

McDivitt, White Describe Events Of Space Journey

HOUSTON, Tex. (AP)—James McDivitt and Edward White II, America's space endurance champs, said today they were prepared to add an extra day to their four-day flight and shoot for a world record. The Gemini 4 space twins described in colorful detail the memorable moments of their mission—walk in space, faulty computer, balky hatch, spectacular re-entry—during a televised news conference. After the conference was over The Associated Press asked McDivitt: "How would you like to stay up a fifth day?"

Restrictions On Watering Lawns Slated

Twin Falls residents were reminded by H. L. Derrick, city manager, that beginning Tuesday they are to sprinkle their lawns on alternate days. Lawns are to be watered on alternate days, corresponding with house numbers—those with even numbers on the even numbered days of the month, etc. This doesn't apply on Saturdays, Sundays and holidays, when there is no restriction on watering. The ordinance doesn't apply to new lawns needing more water, according to the city manager.

Maximum penalty for not abiding by the ordinance is \$100 fine and/or 30 days in jail, with each day constituting a separate violation. The rule is in effect through Sept. 15. Derrick pointed out this procedure is needed because the small pipes in the city water system aren't able to relay enough water to the whole city for summer lawn watering. He said this is one of the reasons the water bond, just approved, was important to the city.

White agreed that a moment, then said, "I could have done it. I was tired, but I could have done it." White agreed that a moment, then said, "I could have done it. I was tired, but I could have done it." White agreed that a moment, then said, "I could have done it. I was tired, but I could have done it."

White said he was surprised at the clarity with which he could see the ground. "I could see much greater detail than I could from an aircraft flying at 40,000 feet," he said. "I was quite impressed," he said. McDivitt said the faulty computer was a "wonderful part of the mission."

High School Rodeo Opens At Gooding

GOODING—Fifth District High School Rodeo will open at 8 p.m. today and continue through Saturday night, at the Gooding County Fairgrounds arena. Events for both boys and girls will be held during the two-day event and the top winner of each will receive a college scholarship. The top three winners in each boys and girls event will be awarded a belt buckle, according to Ray Pruett, general chairman for the Jaycees, sponsors of the rodeo.

Salmon Sets Jaycee Meet On Weekend

SALMON — Some 300 Idaho Jaycees and Jay-Cettes are expected to attend a weekend conclave in Salmon, Bob Stephenson, Salmon Jaycee president, reports. Registration will be conducted from 8 a.m. to 2 p.m. Saturday with an executive committee meeting scheduled at 11 a.m. and a board of directors meeting set for 1 p.m., both at the Pioneer School. Dale Hoskins, Pocatelto, state president, will preside.

Business activities of the meeting will deal mainly with familiarizing new officers of local clubs and the state organization with their duties. Stephenson said. Officers are expected to approve a budget and discuss a new system for conducting the "parade of cities and districts," a Jaycee program. Saturday evening a steak fry is planned outside the Pioneer School with each club to provide a five-minute skit. A prize will be awarded for the best one.

Several Islands Reported Eroding

MELBOURNE (AP)—Several islands off Australia's southern coast are in danger of washing away and rabbits are to blame, the director of the Australian Foreign Ministry's Antarctic division said today. Dr. Philip Law said rabbits have eaten all the vegetation on Citadel, Rabbit and Macquarie islands, and the islands now are eroding rapidly.

Business activities of the meeting will deal mainly with familiarizing new officers of local clubs and the state organization with their duties. Stephenson said. Officers are expected to approve a budget and discuss a new system for conducting the "parade of cities and districts," a Jaycee program. Saturday evening a steak fry is planned outside the Pioneer School with each club to provide a five-minute skit. A prize will be awarded for the best one.

East Room Gets Portable Stage

WASHINGTON (AP)—A new, portable aluminum stage to brighten the architecture of the East Room has been presented to the White House as a gift by Mrs. Rebekah Harkness of New York. The stage will not be ready for use until the fall, the White House said Thursday, but an architectural rendering in color was presented to Mrs. Lyndon B. Johnson Thursday night by Mrs. Harkness.

Business activities of the meeting will deal mainly with familiarizing new officers of local clubs and the state organization with their duties. Stephenson said. Officers are expected to approve a budget and discuss a new system for conducting the "parade of cities and districts," a Jaycee program. Saturday evening a steak fry is planned outside the Pioneer School with each club to provide a five-minute skit. A prize will be awarded for the best one.

EARTHQUAKE NOTED

TOKYO (AP)—A light earthquake shook northern Japan today, the Meteorological Agency said. No casualty or damage was reported.

AN UNIDENTIFIED U.S. soldier stumbles from a jungle hiding place after surviving the bloody battle of Dong Xoai. This picture, made Friday by AP photographer Horst Faas, shows the American GI being aided by a South Vietnamese ranger. Several U.S. servicemen were killed in the fighting. (AP wirephoto by radio from Saigon)

Account of Bloody Battle in Viet Nam Is Given by Newsman

By HORST FAAS
AP Photographer

DONG XOAI, South Viet Nam (AP)—In the ghastly wreckage of this little jungle town, the bodies of some 150 young men, many of them women and children, lie strewn among the military dead this morning. Many are women and children. Much of what is left of the little community is in flames. Government troops are still fighting desperate small hand-to-hand engagements with the Viet Cong in the sprawling outskirts of the town.

Big Wood River Is Highest on Record

HAILEY — The Big Wood River has reached the highest level since records have been kept, James Knighton, Boise, Army Engineer Corps, said here Friday. The river measured 5.86 feet Friday morning and the official said he estimated the water is flowing in the swollen stream at 15 feet per second. Some oldtimers insist the river has been higher than this before, Knighton said, but he added records do not confirm the opinion.

Two Die in Hotel Fire

PLAINFIELD, N.J. (AP) — Fire swept through the sprawling century-old Victoria Hotel today, taking at least 2 lives, injuring 18 persons and leaving 2 more missing. Two bodies were recovered from the ruins and firemen began searching for other victims. The three-story hotel is located near the business district of this central New Jersey community. More than 100 permanent and burning buildings located across the street from the main Fire Department headquarters.

French Leader to Talk With Erhard

BONN, Germany (AP)—President Charles de Gaulle arrived today for two days of talks with Chancellor Ludwig Erhard about their differences over the European community. The two leaders were not expected to make much progress toward agreement.

Foot-Wear "Arkansas" Traveler Dog Returns to Heyburn, Owner Is Gone

HEYBURN—A homing pigeon has nothing on a small, black, short-haired dog from Heyburn named "Smarty." The dog returned to the home of his former master, Jerel Parker, 14, about noon Wednesday, after being given to friends who moved to Arkansas about two months ago. But he found no warm welcome from his young master, to whom he is so devoted. True to the proverbial "dog's life," the pet soon discovered new, strange occupants now live in his old home. The Parkers moved to Wilkins, Nev., soon after they gave the dog to Mr. and Mrs. Ray McCullough.

Battle Near Saigon Ends, Casualties High on Both Sides

SAIGON, Viet Nam (AP)—The battle for Dong Xoai ended today with heavy casualties on both sides. The routed Viet Cong left district headquarters in ruins, strewn with bodies of men, women and children. U.S. military authorities said the latest count of American casualties in the battle were 3 dead, 15 wounded and 15 missing. Eight of the missing were crewmen on two helicopters destroyed by enemy fire. A newsman who visited the town 60 miles north of Saigon said several American bodies were found in the ruins.

State BPW Conclave Opens in Twin Falls

Members of the Idaho Federation of Business and Professional Women's Clubs began registering Friday morning in O'Leary Junior High School for their 44th annual state convention. Registration will continue Friday and it is expected that nearly 200 will attend the three-day session. The convention began at 7 a.m. Friday with an executive board meeting which was followed by a breakfast meeting of the state board of directors. Mrs. Marian Langdon, Twin Falls, state president, officially called the convention to order at 2 p.m. and an opening skit was presented by the state board members. Rev. Ernest Hasselblad, First Baptist Church, offered the invocation and the flag was presented by Boy Scout troop No. 69.

Resigns

SAIGON (UPI) — The government of Premier Phan Huy Quat has resigned, a spokesman said tonight. A government spokesman said Quat had decided to "hand back the reins of government to the military." Quat had been embroiled for weeks with Chief of State Phan Khac Suu who refused to accept Quat's decision to dismiss two members of his Cabinet.

Outlaw Day Set Saturday At Richfield

RICHFIELD — Open horse races, arena events and the queen contest will highlight the afternoon of Richfield's Outlaw Day celebration Saturday. The annual observance will open with a parade at 11 a.m. down Richfield's Main Street. Class reunions are scheduled for Outlaw weekend and many former residents will join their families and friends here for the celebration.

Boys' Staters Start Mock Legislature

BOISE (AP) — The youth governor of Idaho's Gem Boys State proposed today sweeping revision of Idaho's constitution, a document he described as being "legislated with amendments." The state's basic code, said Gov. Jeff Hanes of Burley, was adopted "just after the people of Idaho had been subject to territorial laws that were inadequate in many cases." The result, he said, was that the drafters put into the state constitution "articles that should rightfully be a part of our statutory law."

"SMARTY" — A SMALL black dog who walked many weary miles to return to this house in Heyburn, only to find his owners have moved to Nevada, looks up expectantly from the welcome mat. Michael Tremayne, 11, left, and Russell Tremayne, 9, sons of Mr. and Mrs. Alton Tremayne, have adopted the orphaned dog. His original owner, Jarel Parker, 14, and his family gave "Smarty" to Mr. and Mrs. Ray McCullough, who took him with them to Arkansas about two months ago. (Times-News photo)

Artist Creates Portrait With Nails

CLAREMONT, Calif. (AP) — When artist Adolph A. Garza decided upon a new style he really hit the nail on the head. Hammering various nails into a board, he created a bas relief portrait without using oils. It took him a long time to locate nails with the right kind of heads," said Garza, 26. "Interesting nails are just hard to find." It took him a week to pound out the portrait, using finishing nails for detail, roofing nails to fill areas of shadow, and aluminum nails to build up highlights of brilliance. Garza said he got the idea when he noticed the setting sun gleaming on rusty nails in a weatherbeaten board.

Camporee Is Highlighted By Ceremony

BUHL — Order of the Arrow tap out ceremonies highlighted the Boy Scout Sunset District annual two-day camporee held at Niagara Springs. Tapped out during the campfire ceremony were Bill Buckenriep, Kenneth Burchell, Bob Ripa, Lee Griffith, Jerry Johnson, Mike Kearsley, Ailen Johnson, Dean Allred, Charles Ash and Randall Quigley. Adults tapped were Gerald Shackelford, Wade Quigley, Charles Conrad and Vance Butler.

Introductions were made by Shelby Williams, Sunset District chairman. Richard Snow served as song leader. John M. Barker gave a resume on the origin of the Order of the Arrow and the history of the tap out ceremony. Alan Hutchison, Scout executive from Twin Falls, and Elwood Grimes, Order of the Arrow district counselor, attended. Some 70 youths representing five troops in the West End attended the camp out. Troops attending and their scoutmasters included Troop 1, Castleford, Maurice Guerry, scoutmaster. Troop 2, Robert Lapray, scoutmaster; Troop 3, Dave Erb; Troop 5, Viri Brown, scoutmaster, and Troop 9, John Wilson and Vance Butler, scoutmasters, all Buhl.

Troop 2 of the LDS Church won the trophy in Scout craft events. They were judged in campfire building, knot tying, height judging, and a compass course. Awards also were given to the patrols for camping excellence. Ted Ahlm, district camping chairman, was in charge of arrangements.

GIRL INITIATED
GOODING—Chrystelle Mitchell, daughter of Mr. and Mrs. Robert Mitchell, Gooding, was initiated into Phi Upsilon Omicron, national home economics honorary, at the University of Idaho. Miss Mitchell also was the recipient of the Florence Deters Memorial pin for having the highest scholastic average among the Initiates.

Antique Festival Theater At Buhl Gives Scholarships

BUHL — Applications are now being reviewed for six scholarships offered for participation in the Antique Festival Theater summer repertory productions, announces Mrs. Joe Fehrenbacher, publicity chairman. The scholarships, which are for \$250 each, are being offered by local patrons and theater devotees, to drama majors in undergraduate or graduate study. This particular season two women and four men are needed because of the plays chosen for production. Scholarship winners will be cast in Moliere's "The Intellectual Ladies" and in the "Beggars Opera" by John Gay. They also will be asked to understudy in the two one act plays, Chekhov's, "The Boor" and Von Kleist's, "The Broken Jug." The schedule calls for the four plays to be presented each three day week end for seven weeks beginning July 16. Applications have been received from such widely separated places as Washington and Connecticut. The feminine side is filled with one scholarship being awarded to an Idaho girl and the other to one from Pennsylvania. One young man from Idaho has been granted a scholarship and several others are being considered. Scholarship student players will be asked to report by June 23 when "they will begin hard work at once," according to Aldrich Bowler, producer-director.

Man Elected

EDEN — Vernon Lance, Eden postmaster, was elected first vice president of the Idaho chapter of the National Association of Postmasters of the United States at the state convention in Lewiston. Mrs. Ruth Purdy, Pieabo, who was named president, and Dale Vining, Jerome, secretary-treasurer, are the only other Magic Valley persons named to state office.

They will work in all phases of the theater including the front and back of the house as well as on stage.

Some classes in "Movement for the Classical Theater" will be presented by H. Paul Kliss and sessions in fencing will be directed by Edward Chapa. There will be no fencing in this season's plays, but this is part of the planned educational program to include different skills needed in classical theater together with all phases of production. Housing arrangements for the scholarship players will vary from living rent-free in a ranch

cookshack in exchange for being lawn gardener, to a downtown second floor walk-up, just seconds from the theater doors.

Bowler pointed out in the future it is hoped to have enough scholarship money to make such as for qualified high school students who cannot afford to put in a summer without some expense money, and also for the related arts, the dance, set designing and costuming.

Class Ends
SHOSHONE—Mrs. Jessie Dasher's kindergarten class completed Thursday afternoon. Mothers visited to see handwork on display. The students took a train trip from Shoshone to Glens Ferry, where their families met them for a picnic.

NATIONAL WHIRLIGIG

BY ANDREW TOLLY
WASHINGTON—Even though Lyndon Johnson is a man who likes to carry every precinct, I do not think he is sulking in his Abercrombie and Fitch tent over losing the poet vote. Until he became President, I don't believe Johnson had ever heard of Robert Lowell or Stanley Kunitz or Alan Dugan, although the name Lowell might have rung a bell as reminiscent of a high-toned bunch in Massachusetts that once wielded a modicum of political power.

Nevertheless, it is news when somebody, even a poet, turns down an invitation to the White House. Lowell, whose jingles won a Pulitzer Prize, says he won't take part in the "White House Festival of the American Arts" Monday because he is dismayed by the administration's foreign policy. Meanwhile, Kunitz and Dugan and a clutch of other geniuses from the world of arts and letters have fired off a telegram to Johnson supporting Lowell's stand and adding some nasty cracks of their own.

DIFFERENT MCCARTHY—This group includes the novelist, Mary McCarthy, generally regarded as heavyweight champion of the egg-head class, whose most recent work, "The Group," related the adventures of some Vassar girls after their discovery of the birds-and-bees bit. Miss McCarthy has lived in Paris for some years, which offers her a splendid vantage point from which to polish her expertise on American foreign policy.

There are others among these dissenters whose names, while not exactly on every housewife's lips, are reasonably well known—Bill Styron, Robert Penn Warren, Phil Roth and the cartoonist, Jules Feiffer. But the fact remains they are not well known to Lyndon Johnson. He is not that kind of a President.

GAVE CULTURE KICK A TRY—To be sure, the President and Lady Bird have dutifully tried to carry on where Jack and Jackie Kennedy left off in the culture kick. Artists, writers and poets have been invited to take potluck at White House dinners, and Johnson even hired himself a tame thinker, whose name now escapes me.

Anyway, the Johnsons have come out more or less whole hog for the couch life. They are frequently seen laying cornerstones to opera houses, or something, and Lady Bird has encouraged young people to read books and look at paintings. An amiable man, the President never shows his impatience with poems that don't rhyme, although his taste in pictures runs to the lusty products of Frederick Remington and Al Capp.

NOT THE TYPE—Nevertheless, Lyndon Johnson is not the Robert Lowell or Mary McCarthy type President. He is too much a son of his Texas environment, too much the businesslike, practical man. When the poet, Archibald MacLeish, criticized our tactics in Viet Nam and Santo Domingo, Johnson undoubtedly wondered aloud what power is for, if not to exercise. With a war on in Viet Nam, Lyndon Johnson would not fault his own policy because it is what the Lowell-McCarthy-Styron group calls "militaristic."

Possibly, the world of arts and letters is living too much in the recent past. Ever since the assassination in Dallas, it has seemed to level a kind of spiteful grief at Lyndon Johnson, merely because he is not Jack Kennedy. The poets and the writers and the painters lament the loss of "style" and "grace" in the White House as though it were grounds for impeachment of its present occupant. But Lyndon Johnson, who has a style of his own, won't miss their neurotic support because he remains happily incapable of remembering their names.

