YOUR BIRTHDAY and HOROSCOPE

WEDNESDAY, Oct. 23—Born today, you are original, inventive, energetic and progressive. You have such independence of spirit that there may be many who consider you a bit odd, but you don't "go along with the crowd" simply for the company or the convenience. In fact, if you do that, you will find it more frustrating, disillusioned and lathered, ultimately losing all the adrenalin nature gave you.

Not one to set up a path over adversity, you will suffer your own in silence and alone. You will know the extent of your emotional involvement in circumstances or in your relationships with other people, for this you will hide as if your life depended upon it. Ironically, however, you live a better life—may well depend upon your learning to be more open and demonstrative, and you would do well to take steps in this direction.

Tense Nerves Block Bowels

Your colon has nerves that control regularity. When you are tense or nervous, normal bowel impulses may be blocked—and you become constipated. New Colowax tablets relieve this misery with a new principle—a unique colonic nerve stimulant plus special bulking action as recommended by many doctors. Result? Colowax puts your colon back to work—gently relieves constipation overnight. You feel great! Get clinically-proved Colowax today. Intolerated 40¢.

even for those who

THURSDAY, Oct. 24—SCORPIO (Oct. 24-Nov. 22)—Work business and pleasure in such a way as to complement each other. Avoid issues leading to an argument.

SAGITTARIUS (Nov. 23-Dec. 22)—Opportunity leading to a change in atmosphere should become recognizable by noon. Grasp it and run!

CAPRICORN (Dec. 23-Jan. 20)—New scenes and new faces should renew your interest in the world at large. Small horizons lead to small thoughts.

AQUARIUS (Jan. 21-Feb. 19)—Do not allow social obligations to interfere with the necessities of business. Be courteous but learn to say "no!"

PISCES (Feb. 20-March 20)—powerful x-rays influence. Do not allow minor upsets to throw you off the track.

ARIES (March 21-April 20)—Do not permit an unpleasant environment to restrict your labors and thus your advancement. Attend strictly to duty.

TAURUS (April 21-May 21)—Where legalities are concerned, you should be able to meet with unusual success today. Seek an expert for cracking the hard nut!

GEMINI (May 22-June 21)—An auspicious day for entering upon new enterprises. Do not relinquish the old ones, however, until you are absolutely sure!

CANCER (June 22-July 23)—

One Man's Nice Weather Can Sometimes 'Poison' Another

WASHINGTON, Oct. 23 (AP)—About this unusual Indian summer, water has been just what a man may fairly be called a poet once said: "A man's weather is his mood."

Because of a single set of complex circumstances, hemisphere in space and time, a man's weather is his mood.

Most of the United States, except the West, is in a state of general gloom. The weather is not what it was in the 1930s and the 1940s. The weather is not what it was in the 1950s. The weather is not what it was in the 1960s.

At the other hand, the same set of weather lines in the tracks of the weather bureau, conditions for the maturing and the maturing of the weather, the weather is not what it was in the 1930s and the 1940s. The weather is not what it was in the 1950s. The weather is not what it was in the 1960s.

But winter weather planting was delayed by heavy snow, and the weather is not what it was in the 1930s and the 1940s. The weather is not what it was in the 1950s. The weather is not what it was in the 1960s.

News Around Idaho

KEELLOCO, Oct. 23 (AP)—The shooting death Sunday of a 53-year-old Idaho man at a hunting camp 50 miles south of here, had been ruled as accidental by a Shoshone county coroner's jury. Earl Albin was standing beside a camp trailer in the Diamond Lake area when he was fatally wounded. Sheriff Len Gardner said that Albin was believed to have fired the shot from about 100 yards away. He was hunting on the same area but testimony at the inquest indicated he was not in the same hunting party as Albin. Albin was killed by a bullet which struck him in the back of the head as he was walking back to camp. He was wearing a white shirt and was trying to clear it.

BOISE, Oct. 23 (AP)—Idaho's Republican chairman says Rep. Harding D. Ida. lacked the support of his party in attempts to have the Burns creek project included in an omnibus authorization bill. John O. McMurran, Jr., said the refusal of the house to include the 25 million dollar Burns creek project in the bill "plainly illustrates hardy's ineffectiveness. His own Democratic colleagues would not put his backstop pledge in Idaho voters to get the Burns creek project passed."

GRANVILLE, Oct. 23 (AP)—Services for Harry Wheeler, 70, a leader of the Nez Perce Indian tribe who died Sunday at Coaling, will be conducted at the North Fork Presbyterian church at Granville Thursday. Wheeler, who lived in the area and native of the area, was a member of the church. He was an elder in the Presbyterian church. He is survived by his wife at the family home in Boise, and two sons and one daughter.

BOISE, Oct. 23 (AP)—Sen. Jordan R. Ida. has been listed as a speaker for the 47th annual meeting of the Idaho Chamber of Commerce, which begins here Nov. 4. Perry A. Nelson, state president, said Jordan will address the distinguished citizens of Idaho and will also feature the presentation of the Distinguished Citizen award. Jordan will be the first to receive the award. Jordan is president of the American Farm Bureau Federation, will speak at the all-Idaho luncheon at which the Idaho grange of the year winner will be announced.

MOSCOW, Oct. 23 (AP)—Buildings costing a total of \$5,750,000 will be dedicated this week on the University of Idaho campus. Ezra M. Hawkes, Pocatello, president of the state board of education, will dedicate the 2 million dollar addition to the student union building Friday evening and the \$3,750,000 Wallace residence center Saturday morning.

BOISE, Oct. 23 (AP)—Patrons of the Boise independent school district Tuesday approved a \$2,000,000 bond issue to finance new district construction, including a third public high school. With all but one of the district's 20 precincts reporting, the vote was 7,682 for the issue to 2,801 against it. Approximately \$2,000,000 of the bond issue for the new high school has been earmarked for construction of the high school. It will accommodate a maximum of 1,500 students. A total of \$455,710 will be used for construction of a junior high school to accommodate 600 students. Total cost of the school union estimated at \$2,750,000 with \$200,000 to be provided by a federal grant. The remaining funds will be used for additions and modifications to existing facilities.

