bonanza, said a vote for the bill would mean real regulation on the credit life insurance industry.

Rep. James Monroe, D., Nez Perce, said he had not seen the bill in the legislature. He said he would support it if it were to pass.

BURLY LIVES STATE MEET SEMIFINALS

Bobcats Bury Salmon by 70-59; Coeur d'Alene, Pocatello, Blackfoot Win

BOISE, March 8 (AP)—Blackfoot, Pocatello, Coeur d'Alene and Burley high school moved into the class AAA semifinals Thursday at the Idaho state basketball tournament in Boise. Pocatello and Coeur d'Alene won their games by one point, both making the winning basket in the final seconds. Pocatello's Freeman Dunn sank a free throw with eight seconds remaining in the

Willie Mays Belts First Spring Homer

PHOENIX, Ariz., March 8 (AP)—Willie Mays hit his first homer of the spring yesterday in a six-inning game between the Arizona State League and the Los Angeles Angels. Mays' homer was a 240-foot drive in the fifth inning off the left field fence at Phoenix municipal stadium. It was his second homer in the game. He doubled his first line-up but was left stranded in the second inning. At glance a southpaw bowler who made his pro debut at Springfield in the Eastern league last season, Willie Mays allowed only one other hit in his five inning stint. That was turned into an unearned run by an error.

USC Pacing Coast Swim Tournament

LOS ANGELES, March 8 (AP)—Southern California, seeking its third title, is leading the five-events and took a commanding lead yesterday in the Big Six conference swimming championships at USC.

Southern Cal broke conference records in two events and scored 20 points in the first day of the three-day meet. Washington was second with 20 points. Next were Stanford 16, Washington State 12, and California 10.

USC's Perry Lindberg won the 50-yard freestyle in 22.3 seconds, breaking the conference record of 22.8 set by Peter Reed of Southern Cal in 1952.

The USC team of Bob Bennett, William Pennington, Mark Miller, and Peter Reed broke the conference record in the 400-yard medley relay with a time of 3:41. The record was set by Stanford in 1951. Washington's John DeHaven won the free-cholo one-meter diving with 417.15 points.

Technical Kayo Scored in Third

MIAMI, Fla., March 8 (AP)—Ernest Carroll, 204, Chicago, scored a third round technical knockout over the former champion, 195, Miami, in a scheduled 10-round heavyweight bout at Little River auditorium.

The result was a surprise with a combination right and left upper-cut, knocking him through the ropes at the bell of the third round. Eller did not answer the bell for the third round.

Confusing Sentiment, Gloomy Room Set Stage for Clay vs. Beatniks

NEW YORK, March 8 (AP)—When your eyes became accustomed to the gloom, you could make out the motion picture screen written on the back wall.

The further the urn, the larger the beard.

10 Knockouts Feature First Bout

UTICA, N.Y., March 8 (AP)—Ten knockouts featured the first 10 preliminary bouts in the opening of the National Amateur Athletic Union boxing championship yesterday.

About 40 more preliminary bouts are scheduled today, with the finals on Saturday.

Observers said the number of knockouts indicated that the protective headgear the AAU fighters wear is not doing its job. The first time had little effect on the fight results.

The only serious injury last night was sustained by Leslie Pyles, Washington, D.C., who was taken to a hospital with a fracture of the right hand. Pyles was out-pitched in a 147-pound preliminary by William Olson of Williamstown, Pa.

From that point it was the fight and take the rest of the night with Emmett taking most of the time until 1:30 remained.

Then Blackfoot's Packer hit on two straight flinders and his teammates began to find the hoop to shove them 44-00.

The Blackfoot's Packer hit on two straight flinders and his teammates began to find the hoop to shove them 44-00.

Cinched Father of 7 Wins in Last Golden Glove

TUCSON, Ariz., March 8 (AP)—Cleveland's Tony Martinelli holds an unusual distinction among major league baseball rookies this spring—he's already been promised the starting shortstop position.

Usually a rookie works through spring training and the exhibition game series striving for a job with his major league club.

Not Martinelli. The 22-year-old Cuban showed enough at Jacksonville in the international league last year to convince Manager Birdie Tebbets that he should be in the Indians' line-up.

Nearly 200 Women Stars Enter Meet

COLUMBUS, O., March 8 (AP)—Nearly 200 of America's fastest female athletes are entering the National AAU women's indoor track and field championships today at Ohio State's field house.

The event also is the final tryout for the fourth Pan American games, scheduled April 27-May 4 in Sao Paulo, Brazil.

Some 20 teams are expected to enter with 150-200 athletes from such distant spots as Hawaii, Louisiana, Texas, Delaware, Canada and Brazil.

Among the standouts are Sue Knott of Columbus, Ohio State freshman who holds the indoor 400-yard quarter-mile titles; runner-up, Whitey of Chicago; leading-champ in the 100-yard jump, 50- and 100-yard dashes; Donna Terry of Tennessee State; 100-yard champion, Vivian Brown of Tennessee State; 200-yard runner; Leah Bennett, Terry University of Iowa, a piling champion and Tennessee State's fabulous 440-yard relay team.

Brazil's entry is Marilyn Saling, daughter of Vivian Brown commander stationed in Rio de Janeiro—8'10"—and the best high jumper in South America last year at 5 feet, 3 1/2 inches.

FLOORED BY A BLOW to the stomach, Larry Hines, Philadelphia, goes to the canvas in the third round as Richard 'Red' Fordland, Ore., slams over him. The win by a knockout was both of the National AAU senior men's finals in Utica, N. Y., Thursday night. (AP Wirephoto)

Friday, March 8, 1953 THE TIMES-NEWS

Chacon Signs

ST. PETERSBURG, Fla., March 8 (AP)—Elio Chacon signed a 1953 baseball contract with the New York Mets yesterday and found himself slated for the second base last year, will be tried in centerfield.