Views of Others

PREDICTABLE REPORT

The report of the House Subcommittee on Agriculture Appropriations, criticizing the late Rachel Carson and her book "Silent Spring," comes as no surprise. Last August, about the same time that he launched his so-called investigation of the pesticides problem, Chairman Jamie E. Whitten of this group described as a "witch hunt" the official concern about chemical residues on foodstuffs.

In his position as chairman of the subcommittee, Whitten passes on the billions spent in the federal farm programs. Whitten has acted through the years as the Department of Agriculture's extension agent to Congress. The department's pest-control officials, already wounded by Miss Carson's barbs, have been hurt further by the mounting evidence that some of the chemicals they used and so strongly endorsed have been polluting the environment and causing widespread damage to fish and wildlife.

The findings of Whitten's investigators collide sharply with those of the White House Science Advisory Committee, which in May of 1963 issued a report corroborating Miss Carson's warnings and calling for drastic changes in government pest-control and pesticide procedures. Fortunately, under prodding by Secretary of Agriculture Orville L. Freeman, the department has been shifting its research emphasis to biological controls and other non-chemical methods. Some federal agencies that engage in insect control operations, notably Freeman's own Forest Service, have been changing to safer methods, abandoning in large measure the use of persistent, pollution-causing compounds such as DDT.

Now it will be necessary for Secretary Freeman to be alert to see that some of his departmental bureaucrats do not seize upon the Whitten report as an excuse to revert to old errors.—New York Times

RULE OF CONDUCT

Juvenile delinquency is a much discussed subject nowadays. But the real root of the problem is generally soft pedaled. Where does the blame lie for juvenile delinquency? It would seem that a major share of it can be charged to parents and schools. Both fail to teach and emphasize the importance of courtesy and the observance of the rights of others.

One simple little rule of conduct, if impressed on the children by parents and on students each day by teachers from the first grade in public schools to graduation in college, would help. That rule would be: Keep your hands off other people and other people's property.

Such a rule of action instilled into the young mind could save untold misery and heartaches for young and old alike. Teaching this simple rule of action would be fulfilling an obligation which adults owe the young and would relieve the elders of serious delinquency on their part. And it wouldn't take a new law or more taxes to accomplish results.—Crowley (La.) Daily Signal

POT SHOTS

IDEAL VACATION

Dear Pot Shots: In these vacation days, lots of people are just kidding themselves.

Some think a vacation involves all the driving possible. If they can't get at least 2,500 miles from home on a two-week vacation, it just wasn't worth while.

Others think they have to rough it back up in the hills someplace. They have to struggle through patches of poison ivy, kill rattlesnakes, pick ticks off themselves and fight hordes of mosquitoes. It all makes for a wonderful vacation.

Me, I think the ideal vacation involves yanking the phone off the wall, locking the front door and relaxing out in the backyard where I'm not going to be bothered by anything or anybody.

Everybody to his own taste, I guess!

Phone 513-6011
(Buhl)

NATURAL OGLERS

In these days of less restrictive dress, the male of the species demonstrates constantly that he appreciates the finer things in life.

You will see this guy's eyes constantly straying as he drives or walks along the street. He never misses a single girl and he might even look at some of the younger married ones.

It takes a rather elderly gent who fails to notice the girls. And if this elderly gent has rather poor eyesight, he's even more likely to fail to note his surroundings.

The truth of the matter is that men of all ages are just natural oglers. Even some of the more unattractive gals of all ages rate second looks. But don't expect the ogler to be able to tell you what they see.

It's just like the bank teller a few years back who cashed a bad check for a woman customer, then couldn't give police any description whatever other than reporting, "Well, she wore a rather low cut dress."

JUST CHARGE IT
Dear Pot Shots: I've discovered how some of my friends manage to obtain more of the material things in life. Some of them merely "borrow" whatever they want from stores. Naturally, you will recognize that I'm referring to some of my deadbeat friends.

It's not hard. You can get almost any appliance store to send out almost any appliance just by telling the clerk to "Charge it!" Then when the store starts pressing for payment, you get huffy with them and tell them to come and get it—you don't want it anymore. Of course, if you have more gall than normal, it's easy.

GENTLEMAN IN THE FOURTH ROW

Interpreting The News

By JAMES MARLOW

WASHINGTON (AP)—The Supreme Court would be better understood, and more easily, if all its opinions were like the one it gave this week in the case of Billie Sol Estes.

The court overturned his conviction at a Texas state trial on a swindling charge because the proceedings were televised against his wishes.

It was a tight decision, 5 to 4, but was one of the clearest, simplest and best organized the court has ever handed down, even though some people reading it, including the dissenting justices, don't agree with the conclusions.

In addition, and this was almost startling, the decision and the basic reason for it were summed up in the first paragraph. Finding the decision in an opinion is often like searching in a labyrinth.

The court, having opened with its decision, then sketched in the background and circumstances of the trial and went on from there in progressive and related steps to show how and why it made up its mind.

And, wonder of wonders, the opinion was almost totally free of legal jargon and citations of other cases. One reason may have been that this was the first time the court had ruled on the effect of television at a trial.

The court reasoned that televising his trial deprived Estes of a right guaranteed by the 14th Amendment: due process of law which, in this case meant a fair trial.

Does this mean there won't be any more televised trials in this country? The answer is probably yes for a long time. Television cameras already are barred from federal courts.

Estes was tried in a state court. The Supreme Court, sticking as usual to the case at hand, didn't explicitly say its verdict here would apply to some future televised trial.

It's possible that in some other case, under other circumstances, the Supreme Court might not rule the same way. But the explanation it gave for its action in the Estes case covered so much ground—particularly the psychological effect of television cameras—that no state judge is likely to risk a rebuff by permitting television in his courtroom.

If the majority of Supreme Court opinions had the lucidity of this one, the high tribunal—particularly the present one, one of the strongest, and most courageous in American history—would be better understood and appreciated.

Poor Man's Plato

By HAL BOYLE

DA NANG, South Viet Nam (AP)—It was a tense moment for all.

Artillery boomed in the distance. Warplanes roared off on missions perilous to many.

At the edge of the great air base here, just outside the main security checkpoint, hundreds of men stood in sweating anxiety outside a large white-painted building.

In the dense throng were airmen just back from bombing and strafing North Viet Nam. There were dust-caked Marines, worn by days of patrol on mountain and across rice paddies.

There also were clerks and bakers and mechanics and demolition men and beret-capped Army officers who had journeyed in from lonely outposts for "the big operation."

A murmur ran through every man.

"What the hell is holding this thing up?"

Inside the big building, Marine Lt. George F. Hoffman of Johnston, Pa., was just as tense. He knew the beleaguering force outside couldn't be held at bay much longer.

He gave a final inspection to his 60 Vietnamese and American assistants. He looked at his watch. It was 11 o'clock—zero hour.

"All right, let 'em in," said Hoffman.

The doors swung open—and the great breakthrough was under way.

The long-awaited opening of the Navy Post Exchange at Da Nang had taken place. Troops grabbed up shopping baskets and rushed pell-mell from counter to counter, buying everything they saw.

It was like the opening of a huge supermarket back home only bigger. It was payday for most of the men, and they were as eager to spend their money.

The 70 cases of beer in stock were gone in five minutes. Some 2,000 cases of soda and soft drinks went quickly, too.

Lucky first comers staggered out of the \$100,000 warehouse burdened with cameras, watches, tape recorders, deodorants, film packs, clothing, and \$28.15 portable refrigerators and small electric fans.

Scores of Marines and airmen, unable to enter the packed building, left after long waiting. When the doors finally closed some 7,000 men had spent \$31,000.

"Soon we'll have a million-dollar-a-month operation here," said Lt. Hoffman, who also will open five field post exchanges in the five northern provinces that make up the 1st Corps area in South Viet Nam.

Like any good businessman, the lieutenant believes in expanding in prosperous times. The indications are that Uncle Sam's nephews in uniform will be spending more rather than less money here in the future.

TAYLOR'S VIEWS ON WORLD NEWS

By HENRY J. TAYLOR

A sleeper sneaks into our gold problem, known to Churchill, President Charles de Gaulle and to the central bankers of the world, our friends and foes alike. Yet, the American people are in the dark; not told by Washington that all is not gold that twinkles in official United States Treasury reports.

France and West Germany, between them, probably control enough dollar credits to knock the United States off the gold-exchange standard—if, and whenever, they wished. West Germany is trying to help protect the dollar, so the danger from Bonn is not acute. But de Gaulle—ah, de Gaulle.

The sleeper is the so-called Tokyo Resolution. It was born behind the scenes last fall when retired Treasury Secretary Douglas Dillon signed a commitment of the United States at the Tokyo meeting of the International Monetary Fund.

On March 18 the Johnson administration sponsored HR 6497 to authorize "an increase of \$1,035 billion in the quota of the United States in the fund."

While 102 member nations contribute \$21 billion this raises our quota to \$5 billion! Not a word in the bill stated that 25 per cent of the new U. S. payment shall be in gold. The Tokyo Resolution, however, required these terms.

Then on April 1 the House Committee on Banking and Currency confirmed that the United States must pay one-fourth (\$258.75 million) of the proposed increase in gold.

The sleeper raises the total U. S. payment into the fund to approximately \$800 million. On May 26 our gold reserve hit another new 26-year low. It fell to \$14,293 billion—the lowest since Nov. 23, 1938, long before we expanded our vast financial undertakings in the world. But de Gaulle and all who look at us abroad know that even this \$14,293 billion is, of itself, a false trial.

In reality, \$800 million of what's left is a slight deposit of the International Monetary Fund. It does not belong to the United States. The U. S. Treasury includes this gold in its holdings, while, at the same time, the International Monetary Fund counts the same amount (correctly) as part of its own gold account.

Washington overspending and overborrowing gets votes, sure. But finally our creditors make their own cold appraisal of what our politicians are doing here.

The value of the dollar affects all wage earners, all pensions, savings, life insurance, retirement plans, annuities, the cost of living, all your future security—everything. Are we to see our dollar go down the drain merely because Washington's overspenders, over-borrowers, overgivers refuse to let us see that the facts of economic life have caught up with them?

We are now in the seventh year of the steady gold drain. When it started in 1959 on a troublesome scale, the Treasury stock was \$22,787 billion. As early as 1961 this column began stating that Fr. Knox had already gone with the wind, nothing that foreign creditors' net short-term claims exceeded our remaining gold reserve. And the seven-year rate would drain out every ounce by 1977.

It is simply not true, as contended by the administration this February, that freeing the \$5 billion gold backing behind our Federal Reserve Notes would show creditors that the bigger supply made it pointless to draw our gold. The effect didn't even last 30 days.

By March all had grown worse and through May 26 we've lost \$1,095 billion this year. About half the loss in the first quarter went to France. But Spain also took \$90 million, Britain \$75.7 million, Belgium \$36.6 million, Switzerland \$37.5 million, The Netherlands \$35 million, Austria \$25 million, etc.

Creditor nations, and debtor nations that now somehow call themselves creditors (like France), will continue to draw gold instead of keeping dollars that they see becoming dollar-ettes as long as our politicians overspend and overborrow and they will move with even greater alarm if Washington continues to juggle the books.

Confidence is a fragile thing. New Treasury Secretary Henry Fowler's first task is to re-establish confidence abroad by full disclosure here at home. Our creditors must see that the American people themselves are no longer being misled by their own government.

What are the symptoms of pancreatitis and what causes it?
A—Since the pancreas has several functions and since there are different kinds of pancreatitis, a definite set of symptoms can't be given. Acute pancreatitis is usually an extension of an infection in the gall bladder or intestines. This would cause severe pain in the upper abdomen associated with vomiting. This serious disease calls for emergency treatment in a hospital.

Chronic pancreatitis may develop in a person who has recovered from acute pancreatitis. It may cause nausea or loss of appetite and some pain or tenderness in the region of the gall bladder. A drinking spree may trigger an attack. Removal of an infected gall bladder will sometimes put an end to the attacks. Recent studies indicate that an anti-enzyme which checks the production of trypsin, the digestive enzyme elaborated by

the pancreas. This relieves the pain of pancreatitis.
Q—My doctor says I have calcification of the pancreas. What causes this and is there anything that can be done for it?
A—In some persons with chronic pancreatitis partial calcification of the gland occurs. There is no treatment for this except the treatment of the underlying cause.

Q—I have been taking injections of Stilbestrol. Could they have any harmful effects? I am taking diethylstilbestrol pills. Can they cause my hair to fall out?
A—Both drugs are the same. This female hormone is usually given to supplement the decreased function of the ovaries in women undergoing the menopause. The chief side effects due to too large a dosage are vomiting, soreness of the breasts and headache. Whether taken as pills or by injection the drug should not cause loss of hair.

lead the queen of hearts for a finesse. West will put on his singleton king and East will collect two trump tricks.

An advanced student won't fall into that trap. He will know that there is nothing to be gained by the trump finesse because there is no way to avoid the loss of a trump trick and he will note the danger of losing two trump tricks in the event that either opponent holds the singleton king of trumps. Therefore he will play a low heart instead of the queen and will make his contract in spite of the four-one trump break.

This type of play is known as a safety play. West, as the queen of hearts lead, would be what has been called a "nothing play" because there is no way that it will gain a trick for declarer and plenty of ways that it will lose a trick for him.

CARD SENSE
Q—The bidding has been:
South West North East
1 ♠ Pass 2 ♠ Pass
2 ♠ Pass 3 ♠ Pass
3 N.T. Pass 4 ♠ Pass
4 ♠ Pass 4 ♠ Pass

You, South, hold:

bids two diamonds to deny a four-card major South jumps to three hearts to force North to make a further bid and North continues to the heart game. He has 4-3-3 distribution but is afraid of the diamond suit.

The four-heart contract is a good one, but careless play will cause South to lose his contract. He will ruff the third diamond and then if he is anything but an advanced student he will

Idaho News

ARTICLES FILED
BOISE (UPI)—A Boise car rental firm and an Idaho Falls car wash company filed articles of incorporation Thursday with the secretary of state.
 R. L. M. Leasing Co., Boise, was capitalized at \$50,000 by Donald R. Erwin, James E. Oakes and Doris J. Alspaugh, all Boise.
 Incorporating Intermountain Car Wash, Inc., Idaho Falls, at \$25,000 are Ralph L. Ward and James B. McDonough, both Billings, Mont., and Harold Grevlor, Aberdeen, S.D.

CHAIRMAN NAMED
IDAHO FALLS (AP)—Myron Hatch, veteran school district trustee with two three-year terms behind him, has been named chairman of the board of the district.
 He moves up from treasurer in assuming the new post.
 New treasurer is Ray Stuckl, and Mrs. Marjorie Smith was re-appointed secretary.

NO CLUES
PAYETTE (UPI)—The Payette County sheriff's office said Thursday it still has no clues into the disappearance Saturday of Geraldine Shirley Boyd, 18.
 The girl was last seen in the Boise area where she was seeking employment, the office said. She is the daughter of Mr. and Mrs. Claude Boyd, Payette.
 According to her parents, Miss Boyd had gone to Grand View to visit a sister, then returned to Boise with a girl friend to find employment.

NEW PLANT PLANNED
BOISE (AP)—Plans for construction of a \$2 million plywood plant at Cascade were announced Thursday by the Boise-Cascade Corp.
 Stephen B. Moser, vice president, said construction will begin early next month with production expected by spring of 1966.
 The plant, which is designed to produce about 80 million feet of plywood annually, will employ about 130 people.
 Boise Cascade has five other plywood plants located at Valsetz, Independence and Elgin in Oregon; Yakima, Wash., and Payette.

BODY IS FOUND
FRUITLAND (UPI)—A farm worker Thursday found the body of a Nysse, Ore., youth who drowned in the Snake River while swimming last Sunday.
 The Payette County sheriff's office said the body of Eddie Grijalva, 18, was discovered south of here, caught on the remains of an old barbed wire fence that extended into the river.
 Officers said the body was found by Gary Betts, a Fruitland farm worker. Betts pulled it to shore and then notified authorities.

BIDS SOUGHT
BOISE (AP)—The state highway department called today for bids on two construction projects, one in Northern Idaho and the other in the Southeast.
 Bids will be opened June 22 on the northern job. It involves construction of a roadmix bituminous surface on about six miles of State Highway 53 from Rathdrum to the junction with U.S. 95 and furnishing aggregate surfacing material in stockpiles at Rathdrum, in Kootenai County.
 Bids on the southeast project will be opened July 6. The work involves repairing slopes and placing embankment protectors along Interstate Highway 15 between Deep Creek and Colton in Oneida County.

OFFICIAL IS 'FAIR'
BOISE (AP)—Secretary of State Arnold Williams remained in fair condition today, 10 days after he entered St. Luke's Hospital for treatment of a heart ailment.

FUN ACRES
 U.S. 30 WEST OF HOSPITAL
HAVE FUN TONITE
 NEW SNACK BAR

TESTS AVAILABLE
BOISE (AP)—Open competitive examinations to fill vacancies in the State Employment and Health departments were announced today by the Idaho Merit System Council.
 The agency said applications must be submitted by July 10. Examination dates will be announced later.
 The health department exams will be for administrative assistants and the employment department tests will be for employment consultants, employment counselor interns and statistical analysts.

