Position of the College of Southern Idaho board of trustees on selecting a campus site, and priorities established by the board for orderly development of the college were revealed Thursday. Robert Blastock, chairman of the board, said the information was released in response to a number of calls and queries made to board members since an offer of a site was made to the college Tuesday night by the Civic Auditorium Association. Objective number one, the board pointed out, was to "secure the best administrative and instructional staff for the opening of the college Sept. 1."

## 11 Missing In Du Pont Plant Blast

LOUISVILLE, Ky. (AP)—The Du Pont synthetic rubber plant, battered by explosions and fires, remained sealed off today as the number of missing men climbed to eleven.

Rescue workers were ordered to stay out of the flame-charred wreckage until safety experts gave them an "all-clear" signal.

All families ordered evacuated as a precautionary measure Wednesday also were forbidden to return home. Many spent the night at a school which was converted to a refugee center.

Rain and gray skies added to the impression of gloom hanging over the giant installation, turning into a blazing inferno by 26 explosions and fires.

At least 39 were injured, one critically, during the disaster, the worst industrial accident in Louisville's history.

National Guardsmen, who had been on duty throughout the night to prevent looting, were replaced early today by Jefferson County police.

## Goldberg Is Installing U. N. Team

WASHINGTON (UPI)—U. S. Ambassador Arthur J. Goldberg is installing his own hand-picked diplomatic team at the United Nations to replace four close associates of his predecessor, the late Adlai E. Stevenson.

The major reshuffle, coming at a crucial time in the Vietnam war, will send to New York, among others, Rep. James Roosevelt, D-Calif., and Dr. James M. Nabrit Jr., a prominent Negro educator.

The new appointments, announced by President Johnson at a news conference, were seen as evidence of Goldberg's firm, take-charge attitude toward the job he assumed less than a month after Stevenson's death of a heart attack in London.

Goldberg was said to have recommended his choices after conferences with Secretary of State Dean Rusk, who, with the President has been in almost daily consultation with the former Supreme Court justice.

## Water Rights Demanded by Governors

WASHINGTON (UPI)—The governors of Colorado and Wyoming presented a unified front today in demanding protection of their states' rights to water in the Colorado River project.

The Central Arizona Project Govs. John Love of Colorado and Clifford Hansen of Wyoming asked the House Interior committee that such protection be written into any authorization for the \$1.5 billion Arizona development.

Specifically, the two requested importation of water from outside the basin as augmentation for water the Arizona project will require—an estimated 2 million acre feet a year. They also want the 1.5 million acre feet due Mexico annual under a treaty to be treated as a national obligation rather than as an operation of the Colorado River Basin.

## Russia Is Accused of Peace Delay

LONDON (AP)—The British government accused the Soviet Union today of hampering all efforts to negotiate peace in Vietnam.

This charge was leveled in the preface to a white paper detailing "recent exchanges concerning attempts to promote a negotiated settlement of the conflict in Viet Nam."

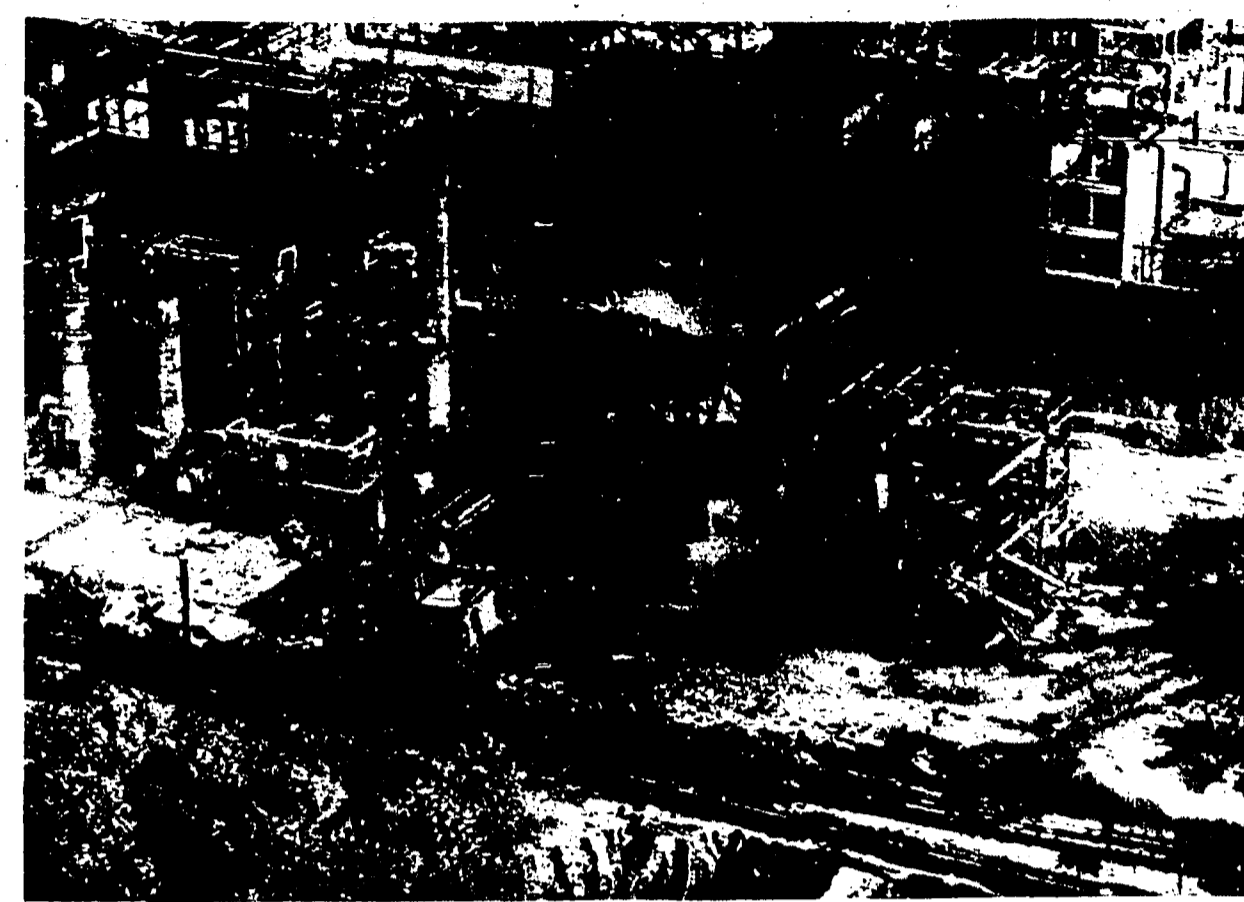

The white paper also served as an answer by Prime Minister Harold Wilson's Labor government to leftist criticism that Wilson was too closely tied to American policy in Asia and was dragging his heels in promoting peace in the 20-year war.

The document was issued only shortly before the Trades Union Congress holds its annual assembly in Blackpool and the Labor party meets in its annual assembly in that Irish sea resort.

## Federal Task Force Ordered Into Riot-Torn Los Angeles by Johnson

WASHINGTON (AP)—President Johnson ordered a federal task force to riot-torn Los Angeles today to make available the best program now known to be out of the causes of such violent outbursts.

The President listed a 10-man mission for the group, headed by 37-year-old Deputy Gen. Ramsey Clark. The President said in a statement the team of federal officials will work with Gov. Edwin G. Brown, Mayor Samuel

## Jerome Area to Vote On College District

JEROME — Residents of Jerome County will decide Friday in county-wide voting whether to add their county to the College of Southern Idaho junior college district. Public opinion, according to a short survey conducted Thursday, seems to indicate the measure has a good chance of passing.

Thomas Mahan, chairman of the Jerome County Junior College Committee, which has been working for passage, said, "Many people realize the advantage of joining the district." He said he thinks the proposal has a good chance of passing.

The committee, consisting of 22 residents of Jerome County, and representing a cross-section of the population, has been conducting an organized campaign to present the issues to the people.

The committee has used the area news media, sent fact sheets to county residents and operated a booth at the Jerome County Fair reminding everyone to vote.

Those eligible to vote must be parents or guardians of a child under 21 years of age, living at home or in school, or a taxpayer within Jerome County. No registration is needed.

Polls are located at Jerome and Valley High Schools and will be open from noon until 8 p.m. Friday.

Jerome Junior Chamber of Commerce will furnish transportation for those wishing to vote. Anyone who needs taxi service may call at the office of Dr. Sprague Stevens, 324-2643.

Babysitting services will be furnished by Mrs. Eldon Sharp, 114 East Ave. S or Mrs. LeRoy Craig, 811 East Ave. B. If children are left more than one-half hour, there will be a small charge.

The original vote to set up a junior college district in Twin Falls County required a two-thirds majority for passage, but only a simple majority is needed in counties wishing to join the district.

## Papers Dropped In Viet Nam

SAIGON, South Viet Nam (AP)—Two South Vietnamese war planes dropped 88,000 newspapers on three North Vietnamese cities during the night, a U.S. spokesman said today.

The newspapers were reproductions of Nhan Dan, a publication banned in North Viet Nam nine years ago because of its criticism of the Communist regime. The North Vietnamese Communists have since taken over the name — which means "human knowledge" — for their official newspaper in Hanoi.

Participated in nor condoned the riots. Many suffered at the hands of the rioters. Many are in need of help.

Johnson said there is necessity to "eliminate the deep-seated causes of riots such as those we witnessed."

His task force includes representatives of the antipoverty program, departments of Commerce and Welfare, Housing and Home Finance Agency, and Small Business Administration.

Truckloads of troops drove into the campuses of Korea and Yonsei universities and arrested scores of demonstrators. Witnesses said some of the students were badly beaten before they were carted off in army trucks.

## College Faculty Finishes Workshop

Faculty of the College of Southern Idaho completed their three-day in-service workshop Wednesday afternoon. The sessions were directed by Dr. James L. Taylor, college president, and Dr. Don Keith, dean of the college. On several occasions the vocational and academic staffs met together, but for the most part they met separately at the vocation college and in the old hospital building. Dr. Keith explained the purpose of the workshop was to orient the faculty with the philosophy and the workings of the college. It also gave the instructors a chance to become acquainted and to have departmental meetings to set specific goals and academic schedules.

All members of the faculty when not attending departmental meetings were working on course syllabi and preparing for the beginning of classes.

Besides becoming oriented with the college the faculty also was advised and prepared for enrollment. Pre-enrollment by appointment began Thursday morning and will continue Friday. Other students who have not scheduled a time can register Monday.

The faculty also spent some time discussing the counseling, guidance, use of the American College Test and student loans.

## Funds for Medicare Are Asked

WASHINGTON (UPI)—President Johnson today asked Congress for \$734.9 million to implement the newly enacted housing and Medicare laws.

The largest amount sought in a supplemental appropriations request was \$279 million to carry out the Housing and Urban Development Act. This would include \$100 million for grants for water and sewer facilities; \$100 million for rural housing loans; \$50 million for rental housing for the elderly and the handicapped; and \$25 million for grants for neighborhood health and recreational facilities.

Johnson asked \$261 million to implement the new medical assistance and insurance program under Social Security. Of this, \$222 million would be for grants to states for public assistance to finance increased relief payments and the medicare program.

## Troops Fight Students in Treaty Riot

SEOUL, Korea (AP)—A front-line combat division moved into Seoul today as student demonstrations against the treaty normalizing relations with Japan continued for the sixth day.

Defense Minister Kim Sung Eun said the government was not considering proclaiming martial law at present — as it did in June 1964, to quell anti-government rioting.

But he said stronger measures would be taken if necessary.

President Chung Hee Park's government called in the 6th army division from the west-central sector of the Korean War armistice line after demonstrations Wednesday turned into the worst riot in the capital since June 1964.

As the reinforcements arrived in the capital, about 8,000 students battled riot police and troops already on duty in the capital.

Truckloads of troops drove into the campuses of Korea and Yonsei universities and arrested scores of demonstrators. Witnesses said some of the students were badly beaten before they were carted off in army trucks.

## Federal Aid Is Denied to County

ARCO (UPI)—Butte County officials reported Thursday the Office of Emergency Planning has denied \$40,000 federal aid for flood-caused damage to roads and bridges.

Spring flooding from 185 per cent normal snow pack brought total damages to \$1,060,000, estimated by Ray Willman of the Everett, Wash., office of the OEP.

## Endurance Record Is Smashed

SPACE CENTER, Houston, Tex. (AP)—Astronauts Gordon Cooper and Charles Conrad smashed the world space endurance record held by the Soviet Union today—a major victory for the United States in the race for the moon. The historic moment came at 8:06 a.m. EST. The Soviet record for a single flight—broken by Gemini 5—was 119 hours, six minutes, set by Cosmonaut Valery Bykovsky in June, 1963. The Gemini 5 spacecraft hurtled on toward a new mark of eight days in orbit.

