

Labor Secretary, Kennedy Confer On Strike Threat

WASHINGTON, July 4 (AP)—Secretary of Labor W. Willard Wirtz conferred with President Kennedy today on the threatened rail strike. He said he will meet Friday with the disputing parties; but held out no real hope whatsoever of an agreement. Wirtz said it will be necessary to await developments in determining whether congress may be asked for legislation to halt the strike in advance of a deadline at midnight next Wednesday. Kennedy had warned both labor and management that if they could not settle their dispute over work rules by the July 1 deadline he would call congress for new legislation which will prohibit the railroads from striking.

T. F. School Board Plans Monday Meet

Superintendent Reginald, Twin Falls school district, will lead the board of trustees to meet Monday to operate on a strict budget this year. The board will also discuss a proposed five-mill levy designed to raise maintenance and operating funds for the district.

Reginald announced the school district trustees will meet Monday morning at 9 a. m. in the Twin Falls school district. No. 10, at the school building.

He said he will appreciate the aid of the board members who have worked hard for the district. He will be presenting the newspaper, radio and television and also members of the board.

The two-thirds majority required by Idaho school law is a very rigid standard which does not allow for a wide margin of error.

What specific results will be obtained from the election defeat cannot be too positively known at this time. More resignations may be required to fill the vacancies in the board.

Romania to Make Try for West Trade

VIENNA, Austria, July 4 (AP)—Foreign Minister Bruno Kreisky said today Communist Romania appears to be seeking closer economic trade with western countries. He said Romania is interested in industrial potential outside the Moscow bloc.

Romania now, coupled with a policy of demonstrative neutrality in the ideological field, is seeking to establish closer relations with the West, he said.

The formal purpose of Kreisky's visit was the conclusion of an agreement on reimbursement of Austrian financial assets in Romania.

The Austrians, however, also negotiated a number of long-term economic contracts with the Romanian government.

Where once the roar and whine of great plumes and jet engines was heard at Lewis Propulsion Laboratory of National Advisory Committee for Aeronautics, today the noiseless glow of a small electric rocket in a vacuum chamber symbolizes the mission assigned to Lewis Research Center, another major facility of National Aeronautics and Space Administration.

That mission is the development of new types of propulsion for spacecraft of the future. The 1,800 engineers and scientists at the 350-acre facility just west of Cleveland, Ohio, are exploring the potentials of chemical, electric and nuclear power for tomorrow's Mars ship.

Though their thrust is measured in but fractions of pounds, compared to the 7.5 million

pounds of Saturn V, the moon project booster, Lewis-developed engines may make a trip to Mars or Venus a matter of weeks rather than years because they could operate efficiently.

In second panel, a nuclear spaceship hovers near Mars' tiny outer moon, Deimos.

Chemical rockets will take man to the moon, but only some kind of electric rocket, powered by a nuclear reactor, will make intensive exploration of the solar system possible.

Lewis is studying three types of electric propulsion. One engine, which uses ions—electrically charged atoms—will be tested in 1963.

Lewis has also been given the task of developing the Centaur, a liquid-hydrogen rocket on which several of NASA's space programs

are waiting. This helped nearly quadruple the center's budget from \$85 million in fiscal 1962 to \$200 million in 1963. For fiscal 1964, \$500 million is being asked.

Sixty miles to the west, near Sandusky, is Plum Brook Research Station, site of a nuclear reactor operated by Lewis. Here, the effects of nuclear radiation on rocket engines and spacecraft components are being investigated.

Lewis also has a role in the Apollo moon program. Studies are being made on propellants for the landing craft and work has been done in the center's 8 x 6 wind tunnel (third panel) to study the effects of rocket engine blast on a simulated lunar surface.

Bunche-Describes U.S. Race Trouble As "Epic Battle of Conscience"

REHABILITATION NATIONAL PARK, on the rights of man shut on the 19th of U. S. undersecretary, said today the United States is waging "an epic battle of conscience" on the race question.

"I believe it will emerge as a stronger politically and economically with its people more fully united," he said.

Bunche was U.S. guest speaker at Denmark's 51st celebration of the American Independence day. Grantson of a slave, he referred to "West Africa, whence certain of my ancestors came to the shores of America, somewhat reluctantly, according to history."

