Johnson Puts His Appalachian Plan Before Congress

WASHINGTON, May 5 (AP)—The administration laid its program for the restoration of Appalachia's economy before congress today with an assurance of prompt action.

Sen. Charles A. McNair, R., N. Y., chairman of the house public works committee, told Undersecretary of Commerce Franklin D. Roosevelt, Jr., the committee would act "decisively and quickly" on the \$2 billion dollar, 10-state program.

President Johnson, at the White House breakfast with Democratic congressional leaders, urged quick action both on the Appalachian bill and on his more general anti-poverty program, McNair said.

House Speaker John W. McCormack, D., Mass., reported that McNair will head the President's Appalachian regional committee, which will be the first witness at hearings on the bill worked out by the commission to meet the needs of the impoverished mountain areas.

The governors of the 10 states involved—Pennsylvania, Ohio, West Virginia, Kentucky, Virginia, Maryland, Tennessee, North Carolina, Alabama and Georgia—will testify later in the hearings. McNair described the aim of the five-year Appalachia program as the building of an economic base that will attract private industry in the area hit hard by the decline of coal operations, forestry and agriculture.

Khrushchev May Ask Co-Existence 'Deal'

LONDON, May 5 (UPI)—Soviet Premier Nikita Khrushchev was reported today ready to offer a peace co-existence "deal" to the United States after the U. S. presidential election. Well-informed East European diplomatic sources indicated the deal might amount to a prolonged big power East-West truce. The sources, the sources hinted, might pledge non-interference in the American spheres of interest in exchange for maintenance of the "status quo" in Europe. There were no indications, however, that Cuba would be included in any Soviet-non-interference pledge.

There is no official indication as to the terms of any deal with the Soviet Union. The sources left little doubt that Khrushchev wants an understanding with the United States before the election.

The Kremlin appeared influenced by a number of considerations, including the mounting tensions with Red China, the cost of the arms race, economic pressures at home, and the possibility of economic cooperation with the United States.

Phones Are Back in Use After Mishap

BURLEY, May 5—Complete telephone service in Burley was restored about midnight after being disrupted about 4:15 p.m. Tuesday when the cat-linking tower and "hub" were ignited by an acetylene torch.

The torch was being used to repair damage which resulted from a storm Friday night.

W. Dean Gibson, Burley manager for Mountain States Telephone and Telegraph company, said there was a small explosion when the cable was ignited.

Long distance service was restored about 7:15 p.m. after being knocked out for about three hours.

He said the cable fire occurred behind the Burley airport. Several telephones in Heyburn, including the Heyburn fire department, were out of service Monday night because of the fire.

T.F. Student To Graduate With All A's

MOSCOW, May 5 (AP)—The first woman in the history of University of Idaho to post straight A grades through an undergraduate career will receive her diploma next month.

She is Janice Rieker, 21, daughter of Mr. and Mrs. William F. Rieker, 1937 Klimes avenue, Twin Falls.

Ms. Rieker is the 10th person in the history of the University of Idaho to graduate with all A's. The first recent was Kenneth Keller, Bonanza Ferry, in 1961.

Ms. Rieker completed the normal eight-semester work in eight months to John G. Wiedel, a graduate student at the university.

She plans to attend graduate school with a National Science Foundation fellowship.

Utah, Wyoming Governors Rap BPA Request

WASHINGTON, May 5 (AP)—Governors of Utah and Wyoming today announced they have a plan to extend a federal power line into southern Idaho.

Gov. Cecil Andrus, R., Boise, and Gov. Clifford Hansen, D., Cheyenne, both Republicans, were submitted to congress appropriations subcommittee hearing on fund requests for the power line beginning July 1.

Wyo. President Hansen's statement and added one of his own regarding a request by the Bonneville power administration for funds to design a line from Monticello to southern Idaho.

Mr. Andrus' statement, given by Rep. Laurence J. Burton, R., Idaho, is as follows:

Fake UFO

WASHINGTON, May 5 (AP)—A "prank" children was the source of one of the recent reports of flying saucers, police said.

An investigation of reports of a space vehicle near Helena was determined to be a prank perpetrated by children. The children wanted to play a trick on a younger sister and the younger sister got out of control, an air force spokesman said.

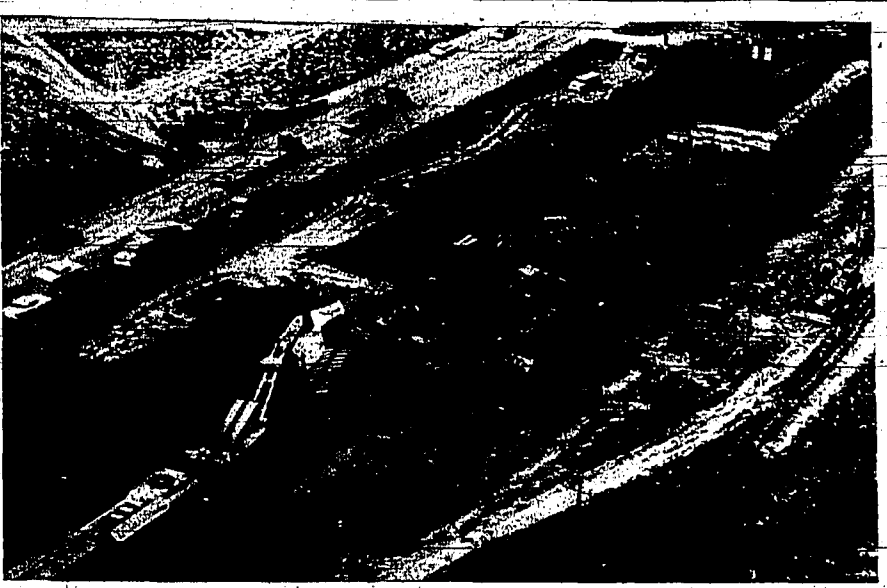

The spokesman said the report is still checking a report from Bozeman, N.M., and a final written report has not been made.

Tickets Are on Sale Now For Chamber's Hootenanny

Tickets can be purchased now for the Twin Falls and Kimberly Chambers of Commerce sponsored "hootenanny," which will be presented at 7 p.m. Sunday in the Twin Falls high school auditorium.

Tickets may be purchased at Greenwell's and the high schools in Jerome, Buhl and Gooding and the Kimberly drug store and Valley high school. Local talent will be presented for instrumental entertainment, according to George Stauffer, Twin Falls high school principal.

The Golden State Bluegrass Boys and Marty Robbins, popular recording artists, will be the featured performers.

SALVAGE CREWS from Pocatello and other rail points were working Tuesday morning trying to clear the main line after an eastbound Union Pacific freight train derailed about 28 miles east of Shoshone at the west end of Senter siding. Debris was scattered up and down the right of way and locomotives were dumped beside the roadbed. Luckily, rail traffic could be routed down the northside branch via Rupert, Jerome and Bliss. (Times-News photo)

At Last

WASHINGTON, May 5 (AP)—The treasury announced today it is freezing all assets of North Vietnam.

