

One Man Killed In Race Riot, Negroes Arrested

LEXINGTON, N. C., June 7 (AP)—Seven young Negroes were arrested here today on open charges in the aftermath of a race riot Thursday night that left one white man dead and a newspaper photographer wounded by gunfire. Lexington city officials went into conference to make plans to check any similar outbreaks of violence in this racially tense furniture manufacturing town of 18,000 in Piedmont, North Carolina. Police gave this rundown of the youths arrested: Charles Poole, 16; Robert Neal Hairston, 16; Sonny Calhoun, 17; Larry Wayne Winston, 16; William Chester Johnson, 18; Joe Poole, 18; and Roosevelt Smith, 23, all of Lexington.

Officers said that Hairston had a makeshift "zip gun" in his possession when arrested. Winston, officers said, had a rifle loaded with live ammunition and Johnson was carrying a .22 caliber pistol. The youths were arrested on one side of a street bordering the Negro section of the city of 18,000. About 100 Negroes assembled on the other side of the street. Police said the two groups threw rocks, bottles and sticks at each other. Some of the bottles broke on the ground.

A mob of about 2,000 white men gathered on one side of a street bordering the Negro section of the city of 18,000. About 100 Negroes assembled on the other side of the street. Police said the two groups threw rocks, bottles and sticks at each other. Some of the bottles broke on the ground.

Vital Role of News Stressed at Parley

SUN VALLEY, June 7—A former member of the National Board of Directors told the Utah-Idaho-Spokane Associated Press Members association today it must strive to help keep the AP "the most truthful and objective news report that is conveyed."

William H. Cowles, publisher of the Spokesman-Review, Spokane, Wash., said an accurate and objective news report is essential for a world threatened at times by nuclear war. "In this disturbed world, with atomic destruction poised and waiting only for the press to trigger it," he said, "the news must be the peace which can come only from an untrammeled news report."

He is the concept which is the motivating force underlying the development of The Associated Press services throughout the world, he said.

The 38th annual AP members meeting was called to order by Chairman W. G. Gaglian, publisher of the Salt Lake Tribune. The welcome was given by the chairman, John J. Mulvaney, publisher of the Times-Herald, editor of the Post-Register, Idaho Falls, chairman of the 1963 continuing study committee, outlined changes that had been made in the press in the last decade.

A freedom of information report was given by William F. Sullivan, managing editor of the Washington Post. Sullivan said that the press has a vital role to play in the world of today.

Profumo, 46, quit his post Wednesday. He admitted he had had an affair with Christine Keeler, 22, who carried on a liaison with the man who was in London.

Armored Unit Returns to Camp

ARMED GUARDS OF THE U.S. ARMY returned to their quarters in the vicinity of the town of Hanoi today after a week of training in the area.

SAMPLING JUNGLE COOKING is Astronaut John Glenn, left, as Scott Carpenter, one of his fellow spacemen, checks his reaction during training at Albrook air force base in the Canal Zone for a three-day survival mission in the Panama jungles. All 19 U. S. space participants, including two-man teams for the deep jungle penetration to learn to survive should their capsule fall in such terrain. (NASA photo via AP wirephoto)

Probe Ends Astronauts Complete Wet Jungle Jaunt

PANAMA, June 7 (AP)—Three days and two nights in the wet jungle convinced 16 American astronauts would stay put and await rescue if a space ship ever set them down in such terrain. The astronauts completed a survival course Thursday. They emerged from the jungle armed with machetes and dressed in boots and long underwear, garb normally worn under pressurized space suits. They were soaking wet from a driving rain. Undergoing the survival test were all seven of the original Mercury team, plus nine others chosen last September for future space flights.

Firm Joins Hearings on Fish Issue

PORTLAND, June 7 (AP)—The hearing into what has happened to the Snake River fish runs was joined today by Pacific Northwest Power Company. The hearing, ordered by the federal power commission, is aimed at evaluating Idaho Power Company's fish passage facilities. The hearing is being held in Portland, Ore., where the company's headquarters are located.

Missing T. F. Helicopter Hunt Widens

DENVER, June 7 (AP)—The civil air patrol today began a search for a missing helicopter that crashed in the mountains near the town of Breckenridge. The helicopter was last seen on Thursday night. The search area is being widened to include the surrounding mountains.

Boise Bishop to Celebrate Anniversary Mass in T. F.

The Most Rev. Sylvester W. Taylor, bishop of the Boise diocese, will celebrate a solemn pontifical mass at 4 p.m. Sunday in the Boise Cathedral. The mass is being celebrated to mark the 50th anniversary of the bishop's arrival in Boise.

Kennedy, Briton In Informal Talks in Europe

IN THE WEST WITH KENNEDY, June 7 (AP)—President Kennedy will meet with British Prime Minister Harold Macmillan for informal talks during Kennedy's late-June trip to Europe, the White House announced today. Pierre Salinger, White House press secretary, said Kennedy and Macmillan would get together late on June 29, following the President's visit to Ireland. Kennedy then will continue on to Italy June 30. Before Kennedy left the aircraft carrier Kitty Hawk to witness military displays ashore, Salinger read a statement which began:

"As it is now, six months since they last met, and there is a number of problems they can usefully discuss. President Kennedy and Prime Minister Macmillan have felt it would be useful to take advantage of the President's trip to Europe to have informal talks together."

The two leaders last met in the Bahamas in mid-December. At that time, they developed a joint plan, now the subject of much heated controversy, to equip the North Atlantic Treaty organization with a multinational unit force that would include Polish missiles and British ships. In London, British officials said Kennedy and Macmillan will discuss later-aided defense and the prospects of improved East-West relations.

Kennedy, according to diplomatic authorities in London, accepted Macmillan's invitation to make a brief stopover after Kennedy's visit to Ireland.

On the one hand he is anxious not to be drawn into the political campaign which has been in progress in advance of a general election by October, 1964.

Buhl Girl Dies Of Crash Injuries

BUHL, June 7—An 11-year-old Buhl girl died about 2 p.m. Thursday at Magic Valley Memorial hospital of injuries received in a motorcycle-truck collision earlier in the day, at a rural intersection northeast of Buhl. Susan Denise Hughes, daughter of Mr. and Mrs. Clyde R. Hughes, routes 4, Buhl, was fatally injured and her brother, James Wesley Hughes, 14, was reported in poor condition at the hospital Friday noon.

Sheriff James Benham, investigating officer, said the boy was thrown 27 feet north of the point of impact. The Honda motorcycle was driving on a gravel road when it collided with a 1960 Ford pickup truck driven by Ward J. Miller, 31, route 3, Buhl, one mile east and four miles north of here.

His sister was found 39 feet north of the scene, she Sheriff said. She received head injuries, as did her brother. Benham was assisted in the investigation by Deputy T. M. Kendrick. The collision occurred about 11:30 a.m. Thursday.

Miller, who was not injured, told officers he did not see the small motorcycle until the collision. He was driving north on a county road and the Hughes children were traveling on a gravel road. There are no stop or yield right of way signs at the intersection.

Susan Hughes was born Oct. 1963. She was 11 years old at the time of the accident.

Outlaw Day Events Set At Richfield

RICHFIELD, June 7—Final plans for Richfield's Outlaw Day celebration Saturday are complete. The day will feature a variety of events, including a parade, a fair, and a concert.

Children's pony rides, entertainment, and a variety of other activities will be featured during the day in downtown Richfield as the airport racing and arena grounds.