He said the 150-year-old Gen. Dag Hammarskjold referred to him as an "honorary Scandinavian."

"Those in my ethnic group in the American population include the American Negro," he said. "Those who are second to none in staunchly supporting the democratic principles of the United States."

It may be said particularly in the South—but in fact the Negro American all over the country is demanding fully equal status with a new determination and impatience and he is winning also much wider sympathy and support for his cause than here before."

Conelrad to Be Replaced Aug. 5

WASHINGTON, July 4 (AP)—Those two little markers at 840 and 1240 on your radio dial will go the way of "Ma Perkins" and the crystal set this summer.

CONELRAD, age 11½, will be extinct as a means of wartime communication among the civilian population.

Its successor is the new Emergency Broadcast system which will open the entire AM broadcast band—instead of only 400 and 1240—to broadcasters during any enemy attack.

The changeover is expected to occur Aug. 5.

Will you leave these freedoms to your children?

- Men have died to leave you these 4 symbols of freedom:
 - A Holy Bible—your right to worship as you wish. (First Amendment, U.S. Constitution)
 - A door key—your right to lock your door against the government force and spying. (Fourth Amendment, U.S. Constitution)
 - A pencil—Freedom to speak or write what you think, whether you agree with the government or not. (First Amendment, U.S. Constitution)
 - And a free ballot—your right to choose the people who represent you in government—your protection against government tyranny. (Article I, U.S. Constitution)

In half the world today, these symbols and the things they stand for have been destroyed.

And Khrushchev says it can happen here. He boasts that our grandchildren will live under socialism.

Unthinkable? Yes—but only so long as America guards its freedoms well. Against threats that come from inside our country, as well as from the outside.

In these critical times you would think that all of America's energies and financial resources should be concentrated on strengthening our country's defense.

But there are some people who would weaken this effort through needless government spending. For example, they want to use billions of your tax dollars to put the government deeper into the electric power business.

Such spending is unnecessary because the investor-owned electric light and power companies can supply all the additional power a growing America will need.

Each time the government moves further into business—any business—it is another step on the road to socialism. And socialism is one thing Americans do not mean to leave to their children—or grandchildren, despite what Khrushchev says.

Did Gold From Idaho's Mines Help in Winning Civil War?

BOISE, July 4 (AP)—Did the about 44 million dollars in gold that flowed out of Idaho's mines help in winning the Civil War? There is no way to estimate how much value Idaho gold actually had in the war effort, Wells says, that Ken Owens.

The persistent legends of Idaho's gold history is one which contends that the riches of the Idaho mines in the early 1860s paid for cannon and cannonball—the tide ran in the direction of Union forces along the road to Appomattox.

There are local legends also that the gold from French gulch at Elk city won the war. The Idaho Historical society said this claim isn't restricted to Idaho but is made for all gold during the war.

Wells said that a gold dollar mined during the war was worth as much as \$1.50 today. Many of them in comparison to 80 or 70 cents from the southern states, secreted in the Confederate cause.

Wells says that, higher, the currency's value. He says that the government was not willing to receive paper money in gold and silver. The war it abandoned this specie payment because of a shortage of gold.

Wells says that the new mines were nearly depleted by the rush to the mines in Portland, Florence, Elko City and Orofino. In what is now Idaho, mining was still going on in 1864 and 1865. The Boise basin alone, between 1862 and 1865, turned out about 24 million dollars in gold.

Idaho was during the last two years of the war virtually a "Confederate" territory. The majority of its population, migrants from the southern states, undoubtedly favored the Confederate side.

The legislature was heavily Democratic, and pro-Confederate.

But the Territorial officers were all Union men, appointed by President Abraham Lincoln.

It is undoubtedly true that Idaho gold would have helped the south, but there is no historical evidence that any of it got to Richmond.

There are southern-sympathizing miners who have wanted to send it there, but they were selling it and not giving it away. And they would have had a difficult problem in shipping it to the south.

Nevertheless, the story persists that the U.S. army garrison at Fort Boise was largely concerned with keeping Idaho gold from falling into Confederate hands.