The treasury said that it was adding North Vietnam to the list of countries which will come under foreign assets control regulations.

In addition to blocking any North Vietnamese assets which may be in the United States, the action also prohibits all financial and commercial transactions between Americans and North Vietnam.

High Official Moans About Old Freedom

BOSTON, May 5 (AP)—Robert J. Manning, top state department information official, said today that the government is often handicapped in carrying out its foreign policy because of what he called the unlimited freedom of the press to pry into and print government secrets.

"The occasionally mindless devotion of the press to exposure for exposure's sake can put us at a disadvantage," Manning, assistant secretary of state for public affairs, said in a speech prepared for delivery before the Massachusetts joint bar-press symposium.

Manning questioned the principle that "the people have the right to know" when the knowledge can compromise the nation's defense or foreign policy.

"The press, he said, 'wants to know a great deal more than the people in whose name it talks.' The freedom of the press to print without fear or restraint can, if improperly or unwisely used, run contrary to an equally basic part of the public interest, namely the ability of the government to carry out the people's business of defending our interests abroad and guarding the nation's security."

The answer to the question "Do the people have a right to know" is not, as it always is, sometimes opposed, Manning said.

Publicly in the press, he continued, sometimes could "greatly assist our adversaries."

Contract Let on School Fencing

Keel, Wildison, Strong contractor company was the low bidder to erect fencing around the Twin Falls high school athletic field and has been awarded the contract, Ernest Rydgland, school superintendent of district No. 41, reported Tuesday.

Rydgland said he hoped to have the school's football game played at the high school athletic field next fall.

He also said bids will be asked soon on construction of remainder of the seating at the field.

Methodists Affirm Right Of Negroes

PITTSBURGH, May 5 (AP)—The general conference of the Methodist church Monday night adopted a report strongly affirming the principles of the national Negro rights movement.

The report said racial segregation has been "expressed in the life, and structure of the Methodist church," and urged all pastors and church officials to open their churches to all persons regardless of race.

It also called upon Methodist bodies to use their influence in securing fair employment, housing, equal education and to end "racial injustice in society as well as in the church."

The discussions centered around a section interpreted by some delegates as the affirmation of the church on "civil disobedience."

"Wherever legal recourse for the redress of grievances exists the responsible Christian will obtain the best available legal and religious counsel for his dilemma," the report said.

"In some instances, where legal recourse is unavailable or inadequate for redress of grievances that, on their face, are unjust and immoral, the Christian conscience will obey God rather than man."

The resolution passed after an hour debate.

City Reverses Ruling on Golf Course, Passes Not Allowed

With an estimated 40 silent persons looking on, Twin Falls City Commissioner John Platt moved Monday night that Part A, section five, resolution 882 be stricken. The motion was seconded by Commissioner John Angerbauer and the Twin Falls city commission voted free golf passes for the commission off the books. The section stricken by the commission said that city commissioners in their advisory capacity could inspect and use the course at their own discretion. The action reversed a decision made two weeks ago and the commission also voted to accept resignations of five members of the Twin Falls parks and recreation commission.

10 Americans Die In Viet Nam Crash

SAIGON, South Viet Nam, May 5 (UPI)—A twin-engine U. S. army Caribou transport plane crashed in flames shortly after takeoff south of Saigon today, killing 10 Americans and five Vietnamese. It was the worst single disaster to American forces since the outbreak of hostilities in the Vietnamese anti-communist war. A U. S. military spokesman said the crash took place at Tan Hiep air strip, about 25 miles from Saigon in nearby Dinh Tuong province. Names of the victims weren't released.

Before today's crash, the worst incident involving American military men in Viet Nam had been the twin crashes of two B-57 U. S. marine corps helicopters in the mountains of central Viet Nam. The helicopters were shot down by communist ground fire with a loss of 12 American lives.

Communist guerrillas long have made it a practice to fire on planes landing and taking off at such strips as Tan Hiep, as well as at Saigon airport.

It was not known immediately whether the plane was shot down by the Reds or crashed because of mechanical failure.

The plane's pilot radioed that the airstrip shortly after takeoff that one of his engines was on fire. The spokesman said.

The plane exploded and burned on impact, the spokesman added.

The crash came in the wake of a disastrous week-end of violence against American planes in the Vietnamese government in its fight to crush the Viet Cong guerrillas.

Idahoans to Seek Power Line for BPA

WASHINGTON, May 5 (AP)—Sen. Frank Church, D., Idaho, said today that nearly 20 Idaho witnesses will testify before house subcommittee on the proposed construction of Bonneville power transmission line to southern Idaho.

He said they will appear Wednesday afternoon before the public works subcommittee of the house appropriations committee, and Thursday morning before the senate subcommittee. If their testimony isn't completed, he said it would continue Friday.

Church said he will be lead-off witness in the senate hearings and testify before the house subcommittee.

Expected to testify for the line, he said, are Edwin G. Schellert, Malia, Snake River power association; Paul Krusenstern, Mackay; Chairman of Commerce, Don Crawford; Idaho Mayor Edythe Pederson, Idaho Falls; Thomas Maberly, Rupert; George; Henry Curtis, Idaho; Mayor Russell Cranney, Preston; Theodore Holt, Idaho; Mayor's Union; Mayor Mack Cronin, Burley; Harold Carraway, Rupert city council; Mayor Gilbert Larson, Elkburg; Bern Evans, American Falls; Mayor Harold Hurst, Heyburn; Robert Hutton, Pocatello; Attorney Darrell Dornan, president, Idaho AFL-CIO; Arlie Park Evans, Marsing; Mayor John Evans, Malad; Phil Griddle, Mountain Home; and Robert Langston, Pocatello labor council.

Plans Are Reported for Remodeling At Magic Valley Memorial Hospital

Magic Valley Memorial hospital is planning its first change since the building was built in 1951 by remodeling and adding new equipment and rooms. The estimated cost of the remodeling project is \$303,000.

The first old building, administrator of the hospital, said increased demand for services created need for more space.

She said the U.S. public health service has approved a \$22,288 grant of Hill-Burton funds for the hospital to cover some of the expense. The money will be used in a project which will be divided into two phases.

16 Freight Cars Derail, Block Line

SHOSHONE, May 5—Union Pacific railroad company crews were working Tuesday to clear the main line tracks of wreckage caused when 16 cars of an eastbound freight train derailed at 3:35 a.m. today at Senter, 26 miles east of Shoshone. Bradley Bates, Pocatello, engineer of a westbound freight train which was waiting for the eastbound train to pass before switching tracks, was injured by the impact as the cars tore out tracks and spilled their loads of lumber, paper and other freight. Bates was reported in good condition Tuesday noon in Goodkind Memorial hospital with leg and hip injuries. X-rays were taken this morning, but the extent of his injuries was not disclosed.

