

Walker Says Law Boosts Idaho Demos

POCATELLO, April 22 (UP)—Democratic chairman Walker told a Pocatello night rally Saturday night that the law will greatly strengthen the party in Idaho.

Walker was addressing a 375-member crowd which was also held by the Pocatello state legislature.

He told the 400 in attendance that because of this pre-primary election law, we will now have a democratic party in Idaho.

Most committees now have a function. The ability of any group to get on a ticket without a union support is highly undemocratic.

Walker, Twin Falls, indicated that the party better get over who their candidates are in the last two gubernatorial elections, now generally opposed by the party hierarchy have required the Democrat nomination.

"We have a party now," Walker said. "This legislature did it for us. They looked Gov. Robert L. Egan in the eye and demanded it."

He said the 1953 session was the most successful legislature ever, and that Democrats were highly responsible.

"There is no question that Republican McDevitt drove the majority," he said, "but he controlled the house in this session. McDevitt is a hawkeye county representative."

McDevitt also addressed the rally, describing Egan as "the pretender, whose only reason for election was that he was slightly unpopular than casino gambling."

He wondered "what would have occurred if he had been making against the bubonic plague," said McDevitt.

"Some have wondered if Egan would have been able to celebrate the territorial centennial or remember what it was like 100 years ago," he said.

Jordan Blasts Spud Process Plant Financing

WASHINGTON, April 22 (UP)—The area redevelopment administration has been criticized for offering to finance potato processing plants in Maine, Maryland, Minnesota and Wisconsin.

Sen. Len B. Jordan, R., Idaho, in a letter Saturday to ARA administrator William L. Batt, Jr., said Idaho potato growers were "very greatly concerned with the possibility" of the financial aid.

Jordan said the Idaho frozen potato industry already produces more than what the industry can sell.

"This is causing a build-up in inventories, encouraging sales at low-profit margins and curtailment of employment at established plants," Jordan said.

He said for the ARA to subsidize potato plants elsewhere would risk a serious employment problem in Idaho.

Church Says U. S. Should Decrease Aid

WASHINGTON, April 22 (AP)—The Frank Church, D. Idaho, said today the United States should halt military aid to Japan. Church, in a speech prepared for delivery to the senate, said he would introduce an amendment to this year's foreign aid bill to bar further economic or military grants to self-supporting countries. He said that amendment would apply to Japan.

Today, Japan enjoys the fastest rate of economic growth of any of the great industrial powers. Church, a member of the foreign relations committee, said "I say this not in criticism but in praise of the Japanese."

He said that from July 1, 1953 through June 30, 1962, the United States provided Japan with more than 757 million dollars in grants for military supplies and equipment.

This represents approximately 185 per cent of the total cost during the nine-year period, to the Japanese government for maintaining her defense forces.

He said that during the same period, the United States spent 103 per cent of its gross national product on its armed forces while Japan spent only 1.4 per cent.

Nomination Of Erhard Is Battled

BONN, April 22 (AP)—Chancellor Konrad Adenauer put his reputation on the line today in an effort to prevent the nomination of Economics Minister Ludwig Erhard as his successor.

Adenauer, 87, is due to retire in six months.

He planned to meet with the parliamentary executive of his Christian Democratic party to debate the Erhard issue.

Adenauer never before has had to place so much at stake in order to back his own view.

Many Christian Democrats, including party leaders in the provinces as well as those in Bonn, want Erhard named at once as official successor.

They see in Erhard the only man the party has capable of stopping the current trend in West Germany toward the opposition Socialists, who have made significant gains in several state elections recently.

Erhard's popularity appeared strong in public opinion polls. Last week 51 per cent of those questioned in a poll favored him as the best chancellor. Runner up, foreign minister Gerhard Schroeder got only 18 per cent.

Adenauer does not want a successor to be selected until age of two weeks before he retires. He thinks naming a man now would undermine his authority in face of events here in June and July of President Kennedy and President Charles de Gaulle.

Schroeder, it was learned, has put his support behind Adenauer, but the reasons were not immediately clear. Schroeder is believed to favor Erhard as a temporary chancellor until the next general elections in 1965, when he would like to take over himself.

R. Kennedy. Wants Unity Among Rebels

WASHINGTON, April 22 (AP)—Gen. Robert F. Kennedy today called for a united front among Cuban rebels to get together so they could get the government to get out of the country.