Clark, Twin Falls, and William A. Case, Clark, who attends the University of Idaho, was graduated from Twin Falls high school in 1960. His wife, Shirley, lives in Twin Falls. Case is a student at Washington State university. About 1,400 cadets from 43 colleges and universities are attending the six-week camp which ends Aug. 2, as part of their precommissioning training. Completion of the camp, plus graduation from college, is necessary before the cadets can receive their commissions as second lieutenants.

U.S. Believed Ahead of Reds in Nuclear Weapons

WASHINGTON, July 4 (AP)—High U.S. officials believe the Soviet Union is far ahead of the United States in its stockpile of nuclear weapons, despite the fact that the U.S. has more nuclear warheads and bombs.

This is one important factor in the "secret" struggle to outpace the Soviet Union in the production of nuclear weapons.

Another controlling consideration is the amount of both the nuclear arsenal and the stockpile of fissionable material used in weapons production.

Both have been growing for about 17 years, with a sharp surge in the past decade.

Details of this country's nuclear armament are a "black" matter, but some glowing from the public record give an inkling of its scope and destructive power.

An analysis prepared for the U.S. disarmament agency last year estimated that this country has some 40,000 nuclear warheads and bombs.

Five months ago, Secretary of Defense Robert S. McNamara told Congress he believes the Soviet Union has sufficient power to destroy the United States.

Deputy secretary of defense, Roswell L. Gilpatrick, predicted more than a year ago that the United States will double its nuclear striking power by 1965.

"That is why we feel that no matter what the Soviets do, we will maintain the margin of superiority that we possess today," the Pentagon's second in command declared.

Pope Paul May Visit in America

WASHINGTON, July 4 (AP)—Pope Paul VI may become the first pontiff of the Roman Catholic church to visit the United States.

A high Vatican source said there was a possibility the new pope might visit the new world if an "opportune occasion" presented itself.

Any such move, however, probably would not be made until after the 1964 presidential election.

Possibility of the visit emerged following President Kennedy's private meeting with the pope yesterday.

Buck's history-making voyage on the part of newly crowned Pope Paul could not possibly come before the end of the Eucharistic council, the source said. The council begins its second session September 10, closing date has been set.

Differences In Language Pose Threat

BRUSSELS, July 4 (AP)—King Baudouin is consulting politicians in an effort to save the Belgian government from collapse over the issue of Flemish language differences.

The government crisis came to head yesterday when Premier Leo Lefevre, a Social Christian, announced his resignation because the Socialist party rejected a compromise backed by him. Lefevre said the king did not immediately accept the resignation.

Problems between Belgium's French-speaking Walloons and the Dutch-speaking Flemish has plagued the country for decades.

Lefevre formed his coalition with the Socialists in 1961. He at once loosened animosity between the two groups.

Last year parliament approved a bill permanently fixing the frontier between the Flemish and Walloon parts of the country.

Visible across over the status of Brussels, the capital, and the city's language was also a major issue in Brussels, and that French-speaking residents were frustrated and resentful of the predominantly Flemish villages in the outskirts.

News Around Idaho

BOISE, July 4 (UP)—Paul Church, D. Ida., said the decision to extend the Bonneville power administration's marketing area into western Idaho does not constitute a threat to private power companies. Church, in testimony before a committee of the Ada county Democratic central committee at Boise Wednesday, said "years talk about this being a step toward socialism is not rational talk at all." He said the private power companies in the EPA area will be prospering and that Idaho Power will be here for a long time. "On the record," he said, "BPA constitutes no threat to Idaho Power or Utah Power and Light company."

BONNERS FERRY, July 4 (UP)—A 25-year franchise to operate natural gas service in Bonners Ferry was awarded to the Washington Water Power company, Wednesday by the city's board of trustees. Company officials said 2,000 feet of pipe has already been installed and they expect to begin service by Sept. 1.

BOISE, July 4 (UP)—Appointment of John G. Root as Boise postmaster was assured today with an announcement by Sen. Frank Church, D. Ida., that he has submitted Root's nomination to President Kennedy. The nomination of Root was originally referred by the Senate to the Federal Bureau of Investigation central committee which split earlier this year over election of Emmett Bennett as chairman.

