

T. F. Church Announces New Officers
Officers for the coming year are announced by the First Church of the Nazarene.
They are Mrs. Ruth Vavod, missionary president; Don Ed-
mundson, Sunday school superin-
tendent; Rudy Loder, young
people's president; and Dewitt
Harold Jensen, Duane
Doyle Mason and Neil
Miller, trustees.
The church school board con-
sists of Mrs. Angeline Krueger,
Mrs. Doris Wyrer, Mrs. Rae White,
Mrs. Don Moritz, the board of
trustees include Mrs. Leona
Anderson, Mrs. Ruby Helvey,
Mrs. Jennie Fiers, Beatrice,
Mrs. Anna Slevers, Mrs. Grout,
Mrs. Hendrix, Dr. T. J. Wilkes,
Norman Garlington, Hubert Hen-
drix and Wayne DeBoard.
Delegates to the district as-
sembly which convenes May 11 at
the Boise First church are Virva
Gardner, Leona Anderson, Dor-
othy Olson, Donna Garlington,
and Beatrice Grout.

Rupert Eyes New Voltage Regulators
RUPERT, April 23—New volt-
age regulators and the improved
traffic conditions at Eighth and
Scott intersection were studied by
the members of the Rupert
city council during a meeting
Wednesday evening.
The council voted to install a
voltage regulator at the city sub-
station as a means of curbing
fluctuation in voltage on the city
electric lines. Complaints have
been received recently by resi-
dents because of the voltage
fluctuation and several plans
have been discussed by the council
for improvement.
Cost of installing the regula-
tor is estimated at about \$28,000.
City electricians will assist
with the installation to save ex-
pense.
Approval of the Bonneville
power administration must be
obtained before the regulator is in-
stalled. Construction probably
will get under way sometime this
fall.

Robert Hamilton of Hamilton
Voeller, engineers for the
city of Rupert, was present to
discuss sewage problems.
An ordinance was presented to
the council by the city parks
committee by Grant Catmull,
chairman, similar to one being
in Caldwell pertaining to
trees, tree planting and city
planting areas. The council re-
quested time to study the matter
further.

Plans were presented to the
council for street changes in
the Eighth street-Scott avenue
intersection to improve traffic at
the area. The city council will
study the matter further, and
actions of residents are request-
ed.

Bids will be let May 18 for
painting and painting of the city
water tank. The council also de-
cided to get an estimate for light-
ing at Memorial park. This is a
project of the Rupert Lions club.
Howard Lelsen, public works
superintendent, reported on re-
cent improvements in the B-
by addition in the southeastern
part of town.
The council also approved
building permits to Darrell Miller
for construction of a garage at
1500 Alford, garage, \$500.
Wesley Calton applied for permis-
sion to add to his home at \$1,350.
Charles Pleck, a bathroom, \$1,600;
and Charles Cresson a carport at
1500.

Special Program Scheduled by Wendell PTA
WENDELL, April 23—A special
program is being planned for
the final PTA meeting of
the year to be held at 8 p.m.
Wednesday at the grade school
auditorium.
Other features on the agenda
will be the installation of the
1965-66 officers and final reports
of all the committees.
The hospitality prize will be
awarded to the one sitting in the
hot chair. Refreshments will
be prepared and served by the
grade mothers.

Sunday Shoot Is Planned by Club
BOODING, April 23 — The
Booding Trap club will hold a
shoot starting at 2 p.m. Sunday
at the club east of the city. A
dinner will follow and
reservations are welcome to attend.
Results of shooting from the
contest in the doubles were
Blamires first, and Lonn
Messman, Twin Falls, second. In
the handicap Harvey Bickett, 18,
and Blamires, Gene Kelly,
Gene Shaff, Twin Falls, tied
for second.
In the singles, Messman was
first and Shaff second. In the
triples, Lucille Bickett was
first, Elizabeth Ross, Twin Falls,
second, and Gene Shaff, Pocatello, tied
for second.
Bids for 25 were shot by
Blamires, Bickett, Blamires, Don
Blamires and James Byce.

PREPARING THEIR KITE for the annual Y-Indian Guides' kite-flying contest are John Sexton, left, and Kit Sexton, better known as Big Smokey and Little Smokey in the Indian Guides. The kite-flying contest will be held Sunday at the property of Dr. Harold Wiedemann, located near Pillar falls. (Times-News photo)

Y-Indian Guides Planning Kite Flying Contest Here
The annual Y-Indian Guides' kite flying contest is scheduled for 2 p.m. Sunday at the property of Dr. Harold Wiedemann, tribal "chief."
The organization is sponsored by the YMCA and is for boys 6 to 8 years old and their fathers. Doctor Wiedemann's property is located near the canyon overlooking Pillar falls.
Classification of kites will be for the most Indian-like, most unusual, box kite and largest kite. There also will be a special kite contest and an award given for the kite with "the most effort and the least results."
Judges for the event, which is the second annual contest held by Twin Falls, will be former Y-Indian Guide "braves" Neil Olmstead, Oscar Kash and Ray Burns.

Wiedemann Seated
DIETRICH, April 23 — New members installed at the regular Dietrich Grange meeting were Evan Izatt and Mrs. Lela Shinn with Sid Edwards as installing officer.
Shirl Shinn was transferred from Pleasant Plains Grange, Jerome. Mrs. Joy McClure talked on farm safety.

CAT REAPPEARS
GRANTON, Scotland, April 23 (UPI)—A pet Siamese cat which disappeared from Henley-in-Arden, England, has turned up at its old home here — 300 miles away.

A SIMPLE REQUEST...

DON'T DO ANYTHING!

BETTER SCHOOLS FOR YOUR CHILDREN
DEPEND UPON SALES TAX REVENUES

If any tax can be considered an investment for future return, the recently enacted sales tax can. What we do for our kids in the way of education DOES COME BACK TO US — and what we fail to do comes back to us, too.

A goodly portion of sales tax revenues is earmarked for education. This is because responsible people in many fields — legislators, businessmen, educators, farmers, yes, and parents and voters recognized this need.

The sales tax provides a means of investing a little at a time as you spend. And remember, tourists traveling through the state pay their share, too.

So, DON'T DO ANYTHING! Just allow the recently enacted sales tax to accomplish what the majority planned for it.

This advertisement is sponsored by the FORWARD IDAHO COMMITTEE, with R. E. PASLEY as CHAIRMAN, located at BOX 815, BOISE.

DON'T SIGN ANTI SALES TAX PETITIONS!

Idahoans wishing to contribute to work of the committee may send checks to the above address.

Businessman Reports on Water System
The Twin Falls water system, its history and problems, was reviewed by William Powell at the Thursday luncheon meeting of the Kiwanis club in the American Legion hall.
Powell, one of the city's largest water users, expressed concern for the problems of the system and said the city is old enough that it should do something to have the good water that is so close.

J. L. Derrick, city manager, Paul Newton, city engineer, and Eggon Kroth, chairman, city commissioner, were present at the meeting to answer questions. Arthur Anderson, chairman of the TWIN committee, acted as program chairman.
Pictures, taken by the fish and game department of the Rock creek and Snake river water pollution, were shown.

School Reports Wendell Junior High Honor Roll
WENDELL, April 23—Wendell Junior high school students listed on the honor roll for the eighth grade include Tom Vaughn, Mary Lou Hagerman, Marcia Harley, Neil Hensler, Susan Parke, Leah Giesler, Charles Gunning, Janice Jones, Tom Lehman, Clio Callen, Bill Kenley, Roger King, Sally Maltz, Tim Mink, Keith Stevenson, Linda Strong and Mary Trounson.
Seventh grade honor students are Maureen Francis, Sandra Peterson, Cherie Hobbey, Bill Eaton, Louise Gunning, Janice Huff, Christine Blackburn, Linda Harris, Sue Ellen Stockham, Chive Strong, Carolyn Trounson and Mike Ybarguen.

Mrs. Radloff Is Honored at Rites
BURLEY, April 23—Funeral services for Mrs. Mabelle Radloff were conducted Wednesday in the McCulloch funeral home chapel by the Rev. Frank Blish.
Mrs. Dale Stoller sang two selections, accompanied by Mrs. Mack Crouch.

Pallbearers at Burley were C. C. Baker, Lon Clayton, Mack Crouch, Harry Radloff, James Roper and Jess Parsons. Pallbearers at Pocatello were William Skinner, Jack Henderson, Hank Duncan, Ivan Frazier, Lued Bolak and Sam Otto.
Flowers were under the direction of Mrs. Sarah Harrison, Mrs. Lenn Eklund, Mrs. Harvey Stokes and Mrs. Jess Parsons.
Eastern Star rites were conducted at the McCulloch funeral home chapel. Final rites were held at Mt. Moriah cemetery, Pocatello.

The categories affected will be teachers' salaries, instructional materials, building repairs, maintenance and capital outlay.

Judge
LOS ANGELES, April 23 (UPI)—A rabbit was scheduled today to judge a turtle race on the campus of California State college at Los Angeles.
The rabbit—a girl from a key club—will act as a judge for the fourth-annual inter-collegiate turtle race, sponsored by the Cal State chapter of Alpha Phi Omega service fraternity.

Horse Killed in Oakley Accident
OAKLEY, April 23—Ennis Matthews, Oakley, was dismissed Thursday from Cassia Memorial Hospital, Burley, after the truck he was driving struck and killed a horse about 10:30 p.m. Wednesday two and one-quarter miles north of here on highway 27.
Matthews' 1946 Ford pickup truck was demolished when the animal, a pinto mare belonging to James Nelson, Oakley, was thrown up over the top of the vehicle.
Matthews was taken to the Burley hospital by members of his family, according to Golden Harper, Oakley village marshal, who investigated.

High School Day Set for College
MAGIC VALLEY CHRISTIAN COLLEGE, Albion, April 23—Second high school week-end is planned at Magic Valley Christian college May 1 and 2. H. R. Petrich, publicity director, reported today.
Howard Horton, professor of Bible at Pepperdine college, Los Angeles, will address. All high school visitors at a luncheon meeting in the college cafeteria at noon May 1. Professor Horton will hold a gospel meeting for the Burley Church of Christ prior to speaking on the campus.
The last high school week-end brought about 40 visitors to the campus to see a film, participate in sports and watch the faculty and staff of MVCC trounce the Rupert Church of Christ team in a basketball game.
Gayle Oler, superintendent of

Do FALSE TEETH Rock, Slide or Slip?
FALSETEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gumming, gooey, pasty taste or feeling. FALSETEETH is a salt and fluoride (not acid). Does not sour cheeks, plate odor breath. Get FALSETEETH at drug counters everywhere.

Student Aides Speak for Rupert Meet

RUPERT, April 23—Minloo high school students presented their last program for the school year to Rupert Chamber of Commerce members at a meeting Thursday at Hirling cafe.

Monte Thompson, student body president, introduced new officers.

Dennis Rupard is student body president, and Robert Workman and Robert Jones, vice presidents. Each reported on his plans for the coming year.

Thompson reported all elections held at the school this year required a two-thirds vote and in some instances a run-off to break ties. He said this student body officers felt this to be the democratic way of electing officers.

Student officers pointed out the school sometimes feels like an "orphan" because of lack of interest shown by the community. They urged more cooperation and planning with local organizations and business people.

Thompson invited chamber members to participate in activities to be held May 23 and graduation scheduled for May 24 at the high school.

President Merwin Ling announced the Idaho Youth ranch located northeast of Rupert, will hold open house June 20, and plans are under way by the Chamber Youth committee to assist in this event.

Ling announced an agricultural meeting will be held Tuesday at the Chamber offices with representatives of the FFA and 4-H groups.

Dale Garner, state representative from Mindkoda county, reported on activities of the recent legislative session. He pointed out instructions would be forthcoming concerning the new sales tax.

Garner said he opposed a referendum on the sales tax and pointed out the voters had sent the legislators to Boise to assume the responsibility of determining needs for the state. Most local people do not have information available to help them in their decisions, he said.

He said 85 per cent of the state's budget is for welfare, health and education, and since the largest majority of people derived benefits from these programs "we should be willing to pay the premium on this benefit."

Daylight Saving Time Effective In U. S. Sunday

By The Associated Press

More than half the American people will have to turn their clocks ahead one hour Sunday to conform with daylight saving time.

The change goes into effect at 2 a.m. (local time) Sunday.

In 16 states, the change will be statewide. In others, one or more areas of the state will go on DST, while other areas stay on standard time.

Some states remaining on standard time next week will shift to daylight time later in the spring.

Trout Given to Nevada Reservoir

BUEHL, April 23—A gift of 7,000 pounds of reared rainbow trout has been presented to the Nevada fish and game commission from Rangen's, Inc., Buhl, to help restock Wildhorse reservoir after the treatment project last fall.

The reservoir is situated on Gold creek in the northern part of Nevada near the Idaho border.

With this contribution and other allotments, the reservoir will boast 20,000 pounds or 10 tons of reared trout, bringing the stocking for 1965 to an all-time high, according to the commission.

Rangen's, a manufacturer of dry pellet type fish food, also operates a fish factory in Hagerman which is a research hatchery where various groups of fish are fed special diets with the information derived used in formulating improved fish foods.

News Around Idaho

POCATELLO, April 23—Ray F. Brookhart, 71, worshipful grand master of Masons of Idaho in 1952, died yesterday after a short illness. Mr. Brookhart retired in 1952 as chief clerk for the maintenance of way department here for the Union Pacific railroad. He was active in lodge and civic work, and lived here 70 years.

