Communist Party Conviction Upheld By Supreme Court

WASHINGTON, June 8 (AP)—The supreme court refused today to review a decision overturning conviction of the communist party of the United States for failure to register under the internal security act. The refusal leaves the lower court decision standing. The supreme court's action was announced in a brief order that gave no reason. Justice Byron R. White, formerly deputy attorney general, took no part in consideration of the case.

Vietnamese Stage Anti-Lodge Riots

SAIGON, South Viet Nam, June 8 (AP)—Thousands of Vietnamese Roman Catholics demonstrated for three hours in downtown Saigon yesterday, threatening the embattled country with new religious-political turmoil. Many demonstrators carried banners denouncing U. S. Ambassador Henry Cabot Lodge, although organizers of the rally said the anti-Lodge banners were not authorized. Other banners called Buddhism an ally of communism. A few placards thanked the United States for its aid in the fight against communist guerrillas.

Flood, Slide Close Roads In Idaho

By United Press International
Two Idaho highways were closed today by flood and slide Monday and northern Idaho rivers began reaching flood stage. Several slides east of Kootenai closed U. S. highway 21, the Lewis and Clark highway. The Clearwater county sheriff's office at Orofino advised motorists to check with the state highway department before attempting to drive across the route.

A secondary highway between Grangeville and Elk City was closed when the south fork of the Clearwater was reported at flood stage at both Kootenai and Orofino. Rain has been falling at least intermittently for several days through most of northern Idaho.

Missile Area Picket Line Halting Work

CAPE KENNEDY, June 8 (AP)—Picket lines were set up around the nation's spaceport today, halting work on projects costing about 216 million dollars and idling an estimated 5,000 men.

It was the second time this year that members of a non-union labor union striking the Florida East Coast railway has caused a work stoppage at the missile launch center.

Officials said between 5,000 and 5,500 construction workers have been idled by the strike. A spokesman for the U. S. Army corps of engineers said work was halted on the moon base at Merritt Island and the Titan 3 launch complex.

The picketing brotherhood is one of 11 nonoperating unions which have been striking the road since Jan. 23, 1963. Last February, the Order of Railroad Telegraphers struck Cape Kennedy, halting all construction for two days.

Trade Meeting Has Agreement

GENEVA, June 8 (AP)—The three-nation old world trade conference reached its first formal accord today.

The conference approved a recommendation that the industrialized western nations strive to double their aid to developing countries to an expected total of 10 billion dollars annually.

All of the decisions taken by the conference in plenary session during the day were in the nature of recommendations which require government endorsement to become effective. Thus, they represent an expression of intent, with no binding effect thus far.

Dam Breaks Under Pressure of Rains

By United Press International
An irrigation dam in north-central Montana broke today under pressure of heavy spring runoff that swelled streams rampaging over their banks in a wide area of the state. The U. S. reclamation bureau at Great Falls said Swift dam on Birch creek 12 miles west of the town of Dupuyer split open, sending a 20-foot wall of water down the creek bed and possibly threatening the city of Cut Bank to the north.

The weather bureau issued a warning—at noon—that Great Falls, Montana's largest city, was due for a flood likely to be worse than the flood of 1953 which flooded several hundred homes along low-lying areas near the Sun river.

The agency said the outflow over diversion dam on the Sun river west of Great Falls was the highest ever recorded. "A series of major floods will occur at all points downstream to Great Falls," the warning said.

The outflow will begin in the Great Falls area about noon on Tuesday, reaching levels higher than the 1953 flood," the bureau added.

The bureau said the peak was likely Tuesday night or Wednesday morning.

The Great Falls city engineer's office issued a warning to persons living in low areas along the Sun river.

Idaho Waters Send Families From Homes

KOOSKIA, June 8 (AP)—The Clearwater river surged over its banks today, chasing families from their homes to higher ground along a 14-mile stretch between Kamiah and Bitter.

Witnesses estimated 30 families were evacuating or preparing to evacuate in the communities of Bitter and Kooskia. Water from the south fork and middle fork of the Clearwater swept into some low-lying houses and threatened others. About 10 families left their homes in Bitter.

Several highways, including highway 12 at Kooskia, highway 14 east of Grangeville and highway 13 leading into Elk City, were blocked by high water.