A new feature of the celebration this year will be the junior high school band playing at the arena. The band will be made up of three teams of five members each, competing in a variety of events.

The Richfield Riding club has added 410 pounds to its feed bill for horse racing and arena events. The club has also added 410 pounds to its feed bill for horse racing and arena events.

A food booth will be operated at the rodeo grounds with the Richfield Lions club.

Flings also will be used at the ball game Saturday evening and all flings are requested to report at the ball park at 7 p.m.

The plans were drawn up by the executive committee of the town of Richfield. The plans were drawn up by the executive committee of the town of Richfield.

While officials of Idaho Microwave, Inc., Twin Falls, were busy Friday morning surveying wrecked equipment and making arrangements for repair of \$25,000 to \$30,000 damage resulting from vandalism Tuesday evening at its Jupiter microwave relay station, 25 miles east of Malta, two young Idahoans, boys, were waiting arrangements before an Idaho county judge after admitting they caused the destruction.

A. J. (Gus) Penz, Twin Falls, president of Idaho Microwave, Inc., which is involved with the microwave company in bringing Twin Falls City television program into Magic Valley, said:

"It was reported by Onida Dr. D. B. Thompson, president of the University of Idaho, said Priel would assume his new duties on July 1. Priel's position will be full-time job. Thompson said:

Priel is expected to locate headquarters for the administrative offices in the Pullman, Wash., home. Thompson said: "There were indications that Priel would be operating administratively from here."

Friday morning that replacement parts have been ordered from New York City and Dallas, Tex., and are being sent by air freight.

"If all goes well," said Penz, "we should be back on the air by the middle of next week."

Remodeling Library Eyed At Shoshone

SHOSHONE, June 7 — City council members Tuesday night further discussed the proposed library remodeling and building plans and announced plans to hold a special meeting soon to award contract for construction. William Thompson met with the group regarding the highway road work through town.

Building permits were approved for Mrs. Tipella Bare, for remodeling a portion of her residence; J. D. Haynes, remodeling and remodeling his residence; Clyde Hughes, remodeling residence and new siding on the building.

Police Chief Bill J. Anderson reported issuing 12 traffic citations the past month.

Expansion Projects Set For Rupert

RUPERT, June 7 — An expansion program involving real estate transactions for three Rupert businesses is announced.

The Idaho First National bank has purchased from King's a building adjoining them on the north and will add a 75-foot front to the present building. Robert Reed, manager, reports.

Deluxe remodeling plans have not been completed, but tentative plans call for an additional door to the lobby to be placed in the new portion facing the square.

H. E. King, president of King's, said he has purchased the building now occupied by Frick's Fabrics, which will be remodeled, along with the building formerly occupied by the Central market and added to a portion of the building they now have into a modern store.

Fred Frick, owner of Frick's Fabrics, said his store will move into the building on the south side of the square once occupied by the Minidoka County News. It, too, will be completely remodeled and modernized.

Junior College Issue Discussed

The junior college district issue was discussed Thursday noon by William Grange, Twin Falls Chamber of Commerce, secretary-manager, during a luncheon meeting of Twin Falls Kiwanis club in the American Legion hall.

After the discussion, petitions were passed among the members for signatures. The petitions were presented Thursday afternoon to the Twin Falls county commission, asking for an election to decide whether or not there should be a college district established for Twin Falls county.

Visitors included Cecil McNew, Piler, and Arthur DeVolder, former Twin Falls librarian, Albuquerque, N. M.

PROFESSIONAL STUNT DRIVERS of the Tournament of Thrills call this the T-Bone crash. It is done by racing a car up a ramp, flying through the air, and smashing at right angle into a parked car. This is where the flip comes in. The impact makes the car flip end-over-end and smash flat on its roof, while the driver remains at the wheel. This will be one of the 20 events on the program when the daredevils appear at the Twin Falls county fairgrounds Sunday night in Filer.

Pools to Open

Harmon park and Harry Barry park pools will open Sunday, Chlad Browning, city recreation director, announces.

On opening day the pools will be open from 1 to 8 p.m. Regular daily hours during the remainder of the summer will be from 1 to 5:30 p.m. and 7 to 9 p.m. at Harmon park pool, and 3 to 6 p.m. daily at Harry Barry park pool.

Robert Stevens will manage the Harmon park swimming pool and Gordon Tobin, Jr., will manage the Harry Barry park facility.

Tournament of Thrills Is Scheduled Sunday at Filer

The Tournament of Thrills auto stunt show will be held at 8 p.m. Sunday at the Twin Falls county fairgrounds in Filer.

The 20-event program will feature Don Chadwick, "World Champion Auto Stunt Man," Bill Williams and other nationally famous stunt drivers.

They will perform such feats as rolling cars from wheel to wheel, so many times as possible or until the car is totally demolished; crashing a motorcycle through a burning wall; driving new cars on two wheels, jumping cars from one ramp to another while a second car drives behind the ramp, and leaping from the back bumper of a car into a pool of flaming gas.

Tickets will be available at the gate.

Gooding Youths Enter Air Force

WENDELL, June 7 — H. Michael Gibson, son of Mr. and Mrs. Melvin Gibson; Richard Rost, son of Mr. and Mrs. Frank Rost; J. Charles Burch, son of Mr. and Mrs. Dallas Burch; all Wendell, and Bruce McConnell, son of Mr. and Mrs. Alvin McConnell, Hagerman, have begun training at Lackland air force base, Tex.

Gibson and Rost were members of the 1962 graduating class of Wendell high school and Burch and McConnell were members of the 1963 Hagerman high school graduating class.

Schenley ...the life of your party!
RESERVE

Sailing...Sunset...and Schenley work party magic. Put life in your party with Schenley's 6-bottle liquor cabinet...lively highballs of mellow Schenley Reserve or Imported O.F.C. Canadian whiskey... frosty mists of soft-spoken Champion Bourbon...breath-taking Schenley Vodka or Gin tonics. Whatever the drink, Serve, Sociable, Schenley — and put life in your party!

Contract for Fairgrounds Job Awarded

GLENN'S FERRY, June 7 — Ray R. Kuakade, Jerome general contractor, has been awarded the contract for the construction of a cluster block building at the Elmore county fairgrounds at Glenn's Ferry, reports Elmore County Agent Herb Edwards.

There were six bids submitted. The accepted bid was the construction of a clear span, steel-roofed building for \$9,875.

This will be the first in a series of improvements at the fairgrounds and the new building will provide weather-proof housing for home economics and other exhibits that could be damaged from adverse weather conditions.

This year's fair will be held Aug. 8-10 and will feature a miniature rodeo put on by Vern Oyar, Garland, Utah, each evening. Portable bleachers have been purchased for the fairgrounds.

Funeral Set

WELLS, Nev., June 7 (Special) — Funeral services for Charles Triplett will be held at 11 a.m. Saturday in the Wells high school auditorium. Concluding rites will be held at the Wells cemetery.

Lewis Talks to Declo Kiwanians

DECLO, June 7 — David Lewis, manager of the employment security agency at Burley, spoke on youth unemployment at the Declo Kiwanis club meeting at Tuesday luncheon meeting at Mita's cafe.

Lewis said the Burley Kiwanis club, of which he is a member, and the local club both are helping students to find employment. Joseph Cliflette distributed tickets for members to sell for the Centennial dance to be held Saturday night in the high school gymnasium. The Kiwanis club and the Burley Kiwanis are putting on a Centennial celebration with a parade in the morning, rodeo in the afternoon and a dance at night.