BOISE, July 4 (UP)—The state board of pardons considered 14 applications for clemency Wednesday in its first action after regular quarterly meeting. Secretary Saul Clark said all cases were of a routine nature. Ten were denied, one final release and one pardon were granted and two cases were continued to the next quarterly meeting. Clark said they will meet Monday to consider additional clemency requests.

MIDDLETON, July 4 (UP)—A single car accident on the Little Freeway road about four miles northwest of here claimed the life of 10-year-old Don Pullington, Caldwell, Wednesday afternoon. The car was driven by a 20-year-old man who was driving the car out of control of the vehicle when it skidded on the gravel road. The car hit the shoulder of the road and overturned. Don Pullington was killed instantly and his mother sustaining minor injuries.

BOISE, July 4 (UP)—The city council in its regular session Tuesday night decided it would confer with another engineering firm regarding estimates on a proposed street improvement district. The city council will meet Wednesday night to consider the report. The city engineer says the cost of the high oiling several streets is proposed.

POCATELLO, July 4 (UP)—It appears that the 1963 flood in Bannock county may have caused as little as one-sixth as much damage as the one in this area a year earlier. That is the indication from the National Flood Insurance Administration report on public law 875. It authorizes grants, which do not have to be repaid, to governmental agencies for some flood-fighting costs. Defense Director Jack Novins, who processed all of the claims at the county, said claims this year amounted to \$40,000. The total for the 1962 was \$225,000 to \$300,000 paid out under the law in 1962.

SALMON, July 4 (UP)—The U.S. forest service Wednesday completed a 16,000 acre experimental spraying program for control of spruce budworm in the Salmon national forest. A massive control program was begun Wednesday by various agencies and objections from sportmen who feared loss of fish life. The forest service began an experimental program, where DDT is sprayed at varying degrees and heights from the main forest in which the spray may have an effect on steedhead and salmon.

BOISE, July 4 (UP)—Owners of aircraft were warned Wednesday by Chet Moulton, state aeronautics director, that July 1 was the deadline for renewing plane registration. He said a list of all aircraft and emergency equipment, Bannock County city and county sheriffs with orders to prosecute those who fail to get renewals. The annual aircraft registration fee is based on the weight of the aircraft and varies from \$10 to \$100. Moulton said that renewal applications have been mailed to owners of all aircraft which were registered last year. Renewal application forms also are available from all airport operators.

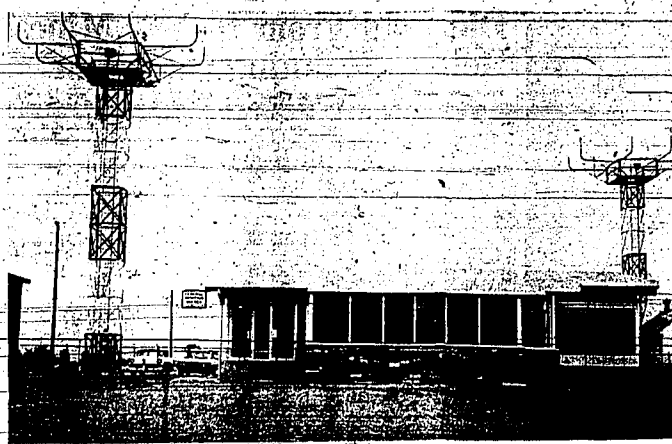

POCATELLO, July 4 (UP)—School board officials here say the proposed \$3.5 million in additional school taxes the voters will be asked to approve July 30 would raise an estimated \$21,320 in extra revenue. The district would be the most of the money if the voters approved to increase teacher pay and to estimate part of the cost of opening the new high school. The Pocatello school board is a national 100,000 member organization. The Idaho law permits school districts to tax themselves to any extent as long as it is approved by two-thirds of those voting.

POCATELLO, July 4 (UP)—The Pocatello city commission has voted to adopt its new zoning ordinance, without major revisions. The action was taken after the commission heard the ordinance was a strong protest, that from an attorney who said he was spokesman for a committee representing some lawyers and real estate agents. The attorney called the ordinance "objectionable" and felt there were several "objectionable provisions" in the new ordinance. The new plan will increase the number of stories in the city from 10 to 12. The ordinance also provides for residential, agricultural zone, which drew protests at earlier meetings, was eliminated.