IDAHO FALLS, June 8 (AP)—The mate of a rare trumpeter swan, killed last week with a .22-caliber rifle, is also dead.

Mrs. Denton Beck, Idaho Falls, said she saw the mate today, a 12-year-old male, across the bank on the far side of Swan lake.

Officials say they were the only two swans on the lake.

The trumpeter swan is almost extinct. There are reported to be only 700 in the United States.

ETOHESKONE, June 8 (AP)—Magic reservoir lacks only 200,000 acre feet of being full, says Field Newby, Etohoskone, watermaster for Big Wood river.

The reservoir now holds 1.5 million acre feet, with a capacity of 1.7 million acre feet, he says. The water has been lower, but rain storms in the area have brought it back up. It is expected to continue to rise, it will be going over the spillway this week, Newby said.

38 Senators Sign Petition In Showdown

WASHINGTON, June 8 (AP)—Senate Democratic Leader Mike Mansfield formally filed a closure petition today, paving the way for a showdown vote Wednesday on limiting the 73-day southern filibuster against the civil rights bill.

The Montana lawmaker said the petition had 38 signers, including senate Republican Leader Everett M. Dirksen, Ill. Although the petition required only 16 signatures, Mansfield said it was backed by 11 Republicans and 27 Democrats.

The petition now will be laid before the senate for a vote an hour after the senate meets Wednesday. Mansfield has promised to try again later if the first attempt fails. The leaders believed, however, they had the needed two-thirds majority in sight.

Mansfield refused to predict the outcome, saying only that he "hoped" for a favorable decision. Pro-closure forces got a boost when Sen. Roman L. Crum, R., Nev., who had withheld his support, said he is "presently disposed" to support closure.

Government Fears Scoffed By Johnson

SWARTHMORE, Pa., June 8 (AP)—President Johnson scoffed today at those who call the federal government "a major menace to individual liberty."

At the same time he appealed to college graduates of 1961 not to "feel alien to this world or to be preparing to enter."

By some definitions, Johnson's message appeared to be aimed, on the one hand, at those who share the political philosophy of Sen. Barry Goldwater, R., Ariz., and, on the other, at the college-educated segment of "the beat generation."

In his address, prepared for commencement exercises at Swarthmore college, Johnson said, "Let us not call forth phantoms of fear about what the future holds."

Continuing, he said, "One of those fears that the federal government has become a major menace to individual liberty."

"This," he asserted, "is not so."

Utah Graduates Told to Strive For Freedom

Increase for Beet Sugar Quota Urged

WASHINGTON, June 8 (AP)—Nine representatives filed a round-robin speaking session on the house floor today, urging an increase in the domestic beet sugar marketing quota for this year.

Rep. Harlan Jackson, D., Calif., led off the discussion with prediction that the beet sugar crop now in the ground will yield 3,350,000 to 3,4 million tons. But under present law, he said, the marketing quota is only 2.7 million tons.

"Without a quota adjustment," Yagen said, "domestic sugar beet producers will be cut back drastically."

The house agriculture committee is expected to start hearings on a new sugar law sometime this month.

U. S. Equipment Held Effective

WASHINGTON, June 8 (AP)—Congressional investigators were told today by army Secretary Stephen Ales that the American equipment being used to fight the anti-communist war in South Viet Nam is both "modern and highly effective."

Echoing earlier assurances along the same line by Defense Secretary Robert B. McNamara, Ales told the House armed services committee that the needs of the Vietnamese army and its U. S. military advisers "are being met on a high priority basis."

Jordan Adds Vote to Close Rights Debate

WASHINGTON, June 8 (AP)—Backers of the civil rights bill picked up additional support during the week-end for their attempt to invoke cloture with the announcement by Sen. Len Jordan, R. Ida., that he will vote to shut off Senate debate on the measure.

Jordan was one of 11 uncommitted senators who may hold the key to whether a cloture petition can be adopted.

Leaders believe their move to invoke cloture will succeed if six of the uncommitted senators support the petition when it comes up for vote Wednesday.

Jordan said his mail has indicated a majority of Idahoans favor the uncommitted senators' civil rights bill.

"I believe," he said, "that there is a good chance that, after we take action on the Judiciary Committee amendments that will be taken up will result in a workable and acceptable measure."

Jordan said that, although he has now voted to end debate, he believes it has been helpful.