BOISE, April 23—Morrison-Knudsen company reported yesterday the granting to one of its wholly owned subsidiaries of a \$15,660,000 contract for railroad construction in Australia. J. B. Ewing, MKC president, said the contract was to Hammerley Iron Pty., Ltd., Melbourne. The work involves construction of 180 miles of railroad to serve an iron mine in western Australia.

IDAHO FALLS, April 23—The Bannock county representatives of the anti-sales tax committee reports about 5,000 persons have signed referendum petitions in eastern Idaho counties. Thurman Peterson, Idaho Falls, said nearly 4,400 signatures have been obtained in Bonneville county. The signatures are in addition to the 2,073 already on file in the office of secretary of state Arnold Williams. Opponents of the levy are attempting to obtain 25,545 signatures on petitions to get the sales tax question on the 1966 general election ballot. If they are successful, the voters will decide whether to nullify the sales tax law enacted by the 1965 legislature, or keep it.

CALDWELL, April 23—The pilot of a single-engine plane escaped injury yesterday when his craft went into a stall and crashed into a field west of Caldwell. Liam Mulcahy told authorities he was flying at a low altitude over a landing strip when the plane lost power and went into a stall. He said the right wing struck the ground first and that the plane skidded about 200 yards before coming to a stop. Mulcahy, who is employed at the Frank flying field near Caldwell, said he believes a mechanical failure caused the plane to stall.

McCALL, April 23—Excellent skiing conditions were reported yesterday in prospect for the week-end at Brundage mountain near McCall. Lifts are operated only on Saturdays and Sundays and officials said snow conditions probably will continue favorable until the middle of May. Snow depth was listed as 71 to 162 inches, with no new snow this week. The surface was corn snow, freezing at night and softening during the daytime. The road was reported bumpy and dry.

ARCO, April 23—The first annual training session of the Idaho Magistrates association will take place April 28 in Arco. The session will deal entirely with criminal procedures and allow the audience to question all acts and procedures from the beginning of a case through its completion. The session is the first of six to be sponsored by the Idaho Magistrates, which replaces the annual law enforcement conference, which has been held annually in Arco the past six years.

BOISE, April 23—The state fish and game department says it may issue a second bid call for bids on a project involving construction of a powerhouse fishway at the Lewiston power dam. Bidding on the project had been scheduled for yesterday but only one offer was received at the office of public works commissioner Arthur Warren. Warren said the fish and game department asked that terms of the bid not be disclosed until it decided whether to issue a second bid call. Warren said several contractors had expressed an interest in the project but complained that water at the site was too high for a proper inspection.

Outlaw Day Plans Listed At Richfield

RICHFIELD, April 23—Outlaw day committees and chairmen for the Outlaw Riding club were announced today.

Parade for Outlaw day, June 17, was set for 11 a.m.—Udell Robinson, James M. Brown and Sidney Edwards, Jr., were named parade chairmen.

Bruce Sorenson, Wendell Johnson and Dale Whitesell are racing and arena directors. Clifford Ward is queen chairman; Sidney Edwards, advertising, and Mrs. Bruce Sorenson and Mrs. Udell Robinson, food booth.

Riding club appointments are Sidney Edwards, arena director; Mrs. James M. Brown, courtney; Mrs. Sorenson, Mrs. Robinson, timers.

A work meeting at the arena is scheduled.

Jamboree the Richfield Riding club will attend include: the May 22 one at Piler; May 29, Jerome; June 5, Valley; July 10, Carey; July 31, HARRY; Aug. 7, Shoshone; Aug. 21, Richfield; and Aug. 28, Twin Falls.

HOSPITALIZED, DIETRICH, April 23—Mrs. Jeanetta Knowles is in a Boise hospital where she will spend a few days receiving medical attention.

Surprise

READING, England, April 23—An unidentified small boy traveled 12 miles by bus with what he thought was a grass snake in his sleeve.

He took the creature to Reading museum where officials told him it was an adder—Britain's only poisonous snake.

SWAFFHA, England, April 23—Mrs. Mary Williams has turned down the prize of a Mediterranean cruise this year which she won for writing an advertising slogan—because it would clash with a trip to Majorca which she won for writing a slogan in another competition.

Alfred Packham Honored at Rites

RUPERT, April 23—Funeral services for Alfred W. Packham were conducted Wednesday at the Aeoquia LDS chapel by Bishop Ray G. Smith.

Lawrence Packham offered the family prayer and Mrs. Van Sorenson played prelude and postlude music.

Mel Stevenson gave the invocation and Bishop Smith gave the life sketch.

A women's chorus from the Aeoquia second ward as well as a men's chorus each sang one number. Raymond May presented a violin solo.

Speakers were Pat J. Bennett and Garth G. Eames. Charles O. Davis gave the benediction.

Floral arrangements were Lawrence Jay Packham, Dean W. Davis, Bud L. Stevenson, Alfred J. Packham, Donald W. Weaver and Robert D. Weaver.

Floral arrangements were under the direction of the Aeoquia second ward Relief society.

John A. Stevenson gave the dedicatory prayer at the Rupert cemetery where final rites were held.

Along Fences and Canals

William and Matthew Cloughton, Halley, trucked a band of sheep to the desert this week. John Brown trucked two bands. They were unloaded from the trucks between Carey and Richfield and walked some 15 miles into the lavas.

Caring on the Deer Creek ranch near Halley is well under way. Tom Fetter, ranch foreman, says they have 225 black Angus cows alive.

Mrs. William Burt, co-owner of the Deer Creek ranch, Halley, spent the winter at their new home on the ranch. Burt, whose business is in New York City, flies here at intervals.

Ben Cooley, Roberts, sheared for Cloughton brothers this year. John Falk, Jerome, sheared for John Brown and Buttram and other Halley area ranchers.

Frank Parrot of the Hillside ranch, Halley, moved a string of cows and calves to his Fish creek ranch this week. Some of the cows are Santa Gertrudis. There were more than 300 calves.

Mr. and Mrs. GARTH Cook have moved to the former Ross ranch east of Carey, which they purchased recently. Mr. and Mrs. Irvin Cook will continue to make their home at the Cook ranch on Silver creek.

Mr. and Mrs. C. W. Gardner have moved from their winter home at Halley to their ranch south of Gannett.

William Cloughton started spring plowing Monday. He will plant alfalfa and grass on bench lands which were in grain last year.

C. W. Gardner, Willis Castle and Baldwin brothers in the Gannett-Picabo area started plowing this week.

Pete Nell, Mountain Home air force base, is a parttime employe at Fred Crockett ranch west of King Hill. He has been seeding grain and doing other spring farm work.

The Glen Thomas ranch was sold recently to Mark Bowers, Brigham City, Utah. The new ranch owner is a son of Mr. and Mrs. Joe Bowers who lease the Theo Ollieu ranch in east Richfield. His wife and three children plan to come to Richfield when school is out. Glen Thomas accepted the Bowers' home in Brigham City as part of the farm sale. Thomas is a school principal at Karns, Utah.

Martin Allred plans to farm his ranch in east Richfield this year instead of leasing it as he has in the past. He is in Riverdale, Utah, at present. The ranch is known as the Bert Stevens ranch. Allred is a brother of Mrs. Joe Bowers, new resident on the Richfield tract.

Ed Davis and Raynard Wright, both Tuttle, helped each other in dehorning and branding calves. Stan Wright, Pocatello, and William Burkhardt, of the Shoestring community, helped at the Davis ranch.

Jim Pratt, 18, has been granted a junior membership in the Junior Angus association. Junior membership entitles the member to register purebred Angus at regular membership rates and to the privileges of the association until the age of 21.

Buttram and Miller moved a band of their sheep from their ranch northeast of Halley to the desert last week. The sheep were sheared the week previous.

Ranchers Glen Taylor, Elba, and Kay Harper, Malta, branded 10 head of Hereford spring cows and 22 calves this week at the West corral in Elba. The cattle were part of the deal when they purchased two ranches in the Elba valley from Malbourn Baker this spring. Assisting with the work were Orvil Beecher and Keith Darrington.

Ranchers in the Elba area are trying to get their spring plowing done but the frequent April showers have kept the work at a slow pace.

Mr. and Mrs. George Moody have five new quarter horse colts. Buckskin filly by DD mare was born March 24, two were born April 14 and two more born on Easter Sunday.

Several members of the Thorn Creek Cattle association have vaccinated and vaccinated range cattle. Some of the herds were taken to the range Friday and Saturday.

While Delbert Betty, Shoshone, was confined to a Pocatello hospital recently, members of his family, sons, sons-in-law and others, gathered at his farm and did two days' work. Women helped by cooking dinner. The men plowed, hauled manure, disced, harrowed and fixed fence.

FCIC Deadline Nears for Bean, Potato Insurance

The application period for federal crop insurance protection on beans and potatoes ends May 15, according to Douglas Bertoch, FCIC director.

This means that farmers who wish to become federal crop insurance policyholders must have signed application in the FCIC office, 628 Blue Lakes boulevard north, Twin Falls, by May 15 for beans and potatoes in order to receive FCIC protection, during the 1965 growing season," said Bertoch.

"As expenses climb and profit margins shrink, more and more farmers carry federal crop insurance for self-help protection of their production costs," Bertoch said.

"When disaster strikes, federal crop insurance payments to individual farmers bolster the entire community — but perhaps equally important, crop insurance credit value and protection assistance help strengthen the economy of the area during the in-between good crop years."

Participation in all FCIC programs increased 20 per cent this past year on a nation-wide basis, said Bertoch. The federal crop insurance corporation now protects farmers in 1,217 counties in 36 states.

EXPLAINING SADDLE RIGGING is Dean Vickers, left, who will conduct a special class in horse equipment May 1 at Frontier field. Youngsters in the pasture are, from left, Russell

Vickers, Carolyn Sears and Dan Sears. The class is open to the public and there is no admission charge. The class will kick off a series of special riding classes. (Times-News photo)

New Chemical Combination Aids Spuds

KANSAS CITY, Mo., April 23 — Idaho potato growers will have a new planting aid this year — an insecticide-fertilizer combination that packs a double wallop. It feeds the potato plants and, at the same time, kills insects.

A new combination, it is applied with seed potatoes at planting time simply by loading the fertilizer boxes, a process which growers must do anyway. No extra equipment is needed, and the savings in time and labor are considerable.

The double-action package uses Di-Syston, a systemic insecticide impregnated on fertilizer grades popular in Idaho fields, especially those in the Snake river valley, and in northern and eastern Idaho.

Di-Syston is an organo-phosphate manufactured by Chemagro corporation, makers of agricultural chemicals.

In preparing the combination, Di-Syston is applied directly to fertilizer granules by formulators, then packaged and distributed through normal channels. Impregnated fertilizer is applied as a band on each side of the tuber seed piece. There is no worry about proper placement due to wind drift or machine adjustments.

Di-Syston goes to work as soon as the seed begins to take nourishment from the soil. It is drawn into the plant root system, then circulated throughout the sap stream.

This makes the sap a deadly meal for insects such as aphids, certain flea beetles, leafhoppers and potato psyllids. It also provides early season reduction of Colorado potato beetles.

As new roots branch out, they also draw in the Di-Syston. Because it is inside the plant, it cannot be washed off or blown away, and protection lasts for eight weeks or longer, depending on the soil type.

Write the insecticide manufacturer to pest insects. It does not harm any beneficial insects that may be in the fields because they do not feed on plant juices.

Shipments of Cattle Decline

WASHINGTON, April 23 — Figures on interstate shipments of dairy cattle and calves in 1964, reported this month, show a 17 per cent drop under 1963 in Wisconsin and other states to 34,600; Nebraska almost 12,000; and the 11 Northeastern states 12,000.

Shipments into Florida from Wisconsin and other states totaled 27,000, which was 11 per cent under 1963. California, on the other hand, took 26 per cent more; some 18,000 head.

Frontier Riding Club to Offer Free Clinics Here

Beginning May 1 a series of free riding clinics will be conducted at Frontier field, north of Twin Falls. The Frontier Riding club is offering the classes to help both experienced and novice riders.

The first session will be held May 1 and will be taught by Dean Vickers. Vickers will instruct in care and repair of riding equipment. Considerable stress will be given on safety and how proper equipment promotes safety, while riding.

According to Vickers, safety and proper equipment go hand in hand. For example, the stirrup is more than just a means of getting on the horse.

Stirrup rigging should be checked. A rider can receive serious injury should a stirrup break when it is needed. Properly adjusted stirrups can make riding more enjoyable.

Good care of riding equipment will make the equipment last longer, thereby making equipment cheaper as the rider continues to get service from it.

The session will start at 2 p.m. at Frontier field. The classes will be held every Saturday for four consecutive Saturdays. A different subject will be covered at each session.

The classes are free and open to the general public. Attendance at each session is not a requirement, but in order to understand the full range of horsemanship, the riding club suggests and encourages those interested to attend all sessions.

Right Amount of Bean Seed Necessary to Insure Crop

UNIVERSITY OF IDAHO, Moscow, April 23 — Fertilizers, irrigation, cultivation, insecticides — all help Idaho's bean farmers produce top yields. But none will do its job unless you plant the right amount of seed in the first place.