It is hoped the track will be cleared by this afternoon, according to Joel L. Priest, company public relations officer, Salt Lake City. He said cause of the derailment has not been determined. It is not clear if the derailed train was on fire. The entire box appeared to drop off. Bates related, and he said it hit the TRAIN, Page 2, Column 6.

40 Witnesses Ignore Girl's Call for Help

NEW YORK, May 5 (AP)—A second wave of witnesses ignoring a young woman's screams for help—this time a nude teenager fighting an attacker—was being probed by police today.

Police said the girl, a telephone operator, was attacked in a Bronx office building Monday by a man who tore off her clothes. She ran to the front doorway, shouting for help.

At least 40 persons could have helped but did nothing, police reported. Two patrolmen heard her cries and took her aid. They arrested George Coughlin, 26, a salesman, on morals, rape, felonious assault and weapons law charges.

"It's a Bronx Kitty Genovese case—only the girl wasn't killed," said a detective.

Catherine Genovese, 28, was trailed by a man who stabbed her to death in 1962.

Coughlin said at least 38 persons saw the slaying or heard her screams without calling police. A man was arrested and police said he admitted the slaying.

"I didn't see anything," police quoted one witness as saying.

More County Candidates File Petitions

Five Republicans filed declarations of candidacy Tuesday for precinct committee and W. W. Lowery, Hansen, Democrat, filed for county commission. The county commission was elected two years ago as commissioner from district three and is seeking re-election.

Filing Monday for Republican candidates were: Ed. B. Hansen, precinct No. 1; Douglas Kramer, route 1, Twin Falls, precinct No. 15; Price Holloway, Plover, Thomet's precinct; Travis J. Bodrozic, Buhl, precinct No. 1; Merle Brown, Buhl, precinct No. 2; Charles Lynde, Buhl, precinct No. 3; Max Smith, Buhl, Lucerne precinct, and Ted Ahlm, Buhl, precinct No. 6.

Filing Monday afternoon for Democrat precinct committees were: William L. Chancy, 221 Buchanan street, Twin Falls precinct No. 7, and M. W. Craig, Kimberly, precinct No. 1.

Signing the petition of James H. Benham, who filed Friday for Republican nomination as sheriff, were William L. Chancy, W. W. Silvers, E. J. Rayburn, J. H. Breckenridge, James Koutnik, Robert Snyder and John R. Coleman, all Twin Falls; Harold Brown, Plover, and George L. Dilck, Castleford.

British Send More Troops To Arab Area

LONDON, May 5 (AP)—Britain ordered more troops to Aden today in preparation for stronger action to defend its base guarding British oil investments in the Middle East.

Defense sources said 600 men of the British Expeditionary Force, a tactical headquarters from Northern Ireland would be airlifted immediately to the big port and base at the southwest tip of the Arabian peninsula.

They will bring British strength in Aden from about 1,000 men, backed by jets of royal air force.

Their immediate task, informed sources said, would be a punitive expedition against tribesmen fighting a guerrilla war against the British-protected South Arabian crown colony with the 14 sheikhdoms of the former Aden protectorate stretching along the south coast of the peninsula.

The long-term objective is to convince the guerrillas, known as the Front for the Liberation of Aden, that Britain will not be driven out of its Aden base.

The base is considered essential to the protection of Western oil interests in the peninsula as well as a staging post on the commonwealth defense line to the Far East.

Farm Bureau Wants Slash In Aid Plan

WASHINGTON, May 5 (AP)—The American Farm Bureau Federation urged today that congress slash 1.1 billion dollars from the 3.4 billion dollars foreign aid program authorized by President John F. Kennedy.

In a statement prepared for a house foreign affairs committee hearing, John C. Lynn, legislative director for the farm organization, said a country-by-country analysis shows that the program can be further curtailed.

His statement recommended five guidelines for what it called sound foreign aid programs.

They were:

An understanding that this country cannot buy friends and cooperation and that it cannot force people or governments in this government's own image.

Help should be extended to those who need and want assistance, providing it is not self-interest that they can readily use efficiently.

Assistance should be given only on the basis of a "soundly conceived plan which shows good possibilities of achievement."

Instances that "our friendly economically strong allies assume the aid responsibility for the areas where they have a major trading and political interest."

Lynn said the foreign aid program has a large amount of uncommitted funds which would provide for only a very small actual reduction in spending in the coming fiscal year.

Loses Appeal

SAIGON, Viet Nam, May 5 (AP)—Former President Ngo Dinh Diem's younger brother, Ngo Dinh Can, lost his appeal for a 10-year prison sentence today and is scheduled to die by the guillotine within the next five days.

Can was convicted of murder, unlawful retention of office and harming the national economy.

Plans Are Reported for Remodeling At Magic Valley Memorial Hospital

Phase two will provide space and equipment for expansion of laboratory facilities, additional diagnostic aids for physicians and will increase the size of the radiology department.

Mrs. Oliver stated, "There is immediate need for expansion of office space large enough to separate the director of nursing service from the area occupied by the nursing office secretary and house supervisor."

"There is need to enlarge the present medical record department to provide adequate space for a staff of 22 physicians to complete essential patient medical records without interfering with the work of department personnel."

"Additional space is needed in the business office in order that

Politicians Hail Rule on Districting

By The Associated Press
Idaho's incumbent Democratic congressmen and three Republican opponents for their jobs to be held in a federal court ruling that the state's congressional districts should remain intact until 1970.

They all agreed the decision was sound and some expressed the hope that the ruling would settle the question of the state's congressional districts and Compton J. second district and white of the first district and white of the second district.

They added that the 1965 legislative session had expected Harding to be the second district in 1966, but he filed for election in 1964.

In a unanimous ruling, the three-judge panel said Monday that the state's congressional districts should be drawn in a way that would dilute the influence of individual voters.

They said they wouldn't consider the case until 30 days after the 1965 legislative session ends.

"The very relief that the court has come to a decision as to how they will rule," said White.

"I take a load off my mind because I haven't been able to determine whether I would be running in my present district or at-large or in a redistricted district. It seems like the logical decision to be made because the election process has been started."

The deadline for filing non-binding petitions is Thursday.

White said he signed an affidavit that would dilute voting power in the legislature, he said.

He should be allowed to act when he has adequate time to equalize the districts.

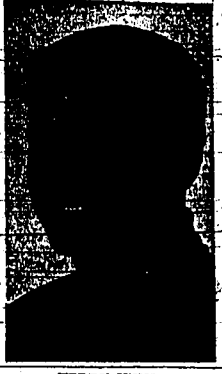

John McMillin, a Kellogg realtor seeking the first district Republican nomination, said he believes his chances would have been improved with at-large elections, but added that at this time he agrees with the ruling.

There has been a ruling for a statewide vote a month ago, he said, it might have drawn more candidates.

Specialty we have not tried to buy anybody out of the race," he said.