NO PHOTOS YET
BOISE (AP)—Motorists renewing their driver's license before Sept. 1 will pay the higher fee ordered by the 1965 Legislature but won't get a colored photograph on their permit.
 The Department of Law Enforcement noted today that the bill providing for colored photographs is not effective until Sept. 1.
 However, the measure which raised the fee from \$4 to \$8 and extended the license period from two to three years was effective May 18, 60 days after legislative adjournment.

FIRE SCHOOL STARTED
MOUNTAIN HOME (AP)—Fire departments from throughout Idaho were represented Thursday at the opening of a three-day Idaho State Fire School.
 The Mountain Home fire department is host to the event, which includes demonstrations and studies in fire prevention and control.

Last Rites Held
For Mrs. Tilley
BURLEY—Funeral services for Mrs. Blanche M. Tilley were conducted Tuesday in the Star Ward LDS Chapel by Bishop Richard L. Holyoak.
 Organ prelude and postlude were played by Annie R. Beck. Invocation was given by Theod J. Hanks. Albert Holyoak sang two selections. Lawrence W. Hanks sang a solo.
 Burial was given by Bishop Richard L. Holyoak. Speaker was J. Weldon Beck. Alma R. Tilley gave the benediction.
 Pallbearers were Eldon Loveless, Ronald Mullins, Gerald Mullins, Harold Loveless, Darrell Tilley and Leland Tilley.
 Flowers were arranged by Linda Kerbs, Kathy Johnson, Dalynn Jackson, Marsha Tilley, Edith Schenk and Karen Schenk.
 Final rites were held in Pleasant View Cemetery. Grave was dedicated by Richard B. Tilley.

Carol Dawn Christensen Is Miss T. F. Contestant

An auburn-haired girl with green eyes, Carol Dawn Christensen, 18, has entered the Miss Twin Falls Pageant. The contest will be held at 8 p.m. Saturday, June 19 at Twin Falls High School Gymnasium.
 Winner of the competition will receive an all-expense paid trip to Boise for the Miss Idaho Pageant, plus other awards including a \$300 scholarship offered by the pageant sponsor, the Twin Falls Lions Club.
 She moves up from treasurer to Miss Twin Falls Pageant.

CAROL D. CHRISTENSEN
 daughter of Mr. and Mrs. Dick Gillenwater, 800 Maurice St., will compete for the city's top beauty title in the June 19 Miss Twin Falls Pageant. Winner of the contest will go to the Miss Idaho Pageant, Boise, and will receive a \$300 scholarship.

While in high school she was a member of the drill team, Pep Club, and for three years bowled in a league of which she was secretary. She worked as a makeup artist in school plays and sang in the school choir.
 Other awards offered to Miss Twin Falls include a \$75 watch from Herrett's Jewelers, Sterling Jewelers and Jensen's Jewelers and a \$25 cash award from Shirley and Mendolia.
 First runner-up in the contest will receive a \$100 scholarship from Pepsi-Cola Bottling Co., and the second runner-up will receive a \$75 award from Self Manufacturing Co.
 Special awards will be made in three categories.
 Each contestant will appear gown and in a bathing suit. In these categories, the awards will be a \$25 gift certificate from Roper's or a Jantzen swim suit, respectively.
 Contestants must perform for the judges, using whatever special talent they have. Miss Christensen plans to sing. The contestant award is a \$25 gift certificate from The Mayfair Shop.
 Finally, contestants will select a Miss Congeniality who will receive a \$25 savings account from Idaho Savings and Loan Association.

One of her ambitions is to travel and see the United States. Miss Christensen, who is 5 feet, 2 inches tall, weighs 112 pounds and has measurements of 35-24-35, enjoys all summer sports as well as bowling, sewing and cooking.

BRIDGE COLUMNIST DIES
ST. PETERSBURG, Fla. (AP) — George Beynon, 100, bridge columnist for the St. Petersburg Times, died Thursday after a brief illness. Beynon was national director of the American Contract Bridge League from 1936 until his retirement in 1955.

Pioneer Dies
RICHFIELD — Mrs. B. W. Reeves, pioneer resident of Richfield, died Wednesday in a Nampa hospital.
 She was the widow of Richfield's first postmaster. She is survived by two sons and one daughter.

NEVER MISSED VOTING
KAMAISHI, Japan (UPI)—Jyubei Nakamura, who celebrated his 113th birthday June 4 and is believed Japan's oldest man, said today he has never missed voting in national and local elections since Japan's first parliamentary election almost 70 years ago.

Idaho Woman Is Sentenced In California

LOS ANGELES (AP) — Sally JoAnn Norris, brunette model from Payette, Idaho, was sentenced today to one to ten years in prison on her plea of guilty to involuntary manslaughter in the shooting of a bar owner.
 Miss Norris, 21, showed little emotion as Superior Judge Mark Brandler denied her request for probation, then passed sentence.
 She was accused of fatally wounding Hiram McGuire, 53, with his pistol while in his apartment behind the bar last August in nearby West Venice. She maintained McGuire threatened her with the pistol, which she then turned on him, McGuire, however, denied this in a deathbed statement, police said. They said he contended he took out the gun because he saw figures outside his window and feared a robbery.

Gets Degree
BUHL—Ruth Barnard, daughter of Mr. and Mrs. C. C. Barnard, Buhl, was graduated from the Boston University with a master of science degree.
 Miss Barnard graduated from Morrison High School, Martinsburg, Pa., in 1953. After attending Pennsylvania State University she entered Johns Hopkins School of Nursing at Baltimore, Md. She received a diploma from the school of nursing and bachelor of science nursing degree from the Johns Hopkins University in 1958.

SUGGESTS IMPROVEMENT
BUHL — Ralph Turner has been named as the first employee from the Producers Container Division of the Green Giant Co., Buhl, to become a suggestion system winner. Turner, who is a line adjuster, suggested a revision of the mounting of a preheater which will make adjustment easier and safer.

Charter Draping Ceremonies Highlight Meet

BUHL—Charter draping ceremonies highlighted the regular meeting of Colfax No. 13, Ladies Auxiliary Patriarchs, Militant, when it met in the Jerome IOOF Hall.

Honored in the ceremony were Mrs. Pearl McClurg, Long Beach, Calif., who served as the first president of the Department Association IAPM of Idaho from 1927 to 1930, as well as other members of the order who died during the past year.

Participating in the rites were Mrs. Frank Eastman, Twin Falls; Mrs. H. A. Childers, Fil-Falls; Mrs. Anna K. Leth, Buhl; and Mrs. William Hopkins, Jerome.

Mrs. Childers reported she has received a certificate on completion of a medical self help course. Mrs. A. G. Biswell, Buhl, reported the by-laws changed by the auxiliary have been approved by Earl Ridgeway, Kimberly, department commander of Idaho.

The courtesy report showed 28 cards have been sent, 36 hospital and home calls have been made, 30 members called on shut-ins, two calls were made on bereaved homes, 22 floral arrangements sent, 12 donations of food were made, six members attended funerals and 24 hours have been spent in community service.

It was noted Mrs. Myrtle Bair, Twin Falls, is ill and Mrs. Leland Hudson's brother-in-law, Leonard Hudson, died.

A donation to the Cancer Fund was noted. Mrs. William Jewell, Jerome, gave the opening thought, and Mrs. Biswell, the closing thought of the evening.

Refreshments were served by Mrs. Jewell and Mrs. Biswell. Iris floral arrangements formed the background decorations.

The next meeting is a 6:30 p.m. planned potluck dinner to be held Sept. 6 at the Twin Falls IOOF Hall.

MR. AND MRS. GEORGE VAVOLD (Ambrose photo)

Miss Lancaster Is Bride of George Vavold

The Twin Falls First Church of the Nazarene was the setting May 29 for the wedding of Phyllis Lancaster, daughter of Mr. and Mrs. Floyd Lancaster, Los Angeles, Calif., and George Vavold, son of Mr. and Mrs. Morris Vavold, Twin Falls.

Rev. Howard Olson officiated at the double ring ceremony. Hubert Hendrix was soloist and Mr. and Mrs. Lawrence Lancaster sang a duet. Mrs. Doyle Mason played the traditional wedding music.

The bride wore a white Chantilly lace over taffeta wedding gown, fashioned with a full skirt and a fitted bodice with long lily point sleeves. A scalloped neckline was complemented with a strand of pearls. Her fingertip veil of illusion fell from a tiara of seed pearls. She carried a cascade bouquet of orchids and lilies of the valley.

Alyce Lancaster, Los Angeles, sister of the bride, was maid of honor. Bridesmaids were Beverly Lancaster, sister of the bride, and Mrs. Wayne Run-can, Twin Falls. Teresa Hill, Jerome, was flower girl. Ring-bearer was Joseph Vavold, Concord, Calif., nephew of the bridegroom.

James Vavold, Concord, was best man and ushers were Morris Vavold Jr., Concord, and Duncan.

Candlelighters were Linda Real and Bedky Peters, Nampa. Kathy White registered guests before the ceremony and during the reception. Derinda White and Beverly Hansen displayed the gifts.

Serving were Mrs. Raymond Hill, Mrs. Lawrence Lancaster and Mrs. Harold Sorenson, assisted by Mrs. Glenn Roach and Mrs. Angeline Krueger.

Out-of-town guests attended from Filer, Kimberly, Jerome, Nampa, Caldwell, Glens Ferry and Concord and Los Angeles, Calif.

Anna Walton Is Bride of Jan R. Boles

HANSEN—Mr. and Mrs. S. A. Walton, announce the marriage of their daughter, Anna Marie, to Jan R. Boles, son of Professor Walter E. Boles, Dallas, Tex.

The marriage was performed by Rev. LaVern A. Inzer, May 3 at the First Baptist Church, Winnemucca, Nev. The couple was attended by Mr. and Mrs. Neil Mogensen, Caldwell.

The couple resides at 1209 Elm Street, Caldwell.

Mrs. J. Bedke Is Speaker

OAKLEY—A talk of her tour of Europe was given by Mrs. Jesse Bedke at the closing social of the LDS Relief Society at the Cassia Stakehouse. She displayed a doll collection and souvenirs of her trip.

A display of handwork which members of the Relief Society have made was shown and refreshments were served by the presidency.

Social Events

Magic Valley Saintpaulia Club's breakfast is set for 9:30 a.m. Monday at the home of Mrs. Fred Nelson, Jerome.

Country Woman's Club will meet at 2 p.m. Wednesday at the home of Mrs. Birdella McClain, 191 Juniper St. N.

Bridge Played

DECLO—The N and S Bridge Club met at the home of Mrs. Zella Preston, Declo.

Two tables of bridge were played, with Mrs. Gladys Manning and Katy Schmidt as high score winners.

Mrs. Myrtle Loti, Heyburn, was a guest. The next meeting is at the home of Mrs. Katy Schmidt, Burley.

Circus Theme Used for OES Observance

BUHL—A circus theme was used for the Friendship Night observance held by Buhl Chapter No. 38, Order of Eastern Star, during its June meeting at the Masonic Temple.

A circus tent atmosphere prevailed over the hall decorations. The meeting opened with a welcoming song by Mrs. William Watt. Special guests introduced were Mrs. Henry Barton, Wendell, and Mrs. Grace Johnson, Twin Falls, both past grand matrons.

Other visitors attended from Magic Chapter No. 82, Twin Falls; Twin Falls Chapter No. 29; Mountain Home, Gooding, Wendell, Rupert, Hollister, Salmon, Jerome, Pocatello, Hailey, Hagerman, Filer and Fairfield, Mont.

Refreshments were served under the direction of Mrs. Watt.

Local DAR Chapter Has June Meeting

Twin Falls Chapter, Daughters of American Revolution, held its June meeting at the home of Mrs. Mahlon J. Neumann, regent.

During the ritualistic opening, members were reminded that the objects of the society are to perpetuate the memory and spirit of the men and women who achieved American independence, to promote the development of an enlightened public opinion and to foster patriotic citizenship.

As a part of this program, all members were urged to attend the Flag Day Tea sponsored by the United Patriotic Women's Organization at 2 p.m. Monday at the DAV Hall.

Mrs. A. F. Ostlund, Idaho state regent, told of her experiences as a member of the resolutions committee at the recent meeting of the National Society of the Daughters of American Revolution in Washington, D.C.

Mrs. J. A. Cederquist, chairman of the nominating committee, gave her report. Officers were elected and installed. Mrs. C. J. Slinger is regent; Mrs. H. J. Zilliox, vice regent; Mrs. Walter C. Sentein, secretary; Mrs. Lloyd Holmquist, treasurer.

Lesson Given

SPRINGDALE—Mrs. Noel Bowcut presented the work day lesson at the LDS Relief Society meeting. The lesson was "Teaching the Gospel in the Home."

Mrs. Elzina Ross demonstrated making feather flowers and Mrs. Harvey Freestone demonstrated decorated chests and boxes.

Luncheon was served by the Relief Society officers. Prayers were given by Mrs. Reed Larson.

Friday, June 11, 1965
Twin Falls Times-News
Mrs. G. G. Allon, registrar; Mrs. I. W. Voorhees, historian, and R. D. Beebout, librarian. Mrs. Wilbur S. Hill, Caldwell, a former member of the Twin Falls Chapter, was introduced. Mrs. Neumann served refreshments.

Along Fences and Canals

Mr. and Mrs. Clint Copperton, Las Vegas, Nev., have moved their trailer house to the Eugene Gabert home east of King Hill. They plan to open an upholstery shop.

Farmers at Tuttle are busy haying and planting white and pinto beans. Some damage has been done to the alfalfa by the aphids, but a good crop is expected. The red beans are up with a good stand and growing well.

Boyd Graves, Tuttle farmer, accidentally caught his left hand in the hitch of his baler and broke two fingers and severely cut his hand. No permanent damage to the hand is expected, according to his doctor.

returned to Arco Monday where they are engaged in a well-drilling project. They spent the weekend in Elba with their families and checking on their property.

An all-day session of branding, spraying and vaccinating calves and cows was held at the corrals south of Strevell on the James Bronson ranch. Helping Bronson, Springdale rancher, were J. H. Bronson, Robert Bronson, Wayne Lewis, E. R. Kelsey, Eldon Wrigley, Timothy Judd, Daniel Lewis, Kristine Bronson and David Lewis.

Bob Darrington, Declo, presented his new bride, the former Jo Jacobs, a specially made saddle as her wedding gift. She is an accomplished horsewoman and was first alternate to the Cassia County Fair Queen two years ago.

Mr. and Mrs. Douglas Birney and two children are a new farm family, moving from Texas to a tenant home at the Donald Walker ranch, Richfield.

Eugene Gabert is baling hay at the Arthur Greer ranch south of King Hill.

Mr. and Mrs. Lynn Sherman and family, King Hill, spent the weekend with her sister, Mrs. Alton Collett, and family at Paul Collett had bought a small Welsh pony for the Sherman children and they brought it home Sunday. The pony's name is "Smokey." It is a 2-year-old Welsh pony.

Migrant workers have been thinning 17 acres of beets at the Harold Van Sickle ranch south of King Hill. Joe, Lymie and Keith Mitchell and other workers have been hoeing beets at the Van Sickle ranch.

Migrant farm laborers are in the King Hill area thinning and hoeing beet fields. They are working at the Rodney Ruberry ranch south of King Hill thinning 20 acres of beets.

Elba ranchers with early forest permits have been moving their cattle from BLM pastures to the forest this week. The majority of the cattle will not be moved to the forest grazing lands until June 15.

The Mallard Flying Service, Shelley, finished spraying sage brush in the Elba valley this week finishing with jobs on the Glenn Berryman and the Reuben Ward ranches.

Donald Chandler, Elba rancher, finished cutting sagebrush on about 30 acres of pasture land on his canyon ranch west of Elba this week.

Charles Ward, Malta, started the drive of his range herd from Malta to summer pastures in the Junction Valley this week.

Mr. and Mrs. Karl Richards and son, Morgan, Detroit, Mich., have arrived for the summer at their ranch east of King Hill. Their son and daughter-in-law, Mr. and Mrs. Harold Richard, have returned from Kabul, Afghanistan. Her mother, Mrs. Charles Sorriaux, Nice, France, also will live at the Richards ranch. Harold Richards left this week for Washington, D.C., to act as a guide for the minister of Afghanistan, who is touring the United States.

Mrs. Charles Gwinn, north Shoshone, whose extensive iris beds are widely known, says her flowers are in full bloom and over the weekend she had many visitors from neighboring towns. There are many varieties and colors.

Wheat, Grain, Cotton Are Expensive Farm Programs

WASHINGTON (UPI) — The most expensive farm programs at present are those concerned with feed grains, wheat, and cotton. They have cost and are costing a lot of money. But they have caused the wheat carryover to drop from 1.4 billion bushels in 1961 to 900 million bushels now. Feed grain stocks have dropped from 85 million tons to an estimated 58 million tons at the end of this marketing year.

The department said that if the government were carrying this difference in stocks in owned inventories, it would be incurring an additional \$583.7 million per year in carrying charges — storage, handling, transportation, and interest.