Manager Casey Stengel announced the Venezuelan, who played shortstop and second base last year, will be tried in centerfield.

Chacon's contract was reported to call for \$120,000. It completes the signing of the Mets' 40-man roster.

Argentine Leads for Jamaica Open

KINGSTON, Jamaica, March 8 (AP)—Dapper Willie Gray-Cards, an Argentine now playing out of Mexico City, stroked a 5-under-par 67 yesterday and took a one-shot lead in the first round of the Jamaica Open Golf tournament.

Seven of the touring par on the Cayman's Golf and Country club course, but it was Cards who had the telling touch. He missed only two greens and took only 31 putts in rounds of 34 and 33.

One stroke back in this, the last stop on the Caribbean tour, were John Barnum, Grand Rapids, Mich., Bobby Brue, Milwaukee, and Bill Eubank, CMAA. Tied with 69, just two strokes off the lead, were Roberto de Vicenzo of Argentina, Art Doering, Washington, D.C., and Don Strick, Muncie, Ind.

Father of 7 Wins in Last Golden Glove

CHICAGO, March 8 (AP)—The Golden Glove Tournament of Champions was history today with a hard-swinging father of seven children the last champion crowned in the 36-year-old amateur boxing classic.

Omaha's Harley Cooper, an all-force person, won the heavyweight title, more or less methodically, as a Chicago stadium crowd of 11,000 watched the Tournament of Champions bout.

Chicago's Pete Charles, an all-force person, won the heavyweight title, more or less methodically, as a Chicago stadium crowd of 11,000 watched the Tournament of Champions bout.

Phoenix Sets Horse Race Of Decade

PHOENIX, Ariz., March 8 (AP)—What's billed as the match of the decade comes off March 20 at the Phoenix quarter-horse meet.

Matched for the event are Jet Deck, champion quarter-horse owned by J. B. Chambers, Littleton, Colo., and Private Wolf, owned by Mrs. Connie Ring, Beaumont, Calif.

From 100 members of the National Association of State Racing Commissioners, which convenes in Phoenix March 18-24, the pari-mutuel race track.

Mississippi Bid To NCAA Play Hit as Challenge

JACKSON, Miss., March 8 (AP)—Whether to let Mississippi State university play in the integrated NCAA basketball tournament posed "the greatest challenge to our way of life since reconstruction," a state college board member said yesterday.

Mississippi State university board member said yesterday, M. M. Roberts, Hattiesburg, one of five members who sought the Saturday board session to consider the question, urged in a statement that the board "do its full duty to its constituents and to the southern way of life."

Roberts' statement made clear he shared the views of Gov. Ross Barnett, who a poll of 100,000 Mississippians had endorsed last week. Barnett told a news conference Wednesday, "I feel it participation in the best interest of Mississippi State university, the state of Mississippi, or either of the races."

Mississippi State earned an NCAA berth by winning the SEC basketball title. It fought in five years under coach James (Babe) Hoyle in previous years. State had coached the Babe because of an unwritten policy against participation in integrated tournaments.

The university basketball team, student body and faculty have supported the Colvard decision. The advocates said they felt a large majority of alumni also wanted State to play.

Jackman started the final 100-yard freestyle leg of the relay a quarter of the pool behind Indiana's last swimmer in the final 100-yard freestyle. He swam an unofficial 45.7 seconds, more than a second under the latest U.S. mark.

Minnesota was clocked in 3:43 for Big Ten and NCAA records. However, the time nearly in record time, faster than the standard, will not be counted as an American record because the coaches' touch on time didn't comply with technical requirements.

Swim Star Is Standout for Minnesota

LAFAYETTE, Ind., March 8 (AP)—Minnesota's mighty Steve Jackman single-handedly slashed deeply into Indiana's domination of the Big Ten swimming championships. Last night he lowered one record and unofficially bettered another.

The Hoosiers' team champion that last two years, still captured three events, including a upset in diving, and took a solid command in the standings.

Jackman, a tall power-tower from Rochester, Minn., shaved one-tenth of a second from his NCAA and Big Ten records in winning the 400-yard freestyle. He returned an hour later and anchored the 400-yard medley relay, too, which spilled the Hoosiers at their specialty.

OAKLEY, CAMAS DUMPE AT LEWISTON

Weippe Defeats Hornets 72-44; Troy Wins 48-43

LEWISTON, March 8 (AP)—Weippe poured over defending champion Oakley 72-44 last night in the first game of the Idaho class A prep basketball tourney at Lewiston. In other action, a couple of tall seniors at Lewiston won a 69-42 victory over Nezperce, and Troy's Trojans defeated co-favorite Camas county of Fairfield 48-43 and Leander used smooth patency play to crack a zone defense battle and take a 60-51 win over Kooskia.

Constitution games will have Kooskia versus Camas and Nezperce against Oakley. In the winners' bracket, it will be Leander and Troy and Weippe against Camas.

The Weippe win was sweet for the Gulls as they bounced back to the final game of the first day action in last year's tournament and the Hornets went on to lead the crown.

The Gulls passed fast and furious in the first half to work 16-10 in forty shots and made three more in the second quarter lead and 37-20 advantage at the half. The Gulls hit 27 field goals in 47 attempts, but better than a 65 per cent clip while the Hornets were managing 22 per cent average on 27 of 27.

Oakley's scoring threat, Mark Martin, was checked tough and early in the game. In the second quarter he quit getting the passes because of the tough Weippe defense. He only got 6 points while brother Bill Martin made 13. Kirk Woodhouse collected 12.

Dave Andrews, who stands 6 feet, 3 inches, and Roy Mick 6 feet, 4 inches, virtually controlled the backcourt for Camas and gave Nezperce just one try at the basket.

The Bulldogs shot well, besides the starting five getting 28 of 61. Russell Wilkerson hit 9 of 19 and made 10 free throws. He was 12 of 15 feet out.