The attorney general yesterday said on a television program that the Cuban government is "the most important thing that could be accomplished" in coping with the Cuban situation.

He also joined with his brother, President Kennedy, in denying that the chief executive ever said that the United States would launch a second invasion of Cuba.

Turning to domestic critics of the administration's Cuban policy, Kennedy said persons who talk about the number of Soviet troops in Cuba without offering proof of their statements do "a disservice to the United States and make the President's position more difficult."

Sen. Edmund B. Keating, R., N.Y., frequently has spoken out against the Cuban issue. Recently he said there still are 17,000 Soviet personnel on the island, the number that were there at the time of the October missile crisis.

YOUR BIRTHDAY and HOROSCOPE

MONDAY, APRIL 22 — Born today, you have an unusual ability to harness language to your service. Able to call up real and imaginary incidents and characters, gifted with wit, memory, and a flair for stating old ideas in brand new ways, you will probably find all manner of speaking and writing to your liking. Better than that, however, others no doubt will like whatever you have to write of or say — and the way you write or say it!

You are a dramatist at heart, for you see the stage side of everything. Very little ever escapes your attention, much less your gaze. You are able to take in any number of things at once, and, more, to make strong, logical connections between them. For this reason, it is difficult for others to hide their "true selves" from you — a state of affairs both good and bad.

Despite all this, you are easily influenced by your friends and must take care therefore to choose them with care. Because your marriage partner will influence you most of all, you must be especially careful in choosing a mate. Above all, choose one who is intelligent enough to understand you.

Among those who were born on this date are: Yeludi Meluh, violinist; Vladimir Nabokov, author; Henry Fielding, English author; Ellen Glasgow, American author.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

TAURUS (April 21-May 21) — Begin to act in accordance with your own personal aims and desires. Let the worthwhile things you want come first.

GEMINI (May 22-June 21) — You may expect to surpass others in routine affairs, so stick to these for the time being. Avoid the unusual.

CANCER (June 22-July 23) — Today's greatest success lies in your dealings with others. Let them be entirely friendly, however.

LEO (July 24-Aug. 23) — Live by your strictest principles these days. You can ill afford trouble even that you ask for!

DON'T YOU READ BEFORE YOU BUY?

Most people do. They count on advertising in print to give them the information they want on products that interest them—in information on features, designs... and prices, for example. People not only read about products and services, they show ads to their family and friends; they clip coupons for information and samples; they tear out ads to take along when they go shopping.

People read an ad because they want to (it's never forced on them). They can even check back later; the message is still there. When you add it all up, print advertising—the kind you read in the pages of this newspaper—makes sense. And because it measures up to the buying habits of consumers, print makes sales.

Most people read and then buy. Don't you?

Food for Americans

By GAYNOR MADDOX

Even famous sub-tent choir boys enjoy barbecued franks. George Bragg, music director of the choir, says that the choir which has sung for Pope John at St. Peter's in London's Westminster Abbey and in many other historic places throughout the world, has taught the boys not only how to sing, but also how to whip up easy cowboy and southwestern dishes at their home town of Fort Worth, Tex.

He says the boys are particularly fond of these dishes:

BARBECUED FRANKS, RANCH-STYLE
1½ pounds frank franks
½ cup catsup
2 tablespoons steak sauce
2 tablespoons vinegar
1 tablespoon brown sugar
2 teaspoons salt
¼ teaspoon pepper
1 teaspoon paprika
1 tablespoon flour
2 tablespoons water
6 frankfurter rolls
Light oven set 350 degrees (moderate). Have ready a medium-size casserole with cover. Prick each frank with a fork in several places. Place franks in casserole.

Place all other ingredients in medium-sized mixing bowl and mix together. Pour this mixture over the franks in casserole. Cover the casserole, place on middle shelf of oven and allow to bake for one hour. Serve franks hot between halves of rolls.

CUBA DUMPS U.S. IN PAN-AM BASEBALL

American Weight Men, Swimmers Show Off Power

SAO PAULO, Brazil, April 22 (AP)—Communist Cuba's baseball team, which was beaten by Premier Fidel Castro in its last outing, humiliated the United States 13-1 Sunday in the fourth Pan American games. The Cubans cracked 15 hits against a flock of U.S. pitchers in a game before about 8,000 fans in dusty Bom Retiro stadium. Pedro Chavez drove in seven runs on two homers, one with the bases loaded, and Urbano Gonzalez had two singles, two doubles and a triple.