The importance of bean planting rates is emphasized by University of Idaho studies at the Twin Falls branch experiment station. Yield of field beans was cut 400 pounds an acre when plant spacing within rows was increased from four to 12 inches.

Bush-type beans are especially affected by spacing within the rows, studies by Marshall LeBaron, station superintendent, and Leslie L. Dean, assistant plant pathologist, show. Plants spaced an average of two inches apart within the row produced highest yields. A 22 or 24-inch row spacing is recommended.

Semi-vining field bean varieties such as Red Mexican UI-34 are more tolerant to spacing variation. LeBaron and Dean found plant populations of 70,000 to 80,000 plants per acre produced the best. This requires an average plant spacing of three to four inches within rows if rows are planted 24 inches apart. But if rows are spaced 30 to 36, plants should average 2 1/2-inch spacing within rows. Yields from the semi-vining field beans were comparable either way.

The two scientists found that plant spacing within rows affects yield more than size or uniformity of seed.

They noted a weed problem in their experiments with thinner

Many Cash Crops Are Called Surplus, But Soybean Supply Is Not Abundant

WASHINGTON, April 22 (UPI)—The soybean crop is the only one of five billion-dollar-plus cash crops that is not in surplus.

The other cash crops, each worth more than a billion dollars, are corn, cotton, wheat and tobacco. There is a heavy surplus of each.

But not soybeans. In a review of the late and early situation, the agriculture department said the supply of soybeans at the end of the marketing year Sept. 30 will be about 10 million bushels. This carryover into the 1965-66 marketing year beginning the next day is less than a week's requirements for domestic grinding and export. The carryover on Sept. 30, 1964, was 23 million bushels. This was an ample cushion until the new crop reached the market in volume.

Soybean production has been burgeoning for more than 25 years. Soybeans were somewhat obscure prior to World War II, but the average value of the soybean crop was about \$500 million in 1964, the value of the soybean crop was 1.5 billion dollars, just behind corn and cotton.

Crushings of soybeans for 1964-65 are expected to total around 470 million bushels, compared with 441 million bushels a year earlier. Exports are expected to be about 206 million bushels.

Antibiotic Discussion Set at Meet

CALDWELL, April 22 — Tips about the use of antibiotics for livestock will be given at the beef field day, May 1, at the Caldwell branch research station of the University of Idaho.

J. J. Dahmen, station superintendent, said a discussion of use and misuse of antibiotics in the feedlot will be led by Dr. Floyd W. Frank, station veterinarian.

Ranchers attending the annual program will hear reports about non-roughage feeding of steers, results of research on vitamin A, and a comparison of feeding gains by steers and heifers.

DATE CHANGED

WASHINGTON, April 22 — Effective date of federal standards for low moisture mozzarella and scamorza cheese has been postponed pending outcome of judicial review of the standards.

MOB OF GOOD Samaritans turned out Monday to give neighbor Les Staley a hand with his spring chores. Staley was stricken a few weeks ago with a heart condition and his neighbors around Milner decided to get Staley's land into

shape until the oldest Staley boy returns home from college in May. Almost a dozen farmers turned out to plow, harrow and plant feed grain. (Times-News photo)

T.F. Cows Average 1,012 Pounds of Milk in March

Dairy cows on production testing in the Twin Falls County Dairy Herd Improvement association during March, averaged 38.8 pounds of butterfat per cow and 1,012 pounds of milk, reports Twin Falls county agent Donald Youst. Production figures include all cows on test, including dry cows.

The March reports of testing supervisors Jack McCormick, Buhl, and Virgil Worcester, Twin Falls, showed that 3,027 cows were on test, with 2,657 in production, and 370 dry cows.

In the large herds of over 50 cows, Calvin Graybeal, Buhl, had the high production average of 37.0 pounds of butterfat, 1,432 pounds of milk, with 77 cows milking a total of 80. Other large high producing herds with butterfat, milk, total cows and number in production are: Walter Kees, Buhl, 51.8, 1,287, 66 and 60; Grindstaff Dairy, Buhl, 48.6, 1,229, 54 and 49; Irvin Eilers, Twin Falls, 45.0, 1,164, 59 and 53; Arvin J. and Stan Smully, Twin Falls, 43.0, 1,132, 122 and 54; Jim and John Colhern, Buhl, 42.6,

106 and 95; Lambers Dairy, Buhl, 41.5, 1,127, 117 and 102; T. W. Richmond, Buhl, 41.0, 1,178, 78 and 68; A. W. Tadlock and son, Buhl, 40.3, 1,140, 70 and 68; Erhard Dohse, Kimberly, 39.0, 986, 69 and 58; Howard Harder and son, Buhl, 39.0, 791, 98 and 95; Parlin Dairy, Buhl, 38.6, 960, 159, and 136; Ray Melasser, Buhl, 38.5, 1,130, 76 and 73; and Boren and Gerald Jensen, Buhl, 38.0, 1,015, 120 and 92.

In the medium size herds of 25-50 cows, Roger Stafford, Kimberly, topped the list with 49.1, 1,316, 43 and 40. Other high producing herds are: L. D. Major, Buhl, 47.3, 1,287, 29 and 26; Dallas Cox, Buhl, 45.7, 1,324, 41 and 38; Dean Smith, Buhl, 45.5, 900, 97 and 26; Bernard Hoffman, Twin Falls, 45.1, 1,265, 32 and 27; Blair Hall, Twin Falls, 45.0, 1,233, 33 and 30; Russell Riggs, Murtagh, 43.9, 1,119, 38 and 34; Lyman Engle, Filer, 43.3, 1,222, 33 and 32; Howard Myers, Buhl, 40.8, 1,076, 29 and 26; Leonard Albee, Twin Falls, 40.4, 1,244, 30 and 28; Warren Hart, Buhl, 40.6, 974, 44 and 41; Schaar brothers Dairy, Buhl, 39.0, 1,216, 43 and 43; and Everett Andrews, Filer, 38.5, 1,015, 29 and 28.

In the small herds, under 25 cows, Cleo Shaddy, Buhl, topped the list with 52.4, 1,481, 9 and 8. Other high producing herds are: Great Hall, Filer, 51.2, 1,394, 7 and 7; E. W. Hall, Filer, 49.9, 1,379, 9 and 7; Carl Leonard, Filer, 44.2, 1,140, 18 and 16.

Ted Behm, Buhl, 44.1, 1,262, 17 and 15; Kyle Bell, Buhl, 41.1, 1,143, 18 and 16; Charles Tippett, Buhl, 40.4, 1,072, 21 and 20; Dale Jordan, Buhl, 39.3, 907, 10 and 15; and E. J. VanZante, Buhl, 38.0, 781, 14 and 11.

Milner Farmers Turn Out to Assist Stricken Neighbor With Spring Work

MILNER, April 22 — Friends and relatives pulled their equipment onto the Lester Staley farm early Monday morning with high hopes that by the time the sun went down they would have his entire farm planted down to mixed grain.

On April 10, Staley was stricken with a coronary thrombosis and was rushed to the Twin Falls Clinic hospital, where he will be hospitalized for the next three or four weeks. Then will follow a long summer of complete convalescence.

With their son, John, away at Brigham Young university, the Staleys decided they would not be able to rent the farm this year as it would be impossible for them to get the work done.

However, Bernard Bradshaw spearheaded a drive to get the Staleys' friends to come in and get the land ready and the crops planted for them.

The Staleys are old-timers in the area, having come here in the fall of 1934 when the tract was first being opened.

Staley was employed at the mines at Jarbidge, Nev. Late in the fall of 1924 he came to Twin Falls to find pasture for the mines' horses. He contacted Ledyard Perrine and secured some pasture at Milner.

Due to the fact that Perrine's renter had moved, it was decided that the Staleys would move to the farm and rent it.

It is a 170-acre farm with 140 being under water at the present time. Staley grubbed 58 acres of brush land in addition to the crops the following spring.

The last 15 acres of brush on

amount that was being farmed so that he could plant more the place were grubbed about 15 years ago.

Before he was stricken, Staley had gotten his land ready for his wheat crops and it is planted. The remainder of the tillable farm land was planted to mixed grain.

They decided to plant the farm to mixed grain as it is the easiest crop for them to handle in this emergency.

Floyd Webb and Donald Webb will take care of the grain after it is planted until John comes home from school, the end of May.

As he has not learned the techniques of irrigating it will be a busy summer for him. If the season is right and the crops progress the grain will be threshed before college starts this fall.

Bud Breeding, manager Bean Growers warehouse, cooperated with area farmers by getting all of the fertilizer on ahead of the farm equipment.

Edward Sargent, Robert Kiefer and Estel Sargent started the farming operations by discing the ground. As soon as there was room for the other tractors, Wil-

liam Bradshaw, Jr., Floyd Webb, Donald Webb and William Sargent pulled on with their harrows.

In quick succession Bernard Bradshaw, Farnum Warr, Edward Kirk and Raymond Hurton followed with grain drills.

Floyd Webb managed the Good Samaritan operations with the assistance of Edwin Brune, who corrugated the fields the following day.

Other friends had volunteered their equipment and services but it was not deemed feasible to have more heavy equipment in the fields at the same time.

At noon Mrs. Estel Sargent, assisted by neighbors, prepared dinner for all the men working on the farm. With just enough time out to eat, the men headed back to the fields and the remainder of the work.

Last year the Staleys started the cycle of taking land from the brush again, when they purchased 160 acres of sagebrush land which is served by the Milner Lowlift Irrigation district.

At present 130 acres of this land have been grubbed and 83 acres are under water. Floyd Webb and Donald Webb rent this land from the Staleys.

Consumption Of Fluid Milk Slumps

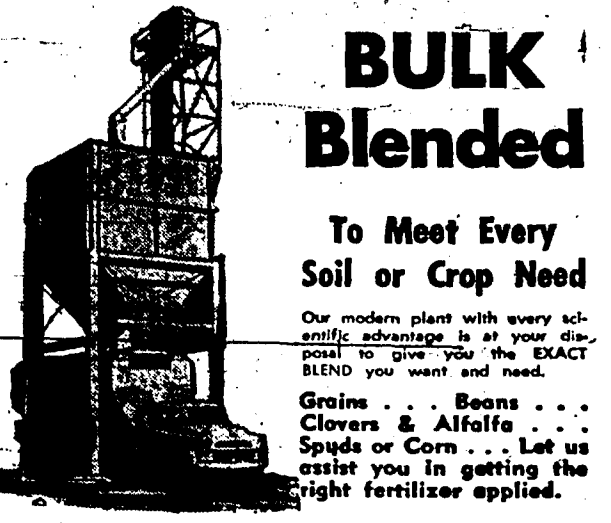

WASHINGTON, April 22 (UPI)—The per capita consumption of fluid milk and cream products, in milk equivalent terms, was 306 pounds last year, according to the crop-reporting board.

This is three pounds less than the per capita consumption in 1962. It compares with 349 pounds per capita in 1960.

Consumption by the non-farm population in 1964 was 502 pounds per capita. In 1960, the per capita consumption by the non-farm population was 330 pounds.

On farms, estimated average consumption of 389 pounds per person for 1964 is four pounds less than in 1963 and compares with 452 pounds in 1960.

Idaho Chick Hatch Drops During March

BOISE, April 23—Commercial hatcheries in Idaho produced an estimated 585,000 chicks during the month of March reports the reporting service.

This is 22 per cent less than the same month a year earlier, and 31 per cent less than the 1953-54 average 810,000 output.

The accumulated hatch during January-March totaled 1,375,000 chicks compared with 1,715,000 during the same period last year.

An estimated 361,000 chicks were produced this March for broiler production, 29 per cent less than was produced in March 1964. January-March accumulated production of broiler-type chicks totaled 1,023,000 for 1965, about 25 per cent less than during the same period of 1964.

A total of 194,000 egg-type chicks were hatched during March-1965, compared to 206,000 during the same month last year.

The accumulated hatch of egg-type chicks for January-March this year was 352,000, unchanged from the same period of 1964.

Chick production nationally by hatcheries during March 1965 was 277,464,000 compared with 287,303,000 in March 1964. Broiler chicks hatched during March totaled 217,232,000, up two per cent from March last year.

During the first three months of 1965 there were 695,839,000 broiler chicks produced—up three per cent from comparable period last year. The number of broiler-type eggs in incubators on April 1 was up five per cent from April 1 last year.

There were 60,232,000 egg-type chicks hatched in March—down 10 per cent from March 1964 and the smallest March hatch of record.

MAGIC VALLEY farmers living in areas where there might be flooding might well adopt Pete Miltak's idea of keeping a building dry. Miltak, a resident of Hastings, Minn., bought a 400-foot roll of polyethylene, 3/8 inch wide, and wrapped it around his home before the floods came. He overlapped the edges to seal them, and at ground level he left several feet of plastic and placed sandbags on this. Some water leaked into the basement, but the first floor, which was below the water line, was dry. The plastic could work on farm buildings. (AP wirephoto)

Price Index Makes Gains During March

BOISE, April 23—The March 15 index of prices received by Idaho farmers was 258 per cent of the 1910-14 average—reports the Crop Reporting Service. This is up eight points from last month and 12 points from March of last year.

The all crops index and the livestock and livestock products index both show an improvement over last month.

"The All Crops Index at 228 is up five points from Feb. 15. When compared with March 15 of last year, an increase of nine points is noted. The average prices received were higher for barley and potatoes. The other commodities in the all crops index were unchanged or slightly lower.

