

Reds Accept U.S. "Hot Line" Link of Kennedy, Kremlin

in the mammoth sticks. No
100 men plunged into the job
retrieving the ducks and oar
ing them to "duck laundries"

The most important correction of history since Nikita Khrushchev took Joe Stalin's name out of the Soviet school books has just been made by Vice President Lyndon B. Johnson. People who saw the ABC television "Conversations with the President" and Vice-President Johnson thought they heard him say that he had sought the presidency in 1960.

But he has no plans to do so now.

There wasn't time for the three news reporters to nail the president on this new version of history. Or maybe they felt this is what Texas is famous for, and let it slide.

What is wrong to be logical is to be so sure that the president of the United States is no more of a candidate for the presidency now than he was in 1960. He has already started out for the nonexistence in 1968.

And his disclaimer in 1968, interpreted as an effort to put himself in the position of being a one-defeated candidate for the job but a fresh candidate

[illegible]

MARQUIS CHILDS WRITES C

Morgan: "I ask this question generally, as well as specifically. Does a man, an accomplished politician, such as Johnson, who has been entrenched for the presidency, at least for the nomination, and failed, reconcile himself not to reach again, or is it his blood, and he would like to?"

After clearing the interference of all those commas, which showed even more clearly the confusion of the man's mind, I said: "Can this man be a candidate?"

[illegible]

Johnson: "Well, Mr. Morgan, I don't consider that I ever was a candidate for the office. My friends put me in the race in 1960. They felt that they should have representation, and my name was going before the convention."

"I doubted the advisability of it," he said. "I was a little skeptical. As late as July 5, when I announced I would let my name go before the convention, I was still not sure I was seeking the presidency. My friends thought they ought to have a name, and I thought I might as well. I didn't like it, and I agreed. . . I didn't feel I was a candidate. I didn't go into any primaries. I didn't go to any conventions. I didn't commit themselves to me in 1960."

Scorn Kennedy's senile abjection, his lack of experience and his lack of leadership in the presidency, his bad voting record on farm, power and national issues development.

Q: "You just didn't want it?"

A: "I must have been. . . I guess Vice President Johnson says he was never a candidate."

But give the man credit for honesty. In the opening in 1960, after Bill Kennedy had asked him how he happened to run for the vice presidency, he said:

"Well, Bill, after I was elected for the presidency in Los Angeles . . . I thought I might have stood in the bed."

And I suppose they'll come back and say, 'Ye gods! After licking all those ducks, did we miss just one?'

EVERYONE

The Doctor Says

BY WAYNE G. BRAXTON, M.D.

Earlier, in answer to a question, I wrote that attention was of no value in toothpaste.

I have now come upon two articles from reliable sources which indicate that a good toothpaste containing a perceptible amount of fluoride (Sensodyne) is helpful in about 68 per cent of cases.

habit-forming-drug?

A—All sleeping medicines belong to the barbitural family. Some are habit-forming (Secobarbital), some are not (phenobarbital). Habit-forming if taken for many months. *Seduxin* does not become habit-forming. Some medicines, such as cocaine, when established, may be convulsive seizures similar to those of barbiturates. Abuse of barbiturate addition is attempted only in a hospital and is likely to take several weeks.

Pots: Tomrent to give away. He is a rugged individual and has all the makings of a full-fledged member of the neighborhood that has been in contact with him. He has been used, accused, abused, amused, bruised and refused. He has been a part of the neighborhood, just a pair of yellow pants which is tore in places and worn dirty. He is hard on mice. He never gives up. He is a little bit dead when they see him. Please pick him up between 1 and 1:15 p.m. Mondays at my home, 1000 E. 12th St., Apt. 10.

Q—What causes bunions? Is it hereditary? Is it because of hammer toes? Do they have an operation to correct them?

A—According to the thinking, bunions are developed from the pressure of shoes on an uneven part of the foot toward the center of the foot. The pressure is caused by the bunion having a hump. After the bunion has been corrected, the pressure will not correct the condition.

Special shoes or an operation will not correct the amount of discomfort at the joint. A good foot splint will correct the shoe trouble. The bunion is operated on, excised, and the foot

roughed individual and has all the markings of all the other

into the situation in South Viet Nam where the American military has the tight little puppet government of Ngo Dinh Diem is apparently insinuating that news must be good news. Ironically, because of security classification, the seedlings will be secret.

Poor Man's Plato

BY HAL BOYLE
NEW YORK, April 5 (U.S.)—The sad news for the literary world is that there will be no other delay in the creation of the great American novel.

It took the novelists two interrupted attempts.

Some 50 years or so ago, when this nation came up against two dire evils—

"What this is,"

American novel, and she went right out and bought me a \$5 dictionary to help her work."

Every half-hour or so for years after that, "How about inquiring occasionally, 'How about that great American novel? When are you going to finish it?'"

"Finish it, woman! I always replied, 'How about inquiring it until I get a room of my own?'"

Well, about 10 years ago we

Chairman at Jerome Sets Committee

JEROME, April 5—Frank Rumbach, president of the Jerome Chamber of Commerce, announced the standing committee for the coming year at the meeting of the organization Wednesday at the Woods cafe.

Frank Titus will be the director in charge of the highway committee with Murray O'Rourke as chairman. He will be assisted by L. H. Van Riper, Richard Russell and John Ippolito. Blake-Patterson will be the director in charge of the industrial committee with Earl Greenwald as chairman. Tom will be assisted by W. W. Wright and William Spaeth, Jr. The cleanup committee will be headed by William O'Rourke. The youth committee will be headed by William O'Rourke. The finance committee will include John Stille, Jr., director; Dr. Charles Parker, chairman; Leon Stockton, Ed Baer, Grant Reynolds and Vic Camacho. The community consolidation committee includes William O'Rourke, chairman; Ray Assendrup, director; Jack Kennedy and Leon Stockton.

Representatives of the North-South communities are Dr. Wesley Rose and Alex Coleman. The merchants committee will include John Stille, Jr., director; Conrad Ryan, chairman; and the committee will include the same merchants as last year.

William Peters will be the director in charge of the "Palms" committee with C. E. Harder, chairman, Allen Mentcher and Dr. Charles Parker. The Christmas committee will include Frank Titus, director; William O'Rourke, chairman; Walter Beckinger, Al Hall and Ed Baer. Kenneth Rice will be the director in charge of the centennial committee assisted by Cliff Brady, Tom Lanham and Jerry O'Neil.

Humbach said the list is tentative and more names will be added later.

Mrs. Shriver Seeking Help For Retarded

SEATTLE, April 5—Mrs. Eunice Shriver, President Kennedy's sister, said tonight "one of the best-kept secrets in America today" is that 75-85 per cent of the mentally retarded can be rehabilitated.

Mrs. Shriver, wife of peace corps Director Sargent Shriver, predicted a major breakthrough in the treatment and prevention of mental retardation in the 1960s with help from the American people.

She spoke at the University of Washington to a state citizens committee on mental retardation which supports plans for a proposed children's center there.

Mrs. Shriver saw hope in new public interest in the problem, in research, maternal and child care and in education and rehabilitation.

She cited as evidence the President's legislative plans for federal-state program to build new community research centers and in-patient clinics.

Mrs. Shriver appealed for state support of the program with matching funds.

Fish Creek Snow Measures Low

HAILLEY, April 5—Snow measurements at Iron Mountain mine in the Fish Creek area Wednesday, as reported by snow surveyor Bill Woody, were 14 1/2 inches of snow with five inches of water content.

At the Teller ranch in the valley there was only a trace of snow.

Woody reports that is the lowest measurement at these two points since the soil conservation service has been taking measurements the past six years.

Dogteam to Pull Ketchum Bunny

KETCHUM, April 5—The Easter bunny will arrive on the Main street of Ketchum at 1 p.m. Wednesday, April 10. Instead of hopping in he will be brought in by a dog team.

A short parade will take the children in the spot where they can hunt the Easter eggs.

Members of the Ketchum-Bun Valley Chamber of Commerce, which is sponsoring the event, will meet Thursday evening at the Women's Club to color eggs.

Raiders Burn Garage, Cars In Venezuela

CARACAS, Venezuela, April 5—A family-gun gang raided and burned a government garage two blocks from Venezuela's "white house" last night, destroying Interior Minister Carlos A. Perez's private car and setting fire to about 40 official vehicles.

Damage was estimated at \$100,000. There was no report of casualties.

A woman said the arsonists, four men and a "manly-looking" woman in a "late model" car, described themselves as members of the Red-Red-Fire terrorist organization, which dynamited a U.S.-owned oil pipeline in western Venezuela yesterday for the second time in a month.

The woman and three of the men entered the garage and held watchmen at gunpoint. The fourth man, who remained in the car, passed two cans of gasoline to the leader of the gang, who splashed it around the garage.

Girl, 15, Takes Car, Wrecks It

KELLOGG, April 5—A 15-year-old Spokane girl who took the family car without her father's permission had minor injuries Thursday when she lost control of the car and rammed into a guard rail.

The accident happened about four miles west of Coeur d'Alene and 14 miles west of here.

Idaho state police said a 16-year-old companion, Allan Goldwell, Spokane, escaped injury.

Audrey Witterman had minor head and face injuries after being thrown out the passenger side of the car.

The gang leader put the garage to the torch.

Six fire companies brought the flames under control early today.

SOLOISTS REHEARSE for an Easter concert to be held at 7:30 p.m. Tuesday in the O'Leary Junior high school auditorium. Choral groups from the school will present a variety of selections on the program, planned for the Easter season. Pictured are Linda Wilson, daughter of Mr. and Mrs. Lowell Wilson, 1235 Seventh avenue east, and Tom Vissers, son of Mr. and Mrs. Corneille Vissers, 2068 Addison avenue east. Miss Wilson will have a solo part in the Junior choir's presentation of "When the Lord Returns" by Lundberg. Vissers will sing a solo in "The Palms" a selection by Faure which will be sung by the eighth-grade chorus. (Times-News photo)

Songs of Easter Season Will Highlight Concert by Choirs

A program of special Easter season selections will highlight the final concert of the 1962-63 school year by the choral music department of O'Leary Junior high school.

Featured in the concert, to be held at 7:30 p.m. Tuesday in the school auditorium, will be the Junior choir and the eighth-grade chorus.

Soloists will be Tom Vissers, who will be featured in "The Palms," and Linda Wilson, who will sing a solo part in "When the Lord Returns," by Lundberg, sung by the Junior choir.

Proceeds from the concert will be used to purchase much-needed audio equipment for the vocal department. Tickets will be available at the door and all children of grade school age and younger will be admitted free.

Program will include "Deep River," a Negro spiritual; "Gloria Patri," by Palestrina; "The Palm," Faure, and "New Le-

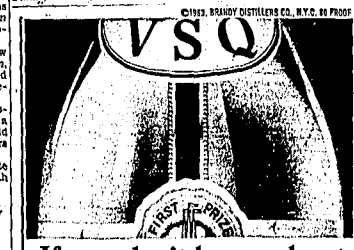

very Tongue Adore Thee," by Bach, all by the eighth grade chorus, and "Be Thou Our Guide," by Shostakovich; "Prayer" by Loeffel; "The Holy City," by Adams; "Olelujah," 17th century German piece; "Alleluia, Christ Is Risen," by Scopellotti; and "When the Lord Is Risen," by Lundberg, all by the Junior choir.

Both choral groups will join to conclude the program with Martin Luther's familiar, "The Lord's Prayer."

Accompanists for the concert will be Nancy Brackett and Jane Oelsherry for the Junior choir, and Cheryl Carlson and Pat Horton for the eighth-grade chorus. Others will be Terry Guest, Mary Lynne Arrington, Kathy Shecker, Wilma Sliger and Jeneal Williams.

News Around Idaho

MOSCOW, April 5 (U-P)—Dr. Richard A. Porter, one of the famed "quid kida" of the 1940's, is helping the University of Idaho's OR college bowl team prepare for its television appearance April 21. Porter, an assistant professor of chemistry at the university, is a member of the faculty team that has been competing with the students in practice sessions. To make the practice sessions as realistic as possible, the New York studio in which the students will compete has been duplicated at the radio-TV center on the campus, complete with buzzers, bells and cameras dollying in and out. The Idaho team will be shooting for a total of \$10,000 in school trophies which can be amassed by winning of five straight college bowl programs over teams from other schools.

BOISE, April 5 (U-P)—Cody A. Lyon, 21, Seattle, pleaded guilty Thursday in federal court here to a charge of destroying a rural mailbox near Caldwell. Lyon and another man, Kenneth Dale Watson, 21, Caldwell, were charged in a grand jury indictment with destroying a mailbox belonging to Oscar Aldrich, Caldwell, last Feb. 23. Watson pleaded guilty to the charge in a court appearance earlier this week. Federal Judge Chase A. Clark continued both cases pending a presentence investigation.

BOISE, April 5 (U-P)—The Idaho state board of pardons Thursday ordered the life sentence of William J. Hargrave commuted to 10 years. Warden L. E. Clapp said Hargrave was received at the prison March 13, 1957, following his conviction in Hannock county on a robbery charge. Hargrave's case was one of six considered by the board during the second session of its April meeting.

