Slowdown Continues in House; Senators Prepare For Vital Sales Tax Vote

BOISE, March 11 (AP)—The three per cent sales tax measure, considered the key to final adjournment of the Idaho legislature, was on the senate's third reading calendar today but indications were it wouldn't be considered until afternoon. In the meantime, Rep. Herman McDevitt, D., Bannock, continued his slowdown procedure in the house which kept lawmakers in session until nearly 10 p.m. yesterday.

Resignation Probe Attempt Is Defeated

BOISE, March 11 (AP)—The senate defeated today on a straight party-line vote an attempt to get a legislative investigation of the resignation of Don I. Walker, state budget director.

Sen. William Dee, D., Idaho, the minority leader, proposed the investigation of what he called Walker's "discharge." He was supported on the floor by Sen. Fredrickson, D., Gooding, and Cy Chase, D., Benewah.

Sen. Jack Murphy, R., Lincoln, the president pro-tem, and Sen. Rodney Hansen, R., Minidoka, spoke against the motion.

It was defeated 18-23, with Democrats voting for and Republicans against.

Walker's resignation, disclosed Monday, was submitted to Gov. Robert E. Smylie by letter dated March 3. The governor accepted it in a letter dated Monday. The resignation is effective March 15.

Walker said he quit because he was not in harmony with the governor's policies.

Dee said his concern was that Walker might have been dismissed because he provided financial information for Democratic legislators.

Dee said he would like to know if any attempt to restrict information available to a legislator of a party other than the party of the governor.

He said he would be just as concerned if the office were held by a Democrat and information was denied a Republican.

Sheepman Receives Hall of Fame Award

The name of John Breckenridge is not only well known locally, but it has become synonymous with the sheep industry on the national scene. When he ascended to the office of president of the National Woolgrowers association in 1955 he was the youngest man ever to serve as chief of that group. For John Breckenridge it was the completion of a step that started out on his father's sheep ranch near Ketchum. About the only honor left for the Twin Falls sheepman is to be named to the Livestock Hall of Fame. The Livestock Hall of Fame banquet will be held at 7:30 p.m. Saturday at the American Legion hall in Twin Falls.

Breckenridge's climb to the presidency of the Woolgrowers had several stepping stones. From 1945 until 1947 he served as vice president of the national group.

From 1947 to 1949 he served as president of the Idaho Woolgrowers association. Breckenridge's knowledge of the sheep industry is a combination of know-how and formal schooling.

After graduation from Twin Falls high school he attended college at Swarthmore college in Pennsylvania.

In addition to managing a highly efficient sheep operation in Twin Falls county, Breckenridge has for many years been a strong proponent of the theory that the sheep industry must do all it can to advance itself. He actively participates in programs to boost the sheep industry.

For example, he has served as chairman of the National Lamb association and for many years he has served as a member of the Wool Research and Marketing association. He is a former chairman of the National Association of Lamb Promotion committee and represented that group before the National Livestock and Meat board.

In addition he was a member of the Sheepman, Page 2, Col. 5.

Banquet Site

The Livestock Hall of Fame Banquet will be held at 7:30 p.m. Saturday in the American Legion hall in Twin Falls instead of the national guard armory as previously reported.

3 Charged In Slaying of Malcolm X

NEW YORK, March 11 (AP)—Three Negroes were indicted yesterday by a grand jury for the slaying of Malcolm X and a fourth, Malcolm's bodyguard, for shooting and wounding one of the alleged assassins.

Normal X Butler, 28, and Thomas J. Johnson, 30—who have been described by police as Black Muslim "enforcers"—and Talmadge Thayer, alias Thomas Hagan, 22, were charged with first degree murder for allegedly killing Malcolm X "with a shotgun and pistols" in the Audubon ballroom at Broadway and 168th street, Manhattan, on Feb. 21.

Butler and Johnson are also charged with the Jan. 6 shooting of Benjamin Brown, 31, a Black Muslim, and city corporation officer.

Brown had been shot in the shoulder outside a mosque he had set up in the Bronx after leaving the Harlem mosque where Butler and Johnson were reported by police to be the enforcers.

A jury of six men and six women returned its verdict to Judge Hubert L. Will of U.S. district court shortly after noon. Stratton had been accused in a four-count indictment of evading \$40,946 in income taxes on allegedly unreported income of \$83,069 for the period 1957 to 1960, the last term in office for the former Republican state chief executive.

The government has contended that Stratton used campaign contributions for personal use without reporting them as taxable income.

Woman Takes Issue With Survey Report on Pay Rates for Housewives

By JOY STILLEY
NEW YORK, March 11 (AP)—I have just learned from my friendly neighborhood banker that I, along with 29,999,999 of my coworkers, earn \$2,285.62 a year at the going rate for all the jobs we hold under the general title of "housewife."

The Chase Manhattan Bank's economic research department has conducted a survey which reveals what tasks the average housewife performs daily, the number of hours she spends on each, and the rate of pay for these jobs on the labor market.

Their statistics show that America's 30 million homemakers are worth \$182.94 a week on the hoof, which is usually where they're on the job. As one of that number, I take issue with some of their figures.

In the role of food buyer I may indeed spend 2 1/2 hours a week at the rate of \$1.50 an hour for a total of \$4.95. But shouldn't I get overtime pay for the extra minutes I spend licking the trading stamps?

For the job of nursemaid—4 1/2 hours at \$1.25 per hour—I'm entitled to \$5.63. I no longer have any little ones around, but we wives who play nursemaid to boys over 40 surely deserve a bonus.

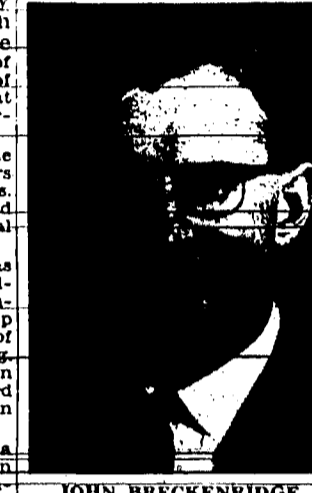

That total of \$9.30 for 6 1/2 hours of dishwashing must be for those who have an army of little kilo-

watts helping out. I'm a strictly nonautomatic dishwasher myself, and I spend much longer that that acquiring my rose-colored detergent hands.

In all honesty, I'll have to return the setting for \$3.25. I'm allowed as seamstress at \$2.50 an hour. Even if I could sew, I'd find some way to keep from spending 1 1/2 hours a week at it.

Being a cook for 13 1/2 hours a week at \$2.50 an hour sounds about right. But why don't we just take that \$32.75 it adds up to and eat out?

Also on the list are dietitian, housekeeper, laundress, practical nurse, maintenance man, gardener and chauffeur, but I'll see HOUSEWIFE, Page 2, Col. 8

Demonstrators Stage White House Sit-in

Group of civil rights demonstrators staged a sudden sit-down in the White House Thursday, protesting the Selma, Ala., situation. White House police officials immediately began efforts to persuade the group to leave voluntarily. About a dozen young demonstrators gained entrance to the White House with a public tour, plopped down in a lower floor hallway and began chanting the civil rights song, "We Shall Overcome." The protest began about 11:30 a.m. EST. The White House police chief, Maj. Ralph Stover, summoned immediately. He was talking to the demonstrators, urging them to leave peacefully. Stover's attempt to talk the sit-inners into leaving indicated that the White House—if unable to avoid any display of force, the police and U.S. secret service have the right to eject any visitor from the executive mansion at any time.

The public tours of the White House were abruptly halted at the sit-in. Tourists who were waiting in line for admission to the executive mansion were turned away.

At the sit-in continued past the White House prohibition coverage of the scene. In Selma, about 200 Negroes and white civil rights demonstrators massed at the "Berlin rope" and prepared to resume a march that police have held in check since Wednesday.

The "Berlin rope" is the name demonstrators gave to a rope which police safety Director Wilson were strung across the street to separate officers and demonstrators.

Green-helmeted state conservation corps officers were standing by to prevent any such repetition of the march. They carried billy clubs and cattle prods.

Baker said, however, that there could be no violence if a break-down was attempted. He said men would simply step in to make mass arrests.

About 400 Negroes and white businessmen from 30 states bicycled in the state Wednesday.

Bill Okayed

WASHINGTON, March 11 (AP)—The senate passed today a bill to authorize the sale of lead, zinc and copper from the national stockpile for domestic use.

The measure, which now goes to the house, would permit the sale of 150,000 tons of lead, 150,000 tons of zinc and 100,000 tons of copper. It also would release from federal stockpiles 50,000 tons of lead and 50,000 tons of zinc for direct use by federal agencies.

The house previously passed separate bills to authorize lead and zinc sales.

Blood Quota Is Missed At Wendell

WENDELL, March 11—Wendell missed its 100-pint quota by 30 pints Wednesday, with 70 donating blood to the Red Cross bloodmobile at the American Legion hall. There were three rejects.

Mrs. Harold Holsinger, blood program chairman, thanked the many faithful donors, volunteer workers, organizations which served dinner for the workers and the Legion auxiliary for the publicity, directed by Mrs. Norman Miranda.

Mrs. Holsinger was called out of town because of illness in the family and Mrs. M. L. Gates was in charge of the proceeds.

Doctors were Dr. Harold F. Holsinger, Wendell, and Dr. Luther Thompson, Twin Falls. Registered nurses were Mrs. Richard Overfield, Jerome; Mrs. Zannie Alexander, Shoshone, and Mrs. Veronica Moss and Mrs. James Gunning, both Wendell.