At 6:44 a.m. EST the Gemini 5 had completed 74 orbits. Before the day is out, the United States will have still another record. At 1:01 p.m. (EST), the U.S. astronaut corps will have logged more man hours in space than all the Soviet Cosmonauts. Cooper and Conrad will have 124 hours in Gemini 5 at that point, putting the American total over the Soviet log of 507 hours, 16 minutes.

In the early morning, the Gemini 5 spacecraft flashed past the 2 million mile mark—nearly two-thirds of the way home in its orbital ordeal.

"Gemini's go up here," was the word from the small glint of light in the sky.

For the astronauts, there was a daily routine of picture-taking observations and experiments—but they could sit back and let the spacecraft clock set a new record for them every passing second.

They were given a go-ahead for a sixth day in space.

## Republican Party Lists Are Sold

CLEVELAND, Ohio (AP)—The Republican National Finance Committee has sold its mailing lists of contributors to some outside organizations, including some right-wing groups, the Cleveland Plain Dealer said today in a copyrighted story.

The Plain Dealer, in a story from its Washington bureau, identified the American Conservative Union as among groups which have received names and addresses from the Republican party's master list of contributors.

The newspaper said that complaints from some contributors led new GOP National Chairman Ray C. Bliss to issue a written order April 26 saying "that effective today the Republican National Committee will cease the practice of selling or exchanging its contributor mailing list to or with other persons or organizations."

The Plain Dealer said Bliss repeated this order a month later, apparently because the practice had not been halted.

But by this time, the Plain Dealer said, address tapes had already left the party's custody in Washington and were in the hands of GOP officials elsewhere. It said some names and addresses were being advertised for sale by private corporations.

## Sealab 2 Starts 205-Foot Descent

LA JOLLA, Calif. (AP)—The descent of Sealab 2 began today and the Navy said it will have the 12x58-foot steel cylinder secured at a depth of 205 feet by nightfall.

It then will be secured on the ocean floor for use in a 45-day experiment in underwater living.

All checkouts are expected to be completed by Friday and the decision then will be made on when to send down the first team of 10 divers and scientists.

## President Talks With Negotiators

WASHINGTON (AP)—President Johnson talked by telephone with the chief negotiators in the steel wage dispute today and prodded them for a settlement.

The President told newsmen at the White House that he had talked with both R. Conrad Cooper, the chief negotiator for the industry, and I.W. Abel, president of the United Steelworkers Union.

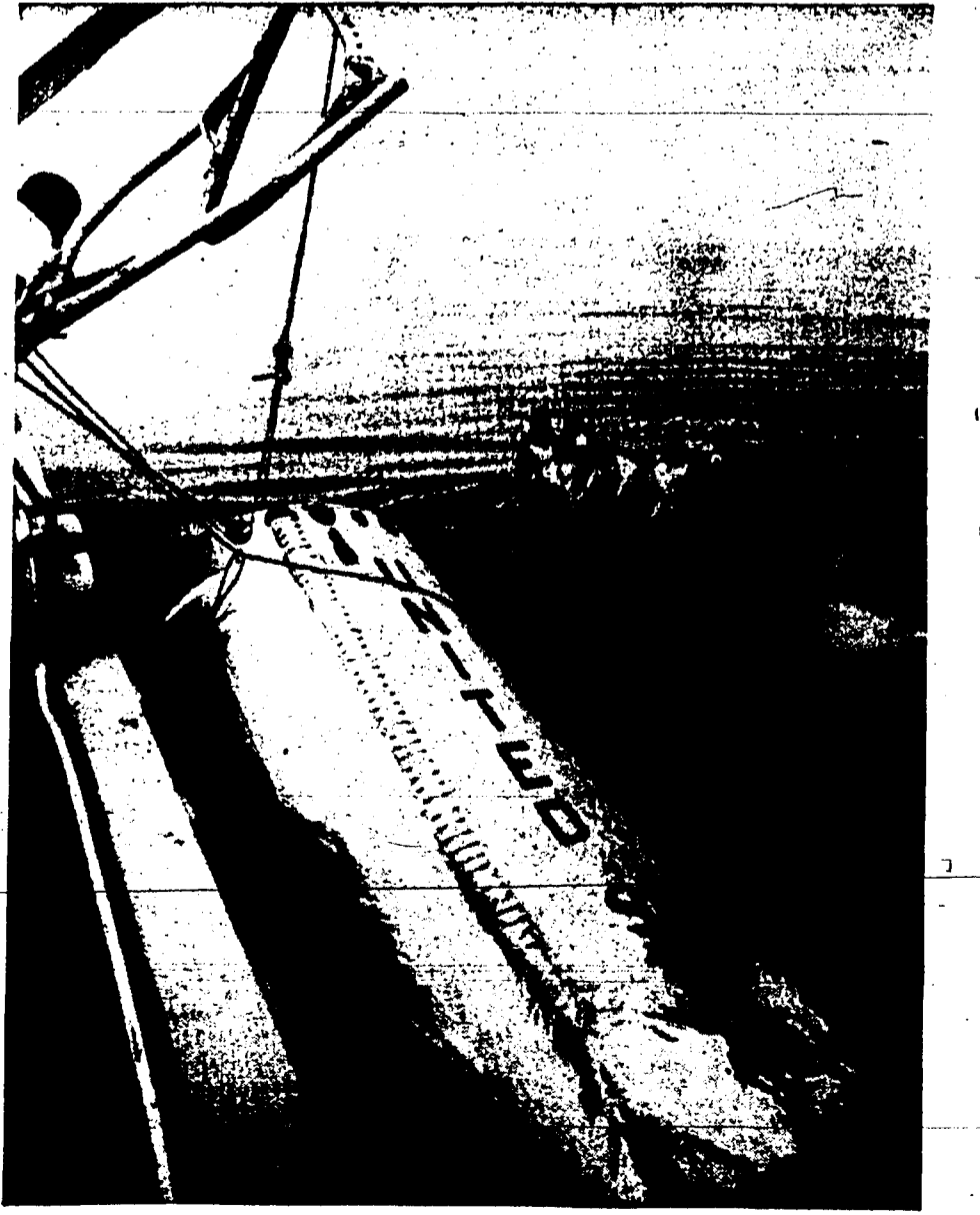

He said he pointed out to them his news conference statements of Wednesday in which he urged a settlement and asked Cooper and Abel to read and review what he had said.

Both told him they had already read it, he said.

## Repeal Urged

WASHINGTON (UPI)—The House approved legislation calling for a massive overhaul of the nation's 40-year old immigration laws Wednesday, including repeal of the controversial national origins quota system.

The final roll call vote for passage was 318 to 95.

### Census Form Replies Are Sought Here

The Twin Falls area office of the Idaho Department of Employment this week is sending out letters to non-agricultural employers in Twin Falls County who have not yet returned completed occupational census forms.

The letter is a reminder that their response is needed to complete an occupational census launched earlier this month. The occupational inventory of area firms in the non-agricultural category is being conducted at the request of local chambers of commerce and community service groups.

R. S. Cutler, manager of the State Department of Employment office at Twin Falls, pointed out in a letter to nearly 1,200 Twin Falls County firms and a forecast of estimated employment in each occupation three years from now.

He said that this information is of great importance to the sponsoring organizations in providing essential data for their industrial development activities. Additionally, it will be of assistance in determining which occupations are in demand in this county and will help in future training of persons for industry.

Cutler assured Twin Falls County employers that data from their firms returned to his office will be kept confidential in accordance with Idaho State Code. He said information acquired will be released only in statistical form and will not reveal the identity of any individual firm.

**SYNOPSIS AND AGRICULTURAL SUMMARY**  
High pressure at the surface is located in central portions of Idaho on the latest weather map with a weak cold front in western Washington and northwestern Oregon. The low pressure disturbance in the upper levels moved rapidly across the Northern Intermountain Region yesterday, so with somewhat higher pressure aloft along with the high at the surface, skies over the valleys of Southern Idaho are clear.

Measurable precipitation from yesterday's storm passage was limited to southwestern valleys, but a few sprinkles were observed in Magic Valley at Buhl and Jerome.

Mostly clear skies will continue today. The cold front to the west may cause an increase in afternoon cloudiness on Friday, but the strongest portion of the front is expected to move to the north Friday night and Saturday. Partly cloudy skies with a chance for afternoon or evening showers or thundershowers is the forecast for Saturday.

Maximum temperatures today will range in the mid 70s to lower 80s and on Friday in the upper 70s to mid 80s. Fairfield was the coolest spot yesterday with a high reading of only 69 degrees and a low of 38 degrees.

### Rites Held In Utah for Area Woman

**JEROME** — Funeral services for Mrs. Jane Harriet Meacham, 80, who died Friday at Jerome, were conducted Tuesday morning at the Roosevelt LDS First Ward Chapel, Roosevelt, Utah, by Bishop Merrill J. Millet.

Music was provided by Marjorie Hardinger, soloist, accompanied by Shirley Millet; a male quartet comprised of James F. Lemmon, Clifford Drollinger, Lynn Balmforth and Wayne A. Burke. A trio composed of Nedra Nichols, Jerri Shields and Mrs. Winzell Luke.

Speakers were Clifford Drollinger and James Lemmon. Opening prayer was by Evan Percival and closing prayer by Wesley Bowden. Pallbearers were Norman Tanner, Zoland Tanner, Denzel Larsen, Verdis Larsen, Elden Tanner and Merlyn Tanner. The grave at Moeser Cemetery, Vernal, Utah, was dedicated by Elvyn Bascom.

### Rupert Man, 53, Dies of Heart Attack

**RUPERT** — Harold L. Firkins, 53, died Wednesday evening of a heart attack while driving his car along 100 south and 100 east at Rupert. The car ran off the road and stopped.

Mr. Firkins was born Dec. 20, 1911, at McCammon and came to Rupert in 1920 with his parents. He has lived in the Rupert area and worked as a farm laborer. He was a member of the LDS Church. He married Nellie V. Goodnough in 1930 at McCammon.

Survivors include his widow, two daughters, Donna Firkins, Colorado, and Mrs. Jerry Jensen, and one son, Stephen Firkins, both Hamilton, Mont.; two sisters, Mrs. C. A. Fenstermaker, Burley, and Mrs. Mertle Johns, Rupert, and six grandchildren. He was preceded in death by seven brothers and one sister.

### Indian Unit Advances Into Kashmir

NEW DELHI, India (AP)—Indian forces have advanced deeper into the Pakistani sector of Kashmir in their drive to drive off guerrillas infiltrating the Indian-held part of the Himalayan state, an informed source said today.

"We are not after territory," the source said. "Our sole objective is to cut off the infiltration of guerrillas."

The informant said the advance took place in the Tithwal sector, just a few miles from Srinagar, capital of the Pakistani sector of Kashmir.

### Annual Easter Seal Center Auction to Be Held Friday

Twin Falls Easter Seal Center's annual auction will be at 6:30 p.m. Friday in the Lynwood parking lot.

The Easter Seal Center, 1527 Laurel Ave., will be open Thursday to receive donations, or contributions may be brought to the Lynwood parking lot Friday until 5 p.m.

Proceeds from the auction will be placed in the center's building fund. The auction is one means to earn money to pay the mortgage on the Easter Seal building.

Local merchants are donating new and used articles. A concessions stand will sell hot dogs, coffee and cold drinks.

Mrs. Geraldine Smith, 201 Lois St., and Mrs. E. P. Messner, 815 Fairway Drive, are coordinating the auction.

A few years ago, Sears and Roebuck Co. donated a \$400 merry-go-round to the Easter Seal Center. The item will be auctioned Friday night with a minimum charge, according to Mrs. Merle Stoddard.

Anyone who has furniture, lamps, baby buggies or other auctionable material to donate may take the items to the Easter Seal Center or call 733-5745 for someone to pick them up.

String ties, bracelets, material, rugs, pillows, fishing poles, floor polish, a record case and

be used for the Easter Seal building fund. Churches, primary groups, nursery schools or someone with a large recreation room could use the merry-go-round, said Mrs. Merle Stoddard. (Times-News photo)

### New Girdle Is Taken From Market

NEW YORK (AP)—A panty girdle called "Stars 'n Stripes" has been removed from the market after the Daughters of the American Revolution (DAR) objected to its name and flag-like decorations.

The DAR called the girdle a "shocking caricature" of the national flag in a letter to the manufacturer.

(The manufacturer is Treo Co. Inc. of New York.)

"We will burn the damn things or send them to some foreign country where our flag isn't involved," said a spokesman for the manufacturer Wednesday. He said about 3,000 had been distributed to stores across the country, but he did not know how many had been sold.

### Boy Killed As Amusement Car Falls

WINDSOR, Ont. (AP)—A boy was killed and eight youngsters injured Wednesday night when

an amusement ride car in which they were riding left the track and plunged to the ground.