Andrews was 11 for 19 scoring closer in but scoring well with 20 points.

The Trojans broke the game open in the second quarter after the first try at a lead. They scored 16-10 and took a 26-11 lead. Camas closed to within four points at 28-24 with 1:10 left in the half before Troy came back to win 48-43.

Camas moved to within a pair of points in the second half when Troy stretched the lead to 10 but Troy continued to outshoot Camas and won 48-43.

The Trojans played it cautious at first, but then they started shrinking margin.

Troy's Tom Gormley of the Mustangs put on an exhibition of shooting. He hit 10 of 12 shots, including a number of long ones, including 43 points for the victors.

CAMAS vs. NEZPERCE 48-43

Camas	22	16	10	6	54

Along Fences and Canals

Robert Brown, Springdale rancher, says the lamb crop this year was especially good, and the mild winter helped him to a successful conclusion. Sheep shearing was completed on his farm Wednesday and he expects to truck the sheep to the range about April 1.

Jack Chaswell, 18 miles northwest of Shoshone, rebuilt a footing measuring 20 by 20 feet and a corral about 100 yards wide. The corral is also equipped with water to the barnyard and 100 yards back.

Mr. and Mrs. East Gardner and family, Hammett, have moved to the former Clarence Gullett ranch, four miles southeast of King Hill, now owned by La-Mar Olkobery, Murtaugh, and have rented the new land on the O. W. Bennett ranch and the hay land on the Arthur Greer farm south of King Hill.

Mr. and Mrs. Floyd Williams and family, Los Angeles, were so impressed with the Buhl area during a recent visit they decided to make their home there. They are now residing at the ranch owned by Mr. and Mrs. M. G. Malone, located five and a half miles southeast of Buhl. The Malones are temporarily leasing their home at 204 Eighth avenue south, Buhl, while awaiting construction of a new home.

John Brown, north Shoshone, has purchased a Hereford bull from Lawrence Renner and will run it with his cattle on the range near his home.

Lawrence Renner, who lives 16 miles northwest of Shoshone, has added a 200-foot square addition to his corral. The addition is on the east side of his old part and he has painted it red. Later this summer he plans to divide the corral into more than one.

Mr. and Mrs. Olen Taylor delivered one of their prize Holstein yearling heifers to the Little Cove ranch, owned by Jack and Gus Erickson, Almo.

City Burman, north Shoshone, has been salvaging tin and usable material from a loading shed on his place which was blown down by a wind storm last summer.

Fred Heath and his employees at the H. McCoy Jones ranch on the hill creek west of town are remodeling the tenant house. The manager of the ranch for McCoy Jones, who lives in Shoshone, is W. J.

Insecticide Cleared for Use in Poultry Spraying

NEW YORK, March 8.—Sewin insecticide in sprays has been cleared by the U.S. department of agriculture for use in poultry operations only. It has been applied widely in areas where pests of poultry are a problem. The insecticide is becoming resistant to phosphate pesticides.

Now Sewin is available to poultry farmers in both water-soluble powder and dust formulations for direct application to birds.

Sewin is available in both water-soluble powder and dust formulations for direct application to birds. It is a supplement to spraying—roosts and buildings for control of poultry pests. The insecticide can be power sprayed with conventional knapsack equipment or with electric fog machines.

Sewin in sprays and dusts may be used on poultry up to seven days before slaughter. Treatments on the head, neck, and root surfaces also are permitted up until that time.

Sewin is a carbamate. Sewin insecticide introduces a new type of chemical to the poultry pest control field. It is low in toxicity to humans and animals, and is safer to use than many other insecticides.

New Official Reported for Lincoln FHA

SHOSHONE, March 8.—Frank Baker, formerly of Bonanza, has assumed position as new supervisor at the local Federal Housing Administration office.

Baker was graduated from the University of Idaho and has been living in Shoshone for some time being, awaiting assignment to various living units in Shoshone.

The office serves three towns, Lincoln, Blaine and Shoshone.

Mr. Allen and family are moving to the Twin Falls area within two weeks. They have their home here to Mr. and Mrs. Louis Higgins, Richfield.

Conservation Workshop Is Held in Area

HALLSLEY, March 8.—Floyd Dorius, work unit conservationist, presented a conservation workshop in the Blaine soil conservation district, and William Woody, conservation aide and snow surveyor, discussed a wildfire and wildlife workshop in Jerome this week.

Dorius reports some 20 conservationists and their assistants took advantage of the workshop, which was under the direction of Forrest H. Clausner, area conservationist. Instructors and speakers for the workshop were George Jones, Jerome county conservationist; Glenn Logan, soil scientist for the Twin Falls area; Mel Carlson, Boise, state forester; and Vernon Burdick, extension forester.

Arnold Coleman, habitat engineer of the fish and game department, also instructed.

Meetings were held at the Jerome county courthouse, the D. Healer, Jay Webster, Jay Rupert, A. Jones and W. Humphries ranches, and at the Kimberly experiment station.

A similar workshop was held in Rupert.

Op Farmer Awards Are Made for U.S.

March 1.—Who will be the four outstanding farm-owners in 1963 as selected by the National Chamber of Commerce?

The distinguished agricultural experts will soon be pondering this question as they select America's top young farmers from age 21 to 36.

Names are announced in the Blainership, Jaycee national president, who expressed interest in the wide range of national experience represented on the panel.

The national CFF judging will screen the names of winners selected by the state organizations as the outstanding young farmer.

After carefully weighing the merits of finalists, the national judging panel will select the winners.

Buyer Director

Dexter David, director of operations for the state organizations in charge of plants in Caldwell, Idaho Falls, Boise, Payette and Twin Falls, has purchased the train elevator company and related business at Blackfoot from the Midland elevator company.