The feed grain program cost \$333 million in acreage diversion payments in 1961, \$303 million in 1962, \$377 million in 1963, \$646 million in 1964, and will cost \$883 million in 1965 and \$518 million in 1966.

The wheat program cost \$65 million in diversion payments in 1962, \$269 million in 1963, \$115 million in 1964, and will cost \$34 million in 1965 and \$40 million in 1966.

The feed grain price support payments will cost \$382 million in 1965 and \$269 million in 1966. Wheat price support payments will drop from \$79 million in 1964 to nothing in 1965.

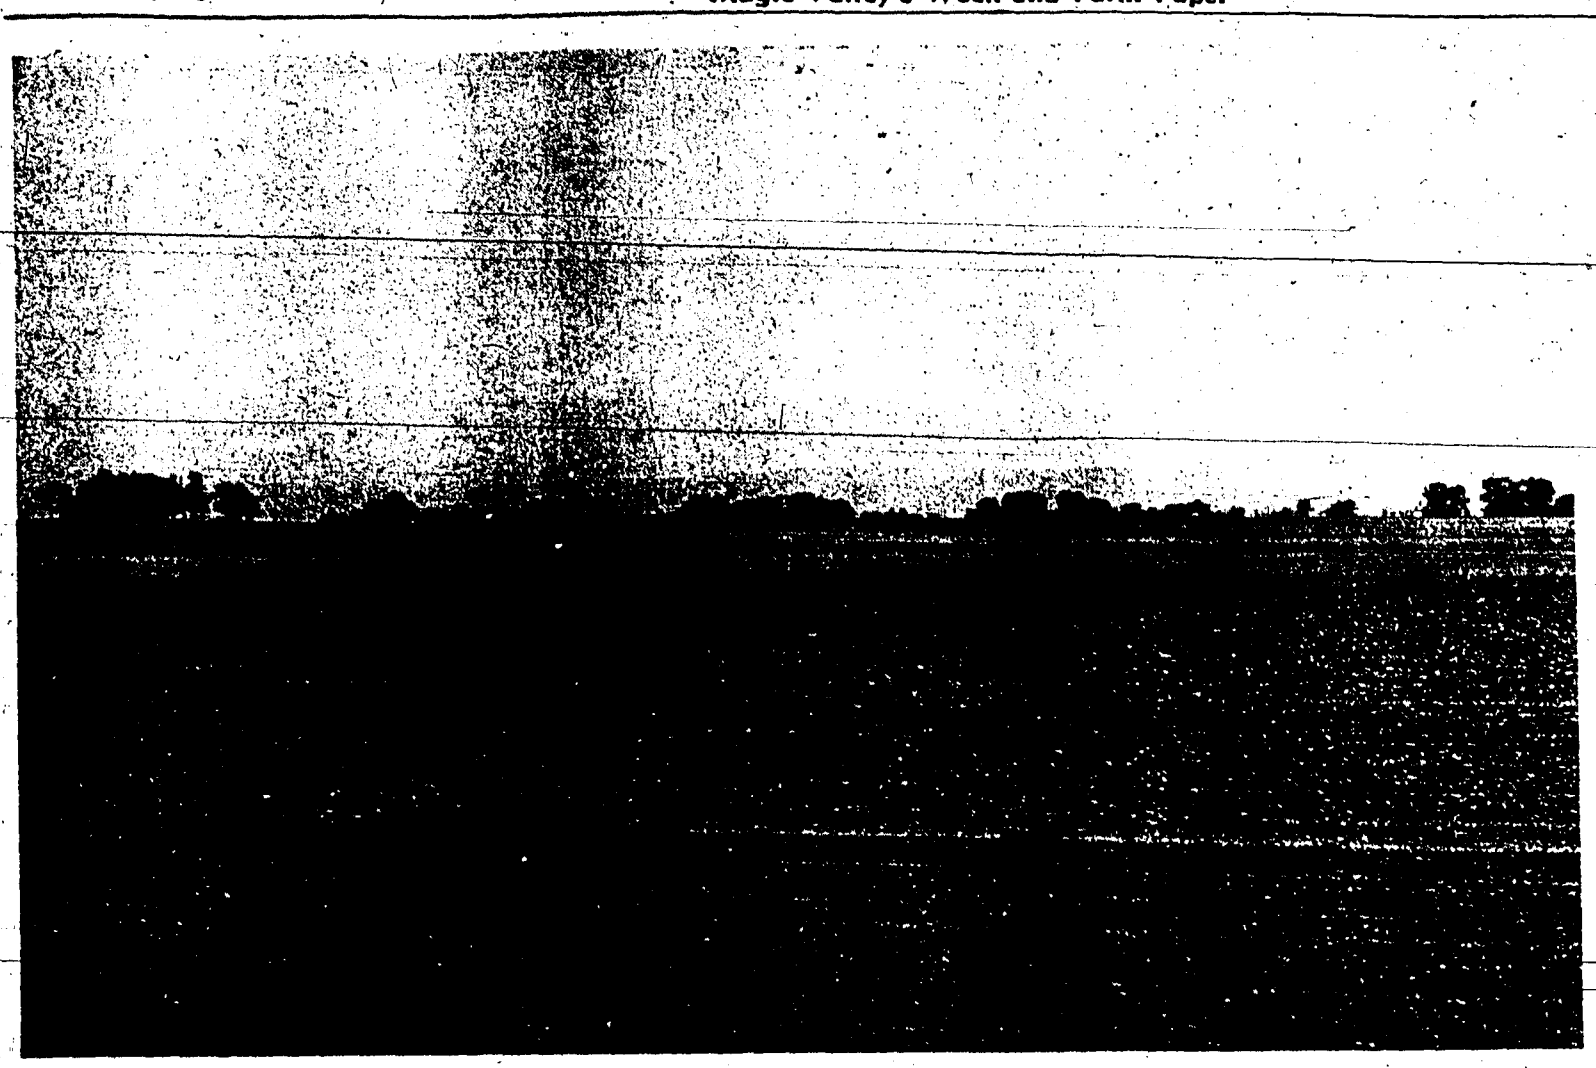

Orville Freeman, secretary of Agriculture and his aides say that without the diversion payments and the price support payments and loans, farm income would have suffered a heavy blow which could have knocked the rest of the economy into a tailspin.

One high official said that without the reduction in feed grain and wheat plantings achieved under Freeman's policies, "the cost to the government would have been much higher than it is now."

"In eight to nine years, the department will be more than 1 billion dollars to the good because of the current feed grain and wheat programs," he asserted.

Agriculture officials say that operation of the wheat and feed grains programs will reduce surpluses to a minimum, which will bring storage charges to a minimum, and that lowered production through acreage diversion will put production in balance with demand, thereby

TWO MEN, each with a hoe, move slowly across a field east of Twin Falls and unknowingly create a picturesque agricultural scene for the Times-News photographer. The vastness of the cultivated field forms a contrast with the two lone figures dwarfed by the surroundings. It is all a part of farming in Magic Valley, where highly mechanized conditions sometimes revert back to work done by the hand of an individual. (Times-News photo)

Predators

BOISE—Thirty-six coyotes were killed in Twin Falls county during April, state records show. This number did not include those which might have been killed by aerial hunters or trappers working for private individuals.

Iowa Man to Head Cattle Association

SEATTLE, Wash. (UPI) — A. J. Johnson, Elkader, Iowa, was elected president of the Holstein-Friesian Association of America at the organization's 80th national convention here. Johnson had served as vice president of the association for the past two years. R. DeWitt Mallary, Bradford, Vt., was elected vice president to succeed Johnson. Both Johnson and Mallary will serve for one year. Four directors were elected to four-year terms on the 16-man board. They are Richard Brooks, Louisville, Colo.; Edwin Fry, Chestertown, Md.; Maurice Keene, Auburn, Me., and Nicholas Kolk, Goshen, N.Y. The convention approved a Wisconsin delegation-sponsored recommendation to the board of directors that the Holstein association discontinue a study and consideration of qualified registration for non-pedigreed black and white dairy cattle. More than 850 persons registered for convention activities.

Agriculture Department Predicts Grain Carryover

WASHINGTON (UPI) — The Agriculture Department predicts the carryover of feed grains into the 1965-66 marketing year will total about 58 million tons, 13 million tons below the carryover last October into the 1964-65 marketing year. In a review of the feed situation, the department said domestic use of feed grains for the 1964-65 marketing year October-September may be slightly below the 133 million tons of 1963-64. Exports are expected to equal the 18.7 million tons sold overseas last season. The reduced carryover stemmed directly from 1964's smaller-than-usual corn crop.

The department said domestic use of corn during the 1964-65 marketing year will about equal the 3,928 billion bushels consumed in 1963-64. This would reduce the corn carryover next Oct. 1 to about 1,125 billion bushels, nearly 400 million bushels less than last year and the smallest since 1955.

The department said smaller stocks of sorghum grain, oats, and barley on April 1 indicated smaller carryovers of these grains into 1965-66. The reductions, however, will be less than for corn.

Farmers have signed to divert 36.7 million acres of the 1965-crop feed grains to soil conserving uses. This is 2.4 million more than were enrolled in 1964 and 4.3 million more than were actually diverted last year. The 25.1 million acres of corn signed for diversion is 2.1 million acres, or 9 per cent, more than last year.

The department said feeding of 1964-crop wheat on farms where grown totaled 35.8 million bushels. This is almost double the 19.8 million bushels fed by growers from the 1963 crop.

Lots of Meat

WASHINGTON — The Foreign Agricultural Service (FAS) said red meat production in the 44 leading countries during 1964 totaled 112.2 billion pounds. This was only slightly below the record high 113.5 billion pounds produced in 1963. The 1964 output of beef and veal increased by almost 1 per cent, but this was offset by declines in pork, mutton, lamb and goatmeat.

The department said feeding of 1964-crop wheat on farms where grown totaled 35.8 million bushels. This is almost double the 19.8 million bushels fed by growers from the 1963 crop.

Cost Is Less To Maintain Farm Level

WASHINGTON (UPI) — It's costing the government less to maintain farm income at a stable level.

President Johnson regards this as one of the most notable achievements in his economy campaign.

He feels that Agriculture Secretary Orville L. Freeman and other agriculture department officials deserve credit both for planning wise farm policies and for administering them efficiently.

The agriculture department is the government's second largest agency, surpassed only by the mammoth defense department. It has more than 108,000 employees and spends about \$8-billion a year.

Contrary to a popular impression, not all of this money goes into price supports or other programs directly concerned with aiding farmers.

Over the years, Congress has charged the department with many responsibilities besides helping farmers. It operates the national forests, which provide both a timber reserve and outdoor recreation for millions of Americans each year.

It conducts research on home economics; on ways to give consumers more for their dollar; on new insecticides to help homeowners cope with household and garden pests; on new marketing methods to help businessmen, and many other things.

Also charged against its budget is about \$2 billion a year worth of surplus food commodities which the United States gives to hungry people in less fortunate nations under the "Food For Peace" program.

Finally, it administers and finances the food stamp program which helps to feed some of the victims of poverty here in America.

85 Million Acres Owned By States

WASHINGTON (UPI) — An Agriculture Department study shows that the 50 states own almost 85 million acres of rural land, exclusive of road rights of way and water areas.

The department's Economic Research Service (ERS) said the states use about one-third of the acreage for parks, state forests, wildlife reserves, and similar purposes.

ERS said most of the state-owned land is held without being designated for specific uses. Some states lease a large portion of this land for grazing.

ERS said most of the state-owned acreage was acquired through grants from the federal government. Texas, however, owned its land before it acquired statehood. ERS said much of the state owned land designed for special usage was obtained through tax reversion and purchases.

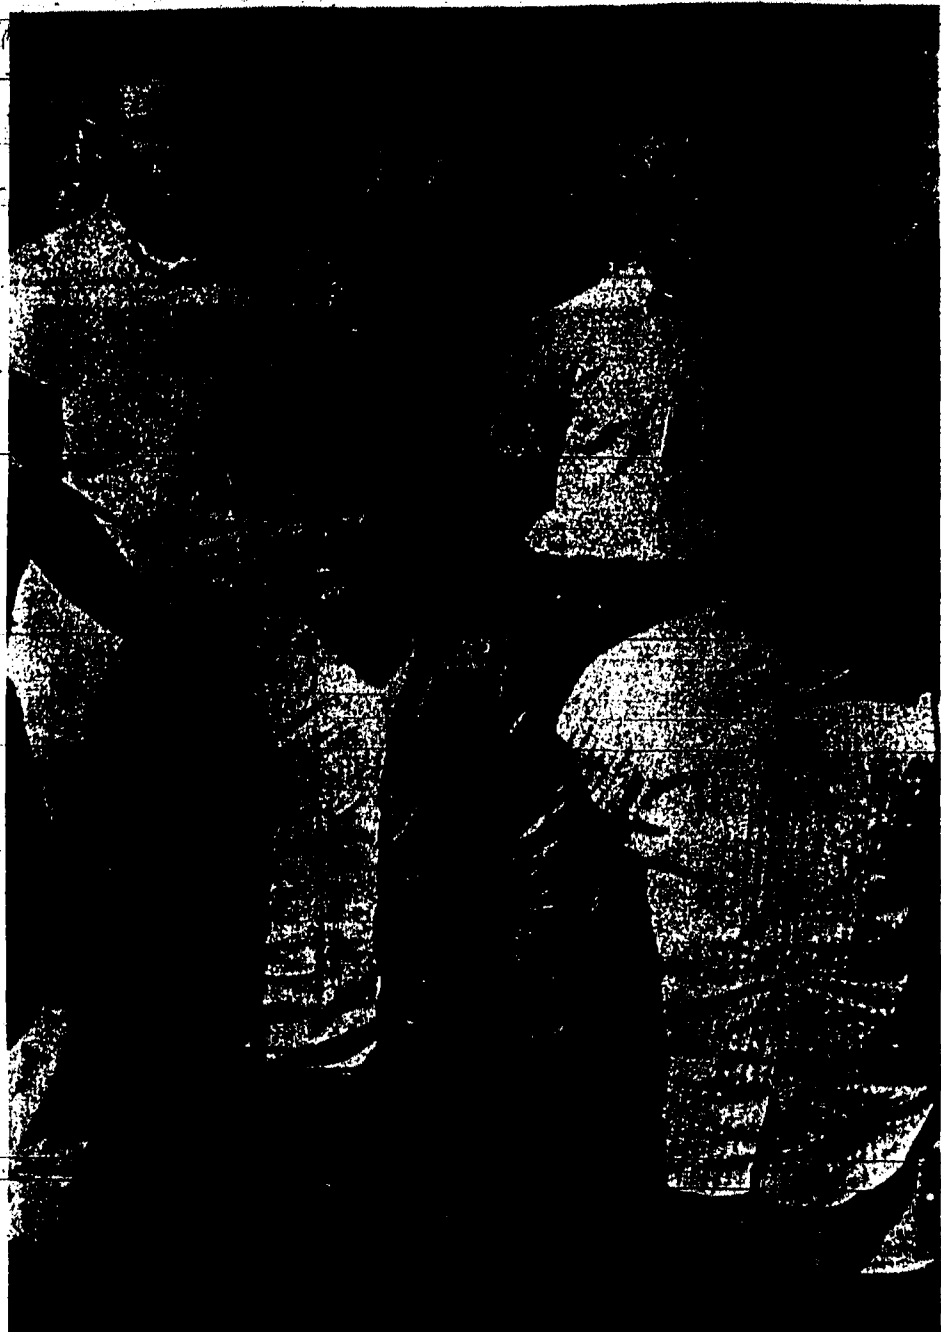

New Mexico with 10.9 million acres of state owned land leads all states as an owner. Arizona is second with 9.2 million acres; Alaska owns 6.8 million acres; Montana, 5.3 million acres; Wyoming, 3.86 million acres; Utah, 3.78 million acres; Washington, 3.35 million acres; Texas, 3.33 million acres; Minnesota, 3.1 million acres; and Michigan, 4.3 million acres.

United States Farm Branch Called ASCS

WASHINGTON (UPI) — The particular branch of the department which administers farm price supports and related activities concerned with farm production and income is called the Agricultural Stabilization and Conservation Service (ASCS).

Agriculture Secretary Orville Freeman is proud of a personnel chart which shows that the number of full-time federal employees working for ASCS has declined from 6,903 in 1961 to 5,861 in 1965.

There has been a parallel de-

LEAVING FOR ONE week at Camp Alpine, near Alpine, are, from upper left, Dennis Conrad, Castleford; Kenny Johnson, Hansen; Daniel Barsness, Buhl, and Mark Schroeder, Twin Falls. The camp is held from June 7 to June 12, and is sponsored by the University of Idaho. (Times-News photo)

Area Youths End Conservation Camp Participation at Alpine Saturday

Eight Magic Valley youths will complete their participation in the annual University of Idaho Conservation Camp Saturday. The camp is held at Alpine and participants left Twin Falls June 1 by special bus.