IDAHO FALLS, Oct. 23 (AP)—Charges that Gov. Robert E. Smylie has not given proper emphasis to education have been leveled by State Sen. Jack A. Wood, Jr., D., Bonneville. In remarks prepared for a meeting of the Idaho Falls Education association, Wood said for a special session of the legislature to "correct the lack of funds for the public schools." In referring to Smylie's trip to Japan, Wood said, "There are many things that hold the interest of our governor but the public schools are not numbered among them. Instead of choosing all over the country and the world trying to be a national figure, he ought to visit the school districts of our state to see the sad conditions they are in."

POCATELLO, Oct. 23 (AP)—Dedication of a monument commemorating the arrival of the Utah and Northern railroad at Pocatello in 1878 is tentatively set here for Nov. 16.

BOISE, Oct. 23 (AP)—Idaho's tenth district court was told today it will have to assume jurisdiction in a \$300,000 damage suit brought against the Washington Water Power company. The suit, filed by Joseph C. Evans and Esther Williams, contends that a WWPP dam on the Clearwater river between Lewiston and Spalding caused extensive flooding last spring which resulted in damage to a parcel of land owned by them. The action was originally filed in the state court but was later remanded to federal district court on grounds that the parties involved were residents of different states. But Federal District Judge Chase Clark ruled Tuesday that Mrs. Williams is a resident of Washington, corporate headquarters for WWPP and ordered the case returned to tenth district court. The suit is one of 19 filed against WWPP in the wake of the heavy flooding last spring.

BLACKFOOT, Oct. 23 (AP)—A young Blackfoot pilot was killed when his light plane crashed after a crop spraying flight near Chowchilla, Calif. It was learned here Tuesday. He was Dee Ralph Van Orden, 25.

Meningitis Hits Again

In San Diego

SAN DIEGO, Oct. 23 (AP)—Two infant children of marine sergeants were being treated today for meningitis.

The two cases brought to 18 the number of civilians stricken with meningitis this year in San Diego county, eight of the victims died. There have been more than 25 military cases, including five fatalities, in the county this year.

Michael McPheters, Carlsbad, 15-month-old son of Sgt. Harry McPheters who is stationed overseas, was listed as in critical condition at Tri-City hospital.

Wheat for Russians Is Grange Topic

HAZLETON, Oct. 23—Elynn Allison spoke on "Wheat for Russia" when the Frontier Grange met at the Grange hall Monday night.

Committee appointments for the coming year were announced by Dale Hudd, new master of the Dale Hudd, new master of the Frontier Grange. These included: President, Dale Adams and Ed Carlson; Vice President, Boyd Miller; Secretary, Carl Estep; Treasurer, Henry Stein; North Branch, Mrs. William Smith; South Branch, Mrs. Dale Adams; and West Branch, Mrs. Sam Thornton, sales and manager.

Mrs. Elynn Allison, reporter; George Talley and Elynn Allison, agricultural committee; Mrs. Dale Adams, home economics; Mrs. Ed Carlson, home economics; Mrs. Elynn Allison, reporter; George Talley and Elynn Allison, agricultural committee; Mrs. Dale Adams, home economics; Mrs. Ed Carlson, home economics.

Mrs. Elynn Allison reported on the legislative action taken by the Idaho Congress of Parents and Teachers at the convention in Boise last week.

Applications for membership were submitted for Mr. and Mrs. Leonard Hamilton and Mr. and Mrs. Bob Sellers.

Mrs. Sam Thornton read a letter from the state Grange master, Ernest S. Jerome, expressing the position the state Grange has taken regarding potato marketing and wheat referendum.

Refreshments were served by Mr. and Mrs. Boyd Hagen.

Lord Home Renounces Peerages

LONDON, Oct. 23—Prime Minister Lord Home formally renounced his ancient peerages today, making possible his election to the house of commons.

With a stroke of a pen, the prime minister shed four Scottish and English titles that had taken his blue-blooded family 600 years to collect.

But Home did not become a peer immediately. Not until his disclaimer has been formally acknowledged and documented by the lord chancellor can he claim this privilege. This act was expected later today.

Home will then be known as Sir Alec Frederick Douglas Home. He holds the title "sir" because he is a knight of the Thistle. This is not a peerage.

Home's historic act marked a new phase in the swiftly moving British political crisis. It was the price to his campaign to win a seat in the house of commons through democratic election.

By his act of renunciation he was a prime minister without a seat in the house of lords, or the house of commons, which peers may not enter. Constitutionalists said they knew of no parallel in modern British political history.

Home's first hurdle is to win a seat in the house of commons at a special election at Kinross and West Perth in Scotland. The bidding is set for Nov. 7 in the predominantly Conservative party community.

To win the privilege of common membership, Home had to renounce for all time four proud peerages—Baron Home which an ancestor collected way back in 1473, Lord Dunblane and the Earl of Home.

Gendarmes Are Arrested for Killing Five

ELIZABETHTOWN, the Congo, Oct. 23—Four former members of the outlawed Katanga gendarmes have been arrested for the slaying of five persons on the Jadoville-Elizabethtown highway last Saturday.

The gendarmes, or national police force, was the chief military unit of former Katanga President Moïse Tshombe's secessionist movement.

ICC to Probe Train Accident

CHICAGO, Oct. 23—The Interstate Commerce Commission (ICC) is expected to open an investigation into last Saturday's wreck of the Santa Fe "Los Angeles Chief" within the next week, railroad officials said.

The railroad is conducting its own probe of the accident which injured 44 persons, three of whom remain hospitalized. However, a source of the investigation will be revealed until the ICC hearing.

But investigators were expected to center on the absence of the chief's fireman from the locomotive cab when the Chief plunged into a freight train being towed to a siding near South Union-Willow Springs to allow the Los Angeles-bound passenger train to pass.

Centennial Committee Is Building Lookout Point

The Twin Falls County Centennial committee has teamed up with the Twin Falls Grange to build a lookout point along the Shoshone falls road.

Mrs. John Hayes, 147 Seventh avenue east, Twin Falls county Centennial chairman, said the project was decided upon two years ago by the Centennial committee.

At that time, a project committee was set up consisting of Ed McCarthy, Kimberly, project chairman; L. P. Larsen, Kimberly;

Rupert Youth Is Cited in Crash

RUPERT, Oct. 23—Moro Hestings, 18, Rupert, was cited for driving a truck without a chauffeur's license after an accident Tuesday four and one-half miles west on the sugar factory road.