Friday, March 8, 1963
Twin Falls Times-News—17

FOUR LEADERS among many backing the first annual Spring Fair which gets under way here next week discuss final plans for the event designed for farmers and ranchers. The four are, from left, James Stebbins, owner of the Twin Falls Livestock Commission company and an originator of the Hall of Fame project; Jerry Cover, Security Seed company head and president of the Twin Falls Chamber of Commerce; Ralph Olmstead, Olmstead Cattle company and immediate past president of the Idaho Cattle Feeders association; William Grams, Chamber secretary-manager and coordinator of the project. The fair comes after four years of planning. It is expected to attract from over the valley. (Times-News photo)

Watermaster Chosen for Hailey Area

HAILEY, March 8.—Reld J. Newby was elected watermaster of Water district 7AB Monday afternoon when water users of the Big Wood River held their annual meeting in the courtroom.

A budget of \$14,118.81 was adopted for the coming irrigation season, which will be projected between Blaine, Gooding and Lincoln counties.

Newby, whose office are in Shoshone, advised he will mail the adopted budget and charges to the county auditors within a short time. Newby is a water user of his individual charges will be sent out by the treasurer's office soon.

Stage Set, Plans Complete for First Spring Fair; Events of Interest to Area Farmers

We went to the animal fair. The birds and bees were there. The old baboon, by the light of the moon, sat curling his subura hair.

There will be animals, but no birds or bees or baboons with subura hair—but it will be the first Spring Fair in the history of these parts—and it is especially for farmers and stockmen. Four years in the making—preparation, getting together, getting organized and what have you—comes to a big eruption all next week with the opening gun in a week of events that can be billed as a participation and educational fair, rather than an exhibiting one like the fall version at Piler.

Geared for the farmers at a time before their big work season starts—the initial event will actually involve so that speakers at the Piler high school auditorium starting at 8 p. m. Farmers and ranchers are expected to flock to this popular fair during the week. In years to come it is anticipated that the Angus and Hereford sales will also be rescheduled likewise and be held at this same time.

On Saturday, March 16, at 7 p. m. for instance, the fourth annual Southern Idaho Livestock Fair or "FARM" banquet will be staged, this time at the new Franco's restaurant-Roland R. Rennie, assistant secretary of agriculture, will be the speaker.

On Thursday, March 14, Earl N. Hoops, chairman of the Idaho State Agricultural Stabilization Conservation service, will speak at 9 p. m. Also will be the American Legion hall and the wheat referendum will be the topic.

The annual convention of the Idaho Feed and Grain Dealers association starts Friday, March 15, with headquarters at the

Sullivan Wins

Gary Sullivan, son of Mr. and Mrs. Terry Sullivan, route 3, Twin Falls, was the winner in the area Future Farmers of America public speaking contest held Monday evening at O'Leary Junior high school.

Winning second place was Kelly Jackson, Jerome high school, and third place was Tandy Butler, Milpoo high school.

Sullivan will now compete in the state contest, said John Lawrence, Twin Falls vocational agriculture instructor. The contest will be held at Meridian March 28-30 in connection with the state convention.

CHECKING THE SCREENS on a soil shaker, Ken Gibson, U.S. entomology research division, right, and Don Yost, Twin Falls county agent, discuss proposed spraying for western bean cutworm. The shaker will be used in soil tests to determine the presence of cutworm in Magic Valley soils.

Widespread Control Plan Discussed To Eliminate Western Bean Cutworm

Several discussions have been held by bean growers and members of state and federal agricultural agencies concerning the advisability of a widespread control program to reduce the incidence of the western bean cutworm, says county agent Donald Yost. Many farmers suffered severe damage last year and reports from the entomology research division of the agricultural research service indicate that the insect could again cause serious damage this year.

At a special meeting held Tuesday evening at the Western Bean Dealers Association, the group discussed the problem. According to Joe Ris, Harvest Seed company, the dealer recognizes the seriousness of cutworm and its potential effect on the bean industry in Magic Valley.

The group went on record favoring control programs and expressed a desire to cooperate with individuals, interested parties and government agencies to eradicate the cutworm problem in Magic Valley.

All bean injury is done by the larvae or worms, which eat through the pods into the developing seeds. The worms and adults or moths do no harm to the bean plants; injured beans are light in weight, and since the

Testing will start as soon as the soil is dry. Cutworm hibernates in the soil some nine inches deep during winter months. Western bean dealers currently are discussing the possibility of a massive spraying program to rid the area of the pest this coming fall. (Times-News photo)

Italians Given Research Grant

WASHINGTON, March 5 (AP)—The agriculture department has granted an Italian scientific mission \$25,000 to be used in research on insecticides commonly used on wheat during storage. The research is scheduled to last four years.

The money will finance studies of these insecticides that can be applied by U. S. scientists in development of more efficient methods of controlling insects in stored grain.

Research in the production of leaner lamb carcasses through genetics or feeding was cited as a vital need, to meet consumer demand for more efficient livestock.

Clip Schools Scheduled In Gem State

BOISE, March 5.—The Idaho Wool Growers Association and the University of Idaho will co-sponsor three shearing schools during March.

A Warner, livestock specialist, Sunbeam corporation, will conduct the schools which are slated for March 22-23 at the University of Idaho; March 29-30 at Caldwell; and March 30-31 at the Aberdeen experiment station.

Purpose of the schools is to train shearsmen to clip their own flocks and shear sheep for others in their communities. The shearsmen will study in addition to clipping, how to handle a wool clip. Many sheepsman attending the school will be able to watch and take notes on the procedure in removing a wool fleece to insure a high quality package.

Wade Wells, extension animal husbandman, will attend all three schools.

The course is open to anyone who desires to clip their own flocks and shear sheep for others in their communities. The shearsmen will study in addition to clipping, how to handle a wool clip. Many sheepsman attending the school will be able to watch and take notes on the procedure in removing a wool fleece to insure a high quality package.