The livestock and livestock products index improved 12 points during the month to 290 per cent of its 1910-14 average. The 1965 mid-March index is above the index of a year earlier by 17 points compared with a month earlier, higher average prices were received for all commodities except eggs which showed a decline and butterfat in cream and wool which remained unchanged.

European Common Market Becomes Top Buyer of U.S. Livestock Products

WASHINGTON, April 23—The Common Market countries of Europe formed one of the better market outlets for American livestock and meat products in 1964, according to the agriculture department.

Purchases by the six members of the European Economic Community of American livestock and red meats hit a new post-war record. Shipments exceeded 115 million dollars, 43 per cent more than the 80.8 million dollars of 1963, and about 10.8 per cent above the previous high of 102.6 million dollars in 1959.

Variety meats, tallow and greases, and hides and skins registered the largest dollar increases, the department said.

Tallow and grease exports rose 27 per cent to 42.9 million dollars, with sharp gains for all the EEC countries—West Germany, France, Italy, Netherlands, Belgium, and Luxembourg.

U.S. exports of variety meats

Bean Commission Approves Aid in Halo Blight Fight

BOISE, April 23—The Idaho bean commission at their regular monthly session approved a \$9,000, two year research project on bacterial blight in beans. Don Murphy, bean commission chairman, announced that an agreement with the University of Idaho had been signed authorizing a two year research project on the causes of bacterial blight diseases in beans. "The possibilities of a serious outbreak of Halo blight in the bean production area has stimulated this action by the bean commission," Murphy said.

Murphy said, "That additional research is required to provide better recommendations for controlling bacterial blight diseases in beans." The project, which will begin immediately, will be conducted by the University of Idaho, Moscow, and the branch experiment station, Kimberly, and is estimated to cost approximately \$4,500 annually.

In other business, the commission gave approval to a limited national publicity program on behalf of Idaho beans to be conducted by Ella Lehr Nisja, Commission home economist. Harold West, commission executive director, said that a more concentrated promotion program would be carried out in the Western states, particularly the Pacific Coast states of California, Oregon and Washington.

West also informed the commission of the promotional efforts in behalf of beans that is being conducted by the Importers of Beans in the country of France. "France is very anxious to have Idaho join with them in the promotion of Great Northern beans, which are finding a market in Europe," West said.

The Commission was informed that a nymph survey was presently being conducted in the desert areas of South Idaho to determine if it would become necessary to spray for the control of beet leafhoppers, which later on move from the desert to the bean production areas spreading diseases as they migrate.

The control spray program has

Four Lincoln Herds Show Good Report

SHOEHORNE, April 23—Four of the 35 dairy herds tested in the Gooding-Lincoln-Jerome Dairy Herd Improvement association unit averaging 30 or more pounds of butterfat during March came from Lincoln county.

The Lincoln county herds were owned by Martin Jauregui, Dietrich, with 19 grade Holsteins, averaging 1,117 pounds of milk and 42.2 pounds of butterfat; Dick Edwards, Dietrich, with 26 registered Holsteins, averaging 1,119 pounds of milk and 38.9 pounds butterfat; Herbert J. McCowan, Dietrich, with 25 grade Holsteins, averaging 947 pounds milk and 34.1 pounds butterfat; and Keith Jackson, Shoehorne, with 28 grade Holsteins and registered milking thoroughbreds, averaging 900 pounds milk and 33.1 pounds butterfat.

Three cows in the Lincoln county herds averaged over 70 pounds of butterfat for the period. They are Nicki, registered Holstein, owned by Jack Edwards, producing 2,500 pounds milk and 95 pounds butterfat; Macie, also owned by Edwards, averaging 2,390 pounds milk and 83.7 pounds butterfat; and Catalina, owned by Jauregui, producing 1,980 pounds milk and 73 pounds butterfat.

Food Boosted in U.S. as Builder

WASHINGTON, April 23—Food in its role of foreign aid is largely a made-in-America innovation. Although Canada, France, Australia, and West Germany have provided some food aid, the United States has supplied about 98 per cent of the world's total, reports economic research service.

In foreign economic assistance, P.L. 480 aid rose from 37 per cent in 1956, to some 47 per cent in 1963—around 1.5 billion dollars a year.

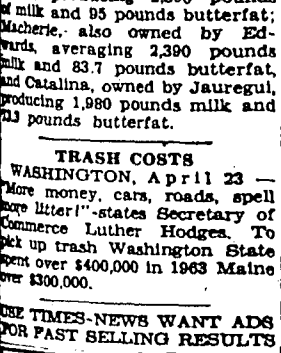

As a country develops, so does its ability to buy agricultural commodities on a commercial basis. Japan and several Western European countries are primarily responsible for the increase in U.S. commercial exports, some 4.5 billion dollars.

NEW LOW SET

WASHINGTON, April 23—Farm labor at work in late March totaled 4,877,000 persons, 12 per cent fewer than March 1964 and a new record low for the period.

FARM AUCTION

Having rented my farm I will sell the following located one mile West and 1 1/2 mile South of Southwest Corner (Wasco's Corner) of Buhl, Idaho.

MONDAY, APRIL 26

STARTING TIME: 12:30 THERE WILL BE LUNCH ON GROUNDS

LIVESTOCK

- 35 Head Angus cattle
- 7 Head registered Angus cows with papers, ready to calve
- Registered Angus bull, Glendale Pride Purebred Angus bull, Glendale Bandster.
- 4 Angus cows, calves by side
- 7 Head purebred Angus calves
- 6 Yearling Angus heifers
- 3 Purebred yearling bulls
- 2 Jersey calves

MACHINERY

- 70 Bu. John Deere manure spreader
- 2 6-Ft. tandem disc harrow
- IHC side delivery rake
- 2 Horse mowers
- 2-Wheel stock trailer, excellent condition
- 3-Pt. hitch coil shank corrugator
- 3-Pt. hitch ditch plow
- 3-Pt. hitch Wasco 14-in 1/4 turn plow
- 3-Pt. hitch 6-ft. Dearborn blade scraper
- 3-Pt. hitch feed box
- 3-Pt. hitch weed sprayer
- Ferguson front end hydraulic manure loader
- Ford rear end manure loader
- 1954 3-speed 1/2-ton Ford pickup
- Concrete mixer with electric motor
- 2-Wheel hay trailer
- IHC cyclone phosphate spreader
- Feed ditch cleaner
- Sat Ford marker
- IHC 4-cylinder engine
- Stockyard hay pillar

Idaho Milk Production Decreases

BOISE, April 23 — Total production of milk in Idaho was estimated at 111 million pounds during February, compared with 115 million pounds a year earlier and the 1959-63 average February output of 119 million pounds.

Seasonally, production decreased five per cent this year from January to February compared with the 1959-63 average seasonal decline of four per cent for the same period.

The February output of manufactured dairy products was down from a year ago for all items except Swiss cheese.

February milk production in the United States was estimated at 9,798 million pounds, one per cent less than in February, 1964, but three per cent more than the 1959-63 average for the month. The decrease in production from a year earlier resulted from the extra day in February last year.

On a daily average basis, February production was two per cent above a year earlier. February milk production amounted to 1.81 pounds per person daily, compared with 1.79 pounds in February a year ago.

Production of creamery butter in the United States during February was estimated at 123,495,000 pounds. This was about the same as in the 29-day February, 1964. On a daily average basis, February output was up four per cent from the February, 1964, and the 1959-63 average for the month.

Compared with January, production declined five per cent.

February manufacture of American cheese was the highest of record for the month. Output, estimated at 82,645,000 pounds, was one per cent more than in February, 1964, and 17 per cent greater than the 1959-63 average.

On a daily average basis, production was five per cent greater than in February a year earlier.

THREE OF THE five Paint stock horses which left this week for Broken Arrow, Okla., are exhibited by Wayne Peterson, operator of Frontier field. The local operator is the only Idaho representative attending the sale, which has become an outstanding event in Paint horse circles. The horses all are locally owned. (Times-News photo)

HOLDING THE REINS of two Paint stock horses are Wayne Peterson and Jan Peterson, who took a load of Paint horses to Broken Arrow, Okla., this week for the annual Broken Arrow sale. They are the only Idaho representatives at the sale. (Times-News photo)

Operators Depart for Horse Sale

Wayne Peterson and Jan Peterson, operators of Frontier field, Twin Falls, departed this week for Broken Arrow, Okla., to attend the annual Broken Arrow Paint Stock Horse sale.

The couple took five paint horses with them to the sale—four mares and a gelding. The stock is all local, said Peterson. The two operators are the only ones from Idaho attending the sale.

Peterson pointed out that the Broken Arrow sale in recent years has become the outstanding Paint Horse sale in the nation. The sale will be held April 24.

Paint stock horses are not too plentiful in the Intermountain area and Peterson said they could be in the market for a top notch stallion.

University Researchers Are Teaming With Cattlemen to Fight Calf Scours

UNIVERSITY OF IDAHO, Moscow, April 23—University of Idaho researchers are joining cattlemen in their fight against calf scours.

Dr. L. Dean Miller, assistant veterinarian with the agricultural experiment station, and other University scientists are working to pin down the causes and possible cures for the disease. State cattlemen and veterinarians are among the partners in the job.

What are the losses from calf scours? It's hard to say. Cattlemen blame scours for death loss ranging up to 20 per cent, according to surveys in various areas of the state. The Payette River Cattlemen's association surveyed 121 stockmen in that area and reported a 9.8 per cent loss; 1,069 calves lost out of 10,779 born. Another survey in southeastern Idaho, made by federal veterinarians, showed a 12.3 per cent death loss out of 5,240 calves.

No one knows how many of these deaths are caused by something other than scours. And no one guesses the additional costs of setback to recovered calves and treatment for the disease.

The information is vague. But the conclusion is without argument: Calf scours losses are higher than cattlemen can afford.

Higher than the state can afford, too. Even a 10 per cent death loss statewide means approximately 40,000 calves killed by the disease—a calf scour cost to Idaho cattlemen of over three million dollars.

Management undoubtedly plays an important part in scours' loss. Dr. Miller will tell you, but Idaho attempts to tie the disease to specific conditions—feeding programs, use of pesticides and fertilizers, feed supplements—have drawn a blank.

Nor is there a common denominator in drug treatment. What works for one stockman doesn't work at another ranch. In fact, it may not work at the first ranch for long.

The evidence, Dr. Miller says, points to an infectious agent as the cause of scours. Most likely, to a variety of infectious agents.

So Idaho research now is aimed at identifying the agent or agents and learning more about how each works.

Some progress has been made. For example, Dr. Miller has

transmitted scours through oral feeding of feces from an infected calf. In follow-up studies of the fecal material which contained the infectious agent, he isolated the different bacteria it contained and tested these bacteria cultures. They did not cause scours.

The same material, filtered to eliminate all bacteria, was also tested. Again, the results were negative. But scours were caused in calves when they were fed this bacteria-free filtrate material plus an Escherichia coli, E. Coll, bacteria which are normally found in the intestinal tract of all higher animals, including man, are said to be the most common cause of scours. But this strain would not cause scours when used alone.

Dr. Miller's conclusion: That there is an interaction between this strain of E. Coll and an organism in the filtrate material which causes one particular type of scours. The organism, he believes, is a virus.

This narrows the field a little. Dr. Miller hopes to narrow it still more by additional studies which will pinpoint the specific scours-causing organism in the filtrate material, show how it affects the cells in which it lives, and how it interacts with the E. Coll.

One scours-causing organism has been isolated in associated work by Dr. Donald G. Waldhalm, assistant veterinary microbiologist at the Caldwell branch experiment station. Preliminary studies indicate it is capable of producing a mild form of scours. The isolated bacteria is closely related to types which cause dysentery in man, pullorum in poultry and similar diseases, Dr. Miller says.

Studies of this bacteria will continue. But, Dr. Miller points out, "there are hundreds of different strains of the organism we're tracing. Chances of developing a vaccine which will be effective against them all are practically nil."

Another experiment at Caldwell has strengthened a belief that scours may be transmitted from cow to calf through the uterus.

The study used 20 two-year-old heifers supplied by the Idaho Cattlemen's association. Ten were infected with a suspension of fecal material from scours-infected calves. The other 10 were

not treated. None of the calves from the non-infected heifers developed scours. None had evidence of infectious agents in his system. The infected heifers produced four dead calves, two calves which were extremely weak at birth, and two which had mild scours. Only two calves from this group were healthy.

The dead calves weren't expected, Dr. Miller admits, but they may have been a result of the heavy infection given the cows.

A second test of uterine infection will be conducted this winter.

So... what do we know about scours? "We know that many infectious agents are connected with scours," Dr. Miller says. "And we know we have to sort them out, find out how they work. We know it is unlikely we'll ever have one treatment that will be good for all types of scours."

"We also know that nutrition and environment play a large role in the picture," he notes. "Good management probably offers ranchers their best chance to reduce scours losses."

Management practices which are most helpful, Dr. Miller believes, are:

- Feed breeding cows to good nutritive levels. A strong calf is more resistant to scours and other diseases.
- Protect your calves. Early calving in Idaho increases the

chance of cold, damp weather and sudden temperature changes at calving time. This encourages scours. Dr. Miller recommends portable-type shelters rather than permanent ones. A portable shelter, moved frequently and supplied with dry bedding, provides a dry, protected place for calves.