IDAHO FALLS, April 5 (U-P)—Idaho Falls has received the go-ahead for a project to widen Yellowstone avenue, the main road from this city to Yellowstone National Park. The city commission authorized Mayor W. J. O'Bryen and City Clerk Roy C. Barnes to sign contracts with the state highway department to build a Pacific railroad. The million dollar project will mean a completely new four-lane highway, according to the mayor. He said tentative approval for the project has already been granted by the U. S. bureau of public roads.

BOISE, April 5 (U-P)—Warner C. Mills, state liquor law enforcement director, said today wholesale beer licenses of two firms have been suspended. He said the license of Eagle Rock Distributing, Inc., Idaho Falls, was suspended for 30 days on charges of selling to a retailer without a valid state license. The license of the Boise State company, Boise, was suspended for eight days on charges it furnished draught beer drawing equipment to a retailer.

MONTPELIER, April 5 (U-P)—Five years of efforts to obtain a charter for a state bank here ended this week when organizers instead secured a federal charter from the comptroller of currency, Washington, D. C. The permission to establish a federal bank in Montpelier came a letter to Clara Barrett, secretary of the banking organization. Original application for a state bank was made five years ago to the state of Idaho. The application was turned down by the state finance commissioner. It is anticipated the new bank will be in operation by Aug. 1.

POCATELLO, April 5 (U-P)—The U. S. army corps of engineers says its emergency work along the Portneuf river and Marsh creek in Bannock county should be completed in a week or 10 days. Six representatives of the engineers and the Bannock county commission toured the stream Wednesday afternoon, inspecting damage caused by this spring's flood, and some repairs by the corps of engineers. The bulk of the work is cleaning out plugs in the two bodies of water, where dirt, silt, rocks and other material washed into the channels.

POCATELLO, April 5 (U-P)—Southeastern Idaho district of Business and Professional Men's Association will meet here during the spring meeting here Sunday. The Pocatello club will be hosts to BPFW members from Fifth, Blackfoot, American Falls, Lava Hot Springs and Soda Springs. Expected to attend are members of the Pocatello club, including: J. J. Smith, president; J. J. Smith, first vice president, and Mrs. Marian Langdon, Twin Falls, second vice president.

POCATELLO, April 5 (U-P)—Barbara Gerlach, 17-year-old Pocatello high school senior, won the 1963 Miss Pocatello title here last night in the eighth annual contest. The diva's triumph was won by her own dance studio of 50 students, will represent the city in the Miss Idaho pageant this June in Boise. A daughter of Mr. and Mrs. E. K. Gerlach, she is also current holder of the Pocatello Junior Miss title. She dropped out of the Miss Idaho contest to become a university freshman from Chicago, first runner-up La Dana Leuk, Pocatello high school senior, second runner-up, and Verla Murphy, ISU cosmetology student from Hazelton, Miss. Congratulatory.

BOISE, April 5 (U-P)—Federal and state highway finance administrators from 10 western states will be in Boise for a three-day conference beginning next Monday. The director of the department announced today. Principal speakers will include J. O. Allen, Washington, D. C., director of administration of the bureau of public roads, and J. O. Allen, Washington, D. C., director of administration of the bureau of public roads, and J. O. Allen, Washington, D. C., director of administration of the bureau of public roads.

MARSHING, April 5 (U-P)—Selection of a new site for the Idaho state penitentiary in Owyhee county was proposed in a resolution approved by the Marston Chamber of Commerce. The resolution suggested the prison, now in Boise, be moved to an unpopulated Owyhee county site. The plan already has been approved by the state.

CALDWELL, April 5 (U-P)—A laborer charged with murder in Missouri returned today to the state to face charges. The man, steps were begun in an effort to force his removal. Charles Everett Smith, 31, appeared before U. S. Commissioner Richard Rosenberry here on Tuesday. He was charged with the murder of a woman in Missouri. Smith told Rosenberry he would resist removal and he asked for time to obtain counsel before any hearing is held. Rosenberry set a hearing April 16 on a federal removal order. Rosenberry's removal order following that hearing would go to a judge in U. S. district court in Boise for final decision. Smith is accused of killing his pregnant wife in October, 1961, and stuffing her body in a barrel.

Hungarian Army Cap Draws Look

By The Associated Press

BUDAPEST, Hungary, April 5 (U-P)—Spectators did a double take yesterday as Hungarian troops paraded in Budapest wearing a re-styled army cap.

The Soviet style formerly worn by enlisted men seems to have been replaced by a high-crowned peak cap closely resembling the U. S. army's.

Otherwise, the emphasis remained Russian in the parade commemorating the 16th anniversary of Hungary's "liberation" by the red army in World War II.

Price Control Starts for Cuba

HAVANA, April 5 (U-P)—The Cuban government placed all goods and services under price control yesterday.

The decree regulates prices and profits in private and state enterprises. Almost all of Cuba's industries and wholesale activities are state operated.

400 Students Take Part in Concert Here

Approximately 400 students participated in the 1963 spring concert Wednesday evening at the Twin Falls high school gymnasium. The concert was sponsored by the Twin Falls high school music department.

The program included numbers by the symphony orchestra, directed by Richard Smith; the choral department, directed by R. Brian Owens; and the symphony band, directed by Del Slaughter.

Stan Owens honored each of the choir officers with corsages. Honored were Linda Pugh, president; Marilyn Hoss, vice president; Anne Alworth, secretary; Karen Stancell, treasurer, and Sally Selber, in charge of choir.

Coming events for the music department include the symphony band Pops concert May 2, and the annual high school orchestra show May 8 and 10.

New Phone Rates Are Announced

BOISE, April 5 (U-P)—Mountain States Telephone company has put into effect new rates for long-distance telephone calls during evening hours.

State commercial Manager Frank Bromley said from 9 p.m. to 4:30 a.m. long-distance users will have to pay only the former price for three minutes to talk. But he said, telephone users will have to pay from five to 10 cents more for a person to person interstate call shorter than 300 miles—regardless of the time of day.

JORDAN OPPOSES

WASHINGTON, April 5 (U-P)—Sen. Len Jordan of Idaho, the lone Republican among the contingent of senators from the Pacific Northwest on Alaska, was on the losing side yesterday as the senate passed 52-41 the measure to admit Alaska.

Race Lost

PORTSMOUTH, Va., April 5 (U-P)—Della F. O'Neil, 20, Oronoke, N. C., gave birth to a son yesterday while flying in a coast guard helicopter 100 feet above Camden Point, N.C.

The baby was born as the helicopter was taking Mrs. O'Neil from her home to a hospital at Elizabeth City, N. C.

Mother and baby are fine, said a spokesman for fifth coast guard district headquarters.

8 Valley Pupils Get Straight A's

UNIVERSITY OF IDAHO, April 5 (U-P)—Eight Magic Valley students are among the 54 university students earning straight A's for the first semester.

They include Dana Andrews, Hazelton; Terry Cutler and Janice Rietman, both Twin Falls; Michael Miller, Douglas; Miller and Barbara Fowler, all Rupert; Nancy Votika, Kimberly, and Bonnie McGough, Shoshone.

Irrigation Charge Cut At Gooding

GOODING, April 5—Gooding city council has voted to reduce city irrigation charges for the city of Gooding.

The charges will be reduced one-half of the present amount. The city is the sole purchaser of the water. The city will be reduced to \$1.50 minimum for the city of Gooding, and the city of Gooding will be reduced to \$1.50 minimum for the city of Gooding.

The city council was instructed to write the army corps of engineers approving a tentative plan of April 15 for a communication in Gooding regarding flood control.

A master plumber's license was granted to a tentative plan of April 15 for a communication in Gooding regarding flood control.

The city council was instructed to write the army corps of engineers approving a tentative plan of April 15 for a communication in Gooding regarding flood control.

Ex-Resident Of Hailey Dies at 36

HAILEY, April 5—Word has been received here by Mrs. Anna Downard of the death of her nephew, Don Nordin Downard, 36, Monday at his home in Ben, Calif.

Mr. Downard grew up in Hailey. He was born April 22, 1924, at Brigham Canyon, Utah. He came to Hailey when a small boy with his parents, Mr. and Mrs. Oron Downard.

After graduating from Hailey high school he worked at the Triumphant mine for a time before enlisting in the navy. It was during his military service that he received severe injuries in a Jeep accident, from which he never entirely recovered.

He was released from the Veterans hospital in San Francisco two weeks ago and had gone back to work.

When his wife, the former Bobbie Green of Hailey, received word from work Monday she found him dead in his room.

Surviving, besides his widow are four sons, two daughters, his mother, a brother and sister, all California.

Funeral services had not been set when his aunt was notified.

Style Show Set For Diet Club

RICHLAND, April 5—A spring style show will feature the Diet Club at the home of Mrs. Rose Swanson, president.

Mrs. Ralph Riley, Jr., was named best loser of the month at this March at this month's meeting held at the home of Mrs. Loy Lee. She won a cash award for her half sister, Mrs. Lyle Deeds, received the weekly prize, and cash gift as best loser.

Seven club members gained four and one-half pounds for the week and lost three and one-half.

Mrs. Ralph Riley, Jr., and Mrs. Percy Christensen were fined for not attending.

Mrs. Lyle Deeds and Mrs. Lyle Johnson won club money prizes in a quiz contest directed by Mrs. Christensen. Mrs. Swanson took home the weekly reminder symbol.

Touchy

ST. PAUL, Minn., April 5—"Driving is a full-time job and people should be treated as such," said the necking for later, arrested Rep. Richard Rife.

"The way the bill is written, it's all right if you want to pinch a girl's leg," Rep. Robert G. Heuser countered.

It was all part of debate in the Minnesota house of representatives yesterday on a bill to make it illegal for a driver to put his hand or arm around a passenger or vice versa.

The bill, introduced on the brink of death and then was sent back to general orders for repass.

Professor Plans Speech at Buhl

Buhl, April 5—Dr. Siegfried Buhl, professor of history at the University of Idaho, will be the featured speaker for the meeting Wednesday night at the Buhl club.

Dr. Buhl, an authority on the Northwest and Idaho history, will speak on early Idaho history.

All alumni, parents of children attending the university and friends of the university are urged to attend the luncheon. Persons other than Buhl club members are planning to attend are urged to contact Hilbert McManis, phone 343-4100, or Pat Hamilton, phone 343-4605.

Comedy Slated

RICHLAND, April 5—You're Telling Me has been chosen as the feature film for the comedy high school auditorium at the Buhl club.

Shaffer, club adviser, is directing the play and Charles Erwin is stage manager.

THE STAMPS QUARTET, one of the oldest and most respected names in gospel singing, will appear at 8 p.m. Monday at the Twin Falls Church of the Nazarene. Members of the quartet are hand-picked from the ranks of gospel singers so they represent the finest talent in this field. Members are, clockwise, from bottom, Joe Roper, pianist; Terrell Blackwood, lead singer; Jerry Reed, first tenor; John Hall, bass; and Roger McEliff, baritone. The public is invited. There is no admission charge.

Knutsen Is Cubmaster At Richfield

RICHLAND, April 5—Golden Knutsen has been named Cubmaster for Pack 8 sponsored by the LDS church.

Projects of the group were displayed at Pack night held at the church recreation rooms. A roll map of the United States featured individual state maps with each Cub making five as a special assignment. Litter bags were also made.

Mrs. Lowell Jeffries and Mrs. Percy Christensen, den mothers, were in charge of directing the projects and pack night activities.

Awards presented by Knutsen were one year service pins to Dale Crowther, Ronald Jones, Chas. King and Alan Stowell.

Assistant den mother award to Joe Shaffer, bear badge, a gold armband, and two year pins to Kim Jeffries and Ron and Wobbe badges to Robert Crowther and Brent King who also was graduated from the Cub Scout group. Leslie Bushby, local Indian artifact collector, was guest speaker and displayed articles found in his area.

Pack meetings will be held the third Thursday of each month for the newly formed group.

Federal Aid to Slumping Gold Industry Urged

WASHINGTON, April 5—A gold proponent and a seller of the interior was proposed yesterday to aid the slumping domestic gold mining industry.

Under the bill, by Chairman Ernest Gruening, D-Alaska, the settlement of mineral and selling the agency would buy newly mined domestic gold at prices up to \$100 an ounce.

The payment would be set by the interior department to achieve maximum production from the bill to make it illegal for a driver to put his hand or arm around a passenger or vice versa.

The bill, introduced on the brink of death and then was sent back to general orders for repass.

Workshop Starts

RICHLAND, April 5—A 10-week genealogical workshop has been started at the LDS church with Mrs. Harold Williams as instructor. Interested persons will be welcome.

Helping Elmo Patterson named Mrs. Clifford Ward as chairman of the Genealogy society. Mrs. Lowell Jeffries, assistant chairman, and Mrs. Jay Ward, secretary, will assist.

STUDENT HONORS

Buhl, April 5—Ernest Thompson, son of Mr. and Mrs. Ralph Buhl, was named valedictorian at the graduation ceremony at the Buhl club.

Interested persons will be welcome. The graduation ceremony was held at the Buhl club.

Castro Ends Repatriation Of Americans

HAVANA, April 5 (U-P) — Prime Minister Fidel Castro has suspended repatriation of American citizens seeking to leave Cuba, possibly to pressure the United States into sending ships for Cubans who want to leave.