Wayne Lewis and Robert Fugate are in charge of the parade. The club pledge was led by Joseph Preston and invocation offered by Carl Osterhout.

Singers Needed

WENDELL, June 7 — Mrs. Ella Mae Parker, director of the chorus for the July 4 Centennial pageant, says singers, both men and women, high school age and over, are needed to practice for the pageant chorus. Many voices are needed.

The practice has been scheduled for 7:30 p.m. Tuesday at the Civic club rooms at the city hall. Mrs. Pearl Eaton will be the accompanist.

THROW AWAY THAT HEARING AID

Now an amazing new scientific invention lets you hear better again, yet you wear nothing in either ear. No wires, no cords, no bulky battery packs. And utilizing the mastoid process, hearing is carried directly to the inner ear, thus bypassing the defective outer or middle ear. Everything — electronic circuit power unit, microphone, controls — is so skillfully engineered that you may wear it and not even your closest friend realize it unless you tell him. You simply set it, forget it, get natural hearing where you are. For free, full information about revolutionary new hearing aid that requires nothing in either ear, write today to Otorion, 729 Post Road, Ossining, New York.

NO. 6 IN A SERIES OF IDAHO POWER COMPANY ADVERTISEMENTS

Facts You Should Know about the
Plan to bring Bonneville Power to Southern Idaho

Let's get down to cases on the question: Is Bonneville power a panacea for economic troubles? On the record, it is not.

There are 31 areas of substantial and persistent unemployment in the Pacific Northwest, according to the U. S. Department of Labor's April report. This is an increase of five troubled areas within a year.

Seventeen of the distressed areas are in the State of Washington, and seven are in Oregon. The remaining seven include Teton county and six north Idaho areas. All 31 except Teton county have been in the Bonneville marketing area for many years.

None of the areas experiencing substantial and persistent unemployment are served by Idaho Power Company.

If Bonneville power is a panacea, why have Washington's trouble spots by this measure increased from 13 to 17 within a year? Why does Oregon have seven distressed areas? And why has north Idaho been continually distressed?

The contrast in favor of Idaho is similar in other measurements of progress. Idaho's per cent gains in manufacturing employment during the past decade are higher by far than in either Washington or Oregon. Its percentage increase in per capita income is also higher, as is the case with value added by manufacture.

Idaho's total taxes per capita are the lowest of the three states. And Idaho's state bonded debt per capita is only \$9.35, compared to Washington, \$161.24; and Oregon, \$201.47.

When you get down to cases, those sections of the Northwest in Bonneville's marketing area have not fared as well as those served by Idaho Power Company — proof positive that there's no economic magic in Bonneville power.

- 1 — Bonneville does not serve homes, farms, stores, offices, schools, shops or most industries.
- 2 — Bonneville delivers electric power below cost to a few "preference customers" who profit by tax avoidance.
- 3 — Bonneville is subsidized by taxpayers. It pays no taxes. It has operated at a deficit of about \$60,000,000 during the past five years.
- 4 — Bonneville will have to ask Congress for an expenditure of about \$100,000,000 for transmission facilities to deliver power to eastern Idaho.
- 5 — There is a surplus of firm power in southern Idaho. Bonneville can not justify squandering tax money to build duplicating power facilities.
- 6 — Southern Idaho has a better record of industrial development — lower taxes — and far less unemployment than the Northwest areas which have been served by Bonneville for many years.
- 7 — Bonneville power rates are artificial. They produce deficits in spite of taxpayer subsidy, tax avoidance and access to the federal treasury for capital funds.
- 8 — Bonneville power supplants the facilities of taxing companies to the detriment of taxing districts such as schools, cities and counties, state and federal governments.
- 9 — Bonneville is now taking over reclamation project power, and will sell it below cost to "preference customers." This will deprive Idaho reclamation projects of millions in legitimate revenues by subterfuge — the glib assurance that somehow Bonneville will replace these funds from its deficit-ridden operations.
- 10 — There's no magic about Bonneville power. It is an example of the federal government in business — replacing taxpaying, investor-owned enterprises.

IDAHO POWER COMPANY

Film Shown To Chamber For Rupert

RUPERT, June 7—Nine "Nine Against the River," a film on the first conquest of the Colorado river, was shown Thursday at the weekly luncheon of the Rupert Chamber of Commerce at the dining cafe.

Wayne Anderson, chamber president, reminded members of the official grand opening of the newly-remodeled Roper building and the addition it brings to the city square.

Anderson also acknowledged that if he had remembered the local visit of the bloodmobile Tuesday, a shortage of only 12 quarts would not have existed and he urged chamber members to support the blood drive during the next visit.

He reminded members of the water safety meeting to be held at the Rupert Civic building at 8 p. m. Thursday and asked for a good attendance from the chamber.

Kenneth Bell pointed out the fire inspection to be held in Rupert June 27 was for the benefit of the city. He stated the inspectors would merely point out existing fire hazards building owners were unaware of.

He added about 30 inspectors are expected to be in Rupert and a Boy Scout from this area will accompany each. One of the reasons for the Rupert inspection is because of the location of the square and less time would be involved in the tour, Bell stated.

He reported the last survey of this kind made in Idaho was in Blackfoot five years ago. The inspection is free and the inspectors will spend four or five days in Rupert.

Mrs. Hazel Dean Hunter, member of the advertising committee, asked for help in installing three signs directing tourists to the information booth on highway 25. She stated the opening of the booth had been delayed because the signs are not in place.

Volunteering to help erect signs were Don Ballantyne, Bill Lott and Sherman Anderson. He announced the booth would open this week-end and would be operated by the Jay-C-Ettes on the first week and VFW auxiliary members have volunteered to staff it for a period.

Gooding Youth Fined in Crash

GOODING, June 7—Charles L. Bailey, 16, Gooding, was fined \$25 and \$4 costs in Gooding probate court for operating a motor vehicle without a license. The citation was issued following an accident about 7 p. m. Wednesday on-half mile west of the Gooding city limits.

Bailey, who was driving a 1960 Ford Falcon stationwagon, was traveling north on a county road, failed to make a right turn and hit a power pole.

Loren Bailey, 19, a passenger in his brother's car, was taken to Gooding County Memorial hospital where he was treated for facial lacerations and some missing teeth.

Charles Bailey was uninjured.

Project Set

PAINTVILLE, June 7—Village board members voted to have the approaches to the Main street improved, when they met in regular session this week. They decided to ask for bids for the filling and oil backpopping of the intersections joining the main street.

HE WHO TRAVELS THE FARTHEST, particularly to 50-year class reunions, usually ends up with some sort of an award. G. R. Kirkpatrick, Sun City, Ariz., received an award after he traveled to Twin Falls high school's class of 1913 reunion, held Thursday evening in the Roperan hotel Desert room. Mrs. Wanda (Hoag) Reed, Twin Falls, is shown presenting Kirkpatrick, who was the class vice president, with a check. About 15 of the original 56 class members attended the reunion. (Times-News photo)

Officers Elected For Red Cross

Mrs. Frank Mogensen has been selected chairman of the Twin Falls chapter, American Red Cross.

Other officers are Vernon Harmer, vice chairman; Mrs. Leo

Campeau, secretary, and Louis Meigs, treasurer. Elected to the board of directors are David Yocom, Frances Thurman, Gordon Cox, Mrs. Mrs. Mogetusen.

