

Study to Begin on Colleges

BOISE, July 3 (AP)—The state board of education will make a study, said D. F. Englekling, superintendent of education yesterday, of the number of students and the assessed valuation of various areas in the state before making recommendations for junior college districts.

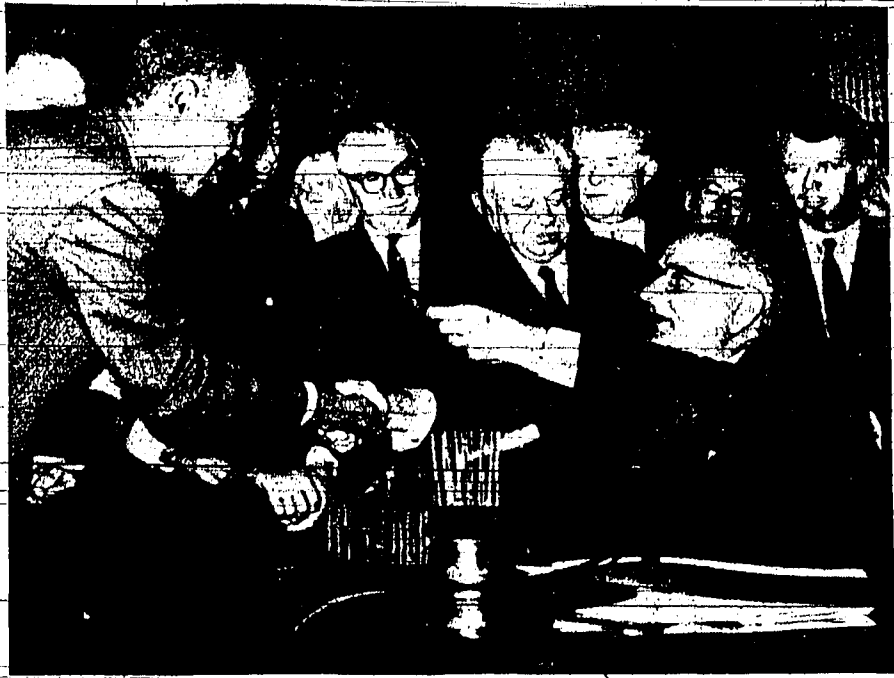

He added, however, that there would not be more than six districts embracing all areas of the state.

Englekling was referring to a proposal approved by the board of education, asking the legislature to create a statewide system of junior colleges. Gov. Robert E. Smylie has also voiced approval of the project.

The junior colleges, said Englekling, would give many students vocational training that they would never had. The students could receive training, he noted, on a full-time, part-time, or evening study basis while living at home.

As well as vocational training, Englekling explained, liberal arts courses leading to professional degrees could be offered along with extension courses and adult training.

"I don't expect to start with a complete system, the educator said, but hopes to have a plan prepared so that when the people see COLLEGE, Page 2, Col. 4

ONE OF 12 PENNS used in signing the civil rights bill Thursday is handed by President Johnson to Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People. Others identifiable are, from left starting with Sen. Wayne Morse, D., Ore., wearing glasses; Rep. Roland V. Libonatti, D., Ill.; Rep. Ray J. Madden, D., Ind.; and Atty. Gen. Robert F. Kennedy. The house completed action on the historic bill earlier in the day. (AP wirephoto)

Civil Rights Bill Is Signed, Early Tests Promised

WASHINGTON, July 3 (UPI)—The strongest civil rights law since Reconstruction was in force today with Negro leaders promising early tests of its anti-discrimination provisions and opponents preparing to challenge its legality in court. Tests were made in the South by individuals last night without incident. President Johnson signed the historic measure last night only five hours after the house, on a 280 to 126 vote, completed final congressional approval one year and two weeks after the legislation was introduced.

"This act is a challenge to all of us to go to work in our states and communities, in our homes and in our hearts, to eliminate the last vestiges of injustice in America," Johnson said.

"We must not approach the enforcement of this law in a vengeance spirit. Its purpose is not to punish. Its purpose is not to divide but to end divisions—divisions which have lasted too long. Its purpose is national, not regional."

Martin Luther King, one of more than 200 persons invited to attend the White House ceremony, which also was witnessed by a nationwide radio and television audience, said his Southern Christian Leadership conference planned to test the new law immediately.

He said the first strategy he and his colleagues would follow would be "operation dialogue," an effort to have southern leaders, particularly businessmen, issue statements of intention to comply with the new law.

After a relatively short period, King said, "operation implementation" would begin in 25 or more southern towns and cities. Where "massive resistance or recalcitrance" was encountered, the Negro leader promised his followers would make "dramatic demonstrations."

Other civil rights organizations already have indicated their plans for challenging discrimination practices now banned by the law. In Florida, state National Association for the Advancement of Colored People (NAACP) officials said they would concentrate their efforts on restaurants that prohibit Negroes.

Congress of Racial Equality (CORE) representatives in New Orleans said that made them the target of their efforts. Other Negro officials said the law's provisions would be tested at lunch counters, motels and hotels.

Rights Bill Is Put To Test by Negroes

WASHINGTON, July 3 (UPI)—Negroes began putting the new civil rights bill signed by President Johnson to last night, scoring initial gains in troubled areas, but some Southern leaders refused to accept it as the law of the land. Immediately after Johnson signed the historic legislation at a White House ceremony yesterday, the campaign to implement its sweeping directives was put into motion. Today doors which had been off-

Trophy Is Given Rupert Guardsmen

RUPERT, July 3—Gov. Robert E. Smylie presented the Eisenhower trophy to the Rupert national guard unit during the first termination of the 35th annual Rupert rodeo at the Minotoka fairgrounds Thursday night.

The award, which was accepted by Capt. Robert Cameron, commander of the unit, is presented to one unit in each state, each year. The units are judged on overall performance, including training, attendance, inspection and strength.

Following the presentation, Maj. Grover Newman, former Rupert unit commander, now with the army reserve office on the history of the U. S. cavalry, and how it had grown from a horse cavalry to the present armoured cavalry, which has the most modern and best trained and equipped men in the world.

During the speech, eight members of the Rupert unit appeared in 1800 cavalry uniforms on horseback. The entire unit then appeared in their tanks in the arena.

The rodeo procession was led by Rodeo Queen Betta Moulman and her attendants and the Jockey Club.

Cassia Crash Fatal To California Youth

BURLEY, July 3—A 19-year-old California boy was killed and his traveling companion critically injured at 6:15 a.m. Friday on Interstate highway 80 north, 21 miles east of Burley. Joseph Orville Enyow, 19, of Fresno, Calif., was pronounced dead on arrival at Cassia Memorial hospital. He lost control of the 1964 Ford Rambler he was driving and the car skidded off the left side of the road. It went across into the right borrow pit, rolled over, came upright again, went through a fence, flew into the air twice, rolled again and came to rest on its wheels.

Investigating officer, Charles (Chick) Powell, Idaho state patrol, had no clue as to the speed of the vehicle.

The injured man, Theodore Lee Sanchez, 21, also of Tahoe, Calif., is recovering.

Suicide

BOISE, July 3 (UPI)—Kim Larsen, Democratic legislative candidate from Blaine county, asked the attorney general today to investigate conditions at Idaho State university where Larsen claimed there were 21 suicide attempts by students.

Attorney General Allan C. Shepard was unavailable to comment on Larsen's allegations.

Larsen, a recent graduate of the hospital and son of a former professor, said the faculty knew of a suicide attempt during the first semester last year. He charged the attempt was made from "harassment" by "certain professors."

"It is wrong to hide this matter," Larsen told Shepard in his letter. "Where is a serious problem on the ISI campus and it must be immediately corrected."