The suspension order, dated Tuesday, ends the hopes of about 100 persons—Cuban-Americans and their families—who had planned to fly to Miami today.

There was no official explanation for the action. The Soviet embassy, which represents U.S. interests here, said only that the Castro government notified it of the suspension order.

But a Swiss embassy source explained Castro wants delivery of ransom installments for the Bay of Pigs invaders on ships that can take emigrants to the United States on the return trip. Recent ransom cargoes have been brought on ships that were routed on to ports outside the United States after calling here.

News Agency Gears Output To Changes

NEW YORK, April 5 (U-P) — The Associated Press is gearing its news output to meet "a more discriminating, intelligent and better-informed" audience, says William E. O'Connell, AP general manager, said today in his annual report.

The worldwide news cooperative is meeting the challenge through use of new techniques, he said.

"In an era where man probes the universe with missile fingers and primitive powers are being used to the 20th century, the Associated Press faces a task as difficult as any in its 114-year history," he said.

O'Connell cited "the grim nuclear diplomacy of the cold war," the hot war in Indochina, bloody struggles in the Congo, space exploration and segregation turmoil as illustrating the complexity and variety of modern news.

"This torrent of news requires new techniques in handling and delivery which were met by a highly trained, professional staff," he said.

O'Connell's report was mailed to AP members in advance of The Associated Press annual meeting and luncheon in New York City April 22.

Who Cares!

JERSEY CITY, April 5 (U-P) — An award-winning painting was discovered yesterday to be hanging upside down.

The painting, Yonna Beattie's semiautomatic oil, "Autumn," is in the annual exhibit of the Painters and Sculptors Society of New Jersey at Jersey City museum.

Mrs. Beattie noticed that it had been hung upside down, but blamed herself, saying she put the eyehooks in the wrong place, misleading the museum.

William Gorman of Bayonne, one of the judges, said, "a good painting is a good painting whether it is hanging right side up or not."

And Mrs. Beattie said, "when you look at autumn leaves, it doesn't matter which way you look at them."

Mrs. Cora Gould Taken by Death

BURLINGAME, April 4 (U-P) — Mrs. Cora Mae Gould, 74, died at her home Friday morning of a long illness. She had been a Burlingame resident for 48 years.

She was born Sept. 15, 1888, in Oakley. She was a member of the LDS church and had been a visiting teacher in the Relief Society. On Sept. 15, 1938, she was married to George A. Gould in Twin Falls.

Survivors include her husband, Burlingame; two daughters, Mrs. Randa Stephens and Mrs. Lela Davis, both Burlingame; and two sons by a former marriage, Lionel Yeaman, Astoria, Ore., and Muriel Yeaman, with the U.S. navy in Morocco; one brother, Hixon Paulson, Burlingame; three sisters, Mrs. Mary Lee, Burlingame; Mrs. Jean Owens, Idaho Falls; and Mrs. Ethel Ball, Logan, Utah; 19 grandchildren and 17 great-grandchildren.

Funeral services will be held at 2 p.m. Monday in the third ward LDS chapel by Bishop Robert Ramsey. Last rites will be held in the Oakley cemetery. Friends may call at McCulloch funeral home Sunday afternoon and evening. The funeral home will be open for services.

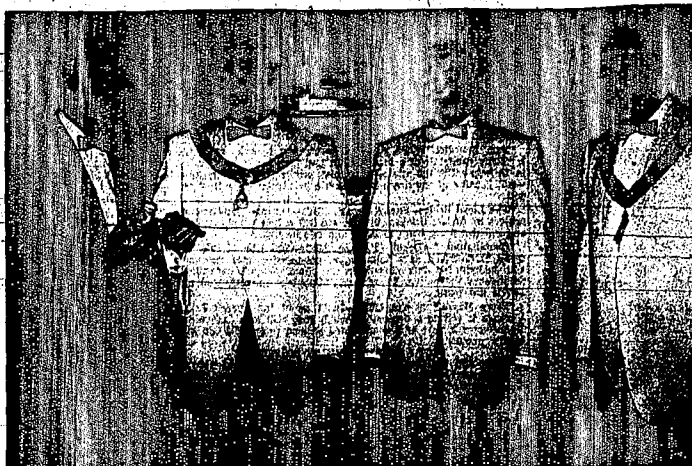

Skit Planned For 4-H Dinner

HAGERMAN, April 5 (U-P) — It was announced at the 4-H community club meeting Wednesday evening that members will put on a skit at the annual Idaho Power 4-H leader recognition dinner, to be held April 30 at the West Point Grange hall.

Regular 4-H community meetings will be held the first Wednesday of each month, with the next one on May 1.

REDEMPTION STUDY SET

LARSEN, April 5 (U-P) — The redemption study will start a new phase next month to determine the extent of sediment in the Snake River valley above Boulder.

INSTALLED AS new exalted ruler of Twin Falls Elks lodge No. 1181 Thursday night was Jack F. Threlkeld, second from left. Others are, from left, Robert Wallace, installing officer, who is

Jack Threlkeld Installed as Exalted Ruler of T. F. Elks

Jack F. Threlkeld was installed as exalted ruler of Twin Falls Elks lodge No. 1181 Thursday evening, accepting the oaths of office from installing officer, Robert Wallace, and retiring exalted ruler John F. Lelien.

Other officers installed are

Mischief

PAYETTEVILLE, Ark., April 5 (U-P) — James McCollum, 22, Pine Bluff, Ark., a student at the University of Arkansas, was fined \$10.50 in municipal court for riding in an automobile dryer in a help-yourselves laundry.

He was charged with malicious mischief.

Vote Set in 1964 On Bond Issue For Outdoor Use

OLYMPIA, April 5 (U-P) — A 10 million dollar bond issue to purchase property for outdoor recreational facilities will be put to a vote of the people in November of 1964 as a result of legislative action taken Thursday.

The house accepted senate amendments to the proposal and passed the measure, as amended, 53-10. The senate approved it 31-14 Wednesday over Republican opposition.

The measure was requested by Governor Rosellini.

turning over a gavel to Threlkeld; John Lelien, outgoing exalted ruler of lodge No. 1181, and Arnold Luft, esteemed grand knight. (Times-News photo)

Senate Okays Fund for City Transit Aid

WASHINGTON, April 5 (U-P) — The senate has approved the use of \$75 million dollars in federal grants to help the nation's cities unclutter their transit problems.

Passage yesterday by a 52-41 vote amounted to a partial victory for the administration and urban forces. The bill now goes to the house and another tough fight.

To win senate approval, administration forces agreed to slice 125 million dollars from the 600 million dollars in grants originally requested by President Kennedy. New restrictions were

written into the program which sponsors concede will hamper its effectiveness unless they are removed in the house.

The first of the administration's spending programs to clear either chamber this year, the mass transportation subsidy bill drew the support of 48 Democrats, including six from the Deep South, and six Republicans, all from industrial states. It was opposed by 24 Republicans and 17 Democrats.

T. F. Cleanup Drive Starts On Monday

Twin Falls' annual spring cleanup campaign will be held for two weeks Monday through April 10, according to City Engineer Paul Newton.

The city's street department crews will assist the regular garbage haulers in residential areas by picking up rubbish and debris accumulated from trees, brush and yard trimming. Residents are asked to pile the trimmings either in the alley or along streets next to the curb. Trash should not be placed in the gutters or in the alleys, where traffic would be blocked.

Schedule planned for picking up rubbish by the street department crews will be Monday through Wednesday, all of South Park and the original townsite; Tuesday and Wednesday, all areas west of Washington street; April 12, 15 and 18, the areas between Washington street north and Blue Lakes boulevard north; north of Addison avenue; April 17, all areas east of Blue Lakes boulevard and north of Addison avenue east; and April 18-19, all areas east of Blue Lakes boulevard and south of Addison avenue east.

Don Pline, a Valley student who received state FFA degree at Montpelier, the past week-end. Both boys are honor students, active in sports and school activities. Pline, a junior, is the son of Mr. and Mrs. Dwight Pline, Hazelton, and Davidson, a senior, is the son of Mr. and Mrs. Edna Davidson, Eden.

Grandmother of T. F. Man Dies

BOISE, April 5 (Special) — Mrs. Miranda Bancroft, 90, grandmother of Stephen R. Bancroft, Twin Falls accountant, died Thursday afternoon in Boise.

She was born Nov. 10, 1872, in Clearmont, Mo., and had lived with her son, Chester Bancroft, Boise, for the past 20 years. She was a member of the Methodist church.

Funeral services will be held Monday in Boise.

DON PLINE

LARRY DAVIDSON

Deaconess to Talk April 21

ALBANY, April 5 (U-P) — The announcement of the visit of Dorothy Barnett, Methodist deaconess, was made at the Methodist church official board meeting Wednesday evening.

Alfred Sandy conducted the meeting. Mrs. Barnett will speak at 7:30 p.m. April 21, with members of the Jerome and Wendell churches invited.

Virgil Norwood announced that the pre-school Easter party will be held at 2 p.m. Monday at the church.

INVENTOR DIES

CHICAGO, April 5 (U-P) — Thomas L. Gatzke, 63, inventor of a molded brake lining which can be possible the four-wheel brake, died yesterday. Gatzke, who had more than 100 patents, was president of the Gatzke corporation, a company he founded more than 50 years ago.

Police Car Bids Opened For Rupert

RUPERT, April 5—Bids for a new police car were opened at the city council meeting this morning and a one-half increase in the 1,500-kilowatt section was approved.

Robert Motor firm was the low bidder and will furnish a new Chevrolet car for the use of the police department. The bid, including trade-in, was \$1,190. Other bids submitted included Goodyear Motor, \$1,275, and Mason's \$1,425.

The ordinance approved provides for a one-half increase in the 1,500-kilowatt section of the present rate schedule. According to council members, the increase is expected to bring in approximately \$5,000 to \$7,000 annually, with funds tentatively earmarked for the purchase of a new fire truck.

In other business, the council voted to extend for 30 days the time required for payment of an electric bill for over \$5,000 owed by the Rocky Mountain Chemical corporation. Burley, representative of the company, pointed out there are some \$50,000 worth of French fries in storage which would be ruined if the power would be turned off.

He also explained the plant is planning to resume operations and soon will be able to pay the account. He explained that the firm's assets had more than paid for the stock sales had boosted company funds, he pointed out.

Representative of the C and P Equipment company submitted a courtesy bid of \$4,999.73 on a backhoe the city is considering purchasing.

City Engineer Ronald Kieboe was instructed to get bids for the paving of the city streets.

The city also reported bids had been received from the Gordon Payson company on raising the street levels in front of the city building.

A report of a proposed candy sale to assist with the cost of recreation equipment by a local group was given by George M. Donald, council member.

Former Buhl Man, 26, Dies From Mishap

RUPERT, April 5—David Glenn Runyan, 26, former Buhl resident, died Thursday in California of injuries received in an industrial plant explosion two weeks ago at Turance, Calif.

Mr. Runyan had incurred serious burns and had broken some bones. He and another man were working on a machine when the explosion occurred. The other man died several days ago.

Mr. Runyan was graduated from Buhl grade school and high school. He went to California in January to see the Rose Bowl parade and stayed to work. He was born in Springfield, Neb., March 2, 1917.

Mr. Runyan is survived by his father, Wade Runyan, Buhl; mother, Mrs. George Sabolski, Buhl; three brothers, Charles Runyan, Buhl, Larry Runyan, West Covina, Calif., and Kenneth Runyan, going to school in Boise; three sisters, Mrs. E. A. Duit, Piner, Mrs. Ruth Coombes, Turance, Calif., and Carol Runyan, Buhl; and his paternal grandmother, Mrs. J. L. Runyan, Buhl; maternal grandparents, Mr. and Mrs. C. L. Brown, Payette, and half-sister, Jeanne Sabolski, Buhl.

Funeral services will be announced by the Albion Funeral home.

Installation Set

JEKOME, April 5—Wives of Elks are invited to attend the Elks meeting Monday evening when officers will be installed.

The wives also are invited to attend the dinner to be held before the lodge meeting. All Elks who attend the dinner should make advance reservations with Ed Churchman.

he added later this year include Mountain Home, Blackfoot, American Falls, Nampa and Payette.

Those who will be trained to operate the local machine include all radio operators and desk sergeants, some men from the detective division and possibly two or three other police department personnel. It is planned that no matter what shift, there will be someone at the local station to operate the machine.

The accepted method of destroying U.S. flags is to burn them privately.

Under no conditions would we permit U.S. flags to be sent as rags," he said.

Kelly supervised inspection of the nine bales, several of which were found to contain remnants of U.S. flags.

The customs official said the bales will be picked up by the General Industrial Rag corporation, which will repack them without the flag remnants.

Tattered U.S. Flags Found In Rag Bales

NEW YORK, April 5 (AP)—A shipment of nine bales of rags to West Germany was delayed today because of the discovery that some of them contained tattered U.S. flags.

The cargo was held up by Joseph P. Kelly, U.S. collector of customs from the port of New York, after he received a complaint from Rep. John M. Murphy, D. N.Y.