William Hoops, Jr., Mrs. Kenneth Poe, Charles Thompson, Delores Miller, Mrs. Donald Hine, Leo Campeau, Mrs. Bliss Russell and Mrs. Mrs. Mogetusen.

High School Class of 1913 Has 50-Year Reunion Here

Checks for "one million dollars" were awarded Thursday evening to two members of Twin Falls high school's class of 1913 during its 50-year class reunion in the Roperan hotel Desert room.

The checks—both fictitious—were presented to Glen Kirkpatrick, Sun City, Ariz., who was class secretary in 1913, for the classmate traveling the farthest; and to Mrs. Myrtle Smith Walsh, Jerome, as the class member with the largest number of living direct descendants—35.

There was some discussion as to whether or not Mrs. Eva Walton Wilkins, Oakland, Calif., should receive the award for traveling the farthest, but Ward W. Husted, Laramie, Wyo., who was master of ceremonies, decided that Mrs. Wilkins had taken the "long way around," by going up through Seattle, Wash., before coming to Twin Falls for the reunion.

Of the 46 members in the original graduating class, which was the first to graduate from the old Twin Falls high school, 34 are living. Fifteen of the students attended the reunion, along with four classmates who did not graduate with the class.

Kirkpatrick was the only class officer in attendance and presided at the head table.

Besides the reminiscing, associated with all class reunions, letters were read from members unable to attend and stories of memorable high school experiences were related.

Mrs. Nellie Ostrom, local music teacher who went to school with the class but did not graduate

with them, was able to locate the dusty score of an old melodramatic operetta, "Pauline."

Mrs. Ostrom played selections from the operetta, which was put on locally during the group's senior year, and those at the reunion sang some of the songs.

The Centennial theme was carried out at the reunion by the women wearing pioneer bonnets and the men wearing chamber suits. Individual favors were miniature covered wagons filled with sagebrush. The class colors, green and white, were used in flowers which decorated the tables.

Entertainment was furnished by "The Spring-Along," a trio comprised of Thomas Pease, Jerry Christian and Michael Wendling, all ninth graders.

Graduates who attended the reunion, besides Kirkpatrick, Mrs. Walgamott and Husted, were Mrs. Leslie Williams Benoit, James A. Griffith, Mrs. Mary Griffith Olmstead and Mrs. Wanda Hoag Reed, all Twin Falls; Curtis Bower and Glen Whitney, both Kimberly; Mrs. Ethyl Lyman Wall, Buhl; Mrs. Ethel Clausen Pettigohn, Castleford; Mrs. Paulene Evans Weil, Gracerville; Hight and Mrs. Dorris Lelwendood Harvey, all Boise; and Mrs. Eva Walton Wilkins, Oakland, Calif.

Classmates attending who did not graduate with the class were Willard McMaster, Hansen; Mrs. Lydia McMaster Stettler, Marysville; and Mrs. Lars Dow and Mrs. Ostrom, both Twin Falls.

Along Fences and Canals

The U-2 Cattle company, Rogerson, has put into operation a new sprinkler system to irrigate some 50 acres of pasture land. The water is pumped from a well that has been there for several years.

John Beronsey has baled 20 acres of first cutting of hay at the Van Morgan ranch west of King Hill. Elmer Robinson baled some of the hay and hauled it to his small acreage here in town for winter feeding of his stock.

Raynard Wright, Tuttle, has 12 acres of small red beans up and most all of the grain fields in the community are showing heads.

A concrete foundation for a new home was poured this week at the farm of Mr. and Mrs. M. R. Thorpe, Shoshone. Assisting with the project were visitors, Jay Wallace, Clark Love and Kenneth Rebeck, all from Layton, Utah. The house will measure 24 by 28 feet.

Mrs. Oscar Johnson is moving to the Howard Campbell residence recently purchased by her son-in-law, James Powell, Richfield. The Campbells are LDS work missionaries in Australia and plan to be on work missions for several years. Mr. and Mrs. Ray Hubsmith have moved from the Campbell home to the McNulty ranch where he farms with his father.

Tracy brothers, Almo, have moved some of their cattle to the Junction valley summer range.

Mr. and Mrs. Dwayne Ward, Almo ranchers, moved their cattle to their summer range in the City of Rocks last week.

Orson Zollinger, Sublett, plans to pasture his cattle at the Tracy ranch at Almo this summer.

KING HILL, June 7—Hay was cut on the ranch of Mr. and Mrs. Charles Kast, east of King Hill.

Mrs. Charles Gulon, North Shoshone, reports her flowers this spring are prettier than they have ever been and she believes it is because there has been more moisture than usual. She said the iris were particularly pretty and large. She has the variegated flowers. Now in bloom are the iris, peonies, buttercups, wood-anemones, snowballs, variegated dogwood, beauty bush and tansies.

T. F. Youths Attend Conservation Camp

Twelve Twin Falls county youths will study the importance of forest surveys in estimating grazing capacity, and learn the purpose behind multiple use programs.

The youths also will study soils and how the soil can best be utilized for row crop farming, range or wildlife production. The various types of soil and other characteristics will be studied.

The location of the camp, near the backwaters of Palisades reservoir, also affords an opportunity to study water and water conservation. The camp is readily accessible to forest lands where forest management practices employed by the forest service can be viewed.

The camp fee is \$25, not including bus transportation. The camp will demonstrate practices and skills that are used in resource management, explore opportunities for careers in resource management, and teach the youths how to explain conservation to groups in the community.

All instructors at the camp are professionally trained personnel from the University of Idaho, associated industries, and state and federal agencies. Idaho has some 34 million acres of rangeland and the

youths will study the importance of forest surveys in estimating grazing capacity, and learn the purpose behind multiple use programs.

STANDING AT STUD

"INTO GLORY"

Into Glory was injured early in his racing career and never reached his full potential. However, he continued to race on three legs and won approximately \$50,000. He raced at all the major tracks, including Hialeah Park, Suffolk Downs, Lincoln Downs, Hockinghams Park, Cullerham Park, Monmouth Park, Bay Meadows, etc. This great horse practically running on three legs with Willie Hernandez up, won the Wolf Memorial at Caliente in 1960. Going a mile and 1/16 running the first quarter in 22.3. In the spring of 1961 he was retired to the stud. His oldest foals are just yearlings. We think he will sire racing stock, of course this remains to be proven. And we think next year when his 2 year old foals go to the track we will prove it and then we can ask our own price for fees. Until we prove his ability to race stock we are asking \$100.00 fees with return until mare is either in foal or proven unable to breed. No return of money. We know the horse is fertile as we have settled about 10 mares so far and he has many new foals this spring in California and Oregon.

Farm AND Ranch

Magic Valley's Week-End Farm Paper

SECTION

June 7-8, 1963
Twin Falls Times-News

HOLDING TWO of his rare chickens is Edward Warr, Oakley, who has about five different varieties. Five-toed chickens with "hats" (feathers) are among the oddities in the bunch. At one time, Warr says, he had 11 different varieties, but has cut his flock to a minimum because of the high cost of feed. He is holding a black and white Hamburg hen, one that is especially pretty and is a good layer, and also a Houdan hen that has the "hat" which partly covers its eyes. Warr says he purchased these chickens because he likes to have something different. (Times-News photo)

Chickens With Hats Are Produced On Edward Warr Ranch Near Oakley

OAKLEY, June 7—Chickens with "hats" on are a common sight around the Edward Warr home with the chickens producing their own "hats." Houdans is the trade name originated from the little French village of Houdan with its patchwork of green and yellow fields and its quaint old peasant farmhouse, Warr points out.