Hestings told sheriff's officers he was blinded by the sun and ran off the side of the road into the borrow pit. The truck tipped over on its side.

The truck, owned by Val Rogers, was damaged on the right door and the truck bed was slightly damaged. There were no injuries.

Life Shortened 5.9 Minutes by Each Cigarette Smoked

NEW YORK, Oct. 23—A study of the effects of smoking on the human body, conducted by the U.S. Public Health Service, has found that each cigarette smoked shortens life by 5.9 minutes.

The study, which was conducted over a period of 10 years, found that the average life expectancy of a person who smokes one cigarette a day is 5.9 minutes less than that of a person who does not smoke.

The study also found that the average life expectancy of a person who smokes two cigarettes a day is 11.8 minutes less than that of a person who does not smoke.

The study was conducted by the U.S. Public Health Service, which is part of the U.S. Department of Health and Human Services.

Too Early For Romney. McKay Says

SALT LAKE CITY, Oct. 23 (AP)—David O. McKay, president of the LDS church, says it would be premature for Gov. Romney to announce his intention to run for the 1964 Republican Presidential nomination.

Gov. Romney is a fine man, but he is doing a good job in Michigan and should stay for awhile, said McKay, who discussed presidential possibilities during a brief meeting with Gov. Nelson A. Rockefeller of New York. McKay, 74, is a prominent member of the LDS church.

McKay, a Mormon, has been mentioned as a possible compromise choice if a convention deadlock on a nominee.

Rocky Makes Some Friends On Utah Trip

SALT LAKE CITY, Oct. 23 (AP)—Gov. Nelson A. Rockefeller made some friends among Utah Republicans Tuesday.

How many, and how long lasting, remain to be seen.

But there were quite a few "Goldwater-oriented" among the 200 or so who attended a private luncheon to hear the New York governor.

And many said afterwards they were pleased with Rockefeller's "straightforward" and "no-nonsense" approach. If not an "other put it" overly enthusiastic.

A majority of the Republicans at the luncheon were said to favor Sen. Barry Goldwater, R., Ark., as the GOP presidential nominee.

Rockefeller held a press conference, spoke at the luncheon, met with President David O. McKay of the LDS church and his two counselors, and gave an address at the University of Utah during his one-day stopover at Salt Lake City.

He gave his major theme at the university talk, his "forward" approach. Not the middle road, not to the left, not to the right—but "forward."

Asked by one who he meant in between what he called the extremes of President John F. Kennedy and Goldwater, in between "an all-out effort to government dominating our lives—the direction in which the Kennedy administration is going—and a federal government committed to withdraw from free world leadership and roll back the clock on social gains and human progress—the direction in which Senator Goldwater has indicated he would move."

President McKay greeted with Rockefeller about a book the governor wrote: "The Future of Federalism." President McKay said he had read it twice.

That got them into a discussion of states and nations and world governments.

Rockefeller mentioned the future possibility of regional associations or confederations, such as the United States with Canada and a potential United Europe.

The governor was introduced to Elder Hugh B. Brown, President McKay's first counselor, and a Democrat. President McKay is a Republican. Rockefeller said he, too, had associations with Democrats, when he was a special aide to South America for President Franklin D. Roosevelt.

They talked about that for awhile, then President McKay mentioned all to be seated. He evidently had Roosevelt on his mind, for he then asked Mrs. Rockefeller to sit down, he said: "Please sit here, Mrs. Roosevelt," then laughed at the mistake and corrected himself.

When Rockefeller and President McKay talked about possible presidential candidates for the Republicans, Michigan Gov. George B. Romney was brought

There was no mention of Goldwater.

'Considerate' Escaped Convict Scares Hostages During Wild Escape Flight

LOS ANGELES, Oct. 23 (AP)—"I was getting into my pickup in my driveway when this man came up."

It was between 1 p.m. and 1:30 when my doorman rang."

With prosaic words like these, the hostages of an escaped convict told Tuesday how terror came as they were going about the routine business of living.

The terror was in the form of a man in the hand of Carl Wayne Parks, 25, who beat a deputy on the head Monday in Bakersfield, Calif., and set off on a 12-hour, 100-mile flight that ended with his capture Monday night in suburban El Monte.

Parks kidnapped six persons—one of them a 4-day-old baby—during his journey but released all unharmed. His victims agreed Parks was unusually considerate.

He hid in a closet at one hostess' home so he wouldn't have to take her into prison. When the car in which he was riding with three hostages ran out of gas, Parks paid to have it filled.

When he released the three in suburban Long Beach, Parks told them they were in a tough neighborhood. They had better keep on driving to a safer place.

MOVED TO BOISE
SHOSHONE, Oct. 23 (AP)—County Extension Agent J. Howard Manning is at the Veterans' hospital, Boise. He was taken there after having spent a week at St. Benedict's hospital, Jerome. He has pneumonia and a lung disease.

he said before they got out to call the police.

And after he was captured by officers who had been waiting for him to try to contact a relative, Parks said, "You know, I'm kind of sorry that I kept those poor cops on overtime."

Parks' politeness made him no less frightening to Coni Hall, 43, whose home he had invaded in Bakersfield after overpowering a guard in Kern County hospital.

"He asked me for some milk," Mrs. Hall said. "When I gave it to him he thanked me. I also fixed half a pot of coffee, but I was shaking so I nearly poured it over the other two men."

The other two men were Vern Davidson, 55, painting contractor who was kidnapped in Shoshone, and Walter E. Dooley, 38, who was kidnapped in a car in which Dooley's wife, Virginia, was taking her sister, Mrs. Mary Robinson, 18, home from the hospital.

Parks made Mr. Dooley drive him to her home. They were going with him until he spotted Davidson's truck in a driveway. Parks forced Davidson to drive him to him. He stayed for an hour, then on an impulse stopped at the Hall residence.

Parks was serving time for a robbery in Long Beach.

Natural Look Is Approved By PTA Panel

SHOSHONE, Oct. 23 — Teen-agers featured in a panel discussion at the PTA meeting Monday night stated "the natural look" is the accepted popular way to dress for local high school age youths.

They condemned too much makeup, dresses too short, extreme hairdos and tight fitting pants for either boys or girls.