The eight boys and their sponsors are: Dennis Conrad, Castleford, Pomona Grange; Kenneth Johnson, Hansen, Farm Bureau; Mark Schroeder, Buhl, and Dick Beeson, Twin Falls, Twin Falls

Soil Conservation District; Lynn Babington, Buhl, Buhl Chamber of Commerce; Daniel Barsness and Kenneth Buchell, Buhl, Balanced Rock Conservation District, and Patrick Hussey, Twin Falls, not sponsored.

Objects of the camp are to develop appreciation for Idaho's natural resources and to encourage their wise use.

The young men study about soil, water, forest, wildlife and many other aspects of natural resources.

Idaho boys who have completed their freshman year in high school are welcome to attend the camp. Each camper shares responsibilities and chores.

The camp is an annual training session sponsored by the University of Idaho. It is held from June 7 to June 12. The camp is in its sixth year.

Instructors are professionally trained men from the University of Idaho, industry, and state and federal agencies. These men are qualified in soil conservation and act as counselors for the boys as well as teachers.

Hikes, tours and classes are held to teach the boys the wonders of the wild. The boys participate in all activities by doing the jobs themselves.

Freeman has other charts and graphs which show that productivity per unit in ASCS rose twenty-eight per cent between 1960 and 1964. This sharp rise in productivity was achieved in part through extensive automation and computerization of clerical functions. In terms of payroll costs, Freeman says it has meant a saving of \$108 million in ASCS alone during the past five years.

Freeman wants better measurement devices in all agencies of the department, so that employee productivity can be checked accurately and quickly. He puts great emphasis on reduction of overhead, elimination of deadwood, and believes that many jobs can be abolished simply through attrition—without loss of efficiency.

Freeman's aides point out that ASCS payroll savings would have been even more dramatic had not manpower reduction been partially offset by increases in wages and salaries, higher travel costs, and the general upward trend of expenses.

Merger Involves Company With Large Freezing Plant at American Falls

PORTLAND, Ore.—The F. G. Lamb and Co., Weston, Ore., has been merged into Lamb-Weston, Inc., Portland, following a special joint meeting of stockholders of the two firms in Portland, Ore., it was announced by F. Gilbert Lamb, president of Lamb-Weston.

Lamb said the merger was on the basis of 77 shares of Lamb-Weston for each share of F. G. Lamb and Co. The merger was effective immediately. F. G. Lamb and Co. is primarily a warehousing and cold storage operation, while Lamb-Weston operates the nation's largest single pea-processing plant at Weston, Ore., and has raw potato processing plants at American Falls, Idaho, and Corinna, Me.

At American Falls there is 40,000 pounds per hour of freezing capacity and 1.6 million cubic feet of storage space.

Lamb-Weston's operations at American Falls, however, also has available in excess of three million additional cubic feet of

storage space, which is owned by Northwestern Ice and Cold Storage Co., Portland. The latter is a division of Southeastern Public Service.

The merger of the F. G. Lamb and Co. properties marks the second merger for Lamb-Weston in recent weeks. Last month the company announced the merger of the Snow Flakes Canning Co. of Corinna, Me., into Lamb-Weston. This merger makes Lamb-Weston the nation's third largest processor of raw potatoes, with a total of more than 400 million pounds. This production includes French fries, instant mashed potatoes, etc.

West Germans Listed as Big Buyers

WASHINGTON (UPI) — The Foreign Agricultural Service (FAS) lists West Germany as the biggest buyer of U.S. food and other farm products in 1964.

FAS said West Germany spent a record \$587 million in 1964 for the bounty of American farms and food processing firms. This was \$103.8 million, or 22 per cent, above the German purchases of the previous year.

FAS is skeptical of the chances of the United States enjoying a record farm export year in 1965 with West Germany on the buying end.

The agency said several factors contribute to this outlook. Crop production in West Germany and the other Common Market countries was good in 1964 and looks good for 1965. FAS said the German government may continue or in some cases stiffen its highly protective measures restrictive of U.S. products—for example, the increased supplemental levies on poultry.

72 Cows in Gooding, Lincoln, Jerome Area Make Records

During April, 72 cows in the Gooding-Lincoln-Jerome Dairy Herd Improvement Association unit No. 2 produced 70 or more pounds of butterfat, according to Ben Russell, official tester for the unit.

One of these cows produced over 100 pounds of butterfat, six others produced 90 or more pounds and another 16 produced 80 or more pounds of butterfat.

No. 87, grade Holstein, owned by Bulon Chandler, Wendell, produced 2,700 pounds of milk and 102.6 pounds of butterfat.

Carol, registered Brown Swiss, owned by Scott Gulick, Jerome, produced 2,180 pounds of milk and 89.4 pounds of butterfat.

Melanie, registered Holstein, owned by Gordon Martin, Hunt, produced 2,673 pounds of milk and 89.0 pounds of butterfat.

Jeanie, grade Holstein, owned by Warren R. Bluemer, Jerome, produced 2,570 pounds of milk and 97.7 pounds of butterfat.

Dolly, No. 25, grade Holstein, owned by Jack Nelson, Jerome, produced 2,523 pounds of milk and 93 pounds of butterfat.

Bubbles, grade Holstein, owned by Bob Fuller, Jerome, produced 2,450 pounds of milk and 90.7 pounds of butterfat.

Tessie, grade Holstein, owned by Warren R. Bluemer, Jerome, produced 2,304 pounds of milk and 90 pounds of butterfat.

Daisy Ann, registered Holstein, owned by Ronald C. and Glen A. Taylor, Wendell, produced 2,438 pounds of milk and 88 pounds of butterfat.

Dora, registered Holstein, owned by Archie Malone, Jerome, produced 2,547 pounds of milk and 87 pounds of butterfat.

Inga, registered Holstein, owned by Archie Malone, Jerome, produced 2,385 pounds of milk and 88 pounds of butterfat.

Phyllis, registered Holstein, owned by Gordon Martin, Hunt, produced 2,280 pounds of milk and 85.4 pounds of butterfat.

Brute No. 16, grade Holstein, owned by Raymond G. Clark, Jerome, produced 2,205 pounds of milk and 85.1 pounds of butterfat.

Nickie, registered Holstein, owned by Jack Edwards, Dietrich, produced 2,478 pounds of milk and 84.0 pounds of butterfat.

Honor, registered Holstein, owned by Jack Edwards, Dietrich, produced 2,402 pounds of milk and 84 pounds of butterfat.

Myrtle, grade Holstein, owned by Lucille Slatter, Jerome, produced 2,400 pounds of milk and 84 pounds of butterfat.

Little Blue, grade Holstein, owned by Owen Bolan, Wendell, produced 1,830 pounds of milk and 83.4 pounds of butterfat.

Sleepy, registered Holstein, owned by Ronald G. and Glen A. Taylor, Wendell, produced 2,226 pounds of milk and 82 pounds of butterfat.

Whitely, grade Holstein, owned by Bob Fuller, Jerome, produced 2,330 pounds of milk and 81.8 pounds of butterfat.

No. 20, grade Holstein, owned by Jack Nelson, Jerome, produced 2,262 pounds of milk and 81.0 pounds of butterfat.

Peaches, registered Holstein, owned by Dale Hopper, Jerome, produced 2,180 pounds of milk and 80.7 pounds of butterfat.

Babette, registered Holstein, owned by Gordon Martin, Hunt, produced 2,010 pounds of milk and 80 pounds of butterfat.

No. 2, grade Holstein, owned by Jack Nelson, Jerome, produced 2,433 pounds of milk and 80 pounds of butterfat.

Dahalia, registered Guernsey, owned by Virgil Norwood, Hagerman, produced 1,740 pounds of milk and 80 pounds of butterfat.

No. 23, grade Holstein, owned by Raymond G. Clark, Jerome, produced 1,980 pounds of milk and 79.2 pounds of butterfat.

Francis, grade Holstein, owned by Stan Fritzier, Jerome, produced 2,070 pounds of milk and 78.7 pounds of butterfat.

Susan, grade Holstein, owned by Walter Rinehart, Dietrich, produced 2,240 pounds of milk and 78.4 pounds of butterfat.

Patty, grade Holstein, owned by Orivel Call, Hazelton, produced 1,950 pounds of milk and 78 pounds of butterfat.

Hazel, registered Holstein, owned by Archie Malone, Jerome, produced 2,235 pounds of milk and 78 pounds of butterfat.

No. 48, grade Holstein, owned by Jack Nelson, Jerome, produced 2,301 pounds of milk and 78 pounds of butterfat.

Chloe, grade Holstein, owned by Stan Fritzier, Jerome, produced 2,160 pounds of milk and 77.8 pounds of butterfat.

Windy, registered Holstein, owned by Frank Houston, Jerome, produced 2,160 pounds of milk and 77.8 pounds of butterfat.

Bob, grade Holstein, owned by Herman Hall, Jerome, produced 2,230 pounds of milk and 77.7 pounds of butterfat.

Bessie, registered Holstein, owned by John Townsend, Hagerman, produced 1,890 pounds of milk and 77.5 pounds of butterfat.

Grandma, registered Holstein, owned by Lyle F. Anderson, Jerome, produced 2,150 pounds of milk and 77.4 pounds of butterfat.

Bridget, grade Holstein, owned by Warren R. Bluemer, Jerome, produced 2,031 pounds of milk and 77 pounds of butterfat.

Nan, grade Holstein, owned by John Herrmann, Hunt, produced 1,920 pounds of milk and 76.8 pounds of butterfat.

Queen, grade Holstein, owned by Walter Rinehart, Dietrich, produced 2,250 pounds of milk and 76.5 pounds of butterfat.

Elsie, registered Holstein, owned by Gordon Martin, Hunt, produced 2,120 pounds of milk and 76.3 pounds of butterfat.

Maggie, grade Holstein, owned by Walter Rinehart, Dietrich, produced 2,310 pounds of milk and 76.2 pounds of butterfat.

Tillie, grade Holstein, owned by Warren R. Bluemer, Jerome, produced 2,065 pounds of milk and 76 pounds of butterfat.

Candy, registered Holstein, owned by Verl Hinton and daughter, Hazelton, produced 1,815 pounds of milk and 76 pounds of butterfat.

Misty, registered Holstein, owned by Verl Hinton and daughter, Hazelton, produced 2,226 pounds of milk and 76 pounds of butterfat.

Daisy, registered Holstein, owned by Archie Malone, Jerome, produced 2,385 pounds of milk and 75.8 pounds of butterfat.

Tiny, grade Holstein, owned by Warren R. Bluemer, Jerome, produced 2,085 pounds of milk and 75.1 pounds of butterfat.

Dinah, grade Holstein, owned by Herbert McCowan, Dietrich, produced 2,086 pounds of milk and 75.1 pounds of butterfat.

Rose, grade Holstein, owned by Gail Williams, Jerome, produced 2,270 pounds of milk and 74.9 pounds of butterfat.

Slu Foot, grade Holstein, owned by Leroy Wegie, Jerome, produced 2,080 pounds of milk and 74.2 pounds of butterfat.

Raven, registered Holstein, owned by Gordon Martin, Hunt, produced 1,950 pounds of milk and 74.1 pounds of butterfat.

Fobes, registered Holstein, owned by Lyle F. Anderson, Jerome, produced 2,000 pounds of milk and 74 pounds of butterfat.

Juno, registered Holstein, owned by Jack Edwards, Dietrich, produced 1,975 pounds of milk and 74 pounds of butterfat.

Linda, registered Holstein, owned by Orivel Call, Hazelton, produced 2,220 pounds of milk and 73.3 pounds of butterfat.

Toots, grade Holstein, owned by Warren R. Bluemer, Jerome, produced 2,019 pounds of milk and 73 pounds of butterfat.

Duce No. 2, grade Holstein, owned by Raymond G. Clark, Jerome, produced 1,976 pounds of milk and 73 pounds of butterfat.

Luster, registered Holstein, owned by Verl Hinton and daughter, Hazelton, produced 1,977 pounds of milk and 73 pounds of butterfat.

Muggins, grade Holstein, owned by Newbrough and Mrachek, Wendell, produced 1,980 pounds of milk and 73 pounds of butterfat.

Bev, registered Holstein, owned by Ronald C. and Glen A. Taylor, Wendell, produced 1,950 pounds of milk and 72.2 pounds of butterfat.

Annette, registered Holstein, owned by George Bird, Jerome, produced 1,746 pounds of milk and 72 pounds of butterfat.

Pebble, registered Holstein, owned by Ronald C. and Glen A. Taylor, Wendell, produced 2,244 pounds of milk and 72 pounds of butterfat.

Honey, registered Holstein, owned by Dale Hopper, Jerome, produced 1,890 pounds of milk and 71.8 pounds of butterfat.

No. 7374, grade Holstein, owned by Harold Huyser, Shoshone, produced 1,930 pounds of milk and 71.6 pounds of butterfat.

Angel, registered Holstein, owned by Archie Malone, Jerome, produced 2,145 pounds of milk and 71.5 pounds of butterfat.

Longhorn, grade Holstein, owned by Lucille Slatter, Jerome, produced 2,020 pounds of milk and 70.7 pounds of butterfat.

Dorothy, grade Holstein, owned by Lucille Slatter, Jerome, produced 1,760 pounds of milk and 70.4 pounds of butterfat.

Alta, grade Holstein, owned by Gail Williams, Jerome, produced 1,950 pounds of milk and 70.2 pounds of butterfat.

No. 84, grade Holstein, owned by Bulon Chandler, Wendell, produced 2,049 pounds of milk and 70 pounds of butterfat.

Bunny, grade Holstein, owned by Ronald C. and Glen A. Taylor, Wendell, produced 2,010 pounds of milk and 70 pounds of butterfat.

TAKING ADVANTAGE OF BREAK in Idaho weather to get bean ground ready for planting is Ivan Garand, local farmer. Farmers all over the valley are repeating the same scene now that the rains seem to have stopped. Due to the weather changes all over the valley, farmers are behind in their planting again this year. Now that the weather has become more suitable farmers can continue their farm work as usual. (Times-News photo)

Officers Are Selected at Cattle Association Meet

SEATTLE—Officers elected at the 80th National Convention of the Holstein-Friesian Association of America are president and vice president for terms of one year each.

The new president is A. J. Johnson, Elkader, Iowa; owner of Rockcrest Farms, who has served as vice president for the past two years. Johnson was elected to the board in 1955 and has served on the finance committee of the association.

Named to vice presidency is R. DeWitt Mallory, Bradford, Vt., owner of Mallory Farm. He was formerly chairman of the executive committee. Mallory was elected to the board of directors in 1957 and, in addition to his executive committee assignment, has served on the finance and building committees.

Four directors were elected to serve terms of four years on the 16-man board. They are: Richard Brooks, Louisville, Colo.; Edwin Fry, Chestertown, Md.; Maurice Keene, Auburn, Me.; and Nicholas Kolk, Goshen, N.Y.

Bylaw changes included measures to restrict elected delegates to three consecutive years of membership representation. The president was also given power to vote as a member of the executive committee. Passed by a narrow margin was a Wisconsin delegate-sponsored recommendation to the board of directors that the Holstein association discontinue study and consideration of qualified registration for non-pedigreed black and white dairy cattle.

More than 850 persons registered for convention activities which concluded Friday, June 4, with the National Convention Sale of 46 head of registered Holstein cattle at Seattle Civic Center, downtown location of the 1962 World's Fair.

Grange to Meet

SHOSHONE — Lincoln-Blaine Pomona Grange will meet at 8 p.m. Tuesday for practice of the 5th degree at Magic Grange hall, north of Shoshone.

Lincoln-Blaine Pomona will meet at 8:30 p.m. July 1 at Wood River Center Grange hall north of Shoshone.

Association's Manager Speaks On Dairy Month

Joe Hall, manager of the Idaho Dairymen's Association, spoke to the newly organized Magic Valley Dairy Improvement Association, Monday noon at the Rogerson Hotel. June Dairy Month was the subject of Hall's talk, and he spoke on the importance of the dairy industry to the area, and to Idaho.

Association president, Alvin Smutny, presided over the business meeting attended by 17 dairymen and industry representatives. The next meeting will be held in early August. Pesticide residue precautions will be the subject of the next program.

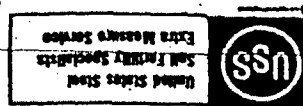

The purpose of the organization according to Smutny, is to bring all segments of the dairy industry closer together, to keep abreast of problems and technological changes, and to improve public relations.

Aw, go ahead, Tiger . . . PLACE AN AD!

Assert your Independence. Stomp around the house and find something that you can part with. An old crib, unused or outgrown ice-skates. (The usual accumulation of treasures a family collects fondly, but has no longer any earthly use for.) Then, (here comes the exciting part) call a friendly ad-taker and place your very own ad! Pretend you're a big business magnate and you just say "charge it." Here comes the hard part . . . wait for the next day's paper to come out. There it is! Your name, address or phone number. In black and white for 22,000 families to see the phone will ring and ring. People have seen YOUR ad! Sell your item. Spend the cash just as you want. (Oh boy) Then? Stomp around the house and look for something else to sell, you tiger you!