—Don't crowd cattle into the calving area. Crowding generally leads to sloppy, dirty conditions underfoot. "We can transmit scours with a half-teaspoon of fecal material," Dr. Miller points out. "Imagine what happens when your calves are wallowing in a crowded lot."

—Provide dry bedding for your cows also. Frozen teats are a common problem when cattle bed down on snow or frozen ground. Calves need plenty of milk to gain strength. And this is particularly important since colostrum is the calf's only source of

protective antibodies and vitamin A.

—If your calves do get scours, know what may be used for treatment. The antibiotics and sulfa in many oral drugs can't be absorbed by the calf. They are effective only against organisms in the digestive tract, not against pneumonia or other conditions throughout the calf's body. If you are using one of these non-absorbable oral drugs, you may also need to use a supplemental injection drug for scours control. Your local veterinarian can tell you what combination of drugs to use.

SMALL CROP PLANNED
WASHINGTON, April 23 — Smallest feed grain acreage in 60 years is in prospect in 1965 if farmers carry out their March 1 plans. The 120 million acres expected to be planted is nearly three million below 1964.

Purebred Charolais Are Tough Breed to Import

GINGINNATE, April 22—American cattlemen are discovering that genuine Charolais have something to offer and they want more of them. This breed has gained the respect of top factors and of many discriminating meatpackers as producers of lean, meaty and profitable carcasses. The purebreds, however, are hard to come by in North America and we have what a Farm Quarterly editor in recent issue calls "a breed in a bind" in defense of the breed.

Charolais is one of the most important breeds in France, where it originated quite a long time ago. But the USDA has very specific prohibitions against importation of the animals from Europe because of endemic foot-and-mouth disease. So the question is how to get new genes to improve the strain of the breed already in this country.

Purebred Charolais cattle are white and very large. Mature bulls weigh up to 3,000 pounds. Cows weigh up to 2,000 pounds. They were introduced into Mexico in 1930 and eventually

sets a quota on the number of bulls that may be exported. The 1963 quota of Charolais bulls was 40.

The United States now has approximately 16,000 head of purebred Charolais and more than 81,000 crossbreds. All of them have been contributing to the making of an enviable reputation for the breed.

Production Of Red Meat Increases

BOISE, April 23—The production of red meat by commercial slaughter plants in Idaho during February, 1965, is estimated at 12,700,000 pounds by Livestock Reporting Service.

This is 14 per cent above the output of February, 1964, but 17 per cent below a month ago. The cumulative production of red meat for January through February this year totaled 29,985,000 pounds, 15 per cent above the same period of last year. The average dressed weight of cattle slaughtered during February was above a year earlier.

The dressed weight of calves, sheep and hogs was below a year ago.

A comparison of February, 1965, with a year earlier shows more cattle slaughtered but fewer hogs and sheep, while the number of calves was the same. During the 10-month period of 1965 there has been more cattle slaughtered than during the same period of 1964 but fewer hogs and sheep, with the number of calves remaining unchanged.

The average liveweight per animal slaughtered during February, 1965, was above a year earlier for hogs and sheep but below for cattle and calves.

Commercial production of red meat nationally during February in the 48 states totaled 3,352 million pounds, two per cent less than February, 1964, and 13 per cent below January-February. Commercial meat production includes slaughter in federally inspected and other commercial plants but excludes farm slaughter.

Beef production during February was 1,365 pounds, five per cent above February, 1964, but 11 per cent below January, 1965. The number of cattle slaughtered during February totaled 130,900 head, 11 per cent greater than a year earlier, but 11 per cent less than the previous month.

The average live weight of cattle slaughtered during the month was 1,021 pounds, 34 pounds less than February, 1964, and three pounds less than January, 1965.

There were 69 million pounds of wool produced during February, eight per cent more than a year earlier, but 13 per cent less than a month earlier. The 566,000 head of calves slaughtered during the month was 11 per cent greater than February, 1964, but six per cent less than January, 1965.

Calves slaughtered during February averaged 219 pounds per head, two pounds less than a year ago and 14 pounds lighter than the previous month.

Pork production during February totaled 871 million pounds, 18 per cent below February, 1964, and 14 per cent less than January, 1965. The hog kill during February was 6,160,900 head, 10 per cent less than a year earlier, and 12 per cent less than a month earlier.

The average live weight of hogs slaughtered during the month was 233 pounds per head, four pounds lighter than a year ago and six pounds less than the previous month. Lard rendered per 100 pounds of live weight of hogs was 11.6 pounds compared with 11.9 pounds in February, 1964, and 11.8 in January, 1965.

There were 47 million pounds of lamb and mutton produced during February, 15 per cent less than a year earlier and 20 per cent below a month earlier.

The number of sheep and lambs slaughtered during February was 936,200 head, 14 per cent fewer than February, 1964, and 20 per cent less than January, 1965.

Sheep and lambs slaughtered during the month averaged 103 pounds per head, the same as both a year earlier and the previous month.

Utah Miss Named 1964 Champion

BRATTLEBORO, Vt., April 23—Miss Belle Rae Whitbeck, 19 Murray, Utah, has been named the 1964 Champion Holstein Girl by Holstein-Friesian Association of America.

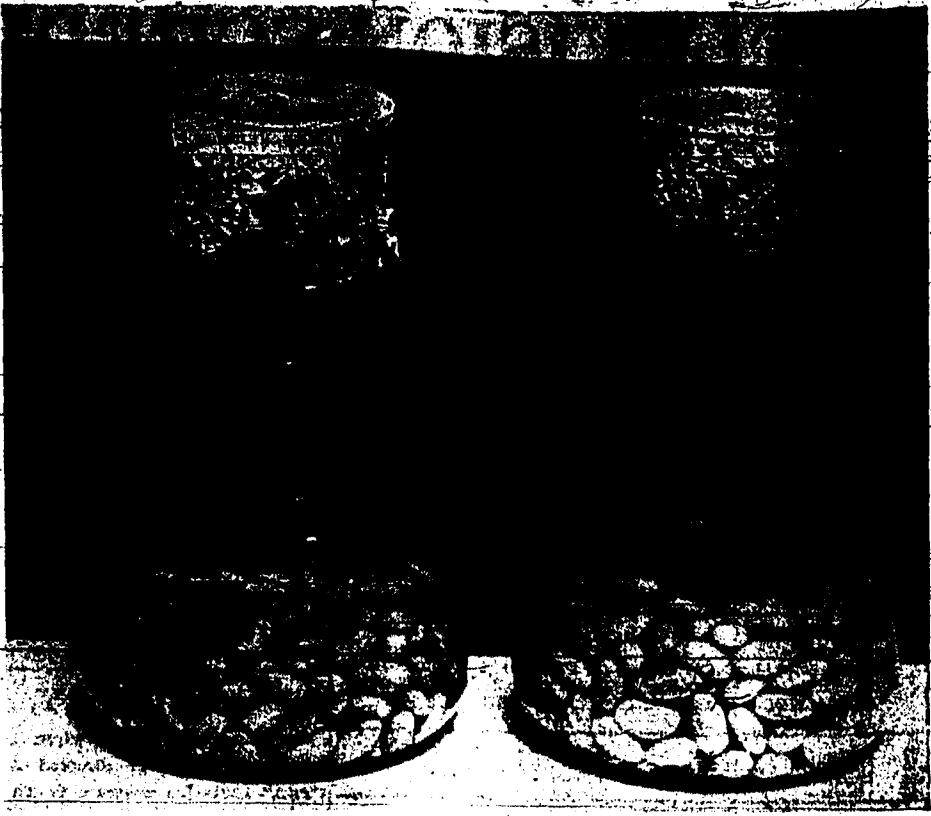

She was selected for the association's highest youth dairy project recognition from 34 candidates in the girls' division. Miss Whitbeck is a sophomore majoring in dairy husbandry and journalism at Utah State university.

She owns 18 head of registered Holsteins, seven of which are of producing age.

RESTRICTIONS DELAYED

WASHINGTON, April 23—Restriction of price supports, bulk butter purchases in the north-east to the butter produced in the area were postponed from April 1 to May 1.

Appalachia Farmers Receive Large Part of Funds From Non-Farm Sources

WASHINGTON, April 23—An agriculture department study shows that farmers in Appalachia do more off-farm work and get more of their income from non-farm sources than farmers in any other section of the United States.

The study also shows that a larger percentage of Appalachian farmers left agriculture from 1950 to 1960 than in the rest of the United States. The Appalachia farmers who quit agriculture were earning less than \$2,500 yearly, according to the study.

The department's economic research service studied the Appalachia region, a special reference to agriculture.

ERS checked living and working conditions in 32 rural and urban counties of nine Appalachian states—Pennsylvania, Maryland, West Virginia, Kentucky, Virginia, Tennessee, North Carolina, Georgia and Alabama. Parts of two other states—Ohio and South Carolina—are included in the Appalachian region as defined by congress. West Virginia is the only state that lies entirely within Appalachia.

The ERS study produced these highlights:

- The population of the region is more than 60 per cent rural,

but only nine per cent live on farms. Because of the hilly terrain, technological improvements in this largely rural region are slow in coming.

Agriculture is mostly in livestock, particularly beef production.

—A major obstacle of a prosperous agricultural economy in Appalachia is the lack of land adaptable to mechanized farming.

—Many farmers unable to make a living from farming are turning to non-farm supplementary employment. Many rural males between 16 and 64 are migrating away from the region. Lack of employment opportunity plagues workers in other industries as well.

—The unemployment rate in Appalachia increased 40 per cent more than for the rest of the nation during the 1950 decade.

Bushberry Crop Will Be Larger

WASHINGTON, April 23—The crop reporting board has estimated 17,850 acres of bushberries will be harvested in Washington and Oregon during 1965.

This is 18 per cent above the harvested bushberry acres in 1964.

Bushberries include red raspberries, black raspberries, blackberries, blueberries, currants, boysenberries, youngberries and loganberries.

PCA IS PART of the Profit Picture

A dollar saved on cost is as good as an extra dollar on the market. PCA LOANS HELP YOU BOTH WAYS.

That's because we work out your credit program in advance — provide money when you need feed, labor, all other expenses during the feeding period. No pressure . . . finish 'em right at a lower cost. And, remember you pay interest only on the dollars you use, and the time each dollar is needed.

Repayment of your PCA Loan is scheduled when you ship, not before! You've got time to hit the right market.

Farmers, in Record Numbers, Agree To Divert Acres From Wheat Program

WASHINGTON, April 23—The agriculture department said farmers in record numbers have agreed to participate in the 1965 voluntary wheat program and divert 7,456,080 acres from production of the breadgrain.

The department said operators of 889,778 farms agreed to participate in the 1965 program. This compared with the previous record of 820,070 farms enrolled in 1963. The farms in the 1965 program represent 44,746,080 acres in effective wheat allotments. This is 84 per cent of the national total.

In 1964, farmers agreed to divert 5.3 million acres. In 1963, diverted wheat acres totaled 7.8 million.

The 1965 feed grain sign-up shows that 1,482,583 farmers have agreed to divert 36,576,800 acres from the production of feed grains during the current crop year.

The diverted acres include 24.9 million acres of corn, 7.3 million acres of sorghum, and 4.3 million acres of barley.

In 1964, diverted acres included 22.9 million acres of barley.

The department said farmers

participating in the 1964 feed grain program earned payments totaling about \$17 billion dollars. This was \$26 million dollars more than in 1963. The \$89 million dollars earned for acreage diversion in 1964 was 427 million dollars above the acreage diversion payments in 1963. The department said the sharp increase resulted from a hike in the rate of payment to an average of \$27.42 per acre, \$8.50 above the 1963 average, and a 32 per cent increase in the acreage diverted.

A diversion program for cotton shows that 59,037 producers have agreed to take 916,999 acres out of production under the domestic cotton allotment program.

Nation's Flock Lays Less Eggs

BOISE, April 23—The nation's laying flock produced 5,687 million eggs during March, down one per cent from March last year and the 1959-63 average.

Egg production was down eight per cent in the West North Central, two per cent in the East North Central, and one per cent in the North Atlantic states.

These decreases from a year earlier were partially offset by increases of two per cent in the South Central and West regions and a slight gain in the South Atlantic states. Aggregate egg production in January through March was a little above the same months last year.

VALLEY Livestock Commission company, Rupert, will host the Idaho State Holstein sale next Saturday. Entries are expected from all parts of the state.

Annual State Holstein Sale Set May 1 at Rupert

RUPERT, April 23 — Final arrangements have been made for the annual State Holstein sale, to be held May 1 at the Valley Livestock commission yards in Rupert. The sale will get under way at 11 a.m.

The sale will be managed by Henry Drury, Preston, who has spent a lot of time hand-picking individuals to consign to this year's sale, according to LaMont Smith, extension agent for Minidoka county.

Outstanding animals have been chosen for this year's sale and many reports the sale should be one of the most outstanding in the history of the Idaho state sale from the standpoint of quality of the animals.

Members of the local sale committee include Mrs. Louis Bott, banquet chairman; Louis Bott, and Forrest Son, sale barn committee; Mrs. Harold Nielson and Mrs. Jack Hillerbrand, entertainers.

Harold Nielson and Jack Hillerbrand are in charge of publicity and Lyle Barton is decoration committee chairman, assisted by Barbara Jurgensmeyer, Steven Bott and Michael Bott.