Warren Visits "Wild-Eyed" Ruby in Jail

DALLAS, June 8 (AP)—The chief justice of the United States set out in an assassin's footsteps yesterday, then talked for more than three hours with Jack Ruby, the presumed assassin of the Kennedy.

Then he interviewed Ruby in the county jail across the street. Ruby was described as "wild-eyed and staring" during the meeting.

Warren, head of the commission investigating the president's death, flew to Dallas from Washington. He spent about two hours in the schoolbook depository, from where the fatal shots were fired.

Then he and his aides met with Ruby in a room on the second floor, one room away from the sixth-floor cell where the slaying, 24-year-old former strip-tease club operator is being held during his fight to escape the electric chair.

Warren and the commission learned in the long meeting with Ruby was not revealing, and they were to be counsel for the commission investigating the assassination, said only that the group "looked the testimony of Jack Ruby," while the group who had been with a big smile on his face, declined to comment.

Goldwater Says "Actors" Running Out

CHICAGO, Pa., June 8 (AP)—Barry Goldwater believes he will be nominated for president at the Republican national convention but he will not be entirely "certain" until the roll is called in San Francisco.

Goldwater, who addressed the graduating class at Pennsylvania Military College yesterday, said he thought the "stop Goldwater" movement was "running out of actors" but he would not elaborate on that statement.

The conservative Republican senator told a news conference he felt that former President Dwight D. Eisenhower and Port-land, Ore., Mayor Richard Nixon were not part of a campaign to halt his presidential ambitions. He said Gov. William Scranton's television appearance yesterday led him to believe "Scranton is not a member of the stop Goldwater movement nor by his words is he a candidate."

Scranton said he and other GOP leaders want assurances that Goldwater's nomination would not mean "wading" the party from its traditional principles.

In reply to a question, Goldwater said he did not feel that his position on the civil rights bill and against cloture to end the southern filibuster could be construed as the "wedge" Scranton mentioned.

He expressed belief that Republican support of cloture was from a "very, very limited minority" in the senate.

He believed you could answer to this in Sen. (Florence) Hickenlooper's getting a postponement of the cloture," he said. "I think Hickenlooper, R., Ia., was speaking for the bulk of the Republican element was that strong it would have stopped this."

Lawyers Urge Support for Bible Laws

WASHINGTON, June 8 (AP)—More than 200 constitutional lawyers charged today that proposals to override the Supreme Court's decision against Bible-reading and prayers in public schools could set a precedent endangering all the liberties guaranteed in the Constitution.

The lawyers, including dozens of 55 law schools, filed a statement with the house judiciary committee urging congress to reject any proposals for a constitutional amendment to reverse the court's ruling.

"A grave responsibility rests upon congress in taking this first step in the defense of our liberties," the statement said. "Whatever the arguments may be with respect to the merits of the proposals, we believe strongly that they do not justify this experiment."

The committee has ended public hearings on the proposals in the past. It has not yet given any indication on when it might take further action on the proposals.

Goldwater's Delegates Expected to Near 600 Mark as 10 States Decide

WASHINGTON, June 8 (AP)—Sen. Barry Goldwater's drive for Republican presidential nomination delegates is expected to reach the 600 mark this week as 10 states decide.

With the GOP convention opening five weeks from today, the Arizona senator has 535 first ballot votes according to an Associated Press survey of delegates already chosen. He needs just 120 more—655 for a first ballot victory.

Indications are that Goldwater will pick up enough votes this week to boost his front running total to near the 600 mark and set the stage for the last two state conventions next week in Montana and Texas.

Goldwater will be favored to win by most of those delegates, apparently giving him enough to win the nomination.

But Sen. Thurston B. Morton, R., Ky., said yesterday he thought Goldwater would be from 80 to 100 votes short of a first ballot nomination, and he envisioned "a quit contest."

While attention is on the GOP presidential nomination race, candidates for two governorships, three senate seats and 10 house seats will be decided by voters or party conventions in five states.

Goldwater's post-Cullifornia primary drive got under way over the week-end at state conventions in Colorado, Alabama, Washington and Hawaii and at a pair of district conventions in Virginia. Combined with some minor vote shifts in Iowa and the District of Columbia, he netted 55 votes, according to the AP survey based on primary commitments, pledges, instructions or stated preference.