Dairy Herd Improvement Records For April Reported by Lester

JEROME — Of the 54 herds tested in the Gooding-Lincoln-Jerome Dairy-Herd-Improvement Association unit No. 2, 44 herds produced an average of 30 or more pounds of butterfat during April, according to Ben Russell, official tester.

Walter Rinehard, Dietrich, with 10 bred Holsteins, averaged 1,744 pounds of milk and 62.1 pounds of butterfat. John Herrmann, Hunt, with 10 registered and grade Holsteins, averaged 1,387 pounds of milk and 49.5 pounds of butterfat. Raymond G. Clark, Jerome, with 26 grade Holsteins, averaged 1,254 pounds of milk and 48 pounds of butterfat.

Gordon Martin, Hunt, with 30 registered Holsteins, averaged 1,339 pounds of milk and 46.0 pounds of butterfat. Jack Edwards, Dietrich, with 27 registered and grade Holsteins, averaged 1,295 pounds of milk and 45.0 pounds of butterfat. A. L. Blades, Jerome, with 16 grade Holsteins, averaged 1,302 pounds of milk and 44.9 pounds of butterfat. Jack Nelson, Jerome, with 45 grade Holsteins, averaged 1,237 pounds of milk and 44.0 pounds of butterfat.

Harold Huyser, Shoshone, with 35 grade Holsteins, averaged

1,208 pounds of milk and 43.0 pounds of butterfat. Bob Holloway, Wendell, with 16 registered Jerseys, averaged 942 pounds of milk and 42.0 pounds of butterfat. Herbert McCowan, Dietrich, with 22 registered and grade Holsteins, averaged 1,261 pounds of milk and 42.0 pounds of butterfat. Newbrough & Mrachek, Wendell, with 44 registered and grade Holsteins, averaged 1,175 pounds of milk and 42.0 pounds of butterfat.

Dale Hopper, Jerome, with 11 registered and grade Holsteins, averaged 1,073 pounds of milk and 40.7 pounds of butterfat. LeRoy Weigle, Jerome, with 38 grade Holsteins, averaged 1,311 pounds of milk and 40.4 pounds of butterfat. Rulon Chandler, Wendell, with 28 grade Holsteins, averaged 1,195 pounds of milk and 40.0 pounds of butterfat. Archie Malone, Jerome, with 44 registered Holsteins averaged 1,179 pounds of milk and 40.0 pounds of butterfat.

Ronald C. and Glen A. Taylor, Wendell, with 44 registered and grade Holsteins, averaged 1,170 pounds of milk and 40.0 pounds of butterfat. Bob Fuller, Jerome, with 31 registered and grade Holsteins, averaged 1,141 pounds of milk and 39.8 pounds of butterfat. Lyle F. Anderson, Jerome, with 39 registered Holsteins, averaged 1,154 pounds of milk and 39.5 pounds of butterfat.

John Webster, Jerome, with 26 grade Holsteins, averaged 1,128 pounds of milk and 39.4 pounds of butterfat. Verl Hinton and Daughter, Hazelton, with 20 registered and grade Holsteins, averaged 1,118 pounds of milk and 39.0 pounds of butterfat. Don Thibault, Jerome, with 48 grade Holsteins, averaged 1,121 pounds of milk and 39.0 pounds of butterfat.

William T. Howard, Hagerman, with 27 registered and grade Holsteins, averaged 1,116 pounds of milk and 38.8 pounds of butterfat. George Beer, Jerome, with 25 registered Guernseys, averaged 910 pounds of milk and 38.0 pounds of butterfat. Stan Fritzier, Jerome, with 15 grade

43 registered and grade Holsteins, averaged 1,068 pounds of milk and 35.0 pounds of butterfat. John Townsend, Hagerman, with 23 registered and grade Holsteins, averaged 1,034 pounds of milk and 35.0 pounds of butterfat.

Paul Beckman, Jerome, with 39 grade Holsteins, averaged 1,060 pounds of milk and 34.0 pounds of butterfat. Scott Gulick, Jerome, with 15 registered Brown Swiss, averaged 941 pounds of milk and 33.3 pounds of butterfat. Herman Hall, Jerome, with 13 grade Holsteins, averaged 815 pounds of milk and 33.3 pounds of butterfat. Joe Kliines, Wendell, with 17 grade Holsteins, averaged 931 pounds of milk and 33.0 pounds of butterfat.

Harvey Davis, Jerome, with 29 grade Holsteins, averaged 976 pounds of milk and 32.3 pounds of butterfat. Keith Jackson, Shoshone, with 28 grade Holsteins and registered Milking Shorthorns, averaged 937 pounds of milk and 31.7 pounds of butterfat. Frank Beer, Jerome, with 13 registered Guernseys, averaged 751 pounds of milk and 30.9 pounds of butterfat. Tom Metzler, Jerome, with 24 registered and grade Holsteins, averaged 721 pounds of milk and 30.7 pounds of butterfat.

TELEVISION SCHEDULES

SATURDAY, JUNE 12

"Jazz on a Summer Day" (5 p.m. CBS Special)—Photographer Bert Stern captures the spirit of jazz in this photo essay on the 1958 Newport Jazz Festival. Such greats as Louis Armstrong and Mahalia Jackson appear, but the star is jazz, art form, madness, and music.

"Lawrence Walk" (6:30 p.m. ABC)—"Supercalifragilisticexpialidocious," the song from "Mary Poppins," livens the evening, as do Lawrence's guests, the Blenders, a collegiate male quartet.

"The Rogues" (9 p.m. NBC) Alec and Timmy move their base of operations to the Riviera to fish for a million dollars worth of "ice." They find that crime isn't the same as in their native land.

BEST SATURDAY NIGHT MOVIES

"The Solid Gold Cadillac" (KCPX, 7:30 p.m.) Judy Holliday plays a dumb blond who starts asking logical questions in the world of big business and gets some surprising answer. The movie combines satire and slapstick and is successful at both.

"The D. I." (10:30 p.m. KSL-TV) The D. I. is a Marine drill instructor and the star of the film is Jack Webb's voice. Webb is the D. I. and he is almost constantly on camera. The film is essentially plotless, its message is seemingly, that this is what it takes to make your son a Marine. It is not pleasant viewing but is disturbing.

FRIDAY, JUNE 11

"International Showtime" (6:30 p.m. NBC) The Dubuys and their football playing bulldogs, clowns that work with a ballerina, midget boxers, and trained elephants are among the unusual acts that host Don Ameche finds when he takes the viewer to the "Jolly Jutland Circus" of Copenhagen.

"Greatest Show on Earth" (8 p.m. ABC) Steve Hill guest stars as a Corsican knife thrower who comes back to the show after an absence. The trouble starts when he tries to take up again with his ex-wife and ex-partner in the act. The plot is the regular big-top fare but Hill turns in a fine performance.

"Gomer Pyle, USMC" (8 p.m. CBS) Gomer goes to sick bay and "dies," or so Sgt. Carter believes. Gomer dead, it appears, has quite a different place in Sgt. Carter's heart than Gomer alive.

"Son of Frankenstein" (10:35 p.m. KCPX) This film will be watched by two groups, children seeing it for the first time and being scared stiff and their parents seeing it for the tenth time and laughing until the air lumps. Either way Boris Karloff and Basil Rathbone do a fine job as beings that probably wouldn't be socially acceptable even in the world of the supernatural.

Tobacco Crop Is Forecast

WASHINGTON — The Foreign Agricultural Service (FAS) has forecast world tobacco harvest in the first half of calendar year 1965—mainly in the southern hemisphere — at 3.1 billion pounds.

This is up only slightly from the three billion pounds of last season, but is almost 30 per cent larger than the 1955-59 average of 2.4 billion pounds.

FAS forecasts record harvests for Brazil, Colombia, Pakistan and Thailand.

The agency said adverse weather, mainly drought, reduced the harvests in Argentina and the Republic of South Africa. Blue-mold, hail and frost damaged the anticipated Australian crop. Frost damaged the New Zealand crop.

FAS said reduced flu-cured plantings in Rhodesia, Zambia, India, the Philippines, and Mauritius caused the smaller harvests produced in those countries this year.

Israel May Purchase U.S. Calves

WASHINGTON (UPI)—A Foreign Agricultural Service report indicates Israel may join Italy as a large purchaser of U.S. calves to be delivered by regularly scheduled airlines.

Israel recently imported 357 U.S. calves following a successful test shipment of 30 head in late March.

In airlifting the calves, ranging in age from one to three weeks, the Israeli importers got lightweight animals which they will fatten to about 1,000 pounds each before sending them to the slaughter block.

FAS said Israeli importers anticipate purchases of up to 15,000 head by May, 1966. The United States has the largest supply of baby calves in the world and is angling for the Israeli business.

During the past 10 months Italian importers have purchased and airlifted about 10,000 head of U.S. calves, mostly Holsteins, and are fattening them for slaughter. The savings in freight charges are tremendous. The shipments to Italy included calves 2 to 3 weeks old.

The 30-head test shipment to Israel consisted of 10 each in the 1-, 2-, and 3-week age group. The calves were airlifted in a 13-hour flight from New York's Kennedy International Airport to Tel Aviv.

The animals went through a two-week waiting period to determine their reaction to such factors as temperature changes during transit and the change from sustained flight and confinement.

The U.S. agricultural attache in Tel Aviv reported that "all calves arrived in good health."

"Though they lost an average of 10 per cent in weight, the weight loss had been regained two weeks after the calves' arrival and all are now gaining normally on milk-replacer ration."

"No significant difference has been noted in the condition of the calves in the various age groups."

FAS said sizable imports of calves for fattening are seen as a possible means of meeting Israel's increasing need for red meats.

Poverty Law Will Aid Rural Groups

WASHINGTON (UPI) — An Agriculture Dept. official says a new anti-poverty loan program will raise the income of several thousand rural families.

The new loan program was authorized in last year's anti-poverty law. The law authorizes loans of up to \$2,500 to low-income families in rural areas — to farmers and to non-farm families.

Howard Bertsch, the head of the department's Farmers' Home Administration, said his agency has made about 6,600 of these loans so far. The money went to families which had been earning an average of about \$1,800 a year.

FHA experts believe that the borrowers will be able to increase their incomes by about \$700 or \$800 a year.

About two-thirds of the loans are being used to improve or expand small-scale farming operations. About one-third of the money is going into small non-agricultural business or services — in one case, a small machinery repair shop, in another, a shoe-repair business in a rural community, in a third case, the expansion of a television repair service.

Bertsch told the story of the new loan program recently in a report to a House appropriations subcommittee. The official said the loans are going, in most cases, to families he calls "boxed in."

These are people who cannot move into industrial employment or full-size family farming because of their age, their limited education, or because of physical disability.

One loan under the new anti-poverty program was made to a small farmer in a rural county in North Carolina. The farmer had been operating 43 acres. He had been, Bertsch reported, "barely getting by."

In January, the farmer got an anti-poverty loan of \$1,200, repayable over 12 years. The money will be used to buy a fishing boat, nets, and tackle. Bertsch says the farmer and his two sons will operate a small commercial fishing business with farming as a sideline.

The FHA estimated this family will be able to raise its gross income by about \$300 a year.

RANGE RESEEDING project will be discussed by Mont Johnson, chairman of the Wood River board of supervisors at Johnson's Butte during the June 19 Wood River tour. Boyd Price and others assisted in planning Johnson's development program. (Times-News photo)

Richfield, Dietrich Range Tour Set June 19; Experts Will Participate

SHOSHONE—At 9 a.m. June 15 Wood River Soil and Water Conservation District will conduct a tour-of-range, wildlife and windbreak developments in the Dietrich and Richfield areas. The group will assemble at the Bureau of Land Management office grounds to take buses.

First stop will be at Star Lake, where bureau personnel will show a "blow-out" in an area which needs treatment to correct the problems. From Star Lake, the tour will move to Sid

Soybean Carryover Will Be 10 Million Bushels

WASHINGTON (UPI) — The agriculture department estimates the carryover of 1964 crop soybeans into the 1965-66 marketing year Oct. 1 will be about 10 million bushels.

This is less than a week's requirements of the oil-rich and protein-laden commodity for crushing and export.

In a review of the fats and oils situation, the department noted that domestic soybean crushings currently are running 12 per cent ahead of last year and may total around 470 million bushels by the end of the marketing year.

Last season the crushings totaled 441 million bushels.

Exports for 1964-65 are expected to total 205 million bushels, nine per cent above the 191 million bushels in 1963-64.

Predicted domestic use, anticipated exports and some 47 million bushels for seed and feed leave only about 10 million

Plastic Mulch Is Aid to Gardens

UNIVERSITY OF IDAHO — A plastic mulch in your garden will help you produce better and earlier yields.

And it might help you grow some of those "warm season" crops you've always wanted to try.

This type of mulch — a strip of polyethylene plastic placed on the garden row — speeded maturity of garden crops as much as two weeks in University of Idaho experiments.

At the same time, it improved yields and made garden weeding a much easier job.

The trials by George W. Woodbury, horticulturist with the Agricultural Experiment Station, indicate plastic mulch can be practical for the Idaho home gardener.

Butte. There, Floyd Silva, farmer from north Shoshone, and Duane Pyrah, Idaho Fish and Game Department officer, will review the history of developments in the area and discuss wildlife and livestock problems.

Third stop will be at Black Ridge, when Ben Oneida will show a livestock water development and Dale Tanner, fish and game department officer, will discuss the antelope herds in the Black Ridge and Dietrich Butte areas. Following the Black

Ridge discussion, the tour will proceed to Richfield, where a no-host lunch will be served. Cost of the lunch will be about \$1.50.

During the noon hour, Max Reese of the U.S. Forest Service will discuss some phases of working together, relations between administrative agencies and the users of the public lands.

Rees supervises the Sawtooth National Forest, a portion of which forms the watershed supplying irrigation water to Wood River and neighboring soil and water conservation districts.

After Rees's talk, Willard Stevenson, Farmers' Home Administration, will speak on financing group enterprises.

After lunch, the tour will visit the LaRae Brown farm, where Arnold Coleman, of the fish and game department, will discuss a windbreak which the department established on a farm several years ago.

Sixth stop will be at Johnson's Butte, where Mont Johnson will show livestock water and range re-seeding programs on privately owned land. Johnson was chosen state grassman of the year in 1957 and has several range improvement projects to show.

The final stop will be near the Charles Hoodenpyle ranch, where Wendell Johnson, secretary for the Richfield Cattle Association, will describe some of the improvements in the area used by the association. BLM personnel will assist.

This tour will be known as the Wood River Pilot Soil and Water Conservation District tour. Wood River SWCD was selected as Idaho's pilot district in 1951.

The pilot district has about the same boundaries as the Soil and Water Conservation District, with some additional land in Blaine, Camas and Gooding counties. The pilot district program provides that all agencies, federal, state and private organizations shall work together to accomplish the necessary soil and water conservation task on both public and private lands.

There has been cooperation among the agencies and organizations, and on the tour, present needs as well as accomplish-

KENNETH HARRISON, Bureau of Land Management range specialist, will discuss assistance to stockmen during a Wood River range tour June 15. (Times-News photo)

ments will be shown and discussed.

Soil Conservation technicians have assisted with plans for the event as well as SCS personnel day-by-day services. Agricultural stabilization and conservation services have been provided as well as services by the county extension agent, Ivan Hopkins.

Over the years, assistance to the pilot district program has been given by various individuals and organizations, and particularly by the county banks, Farmers' Home Administration, Federal Land Bank system, Production Credit Association and district cooperators.

The fish and game department has assisted with plantings for windbreaks and woodlots on numerous farms throughout the district. Work in watersheds has been done by the forest service.

Note will be made on the tour of cooperation between the public land users and BLM.

Range Users at Malta Organize

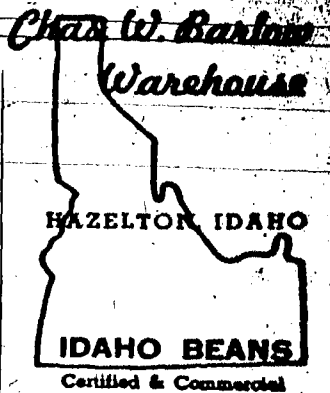

ELBA—A new cattlemen and horse association was organized this week and the users of the South Central Cotterel Mountain range met at the Raft River Rural Electric conference room in Malta to elect officers and discuss the use of this range.

Cotterel range lies between Albion and Malta and has 22 users. The meeting was under the direction of L. Christian Vosler, range manager, Burley.

Officers elected were Charles Ward, Malta, president; Joe Carlson, Albion, vice president, and Donald Chandler, Elba, secretary. Other board members are Wallace Sears, Malta, and Dick Anderson, Albion.

Control hard-to-kill pests on alfalfa

alfalfa

Cygon 267°, the versatile insecticide, is now registered for SEED ALFALFA and ALFALFA (grown for hay) aphids, leafhoppers, lygus bugs, grasshoppers and reduction of alfalfa weevil larvae

Cygon offers double effectiveness in control of insect pests: • as a contact insecticide with high initial kill. • as a systemic protector within the plant. This double-barreled effectiveness provides protection from inside and outside the plant, reduces the effect of weather and gives control up to 14 days.