Another point about Houdans is they are non-setters but are abundant layers.

Being very tame they are easy to catch and upon an examination a fifth toe is revealed. Along with the mottled effect of the black and white plumage is a flowing crest, V-shaped—comb and short feathered beard, they are standouts in any poultry show.

Mrs. Warr says because of the little topknot hats getting in the chickens' eyes, they do not see other chickens, which in turn pick the tailfeathers from the Houdans, marring their beauty somewhat.

The Warrs became interested in the Houdans several years ago when they decided they wanted something no one else had. At one time, Mrs. Warr recalls, they had 11 different varieties. Now they have cut their flock back to about five varieties because of the cost of feed. Some of the chickens are more for

Chemical Treatment for Sugar Beets Inspected

RUPERT, June 7—A new cost- and labor-saving sugar beet-planting treatment that is being used on a test basis on a north-side farm was viewed by farmers and sugar company fieldmen.

Use More Labor

WASHINGTON, June 7—Soviet Premier Khrushchev says Soviet farmers are using seven times as much labor to produce grain as in the U.S., five times more to grow potatoes, six times more to grow beets. It takes as much to raise cattle and more than 10 times as much to raise pigs, according to the U.S. department of agriculture.

show, producing small eggs, while others make good show chickens as well as laying large, white eggs.

One-of-the-most-unusual-varieties they have had is a "turkey"—half chicken and half turkey.

"Not really a turkey," they admit, "but all chicken, even though they are sometimes called naked-neck because of their turkey-like, bare necks."

"They acquire a sunburned, reddish look when they are mature and hatch in various color patterns, many of them interesting combinations of black, silver, gold, white, buff and red."

"If you want something really different this is it," they pointed out.

Of all the breeds they have had, Mrs. Warr says she thinks she likes the Hamburg best because of their beautiful black and white spotted plumage and their laying ability.

"The Buttercup was imported from the island of Sicily more than 100 years ago and is unique in that it has a divided comb, making a small cup on its head," they note.

"We purchased all our chicks from Webster City, Ia., and have had very good luck with all of them."

Warr states he always has been interested in having the unusual.

"Maybe I'm funny, but I like to collect the extraordinary things," he explains.

Fixed

Al Peters, manager, Twin Falls Canal company, reports the break in the high-line canal has been fully repaired and the bank is holding in good condition.

Men and equipment had the break fixed and irrigation water back into the canal some 40 hours after it occurred. Since then, crews have been working to stabilize the bank.

Peters blamed active rodents for causing the break. He noted that burrowing in the dirt banks is always a problem because the soil can wash away rapidly.

Recreation Makes Money For Farmers

CINCINNATI, June 7 — Recreation could become a major money-maker for some farms.

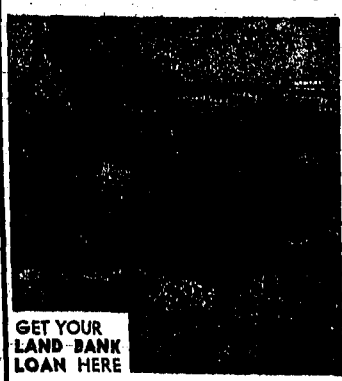

Even now, a few farmers are growing as much as \$200,000 per year from recreation projects. Others are sending children through college, financing new farm machinery, and transforming debt-ridden farms into profitable businesses.

Government enthusiasts and private publications recently hailed rural recreation as the small farmer's salvation and the large farmer's blessing.

However, a current Farm Quarterly article goes into considerable detail as to the technical and financial possibilities of such projects, and how these possibilities can be met. The publication points out that one prerequisite a farmer must have is the temperament to deal with the public.

Problems and inconsistencies exist because there is little research and documented experience in farm recreation.

Selection Committee Named For 1963 Grassman Program

The selection of this year's "Grassman of the Year" for Twin Falls county took another step forward with the naming of the selection committee to view the 1963 applications.

Ed Shaff, representing the Pinedale National Bank; Harold Hove, representing Twin Falls Bank and Trust company; G. W. Dalph, representative for the county agent, and G. H. Chambers, representing the Times-News, were named to the selection committee.

The committee will view the 1963 applications for the grassman title.

Interested parties attending the meeting, which was held this week at the Twin Falls Chamber of Commerce office, included Ray Lincoln, Idaho

A NEW, REVOLUTIONARY FARM BUILDING SO EASY TO BUILD

...ALMOST ANYONE CAN DO IT

BECAUSE The panel is the building

By easy, we mean as easy as fastening a nut on a bolt! The Panel-Frame erection booklet shows you how! The panel is the building. And every one is factory-formed, cut, and punched with precision you can't put the building up wrong. Even the doors, windows, and other accessories are factory-located.

New Panel-Frame panels not only install fast—they're strong, too! Deeper corrugations, more corrugations make them solid as a rock. Heavy snow loads and high winds won't affect this building.

Most surprising is the low price. As low as a good pole barn. A price only Butler makes possible through mass-production methods and standardization of parts. Don't put it off—call now about this fast, easy way to build. And be sure to ask about Butler's new, low-cost finance plan—with easy, flexible terms to match seasonal farm income.

Slaughter of Gem Red Meat Is Rising

BOISE, June 7 — The production of red meat by commercial slaughter plants in Idaho during April, 1963, is estimated at 12,220,000 pounds by the Crop Reporting Service.

This is 12 per cent above the output of April, 1962, but three per cent below March, 1963.

The cumulative production of red meat for January through April this year totaled 54,281,000 pounds, seven per cent above the same period of last year.

The estimated dressed weight of cattle and hogs slaughtered during April, 1963, was above April, 1962. The dressed weight of calves and sheep was below a year earlier.

A comparison of April, 1963, with a year earlier shows more cattle and hogs slaughtered but fewer calves and sheep. During the first four months of 1963, there have been more cattle and hogs slaughtered than during the same period of 1962 but fewer calves and sheep. The average liveweight per animal slaughtered during April, 1963, was above a year earlier for cattle and hogs, but below April, 1962, for calves and sheep.

Commercial production of red meat during April in the 48 continuous states was 2,468 million pounds, 12 per cent more than a year earlier, but the same as a month earlier. A part of this increase is due to an additional slaughter day last year.

Commercial meat production includes slaughter in federally inspected and other commercial

plants, but excludes farm slaughter. There were 9,707 million pounds of red meat produced during the first four months of 1963 — 5 per cent more than during the corresponding period of 1962. The number of cattle slaughtered was four per cent more than in the comparable period of 1962; calves were down six per cent; hogs up six per cent; and sheep down eight per cent.

"Magic Valley's Leading Discount Stores"

FEW CHANGES are expected in the operation of Magic Valley Bean company with the addition of warehouse facilities at Springdale. Acquisition of the plant will be easily integrated in the company picture, says Pete Lewis, left, general manager. Office work is handled by Mrs. Frank J. Lewis, right. Capacity performance is expected out of the Springdale plant, which was purchased from Cassia Lumber and Seed company, Burley. (Times-News photo)

Kimberly Bean Company Expands at Springdale

KIMBERLY, June 7—With the purchase of the Cassia Lumber and Seed company warehouse at Springdale, Magic Valley Bean company is anticipating more and more acres of commercial beans will be grown in the east end of Magic Valley.