President Tabs New Bill 'Proud Triumph'

WASHINGTON, July 3 (UPI)—The Roman Catholic prelate far back in the East room of the White House quietly made the sign of the cross. The sparkplug of many Negro demonstrations in the South, the Rev. Martin Luther King, murmured, "Thrilling." Senator Hubert H. Humphrey, D., Minn., beamed with satisfaction. These were the reactions as President Johnson, using over 100 pens, signed into law the long-embattled Civil Rights act of 1964. "This is a proud triumph," the President said gravely, looking directly into a text-reading device atop a big zoom lens of the main camera that piped the historic ceremony onto television.

The signing ceremony brought together more than 200 officials, guests who gathered at the north side of the spacious ballroom. Approximately an equal number of reporters, photographers, television and newsroom cameramen, sound engineers, lighting experts, and other technicians filled the south side of the room.

The President sat at a small table in the center with racks holding 72 pens. Once he got to the actual signing, however, these proved insufficient and legislative aides arranged for additional supplies.

There seemed to be no particular seating order for the guests. Cabinet members were scattered through the group. Atty. Gen. Robert F. Kennedy was in the front row, as were Humphrey, Sen. Everett M. Dirksen, R., Ill.; Rep. Charles A. Halleck, R., Ind.; and Rep. Emanuel Celler, D., N.Y., chairman of the house judiciary committee.

The President spoke briefly but with great emphasis as he called on all Americans to "close the springs of racial poison" and "eliminate the last vestiges of injustice in our beloved America."

U.S. Traffic Death Toll Rises Slowly

By United Press International

Traffic deaths began a slow climb today as millions of Americans took off for beaches and countryside retreats for the Fourth of July.

National safety council experts estimated that between 450 and 550 persons would be killed in traffic accidents during the 78-hour holiday, with possibly as many as 25,000 persons injured.

The holiday death breakdown: Traffic 67; drownings 11, and miscellaneous 7; total 75.

Pay Increase Okayed for U.S. Workers

WASHINGTON, July 3—The senate late yesterday approved a \$56 million dollar pay increase for almost two million government workers today, including a \$7,500 annual pay raise for lawmakers themselves.

The broad salary measure is one of the top priority items on President Johnson's election-year program.

House bill senate negotiators next will seek to work out a compromise with a \$53 million dollar measure passed earlier by the house. The vote was 68 to 21.

The proposed "Bobby Baker" change would have taken pension benefits from any members of congress or government workers who invoked the fifth amendment before congressional investigators.

The amendment, sponsored by Sen. John F. Kennedy, D., Cal., which moved in the Bobby Baker investigation, was rejected 62 to 30. Democrats solidly opposed it, and all Republicans backed it.

In surprise action, the senate voted 48 to 40 to cut \$5,000 from the proposed pay increases for each of the nine justices on the supreme court.

Two Idaho Youths Jailed For 'Game'

IDAHO FALLS, July 3 (UPI)—Two Idaho Falls youths were sentenced to serve jail terms today for the death of a young Idaho Falls man who succumbed to a head wound received as the result of playing Russian roulette.

Dean Charles Olson, 17, died Wednesday after he shot himself in the head at the apartment of Raymond E. Gramm, 21. Steve Summers, 18, was a witness to the shooting.

The sentences were imposed upon the pair after they were found guilty of encouraging delinquency of a minor.

Gramm, whose apartment was the scene of the shooting, drew a 30-day sentence and Summers will serve 10 days.

A 19-year-old girl was arrested on the same charge, but did not receive a jail sentence. Police officers also said another girl, shooting occurred at the time, but she was not identified.

Officers also said the investigation showed the victim had been drinking and had been asked to stop playing Russian roulette.

The bullet came from a .22 caliber pistol which the youth had been using earlier to demonstrate fast-draw technique.

Police reports also showed Summers was not in the apartment at the time the shooting occurred. It was reported he had gone to a nearby store.

Search Still Goes on for Rights Men

PHILADELPHIA, Miss., July 3 (UPI)—A TOU-BOU search of central Mississippi for three missing civil rights workers centered today in adjoining Kemper county.

Ground parties moved into the rural county east of here for the first time yesterday and had reached Moscow, some 20 miles from the Alabama state line, when rain halted the search for the day.

Michael Schwerner, 34, and Andrew Goodman, 20, both New York City, and James Chaney, 22, a Meridian Negro, were part of a task force of 450 civil rights workers in Mississippi to conduct a summer voter registration drive. They vanished without a trace on the night of June 21 after posting a \$20 bond for speeding here.

Cassia Sheriff Treated for Stab Wounds

BURLEY, July 3—Cassia county Sheriff Ithurbt Warrell still is investigating the stabbing Wednesday night which he sustained about 100 yards on the left side of his chest.

Alanzo Malagon, 20, Burley, "came at me like a streak of greased lightning," according to Warrell, and stabbed him eight times with a long slender object resembling a screwdriver, and fled the courthouse. He was recognized in a stolen car in the north end of Burley.

Warrell was treated by a Burley physician Thursday and released.

"They (the puncture wounds) weren't too deep, but they were deep enough to satisfy me," Warrell said Friday morning.

There was one wound over Warrell's heart, three in a straight line down to his belt, and four under his left arm. Warrell said he got only about three swings at Malagon, but in the confusion, and with seven other prisoners in the cell, the prisoner escaped.

Warrell said he had questioned the other occupants of the cell but they all said they had no idea but Malagon had the weapon or where he got it. It still has not been found.

Warrell said he would talk with Prosecuting Attorney Richard Smith to decide if any further charges will be filed against Malagon.

He was in Cassia county jail on a charge of assault with a deadly weapon and the additional charge of escape from confinement, larceny and another count of assault with a deadly weapon could be filed.

Jazz Buffs Meet

NEWPORT, R.I., July 3 (UPI)—Some 4,000 jazz buffs attended the opening of the 11th annual Newport jazz festival last night.

U.S. Ambassador Returns to Japan

TOYOYO, July 3 (UPI)—U.S. Ambassador Edwin O. Reischauer returned to Japan today after recovering in Hawaii from a stab wound inflicted by a deranged Japanese youth, March 24.

Looking fit and bemedaled, Reischauer, 63, dismissed the stabbing as "a very little accident" and said again he hoped it would not hurt Japanese-American relations.

Reischauer said his "very" would had healed but he would have a slight limp leg for a period of time.

Senate Unit OK's Foreign Aid Cut

WASHINGTON, July 3 (UPI)—The senate foreign relations committee approved yesterday a foreign aid authorization bill that cuts 10 million dollars below President Johnson's \$3,516,700 request.

The action came only a day after house passage of a \$3-billion dollar foreign aid appropriation bill for which the authorization bill simply sets a ceiling.

Residents Host Tourists at Hospitality Day in Burley

BURLEY, July 3—Approximately 1,000 Burley residents and tourists were treated to a free breakfast in the Burley Albertson parking lot from 8 to 10 a.m. Friday.

The retail merchants of the Burley Chamber of Commerce, and out-of-state visitors were greeted by state police and Burley city police on highway 30 west, one-half mile east of the Freyburn exchange on Interstate 80 and south of the Paul Junction on highway 27 and 25. They were treated by members of the Cassia county Police and extended an invitation to Hospitality day in Burley.

Visitors received a card offering free parking in the Burley parking lot, signed by Mayor Mack Crandall. "Back to the history of Burley," Know

Rule Told on Farmer Use Of Gasoline

Farmers or partnerships operating two or more farms should consolidate all their farm-use gasoline purchases into a single claim to obtain their federal tax refund, officials of the International revenue service Twin Falls office said Friday.

Only one claim for the entire one-year period ending June 30 can be allowed to any individual or partnership, the official announcement said.

An amended claim can be filed before Sept. 30 if the original one has not been paid. However, once the original claim has been paid, a subsequent one cannot be allowed.

Federal gas tax refunds are made annually to farmers for farm-highway use, agricultural purposes on claims filed between July 1 and Sept. 30.

Beef to Move Overseas as Part of Plan

WASHINGTON, July 3—Beef in surplus in the United States will be offered for shipment abroad under the food for peace program, the U. S. department of agriculture announced in June.

It was emphasized that no beef export agreements would be made without checking other foreign beef exporting countries to ascertain whether such sales would interfere with regular sales of those countries.