Cygon is powerful, efficient and its long-lasting qualities and low rates make it a truly economical material. When applied according to directions it poses no residue problems. It is among the less toxic organic phosphate pesticides. NO PERMIT REQUIRED.

Cygon 267 is also registered for use on cotton, safflower, beans, various cole crops, peas, peppers, potatoes, tomatoes, watermelons. Also — seed crops: carrots, onions and bermuda grass. It is highly effective against aphids, leafhoppers, lygus bugs, grasshoppers, thrips, and leaf miners.

For further information contact your local agricultural au-

thorities or insecticide supplier. Be sure to ask for SUR-TEN, the superior wetting agent to be added to agricultural sprays. Before using any pesticide, stop and read the label.

DANGER TO FRUIT comes to Magic Valley in the form of the Cherry Fruit Fly. Donald Youtz, county agent, and Gerald Taylor, operator of the Taylor orchards, observe a "sticky board" put out to test the quantity of fruit flies in the orchard. (Times-News photo)

Appearance of Cherry Fruit Fly in Magic Valley Results in Warning

Cherry growers in Magic Valley are being warned about the growing problems of the cherry fruit fly.

Cherry fruit flies are the most serious problem the cherry growers have.

Plight of Farmer Gets Congress Nod

WASHINGTON (AP) — The House Appropriations Committee decided today the plight of the American farmer as it recommended \$3,692,537,000 in new funds to run the Agriculture Department for the bookkeeping year that begins July 1.

This is \$122,597,000 less than President Johnson requested, and \$1,134,511,200 less than the department's allowance this year.

In a lengthy report, the committee said the farmer has been caught in a "cost-price squeeze."

The committee said elimination of small family farms would be undesirable and would "seriously increase our social and welfare problems in every urban area in the United States."

It said the only practical approach is to continue programs to make it possible for 3.5 million farmers to earn a living on a farm. These programs provide for price supports, long and short term credit and continued research and technical assistance.

The committee cited statistics showing that more than 2.5 million farmers do not even earn the minimum wage paid in industry.

About \$4 billion of the total in the bill was earmarked for the Commodity Credit Corporation, which manages price support and stabilization programs, and handles storage of surplus commodities, and carries out programs for exportation of surplus farm products.

Other large allotments included: Soil conservation operations, \$105,373,000.

Special milk program to encourage consumption of milk by children, \$100 million.

School lunch program to provide an estimated 3 billion meals at an average cost of 5 cents each to the government, \$155 million in addition to \$45 million from other funds.

Food stamp program, \$75 million.

Payments under the sugar act to domestic producers of sugar beet and sugar cane, \$95 million.

Agricultural conservation program, \$220 million.

Rural electrification administration, \$350 million in loan authorizations for electrification, and \$97 million for telephone loan programs.

growers have. The Western cherry fruit fly infests wild cherries as well as cultivated crops.

The fly is slightly smaller than the common house fly and blackish-brown in color, with yellow markings on the thorax and white crossbands on the abdomen. The wings have wide, blackish crossbands.

Cherry fruit flies emerge during the end of May and early June. According to Donald Youtz, county agent, the best time to take control measures is at the time they emerge. Insecticidal control is mandatory each year to prevent infestations. Although chemical control is very effective it must be timed "just right" for best effects.

Timing can be most accurately attained by the use of a "sticky board." When flies first show on the sticky board, it is time for chemical control to start.

There are many chemicals that can be used for the control of the fly. The most effective of these is Parathion-roténone. This chemical is not recommended for use in town. Malathion, Diazinon and Perthane can be used more safely for populated areas. Applications of Perthane and Methoxychlor may cause an increase in mite population, therefore growers may wish to use a phosphate spray in one of the cover sprays to keep down this insect. All spray covers should be placed completely over the tree and if followed by heavy rain should be repeated. Any trees that are planted with the cherry trees should also be sprayed as they may contain the fly.

One important notice should be considered. The grower is responsible for residue on his crops as well as for problems caused by drifts from his property.

If chemicals are used as specified by the directions the residue should not exceed the tolerance level. Directions should be followed specifically especially pertaining to dosage levels, number

of applications, and minimum interval between application and harvest. Carelessness can lead to undesired results.

Where control on "backyard" trees is required or where commercial orchards are adjacent to a spray of methoxychlor-roténone, malathion, diazinon or Perthane is recommended.

After harvest, apply a clean-up spray of malathion, parathion or Perthane plus a miticide. This helps to complete the control process.

Upon discovery of the fly, Taylor notified the county agent's office of the fact that the fly was starting to come out. Donald Youtz, county agent, then notified other growers of the danger coming on them. Protective measures have been started to combat the threat to the trees and fruit.

Although the large growers have started treatment of their crops the in-town growers are the ones who must also fight along with the larger growers to completely destroy the menace. This is why the less powerful sprays have been put into use. The danger of contamination is so great with the more powerful sprays that some way had to be

developed for use in crowded areas.

It is now set up so there is no reason that the Cherry Fruit Fly cannot be "combated and beaten," the county agent said.

The first grower in Magic Valley to discover the fly was Gerald Taylor of the Taylor orchard in the Snake River Canyon.

Cherry Fruit fly, which has been discovered in the Twin Falls area, is shown in this picture furnished by the University of Idaho, College of Agriculture. The fly is generally black in color and is a little smaller than the house fly.

Change Seen For Cotton Producers

WASHINGTON (UPI) — Representatives of the nation's cotton producers and officials of the Agriculture Dept. are studying proposals for voluntary cut-backs in cotton acreage, beginning in 1966.

The plans currently under study are based generally on the acreage division system already in use for feed grains. Under this system, growers are offered diversion payments for voluntarily reducing acreage below

their regular planting allotments. Administration farm officials earlier had endorsed a proposed new bill that would include a reduction in the national cotton acreage allotment. But apparently the possibility has not been closed out that a voluntary reduction program may be backed instead. Such a program would leave the national acreage allotment unchanged.

One spokesman for cotton producers says the administration is insisting that any new cotton legislation must cut government costs by at least \$300 million a year. This would be a reduction of about one-third from this year's federal cotton support program costs.

Administration officials and

leaders of a cotton producers legislative committee have been reviewing possible methods of cutting these costs at a series of private meetings here this week. The producer group hopes to develop a set of recommendations for a new cotton bill to lay before the House Agriculture Committee early next week.

The House committee is continuing its public hearings on new cotton legislation. Wednesday the lawmakers heard from the National Cotton Council and the American Textile Manufacturers Institute.

Both groups called for continuation of programs designed to keep the cost of cotton to American mills on a par with the price at which cotton is exported.

Lema, Casper Fire 67s To Share First-Round Lead of Cleveland Open

CLEVELAND, Ohio (UPI)—Defending champion Tony Lema, starting and closing fast, and slick-putting Billy Casper fired four-under-par rounds of 67 Thursday to tie for the lead after the first round of the \$135,000 Cleveland Open golf tournament. Champagne Tony; one of the early finishers, had a 35-32 round that survived every challenge until Casper, one of the last starters, came in with a 34-33 card

Pitcher Fans 9 Twins as Indians Win

ST. PAUL-MINNEAPOLIS (AP)—Cleveland's Sam McDowell continued his torrid strikeout streak Thursday night but needed Gary Bell's relief help in the ninth inning to preserve a 4-1 victory over Minnesota.

McDowell posted his third straight victory for a 6-3 record and brought his American League leading strikeout total to 103 by fanning nine Twins. In his two previous games, McDowell struck out 28.

Camilo Carreon capped a three-run Indian second inning with a two-run homer, his first of the season, and Leon Wagner hit his eighth homer, with the bases empty in the third.

McDowell, who had not beaten the Twins before in four decisions, struck out Minnesota slugger Harmon Killebrew three times.

Cleveland 031 000 000—4 7 0
Minnesota 010 000 000—1 8 1

McDowell, Bell (9) and Carreon; Boswell, Fosnow (6), Klippstein (7) and Batteny. W—McDowell (6-3). L—Boswell (3-3).

Home runs—Cleveland, Carreon (1), Wagner (8).

Runner Says Snell Will Regain Mark

LONDON (AP)—Alan Simpson, Britain's fastest miler, predicted Thursday that New Zealand's Peter Snell will regain the world record when the two men compete against each other at Dublin July 5.

Michel Jazy, 28-year-old Frenchman, shattered Snell's record with a fantastic time of 3:53.6 at Rennes, France, Wednesday night. Snell's mark was 3:54.1.

Last Monday Simpson ran the mile in 3:56.8—the fastest time ever clocked by a British runner.

Simpson said Jazy's achievement was tremendous. But he added:

"Jazy's run will mean that the world record will go again when I race against Snell in Dublin, because Snell will be eager to get it back."

The track at the John F. Kennedy Stadium in Dublin, where Simpson and Snell are scheduled to clash, is regarded as fast. Herb Elliott of Australia, the last world record holder before Snell, ran his fastest mile there—3:54.5—in 1958.

Arthur Lydiard of New Zealand, Snell's coach who is in Toronto with the three-time Olympic winner, agrees with Simpson that the ultimate has not been reached in the mile.

"Both Peter and I have always maintained that the time for the mile will be dropped to 3:50—or less—in the future," the coach said.

Simpson added that "all my training is going into running faster miles than the 3:56.6 I did in London this week."

Unit Recommends Sites for 1972 Winter Olympics

MAMAIA, Romania (AP)—The International Ski Federation decided to recommend Banff, Canada; Lahti, Finland; and Sapporo, Japan, to the International Olympic Committee as sites of the 1972 Winter Olympics.

Agerepress, the Romanian news agency, said the recommendations were made in this order by the annual FIS congress meeting in this Black Sea resort.

The three bidders lost out to Grenoble, France, for the 1968 games, awarded by the IOC congress at Innsbruck, Austria, during last year's winter Olympics.

SETTLEMENT POSTPONED BOSTON (UPI)—A settlement in the National Basketball Association owner-player fund has been postponed until September.

that gave him a share of first place. Lema and Casper finished one stroke ahead of five players grouped at 68—Tommy Aaron, Dan Sikes, Johnny Pott, Billy Martindale and Rob Reith Jr. Eight other were bunched at 69—Bob McAllister, Terry Dill, Mason Rudolph, Paul Harney, Randy Glover, Larry Beck, Ed Griffiths and Ken Still.

Bruce Crampton, Art Wall, Gene Littler and Jack Burke were among a dozen players jammed at 70 and nearly two dozen others were stacked up at even par 71, including Arnold Palmer, Bob Rosburg, Julius Boros, Bob Charles and Phil Rodgers.

Sam Snead, Al Gelberger, Tommy Bolt and Billy Maxwell were among those at 72, five strokes off the pace, and the group at 73 included Dow Finsterwald, Juan (Chi Chi) Rodriguez, Dave Hill and Frank Beard.

Lema, shooting for his second victory in a row after winning the Buick Open last week-end, dropped birdie putts of five and six feet on the first two holes and made the turn in 35 after taking his only bogie of the day at nine.

The slender Californian, fighting off a cold, got the stroke back immediately by canning a 35-foot birdie putt on 10, then birdied two of the last three holes for a 32 on the back side.

He chipped up to within four feet of the pin on 16 to set up one birdie and, after dropping a six-foot putt for his par on 17, birdied the final hole by sinking a 12-foot putt.

Casper, playing despite minor surgery performed last night, dropped four birdie putts and parred the other 14 holes in what he called "probably my best putting round all year."

Casper birdied the fifth and sixth holes on the front side and then the 10th and 12 holes on the way back in. Casper, who underwent a hemorrhoid operation, said, "It's a good thing I had a late starting time today. If I had been scheduled to go out early, I don't think I could have made it."

The once-portly golfer, considered one of the best putters on the tour, needed only 29 putts during his round. But Lema did just as well.

"My putting was pretty good today," Lema said, "except for the No. 9 where I three-putted from 40 feet."

Lema had eight one-putt greens and also needed only 29 putts.

"I'm never completely happy," Lema added after his round. "But anytime I have a 67, I'm satisfied."

Arizona State Has 2 All-Stars

OMAHA (AP)—Top ranked Arizona State placed two men on the 11-man All-America college baseball team announced Thursday by the American Association of College Baseball Coaches.

Heading the list was Rick Monday, chosen No. 1 in the major leagues' free-agent draft Tuesday. The other ASU selection was Louis Lagunas.

The first team included the regular season batting champion, outfielder Bill Guerrant of Western Michigan, who hit .476 to edge Pittsburgh's Fred Mazurek by one point for the crown.

The pitching choices were Steve Arlin, sophomore right-hander from Ohio State, whose 143 strikeouts led the nation, and left-hander John Marcum of St. Louis, with 114 strikeouts and a 1.16 earned run average.

Seaman Wins

VALLEJO, Calif. (AP)—Nineteen-year-old Navy Seaman Philip McDowell won the 125.5-pound class crown of the World Wide Interservice Wrestling Championships Thursday night in an upset victory over Army Pfc. Fred Powell, a 1964 NCAA champion.

McDowell is from Glendale, Ore. Powell, a former Penn State star, lives in Norfolk, Va.

Robinson-Led Chicago Tops Red Sox 4-2

BOSTON (AP)—Slump-ridden Floyd Robinson broke loose with a decisive bases-loaded triple for Chicago off Boston's Dick Radatz Thursday as the White Sox downed the Red Sox 4-2.

Robinson smashed a drive off the bullpen wall in the seventh inning.

Red Sox starter Dave Morehead had a three-hitter and a 2-1 lead through six innings. When two of the first three White Sox singled in the seventh, Morehead was lifted for Radatz, who promptly hit Don Buford with a pitch, loading the bases.

Chicago 000 001 300—4 7 1
Boston 011 000 000—2 6 1
Peters, Wilhelm (7) and Burgess, Martin (7); Morehead, Radatz (7), Stephenson (8) and Ryan. W—Peters (5-4). L—Morehead (4-5).
Home runs—Boston, Conigliaro (12).

Track Feud Puts Matson On Sidelines

HOUSTON (UPI)—Muscleman Randy Matson of Texas A&M, disillusioned by the feud between the NCAA and AAU and nursing a bum knee, said Thursday he will spend his summer lifting weights and working instead of displaying his talents as the best shot putter in the world.

Matson, who holds the pending world record in the shot put of 70 feet, 7 inches, said he will not compete in the NCAA championships June 17-19. He also said he will skip the AAU meet that will determine which U.S. athletes compete against the Russians—unless the NCAA lifts its ban.

"It (the knee) has been bothering me," Matson said. "I think the only way it will get better is for me to just rest."

"I will start working on weights next week with (A&M weight coach) Emil Mammaliga," Matson said. "I'm losing weight with all this inactivity."

The Aggie sophomore said he will work on weights at the Golfcrest Country Club in Houston during leisure hours from his job at the Metallic Building Co. He said his injured left knee, the ligaments of which were strained last winter, has not responded to treatment.

In College Station, A&M coach Charley Thomas said Matson had lost his incentive because he would not be able to compete in the AAU meet.

Thomas also said Matson "hates to go" to a meet and not do his best. "If something happens where I can go to the AAU meet to compete against the Russians, I might do that," Matson said, "but just going to the NCAA isn't worth hurting my knee any more."

WINS AUTO STATELINE, Nev. (UPI)—Dick Kolbus of Alamo, Calif., shot a hole in one on the 14th hole to win an \$18,500 1963 Rolls Royce in the Harrah's Invitational golf tournament, Thursday.

Mays Would Like Complete Day of Rest

Herman Franks would like to give Willie Mays a day off, but every time the San Francisco Giants star earns a rest he gives his manager another reason for keeping him on the job.

Weary Willie, who came into New York two days ago nursing a heavy cold and a deflated batting average, worked over the Mets Wednesday night for the second straight game, driving in three runs with a single and his 18th homer in the Giants' 4-2 victory.

The previous night Mays had ended an 0-for-18 famine by doubling home two first-inning runs that stood up for a 2-1 decision over the National League tailenders.

"I would like a real day off," the great center fielder said after that game. "I'd like the manager to tell me stay away from the park for one full day."

Franks has held Willie out of his starting line-up several times but invariably has had to call on the 34-year-old slugger as a pinch hitter or defensive replacement.

Wednesday's night's spurt gave Willie 41 RBI and a .324 batting mark for the season.

U.S. Wheelchair Games to Begin

NEW YORK (UPI)—The ninth annual United States Wheelchair Games opened at Buloval Park today with almost 300 athletes vying for a berth on the 1965 U.S. Paralympic squad entered in the international meet at London July 20-24.

The contestants, in wheelchairs because of disabilities caused by war, illness or accident, competed in events such as track and field, weight-lifting, table tennis, swimming, bowling, fencing and archery.

Baseball Now Must Sign New Draftees

NEW YORK (AP)—Professional baseball's first free-agent draft finally is over with 826 youngsters selected by the 20 major league clubs and their farm teams. Now all they have to do is sign the youngsters. This may not be easy.

General Manager Ralph Houk of the New York Yankees, who fought unsuccessfully against passage of the controversial rule, thinks only about half the number selected will be signed. Gabe Paul, president of the Cleveland Indians, and one of its strongest boosters, predicts the clubs will have little difficulty in coming to terms with as many as they would like.