Nurses aides were Mrs. Grace Urban, Mrs. Pearl Harris, and Mrs. Raymond Ruby. Typists were Mrs. Raymond Turner and Mrs. Neal Ambrose. Receptionists were Mrs. Raymond Lancaster and Mrs. V. A. Cassingham.

The canteen was operated by the Home Improvement club with Mrs. Richard Jasper, Mrs. Sidney McDowell, Mrs. Orlando Jacobson and Mrs. Dale Blittrill in charge. The dinner for the

Enthusiasm High In C. of C. Drive

The Twin Falls Chamber of Commerce membership drive has signed 75 new members and more are expected to join. Ray Rostron, secretary-manager of the chamber, said Thursday morning it is hoped the drive will be completed next week. He said some members still have "callbacks" to make. Earl Faulkner, chairman of the drive, said "I'm enthused about the enthusiasm of the members. They are determined and the drive is going real well."

Ken Rounly has the largest number of new members with 20. He, along with John Wolfe and Thomas Murray, received shirts Thursday morning. Shirts are awarded to members who have signed five or more new members.

During the breakfast meeting Thursday morning 55 members were present to report on their part of the drive.

Faulkner said anyone interested, whether a member or not, may attend these meetings. He said they like to "have these observation groups attend."

More general meetings are planned according to Rostron. He said Hudson's shoes donated a pair of golf shoes to be given to a member.

Twin Falls residents other than businessmen or merchants were urged by Faulkner to join the Chamber of Commerce. He said anyone who is interested in the growth and development of Twin Falls should join.

The Twin Falls ministry also was urged to join. Faulkner said the chamber needs associate members. The first associate member to join was the Rev. Msgr. Edmund R. Cody, St. Edward's Catholic church, who signed up Thursday.

City's Urban Renewal Plan Recertified

WASHINGTON, March 11—Rep. George Hansen has been notified that the housing and home financing agency has recertified the workable program for community improvement of Twin Falls.

He said this means the community remains eligible for the several types of federal assistance which became available to it when it received its original workable program certification.

Hansen said certification is necessary before a community is eligible to receive federal aid in the form of loans and grants for urban renewal programs.

He said certification does not constitute approval of any specific federal need, but is a showing by the community of how it intends to use its own public and private resources to eliminate and prevent slums and blight.

Youth Shoots Self in Knee Accidentally

HAZELTON, March 11—Richard Johansen, about 19, son of Mr. and Mrs. James Dryden, Hazelton, was undergoing surgery this afternoon at Cassia Memorial hospital. Burley, for injuries received this morning in a hunting mishap.

The youth was hunting Jackrabbits in the Wilson lake area, apparently alone, when he accidentally shot himself in the knee cap. He was taken to the Burley hospital by his stepfather.

Johansen is home on leave from the armed forces.

Means to Feed World Billions Diminishes

Actively few years hence will require huge increase in food production.

Man has learned to control death through medicines and modern technology. Disasters no longer take tolls as heavy as in the past. Man even has achieved a balance of terror which is holding major war in check.

State Requests Disaster Relief

WASHINGTON, March 11—George Hansen has been notified by Buford Ellington, director of office of emergency planning that Idaho has received an additional \$400,000 for disaster relief activity. He said state had received \$500,000 Jan. 18.

He said about 80 project applications are expected from Idaho and as they are received from disaster offices they are being processed on an expedited basis by office of emergency aid and regional offices.

By WILLIAM L. RYAN
AP Special Correspondent
Mankind has achieved a measure of death control, and the one critical every day. The crisis is today, experts say, to avert catastrophe a relatively few years hence will require huge increase in food production.

Man has learned to control death through medicines and modern technology. Disasters no longer take tolls as heavy as in the past. Man even has achieved a balance of terror which is holding major war in check. But world food production has failed to keep pace with the resultant population increase. Man now faces a cruel paradox. He has increased his numbers at a frightening rate and does not feed them adequately.

Today, the world's population is estimated at 3.3 billion. At the current rate of increase there will be 4.5 billion on Earth in 20 years, and by the end of this century, six billion, of whom 4.5 billion will be in the poor, predominantly non-white countries.

Experts estimate that by 1975 the world will need a 35 per cent increase in food production just to keep pace with present subsistence levels. Thus, man is like Wonderland's Alice on her treadmill, running faster and faster just to stay in one place. If the situation is to improve, the world will need, in reality, 50 per cent more food.

Youngsters Are Warned on Kite Flying Safety Rules

Along with the month of March and its strong winds comes the usual swarm of kites. So, Idaho Power company issues its annual appeal for "safe and happy flying." Kites, put together only by two pieces of wood, some string and paper, have caused many headaches for power companies throughout the U.S. Kites have been lodged in power lines, on utility poles and in trees. All kite flyers are urged by the company to observe eight simple rules to prevent "needless" accidents. A. I. Sawyer, safety director, said the rules, which he called "every kite flyer's commandments," are listed on posters the company is distributing as a public service to schools throughout its area. The rules are, always use dry string—not wire or anything metallic, use wood and paper in your kite—not wire or metal, always fly your kite on days when there is no rain. Also avoid busy streets and highways while flying your kite. Always fly your kite away from

TV and radio aires, keep away from fallen wires, fly your kite

TV and radio aires, keep away from fallen wires, fly your kite far from electric or power lines and always call your power company if your kite gets snagged in power lines. Don't pull the string or climb power poles. "Kite flying is meant to be fun for young and old alike," Sawyer said. "Let's keep it that way by heeding these few simple rules—for safety's sake."

Talent Show Set Tuesday At Castleford

CASTLEFORD, March 11—The Castleford Openers of 1965, a community talent show sponsored annually by the PTA, will be held at 8 p.m. Tuesday in the old high school gymnasium. Mrs. Robert Becker is music director and Mrs. Tom Barron is the play director. The committee has gotten together a variety of talent, some well known and some long hidden. The participants range from the very young to the little older and these men, women, boys and girls are working together in this show which promises to be the "hit of the decade," Mrs. Becker said.

Mrs. Tom Barron, who was a drama major at the University of Idaho, has written the script and shaped five skits, three dances, seven musical numbers and many other numbers. The show will last about an hour and one-half. Music for the show under the direction of Mrs. Pierce will be a combo. Some of the local participants are Gale Conner, Delbert Alexander, Mrs. Ralph Peterson, Men's club quartet, "The Legends," Maurice Guerry, and Kent Giles and John Crawford, Buhl.

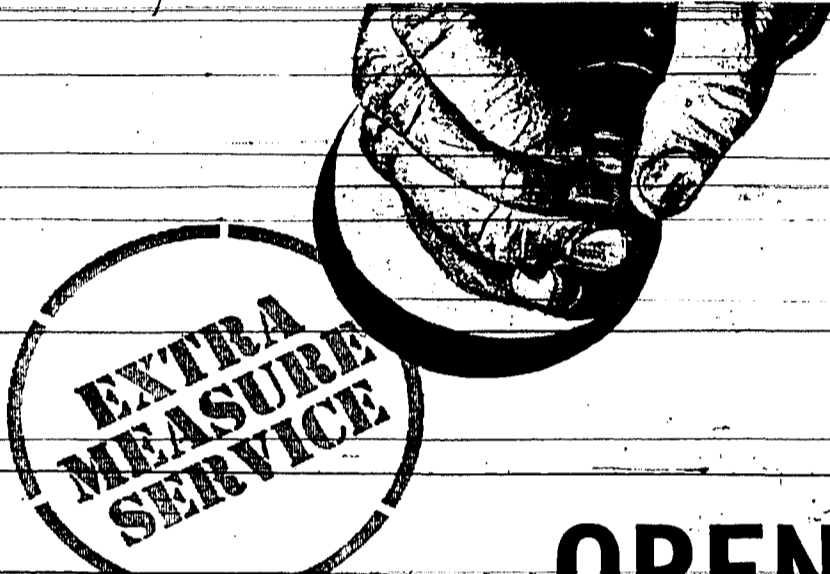

Tickets will be sold at the door and proceeds will be used for some PTA project. HANSEN on Highway 30 between Hansen and Kimberly.

The White Hot Comets (of Cape Horn Fame) have come to Town!

But don't plan on them hanging around for long! Too many people have been waiting too long for a bargain like this. And because we've ordered only so many of these "White Hot Specials," it has to be first-come-first-served. So come and get 'em while the getting's good!

Year's lowest price!

Why wait till August? By special arrangement with the factory we're able to offer you the lowest possible price on a car that should cost many hundreds more. You don't save any money by waiting till the end of the year, so why lose all these months of pride and pleasure driving the World's most famous car? THE PRICE may be dropped, but the car isn't! It comes with deluxe features inside and out. Free-red vinyl interior trim. Deep-lap top carpeting. Deluxe wood covers and white, bright metal exterior. You need very stylish Polar White two-door sedan body, hard-top, etc.

*Last year Comet broke the record book on the way to becoming the World's Durability Champion. This year a team of 100,000 Comets proved they drove from the bottom to the top of the world. (Cape Horn to Alaska) in 40 days and 40 nights. That's how Comets are made. So last.

WHIRLIGIG

HONG KONG, March 11—At this stage, one of the pitfalls Washington must avoid is an agreement by the communist Viet Cong to accept an opportunity to accept government in South Vietnam pledged to a policy of eventual neutralization.