Testifying before the senate finance committee on June 17 against proposals which would impose limits of foreign beef, veal, and mutton, Secretary of Agriculture Orville L. Freeman said, "The real problem, fall by domestic beef producers, is domestic overproduction of fat cattle," rather than competing imports. The bill before the committee would impose country-by-country restrictions on imported beef, at a level based on the average yearly amount shipped to the U. S. by each country during 1950-1963.

It called for an annual increase, beginning Jan. 1, 1965, in total quantities of meat imports corresponding to the annual rate of increase in the total U. S. market for such products.

Idaho Farm Labor Force Is Slumping

BOISE, July 3—During the week of May 24-30, an estimated 69,000 persons were employed on Idaho farms, reports the United States department of agriculture crop reporting service. In comparison with last year and the five-year average, this year's total employment is down 3,000 workers or four per cent.

Family workers, including farm operators, totaled 47,000. This is 2,000 below comparable period in 1963 and 3,000 workers below the 1958-62 average.

Hired workers at 22,000 is 1,000 or four per cent below last year but the same as the five-year average.

By late May the year's crop patterns on most farms were established, and much of the nation's vast acreage of spring crops was planted and growing. The month brought a push of fieldwork in the west.

By the survey week of May 24-30, the force working on the nation's more than three million farms reached a total of 6,700,000 persons. This was a tenth larger than the week of late April, representing about the usual seasonal gain.

In comparison with the late May farm working force of other recent years, however, this number presents a noteworthy reduction. It is five per cent below last year and 16 per cent below the same month only five years earlier.

CASH OFFICERS

RACINE, Wis., July 3—Election of two new directors to the board of the W. J. Cans company was announced today. The new directors are Dwight M. Cochran, president of the Kern County Land company, San Francisco, and William H. Hewitt, president of Hewitt-Cochran company, Palo Alto. Both men are also directors of Kern County Land company.

FIELD OF MIXED GRAIN seems to reach beyond the horizon. The grain is chest high on a small boy and is responding to the sunshine of recent days. The advantage of the weather break to finish planting the rest of the 1964 crop. It is located on a small rise of ground west of Bailey, Oregon, crops and grain. (Times-News photo)

Great Plains Damaged by Wind Erosion

WASHINGTON, July 3—The agriculture department reports 426,937 acres of Great Plains lands were damaged by wind erosion during the blowing season of Nov. 1, 1963-May 31, 1964.

This represents an increase of 124,323 acres over the 3,049,586 acres damaged during a comparable period a year earlier.

The southern Plains states reported 3,765,880 acres damaged and the northern Plains reported 643,107 acres damaged. Land damage in the southern Plains included Colorado, 2,065,000 acres; Kansas, 848,300; New Mexico, 87,400; Oklahoma, 293,780; and Texas, 682,300.

Damage in the northern Plains included Montana, 427,452; Nebraska, 29,980; North Dakota, 26,985; South Dakota, 22,980; and Wyoming, 85,700.

Crop Prices Drop to 18 Year Low

WASHINGTON, July 3—Crop and livestock prices plunged during the last 30 days to their lowest ebb for the period in 18 years and the cost of farming continued high, the Agriculture department reported Tuesday.

Prices farmers received for crops and livestock for the month ending June 15 was the lowest for a 30-day period since 1946.

The drop was four per cent below those of a year earlier and one per cent below the previous monthly period for 1964.

Idaho Price Index Rises

BOISE, July 3—The May 15 index of prices received by Idaho farmers is set at 253 per cent of the 1910-14 average—according to the crop reporting service.

This is four per cent above last month's index of 244 but slightly below the May 15, 1963, index of 264.

The all crops index at 234 is seven per cent above last month's index and two per cent above the May 15, 1963, index.

Compared with a month earlier, higher average prices were received for barley, potatoes, dry beans, hay and red clover seed.

Lower average prices were received for wheat, dry peas and alfalfa seed while the average price received for oats remained the same.

The livestock and livestock products index at 278 per cent of the 1910-14 average is unchanged from last month but is four per cent or 10 points below the index of May 15, 1963.

In comparison with last month, decreases in poultry products were offset by increases in average prices received for meat animals. Dairy products and other livestock products remained unchanged.

The broiler-feder ratio at 3.4 for May 15 is up 13 per cent from the 3 computed for April 15, but is down three per cent from last year. The egg-feder ratio at 62 for May 15 is down from 63 reported for April but more favorable to the producer than the 63 for May 15, 1963.

Idaho Farm Bureau President Scores Attitude of Shopper in Beef Crisis

POCATELLO, July 3—David Bivens, Idaho Farm Bureau federation vice president, says that if grocery shoppers are waiting for the retail price of beef steak to drop along with the price of cattle on the hoof, they may be disappointed.

Bivens, a cattle rancher from Payette, in a farm report said that bargains in beef simply are not going to result from the current surplus or availability of cattle at lower price.

"The returns from the sale of beef today are divided quite differently than they were 10 years ago."

In 1953 a cattelman got about \$27.50 for a 1,000 pound steer which is only 50 cents more than he received in 1954; however, the meat packer in 1953 received \$70 for the carcass, an increase of \$10 a pound. The retailer last year received \$314 for cuts, which is an increase of \$20 since 1954, Bivens stressed.

Further pointing up the plight of cattlemen, Bivens said that while the cattelman receives 10 cents less of the consumer beef dollar than he did in 1954, but the packer makes about three cents more while the retailer receives an additional eight or nine cents.

"But despite increases in the marketer's share of the retail price of beef, overall profits per dollar of total sales by packers and retailers have stayed in the low range compared to other industries," the farm leader said.

"But it costs more to handle a pound of beef today than in 1954 should be no surprise to anyone, but housewives should be reminded that retailers are able to adjust prices as charges occur in the relative ability of competition."

The livestock and livestock products index at 278 per cent of the 1910-14 average is unchanged from last month but is four per cent or 10 points below the index of May 15, 1963.

In comparison with last month, decreases in poultry products were offset by increases in average prices received for meat animals. Dairy products and other livestock products remained unchanged.

The broiler-feder ratio at 3.4 for May 15 is up 13 per cent from the 3 computed for April 15, but is down three per cent from last year. The egg-feder ratio at 62 for May 15 is down from 63 reported for April but more favorable to the producer than the 63 for May 15, 1963.

Increasing Gravity Noted In U.S. Water Shortage

WASHINGTON, July 3—America faces a water crisis of increasing gravity as growing population and expanding industrial uses tax water resources of steadily diminishing capacity.

Cow Air-Lifted To Boost Export

BATTLEBORO, Vt., July 3—The first cow to complete a trans-Atlantic jet flight has completed her trip to West Germany, in time to help that nation observe International Milk day.

UNH Schoolmaster Ida 530345 (CIP), a registered Holstein 3-year-old, is a gift from the University of New Hampshire to the University of Munich.

"Ida" and her escort, Dr. C. Hillton Boynton, left by Pan American jet freighter for Frankfurt.

During her mission to aid German agriculture one "Ida's" offspring will be given to a farm family forced to relocate following the destruction of World War II. Her next calf is due July 18.

Hog Cholera Warning Is Issued Here

Nationwide hog cholera eradication drive is making good progress, but officials of the American Foundation for Animal Health issued a warning through the Twin Falls county agent's office that farmers should not let this lull tempt them into a false sense of security.

One of the critical areas in the program is vaccination to immunize hogs against cholera. The drive is partially falling down in this area, the foundation said. Less than 50 per cent of the nation's herds are now vaccinated, whereas authorities say at least 75 per cent should be vaccinated to provide a shield against the No. 1 swine killer.

Those points also were stressed: (1) It is best to have cholera vaccination done by a veterinarian; (2) Only pigs in good health should be vaccinated, so the veterinarian will need to examine them first; (3) The right type of vaccine must be used, depending on local conditions and the condition of the herd.

"Successful production against cholera involves more than merely sticking a pig with a syringe," the statement emphasizes.