Wade Wells, extension animal husbandman, will attend all three schools.

Sheep Growth Favors More U.S. Study

WASHINGTON, March 5 (AP)—The sheep and wool research and marketing advisory committee recently urged establishment of an international research program on problems of sheep and wool production, processing, and marketing.

The proposed program would coordinate the research activities of all countries interested in improving the quality and marketing methods of sheep and wool products. Suitable division of expense and projects would be made, and a joint committee would coordinate the studies of participating nations.

Stored Water Reserves in Service

WASHINGTON, March 5 (AP)—An interior department statistical report shows that a total storage capacity of 2,200,000 acre-feet of water is reserved in service to cover the states of Oregon and Arizona to a depth of one foot.

If the water were pooled into the five great lakes, their levels would be raised 2 1/2 feet over their surface area of 94,710 square miles.

Chicken Is Top Item in Schools

WASHINGTON, March 5 (AP)—When chicken goes to school for the school lunch program, it rates an A grade from the children who eat it; the school lunch managers who serve it and the local suppliers who find themselves with an expanded market for it.

The first purchase of chicken for the school lunch was made by the agriculture department in March 1941. More than seven million pounds were purchased on an experimental basis.

The response from youngsters and lunch managers was enthusiastic. In the latter part of the year, the department purchased 27 million pounds of chicken. In 1952, purchases totaled 60 million pounds.

Lumpy Jaw Is Inherited in Cattle Herds

WOOSTER, O. (AP)—Lumpy jaw, a pox-like disease in cattle, is now known to be inherited by inheritance.

New research at the Ohio agricultural experiment station shows that heredity has much to do with the animal's ability to resist the disease organism which causes lumpy jaw.

A team of researchers led by Dr. O. Gilmore studied data on 24,150 registered cattle from 1925 to 1950. In one case, seven of 10 daughters of one bull in the eastern part of the country were seen to have the disease organism which causes lumpy jaw. Several of their daughters and a sister of the bull also contracted the disease.

The scene was captured during the winter. Some 150,000 head of cows has fallen in the area this winter. (AP wirephoto)

Interior Secretary High in Praise of Soil Conservation Work in Elko Area

WASHINGTON, March 6 (AP)—Interior Secretary Harold Ickes today praised the work of the Elko Soil Conservation district as a model of soil conservation work in the West.

Ickes, who visited the district last week, said the work of the district is "one of the best examples of soil conservation work in the West."

The Elko district, which covers 100,000 acres, was established in 1948. It is one of the 100 largest soil conservation districts in the United States.

Ickes said that the work of the district is "one of the best examples of soil conservation work in the West."

Animal Experts Recommend Additive in Market Beef

VIRGINIA POLYTECHNIC Institute is practical for beef cattle on pasture when used in a 12-milligram implant on animals over 500 pounds.

Using stilbestrol in wintering rations is not practical except with high level rations that give more than one pound daily gain.

Generally, the animal housed in a stall is not practical for use on pasture followed by use in the feed lot. However,

they're not so sure about using new cattle bedding and on feed. Stilbestrol generally will result in an average of six per cent increase in gains and slightly improved efficiency.

When combined with stilbestrol, antibiotics generally have little effect on the rate of gain. Slaughter only does not improve any circumstance and withdraw it from feed 48 hours before slaughter.

Results with synovex are about the same as with stilbestrol. Use standard dose in all cases. Antibiotics are best used to good hair growth on young cattle.

BUSY COMPUTING THE MONTH'S profit and loss is Max Gerratt, Cassia county dairyman. Gerratt computes the expenses and income for each of the 112 cows on the Gerratt dairy. A prolonged record of cow production means that the cow will

Before this is done Gerratt will experiment. He might take the cow off grain altogether. Produce she may slip a little then even out and she will hold the production. Cow number "X" then is charged with little or no grain and could possibly return more profit than before as the expense of keeping her has diminished.

Another phase of the operation is separating the herd with Gerratt culling 50 head of cattle from his herd.

There are other factors Gerratt keeps in mind before making a cow. Her ability to calf and resist disease is considered before culling.

Practically everything on the Gerratt farm is geared to the dairy operation. Gerratt farms jointly with his father on 140 acres.

Alfalfa is the main diet of the herd, however, the Gerratts raise little alfalfa. Most feed is purchased. Gerratt figured the price, time and effort in growing alfalfa. Instead they stress cash crops like sugar beets. Funds made from the sugar beets are used to purchase hay.

The main crop and the main exception to the rule of 200 raising feed is corn silage. Gerratt buys little or no corn silage. What Gerratt grows is what Gerratt feeds. The total yield is computed out with margins for other

be called from the herd. Experiments have taught Gerratt which feed is most profitable and which cows do best on various feeds. Where grain doesn't affect production the cow isn't charged with grain expenses as it isn't fed. (Times-News photo)

factors and fed accordingly. Some green pastures are matted.

The total profit of the operation is computed out through the dairy herd hence records on each cow are vital and necessary. Manure used from the herd is credited back to the herd.

Another phase of the operation is separating the herd with Gerratt culling 50 head of cattle from his herd.

There are other factors Gerratt keeps in mind before making a cow. Her ability to calf and resist disease is considered before culling.

Practically everything on the Gerratt farm is geared to the dairy operation. Gerratt farms jointly with his father on 140 acres.

Alfalfa is the main diet of the herd, however, the Gerratts raise little alfalfa. Most feed is purchased. Gerratt figured the price, time and effort in growing alfalfa. Instead they stress cash crops like sugar beets. Funds made from the sugar beets are used to purchase hay.