BAITED TRAP—The plan is designed to save American "face" by permitting the withdrawal of U. S. troops. But the reds would have an understanding with the pro-western government that it could gradually ease all positions against the Viet Cong.

They have made considerable hay already with South Viet Nam's politically potent Buddhist bases. Hardly a day passes without another prominent monk demanding an end to the fighting.

WHO WANTS TO LOSE? The problem, of course, is the desire of the average Viet Nam soldier and civilian to be on the winning side. Communist propaganda has blown up Viet Cong victories in the field and the chaotic political scramble in Saigon so that many soldiers and peasants are fearful lest they be caught out on a limb by their continued loyalty to the American-backed government.

SAVE THE HONOR SYSTEM
Public interest in the Air Force academy cheating scandal remains intense. For this and other reasons we hope that the academy does not give in without a great deal of thought to well-intentioned but perhaps mistaken efforts to persuade it to alter that portion of its honor system which requires cadets to report cheating by other cadets.

THE OMITTED SENTENCE
It is interesting to go back and reread President Johnson's agriculture message to congress. In light of the reported retention of a sentence saying a million farmers is all the United States needs to produce an adequate supply of food.

SMYLIE IS BOSS
It's difficult to side with Don L. Walker in his differences with Gov. Robert E. Smylie and the resulting resignation from the office of state budget director.

WASHINGTON, March 11 (AP)—Viet Nam is President Johnson's Cuba.

Johnson, in a way, is doing to the communist world in Viet Nam what President Kennedy did to it with the Cuban missile show-down in 1962.

MARQUIS CHILDS WRITES ON WASHINGTON

WASHINGTON, March 11—The witness had just concluded his testimony before the Senate foreign relations committee speaking with the deliberation of one who weighs his words with the greatest care.

George P. Kennan had come out of his academic solitude at Princeton, where he is a professor at the institute for advanced studies, to give his views on war and peace.

It was no secret that several of the senators around the conference table were in a curiously nervous mood. The atmosphere prevailing in Washington, with pressures constantly growing to back President Johnson's moves in Viet Nam, little or no comment came from the senatorial side of the table.

N.Y. Sets Cultural Shock for U.N. Envoys

kind of Vietnamese eggroll. Pakistan's Ambassador Syed Amjad Ali brought a brace of bores from home with him to guarantee the authenticity of dishes served at his table. All says that New York specialty stores provide nearly all the necessary cooking ingredients.

"But we have to import our own basmati and silver paper," he adds.

The former is a Pakistani rice highly regarded for its subtle flavor. The latter is an Arabian Nights version of Reynolds Wrap: Pure silver beaten into cobweb-

thin sheets and folded around sweets. Such candies are eaten as is—silver wrapping and all.

On the sartorial side, local winters are deadly to fashionable U. N. wives from India and Pakistan, many of whom wear exquisite silk saris ornamented with gold stitching. The wrap-around dress was designed for delicate slippers or sandals—not for American winter footwear. As one newcomer facing her first winter lamented:

"How can I look chic in saris and galoshes?"

Assembly President Alex Quailson-Sackey and his Ghana delegation have a variation on the male complaint that shirts come back from the laundry minus buttons.

With the Ghanalans, it's their ceremonial kenteis that are abused. The kenti—a patchwork quilt robe worn toga-fashion, tends to come apart at the seams under the mechanical pummeling of dry-cleaning.

One of Quailson-Sackey's aides has solved the problem. He wears Western clothes to work and uses his kenti only at home—as a bedspread.

only a few attached to the N.Y. 114 New York foreign missions are bothered by the language classes or which in- ternational incidents are made: attacks on diplomats, po- tential discrimination.

conversations with people from Upper Volta, Paraguay, from Copenhagen. They show that the biggest differences are those of residence. They range from the lack of living and housing short- cuts to bottlenecked cross-town traffic and surly-bus drivers.

Ever, alien living is com- plicated by old-country customs that don't always travel well to New York.

Liu Chieh of the Chinese delegation admits that his last pace "doesn't leave any room for shadow-boxing."

As a devotee of tai chi, an an- cient form of calisthenics de- signed to keep the muscles toned, he is pronouncing the arrangement of foreign delegations a source of mystifica- tion to Americans and of frus- tration to the aliens concerned.

Some of the visitors heroically try to educate their hosts. Venezuela's Carlo Bosa-Rodrigo, former General Assembly president, has insisted that the program be a gentle hint that pro- gram as a Latin American usage on the middle and last name.

Mr. Bosa or Mr. Bosa-Rodrigo?

Thailand's Vejjajiva of the Thai- land delegation has simply asked the usage. "Mr. Nissal," the 14-year-old son of Suranand Vejjira, has inherited the problem and a related solution: the nursery school he's known for his playmates and teach- ing as "Poom."

delegates acclaim New York as unique among the world's cities in offering foods for any palate, however exotic. Referring to the main street of the local community's Yorkville, the Bagr Gerwin of West Ger- man delegation says:

"If you're street, we can get anything we need for our kitchen."

Yet Africans say that the stalls and bodegas of Span- ish Harlem are a suitable sub- stitute for the open-air markets of Cameroon. An African staple found in both, plantain, is plantain—the green banana also favor- ed by Latin-Americans as a cooking vegetable.

Asian, as well as Chinese, find familiar culinary items in Chinatown, but there are occasional gaps. Attache To the French of South Viet Nam's mission hasn't been able to locate any banh tran. Paper- sized and pizza-sized, banh tran is a rice-flour staff-of-life to Vietnamese. Housewives wrap it around chopped pork, mush- room shrimp or other fillings and deep-fry it into cha-go, a

Mental Health Group Sets Meet

WEDNESDAY, March 11—The Cas- cades Mental Health associ- ation will meet at 8 p.m. Friday at Zion Lutheran Fellowship.

Plans will be shown and re- ceived on the work of the association. Major item of discussion will be whether or not to affili- ate with the national Mental Health Council.

Mr. Brian Stompe will pre- sent information on the ad- vantages or disadvantages of moving and lead a discus- sion. Anyone interested in men- tal health is invited to attend.

Missing Gold Found on Ship

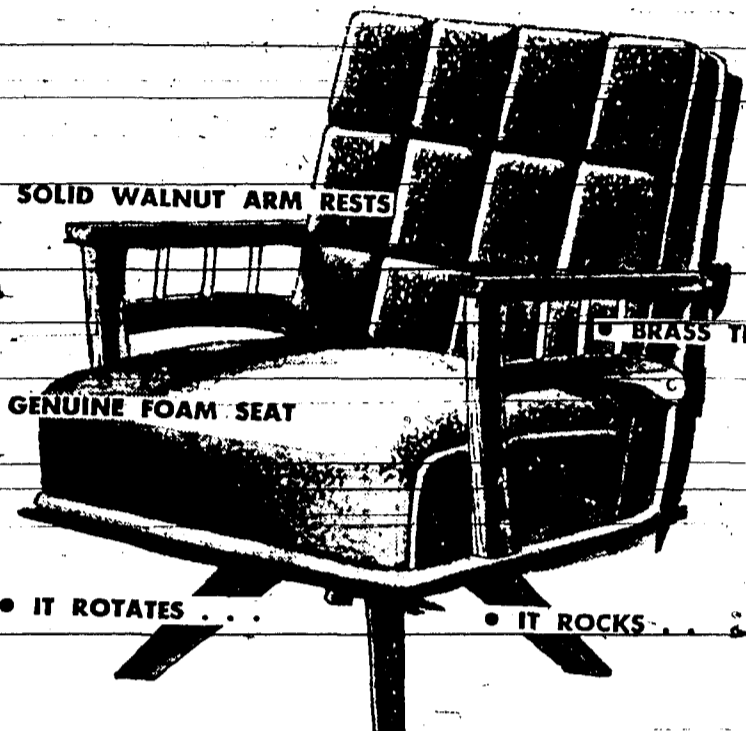

ALLIBRAN, South Africa, March 10—All 20 bars of gold bullion missing from the liner Capetown since for a month, have been found on board the ship here, it was reported today.

The last 14 missing bars were found late last night deep in the ship's engine room, near the forward hold, after the other six bars were found in a sandbox on the liner's main deck.

The discovery of the gold ship- ment, valued at \$280,000, ended a search that began when the bars were reported missing when the ship docked in Southampton, England, Feb. 5.

Mrs. Fred Beer Is Hostess for WSCS Circle

JEROME, March 11—Mrs. Fred Beer was hostess to Circle one of the Woman's Society of Christian Service at a recent meeting. Mrs. Guy Prunty, chairman, presided at the meeting.

Mrs. Fred Moskott gave the devotional services. Mrs. Guy Kennedy presented the program, a look at our future as Christian women.

Mrs. Sally Pyle is hostess for the March 18 meeting.

Circle two met with Mrs. Elizabeth Nelson, with Mrs. Edna McKinzie as co-hostess. Mrs. Willard McMillan presented the devotional services.

Mrs. Frank Beer presented the program, music for her subject, the Ewha Women's university, Seoul, Korea, an institution that the WSCS helps support.

Mrs. Virgil Lickley and Mrs. Fern Spencer were visitors. The March meeting will be held at the Methodist church, with Mrs. Walter Kyle and Mrs. Frank Beer as hostesses.

Circle three and Susannah Wesley circle members postponed their regular meeting so that members could attend the WSCS workshop in Twin Falls.