The field shaped this way:

Nelson A. Rockefeller	128
William W. Scranton	85
Henry Cabot Lodge	45
Richard M. Nixon	15
Margaret Chase Smith	15
Favorite sons	93
Uncommitted	209

Indiana Republicans meet today and Tuesday to elect 32 GOP delegates, but their votes have already been credited to Goldwater, under state law, because of his May 5 preferential primary victory there.

Wilderness Bill Will Face Another Hurdle This Week

WASHINGTON, June 8 (AP)—Legislation to establish a national system of wilderness areas cleared one hurdle in congress last week and faces another this week.

The house interior committee is scheduled to take up Wednesday a bill which, as approved by its public lands subcommittee, would authorize wilderness preservation system of nearly nine million acres.

Supporters are counting on committee approval of the measure, a modified version of a bill passed by the senate last year.

Then, if the house rules committee clears the bill and the house passes it, senate and house conferees will seek to resolve the differences between the senate and house versions.

The house bill would blanket into the system national lands now designated as wild, wilderness and canoe areas. It would permit mining in the areas for 25 years.

The senate measure, strongly supported by some wilderness and conservation groups, would place 14.5 million acres in the system and prohibit new mining and other commercial activities.

Both bills would provide for about 50 million acres after studies to determine their suitability for inclusion.

The senate bill would permit expansion by executive action, subject to veto by congress. The house bill calls for affirmative action by congress for any additions to the system.

The secretary of interior, under the house bill, would make recommendations within 10 years for addition of primitive areas of the wilderness system. About 5.6 million acres of forest lands are in primitive areas.

HIS THIRD CADILLAC... HIS FIRST NEW ONE

This man is enjoying his first brand-new Cadillac—after becoming acquainted with the car's unsurpassed value by twice buying used Cadillacs.

He learned that a late-model used Cadillac gave him more standard equipment and engineering advancements than most new cars.

First of all, while Cadillac's styling was continually refined, it never lost the clean, dignified look that says Cadillac and Cadillac alone. The smooth, quiet performance and complete reliability of his used Cadillac was a constant source of enjoyment. Then, too, he and his family enjoyed luxury and comfort to a degree reserved exclusively for Cadillac owners.

The pride of ownership of so distinctive a car was a never-ending pleasure, for he had the satisfaction—always—of knowing he drove the finest.

When it came time to trade his previously-owned Cadillac for a later model, he found its value had held remarkably high... and returned a substantial part of his original investment.

So what could be more natural—or wiser—than to make the eventual move to a new Cadillac?

Romania and Britain Set Nuclear Deal

LONDON, June 8 (AP)—Britain has been negotiating for a nuclear reactor deal with communist Romania, it was learned here today.

A spokesman for the United States Atomic Energy Commission said the firm had had a team in Bucharest attempting the possible sale of a uranium-fueled reactor.

Board of trade officials reported that British businessmen had been in consultation with the Romanians about an atomic power plant deal.

Both the AEC spokesman and the board of trade said that no deal has gone through yet because of a lack of technical details.

The deal is being negotiated under the Allied agreement covering the sale of strategic items to communist countries.

Negro Leaves New York for Mississippi

NEW YORK, June 8 (AP)—After three weeks in New York City, an 18-year-old Negro from Mississippi says he's going back to his home.

"I'll rather wait on tables at 221 a week there than get my head kicked in here," said Larry Thomas.

Thomas was hailed as a hero by New York newspapers a week ago because he frightened off a gang of Negro boys who had threatened a white boy on a subway train. "The Negroes saw when Thomas shouted, 'The cops are coming.'"

Thomas then helped the injured white youth, Howard Weber, 16.

Thomas said yesterday he had never seen anything like the highway assault in Mississippi.

"Once in a while a cop will hit someone around the head with a blackjack, but that's all," he said.

Miss Melin was uninjured in the accident and no citations were issued. Damage was estimated at \$76 to the vehicle.

Three Passenger Cars Derailed in North Idaho

ATPIDI, June 8 (AP)—Three cars of the Northern Pacific Malheur-street passenger train were derailed near here last night.

They remained upright and railroad officials said there were no injuries.

Northern Pacific officials in Spokane said passengers were transferred to the cars remaining on the tracks and the westbound train continued on its way.