Vern R. Thomas, instructor, expressed views against steady dating during high school. Mrs. Richard Onizuka dealt with home and school activities and Principal Carl Kinney gave the summation.

Maria Broyles was moderator. Other youths on the panel were Jeanie Buhler, Cheryl Rapp, Gordon Croft and Joe Shaw.

David Rands, Barbara Thomas and Laurie Serpa assisted in demonstrations. The students used dancing and pantomime to emphasize points made.

The high school Teenettes, directed and accompanied off the piano by Mrs. Vera R. Thomas, sang two numbers and Susser and Diana York played instrumental numbers. Mrs. Ben Gonna, program chairman, was in charge of arrangements for the panel.

Reports on state PTA convention were given by Mrs. Victor Bozotto and Mrs. Charles Priest.

The work went on record in favor of improving lockers at the high school for the year, and designated \$400 toward this. The \$200 in project money from last year which was not used for a scholarship, will be included in the project fund this year.

Mom Fixes Son's 'Wagon,' Chains It to Tree in Yard

LOUISVILLE, Ky., Oct. 23 (AP) — Clarence "Lum" Chum rode the school bus Tuesday for the first time since classes started. His car was back home, chained to a tree in the front yard.

A sign taped to the auto explained the reason for the lock-out: "Lum did not get all B's."

And if Mrs. Chum keeps her word, the vehicle will stay where

with a C in chemistry. Mrs. Chum swung into action and decreed the car will stay where it is for at least five weeks. That's when her son, Lum, gets his next report card. (AP wirephoto)

It all came about, she said, because of her 16-year-old son's insistence on buying a car. Both parents were reluctant but finally Mrs. Chum agreed to match what money Lum could earn toward the purchase price.

He worked in his father's hardware store for two summers at 75 cents an hour. In August he got the car.

"We made an agreement," Mrs. Chum explained, "that I would loan him the car if he didn't get all B's."

Last Thursday Lum came home with a C in chemistry.

"He...wants to be a doctor," his mother said, "and pulling C's in chemistry isn't going to get him into medical school."

Out came the chain and padlock. Lum, who left home 35 minutes earlier than usual, couldn't be reached for comment.

TOYOKE, Oct. 23 (AP) — Premier Ichiro Kishi dissolved the lower house of parliament today in hopes of strengthening his position in the cabinet.

Governors Are Snubbed By Leftist

KYOTO, Japan, Oct. 23 (AP) — The leftist governor of Kyoto prefecture snubbed a group of visiting American governors, including Idaho's Gov. Robert E. Smylie, Tuesday, but they seemed to enjoy their brief visit anyway.

Gov. Tomazo Inagawa refused to meet the delegation of American governors for the second year in a row. They had been invited to Kyoto for the second year in a row because of last year's incident because they had not planned to stay in Kyoto overnight.

Officials of Kyoto City, capital of Kyoto prefecture and ancient capital of all Japan, made up for Inagawa's snub with lavish hospitality.

Kyoto Mayor Gizo Takayama hosted the visitors with a buffet at a private villa.

"The governor of Kyoto prefecture should be here today," Takayama said, "but I think I am well qualified to represent this prefecture, because, first, I am the president of the (Japanese) Mayor's association and, second, Kyoto City makes up about two-thirds of the population of the prefecture."

Kyoto has a population of 1.2 million, third largest in Japan. At the luncheon, the governors and four of their wives watched two apprentice geishas dance on the veranda of a tea house across the lake from them.

TWIN FALLS COUNTY Probate Court Judge Zoe Ann Warberg confers with one of the many juveniles who come before her. Hearings for the mentally ill also are held in her court. Judge Warberg states that an area mental health center could save taxpayer dollars, as well as reduce measurably the problems in many lives where cost of private psychiatric treatment is prohibitive. (Times-News photo)

Local Mental Health Center Would Benefit Taxpayers, Proponents Claim

With the current interest in mental health center for Magic Valley, a question uppermost in many minds is, "Would this cost the taxpayers more money?"

Obviously, the services of trained professional workers in this field must be paid for. Twin Falls County Probate Judge Zoe Ann Warberg, under whose jurisdiction many of the cases come, points out the costs are much greater when the problem is not taken care of in the early stages.

Some of the costs which must be borne by society when these problems become acute include cost of providing for a juvenile who has had to be institutionalized at the state industrial training school; cost of maintaining a mentally ill parent at State Hospital South, and cost of caring for the children during this hospitalization; increased welfare rolls when school drop-outs start; training facilities without prior adequate training for earning a living; and cost when suicide or murder take either the wage earner or homemaker from the family.

"Many of these items are listed in various places under present bookkeeping systems, making it difficult to determine exactly what the lack of mental health facilities is presently costing the Magic Valley area."

However, both the American Medical association and the director of the local south central district health unit, Dr. Luther Thompson, are of the opinion that local facilities could cut the cost to the taxpayer.

Present cost to the taxpayers of Magic Valley for the 100 patients at State Hospital South is about \$23,300 a year. The 10 percent bonus is paid by the patients or their families.

Addition of a mental health center in Ada county reduced their state hospital commitment costs by 40 per cent, and Judge Warberg points out that this is just one of the costs which could be substantially reduced with a local clinic.

"Actually, the cost factor is only one of a number of advantages we would have in working with mentally ill or emotionally disturbed people," she points out.

The psychiatrist or social worker could be working with the patient's family as well as the patient, providing for more understanding and better adjustment than provided by institutionalization.

"Because there is at present no means of evaluating a juvenile offender, for instance, the only psychiatric help we can now get is by institutionalizing them at the state industrial training

school or State Hospital South. To some people, this attaches a stigma to the individual, which makes his adjustment nearly impossible when he returns to his community," she adds.

Cost to the taxpayer of care at the school at St. Anthony is about \$2,000 per year, and Twin Falls county alone averages about 12 commitments a year.

Many of the juveniles who have potential problems could be cared for at much less expense, and with less adjustment, by remaining in their own environment where help could be provided both the young person and possible home problems.

"The taxpayer is hit twice in cases where the mother, and sometimes the father, may have required hospitalization at State Hospital South for a period of treatment."

"First, the taxpayer must foot the bill at the hospital, and second, provide, through the Aid to Dependent Children program, for care of the youngsters in temporary foster homes," Judge Warberg states.