The team's last action was an inter-squad game in Cuba in which Castro pitched nine innings and gave up seven runs for the winners in a 7-2 game.

U.S. Coach Archie Allen of Springfield College called the Cubans "head and shoulders above everything I've seen. They've got four boys in there that look just too good to be amateurs."

"The players were polite as can be diplomats, but one incident occurred."

Mario Ballesti, a Cuban staffer from Boston, was stationed in the de Janeiro, said his camera was smashed by an angry Brazilian fan. Ballesti said he was returning to Rio de Janeiro.

Observers, the guests went about according to schedule with the Americans leading an assault on swimming records and games.

Final Bell Lifts Johansson From Canvas, Into Victory Over London

STOCKHOLM, April 22 (AP)—Unranked London was a setback for Johansson in his determined bid to get back into the big fights.

London, angered by the decision of British and European boxing authorities not to sanction the fight here as a title bout, boosted his standing considerably. He was the first British fighter to knock Johansson down.

London kept coming on doggedly, and then to the surprise of a crowd jeering his local hero, he took the initiative with a strong spurt in the final round. As everybody waited for Lingo to come in for the kill, the Briton moved in furiously and shook Johansson with several punishing attacks before letting loose the final barrage that felled the Swede in the last minute.

London looked grimly disappointed when the bell sounded and ended any chance of a knockout upset over the former world champion.

Lakers Thump Celtics to Keep Meager NBA Title Hopes Alive

BOSTON, April 22 (AP)—"We're still very much alive." Those words came from a very happy man—Los Angeles Lakers Coach Fred Schaus—but they had an ominous tone, Schaus was happy, all right, but he was already looking ahead to Wednesday night when the Lakers entertain the Boston Celtics at Los Angeles in the final game of the National Basketball Association championship series.

"We've got to win one here in Boston and we did it," Schaus said. "Now we've got the victory and we're still in this thing."

The victory was even more timely considering that the Lakers had lost 12 consecutive road games going back to Feb. 12 of this year.

The Celtics, thwarted at a fifth straight title, still lead—three games to two—in the best-of-seven series. The seventh game, if needed, is scheduled for Boston Saturday night.

"We won't need it," growled Celtics Coach Red Auerbach in a comical-like Boston, dressing room after Sunday night's game. "We're going to win this."

After the game, the Celtics met at Boston Garden as fans accustomed to seeing Boston clutch encounters, tried to take out their frustration on Elgin Baylor and Mendenhall.

One spectator was arrested for attempting to get at Powers just in the game and then assaulting a policeman. Several other fans tried to charge the officials as they left the court after the game but were held off by police.

Steel softened off on profit-taking after another 3 1/2 percent jump in last week's production and also-optimism by most steel men that their base price increase will hold no matter how sharply demand slumps this year.

Chemicals were narrowly mixed. Chrysler gained nearly 1/2 among the auto on news it planned to build another 100,000 cars in one of its plants to meet demand.

Drugs were mixed. Abbott Laboratories, Parke-Davis, Merck and Sterling rose a point or more, but Schering and Richardson-Merrell were down. Electronic Industries, the other, was up. Chance Noted For Freezing Temperature

U.S. department of commerce weather bureau officials in Twin Falls announced the possibility of a sub-freezing temperature in the valley through Saturday.

The bureau listed Hill City at 30 degrees below zero, and below temperature at 20 degrees below zero.

Gooding, Hill City and Shoshone show 100 per cent chance of getting a 32 degree or lower temperature after April 20.

The bureau reported that by April 18 there is a 25 per cent chance for a 28 degree or lower temperature, except for Hill City, which has a 50 per cent chance.

A temperature of 32 degrees or below stands a 50 per cent chance of occurring in all towns except Hill City.

Forecasters are based on data obtained from approximately 30 years of records for each station. They are not complete forecasts, but do provide information for long-range planning.

Trailer House Burns on Ranch

SHOSHONE, April 22—A 30-foot trailer house belonging to Mr. and Mrs. Bert Henderson was destroyed by a fire which started from electrical wires beneath the trailer Thursday afternoon.

The fire broke out at the Charles Pendleton farm, and Mrs. Pendleton noticed smoke coming out from beneath the trailer house.

Mrs. Pendleton ran to the field and notified her husband and they and their hired man moved the trailer out into the yard so the machine shed, next to which it was parked, wouldn't catch fire.

The fire department came, but the trailer was too far gone to save. There was insurance coverage.