Edith Schofield, Boise, said she predicted the court's decision and was looking forward to repeating earlier predictions she would defeat Harding.

Dr. Robert E. Smylie, in San Francisco for a Western government conference, said the ruling changes need for a special session of the legislature. He said he would have called one if the

TERRY WHITE
... has been elected Hagerman high school student body president. Other officers are Alan Palmer, vice president; Pamela Hisselade, secretary, and Twilla Johnson, treasurer.

Buhl Man Cited After Mishap

BOISE, May 5—William Barta, 66, Buhl, was cited for backing without reasonable precautions when he pulled his 1957 International pickup truck from a parking space in the 100 block on Ninth avenue north, and it collided with an oncoming 1951 Comet driven by Cheryl Owen, 16, Buhl, about 5 p.m. Saturday.

Minor damages were reported to the truck and \$300 to the Comet's front fender and door, according to City Patrolman Earl Farmer.

Court ordered statewide elections. Smylie had expressed sympathy with the idea of statewide elections, but they were opposed by Atty. Gen. Allan G. Shepard and Secretary of State Arnold Williams. Auditor Joe R. Williams and Treasurer Marjorie H. Moon, who were named defendants along with Smylie in the suit.

Dryden Hiller, Boise, a clerk in the Ada county recorder's office, filed the suit. He had no immediate comment.

He said he would have to talk to his attorneys before considering the possibility of challenging the ruling.

Hiller contended that persons in the second district are denied equal rights because of disproportion in population between the districts.

BPA Rate Blasted by Idaho Power

BOISE, May 5—The Idaho Power Company says it cannot compete with what it asserts is the "below-cost selling price" the Bonneville power administration is using to pirate phosphate customers.

The blast by utility President T. E. Roach was prompted by a statement by BPA southern Idaho Manager Feris Gilkey regarding his earlier contention that low-cost power will bring an expansion of the state's phosphate industry.

Roach said Idaho Power's 2.77 mill kilowatt hour rate is 25 percent higher than the selling price of BPA power.

"In the last five years," he said, "our rates per kilowatt hour alone have steadily increased and have always been much higher than tax free Bonneville's so-called 'poilage stamp' rate of two mills or even 2.2 mills it has offered to Montano's electric furnace plant at Soda Springs."

Roach also termed as "totally incorrect" what he said were implications by Gilkey that southern Idaho's phosphate industry has lost markets due to high power costs.

KIRK WOODHOUSE
... son of Mr. and Mrs. Trafford Woodhouse, Oakley, has been elected student body president of the Oakley high school. Other officers are Dennis Smith, vice president; Kelly Clark, secretary, and Mark Warr, treasurer.

Lottery Tax Sparks Fight Against IRS

CONCORD, N.H., May 5—Gov. John W. King and the New Hampshire sweepstakes commission Monday prepared to fight a 10 per cent federal gambling tax on revenue from the controversial lottery.

There were indications that the state would battle the internal revenue service (IRS) tax in the courts while the four-member New Hampshire congressional delegation attempted to win support for legislation excluding the sweepstakes from gambling taxes.

Sweepstakes Director Edward J. Powers said he believed the commission had an "excellent" case against the tax demand.

The IRS has informed the commission that it must pay the 10 per cent excise tax and also allow a \$50 gambling tax stamp for every person who sells sweepstakes tickets.

The taxes would represent more than \$500,000 if sweepstakes sales reach a predicted 6 million dollars the first year.

Powers contended that the tax isn't justified.

County Commissioners Don't Have to Bargain With Union

BOISE, May 5—Washington county commissioners were told today they aren't required to bargain with the International Union of Operating Engineers, AFL-CIO, which represents employees of the county road and bridge department.

The opinion was contained in a ruling handed down Monday by Atty. Gen. Allan G. Shepard.

Shepard said, however, that public employees have a right to join a labor organization, with the exception of firemen and policemen, and that "the ability of the public employer to bargain with union representatives is permissive."

The Washington county commissioners requested the opinion after the union threatened legal action over their refusal to bargain.

Shepard said he believes a court would agree with the reasoning he quoted from a California case. The court there said bargaining isn't proper in public employment because public officers may not delegate their power to others, on the theory it is public property.

Castleford Has Contest Winners

BOISE, May 5—Junior high school students from the Castleford school were named winners in the annual American essay contest held under the Legion auxiliary, announces Mrs. Darol Womack, chairman of the program.

Prize winners, writing on the theme, "Americanism vs. Foreign Aid," are Jeanette Reese, first place, \$3 cash prize; Charles Joe Barinaga, second, \$2, and Rose Mahannah, third place, \$1.

Honorable mentions are Eileen Pollock, Lynn Wells and Annis Baughman. Judges for the contest were Mrs. Woodrow Ash, Mrs. John Burkhardt and Mrs. Robert Koktavy.

Hotel Asks Peter Lawford To Pay His Bill

SANTA MONICA, Calif., May 5—Actor Peter Lawford hasn't paid his bill for \$4,702.42, says the Beverly Hilton hotel.

Hilton Hotels corporation has sued Lawford and his production firm for that amount, claiming it is the balance of a \$2,011 bill for lodgings and service at the Beverly Hilton hotel between August 1962 and November 1963.

Defendants named are Lawford, Christaw Productions, Inc., and the John Does. The suit was filed in Santa Monica superior court Monday.

Lawford is married to the former

President Asks Labor to Hold Line on Wages

WASHINGTON, May 5—President Johnson called on organized labor Monday night to hold the line on wages and to join with government and business in striving for a goal of full employment.

Johnson made the appeal to labor leaders at a White House dinner party, as he did at a similar dinner last week for top business executives and their wives. Johnson held out the promise of another tax cut in a few years if the economy continues its forward thrust.

"The time has come for labor and government and business to agree that we are going to achieve—and keep—full employment," Johnson said.

Scoter Law

NEW YORK, May 5—The police department will use motor scooters this summer as a means of combating crime in parks.

Deputy Police Commissioner Walter Arps said Monday that 25 scooters would be used in Manhattan's Central park and Prospect park, Brooklyn, during the 5 p.m. to 1 a.m. shift.

