

## 3 Posts Attacked At Saigon

SAIGON, South Viet Nam (AP)—Communist guerrillas attacked three government positions a few miles south of Saigon within an hour early today, a U.S. military spokesman announced.

Vietnamese losses were reported heavy in the assault on Tan Nhut outpost, which was reported overrun.

A ranger unit was dispatched to the scene.

The actions took place about 12 to 15 miles southwest of the capital.

Government forces were reported to have beaten off the attack at Long An, with light casualties. Two Viet Cong were killed after a guerrilla force of unknown size moved against a Vietnamese unit protecting five hamlets in the area, the spokesman said.

The Communists also shelled the district town of Binh Chanh with 12 rounds of mortar fire, the spokesman said. Light Vietnamese casualties were reported.

The spokesman told newsmen of these other developments:

A multibattalion government force completed one of the war's largest road clearing operations Thursday, opening strategic Highway 21 from the coastal city of Nha Trang to the provincial capital of Ban Me Thuot in the central highlands.

No contact was made with the Viet Cong, and convoys were reported moving over the road for the first time in six weeks, bringing Ban Me Thuot badly needed supplies.

More than 2,000 American logistic troops from 20 different units landed at three coastal cities this week as the U.S. military buildup continued. The troops will strengthen the first logistical command.

The bodies of 50 Viet Cong were discovered south of Chu Lai, apparently left from the big U.S. Marine-Viet Cong battle of Van Tuong Peninsula last week. The bodies were discovered by Vietnamese forces on a search and destroy operation.

U.S. Marines pulled out of the area Tuesday, a week after attacking an estimated 2,000 Viet Cong on the peninsula. At least 600 Viet Cong were reported killed in the battle.

## Steel Talks Loosen in Joint Meet

PITTSBURGH, Pa. (AP)—Steel negotiators, described as beginning to loosen up in joint sessions with a federal mediator, meet again today in efforts to write a new contract before a Tuesday midnight strike deadline.

The two top officers of the United Steelworkers and the two chief negotiators for the industry met for an hour and a half Thursday night with William E. Simkin, director of the Federal Mediation and Conciliation Service.

It was the first night bargaining session and capped a day in which President Johnson talked with negotiators by phone and said he expected their cooperation.

A source close to the talks said, "Simkin is finally beginning to get them to talk. The trouble is there hasn't been much real discussion lately."

Simkin declined to comment, but union president I. W. Abel said, "It's probably easier to tell how we are doing from a distance than close up."

Present at the night session with Simkin were Abel, union vice president Joseph Molony, chief industry negotiator R. Conrad Cooper and Health Larry of the U.S. Steel Corp.

If no agreement is reached by Tuesday midnight, 450,000 workers will be free to strike the nation's mills, shutting off 80 per cent of the steel output.

The steelworkers, with an average \$4.40 an hour in wages and benefits, are seeking a 53-cent hourly boost in a 39-month contract.

The industry has offered 40.6 cents and a 35-month contract.

## Bridge Closed

Hansen Bridge will be closed to the public from 8 a. m. to 5 p. m. Monday. Department of Highways officials said Friday.

Highway officials said the bridge will be closed only Monday so construction crews can raise the high line and erect the towers for a new bridge without endangering the public.

Contractor for the construction of a new bridge is Peter Kiewit and Sons Co., Omaha.

YOUNG COUPLES from six states and their parents wait outside the Clark County Courthouse in Las Vegas late Thursday night to file for a marriage license. Arrow, top, points to Justice of the peace offices. One hundred and thirty-two licenses were issued and Judge James Bronnan married 63 couples in less than two hours. (AP wirephoto)

## Young Couples Dash to Altar in Las Vegas for Draft-Free Status

NEW YORK (AP)—Young couples dashed to the altar Thursday night for wedded bliss and the draft-free status that ended at the stroke of midnight.

But in most states, waiting periods blocked any marriage rush by draft-age youths.

President Johnson proclaimed Thursday that men between 19 and 26 who were married after midnight would be subject to the draft the same as single men until they become fathers.

The President issued his order to meet growing manpower needs of increased American involvement in the Viet Nam war.

An Associated Press survey disclosed much fretting, plenty of hurrying and scurrying, but no mass plunge into matrimony.

Two famed Western hitching posts got lots of attention, however, in Las Vegas, Nev., and Yuma, Ariz., couples swarmed into wedding chapels for last-minute rites.

Elsewhere, most efforts to reach the altar came to naught because of waiting periods.

From Providence, R. I., to Galatin, Tenn., young couples tried — and failed — to get married.

One couple flew from Newark, N.J., to Las Vegas to beat the clock.

At Las Vegas the courthouse

celebrated

57th Year Is Celebrated By Johnson

WASHINGTON (AP)—President Johnson celebrates his 57th birthday today with a trip to his favorite spot — Texas hill country — and a quiet dinner party with his family and a few close friends.

White House aides said the President would leave this morning for the flight to Texas, where Mrs. Johnson and their two daughters, Lynda, 21, and Luci, 18, have been making birthday party preparations.

Mrs. Johnson, who has been in Texas since early this week, declined to tell what gifts she and her daughters would give the President.

Johnson had planned to go to Texas Thursday night but was delayed by a heavy work schedule and poor weather. He remained instead in the White House.

## College Students Enroll Here

Pre-enrollment by appointment for College of Southern Idaho students was completed Friday, reports Dr. James Taylor, president.

Dr. Don Keith, college dean, said 140 students had made appointments and all have been enrolled. Students eligible for the pre-enrollment plan were those who had already taken the American College Test.

and its grounds were filled for more than three hours with couples seeking marriage licenses. Many parents, especially mothers, accompanied the couples.

A reporter at the courthouse said most young couples, and their mothers, expressed a fear of the would-be groom "going to Viet Nam."

## Crowds Enthusiastic At 1965 Jerome Fair

JEROME—Bright, late summer weather brought enthusiastic crowds to the fairgrounds here Friday as the 1965 Jerome County Fair began building to a successful climax. Official events got under way with an outstanding parade through town Thursday noon, and crowds were reported good both during the afternoon and at the races Thursday night. Friday morning again saw a crowd that promised to reach record proportions converging on the fairgrounds.

Judging has been completed on farm produce exhibits, hobbies, ceramics, flowers, women's department exhibits and 4-H sewing and cooking exhibits.

The Jerome Possettes horse show began at 8 a. m. Friday.

The fair features 4-H Club, FFA, Grange and women's organization exhibits. Parimutuel horse racing began Wednesday night and is being held each night of the fair, with 10 races scheduled each night.

The midway is featuring Siebrand Brothers Carnival.

Damage was indicated in the millions of dollars.

The biggest blow landed on an area between the suburbs south of Chicago and Joliet.

Deputy Sheriff Ron Dues said a tornado struck an Erie Railroad freight train, while it rolled at 45 m.p.h. near Crown Point, Ind. Fifteen cars left the tracks, injuring two crewmen. Railroad officials placed the loss at \$750,000.

Residents moved along the sidewalks, carrying suitcases and loose clothing.

Heavier voting is expected during the afternoon and evening until 8 p. m. when polls close. Polls are located at Jerome and Valley High Schools.

Jerome Junior Chamber of Commerce will furnish transportation for those wishing to vote.

Classes will start Sept. 1 at the new facility.

SEIZE VESSEL  
KUSHIRO, Japan (UPI)—A Russian patrol boat seized a Japanese fishing vessel in waters southeast of the Habomai Islands early Friday, according to the Japanese Maritime Safety Agency.

Balloon Satellite To Aid Geograph

NORTHFIELD, Minn. (AP)—A new balloon satellite called PAGEOS is being manufactured for the National Aeronautics and Space Administration with the aim of pinpointing geographic points on earth within 32-foot accuracy.

The 100-foot balloon will be launched next year into a polar orbit about 2,300 miles above the earth.

The balloon was made by the G. T. Schjeldahl Co., Northfield, which made the now-familiar Echo I and Echo II balloon satellites.

The name PAGEOS is derived from passive geodetic satellite.

## Few T.F. Men Marrying to Avoid Draft

The threat of being drafted, with a possibility of combat in Viet Nam, has not goaded any significant number of young men into matrimony, according to Twin Falls County marriage license records.

In July last year, 67 licenses were issued and 69 were issued in August. In July this year there were 62 licenses and so far 63 have been issued this month.

"I haven't noticed any difference," commented Twin Falls County Clerk Harold Lancaster.

"We have some young men who request a certified copy of their license for their draft board, but I don't think the number or percentage of such requests has increased since the new draft call went out."

Officials of Singapore Protected

SINGAPORE (AP)—Singapore's police gave Prime Minister Lee Kuan Yew and his cabinet close protection today following announcement of a Communist-Indonesian plot to assassinate Lee and his ministers.

Lee's residence in a popular section of the city was guarded by 20 policemen. Patrol cars checked all vehicles approaching the house.

The owner of a vacant lot behind Lee's house has been refused permission to build an apartment house on the land because of the danger of assassination.

The government announced Thursday the arrest of 21 members of the People's Revolutionary government in Singapore.

The announcement said the leader of the group, Sim Siew Lin, had in his possession correspondence in code with the Indonesian intelligence organization. It said he was instructed to establish a secret route into Singapore for an important person and for propaganda material to stir up the Chinese and Malays in the city.

Sim was identified as the man who tried to blow up the U.S. Consulate July 31 by placing a time bomb on a bicycle in front of the building. It was discovered and defused.

Balloon Satellite To Aid Geograph

NORTHFIELD, Minn. (AP)—A new balloon satellite called PAGEOS is being manufactured for the National Aeronautics and Space Administration with the aim of pinpointing geographic points on earth within 32-foot accuracy.

The 100-foot balloon will be launched next year into a polar orbit about 2,300 miles above the earth.

The balloon was made by the G. T. Schjeldahl Co., Northfield, which made the now-familiar Echo I and Echo II balloon satellites.

The name PAGEOS is derived from passive geodetic satellite.

## Gemini 5 Still Is Bound for Planned Eight-Day Orbit

SPACE CENTER, Houston, Tex. (AP)—The Gemini 5 spacecraft was cleared for the seventh day in space today and hurtled on toward its eight-day goal, turning awkward cartwheels along the way. Earlier troubles that threatened to cut the mission short by one day were under control. The seventh-day go-ahead came at 8:02 a. m. (EST). Pilot Charles (Pete) Conrad Jr. asked what the mission clock read and was told "50 hours to go." Command Pilot L. Gordon Cooper Jr. said he slept 8 hours out of 24 but was "still sleepy." Temperatures fell to below freezing in the spacecraft cabin with the electrical usage curtailed—but Cooper and Conrad remained comfortable in their spacesuits.

The tumbling—caused by the jet-like push of venting hydrogen gas—was expected to diminish as the flight continued, perhaps ending by nightfall.

The go-ahead, beamed up to Gemini 5 by capsule communicator James A. McDivitt, was for 108 orbits.

The two astronauts triggered their jet thrusters periodically to straighten out the slowly accelerating tumble of the craft.

With pilot Charles Conrad Jr., asleep, command pilot L. Gordon Cooper Jr. told controllers the tumble rate was a little bit high—but "not too bad."

"We didn't really feel much specifically except that items that have been flying around were getting slung to the side of the cockpit," Cooper said.

The astronauts showed no sign of motion sickness.

By powering down the spacecraft—cutting its electrical usage—flight officials said they were controlling easily the fuel cell problems.

Two crippled jet thrusters that help maneuver the spacecraft were still not working but others were. Flight officials emphasized that the maneuvering jets were not necessary for the completion of the flight.

After a gloomy assessment of the problems Tuesday, flight director Christopher C. Kraft said there was a possibility the mission might be cut short by a day.

Ford Says Johnson Asks For Terrorism

WASHINGTON (AP)—House Republican leader Gerald R. Ford has accused President Johnson of uttering "what amounts to an invitation to trigger terrorism in the streets."