Murphy said he received a telephone call in Washington from a Longshoreman who found part of a U.S. flag when a rag bale accidentally burst on a New York pier. The rags were to have been shipped last Sunday aboard the United States Lines American Pioneer.

Kelly ordered an inquiry although he said there was no violation of customs regulations.

"Under no conditions would we permit U.S. flags to be sent as rags," he said.

Kelly supervised inspection of the nine bales, several of which were found to contain remnants of U.S. flags.

The customs official said the bales will be picked up by the General Industrial Rag corporation, which will repack them without the flag remnants.

Town Abolished Over Speed Trap

TALLAHASSEE, Fla., April 5 (AP)—The state legislature yesterday abolished the little border town of Bouloughs whose round-the-clock police force was accused of operating a speed trap for tourists.

State Sen. Harry Bittston said the legislature, by approving incorporation for Bouloughs in 1953, helped "create a monster" that now should be killed for the good of the state.

The American Automobile Association (AAA) said the town on U.S. 1 got 85 per cent of its revenue from fines and bond forfeitures resulting from traffic offenses.

Bouloughs has 26 registered voters, 11 freshmeats and a three-man police force which maintained day and night surveillance of the highway.

ISC Choir Sets Area Concerts

IDAHO STATE COLLEGE, Pocatello, Idaho, April 5 (AP)—The Idaho State college choir will present concerts in 10 Idaho Valley communities and give a television performance during the next four weeks.

On that date the choir, directed by Wesley M. Harris, will appear in Kimberly, Picher and Buhl, with an evening appearance on KLLX-TV on April 22. The choir will appear in Twin Falls, Wendell and Gooding, and on April 24 at Eden, Rupert, Burley and Oakley.

Terry Anderson and Carolyn Humphries, both Twin Falls, are accompanying the choir.

FORMER TWIN FALLS state LDS President Joel A. Tate and Mrs. Tate, left, are shown being welcomed at the Mormon Temple of Idaho by elders in the Berlin mission of the LDS church. Tate, who had served as Twin Falls state president since February, 1960, succeeds Terry R. Kitzer, Salt Lake City, as

president of the Berlin mission district. Their son, Joel Tate, Jr., is serving a mission for the church in the Southwest Indian mission and a daughter, Nancy Ellen Tate, will join her parents in Berlin at the end of the University of Utah school year. (Press-Scimitar photo)

Jerome Sets Deadline for Bids at Fair

JEROME, April 5—Bids for activities at the Jerome county fair should be submitted by May 9, according to Mac Ambrose. Bids will be accepted for program and premium books and the grandstand concession.

Theme for the rodeo will be "100 years of progress."

L. H. Van Riper was appointed chairman of the commercial displays at the fair. Other chairmen include Jerry Diehl, rodeo arena, queen contest and tentennial parade; Harold Jenkins, grounds; Bill Brown, 4-H and Orange displays; James Grant, polling and ticket sale, and Tom Lamm, publicity and midway.

Lee Bartholomew, grounds keeper, reported on the recent building improvements. Judy Hall and Barbara Kiser asked that a barrel racing event be included in the 1963 rodeo events. The request was approved.

Members discussed a horsehoe contest. If there is sufficient local interest it will be included in fair plans.

Expensive Signup for Senior Class

WASHINGTON, April 5 (AP)—The justice department has told congress its expenses to enforce court orders permitting Negro James H. Meredith to attend the University of Mississippi will run about \$550,000 through June 30.

And, department spokesmen said, no preparations are being made to finance his Oxford, Miss., contingent beyond that date, the end of the fiscal year.

The matter was discussed at a hearing of a house appropriations subcommittee. The transcript of the closed-door hearing was made public today.

20,000 Sailors Given Medication

SAN DIEGO, April 5 (AP)—20,000 navy men at the naval training center were ordered to take medication today after the discovery of the third case of meningitis in a week at the base.

It was the eighth case of the infectious disease during two outbreaks within the past month. Two of the victims died.

Minico Sets Signup for Senior Class

RUPERT, April 5 (AP)—Members of the junior class at the Minico county high school will register for next fall's classes at special sessions scheduled for next week.

The registration periods will run from 7 to 9 p.m. Monday through Wednesday. Purpose of the sessions is to go over each student's scholastic record and to assist him in determining classes for the senior year.

Student counselors and Elmer Eddington, vice principal, will be present to assist the students and their parents.

Students whose last names begin with the letter A through H are asked to come on Monday night; those with I through Q on Tuesday night and the rest on Wednesday.

Leigh Ingerson, principal, stated that parents are invited to attend with their young people. He also explained that in the event a student was unable to attend on the assigned night, he could come on another.

King Saud Under Specialist's Care in Paris Clinic

PARIS, April 5 (AP)—Ailing King Saud of Saudi Arabia, one of the world's richest men, was under the care of medical specialists today in an austere little clinic in Paris.

The 41-year-old desert monarch flew here yesterday from Nice on the French Riviera where he spent 16 days in a hotel suite living in a style reminiscent of the Arabian nights.

Saud sent his 30 wives and concubines back to Saudi Arabia yesterday. He brought only five members of his party with him to Paris.

Prof. Gaudard d'Alaines, a specialist in brain and heart conditions, took charge of his treatment at the private clinic of the Rue Vieille.

DRIVE STARTS RICHFIELD, April 5—The annual cancer fund drive started in Richfield Wednesday night by Mrs. Albert Felley, local chairman.

Price Boost Is Predicted For Silver

SOUTH AMBOY, N. J., April 5 (AP)—Silver may go to \$150 an ounce this year or next, President Jack Kaplan of Spiral Metal company, said today.

He said the price of silver will continue to rise until it ceases to be "an artificial by-product and reflects the true cost of removing what is now referred to as low-grade ore from the ground."

This by-product mining of silver no longer is sufficient to meet "industrial" and monetary demand, Kaplan said, so naturally the price keeps rising intermittently.

He pointed out that nearly all silver is produced as a by-product of copper, lead and zinc mining. Prices have not justified in past years mining directly for silver to any great extent.

TYPHOID REPORTED LONDON, April 5 (AP)—Two more cases of typhoid fever were reported in Scotland yesterday.

Brave Sheep-Killer Dog Denied Reprive

HOUSTON, Tex., April 5 (AP)—Mrs. Lena S. Doyle, 72, chased off three would-be purse snatchers—last night with a car key.

Mrs. Doyle told the police she was walking to her auto when the youths jumped from an alley and told her to drop her purse.

She fled when she jabbed one in the face with her car key.

"I must accept the finding of the courts that Ikey is a sheep-killing dog," Harrison wrote in reply to a plea for mercy submitted by Roshane Attorney Harvey S. Lullin.

It was believed the first time in the 110-year history of the Commonwealth of Virginia that a child executive had been asked to spare the life of an animal.

Report to Stress Estimates Okay On Population

NEW YORK, April 5 (AP)—A report on the population explosion will stress that former estimates of growth in low income countries have not been extravagant and that the world's population will double to 6 billion within 40 years, a U.N. executive said today.

Paul G. Hoffman, managing director of the U.N. special fund, gave a preview of the report to the three-day annual conference on Columbia University.

Hoffman said that those trying to help raise living standards throughout the world are "not aware that there is little time left in which to achieve at least enough success to put hope into the hearts of people."

HOPING FOR EVO OLYMPIA, April 5 (AP)—Legislative leaders said yesterday they hope to wind up the special session by Saturday noon, 21 days after it began and probably without settling the thorny redistricting problem.

CHRYSLER / AMERICA'S NEWEST PAGE-SETTERS

Sports spectacular—with a 5-year or 50,000-mile warranty!

When the Chrysler 300 sets out to do a performance job, it does it with flying colors. It's been chosen (with complete justification) to pace the field at the famed Indianapolis "500" on May 30th. It's already known as the No. 1 American rally car. Successes include top awards in the Continental Divide, Daniel Boone and Abominable Snow rallies.

With a 300—crisp, custom styling, bucket seat luxury plus the power and handling of a true performance car are all yours to enjoy. And, there's the most surprising extra of all—your Chrysler dealer's 5-year or 50,000-mile warranty. Little wonder Chrysler's selling the hot pace wherever performance cars are being talked about.

Value spectacular—with a crisp, custom look

When Chrysler sets out to pack a full-size Newport with value, others take a back seat. Here's the value that surprises many who figure the crisp, custom beauty of Chrysler ought to be priced much higher. Consider the solid way this beauty is built. The complete way it's powered and equipped with a Finbait.

V-6 that performs on regular. Torsion-bar suspension that treads the roughest roads. Expansive decorator fabrics. Six-way adjustable seats. Thick, door-to-door carpeting. Then there's America's longest and best now-car warranty, 5 years or 50,000 miles. Chrysler Newport—only \$2064.* See your dealer today.

*1963 model. Excludes taxes, license, title, and destination charges. Dealer sets local price.

WININGER, SOUCHAK GRAB MASTERS LEAD

Duo Ties at 3-Under-Par 68s; Palmer, Nicklaus Find Misery on Course

AUGUSTA, Ga., April 5 (AP)—Francis (Bo) Winger, a prematurely-graying unemployed pro from Oklahoma City, and Mike Souchak, barrel-chested ex-Duke football player without a tour victory in two years, overshadowed golf's heavily favored Big Three and shot into the first round of the Masters Golf tournament Thursday with three-under-par scores of 69. Defending champion Arnold Palmer, seeking his fourth title, took a dub-like seven on the 16th hole and finished with a 74, five strokes back. Jack Nicklaus, the toll-poly U.S. Open champion, also had a scrambling 74 and South Africa's Gary Player a 71.

Bolt Sinks 3 1/2-Minute, Hanging Putt

AUGUSTA, Ga., April 5 (AP)—Tommy Bolt played a waiting game with a reluctant golf ball Thursday and salvaged a par on the first hole in the 27th Masters golf tournament.

After hooking his drive into the trees and clamping his arms and into a trap on the 375-yard opening hole, Bolt blasted out to within six feet.

His putt rolled to the right tip of the cup and hung there precariously, half in and half out.

While a large crowd uttered, "tempestuous Tommy walked back and forth, then stood over the ball, hands on knees, as if trying to "think it in."

After 3 1/2 minutes of tense waiting, the ball dropped. Bolt gave a par for instead of a bogey five.

The U.S. golf association rules, under which the tournament is played, specify no time limit that a player may wait under such circumstances.

The rule is that a player be permitted a reasonable time before striking the ball to determine whether or not the ball has stopped moving. It's a two-stroke penalty if a player is moving the ball.

Normally, anything over a minute could be construed as stalling and could call for an official ruling to determine if the ball was still in motion.

When the ball dropped, the crowd let out a wild cheer.

Oregon-USC Meet Scheduled

By The Associated Press
Oregon's national defense college track and field champions host the former champion Southern California Trojans Saturday in a dual meet headlining a full slate of action along the Pacific Coast.

Algonia State's strong Ben Devlin invaded Berkeley for a triangular against the California Bears and the San Jose State Spartans. UCLA hosts Occidental and Stanford; Oregon State and Washington meet at Seattle while Montana State holds its second annual indoor invitational at Bozeman.

Last season, Coach Bill Bowerman's Oregon team ended the string of USC dual meet triumphs that dated back to 1948 and the Webfoles went on to capture the NCAA title.

Nitschke Cited As NFL's Best

NEW YORK, April 5 (AP)—Ray Nitschke, the fierce middle linebacker of the Green Bay Packers, received a new car Thursday for being named the outstanding player in the 1963 National Football league's championship play-off game last Dec. 30.

The magazine Sport that makes the award delayed presentation until the end of the New York newspaper strike.

Nitschke, 29-year-old former Illinois fullback, played spectacular defensive ball for the Packers in their 16-7 victory over the New York Giants. The winner of the award was announced immediately after the game.

FLYING TO VICTORY: William Marlot, Aspen, Colo., takes a long jump in the men's downhill section of the National Alpine ski championships at Aspen, Alaska. Marlot won the event in 1:25.5, one-tenth better than Bud Werner. (AP wirephoto)

Marlot Nips Werner to Claim Men's Downhill Skiing Crown

MT. ALYESKA, Alaska, April 5 (AP)—Will Marlot, Aspen, Colo., edged out University of Colorado teammate Wallace (Bud) Werner by one-tenth of a second Thursday and won the men's downhill run, opening event of the 1963 national alpine ski championships. Marlot was timed at 1:25.5 seconds for the 8,440-foot long plunge down Mt. Alyeska's glistening vertical drop of 2,780 feet. Joe Albrecht of Switzerland was third in 1:29 seconds. Chuck Faria of Houston, Mich., and Jim Gould of Salt Lake City, tied for fourth in 1:29.7.

Numerous slips marked the opening day. program. Nancy Holland, Montreal, Irish Slender Cup racer, and Mike Albrecht of Bellingham, Wash., suffered mild concussions in last Sunday's race. Holland was taken to a hospital in Anchorage, 45 miles away, for further treatment and observation. The others were treated and released.

Barb Hoenesberger, petite German Olympian, after, won the women's downhill in 1:29.9 seconds. Jean Barbieri, Lakeview, Ore., winner last week in the Harrington Cup races at Salt Lake City, was second in 1:42.2. Miss Hoenesberger is ineligible for the American championship.