The accident took place at an amusement center.

The dead youth was identified as Thomas C. Mindis, 17, of Detroit. Windsor is across the river from Detroit.

The four girls and five boys, all members of a Detroit church

youth group, were in one car of a ride when the accident occurred.

W. B. Browning, general manager of the park, said he was at a loss to explain the accident, adding "I don't know how this could have happened."

"Gee Whiz, Mom, a guy can't help banging up his shoes!"

## Realistic Approach

Even with the best will in the world, throwing open the door of employment opportunity to all Americans is not going to solve the problem of integrating the Negro into the economic mainstream of the nation.

In the past, traditional discrimination by race or color placed a stone wall before Negro aspirations. But as one executive points out, even if a company today does not endorse this kind of discrimination, it is still forced to practice another kind which is a serious factor in the problem.

"For we all discriminate in terms of skills," says Jack Gleason, a vice president of New York Life Insurance Co. To be able to compete successfully in the world of business means seeking those whose ability, training and potential will make it profitable for a company to hire them.

It is a vicious circle. Because many Negroes lack the proper education and self-confidence, they fail to qualify for improved job openings. Because they are turned down, they and their children must remain in the same demoralizing environment.

What can employers do to break this cycle, which is profitable to neither the Negro nor business nor the community at large?

First, says Gleason, it is a matter of communication—of convincing Negroes, as well as members of other minority groups, of a company's sincerity and seriousness.

Many times there are job openings they can qualify for but don't apply for either because they are unaware of them or don't really believe they will get a fair shake.

Next comes following up on this policy—actively recruiting among minorities and cooperating in programs to increase their skills both before and after hiring them.

Mere "tokenism"—maintaining a few "showcase" Negroes in scattered jobs—is not enough. What is more important, says Gleason, is to give the sort of concrete encouragement that "can help a disadvantaged person to raise his sights because he feels that others are interested in his future, his potential."

Such a policy is not only ultimately good business; it is the only one tolerable in a democratic society.

### CURE FOR PARALYSIS

The United States has decided not to press for a showdown in the United Nations with Russia, and 11 other members, on the matter of paying up outstanding special assessments.

According to Article 19 of the U.N. Charter, a delinquent member is supposed to lose its vote in the Assembly if it has been in arrears for more than two years. But without the backing of a majority of the non-delinquent members to make the rule stick, the effect of the United States demand has been merely to paralyze the world body.

It is to end this paralysis, lest it develop into rigor mortis, that this country has, to put it plainly, backed down.

Some may see this as a serious loss of face for the United States. Others are cheered by the announcement, but have doubts about the wisdom of the reservation we attached to it—that we no longer would feel duty bound to pay for U.N. activities we didn't like.

This could, it is charged, encourage other nations to join the deadbeats, either for political reasons or because of financial pinch.

This seems unlikely, however. The United States, though we may sometimes doubt it, does command an immense moral force in the body. Also, it already supplies 32 per cent of the regular U.N. budget. There is no intention of imitating the Communists.

Moreover, the total sum involved is ridiculously small, even when measured by the wealth of the smallest member. The U.N. needs about \$65 million right now, most of it to pay for peacekeeping operations in the Congo and Middle East. It is expected that voluntary contributions will bail out the organization.

To dispel nagging fears that the Communists have scored a victory, it may be useful to recall some words of the late Adlai Stevenson:

"If communism is a problem for the United Nations, the United Nations is also a problem for communism. For the United Nations is basically a community of tolerance and a community of tolerance is a terrible frustration for the totalitarian mind."

The United Nations community can now get back to its normal, frustrating, useful operation when it convenes for its 20th session in September.

# NATIONAL WHIRLIGIG

BY ANDREW TULLY  
WASHINGTON—Don't look for me in glittering drawing rooms and other such wanted haunts today. I'm going out after the Internal Revenue Service with Molotov cocktail and machine gun. I may even burn down the joint.  
In short, I want in on the New Freedom. It says here that it's okay to shoot people dead and loot gin mills if you're deprived enough, and for years now the revenuers have been depriving me of the wherewithal to buy a Rolls Royce.

**FRUSTRATIONS, FRUSTRATIONS**—It is also my contention that those uppity citizens who have saved their dough should forthwith purchase me a 26-bedroom house in the Potomac hunt country, stocked with champagne and caviar (the gray variety, of course), and snag me an annual holiday on the Riviera, lest I get to brooding. Someone also has got to talk to those editors of mine and make them stop being unreasonable. I can't help it if I sometimes split infinitives; society refused to send me to college.

Deprivation, after all, is relative. I do not like to be deprived of five bucks every time I park my car illegally, and the next time this happens I am going to have at the cop with my switchblade. If he complains, I'll haul him into court for police brutality. And who says I can't go 80 miles an hour in a 40-mile zone? Some silly law, is all.

**UNCIVIL DISOBEDIENCE**—I see by the sociologists that those Negro rioters in Los Angeles were victims of "frustrated expectation." That's me, Mac. I expected my last book to sell a million copies, and it didn't. When I get time, I'm going to picket that friendly neighborhood book shop, Luger at the ready. There's a guy runs a fancy restaurant who never has a table for me. He'd better watch out.

Meanwhile, Oregon's Sen. Wayne Morse needn't think he can get away with disagreeing with me on the Viet Nam war. I'm already growing a beard, and when I've gone without washing for two weeks I plan to invade Morse's office—barefoot—and sit there in my dirty jeans until he surrenders and agrees to lead a battalion against the Viet Cong. Uncivil disobedience, that's the ticket.

**LAWS FOR OTHER PEOPLE**—Who says the President and the State Department are supposed to run foreign policy? Nuts to them. I'm drafting a letter to Mr. Kossygin offering to buy Russia and when somebody who has read the Logan Act tells me I'm being illegal, I take my cue from Martin Luther King. "That's unfortunate," I reply, blandly, "but really, old boy, those laws were written for other people."  
You squares with short hair and clean shirts have got it all wrong. Babies. If you were hep, and really deprived, you'd know it is okay to violate a law if you don't approve of it. In this era of the New Freedom, Society has got to stop picking on those poor underprivileged rioters and stickup men. How are they going to put over a political point or earn a living if society is all the time sicking the cops on them?

### INDIAN WARNING ON CHINA

The world is not surprised when the United States issues warnings on Communist China's aggressive intentions toward Southeast Asia. Some of the world has even been inclined to yawn and to lay such warnings to a supposed American oversensitivity on communism. But when reputable Indian sources begin issuing the same admonitions, perhaps more persons, particularly in Asia and Africa—may sit up and take notice.

Such a warning, entitled "Subversion in Thailand," has just appeared in a leading Indian publication dealing with foreign affairs. The "Indian and Foreign Review" of New Delhi tells us that there is continually mounting evidence that China aims at dominating all Southeast Asia, and particularly Thailand, "by direct aggression or infiltration and subversion."

In fact, Peking makes no bones about its plans to undermine the sovereignty of the Thai and the independence of the Thai nation. A diplomat on visit to Peking reports that the Chinese Foreign Minister Chen Yi frankly told him that "we may have a guerrilla war going on in Thailand before the year is out."

When one adds China's machinations against Thailand to its support of North Vietnamese aggression against South Vietnam and to the appearance of Chinese Communist guerrilla actions against Malaysia, it is difficult to see how the world can be left in any doubt of Chinese intentions towards Southeast Asia.

While China's meddling in its neighbors' affairs must remain a source of deep and continuing concern, it is helpful that publicity on this meddling is now coming from sources such as those in New Delhi. At the moment China is making a major effort to subvert the existing order in Africa. And we believe that the African governments will listen more carefully to Indian warnings than they would to either American or European.—Christian Science Monitor.

### USE IT OR LOSE IT APPLIES TO AIRLINES—AND WATER

"Use it or lose it" is a slogan usually identified with airline service. Recently, it has been adapted to water.

The idea is that if we want to keep Northwest water in the Northwest, we're going to have to find a use for it here. Otherwise, there is no good reason that it should not be sent to California and Arizona.

Rep. Sid Flanagan was the first responsible voice urging action on the idea.

There is plenty of fertile land in the Northwest that could be used for agriculture if water could be put on it, he pointed out.

It would be much cheaper to put Columbia River water on this land than on equally fertile but equally arid land in the Southwest.

The finger is pointing at us right now.

The time has come when we must inventory all our land and water and see where the two should be brought together.

We must realize that irrigation and power are not the only uses for water, either, and establish other uses as legitimate.

Water is a vital ingredient for recreation—not only for direct recreation such as swimming, but indirectly, too, as habitat for birds and game.

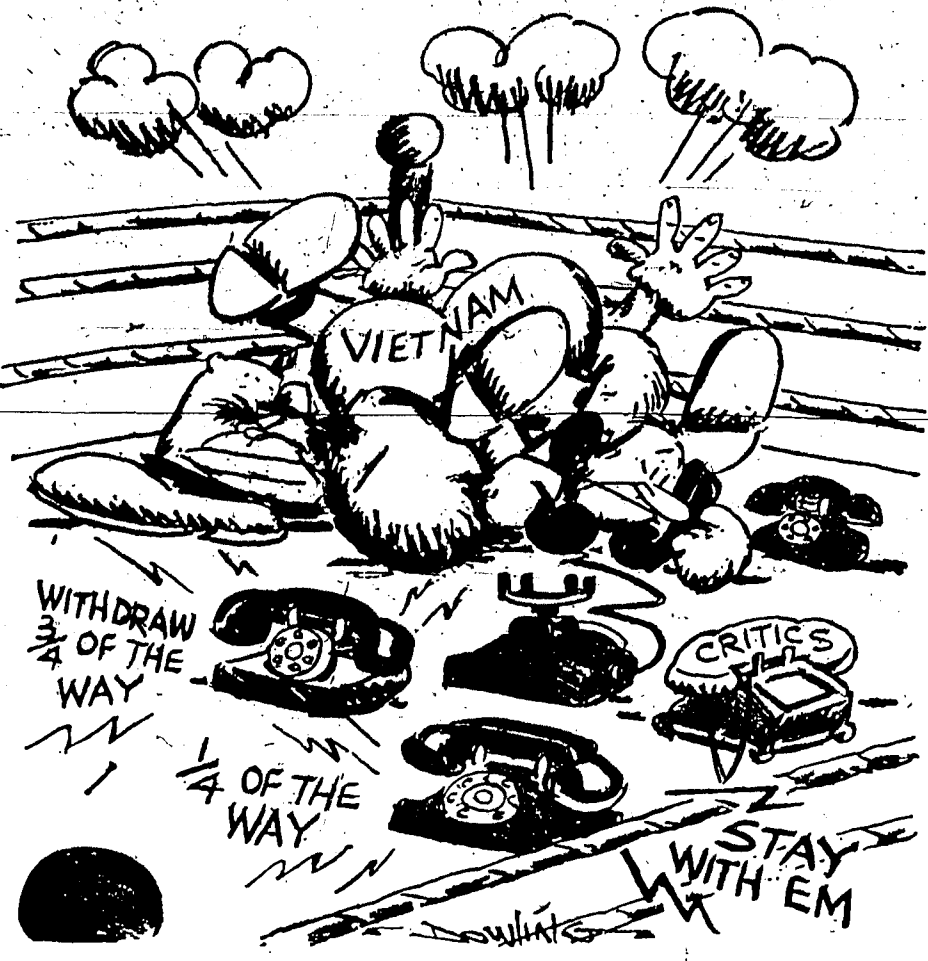

In some situations, water is an integral part of scenery. Placid lakes, tumbling rivers and frothing streams are all part of the scenic picture that because of the tourists they lure are a factor in a region's economy.

It's human nature not to fully appreciate some possession until someone else covets it. That's true with the Northwest and its water.—Wenatchee World.

## "Let's All Reason Together!"

**POT SHOTS**  
Pot Shots is on vacation. The column will be resumed when he returns.

**THE LIGHTER SIDE**  
By DICK WEST

WASHINGTON (U.P.I.)—As U. S. taxpayers we all have a vested interest in Andrew Vigilanco's plan to save the Leaning Tower of Pisa by freezing it.

If the plan works, it can perhaps then be used to save us anywhere from \$24 million to \$31 million.

The Italians fear that the famed tower, which has been listing to port ever since it was completed in 1350, may be about to take a header.

Should that happen, its rating as a tourist attraction would be gravely jeopardized.

They could, of course, rename it "The Fallen Tower of Pisa." But chances are it would lose some of its charm in the prone position. So, quite naturally, they are eager to find some way to circumvent the law of gravity.

In response to their appeal for help, Vigilanco, a Charleston, W. Va., Iceman, conceived the idea of using refrigeration coils to freeze the ground around the tower to stabilize its foundation.