Efforts to reach the arid valleys of the moon, America will lag seriously in meeting its growing water crisis.

"Water is the lifeblood of agriculture, industry, commerce, and life itself," he continued, "and its access every segment of our society in our daily lives. The water business is serious business and calls for our very best thinking, our best planning and action with a capital 'A'."

Cloughton Named Blaine Grassman

HATLEY, July 3—Thomas William Cloughton has been named Blaine county Grassman of the year after some 60 persons made a tour of three ranches whose owners had been entered in the 1964 contest.

Cloughton operates a 1,500 acre stock ranch in the Glendale area southwest of Ballouville. Sheep are his principal livestock.

He and his brother, Matthew Cloughton, who also operates a sheep ranch, are sons of Arthur Cloughton, who came here when the boys were small and started in the sheep business.

In addition to his home ranch, Cloughton grazes his sheep in the Rock creek area.

Mr. and Mrs. Cloughton have two daughters.

On the grassman tour—the ranches of Henry Wurst and Joe Wurst, at the foot of Timmerman hill, and Vernon Woodbury, in the Carey valley also were visited.

The caravan of cars stopped at the Hatley and Wurst ranches for lunch, which was provided by local organizations. They also inspected the new installation at the hatchery.

LABOR REDUCED

WASHINGTON, July 3—The crop reporting board's current report on farm labor shows that technology is reducing the number of laborers in the land of cotton.

Pay Raises Urged for Researchers

WASHINGTON, July 3 — Agricultural honor for America's agricultural might goes largely to outstanding, but underpaid, agricultural scientists, the national agricultural research advisory committee recently concluded.

The group recommended higher salaries.

Committee members expressed particular concern over the small number of U.S. department of agriculture scientists earning between \$12,500 and \$15,000 a year. There are only 20 such positions in the department which employs more than 4,000 scientists.

"If U.S. agriculture is to continue to lead the world," the committee warned, "the USDA must be able to compete, not only with other federal agencies, but also with universities and industry for the best of the limited number of biological, physical and social scientists. The group, drawn from industry, agriculture, education, and government, held additional meetings on the development of research programs dealing with food and agriculture."

Boise Man to Head Brazil Study Group

BOISE, July 3 — Harold T. Nelson, regional director of the bureau of reclamation's Pacific Northwest region, left this week for northeastern Brazil where he will head up a three-man team of bureau of reclamation water source specialists.

The three men will conduct a three-month appraisal of the resources of the Araguain-Tocantins river basin. The appointment of Nelson, who is a resident of Boise, was announced by the department of the interior.

The three-man team will assist the government of Brazil in its interstate commission of the valleys of Araguain and Tocantins, and the agency for international development in conducting a preliminary appraisal of the Araguain-Tocantins river basin, which includes roughly some 25 million acres of alluvial valley lands and a tremendous hydroelectric potential.

Assisting Nelson on the three-man team will be Paul W. Kim, who has been a member of a Reclamation team investigating the Blue Nile river in Ethiopia since 1959, and Murray C. Kelton, an electrical engineer from the bureau's office in Washington, D.C.

"Mr. Nelson's many years as regional director in the Pacific northwest, and his nearly 30 years of experience with the bureau will make his services invaluable to the Brazilian study," Commissioner of Reclamation Floyd E. Dominy said.

Nelson will return to Boise in September.

Progress Is Expected in Detergents

WASHINGTON, July 3 — "Soft" detergents that can be broken down in sewage disposal systems are expected to be generally available by next year, the U.S. department of agriculture said recently.

So-called "hard" detergents now used are linked with a number of water-pollution problems, including a slow decomposition rate which often creates foam in sewage treatment plants and streams.

Soaps, detergents, and surfactants, chemical agents in cleansers and detergents that cause oils in soil or dirt to mix with water during washing action, accounted for nearly 1,300 million pounds of fats and oils in 1961.

Soap-making used 912 million pounds, the lowest amount in recent years. Also used were 700 million pounds of petroleum-derived chemicals and 300 million pounds of inorganic acids and alkalis.

Screwworm Is Back as Pest

WASHINGTON, July 3 — With discovery of screwworm infestation in June, New Mexico ended a six-month period of freedom from the livestock pest—a record for the state.

Early in June, the first case was discovered in the extreme southwest corner of New Mexico. Since then, an additional infestation was confirmed.

For the past two years, New Mexico agricultural authorities have been cooperating with the agricultural research service, Texas, Oklahoma, Arkansas, Louisiana, and the Republic of Mexico, in a screwworm eradication program.

HEREFORDS WIN

SPOKANE, Wash., July 3 — A double team was recorded when a pair of trim Hereford entries won the grand championship steer titles of the 29th annual Junior Livestock show here.

TELLING HOW it is done is Gwynn Rice, Hill City Grassman. He told visitors to his farm various aspects of his spread during the annual Idaho Grassman of the Year tour. (Times-News photo)

Grassman Tour on Camas Ranch Attracts 200 People

Continued from page 1

The tour concluded at noon and 200 people were guests of the Rice family for lunch. Practically every ranch wife in the community was on hand to serve dinner.

Following dinner, Robert F. Hall, chairman of the Idaho Grassman of the Year program, spoke to the crowd and John Breckenridge, past president of the National and Idaho Woolgrowers associations, gave the congratulatory address. The response was given by Rice.

Sponsoring organizations of the Idaho Grassman program include Idaho Association of Soil Conservation Districts, Idaho Cattlemen's Association, Idaho Farm Bureau Federation, Idaho Power Company, Idaho Chamber of Commerce and the Idaho Wool Growers association.

Cooperating agencies include extension service, bureau of land management, Forest Service and the soil conservation service.

Using Nigger-creek water as a source, Rice's father constructed a dam on the creek many years ago and Rice completed the system to furnish water for his grass and production enterprise.

Black Angus and Herefords graze on the Diamond Seven ranch. Diamond Seven is the Rice brand. The grass program has expanded faster than cattle production. Consequently, it will be many years before a balance is achieved between cattle and grass.

Rice said the goal throughout the reclamation period of the ranch has been geared to a maximum production of a per acre basis.

Production of Sugar Beets Topples Previous Records

WASHINGTON, July 3 — The crop reporting board said revised production figures showed that the 1963 sugar beet crop totaled a record high 33,352,000 tons. This was 28 per cent larger than the 1962 crop of 26,056,000 tons.

The sugar beet crop yield of 19.9 tons per acre was 3.4 tons higher than the preceding year's yield and exceeded the previous record set in 1959 by one-tenth ton.

Sugar cane harvested for sugar in 1963 also set a record—23 million tons. This was almost four million tons larger than the 1962 production. The board said most of the increase was on the mainland, where acreage was up 19 per cent and the average yield 4.4 tons higher. Production and acreage in Hawaii were about the same as in 1962.

The board said production of beet and cane sugar raw value in 1963 amounted to 5,385,000 tons, an increase of 18 per cent from 1962. This production con-

ated of 3,101,000 tons from beets and 2,284,000 tons from cane.

Production of beet sugar was 618,000 tons larger than the previous record output of a year earlier.

Raw sugar production was 312,000 tons larger than in 1962, with record-high production in both Florida and Louisiana. The Hawaiian sugar production of 1.1 million tons was the third highest of record, surpassed only in 1965 and 1966.

The board said the 1963 sugar

beet production was valued at 280.4 million dollars, compared with 233.2 million dollars for the 1962 crop.

The value of domestic sugar cane harvested for sugar and dollars.

POULTRY MEET

PRESTON, July 3—Ralph Miller, Preston, past president of the Idaho Poultry Improvement association, will represent Idaho at the American Poultry congress at Dallas, July 21 to 23. He is a director of the Idaho association and official delegate for the American Poultry and Hatchery federation.

Insecticide Adapted for Field Crops

KANSAS CITY, Mo., July 3—A new formulation of Dylox, the selective phosphite-insecticide, has just been developed for use on cotton, tobacco, sugar beets, alfalfa and a wide range of vegetable, field and forest crops for a variety of insect pests.