Early unofficial reports had credited Linda Meyers, Mammoth Lakes, Calif., with the downhill victory. Her official checks of electronic devices and hand timers showed she finished eighth.

The women's course, although shorter than the men's by 1,210 feet, took a heavy toll of skiers. Seven of the 24 competing fell.

Nancy Greer, Roseland, N.C., one of four Canadians in the men's, was third in 1:49.9 seconds. Fourth place went to Sharon Prentiss, Aspen, Colo., in 1:49 seconds and fifth to Eleanor Beck, St. Regis, Mont., in 1:49.4.

Ideal weather, with bright sunshine and temperature in the low 30s, greeted the crowd of just over 1,700, most of whom drove from Anchorage for the event.

The three-day national event began with Friday and Saturday slalom races and a slalom final test in a series to determine the United States Olympic alpine team. The men's team and six women on the team will be announced at U.S. Ski association meeting in June at San Francisco.

Four Canadians in the field are eligible for the national titles but three have already won one. West German skiers are the favorites. The sponsoring Canadian Ski club and the Alyeska Ski corporation have provided special trophy—a 1963 Aurora cup for the winner in each division, whether American or foreign.

ENTERS TOURNAMENT
NEW YORK, April 5 (AP)—Chicago Loyola, the national collegiate basketball champions will compete in the Quaker City holiday tournament in Philadelphia in December. The Eastern College Athletic conference announced Thursday.

Ullman Scores Twice as Red Wings Top Hawks 4-2

CHICAGO, April 5 (AP)—Norm Ullman scored two goals and assisted in a third as the Detroit Red Wings took a 4-2 victory over the Chicago Blackhawks Thursday night for a commanding 3-2 lead in the second period on a 15-foot breakaway shot by Ullman which added past-the-outside-of-glove deflection.

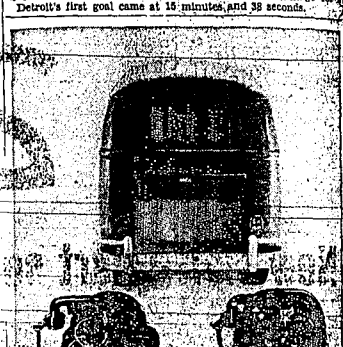

The Red Wings, who lost the first two games in the playoff series, now go home for what could be the final game in Detroit Sunday. Another victory in their home ice would give Detroit an opportunity to meet Toronto in the championship finals. Toronto won its series with Montreal, 4-1 with a 3-0 victory Thursday night.

Chicago must win at Detroit to force a final game in Chicago Tuesday night.

The Red Wings, propelled by their two victories in Detroit, took a 2-0 lead before the Black Hawks came alive midway in the second period.

Despite penalties, which at one time gave them two-minute advantage over the Wings in the first period, the Hawks simply couldn't cash in for two reasons. One was the brilliant work of goalie Terry Sawchuk and the second after the penalty was either their inactivity on the power play or a lack of firing.

The Hawks opened the final stanza at a disadvantage for Detroit's first goal came at 15 minutes and 38 seconds.

Our '63 truck has two (2) engines.

That's what you can choose between two engines when you buy a VW Truck.

The one on the left is our standard model. The legendary engine that made the VW famous. The one on the right is our new 1600 cc. engine. It costs a little more, but it's a lot more powerful.

Say you generally carry a heavy load. Or say you have to do a lot of driving over steep hills. Then, you'll probably want to take on our more powerful job.

Do you know some of the advantages in the VW power plant?

Both engines, for example, are air cooled. So they can't boil over or freeze up.

Both are short-stroke, low rpm engines. Which means less friction, longer life.

Both do about 24 miles to the gallon and hardly ever need oil changes.

Both go in back of the VW. Where they give the drive wheels unusually firm traction.

The point is this: No matter which engine you choose, you're still getting the same old Volkswagen economy.

63 style.

MARKETS AND FINANCE

Stocks

NEW YORK, April 5.—April 5th—A late rally in stocks pushed the popular market averages to new and high today. It was the third consecutive market gain.

Trading, which had been spasmodic up until about 2 p.m., picked up in the afternoon, with the high-speed tickers as much as five minutes behind transactions in floor.

Brokers said the backing and filling during the early part of the session represented mostly speculation and profit-taking. Few feared the "pause" would last long. Observers cited the sizable decline in unemployment last month, record March department store sales and the pickup in trading whenever prices moved forward as signs that the market will have little interference in its climb upward.

Most analysts seem to think the only interruption of the market will have moving through the Dow-Jones industrial level will be "convenient" for tax payments and profit-taking.

Stetals and aircrafts passed the late afternoon upswing. U.S. Steel, Youngstown Sheet, Bethlehem and National Steel, all fractionally to at least a point. Among the minerals, Boeing, Lockheed and Northrop, all up. Aviation showed pronounced strength.

Chrysler, which filled with 100 all day, rose a steady 100 to nearly 100—its highest price in eight years. Other autos moved within a narrow range. Du Pont and Hooker moved up. In the chemicals, but Amersol softened in the oils.

U. S. Smelting put in a good showing in the metals. The American Zinc weakened on profit-taking. Beckman and Motorola lost ground in the electronics sector. IBM, Magnavox, RCA and Schlumberger countered with gains running to more than a point.

Anderson Is Working at Gas Station

SAN BERNARDINO, Calif., April 5 (AP)—Derald M. Anderson, the San Diego almanac editor and the convicted slayer of a woman, was working at a service station attendant yesterday.

Anderson, 25, given an honorable discharge from the air force after charges against him were dropped in January, said he took the job here after unsuccessfully seeking civil service employment at Norton air force base and March field in nearby Riverside.

He said personnel offices at both installations told him there were no openings at this time. The ex-convict also had an appointment April 11 to apply for work with the postoffice here.

"It would seem strange, though, working for the government on civil service job and using them at the same time," Anderson said. He plans to file a damage suit against the government for libel and false imprisonment.

The air force kept Anderson under investigation in the murders of Mrs. Nancy Joy Johnson, 22, and her son, Danny, 2, at Mountain Home, Idaho, even after another man confessed the slayings.

Hearing Set For Budget At Shoshone

SHOSHONE, April 5 (AP)—The school board meeting for 8 p.m. Monday at the high school building, a hearing will be held on the school budget for the year. All interested citizens of the district are invited.

Shoshone school district's appropriation of state and county funds under the new distribution formula approved by the 1959 Legislature is \$498,223, an increase of \$2,000 over the last apportionment.

The 30-mill levy raises \$87,667.84, fees and rentals add \$1,750 and reimbursements from the federal government for vocational agriculture and home economics add another \$2,525.

Total income for maintenance and operation is \$188,240.00. Next year's budget allocates \$177,118 for salaries for teachers and administrators, an increase for the year of \$10,238.

From the increase the board plans to hire one extra teacher for high school to absorb increased enrollment and to free the superintendent from the necessity of having to teach a half day.

The new pay schedule raised the salary of degree teachers by \$225 per year and non-degree teachers by \$75 per year.

The seven and one-half mill levy for bonded indebtedness raises \$1,905.90, which meets payments and interest on construction in 1960 and 1961.

The school board will have a plant facility fund of \$11,718.71 by a four mill levy. Items for which they may use this include a new roof at the grade school, equipment for physics laboratory, bus body, one is purchased each year, new lighting for one school room, completion of store-room for hot lunch cafeteria, replacement of desks in one room in each building and one piece of playground equipment for small children.

Mail Delivery on Saturday Held In Danger Now

WASHINGTON, April 5 (AP)—Despite a claim that the action might put an end to Saturday mail deliveries, the house cut \$166 million from Thursday from the postoffice department's appropriations for the fiscal year starting July 1.

That was the amount pared from the annual treasury-postoffice department money bill by the appropriations committee.

The house followed the committee recommendations to the dollar in the \$1,077,000,000 measure, which was sent to the senate by a roll-call vote. The tally was 383-17.

Edward Agee, 82, Taken by Death

SHOSHONE, April 5 (AP)—Edward Agee, 82, died at the Wood River Convalescent center Wednesday of a lingering illness.

He was born Nov. 10, 1880, at Hartsville, Mo., and came to Shoshone in 1907. He had worked for Martin Brothers, Ben Darrin and the Gooding Shovel company.

Burials include one sister, Mrs. Beale Shaverford, Hartsville, several nieces and nephews.

Funeral services will be held at 3:30 p.m. Saturday at the Berea chapel with the Rev. Fred Paul Winkler, Baptist minister, officiating. Concluding rites will be held in the Shoshone cemetery. Friends may call at the chapel Saturday until time of services.

MINOR PROBLEM is shared by George Glidden, left, who operates a parachute center in Flemington, N. J., and Joseph Korch, Johnsville, Pa., a student at the school. Each has only one leg, but neither regards it as more than a comparatively minor problem for a skydiver. Glidden, who became a paratrooper after being graduated from West Point, retired from the army in 1952 after being denied permission to continue jumping. He started the parachute center while skydiving was a week-end sport for him. (AP wire photo)

YOUR BIRTHDAY and HOROSCOPE

by STELLA

FRIDAY, April 5—Born today, you are talented, ambitious and well aware of what you can do in this world. Shyness is not part of your nature and, because you do not hesitate to show your own satisfaction in your own work well-done, there are some who may think you conceited. But you will not let this worry you, for you know the difference between conceit and self-knowledge that leads to vital self-recognition.

Gifted with a way with words and sense of the dramatic, you are never at a loss for just the right thing to say, whether in writing or orally. To please an audience is your greatest incentive—next to pleasing yourself—and to this end you will work long and tirelessly. Indeed, in this respect, you must take care not to overdo.

Yours is a very dominant personality; one that refuses to be hidden in the background. Thus you will usually find yourself front-center in every situation, whether professional or social. If a man, such a nature will not lessen your chances for successful marriage; but if a woman, you will have to be careful.

Among those born on this date are: William Congere, playwright; Spencer Tracy, actor; Boris David, actress; Algisson C. Swinburne, poet; Chester Bowles, U. S. diplomat.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Saturday, April 6
ARIES (Mar. 21-Apr. 20)—A business-plan is in the Saturday. Xmas-like open schedule at the office may be a surprise or two after midday.

Taurus (Apr. 21-May 21)—An outing calculated to increase your standing with the social set might not be amiss today. Discover which way the wind blows.

GEMINI (May 22-June 21)—A full day of regular Saturday activities. Guard against conditions detrimental to health in afternoon.

CANCER (June 22-July 23)—Shopping could yield unexpected pleasure. Meet newcomers warmly and begin a new friendship on solid ground.

LEO (July 24-Aug. 23)—Routine business and household chores. Discuss plans, new ideas openly, but avoid conclusive decisions.

VIRGO (Aug. 24-Sept. 23)—Mental outlook most important.

LIBRA (Sept. 24-Oct. 23)—Business and pleasure mix today. Avoid neglecting either to push the other.

SCORPIO (Oct. 24-Nov. 23)—Take an active part in community enterprises. Let your word be binding and you should find yourself in a key position.

SAGITTARIUS (Nov. 24-Dec. 23)—See to good grooming. Replenish wardrobe. Prepare for a busy social season ahead—but only as far as your wallet warrants.

CAPRICORN (Dec. 24-Jan. 20)—Choose from many opportunities. "Don't panic today" is the one that will benefit you most. Be wise.

AQUARIUS (Jan. 21-Feb. 19)—See to routine matters early, then take part in free-line activities, including some outdoor sport.

PISCES (Feb. 20-Mar. 20)—Pressing business concerns may require canceling leisure-time plans. You can make up for it tomorrow.

Save Those Whiskers for Beard Dance
Stop! Hold! Don't shave off that beard!

Even if it does itch a little bit, it'll let you in free of charge to the "Beard Dance," a foot-sompin' hoedown to be held from 8 p.m. Friday until there's no one left in the Twin Falls national guard armory.

All bearded men will be admitted free to the dance, while their wives and any clean-shaven men will have to purchase tickets, which will be available at the door.

The dance, sponsored by the Twin Falls Junior Chamber of Commerce, will last indefinitely or at least until the early hour of Saturday morning. Free breakfast will be served to the late-stayers from about 1 or 2 a.m. Saturday. Prizes will be awarded in several categories.

TAKE THAT!
LONDON, April 5 (AP)—Mrs. Edward English won a divorce yesterday after testifying that her husband got so mad at her that he threw his false teeth at the ceiling.

Objection to Italian Red Tape Started

ROME, April 5 (AP)—Italy's 83,000 doctors began a "non-collaboration" campaign today against the health insurance system in protest against low pay and excessive red tape.

The action followed a 24-hour nationwide doctors strike.

The non-collaboration, which threatened to paralyze the 250 different government-sponsored health insurance schemes, was expected to create more furor than the strike.

Doctors refused to fill out health insurance forms and demanded cash payment from patients.

INAM, one of the largest of the health insurance organizations which together cover about 90 per cent of the Italian population, met the doctors' challenge last night with emergency orders to quit the red tape temporarily.

The 28 million persons covered by INAM will be able to claim sickness benefits from their employers without the complicated forms the physicians usually fill out. A simple statement from the doctor will be sufficient.