He was scheduled to leave for Pisa to confer with Italian authorities about putting the tower on ice. I feel certain they will buy the plan. They have nothing to lose.

If it doesn't work, they can start advertising the ruins as the world's largest frozen pizza.

We American taxpayers have reason to hope that Vigilanco will succeed. Congress might then invite him to try his hand at saving the west front of the U.S. Capitol.

According to a recent engineering study, the original sandstone walls on the west front have begun to crack, arousing fears that they, too, might some day come tumbling down.

Consequently, a congressional commission in charge of anti-Jericho activities voted last week to start planning the construction of a new marble front to protect the old one.

The extension project would cost between \$24 million and \$31 million. And here is where Vigilanco would enter the picture.

It seems that most of the damage is being caused by water seeping into the cracks and then freezing. Vigilanco might very well be able to figure out a way to keep the walls permanently frozen, thus halting further wear and tear.

I feel certain the deep-freeze method would be far less expensive than the extension project, and it also would carry out Vice President Hubert H. Humphrey's suggestion that the west front terrace be turned into a recreation area.

The terrace could be used as an ice skating rink.

## Religion In America

By LOUIS CASSELS (United Press International)

A distinguished Roman Catholic theologian this week raised a question that Americans of all faiths may ponder:

Is the United States fighting a just war in Viet Nam? Or is it getting ever more deeply involved in the fundamentally immoral action for which ordinary citizens must share the guilt?

The Rev. George Tavard, professor of theology at Mount Mercy College, Pittsburgh, clearly leans toward the latter views. But he is not so much concerned with airing his own opinion as with getting the American people to accept their corporate responsibility for thinking through the moral implications of what this country is doing in Viet Nam.

In an article published by the National Catholic Reporter, Rev. Tavard says "the increasing involvement of the United States in the Vietnamese civil war is having the effect that Americans are less and less conscious of the issue as a proper and even necessary object for moral judgment."

This is not surprising, he says, because "the more a nation is engaged in a war, the less the act of war appears as corresponding to a moral choice, taking as it does, for the average citizen, the aspect of unavoidable necessity."

"This was the case with the German nation in World War II, and also with the Allies, who as the war dragged on, adopted more and more the methods of total warfare advocated by their enemies."

If humanity learned one clear lesson from World War II, Father Tavard says, it was that "responsibility for war and war crimes did not lie only with the leadership of nations," but was shared by every citizen who passively acquiesced.

Father Tavard believes that the moral issue in Viet Nam has been confused by the fact that many of the protests against U.S. policy have come from American religious leaders who are identified with a paci-

list viewpoint.

But you don't have to be a pacifist, he says, to be troubled in conscience by President Johnson's course.

"There are moral reasons to object to this policy, even if one holds the use of force to be morally permissible in certain cases."

The dominant moral principle at stake, he contends, is that "the people of any given nation have a native right to make a revolution without the interference of foreign power."

"This is not to say that governments may not protect themselves from subversion by calling on the assistance of other countries or of international bodies; yet it is to say that foreign governments or international bodies may not interfere to keep in power a government which could certainly collapse otherwise . . ."

"The argument for armed involvement is based on the duty of the American government to help South Viet Nam preserve its freedom from Communist dictatorship; yet, the more American power is present and active in South Viet Nam, the less possibility the Vietnamese people have of deciding on whose side they are, for what started as a revolt is turning fast into a war of liberation from the presence of a foreign army."

Father Tavard would be the first to say that he is voicing one theologian's opinion, and not an "official" view of the Catholic church. U.S. religious leaders are of several minds about the war in Viet Nam.

Some felt that President Johnson is doing the best he can in a well-nigh impossible situation. The sharpest criticism of U.S. policy has hitherto come from Protestant and Jewish leaders. Father Tavard, whose stature is attested by his appointment as an expert consultant to the Vatican Council, is the first prominent Catholic theologian to take a strong public stand against the war.

## The Doctor Says

By WAYNE G. BRANDSTADT, M. D.

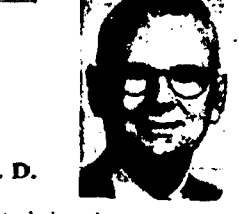

Q—I had a terrifying attack of Meniere's disease in 1948. My doctor treated me for several months and I thought I was cured but after 17 years it has come back. Why?

A—Although most persons get over a first attack there is no way of telling whether the disease will ever recur or when. In some persons a first attack or a recurrence is precipitated by an acute infection such as influenza or by a blow on the head.

Q—Will the regular use of laxatives cause cancer?

A—Although there is no evidence that the persistent use of laxatives will cause cancer, there is plenty of evidence that it will cause colitis.

The proper way to regulate your bowels is to take the exact amount of vegetable and fruit daily needed to give you formed stools. Whether you have such a movement one day, twice a day or once every three or four days is of no importance so long as the stools are formed

without being hard, dry and painful to pass.

Q—What would make a 7-month-old baby's eye water and the lids stick together in the morning?

A—Conjunctivitis in an infant is usually caused by infection with the pneumococcus, staphylococcus or streptococcus. If penicillin doesn't cure it a search for an allergy should be made.

Q—My doctor says I should have my knee cap removed. Would this cause me to have a permanent stiff knee joint?

A—No.

Q—What causes nummular eczema? Is it contagious? Can it be cured?

A—The cause of nummular or coin-shaped eczema is unknown. Some form of allergy or a focus of infection are possibilities. It is not contagious. The treatment varies with the stage (acute or chronic) of the disease but most cases will respond to skillful treatment by a skin specialist.

# MARQUIS CHILDS WRITES ON WASHINGTON

WASHINGTON — President Johnson's eloquent salute to the Alliance for Progress, on the fourth birthday of the alliance was a mixture of promises tempered by a dash of reality. However much we applaud the speech to the Latin-American ambassadors may be discounted as rhetoric, it will help to make up for the silence in Washington that the Americas to the south have deeply felt.

Marquis Childs

The observer-traveler even briefly in the southern half of the hemisphere is immediately aware of a struggle for survival. Given the conflicting forces growing above all out of the population explosion, the issue is hardly less than survival. In the struggle, the American aid program in all its phases plays an important part.

For the short term it may be a decisive part in helping to check inflation and make up for budgetary deficits. A wide variety of aid projects—housing, schools, health—are examples of what can be done, given the will and the resources. Measured against the incalculable need, they look a little like trying to bail out the ocean with a teaspoon. Nonetheless, dedicated effort as well as dollars go into pointing a way out of the dead end of mass poverty alongside a thin layer of great wealth.

But for the long pull the inadequacies of the alliance—for that matter any program so far contemplated—are painfully evident. So many of the elements of a modern society are lacking. These basic lacks make reform and change difficult if not impossible. This observer would put several at the head of a long list.

First is the difficulty of communication, both within individual countries and from country to country. Telephone systems are inadequate and inefficient. Communication by teletype is almost equally limited and rates are very high. This presents serious problems for government and business.

Transportation, both rail and highway, is equally deficient. The vast distances, the snow-covered mountain ranges, the jungle, the far reaches of the interior have never been mastered. A coastal civilization is only beginning to push out into the empty spaces. This is a costly effort requiring large capital investment and administrative skills in pitifully short supply.

Although there are variations from country to country, there is a desperate need for managerial capability. In Chile, where the level is higher, President Eduardo Frei spoke feelingly to this reporter of how many tasks he had to perform himself because no one else could do them. This means not just rudimentary education but training in management.

Fortunately some of the big American foundations have begun to recognize this need. A start has been made, and a younger generation is coming along that could fill the management gap.

What this suggests is that the United States aid program is buying time—granted there will be time enough to forestall the tidal wave of untrained and uneducated youths coming out of the upsurge of population. It may also suggest that the aid program might better have concentrated on basic needs that must be filled before the Americas to the south can move into the latter part of the 20th century.

The Monroe Doctrine kept out European exploiters. The Good Neighbor Policy of Franklin Roosevelt was a valuable exercise in friendship.

The Alliance for Progress began with a rush of enthusiasm. It has fallen away to a piecemeal program that is hopefully a stop gap. If it is recognized as just that, then possibly a larger and bolder formulation may be forthcoming even though the hour is late. Above all, as the President observed in his address and as many Latin-American leaders are saying, the need for integration of the economies of the Americas of the south is essential.

Does it really matter very much? "Those people down there," the North American is inclined to say, "have always been poverty-ridden. And the owning class simply won't take any responsibility."

There is enough truth in this to breed indifference and cynicism. But it does matter more today than possibly at any other time in the long and curiously roller-coaster relationship between north and south. For with half of the population of Latin America under 21, the ignorance explosion—the upsurge of the untrained and the uneducated—cannot be ignored.

At worst, it means a vicious banditry, with an overlay of Communism and rapid breakdown of order. Samples of this are seen in remote areas in Peru and Columbia, with symptoms elsewhere. At best, it means an impossible drain on the population over 21, growing unemployment and waste of brains and brawn. Nevertheless, the wave is crest high and where it falls is the immediate and urgent question.

## Quotes From the News

By United Press International  
ABOARD THE GEMINI 5 SPACE CRAFT — Astronaut Charles Pete Conrad, informing mission control that he and fellow astronaut Gordon Cooper are lagging behind on their sleep:

"I think the issues of war and peace in Viet Nam are far greater than any party's. The boys that are fighting the war are not divided between Republicans and Democrats."

"We, for some reason, are having trouble sleeping. One guy bothers the other when he's doing anything is what it amounts to."

EAST HAMPTON, N. Y.—A police officer who helped arrest 23 person on narcotics and disorderly conduct charges during a raid on a swinging party which upset the decorum of this posh summer resorts:

WASHINGTON — President Johnson, declining to place much importance on Republican criticisms of his Viet Nam policy:

"These are beatniks. These are the boys that carry the signs that are against everything."

Then after his partner bid three and four hearts Howard flew the flag once more and went on to five hearts. He felt that four to five hearts would make easily and that five hearts would not be hurt severely.

It wouldn't have been since West would have lost three diamonds and the ace of hearts for a 300 point setback.

Of course, Howard did not have any great hope of setting West to work, but once in a while things work out well for East and West.

West studied his opening lead carefully and decided that a heart lead would do him no good and that Howard was marked with some strength in clubs. Hence West opened the seven of clubs.

Howard won with the ace and returned the suit. South rose with the queen in hope of a miracle but this was not a day of miracles and East and West showed a 50-point profit.

Even though both sides had part scores Howard felt that his four small diamonds and general lack of high cards made an immediate overcall of North's diamond opening inadvisable.

**MAN DIES**  
**McCALL (UPI)** — A 71-year-old McCall man died Wednesday three hours after he was run over by a freight train. He was Paul L. Kramer.

Officers said Kramer, a former Vale, Ore., farmer, died of injuries as a result of the accident.

He was working as a switchman when caught between a moving train and a standing one. Both his legs were badly mangled, police said.

**LOW BIDS**  
**BOISE (AP)** — Inland Asphalt Co. of Spokane, with an offer of \$239,540, is the apparent low bidder on a project involving work on the Coeur d'Alene belt route on Interstate 90.

Work consists of construction of a seal and plant mix surfacing on 4.4 miles of roadway.

A low bid of \$416,000 was submitted by the Allied Paving Corp. of Idaho Falls for construction of a four lane highway on 13.4 miles of Interstate 80N from the Oregon border to its junction with U. S. 30 in Payette County. There were seven other bidders.

**SUIT GRANTED**  
**CALDWELL (UPI)** — A Seventh District Court jury has ruled in favor of a Canyon County couple in a suit against the State Highway Dept.

Ambrose W. and Leta F. Johnson were awarded damages of \$17,000 for 11.16 acres of land, and \$10,401.50 for damage to other property in a right-of-way disagreement with the highway department.

The Johnsons had filed suit against the department and the directors of the State Highway Board for damages that they contended resulted from the easements along the Interstate highway near here.

**CHARTER GRANTED**  
**RIGBY, Idaho (AP)** — A group planning a bank in this Eastern Idaho community has announced the State Department of Finance has granted it a charter.

Stockholders of the Jefferson Bank of Commerce said construction would begin immediately with opening of bank offices planned as soon as possible.

**MAN KILLED**  
**COEUR D'ALENE, Idaho (AP)** — A Coeur d'Alene man was killed Wednesday night in a one-car accident at the junction of U.S. Highway 10 and State 3, about 22 miles east of Coeur d'Alene.

State Police said James L. Winters Jr., 29, was killed when his car struck a guard rail on a highway dividing strip and smashed into the center abutment of an overpass. Winters was pinned in the wreckage.

The death increased Idaho's traffic toll for the year to 174, nineteen more than were killed in the corresponding period last year.