Ford aimed that accusation late Thursday at Johnson's warning that "the clock is ticking, time is moving" in the District of Columbia and other big cities toward possible trouble because of social and economic ills besetting Negroes.

Ford argued Johnson's comments were an attempt to force House action on legislation that would grant home rule to the District of Columbia. The bill has passed the Senate.

Jury Rules Oakley Death As Criminal

BURLEY—Donald Pearson, 36, Oakley, charged with assault and battery after his step-father died Aug. 18 during a fight between the two, was called to the stand Thursday afternoon during a coroner's inquest here.

Pearson, however, refused to testify since he has not yet obtained legal counsel.

After deliberating for 20 minutes, the jury of three men and three women returned a verdict that Pearson's step-father, Cecil Hallam, 53, lakley, died as a "result of criminal intent."

The inquest was called by Cassia County Coroner Dr. Leslie Fillmore after the fight at Hallam's home in Oakley.

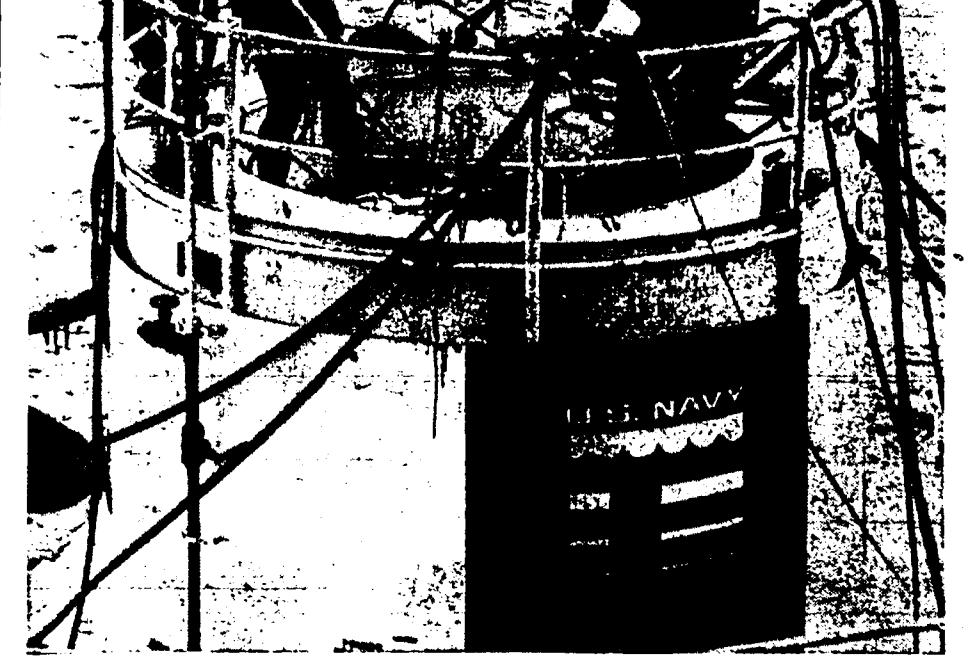

An autopsy was performed the day after the fight by Dr. See THEATER, Page 2, Col. 5 See INQUEST, Page 2, Col. 4

Auction

The annual Twin Falls Easter Seal Center's auction will be held at 6:30 p. m. Friday in the Lynwood parking lot.

All items for the auction have been donated, including a merry-go-round which was given to the center a few years ago by Sears Roebuck and Co.

Proceeds from the auction will be placed in the center's building fund. The auction is one means to earn money to pay the mortgage on the Easter Seal building.

ASTRONAUT SCOTT CARPENTER, sitting on rail, watches as Sealab 2 is readied for lowering to the ocean floor of La Jolla, Calif. The capsule was lowered to the bottom at a depth of 205 feet Thursday. Carpenter is one of a team taking part in the underwater living experiment. (AP wirephoto)

### South Korea Tries to End Student Riots

SEOUL, Korea (AP) — The South Korean government tried today to quell student rioting against the government and its friendship treaty with Japan. After six days of bloody clashes between students and army troops and riot-police, Seoul was quiet. But students rallying on the Korea University campus to "continue our fight to the last man."

The students said they would stage sit-down strikes at each school until Aug. 30 to protest the invasion of their campuses Thursday by troops.

The government dismissed President Shin Tai-hwan of Seoul National University, whose students spearheaded many of the demonstrations against the treaty normalizing relations with Japan. A government spokesman said Shin had failed to punish the president of the student body.

Seventeen deans resigned to protest Shin's ouster.

### Misses Boat

CALAIS, France (UPI) — The Dover-Calais ferry Free Enterprise II moved smoothly out of the harbor Thursday with the first officer navigating as usual. Then came the radio message — "come back."

The skipper, Capt. H. I. Perriam, had missed the boat.

### Lawyer Has Aversion To Divorce

DETROIT (AP) — The president-elect of the National Association of Women Lawyers specializes in domestic relations cases, but she has an aversion to divorce.

"I don't like divorce cases," says Mary Louise McLeod, a dark-haired 51-year-old attorney, "because nobody wins."

"I find the problems created by divorce, especially when children are involved, are greater than the problems which caused the divorce," Mrs. McLeod said in an interview.

A good lawyer, she said, can help clients solve their problems.

Mrs. McLeod, who assumes the presidency of the association in 1966, is one of some 7,100 women attorneys practicing in the United States.

"Criticism and prejudice against women in law are rare," she said. "If a woman is qualified and has the desire to be a good lawyer, she can have a very successful career."

During World War II, Mrs. McLeod was the only civilian legal assistant officer with the U.S. Army's 4th Service Command in Miami, Fla. She returned to law practice in Detroit in 1946. In addition to domestic relations, she handles estate cases and labor relations.

Her husband was Clarence J. McLeod, a Republican congressman from Michigan's 13th District. He died in 1959.

Mrs. McLeod is scholarship chairman of the International Federation of Women Lawyers and she is working to attract more girls into law.

### REMEMBER WHEN?

By BOB REESE

In a small town in the Canadian backwoods, a country doctor named Allan Roy DaFoe went on routine mission. A 25-year-old woman, already the mother of six children, was going to have a baby. Her name was Mrs. Olive Dionne.

That happened after the doctor arrived electrified the world. . . .

Mrs. Dionne gave birth to five little girls. . . .

She became the most famous babies in the world. The Dionne quintuplets. Their combined weight was less than 10 pounds all together at birth.

Dr. DaFoe saw to it that all of the quints survived. . . . Yvonne, Bernette, Cecile, Emilie and Marie.

The world took the quints to their hearts. Within a few years 5000 visitors a day would be counted coming to their home just to see them. The world has never forgotten the Dionne quintuplets, whose early years were eagerly followed in press and screened by millions. . . . but do you remember when they were born?

Remember the year? . . .

family man in those days, with few months to feed, couldn't afford to gamble when he bought a car, new or used. He looked for the best deal he could find and bought from a reliable dealer he could trust.

The year was 1934. . . .

Whether you're in the market for a new Dodge or Chrysler or good late model used car, we can offer you a better deal. Right now we have a terrific selection of good, reconditioned used cars backed by our reputation for dependability and honest dealing. Drive safely with a good used car from Bob Reese Motor Co., 212 2nd Ave. So., Twin Falls, Phone 733-5776.

APPEARING NIGHTLY at Twin Falls County Fair and Rodeo Sept. 8-11 will be 1965 Miss Rodeo Idaho, Harriet Sharp, 22, Nampa. She was graduated from Northwest Nazarene College in 1964 and is now teaching high school home economics at Kelso, Wash. She was chosen Miss Rodeo Idaho in June at Treasure Valley Roundup.

### Old Redwood Is Out of Fire Danger

PORTERVILLE, Calif. (AP) — Man's efforts failed, but nature took over and put out the smoldering fire that threatened Old Solo, a 3,000-year-old Sierra redwood. Nature's intervention also put two Indians out of a job.

They were hired by the U.S. Forest Service to pitch a tent at the foot of the 202-foot giant of Sequoia National Forest, stamp out any fallen embers and watch for changes in the fire.

Old Solo, which arrows toward the sky atop a 7,200-foot peak of the High Sierra, was hit by lightning about two weeks ago at its 120-foot level.

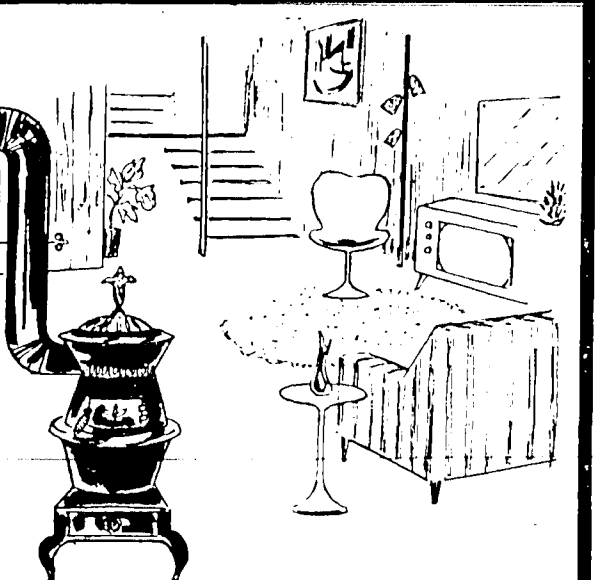

Rangers tried putting the blaze out with helicopter-dropped extinguishing fluid. No luck. They tried sending hose leaders into the branches with a bow and arrow. A failure. Heavy smoldering set in.

So Indians Albert Peyron and

## 1965 Miss Rodeo Plans Appearance Here

FILER — Harriet Sharp, 1965 Miss Rodeo Idaho, will appear nightly during Twin Falls County Fair and Rodeo Sept. 8-11 at Filer. Miss Sharp, 22, daughter of Mr. and Mrs. Guy E. Sharp, Nampa, is teaching high school economics at Kelso, Wash.

Miss Sharp was chosen as Miss Rodeo Idaho in June at Treasure Valley Roundup at Boise. As queen of the Valley Riders, she has won honors as finalist of the 1964 Snake River Stampede, Miss 1964 Rodeo

and was sponsored by Homedale Fair and Rodeo for the Miss Rodeo Idaho contest.

Horseback riding ranks first on Miss Sharp's list of hobbies. Other hobbies are swimming, skiing, sewing, reading and bowling. At present she is learning to ride a skateboard.

She got her first horse when she was 11 years old. She now owns four registered Appaloosa horses.

Also appearing at the fair and rodeo will be Mrs. Jerry James, Filer, former Karen Lavens, Jerome, 1962 Miss Rodeo America, and Mrs. Bonnie Wolverton, Twin Falls, former Bonnie Bruning, 1964 Miss Rodeo Idaho.

Mrs. James will be a special escort to 1965 Miss Rodeo America, Pat Koren, Rapid City, S.D.

Appearing only the first two nights of the rodeo will be 1965 Miss Indian America XI, Michelle Portwood, Riverton, Wyo.

Other features during the rodeo will be cowboys riding buckaloes and riders on "Khru-shev," a bucking mule.

**Sidetracked**

## Forest Tour Is Taken by Advisory Unit

A field tour was started Friday by the Sawtooth National Forest Advisory Committee through portions of the forest to consider broad questions of administration. The tour will end Saturday.