Surprisingly, none among the baseball brass expressed any concern over possible court action.

Prior to the bill's passage, opponents headed by owner Charlie Finley of the Kansas City Athletics called the action illegal and in restraint of trade because, he said, it would deprive the boys of negotiation rights.

"It's just not so," averred George Kirksey, vice president of the Houston Astros. "The boys do have negotiation rights. He's got four choices. He can sign, he can continue in school, he can go into football or baseball, or he can go into business."

"It's absolutely ridiculous for baseball people to think they'll get the kids cheaply just because they have exclusive negotiation rights."

The National League selected 431 players—to the American's 395. The New York Mets, who made the last selection, wound up with 52 picks, the same number as the Boston Red Sox.

Don't Neglect Slipping FALSE TEETH Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. WSU Is Ousted In 15 Innings

OMAHA, Neb. (UPI)—Right-hander Steve Arlin fanned a record 20 hitters and pitched Ohio State to a 1-0, 15-inning win today over Washington State in the college world series.

The Ohio State victory came on an error by Washington shortstop Duane Rossman in the top of the 15th. Rossman's error on Buckeye Arnold Chonko's grounder with two outs allowed Jim Graham to score from third base.

Graham had walked to lead off the inning, went to second on a sacrifice, and took third on another infield out.

The marathon game also tied a lengthy game record set in 1967 in a championship game between Michigan and Santa Clara.

Salt Lake Woman Wins Twin Falls Invitational

Gwen Henderson, Salt Lake City, ran off with medal honors Thursday in the annual Twin Falls Women's Golf Association golf tournament. Mrs. Henderson shot a 39 in the nine-hole affair, which attracted entries from three states. A total of 147, the largest in the tournament's history, participated.

Snell Upset By Crothers In Half Mile

TORONTO (AP) — Canada's Bill Crothers upset Peter Snell, New Zealand's record-holder and double Olympic champion, in capturing the featured 880-yard run of the Toronto international track and field meet Thursday night. Crothers was clocked in the meet record time of 1:48.4.

Crothers, second to the stretch-kicking Snell in the Olympic 800 at Tokyo, beat the New Zealander at his own game and won by about two yards before a cheering crowd of 14,000 in Varsity Stadium.

The lanky Canadian stayed close behind Snell until the start of the final turn. He made his big bid then and finally collared the New Zealander with about 25 yards to go.

Snell, holder of the world record of 1:45.1 as well as the listed world marks for 800 and 1,500 meters, was timed in 1:48.6.

Earlier, Harry Jerome of Vancouver came from behind and beat Mel Pender of Atlanta by about a yard in the meet record time of 9.3 for the 100-yard dash.

The 24-year-old Canadian Olympian trailed Pender until about 35 yards from the finish. Then he opened up and beat the American to the wire. Pender also was timed in 9.3.

The old mark of 9.5 was set in 1952 by Nate Adams of Cleveland.

Phils Combine Hits, Hurling To Beat L.A.

PHILADELPHIA (AP) — Ray Herbert's first National League shutout and consecutive sixth inning homers by Rich Allen and Dick Stuart carried the Philadelphia Phillies to a 4-0 victory over the Los Angeles Dodgers Thursday night.

Herbert, scattering seven hits in bringing his record to 3-3, held a 1-0 lead in the sixth when Allen and Stuart suddenly broke up his pitching duel with Johnny Podres.

Allen's home run, his 10th, came with Tony Taylor on base, and sailed high over the left field stands.

Stuart's homer, his eighth, sailed into the upper left field stands.

Cookie Rojas doubled home the Phillies' first run in the first inning after Taylor led off with a single.

Home runs — Philadelphia, Allen (10), Stuart (8).

NBA Owners Nix Player Attorney

BOSTON (UPI) — National Basketball Association players lost out Thursday on a bid for legal representation in talks with club owners as they filed objections to "abuses" or rules governing playing conditions.

Tom Heinsohn of Boston, retiring president of the Players' Association, said the NBA's Board of Governors refused permission for attorney Larry Fleisher of New York to attend the owners-players meeting.

Newark Airport Workers Claim Yankee Players Deserved Fines

NEWARK, N.J. (UPI)—Word that three New York Yankees were fined \$250 each for cutting capers at Newark Airport was greeted Thursday with quiet but grateful appreciation by the airport staff. "They got what they deserved," said a bartender at the airport cocktail lounge who asked that his name be withheld. He said the ballplayers had been drinking in the lounge and then went into the adjacent "noisy and abusive" to the waitresses. The Yanks returned to the lounge but were refused service because of the snack bar trouble.

The incident, which occurred Sunday night, was disclosed Wednesday by general manager Ralph Houk at a press conference in Kansas City. He said three Yankees had been fined, but declined to say which ones or to elaborate on the barroom incidents.

Sports writers traveling with the team said likely candidates for the fines were slugger Mickey Mantle and relief pitcher Hal Reniff and Pedro Ramirez.

Others mentioned as possible fine victims were outfielder Roger Maris, pitcher Pete Mikseleson or shortstop Phil Linz. The airport bartender said the players were cutting up in the cocktail lounge when "the night manager came in and told the bartenders not to serve the players."

The bartender said three or four Yankees were refused the drinks and he recognized Linz among them.

The players became belligerent and began abusing the lounge employees, including the manager, the barkeep said.

"Finahy, manager Johnny Keane came in and he went up to Linz and said something like 'You at it again?' And then all of them left," the bartender said.

At the height of the fracas, when things seemed to be getting out of hand in the lounge, night manager Joseph Burns called the airport police. Sgt. George Miller responded and helped quiet the players. No arrests were made.

The incident occurred after the Yankees swept a doubleheader from the White Sox at Yankee Stadium Sunday. They were to leave Newark Airport at 10:30 p.m. for Kansas City but their chartered jet developed mechanical trouble and it wasn't ready until 2 1/2 hours later.

Bases-Loaded Hit Lets Reds Tip Cardinals

ST. LOUIS (AP) — Leo Cardenas tripled with the bases loaded and Tommy Harper slammed four hits and scored the decisive run as the Cincinnati Reds outlasted the St. Louis Cardinals, 8-7 Thursday.

Cardenas bounced his hit off the center field wall in the fifth inning following an intentional walk to Don Pavletich, giving the Reds a 7-2 lead.

Bill White hit the first of his two home runs and pinch hitter Tito Francona doubled home two more tallies to close the gap before Harper doubled in the sixth and Pete Rose singled him in for the clincher.

One American Left In British Amateur

PORTCAWL, Wales (AP)—Bill Hyndman, 48-year-old Philadelphia insurance broker, swept into the quarter-finals with a pair of impressive victories Thursday and became the lone remaining American hope in the British Amateur Golf Championship. Three U.S. representatives fell in the fourth round in a double elimination over the morning and three others last in the afternoon in a double elimination over the 6,700-yard, par 72 Royal Portcawl links. The weather was ideal — warm and windless.

Two more rounds Friday will reduce the field to two men who meet Saturday in the 36-hole final.

Hyndman, veteran Walker Cup ace, eliminated Ronald Shade, the Scottish champion, in perhaps the best match of the tournament, 2 and 1, and then smothered Rod James, a 22-year-old Englishman, 6 and 5.

"I feel great," Hyndman said. "I only wish I could continue putting rounds together like the two I shot today. I'd let other people fire at them."

Jack Miles of New York, Hunter McDonald of Detroit and Bob Gardner of Essex Fells, N.J., lost in the fifth round after winning morning matches. Eliminated in the fourth round were John Penrose of Philadelphia and two players from Rochester, N.Y., Jim Campbell and John Thornton.

Hyndman's first opponent Friday is Clive Clark, who eliminated defending champion Gordon Clark 4 and 3. If he wins, the tall Philadelphian then will play the winner of the match between John Poval, the Welsh champion, and Martin Christmas of England.

Scotchball
A Scotch foursome golf tournament will be conducted at 3 p.m. Sunday at the Twin Falls Municipal Course. Those participating are asked to register by 2:30 p.m. at the pro shop.

2 Teachers Are Hired At Richfield

RICHFIELD — The Richfield school board was reorganized, two teachers offered contracts and a bid on the school bonds was accepted at the June board meeting Tuesday evening.

Clifford Conner was reelected chairman and Ralph Riley Jr. retained as vice chairman after three board members were sworn in. Conner and Grant Flavel will represent zones two and three, respectively, for three-year terms, and Burl Akins is the trustee elected for zone one to serve out the two years of Bruce Sorensen's unexpired term.

Neil Andreason, Arco, was offered a contract as coach-social science teacher and Mrs. Del Haslam, Richfield, a contract as seventh grade teacher and commercial instructor in the high school.

A bid on school bonds was accepted from the Department of State Public Investments at four per cent interest.

Lester Johnson was retired as custodian of Richfield schools and Mrs. Myrtle Riley and Mrs. Sterling King rehired as cooks.

The district clerk and treasurer exchanged jobs with Mrs. Harold Fridmore as new clerk of district 316 and Mrs. Wendell Johnson as treasurer.

Work has begun on Richfield's new elementary school with Nov. 15 set as completion date. The contract was for \$129,996 for the eight-room unit and cafeteria. Ullman Construction Co., Twin Falls, was low bidder. Sub-contractors are with Dan Daniels Roofing, Twin Falls, and Roy Rogers Plumbing and Heating Co., Boise. Rogers is a former Richfield resident.

Opening date for Richfield schools is Sept. 7.

Jet Landed By Computer

LONDON (AP)—A computer landed a jetliner with 88 passengers aboard Thursday.

British European Airways said it was the world's first wholly automatic landing of a commercial plane on a scheduled flight.

The plane came from Paris. The passengers were unaware that they were being brought down by an automatic pilot.

The computer took over after the pilot had lined the airplane up with the runway. It made a perfect touchdown.

Deadline Nears On Dog Licenses

The final date for purchasing dog licenses without penalty is June 30, it was reported Thursday by Constance J. Leiser, city clerk.

Present license fees are \$2 for male or spayed female and \$4 for females. After June 30 the fee will be increased to \$3 and \$5.

Mrs. Leiser also reported that the owner of any newly acquired dog of licensing age should make application for a license within 10 days. Owners must present evidence that the animal has been inoculated with anti-rabies vaccine.

Licenses may be obtained at the city clerk's office.

YOUR BIRTHDAY and HOROSCOPE

FRIDAY, June 11 — Born today, you are a person who will never lack for interests and enthusiasms. One who meets all challenges as if success were a foregone conclusion, you have the kind of energy, determination, and willingness it takes even to circumvent almost certain failure every time. You have tremendous self-confidence, and need only take care that you do not take on too many projects at once.

Although you are not given to moods to such a degree that your life is visibly influenced by them, you are inclined to have periods of ups and downs. Experience has taught you, however, never to trust the decisions you make when in the midst of such periods, and you wisely wait for the time when you are in an emotional "happy medium" before you act. Such an intelligent approach has no doubt saved you from many a mistake.

Because you are by nature one who moves about from interest to interest, it follows that you will not be one to marry and settle down early in life. The solidification of your character and aims as you approach middle life, however, should change your outlook on many things — including the advisability of finding a marriage partner — and domesticity will probably enter your life at that point.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Saturday, June 12
GEMINI (May 22-June 21) — These are excellent days for developing artistic talent, however small.

Hit-and-Run

MADISON, S.D. (UPI) — Donald Olson, 35, was recovering today from injuries received when he was struck by a hit-and-run driver.

He told police he was standing in Lake Madison and fishing when an unidentified motorist knocked him down, circled once and sped away.

Richfield Break In Canal Fixed

RICHFIELD—Richfield's irrigation ditches and farm laterals are again flowing with water from Magic Dam after an 11-hour repair job by the Big Wood Canal crews and "trade help" from the Richfield highway district.

Two caterpillars and six trucks operated continually to replace the six foot thick ditch banks of the lateral that went out early Tuesday morning. The break site was lined with plastic sheeting as a protection to the new dirt fill.

The break is believed to have been caused by a heavy object washing over the top of the broken site, causing a shearing off of part of the bank to begin the washing of water over the bank and subsequent break-through.

Richfield is now experiencing its heaviest demand for water thus far this year.

CANCER (June 22-July 23) — A highly social day for the Cancer who has made it a point to cultivate friends through the week.

LEO (July 24-Aug. 23) — An interesting day if you're game for adventure.

VIRGO (Aug. 24-Sept. 23) — Forget the past for the time being.

LIBRA (Sept. 24-Oct. 23) — Avoid interfering in other people's business; you have enough problems of your own.

SCORPIO (Oct. 24-Nov. 22) — If you are fortunate enough to find yourself in the company of people in high places, put in a word for yourself.

SAGITTARIUS (Nov. 23-Dec. 22) — An unusually productive Saturday. See to completing projects around the home.

CAPRICORN (Dec. 23-Jan. 20) — Join friends and family in a Saturday outing. Avoid bringing the conversation around to business worries.

AQUARIUS (Jan. 21-Feb. 19) — Encourage younger family members in social contacts.

PISCES (Feb. 20-March 20) — Considerable gain in store for the Pisces who times his activities wisely.

ARIES (March 21-April 20) — You can make popularity gains in your own community by rising to the occasion.

TAURUS (April 21-May 21) — Sports — either as participant or spectator — should be the main source of this day's pleasure and relaxation.

SATURDAY, June 12 — Born today, you have a tremendous competitive spirit. There is nothing that can fire in you an interest in doing good work faster than the knowledge that you have competition — the more the merrier! True, you are sometimes more sure of yourself than the circumstances warrant, but even in failure you find the experience of having been in challenging competition enough to raise your spirit.

You are somewhat inclined to expect all people to be as you are, and seem at times to have little sympathy for those who

LEGAL ADVERTISEMENTS

NOTICE OF HEARING BEFORE THE COMMISSIONER OF INSURANCE OF THE STATE OF IDAHO

In the Matter of the Application of Allied Mutual Insurance Company for merger with Snake River Mutual Insurance Company.

NOTICE IS HEREBY GIVEN that Allied Mutual Insurance Company, a mutual insurance company organized and existing under and by virtue of the laws of the State of Iowa having its registered office at Des Moines, Iowa, and who has made application to become duly licensed as a foreign insurer in the State of Idaho, and Snake River Mutual Insurance Company, a mutual insurance company organized and existing under and by virtue of the laws of the State of Idaho and having its registered office at Boise, Idaho, having filed with the Commissioner of Insurance of the State of Idaho a proposed plan and agreement for merger, consolidation and reinsurance with the surviving corporation to be Allied Mutual Insurance Company, all in accordance with Section 41-2407, Idaho Code, and related provisions of law; and that the 25th day of June, 1965, at 10 a.m. in the office of the Commissioner of Insurance of the State of Idaho, Room 207, in the State Capitol Building of Boise, Ada County, Idaho, has been fixed by the Commissioner as the time and place of the hearing on said proposal, when and where any person interested in or affected by said proposal and agreement for merger, consolidation and reinsurance, or any person whose pecuniary interests are to be directly and immediately affected thereby, may appear and object to said proposal and show cause, if he has any, why said proposal should not be approved by said Commissioner.

Dated this 27th day of May, 1965.
LEO O'CONNELL,
Commissioner of Insurance,
State of Idaho.
Publish: May 28, June 4, 11, 18, 1965.

move away from challenges. Remember, however, that those who "play it safe" may have very good reason for doing so; they may have been once bitten and therefore twice shy. You yourself are sometimes too willing to risk fame or fortune or both on a challenge that is hardly worth it.

Because you have a dominant nature, it stands to reason that you will want to dominate your own household. Within your own family circle is probably the one place where you will neither accept nor tolerate challenge, and it would be well if all family members were aware of that fact. Be especially careful that you do not choose for a mate a person of similar disposition.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Sunday, June 13
GEMINI (May 22-June 21) — Mature judgment needed if you are to make gains on any level today. Above all, avoid jumping

to conclusions.

CANCER (June 22-July 23) — Spiritual gains are made by the Cancer who opens his heart to the needs of others.

LEO (July 24-Aug. 23) — Family, church, health — these three elements attended to as the time and need arises, should make an inspired day for Leo.

VIRGO (Aug. 24-Sept. 23) — See that family members are included in your Sunday plans, both for worship and for play.

LIBRA (Sept. 24-Oct. 23) — You can cement relationships

with others if you are willing to give more than you get.

SCORPIO (Oct. 24-Nov. 22) — Scorpio's mood colors this day's advantages; make an effort to be optimistic.

SAGITTARIUS (Nov. 23-Dec. 22) — A day when experience counts more than anything else.

CAPRICORN (Dec. 23-Jan. 20) — Unexpected gains come to the Capricorn with a connection in high places — especially should that connection be political.

AQUARIUS (Jan. 21-Feb. 19) — Domestic affairs could be

come matters of common interest.

PISCES (Feb. 20-March 20) — Much that life has to offer be yours today — affection, interests, social status, social standing.

ARIES (March 21-April 20) — Don't allow a cry for help matter how silent — to go unheard.

TAURUS (April 21-May 21) — You can reverse ill winds if you are careful to step on no pay attention to detail, and your own counsel.