"Traffic on the line is being rerouted over Great Northern railway tracks between Spokane and Sandpoint," officials said.

They expect the derailed cars to be cleared in "several hours."

The cause of the derailment has not been determined.

Dee Desires Account of Panel Funds

GRANGEVILLE, June 8 (AP)—State senate Minority Leader William J. Dee has asked the state Democratic chairman to present an "itemized account" of state central committee expenditures at the party's assembly in Boise this week.

A political opponent of Chairman Lloyd Walker, Dee said he meant "no intimation money has been misapplied" by calling for an accounting.

"But when we realize that in the last campaign, neither Sen. Frank Church nor Rep. Ralph Hendry and Compton J. White received a dime, so we are told, for their campaigns from the state central committee expenditures and particularly those of the state chairman," Dee said.

"If Walker does not make an itemized accounting, I feel he must suffer the questions of the aroused delegates."

Dee is supporting Clarence Higger, Emmett, who seeks Walker's job.

Orphan, Officer Die as Boys Flee in Stolen Texas Truck

AMARILLO, Tex., June 8 (AP)—A 14-year-old orphan, chased by police after bragging about a murder, was killed today by a submachinegun bullet. One of the pursuing policemen also was slain.

The youth's 15-year-old companion was seriously wounded by police chasing the boys who had terrorized a ranch family and stolen their pickup truck.

A search party was organized to find the body of a cowboy the youths bragged they had killed and left on the rangeland.

Six squad cars chased the two boys for 15 miles at high speed around Amarillo and into the country to the south.

They fired at the fleeing truck with revolvers, rifles, shotguns and fully automatic army carbines.

Dead were policeman William G. Meadows, 22, and Jimmy Nease, 14. Felix Wesley Teamire, 15, had shoulder and arm wounds. Both boys were from Boys Ranch, a private institution for homeless boys 38 miles northwest of Amarillo.

The boys had terrorized Melvin Kohler, his wife and baby at their ranch outside Dumas, Tex. They were not harmed.

The Kohlers said the two boys had held them at gunpoint and tore out the telephone before stealing their truck. They said the pair threatened them and said they had already killed the

I'm glad we have FLAMELESS water heating

There are many reasons women prefer modern electric water heating. They know it's one of the many things electricity does best. So it's no great surprise flameless water heating is first choice in more than 100,000 homes served by Idaho Power Company.

I WANT MY WATER HEATER TO BE FLAMELESS, because--

- It's so clean. I wouldn't want to be without the cleanliness of flameless water heating.
- It's silent. There's not a whisper of sound.
- The exterior is always cool to the touch. All of the heat goes into the water.
- It's fast! Three times faster than the old reliable models of past years.
- It burns no oxygen, requires no flues. You can install it anywhere.
- It's so automatic and carefree we almost forget it's there.

I want and get plenty of hot water from a water heater that's FLAMELESS!

Four Minor Crashes Are Listed Here

Twin Falls county sheriff's deputies investigated four minor accidents over the week-end. Neill R. Turner, 24, 408 Jefferson street, was driving a 1959 Chevrolet east on highway 30 about three-eighths of a mile east of Buhl when the car struck a trailer being pulled by a 1948 Buick driven by Marilyn H. Diehl, 51, 442 Walnut street. Diehl had stopped his vehicle behind two other vehicles which had stopped for another car making a left turn from the highway when the accident occurred.

Donald L. Ayres, 19, 264 DuBois avenue, was driving a 1961 Chevrolet west on highway 10 about one-half mile north of Twin Falls and was passing a 1957 Ford driven by Lance Lincoln, 16, 1019 Morningstar drive, when Lincoln turned into traffic in the left lane, sideswiping Ayres' vehicle.

A utility trailer owned and being pulled by Clarence Stewart, 40, 331 Jackson street, coasted off the trailer hitch about 2:20 p.m. Sunday one-fourth of a mile north of Twin Falls. Stewart drove his vehicle off the highway but the trailer hit a curb and rolled over. The trailer was turned a total loss.

Otto F. Trudy, 50, route 2, driving a 1963 Pontiac at 1:32 p.m. Saturday five and three-fourths miles south of Buhl, started to pass a 1953 Dodge driven by Leo W. Hiltzinger, 51, route 2, when Hiltzinger started to make a left turn into a field. The vehicles collided.