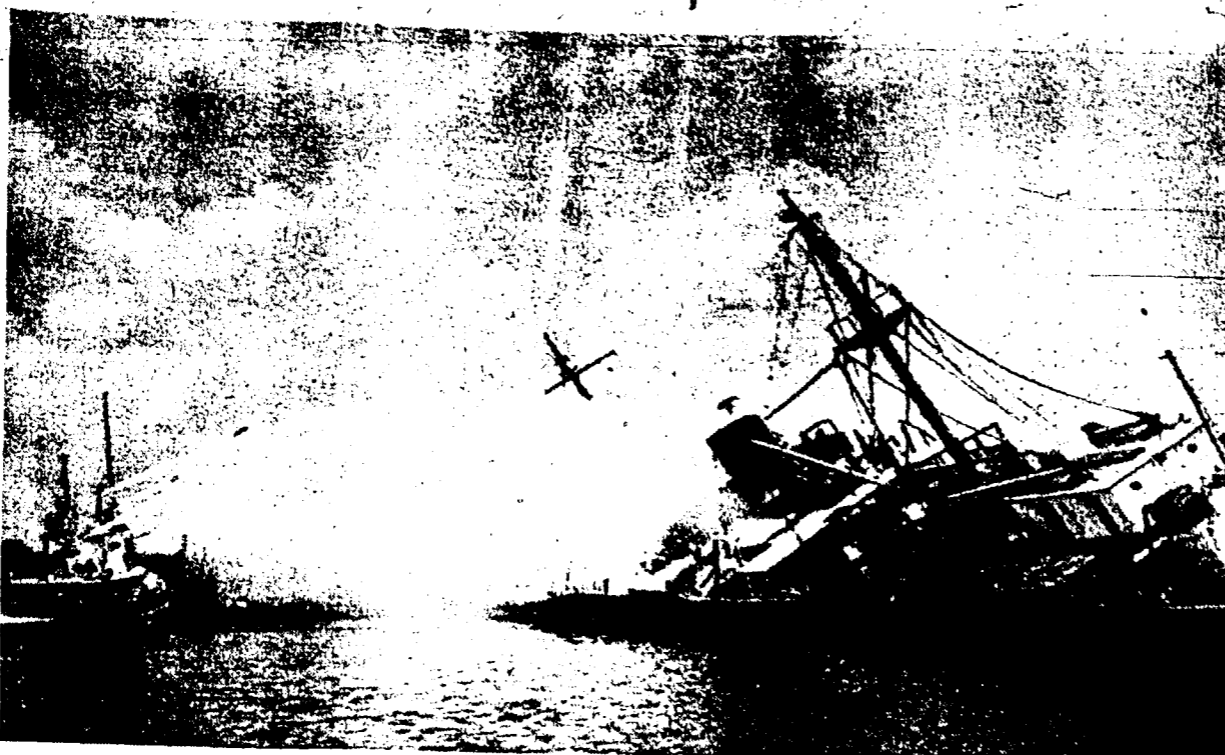

The committee is comprised of seven members: O. A. (Gus) Kelker, Dr. George Scholer and R. S. Tofflemire, all Twin Falls; Manning Patterson, Gooding; Vern Ravenscroft, Tuttle; Austin Wallace, Burley, and Vard Chaburn, Albion.

According to Max Rees, Sawtooth National Forest supervisor, the group will begin the tour at the Wendell saw mill, Fairfield, where they will survey activities of the mill.

They will then proceed to the Shake Creek Ranger Station, where they will have a look at timber sale activities, tree planting and timber stand improvement.

The committee then will travel along the south fork of the Boise river to Ketchum, observing and discussing range, wildlife, timber recreation, watershed and road construction.

Rees and Forest Service staff officers will accompany the group, which will return to Twin Falls about 5 p.m. Saturday.

**LIBERIAN REFRIGERATOR SHIP** Arctic Reefer lists beneath a flood of water poured into its holds at Mobile Thursday. Fire officials feared the 325-foot craft would capsize at its pier. ## Operation Headstart Will Continue Through Winter

WASHINGTON (AP)—Head Start, the summer program to prepare deprived youngsters for school, will be continued through the winter under present plans.

Directors of the program across the country have been notified they can start planning for winter projects, officials at Head Start headquarters confirmed today.

Funds for the project depend on congressional approval, and this is expected before Congress adjourns.

In the meantime, directors have been told they will submit their planning forms to headquarters and they will be sent applications in the next three weeks, project officials said.

The summer program, launched by Mrs. Lyndon B. Johnson last June 30, enrolled in more than 13,000 centers across the country as part of the administration's antipoverty war.

Most of the programs ended last week, some are ending this week.

The winter program is expected to enroll fewer than the summer one, with fewer communities able to provide staff and room during a school year. But its objective will be the same—to help the child socially, medically and nutritionally.

From across the country has come praise for the help Head Start has given—to the child with a limited vocabulary, to the boy who distrusted adults, to the girl who hadn't been taught to share.

## Idaho's School Superintendent Turnover Lower

BOISE (Special)—Turnover of school superintendents in Idaho for 1965-66 school year is less than it has been for many years, reports the Idaho Education Association.

Only 11 of the 106 districts in the state have new superintendents, states Wayne York, executive secretary of IEA. This is slightly more than a 10 per cent change in administrators.

Such a percentage compares with an average replacement of more than 19 per cent during the preceding five years, when as many as 25 superintendents changed in a single year.

Most of the turnover occurred in small school districts, York said, the largest being at Rigby, where 3,400 students are enrolled.

York indicated that the small

turnover of school superintendents may indicate fewer financial problems and improved morale among school leaders in Idaho.

## Utah Prison Inmates to Pay Room, Board for 6 Months

SALT LAKE CITY (AP)—Some Utah State Prison inmates will pay for their own room and board in about six months, but they'll be getting paid themselves.

The Utah Board of Corrections adopted Thursday a plan to let selected convicts work outside prison walls in an adjustment program.

The plan is called the Work Release Program. An Ogden man, George B. Handy, suggested adoption to the board.

Handy said the program has worked in North Carolina. He has studied the plan for a year as part of a board assignment.

The plan would allow certain convicts to get jobs outside prison walls, go to work in the daytime, and come back at night to the prison.

They would be paid by their employers, but the prison would keep the pay and deduct room and board expenses.

Convicts in the program who have families would have some of their pay sent home. Upon release, the prison would give convicts what pay they had earned after deducting expenses.

W. Keith Wilson, chief agent of the prison's parole department, endorsed the project. He said eligible convicts would be up for parole and carefully screened and their jobs would be where they would work after release.

The prison would provide transportation for the men, Wilson said. The board said the program probably won't start for another six months because of necessary preparatory work.

## Meat, Potato Prices Hike Living Cost

WASHINGTON (AP)—Living costs edged up a tenth of one per cent in July, largely because of sharp price hikes for meat and potatoes, the Labor Department said today.

The increase brought the government's consumer price index to a new high of 110.2. This means it cost \$11.02 in July to purchase typical consumer items that cost \$10 in the 1957-59 base period.

Federal excise tax cuts and lower clothing prices partially offset increased food and housing costs.

Without the tax cut the index would have gone up another two-tenths of one per cent, said asst. commissioner Arnold Chase of the Bureau of Labor Statistics.

Beef prices rose 1.2 per cent in July and pork 7.5 per cent. Potato prices were up 10 per cent in July and 35 per cent from a year ago.

Except for potatoes, Chase said, over-all fruit and vegetable prices actually dropped 2.5 per cent the past year.

Chase said shortages were largely responsible for the rise in meat prices and bad weather for hikes in vegetable prices.

Over-all, meat prices were up 3.3 per cent in July.

The cost of medical care continued to rise, up four-tenths of one per cent in July.

Tobacco products were up one percent, largely because of increased taxes.

## Wranglerettes Sponsor Show Poster Contest

FILER—Filer Wranglerettes are sponsoring a poster contest to advertise a horse show which they put on each year in conjunction with the Twin Falls County Fair.

This year's show will begin at noon and last until 4 p.m. Sept. 11.

Mrs. Rex Reed is general chairman. The contest is open to any child 14 years of age or under. Cash prizes will be given for first, second and third place winners in the contests. The deadline for entries is Aug. 30.

Wayne Kiouss, art instructor at the Filer High School, will judge.

Show events include several classes of children's horsemanship, clover leaf barrel race, ladies' pleasure, reining, seven barrels, trail class with obstacles, musical chairs, men's pleasure class and costume class.

## Famous Scalp Specialist Tells Truth About Saving And Improving Hair

These private individual consultations will be held Saturday, August 28 at the Rogerson Hotel, 157 Main Ave. E., Twin Falls, from 1 P.M. to 8 P.M. only. Ask Hotel clerk for Mr. K. C. Conner. He will do the rest. Phone 733-4450.

PHOENIX, Feb. 6—In an interview here today K. C. Conner, internationally famous trichologist and director of the Conner Hair and Scalp Specialists, Inc., said, "There are 18 different scalp disorders that cause most men and women to lose hair. Using common sense, a person must realize no one tonic or so-called cure-all could correct all the disorders," he explained.

**Guaranteed**  
"The Conner firm, recognizing that most people are skeptical of claims that hair can be grown on balding heads, offers a guarantee," Conner said. "Once a person avails himself of the Conner treatment his skepticism immediately disappears. To insure this, we offer this guarantee. We don't ask you to take our word. You will be given a written guarantee from the beginning to end on a pro-rated basis."

**Hopeless Cases Discouraged**  
First the Conner specialists are quick to tell hopeless cases that they cannot be helped. But the "hopeless" cases are few. Everyone is given a complete private consultation to determine the condition of his or her scalp, and cause for their hair trouble.

**Free Consultations**  
This consultation is very thorough and highly technical. It requires 20 to 30 minutes. There is no charge for this consultation and no appointment is necessary. After the consultation he or she is told the required length of treatment and how much it will cost.

**How's Your Hair**  
If it worries you, just go to the Rogerson Hotel, 157 Main Ave. E., Twin Falls and ask for Mr. K. C. Conner, or phone for an appointment, 733-4450, Saturday, Aug. 28, from 1 to 8 P.M. only. He will do the rest. Interviews are given in private. You will not be embarrassed in any way.

After starting treatment, he

**FAMILY IS HOMELESS**  
**POCATELLO (AP)**—Flames leveled a one-story frame house in South Pocatello Wednesday night, leaving a couple and their seven children homeless.

Destroyed was the home of Mr. and Mrs. Charles Kessler, 1355 Allen Road. No one was home when the fire started sometime before 10 p.m.

**CHALLENGE STATUTE**  
**NAMPA (AP)**—Small contractors opposing provisions of the 1965 private contractors licensing law say they will challenge the statute in court despite changes made in bonding requirements.

The small contractors contend the law, which requires them to post a \$1,000 bond, would put many out of business and labeled as unacceptable new regulations announced Wednesday by the private contractors board.

Under the new regulations the contractors may give the state an assignment of a savings account, U.S. treasury bond, building and loan certificate, insurance policy or credit union account in lieu of a bond.

**WILLIAMS DISCHARGED**  
**BOISE (UPI)**—St. Luke's Hospital has discharged Idaho Secretary of State Arnold Williams.

The one-time Idaho governor entered the hospital last weekend for a checkup of his progress in recovering from a heart ailment he suffered in June. He left the hospital Thursday noon.

Williams returned to work at his statehouse office several weeks ago.

**LICENSE CHANGED**  
**BOISE (AP)**—New Idaho driver's licenses will carry the holder's social security number, the Department of Law Enforcement said today.

Instead of using an independent system of numbering, as at present, the department said that beginning Sept. 1, the driver's license number will be the same as his social security number.

For persons who lack social security numbers, other numbers will be assigned.

The change in numbering will be effective at the same time as the requirement that licenses contain color photographs of the holders. That change was ordered by the 1965 legislature.

**GIRL IS MOLESTED**  
**OROFINO (AP)**—Sheriff's officers report an investigation supports the story of a 14-year-old girl who told of being molested in a tent in the wilderness area by a man who later apparently took his own life.

Sheriff Leroy Altmiller said officers found the tent and Glen Wedding inside on a bed shot through the head. A 30-30 caliber rifle was found nearby.

The girl, who tumbled into a logging camp Wednesday, told officers that the 38-year-old Wedding came to her home in Kamiah Tuesday and asked her to babysit with his children. She said that when she got in the car with him, he drove her to a wood-frame tent 80 miles east of Kamiah.

She told officers that after she left the tent, Wedding returned and locked himself inside. She said she spent the night in the car and in the morning walked five miles to the logging camp.