"While the east end is traditionally tied to potatoes, there is no reason why that area couldn't become a major producer of beans," said Pete Lewis, company manager. "We have found the growers very acceptable to producing beans on a larger scale. We figure the new plant will operate at near capacity in the first year."

Additional facilities in the east end will make it easier to serve parent company, Berger and Son Bean company, San Francisco, said Lewis.

Incorporating the Springdale plant into the working schedule of the company will pose few, if any, problems, Lewis pointed out. The organization of the parent company is such that any new additions easily can be integrated into the over-all picture. The company has several subsidiaries in the United States and Europe. No immediate changes are anticipated in the operation of the plant during the first year.

Grass Tour

Glenn Nelson, chairman, Twin Falls soil conservation district, reminds area farmers and ranchers that the annual grass tour will be June 14 beginning at 9 a.m.

The tour will start at Clover Lutheran school and free bus transportation will be furnished.

Dairy Agent Proposing Program Test

WASHINGTON, June 7 (AP)—A dairy group official says farmer rejection of the administration's rigid wheat control program showed that the time is ripe for congress to test the effectiveness of the voluntary dairy program proposed by the National Milk Producers' federation.

E. M. Norton, federation secretary, said "The wheat referendum definitely kills efforts to impose mandatory dairy controls."

Under the federation plan, Norton said, producers in a federal order market could adopt a system under which their individual

Production Record Set At Richfield

RICHFIELD, June 7—A new record was set for highest production of butterfat in one month by Whitney, a cow owned by Bruce Sorenson, Richfield. Whitney's record of 104.1 pounds of milk for the month of May is the highest for any cow tested by the Richfield Dairy Herd Improvement association during the past four years.

The previous high of 103 had been credited to a cow owned by James Powell, Richfield, announced Mrs. Soori Ervin, DHIA test secretary.

Sorenson's herd also achieved the highest record of pounds of butterfat for the month with 48.1. Harold Fridman's herd had the best milk production record for the month with 1,159 pounds of milk per cow. 179 cows out of 318 milking cows tested had over 40 pounds of butterfat average for the month. Thirty-five produced over 60 pounds of butterfat average.

Other exceptionally high record tests for the month were credited to Nig, 84.5, owned by Norman Rogers; No. 15, 84.0, owned by H. A. Johnson and sons; No. 82, 83.0, owned by Ralph Riley, Jr.; Moore, 80.3, owned by Fridman; and Pet, 78.7, owned by Sorenson.

Seven high producers in the Fridman herd were Bigum, 77.9; Babe, 78.9; Queen, 67.3; Dolly, 68.8; Happy, 66, and Gene, 63. Norman Rogers had Blue, 70.8; Doc, 68.3; Jennie, 60. Sorenson had Bush, 67.3; Pansy, 61.7; Nig, 61.1; Roger Freeman had Betsy, 74.4; Beauty, 62.1; Lila, 61.2, and No. 8, 60.1.

Pansy, owned by Riley, 61.1; Sunette, 60.8; Gidget, 59, owned by L. O. Chaffield; Tuffy, 76, owned by E. J. and E. Ward; Peppers, 71, Bonnie, 63, Winkles, 62.1 from C. F. Chaffield herd; Palabas, 52, Starling King owner; Grant Sorenson's Snowflake, 61.1; P. M. Crowther's Sneezy, 62.6; Speck, 61.4 and H. Z. Johnson and sons, No. 19, 72.9.

4-H Training Sessions Set

BOISE, June 7—A series of training sessions in July for judges of food products at county and district fairs was announced today by the University of Idaho extension service. The classes, of one day each, are for lay leaders and county home agents.

Mrs. Esther Wilson, extension nutrition specialist, will give pointers on judging—various kinds of food. Dorothy Hole, assistant state 4-H club leader, will lead a discussion of judging procedures.

The dates are: Boise, July 16; Twin Falls, July 17; Idaho Falls, July 18; Pocatello, July 19; Coeur d'Alene, July 20; and Lewiston, July 30.

Cattle Fare Well After Nuclear Test

WASHINGTON, June 7—Cattle fed stored feed following nuclear tests show only trace amounts of iodine 131 in their milk, said the U. S. department of agriculture and department of health, education and welfare.

The statement was based on results of studies made of dairy cows in a three state area during fallout periods last summer.

Milk from cows given only feed stored at least 40 days contained less than 10 microcuries of 1-131 per liter. This is less than the smallest amount of iodine radioactivity that can be accurately detected. Hardly any

differences existed between the 1-131 levels in milk of cows fed stored feeds, whether they were sheltered or allowed outside. This means that the animals picked up the 1-131 only by consuming contaminated feedstuff.

When some of the cows that had been kept on pasture early in the study were switched to stored feed only, the 1-131 in their milk dropped to barely detectable levels within four days.

Extra Care Of Heifers Aids Profits

PORT COLLINS, Colo., June 7.—Extra care of heifers bred to calve as two-year-olds may pay dividends in beef production, a Colorado State university study indicates.

Western ranches have long recognized that two and three-year-old cows produce lighter calves than "more mature" animals. However, G. O. Harwin, animal scientist with the CSU agricultural experiment station, believes this age effect can be reduced by proper handling and feeding and extra care of first-calf heifers.

Analyzing records on CSU's experimental Hereford herd at the San Juan Basin branch station in southwestern Colorado, Harwin found heifer calves from two-year-old cows are 42 pounds lighter than their contemporaries from mature cows five to nine years old. With bull calves, the difference is even greater—61 pounds.

Considerable Rain Needed Before Crop Growth Curbed

Rain and cool weather are not expected to have a detrimental effect on Magic Valley farmers and ranchers unless the situation continues.

The rainy weather this week was in direct contrast to the past few weeks, when sunshine and warm days and nights were boosting growth of sugar beets, beans and potatoes.

Range grass and livestock watering ponds will receive the biggest boost from the storm. Stock ponds that were low will receive additional water, enabling livestock operators to delay hauling water. With range grass already the best it has been in several years, the addition of rain could create a real fire hazard for the coming months.

Chest grass is abundant and the feeders are trying to hold off moving livestock onto higher range until the grass is consumed.

A few days' rain shouldn't hurt or delay the growth of the beans or potatoes that already are planted. Most of the sugar beets are up enough to withstand a rainy spell. A continuous rain could have detrimental effects. However, the weather bureau is anticipating clearing weather over the weekend unless the pattern changes considerably.

The rain does, however, delay field work. Those who still have beans or potatoes to plant will be hard pressed to complete field work in time to assure adequate growth.

In addition, the rain delays the thinning and weeding of sugar beets. Should the rain continue, by the time farmers and ranchers get back to their fields there could be a chance of the crops being late enough to run the risk of fall frosts.

BULK TANKS INCREASE
WASHINGTON, June 7.—Reported figures on farm bulk milk tanks showed a total of 193,860. This was 13,700 more than a year earlier, somewhat under the 19,000 increase during the previous 12-month period.

New Shell invention can save you up to \$39 on every \$100 you now spend for heating oil

"I guarantee that if you're not completely satisfied with the new Shell Burner-Pak, I'll refund its price in full."

says

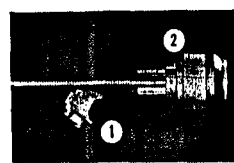

SHELL heating engineers have perfected a remarkable new invention called the Shell Burner-Pak. It saves you money by getting more heat from less oil. It produces a cleaner flame. And it can even help quiet a noisy furnace.