Circle three met with Mrs. Wade Handy. Mrs. Katherine Wallhall presented the devotional services.

Mrs. Orville Bean, Mrs. Wade Handy and Mrs. Virgil Lickley gave a glowing report on the workshop held in Twin Falls.

Mrs. Wallhall continued the program, reading from the Methodist Woman, "The Christian Citizen and the New Nation."

A food sale was held following the program.

Albert Lulloff Is Speaker for Homemakers

KIMBERLY, March 11—Albert Lulloff, Idaho Power representative, presented the film, "The Breath of Life," and demonstrated the method of giving mouth-to-mouth resuscitation, to the members of the KIM-SEN Homemakers club.

Members and guests met at the home of Mrs. Delbert Giamelli. The group was given a chance to practice the technique of the Idaho Power model, "Rescu-Anile." First aid booklets were distributed by Lulloff.

The group spent the morning studying the medical self help training course instructed by Mrs. Lloyd Shewmaker and Mrs. Jack Shropshire. The course will be completed at the next meeting at 1 p.m. Friday at the home of Mrs. Richard Brown. The program will include the topic, "Plan ahead," to be given by Mrs. Shropshire and Mrs. Shewmaker.

Ballot March Practice Held By T. F. Camp

A special practice on the ballot march was held at the Royal Neighbors of America, Twin Falls camp, meeting at the IOOF hall.

A special drill was suggested for the group's participating at the convention.

A letter was read from the dracle from Kellogg, informing the group that Mr. and Mrs. Lee Johnson have been hospitalized at Providence hospital. Wallace Mrs. Johnson is a member of the local camp.

Mrs. W. D. Stearns is in the Twin Falls Clinic hospital and Vickie Lee Atwood is a patient at the Magic Valley Memorial hospital.

A patriotic theme was used in the decorations and the table was centered with an arrangement of American beauty roses, flanked by red candles and small flags set in red cellophane. At each place setting was a miniature red hatchet with a foil blade.

Hostesses were Mrs. Grace Samples, Mrs. Ted Samples and Mrs. Gale Atwood. Plans were made for the birthday anniversary party set for March.

Club Officers Are Installed

Officers were installed at the Union Pacific Boosters club meeting at the home of Mrs. Morris Blackburn.

Officers are Mrs. Warren Brown, president; Mrs. A. L. Hargrave, vice president; and Mrs. Blackburn, secretary. Treasurer, Mrs. Brown, was presented to the officers and a special gift to Mrs. Brown.

Games were played with Mrs. Wally Holmstrom winning high prize and Mrs. Earl Boatright, low.

The thought for the day was given by Mrs. Hargrave. The March meeting will be held at the home of Mrs. A. L. Richardson.

Fidels Class Party Reported

Fidels class of the First Baptist church held its February meeting and party at the home of Mr. and Mrs. George Hartley with Mr. and Mrs. William Dye as co-hosts.

Mrs. Howard Dunward gave the prayer. Mrs. John Bishop presented the devotional service. Hartley presented appropriate thoughts for the day and presented the guest speaker, Dr. Kenneth Briggs. Dr. Briggs spoke on psychology and religion. Bernard Martyn gave the closing prayer. Refreshments were served. Guests were Dr. and Mrs. Briggs, Mr. and Mrs. Glen Briggs, Murtaugh, and Mrs. M. Brady.

DISPLAYING THE BIRTHDAY anniversary cake for the World War I barracks No. 509 and auxiliary Mrs. Roy Gaskill, auxiliary president, and A. E. Williams, post commander. The groups celebrated their ninth birthday anniversary with a potluck dinner at the Odd Fellows hall. Mrs. Florence McArty, fifth district president, Gooding, made her official visit. The charter was draped for Mrs. Marie Hall. Guests attended from Jerome and Gooding. (Times-News photo).

Panhellenic Group Meets

Panhellenic association held its March meeting at the Roger-son hotel Desert room, with Mrs. Charles Kelley and Mrs. Glen Trill as hostesses.

A St. Patrick's day theme was used in the decorations. Mrs. Ray Lincoln, president, conducted the business meeting and introduced guests. Mrs. Keith Jenkins, Mrs. Walter Pierce, Mrs. Gene Swin and Ann McKinney.

Bridge winners were Mrs. T. W. Burgess and Mrs. Dorothy Chappman. Hostesses for the April meeting are Mrs. A. Roberts and Mrs. J. Olmstead.

Mrs. Giltner Is New Member

FILED, March 11—Mrs. John Giltner became a new member of the Poplar Hill Social club at the home of Mrs. Gene Shuff.

Mrs. Ingor Ingle was a guest. Prizes were awarded Mrs. Roy Lancaster and Mrs. Guy Kimball.

Mrs. Lancaster is hostess for the March meeting, assisted by Mrs. Julius Jasper.

Kathryn Peck; Kastama Plan April Ceremony

Mr. and Mrs. Earl B. Peck announce the engagement of their daughter, Kathryn Odessa, to Marlin Kastama, son of Mr. and Mrs. Andrew Kastama, New York Mills, Minn.

Miss Peck attended Twin Falls high school and Northwestern university, where she was affiliated with Delta Zeta sorority. She was graduated from Sacramento State college, Sacramento, Calif., and is teaching home-making at Garfield junior high school, Berkeley.

Kastama attended school in New York Mills and is a graduate of the University of Minnesota law school and the University of California, Berkeley. He is a member of the California Bar association.

An April wedding is planned.

World Food Production Has Failed to Keep Pace With Population Increase

(Continued From Page 1)
 per cent more food in a decade.
 Dr. Binjy Ranjan Sen, director general of the U.N. food and agriculture organization, recently told the Royal Commonwealth society in London that overpopulation is the root of the problem. Yet a country would not be considered overpopulated if it used its resources properly.
 "With few exceptions there is not a country in the world which could not double and feed its population — if it had time," said Dr. Raymond Ewell, a food expert at the State University of New York in Buffalo.
 But time is the big problem. India, for example, is likely to

increase in population to 700 million in 15 years. She cannot possibly produce enough to feed 200 million extra mouths. Even the rich United States would have vast-troubled nourishing 200 million added people.
 Japan intensively cultivates the little land it has and gets enormous yields through efficient methods. India's land is inefficiently used.
 Yet Japan is concerned about zooming population. It has increased 22 million since the end of World War II. She has no room for the prospective 15 million more which will be there by 1980 unless a birth control campaign which has been instituted

in Japan applies a brake.
 No figures are available for what has been happening in Communist China. It has had some improvement in production but not enough, probably, to keep step with population growth. Elsewhere in the East, food production has lagged.
 Evidently Peking is concerned. It has called in Japanese family planning experts to examine the problem, an un-Marxist step. But China can see the light ahead only if her population-growth rate is a level which can be sustained by her resources.
 Chinese agriculture is hard pressed to keep step with population increases even now. In lean

years of natural disaster, there have been reports of famine. China has looked hungrily at other people's land, including even that of the Russians.
 In the U.S. S. R. and eastern Europe, adverse weather and communist bureaucracy have interfered with production. In Latin America, food production per person declines steadily as the population explodes at the world's highest rates. As population goes up, so does demand for food, adding a new threat—inflation.
 Death control compounds the problem. Experts warn that there will be steadily more older and working age people competing economically. Population increases thus can gobble up economic improvement and prevent progress against the overall problem.
 Economic development is a key to food problems, but death control interferes. Egypt, for example, when it completes the

Aswan dam project, hopes to have millions more acres to cultivate. But the rise in population could cancel out new production. Production has increased greatly in North America and developed areas. But even if the United States were to undertake feeding the whole hungry world—which theoretically it might be able to do—there would be enormous economic and social problems in the way.
 The U. S. department of agriculture predicts that food deficit regions will gain only slightly in the years immediately ahead and will be obliged to make up differences in imports. By 1970, the chances are that America will

have to provide at least half the deficit, mostly from her own enormous surplus.

St. John's Is Favored in National Invitational Tourney Opening Tonight

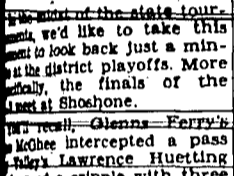

NEW YORK, March 11 (AP)—The 28th national invitation basketball tourney, which might be called Joe Lapchick's tournament this year, opens Thursday night in Madison Square garden with the spotlight on Lapchick's St. John's. The veteran coach, one of basketball's most respected figures, is completing his 31st season since he has reached St. John's mandatory retirement age of 65.

ALL ANGLES

By LARRY HOVEY

To honor a guy when you want to be honored, you want to be honored. I'm trying to get the new record for the longest time in a row. I'm trying to get the new record for the longest time in a row. I'm trying to get the new record for the longest time in a row.

St. John's Redmen have appeared in 18 previous NITs, a record for the oldest post-season basketball carnival. They have won three times under Lapchick's coaching, in 1943, 1944 and 1959, sharing the record with Bradley, which won its third title last year.

Boston college is coached by Bob Cousy, former Holy Cross and Boston Celtics star who used to seek Lapchick's advice during his playing days. Making their first NIT appearance, the Eagles are headed by John Austin, who has averaged 26.4 points a game and who scored 42 in a previous Garden appearance this season. Boston college has a 21-3 season record.

For scoring power, the St. John's team depends on the McIntyre brothers, 6-foot, 4 inch Ken and 6 foot, 8 inch Bob whose averages are 16.5 and 18.4 points per game, and Sonny Dove, 6-foot, 7 inch sophomore center.