"Frequently these cases could be handled locally, at far less cost, and with less disruption of normal life, both for the patient and the children."

To those who think such a mental health treatment center might be a stepping stone to socialized medicine, local doctors point out that free services would be available only to those who could not afford private treatment, and eventual aid in mental hospitals for people in this category has long been the responsibility of the counties and state.

By providing treatment for the less serious cases, many would never require hospitalization. Because no follow-up treatment has been available for patients upon discharge from State Hospital South, many have required recommitment.

This could be substantially reduced. Every reduction in the patient-load at the Blackfoot institution would allow for better handling of the severe cases there.

Judge Warberg emphasized that proper diagnosis of cases locally would allow better and more immediate care. Since State Hospital South does not have juvenile facilities, many cases needing evaluation are deferred until quite serious, rather than send juveniles to the institution.

It is the firm conviction of Judge Warberg, and of many other officials working with this problem, that it is not possible to put a dollar sign on human misery. Even if they were the only consideration, however, they believe the ounce of prevention far less costly in the long run, than the pound of cure.

No Chance Seen For Medical Plan

WASHINGTON, Oct. 23 (AP) — A Kennedy administration spokesman acknowledged Tuesday there is no hope of passing a medical care plan for the aged under social security at this session of congress.

The spokesman, House Speaker John W. McCormack, blamed "blind opposition" by Republicans.

This brought a retort of "colossal fakery" from the Republican Congressional Campaign committee.

"McCormack and the administration seem to have embarked on a campaign of massive apologetics," the committee said in a statement.

Nevada GOP Sides With Goldwater

RENO, Oct. 23 (AP) — There's plenty of pre-convention campaigning ahead, but most Nevada Republican leaders say their choice for the party's presidential nomination in 1964 is Sen. Barry Goldwater.

Eight of ten county Republican chairmen in Nevada polled by the Associated Press said they feel Goldwater is the strongest potential candidate to face President John F. Kennedy in the 1964 election.

Goldwater and Gov. Nelson Rockefeller, N. Y., are considered the leading candidates for the nomination although neither has officially declared for the race.

Ten chairmen out of the 18 in the state, about 60 per cent, replied to an Associated Press questionnaire.

Churchill's Name Is Suggested For New Ship

LONDON, Oct. 23 (AP) — The Daily Mirror's columnist, Casmann, suggests that Britain name its planned new transatlantic liner the Winston Churchill. It would make a hit with Americans, he said.

He said, "People who have not visited the United States cannot fully grasp the admiration that the American people feel for our man. Royalty they regard with amused affection at best, but Churchill is something very different. He is in the Lincoln and Washington class."

Rudolph J. Kusy Honored at Rites

BUILI, Oct. 23—Funeral services for Rudolph J. Kusy were conducted at 2 p.m. Tuesday in the Buili First United Presbyterian church by the Rev. Dale K. Olson, pastor.

Mrs. Denny Patrick served as soloist, accompanied by Mrs. Stanley Kern, organist. ZCBB lodge rites were under the direction of Mrs. Oldrich Cejka.

Balbearers were Charles Novack, Tom Novack, Oldrich Cejka, Arnold Svancarik, Frank Sedivy and Pete Tesar.

Concluding rites were held in the Buili city cemetery.

Scientists Cautioned by President

WASHINGTON, Oct. 23 (AP) — President Kennedy has urged scientists to be cautious in the effects of their experiments for they may have consequences as well as to good.

"Science today has the power for the first time in history to undertake experiments with premeditation," he said in a speech Tuesday before the National Academy of Science.

He cautioned that in attempts to modify the weather, for example, science must guard against the hazards of this "vital nature out of balance of the atmosphere or climate."

Yanks Won't Withdraw In Europe

WASHINGTON, Oct. 22 (AP)—Secretary of State Dean Rusk will publicly announce in West Germany later this week that the United States has no intention of withdrawing any of its 250,000 troops now in Europe.

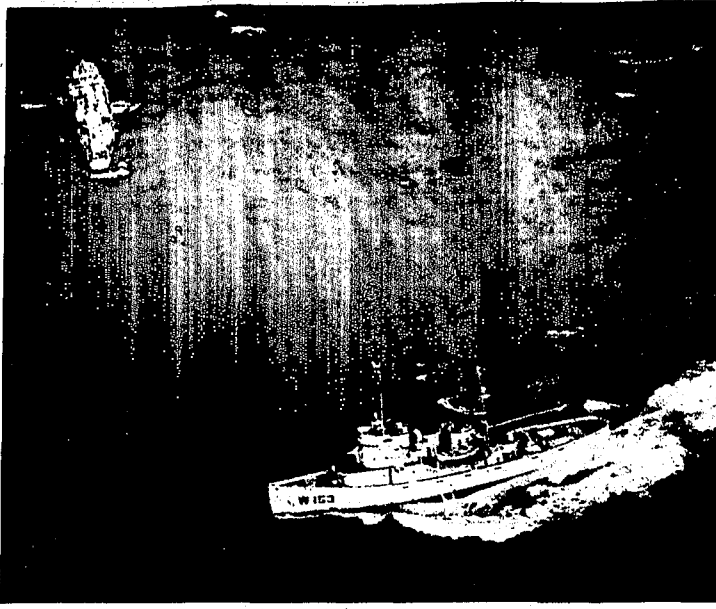

The long-term Rusk statement, disclosed Tuesday night by a high-ranking U.S. official, is designed to dispel German concern that the current pullout of 14,000 American fighting men from Texas, Louisiana and other areas would mean a future troop withdrawal.

German suspicions were aroused by a speech Deputy Secretary of Defense Praxmair in Chicago. The Big 101 exercise, he said, may enable the United States "to make some shifts in the form of our military presence" overseas. As a result, Gilpatrick said, the United States "should be able to make useful reductions in its heavy overseas expenditures."

Later it was learned the state department had not agreed with that part of Gilpatrick's speech but that its objections were overruled by the White House. State department officials insisted there is no immediate plan for troop reductions.

Rusk's expected statement will be a reply to a German request for clarification of Gilpatrick's remarks.

The announced purpose of Rusk's trip is to attend a meeting of American ambassadors stationed in Europe and to be on hand Sunday in Frankfurt for the dedication of a memorial fountain to George G. Marshall, the secretary of state who charted the Marshall plan for postwar European recovery.