• The new Shell Burner-Pak is so effective that—in home after home—it has cut oil consumption between 9 and 39 percent. Chances are it can more than pay for itself in its very first season—and go on saving you money year after year.

• The new Shell Burner-Pak delivers clean, quiet, efficient burning right from the start.

• The new Shell Burner-Pak fits nearly all gun-type burners.

Free Heating Efficiency Analysis
How much can the new Shell Burner-Pak save you? Our Heating Efficiency

Shell Burner-Pak is composed of two precision units: 1. Automatic oil valve for clean start-up and shut-down; 2. Shell Compact Head* for complete blending of air and oil. New Shell Burner-Pak can save you money year after year after year.

Savings you can expect with the new Shell Burner-Pak			
Annual heating bill with conventional burner	Annual heating bill with new Shell Burner-Pak	Fuel savings the first year	Fuel savings after only three years
\$100	\$ 91 to \$ 61	\$ 9 to \$ 39*	\$ 27 to \$117
150	137 to 92	13 to 58	39 to 174
200	182 to 122	18 to 78	64 to 234
250	228 to 153	22 to 97	66 to 291
300	273 to 183	27 to 117	81 to 351
350	319 to 214	31 to 136	93 to 408
400	364 to 244	36 to 156	108 to 468
450	410 to 275	40 to 175	120 to 525
500	455 to 305	45 to 195	135 to 585

*Savings between 9 and 39 percent—based on Heating Efficiency Analyses of actual Burner-Pak installations.

Analysis of your furnace can tell you.

This Analysis is a bona fide scientific test. It takes only about 15 minutes. It will reveal the present efficiency of your burner—and make possible an estimate of the dollar savings the Shell Burner-Pak can give you.

This Heating Efficiency Analysis is a free service. It puts you under absolutely no obligation.

Individual savings will differ, of course, but the chart above will give you a general idea of the savings you can expect with the new Shell Burner-Pak.

If your burner is already operating satisfactorily, the Heating Efficiency Analysis will show it—and we will tell you frankly that you do not need the Shell Burner-Pak.

The Shell Burner-Pak is complete. Your money back if you're not completely satisfied twelve months after installation. Call us today for your free Heating Efficiency Analysis and for more details on how the new Shell Burner-Pak can save you real money. *Patent pending.

Stocks

NEW YORK, June 7 (AP)—The stock market lost its resistance to selling pressure today and slid lower to moderate trading.

Brokers said the market apparently still had some resistance left as evidenced by a late-day rally, but they expected prices to fall for the next few days.

Pointed drops in blue chips like Chrysler, Du Pont, Kodak, and Union Carbide headed the Dow Jones Industrial Average's decline in many sessions.

Steele was mostly easier as were chemicals. Ford was steady for the motors while Chrysler backedtracked. International oils firmed while tobacco eased, although not as much as the prior week. The tobacco was hurt in recent sessions on news that the Florida supreme court had ruled that cigarette makers could be held liable for the harmful effects of their products.

Electronics continued to move generally with some issues backed on demand while others backed on profit-taking.

Sugar gained some, largely because of firming. Dow Jones gained some in the chemicals while Eastman Kodak was a soft spot.

Portland was a standout among the individual issues with a gain of around 9 points. Also among the gainers in the general list were Smith-Douglas, American Home Products, Baxter Laboratories and De Vilbiss, the last of which had a record high.

Analysts were impressed by the market's resistance to selling pressure and found bullish implications in the tendency of volume to shrink as prices retreated.

Although the majority continued to look for new highs in the near future, they stressed the need for caution and selectivity in current transactions.

MacArthur Orders College Group to Raise Boycott On AAU's National Meet

NEW YORK, June 7 (AP)—Gen. Douglas MacArthur, exercising his power of arbitrator in the nation's amateur sports dispute, ordered college leaders Thursday to lift their boycott of the National AAU track and field championships, where the U.S. team for a meet with Russia will be named.

Sports

FROM ALL ANGLES

By LARRY HOVY.
The Magic Valley Cowboys, drawing from the smallest population area, are providing 37 per cent of the total attendance for the Pioneer league.

Statistics through June 1, issued by Pioneer league president Glendon Engberg, Salt Lake City, show the Magic Valley Cowboys with better than a 1,500 average per second place Great Falls.

In figures through that date, the Cowboys had played 10 games and won 15.75 games, and this since has been lifted to slightly over 16.00 per cent.

"Some of the clubs are claiming to have more attendance than these figures are based on and they have paid into the league treasury," says Warren E. (Ben) Howell, Cowboy-business manager. The league dues are five cents per adult head.

The lineup under the "pioneer" heading reads Magic Valley 13.75; Great Falls 6.10; Boise 4.92; Pocatello 4.44; Billings 4.12 and Idaho Falls 3.90.

The old adage that a winning club is the best draw seems to hold to a large degree, but Idaho Falls is proving an exception with its lowest-in-the-league attendance. This season the town, has a very polished team that has led the league all but a few days.

While the Cowboys' attendance is up roughly 70 per cent over last year, the percentage this goes to Pocatello is 4.74. The Chiefs were just over the 3,000 mark at the same time a year ago.

"I have seen several items in newspapers around that the Pioneer league is in trouble," says Howell. "Perhaps if the same trends continue, they are right. But with the lousy weather this spring, I think the figures, while low, are fairly good. With a couple of months of good weather, I should pick up at least it shows there is some interest. It's been awfully cold in the state."

"We are very pleased with our attendance but, with a better break on the weather I think we could be running about 10 per cent higher. We were at 86 per cent until that cold weather killed us this spring. I think the figures, while low, are fairly good. With a couple of months of good weather, I should pick up at least it shows there is some interest. It's been awfully cold in the state."

"Mr. Engberg feels the league is still in a solid position and until proved wrong by more bad weather and correspondingly low gates, I tend to go along with him. I used to get worried over these early season attendance figures, but now I like to wait until around the fourth of July before making any conclusions. Just two or three real good nights through June 4 or a crucial series could lift any of these clubs over 10,000 easily."

Pinch Double Lifts Cards Into Loop Tie

PHILADELPHIA, June 7 (AP)—Pinchhitter George Altman's run-scoring double in the eighth inning gave St. Louis a 5-4 victory over Philadelphia Thursday night and moved the Cardinals into a three-way tie with San Francisco and Chicago for the National League lead.

The Cardinals had to choke off Philadelphia's rallies in the sixth and eighth innings to win. Bob Shantz retired the side with two men on in the sixth after Bob Wren had belted a two-run homer to chase starter Bob Gibson and bring the Phillies to within one run.

St. Louis (Philadelphia) ab r h b

Total 2 1 1 0 0

Two of the AAU meet in St. Louis June 21-22 compel USTFF athletes to register with, and join the AAU against, the Friday and Saturday, federation president William Russell indicated all was not settled.

After conferring that the federation has the right under the AAU agreement to accept participation by its own athletes in open events like the AAU meet, Russell said the executive committee will meet June 11 to discuss the matter.

1. Are we privileged to approve, authorize or sanction participation of our athletes in competition?
2. Does the AAU meet in St. Louis June 21-22 compel USTFF athletes to register with, and join the AAU against, the Friday and Saturday, federation president William Russell indicated all was not settled.

Russell also said the federation wants the AAU to register its athletes in the USTFF meet. He said that if such a statement is in the back of the mind of the federation, it is not "compelled to join or not" in the AAU.