**SUPERVISION ORDERED**  
**BOISE (AP)**—The operator of a Boise commercial spraying company has been ordered to assume direct personal supervision of work undertaken by his firm.

The department of Agriculture issued the order placing Roger Corn, operator of the Roger Corn Speed and Pest Control Co. on probation following a public hearing.

Agriculture Commissioner Stanley Trenhallo said testimony presented at the hearing indicated employees of the firm had made guarantees. Corn would not stand behind. He said it also was determined there had been inadequate control over spraying projects.

**Rights Workers, Klan Have Clash**  
**PLYMOUTH, N.C. (AP)**—Civil rights demonstrators and the Ku Klux Klan clashed Thursday night, while two blocks away a biracial committee met to discuss formation of a Good Neighbor Council.

There were no serious injuries, but a spokesman for the Southern Christian Leadership Conference (SCLC) said 27 demonstrators suffered cuts and bruises.

APPEARING NIGHTLY

**SAPPHIRE LOUNGE**

**CHILD DROWNS**  
**IDAHO FALLS (AP)**—An 18-month-old former Salt Lake City youngster drowned in an irrigation ditch near his home at Colman, about 3 p.m. Thursday, the Bonneville County Sheriff's Office in Idaho Falls reported late Thursday.

Gregory Good, son of Mr. and Mrs. Harold E. Good, was missed from a birthday party Mrs. Good was giving for one of her daughters early Thursday afternoon. The father was at work at Idaho Falls.

Bonneville County Chief Deputy Norman Mickelsen and Deputy Jim Thome answered her call for help and the child was found in the stream three-fourths of a mile down stream from their home.

**LOW BIDDERS**  
**BOISE (AP)**—The Intermountain Roofing and Siding Co. of Boise, with an offer of \$8,588, is the apparent low bidder on a project involving re-roofing of the State Tuberculosis Hospital at Gooding.

Bids also were opened on projects involving re-tiling of the kitchen and installation of pumps at the institution.

A low bid of \$3,900 was submitted by the McDaniels Tile Co. of Idaho Falls on the tiling project and the Vern Thomas Plumbing Co. of Twin Falls, with an offer of \$2,900, was low on the pump project.

**PETITION IS DENIED**  
**LEWISTON (AP)**—A 32-year-old Spokane man has been returned to the Nez Perce County Jail following denial of his petition for a writ of habeas corpus.

Joseph M. Blitz, who served two years in the Idaho State Penitentiary on a burglary charge, was released after the state supreme court reversed his conviction and ordered a new trial now scheduled for Oct. 12.

He has since been held in the Nez Perce County Jail in lieu of \$10,000 appeal bond.

Blitz' petition for a writ of habeas corpus was turned down Tuesday by 10th District Court Judge Paul W. Hyatt.

## \$650 Million Bill to Aid Students, Colleges

**WASHINGTON (AP)**—The House has passed a \$650-million bill carrying funds to help needy students go to college, and to aid institutions in meeting mushrooming enrollments.

For the first time, the House approved in the bill a program of federal scholarships or outright grants for students. In the past it has not been willing to go beyond loans.

The bill was sent to the Senate by a 387-22 roll-call vote. The Senate Education subcommittee plans to approve a somewhat different version of it. The subcommittee has been working on it for weeks.

As it cleared the House, the bill carries out all the recommendations President Johnson submitted in his education message in January but goes far beyond the \$250-million higher education program he proposed.

Johnson, hailing "a great right for higher education," said more than a million students can benefit under the measure's provisions for low interest rate loans, more than a quarter million can get part-time jobs and more than 100,000 of exceptional promise and financial need can get grants.

The biggest addition made in the House is a \$290-million authorization for new funds to finance construction of college and university buildings. This would double the authorizations of the 1963 law setting up this program.

The Senate subcommittee already has voted to add to it a national teachers corps plan endorsed by the President and a program of grants to colleges to help in buying equipment for laboratories and for teaching aids.

Members of the teacher corps would serve in slums and areas of rural poverty.

Authorizations in the House measure include:

- \$197 Million for three types of student aid — scholarships or "opportunity grants" for needy students, guaranteed loans and interest subsidies for middle-income students, and an expanded work-study program to provide jobs for students.
- \$70 million to upgrade college libraries and train librarians.
- \$50 million to encourage colleges to establish community service programs designed to help with problems of urban and suburban areas.
- \$30 million to strengthen small and newly developing colleges.

### Traffic Is Restricted

**HEYBURN**—Lund Christensen, principal at Heyburn School is asking area residents and vehicle drivers not to drive along 17th Street between the junior high school building and the intermediate and primary buildings.

The street is continually used by students and teachers, who must cross the street to enter the library and lunch rooms.

Christensen pointed out, for persons visiting the school during school hours, that parking space is available west of the schools on the Simplot road, east of the intermediate building on 17th Street near the Judd residence, and east of the junior high school building.

Due to the heavy traffic along that street, it has not been officially closed by the village. But school officials are asking the cooperation of the public to keep traffic from the school zone.

states to consider other than population factors in apportioning one branch of the legislature.

### First Baptist Church Sets Organ Recital

Larry J. Bennett, son of Mr. and Mrs. Russell Bennett, Twin Falls, will present an organ recital at the First Baptist Church at 8 p.m. Sunday.

Bennett will play classical organ numbers and some of his own compositions. Favorite hymns chosen by members of the First Baptist Church will be included in the program.

A graduate of Twin Falls High School, Bennett attended Boise Junior College, where he studied organ under Dr. C. Criswell Bratt. His organ teacher in Twin Falls was Mrs. Charles Allen.

After being graduated from B.J.C. Bennett attended Wheaton College, Wheaton, Ill. Last spring he received a bachelor of arts degree from Wheaton with a major in music.

Bennett will enroll this fall in the California Baptist Seminary at Covina, Calif., to study for a bachelor of divinity degree with a major in Christian education.

The recital is open to the public.

### Special Income Tax Course

A working knowledge of tax law and a periodic review to keep abreast with current legislation can save many tax dollars for you. Whether you are a beginner or have had experience, whether you make out your own return or hire it done, you will learn many things of value to you that can actually be measured in dollars and cents.

**REV. JOSEPH R. WOOD**  
... who has served as pastor of the Tyler Street Baptist Church since 1961, will move to Denver next week to become pastor of the Calvary Baptist Church of Thornton, Colo.

Rev. Wood served as pastor of the Thornton church from 1954 to 1956 while a student at the Conservative Baptist Theological Seminary, Denver. Rev. Paul Whitfield, Akron, Colo., will be speaking at the Tyler Street Church Sept. 5, as the church considers the possibility of calling him to be new pastor.

### Restrictions to Continue on Sugar Beets

WASHINGTON (AP) — Steps are being taken by the Agriculture Department to continue restrictions on production of sugar beets next year.

The agency will hold a public hearing at Denver, Colo., Sept. 8 to hear views on a control program.

This year's sugar beet allotment was 1,375,000 acres. The department said that because supplies of beet sugar at the beginning of 1966 are expected to be larger than at the beginning of this year, it will be necessary to restrict production again next year.

### Reapportioning Version Gains New Strength

WASHINGTON (AP) — Sen. Everett M. Dirksen's latest version of a constitutional amendment on legislative reapportionment has picked up a bit of strength.

Sen. Thomas J. Dodd, D-Conn., voted for this Thursday in a judiciary subcommittee, helping send it to the full committee by a 7-2 tally.

The amendment would allow

### Korean War Turncoat Gets To Go Home

HONG KONG (UPI)—Another American soldier turncoat of the Korean War has received permission to leave Communist China, reliable sources disclosed today.

He was identified as Morris R. Wills of Fort Ann, N.Y. The sources said Wills is expected to arrive in Hong Kong within a month. He is married to a Chinese woman and they have one child, a daughter.

Reports of Wills' plans to return home after more than 10 years behind the Bamboo Curtain came as another turncoat, William C. White, was preparing to leave this British Crown colony for the United States.

White was expected to leave the middle of next week and head for Kansas City, Mo., where he has relatives.

Wills' departure will leave only three of the original 21 turncoats, American soldiers captured during the Korean War who chose to remain with the Communists.

### Ada County Democrats Hit Gambling

BOISE (AP) — Ada County Democrats have approved a resolution opposing legalized gambling. Chairman Emmett F. Bennett reported today.

He said the resolution was adopted at a meeting of the county central committee.

In the past two elections for governor, Democratic candidates have endorsed gambling. Both were defeated.

Greater Idaho, Inc., a pro-gambling organization, announced recently it would have a candidate for governor in 1966, but said the nominee would run as an independent.

Bennett said the resolution did not name the Greater Idaho group, but expressed "extreme gratitude to the proponents of this irresponsible program for their recent statements to the effect that their questionable activities will be carried on as an independent effort."

"It is the committee's fervent hope," the resolution said, "that the great name of the Democratic party of the state of Idaho will once again be identified with progressivism, liberalism and morality."

**IMAGE IMPROVED**  
PRETORIA, South Africa (UPI)—The State African information office said Thursday it believed there was greater understanding of the government's apartheid racial policy throughout most of the free world. South Africa's image abroad was improving, he said.

**LEGAL ADVERTISEMENTS**  
NOTICE TO PARENTS OR GUARDIANS  
Section 33-202 School attendance compulsory: The parent or guardian of any child resident in this state who has attained the age of seven (7) years at the time of the commencement of school in his district, but not the age of sixteen (16) years, shall cause the child to be instructed in subjects commonly and usually taught in the public schools of the state of Idaho. Unless the child is otherwise comparably instructed, as may be determined by the board of trustees of the school district in which the child resides, the parent or guardian shall cause the child to attend a public, private or parochial school during a period in each year equal to that in which the public schools are in session there to conform to the attendance policies and regulations established by the board of trustees, or other governing body, operating the school attended.  
Published Aug. 27 and 29.

**REV. RAYMOND N. FEDJE**  
Senior pastor of Carter Memorial Methodist Church, Needham Heights, Mass., will be guest speaker Sunday at the Buhl First Methodist Church.

### Buhl Church To Hear Dr. R. Fedje

Buhl—Dr. Raymond Norman Fedje, senior pastor of Carter Memorial Methodist Church of Needham Heights, Mass., will be guest speaker at the Buhl First Methodist Church. His subject topic will be, "On That Day."

Dr. Fedje is a graduate of Willamette University, Salem, Ore., and Boston University School of Theology. He received his Ph.D. degree from Boston University Graduate School in 1964.

He is serving as president of the Board of Education and Director of Conference Center of the New England Methodist Conference, as well as director of the New England Christian Ashram and editor of "Transformation," national church magazine. Active in civic affairs, Dr. Fedje is vice president of Needham Rotary Club and a frequent speaker before college youth.

Mrs. Fedje, formerly Betty Thompson, daughter of Mr. and Mrs. Gan L. Thompson, Buhl, will be guest soloist for the service.

Mrs. Fedje was graduated from the Buhl High School and attended the University of Idaho and Willamette University. She was graduated from Boston University Conservatory of Music and at the present time is completing work for a master's degree.

Mrs. Fedje gave a vocal recital at the Boston University in June. She is studying with Dr. Mae Morgan, Boston.

Mrs. Fedje is active in the field of music, directing five choirs and two English hand bell choirs with a combined membership of 250. She has been a soloist in the New England area for civic as well as church affairs, and serves as soloist with several oratorio organizations. Mr. and Mrs. Fedje have one daughter, Bettyrae, 8 years old.

**Accident Caused By Cow in Road**  
RICHFIELD — Janet Armstrong, the driver of a 1957 Pontiac was unhurt when her car struck a cow, three-fourths of a mile west of Richfield.

Miss Armstrong said she was unable to avoid collision with the cow, which was standing in the middle of the road. The cow was injured, but not killed, the car is owned by LeRoy Parker and the cow is owned by his brother, Joe Parker, all Richfield.

The accident was investigated by Deputy Sheriff Martin Whitesell.