According to the manufacturer, Chemagro corporation here, the new Dylox contains chemical additives which overcome highly alkaline water found in various parts of the country.

"The 'peak'—a company spokesman said, alkaline water has been responsible for certain chemical reactions to some Dylox spray solutions, which caused the insecticide to break down or 'flood' the plants," he said.

However, growers accepted this because of the insecticide's selectivity, that is, its ability to kill harmful pests and not seriously affect the beneficial insect population.

Additives in the new formulation are placed there under carefully controlled manufacturing processes. No longer is it necessary to add vinegar to reduce acidity of local water or fuel or diesel oil to reduce foaming, usually in hill-country fields in the field.

Company entomologists also point out that new Dylox is more stable and easier to handle than it was previously. As a result, it is more effective regardless of water source. And, when used as directed, it is also more effective in preserving the beneficial insects.

Indemnities Discussed By Committee

WASHINGTON, July 3—Government payments to individuals suffering financial loss because of official statements or action on pesticides without evidence of public health hazard were recommended this month in a report by the house appropriations committee.

The recommendation was in line with that of the National Milk Producers Federation which urged indemnity payments to dairy farmers who, through no negligence of their own, have had their milk barred from markets because of minute and heretofore undetectable pesticide residues.

"It is the firm belief of this committee," said the report, "that the responsibility for such payments should rest on the manufacturer of such pesticides or other material which such departments have authorized for use should not be made unless at least one of the departments advise that there is evidence that the continued use of such material would injure the public health.

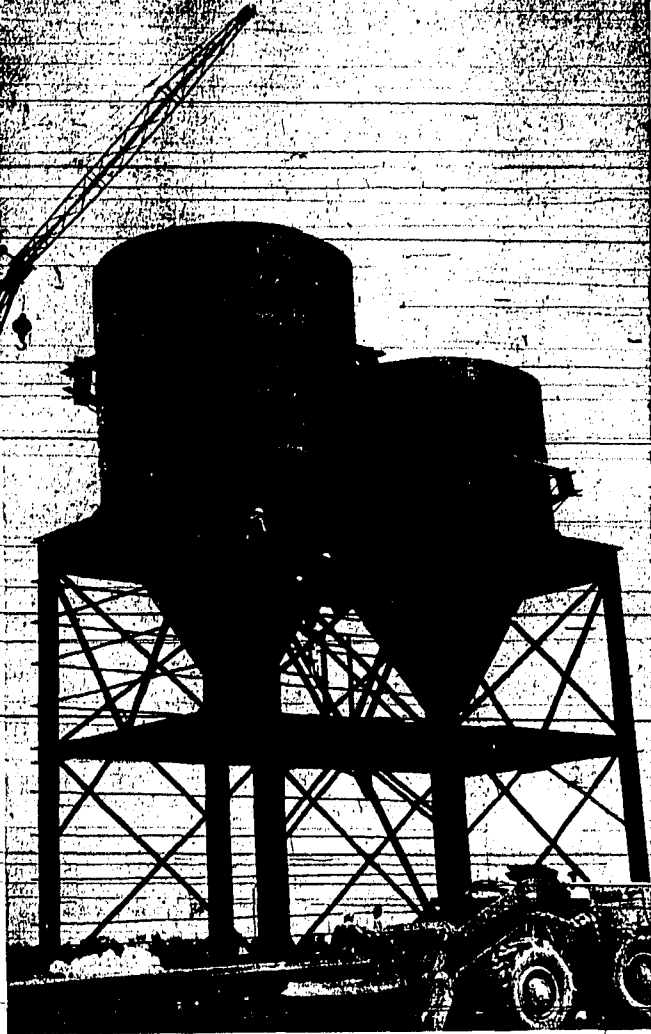

"Further, some provision should be made for payment of financial losses to any producer, processor, or manufacturer resulting from statements or actions concerning the use of approved pesticides, insecticides, chemicals or other materials, where there is evidence that their use endangers the public health. The payment for such damages should be made by the department issuing or negligently permitting the issuance of such statement or action."

Gain Registered During Survey

WASHINGTON, July 3—The farm labor force in the survey week of May 24-30 totaled 6,700,000 persons. This was 10 per cent larger than for the survey week of late-April, representing about the usual seasonal gain.

In comparison with the late May farm working force of other recent years, the number represents a noteworthy reduction, 15 to five per cent below last year and 16 per cent below the same month five years ago.

Family workers in the May farm labor force totaled 4,916,000 persons. Total farm labor force was 6,700,000 persons.

WHEEL STORAGE TANKS RISE west of Twin Falls, Idaho-Portland Cement company is constructing cement distribution center near the old railroad roundhouse. Activity at the site has been increasing since the weather improved. Sections of the tank are hoisted to the top of the structure where they are welded into place. (Times-News photo)

Increase Is Expected in Total Cattle Slaughtered

WASHINGTON, July 3—The number of cattle slaughtered in the period from April through June is expected to be up 3 per cent from the January through March total.

Because of the heavy supply, the department of agriculture said fed cattle prices probably will continue near the January-March average through the spring and into the summer.

The January-March price average for choice steers at Chicago was \$21.84 a hundredweight. In the fall of 1963, before the price break, the price was over \$29 a hundredweight.

Government economists said the supply and price outlook for the second half of 1964 depends largely on the number of feeder cattle which move into feedlots this spring and summer.

This depends, in turn, on the weather. If May and June rains produce good pasture and range conditions, experts said, producers may keep some feeder cattle on grass instead of sending them to feedlots.

Should this happen, the agriculture department said, there could be some moderate involvement in prices for fed cattle in the last half of 1964.

If the number of cattle moving into feedlots remains at the January-March level which was 20 per cent above a year ago, the department said fed cattle prices for the rest of 1964 probably will continue at present levels.

The department added that feeder cattle prices for the rest of 1964 will be under heavy pressure because livestock feeders will be trying to offset the low prices for finished cattle by paying less for the feeder.

Prices for feeders currently are

U.S. Rejects Foreign Cattle

WASHINGTON, July 3—Of the 1.2 million head of cattle entering the United States from foreign sources in 1963, some 81,000 were rejected, it was noted recently by Dr. John O'Hara, vice president of American Veterinary Medical Association.

"Because of efficient protective barriers against disease originating in foreign lands, the U.S. is able to maintain and stabilize high standards of animal health," he said. "The job begins at our ocean and border points of entry, where federal veterinarians carry out quarantine and inspection regulations. Inspectors also are present at every major air and ocean port where animal by-products may be brought in by travelers."

Early Spring Spuds Will Top Forecast

BOISE, July 3—Production of early spring potatoes is estimated at 4,254,000 hundredweight, 17 per cent less than in 1963. The current estimate is three per cent more than forecast on May 1 principally as a result of increased yields in Florida.

Harvest in the Hastings area of Florida was rapidly nearing completion the last of May with only small acreage remaining to be dug the first week of June. In Texas, harvest in the Rio Grande valley was completed by the end of May.

Late spring potato production is estimated at 12,876,000 hundredweight, 18 per cent less than 1963 and 30 per cent less than average. Both lower yields per acre and smaller acreages account for the smaller crop than last year.

The current production estimate is two per cent larger than the May 1 forecast with increases in California, Arizona, and the northeast counties of North Carolina more than offsetting reductions in the estimates for Alabama and Oklahoma.

Favorable growing weather in California during May improved prospects and a record high yield is indicated. A crop of 12,261,000 hundredweight for the state accounts for 63 per cent of the total expected late spring production estimate.

Harvest was increasing gradually the first of June in the late planted sections of the Kern district and full volume was expected the week of June 7-13.

The first forecast of early summer potato production is 12,017,000 hundredweight, five per cent less than 1963 and 14 per cent less than average. Smaller acreage for harvest this year than in 1963 more than offset a slightly larger indicated yield. Less production than a year earlier is expected in all states except Kentucky.