BOISE, July 4 (UP)—Representatives to a fire control conference in the state capital were told Wednesday that rising temperatures are causing the danger in Idaho to climb rapidly. The conference was called to go over methods to be used in fighting fires in the Gem State's timberlands and in its widespread rangeland. Gov. Albert J. Benson said that the fire control agencies have "never been so busy as they are now." He said the state has never had every possible job to reach a peak of maximum readiness. Also coming under discussion was a national guard plan developed during recent years but it is intended to provide assistance from the military organization as needed.

ST. ANTHONY, July 4 (UP)—Trustees of Fremont county school district and Sugar-Salem school district in a joint meeting Tuesday night agreed to explore the feasibility of consolidation. The trustees of the two boards discussed their mutual problems and agreed that a consolidation may help to reduce administrative and other costs.

Money Saving Operation Is Pointed Out
BOISE, July 4 (UP)—State Auditor Joe R. Williams pointed Tuesday to accomplishments in his own office as evidence that the cost of Idaho's governmental operations can be reduced. He credited the savings primarily to more efficient operations. For the biennium which ended June 30, Williams' office had an appropriation of \$39,000. When the fiscal period ended, \$44,074 of that amount was unspent and was returned to the state treasury. He figured the savings at 13.8 per cent. "Primarily," the auditor said, "the savings expenditures, as compared with the amount appropriated by the legislature, are the result of improved book-keeping methods. "The installation of electronic equipment has permitted us to perform more work with far less labor time. The result is a savings in expenditures for salaries and wages and an increase in accuracy. "Another factor in the savings is the willingness of employees

Dedication of New Burley Airport Flight Station Set

BURLEY, July 4 (UP)—Edward C. Marsh, Los Angeles, deputy air marshal and assistant administrator of the federal aviation agency, western region, will be principal speaker at the dedication of the PAA's new flight station at the Burley municipal airport at 8:15 p.m. July 11.

"The newly constructed glass and stone building will be open to the public throughout the day for tours," Dan W. Lane is chief of the Burley station.

Marsh and other FAA officials will be present at the ceremony.

Boise College to Get New Library

BOISE, July 4 (UP)—The Boise Junior college board of trustees has awarded contracts for construction of a new library and a new technical vocational education building to be financed by an \$800,000 bond issue.

Submitting a winning bid of \$226,681 for the library was the Jackson Construction company. The new library will be a two-story building and will be completed by Friday, Judge Hedrick, however, extended the delay over this week-end.

CLOSURE SET

NAIROBI, Kenya, July 4 (UP)—South African Airways will be denied landing rights and the South African consulate in Nairobi will be closed down when Kenya becomes independent Dec. 12.

TRUYES, Florida, July 4 (UP)—Palmer Pierre Cap, who heard a rustling in his cherry tree, fired a rifle into it to scare off what he thought were birds. His son, Ozer, 12, fell dead from the tree.

Resignations Plague East Idaho Schools

IDAHO FALLS, July 4 (UP)—A wave of resignations of eastern Idaho school superintendents continued today as Supt. John Orr announced he is leaving his post as head of Idaho Falls district schools.

Orr said his resignation was prompted by a "lack of faith in the future of the district schools and concern for his personal future. He said he feels Idaho schools are not being supported properly.

"I feel everything is being done locally that can be done and that our problem is a state problem," Orr said.

Orr criticized the state school aid formula adopted by this year's legislature which, he said, hurts the Idaho Falls district. He said he has no definite plans for a new position at this time.

Kiwians Hear Speech by Dean

REV. ALBERT JAMES WHITE of the First Presbyterian Church, Boise, spoke on "Risks, Riots and Responsibilities," during the Kiwanis luncheon at the Shubert pointed out risks and responsibilities at college and universities take back to the middle area and have occurred all over the world.

Most are "spur-of-the-moment" affairs inspired by the interest, aimed at improving conditions or standards on the campuses.

Dr. Burkholtz, Jerome, was visiting Kiwanian, and George Lane, Jerome, was a guest.