Manhattan also has a brother combination, Henry Chlupas, a 6 foot, 9 inch center, and Bob, 6 foot, 6 inch reserve. But the Jaspers count the most on Larry Lembo, the college's all-time scoring leader. Texas Western plays a game built on defense and possession. The Miners, led by Orsten Aris of Gary, Ind., and Nevil Shted of New York, have averaged only 68.5 points over 26 games but have allowed only 58.1.

The Manhattan-Texas Western winner will face Villanova, topped in the 14-team field in Monday's quarter-finals and the St. John's-Boston college winner will play second-seeded New Mexico, last year's runner-up.

First-round pairings Saturday are Fordham vs. Western Kentucky and Army vs. St. Louis. The afternoon and Detroit vs. LaSalle and New York university vs. Bradley at night. Winners of those games will play their quarter-finals next Tuesday. Semi-finals are scheduled next Thursday night and the final Saturday afternoon, March 20.

The other major post-season tournament, the NCAA championship, resumes Friday night with 16 teams competing in regional playoffs at four locations. The four survivors of these two-night affairs will go into the national semi-finals and final at Portland, Ore., March 19-20. Dave Dixon and DePaul, two at-large selections, won the last places in the round of 16 Tuesday. Dayton beat Ohio university 6-5 and DePaul whipped Eastern Kentucky 99-52. They will play Michigan and Vanderbilt, respectively, in the Mid-East regionals at Lexington, Ky.

The other Friday pairings: East regional at College Park, Md. — North Carolina State vs. Princeton and St. Joseph's, Pa. vs. Providence. Midwest regional at Manhattan, Kans. — Oklahoma State vs. Houston and Southern Methodist vs. Wichita. Far West regional at Provo, Utah — San Francisco vs. Oklahoma City and UCLA vs. Brigham Young.

Sun Valley Prepares for Harriman Cup

SUN VALLEY, March 11—The Harriman Cup, the most famous ski race in the world, is considered by both Europeans and Americans to be one of the most challenging races in the world.

The start is at the Diamond Gate at the top of Baldy, about 9,000 feet. The skier goes down the ridge, that starts on a fairly easy slope, goes into a steeper pitch and then levels into a part popularly called "Pats," because it is under the lift and skiers can show off their technique to their friends.

At the end of this flat portion comes the Golden Gate where the whole valley becomes visible for the first time. The skier now faces the Rock Garden, an extremely steep section that leads away to the left and needs a great bit of control. A skier can reach its steepest pitch in 31 seconds. It is usually controlled by seven gates.

From the rock garden the skier takes a transition around the lift where the Round House is situated and then goes down the Round House slope, steep but not difficult, and comes out for the lift exhibition to face the exhibition drop in reaching the lift. Dick Buek in "Ski" magazine said, "The lift is not forget the hot-rod kid from California whom they first saw at the longest steep pitch in the United States, exhibition, it is the longest steep pitch in the country."

But there is no doubt of the thrill of making this run. Its steepest pitch is 33 degrees 18 minutes but it is never less than 20 degrees for a distance of almost 0.8 of a mile.

It is directly under the ski lift it is aptly named. At ski spectators sitting along the sides or at the bottom have an unobstructed view of practically the entire run and if they clock a skier coming over the lip and watch him until he goes through the slot at the bottom into River run, the story of the race has about been told.

There have been spectacular spills on this run both by racers and pleasure skiers. Several of the latter have fallen and not stopped until they reached the bottom.

In a race exhibition is controlled by not less than seven gates. Get high up and leaving a long schuss to the entrance into River schuss at the bottom. Recently one racer added a thrill when he fell at the last control gate and slid on his back, gathering momentum and going faster and faster to the bottom where with a superhuman effort he sprang back onto his feet and disappeared into river run waving his ski poles.

Most history making of all though was the run that Darrell Robinson, Utah skier, made in the Olympic tryouts in 1951. Robinson pushed off with such force at the starting gate that the button on his pants flew off and since he was not wearing a belt down came the pants. The skier managed to grab them and skied the entire course crouching to hold them up. As he went into river run with yards of red and white shirt tail flying in the breeze and the seat of his red long Johns showing, a mighty shout went up from the spectators. Darrell finished seventh and as one writer wrote, "This boy might have won the race if he had had all his buttons."

River run that finishes the 2.1 mile course with a vertical drop of 3,230 feet is a fairly easy run in, but it can be disastrous to a skier who relaxes since, as every skier knows, a fall on the flat can frequently be worse than one on a steeper slope.

REPEAT PERFORMANCE: Jimmy Heuga, Lake Tahoe, who won the Harriman cup in 1961 at the age of 17, just might repeat his victory this year in the 22nd running of the famous race, March 22-24. It would be a popular win, for Sun Valley has watched the progress of this young racer since he forsook the race when he wasn't much taller than his racing bib.

Large Field Enters NCAA Indoor Meet

DETROIT, March 11 (AP)—A large group of the nation's collegiate track stars will compete in the first NCAA indoor championship this week.

More than 360 athletes from 84 schools have entered the two-day meet which opens Friday on Cobo arena's brand-new \$30,000 board track.

Oregon State's Tracy Smith and Notre Dame's Bill Clark are expected to lead a field of the fastest distance runners in the country in the two-mile event. Five of the two-mile entries have cracked the nine-minute mark, while two others have bettered 9:02.

John Uelses, LaSalle, the world's first 16-foot pole vaulter, is the odds-on favorite to win that event. Washington's Phil Shinnick, who has gone 26 feet, will face stiff competition in the broad jump from Maryland's Mike Cole, Purdue's Jim Moore and Michigan State's Jim Garrett.

In the high jump, the field includes four men who have cleared seven feet—Frank Costello of Maryland, John Rambo of Long Beach State, Otis Burrell of Nevada and Richard Ross of Southern university.

The shot-put title is expected to go to Randy Matson, a 6-foot, 6-inch Texas A and M sophomore who weighs 255 pounds. He won a silver medal in the Tokyo Olympic with an effort of 66 feet, 3 1/2 inches.

A head-on duel in the mile is expected between Robin Lingie of Missouri and Chris Johnson of Southern California. Lingie has posted a 4:09.9 in his best run to date, and Johnson has one even better with a 4:06.8.

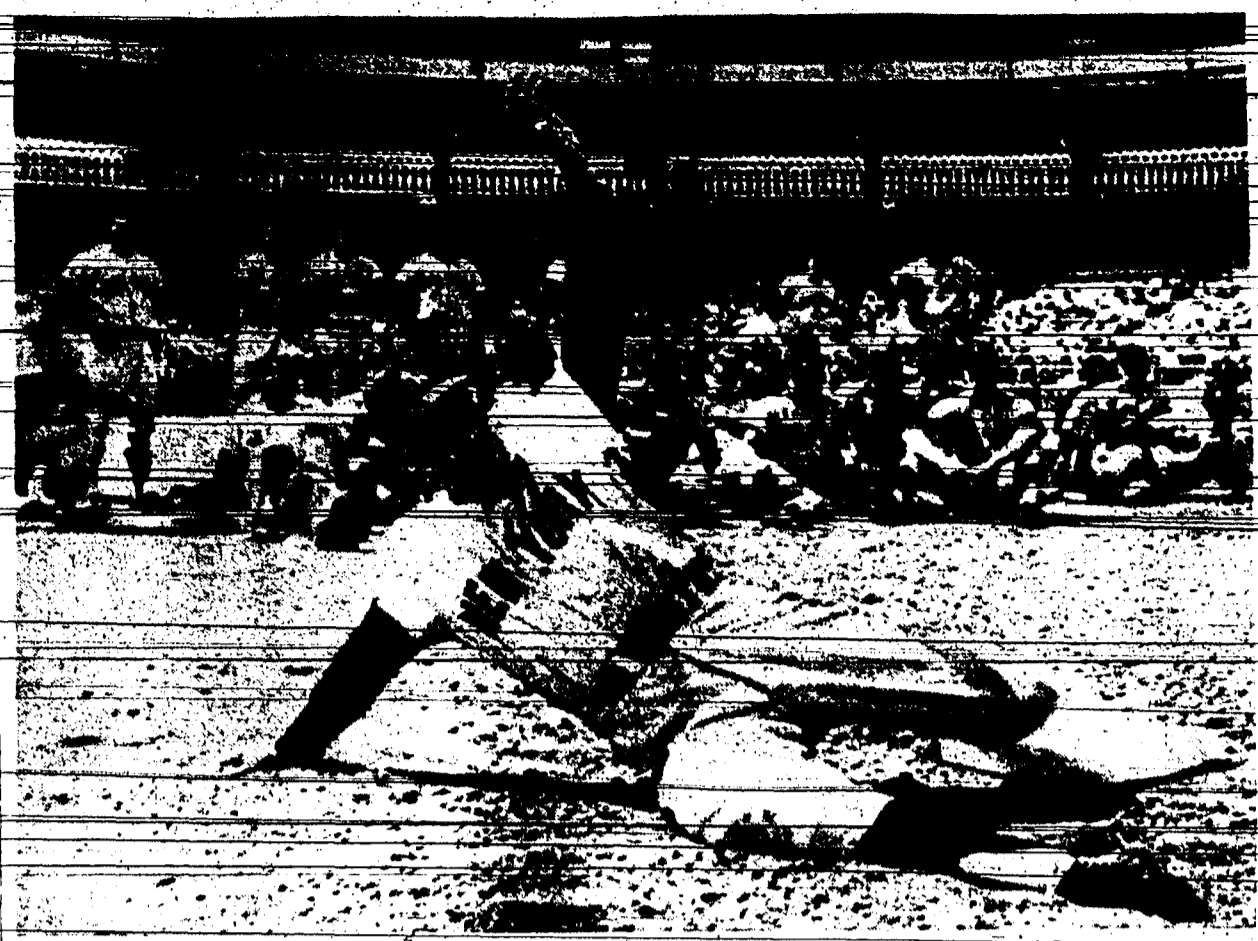

Drysdale Sees Little Hope for Dodgers

VERO BEACH, Fla., March 11 (AP)—Don Drysdale stood up, pulled the sweat-stained jersey over his head, looked about in the hot, stuffy confines of the narrow LAX Angeles Dodger clubhouse and talked of a disappointing season.