Examinations Being Given 18-Year-Olds

Local selective service board examinations are being given to all 18-year-old boys to complete the armed forces examination, reports E. V. Morrison, chairman of the Twin Falls county local board.

The examination of 18-year-old boys does not mean that they face induction in the immediate future, says Morrison.

The President also noted, "early examination will not mean early induction. There will be no change in the present practice of changing order of registration for the armed forces before younger ones are called."

English Village Retains Name

The Loone women of this village have decided to stay that way. "We are proud of it," one woman said. "It gives us a feeling of distinction."

MAJOR DEPARTS

KING HILL, July 3—Major and Mrs. Bruce King and family have left for Westover air force base at Springfield, Mass.

CONVENTIONS AND CRISES/ The Republicans

by Don Oakley and Ed Kudlaty

The World War had been over for a year and a half; a Republican Congress was still debating the Versailles Treaty; President Wilson, after a futile appeal to the people to accept the League of Nations, was dying; the Prohibitionists had finally made the country dry; women had finally won the vote.

ing, senator and newspaper publisher from Ohio. Shrewd Harry Daugherty, Harding's campaign manager, prophesied: "The convention will be deadlocked and after the other candidates have gone their limit, some 12 or 15 men, worn-out and bleary-eyed from lack of sleep, will sit down about two o'clock in the morning in a smoke-filled room in some hotel and decide the nomination. When that time comes, Harding will be selected."

James R. Hoffa Is Most Active Man In Courtroom During His Fraud Trial

CHICAGO, July 3 (UPI)—James R. Hoffa examines every document, stabs at witnesses up and down, sends aides flying on errands, smiles at the jury, even steers his lawyer about the courtroom in a wheelchair.

He doesn't act like a defendant. He acts like the trusted colleague and adviser of his chief defense attorney, Maurice Walsh.

After the day's session is over in the old Chicago federal courthouse, Hoffa gathers his co-defendants about him and starts a regular strategy conference with the lawyer.

FBI Starts Diary Probe
DALLAS, July 3 (AP)—FBI agents visited the courtroom of the Dallas Morning News about 30 minutes yesterday to begin their investigation of where the paper obtained Lee Harvey Oswald's diary.

Rites at Declo Pay Last Honor To Mrs. Clark

BURLEY, July 3—Funeral services for Mrs. Teresa Clark were held Wednesday in the Declo LDS ward chapel with Bishop Norman F. Hurst officiating.

Conservationists To Attend Soil Meet at Boise

BOISE, July 3 (AP)—A meeting of representatives from soil conservation commissions and boards from throughout the 11 western states has been scheduled for Wednesday and Thursday in Boise.

PEA MARKET QUIET

SPOKANE, July 3—Pea markets continued quiet this past period with relatively little buyer interest shown.

Cowboys Bow to Chiefs, Return to Angels and Fireworks Here Saturday

The Magic Valley Cowboys will return to Jaycee park to host the Idaho Falls Angels in a fourth-of-July game that will be punctuated by the city's annual fireworks display. The game is slated to begin at 7:30 p.m. in the direction of parks and recreation supervisor Howard Johnson said 110 aerial shots will be fired into the air while a large American flag will be touched off inside the park. The city will use a double crew this year, and balloons have one of two aerial displays exploding at all times.

5-Run Inning Helps Giants Nip Pirates

SAN FRANCISCO, July 3 (AP)—Orlando Cepeda's two-run homer launched the San Francisco Giants to a five-run sixth inning and a 6-5 victory over Pittsburgh's 12th triumph in their last 14 games Thursday. Cepeda's smash over the right field fence scored Willie McCovey who had singled. Before the inning was over the Giants collected singles from Jim Hart, Jose Pagan, James Alou and Hal Lanier, a walk and a wild pitch.

Oliva Homers As Minnesota Rips Sox 15-9

BOSTON, July 3 (AP)—Brookie Tony Oliva lured Minnesota's pro-holiday fireworks with a three-run homer and lightened the American League batting race in a 15-9 victory over Boston Thursday.

Angels Drop Orioles With 4-Run Homer

Willie Smith smacked a grand slam homer in the ninth inning of the game to Los Angeles' advantage to a 10-6 victory over the American League-leading Baltimore Orioles Thursday night.

Race Injuries Prove Fatal For Roberts

CHARLOTTE, N. C., July 1 (AP)— Glenn (Fireball) Roberts, stock-car racing's most widely known driver, died Thursday after a six-week struggle with critical burns, he sustained in the world 600 race.

DENNIS GINS to the 35-year-old Daytona Beach, Fla., driver at 7:15 a.m. at Memorial Hospital, where he had been since the fiery crash on the backstretch of the 1 1/2-mile Charlotte Motor Speedway May 24.

Roberts died of pneumonia and blood poisoning, complications of burns over 75 per cent of his body. He had been in a coma since early Wednesday.

Roberts, who won more money and more major races than any other driver in the National Association for Stock Car Auto Racing, had showed steady improvement until Tuesday when he suddenly developed pneumonia and the blood infection.

"His determination and response to treatment had given rise to optimism on the part of his doctors. Then, suddenly, he took a turn for the worse," a hospital spokesman said.

With him when he died was his parents, Mr. and Mrs. Glenn Roberts, and his 13-year-old daughter, Pamela Jane, all of Daytona Beach. Roberts was divorced.

He was the second NASCAR star to die this year. Joe Weatherly, twice grand national champion, was killed during a race at Riverside, Calif., in January.

Four Share Lead At 6 Under Par In Golf Tourney

WHITEMARSH, Pa., July 3 (AP)—Jun (Ch-Ch) Rodriguez, Tony Lema, Tom Shaw and Al Bolding tied with six-under-par 66 Thursday for the first-round lead in the \$125,000 Whitmarsh open golf tournament. The four leaders led a charge over Whitmarsh Country club's 6,807-yard course on a sultry, 90-degree day that saw almost half the field shoot par or better. The field was split almost evenly between the mid- and high 70s. The top 100 in the field of 150 came Larry Mowry of Portland, Ore.; Dave Marr of New Rochelle, N. Y.; and California's Tommy Jacobs, each with 67.

T.F. Legion, Rasmussen, Nip-Kimberly

Gary Rasmussen's double down the leftfield line in the fifth inning scored two runs Thursday night and hoisted the T.F. Legion to a 3-1 decision over Nip-Kimberly. Rasmussen's double came after Jim Motern, getting his second hit of the night, opened the frame with a single and took third when winning pitcher Grant Almonds singled. Motern was out down on an attempted steal but Cooke singled and Johnson walked to load the bases before Rasmussen unloaded his double.

2 Have Pole Positions for Firecracker

DAYTONA BEACH, Fla., July 3 (AP)—Darel Dieringer and Jim Paschall, two-time winners of the Firecracker 400-mile stock car race Thursday as rain dashed the hopes of others. Dieringer, driving a Mercury, clocked the Daytona 400-mile race at 172.871 miles per hour to win the inside spot for the \$62,000 Saturday race. Paschall, riding a Plymouth, was clocked at 171.837 miles per hour. Rain, which dumped more than two inches of water on the 2 1/2-mile raceway, prevented other drivers from making a try at the front-row position. But just prior to Dieringer's two-lap qualifying heat, husky Plymouth driver Richard Petty had been clocked at 170.373 miles per hour in a practice run.

Italian Food Sidelines Mays

SAN FRANCISCO, July 3 (AP)—The San Francisco Giants are shopping Willie Mays stays away from Italian food at least until the National League pennant race is over. Mays, who leads the league in homers with 23, was forced to leave Thursday's game between the Giants and Pirates when he had an upset stomach. He had just legged it home first on a double to score the Giants' first run when he became ill in the dugout. The Giants went on to win 6-5. Manager Alvin Dark said Mays told him he had eaten ravioli before the game and apparently ate the stomach.

