WASHINGTON, July 15 (AP)—Sen. Karl E. Mundt, R., S. D., called on today to tighten what he termed his "mail-heated" economic blockade of Cuba. Mundt recommended a four-point program of action "to deny short of war" which would deny U.S. ports to ships of any country retelling its vessels trade with Cuba and would use the foreign aid program to reward nations joining in an anti-Castro coalition. He also proposed that the Organization of American States and NATO be asked officially to halt trade with Cuba and that similar requests go to every other nation outside communist domination.

Director Bradford Washburn of Museum of Science, Boston, indicates the spot on a detailed photograph of Mt. McKinley taken by Washburn on an expedition.

Mundt in the latest in a series of Republican senate speeches said that the number of trips by free-world ships to Cuba had increased since January and that the "voluntary" ban on Soviet-bloc shipping to Cuba seems to be rising. He conceded that there was a "virtually complete embargo on U.S. Cuba trade" in effect since February, 1962, and that most Latin American countries were sharply curtailing their own Cuban trade.

AFL-CIO Hits Interest Hikes

WASHINGTON, July 15 (AP)—The AFL-CIO told the federal reserve board yesterday that it strongly opposed any move that would increase interest rates.

AFL-CIO President George Meany said in a letter to Reserve Board Chairman William McMartin that moves to lighten the money supply now would be "dangerous." Meany called for lower interest rates to stimulate the economy.

Climbing Team Found in Alaska

TALKEETA, Alaska, July 15 (AP)—Seven Harvard university students were sighted leading into solid-celling of clouds. Director Bradford Washburn of Museum of Science, Boston, indicated the spot on a detailed photograph of Mt. McKinley taken by Washburn on an expedition.

The climbers were last seen on the lower part of sheer Wickersham wall, leading to 16,420-foot North peak. When clouds lifted late Sunday, a bush pilot spotted the party much higher on the side of the mountain and in no difficulty of wirephoto.

Mrs. Kennedy Is Receiving Many Gifts for Baby

WASHINGTON, July 15 (AP)—Many Americans already are sending gifts and good wishes to Mrs. John F. Kennedy, who is expecting a third baby in late August.

Baby booties, bibs, bonnets, sweaters and handmade quilts are often included in the daily mail at the White House, along with notes from many parts of the world.

A White House spokesman says the letters even include offers to help care for the new baby. And, the mail also brings name suggestions and requests to be godparents.

Some letter writers urge Mrs. Kennedy to have her new baby born in the White House itself.

Millionaire Number Is Growing

The nation is producing millionaires at the fastest clip since the post-rich-quick era of the late 1920's.

The Internal Revenue Service (IRS) in its latest tabulation on the subject reported today that 398 persons filed returns showing 1 million dollars or more income in 1961.

This was the largest number since 1929 when the stock market was at the peak of its speculative phase; and the total of 1-million-dollar taxpayers hit a record six.

Ninety-two new fares were added to this select group in 1961, the biggest increase since 1928 when the number soared by 71.

The IRS statistics show only estimate there are a lot more those who reported earning 1 million dollars or more during the year. Some have parked the number the distribution of U. S. wealth as high as 100,000.

Master Spy Name Confusion Grows

LONDON, July 15 (AP)—A Soviet embassy spokesman today injected an element of confusion regarding the identity of the Russian master spy who defected to the West 18 months ago.

In an unusual conversation, he told reporters that a man named Art Leitt, Alexander Dolynin, worked at the Soviet embassy in New York but that he was not a defector and is actually living in Moscow.

The British government last week circulated a notice to British editors describing the defector by that name.

These men would like to do some of your worrying for you!

These men can't help you with all your troubles... but they can let you breathe easier about your family's future!

They're well trained to go over your financial set-up... and show you how insurance can work with your present assets to solve many problems, and help you do the things you want for your family.

They may find out how you can make your present insurance go further. Or if you need it, they can recommend a program of money insurance to fill gaps in your family protection... help educate your children

... provide for your own retirement. Things like that.

Last year, folks in Idaho arranged many millions of dollars of life protection with money. Many others took advantage of money health plans. Many employers, too, arrange group insurance with money.

Here in Twin Falls, more and more people are enjoying the confidence and protection of coverage through money.

Obviously, a lot of people in Twin Falls think money policies are mighty good things to own. And they'll tell you, the personal

attention of a money man... and the continuing services they offer after you start a money program... is as valuable as the policies themselves! Shouldn't you let a money man worry for man? Call one of the men above. You can reach them directly, or through:

Small Farm Town Takes Negro Youths

MORRISON, Ill., July 15 (AP)—While racial conflict made headlines, this tiny all-white Illinois farm community of 4200 took a group of Negro children into their homes and lives. In an unheralded week-long experiment, 18 families "adopted" 19 Negro children from Chicago's crowded near West Side.

The Charles Woodson family, who added two temporary members to their family, said Saturday the experience was "a rewarding one" for them and "an enjoyable one" for their visitors. "Aside from a boat ride on the Mississippi river and a church picnic, the children have been doing just what our own families usually do," Mrs. Woodson said, "including the chores."