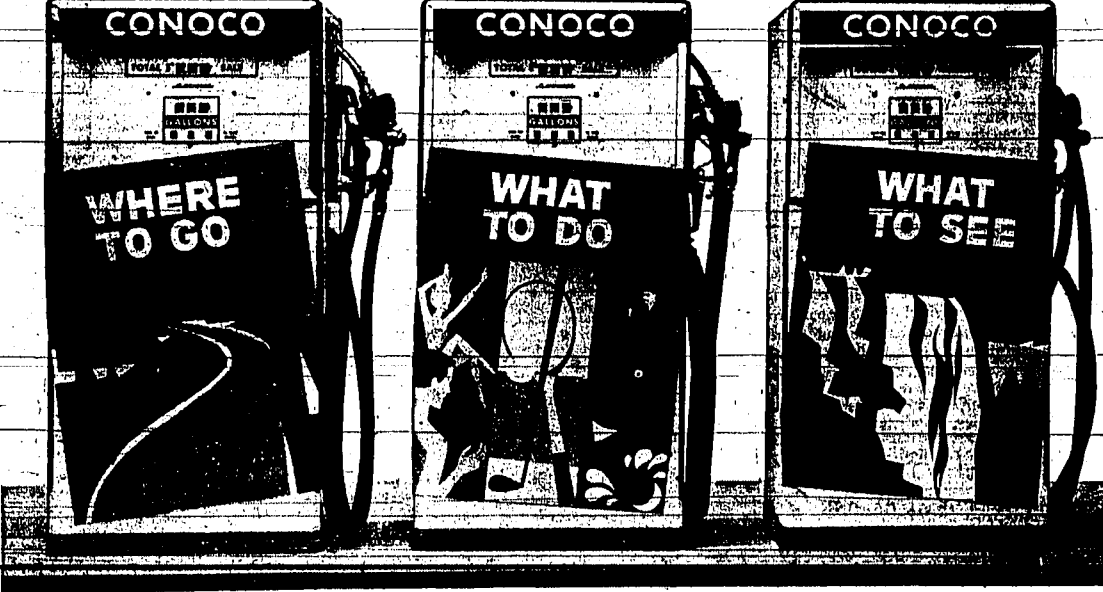

Arps said scooters can move much faster than a foot patrolman or mounted policeman and can get into areas not accessible to cars.

Hottest Brand Going!

NATIONAL WHIRLIGIG

By ANDREW TULLY
WASHINGTON, May 5—Because this is a lousy world politically, I am not joining the teeth gnashers in deploring the fact that the United States is producing more military weapons than it can use. This is just one of the dirty facts of life we have to live with these days.

It seems there is a factory in the state of Idaho which produces a day for the past three years a gas that is odorless, tasteless and virtually invisible, and a drop of it can kill a man in a few minutes either by inhalation or by absorption through the skin. The body simply strangles its own vital organs through continued contraction of the muscles.

NO POLITE ENEMIES—Some folks say this is terrible stuff for a humane nation to be making, which is true. They also say we should stop making it and destroy our stockpiles, which unfortunately does not make the kind of brutal war which will come upon us if we do not stop making it. People who plan against the day when war might come can't be squeamish because they have no assurance that a potential enemy will content himself with producing the more polite weapons of the U.S. army general testifying before a senate foreign relations subcommittee in 1950 estimated that one-sixth of the Soviet Union army stockpiles consisted of chemical weapons. It is hard to know how many of these weapons are producing these horrors merely to touch all the bases, but who can tell? There are acid and radiatic nits in every country who would like to "just try" nerve gas, and so Uncle Sam has to be ready with his supply as a counter-threat.

LIKE POISON GAS—In a world in which one bomb can kill or maim millions, it seems silly to talk about "gentlemen's agreements" banning certain weapons, but they remain in force. The world is still in a state of tension during World War II, but neither side used it, simply because of the fear of retaliation. Thus, in the world of an army spokesman, the U. S. is producing nerve gas as part of a race to stay ahead of any weapon so he won't be tempted.

The argument has been advanced by sincere protestants that nuclear weapons make such chemical weapons unnecessary if not obsolete. Unfortunately, this is not necessarily true. If the country were the sole possessor of nuclear weapons, the temptation might be strong to stage "accidents" in the areas of the world's various brush-fire wars, such as Viet Nam, where retaliation with nuclear bombs might not fit into the over-all world strategy of the moment.

ALL DEATH IS FINAL—In other words, it might not be practicable to launch a global war because of such an "incident." Thus, retaliation in kind would be the only recourse.

Aside from such considerations, however, it is easier to argue about the relative inhumanity of modern weapons. No such relative exists, any more than there can be anything relative about death. All these weapons are designed to kill you and me dead, and personally I would not wish to be the victim of any such strangulation and the assorted fatal effects of cobalt bomb.

People get killed in wars, in one way or another, and once they are dead it doesn't matter how they were executed. Mankind can save itself from this kind of death only by the elimination of affairs that is not quite so dangerous as war. It is called peace.

Views of Others

LONG AND THE LENDING BILL
It may well be up to Missouri's Senator Long, who is the sponsor of the bill, to make the decision whether Americans who buy on time are to be sure of knowing clearly how much they are charged for financing. As a member of the senate's banking committee, his vote may decide whether the "truth-in-lending" bill die in committee or in the house.

This is the third such measure introduced by Senator Douglas of Illinois. In the 86th and 87th congresses, the bills were buried in subcommittee. But the pending one, probably because of the backing of President Kennedy and President Johnson, was reported favorably by a 5 to 4 subcommittee vote. The division could be as close in the full committee, so an unfavorable vote by Missouri's junior senator might once again choke off this simple reform.

Senator Long's dislike is manifest. He sought to amend the bill's progress, and he said that his associates in the banking and loan business in Missouri are against it. James Deakin, a Post-Dispatch Washington correspondent, reports that the senator is making an effort to have the assistant Secretary of Labor, Walter Peterson, omit discussion of credit charges at a meeting on consumer problems to be held in St. Louis this month.

Senator Long is entitled to his views on this legislation, but he would abuse his office if he used his public position in the senate to serve his private interests as a banker and owner of small loan companies. The very least he can do, as a senator, is to abstain from voting on the bill.

No law requires Senator Long to do this, and in doing so he would express a higher principle than some other senators do in similar situations. But the senate's failure to police its own conduct in general are not the least. The issue is a simple and particular one: Will Senator Long decline to use his public position for private interest?—St. Louis Post-Dispatch.

WE STILL THINK SMALL
The British, abandoning their usual taste for careful understatement, have come up with the biggest planning project in the free world. The scale and scope of this proposal for the planned redevelopment of the entire populous southeast of England—including the dozen or so new cities and towns and the expansion of present ones—is staggering even to Americans who consider themselves masters at thinking big.

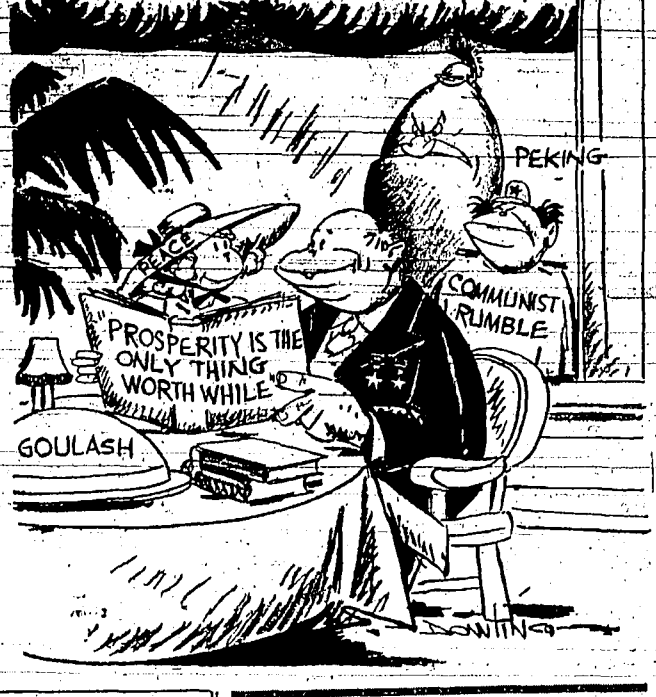

The fact is that we think small about one of the largest problems of our time. The population explosion is a reality and so is the wasteful exploitation of land that has followed in its wake. The ravages of unplanned expansion have reached the stage of almost criminal negligence in terms of the thoughtless and irreversible misuse of dwindling resources.