GOP Wins Special Election For House in South Dakota

FARGO, N. D., Oct. 22 (AP)—A Republican farmer who campaigned against Kennedy administration policies now carries the sentiments to Washington as North Dakota's new congressman from the state's eastern district.

Mark Andrews took a slim early lead and built it into a near-5,000 vote margin over Democrat John Hove, a college professor, the third such match won this year by Republicans over the nation.

Andrews hammered away at the Kennedy farm, economic and foreign aid programs. Harking back to last spring's defeat of the wheat referendum, he has been a constant critic of Secretary of Agriculture Orville L. Freeman, calling for more farm pay-on at farmer levels instead of from Washington.

Incomplete returns from 915 of 1,070 precincts in Tuesday's special election gave Andrews 42,659 votes, Hove 38,800, conservative Republican John Scott 5,515 and Independent Thomas Dewey 331.

Andrews, former North Dakota national GOP committeeman, stands 6-4 and weighs about 230 pounds. Hove, 47, an English professor at the state university here, conceded to him at 9:30 p.m., 90 minutes after last polls had closed.

Demo Chief Hits GOP on Burns Creek

State Democratic Chairman J. Walter Walker said Wednesday that a Democratic effort to win the Burns Creek dam project will be a test of the strength of the party.

Walker stated it is difficult to understand how the Republicans have been able to win the project after it was fought by Republican Sen. Len Jorgensen when he sold out to the party in the senate.

It is no secret that the Republican group has not been able to win at all and the state officials have obviously decided to throw his weight away from the state.

Walker said. As a citizen of the state, however, there is no fun in watching our economy harmed by the power struggle between these selfish men who seek only to represent their limited and selfish interests.

Bids Okayed On Sawtooth Forest Work

Two Idaho construction companies and one Wyoming contractor have been awarded contracts for the construction of 11 miles of trail in the Sawtooth national forest, Sawtooth manager Harry C. Ames stated yesterday.

Gordon Paving company, Burley, will construct a four mile, two-lane highway from U.S. 93 to the inlet of Alturas lake for \$66,000.

Morgan C. Williams, Obidian, will construct a trail between Alturas lake and Pettit lake for \$27,000.

Laborer service, LaBarre, will construct a seven mile, two-lane highway from state highway 77, near Ashton, into the canyon recreation area for \$107,000.

All three projects have been deemed necessary by heavy demands of skiers, campers, tourists, and fishermen on the existing facilities, according to Ames.

Airline Tries Experiment On Flight

(UPI's) jet-American Airlines was scheduled to make a special test flight from Los Angeles to San Francisco in a partial transit of the Pacific to test a new experimental engine.

WASHINGTON, Oct. 23 (AP)—An afternoon, ladies and gentlemen, this is Captain Saint speaking. This is a good flight, the weather is good all the way. A few scattered showers in the Rocky mountain area, but they will clear of these. Some rain clouds in the Los Angeles area. Par for the course all there. No problem. The 1204 flight will arrive in Los Angeles on schedule with to strain.

Sen. Jordan Plans Speech In Twin Falls

"We are 87 years of aviation history here in the cockpit, so you just relax, get comfortable and we'll take good care of you for the next five and a half hours."

"We're crossing the Hudson river. We're four miles high and climbing. We've turned over the way through a cloudless desert, routine and we're now on the thruway."

"We've gone from 82 degrees above zero on the ground at 10,000 feet to 53 degrees below zero in 21 minutes. You may be surprised to learn that at 30,000 feet we have approximately 75 percent of the Earth's atmosphere below us."

"We're cruising at 800 feet per second or 800 statute miles per hour at this altitude—but we're still going 80 miles an hour faster than a bullet leaves the muzzle of a .38 caliber revolver."

"Well, this is a little choppy, but if we have a first class aboard and you're wondering whether those wings are supposed to be waving at us as they fly, the answer is yes. The wings of the 707 Astrojet are built intentionally very limber, but like a piece of old hickory, they bend and break. The fact that those limber wings take the shock and smooth out the bumps as well as that much of what would otherwise be annoying turbulence goes unmentioned."

"While you're enjoying your after-dinner coffee, let me take a minute or two to tell you more about this tremendous bird of steel. We took off from Idlewild with a gross load of 114 tons. This is 14 tons heavier than the Santa Maria, Columbus' famous ship. The maximum allowable load for today's take-off was 129 tons—250,000 pounds—and that's about the weight of two fully-loaded freight cars."

"We're about to have a dramatic look at another jet. It's the new white blue jet. It's our new Astrojet. It's coming eastbound at the next flight level above us. It's leaving a big, fat beautiful vapor trail up there against the deep blue of the atmosphere. He'll be passing in the opposite direction in a few seconds."

"There he comes—and there he goes. Beautiful!"

"You know, Mark Twain tells of a stage coach trip across the West during which passengers urged their necks to watch the express go by. It's hard to believe that your experience with this 20-pound neck rack will be operating only 100 years ago."

"My interrupting your reading for a moment, folks? These are the ideas you see on both sides of the window we were big to expect over the stage."

"That you folks of a thunder-bomb on the point of disaster, a thunderbolt of a beautiful thing especially with this line on the horizon as it comes. We're almost at the end of the line."

"It looks a little ominous along a smooth path. We'll be in the sunny side in about eight minutes."

"There comes this way I could just about jump on the fence with us. We're surrounded by much beauty to take your breath away."

"We're cutting downhill in four minutes—just this of the storm clouds in the twilight! Our speed is down to 100 miles an hour and quiet. Passes with the landing gear flaps and jacks our way through this cloud."

"Ladies and gentlemen, we've arrived. We're here. Hope you come and fly with us. Good night."

Crash Sign?

SANTA FE, N.M., Oct. 23.—Police Judge R. E. Chavez dismissed yesterday about 200 tickets issued to drivers who had made illegal turns in Santa Fe.

"When there are 200 violations in the same two-block area within a week," the judge said, "there is something wrong with the setup and not the drivers."

"The city should have placed a sign in the middle of those streets ... so drivers would have to run over them if they made a wrong turn."

Happy Day School Sale Room Slated

The Twin Falls County Council for Retarded Children is making plans for a sale room at the Happy Day School for Retarded Children, formerly the cerebral palsy school, on addition avenue.