Duke Rodney Wins U.N. Trot

YONKERS, N.Y., July 3 (AP)—Duke Rodney, turning on the power in the last one-quarter mile, hung up a world standard for 1 1/2 miles on a one-half-mile track Thursday night as he caught Portefhouse in the stretch and won the \$60,000 United Nations trot at Yonkers raceway for the second straight year.

\$72,837 Paid on Two Dollar Bet

PHILADELPHIA, July 3 (AP)—Three New Jersey men chased in a winning ticket worth \$72,837.40 Thursday night after choosing the 7-8-2 twin double combination at Liberty bell horse park. Sharing the big payoff were William Denton, 34, Camden; Frank P. Dwyer, 34, Bell Mawr; and Harry Laughlin, 33, Cape May Court House. The trio collected the money after selecting a 7-8-2 twin double combination in the 10th race, which paid \$20.00; in the ninth race, which paid \$36.40; in the seventh race, which paid \$7.40; in the eighth race, which paid \$7.40; and in the fifth race, which paid \$7.40.

Maloney and Reds Blank Chicago 7-0

CINCINNATI, July 3 (AP)—Jim Maloney's four-hit pitching and a five-run third inning rally carried the Cincinnati Reds to a 7-0 victory over the Chicago Cubs Thursday night. Maloney, bringing his record to 7-8, hit the batter striking out Dick Bertell—singled—leading off the sixth.

15 Americans To Vie in British Open

ST. ANDREWS, Scotland, July 3 (AP)—Fifteen Americans are among the 200 golfers shooting for prizes in the 111th open golf championship in the qualifying rounds over the New and Eden courses this week-end. The low-60 will join the 51 exempt players in the 72-hole championship starting next Wednesday over the old course of St. Andrews.

Jack Nicklaus, Columbus, O., is the 7-2 betting favorite to win with Tony Lema, Oakland, Calif., second choice, at 7-1. Bob Charles, the left-hander from New Zealand who won last year, was an 8-1.

Valley Beats Jerome 3-2 on Double Steal

EDEN, July 3 (AP)—A successful double steal plated the deciding run Thursday as the Valley Leaguers, team rallied with two runs in the sixth inning to nip Jerome 3-2. Jerome, thanks to the hitting and pitching of Jim Dlamires, and a clutch double by Park Worthington, he tied the game in the first inning when valley came to life.

Davis Cup May Be Streamlined

LONDON, July 3 (AP)—A special committee of the Davis cup nations was set up Thursday in an effort to streamline the tennis competition. The committee was formed on the recommendation of Britain at the annual meeting of the Davis cup nations. It will consider the whole constitution of the competition, particularly its present conditions. The meeting passed another British recommendation that entries for the competition be accepted on the understanding that visa for officials and members of visiting teams will not be withheld.

SPORTS

Friday, July 3, 1964 13

Which is not the sort of statement you get every day on the sports beat. Quoted to Walters, who explains that ecstacy is "Selecting what appears to be best in various theories, methods or styles; composed of elements drawn from various sources."

Back to Walters, who made the rest of his explanation simple enough that even a sports writer could understand. He explained carefully and concisely how the Spokane, Wash., high school boy suddenly had become one of this country's top distance men.

The 5-foot, 6 inch, 130-pounder ran a close second to Bob Gehl's 1:59.57 in the 2000-meter run last week-end in the AAU national championship and goes for a spot in the U. S. Olympic team in the trials this week-end.

"When Gerry was 14, we had more, we sat down and had a long talk," the 33-year-old Walters said. "We talked about the great miles, Zatopek, Snell, Elliot, Cunningham. We talked about their training procedures, their styles, their approach to their problems."

"Then I had Gerry think about them for a while."

"Later we had another talk, this one about Gerry, about his personality and physique. Then we chose some of the devices used by the great runners, a lot of them, and gave them to Gerry to use in a program that would fit Gerry's personality and physique."

"We had Gerry run to the point of exhaustion, then keep running, and we did. We had him run in the hills, like Snell. And he runs 140 miles a week. It paid off in a spot in the Olympic trials."

YOUR BIRTHDAY and HOROSCOPE

FRIDAY, July 3—Born today, you have an air of kindly confidence that may fool others—and even yourself—into overlooking your capabilities. Your next job in life must be to learn your limitations and discipline yourself to stay within those limits.

SATURDAY, July 4—Born today, you have a quick, eager mind and an inner desire to be engaged in work that puts you before the public. Your unusual way with words may lead you into a writing or speaking career, or your innate sense of timing coupled with your dramatic abilities may lead you into the theater.

SUNDAY, July 5—Born today, you are a true leader. You have been blessed with exceptional talents and capabilities. You are an excellent critic in the best sense of the word; you have a knack for making constructive suggestions about any product but only if you take one rung at a time.

MONDAY, July 6—Born today, you have an overall sense of self-confidence, for you are apt to think yourself readily in love and ready for marriage at the drop of a hat. It goes without saying that once that last drop, you are not nearly so ready as you thought. He warned, therefore: take your time and, again, know your limitations.

TUESDAY, July 7—Born today, you are a true leader. You have been blessed with exceptional talents and capabilities. You are an excellent critic in the best sense of the word; you have a knack for making constructive suggestions about any product but only if you take one rung at a time.

WEDNESDAY, July 8—Born today, you are a true leader. You have been blessed with exceptional talents and capabilities. You are an excellent critic in the best sense of the word; you have a knack for making constructive suggestions about any product but only if you take one rung at a time.

CAPRICORN (Dec. 23-Jan. 20)
Make this a special birthday. Do another good turn; pay respects to those to whom you owe a great deal. Don't take love for granted.

AQUARIUS (Jan. 21-Feb. 19)
You can gain the assurance you may merely by asking the opinion of a disinterested party. Where pleasure conflicts with duty, don't be fooled into thinking that you can make up for irresponsibility some other time.

TAURUS (April 21-May 21)
Chances are, this will be a busy day for you. You may have a lot to do and only if he puts two and two together soon enough to make it count.

GEMINI (May 22-June 21)
An excellent day for paying off social obligations. Make plans for the evening early.

LEO (July 23-Aug. 22)
Take more than normal precautions today and you will get by without incident. Keep an especially sharp eye on children.

SCORPIO (Oct. 24-Nov. 22)
Join in the holiday festivities and, by all means, don't be a wet blanket.

ARIES (March 21-April 19)
Chance of accident are high. Don't estimate the degree of maturity by the degree of physical growth.

FAREWELL SALUTE is given by Gen. Maxwell Taylor as he walks from the Pentagon with Secretary of Defense Robert McNamara during formal retirement ceremonies Thursday. General Taylor refused an chairman of the joint chiefs of staff to take over the post of U. S. ambassador to South Viet Nam. He was sworn into the diplomatic service later in the day. (AP wirephoto)

Missionaries Will Conduct Bible School

GOODING, July 3 — Missionaries from Wichita Falls, Texas, will arrive in Gooding Saturday to conduct a vacation Bible school and evangelistic services Sunday through July 10 at the Gooding church of Christ.

The Bible school will be conducted at 9:30 a.m. each day next week. Classes will be taught for pre-school, primary, junior, teenagers and adults. Persons attending three of the five lessons will receive a certificate.

Speaking during the evangelistic services each evening will be the Rev. William E. May, pastor of the Episcopal Church of Christ, Wichita Falls. The Rev. Mr. May will conduct a one-month teaching ministry at the World Fair after the services at Gooding.

The Rev. Mr. May traveled 23,000 miles last year to Europe, Africa, Asia and the Holy Land. At each service, which begins at 8 p.m., at the Gooding church, the Rev. Mr. May will show films of the Holy Land he took on his trip.