Planning is simply looking ahead, sensibly, to keep crisis from turning into catastrophe. The challenge of the environment—something none of us can escape—is the most serious of this century. Our response is invariably too little and too late.

Our "New Town" movement has started fifteen years behind Europe, an after-the-fact reaction to land already sold, and planning is already done. The first real step is to get a better job of community planning in the housing legislation now before congress. This legislation is being fought by real estate groups, who are opposed to the provisions for government assistance to community development. "We can do it better ourselves," they say. But the evidence is incontrovertible; they haven't.

The best planning is a calculated gamble involving some unpredictable risks. Yet, by providing the only orderly, flexible framework for growth, it gives the only decent odds for a decent environment. The British are taking the lead in this. Our country's physical future and the way we live.—New York Times.

"He Went for Her and Sure Got Goofy!"

POT SHOTS
BEST PART MISSED

Now that nice weather and longer days are just around the corner, it's time to remind everyone that the best part of the day is that period between daylight and breakfast time.

Too many people stay up until all hours, then arise in the morning just in time to gulp breakfast and run to work. Just for a change, folks should try going to bed earlier and arising much earlier.

Many people would be surprised if they only knew what they were missing.

Interpreting the News

BY JAMES MARLOW
Associated Press News Analyst
WASHINGTON, May 5 (AP)—One of the healthiest recent signs that the cold war has diminished a bit is the utter absence of anti-communism.

Businessmen have and where they show a developing desire for a buck, even if it means trading with communists.

It showed up at the annual meeting of the U.S. Chamber of Commerce in New York, one of the most non-pro-communist organizations in the country.

About 90 per cent of the businessmen in the country crossed the trade in non-strategic goods with Russia and her European satellites.

Some even wanted trade with three countries totally embargoed by this government—Red China, North Korea, and Viet Nam. There was no vote on this.

Why this surge—and it has been growing to trade with the communist world? Speakers explained in dollars and cents:

If American businessmen are prevented from selling to the reds, the trade will go to businessmen in other Western countries which have fewer restrictions.

The British, just as anxious for the money, give their motivation a little more philosophical.

"A fat communist is a little less belligerent than a lean one." Exports to communist countries now by Western Europe and Japan are running at about three billion dollars a year. Next on the list with Britain and France next, but mostly because of exports to Communist East Germany. The United States is at the bottom of the list.

Most of the Allies' trade with the reds is in non-strategic goods, and other non-strategic goods.

But there has long been a feeling in this country that selling anything to communists simply strengthens them.

A classic example was the fight in congress—it finally lost.

It is widespread in contemporary society.

"We have become hardened—perhaps a little more so," said a diplomat. "The dreadful wars we have been through seem to have cheapened the value we place on a human life."

The Most Reverend Bishop of Washington, D.C., said the incidents show that the Judeo-Christian concept of brotherly love is a practical necessity for the survival of our civilization.

"Without it, he said, our attitudes toward one another quickly degenerate into a kind of neutralism, in which we think of our neighbor only as a potential nuisance."

Rabbi Richard G. Hirsch, director of the Jewish Action Center of Reform Judaism in Washington, said "unwillingness to help a neighbor is the 'coulter' of others is becoming characteristic of many people in our society."

"It shows up not only in relation to personal problems but in an indifferent attitude toward social problems such as poverty and racial injustice," he said.

Rabbi Hirsch said "unconcern for human suffering is totally incompatible with America's claim to be a 'nation under God.'"

"One of the first ethical questions raised in the Bible is, 'Am I my brother's keeper?'" he said. "The whole Bible answers, 'Yes.'"

KITTENS FOR KIDS DEPT.
Five half-grown kittens. All colors, will be given away. You can get them from John Morris at the second house on the right side of the highway north of the Jerome golf course. Presumably, that's the right side of the highway if you're driving north.

MAMOUS LAST LINE
Sometime after Memorial day, we'll have a nice day.
GENTLEMAN IN THE FOURTH ROW.

Religion in America
By LOUIS GARRELL
United Press International
A few weeks ago, in a quiet residential neighborhood of New York, 38 people watched a killer walk a defenseless woman and a child. It took him half an hour and three separate attacks to complete the brutal business of establishing her death. During that time, any one of the onlookers might have saved her. He simply picked up the telephone and called the police.

Not one of them did. They explained later to police they "didn't want to get involved."

On April 13, nearly 3,000 people gathered in the streets around the DeWitt Clinton hotel in Albany, N.Y., to watch an emotionally distraught 10-year-old boy pace back and forth along a narrow ledge on the 11th floor.

"Go ahead and jump," somebody yelled. "Don't be chicken, jump," shouted another spectator.

"Jump, jump, jump," chanted a crowd of boys in union suits. When police finally pulled the

MARQUIS CHILDS WRITES ON WASHINGTON

WASHINGTON, May 5—Under the Johnsons' avenge the Kennedy assassination. The wide range of visitors coming and going. An old friend brought with him the other day the salt and the sweat of a year's work.

J. Frank Doble, whose many books give the color of that earlier Texas, has known the Johnsons for many years. When the Lincoln suits there was a neighborhood of friends, one of that later that President a hundred years ago would have felt at home with.

Doble, one who tells you that he thinks regardless of position or power. He has kept his roots deep in Texas while fighting the blight conformally at every opportunity. "Life and literature of the Southwest" was for years the most popular course at the University of Texas. If the mood was on him he would have felt at home with the Secretary of State Dean Rusk.

He takes this line—and it's the Johnson administration line—that the United States should pick and choose between communist nations on trade.

"This is the reasoning: That trade with certain communist countries may encourage them to show more independence of Moscow."

But he wants a tight boycott—against selling even wheat to Russia.

Secretary of State Dean Rusk has been on this attitude last month in telling congress these should be more flexibility in trade with the reds.

He talks about his new book "Life and literature of the Southwest" which he has written in the Johnson administration line—that the United States should pick and choose between communist nations on trade.

The Doctor Says

BY WAYNE G. BRANDSTADT, M.D.

Q—Is leukemia a form of cancer? If so, what is leukemia? How would this prevent his getting cancer?