**BRINGS PROPOSAL**  
MOSCOW (AP) — President Gamal Abdel Nasser of the United Arab Republic arrived in Moscow today for a five-day visit, and authoritative sources in Cairo said he brought a new Vietnamese peace proposal.

### At The Churches

**CHRISTIAN SCIENCE**

### Hagerman High School Classes Have Reunion

HAGERMAN—Members of the 1944 and 1945 Hagerman High School classes met for a reunion in Hagerman.

Jack Martin, a teacher, showed films of the classes. The American Legion Auxiliary served a banquet at the American Legion Hall. This was followed by a social hour and dance.

A picnic for the group and their children was held the following day in the Village Park. Earl Froscher, Fresno, Calif., traveled the farthest. Taking honors for being the youngest grandfather and having the least hair was Robert Owsley, Orofino. Mrs. Robert Tupper, Hagerman, has been married the longest.

Mr. and Mrs. Harold Brown, Twin Falls, and Mr. and Mrs. Jack Martin, Hagerman, were special guests.

### Jean Johnson, Henderson Wed In Temple Rites

RUPERT—Mr. and Mrs. Robert Ralph Henderson are residing in Spanish Fork, Utah, following their July 22 wedding at the Idaho Falls LDS Temple.

The bride is the former Jean Ann Johnson, daughter of Mr. and Mrs. J. Ray Johnson, Rupert. The bridegroom's parents are Mr. and Mrs. Ralph I. Henderson, Spanish Fork.

Accompanying the couple to the temple were their parents and Mr. and Mrs. Murrell Johnson; Mr. and Mrs. Lloyd Miller, Spanish Fork; Mr. and Mrs. R. C. Lindsay, Mr. and Mrs. Carl Garner, James Christensen and Mr. and Mrs. LaMar Nef.

The wedding ceremony was performed by President William Killpack.

The couple was honored at a reception at the LDS Tabernacle July 23. A white archway centered with large bells tied with pink ribbon and tall baskets of pink and white gladioli formed the background for the receiving line.

The bride wore her floor-length wedding gown of white slipper satin, fashioned with a lace covered jacket featuring lily point sleeves buttoned at the wrists. She carried a cascading arrangement of pink rosebuds and white carnations.

LaRue Johnson, sister of the bride, was maid of honor. Bridesmaids were Marguerite Peay, Emily Whittaker and Shirley Yates, all Lemhi, Utah, and Judy Coffman.

Ted Henderson, Spanish Fork, was best man. Mrs. Murrell Johnson attended the guest book and Doris Williamson, Ginger Wood and Emily Whittaker displayed the gifts. Giftbearers were Susan Nef, Ronda King and Marla King.

Serving refreshments at quarter tables covered with pink and

### Local WSCS Has August General Meet

The August general meeting of the Woman's Society of Christian Service was held in the Fellowship Hall of the Twin Falls First Methodist Church.

The program was preceded by 10 minutes of silent prayer and meditation. Refreshments were served by members of Circle No. 3. Mrs. Eldon Evans, was soloist, accompanied by Mrs. Harold Nye.

Circle No. 2 was in charge of the program which included a report by those attending the School of Mission in Caldwell. The program was opened by Mrs. Ray Montgomery with a prayer. Carol Barker, of the MYF; Mrs. Raymond Montgomery, spiritual life secretary; Mrs. William Boyd, secretary of missionary education and service, and Mrs. Glenn Forde, secretary of missionary personnel, were the four representatives for the local WSCS.

Announcements and correspondence were read. A group study is planned on missions for October, and one on "Acts, Then and Now," for March.

A missionary ribbon was presented to Mrs. C. R. Fox for her work on the yearbooks and with the music department.

Circles No. 1, 4, 7, 8 and 12 had no monthly meeting in August.

Circle No. 2 met at the home of Mrs. Will Roelker. The program and devotional services were given by Mrs. Nell Watts and Mrs. Ernest Pritchard. Circles No. 3 hostesses were

white and centered with miniature bridal couples were Jennifer Shortt, Jeanne Bryers, Judy Hyde, Gena Shortt, Camille Nichols and Lynda McBride. They were assisted by Mrs. Raymond Coffman, Mrs. George Smith, Mrs. Wayne Belnap, Mrs. R. V. Dutton and Mrs. Vern Wood.

The three-tiered wedding cake, placed on a mirror encircled with gathered net, centered the bride's table. Cascading pink roses and a miniature bride and bridegroom with a floral background decorated the cake.

Murrell Johnson was master of ceremonies for the program. Prayers were given by Ted Henderson and Alton Johnson, brothers of the couple.

Pre-nuptial parties honoring the bride were hosted by Mrs. Ralph Henderson and Mrs. Lloyd Miller at Spanish Fork; a personal shower by Judy Coffman, Jeanne Bryers, Jennifer Shortt and Lynda McBride, and a miscellaneous shower hosted by her roommates, Marguerite Peay, Ginger Wood and Emily Whittaker.

### Club Convenes

FILER—Mrs. Glenn Hostetler was hostess for members of the Lucky Twelve Club.

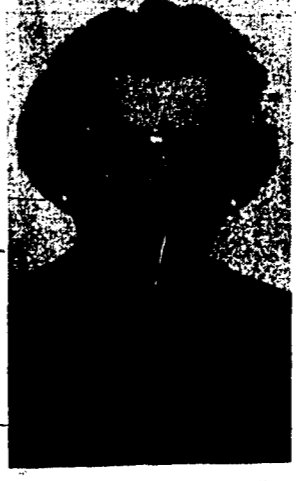

Mrs. Nell Blakely was high score winner and Mrs. W. W. Reed low score winner at pinocle.

Time and place of the next meeting will be announced.

**EARRINGS TRAYED**  
NEW YORK (UPI)—Inexpensive plastic egg trays make good earring trays and for the woman who has scores of earrings, the trays can be stacked, each tray adding only three-fourths inches in height.

MR. AND MRS. ROBERT H. JOHNSON

Mrs. Stella Crow and Mrs. L. C. Penny. Mrs. Byron Williams presented the program.

Circle No. 5 held a coffee hour in the Fireplace Room. All circle members participated in the program.

Circle No. 6 met at the home of Mrs. L. C. Scott. The program and devotional service were given by Mrs. Harry Musgrave. Mrs. Maude Margrave, Gordon, Neb., was a guest.

Circle No. 9 met at the home of Mrs. E. J. Willis. The program and devotional service were presented by Mrs. Ollie Jones.

Circle No. 10 held a potluck picnic in the Fellowship Hall. Circle No. 11 hostess was Mrs. Mildred Newman. Mrs. C. Loucks was in charge of the devotional services.

### Magic Valley Favorites

MRS. EDITH BRUDEN  
Route 3, Rupert

**Batter-Way Rolls**  
1 1/2 cups warm water  
2 packages yeast  
4 cups sifted all-purpose flour  
1/2 cup sugar  
1 1/2 teaspoons salt  
1/2 cup soft shortening  
1 egg  
Pour the warm water into a large mixing bowl and add the yeast. Let stand a few minutes, then stir to dissolve. Add half the flour, sugar, salt, soft shortening and egg. Start the mixer on medium speed, or beat by hand, and beat until smooth, about one and a half to two minutes.

Scrape batter from sides of bowl. Cover bowl with waxed paper and let rise in warm place until double in bulk, about 30 minutes. Grease one and a half dozen large muffin cups. Stir down batter in 20 to 25 strokes and spoon into muffin cups. Let rise for 20 to 30 minutes. Bake 10 to 15 minutes or until well brown on sides and tops in a hot oven, 425 degrees. Remove from pans and cool on racks.

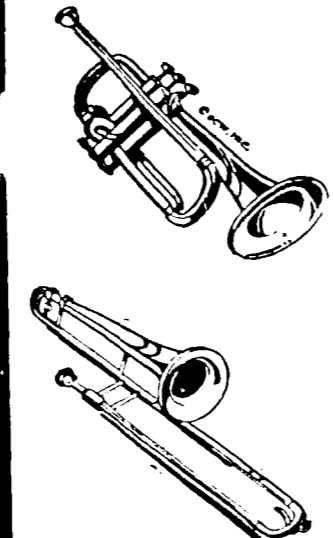

(The Times-News will pay \$5 each week for the best recipe submitted for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women's Page editor. The recipe becomes the property of the Times-News and cannot be returned.)

Stop mixer and add the rest of the flour and stir in by hand until all flour disappears. It will take about one to one and a half

### Area Guests Attend Annual Wendell Lunch

WENDELL—More than 100 girls, mothers and grandmothers attended the annual Mother-Daughter Luncheon at the Wendell LDS Cultural Hall.

Mrs. J. D. Zollinger, the eldest mother present, was presented an arrangement of pink roses.

Mrs. G. M. Gehrke was mistress of ceremonies. Mrs. Everett Cox, who arranged the program, introduced it with an appropriate poem, "See Here Young Lady." Linda Johnston gave a tribute to mothers. Mrs. Spencer Peterson gave the response.

Grandmothers were represented by Mrs. Loran Stephenson who has 22 granddaughters. She gave a tribute to daughters who are mothers.

Mrs. Wilma Viperman and daughter, Mary, accompanied by Mrs. Tom Smith, sang. Prizes were awarded by Mrs. J. E. Barrus and daughter, LeAnn.

Prayers were given by Mrs. Louis Durfee, Gooding, a member of the Relief Society stake board, and Mrs. Farren Chandler, president of the Wendell Relief Society.

Mrs. Gehrke was in charge of invitations, decorations and committees. Mrs. Ivan Hunsaker, Mrs. Ella Mae Parker and Mrs. Ressa Stephenson were in charge of the menu.

Mrs. Nelson King designed the posters and programs, assisted by Phyllis Dixon and Mrs. Cox. Assisting with the invitations were Mrs. Bill Von Weller, Mrs. Jean McCrae and Mrs. Gayle Holland.

A pink and white motif was used with pink roses and white Shasta daisies for the tables.

# Along Fences and Canals

Hail damage in north Shoshone ran in a strip from about two miles east of Shook's Service to four miles west. During the storms of last weekend, sides of the roads were washed down and away and water on bean crops caused mould in many instances. There were piles of hail still standing around the morning after the storm and storms in the area have kept telephone lines out of order for a good part of the past three weeks.

Leland Spencer, Glendale, Utah, is helping his brother-in-law LaDru Sorensen, Dietrich, with his haying operations.

Heavy rains this week have delayed the haying and combining operations in the valley with considerable damage to some. Ortel Bench was one of the fortunate ones to get his grain cut before the storm. A two-acre piece of mixed grain had a yield of 125 bushels to the acre while some oats in new seeding yielded 100 bushels to the acre.

Steven Davis and Corrin Rathbun are hauling and stacking second crop hay for Walter Rinehart, John Coffman and John Edwards, Dietrich.

## Lincoln Price Support Rates Are Reported

SHOSHONE—The price support loan and purchase rates for the 1965 crop wheat and beans produced in Lincoln county have been set, according to Eugene Alexander, Agricultural Stabilization and Conservation county committee chairman.

Information on price-support rates for wheat stored in terminals, as well as schedules of

premiums and discounts, is available at the ASCS county office.

As in the past, terminal price-support rates are derived by adding rail freight and handling charges necessary to get the wheat from the producing area to the terminal markets.

The county loan rates are then computed on the basis of the terminal market loan rate minus rail freight rates.

County and terminal loan rates are subject to further adjustment for premium and discounts in determining individual producer loans, adjustment for premium and discounts in determining individual producer loans.

This depends on the grade and quality of the producer's collateral.

Wheat support will be available to all growers who stay within their farm's 1965 wheat allotments and carry out other provisions of the 1965 wheat program.

Bean supports are available to all producers in Lincoln county who have an interest in the current crop.

Support prices for Lincoln county are: Wheat \$1.12 per bushel farm stored; Pinto beans, \$6.07 per hundredweight, warehouse stored; Great Northern beans, \$6.81 per hundredweight, warehouse stored.