All proceeds from the sale room will be used to maintain the school.

At present, the school is being used by the mentally handicapped children who are not enrolled in the special education classes for handicapped children at Robert Stuart junior high school.

Richard Miller selected the name of the Happy Day school through a contest held at the Stuart junior high school for the students.

Anyone having clothes, dishes, furniture or other items that could be sold are asked to bring them to the Happy Day school at 10 a.m. Saturday or call 733-1389 and the council will pick them up.

The council hopes the sale room will be the first step in the formation of a workshop for handicapped persons.

Permits Asked

Two applications for building permits were filed Tuesday at the Twin Falls city hall.

Kenneth Eisenhower, 476 Diamond street, filed an application for a 10 by 20-foot wood frame

storage shed. Estimated cost is \$400.

E. J. With, With apartments, 1000 Sherry drive, filed for a 20 by 40-foot wood frame single family addition to his house. Estimated cost is \$6,000.

Hawaiian Sugar Export Quota Is Changed

WASHINGTON, Oct. 23 (AP)—The agriculture department announced Tuesday that 40,000 tons of the Hawaiian sugar export quota to the mainland has been transferred to the Philippines.

The transfer was made under the sugar control program because Hawaii will be unable to fill its full quota of 1,110,000 tons. Tuesday's announcement brought the U.S. Philippine quota to 1,247,000 tons.

Injured Trainer Has Operation

Wayne Peterson, Twin Falls, whose leg was broken last week during the Twin Falls International horse show, when the horse he was riding fell on him, was operated on Monday and the operation was treated successfully. Peterson will be out of action from eight months to one year, however, Charles Sutton, Paul, requested Wednesday.

According to Sutton, Peterson was riding Johnny Deer, a registered quarter horse owned by Sutton, when the accident occurred.

Up until the time of the accident, Johnny Deer was high point horse of the show, but was unable to complete the show because the same rider must complete all events on the same horse.

Robertson, Smith Set Royals' Win

CHICAGO, Oct. 23 (AP)—Robertson and Smith led the Cincinnati Royals to a 100-90 victory over the Phoenix Suns Tuesday night in a National Basketball Association game.

Robertson took an early lead and the Warriors never caught up despite a 30-point performance by Wilt Chamberlain. Robertson hit all the way and scored 18 points in the fourth quarter to lead the Royals to just a few points.

National Help Asked in Fight Against Bribery

CHICAGO, Oct. 23 (AP)—The NCAA intensified its efforts for passage of anti-sports bribery laws by Congress by sending telegrams Monday to Atty. Gen. Robert Kennedy, asking that he urge the passage of the legislation.

NCAA Okays Grid Division Champions

CHICAGO, Oct. 23 (AP)—The NCAA council, voting 2-0 today, approved a plan to sponsor an amendment that would provide for regional college division football championships.

Walter Byers, NCAA executive director, said the plan was intended to stimulate college football, adding that 300 colleges play the sport compared with 112 in varsity.

The plan calls for the nation to be divided into the Eastern, Midwest and Western regions. A selection committee would name two teams from each region for playoffs on the second Saturday of December. Out of this would come three regional champions, ending the season.

Another council-sponsored amendment calls for a college division championship to be held at Grove City, Pa., next March 20-21. The college division already has national championships in basketball, cross country, track and field, golf, tennis and wrestling.

NCAA Sanctions 14 Bowl Games

KANSAS CITY, Oct. 23 (AP)—The National Collegiate Athletic association announced Tuesday it had certified 14 post-season football games as meeting NCAA regulations governing such competition.

Approved for the first time is the Space Bowl, to be played at Houston, Tex., Dec. 14 between champions of the Southwestern conference, with members in Texas, Mississippi, Arkansas, Louisiana, and the Central Intercollegiate Athletic association with colleges in New Jersey, Maryland, Virginia, North Carolina, Delaware and Washington, D.C.

Team Records Are Set by Passing Duel

NEW YORK, Oct. 23 (AP)—When Georgia's Larry Rakestraw and Miami's George Mira engaged in their record passing duel last Friday, they shook up the national college individual offense statistics as well as the spectators.

Rakestraw won the duel with 407 yards to Mira's 342, and Georgia won the game 31-14, but Mira emerged as the nation's No. 1 college passer, statistically, with 72 completions on 140 attempts.

Rakestraw's individual advance was even more impressive. He jumped from 19th to fourth place in the total offense tabulations issued Tuesday by the NCAA service bureau. His 641 yards put him in a tight battle for the runner-up spot behind Navy's Roger Staubach.

The 740 passing yards netted by Rakestraw and Mira set a NCAA one-game record, whiplashed out the 718-yard mark set by Detroit-Duquesne in 1950. Their 50 completions—25 each—also was a record, and Rakestraw's 407 yards broke the record of 401 set by Stanford's Dick Norman in 1959.

Although YMI managed to contain Staubach's passing, the Navy quarterback accounted for 147 yards and clung to his total offense lead with a 1,171-yard total. He dropped to third in passing behind Mira and Don Trull of Baylor, the defending champion.

A new rushing leader also turned up when Tony Lorick of Arizona State ran 176 yards on 21 carries against Texas Western and moved from seventh place to first. He now has 513 yards to 494 for Jimmy Shide Auburn's run-minded quarterback Jon Kilgore of Auburn retained his punting lead with a 48.9-yard average.

Royals Sign Tom Thacker to Pact

CINCINNATI, Oct. 23 (AP)—The Cincinnati Royals signed Tom Thacker, former university of Cincinnati star, to a one-year rookie contract in the National Basketball association Monday.

A Royals spokesman said Thacker signed one day after his release from Fort Jackson, S.C., following six months active army reserve duty.

Thacker, 6-foot, 2-inch, 170-pound jumping jack played, helped spark Cincinnati to two straight NCAA championships and one runner-up spot.

Ole Miss Slates Only Home Game

OXFORD, Miss., Oct. 23 (AP)—Mississippi's fifth-ranked Rebels, who lead the Southeastern conference in every statistical department, play their only home football game of the season this Saturday.

But the odds are, despite odds to the contrary, that Ole Miss has a wary eye on its game this following week and with Louisiana State.