A—Leukemia is considered to be cancer of the blood. In the victims, tumors of the spleen, a gland in the chest, and lymph nodes and bone marrow. The new growths may control the growth of the tumors for several years but cannot be considered permanent cures. Whether or not such treatment would have any bearing on the victim's susceptibility to a different form of cancer.

Q—Three years ago at the age of 30 I had a hysterectomy. Since then I have times when I feel crampy and mildly light-headed. I am not sure if this is due to the hysterectomy. Would the operation have anything to do with these symptoms? Where does the blood go that I normally would have lost with my periods?

A—You have undergone a surgical menopause. This may be partly responsible for your symptoms. The blood you would normally have lost doesn't go anywhere. Menstrual bleeding is a part of the preparation for the renewal of the coming ovum. With the uterus removed this is no longer possible.

Q—What are the symptoms of hardening of the arteries of the brain? What can be done about it?

A—Cerebral arteriosclerosis may cause a wide variety of symptoms depending on the part of the brain that is damaged. One of the commonest results is what is known as a little stroke. The victim undergoes a change of personality—becomes untidy, irritable, forgetful, and unresponsive. There is no cure for damage that has already been done but steps can sometimes be taken to check the process. These would include getting medical help to reduce the abnormally high blood pressure, diet to reduce overweight, cutting out smoking and in carefully selected cases the use of a tranquilizer or drug to enlarge the smaller blood vessels.

Q—It is harmful to drink coffee. Is there any harm in drinking coffee? I have heard that this develops some chemical that constricts the blood vessels.

A—Coffee beans are roasted before you buy them so that you make fresh coffee the grounds are reheated. Reheating does no harm but the caffeine in coffee, fresh or reheated, is a mild blood vessel constrictor.

Oswald Jacoby, Bridge

South must be wary of East. I am not going to show the East. West hands today because it is up to you to find the proper line of play. It is your job against a seven of spades opening.

Of course, in the intercollegiate bridge tournament, North and South had to reach three up-trump with South at declarer. As a preliminary to collecting the hand correctly, you had to play the hand correctly. Actually there is very little to the play if you remember to use the code word "Arch."

You analyze the lead as the fourth best of a suit headed by non-queen-ten and you confirm

(this when East plays low and your nine spot wins the trick. Your Review of the bidding just tells you that East has a much of anything and just enough to get you to pass. You should that you will surely make your contract if you can just gather in four heart tricks.)

How do you get those four heart tricks? You go after the suit. Is there any danger? You shoot a spade through you and it will cost you four spade tricks. East is not likely to hold the queen of hearts; but he may. Therefore, you play with the club and lead the jack of hearts. If East holds the queen, you will make the queen, you will not heart trick but your partner will not be in any jeopardy.

CARD RENSE
The bidding has been South West 1♠ East 2♥ 3♥ Pass 3♥ Pass 3♦

Answer next week.

District Meet Held by Valley Garden Clubs

Garden club members from throughout the Magic Valley attended a district luncheon meeting at the Depot Grill Caboose room at the Depot in Boise on May 11 in observance of the 25th anniversary of the National Council of State Garden Clubs. This is the 10th year of state affiliation.

CAROL LANE

James Jerome, sole district officer, showed a film, "We Are All Neighbors." The film depicted the importance of proper digestion and farming methods to conserve our natural resources of soil, forests and wild life.

Slides of flower arrangements taken by Mrs. E. W. Smith at the 1953 regional meeting were shown by Estelle Ricklets, known by the program, Mrs. J. Proctor, district director and first vice president of the State Garden club, welcomed guests and conducted the business meeting. Mrs. J. R. Webster, Jerome, state historian, commented on the garden club movement in the nation and in Idaho.

Mrs. Lloyd Johnson, state radio television chairman, was acting secretary and read greetings from Mrs. Louis Kohler, Boise, state president. Correspondence was read from Mrs. Kenneth Sadler, Nampa, state improvement chairman, advising of Bears, Roebuck grant of \$2,000 in prizes available to Garden clubs working on beautification projects.

The district voted to contribute funds to the American Kerosene Foundation to aid in its gardening efforts.

Mrs. C. B. Raquet, Kimberly, was appointed bird chairman for Magic Valley district.

Mrs. Harry Morris, state high school gardeners chairman, announced Jerome Garden club, in cooperation with Northalde Lum-

Women's Travel Director Will Be Speaker

Carol Lane, women's travel director of Shell Oil company, is guest speaker of the Idaho Federation of Women's clubs state convention May 7.

JUDY RAE NIHART

Her talk will be given at a luncheon at the Rogerson hotel. Her topic will be "Let's go adventuring."

Helping American families explore and enjoy their own country is the activity of Miss Lane, who travels 60,000 miles each year. Her talk includes hints on unique vacation trips, travel budgeting, short tourette vacations, how to travel with children, family camping and other subjects.

A highlight for many previous audiences has been a short, bag-packing demonstration, during which a 16-inch suitcase was packed with a complete two-week wardrobe.

In addition to her appearances before women's groups, she has written numerous booklets on travel, has appeared on hundreds of television programs, and is often described by club women as "America's first lady of touring."

Judy Nihart, Abbott Reveal Engagement

CASTLEFORD, May 5 — Mr. and Mrs. Mel Nihart, Castleford, announce the engagement of their daughter, Judy Rae, Veneta, Calif., to Peter Abbott, Los Angeles.

Miss Nihart is a graduate of the Castleford high school and attended Idaho State university. She is employed at the Pacific Telephone company, Beverly Hills.

Abbott is employed at the Pacific Telephone company and is a night student, studying electronics.

Social Events

Pythian Sisters Social club will meet at 7:30 p.m. Wednesday at the home of Mrs. Archie Turner, 1919 Eldridge avenue. All members are urged to attend.

Welcome Rounds will dance at 8:30 p.m. Thursday at the Ballroom. Mr. and Mrs. Joe Gibbs are instructors. Those attending are asked to bring dessert or sandwiches.

BUIH—Buhl chapter No. 39, Order of Eastern Stars will meet in regular session at 8:30 p.m. Thursday at the Masonic temple.

Executive board of United Presbyterian Women's association will meet at 10 a.m. Thursday in the Fireside lounge of the church.

Highland View club will meet at 7:30 p.m. Wednesday at the home of Mrs. Andy Halverson.

Cubans Claim Finding U.S. Arms Cache

HAVANA, May 5 (AP)—The Cuban government said today it has found an "enormous shipment" of American arms and explosives in an underwater cache off the north coast of western Cuba.

A government statement printed in Havana morning newspapers said the materials were intended for sabotage, anti-government uprisings and the creation of "bandit gangs."

The statement said the fishermen found the arms, explosives and a large quantity of Cuban banknotes in nine metal boxes and eight waterproof drums tied together underwater near Cayo Las Llavas, a small offshore island. The cache was secured by a rope to a shrub on the island's shore, the statement said.