**Blaine School Contracts Let**  
**HAILEY** — The Blaine county school board has awarded the 1965-1966 gas and service contract for nine school buses to E. V. McHan, Ketchum, for 24 cents per gallon. Joseph Bergin, Bellevue, has been awarded a contract to service the other two school buses.

A contract to supply the schools of the county with coal has been awarded to the Shoshone Grange for \$14.40 per ton.

The feasibility of leasing school buses from a private concern in the future is being studied by the board. At present the school district owns and operates all school buses.

**DOGS USED**  
**SRINAGAR, Kashmir (AP)** — An official spokesman reports Indian security forces are using dogs to hunt down infiltrators in the Indian-administered part of disputed Kashmir state. Similar tactics were used by the U.S. K9 Corps in World War II.

**TOUR SET**  
**IDAHO FALLS (AP)** — The State Advisory Board of the Bureau of Land Management will make a field tour of public lands along the Snake River and visit phosphate plants and mineral leasing operations in Eastern Idaho beginning Thursday.

BLM State Director Joe T. Fallini said board members plan to get a firsthand look at the public lands along the Snake River near Idaho Falls and Blackfoot and review the program that is being carried out by the BLM under the Omitted Lands Act passed by Congress in 1962.

**CHASE REPORTED**  
**BOISE (UPI)** — A 100-mph chase led to the arrest Wednesday night of a knife-wielding suspect.

Two Boise City police cars were smashed before officers chased down and arrested James Wellman, 19. Wellman was charged with "extreme" reckless driving.

The chase resulted from a routine police investigation of a family feud in Boise's north-end. The chase began when a man identified as Wellman dashed from the home and into a car.

Officer Richard Swift said at one time his speedometer read 102 mph, and much of this was in residential areas.

**BID APPROVED**  
**BOISE (AP)** — Purchasing agent Ted Cramer reported Wednesday awarding of a contract to Brotherhoods, Inc., of Lewiston, for supplying new furniture for the Lewiston office of the Department of Public Assistance.

**ARTICLES FILED**  
**BOISE (UPI)** — Articles of Incorporation Wednesday were filed with the secretary of state for:

Coruchevel, Inc., Sun Valley, a real estate firm. Capitalization: \$25,000. Incorporators: Gilbert A. Krivov, Sun Valley; Donald E. Allred, Costa Mesa, Calif.; Billy O. Wadsworth, Redondo Beach, Calif.; and William McCook, LaMirada, Calif.

Calvary Assembly, Inc., Buhl. Religious. Five incorporators.

Idaho Falls Timing Association, Inc., Idaho Falls, an auto racing organization. Non-profit. Six incorporators.

Idaho Sequoia, Inc., Boise Investments firm. \$25,000. D. K. Soderlund, A. J. Wasserman and B. D. Smith, all Boise.

**POLICY REPORTED**  
**COEUR D'ALENE, Idaho (AP)** — Idaho Health Administrator Dr. T. O. Carver says his department will adopt a "get tough" attitude on communities without anti-pollution programs.

Carver told the Idaho Pollution Advisory Council here Wednesday such an attitude is necessary if the state is to progress in the next five years as it did in the last five.

The council, which concludes its quarterly meeting today, said it was pleased with anti-pollution programs undertaken by the J.R. Simplot Co. at Caldwell.

**Mission Asked From Russia**  
**SINGAPORE (AP)** — Prime Minister Lee Kuan Yew announced today that newly independent Singapore has invited Russia to set up a rubber buying mission here.

Lee told newsmen he had sent word through diplomatic channels to the Soviet trade and commerce minister welcoming the establishment of a mission. He said the Singapore government is still considering whether to establish diplomatic relations with Moscow.

**PEACE DEMANDS**  
**BONN, Germany (AP)** — West Germany's minister of economic cooperation, Walter Scheel, told a news conference demands for German Peace Corps workers are steadily growing.

PERFORMING PRIOR to the Magic Valley Cowboys-Treasure Valley Cubs game Wednesday night at Jaycee Park was the Casper, Wyo., color guard, hailed as one of the best in the West. ### Steel Empire Queen Dies At Estate

STRAUBING, Germany (AP)—Mrs. Amelie Thyssen, head of the Thyssen steel empire and one of the world's richest women, died Wednesday at her estate near here after a long illness, friends announced today. She was 87 and the widow of Fritz Thyssen, the German steel king who helped shape the face of Germany's industrial Ruhr Valley. The industrial assets controlled by her and her daughter, Countess Anita de Zichy of Buenos Aires, are believed to come close to a billion dollars.

### Wage Dispute In Utah Is Unresolved

BRIGHAM CITY, Utah (AP)—A salary dispute between teachers and the school board in Box Elder County was still unresolved today.

Two offers by the board of education have been rejected by officials of the Box Elder Education Association prolonging the impasse created Monday night when the association turned down a salary increase of \$77,000.

Despite the stalemate, Superintendent Jay C. Haws said today's pre-school teacher institute would be held at 9 a.m.

He also said school would open Monday providing enough teachers appear.

The association rejected Wednesday a new salary increase offer financed by 74 percent of any new funds not now budgeted that may be received by next June.

An earlier offer which would have increased pay from \$4,500-\$7,104 to \$4,700-\$7,404 was approved but the association rejected a condition that it depend on a \$77,000 rebate to the board from the state's Uniform School Fund.

### Church Honors Danny Thomas

LOS ANGELES (AP)—Comedian Danny Thomas has received one of the Catholic Church's highest decorations from James Francis Cardinal McIntyre in recognition of his charitable activities.

Thomas, founder of St. Jude Children's Research Hospital in Memphis, Tenn., was presented the Knight Commander with star in the Equestrian Order of the Holy Sepulchre of Jerusalem decoration.

### Pact Is Signed

TOKYO (AP)—A private agreement for exchange of agricultural techniques between Communist China and Japan has been signed in Peking, it was reported today.

The new agreement is first of its kind since the end of World War II.

### COLLECTIONS UP

PARIS (AP)—The Labor Ministry says collections from employers and employees for the national health service in the first three months of 1965 were up 9.2 per cent over the first quarter of 1964. But expenditures — covering costs of hospitalization, medicines and doctors visits — grew by 15.2 per cent.

He will leave Mission Home, Salt Lake City, and after a week's training he will attend the Brigham Young University for a 12-week period studying the Spanish language.

### Injunction Is Asked by Labor Board

SALT LAKE CITY (AP)—The National Labor Relations Board has petitioned for an injunction against Local 222 of the Teamsters Union.

The petition filed in U.S. District Court here asks that the union be ordered to halt picketing of a Minersville highway construction site.

The NLRB contended Wednesday the union engaged in unfair labor practices when it set up picket lines at the L. A. Young Sons Construction Co. after Teamsters warned the firm to cease business with W. S. Hatch Co.

Hatch is a suburban Salt Lake City trucking firm. The construction company ceased business with Hatch, the NLRB's petition said.

Hatch has been struck for more than nine months by the union. Hatch filed a complaint with the NLRB July 26 charging the Teamsters with unfair labor practices.

MR. AND MRS. KEITH JOHNSON  
(Shig Morita photo)

**Shirley Greene Is Bride of Keith Johnson**

Shirley Greene, daughter of Mr. and Mrs. Clarence Greene, Twin Falls, became the bride of Keith Johnson, Redlands, Calif., son of Mr. and Mrs. Donald Johnson, Provo, Utah, in double ring wedding rites Aug. 14 in the Twin Falls Second Ward LDS Church.

David Chadwick, president of the Hollister LDS Church, solemnized the evening nuptials. Pedestal baskets of pink and white gladioli formed the background decor for the ceremony.

Traditional wedding music was played by Susan Arrington. She accompanied R. C. Tolman, soloist.

The bride, given in marriage by her father, recited vows in a classic gown of bridal satin fashioned with a chapel-length train. A modified scooped neckline and petit point sleeves were features of the fitted bodice. Seed pearl accents highlighted the floor-length gown.

A pearl tiara released her bouffant shoulder-length veil of illusion. She carried a cascade bouquet of large dark pink roses entwined with smilax.

Mrs. Marilyn Mathews was matron of honor. Bridesmaids were Betty Greene and Ruby Green, sisters of the bride, and Lillian Johnson, sister of the bridegroom.

Audrey Fuller was flower girl and Wyatt Williams served as ringbearer.

Tacy Johnson, Provo, was best man. Ushers were Thomas Williams and Richard Tompkins, both Twin Falls.

Following the ceremony, the

newlyweds greeted guests at a reception in the church Recreation Hall. The bride's table featured a white slipper satin tablecloth enhanced with a white darcron flounce over pink with scalloped edges caught with large pink satin roses and pink shower ribbon.

The table was centered with an ornate four-tiered heart-shaped wedding cake decorated with clusters of wedding bells and swans with pink rose embellishments.

Reception assistants were Mrs. W. T. Williams and Mrs. Willard Woodland. Esther Bowen and Glenna Johnson presided at the gift table. Mrs. Joseph Rowbury registered guests.

The newlyweds will reside in Redlands, Calif.

Out-of-town guests attended from Filer, Rupert, Hollister and Utah.

A pre-nuptial shower honoring the bride was hosted by Mrs. David Chadwick and Mrs. Tommy Williams.

**Oregon Couple Is Honored**

**BLISS**—Guests from Gooding, Wendell, Bliss, Hagerman and Boise attended an open house in honor of Mr. and Mrs. Dudley Carson, Eugene, Ore., at the home of Carson's parents, Mr. and Mrs. V. W. Carson, Bliss.

A bouquet of rose-colored and blue asters centered the refreshment table. Tapers in crystal holders flanked the floral arrangement. Mrs. Gregory Belsier presided at the punch bowl.

Carson is a former Bliss school teacher and is now professor of music at Northwest Christian College, Eugene.

**Travelogue on Europe Given At Area Parley**

**FAIRFIELD**—A travelogue on Europe was presented by Mrs. Harry Durrall at the Town and Country Christian Women's Club meeting at the American Legion Hall. Mr. and Mrs. Durrall made a three weeks tour of Europe in June.

Mrs. Ray Kimbro, Boise, was devotional speaker, on the subject, "My Friend, Jesus Christ." Mrs. Abner Hanig, Boise, was soprano soloist, accompanied by Marilyn Costella.

The event opened with a dinner catered by Frontier Cafe. Background music was played by Mrs. Dale Reedy. Decorations and table favors were made by Mrs. Rozella Ashmead, Mrs. Harland Wilson, Mrs. Keith Strom and Mrs. Glenn Miller.

Table hostesses included Mrs. Lesley Bartholomew, Mrs. Glenn Miller, Mrs. Wilfred Costello, Mrs. Melvin Fletcher and Mrs. Harold Brooks.

Invocation was given by Mrs. Allen Bauscher. Mrs. Melvin Brooks and Mrs. Bauscher presided at the registration table. Mrs. Walter Pearson was mistress of ceremonies and Mrs. William A. Simon presented the program.

**Joan Stewart Is Engaged to Richard Benyon**

**CAREY**—Mr. and Mrs. Oral Stewart, Carey, announce the engagement and forthcoming marriage of their daughter, Joan, to Richard C. Benyon, son of Mr. and Mrs. Fen Benyon, Salt Lake City.

Miss Stewart was graduated from Payson High School in 1963 and is employed with the Salt Lake City Chamber of Commerce.

Benyon was graduated from East High School and attended the University of Utah. He recently fulfilled an LDS mission to Australia.

An Aug. 27 wedding is planned at the Salt Lake City LDS Temple.

**Anniversary Is Observed**

**DECLO**—Sam Richardson was guest of honor at a party at his home in honor of his 82nd birthday anniversary.

Mrs. William Richardson, Caldwell, baked and decorated the birthday cake.

All of Richardson's grandchildren and great-grandchildren were in attendance.

**REUNION HELD**

**MURTAUGH**—The Murril family reunion was held at the Clyde Goodman residence, Murtaugh. Guests attended from Murtaugh, Pocatello, Washington and Texas.

If you plant it or feed it—**GLOBE SEED** Will have it!

PEGGY ULRICH

**Peggy Ulrich, Ohlaug Reveal Wedding Plans**

Mr. and Mrs. Wilbur Ulrich announce the engagement of their daughter, Peggy Louise, to Raymond Michael Ohlaug, son of Mrs. Isabelle Ohlaug and the late Joseph Ohlaug.

Miss Ulrich is a 1965 graduate of Twin Falls High School and is employed at the Twin Falls Bank and Trust Co.

Ohlaug was graduated from Twin Falls High School in 1964 and attended Idaho State University. He is employed with the M. H. King Co.

A March 25 wedding is planned.

MARGARET LEWIS

**Margaret Lewis Reveals Troth**

**DECLO**—Mr. and Mrs. Wayne O. Lewis, Declo, announce the engagement and forthcoming marriage of their daughter, Margaret, to Lee Budd Jorgenson, Gunnison, Utah, son of Mr. and Mrs. Budd Jorgenson.