"It sure was a long, hot summer for me last year. I never pitched better in my life but I had one of my poorest records. The boys just couldn't get me any runs. I'm afraid it's not going to be much better this year," he said Wednesday.

The big right-hander's 18-16 record is not a true gauge of his 1964 performance. He not only posted the lowest earned run average of his career, 2.19, but pitched more shutouts, allowed fewer hits in more innings, and yielded fewer homers than a when he turned in a sparkling 25-9 record in 1962.

"It's tough to pitch for a club that scores as few runs as we did last year. Four of my losses were by scores of 1-0. Once I was beaten 2-0. Another time I didn't give up a run in 10 innings but we lost in the 11th. It got to the point where I

felt I had to pitch a shutout to win. Even then, I couldn't be sure. Every game was a struggle. This kind of tension wears a pitcher out. It can take two years out of your pitching life working for a club with so little power."

The words weren't spoken in bitterness or anger, but in seeming resignation. "The Dodgers didn't buoy up Drysdale's spirits by trading Frank Howard, their No. 1 power hitter, to the Washington Senators this year."

"I wish I could be optimistic," said Drysdale. "But the truth is in order for us to be a contender this year, we've got to play 90 to 98 per cent of our potential. The other clubs, in order to be contenders, need only to play 70 to 75 per cent of theirs. That's because they've got some homerun hitters. We don't have a single legitimate homerun hitter."

"It's too bad. With the pitching we have, the club could breeze in if it could average just four runs a game. Instead, we may have to gamble for every run hit and run, steal, try to take the extra base, force the other club into errors."

"Yes in order for us to be a contender, we've got to play at top speed every day for 162 games. I've spent teams up for a short series—like the Dodgers in the 1963 world series against the Yankees—but there is no way for a club to keep up over a full season."

Purdue Cage Coach Eddy Is Retiring

LAFAYETTE, Ind., March 11 (AP)—Ray Eddy resigned as basketball coach at Purdue university Wednesday, two days after closing out his 15th season.

The former ballplayer star will take an associate professorship in physical education which becomes vacant in June.

"I have been considering for several years a decision to end my coaching career," Eddy said in a written statement.

"Now with the opening of a teaching position which I can fill, I feel that this is the exact time to go into full-time teaching, an area with which I have already maintained active contact."

Fredrick L. Hovde, Purdue's president, said he was accepting Eddy's resignation "with great regret" and authorizing athletic director Guy Red Mackey to search for a new coach.

The university's statement said consideration will be given to Eddy's assistants, Joe Sexson, a former Purdue star, and Bob King, who played basketball and football at South Carolina, Toledo and Butler.

Carlos Ortiz Is Back in Training

NEW YORK, March 11 (AP)—Carlos Ortiz, world lightweight champion, was back in training today for his April 10 defense against Ismael Laguna of Panama.

The Panama City fight originally was scheduled for mid-February but was postponed when Ortiz, Puerto Rican-born New Yorker, was stricken with a stomach ailment.

Winter Kill Seldom Hits Prime Animals

BOISE, March 11—Nature's way of bringing a deer herd into balance with winter range forage conditions is to remove animals that are needed least for reproductive purposes so there will be enough food for prime does and vigorous bucks from two to seven years old, the Idaho fish and game department declared today.

The statement is backed by findings from about 200 post-mortems performed on the carcasses of deer that did not make it through the winter of 1963-64 because of deaths resulting from the effects of malnutrition.

Charles Haynes, Boise biologist, commented particularly on results obtained from an deer post-mortems, which were mostly male fawns and old bucks past their prime.

Fifty-five deer, or 61 per cent of the study animals, were fawns, he pointed out. "The young always are hardest hit when wintering conditions are bad because they must compete for scarce feed with bigger, stronger, older animals of the herd. Deep snow also handicaps fawns more than mature deer," Haynes pointed out.

"Nevertheless, about two-thirds of the fawns examined were bucks," he added. This shows that the female of the species has stronger survival capabilities under stress conditions—and this is Nature's way of guaranteeing a new crop in years to come."

Of 31 yearlings autopsied by Haynes, seven were bucks and four were does. This age group represented 11 per cent of the study deer.

Only six per cent of the autopsied deer were mature animals in their prime, ranging from two to seven years old. All six of these animals that had not survived wintering conditions were bucks.

Twenty-one per cent of the study group were eight years or older. Thirteen of these were bucks and six were does.

Red Wings Hike Hockey Lead

TORONTO, March 11 (AP)—Gardie Howe and Norm Ullman each slipped home two goals to pace the first place Detroit Red Wings to a 2-1 victory over the Toronto Maple Leafs Wednesday night in a National Hockey league game.

The victory gave the Red Wings a two-point lead in the standings over the second-place Chicago Black Hawks, who played a 1-1 tie with the New York Rangers.

Howe put the Wings out in front within the first two minutes of play. He scored at 1:50 on an assist by Alex Delvecchio. Ullman followed within two minutes with his first goal on assists by Howe and Delvecchio and the Leafs never caught up.

Jerome Red Cross Drive Is Under Way

JEROME, March 11 — Elton Capps, treasurer and fund drive chairman of the Jerome county Red Cross, reports the annual fund drive campaign is under way.

The chapter's goal for 1945 is \$2,885 and 46 cents out of each dollar collected remains in Jerome.

Leon Peider, administrator of St. Benedict's hospital, has been named Jerome county Red Cross chairman. He replaces C. J. Shupe who has served in this capacity for several years.

Other officers are Capps, treasurer and fund drive chairman; Mrs. Louella Scherer, secretary; Mrs. Jean Overfield, home nursing chairman; Mrs. Thelma Prescott, service to military families; Verle Sullivan, first aid chairman; Mrs. Doris Parker and Mrs. Mary Falconburg, bloodmobile chairman, and Mrs. Eugene Hite, publicity chairman.

School Chief Is Rehired At Hagerman

HAGERMAN, March 11—Supt. George Carnie has signed a two-year contract as superintendent of the Hagerman schools, it was reported at the trustees meeting Monday evening.

Superintendent Carnie has been granted a leave of absence for two periods from March 27 through May 22, and from Sept. 25 to Dec. 15, to obtain advanced education at Utah State university, Logan.

Carnie will return for school board meetings and handle long range planning while one H. W. Ferrin, Corvallis, Ore., will be hired to substitute for Carnie, and will be reimbursed by Carnie for his services.

Ferrin was an administrator at the Lake View, Ore., school for 15 years, and has retired. He completed a school term as superintendent-principal, last year at Harrisburg, Ore., for a superintendent that had resigned. The Ferrins will make their home at Hagerman during the substitute time.

Trustees voted to allow exercise bases to be erected in both boys and girls dressing rooms, and a climbing rope in the gymnasium, as a part of the physical education classes.

They voted to cooperate with Gooding, Jerome and Lincoln counties public health departments in paying \$25 toward the purchase of an audiometer to test hearing in every other grade each year.

Permission also was given to the junior high basketball team of 10 boys to attend the tournament at Dietrich Thursday through Saturday with Coach Al Glanders.

Driver training classes will start after school April 12, and some classes will be held on Saturday, enabling the course to be completed by the end of the school year. Roy Strawser will be instructor again.

Girls were given permission to participate in girls track. They will compete in shot put, 100 yard dash and the 440 relay. Glanders will coach this as well as boys track.

Louise Shaddock, Boise, secretary of the department of civics and development, will speak at graduation May 18.

The National Honor society fund raising event, a movie, "Pepe," will be shown at 7:30 p.m. Friday. The junior prom is set for March 19 and the all-school play will be presented April 2, with Mrs. Roy Strawser as director.

As the results of a meeting of about 30 taxpayers in the community, who reviewed the school plants and proposed remodeling needs, a meeting was set for the trustees Monday evening with the architectural firm of Watson and Leatham, Boise, to discuss and organize a building program.

Robert Vernon, Twin Falls, a representative of the Idaho Power company also will be asked to attend to discuss the possibility of electrical heating in the school unit.

Of the community members that met recently, the majority agreed that a new grade school is needed and they approved drawings of a proposed building which consists of a multi-purpose room and six classrooms.

They also agreed on supporting a new science department, but were opposed to any change in the music department.

House Okays Pep Pill Control Bill

WASHINGTON, March 11 (AP)—The house passed a 402-0 yesterday a bill aimed at bootleg traffic in pep pills and goof balls.

The bill is designed to tighten federal control over distribution of depressant and stimulant drugs. It would increase record-keeping and inspection requirements from manufacturers through sellers.