Producers interested in wheat loans stored on their farm may call their nearest community committee member or the ASCS county office.

Where wheat is stored in the warehouse, information may be obtained from the warehouseman or from the ASCS county office.

## T.F. County ASCS Fall Programs to Start Soon

The Twin Falls County Agricultural Stabilization and Conservation office is beginning its fall ASC program, reports Carl Boyd, Twin Falls, chairman of the Twin Falls County ASC committee.

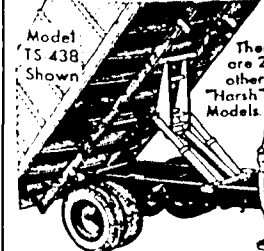

## Northeastern Drought Said Spreading

WASHINGTON—The drought that has plagued the Northeast is now threatening to spread, according to E. L. Hendricks, associate chief hydrologist for the U. S. Geological Survey.

Drought threats have now spread to west-central Pennsylvania, much of Maryland, northern Virginia and eastern West Virginia. Already stricken are southern New Hampshire and Vermont, most of Massachusetts and Connecticut, Hendricks reported.

New all-time lows by October are predicted for streamflow and well levels unless rainfall picks up, Hendricks said. Summer rains are expected only to restore soil moisture with little water percolating to ground water tables and rivers.

Magic Valley's Week-End Farm Paper

SECTION

Aug. 27-28, 1965

Twin Falls Times-News 7

DR. CLYDE BUTCHER, Twin Falls, state plant pathologist, inspects a bean field for halo blight. The field was found to be contaminated, and will be ordered plowed. Seventy acres in Magic Valley have destroyed their bean crops this year—about twice as many as destroyed fields in the entire state last year. (Times-News photo)

## Spread of Halo Blight in Valley Prompts Controls

The continuing spread of halo blight is threatening the future existence of the seed bean industry in Magic Valley.

Last year the blight was a serious problem. Seventy-seven fields owned by about 40 growers were destroyed throughout the state to containing the disease.

But this year has already seen more beans destroyed. By the beginning of this week there had been 1,185 acres owned by 70 Magic Valley growers destroyed, according to Dr. Clyde Butcher, state plant pathologist, who is directing the detection and eradication program in Southern Idaho. This is about twice the incidence of the disease in 1964.

"And a great many of the diseased fields have not yet been discovered," Dr. Butcher continued.

The seriousness of the problem was emphasized. "People in Magic Valley must understand that if we can't control the blight there won't be any seed bean business in this area," he said.

Dr. Butcher reported there is no discernible pattern in the blight's spread. Each area that grows beans is peppered with outbreaks. However the largest concentrations seem to be in the Kimberly-Hansen area and south of Burley.

There is no known cure for halo blight. The only thing that can be done for its control is to eradicate the disease at the source by plowing infected fields.

The bacteria is not destroyed by plowing until all of the original bean host is decomposed. No succeeding bean crop will escape infection until all of the plowed-under crop is decomposed. For this reason no beans are allowed to follow an infected crop for at least three years.

Halo blight has no other known host, however, and any crop other than beans may follow in a normal rotation.

It is particularly important to detect the disease before the

beans are sold for seed to prevent its spread on the seed throughout the world.

Donald Youtz, Twin Falls county agent, said that "blowing is an emergency measure adopted by the commissioner of agriculture and recommended by the industry—both growers and commercial people. The very presence of the disease is a threat to the industry."

"This area established its reputation by providing disease-free seed, and it now provides about 85 per cent of the nation's seed supply," Youtz continued. "If we lose that reputation buyers will begin to look at other sources of seed beans, and we will lose our premium seed prices," he said.

Both Dr. Butcher and Youtz praised the cooperation shown by growers and buyers. "The growers are 100 per cent behind the program," Youtz said.

"They realize that it is their premium seed price that is at stake."

Enforcement of directives to destroy blighted fields is in the hands of the Idaho State Department of Agriculture. However, there has been no problem, according to Dr. Butcher. "The cooperation we get is wonderful."

Regarding questions he had received, Youtz said that "when a field is ordered destroyed it must be plowed—not disced." Youtz said it is unfortunate that "during this crisis we have had these frequent rains and high humidity which are favorable for the development of the blight." Usually prolonged hot dry weather reduces the danger of the disease.

"But the past three summers have been unusually cool and wet," he continued. "A hot dry summer would do more to get rid of this than anything else," he said.

Meanwhile bean growers face (Continued on Page 9)

## Wool Program Levy Remains At Old Rate

SHOSHONE—Deductions from wool program incentive payments for the 1965 marketing year to finance the wool and lamb producer's self-help program will continue at the same rates as in the past, according to Eugene Alexander, chairman of the Lincoln County Agricultural Stabilization and Conservation Committee.

Deduction rates will be one cent per pound from shorn wool payments and five cents per hundred pounds of liveweight from unshorn lambs payments. These rates are the same as those made from payments received by producers since the beginning of the program.

The chairman pointed out that the promotion is conducted by the American Sheep Producers Council, under an agreement with the secretary of agriculture providing for advertising, sales promotion and related market development activities on wool and lamb.

## New Variety of Hard Red Winter Wheat Is Developed

MOSCOW — A new hard red winter wheat with excellent stripe rust resistance has been approved for release to Idaho growers this fall, reports Dr. R. D. Ensign, associate director of the University of Idaho Agricultural Experiment Station.

The new variety, named Itana-65, was developed by Dr. Warren K. Pope, station agronomist, and Paul Wetter, former research assistant, from a single plant selection made in 1961 from Itana.

Approximately 500 bushels of Itana-65 seed will be available to certified growers this fall through the Idaho Crop Improvement Association, Ensign said. This seed is now being harvested at the University's Tetonia Branch Experiment Station. It is expected that Itana-65 seed will be generally available in southeastern Idaho in the fall of 1966.

The new wheat has stripe rust resistance that is "better than any commercial hard red winter wheat grown in the Northwest,"

Pope said. Under stripe rust conditions, Itana-65 has out-yielded Itana by 15 bushels per acre.

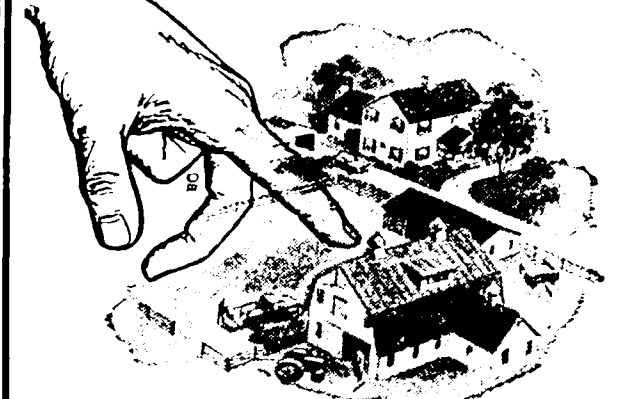

The variety also has good milling qualities and the excellent resistance to shattering that characterizes its Itana parent.

## California Land Values Show Wide Variations

WASHINGTON (UPI)—Market values of real estate have a larger range in California than in any other state, the Agriculture Department said in a review of farm real estate developments.

Real estate market values in California range from less than \$100 per acre for grazing land in the northern part of the state to \$10,000 or more for citrus groves in the path of urban development in southern California.

## JOHNSTON . . . your best bet in pumps

## Let's talk about RELIABILITY

Reliability in pumping is not only a need, it is a must. We're talking about the kind of dependability which is constant throughout a long operating life. This uncommon characteristic is an integral part of every Johnstone pump, working for you twenty-four hours a day, without special attention, without special maintenance.

This proven Johnstone advantage is the direct result of optimum pump design, engineering skill, quality construction and material. It is always there to meet any requirement, whether the unit selected is a vertical turbine, mixed flow, or propeller type, whether its capacity is 10 or 200,000 gpm, whether its size is 4 or 72 inches.

In serving the agricultural field, Johnstone adaptability covers a wide range, including deep-well water supply systems for livestock/domestic consumption, surface/sprinkler irrigation, land reclamation, drainage and numerous other applications. If your needs are within these, or similar categories, contact your Johnstone sales office or dealer listed below.

THIS JOHNSTONE PUMP is one of three 25-HP units supplying irrigation to two large pasturages near Lompoc, California. Installed on the dry bed of the Santa Ynez River, each unit pumps 500 GPM.

### Non-Citrus Fruits Have High Sales

WASHINGTON (UPI)—During 1964, the value of sales of 16 non-citrus fruits came to \$890.5 million, according to the Agriculture Department.

Total production was more than 10.9 million tons. In 1963, growers produced 10.2 million tons of non-citrus fruits, valued at \$813.8 million.

The Agriculture Department said apples easily were the leading non-citrus fruit in terms of value last year. Sales were worth \$236.2 million.

Grapes were next at \$196.1 million, followed by peaches, \$149.2 million, pears, \$51.8 million, prunes, \$45.5 million; apricots, \$24.9 million; sweet cherries, \$24 million, and sour cherries, \$15.3 million.

### Wheat Prices Are Above 1964 Levels

HYATTSVILLE, Md.—Wheat prices generally turned downward during the May-July period as trading moved toward a new-crop basis, according to USDA Quarterly Summary of the Consumer and Marketing Service.

Spring wheat was an exception and chalked up moderate gains. Despite the downturn, most grain prices were well above a year earlier. Carryover stocks of wheat were nine per cent below last year, and holdings of feed grains stood at 79 million tons—17 per cent below the previous year. Exports of most grains continued at high levels.

Wheat prices lost ground during May and June. However, according to the survey, the markets turned upward and some of the early loss was regained in July as wet weather delayed harvesting and light offerings found good domestic and export demand.

While prices remained unchanged for both hard winter and soft red wheat at the end of the third week in July, spring wheat closed moderately higher as "free" supplies were held tightly and harvesting had not yet begun. White wheat was down from a year ago.

Carryover stocks of wheat on July 1 totaled 819 million bushels—the smallest for that date in 12 years. The Commodity Credit Corporation owned nearly 690 million bushels of the total carryover.

Exports of wheat and flour during 1964-65 amounted to 718 million bushels, 130 million bushels less than the previous season's record. Milling of wheat for flour ran about 51 million behind 1963-64's pace.

The report estimated domestic supplies of wheat for the 1965-66 season, based on July 1 conditions, at 7.2 billion bushels, about 19 million less than last season.

### Use of Plant Food Will Double Soon

WASHINGTON (AP)—A survey by an agricultural service organization shows that by 1970 the average commercial farmer will be using nearly double the amount of plant food he now uses.

Officials of Doane Agriculture Service, Inc., said their survey indicates that farmers will spend, on the average, \$2,000 annually for fertilizer by the end of this decade. This represents about 15 tons of plant food and is about double the \$1,100 average expenditure per farm in 1964.

The Doane researchers said that while there will be fewer farmers by 1970, they will be more important customers and will demand greater service from suppliers. The researchers said the supplier will be called on to provide decision-making information, to offer substitute services for farm labor, to provide services that can substitute for equipment investment, and to provide credit where it is more economical than other capital sources.

### APPOINTED

### National Farm Real Estate Values Rise Six Per Cent to \$159.4 Billion

WASHINGTON (UPI)—The Agriculture Department Tuesday estimated the market value of all farm real estate in the United States at \$159.4 billion as of last March 1.

This was \$8.6 billion, or 6 per cent, above the figure of 150.2 billion a year earlier, and \$1.8 billion, or 1.5 per cent above the market value on Nov. 1, 1964.

The department's Economic Research Service said the total market value was equivalent to \$52,200 per farm and \$146 per acre. A year earlier the equivalent was \$48,000 and \$137 per acre.

The basic indicators of supply and demand in March differed little from a year earlier, ERS said. The market supply of land remained limited, while demand continued generally strong.

ERS said the supply of credit available to finance farm purchases was adequate, and interest rates were essentially unchanged.