INTEGRATING ONE of the best practices is Max Gerratt, Cassia county dairyman. Gerratt keeps accurate records on all phases of his dairy operation. From the time the calves are born until they are culled they will be in the profit and loss column of Gerratt's books. Gerratt's dairy pens to house his calf crop, and each calf is kept in a separate pen. (Times-News photo)

Cassia County Dairyman Charges Each Cow with Expenses in Keeping Books

BY G. H. CHAMBERS

March 5 - Dairy herd improvement association records and testing is a fine thing, claims Max Gerratt, Cassia county dairyman; however, DHIA should only be the beginning of a records system and the end of the dairyman's do-ings with DHIA records, the records tell of better and other necessary information. Gerratt feels that this information can then be put to better use.

Gerratt reasons this way: The success of any farm operation is profit and in the dairy industry the profit comes from cows. It is then the best method of determining profit is to know what each cow is earning and what each cow is costing the dairyman.

Gerratt is able at the end of each month to determine which cows made a profit and which cows lost money. He simply checks his records.

Gerratt's record system is simple. He lists each cow by number in a folder which keeps track of the animal's production for 12 months. From DHIA he gets the cow's income, so many pounds of milk and so many pounds of butterfat. Based on these figures Gerratt computes the gross income of the cow for the month. Then he charges against the cow the expense of feeding and maintaining her for the month. Her grain charge is computed, her silage charge is computed, her item of dairy expense is com-

U.S. Food to Be Featured During Fair

WASHINGTON, March 5 - The first agriculture department exhibit since the 1952-53 season will be held at the 1963-64 fair. It will stress the availability of American foods, feeds, and seeds.

The nutritional value of food and feeds will be demonstrated by specialists in nutrition and animal nutrition. British scientists and trade representatives in conference along during the exhibit.

Approximate list of exhibitors include the U. S. Food Council, The Boybean Council of America, The Food Processors Association, American Meat Institute, National Dry Food Association, The Pacific Northwest Growers and Dealers Association, The Institute of American Food Industries, The California Prunes Industry Board, The California Raisin Board.

PRECISION BROADCASTING of insecticides and other chemicals is possible with the new granular applicator introduced by the Gandy company, Owatonna, Minn. It is believed that the new unit is the only precision broadcast applicator which can apply chemicals at the rate of five pounds per acre or smaller amounts.

Applicator Broadcasts Insecticide

OWATONNA, Minn. March 8.—A granular applicator for the precision-broadcasting of insecticides and other chemicals, has been introduced by the Gandy company-Owatonna, Minn. The Gandy unit can be mounted on most types of wheel, disk and disk-auger tractors so the material can be mixed into the soil as applied.

The new model is believed to be the only precision-broadcast applicator which will apply material at the rate of five pounds per acre or less. Metering is electronically controlled as the implement is raised and lowered. The applicator is feather-called and can be set easily for spot application.

Brazil Harvests Top Farm Crop

WASHINGTON, March 8 (AP)—The grain-agriculture service office Brazil's 1958 soybean harvest will reach a record 122 million bushels from 116,550,000 bushels in 1957. This would be about 8 per cent above the 102 million bushels harvested from 1952 to 1957.

The 1958 soybean average was stimulated by the high prices received for 1957-crop beans. Excellent weather in the planting season is expected to result in high yields.

The world exports of soybeans in 1957 totaled 24 million bushels, with major markets in Germany, Spain and France.

Twins Needed

WASHINGTON, March 8.—Identical twin beef calves have, once again, been requested by U. S. department of agriculture scientists. The calves, either purebred, grade, or crossbred, but less than 5 months old, are needed for nutrition and breeding research.

Identical twin calves are always of the same sex, look remarkably alike, and react in much the same manner.

Farm Prices Slump for Hogs, Cattle

WASHINGTON, March 8 (AP)—Farm prices declined one per cent in the month ended Feb. 28 under the impact of lower returns for cattle and hogs. Partially offsetting were higher prices for oranges, chickens, eggs and corn.

The mid-February prices were slightly below those of a year earlier.

Farmers paid slightly higher prices for family living items during the month, but there was little or no change in prices paid for production items including interest, wages, and taxes. The overall farm cost index remained unchanged from mid-January and two per cent above those of a year earlier.

National Groups Initiate Study for Rural Science

WASHINGTON, March 8.—A broad study of the trends and needs in college education in the agricultural sciences has been initiated by the National Academy of Sciences—National Research Council.

The three-year review of teaching and career opportunities is to be directed by the Academy-Research Council's committee on educational policy in agriculture.

Recommendations of the seven-member committee, comprising agricultural leaders from universities, industry and the federal government will be directed toward assisting colleges and universities to meet the varied requirements for college-trained talent in contemporary agricultural research and practice.

The study will evaluate curriculum composition, course content, teaching methods, and other related influences on educational quality. The National Science Foundation is supporting the project under its course content improvement program.

The committee plans to invite many agricultural scientists and organizations concerned with the teaching of agriculture to contribute to its work. Data for the study will be gathered through interviews but interviews will be to campuses and to prospective employers of agricultural graduates.

As a related activity, the committee is considering the sponsorship of consultant reviews of

Individual College Teaching Programs in Agriculture

national leaders have emphasized the necessity of constant review of college programs in view of the many significant trends in modern agriculture.

CASH CUSTOMER

WASHINGTON, March 8.—Japan, a cash-paying customer, has been the largest foreign buyer of U. S. agricultural products in the two past years, the U. S. department of agriculture reports. Volume approximates 500 million dollars—worth of farm goods.

TEXAS WINNERS

FORT WORTH, Tex. March 8.—Two Texas home-bred and trained Hereford sires scored a grand-slam victory by winning both the grand and reserve grand championships over all breeds at the Southwestern Exposition and Fair here today.