The doctors complain they spend a third of their time filling out forms and under some plans get as little as 48 cents for an office visit and 88 cents for a home call.

Adenauer Works For Fernch Pact

BERLIN, Germany, April 5 (AP)—Chancellor Konrad Adenauer is moving nearer to realization of a cherished goal—ratification of his treaty of friendship with France.

The Bonn government announced yesterday the 87-year-old chancellor reached agreement with leaders of both coalition parties to get quick approval of the pact.

Official Flays Soviet Red Tape

MOSCOW, April 5 (AP)—A Soviet official has blamed red tape for deficiencies in Soviet living standards.

The criticism came from Gennady Voronov, premier of the Russian Republic, during a speech to the opening session of the republic's parliament.

The Soviet news agency Tass quoted him as taking issue with "certain functionaries who do not see living people through the maze of paper work."

House Clerk Admits Driving U. S. Limousine to Races

WASHINGTON, April 5 (AP)—House Clerk Ralph R. Roberts today said sure, he was his government limousine to go to the races. "So what?"

"There are no restrictions on how I use it," he said. "It's like a telephone or anything else. It's there, and you use it. Wouldn't you?"

Roberts confirmed a report in the Washington Daily News, a Scripps-Howard newspaper, that he had used the taxpayer-financed Cadillac limousine to drive to nearby Bowie and Laurel race tracks in Maryland.

The top house administrative official, who makes \$21,896 a year, said he made the trip "quite a few times—on week-ends and holidays"—and also used the limousine to go to "church and other places."

"There's nothing wrong about it," he said. "A lot of people like to spend an afternoon at the track."

Roberts strongly denied he frequently had James McAtee, a U. S. senate garage employee, along as a chauffeur. "I drive it myself practically all the time," he said.

If government employees in the executive branch use government-provided cars for other than official business, they can be suspended or dismissed from their jobs, Roberts says this regulation does not apply to congressional leaders or employees.

Roberts said he was getting "a little bit of publicity" but also gets about the way he uses his limousine. He was criticized in 1959 for using one for a round-trip to his Indiana home.

Not Enough Change of Status

SPOKANE, April 5 (AP)—The job of the high school English teacher is vast, a University of Oregon professor told a "workshop" at the Idaho Empire-Education-Association convention here yesterday.

Bull, says Dr. Albert Kitzhaber, of Oregon English department, romance, syntax and football sometimes get in the way.

An English teacher should strive for more than teaching Johnny not to say "He done it" and "I ain't got none."

UNION OIL INVENTS A NEW GASOLINE THAT TUNES YOUR ENGINE CHEMICALLY AS YOU DRIVE

Every mile you drive, new Royal 76 continuously tunes your engine chemically 3 important ways. This gasoline is so different it exclusively bears U.S. PATENT NO. 3,011,879.

- Every mile you drive, new Royal 76 tunes your engine chemically, minimizes the formation of varnish and sludge deposits on pistons and valves.
- Every mile you drive, new Royal 76 tunes your engine chemically, prevents pre-ignition knock and assures better timing of combustion for greater power and performance.
- Every mile you drive, new Royal 76 tunes your engine chemically...cleans your carburetor continuously.

The results of this continuous chemical tune-up: your engine operates more efficiently, far longer. Your maintenance costs are reduced. And you enjoy the performance of the West's most powerful premium.

Change to new Royal 76 today, the gasoline that is so different it exclusively bears U.S. Patent No. 3,011,879. Drive in at the Sign of the 76, where you always get The Finest values in products and services. You also get the West's most powerful regular gasoline (REGULAR 76) at the Sign of the 76. We've changed the name and improved the product. It's still the West's most powerful regular. And now it cleans your carburetor continuously. You pay no more for Regular 76 than for other regular gasolines of major quality.

UNION OIL COMPANY OF CALIFORNIA 76

Along Fences and Canals

Don and Wayne Baldwin, Halley, plan to turn 30 acres of sagebrush into potato-producing ground. The land, which is near Silver Creek ranch, will be irrigated by water pumped from the creek. About 40 years ago the land was dry farmed, but in just years it has grown back to sagebrush.

Clyde Baldwin, Halley, ranch foreman at the Double R ranch, has 100 acres of silver creek and base line ranchland plowed and ready to drill.

Red Allen helped brand cows Sunday at Asahel Gridley ranch, east of King Hill. Cattlemen soon will be putting their cattle out on the range.

Mr. and Mrs. Charles Heath and family and Mr. and Mrs. Charles Heath and family, Kellogg, have moved to King Hill. The sons are employed at the H. McCoy Jones ranch on King Hill creek.

Engelbert and Michael Kast have leased the Charles Kast ranch east of King Hill, for the coming year. The ranch is the former Henderson place and is owned by Mr. and Mrs. Charles Kast and their son, Michael.

Cattle belonging to W. W. Knudsen were trailed from the old Black Rock below Glenna Ferry over the week-end to their place, Puck ranch south of King Hill. Riders who trailed the cattle were Mr. Knudsen, Ralph Gluch, Monty Pankhauer, Harry, Mary, Janis and Ann Knudsen and Phyllis Russell, Mountain Home. The cattle have been at the Black Rock for winter feeding.

Wardfield received 30 inches of rain and snow in the period from March 25 to 31. It was welcomed by the farmers for their wheat, hay and pasture as the surface was getting dry. Some farmers reported that their plowed ground was too hard to disk this rain.

W. W. McAttee started plowing on his ranch just south of Halley last week. He was forced to leave the work until the ground thaws. As soon as the ground thaws he will plow the 20-acre plot on this ranch and plant it to wheat and a six-acre field he has at the mouth of the Big Spring gulch. He would like to plant wheat on both places but is afraid he might not have enough water for the six-acre plot. He uses a spraying system on his town ranch.

Mr. and Mrs. Herbie Allred and family have moved to a ranch north of Gooding where they will farm this summer. Mr. and Mrs. John Allred have bought the ranch where the Allred lived for several years and are moving to their new home south of King Hill.

Mr. and Mrs. Kenneth Peck, who have a farm northeast of Pahrump, have sold their dairy cows and milking equipment and will devote their efforts to general farming. They were selling bulk milk to a local dairy.

Mr. and Mrs. LaVerne Baldwin have sold their home in north Halley to Lee and Emory Sumner, formerly Peabody. Baldwin brothers have purchased the Sumner brothers ranch, which adjoins the home and contains about 900 acres. The Sumner brothers will raise and reside in their newly acquired home in Halley.

Everett Humphreys, assisted by his brother, John, is excavating around a farm pond on his place north of Corral in hopes of finding gravel that can be used for cement work. He has sold gravel for roadwork in the past.

Ed Barnes has been removing fences from some of his farm north of Corral. Many farmers in the area have taken out their fences so they can farm right up to their property lines and eliminate the weeds and sagebrush that generally grows along the fence-rows.

Improved Farm Safety Needed, Says Engineer

BOISE, April 5 (UP)—A luncheon speaker told concluding sessions of an eight-state annual Western reclamation conference here that drownings were up 12 per cent nationally last year.

Donald E. Worsen, Boise, regional safety engineer for the U.S. reclamation bureau and a member of the National Safety Council, said that drownings in the 10 western states covered by the western reclamation conference.

But, on the brighter side, he said interest in water safety is increasing. More than 85 per cent signed up for water safety sessions at the last Idaho 4-H club congress in Moscow, he said. Other steps also are being taken, he said, calling attention to operation of waterways, a cooperative plan between the reclamation bureau and the Red Cross to inform and educate the cooperation of the public in prevention of drownings in canals and reservoirs of western reclamation projects.

He said that state farm safety councils also could help make rural residents aware of necessary practices to guarantee safety in, on and around the water. He said all farm youngsters should learn to swim.

"I am aware that this is a weak link in the many Red Cross swim classes held each year," he said. "The city youngsters have much easier access to these classes than those in rural areas. I have attended many 4-H club swim camps but that does not get us the big majority."

During a panel discussion, Richard Daley, Boise, assistant safety director for Morrison-Knudsen company and a director of the Idaho Safety Council, said western 90 and 98 per cent of all drownings could have been avoided. He said that we are going to run into restrictive national legislation "if we don't operate safely in a free society."

Others on the panel included Capt. Clark Hand of the Idaho state police, Emil Jerome, Kuna, state Orange master; L. B. O. Kuna, state Orange master; L. B. Martin, Caldwell.

HEADING THE NEW Western Bean Cutworm Control Agency is J. R. Douglass, left, retired former senior entomologist of the U.S. department of agriculture. He is shown conferring with Charles Reeder, center, operator of the Reeder Flying Service, Twin Falls, and Kenneth Orving, operator of the Buhl-Fly-

J.R. Douglass Named to Head New Cutworm Control Agency for Area

BY O. A. (GUS) KELKER
Times-News Farm Editor

J. R. Douglass, retired senior entomologist of the U. S. department of agriculture, will spearhead a concentrated drive to control western bean cutworm in this area, the Times-News was informed Friday.

It is known as the Western Bean Cutworm Control Agency, the unit has administrative control and the cost of application of chemicals will be borne by the bean growers. Douglass said the "man who wrote the book" having to do with control of the menace to beans. Douglass formerly was stationed with the agricultural research service at the bureau of entomology on Blue Lakes boulevard north.

The area included in the newly organized control district runs from the Snake river to the high line canal and from the town of Hansen to a point three miles west of Piler. The control program will concentrate in this section, but adjacent areas will be serviced on request.

Part of the new setup is to get the growers and the applicators together in a concentrated effort. Last year, records show, was the worst damage year of several past years.

Lost to commercial and garden seed beans ranged from negligible to a high of 25 per cent of the crop. In the principal area, alone the loss to the growers amounted to a conservative \$100,000.

"Now the central control agency is available to successfully promote the fight against the cutworm," Douglass said. He continued: "The most effective control is a united effort. Since the infestation has but one generation it is easier to curb than are insects with multiple generations."

"In changing the host plant from ground cherry and nightshade to beans, the worm has found a crop that was much to its liking. The development of this cutworm and of the bean plant is such that the worms feed maturely about the time the beans are being harvested."

By agreement, Douglass announced, the Reeder Flying Service of Twin Falls and the Buhl-Flying Service will be available for dusting by air at a cost of \$4 an acre. This dusting must, the new official said, be done correctly and carefully.

"Shortly after the pods begin to set," Douglass said, "observations should be made where the bean foliage is the heaviest to see if the young worms are there."

He warned, though, that spraying should be done at a specified time even if no worms are noted. This is important, he said, because the untiring eye will have difficulty in finding the worms. Time for spraying will be announced by Douglass well in advance so arrangements can be made by the growers and flying services.

Because of the speed necessary in spraying at a given time, it was pointed out that spraying by air is practically a necessity to get the job done while such effort will work.

The western bean cutworm is probably a native of North America. It was described in 1881 from moths collected in Arizona. So far as this general area is concerned, during the fall of 1949 a few worms obtained from the gravely machines in a bean warehouse at Kimberly were identified as cutworms. During September, 1949, cutworms were collected from beneath windows of beans in the Rupert area. This type of bean injury had been noted in that area for at

least four years prior to the identification.

By date the time for dusting is between Aug. 5 and Sept. 10.

Douglass points out that young worms are easier to control than large ones. They move around over the plants and come in contact with the dust more readily than the older worms. If the insects are not controlled before they start feeding, chewed beans can be expected at harvest time.

"Because of this, the timing of the dusting is just as important as the material used," Douglass said.

Douglass will establish headquarters in Twin Falls in the near future. It is planned to notify every grower of beans in the area of the availability of the control setup.

Douglass is an authority in the insect field. He investigated bean insects for the U. S. department of agriculture from 1921 to 1937. He worked on insects in the Southwest, Southwest, Central states and in the West during that time. He is the author of numerous technical papers and bulletins dealing with the life history, habits and control.

Douglass will establish headquarters in Twin Falls in the near future. It is planned to notify every grower of beans in the area of the availability of the control setup.

Gem Cattlemen's Group Sets Bull Sale Dates

BOISE, April 5—Idaho Cattlemen's association bull sale committee chairman Colin McLeod, Jr., Caldwell, announced the Idaho Cattlemen's association has scheduled three Fall Range Bull sales.

The dates are set for Filer, on Oct. 26; Blackfoot, Nov. 11, and Caldwell, Nov. 23.

McLeod stated the State Cattlemen's association has been conducting the sales for nearly 25 years and they have proved a tremendous value to the cattle industry of Idaho. The quality of the bulls has improved greatly and this quality improvement has been passed on to their offspring, consequently, the Idaho feeder cattle are in great demand by feeders all over the United States.

The Hereford, Shorthorn and Aberdeen Angus bulls that are consigned to the sales are graded by commercial cattlemen and University of Idaho personnel using a system established by the University many years ago. McLeod.

McLeod also said that nearly all of the grading associations in Idaho follow a similar grading pattern of improving the quality of their bulls and cattle.

This Idaho Cattlemen's association Range Bull sales are open to any individual raising purebred beef breed bulls and is not limited entirely to the white-face cattle. The association encourages the Angus and Shorthorn breeders to consign bulls because there is a demand for those breeds of cattle.

Also, he said, it fits in with the general purpose of the association.