Troops Sent To British Guiana Town

GEORGETOWN, British Guiana, July 4 (AP) — Fresh British troops were reported heading to this troubled colony on the east coast of South America today because of the increasingly grim, political and labor situation.

British colonialist guard units already here were called out yesterday to halt a new wave of violence and looting at the town of Fitzpatrick, five miles east of Georgetown.

The fighting apparently was between Negro and east Indian groups, which generally are lined up on opposite sides of the political dispute which has led to an 11-week general strike. There was no report of casualties.

Premier Cheddi Jagan, who has the support of most East Indians, was reported to have invited a United Nations mission to visit British Guiana for an urgent on-the-spot investigation.

In London, the British ministry of defense said today it was flying a fresh company of troops to the colony immediately because of the deterioration in the situation there.

Youth-Employment Service Makes 150th Placement

The 150th Youth Employment Service was secured here at Judy Ramseyer, daughter of Mr. and Mrs. Don Ramseyer, route 2, Twin Falls, the 15th YES summer job placement here. George Bladner, Twin Falls high school principal, looks over Miss Ramseyer's work-and later secured approval of the Youth Employment Service's choice of summer replacement workers, Miss Ramseyer registered with the YES May 14 this year. (Times-News photo)

Principal Stauber is very happy with the job Miss Ramseyer is doing and said, "The YES program is doing a fine public service. I have the names of 700 girls who could do the work if they wanted to, but I contacted the YES because I thought the students registered there would want to work. No one wants to have to 'make someone work'."

Larry Mitchell, head of the youth program, reminds students that there are between 600 and 700 eager and capable youngsters registered who can clean houses, babysit, babysit, and do other household chores.

Mitchell also reports several competent young women are available who could fill temporary secretarial and clerical positions.

The supply of workers is well ahead of the demand for best hoes, rammers and cherry pickers.

Hot Fall

JOPLIN, Mo., July 4 (AP) — Harry Dean, Jr., a potential Fourth of July celebrant, took a spill on his bicycle yesterday while carrying a pocketful of firecrackers. The firecrackers exploded. He was admitted to St. John's hospital with serious burns on his right thigh.

Boise Is Having Special Census

BOISE, July 4 (AP) — A U. S. Bureau of the census office from Denver has arrived in Boise to do the aroundwork for a special census of Idaho's largest city.

Boise city officials have asked the count in an effort to obtain metropolitan area designation for the city. A city's population must exceed 50,000 to win the metropolitan tag.

Recent annexation has pushed the city's population beyond the 50,000 mark. Boise officials said,

Negro Groups Join Against Segregation

NEW YORK, July 4 (AP) — Seven major civil rights organizations have announced agreement to coordinate their campaigns against racial discrimination in Washington.

They also set up an emergency fund with a goal of 15 million dollars.

The announcement came Tuesday after a meeting of the heads of the groups, including the National Association for the Advancement of Colored People, the Southern Christian Leadership Conference and the Congress of Racial Equality.

In another development, more than 100 civic, labor and religious groups endorsed the integration-themed march in Washington Aug. 28 in support of President Kennedy's civil rights program.

Negro leaders said the demonstration will be "the strongest action, name-calling, speaking, that we have ever held."

American Forces Network Lauded

FRANCIS, July 4 (AP) — The American Forces Network (AFN), voice of Uncle Sam to millions of Americans and Europeans, yesterday observed 20 years of unbroken broadcasting in Europe.

It was on July 4, 1943, that AFN began broadcasting from a cell in Gibraltar in London. Although it has never been heard in the United States, it has become a way of life here.

Many young Europeans have learned English by listening to AFN's jazz and other programs.

President Kennedy, the army force and millions of Europeans who claim it as their favorite station have joined in today's plaudits.

Fieldhouse Set

CALDWELL, July 4 (AP) — The Caldwell building inspector has issued a permit to Canyon Multi-Purpose Stadium, Inc., for construction of a fieldhouse.

One of the project was listed yesterday at \$1 million and will be built by August Mitchell McCarty. It will be one of the facilities in a \$27,000 stadium project.

Food for Americans
By GAYNOR MADDOX

Vegetables are delicious cooked on an outdoor grill. While they are cooking, brush the center part of the grill, took packages of vegetables around the outside with one or two less intense.