Wheat Stocks in Northwest Climb

BOISE, March 8.—Pacific Northwest wheat stocks totaling 83,046,000 bushels in January were 24 percent larger than a year earlier when storages in Oregon, Washington, and northern Idaho

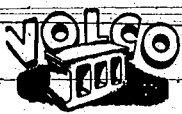

held 71,228,000 bushels. This level was, however, 38 per cent less than the 1957 average for the area. JUNE 1, 1957: Stocks for the U. S. were placed at 1,813 million bushels of wheat down nine per cent from a year ago. The increase in Pacific Northwest wheat holdings was the result of a 20 per cent larger wheat crop for 1957 compared with 1956; six months of the 1957 crop rest-

CLOSE OBSERVATION will show an automobile just disappearing into this cloud of dust pictured on highway 22 near Shoshone when March came in like a lion. New land, with brush removed and no "anchors" available, was moving across the road. The dust areas tended to slow traffic as visibility was limited to only a few feet in some cases. Much of the new land is not fenced and tumbleweeds bordering caused the dirt to end in huge drifts. (Times-News photo)

LOWER EDGE of the black mark on the slab shows in this picture a 10 inches from the bottom of the piece of wood. It shows evidently how much dirt fell in some new fields in the neighborhood of Shoshone during a recent windstorm. Boring samples caused the moving dirt to drift, like snow, with the result like in this case, that many drifts were several 18 inches deep. (Times-News photo)

Miniature Dust Bowl Created as High Winds Strike Areas Near Shoshone

SHOSHONE, March 8 — It is an ill wind that blows nobody good. So the old saying goes, but when March came in like a lion this year it moved a little real estate in this general area. Hundreds of new acres of land are being put into production in this vicinity and much soil is not anchored down. Result was that the high winds started to move the soil. Highway 22, in many places, was blind with dust going across. It never saw a dust-bowl but it thought we had one here. Looking out the front room window was a sight to behold. The dirt was moving right by. Proving that even dirt does not stay where it starts.

Exports of Feed Grain Rise in '62
WASHINGTON, March 8 (AP) — U. S. feed grain exports of 74 million tons in July-December, 1961, were 37 per cent above the shipments during the same period a year earlier. Corn shipments totaled 4.9 million tons compared with 3.9 million for July-December, 1961. The increase was largely attributed to exports to the common market countries, as well as Mexico, The United Kingdom, yet fenced and bordering tumbleweeds provided the anchor for the moving topsoil. The day following the blow measurements as deep as 18 inches were taken. As one new-area rancher put it, "I never saw a dust-bowl but I thought we had one here. Looking out the front room window was a sight to behold. The dirt was moving right by. Proving that even dirt does not stay where it starts."

Reelected
ALBION, March 8 — Doyle Butler was reelected watermaster by users in district No. 25, March and Howell creek, at a meeting Monday in the Vail Hi cafe here. Richard Anderson conducted the meeting and August Heisel served as secretary.

U.S. Revises Estimate of World Breadgrain Totals

WASHINGTON, March 8 (AP) — The foreign agricultural services has raised its estimate of 1962 world breadgrain production to 1,145 million metric tons. Information from the combined 1961 crops of wheat and rye to be 297 million tons, second only to the 1958 record. The first estimate of 1962 wheat production, in December, was substantially below the current estimate. The increase was chiefly wheat. The latest estimate of 1.17 billion bushels of wheat and rye for the year will greatly reduce import requirements for the current marketing season. An increase of 340 million bushels over the 1961 estimate in Western Europe would seem to limit import needs to the amount of 500,000 metric tons. The amount of wheat and rye available for export from the United States is expected to be 1.1 billion bushels.

Tour Set
KING HILL, March 8 — Plans were made by the King Hill Irrigation board of directors Tuesday evening at a meeting, to make spring tour of the entire ditch, on Saturday, March 16. The tour will start at Hammett and all directions to meet at Glenn Park at 7 P.M.

PRODUCTION UP
WASHINGTON, March 8 (AP) — Production of red meat in commercial slaughter plants during January totaled 358 million pounds, two per cent above that of January, 1961.

Spring Fair Events Set To Interest Area Farmers

(Continued From Page 1) presentation by the Dilettante players. Tickets are on sale for this special showing at the Chamber of Commerce in Twin Falls at all the night of the presentation.

For the ladies, the annual style show sponsored by wives of day, co-members will be held the evening of Thursday, March 14.

And, for the car and truck minded, a special showing of the latest vehicles will be in progress for four days — Wednesday through Saturday at the Lynnwood shopping center.

Back on Tuesday, March 13, the fat carload feeder cattle judging will take place in the Twin Falls Livestock Commission company yards with the sale on Wednesday. Officials report consignments are terrific.

Friday at the Stockgrowers Commission company there will be a unique "all sex" Black Angus sale with outstanding animals slated for the ring.

Of course, on Wednesday evening, March 13, there will be a special horse sale at the Twin Falls Livestock Commission company with many breeds offered.

Fair week will be the National Livestock and Meat Board staged for numerous reasons from several landmark colleges. The students will judge the cattle live on the Twin Falls Commission company yards then will get the opportunity to check their beliefs after the animals are slaughtered and the independent meat company plant.

This is the first time this event has been held outside a metropolitan area and up to a dozen colleges and universities will be represented by students, judges and professors. The event starts Thursday and goes through Saturday with many panel discussions being sprinkled here and there during the three day event.

All in all—the backers of the unique Spring Fair expect immediate acceptance by Magic Valley farmers and ranchers. They point out that practically everything is open to the public and interested persons need only to be there to enjoy and benefit by it.

Scores of individuals are "lined up" in making arrangements and financial backing is being guaranteed by several institutions.

Asgrow Notes Sales Climb During 1963

NEW HAVEN, Conn., March 8 (AP)—Sales for the first six months of fiscal 1963 were at a record high for the 107-year-old Asgrow Seed company, A. Bryan Clark, president, reports.

Revenue for consolidated operations, including the Lawn and Garden division and foreign subsidiaries of the well-diversified company, totaled \$6,600,000 compared with \$4,800,000 for the comparable period a year ago, for an eight per cent increase. The report covers operations for the six months ending Dec. 31.