The county club meets monthly from November until May of each year, and during summer months plans tours and picnics. Members are active in the promotion of Holstein cattle and it was the most active club in the state last year in promoting Holstein Good Neighbor day.

The club also assists in making the Minidoka county fair one of the fastest growing fairs in the state. The fair has become one of the largest Holstein shows in the state.

An annual banquet is held by the club, and members invite friends and neighbors who have

Idaho Cattle Feeders Pick Confab Site

BOISE, April 23 — The board of directors, Idaho Cattle Feeders association met for their first quarterly directors meeting and unanimously chose Boise, as the site for their seventh annual meeting.

President Russell Lindstrom announced that the three-day convention is scheduled to be held at the Boise Hotel, Feb. 17, 18 and 19 next year.

Robert Frew, Rexburg, association state vice president, was named general chairman for the function and his arrangements committee will be named at a later date.

The directors also chose June 26 and 27 for the second quarterly directors meeting, which will be held at Island Park Lodge in eastern Idaho. A committee consisting of Louis Skar, Roberts; Elmer Moed, Idaho Falls and Frew will make arrangements for the meeting, which will include a beef steak dinner at the Moed ranch at Henry's lake.

Lindstrom also announced that all members of the association will be invited to this directors meeting and outing.

PINK FLOWER READY

WASHINGTON, April 23 — Poinsettias will be in the pink next season. A new variety developed by USDA plant breeders, is called "Spring Pink."

WAUCTION SALE

Cliff Qualls & Sons OWNERS

Banquet

John Lawrence, Twin Falls high school vocational agriculture instructor, announces that the annual Future Farmer's of America chapter banquet will be held May 1 at the high school cafeteria.

This annual banquet affords the chapter an opportunity to publicly honor members and residents for work done in behalf of FFA.

Chemicals Effective in Cherry Fruit Fly Control

BOISE, April 23 — Chemicals are effective in control of the cherry fruit fly if their use is limited to arrival of the fly. University of Idaho entomologists said this week.

The flies usually begin to come out late in May. That's the time to spray the trees. Accurate timing can be accomplished, the insect specialists said, by using a "rangefoot" board that traps flies. The first application of chemical is advisable when the first fly is found on the board coated with a sticky substance that attracts insects.

Spraying at that time kills adult flies before they lay eggs. There is no known method of control after eggs are deposited.

Any of several spray schedules will do an effective job when timed properly and applied carefully, the entomologists said. The following chemicals are suggested:

Methoxychlor - rotenone. — Three pounds of Methoxychlor wettable powder or two quarts of the two-pound-per-gallon emulsified concentrate in 100 gallons of water. Apply when the first flies are observed and follow at 10-day intervals with three pounds of five per cent Rotenone in 100 gallons of water and continue through harvest at seven-day intervals.

Malathion. — Use one pint of five-pound-per-gallon emulsifiable concentrate to 100 gallons of water. Apply at 10-day intervals until three days before harvest. This spray may cause spotting of fruit in some areas.

Diazinon. — Use one pint of two pounds per gallon emulsifiable concentrate in 100 gallons of water. Apply at 10-day intervals until 10 days before harvest. Wettable powder may be used, but like other wettable powder, Diazinon tends to leave visible residue on the fruit.

Perthane. — Use one quart of four-pounds-per-gallon emulsifiable concentrate in 100 gallons of water. Apply at 10-day intervals until two days before harvest.

Methoxychlor - Parathion. — For the first cover spray use two pounds of 50 per cent Methoxychlor wettable powder in 100 gallons of water. Follow in 10 days with one quart of four-pound emulsifiable concentrate Parthane or one-half pint

of four-pound emulsifiable concentrate Parathion in 100 gallons of water. Continue applications of Parthane at 10-day intervals until two days of harvest, or continue applications of Parathion at seven-day intervals until 14 days of harvest.

After harvest apply a clean-up spray of Malathion, Parathion, or Parthane (plus a miticide). Demeton may be used at this time at the rate of one pint of two-pounds-per-gallon emulsifiable concentrate in 100 gallons of water.

There are several important cultural practices which should be carried out to cause successful growth of these small trees, Youts said.

The roots of the trees should not become dry before planting. The trees should be watered well as they are planted and should be watered at least twice a week for the first month.

The trees will respond well to commercial fertilizer the same as field crop plants.

Weed control is a must. One red root pig weed allowed to grow beside one of these little trees can kill it, Youts said.

These trees are supplied on a cost basis for protection against the wind and to add beauty to the landscape. But they must be nursed like garden plants the first two to three years, Youts said.

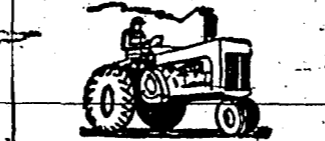

Food Stocks Hit Record Amount

WASHINGTON, April 23 — The crop reporting board said food stocks in refrigerated warehouses as of April 1 totaled a record 5.6 billion pounds for the date.

Supplies were five million pounds larger than a year earlier and 810 million pounds more than the 1959-63 average.

FIELD DAY SET BAKER, Ore., April 23 — Juniors from all over Oregon will convene June 5 at the famed Chandler Hereford ranch here for the third annual Oregon Junior Hereford association field day, according to Stephen Wolfe, Wallawa, association president.

TELEVISION SCHEDULES

FRIDAY, APRIL 23 'Bob Hope Presents' (7:30 p.m. NBC) — Bob's last variety show of this season. Guests will include actress Gina Lollobrigida, singers Nancy Wilson and Frankie Avalon, and charmer Pete Fountain. 'The Addams Family' (7:30 p.m. ABC) — Ignoring notices that their venerable mansion is to be condemned for a projected freeway, the Addamses are suddenly startled by a series of loud explosions not traceable to any member of the family. After finally realizing their beloved dwelling is in danger when city workmen begin blasting trees around the house, Gomez considers moving to another lot and creating a new set of swamps.

BEST FRIDAY NIGHT MOVIES 'Escape to Burma' (1955) — Barbara Stanwyck and Robert Ryan (10:40 p.m. KMYT) — Fugitive finds refuge and romance in an isolated jungle home. 'Threadbare melodrama, nothing new.' 'Morning Glory' (1933) — Katharine Hepburn, Douglas Fairbanks, Jr. and Adolphe Menjou (Midnight, KUTV) — Smalltown girl struggles to become a great Broadway actress. Fine performance by Miss Hepburn is the highlight of this well-done drama.

FRIDAY, APRIL 23, 1965 Information below is given the Times-News by stations and questions should be directed to the station concerned. (Note: "TBA" indicates program is To Be Announced.)

Table with columns for station (KMYT, KBOI, KTVB, KID), time, and program details.

MAKE A GOLD STRIKE SAVING STAMPS WITH EACH NEW HOOK-UP AT THE CURRENT LOW APRIL RATE... LIMITED TIME OFFER! MORE THAN EVER... THERE'S MORE TO SEE ON CABLE TV. PHONE TODAY! 733-6230

SATURDAY, APRIL 24

'Baseball' (11:45 a.m. CBS) — Los Angeles Angels vs. the New York Yankees. 'Baseball' (Noon, ABC) — St. Louis Cardinals vs. the Cincinnati Reds. 'Secret Agent' (7 p.m. CBS) — Drake undertakes a hazardous mission to the Middle East to rescue the organizer of a complex espionage system. 'Hollywood Palace' (9:30 p.m. ABC) — Pat Boone is host, with guests Dorothy Collins, Jack E. Leonard and Ben Blue.

BEST SATURDAY NIGHT MOVIES 'Annie Get Your Gun' (Color, 1950) — Betty Hutton, Howard Keel and Louis Calhern (7 p.m. KUTV, KBOI and KIFI) — Good movie version of Irving Berlin's Broadway hit about Annie Oakley and her romance with Frank Butler, both sharpshooters. Entertaining musical-comedy. 'My Cousin Rachel' (1953) — Richard Burton and Olivia de Havilland (10:15 p.m. KTVB) — Interesting, suspenseful melodrama involving murder in 19th century England. Good performance. 'The Prince and the Showgirl' (1957) — Marilyn Monroe and Laurence Olivier (10:30 p.m. KUTV) — Dull, slow-moving comedy-drama about a romance between an American showgirl and grand duke. 'None but the Lonely Heart' (1944) — Cary Grant and Ethel Barrymore (10:50 p.m. KBOI) — Cockney wanderer searches for some sort of spiritual fulfillment in the days before World War II. Excellent acted, powerfully written drama.

SATURDAY, APRIL 24, 1965 Information below is given the Times-News by stations and questions should be directed to the station concerned. (Note: "TBA" indicates program is To Be Announced.)

Table with columns for station (KMYT, KBOI, KTVB, KID), time, and program details.

Corn Placed Under Loan Reaches Low

WASHINGTON, April 22 (AP)—The agriculture department said 770 million bushels of the 1944 crop corn had been placed under price-support loan as of March 31.

This is the least amount of corn placed under loan for the date in 19 years.

The corn under loan March 31, 1944, totaled 772.9 million bushels. In 1935, the corn under loan totaled 493.3 million bushels.

Wheat under loan on March 31, total 194.7 million bushels, compared to 160.8 million bushels a year earlier. Oats under loan on March 31 totaled 49.2 million bushels compared with 77.6 million bushels a year earlier.

Soybeans under loan March 31 totaled 28.6 million bushels. A year ago there were 69.8 million bushels under loan.

35 Herds on North Side Produce Well

JEROME, April 23—Of the 49 herds tested in the Gooding-Lincoln-Jerome Dairy Herd Improvement association unit number two, 35 herds produced an average of 30 or more pounds of butterfat during March, according to Ben Russell, official tester for the unit.

Leroy Weigle, Jerome, with 35 grade Holsteins, averaged 1,410 pounds of milk and 84.2 pounds of butterfat. Lyle F. Anderson, Jerome, with 37 registered Holsteins, averaged 1,288 pounds of milk and 48.7 pounds of butterfat. Jack Nelson, Jerome, with 41 grade Holsteins, averaged 1,264 pounds of milk and 45 pounds of butterfat.

Bob Holloway, Wendell, with 14 registered Jerseys, averaged 833 pounds of milk and 44 pounds of butterfat. Don Thibault, Jerome, with 54 grade Holsteins, averaged 1,266 pounds of milk and 44 pounds of butterfat. W. O. Priest, Jerome, with seven registered Jerseys, averaged 803 pounds of milk and 45 pounds of butterfat.

Gall Williams, with 40 grade Holsteins, averaged 1,116 pounds of milk and 42.7 pounds of butterfat. Dr. F. J. Supple, Jerome, with 42 registered grade Holsteins, averaged 1,201 pounds of milk and 42.4 pounds of butterfat. Martin Jauregui, Dietrich, with 18 grade Holsteins, averaged 1,117 pounds of milk and 42.2 pounds of butterfat.

John Herrmann, Hunt, with 10 registered grade Holsteins, averaged 1,241 pounds of milk and 42.1 pounds of butterfat. George Beer, Jerome, with 35 registered Guernseys, averaged 868 pounds of milk and 42 pounds of butterfat. Archie Malone, Jerome, with 45 registered Holsteins, averaged 1,168 pounds of milk and 41 pounds of butterfat.

Ronald G. and Glen A. Taylor, Wendell, with 46 registered grade Holsteins, averaged 1,141 pounds of milk and 40.7 pounds of butterfat. John Webster, Jerome, with 28 grade Holsteins, averaged 1,070 pounds of milk and 40.3 pounds of butterfat. Orville Mattice, Wendell, with 42 grade Holsteins, averaged 1,078 pounds of milk and 40.2 pounds of butterfat.

Verl Hilton and daughter, Hazelton, with 22 registered grade Holsteins, averaged 987 pounds of milk and 39 pounds of butterfat. Jack Edwards, Dietrich, with 26 registered Holsteins, averaged 1,119 pounds of milk and 38.9 pounds of butterfat.

A. L. Blades, Jerome, with 16 grade Holsteins, averaged 1,076 pounds of milk and 37.3 pounds of butterfat. Newbrough and Mrachek, Wendell, with 44 registered grade Holsteins, averaged 1,046 pounds of milk and 37 pounds of butterfat. Frank Beer, Jerome, with 13 registered Guernseys, averaged 785 pounds of milk and 36.7 pounds of butterfat.

Lucille Slatter, Jerome, with 18 grade Holsteins, averaged 1,034 pounds of milk and 35.6 pounds of butterfat. Henry Reid, Jerome, with 52 grade Holsteins, averaged 1,059 pounds of milk and 35.4 pounds of butterfat. Bob Fuller, Jerome, with 31 registered grade Holsteins, averaged 1,000 pounds of milk and 33 pounds of butterfat.

Raymond Clark, Jerome, with 29 grade Holsteins, averaged 996 pounds of milk and 35 pounds of butterfat. Bert J. McGowan, Dietrich, with 23 grade Holsteins, averaged 947 pounds of milk and 34.1 pounds of butterfat. Paul Beckman, Jerome, with 39 grade Holsteins, averaged 956 pounds of milk and 34 pounds of butterfat.