The bride-elect is a graduate of Brigham Young University and is home demonstration agent for Payette County.

Jorgenson is a graduate of Gunnison High School and will continue college training at Treasure Valley College, Ontario, Ore.

An early September wedding is planned.

DESCRIBING HOW he spent four months with the Viet Cong in search for his brother, Daniel, is Donald Charles Dawson, 28. Daniel was shot down over the Viet Nam jungle and reported missing. Donald reappeared Wednesday with Colette Emberger, who went with him as interpreter when he delivered himself to the Viet Cong. Donald said the Viet Cong told him his brother was dead. He will return to his family and home in Costa Mesa, Calif., next week. (AP wirephoto by radio from Saigon)

### 8-Month Search for Missing Brother Ends for Fisherman

SAIGON, South Viet Nam (AP) — Don Dawson's search is over. The Viet Cong lectured him for his foolhardiness, then told him they would tend his brother's grave and give back his remains when the war was over. They gave him the flying vest he said his brother wore the day his U.S. Army spotter plane crashed into the jungles of Zone D.

### Theories on Mars Are Disputed

BEND, Ore. (AP) — An Australia geologist said Wednesday official interpretations of moon photographs taken by the U.S. Ranger spacecraft suppress theories that volcanic action shaped the moon's surface. Addressing the International Lunar Geological Conference, G. J. A. McCall, a geologist from the University of Western Australia, accused a U.S. team headed by Gerard P. Kuiper of "apparent suppression" of conflicting interpretations of the photos. Kuiper is director of the lunar and planetary observatory at the University of Arizona. McCall said Kuiper supports the theory that moon craters are the result of impact from meteorites. Kuiper registered to attend the conference, but withdrew before it started Monday.

Then, after four months of captivity when his own life hung in the balance, they told him to go. For Donald Charles Dawson, a 28-year-old tuna fisherman from Costa Mesa, Calif., it was the end of the road. "Do you think there is any more I can do?" he asked today as he recovered from a grueling three-day hike back to government territory. "They said if Dan was alive they would take me to him, but that he was dead. I want to go home now, tell Dan's wife Arlene and the kids that I did all I could, and then pick up the threads of my life." Dawson's 27-year-old brother, Lt. Daniel Dawson, disappeared on a mission over the Communist-controlled jungle north of Bien Hoa on Nov. 6. Donald came to Viet Nam last December to find his brother or recover his body. For months he littered the jungle with leaflets offering rewards for information. Hitting dead end after dead end, he decided on one last desperate gamble — to penetrate the Viet Cong heartland, throw himself on the mercy of the guerrillas and find the answer. A pretty 21-year-old Vietnamese-French college girl, Colette Emberger, went along as his interpreter. She also was imprisoned but was released with Dawson. The Viet Cong were furious with Dawson. "They demanded to know why I dared enter their territory without permission," Dawson recalled. A tall, red-haired man, he was pale from months in his jungle prison and thin from the walk back but otherwise well.

The Red Cross helped them find lodging. (AP wirephoto)

# Gaily Painted Circus Train Is for Sale

HELENA (UPI)—If you've always had a yearning for a gaily painted circus train and have about \$30,000 you're not using, call Gov. Tim Babcock in Helena. He'll be glad to sell you one.

A decision was made to bring the train—a storehouse of western history—back to Montana from the New York World's Fair where it is the Treasure State exhibit.

The decision was made by the governor's special committee appointed to see that the Centennial Special, once \$153,000 in debt, ends its career in black ink. Plans are to take it on tour around Montana in November, but if any good offers are received, the choo-choo is on the block.

"If somebody gives a good offer, don't worry, we'll call a meeting immediately," Babcock said. The train originally

was purchased from West Virginia for \$40,000 and any offer from \$20,000 to \$40,000 was considered "good."

But in all fairness, prospective bidders should know a \$1 million gold display, a couple of tons of uncut sapphires and mother, daddy and baby elk aren't included.

You'll also have to supply your own locomotive. But committee member John Willard, director of the Montana Railroad Association, said he was sure anyone buying a locomotive would get free lessons in how to run it.

The decision to return the train rather than try to dispose of it in New York was dictated by economic reality.

The committee, formed to solicit private donations to bail

the exhibit out of debt, now is wrestling the law of diminishing returns.

Jack Hume, chief fund raiser, reported \$47,000 more is needed in addition to an expected \$20,000 net profit from this year's World's Fair operation to get the train back to Montana in the black.

But getting donations is getting tougher with only \$14,736 collected since June, according to Treasurer Edna Hinman.

## Plot to Kill Ministers Is Uncovered

SINGAPORE (AP)—Security police here have uncovered and smashed a Communist-Indonesian plot to assassinate government ministers and create violence and political trouble in this newly independent state, the government announced today.

One of the main aims of the plot was the assassination of Singapore's Prime Minister Lee Kuan Yew, the announcement said, adding that the Singapore organizer and 20 of his agents have been arrested. A special statement identified the leader as Sim Siew Lin.

The statement said the plotting organization was called the People's Revolutionary Party and claimed it has the backing of the Barisan Socialist, a political party which has several members in Parliament.

It said Sim personally tried to blow up the entrance of the U.S. consulate here July 31 by placing a time bomb on a bicycle near the front of the building. The bomb was discovered and defused before it could explode.

## Use of Federal Funds Is Noted

UNIVERSITY PARK, Pa. (AP)—Former President Dwight D. Eisenhower says he does not believe federal funds should be used to set up new bureaucracies under the anti-poverty program.

Asked if he supported the program, Eisenhower said, "Some of these names are eye-catching slogans more than they are measures of progress."

## Antique Festival Theatre to Present Final Performances

BUHL—The Antique Festival Theater summer repertory group will end season production this weekend with performances of "The Broken Jug" and "The Boor," two one-act plays, Friday; "The Intellectual Ladies," Saturday, and "The Beggar's Opera" Sunday.

Curtain time for each evening's presentation is 8:30 p.m. Tickets are available at the door.

Scheduled to exhibit this week at the Alley Fair is Robert McNealy, son of Mr. and Mrs. C. T. McNealy, Buhl. McNealy is majoring in art at Idaho State University.

He has worked in oils, charcoal, pen and ink, water color, as well as metal sculpture and jewelry design. McNealy has exhibited at various places and has sold much of his work to help with his college education.

Also exhibiting will be Mrs. Peggy Kearsley, Twin Falls, daughter of Mr. and Mrs. Clyde Cox, Buhl. Mrs. Kearsley has been doing water color and oil paintings for several years. She has studied under Mrs. Eula Hann, Buhl.

The seasonal stage play productions have drawn interest throughout Idaho. Many out-of-town guests attend the week-end performances. Visiting here this week is William Arms, student at Oxford University, England.

Arms, a theater enthusiast, is closely connected with the theater groups at Oxford. He has appeared in plays in the University Amateur Theater, and does technical work for an English professional repertory theater. He is a house guest of Mr. and Mrs. Aldrich Bowler.

## Poor Fund Levy Reduction Eyed

Harold Lancaster, Twin Falls County Clerk, announced Wednesday that he will recommend to the County Commission soon a reduction in the levy for the poor fund for the county from five to four and one-half mills per dollar of assessed valuation.

"This reduction did not come about in six months," Lancaster said. "The outstanding work of the county commissioners during the last two years in dealing more efficiently with relief problems and a weeding out of persons not qualified for assistance has made this possible."

Lancaster said he will make the recommendation as soon as he meets with the commissioners after all the assessed valuations for the county have been received.

## DRAGONFLY SWARM

NEW YORK (AP)—Swarms of dragonflies alarmed residents of Long Island's Rockaway section. An official of the city's pest control department said they should be "thankful, not alarmed." He explained dragonflies, identified by long net-veined wings, do not bite or sting but destroy mosquitos, houseflies, beetles and moths.

**Wyoming Man Survives Plane Crash**

HONG KONG (AP)—A list of survivors was made available today in the crash Tuesday of a U. S. Marine transport plane. Among those surviving was Pfc. Wayne B. Brown of Riverton, Wyo.

The plane plunged into Hong Kong Bay just after it took off from Kaitak Airport with 69 marines and two U. S. Navy men returning to Viet Nam after a brief leave in Hong Kong.

Forty-nine bodies were recovered, 29 from the fuselage and 20 from the waters of the bay. The list of dead and missing has not been made available.

No individual condition reports were made. But a U. S. spokesman said one survivor was in critical condition and another was very poor. Three others were reported in fair condition and the condition of the other eight was described as good to excellent.

## Progress Painfully Slow for Class in One-Room School

GREENFIELD, N.H. (AP) — Progress is painfully slow in the one-room schoolhouse atop remote Crotched Mountain, so slow that some days it appears there has been no progress at all.

But for the children in school at Crotched Mountain Rehabilitation Center, every lesson learned is a triumph and brings them one step closer to the everyday world.

For the past few years psychologists and educators at the school, sponsored by the Crotched Mountain Foundation, have been delving into retarda-

tion. Their findings: That many so-called "retarded" are, in reality, persons who have suffered minimal brain damage; that a great number of these persons are highly educable; that many, if not most, can be rehabilitated.

Scott F., now 16, is a graduate of the program in southwestern New Hampshire near Keene. He attended special classes there for six years.

Once believed to be retarded, Scott today can read at a fourth grade level. And, like many other brain-damaged persons, he is

physically handicapped. But Scott now is in a public high school, and while the problems involved in his continuing education are far from solved, he is learning.

Scott suffers from aphasia — an impairment of his ability to comprehend words. In his case it is the written word with which he has difficulty, not the spoken word.

Manfred T. Drewski, who heads the special education program, says Scott — like many other brain-damaged children — showed his teachers how to teach him.

The Jordan District Board of Education decided Tuesday that a bid for electrical work on a 15-classroom addition to an elementary school would go to Capitol Electric Co. for \$29,930.

A bid from Marv's Electric Co. totaled \$29,931.

**CONFERENCE NOTED**

## Goodby-to-Summer Party of Youths Raided in New York

EAST HAMPTON, N.Y. (AP) — Past the glow of the Japanese lanterns on the sloping lawn of the old farmhouse 40 policemen waited in the shadows, while inside 300 youths whooped it up in a goodby-to-summer bash.

At 1:30 a.m. the cops crashed the party. One of them yelled, "this is a raid!"

Some girls screamed and a few giggled, but the party was over. Police said the party was "hell-bent for booze, dope, sex and abandon."

Police hauled 21 of the youngsters to jail following the raid Wednesday. They booked 11 on narcotics charges and 10 for disorderly conduct.

Earlier, police raided a motel at nearby Riverhead and charged five persons with supplying narcotics to the party.

This fashionable resort area near the end of Long Island was shaken again. Two years ago youths wrecked a home at the coming out party of debutante Fernanda Wanamaker Wetherill.

Some at the party Wednesday were high on dope and liquor, police said, but most were not.

Police took the youngest of the merrymakers — many of them high school students — to the station house for their parents to be called. The parents and youngsters

were given tongue-lashings at 5 a.m. by East Hampton Supervisor Edward V. Ecker and Capt. Donald F. Schmidt, who directed the raid and the six weeks of investigation that led to it.

The house was rented for the summer by Emmett E. Boone III, a 27-year-old guitar player. He was charged with selling narcotics.

A half dozen or so people lived in the house, recalled a neighbor.

Capt. Schmidt said narcotics activities in the area had been under investigation for months.

## Honored Army Man to Retire

FT. SILL, Okla. (AP) — Col. Ernest Childers, a Civil War Indian who won the Medal of Honor and a battlefield commission in Italy 22 years ago, retired from the Army August 25. In August 1943, a month after he was commissioned a second lieutenant, Childers knocked two German machine gunners out of their positions. Then he captured a mortar observer.

# Manned Space Lab May Aid in Race for Military Dominance

HOUSTON, Tex. (AP)—Military men know the best way to gain a battle advantage is to take the high ground and hold it.

Now, with an order to develop a Manned Orbiting Laboratory, the Defense Department will extend this axiom hundreds of miles into space in an effort to gain military supremacy before the Soviet Union or any other nation grabs control.

The race to achieve military dominance in space might be more vital to mankind than the dash for the moon. If a nation with hostile intentions commanded space, military experts say it could exercise a policy of

international blackmail with a network of manned and unmanned spacecraft capable of raining nuclear destruction on any area of the globe.

The military space race between the United States and Soviet Union actually has been going on several years. Until Wednesday, neither nation wanted to admit it.

But President Johnson removed the myth the United States is pursuing a purely peaceful and scientific space program. He gave the Defense Department the green light to develop the MOL to determine if man can perform useful military duties in space.

The \$1.5 billion he authorized is nearly two million dollars more than the cost of the Gemini program.