The Ole Miss-LSU rivalry has become one of the nation's top collegiate football attractions. This year it will again be played in Baton Rouge before a regionally-televated audience. Tickets for the 68,000-seat Tiger stadium were sold out last spring.

WINS DECISION NEW YORK, Oct. 23 (AP)—Billy Longenecker, 164, New York, won a unanimous decision from Danny Andrews, 145, New York, in a six-round fight at Sunnyside Garden Tuesday night.

Cooper, twin brother of British heavyweight champion Henry Cooper, weighed 187½, and knocked Cooper down twice for eight-counts in the seventh round and referee Tommy Little stopped the bout when he saw the Englishman was bleeding heavily from a cut under his left eye.

Adverse conditions are not new to the Packers, who lost halfback Paul Hornung before the season started. Hornung was suspended for betting on league games.

Roach, a former Southern Methodist star who began his pro career at a defensive back, said he was ready to take over. Ad Lombardi said:

"I have every confidence in John. He's far from rookie. He's played considerable for us. He knows our system."

In league play this season Roach has completed two out of seven passes for 33 yards and had three passes intercepted.

Ralph Houk Named Yankee General Manager; Berra Rumored Field Skipper

NEW YORK, Oct. 23 (AP)—Ralph Houk, who led the New York Yankees to three American league pennants in three years as manager, was named general manager of the club Tuesday and will be succeeded as field boss by Yogi Berra, the longtime, colorful catching star. Houk replaces Roy Hamey as the general manager. Hamey retired because of ill health. Berra's appointment will be announced Thursday. At an elaborate press conference at a luxury hotel, Houk acknowledged his successor already had been chosen, but he refused to reveal his identity. Another Yankee official, who cannot be named, told the Associated Press that Berra definitely was the man.

Houk made a fine manager, the Yankee official said. He got a shrewd mind, a sound thinker and has the knack of getting along with people. He should prove to be a popular choice with fans and players.

Houk was given a four-year contract calling for an annual salary of \$50,000. The former major league star said his decision to move upstairs was not one of snap judgment. He was first offered the job during the 1952 season when he was the Yankees coach between the Yankees and the San Francisco Giants. Hamey confirmed that he had originally approached Houk more than a year ago after he had made his own decision to retire. "I first thought of retiring five years ago," said the 61-year-old Hamey, "but I did not come to a definite decision until a year ago last July after my release from the hospital."

Hamey underwent a gall bladder operation in the summer of 1952 and has not been in the best of health since. During the series that fall, he talked to Houk about moving up. "I had no ambition to be a general manager at the time," said the 44-year-old Houk, who has served the Yankees since 1939. "I felt I had reached my goal as manager."

"I asked Hamey for time to think it over. The more I thought about it, the more of a challenge it became. Two months after our first discussion I told Hamey I was interested. The following February, during spring training in Florida, Mr. Topping (club president Dan Topping) and I agreed on terms."

There was another factor besides that challenge that prompted Houk to make the switch from field to general manager. "There's a little more security in being a general manager," he told newsmen, grinning. "It seems to me a lot more managers get fired than general managers."

Before becoming a Yankee coach, Houk was a substitute catcher and minor league player and manager for the organization. "It's going to be tough being out of uniform," he said, "but it's going to be fun working with youngsters and concentrating on development of players."

Berra, who is 38, has spent

T.F. Girds for Friday Tilt With Top-Rated Boise

Placed and hopeful aims up the altitude of the Twin Falls. Boise this week as they prepare for their Southern Idaho cow-boys battle with the state's No. 1 ranked team, the Boise Broncos.

As a convenience to truth fans, tickets for the game are on sale at the athletic director's office in the high school. Between 4 and 6 p.m. Friday at Lincoln field.

same attitude we've had against Calhoun and Nantz. We'll give them a real taste. I don't think Boise is unbeatable. But it's tough as we want them to play them straight up and we are not making any big defensive mistakes. One mistake it will cost against a club like Boise.

Boise is scheduled to play the game at 7 a.m. Thursday in the desert room of the Roney's restaurant, announced president Hank Woodall. Films of the Twin Falls-Nampa game will be shown and coach Paul Ostro will discuss the game here Friday with Boise.

U.S. Golfers Play Canada Cup Tourney

PARIS, Oct. 23 (AP)—It's America's Arnold Palmer and Jack Nicklaus against the field Thursday when top golfers of 33 nations tee off at one of Louis XIV's old cow pastures for the 11th annual Canada cup and International trophy golf matches.

"I just don't see how anyone can beat Arnie and Jack on this course," said left-hander Bob Charles of New Zealand, the British Open champion, today. "There's no penalty for a wild shot. They can just stand up there and crank it."

Gary Player of South Africa agreed. "Take any course in the world, and you have to go with Palmer and Nicklaus," said Antonio Cerdas of Mexico.

"It seems just a question of which one, Palmer or Nicklaus, wins the individual title," put in Al Balding of Canada. "They've proven they're the best—who's going to beat them?"

Thus the odds swung heavily in favor of Palmer, all-time leading money winner, and Nicklaus, a 23 already a winner of the U.S. Masters, open and PGA crowns. In the annual international competition among hand-picked two-man teams from all parts of the world.

The four-day, 72-hole tournament opens Thursday over the 6,834-yard, par 72 Saint-Nom-la-forest course, which only recently was carved out of grazing grounds and potato patches of Louis XIV's farm yards near Versailles.

His entire baseball career in the Yankee organization. He was brought up from the Newark farm club in September of 1940 and was the team's first string catcher until 1951, when Elston Howard took over.

Berra served as first base coach and part-time player last season. He got into 65 games and batted .203, with eight home runs.

"I am not divorcing myself completely from the Yankees," said Hamey. "I will be in the office all winter and be on hand as long as Ralph and Dan Topping want me."

A cartoon illustration by Gil Roy. A man in a white shirt and dark tie, holding a briefcase, stands behind a counter. He is looking at a woman who is seen from the back, wearing a light-colored sweater and a dark skirt. She is holding a large, fluffy, white object. On the counter, there is a cash register, a stack of papers, and a stack of money. In the background, there are signs that say "STAY HERE" and "TOUR". The cartoon is signed "Gil Roy." in the bottom right corner.

"The oldest gag in the world, and I fell for it! She asked me if I wanted my palm read!"