J. B. Thomason, Jerome, with 18 grade Holsteins, averaged 1,006 pounds of milk and 34 pounds of butterfat. Herman Hall, Jerome, with 12 grade Holsteins, averaged 960 pounds of milk and 33.5 pounds of butterfat. Keith Jackson, Shoahone, with 28 grade Holsteins, averaged 945 pounds of milk and 33 pounds of butterfat. Frank Houston, Jerome, with seven registered Holsteins, averaged 845 pounds of milk and 32 pounds of butterfat. Tom Metzler, Jerome, with 24 registered grade Guernseys, averaged 728 pounds of milk and 32 pounds of butterfat.

Harvey Davis, Jerome, with 29 grade Holsteins, averaged 896 pounds of milk and 31.8 pounds of butterfat. Dallin Collins, Jerome, with 19 grade Holsteins, averaged 877 pounds of milk and 31.2 pounds of butterfat. Gordon Martin, Hunt, with 22 registered Holsteins, averaged 883 pounds of milk and 31 pounds of butterfat.

IRRIGATION WATER moves from Snake river, in the background, into the delivery system of the Milner low-lift canal. The canal serves farmers in the east end of Twin Falls county and the west end of Cassia county. (Times-News photo)

54 Cows in Gooding, Lincoln, Jerome Unit Make Records

JEROME, April 23—Fifty-four cows in the Gooding-Lincoln-Jerome Dairy Herd Improvement association unit number two produced 75 or more pounds of butterfat, according to Ben Russell, official tester for the unit.

Three of these cows produced over 100 pounds of butterfat, seven others produced over 90 pounds, and another 16 produced over 80 pounds of butterfat.

Melanie, registered Holstein, owned by Gordon Martin, Hunt, produced 3,109 pounds of milk and 112 pounds of butterfat. Lark, grade Holstein, owned by Gall Williams, Jerome, produced 2,890 pounds of milk and 109.4 pounds of butterfat. No. 25, grade Holstein, owned by Jack Nelson, Jerome, produced 2,430 pounds of milk and 104.5 pounds of butterfat.

Dora, registered Holstein, owned by Archie Malone, Jerome, produced 2,712 pounds of milk and 97.8 pounds of butterfat. Orville, registered Holstein, owned by Lyle F. Anderson, Jerome, produced 2,290 pounds of milk and 95.8 pounds of butterfat.

Nicki, registered Holstein, owned by Jack Edwards, Dietrich, produced 2,500 pounds of milk and 95 pounds of butterfat. Daisy Ann, registered Holstein, owned by Ronald G. and Glen A. Taylor, Wendell, produced 2,200 pounds of milk and 94.6 pounds of butterfat. Stu Foot, grade Holstein, owned by Leroy Weigle, Jerome, produced 2,230 pounds of milk and 93.7 pounds of butterfat.

Jewell, registered Holstein, owned by Verl Hinton and daughter, Hazelton, produced 2,128 pounds of milk and 92 pounds of butterfat. No. 2, grade Holstein, owned by Jack Nelson, Jerome, produced 2,858 pounds of milk and 91 pounds of butterfat. Daisy, registered Holstein, owned by Archie Malone, Jerome, produced 2,894 pounds of milk and 89 pounds of butterfat.

Rose, grade Holstein, owned by Gall Williams, Jerome, produced 2,280 pounds of milk and 88.9 pounds of butterfat. Shirley, registered Holstein, owned by Verl Hinton and daughter, Hazelton, produced 1,950 pounds of milk and 88 pounds of butterfat. Judy, grade Holstein, owned by Stan Fritzier, Jerome, produced 2,190 pounds of milk and 87.6 pounds of butterfat.

No. 77, grade Holstein, owned by A. L. Blades, Jerome, produced 2,570 pounds of milk and 87.4 pounds of butterfat. Blondie, registered Holstein, owned by Ronald G. and Glen A. Taylor, Wendell, produced 2,120 pounds of milk and 84.8 pounds of butterfat. Lopsy, registered Holstein, owned by Lyle F. Anderson, Jerome, produced 1,630 pounds of milk and 84 pounds of butterfat.

Inga, registered Holstein, owned by Archie Malone, Jerome, produced 2,468 pounds of milk and 84 pounds of butterfat. Myrtle, grade Holstein, owned by Lucille Slatter, Jerome, produced 2,406 pounds of milk and 84 pounds of butterfat. Macherie, registered Holstein, owned by Jack Edwards, Dietrich, produced 2,390 pounds of milk and 83.7 pounds of butterfat. Whittie, grade Holstein, owned by Leroy Weigle, Jerome, produced 2,030 pounds of milk and 83.2 pounds of butterfat.

Luster, registered Holstein, owned by Verl Hinton and daughter, Hazelton, produced 1,965 pounds of milk and 83 pounds of butterfat.

Winter Spud Production Is Declining

BOISE, April 23 — The production forecast for winter potatoes, at 3,518,000 hundred-weight, is down from a month ago and is five per cent less than 1964.

Supplies from Dade county, Fla., were heavy by mid-March and will continue until mid-April. Harvest of reds in the Ft. Myers-Immokalee area was about completed by April 1 but digging of whites continues.

In California, digging of winter crop potatoes continued quite active into March but was nearing completion in most areas by April 1.

The first forecast of early spring potato production is 4,782,000 hundredweight, 14 per cent more than 1964. An increase in acreage for harvest more than offset the indicated reduction in average yield per acre.

The indicated production for the Hastings area of Florida, where most of the early spring crop is grown, is up eight per cent from 1964. Older plantings in Hastings were damaged by winds the last of February and first half of March, but growth in late March was good.

Younger plantings have made favorable progress. There were a few potatoes harvested by April 1 and volume movement is expected about mid-April. In other Florida areas, production is expected to be more than twice as large as 1964. Harvest in the Delton area was expected to start in early April and in the Everglades area in late April. Potatoes in the Rio Grande Valley of Texas were damaged by a freeze in late February. Prospective yield per acre is about half the 1964 level although production because of the large increase in acreage is estimated more than one-third larger than last year. Harvest is not expected to start before late April.

The acreage of late spring potatoes planted was seven per cent above Jan. 1 intentions. The 121,200 acres indicated for harvest are 26 per cent more than in 1964. The California acreage, 54,400, is 48 per cent more than in 1964—accounts for most of the increase. There are also acreage increases in Arizona, Texas, Louisiana, Alabama, South Carolina, and North Carolina.

Planting in California was accomplished on a normal time schedule. Growth has been good and stands are generally good. Cold weather in March slowed growth in south Texas and delayed planting in other Texas areas. Harvest in the other Texas areas is expected to begin in late April, later in other areas. Commercial acreage in Louisiana was planted about on schedule but cold weather and frost-retarded development. In Alabama, cool, wet weather delayed completion of planting. Growth in the Baldwin area was good the latter part of March, and harvest is expected to start about May 1. In South Carolina, excessive rains in February and March prolonged planting and retarded growth. Planting in North Carolina was completed in late March with soil moisture supplies favorable.

Insecticides Book Is Offered

WASHINGTON, April 23 — Nicknamed "the bug book," the 1965 pocket-size bulletin on the use of insecticides by dairy farmers was issued this month by the National Milk Producers Federation.

New this year in the 16-page booklet is space to keep records on the use of pesticides, and the flagging in red ink of those which require expert application.

Lucky Debonair Wins in Blue Grass Stakes to Remain Prime Derby Pick

LEXINGTON, Ky., April 23 (AP)—Lucky Debonair, co-favorite in the Kentucky derby, held off late charging Swift Ruler Thursday for a one-half length victory in the \$30,400 Blue Grass stakes at Keeneland. Jockey Willie Shoemaker sent Mrs. Ada L. Rice's Vertex colt to the lead with one-half mile to go and took him under the wire in a driving finish. Mrs. Mary Keim's Mr. Pak was a surprise third and

Orioles Stun Solons With 20-Hit Attack

WASHINGTON, April 23 (AP)—The Orioles collected four hits and drove in four runs, leading a 20-hit Baltimore attack that burst Washington 18-4 Thursday night.

The run barrage, highest in D.C. stadium's four-year existence and most in the majors this season, started in the first inning with two-run homers by Brooks Robinson and Curt Blewett and lasted through the eighth inning when the Orioles erupted for seven runs, six of them unearned.

Aprilio, who also stole two bases and scored three runs, ignited the eighth-inning uprising with his first homer of the season and ended it with a two-run double. Following the home run, Don Blasingame dropped Bog Powell's pop fly, paving the way for the rest of the runs.

Aprilio singled twice and walked once in his other four at bats.

APRILIO: 440 001 570—18 10 1
 Washington 000 220 000—4 5 2
 Bunker, Palmer (2), Green (2), Duckworth (7), Willhite (8), McCormick (1) and Camilli. W.—Bunker (1-1).
 L—Aprilio (10-2).
 Home runs, Baltimore, Robinson (2), Biliary (1), Aprilio (1).

Matson Tops Entries in Drake Relays

DES MOINES, Ia., April 23 (AP)—Muscular Randy Matson, easily the biggest man and attraction at the Drake relays, takes aim Friday at the first of two records he is expected to harvest.

The Texas A and M sophomore is the most heralded dualist in the meet, and at 260 pounds has more to work with than his rivals.

Matson's efforts in the discus will be closely watched as the 5th annual Drake track and field meet gets under way.

He has tossed the discus 201 feet, 5 1/2 inches, more than 15 feet better than the seven-year-old Drake mark.

On Saturday Matson will shoot again for the world's first 68-foot toss in the shot put. He has a best of 87 feet, 11 1/4 inches, eight feet past the Drake mark set a year ago by Baylor's Frank Mazza.

However, Matson will have plenty of competition in the race for outstanding athlete.

New Mexico's Clarence Robinson, who won that honor last week at the Kansas Relays, is favored to win the broad jump

Oklahoma State will try to lower the world mark in the two-mile relay. Richard Stebbens of Grambling is given a good chance to trim the Drake century standard, and pole vaulter Mike Graves of Occidental college and high jumper Otis Burrell of Nevada could give some luster to Drake's modest jump records.

Chicago Nips Reds 3-2 in Pitching Duel

CHICAGO, April 23 (AP)—Billy Williams singled in the eighth inning Thursday to score Glenn Beckert for a 3-2 Chicago Cubs triumph over the Cincinnati Reds, ending a tight pitching scrap between Jim O'Toole and Cal Koonce.

Beckert opened the inning with a bouncing single to third base, sacrifice and reached third on Bill McCool's wild pitch. McCool worked only the eighth, taking over after O'Toole was lifted for a pinch hitter.

Cincinnati — 010 000 010—2 6 0
 Chicago — 100 000 112—3 7 0
 O'Toole, McCool (8) and Favelier.
 Koonce, Abernathy (3) and Bertell.
 W—Abernathy (1-0). L—McCool (7-1).
 Home runs, Edwards (1).

Lucky Debonair's victory was the bay colt's fifth in eight starts this year and ran his winnings to \$145,210.

Shoemaker, who is scheduled to ride Lucky Debonair in the derby on May 1 at Louisville, also was aboard when the colt won the Santa Anita derby by four lengths over Jacinto in a time two seconds faster than Thursday's race.

Swift Ruler finished one and one-fourth lengths ahead of Mr. Pak, with Adsum another four and one-half lengths back.

The Blue Grass winner's circle has produced the Kentucky Derby winner five times in 41 races — the last two years straight with Chateaugay and Northern Dancer.

Shoemaker, who has won two derbies, said after the race he believes Lucky Debonair "has got as good a chance as any of them now."

All six 3-year-olds are eligible for the Derby and Lucky Debonair, Swift Ruler and Country Friends are nominees for the derby. Preakness and Belmont stakes.

NCAA Okays Probe Into Track Feud

KANSAS CITY, Mo., April 23 (AP)—Walter Byers, executive secretary of the National Collegiate Athletic association (NCAA) said Thursday he would welcome a congressional investigation into the long feud between the NCAA and the amateur athletic union (AAU).

Hilmer Lodge, meet director of the Mt. San Antonio relays at Walnut, Calif., earlier called for such an investigation after the NCAA forced withdrawal of Texas Southern university athletes because the event has only AAU sanction.

Lodge telegraphed President Johnson and California senators Kuchel and George Murphy urging the investigation.

"The NCAA will welcome a thorough inquiry into the differences which exist between the U. S. track and field federation and the AAU and will cooperate completely with congress in any such inquiry," Byers said.

Byers said he was "convinced that impartial investigation will show the school-college position advocating cooperative sanctioning of domestic open track and field competition to be completely reasonable and right as opposed to the exclusive claims of the AAU."

"Cooperative sanctioning will encourage both maximum participation and the highest level of competition by American athletes," he said.

Philadelphia Group Seeks AFL Squad

PHILADELPHIA, April 23 (AP)—Young Jack Kelly, sculling champion and brother of Princess Grace of Monaco, and a group of Philadelphia businessmen announced Thursday that they had made formal application for an American Football league franchise here.

Kelly said a letter of intent was filed with the AFL Wednesday. The former diamond sculler said also that he had been in telephone communication with commissioner Joe Pess and other AFL personnel informally in past weeks.

He said he had not talked with Pess recently.

The partners in the franchise bid are Maurice Herzfeld and Irwin Horowitz, associates in a real estate development firm, and Norman and Max Raab, apparel manufacturers.

Kelly, at a news conference, said that given "initial opportunity and a fair amount of time, I am convinced that we will provide for Philadelphia fans another football team of which they can be proud."

"The National Football League Eagles have been here since 1933.