Try young peas, the first carrots and beets. Add freshly chopped parsley and other herbs, butter, salt and pepper.

Enough to serve the crowd into a good-sized aluminum foil package and cook about 30 minutes on the grill.

Cooking should be gentle. They will take a bit longer than when cooked with water in a saucepan.

Roast big Bermuda onions in their skins. Wrap them individually in foil and bake like a potato. Combine several vegetables in one package for a casserole.

You'll need to shake the package in a wicker basket. Let it stay closed until the minute of serving, so the aroma and flavor of plant vegetables can be enjoyed to the utmost.

SUMMER SQUASH, ONIONS AND PEAS

Slice tender young summer squash in 1/4-inch slices. Slice onions very thin. Arrange a layer of summer squash, a layer of onion slices and a final layer of squash on the foil. Dot with butter, salt and pepper and a little basil and chopped parsley. Seal the foil and cook for 30 minutes, shaking the package occasionally.

GRILLED STUFFED TOMATOES

Out slices from tops of firm tomatoes. Scoop out juice and pulp. Combine chopped jellyfish, chicken, ham or tuna fish with soft stale bread crumbs and seasonings. Moisten with the tomato pulp. Refill tomatoes. Wrap each individually in foil. Cook on grill 25 minutes. Eat right from foil.

SALMAGUNDI

Out fresh corn from the cob. Peel fresh tomatoes, squeeze out the seeds and discard. Then chop. Peel and dice small eggplants, remove seed and dice green pepper and chop onion.

Combine all these vegetables on a large piece of heavy-duty aluminum foil—allowing about equal amounts of corn, eggplant and tomato; less of green pepper and onion.

Dot with butter and sprinkle with salt, pepper, garlic and a little basil and chopped parsley. Seal the foil and cook for 30 minutes, shaking the package occasionally.

Every department reduces summer stock...you get unbelievable savings on fashion and home needs you want right now...right through summer!

Gooding Miss Is Bride of Larry Lynch

GOODING—July 4—Joyce Arlene Barton, daughter of Mr. and Mrs. A. L. Barton, Gooding, is the bride of Larry Joe Lynch, Boise, son of Mrs. Mary McGee, former Bliss resident, June 21.

The Rev. Jack Foreman performed the ceremony at the First Christian church. The bride wore a gown of white tulle, featuring a bouffant skirt forming a bustle at the back and extending into a chapel train. The fitted bodice featured points at the waistline, a sweetheart neckline trimmed with sequins and long tapered sleeves.

A crown of seed pearls held her nylon illusion veil and she carried a white Bible topped with a cluster of baby pink roses tied with pink ribbon streamers.

Yvonne Barton, sister of the bride, was maid of honor. She wore a gown of blue pure silk and carried a pink bouquet.

Best men were Donna Howe, Mable and Carolyn Muir. They were dressed in patterned suits and each carried a long stem, red rose colored peony.

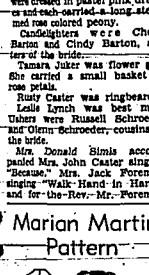

Godparents were a cherri Barton and Cindy Barton, sisters of the bride.

The bride was flower girl. She carried a small basket of rose petals.

Russ Carter was ringbearer, Louis Lynch was best man. Ushers were Russell Schroeder and Glenn Schroeder, cousins of the bride.

Mrs. Donald Blinn accompanied Mrs. John Carter singing "Because." Mrs. Jack Foreman singing "Walk Hand in Hand," and for the Rev. Mr. Foreman.

OKAY has low meat prices . . . always finest quality!

When you rely on Okay's Quality Meats you can be absolutely sure of getting tender, full-flavored meat at budget stretching prices. Select these featured items at your friendly Okay service meat counter today. See the many other selections in the sparkling clean show cases. No other beef so fresh can be more naturally tender than the beef you buy at Okay. No thing is added to Okay beef to make it tender. Okay selects only U.S. Government graded choice meats. This fresh beef is hung in meat coolers where temperature and humidity are rigidly controlled to utilize nature's own way of making beef tender, while it's still fresh. That's why we say that no other beef so fresh can be any more naturally tender than the beef you'll find at Okay!