Noting that the first half is devoted to seed growing and seed processing in contrast with the second six months, when 70 per cent of all Asgrow sales are realized, Clark reported a slightly higher earnings loss in 1963 than for the same period in 1962—\$240,000 versus \$216,000.

He attributed this to a robust crop and substantial supplies of seed being harvested. As a consequence, he said, "less heavier harvests have added to our processing load and to the burden of

financing the increased inventory.

Sales would have been even greater but for the severe frost in the vegetable growing areas of Florida, California and Texas, Clark pointed out. "While this involves replanting of some crops and a dramatic increase in fresh produce prices, it also brings serious losses to some of our customers and a loss of sales of insecticides, foliar nutrients and other similar products," he said.

Watermaster Is Named at Almo

ALMO, March 8—James Lloyd was elected watermaster of the Almo Water company at the annual meeting held Saturday at the school house.

Wallace Taylor was elected president of the company. Problems concerning the use and distribution of irrigation water were discussed. James Annett, Burley attorney, also attended.

Implement Dealers Set Open House

Members of the Twin Falls Implement Dealers Association will hold open houses at the Spring Fair being held next week, said Oliver Mayne, Mayne Machinery Co.

The open house will complement the events being held at the fair.

The association felt that each dealer member could best represent the items that each sells. The association expects a few farmers and ranchers to be in town for the fair and they will be glad to see what is new in the implement line.

Information and available to interested persons is in the Twin Falls Implement Dealers Association office.

Year-Book Lists Area Shorthorns

SPRINGFIELD, Mo., March 8 (AP)—The latest volume of the official American Milking Shorthorn Yearbook lists Magic Valley Milk Shorthorns and their respective classes.

In the Junior 3-year-old class, Oren Hill Cherry Ann is highest with a production of 11,016 pounds of milk and 397.25 pounds of butterfat. She is owned by Gussie Truett, Gooding.

Calhoun's Lady, owned by Keith A. Jackson, Shoshone, is highest in both milk and butterfat in the senior yearling class with 14,358 pounds of milk and 523.58 pounds of butterfat.

Index Maps for Farmer

March 8—The index received by Idaho farmers is 252 per cent of the average during the period ending Feb. 15, according to the report of the Bureau of Economic Analysis.

The index was 251.5 points, above a year ago.

The index for all crops is 277.7 points, a one point advance over January. This is also 16 per cent above a year ago.

The increase in the index for month reflects higher prices for wheat, alfalfa and corn.

Prices for potatoes and dry beans are down on the index. The average for beans excluding soybeans was 142.00 to 150 cents a bushel earlier.

Stock and livestock index was down two points from mid-January, due to lower average prices for most animals.

Quality Wheat Won't Compete, Warns Farm Bureau to Midwest Producers

MINNEAPOLIS, Minn., March 8.—Producers of hard spring and durum wheat in the upper Midwest west would be hurt by the provisions of the certificate plan proposed by the administration, Charles B. Shuman, president, American Farm Bureau federation, said here at a Minneapolis Farm Forum.

Quality wheat producers would find their opportunities to compete for markets restricted under the provisions of the certificate plan, the farm leader said.

"Under the certificate plan," Shuman said, "producers of low quality wheat for which there is little demand for milling would receive the same pro-rata share of the certificate market as the producers of high quality wheat." Marketing certificates—allowing producers to the higher of the two support prices—would be distributed on the basis of base production history, without regard to milling and baking quality, or the use or market of the wheat. All producers would have to sell part of their production in the non-certificate market with lower price supports. Only market producers of high quality wheat would be penalized.

Proponents of the certificate plan are also wrong in stating that a "yes" vote would mean a wheat market. With support prices of \$3 for certificate wheat and \$1.50 for non-certificate wheat, the average obviously would be less than \$2 per bushel under the plan.

Shuman also warned that the certificate plan would affect adversely U.S. farm-export and international relations. It would invite retaliation by other countries and thus not only hurt wheat producers but the producers of many other farm commodities.

"Since the plan would require continued subsidization of U.S. wheat exports, Canada and other competing wheat exporting countries undoubtedly would consider that we were engaging in unfair practices—particularly if we were to try to expand our share of the market for dollar exports. While we have been subsidizing wheat exports for several years, the United States has never indicated that it considered such subsidies to be permanent, or a desirable part of its export policy," Shuman said.

The United States, supposedly is making great efforts to position its products in Communist markets to help down domestic price levels.

overproduction, threaten world wheat prices and lead to dumping and potential trade wars among NATO nations.

"If the certificate plan is defeated," he said, "market prices will help to guide the production and consumption of wheat. We are not now exporting wheat at the U.S. support price and have not done so for years. In the marketing year 1962-63, the U.S. average farm price was \$1.23, the export subsidy rate on similar sales averaged 52 cents per bushel. Thus, 1962-63 exports actually moved to dollar markets at a price 10 cents lower than the U.S. average farm price of \$1.24. It would not break the world prior to bring the U.S. support price down to the level at which our wheat has actually been moving into export.

Shuman challenged the statement of proponents of the certificate plan. The defeat of the program would lead to serious referendums on the issue.

WASHINGTON, March 8.—Of the 10.7 million cattle in the U.S. on Jan. 1, Texas had 10.2 million head. Texas retained the lion's share of the lead in total cattle numbers. It was followed, in order, by Iowa, California, Ohio, Michigan, Minnesota, Wisconsin, Missouri, Illinois, and Oklahoma.

Wisconsin still ranks first in milk cow numbers and has one million more dairy cows than Minnesota—the second-ranking state. Others in the first 10 are New York, Pennsylvania, Iowa, Missouri and Texas.

The biggest hog state is Iowa, with more than 20 million plus head. The second-ranking state is Illinois with 18.7 million head.