It will cover the price for development, test flights and the launching of five two-man orbiting laboratories.

Each MOL will consist of a Gemini capsule hooked to a tank-like section the size of a medium-size house trailer. On launching, the astronauts will rise in the Gemini, then transfer to the tank which will be equipped like a scientific laboratory. After 30 days or more aloft, the pilots will return to the Gemini, detach it and fly home.

During their periods in orbit, the MOL astronauts will work in their shirt sleeves and conduct tasks which will determine whether man or automatic satellites can better perform such duties as reconnaissance, navigation, surveillance of ocean and air traffic, communications, and inspection and perhaps destruction of enemy satellites.

The result would be a Buck Rogers-type patrol involving scores of manned space ships operating out as far as the moon, perhaps beyond.

**Forecast Handy**  
WASHINGTON (AP)—The weather Bureau will make copies of its fall experimental forecasts available to anyone requesting them says Sen. Robert F. Kennedy, D-N.Y. They are due about the first week in September.

Kennedy has requested the bureau to provide as much information as possible about conditions affecting water supplies and drought control measures in the Northeast.

the MOL program, has been training its own astronauts in a school at Edwards Air Force Base, Calif. It will not draw from the present 33 National Aeronautics and Space Administration Astronauts.

The manned launching will start in 1968, using the Air Force's trigger-quick Titan 3C rocket which underwent its first successful test launching in June.

By then, the Gemini program will be history by a year and the space agency will be launching three-man teams of Apollo astronauts into earth orbit in practice missions for the first manned lunar landing scheduled in 1969.

WORKING on one of their many carpentry projects in the basement of the school administration building are Earl Kinney, left, and R. W. Miller. The five men on the maintenance staff make many of the school desks and tables and repair other school furnishings. Just before school starts is a busy period for the crew. (Times-News photo)

### T. F. School Maintenance Crew Is Having Busy Time

The few weeks preceding school are busy for many people, and the maintenance department of school district No. 411 is among the busiest. Although the staff of five works throughout the summer on carpentry projects, there always seems to be some last minute needs at the schools. Nearly all the school hot lunch tables, typing tables, portable blackboards, book shelves and some desks are made by the carpenters of this department. Superintendent Ernest Ragland, says in addition to saving the district money, the men do superior work and the items they make are much sturdier and durable than those that are available commercially. The carpenters make many of the items from the raw materials and finish them themselves, but they also repair and remodel furniture. Used desks often can be purchased at quite a savings and repaired and painted, the superintendent noted. All this carpentry work and

### Red Action Warned by Newspaper

HONG KONG (AP) — Hong Kong's Communist newspapers warned today that Red China may take action if the British colony's government continues to allow U.S. military ships and planes to use its harbor and airport. "If Hong Kong continues to tolerate these activities by the American aggressors, others may not tolerate it," said Ta Kung Pao, sister newspaper of the official Ta Kung Pao in Peking. Two other Communist papers, Wen Wei Pao and Hsing Wan Pao, carried similar warnings. All said use of Hong Kong's facilities was aiding the American war against the Communist Viet Cong in South Viet Nam. The newspaper warnings followed reports that Peking had passed the word indirectly to Britain that China's Red rulers are politically and diplomatically embarrassed by the presence of American forces in Hong Kong at a time when the United States is stepping up its war effort in South Viet Nam.

### Buhl Council Hears Fund Representative

BUHL—Kris Wales, research assistant from the University of Idaho, representing the Land and Water Conservation Fund program, met with the Buhl city council Tuesday night and discussed the participation of the city in some phase of the program. Wales gathered information in the recreation areas and facilities located in the community. It was noted the survey is being made for the purpose to qualify the state for \$1,400,000 annually in Federal Land and Water Conservation Fund funds during the next 25 years. The council voted to consider city qualification in the program. In other business the council voted to contribute \$200 to the Chamber of Commerce Christmas decorating project.

## Prisoner Earns \$26,000 From Behind Bars

HUTTONSVILLE, W.Va. (AP) — William Hollie Griffith had \$2 when he entered prison 50 years ago. Now, with \$26,000 accumulated behind bars, he can buy anything he wants except freedom.

### Improving

SHOSHONE—Mrs. Hal Rogers and her 12-year-old son, Tom, are improving after being injured in a one-car accident 13 miles west of Boise. Mrs. Rogers is the daughter of Mrs. Mina Jones, Shoshone, and Captain Jones, North Shoshone. The two are in St. Luke's Hospital, Boise. They live in Montana.

Prison officials think he should be released. They point to Griffith's good record and ability to support himself. He has earned the money by operating a penitentiary tailor shop. A group of West Virginia businessmen recently asked Gov. Hulett C. Smith to release Griffith so he can use his money and experience to establish a garment factory at Grantsville, in one of the state's more depressed areas.

Smith has taken no action but has expressed interest in the proposed plant which would provide about 30 jobs. "I don't see why Hollie couldn't make a go of the plant," said Leo Callison, deputy warden of the state's medium security prison here. "His behavior has been outstanding

during the 35 years I've known him. I can't see why he's not out now." Fifty years ago, Griffith was chased across the state by a posse after shooting a law officer in a gun battle. Griffith was sentenced to life in the state penitentiary. Six years later he escaped. During

### Railroad Will Buy Equipment

OMAHA, Neb. (AP) — The Union Pacific Railroad has announced it will spend \$119 million to buy 4,670 new freight cars, rebuild 1,486 box cars, and purchase 25 diesel-electric locomotives. Edd H. Bailey, president of the railroad, said delivery was expected by Dec. 1, 1966.

three weeks of freedom, killed two more men. Given two additional life sentences in 1921, Griffith spent next 57 months in solitary confinement. Upon his release from the prison tailor shop, two years later he began working cleaning and bringing equipment from the man who he had the penitentiary contract. Griffith, now prison librarian, has two brothers and four sisters who visit him occasionally. He hasn't seen his wife or children for 50 years.

# Rival Factions Agree to Track Negotiation

WASHINGTON (AP) — The ruling powers of U. S. track and field endorsed Wednesday binding and continuing arbitration of their jurisdictional row. The Senate Commerce Committee obtained the agreements from the presidents of the rival Amateur Athletic Union (AAU) and National Collegiate Athletic Association (NCAA) and promptly treated it as the key to perhaps a permanent peace move.

# Rollins Hits Twins Past Yankees 5-4

MINNEAPOLIS—ST. PAUL (AP) — Rich Rollins tripled home two runs in a three-run Minnesota rally in the seventh inning, powering the American League leaders to a 5-4 victory over the New York Yankees Wednesday night.

The triumph, coupled with Baltimore's 2-1 triumph over Chicago, restored the Twins' lead to 7½ games.

Mickey Mantle, painfully slow in covering ground in left field, opened the door for the Minnesota rally, which cracked a 2-2 tie.

Mantle dropped Jerry Kindall's drive to left-center to open the inning. After Merritt was out bunting foul on a third strike, Zoilo Versalles drew a walk from Yankee starter and loser Al Downing.

Rollins then lashed a liner into the left-center alley which Mantle was slow in picking up and tossed to center fielder Tom Tresh to return to the infield. By that time, Kindall and Versalles had scored and Rollins was on third. Rollins scored as Earl Battey doubled into the left-field corner.

# Pinch Hitter Helps Astros Defeat Phils

PHILADELPHIA (AP) — The Houston Astros came from behind with two runs in the ninth inning as pinch hitter Joe Gaines delivered a key double, defeating Philadelphia 7-6 Wednesday night.

Rusty Staub and Ron Brand opened the Houston ninth with singles against Phillie relief ace Jack Baldschun. Gaines, batting for Ron Taylor, doubled off the left-field wall, scoring the tying run and then Lee Maye's sacrifice fly delivered Brand with the winner.

The Phillies had twice rallied from behind in a sloppily played game that included three errors. Houston took a 3-0 lead in the fifth routing starter Ray Culp with three hits, two walks and an error.

# Indians Take Pair of Games From Angels

LOS ANGELES (AP) — Cleveland pounded Fred Newman for eight hits in the first three innings and handed him his fifth straight loss Wednesday night as the Indians completed a sweep of a doubleheader by beating the Los Angeles Angels, 8-2.

The Indians won the opener 6-3 with a 12-hit attack featuring homers by Fred Whitfield and Duke Sims.

Ralph Terry staked to an early 6-0 lead, got credit for his 11th victory against four losses in the nightcap although reliever Bob Tiefenauer pitched the last two innings.

GUN BUSINESS brought William Donovan, vice president of High Standard Firearms Co., Hartford, Conn., to Twin Falls Wednesday night for negotiations with Steve Herrett, left, owner of Herrett's Handgun Stocks. The firearms company is expected to enter into a contract with the Twin Falls firm to provide grips for High Standard hand guns. (Times-News photo)

# Herrett to Make Handgun Grips For High Standard Firearms

Herrett's Handgun Stocks, owned by Steve Herrett, Twin Falls, will expand its operation from custom work to put the stocks on pistols produced by the High Standard Fire Arms Co., Hartford Conn., through an agreement reached Wednesday night with William Donovan, vice president of the Eastern firm. Actually the contract between the two, who are old friends, had not been reached at the time of the interview but the opportunity of putting Herrett's stocks on their pistols.

He said High Standard did not plan any Western development, adding all the stocks would be manufactured here and then shipped to Hartford for final assembly.

Herrett, who invented the machines and ideas for bringing competitive stocks into the financial reach of all shooters, said he didn't know how his new contract would affect his business as addition of personnel or added factory space. He said he would have to play that by ear as demands of the firearms company became known.

# Appaloosa, Quarterhorse Trials Feature Jerome Race Opening

nile Stake Appaloosa Futurity Wednesday night when a five-day session of racing began in conjunction with the Jerome County Fair. Little Eclipse, owned by Bob Little and ridden by Cunningham, covered the 400 yards in 22.76 while Twist, booted by McClintock and owned by Bruce Bedke, won the second trial in 22.19. However, the horses will be placed in Saturday's final event by time, meaning one heat could provide half the eight finalists. The Appaloosa stakes boasts a prize of \$3,000, the largest offered in Idaho this year.

The session also had three trials in the Intermountain Quarterhorse Derby. La Ree Bar, ridden by Wright and owned by Wayne Charleton, won the sixth race in 22:51 while La D Hi, with Freeman aboard and R. J. Marlow owner, took the seventh race and second trial in 22:88. The eighth race was the third trial with James Olsen's Rocket Dial, Coulthard in the irons, winning in the time of 22:91.

# Matson Tops Meet Record For Shot Put

BUDAPEST (AP) — Randy Matson, the Texas giant, shattered the meet record for the shot put in the World University Games Wednesday with a throw of 66 feet, 7¾ inches.

The 6-foot-6, 260-pounder — only a man to crack the 70-foot barrier — got off his best effort in his next-to-last toss. He was the star of the show before some 5,000 spectators as he unbound his huge frame and fired the iron ball for one long put after another.

Matson qualified with only one throw, of 60-3, and broke the meet record on his first toss of the finals, 65-11¾. His eventual best was about four feet short of his world mark of 70-7, set this past spring.

Nikolai Karassov of Russia took second at 61-3½ and his teammate, Edouard Gouchchin, was third at 60-8½. John McGrath of Los Angeles placed fifth with 59-1.

Matson said he was bothered by the cool, damp weather.

"When I got out there I thought I would do 68 feet," he said. "Then I had that good opening toss and was certain I'd do 68. But as it got cooler and darkness came on, I figured I wouldn't beat my first toss. I wish I had done better, but I'm satisfied."

Bob Schul, Olympic 5,000-meter champion from West Milton, Ohio, finished a limping sixth for the last qualifying spot in his heat of the 5,000 trials. He pulled up lame in the meet against Poland at Warsaw three weeks ago, that time with an ailing ankle. This time he had different trouble.

"The ankle got all right but my knee acted up on me," Schul explained. "I wasn't sure I could make it but I was determined to give it a try."

# Pappas Hurls Orioles to 2-1 Triumph

CHICAGO (AP) — The Baltimore Orioles scored an unearned run in the third inning and with Pappas made it stand up with a four-hitter for his first victory in five weeks, defeating the Chicago White Sox 2-1 Wednesday night.

Baltimore broke a 1-1 tie when Luis Aparicio led off the third with a single. Boog Powell singled to right center and continued to second when Ken Berry booted the ball. Aparicio raced home on the play.

Baltimore opened with a run in the first on singles by Paul Blair and Powell and Brooks Robinson's sacrifice fly.