"We are very pleased with our attendance but, with a better break on the weather I think we could be running about 10 per cent higher. We were at 86 per cent until that cold weather killed us this spring. I think the figures, while low, are fairly good. With a couple of months of good weather, I should pick up at least it shows there is some interest. It's been awfully cold in the state."

"Mr. Engberg feels the league is still in a solid position and until proved wrong by more bad weather and correspondingly low gates, I tend to go along with him. I used to get worried over these early season attendance figures, but now I like to wait until around the fourth of July before making any conclusions. Just two or three real good nights through June 4 or a crucial series could lift any of these clubs over 10,000 easily."

"The way this season is shaping up with at least five teams capable of beating the other half the time, the race itself should stimulate crowd interest. I like to think that fans watch the standings and the schedule pretty closely. We realize it's a little expensive for a family to come out to the game night after night. They are coming when they expect that extra something. And I think they are just as apt to come to the game for the prospect of a good baseball battle as they are for the game itself. If I didn't feel that way, I'd get out of the game."

Beats Pro

Florence Dwyer carried out a net 63 to win the championship of the annual Twin Falls Women's Golf association "beat the pro" tournament Thursday.

The new champion beat the standard set by professional Clyde Thomsen. Pat Williams also turned the trick with a 66 while Lorna Norred-Thomsen at 67.

The 23 entries were all given full handicap and seven strokes.

an outsider, Dr. Ron Lucci, San Francisco, an army dental corps officer stationed in Germany.

Two other Americans—Chris Blocker, 23-year-old soldier stationed in Italy, and Hugh O'Donnell, Hollywood restaurateur—bowed out in the morning's fourth round.

The quarter finals and semi-finals were set for Friday over 18 holes, with the 35-hole title scheduled Saturday over 36 holes.

Wagering is that the United States will take this 35-year-old title. One of the big favorites, Joe Carr, Ireland, was beaten in the fourth round.

James MacArthur, 12 holes in the fourth round to beat John Wilson, Scotland, 1 up, and then had to win five of the last nine holes for a 1-up triumph over John Beharrell, 25-year-old Briton who won the championship as a 18-year-old in 1958.

In the later match, the champion was four down through No. 12 holes and three down through the 13th.

Upstage, the tournament surprise, beat Geoffrey Dixon, England, 2 and 1, and then scored a 3 and 2 triumph over Ronnie Shadle, Scottish walker cup ace who had been established as one of the prime tournament favorites.

Orioles Beat Yanks, Take League Lead

BALTIMORE, June 7 (AP)—The Baltimore Orioles snapped a 2-1 tie with run-producing singles by Brooks and Jim Gentile in the eighth inning Thursday night to defeat New York 4-3 and replace the injury-plagued Yankees as the American League leaders.

The Yanks, who lost Mickey Vernon to a broken leg last Wednesday, had starting pitcher Jim Bouton sidelined by a vicious line drive off the bat of Baltimore's Jack Brandt in the fourth inning.

Bouton suffered a cut on the right side of his face, which required 12 stitches to close, and also a severe bruise of the right clavicle. X-rays showed no fracture of either the jaw or the clavicle.

Baltimore's Jack Brandt, who required 12 stitches to close, and also a severe bruise of the right clavicle. X-rays showed no fracture of either the jaw or the clavicle.

Richards 2 1 1 0 0
Bouton 2 1 1 0 0
Gentile 2 1 1 0 0
Brooks 2 1 1 0 0
Total 2 1 1 0 0

Billings, June 7 (AP)—Billings rapped out a quick four-run in the fourth inning to beat Billings 4-2 in the first game of a scheduled twin double-header Thursday night.

But the second game was canceled in the second inning because of a power failure in the lighting system.

The Braves got three of the runs at the expense of Billings pitcher Edward Hahn and got the fourth from Hahn's replacement, Cliff Poff.

Billings (Braves) ab r h b
Hahn 2 1 1 0 0
Poff 2 1 1 0 0

Four Americans Advance Into British Amateur Quarterfinals

ST. ANDREWS, Scotland, June 7 (AP)—Defending champion Dick Davies, Pasadena, Calif., twice fought back from the brink of defeat Thursday and led a quartet of Americans into the quarter finals of the British amateur golf championships.

Other U. S. winners in a day of double eliminations were two of Davies' Walker cup teammates, Dr. Ed Updegraff, Tucson, Ariz., and Dick Sikes, Springdale, Ark., plus

an outsider, Dr. Ron Lucci, San Francisco, an army dental corps officer stationed in Germany.

Two other Americans—Chris Blocker, 23-year-old soldier stationed in Italy, and Hugh O'Donnell, Hollywood restaurateur—bowed out in the morning's fourth round.

The quarter finals and semi-finals were set for Friday over 18 holes, with the 35-hole title scheduled Saturday over 36 holes.

Wagering is that the United States will take this 35-year-old title. One of the big favorites, Joe Carr, Ireland, was beaten in the fourth round.

Twin Falls "B" Team Edges Eden

EDEN, June 7—The Twin Falls "B" team nipped Eden 4-1 in a crisply played game Thursday night, dominated largely by four pitchers.

Twin Falls' Kirk Williams took the victory after hurling seven shutout innings and Steve Sharp mopped up the final two and added a double and single.

Eden's English matched Williams for five-innings—before giving way to eventual hero Kelly.

Twin Falls lost the win in the top of the eighth inning when Tom Lynch and Ed Storey walked and Jeff Mitchell lined on an error. Jerry Brown and Stan Voyles followed with singles for two runs and after Steve Humphreys walked, Jim Holly singled home the other two runs.

Eden got its run in the bottom of the inning when Knight and Kelly walked and Huggins moved Knight up with a fielder's choice. Lupe Torres singled to bring Knight home.

Cubs Outlast Giants, Take Share of Lead

CHICAGO, June 7 (AP)—Relief pitcher Lin McClellan claimed a 10th-inning homerun off Billy Pierce Thursday as the Chicago Cubs beat the New York Yankees in 1961, was shipped to the Richmond farm club Thursday when the Yankees recalled Lethbridge at Downing from Richmond.

The Cubs tied the score at 2-2 on a two-run homerun by Billy Williams in the eighth.

McClellan had belted the Cubs out of trouble in the top of the 10th by picking Willie Mays off second base with the bases loaded and one out, then fanning Ed Bailey to retire the side.

Cowboys Braced For Tough Home Stand Saturday

Back on top of the Pioneer league standings, the Magic Valley Cowboys are hosting the Great Falls Electric and Billings Mustangs. The stand will be highlighted by the special "Boy Scout" night at three park Saturday night at which the club will be shooting for an all-time attendance record and the area Boy Scout Council will pick up all the proceeds. Cow-boys fans are reminded all game times will be 8 p.m. and season tickets will not be honored for Boy Scout night. General manager Wayne E. (Bert) Jewell pointed out this is stipulated on the back of the tickets.

Reds Sweep Twin Bill Over Pirates

PITTSBURGH, June 7 (AP)—Cincinnati swept a two-night doubleheader from Pittsburgh Thursday night 7-5 and 10-5 with Frank Robinson slugging a pair of homers in the opener and Gordy Coleman driving in the clincher in the second.

Cincinnati collected five runs in the eighth and two in the ninth, but was held to a single and a bases loaded triple, a single and a bases loaded triple after the red-hot Robinson made it four homers in two games with his first game blast that drove in three runs.