Injuries were reported and no citations issued.

Convict Uses Rope in Trick For Children

RIVERTON, Wyo., June 8 (AP)—Olay (Tricky) Hinkle, a man who came within 13 hours of being executed for murder in the state gas chamber, is back tonight before he likes most—performance before an audience.

Hinkle returned to show business Saturday at the state training school where he gives two performances with trained animals and rope tricks for the children at the institution and their visiting parents.

The 40-year-old Hinkle and his animals were then returned by guards to the state prison farm at Riverton, Hinkle, described as a model convict by his associates, has been in the state gas chamber twice in the past 10 years.

The former professional rodeo trick roper and knife thrower is serving a life sentence for a double slaying in 1953. He has little or no chance of parole.

Hinkle was sentenced to die for shooting his fiancée, Mrs. Frances Williamson, 63, and her beer-drinking companion, Walter J. Ackerblende, 69, in a Wheeling, W. Va., restaurant March 28, 1953.

He was spared by former Gov. Milward L. Simpson, an opponent of capital punishment. Simpson stipulated that the life sentence could not be lessened. However, there has been some question whether Simpson's stipulation could be binding on future governors.

YOUR BIRTHDAY and HOROSCOPE

MONDAY, June 8—Born today, you may well find in adulthood that a volatile, almost unpredictable temper is your weakness. Parents of children born on this day should do everything in their power to see that their offspring learns early the art of self-control. For with emotions close to the surface, with ambition, determination, and a high degree of willfulness being major traits of such children, self-control is an absolute necessity for later success.

Sellers Lauds Heart Machine

LONDON, June 8 (AP)—Actor Peter Sellers, 38, returned to Britain today and credited his recovery from a heart attack to a pace-making machine used by American doctors who treated him in Hollywood.

Indians Plunge Into River As Ashes of Nehru Strewn

ALLAHABAD, India, June 8 (AP)—A frenzied throng of Indians plunged into the Ganges river in a frenzied stampede today as the ashes of the late Prime Minister Nehru were strewn on the water.

At least one woman drowned before police, wielding clubs from boats, forced swimmers and waders to the shore. Four persons were killed in a stampede yesterday as Nehru's ashes were brought from New Delhi.

The mourning thousands, dressed in the white homespun cotton of India's poor, mobbed a floating platform and it sank under their weight. Scores tried to climb in boats filled with newsmen and government officials, but police beat them back.

About half a million persons crowded to the river banks or waded in. The temperature fell 10 degrees and scores collapsed. Others were injured by police clubs.

Nehru's family, willed by the heat and stampede, fled by the boat and slipped into the river in an amphibious army vehicle.

Expert Says Well Is Fine At King Hill

KING HILL, June 8 — Roy Newton, Elmore county sanitarian, reports the domestic water of the King Hill water system shows no signs of any foreign particles in the well.
He says the well has been checked weekly since it was cleaned last fall by the King Hill irrigation district and has shown a sanitary condition each time. Forty-nine samples have been taken by Newton.
The well was cleaned last week by the King Hill irrigation maintenance crew, George Davis, Erwin Hoadland and John Allen, under the direction of Ted Moore, manager of the King Hill irrigation district which maintains the well for the town domestic water.
Newton also reports the labor camp on the Hallor Creek project below Glenns Ferry is inspected every week and he says it is one of the cleanest and most modern camps in the state.

Seventh Blaine School Bond Election Set June 30

HALLEY, June 8—The seventh school bond election to raise funds to build, remodel, equip and repair school buildings in Ketchum, Halley, Bellevue and Carey has been set for June 30.
Supt. Homer Williams has stated details of how the bond funds will be spent will be published between now and election day.
The proposed bond election will be in the amount of \$1,250,000. Voting will start at 11 a. m. and continue until 8 p. m. at the Carey School, Jack Alford residence in Gannett, Bellevue school, Halley high school and Ketchum school.
The first election was defeated Dec. 15, 1954, when a bond issue of \$610,000 to build a central high school south of Bellevue was defeated. On April 10, 1963, the latest bond election lost when the \$285,000 issue lacked only 37 per cent.
Superintendent Williams says the levy to pay off the bonds in 29 years is estimated at 10 mills.