### Reclamation Areas Average \$194 Per Acre for Crops

WASHINGTON (UPI)—The Interior Department said crops grown on Bureau of Reclamation projects in the West in 1964 reached a record gross value of \$1.5 billion, averaging out to \$194 per acre.

The bureau's 1964 crop report shows that nearly 130,000 family farms, representing 526,000 persons, grew more than 150 different crops on 7,322,711 acres irrigated by reclamation projects.

The reclamation farms average less than 100 irrigated acres. The 1964 crop total was \$92 million greater than the 1963 crop. The per-acre value for 1964 was up \$10 over 1963.

Since the reclamation program began in 1906, the aggregate value of crops grown on reclamation projects amounts to \$21.7 billion. This return, from irrigation alone, is roughly five times the entire federal cost of plant, property, and equipment in reclamation works.

### Farmers Truckers

The report also points out that irrigation permits the reclamation farmer to diversify his crops in order to produce those in short supply and high demand, rather than restrict himself to dryland operations dependent on a few crops, frequently in surplus supply.

### Cooling Cattle in Summer Heat Nets Economic Gains

WASHINGTON — Like people, cows are "thrown for a loss" by very hot weather. Breeding efficiency and milk production of dairy cattle during hot weather improve when they are kept cool, according to a USDA publication.

Frank Wiersma, associate professor of agricultural engineering and Gerald H. Stott, professor and head of the department of dairy science, both of the University of Arizona at Tucson, said, "A cow under heat stress commonly runs body temperatures as high as five and even six degrees above normal and, although pathologically healthy, she is 'functionally sick'."

Dairy herds have economic losses from heat stress because of both low breeding efficiency and loss in milk production, they reported.

In a series of tests with an Arizona herd, Wiersma and Stott found that when 43 head of Holsteins scheduled for breeding during the summer months were placed in a corral provided with a shade equipped with evaporative coolers they had markedly higher breeding efficiencies than a control group of cows provided with conventional shade.

"Apparently animals of the control group were so seriously affected by hot weather that there was a carryover of impairment of reproductive ability into the cooler weather period of September and October," they observed.

Carefully conducted experiments during summer months had indicated a drop in actual pregnancy at 40 days post-breeding from 60 per cent down to 17 per cent in lactating cows. "Basic experimental work has shown that conception usually occurs in these animals, but the embryo is lost by the time of implantation (32 days post-breeding)," they noted.

The cooled cows also produced an average of 4.01 more pounds of milk per day per cow than the control group.

As an illustration of the economic significance of the benefits of cooling dairy cattle during the hot summer days, the agricultural engineer and the dairy specialist pointed out that an increase of four pounds of milk per day per cow for a period of only 90 days means a \$774 increase in gross income from a herd of 43 cows.

To this, could be added the benefits from increased breeding efficiencies.

Fifty-eight per cent of the breedings of cattle in the cooled shades were confirmed, as against 35 per cent in the control group with access only to conventional shades.

"During the period from May 15 to Oct. 15 even well managed Arizona dairies experience breeding inefficiencies; below 20 per cent," Wiersma and Stott said.

**More Hail**

Hail continued to plague Magic Valley farmers throughout the week, according to the Federal Crop Insurance Agency. Damages were reported heavy in the Hansen area. Peter Link had 75 acres of beans badly damaged, and Everett Norris' beans were damaged. Floyd Shepherd, also Hansen, suffered heavy losses to both beans and corn. The agency reported it had received 18 calls reporting potato damages from hailstorms in the Oakley area.

**Potato Growers' Sprinkler Clinic Is Set for Monday**

The South Central Idaho Potato Growers' Sprinkler Clinic will be held Monday, according to Virgil S. Cross, area potato extension agent for the University of Idaho.

The clinic will consist of a tour beginning at 1 p.m. at the B. K. Humphrey ranch three miles north of Crest View sign on Highway 25. This sign is approximately three miles west of the Minidoka-Jerome County line eight miles east of Hazelton.

If anyone is bewildered by the directions or needs a ride, he should be at the Twin Falls county agent's office at 12:15 p.m.

The tour will include University of Idaho extension personnel, fieldmen and growers. Discussion will concentrate on blight control and disease control, fertilizer recommendations,

sprinkler irrigation, rotations and handling stubble, and weed control and cultivation.

The touring group is scheduled to make stops, in addition to the Humphrey ranch, at ranches owned by George and George F. Brandon, Steve Antone, Mehlenbacher Brothers and Warren Heins.

According to Cross, the tour emphasizes sprinkler growing, but all interested growers are invited to attend.

Cross reported that the tour will demonstrate instances where old farmland outfields newer land.

Of particular interest will be land that has been farmed without a legume ever having been planted, but which relies on a grain-potato-beet rotation.

Cross also noted that the tour would see the handling of grain stubble in all stages.

**Government Buys Milk For Schools**

WASHINGTON—Purchase of more than 86 million pounds of nonfat dry milk in mid-August completed contract acceptances under current invitations, the U.S. Department of Agriculture announced.

Included were 20.1 million pounds of nonfat milk packed in four and one-half pound cartons for domestic distribution to schools and other eligible outlets, and almost 66 million pounds of vitamin-fortified milk in four and one-half pound cartons and 50 and 100-pound bags for foreign distribution under the Food for Peace program.

Purchases of domestic-packed milk, together with current inventory, were judged sufficient to fill program requirements through 1965, USDA said.

However, officials indicated that purchases of fortified milk for foreign distribution probably will be found insufficient to meet requirements, but were temporarily suspended to review pending and prospective needs for the last quarter of 1965.

**DEDICATION SET**

BURLEY — Ore-Ida Foods, Inc., will dedicate its fourth potato processing plant on Sept. 9 at Greenville, Mich., according to company President F. Nephri Grigg. Ore-Ida, the nation's largest potato processor, also has a plant at Ontario, Ore., and two plants at Burley, Idaho.

out-of-state market for these beans, the grower's association does not insure these crops. However, in-state seed crops ordered destroyed are insured through the windrow stage.

**Sheep Unit Sells Herd To Flat Top**

PAUL — MacRae Sheep Co., Paul, has sold all its sheep and grazing rights for sheep to Flat Top Sheep Co. of Rupert and Cary. The Flat Top Sheep Co. is primarily owned by former State Sen. Mary Brooks, who is now assistant national chairman of the Republican party, and her son, John Peavey, and Dennis Burks, Rupert and Muldoon.

Burks states the MacRae ranges on the east fork of the Wood River fit in very well with the present Flat Top operation. MacRae Sheep Co. was formerly owned by Angus MacRae, Paul, and in the past few years has been operated as a partnership by his four sons-in-law, Russell Lindstrom, Paul, who is president of the Idaho Cattle Feeders Association, and director of Stockman's Meat Packing Co., Gooding, has been the managing partner for the company. Lindstrom said the partnership has decided to disband and operate individually in the cattle business.

Details of the sale were handled by LeMoyné Realty, Twin Falls.

**Flail-Type Harvester Is Haying Aid**

ATHENS, Ga. — High quality hay can be produced using a flail-type forage harvester for both mowing and conditioning and for field pick-up, the American Society of Agricultural Engineers reported.

The society reported that with new high capacity flail type forage harvesters it is possible to harvest about 7.5 acres or 15 tons of dry hay equivalent per day following a plan of cutting in the morning, four to five hours of drying the middle of the day, and field pickup the same day.

In three-year tests of the system, raking of the hay was found to be unnecessary where artificial drying was used and hay was removed from the field before being rained on.

The system used in field tests consists of two men, a flail harvester, two self-unloading wagons, a forage blower, and three tractors.

"This appears to be a promising system to supplement a haylage or silage program on the same farm," Rowe said. "All forage material would then be handled in chopped form, transported using the same self-unloading wagons, and unloaded through the same forage blower."

"Even though a conventional chopper were required for corn or haylage crops, the basic system would permit the flexibility of handling some of the forage crop as hay but with a very small additional investment in machinery."

**New Regulations Proposed for Calf Exports**

WASHINGTON — Amendment to federal export regulations was proposed by the U. S. Department of Agriculture to ensure that calves for export be at least 10 days old and adequately fed and inspected within eight hours of shipment. Under the change, calves that have been fed only on milk or milk replacers would have to be accompanied to the port of embarkation by a certificate issued by a federal or other authorized veterinarian which would show that the calves were inspected and found free of communicable disease at least 10 days, but not more than 30 days, before the estimated departure date.

PLOWED BEAN FIELD is inspected by its owner, Henry G. Sievers, Kimberly. Sievers was one of the first growers to destroy his bean crop to stop the spread of halo blight. There is no known cure for the blight. Plowing is an emergency measure which buries the infected beans until they are decomposed. Until decomposition is complete—about three years—no other bean crops can be planted in the same field. (Times-News photo)

**Spread of Halo Blight Throughout Valley Prompts Emergency Controls**

(Continued from Page 7)

the blight's version of Russian roulette. Only a small—less than one per cent—of the growers have had infected crops. Yet the economic blow can be considerable to the individual farmer who must plow under his beans. Henry G. Sievers, Kimberly, was one of the first bean growers to plow under his diseased beans. "I stood to lose about \$250 an acre on the field," he said, "but I went in on the insurance plan and am insured for \$135 an acre, which cut my loss."

Sievers enrolled in an insurance plan sponsored by the South Central Idaho Bacterial Blight Control Association, a group of local bean growers who set up a pooling agreement to protect those who must destroy their beans in the blight fight.

At a meeting of the association's board of directors held Tuesday in Jerome, Wilmer J. Priest, Jerome county agent, announced that 56,831 acres—roughly one-third of the total bean acreage in Magic Valley—were now insured by the association.

Of the total, 50,000 acres were insured for \$135 per acre for a premium of up to \$6 an acre, and the balance was covered for \$90 for acreage of up to \$4 an acre. Should the total acreage destroyed exceed four per cent of the total insured acreage, payments per acre would be reduced proportionately.

Priest said the formation of the growers' association last year showed the active concern of the growers with the control of the blight.

Further, he mentioned that seed buyers were supporting the association's control measures. He noted that there are 11 major buyers who require membership in the association's in-

urance program. The association requires a contracting person to destroy whatever portion of his crop the state inspectors deem necessary for control of the blight.

At the association's Tuesday meeting, special concern was voiced over the use of diseased seed within the state of Idaho.

John Rensberg, Rupert, chairman of the Association, noted that 1966 will be the first year that all seed used within the state is inspected and declared blight-free.

Seed must pass inspection to be certified for use in Idaho to prevent further contamination of this primary seed-producing area.

After the beans are in the windrow, association members are not required to destroy the crop, because the danger of secondary spread of the disease is lessened if precautionary measures such as cleaning out combines between fields are followed.

However the danger of primary spread of the disease through the seed still remains. For this reason no infected beans can be used for seed in Idaho.

Dr. Butcher pointed out at the Jerome meeting, however, that out-of-state buyers are short of disease-free seed and may accept traces of blight on the seed they buy. Because there is an

### Food Grain Exports May Reach New Record for Year

WASHINGTON (UPI)—Agriculture department economists expect food grain exports to reach a record high of more than 20 million tons in 1964-65. This would be an increase of about 10 per cent over 1963-64 and double the exports of seven years ago.

The department said 422 million bushels of corn were exported during the October-June period. This was up 41 million bushels from exports during the same period a year earlier. For the entire marketing year, the economists expect corn exports to reach 550 million bushels.

Sorghum grain exports have been heavy this season, especially during the past three months. The economists predict sorghum grain exports will reach a record high of around 130 million bushels for all of 1964-65.

Corn and sorghum grain together represent about 90 per cent of the total U. S. food grain exports. Barley exports have been declining in recent years because of smaller domestic supplies and increasing production in other countries. Barley exports in 1964-65 totaled only 60 million bushels, the smallest in 10 years.

The department said oats exports have declined sharply since 1959-60 to about 5 or 6 million bushels in the past two years.

The overall increase in U. S. food grain exports has been due largely to the increase in foreign demand for livestock and livestock products, especially in Western Europe and Japan.