Douglass will establish headquarters in Twin Falls in the near future. It is planned to notify every grower of beans in the area of the availability of the control setup.

CHECKING NAME TAG on a sack of foundation grass seed is Glen Whitney, Kimberly, a director of the Twin Falls soil conservation district. Whitney grows about 11 acres of grass seed each year and finds it fits his crop program well. Grass seed is available to cooperators of the district at no charge. (Times-News photo)

Grass Seed Is Available For Farmers

Some additional 20 grass seed acres will be planted this year in the Twin Falls soil conservation district, says Clarence Hedrick, soil conservation service.

The new plantings are in addition to regular grass seed producers. Hedrick said he expects the use of grass to increase considerably during the next few years because of good prices paid for quality grass seed and because of the government's land conservation program.

The plant materials center at Aberdeen furnishes foundation seed stock to the cooperators of the district at no charge. The specification is that the amount must be repaid to the government upon demand.

Hedrick also noted that the Twin Falls soil conservation district has one of the largest grass seed programs in the West, said Hedrick.

Grass seed production requires little capital, and little effort is required to keep the crop growing.

COFFEE DROPS

WASHINGTON, April 5 (AP)—The March estimate by the foreign agricultural service of the 1962-63 world coffee crop places total production at 65.2 million bags, and exportable production at 51.7 bags. This is a reduction of 8.5 per cent from the 1961-62 crop.

Volunteers Erect Barn Speedily at Richfield

RICHFIELD, April 5—The speed of a pioneer-type barn raising marked activity last week-end at the Dougan (Ootoni) Riley ranch when volunteer help erected a modern milking barn and loading shed with about 12 hours of labor involved.

Modern equipment, with a corrugated iron roof and cement floor, poured earlier, assisted 17 men working Saturday and 11 Sunday workers.

Edwin Johnson served as supervisor for the project and Charles Maestas donated his cement mixer and helped with that part of the project.

The overall structure is 90 by 18 feet with a 25-foot milking barn. Riley's brother, Ralph Riley, Jr., Bruce Sorenson and Johnson assisted with frame work on Friday to make the job as speedy as possible.

All work was finished in seven hours Saturday, except for the roof and inside insulation finishing, requiring about five hours. Four men from other towns assisted Richfield men at the job.

MODEST GAINS

WASHINGTON, April 5 (AP)—The agriculture department said cigarette production and consumption in 1963 are expected to show only modest gains over the record 1962 highs.

TWIN FALLS

Windbreak Trees Still Available

Donald Youns, Twin Falls county agent, announces several farmers and ranchers have ordered small trees for establishing wind breaks in Twin Falls County and they will be delivered by truck soon.

However, he said the university nursery supply is still long and additional orders will be taken until April 15 on a first-come first-served basis.

He said original tree orders will be delivered to the county agent's office without charge will require payments of freight would like to order trees for wind-breaks, please call county agent's office.

Orders submitted up to April 12 Any interested individuals who would like to order trees for wind-breaks, please call county agent's office.

JAY STRODE, owner of the Bridge ranch near Jackpot, Nev., is shown with the yearling colt, Al Marah Syrian Shiek, which he recently purchased from the Al Marah stables near Washington, D.C. The young colt, already named reserve junior champion, has a blood line of famous imported Arabians.

Yearling Arabian Stallion "Takes Over" Bridge Ranch Near Jackpot

JACKPOT, April 5 — Newest addition to the Bridge ranch at Jackpot is Al Marah Syrian Shiek, a purebred Arabian stallion the owners, Mr. and Mrs. Jay Strode, recently purchased from the Al Marah Arabian ranch near Washington, D.C.

The yearling stallion already is a winner, having received first place last October over a class of 18 suckling colts at the Washington International Horse show, and also having received reserve junior champion ribbon at that same show.

The Al Marah Arabian ranch is the largest breeder of Arabian horses in the United States. Owned by Bay Tashkery, it is a show place of fine horses and has produced many champions, Strode says.

Shiek's mother is Silves, an imported Arabian mare from England. His sire is Al Marah Redames and the Arabian National champion Radamason is a half brother.

Al Marah Syrian Shiek is a rose-gray, a color much prized by Arabian breeders but one that is rather unusual in the West and to those unaccustomed to that color among Arabians, he seems an oddity.

Mrs. Strode states that the cowboys in the ranch area enjoy commenting about the "purple horse with the red tail." However, his size, depth of body, short back and beautiful head have won the admiration of everyone that sees him.

The young colt has quickly taken over as ruler of the Bridge ranch. The Strodes report he is afraid of nothing, and on his first day here he walked up and ran his nose over a deer hide nailed to the barn. A scurf blowing in the wind, which would have frightened a much older and more experienced horse, was to him merely something on which to chew.

In his home base in Maryland, the Arabian colt was evidently used to irrigation ditches, as his new owners report the first time he came to a foot-and-ditch, he came to a full stop, then tried to cross the ditch but couldn't make it and fell squarely into it.

Since then he has learned irrigation ditches can be jumped, but he still regards them with a wary eye.

The Strodes have been raising Arabian horses for a number of years and have many fine horses—both purebred and part Arabian. Their first purebred Arabian was the famous stallion, Shark. They have won many ribbons and trophies at horse shows and fairs with their horses.

Arabians, besides being noted for their beauty and even dispositions, are useful working horses. They make exceptional cattle horses and never seem to tire from a long day's work in the roundups. Many of their horses also have become outstanding horses for children to ride as they are both gentle and dependable.

Mr. and Mrs. Strode are assisted by their son, Downey, and daughter, Tamara, in raising and caring for the horses. The Bridge ranch, which is located one mile southeast of Jackpot, Nev., welcomes visitors at all times.

Freeborn had six cows with high butterfat records, No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Conservation Agreement Is Negotiated

WASHINGTON, April 5 — Secretary of agriculture Orville L. Freeman and defense secretary Robert S. McNamara have signed an agreement for their departments to work together for conservation of forest, soil and water resources administered by the defense department.

Under the agreement, officials in charge of military installations, reservoir projects and other defense department facilities can obtain from the agriculture department the technical assistance, advice and special research needed in determining the suitability of soils for special uses and in applying conservation measures to their lands.

Such assistance will include plans for building up soil, forest and water resources; protecting forests from fire, insects and diseases; and using their lands in such a way as to insure a continuing supply of the resources on them.

Mr. and Mrs. Strode are assisted by their son, Downey, and daughter, Tamara, in raising and caring for the horses. The Bridge ranch, which is located one mile southeast of Jackpot, Nev., welcomes visitors at all times.

Freeborn had six cows with high butterfat records, No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Freeborn had six cows with high butterfat records, No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

1963 Lincoln Area Farms Signed to Divert Acreage

KEOSAUKEE, April 5 — Farm operators in Lincoln county have signed up 192 farms to take part in the 1963 wheat stabilization program. Cropland slated for diversion from wheat production to conserving uses totals 2,468 acres.

Possible advance payments under provisions permitting about half of the diversion payment to be made at sign-up time come to \$4,258. Of this \$4,258 has been issued to participating farmers.

Farmers participating in the 1963 wheat program will be eligible for wheat price support at \$2 per bushel, national average. Of this, 18 cents per bushel will be an in-kind payment based on the normal production of the farm's 1963 wheat acreage. The remaining \$1.82 per-bushel support will be available through loans and purchase agreements.

Farmers in Lincoln county also signed up 62 farms to participate in the 1963 feed grain program. The intentions of the farmers are to divert 87 acres from the production of corn, grain sorghum and barley.

For farms signed up, estimated total payments for diverting acreage amount to \$22,850, not including price-support payments to be made this fall.

According to James Tate, Lincoln county agriculture stabilization and conservation officer, the 1961 and 1962 feed grain programs have brought about a reversal of a 10-year buildup in feed grain surplus. By Oct. 1 of this year, estimated total feed grain stocks of 61 million tons will be down about 28 percent from the record 84.7 million tons on Oct. 1, 1961. Continued participation around levels of the past two years should bring feed grain stocks near desirable reserve levels by Oct. 1, 1964, Tate said.

In a laboratory test last year, an engineer ran a regular flail chopper over some weevil-infested squares and found that no more than one per cent of the weevils in the chopped material survived.

The machine has several flails that rotate at 1,800 revolutions per minute, creating a suction similar to that of a vacuum cleaner. This suction lifts the weevil-infested squares from the ground into the flails, where they are beaten to a pulp and blown back onto the ground.

An agricultural research service engineer built the test machine at the boll weevil research laboratory.

Under the agreement, officials in charge of military installations, reservoir projects and other defense department facilities can obtain from the agriculture department the technical assistance, advice and special research needed in determining the suitability of soils for special uses and in applying conservation measures to their lands.

Such assistance will include plans for building up soil, forest and water resources; protecting forests from fire, insects and diseases; and using their lands in such a way as to insure a continuing supply of the resources on them.

United States Counties Move Toward Modified Brucellosis Free Sections

WASHINGTON, March 29 — The agriculture department has achieved a brucellosis free status for four out of five counties in the United States are modified certified-brucellosis areas.

This is a record-high achievement in the state-federal effort to eradicate brucellosis, which costs livestock producers about \$2 million dollars a year.

Counties are granted a modified certified status when the disease has been reduced to less than one per cent of the cattle and not more than five per cent of the herd. Of the 2,359 certified counties, 146 have gone on to eradicate the disease and

blood tested. Of these, 10 counties have been validated brucellosis-free. This new state-federal effort against twice brucellosis will embrace all California counties by June 30, 1963.

In eradicating brucellosis from cattle last year, five additional states were certified. These were Arkansas, California, Missouri, South Carolina and Virginia.

Presently, there are 21 states, Puerto Rico and the Virgin Islands that are certified. For the first time in the history of brucellosis eradication, the western range country has qualified some areas as brucellosis-free. Utah has nine free counties, Idaho one and other western states are moving in the same direction.

1963 Lincoln Area Farms Signed to Divert Acreage

KEOSAUKEE, April 5 — Farm operators in Lincoln county have signed up 192 farms to take part in the 1963 wheat stabilization program. Cropland slated for diversion from wheat production to conserving uses totals 2,468 acres.

Possible advance payments under provisions permitting about half of the diversion payment to be made at sign-up time come to \$4,258. Of this \$4,258 has been issued to participating farmers.

Farmers participating in the 1963 wheat program will be eligible for wheat price support at \$2 per bushel, national average. Of this, 18 cents per bushel will be an in-kind payment based on the normal production of the farm's 1963 wheat acreage. The remaining \$1.82 per-bushel support will be available through loans and purchase agreements.

Farmers in Lincoln county also signed up 62 farms to participate in the 1963 feed grain program. The intentions of the farmers are to divert 87 acres from the production of corn, grain sorghum and barley.

For farms signed up, estimated total payments for diverting acreage amount to \$22,850, not including price-support payments to be made this fall.

According to James Tate, Lincoln county agriculture stabilization and conservation officer, the 1961 and 1962 feed grain programs have brought about a reversal of a 10-year buildup in feed grain surplus. By Oct. 1 of this year, estimated total feed grain stocks of 61 million tons will be down about 28 percent from the record 84.7 million tons on Oct. 1, 1961. Continued participation around levels of the past two years should bring feed grain stocks near desirable reserve levels by Oct. 1, 1964, Tate said.

In a laboratory test last year, an engineer ran a regular flail chopper over some weevil-infested squares and found that no more than one per cent of the weevils in the chopped material survived.

The machine has several flails that rotate at 1,800 revolutions per minute, creating a suction similar to that of a vacuum cleaner. This suction lifts the weevil-infested squares from the ground into the flails, where they are beaten to a pulp and blown back onto the ground.

An agricultural research service engineer built the test machine at the boll weevil research laboratory.

Under the agreement, officials in charge of military installations, reservoir projects and other defense department facilities can obtain from the agriculture department the technical assistance, advice and special research needed in determining the suitability of soils for special uses and in applying conservation measures to their lands.

Such assistance will include plans for building up soil, forest and water resources; protecting forests from fire, insects and diseases; and using their lands in such a way as to insure a continuing supply of the resources on them.

Mr. and Mrs. Strode are assisted by their son, Downey, and daughter, Tamara, in raising and caring for the horses. The Bridge ranch, which is located one mile southeast of Jackpot, Nev., welcomes visitors at all times.

Freeborn had six cows with high butterfat records, No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

From Valley Firm Accompanies Team Climbing Mt. Everest

When the 1953 expedition to the lower reaches of the Himalayas was organized by Dr. D. D. Bradshaw and his team, there was an added attraction of something over 10,000 feet of altitude.

But what was the honey? The honey is being taken with them by a team of 18 men making the climb. The honey is being taken with them by a team of 18 men making the climb.

The final five miles, of course, is the most difficult and dangerous part of the climb. The honey is being taken with them by a team of 18 men making the climb.

Supplied in two forms by R. D. Bradshaw and sons, Wendell, the honey demonstrates its worth in advance in a rigorous 10-day preliminary series of tests on the slopes of Washington's 14,400-foot Mt. Rainier.

Dr. B. Bradshaw, his brother Kenneth and his son, D. J. Bradshaw, who are reputed to be the largest producers and packers of honey in the nation, are not accompanying their products on the expedition.