# Deravin Leads Cowboys Past Cubs 3-1; Season Gate Boosted to 20,012

Al Deravin collected a key double in the middle of a two-run inning and saved two runs with a running catch at the base of the wall Wednesday night as the Magic Valley Cowboys dropped the Treasure Valley Cubs 3-1. The Cowboys ended their final home stand by drawing 915 and lifting their total for the season to 20,012. Righthander Jess Huggins went the distance for the Cowboys although wildness had him staggering much of the time. He had base runners to contend with in seven innings but managed to scrape through repeatedly.

## Cubs Score 6-3 Victory Over Cards

ST. LOUIS (AP)— Dick Ellsworth snapped his five-game losing streak with ninth-inning help from Ted Abernathy as Chicago whipped St. Louis 6-3 Wednesday night.

The Cubs jumped on Cardinal starter Bob Gibson for three runs in the fourth inning. Ed Bailey's double produced the first run. Two more runs scored on an infield out and Don Kessinger's triple. Joe Amalfitano delivered a two-run single in the sixth inning after Kessinger singled and Don Landrum doubled.

Ernie Banks hit a solo homer, his 20th this season and 396th of his career, in the seventh.

Ellsworth's record now is 13-11. Gibson's mark fell to 15-10.

Chicago 000 302 100—6 14 2  
St. Louis 001 000 101—3 8 2

Ellsworth, Abernathy (9) and Bailey; Gibson, Carlton (8) and Decker. W—Ellsworth (13-11). L—Gibson (15-10).

Home runs—Chicago, Banks (20), St. Louis, Brock (13).

## Homer Lets Reds Defeat Braves 7-4

MILWAUKEE (AP)— Pinch hitter Tony Perez slammed a three-run homer with two out in the ninth inning as fourth-place Cincinnati tightened up the National League pennant race by downing second-place Milwaukee 7-4 Wednesday night.

The victory moved the Reds to within 1 1/2 games of the first-place Los Angeles Dodgers, who were beaten at New York 7-5. The Braves remained one-half game back.

Perez' game-winning blow marked the second night in a row that Braves reliever Billy O'Dell had served up a homer in the ninth that beat Milwaukee.

Don Johnson started the Reds' winning rally with a single and pinch runner Chico Ruiz moved around to third on two infield outs. John Edwards then was purposely passed and Gordy Coleman sent up as a pinch hitter.

At this point, O'Dell replaced Dan Osinski and the Reds countered by sending Perez up to bat for Coleman. Perez' homer carried 400 feet to the left center-field bleachers.

## Pirates And Giants Tie In Rainout

PITTSBURGH (AP)— The San Francisco Giants lost an opportunity to gain a full game in the National League pennant race Wednesday night when their game with Pittsburgh was rained out after they had taken a 5-3 lead in the top half of the 10th inning.

When rain kept the Pirates from completing their turn at bat, the game reverted to the ninth inning and the Giants' lead was wiped out.

The tie enabled the Giants to gain one-half game on the National League leader Los Angeles Dodgers, who lost to New York. San Francisco now is one game back.

The rained out game was rescheduled as part of a two-night doubleheader Thursday.

Two wild pitches and a hit batter by Don Schwall gave the Giants their two runs in the 10th inning after the Pirates had pulled into a tie in the ninth.

San Francisco 010 001 001—3 6 1  
Pittsburgh 011 000 001—3 8 1

Bolin, Linzy (9) and Haller; Friend and Pagliaroni.

Home run—Pittsburgh, Clendenon (15).

## Big Inning Lets Dodgers Whip Angels

IDAHO FALLS (AP)— Pocatello pounded out six runs in the fifth inning, four of those unearned, to overtake Idaho Falls and coast on to a 10-4 Pioneer League victory Wednesday.

Idaho Falls jumped in front with four runs in the second frame to send starter Jim Strickland from the mound. Mike Pitko, Pat Hart, and Mike Price combined in short pitching stints to blank the Angels the rest of the way.

Pinchhitter Dan Prentice served up the big blow, a double in the fifth inning that chased home the first Dodger run and started the Pocatello nine on its way to the victory.

Singles by Jerry Heizenrader and Rhett Thompson started the big fifth in front of Prentice's double. Two errors on Idaho Falls shortstop Tom Soderstrom opened the gates for four more runs in the frame. Buddy Hollowell's single accounted for one run.

## Larsen Honored By Ball Group

CHICAGO (AP)— The last still-playing member of the St. Louis Browns pitcher Don Larsen of the Baltimore Orioles, was honored by baseball's quaintest die-hard group Wednesday night.

The St. Louis Browns Fan Club of Chicago—whose slogan is, "Are we downhearted? No, we're Brownhearted!"—presented Larsen with a trophy before the Oriole-Chicago White Sox game.

The trophy had this inscription: "The St. Louis Browns Fan Club of Chicago. Awarded to Don Larsen, who was a member of the St. Louis Browns in 1953, and who, in 1965, is the last surviving member of that glorious club still playing in the major leagues."

## Kansas City A's Blank Detroit 5-0

KANSAS CITY (AP)— Jim (Catfish) Hunter, 19-year-old Kansas City right-hander, pitched his first major league shutout Wednesday night in hurling the Athletics to a 5-0 victory over the Detroit Tigers.

The Athletics hammered Joe Sparna for three runs and drove him from the mound in the third inning. Wayne Causey and Ken Harelson each drove in two runs and John Blanchard contributed a homer.

Detroit 000 000 000—0 6 2  
Kansas City 112 100 00x—5 8 0

Sparna, Wickersham (3), Nischwitz (4), Fox (5), Gladman (6) and Sullivan; Hunter and Blanchard. W—Hunter (5-4). L—Sparna (10-6).

## Tight Relief Helps Mets Beat Dodgers

NEW YORK (AP)— Gordon Richardson pitched 6 2/3 innings of tight relief and Joe Christopher whacked three hits, including a two-run homer, as the New York Mets scored their second straight victory over the Los Angeles Dodgers, 7-5 Wednesday night.

Christopher's homer broke a 3-3 tie in the second inning and Richardson came on in the third as the Dodgers knocked out Mets starter Jack Fisher with two hits. The young left-hander permitted a run-scoring single to Lou Johnson and then blanked Los Angeles until the ninth when hits by Wes Parker and Jeff Torborg brought in the final LA run.

John Roseboro, playing his first game since suffering a two-inch laceration on his head from Juan Marichal's bat Sunday, had to leave the game in the fourth inning when a foul tip off Richardson's bat split the middle finger of the catcher's throwing hand.

Los Angeles 211 000 001—5 9 0  
New York 320 020 00x—7 10 1

Osteen, Brewer (6), Willhite (7) and Roseboro, Torborg (4); Fisher, Richardson (3) and Cannizzaro. W—Richardson (2-0). L—Osteen (11-12).

Home runs—Los Angeles, Parker (7), New York, Christopher (3).

**MOST VALUABLE PLAYER** for the 1965 Magic Valley Cowboys, Gene Vincent, receives his engraved wristwatch from Howard Allen, co-owner of Sterling Jewelry, which has sponsored the contest for the past 19 years. Vincent, regular centerfielder and sometimes pitcher, received the honor through voting of fans. (Times-News photo)

# States May Stay in Malaysia

KUALA LUMPUR, Malaysia (UP) — Notwithstanding some initial doubts, had pumped hard for the formation of Malaysia. They gravely noted that before Malaysia, their ties had been closer to Singapore than to Malaya, the federation's senior partner.

What really annoyed the Borneans was Prime Minister Tengku Abdul Rahman's decision not to consult them before he separated Singapore. Borneo cabinet ministers and members of parliament got the word only a few hours in advance of the public announcement.

Hanging together or separately, Sabah and Sarawak would find the going tough. Suggestions that they form a federation with their wealthy but tiny northeast neighbor, the British-protected sultanate of Brunei, make geographical sense but do not change perceptibly the economic picture.

PRESENTING THEIR SHOW at 9 p.m. Sept. 15, in O'Leary Junior High School gymnasium will be the internationally famous "Ink Spots." They will be sponsored by the Twin Falls Loyol Order of Moose. Proceeds will go toward Moose projects in the area. The five-member group will sing ballads and rock-and-roll.

## Ink Spots to Present Show In Twin Falls

The internationally famous "Ink Spots" will be coming to Twin Falls to present a program at 9 p.m. Sept. 15 in O'Leary Junior High School gymnasium.

While they still feature many of their old ballads, their style today ranges from ballads to rock-and-roll.

The group, sponsored by the Twin Falls Loyol Order of Moose, will present an hour program which will be followed by three hours of dancing.

Fame started for the Ink Spots in 1938 with their rendition of the song "If I Didn't Care." During recent years they have spent a great deal of their time on cross-country tours.

There are five members in the group and all but one play musical instruments. They have played every naval, air and army installation in the United States.

The Moose lodge will use proceeds for the building fund, the annual fish derby and a donation toward Youth Honor Day on Halloween.

Tickets can be purchased from any Moose member or by calling 733-8678.

## YOUR BIRTHDAY and HOROSCOPE

THURSDAY, Aug. 26 — Born today, you have been gifted with more than a little talent along a number of different lines. Art, music, literature, science, philosophy—any of these can be developed into a full-time career if you begin early enough with the education and training necessary. Don't make the mistake of trying to develop along too many lines at once, however, for you are not one of those able to concentrate on more than one or two things at a time.

Affectionate by nature, you must be on your guard against those who would take advantage of your natural friendliness and desire to please. Choose your friends with care, and do not hesitate to discard—albeit tactfully—any who do not prove trustworthy. More important than your friends, however, is your mate, and here you must select someone who will accept your decisions, and not try to push you along lines you have no desire to follow.

Both men and women born today have great need of incentive if they are to bring their talents into full flower, and develop their personalities to maturity. An early marriage may well be indicated, as the responsibility of a family often proves just the incentive needed. On the other hand, since you have no great desire for material wealth, money will probably prove no incentive at all.

your activities upon realistic planning.

TAURUS (April 21-May 21)—Inspiration runs high this morning, and should bring some creative activity to the fore.

GEMINI (May 22-June 21)—You can avoid afternoon adversity through the proper application of judgment and common sense during morning hours.

CANCER (June 22-July 23)—New business ideas can best be developed during morning hours. Make major changes in plans before you begin work on the details.

LEO (July 24-Aug. 23)—Make the most of morning opportunities. You should be able to realize at least one dream.

# Emmett Man to Vie for Office

BOISE (UPI) — Twenty-four-year-old Dale Higer, Emmett, Idaho, gave me a firm resolve to dedicate myself to public service in a way that President Kennedy would have wanted us all to do.

The other candidates are Ed Rosewell, Chicago; Joe Beechman, San Francisco; Spencer Oliver, Washington, D.C.; and Dr. F. J. Pepper, Omaha, Neb.

Higer is the second young Idahoan to go after higher office in junior politics. This summer Mrs. Richard Kading made an unsuccessful bid for co-chairman of the national Young Republican organization.

Higer has served as national young committeeman for two terms. His four years at this office makes him the senior member of the national board of executives.

Born and raised in Emmett, Higer took an interest in politics in his high school years when his father was elected to the Idaho House of Representatives. He went on to University of Washington where he organized and served as first president of a campus political union.

At Harvard, he served as chairman of a speakers bureau for the entire state of Massachusetts during the past presidential election. He is president of the Harvard Law School's Young Democratic Club—which Higer says is the largest club in the nation.

His goal: To practice law in a "growing Idaho" and to some day become either an elected state official or a hard-working party-member.

READY TO BE COMMISSIONED as an ensign in the Navy Nurse Corps in Boston Tuesday night was George M. Silver, shown here with his wife, Sally, and son, Gregory, 3, at their home in Rehoboth, Mass. Silver was commissioned Wednesday to become the first male nurse in U.S. Navy history. Silver said, "The Navy is where I got interested in hospital work as a corpsman. The corpsman's duties are surprisingly near those of a regular nurse. The Navy said Silver is the first in a new program expanding the nurse corps to include men. (AP wire-photo)

**FUDGE SUNDAE PIE**  
SEGO Milk is everywhere in the rich, fudgy layers... creaming—blending—mellowing flavors. A very special pie. Serve it to kids or kings.

- Put 1 cup SEGO Evaporated Milk, 6-oz. pkg. (1 cup) Semi-sweet Chocolate Pieces, 1 cup Miniature Marshmallows and 1/4 teasp. Salt into a heavy 1-quart saucepan. Stir over medium heat until chocolate and marshmallows melt completely and mixture thickens. Take off heat. Cool to room temperature.
- Line bottom and sides of a 9-inch pie pan (or two 1-quart ice trays) with Vanilla Wafers.
- Spoon half of 1 quart Vanilla Ice Cream over the wafers. Cover with half of chocolate mixture. Repeat with rest of ice cream and chocolate.
- Place Pecan Halves on top. Freeze until firm, 3 to 5 hours. So rich it serves 8 to 10.

Bonus: Follow Step 1 for elegant hot fudge sauce. Can be reheated.