Woodson, a postal employe, his wife, Betty, and their three children have two girls, Lillie McCullough, 12, and Sheila Brown, 12, staying with them. Mrs. Woodson said the visit was good for her family and for the children "not only because of the nice situation, but because they are city children who would be able to state a 'farm community' otherwise."

The program was planned last winter between Morrison's First Presbyterian church and its pastor, the Rev. Thomas T. Chapin, and Boston Neighborhood house, a Presbyterian agency in Chicago, and its director, the Rev. Raymond K. Day.

Wirtz Says Rails, Unions Irresponsible

WASHINGTON, July 15 (AP)—Secretary of Labor W. Willard Wirtz says the four-year-old dispute over railroad work rules is heading toward a compulsory solution, because both the carriers and the unions are guilty of "a failure of responsibility."

There is "no affirmative attempt by either side in this situation to do anything about settling it even at this hour," Wirtz said Sunday at a "special" presidential panel prepared to sift the facts in the job market.

"There has been at this point an apparent assumption by both parties that somebody else, the government, the congress, whoever it may be, is going to decide this," the secretary said.

Still, Wirtz added, he hopes that "then both of these parties are looking down the gun barrel" of possible congressional action. "There is going to be a real fact, that if they don't settle, the prospect is something which will weaken the whole institution of collective bargaining."

Wirtz is chairman of the special committee that begins today to lay the basis for a report. President Kennedy plans to send to congress July 22 aimed at solving the rules dispute. Wirtz said in an earlier report the administration would recommend compulsory arbitration.

Carrier and union representatives will be standing by as the panel meets today, ready for questioning—on specific points. Tuesday the committee will hold separate and joint sessions with the two sides, hoping to begin writing a report for Kennedy on Wednesday.

Over the weekend, Sen. Jacob K. Javits, N.Y., and Sen. Wayne Morse, D. Ore., said they were opposed to legislation that would require compulsory arbitration of the dispute.

TEST YOURSELF - 4 Can You Look Ahead?

By WILLIAM BERNARD and JULLIS LEOPOLD
TIME LIMIT: 5 MINUTES

The rat runs in trial-and-error to get through a maze. But the trial-and-error method will not enable you to thread these mazes in time to get a good score, for the choices are too many. You will have to look ahead of your pencil and mentally eliminate undesirable paths.

DIRECTIONS—Starting in the upper-left corner, draw a line through each maze to its exit. You are not permitted to cross itself or any other line. If you do cross a line or go into a blind alley, you may return to the entrance and start over again, but you may skip up where your line turned into the blind alley.

Negro Drive for Freedom Hinges on Job Creation

WASHINGTON, July 15 (UPI)—President Kennedy's top economist warned today that the Negro drive for civil rights and job equality will be "frustrated and frustrating" unless the country provides millions of new jobs.

Chairman Walter H. Heller of the President's Council of Economic Advisors said Negro unemployment—now double the white rate—will fall twice as fast as the white rate unless the way to full employment.

By providing equal hiring opportunities, the nation can expand its output by 14.5 billion dollars a year, Heller told the Associated Press in an interview.

The question-and-answer text: Q. Mr. Chairman, would you say that the civil rights problem is in large part an economic problem? A. Well, civil rights don't mean much without economic rights—without the right and above all, the opportunity to get a self-respecting job.

Q. In that connection, you said recently in effect that full em-

ployment means more to non-whites than to any other major group. Why? A. The answer is very simple, and I found in the unemployment rates today. For Negroes, unemployment is over 10 per cent. For whites it's about five per cent. When overall unemployment falls, we find from past experience that the rate for Negroes falls twice as fast as the rate for whites. It's crystal clear that the Negro has a true stake in successful policies for full employment.

Q. Is it fairly predictable that Negro joblessness will drop twice as fast as whites, given a general improvement in jobs? A. Let me give you chapter and verse. First, let's look at the record when unemployment goes up. When the over-all unemployment rate rose 2 1/2 points, from 1957 to 1958, Negro unemployment rose 4 1/2 per cent; and from 1961 to 1962, when unemployment—overall—declined 1.1 percentage points, Negro unemployment dropped 2 1/2 percentage points.

CONSPIRACY CHARGES face leader of the "national renaissance party" and others as they are booked in New York. James H. Madole, left, was arrested in New York's Bronx along with others in connection with the arrest earlier of three alleged neo-nazis near a racially-picketed diner. Others, from left, are Anthony Wells, 25; Jan Leber, 21; Peter Krass, 18, and Dan Burros, 28. The New Yorkers were charged with various counts of conspiracy. (AP wirephoto)

erty status? A. \$3,000 of family income below. By that standard, it's our Negro families are more than one-third for whites. Q. Do you believe that there is any real possibility of improving Negro income without an over-all improvement in the economy? A. You are putting your finger on the key solution to the problem of Negro unemployment—the supply of jobs in the economy as a whole. When jobs are scarce, discrimination flourishes. When manpower is scarce, discrimination ebbs because it becomes costly for employers.

Q. Dr. Heller, you have pictured this tax cut as providing perhaps more benefit to the Negro than to the country as a whole. A. That is, proportionately, of course. To summarize, are you suggesting that congress has a double-barreled job—both of eliminating discrimination and providing better economic climate? A. Yes. Unless there are opportunities at the end of the road, the rest of the program will be frustrated and frustrated.