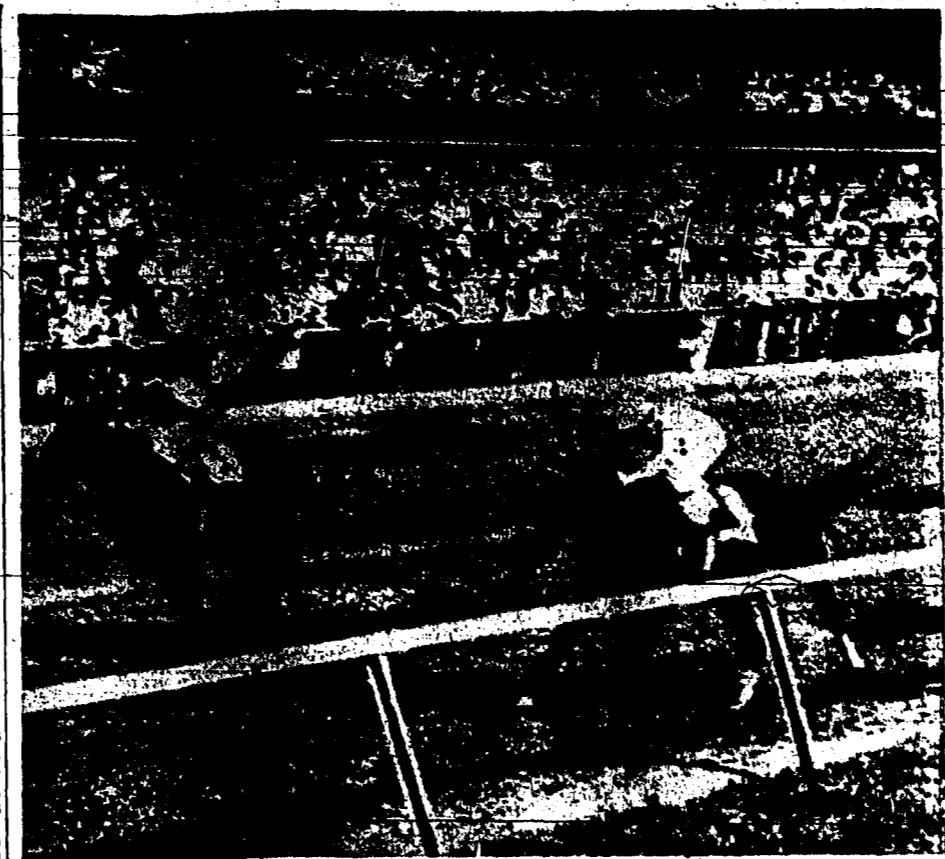

"It is my hope that my associates and I will convince the AFL to favor this city and our group with a franchise which will be nurtured with sincere dedication."

Kelly said that if the franchise were granted, play appeared out of the question for the 1965 season, but that the group hoped it would be ready for 1966-7.

He said "as much money as necessary" would be put behind a franchise if it were granted the group and placed a two million dollar estimate on needs for the first year.

For \$1655 you can buy a good used car. Or a great new one.

The great new car is an Opel Kadett—from General Motors. It seats five in comfort, with real stretch-out room in the rear. It's got a lively 46-hp engine that goes and goes on a gallon of gas.

WINNING A CLOSE ONE, Willie Shoemaker brings Kentucky dergy co-favorite Lucky Debonair, on rail, down the stretch for a narrow victory over Swift Ruler in Thursday's \$25,000-added Blue Grass stakes at Keeneland. Mrs. Ada L. Rice's colt ran the one and one-eighth mile in 1:49. (AP wirephoto)

SPORTS

Painted Dome Passes Test On Fly Balls

HOUSTON, April 23 (AP)—The Houston Astros tested the tinted skylights of the Astrodome during an afternoon workout Thursday and said they believe the glare problem has been solved.

"Only about one-half of the dome has been painted so far, but I'm sure afternoon games can be played without difficulty," said manager Luman Harris.

Rusty Staub, young right fielder, agreed. "You can see the ball now," Staub said. "Before they started painting, you couldn't see it at all."

Houston outfielders had difficulty following the ball because of the sun glaring through the 4,506 plastic skylights when they held their first workouts in the \$16 million dollar stadium the afternoons of April 7 and 8. Most wore batting helmets to protect themselves against fly balls lost in the glare.

Monday architects and engineers had decided the problem could be solved by painting the plastic sections with a thin coat of off-white paint.

Utah Runners Beat Wyoming

LARAMIE, Wyo., April 23 (AP)—The University of Utah track team paced by swift Taylor Williams, outpointed the University of Wyoming Thursday 88-57 in a dual meet.

Williams won the 100 yard dash, the 220 and anchored the Redskins' victorious 440 relay team to pace Utah to their third dual meet victory in five starts.

It was the second meet ever staged on Wyoming's new track, completed the middle of the season last year. Eleven track records were broken.

Wyoming's Charles Thomas, world's third-ranking broad jumper, set a Wyoming record of 25 feet, 1 1/4 inches.

Sets Season

MOOSE, Wyo., April 23 (AP)—The Wyoming game and fish commission and the national park service announced Thursday a 53-day elk hunting season has been scheduled for Grand Teton national park.

About 3,000 special permits will be available for the Grand Teton season, Oct. 9-Nov. 30.

State game and fish commissioner James B. White said this year's season will be divided into two periods, with the first 1,000 permits valid for the entire season.

The second 2,000 permits will be valid only Oct. 30-Nov. 30.

Twins Keep Mastery Over Yankees 8-2

NEW YORK, April 23 (AP)—Tony Oliva smashed two home runs and Zolte Versalles drove in three runs with a bases-loaded single and inside-the-park homer in support of Jim Kaat's five-hit pitching, paving the way for an 8-2 Minnesota rout of the New York Yankees Thursday.

It was the league-leading Twins' fourth straight and fifth triumph in six games. Three of the victories have been over the Yankees who now have lost three in a row.

Kaat, 6-7 foot, 4-inch, 205-pound southpaw, struck out five, walked one and hit a batter as he recorded his second triumph without a defeat. His teammates backed him up with a 12-hit attack against four Yankee hurlers.

Minnesota — 000 000 203—8 12 3
 New York — 100 000 100—2 5 1
 Kaat and Batter; Downing, Shelden (2), Reniff (6), Ramos (8) and Schmidt. W—Kaat (2-0). L—Downing (1-1).
 Home runs, Minnesota, Oliva 2 (3), Versalles (1).

"Mom finally said I could go to the movie with Ken but she WON'T let me borrow her eyelashes!"

"Oh, I realize students today have more to learn than in my day. You have FOUR R's now, instead of three! Readin', Ritin', Rithmetic, and Riotin'!"

"I told you to WALK him! Not make him run for his life!"

OWEE! SOUNDS LIKE IT'S GONNA BE SOME NIGHT!!

IN INJUN LANGUAGE, HIS RED FEATHER MEANS "TONIGHT'S THE NIGHT!"

SEE YOU LATER, LI'L ORPHAN ANTELOPE!! TONIGHT'S THE NIGHT WITH DADDY WARPAPATH!!

IN INJUN LANGUAGE, RED FEATHER MEANS "TONIGHT'S THE NIGHT!!" SO, COME TO POINT!!

I LOVE YOU!! -UGH!!

Captain Easy

SO GLAD YOU FEEL FINE TODAY, DADDY! HAVE A BALL IN ENGLAND!

TELL MR. MCKER I HOPE HE FINDS SOME LIVELY OLD CRONES, AND LET'S HIS HAIR DOWN!

THIS TRIP WILL ROLL BACK THE YEARS, BASTY! LONG-FORGOTTEN MEMORIES ARE RETURNING ALREADY!

WITH ME ALONG TO TRANSACT OUR BUSINESS, YOU WILL BE FREE TO VISIT!

BY THE WAY, ZACHARY TROON LEFT TODAY. SAID HE'D FINISHED HIS WORK HERE, AND WILL RETURN TO OUR WEST COAST PLANT AFTER A BRIEF VACATION! STRANGS!

Box Morgan, M. D.

HOW DID YOU COME TO THAT CONCLUSION?

LIZ, I HAVE EVERY REASON TO BELIEVE YOU WERE LYING ABOUT DR. MORGAN!

THAT'S BESIDE THE POINT, DID YOU LIE TO ME?

WHY? HAVE I AN OBLIGATION TO TELL YOU NOTHING BUT THE TRUTH, SO HELP ME!

TAKE YOUR HANDS OFF ME, ERIC HARDY... AND GET OUT OF HERE!

Gasoline Alley

I feel terrible letting that poor girl walk out of here! She needs help!

We don't know a thing about her, Phillis!

She might be running from the law!

We could get ourselves into all kinds of trouble!

Hurry, Walt, before she gets out of eight!

Rip Kirby

GLADYS THREW HERSELF INTO THE ROLE. SHE INSISTS ON LIVING EXACTLY AS GERTRUDE DID!

BUT SHE BECAME TERRIFIED THAT HISTORY WILL REPEAT ITSELF, RIGHT, W. J.?

RIGHT, RIP...

WELL, I HAVE TO GET BACK TO THE YEAR 1902. GOOD TRIP, IF THE FIRST MISS GIBSON HAD YOU, SHE MIGHT HAVE LIVED LONGER.

Major Hoopie

HERE YOU ARE, CHARLEY-- 2 FOR 1! WHY IS IT YOU'VE NEVER OPENED A SECOND SHOP? AS A BUSINESS CONSULTANT, I CAN ASSURE YOU THAT EXPANSION IS VITAL TO CAPITAL GROWTH!

MAKE THAT TEN DOLLAR AND MY CAPITAL GLOW QUICK, MAJAH HOOPLAH! LONG TIME AGO YOU TELL ME YOU PAY ON GROUNDHOG DAY, BUT CHARLEY NO SEE YOUR SHADOW? NO COLLECT IN ONE SHOP WHY HAVE TWO? YOU GLASP WHAT I SAY, MAJAH?

STAY SMALL, CHARLEY, STAY SMALL!

Out Our Way

WE'RE TRYIN' TO GET TH' BUNCH TO AGREE TO SIGN A COMMITTEE UP AN' ASK FER ANOTHER SHIRT TO BE PUT ON!

YAH-- ON YOU OLD FOSSILS THAT HAVE GOT YOUR KIDS RAISED AN' YOUR HOMES PAID OFF AN' NOW WANT TO PRACTICALLY RETIRE!

WELL, THEY COULD LET THE OLD BOY WORK TH' MIDDLE SHIRT AN' BIT HIM ON THE OTHER TWO!

BORN FORTY YEARS TOO SOON

Short Ribs

WELL, WHAT'S THIS? A FOUR-LEAF CLOVER?

IT'S JUST SUPERSTITION, OF COURSE....

... BUT THEY'RE SUPPOSED TO BRING GOOD LUCK.

Alley Oop

MY GOSH, SOME OF DOP'S RELATIVES, D'YOU SUPPOSE?

AW, COME ON, DOC, YOU KNOW BETTER THAN THAT!

I TOLD YOU TO WALK HIM! NOT MAKE HIM RUN FOR HIS LIFE!

Ben Casey

BEN, THE HOSPITAL CALLED ABOUT MARK STARK. HE'S DISAPPEARED!

ELAINE, WILL YOU DRIVE ME BACK?

NOT ON YOUR LIFE, DR. BEN CASEY. I'M NOT GOING TO WASTE MY TIME CHASING THAT WRETCHED MAN!

SHE OFTEN BITES OFF THE HANDLE THAT WAY, BUT THIS TIME I'M MYSTIFIED, HAVE YOU ANY IDEA WHY?

Steve Roper

YOU SAY A MR. FIGG WAS KILLED? DEAR ME! I ONCE KNEW A FELLOW BY THAT NAME!

HE RAN A SORT OF A SCHOOL-- WHERE I WAS A STUDENT-- UNTIL LAST NIGHT!

DO YOU GO WITH DOLLY TO GET HER CLOTHES-- WHEN WE SAW "THE DANCERS" SHOOT FIGG?

... THE --UH-- "DANCERS"?

JUST WHAT FIGG YELLED, THEN THEY STARTED TO CHASE US-- THROUGH THE SUBWAY-- THE MUSEUM-- ALL NIGHT! ... IT'S BEEN HORRIBLE! I'M SURE IT HAS! ... AND I PROMISE YOU THAT ANYONE INVOLVED IN THE CRIME SHALL BE PROPERLY DEALT WITH!

Boop Bunny

TAKE ME TO FIRST AND ELM STREETS!

RIGHT, MISTER MYSTO!

HERE WE ARE, DOC!

THAT'LL BE SIXTY CENTS!

VERY WELL!

HMM... I'M SURE I HAVE CHANGE HERE SOMEWHERE!

Terry and the Pirates

AMHERST SEEMS WE MUST CONVINC THIS INQUISITIVE YANKEE THERE IS NO DEEP MYSTERY ABOUT OUR PIPELINE... BRING THE MAP.

SO! IT REVEALS OUR DARK SECRET-- THAT THE OIL IS PIPED DIRECTLY FROM THE FIELD TO THE TANKER PORT, FASCINATING, JAT?

NOT VERY.

YOU ARE DISAPPOINTED! HERE, LET ME MAKE IT A TRIPLE MORE INTERESTING-- BY MARKING THE EXACT SPOT WHERE YOUR PLANE DESTROYED THE ARMORED CAR!