While they remain in the continental United States, however, they will be intensely interested in the progress of a remarkable physical and scientific effort being made in distant Nepal by Norman G. Dyhrhuth and his 11 American associates in this historic venture.

Mr. Everest, which at 29,241 feet is the highest mountain in the world, has been mastered only twice before.

Bradshaw's honey is traveling in the company of an expedition which has impressive backing from American military, civil and scientific sources.

Far from being just a dare-devil mountaineering effort, the bold venture embraces six major fields of scientific research, and is endorsed and supported by financial grants from the office of naval research, the U.S. air force, the office of scientific research, the National Science Foundation, the National Geographic Society, the University of California, and other sources of funds.

Among the studies to be made are those in such fields as human behavior under stress, sociology, physiology, glaciology and solar radiation. Included in the personnel of the expedition are three medical doctors and five Ph.D.s. All the men on the team have had extensive mountaineering experience.

Between them, the team is 34—actual ages ranging from 24 to 54.

Following shipment from Seattle in November of the expedition's equipment and stores, Dyhrhuth and other members of an advance party left on Jan. 1, and the main party on Feb. 3.

Gathering point, on Feb. 20, was almost exactly halfway around the world, Kathmandu, capital of Nepal, is an estimated 10,500 miles from San Francisco by way of Europe, or 10,207 miles by way of Asia. Hopefully, the group will be back in Kathmandu, its difficult mission accomplished, on June 30.

And if the members are at all addicted to being bitten by bugs, another expedition, years later, will find Bradshaw's honey cartons profitably established on the world's highest peaks.

crop still looks good and he will have cherries, but no peaches. From now on the orchard men will be keeping a "weather eye" on the thermometer, to be ready to smudge if necessary.

Small crops are anticipated in most of the United States where onions are grown.

Income opportunities to farm people, and materially strengthen the economy of our rural areas.

Freeman said the benefits farmers and rural areas stand to gain from the tax reduction and reform proposals are so great that the tax bill might, in a sense, be regarded as an item of farm legislation.

Outlook for Fruit Good At Hagerman

HAGERMAN, April 5 — The fruit crop prospect in Hagerman valley looks fairly good except for peaches, according to local orchardists.

Everett (Bud) Jensen said he will have a pear and apple crop and a few apricots, but no peaches.

Fred Leach says he won't have any peaches, but the apricots are in bloom and, so far, look as if they will bear fruit unless a freeze comes soon.

Ralph Mowatt states his peaches were frozen during the cold winter, but he will have apples and cherries if nothing intervenes weatherwise.

John Moore states his apple

PRECIPITATION TANK ON THE Galena snow course is used by Bill Woody, on top of the 16-foot tank, and Ed Omond in their work. The tank measured 2.8 inches of precipitation which was gathered the past 15 days. Two gallons of calcium chloride and water with an all base is placed in the tank to recharge it. The tank catches water and the oil on top keeps it from evaporating. Twenty-two inches of precipitation can be measured in the tank, which was installed in September, 1961. (Times-News photo)

Snow Survey in Sawtooth Mountains Is Performed by Blaine Soil Unit

HAILEY, April 5—The task of surveying snow in the rugged mountain country north of here falls on the shoulders of William Woody, Blaine soil conservation district. Woody travels the courses on the high mountain ridges of both the Big and Little Wood river drainages during the winter months.

Sometimes he runs the courses every two weeks, but usually they are covered once a month.

Woody reported the last run over the courses was done with heavy wet snow falling. He was accompanied by Ed Omond, assistant ranger, Sawtooth Valley district.

Measurements taken at the soil and moisture station at the Galena summit course showed soil frozen to 18 inches, with a 70 per cent moisture deficiency at 10 inches. Temperature at the six inch depth was 27 degrees and at 18 inches it was 23 degrees.

At the Horse Creek course the soil temperature at 15 inches was 27 degrees and there was a 40 degree moisture deficiency at this point.

Average snow depth at the Galena summit course was 71.9 inches, with 19.4 inches water content. On April 1, 1962 the depth was 73 inches, with 21.2 inches water content. The 15-year average water content is 23.2 inches.

On the Horse Creek course the snow depth was 227 inches with 14.2 inches of water content. In 1962 the snow depth was 60 inches with 19.2 inches of water content. The 15-year average here is 20.2 inches.

Woody explains the Horse Creek course is now designated by the soil conservation service as the Galena course, as is only about two miles from Galena. The course has been referred to as the Horse Creek course since the time the snow course was first put in.

Dollarhide summit measurements for April 1 were 49.3 inches of snow depth with 18.8 inches of water content. Against 73 inches of snow depth in 1962, with 25.5 inches of water content. The 15-year average here is 30.1 inches of water content.

At Graham's ranch the snow depth was 24.3 inches of snow with 7.2 inches of water content. In 1962 this course showed 46 inches of snow with 13.3 inches of water. The 15-year average of water content here is 14 inches.

At the Macon Mine course April 1 measurements showed 30.5 inches of snow with 9.6 inches of water content against 31 inches of snow in 1962 with 15.8 inches of water content. The 15-year average here is 17 inches of water content.

On Baldy Mountain course there was 30.5 inches of snow April 1, with 11.3 inches of water content. In 1962 there was 67 inches of snow with 21.3 inches water content. The 15-year average shows 22.7 inches of water content.

The Garfield Rancher station course shows 17.4 inches of snow with 8.3 inches of water content against 38 inches of snow in 1962 with 10.9 inches of water. The 15-year average is 10.8 inches.

At the Muldoon course there was 18.9 inches of snow with 4.9 inches of water. In 1962 there was 22 inches of snow with eight inches of water. The 15-year average is 7.3 inches of water content.

At Swede Peak there was 43 inches of water with 12.3 inches of water content against 62 inches in 1962 with 19.5 inches of water content.

Here only a five-year average is obtainable and it is 14.4 inches.

No New Legislation Will Be Enacted If Wheat Ballot Fails Says Kennedy

WASHINGTON, April 5—President Kennedy said it is clear that congress in authorizing the 1964 wheat program last fall did not intend to approve new legislation this year in the event farmers turn down the proposed program.

Kennedy said that no new wheat legislation is needed this year.

Kennedy repeated his view on the 1964 wheat program in a letter to M. W. Thatcher, president, National Federation of Grain Cooperatives, St. Paul, of water content.

Measurements at Porcupine, Iron Mine creek and the Teller ranch will not be taken until the end of the week, due to the fact that the "Sno-Ball," in which Woody travels, is being repaired.

"This is a straight economic issue. It was presented to congress as an economic issue of importance to the farmer, consumer and taxpayer, and the congress acted upon it at once. It is a continuing program, and whatever the result of this referendum another referendum will be held next year for the 1965 crop.

"There has been some speculation recently that the congress might consider new wheat legislation this year if the referendum is not approved. Had the congress intended new legislation to be considered as an alternative to wheat marketing quotas, I believe it would have so provided. Instead, congress provided a stop-gap program of 50 per cent of parity (\$1.25 a bushel wheat) for those who elect to observe allotments.

If the referendum should fail in 1963, it also provided an opportunity for the wheat farmer to vote again in 1964 after he had a chance to see what happened under the stop-gap program.

"In the interim, then, that no new wheat legislation was intended or needed this year.

Kennedy used agriculture department figures to show total income from wheat production in the west for the year 1962. He said that wheat farmers there received a total of \$1.2 billion in income from wheat sales, but that their income was cut in half by the government's price support program.

WALKER INTO a sample jar of soil is John Pastore, Salmon tract farmer. Jack Walker, agricultural field testing of soil for moisture content at the annual water forecast meeting. Walker's field engineer for the soil conservation service. Many crops can be grown on water less previously thought, said Walker. (Times-News photo)

Soil Engineer Explains Field Moisture Tests

A handful of dirt properly squeezed handful of dirt and soil can tell the farmer some knowledge of soils and crops. Jack Walker, field engineer for the soil conservation service, said. Walker, (Times-News photo)

slight moisture outline is left on the farmer's hand, then there is adequate moisture for crops to grow. If a ball of dirt forms with some difficulty and will break under pressure, there is still about 50 per cent moisture in the soil, sufficient to grow most crops and still move nutrients from the soil into the roots. However, at 50 per cent moisture, irrigation will be needed soon and the farmer should keep a close eye on the field. It is possible to grow sugar beets when the field moisture is at 30 per cent. Sugar beets have been grown under supervised

tests with only 30 per cent moisture, said Walker. This is contrary to most beliefs and practices, Walker noted. The difference in yield between sugar beets grown at a higher moisture content and those grown at 30 per cent moisture are little, Walker noted.

Potatoes are the prime exception to the rule that most crops are over-irrigated. Potatoes need water and often, said Walker. Many crops however could grow just as well on less water, he added.

Along these same lines Walker also pointed out there are preferred times of the year to irrigate. Some crops will do better if they are irrigated at the beginning of the season than at the end of the season. Other crops do better if they receive more water at the end of the season.

Walker indicated many farmers planting crops on land that will be so short water supply this year could get just as good yields if they irrigate properly and at the right time. The key is to know if there is more than 50 per cent moisture in the soil, or less than 50 per cent moisture.

It also was pointed out at the annual water forecast meeting that special schools on irrigation have been set up for the county agent.

Information concerning field tests to determine moisture content in the soil can be obtained from the soil conservation service or the county agent.

Walker concluded his demonstrations at the annual water forecast meeting by calling for greater use of conservation practices in irrigation.

LIKES CHEESE

CHICAGO, April 5—The average American likes American cheese better than ever. He ate 5.5 pounds of it during 1961, an all-time high. He also ate plenty of other kinds of cheese, totaling 8.5 pounds in all varieties for the year.

Americans Consuming More Fats

WASHINGTON, April 5—American consumers may not be aware that they are eating more fats today than ever, an average of more than 117 pounds per person per year compared with 108 pounds in 1953-59, points out the New York State extension service.

There has been no change in the consumption of saturated fats, it is stated. The drop in butter and lard use has been offset by increased eating of other saturated-fat foods, chiefly beef. And there has been an increase of about 15 per cent in the use of unsaturated fats. Total dietary fat is made up of

visible fats and oils and so-called invisible fats, the agency notes. The total increase in dietary fat consumption is accounted for by more invisible fats. These have jumped from an average of 63 pounds per person in 1953-59 to about 72 pounds in recent years, due to a heavier diet of meat, poultry and fish.

Money that stands up to be counted

A lot of Communist eyes are watching the financial strength of our government—and of our people like hawks. That's because their leaders have said they would "bury us" economically—and they're waiting for it to happen.

It must be a continuing disappointment to them that, year after year, U.S. savers put or leave so much of their savings in the hands of our government, in U.S. Savings Bonds.

This stake that Savings Bond

owners now have in the strength of our country is more than \$45 billion—an all-time high.

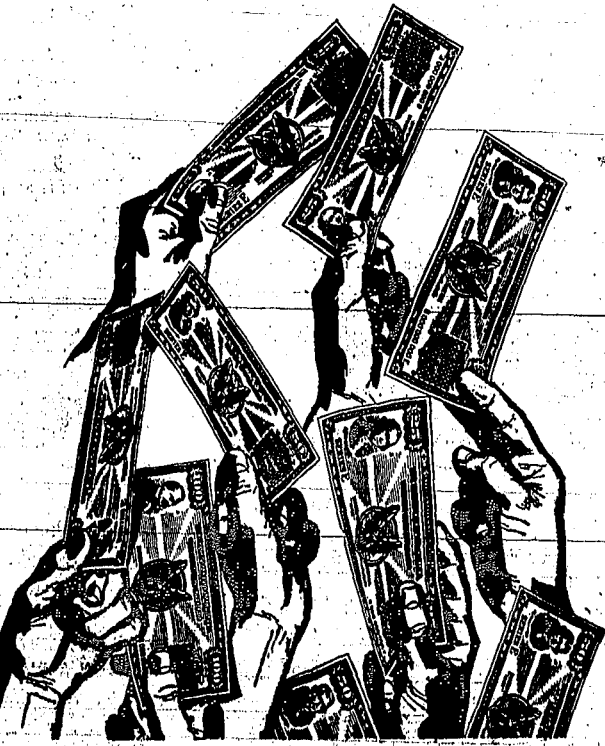

And because savers can get their money back, with accumulated interest, when they need it, that's financial strength for millions of U.S. savers and their families.

Your dollars in Savings Bonds do stand up to be counted—by freedom's friends and foes alike—as a measure of the strength of our country and our people.

Help keep yourself and your country strong by regular buying of U.S. Savings Bonds, through the Payroll Savings Plan where you work, or from your bank.

Quick facts about U.S. SAVINGS BONDS
• You get \$4 back for every \$3 when your Bond matures • Your Bonds are replaced free if lost, or destroyed • You can get your money anytime • You can save automatically on Payroll Savings.

Keep freedom in your future with **U.S. SAVINGS BONDS**

HENRY'S FARM SALES

FOR FAST SERVICE ON TOP-QUALITY BULK FERTILIZER

When planning your fertilizer program, remember—we can save you time and effort! Let us fill your fertilizer needs fast, with our top-quality bulk.