The measure, which was asked by President Johnson, now goes to the senate.

Before the final vote, the house broadened its prohibitions as to selling or giving a depressant or stimulating drug to anyone under 21. The age originally had been set at 18. The amendment was designed to include college age youngsters.

Evangelist Enters Hawaii Hospital

HONOLULU, March 11 (AP)—Evangelist Billy Graham entered St. Francis hospital here last night for treatment of an acute throat infection.

A spokesman said Graham has canceled all of his engagements for the next 10 days, including an appearance Saturday night before a convention of Presbyterian laymen in Chicago.

The spokesman said Graham, who has been staying at the Royal Hawaiian hotel, will be in the hospital for several days while tests are made to determine the nature of his ailment.

Graham has been spending his time at the Waikiki Beach hotel writing a book. He recently concluded a successful cruise here.

Snow Reported On Couch Summit

FAIRFIELD, March 11—Couch summit north of Fairfield snowed a snow depth of 8.4 inches on March 5. The water content was 24.8 inches.

The survey was made by Leo Seafen, Cassia county work unit conservationist, and R. E. Van Bradshaw, soil conservation technician, Halley.

This year's snow depth is above that of last year when the same course measured 13.6 inches of snow on March 1. The average for the past 15 years is 13.1 inches.

FRANTZ HONORED

WASHINGTON, March 11 (AP)—Harry W. Frantz, retired international affairs writer for United Press International, has been honored by the Brazilian government as "an outstanding practitioner of the art of fair and unbiased journalism."

NOTING SUCCESS of the recent YW-YMCA membership drive are the Rev. John Garrabrandt, most successful single campaigner; Bernard Schmidt, chairman of the membership

YW-YMCA Membership Drive Termed Successful

Final membership gain was tabulated and the leading workers in the recent YW-YMCA membership drive were announced at a dinner held Wednesday night at the YW-YMCA building for the nearly 100 workers who took part in the drive.

The campaign, called "Operation Snowball," started the first week in February. Bernard Schmidt, chairman of the drive, expressed his satisfaction with the results. Although the goals were not quite reached, it is felt that during the mop up and the contacting of old members to renew their memberships, they will be attained.

The goals in the campaign were to reach a total of 750 YWCA members and 800 YMCA members. The campaign brought 150 new members into the YWCA, making a total of 871 YWCA members. New members in the YMCA total 121, making a grand total of 418 members.

The top worker of the drive was the Rev. John Garrabrandt, associate pastor at the Twin Falls Methodist church.

The top team was headed by Elva Bowman. There were about six workers in each team.

YOUR BIRTHDAY HOROSCOPE

MONDAY, March 11—Born on this day, you are a person of many talents. Adventurous and artistic, you are also emotional. It would be quite impossible to say what you will be doing when you are 50 years old, but whatever you are doing, you will be doing it well; it is not in things either to do or to do that you will be quite satisfied with only one thing in life: you may have many faces in order to be successful.

TUESDAY, March 12—You who are peaceable by nature, you are not one to become involved in arguments of any kind. Only if there is a matter of principle at stake will you fight for your own beliefs, and your own beliefs, you would rather let another to come out on top than to allow yourself to be defeated.

WEDNESDAY, March 13—Mr. and Mrs. Earl Carlson, Burley, were speakers and showed slides during their recent trip to the Declo Kiwanis club anniversary dinner meeting last night at Conner's cafe. The Carlsons told of the beautiful and interesting things they had bought, and a fraction of the cost in the area.

THURSDAY, March 14—Richard Mouton, Burley, was inducted as a new member and assigned to the membership and development committee, headed by Fred Lambert.

FRIDAY, March 15—Bruce Turner led the pledge to the flag and Joseph Gillette gave the invocation.

HOME ON LEAVE

BRUSHY, March 11—Special Kelly arrived home from his leave. His parents, Mr. and Mrs. R. E. Kelley, have returned word that Mrs. Stephen Kelly and family have arrived in Germany to join her husband, who is stationed with the armed forces there for over two years.

to succeed at the price of quarrels, tension and dissension. Of kindly disposition, you would make an excellent mate. For the same reason, however, you might make an over-indulgent parent and will have to be careful, should you have children, that you do not sacrifice discipline to your own good nature. Remember that the parent who spoils his children, merely to keep the peace is really defeating his own purpose.

Among those born on this date are: John Chapman (Johnny Appleseed), American frontiersman; developer of American orchards; Donato Bramante, Italian architect, designer of St. Peter's.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Friday, March 12

PISCES (Feb. 20-March 20)—You may receive information today which, accurately judged, could lead you to exciting new gains.

ARIES (March 21-April 20)—The Aries who is able to fulfill at least one noble aspiration today should consider himself lucky.

TAURUS (April 21-May 21)—Justice should be your primary concern. Don't allow your feeling for fair play to be overruled by fears.

GEMINI (May 22-June 21)—A knowledge of both fundamental and nonessential facts will stand you in good stead today.

CANCER (June 22-July 23)—Don't allow yourself to become antagonistic either mentally or physically. A day for stimulating activities.

LEO (July 24-Aug. 23)—The Leo who champions the underdog today may find the underdog championing him in the future.

VIRGO (Aug. 24-Sept. 23)—Perform each phase of your duty with equal devotion. This is no day for picking and choosing.

LIBRA (Sept. 24-Oct. 23)—Exercise your moral fiber and you will also exercise the good will of those whose favorable opinion you seek.

SCORPIO (Oct. 24-Nov. 23)—Allow yourself to step into the mainstream of business activity and thinking. To work alone may be courted failure.

SAGITTARIUS (Nov. 23-Dec. 22)—Express yourself clearly and you may find yourself hailed as brilliant. Speak your piece!

CAPRICORN (Dec. 23-Jan. 20)—Originality should lead to increased independence. Make sure, however, that such independence is what you really want.

AQUARIUS (Jan. 21-Feb. 19)—Work for the building of some common good. Share your know-how to win good will.

More Funds

WASHINGTON, March 11 (UPI)—Idaho received additional flood relief funds totaling \$500,000 from a \$15,500,000 appropriation designated also for California, Oregon and Washington.

The federal allocation was made to meet the needs of repairing highways and other county facilities from last December's deluge.

Buhl PTA to Sell Food at Music Clinic

BUHL, March 11 — Volunteers to assist with the food booth during the junior high school fourth district music clinic to be held in Buhl March 20 were solicited during the Buhl PTA monthly meeting and founder's day observance held Monday evening in the elementary school.

The food booth will serve as a fund raising project with proceeds to go into the band uniform fund. Those interested in assisting are urged to contact Mrs. Stanley Kern.

Earl Haroldson, Twin Falls, PTA legislative committee member, spoke on founder's day and the responsibilities of the home and school toward children. He also urged members to write to the legislators and encourage them in their efforts for better education in Idaho.

The A-Wa-Ki-Ya Camp Fire Girls, sponsored by the Buhl Rotary club, under the direction of their leader, Mrs. Albert Garbard, presented the flag ceremony and members gave a patriotic talk on flag etiquette.

Participants were Diane Fingerson, Pam Gabard, Sue Lepray, Lynn Giles, Becky Gilne, Holly Erb, Jeanne Patton, Kathy Alexander and Darice Komadoski. Lynn Giles gave the opening prayer.

Richard Snow led group singing of Irish songs with Mrs. C. O. Linecum as accompanist. The program also featured vocal selections by "The Legends," the Buhl high school hootenanny group, composed of Lynn Thomson, Joe Marten, Mike Pierce, Randy Baxter, Riel Johnston, Mike Anderson, Marie EBB, Jan Rowen, Cheryl Machacek, and Peggy Kearsley.

Mrs. Newell Johnson, PTA president, conducted the meeting.

IMPORTS DROP

WASHINGTON, March 11 (UPI)—The Gulf and East coast dock strike caused a 27 per cent drop in January imports, the commerce department said today. Total imports were valued at 1.2 billion dollars for the month, compared with 1.6 billion dollars in December, 1964.

Walker's Resignation Was Timing Surprise

BOISE, March 11 (UPI)—Probably the biggest surprise in the departure of Don I. Walker as state budget director was the timing of his resignation.

Even rank and file statehouse employees had been predicting for months that Walker and Gov. Robert E. Smylie soon would split the blanket. The only question was when. Most observers figured it would come after the legislature had gone home.

It has been an open secret the two men did not exactly share identical views about the fiscal conduct of the state government or, for that matter, the direction the general fund might take.

Now 64, and a man used to executive responsibilities for many years, Walker was and is a person with outspoken opinions. For newsmen with time on their hands he was a veritable fountain of news, both quotable and unquotable, on activity in the capitol.

He was one of the first officials, two years ago, for instance, to admit the general fund might be in trouble and that drastic measures would be needed to balance the 1961-63 budget.

And, it was he who first let the cat out of the bag that Smylie had ordered a cutback on general fund spending this biennium because advisers predicted revenue would not meet expectations.

Late last fall, it was Walker again who spoke out—at a Boise meeting of the Associated Taxpayers about the general fund, predicting taxes would fall short of balancing the budget by 3.5 million dollars. He added his belief this would happen in spite of Smylie's 4.8 per cent cutback in expenditures.

That was a speech in which Walker, as director of budget and director of administration for the governor, outlined a 14-point action program of his own to improve efficiency in state government.