It did not say when the cache was found.

TO VISIT AFRICA
WASHINGTON, May 5 (AP)—G. Mennen Williams, assistant secretary of state for African affairs, leaves Friday for a two-week trip to five African nations at President Johnson's request.

MOTHER OF THE YEAR award was presented to Mrs. Blanche Sheridan, Eden, center, by the Rt. Rev. Msgr. Edmund R. Oddy, left, and the Most Rev. Bishop Sylvester W. Trelnow. The award highlighted a luncheon held Monday at Blue Lakes Country club to conclude the Idaho Council of Catholic Women convention here. Mrs. Sheridan is a widow with three children and has been a long-time resident of Eden. (Times-News photo)

China-Inspired Book Bursts With Anti-Khrushchev Fury

By WILLIAM L. BYAN
AP Special Correspondent
A Chinese-inspired book circulating in Asia levels sensational charges against Soviet Premier Khrushchev, and has ignited the most dramatic Moscow-Peking battle for domination of revolutionary movements in the underdeveloped world.

Bursting with anti-Khrushchev fury, the book accuses the Soviet leader of such things as plotting against Fidel Castro's regime in Cuba and advocating abandonment of the communist struggle to take over South Viet Nam and Laos in Southeast Asia. The charges and documentation could have come only from Peking. With Moscow's latest attempt to freeze the Soviet Union out of Asia, indications are that the dispute has gone past the point of no return and that the breaking point is near.

The book was published in Ceylon late last year. It was written in English by Theodor Gunawardhana, a Ceylonese communist leader who is active in the "Afro-Asian solidarity" movement. His text indicates it was virtually dictated by the Chinese. The title of the book is "Khrushchevism."

Here are a few of the accusations against Khrushchev: That he made a deal with President John F. Kennedy for "30 years of peace" and pledged not to support violent revolutions.

That he deliberately built up the October, 1953, Berlin crisis to humiliate Fidel Castro so that the Cuban regime would be overthrown in favor of Moscow-trained communists.

That he sent agents to Peking to foment trouble between Chinese and Africans, particularly in the university.

That he plotted the Hungarian uprising in 1956 in a deal with Yugoslav President Tito, only to have it backfire into full-blown revolution.

That he ledged nations with threats of economic reprisals so they

would toe his line. The book said he threatened to boycott the sugar of one nation (obviously Cuba) and that he threatened to expel others from the communist family, hinting that those threatened were Romania and North Viet Nam or North Korea.

That his policies caused rebellion against his rule in Soviet central Asia.

That the Romanian party accused him of advocating abandonment of collectivization.

That Khrushchev had to purge Czechoslovak and East German communist leaders for opposing his line.

That he led Red China for repayment of every ruble loaned for the prosecution of the Korean war.

The book, citing little-known documents which must have been supplied by the Red Chinese, goes far back in the history of the Moscow-Peking dispute to portray "flea-bitten Khrushchev" as an "adventurist, opportunist, traitor, manipulator, stage manager—all of which produce the modern revisionist."

The author, once again seeming to echo Peking, predicts that Romania will be the next European communist nation to join Albania in breaking away from the Khrushchev camp. He says Romania's Communist chief Gheorghe Gheorghiu-Dej "is a brave man, and the world will soon see the Romanian Peoples republic also proving its national sovereignty."

Since the book was published, Romanian leaders have traveled to Peking and have been pictured in the forefront of efforts to soft-pedal the Moscow-Peking dispute. But Gheorghiu-Dej did fail to show up at a round of Khrushchev meetings recently with satellite leaders.

D. N. Englebright Honored at Rites

Funeral services for Dew N. Englebright were conducted at 2 p.m. Monday in the Albertson-Dickard chapel in Buhl by the Rev. Allen R. Reesor, assisted by the Rev. John Garabrandt.

Reed served as soloist accompanied by Mrs. E. A. Deem, organist. Masonic ritual-

lary rites were conducted by Elder lodge No. 55, AF and AM, directed by Elwood McCauley, worshipful master, with Edgar Vincent, past master, presiding.

pallbearers were Dinton Dougherty, Duane Ramseyer, Meris Allison, Clyde Van Alden, Roscoe Walker and Crale Dunlap.

Concluding rites were held in the Pfler YOOP cemetery.

DUMONT RETURNED

TUCSON, Ariz., May 5 (AP)—Frank (Bud) Dumont, 42, was on his way back to Pocatello Monday to face charges of aggravated assault involving a 14-year-old girl. Dumont, who was on the FBI's list of 10 most wanted men before being captured by an off-duty policeman and a university student in Tucson last week, was wanted on a federal warrant charging interstate flight to escape prosecution.

Famed Idaho Case' Ruling Reaffirmed

BOISE, May 5 (AP)—Idaho supreme court justices Monday reaffirmed a 1906 high court decision in the famous "Idaho case" growing out of the assassination of former Gov. Frank Steiwer.

The court returned the ruling in the case of a man twice charged with the same crime of burglary in Canyon county. Fred Stewart was charged with committing first-degree burglary in Canyon county Feb. 25, 1961. He won his freedom on a writ of habeas corpus when the district court ruled there was defect in the warrant of commitment issued at his preliminary hearing.

A second charge was filed against Stewart, however, and he was returned to Idaho from Las Vegas to face the complaint. He was convicted and filed an appeal.

In a unanimous opinion, the high court ruled Stewart could be legally rearrested, although he had once been discharged from custody on a writ of habeas corpus. If the procedure was within the period of limitations and did not violate his right to a speedy trial.

Also upheld by the court was the state's right to hold and try Stewart for the offense, regardless of the manner in which he was returned to Idaho from Nevada.

Confusing At Murtaugh

MADISONVILLE, Ky., May 5 (AP)—It can be 9 a.m. in Hopkins county courthouse but stick your head out the window and you can yawn at 10 a.m.

Madisonville is now on central daylight time. But Hopkins county, of which Madisonville is the county seat, is on "central standard time, an hour earlier."

County Judge L. B. Blanton announced Monday that all county offices in the courthouse will operate on standard time.

UTAH INCOME GROWS
SALT LAKE CITY, May 5 (AP)—The U.S. department of commerce says personal income in Utah increased four per cent last year.

Two Seek Posts At Murtaugh

MURTAUGH, May 5 (AP)—Lines have been filed for Wright, Jr., local postmaster, John Silvers, pioneer Murtaugh farmer, who will be candidate for trustee in zone two of school district No. 418 in an election May 12.

Morris Lattimer, incumbent trustee in zone two, is not a candidate for reelection.

Polls will be open from 1 p.m. until 6 p.m. May 12 at the Murtaugh high school.

Other board of trustee members now serving are Truman Blot, Wayne Hogue, Kent Blot and E. J. Morgan.

MEETING DUE
RUPERT, May 5 (AP)—Wood Growers Association will meet at 1:30 p.m. Wednesday at the City Hall building.