Mrs. Wheeler Is Honored at Rites

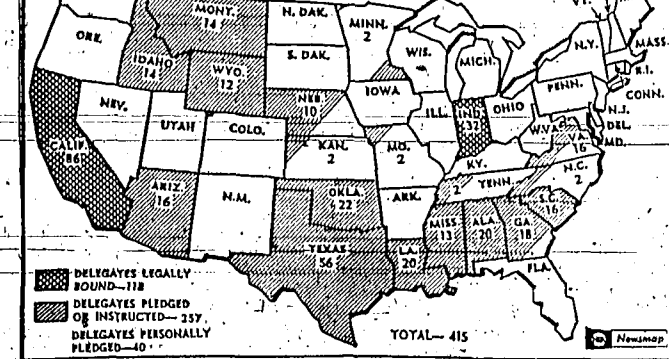

DUHL, July 3 — Funeral services for Mrs. Josephine C. Wheeler were conducted at 2:30 p.m. Thursday in the Duhal Assembly of Christ church by the Rev. H. B. Wood, Twin Falls.

Mrs. Wheeler, 78, died at her home in Twin Falls, Idaho, July 1, after a long illness.

Funeral services were held at the Duhal church, with burial in the Duhal cemetery.

THANETERNARY

KING HILL, July 3 — Gary Emerson, Idaho state police officer at the King Hill post, is moving from his post to a new job in the Boise area and will report to his new job the first of next week. He will be replaced at the post by William H. Brown, Kellogg.

GOLDWATER'S HARD-CORE DELEGATE VOTES — Sen. Barry Goldwater will arrive in San Francisco July 13 with minimum of 415 non-clad first-ballot votes in his bid for the Republican presidential nomination. This is 240 votes shy of nomination, as the NEA-Newsmap shows. The delegate-vote breakdown is as follows: by virtue of winning the California and Indiana primaries, the senator has 118 legally bound votes. He picked up another 257 unshakable votes through various state Republican conventions. Those 257 delegates will vote for Goldwater because they have been instructed to do so by the state convention. Another 40 delegates have personally pledged to vote for Goldwater. But, of course, if Goldwater falls to be nominated on the first ballot, the delegates are then automatically released from their commitments.

Walker Cites Support for Intertie Plan

Praise of the electrical intertie system proposed by Interior Secretary Stewart Udall was pointed out by Lloyd J. Walker, Idaho Democratic chairman, Friday, as an indication that Idaho Power company should cooperate in an agreement to wheel Bonneville power into southern Idaho.

He said, "An occurrence of major importance to all Idahoans was the announcement of the proposed huge western electrical intertie system by Udall."

"This proposed system of cooperation between public and private power won the editorial praise of the staunchly Democratic Daily Statesman. The editorial praised the concept of government and private cooperation and the resulting benefits to be achieved by the West."

"Yet this paper and the rest of the Republican press vigorously oppose the introduction of public power through the transmission line into southern Idaho from the Bonneville system and this could be done by a publicly held line or preferably by cooperation with Idaho Power company through wheeling agreements."

"This is the same sort of public-private cooperation envisioned by Secretary Udall's proposal. If such a system is wonderful for southern California and Nevada, it is doubly wonderful for southern Idaho since we have no cheap industrial power at all and besides it is our water that generates the power."

"Let's be logical. Why shouldn't southern Idaho benefit like the southern California and Nevada? Let's get private power to cooperate with our public system and we will all benefit."

"It's time we all asked Idaho Power to cooperate by signing wheeling agreements with Bonneville power."

Water Used

CAREY, July 3 — Fish Creek reservoir has 11,707 acre feet of water, reports Ross Deidman, watermaster.

Inflow is measured at 707 inches, while outflow is 5,292 inches.

Tea Is Held by 4-H Club Girls

KING HILL, July 3 — A tea was held Thursday afternoon in the King Hill Grange hall by the fifty-year sewing group of the Happy Home Makers 4-H club, with Gerlin Woodward, Phyllis McCleary and Mary Knox, as hostesses, assisted by Mrs. Martin Woodward, 4-H leader.

Phyllis McCleary gave an illustrated talk on balanced nutrition. Sherri Ribber gave a demonstration on how to make place mats and reported on the 4-H camp at Ketchikan, Lewis and Clark. Mrs. Knox also reported on the Sawtooth 4-H camp.

Miss Woodward, Mrs. McCleary and Mrs. Knox reported on their trip to 4-H congress in Moscow, and gave a skill they presented on talent night at the congress.

U.S. Pilot, Spaniard Die In Air Crash

MADRID, Spain, July 3 — An American pilot and his Spanish air force officer passenger were killed today in the crash of a new supersonic U.S. jet fighter during a demonstration flight.

Witnesses said the Northrop F-5B jet crashed alongside the runway either while attempting a landing or making a low pass over the field.

Air units of the North Atlantic Treaty Organization in Europe are to be equipped with the F5B. The Spanish air minister, several squadrons of top-ranking air force officers had been invited to fly in the jet.

Northrop officials here identified the American pilot as Don Palmer, 35, Los Angeles, a test pilot for Northrop.

He is survived by his wife and children in California.

Maj. Perez D. Guzman was the Spanish victim.

Wranglers 4-H Club Has Meet

KING HILL, July 3 — A proposed fund raising project was discussed when the Wranglers 4-H horse club met Tuesday night at the home of Mr. and Mrs. W. W. Knox with Bud Allen, leader, in charge.

Members were asked to bring information on their horses to the next meeting, which will be held at the home of Mr. and Mrs. W. W. Knox.

Members were served by Mrs. Knox and her daughter, Mary.

Students Clash

POICVO, July 3 — About 20 students were injured yesterday in a clash between rival factions of the ultra-leftist Zengakuren Student Federation.

Police intervened to restore order on the Waseda university campus when a faction favoring revision of Japan's "anti-war" constitution attacked a meeting of students against revision. A government commission is studying possible constitutional revision.

Police intervened to restore order on the Waseda university campus when a faction favoring revision of Japan's "anti-war" constitution attacked a meeting of students against revision. A government commission is studying possible constitutional revision.

SOVIET PREMIER Nikita Khrushchev, who told Norwegian fertilizer makers in Forgrund Thursday they could not teach him anything about the business, uses a magnifying glass to take a real close look at one step in the process. He made a one-hour tour of the Fiskanger plant, part of the Norsk-Hydro complex. The firm was supplying fuel to Khrushchev, Managing Director, Hoff Oestbye, left, is his guide. (AP wirephoto via cable from Norway)

Chiang Says U.S. Already In War Against Red Chinese

TAIPEI, Formosa, July 3 — President Chiang Kai-shek of Nationalist China says that American troops already are engaged in a war against Chinese communist forces in Southeast Asia.

He said the United States can win this war if it is willing to make the necessary effort.

Chiang told United Press International in an exclusive interview yesterday:

"As things stand today, the Chinese communists already are actively taking part in Viet Nam, Laos and Cuba."

"Their cadres and trained personnel are taking an active part in these two countries. The only difference is that they put on the uniforms of the Viet Cong and the Pathet Lao."

"So in a sense the United States already is at war with the Chinese communists."

President Chiang, who is 78, said the assignment of Gen. Maxwell Taylor, chairman of the U. S. Joint Chiefs of Staff, as U. S. ambassador to South Viet Nam, was interpreted in Asia as a new resolve by the United States government to come to grips with the situation in Southeast Asia.

He said the whole question of American success or failure in Viet Nam depends on whether the United States demonstrates full determination to come to grips with the situation in Southeast Asia.

"Asked what might happen if the South Vietnamese attempted...

Simplot to Build Plants At Pocatello

POCATELLO, July 3 — The J. R. Simplot company is going ahead with two portions of an improvement project at its fertilizer complex west of Pocatello, despite an announcement it will skip further expansion. W. Grant Kilbourne, vice president and general manager, said yesterday.

Under construction are anhydrous ammonia plant and an ammonium sulfate plant. Kilbourne said they were planned prior to the announcement of curtailment and equipment already was on order. He said both projects will be completed by early fall.

Simplot announced two months ago it would abandon monthly expansion it had planned earlier.

The company said it was doing so because of the signing of a contract by the Bonneville Power administration to deliver power to a competing phosphate plant in southeastern Idaho.

"That contract would give the competing firm an unfair advantage, Simplot said."

ATTENDS SEMINAR