It also was a speech in which he rapped politicians in both the executive and legislative branches of Idaho government for what he termed "petty, bush-league politics."

These statements, of course, brought him into public disagreement with the governor—the officials who hires and fires budget directors and whose policies the budget directors supposedly carry out.

Smylie, a short time later, advised the legislature that figures had been updated and that the general fund appeared less than one million dollars off target and probably would wind up in the black.

But by the time Smylie spoke to the legislature the die had been cast. A budget, an executive budget had been prepared. Walker was not consulted. As E. Walsh, a major general who retired Jan. 1 as Idaho adjutant general, quietly moved upon the scene. He conferred frequently with Smylie and though ostensibly retired, became more and more a part of the passing parade in the legislative halls and executive chambers.

At this writing there is no official announcement—but a lot of bets are being made that Walsh will be the new budget director. In fact, some say, that's been the plan for some time.

GRADUATION DAY FOR THE SOCIAL SERVICE MAJORS AT SARAH LAWRENCE COLLEGE

GO FORTH AND BRING COMFORT AND JOY TO THE UNFORTUNATE!!

I CAN'T WAIT TO REHABILITATE SOME POOR DESERVING BUM!!

ME, TOO!!

SOCIAL WORKER ASSIGNMENTS

SORRY!! I JUST ISSUED THE LAST BUM IN AMERICA TO PAMELAS

Captain Easy

MY FRIENDS ARE TAKEN THAT OLD GUY TO SAN FRANCISCO. WHERE COULD HE GO TO VISIT HIS WIFE?

HAZIE MAY HAVE TIPPED 'EM OFF BY EXPOSING HIS REAL IDENTITY! IF SO, HE'LL TRY TO SHAVE HIS!

YOU LIVE NEAR HERE, AND KNOW THE REGION. IF WE'RE DELAYED LONG, COULD HE GET AWAY IN THE SNOW?

PROBABLY... IF HE KNOWS THE AREA LIKE I DO, HE COULD GET AWAY IN THE SNOW.

NO PARTIALS MAY BE OPEN

AT DAWN, SNOW-PLAWS ARE STILL IN THE TRAIN AND MAKING LITTLE HEADWAY

Rex Morgan, M.D.

HAS MISS DONATELL BEEN HERE TO VISIT ROGER MARSTON?

YES, DR. HARDY. SHE WAS HERE ABOUT TEN MINUTES AGO!

THIS IS DR. HARDY! I WAS EXPECTING SOMEONE TO CALL ME. HAVE I NOT HAD A CALL?

NO, DOCTOR!

ARE YOU SURE MISS DONATELL LEFT THE FLOOR?

I'M CERTAIN SHE DID, BUT YOU MIGHT CHECK MR. MARSTON'S ROOM.

Gasoline Alley

Yes, Aveny, the gate is over! We're closing up!

I bought something earlier! Just wanted to see how you did, Skeezix!

Haven't counted the take yet, but I think we did pretty well!

What are you going to do with all the leftover stuff?

Have to have it hauled away, I guess!

Might be a few things I can take off your hands! Save you a little on cartage!

Rip Kirby

I HAVE BEEN TOO LONG IN THIS PLACE AND NOW I SEE MIRAGES AT NIGHT.

OH, I'M VERY REAL!

BUT I MAY HAVE LOST MY WAY. MAY MY BURKO AND I FIND SHELTER HERE?

ASK FOR WHATEVER YOU WANT, MY PRETTY ONE, AND IT IS YOURS!

Short Bits

IF YOU DON'T STOP GOSSIPING ABOUT ME, I'LL CAST A SPELL AND TURN YOU INTO SOMETHING UGLY, ROTTEN, AND HORRIBLE.

HEE-HEE STOP AND THINK, DEARIE.

SHE CAN'T THREATEN ME...

I'M ALREADY SOMETHING UGLY, ROTTEN AND HORRIBLE!

Alley Oop

DOC! OSCAR! MY GOSH, WHAT YOU FELLAS DOIN' HERE? WHO'S MINDIN' TH' STORE?

PEEFT!

Steve Roper

IS GRIPPING THE PUBLIC ALL THEY TEACH YOU AT THE UNITED SERVICE ACADEMY, DOLLY?

GOSH NO, MIKE... WE LEARN TO BE GOOD WAITRESSES, TOO!

WHEN YOU GRADUATE MR FIGG GETS YOU A JOB RIGHT AWAY IN A NIGHT CLUB THAT'S... WELL... A CLIP, JOINT, SORT OF!

THEY PAY REAL SWELL IF YOU CAN SHORT CHANGE AND "LIKE ADD IN THE DATE" ON A CUSTOMER'S CHECK!

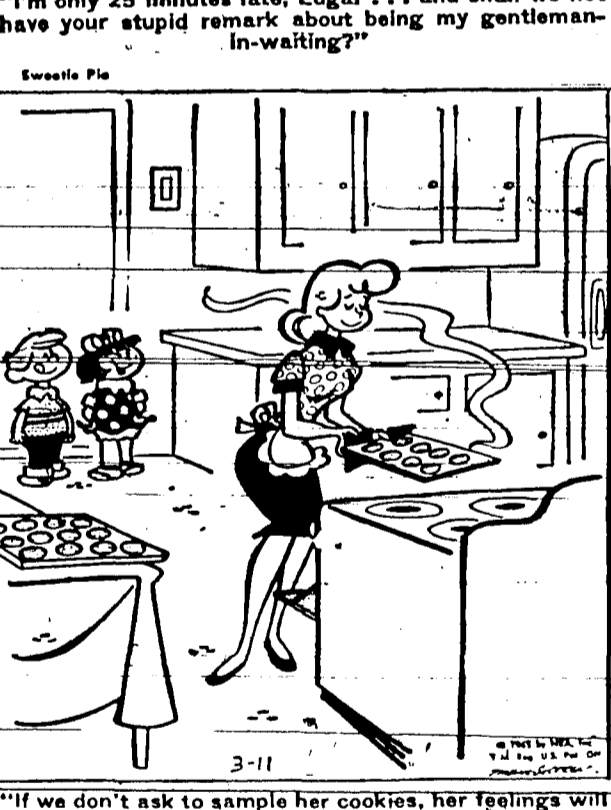

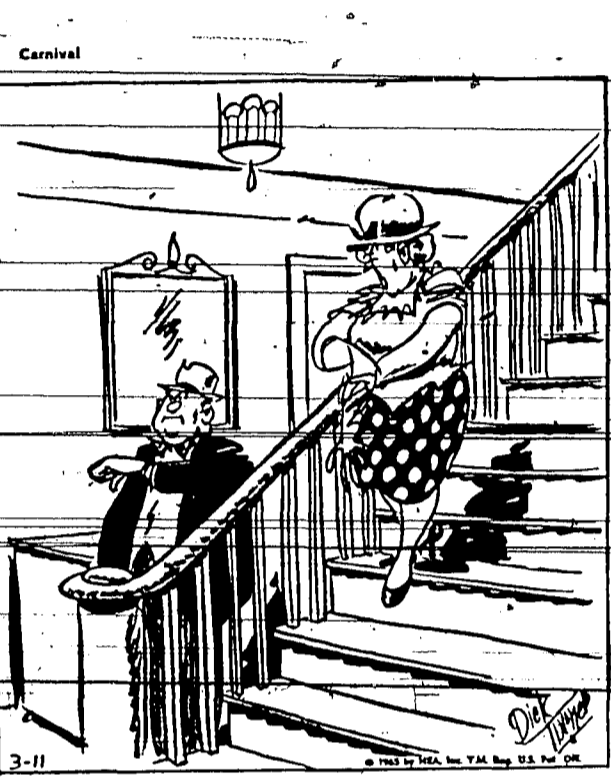

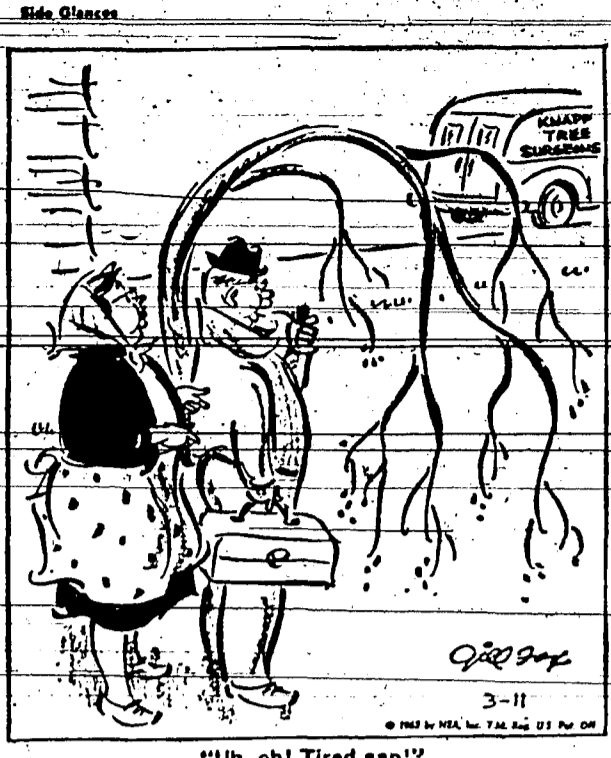

SWEETHEART!... IT'S NOT REALLY DISHONEST! MR FIGG SAYS THOSE KIND OF SPENDERS ARE CHEATING TOO... ON THEIR EXPENSE ACCOUNTS!