### Assurance Given On Restricting Cattle Disease

WASHINGTON — Sen. Len Jordan reported that the Agriculture Department has assured him that it will make every effort to protect the Idaho and American livestock industry from importation of livestock suffering from foot-and-mouth disease.

Senator Jordan earlier protested to the department about a Canadian proposal to import live animals from European countries known to be infected with foot-and-mouth disease.

The Agriculture Department informed the senator that Agricultural Research Service scientists also "are concerned about the possible livestock disease introduction."

Jordan said that as a result of protests and a potential problem the Agriculture Department has held a number of meetings with Canadian officials where a series of "satisfactory procedures have been developed by the Canadians for importing livestock into Canada."

"The procedures provide for extended quarantine in isolation facilities under maximum security as well as plans for special testing, careful handling and supervision," Jordan said.

### World Market for Garden, Turf Tractors Is Rising

ATHENS, Ga.—In 1970 tractor manufacturers in the United States will sell 400,000 lawn and garden tractors.

They will sell at an average price of \$550 each, according to S. C. Heth, Racine, Wis., vice president of the Jacobsen Manufacturing Co.

Heth, speaking at the University of Georgia, called the phenomenal growth in sales of garden or turf tractors "probably one of the symptoms of a lush society and only supportable by such."

Heth took a somewhat dim view of prospects for the use of U. S. - manufactured small tractors in the Latin American countries.

"The matter of small riding tractor sales in Central and South America has been the subject of much conversation and some very fancy projections based upon the U. S. supported alliance for progress," he said.

"The idea is that the peon can be given or sold a small piece of land, a small tractor and a few tools, and that he will then become a self-sustaining citizen with means of hauling goods and people to and from the city as well as a means of efficiently farming the land he has available. . . . A few tractors have been sent to Latin America but the number isn't large.

"With fuel tax burdens in these areas, one might assume a need for diesel power, better tool carry mechanisms, etc., which leads to the thought that the U. S. tractor really isn't a true and good answer for the farmer-socio problem in Latin America."

### USDA Builds Still for Quencher

WASHINGTON — Directions for building a portable still were published in mid-July by the U. S. Department of Agriculture, proving once again that the department anticipates every need. Except, of course, the still makes only water — not the mountain dew variety. Actual purpose of the still is to provide drinking water from desert soil through use of solar energy.

The directions say to dig a bowl-shaped hole about 40 inches in diameter and about 20 inches deep. Cover with a plastic sheet and hold in place with soil around edges. Place a rock in the center of the plastic to form an inverted cone.

The average city dweller spends 25 per cent of his income on food grains, 9 per cent on milk and milk products and 26 per cent on other food items.

The average calories per day intake per adult in the Punjab, Himachal Pradesh, Madhya Pradesh, Uttar Pradesh and West Bengal was found to be about 3,000 while in other states it ranges from 2,000 to 2,500. Kerala is reported as having the lowest intake with only about 1,800 calories.

This was recently revealed by the "Diet Atlas of India" prepared by the Indian Council of Medical Research based on a number of surveys made in different parts of that country.

Rural people spend a greater proportion of their income on food grains than do those living in urban areas. On the average, villagers spend 41 per cent of their income on food grains, 8 per cent on milk and milk prod-

### Indians Spend 65 Per Cent of Income for Food

NEW DELHI, India—A person in India spends more than 65 per cent of his total income for food.

This was recently revealed by the "Diet Atlas of India" prepared by the Indian Council of Medical Research based on a number of surveys made in different parts of that country.

Rural people spend a greater proportion of their income on food grains than do those living in urban areas. On the average, villagers spend 41 per cent of their income on food grains, 8 per cent on milk and milk prod-

## Western Livestock Journal Feedlot Tour Visits Magic Valley Facilities

Twin Falls and Burley were hosts of the Annual Western Livestock Journal Feedlot Tour this week.

The touring party's three buses and considerable caravan of cars made the first stop in Magic Valley at the Willard Garrard feedlots southwest of Twin Falls. There the visitors were shown the feeding facilities which are situated on Garrard's 320 acres.

Of interest was the cluster of four 20,000-bushel grain and haylage tanks, which are serviced by a centrally-located barn. These tanks, along with a lighter tank, provide enough feed storage for the 800-head feeding operation.

The overall efficiency of Garrard's operation is not yet known because this is his first year using the newly completed facilities. However, his preliminary results were pointed out to the touring cattlemen.

With his first lot of 44 heifers, he raised the average weight from 638 pounds to 938 pounds, a three-pound gain per day. During that time he fed field-chopped hay and ensilage which had been processed 21 days. In addition he fed soft corn for 68 days.

Garrard told the touring party that he cuts his hay at the high-protein stage and puts it in his tanks which use breather bags for oxygen-free storage.

He has been able to get 12 tons of haylage per acre and 14 to 15 tons of oatlage per acre.

Garrard did not feed potatoes last year because of the prohibitively high prices. However he hopes that prices will allow feeding potatoes this year. He chops the potatoes, and mixes them directly with the haylage.

In answer to a question, Garrard said he feeds young heifers 17 pounds of rolled mixed grain, 10 pounds of oatlage and one pound of supplement. More is fed to larger animals.

Garrard told his visitors that his latest sale of 45 head yielded 10 prime, 33 choice and two good animals.

After leaving the Garrard lots, the touring cattlemen had lunch at the Ponderosa Inn in Burley. The caravan was met by the Cassia County Sheriff's Posse and was escorted through town.

The party was met by members of the Burley Chamber of Commerce, local merchants and cattle feeders. Russell Lindstrom, Burley, president of the

Idaho Cattle Feeders Association, welcomed the visitors.

Nelson Crow, Anaheim, Calif., publisher of the Western Livestock Journal, pointed out that representatives from states as far away as Minnesota and Texas were included in the tour.

### Increased Credit Used By Farmers

Farmers and stockmen in this area continue to use a sizeable amount of short and intermediate-term credit as part of their farm management and development programs, a local credit institution official reported this week.

Earl R. Stansell, manager of the Southern Idaho Production Credit Association, said the loan volume of his association reached \$29,519,092 during the 12-month period ended June 30, 1965. This was \$1,340,688 more than in the preceding fiscal year.

According to Stansell, Paul F. Matson, president of the Federal Intermediate Credit Bank of Spokane, reported that his institution extended upwards of \$350 million of credit during the year ended June 30, 1965. This represented an increase of more than \$22 million over the preceding fiscal year.

More than 99 per cent of the \$350 million of credit extended by the bank during the 12-month period went to 30 production credit associations in the four Northwest states. These associations, Matson said, are primary lenders, owned and operated by their farmer and stockmen member-borrowers.

The FICB chief said short and intermediate-term loans made by the 30 PCA's during the fiscal year exceeded \$310 million, a 6.4 per cent increase over the preceding year.

**RICHARD DEAN LOWDER**  
... son of Mr. and Mrs. Richard K. Lowder, Rupert, will be honored at a farewell testimonial at 5 p.m. Sunday in the Rupert Ward LDS Chapel, Eighth and B Streets, prior to his leaving on a mission for the church to the British Isles. Elder Lowder will enter the Mission Home in Salt Lake City Sept. 6 for one week and then will go to London. He was graduated from Minico High School and attended Utah State University, Logan, for one year.

**TWO POLICE SHOT**  
BOLZANO, Italy (UPI)—Two Italian policemen were shot and killed in their barracks at Sesto Pusteria Thursday night, reportedly by terrorists seeking independence for the south Tyrol.

**Hundreds Search for Downed Pilot**

OZONA, Tex. (UPI)—Hundreds of persons searched a mesquite and sagebrush-dotted area twice the size of Rhode Island today for three young Air Force officers missing since three supersonic jet planes collided while flying in formation.

Two other pilots parachuted to safety following the midair crash Thursday. They said they were "strongly advised" not to talk about how the crash occurred.

Air Force officials were not optimistic about the search over one of the most sparsely populated areas of the nation.

"It's such a vast country to begin with and there are so many rugged hills with deep crevices," said Maj. Glendon Armstrong of the central air rescue center at Goodfellow AFB, San Angelo, Tex.

Helicopters and planes scanned the area Thursday without success.

"These formations (crevices) cast shadows to the extent that it is very difficult to see any object on the ground," Maj. Armstrong said.

The downed planes were among four T38 jet trainers from Laughlin Air Force Base at Del Rio, Tex., on the Mexican border, on a training flight Thursday. The fourth plane in the formation, piloted by 1st Lt. John W. Carlson, 25, Chicago, was not involved in the collision.

CONSTRUCTION WORKERS, joined by carpenters, demonstrate peacefully in the streets of Athens Friday. About 3,000 persons took part in the protest against police arrests in last Friday's riots in the Greek capital. (AP wirephoto)

**Policeman Kills Negro In Gun Battle**

PHILADELPHIA (AP)—A white policeman shot and killed a Negro youth Thursday night in a predominantly Negro neighborhood where rioting broke out a year ago. This time the area remained calm.

Police said the victim, Lawrence Adams, 19, fired at two white patrolmen who went to the scene to break up a gun battle between two Negro gangs, and was killed when they fired back. The gangs dispersed.

The incident occurred only a few blocks from the section where the Negro mobs went on a weekend rampage of rioting and looting last summer following a minor traffic arrest.

**60-Year-Old Widows May Get Benefits**

Widows of men who worked in jobs covered by Social Security can start receiving monthly benefit checks as soon as they are 60 years old beginning in September, a states Wesley F. Watson, Social Security district manager in Twin Falls.

Watson said only a few widows in Magic Valley have applied for benefits so far under this change in the Social Security law. Watson said there are about 100 widows in this area who can now receive payments because of this change.

Watson added the payment due at the age of 60 is smaller than the widow could get by waiting until she is 62. How much smaller the payment will be, he added, depends on how many months before her 62nd birthday anniversary the widow chooses to have her payments start.

"If she has them start for the month she turns 60," Watson said, "her payments will be 1 1/2 per cent less than if she waited until she became 62. If she has them start nine months before turning 62, they would be reduced five per cent."

Widows interested in applying for these payments or getting more information about this change in law should phone 733-6050, or go to the Social Security office at 156 Second Ave. W.

**King Hill Grange Has Dinner**

KING HILL. — King Hill Grange met Tuesday evening for a birthday dinner honoring members who had celebrated birthday anniversaries during the months of July, August and September.

Mr. and Mrs. Hap Woodward and Mr. and Mrs. Lynn Sherman were on the serving committee. Mrs. Horace Lipe, Bliss, baked the birthday cake. Mrs. Lipe and Mrs. Woodward brought bread to be judged for Pomona, and Mrs. Lipe brought butterscotch fudge, coffee and fudge.

Judging the entries were Mrs. Kenneth Ruby, Glenns Ferry home extension agent, and Mrs. Roy Graves, Gooding.

Mrs. Lipe was awarded first in the bread division and first for her butterscotch fudge. During the Grange meeting, 15 members were present. Mrs. Rodney Rubery reported they have the material to make dresses for the Fourth Degree team, and it was voted that the Grange pay for the material.

Mrs. Joel Young, home economics chairman, reported on the judging of bread and candy. King Hill Grange received a red ribbon on the booth at the fair, and several women members received ribbons for their flower arrangements.

Mrs. Frank Jones, lecturer, gave a short program. Mrs. Jones also asked that anyone having home movies or colored slides to bring them to the next meeting. The best slides will be picked to enter the color photo contest this fall.

**Idaho Power to Have Meeting**

BOISE (Special)—Idaho Power Co.'s Pioneers, composed of retired and active employees with 25 years or more of service, will hold their 13th annual meeting in Boise Saturday and Sunday, with a picnic as the featured event.

More than 300 of the company veterans are expected to attend the get-together from throughout Idaho Power's service area of southern Idaho and eastern Oregon, according to G. P. Southward, chairman of the group.

**Bank Officials Hope Minting Will Relieve Coin Shortage**

BOISE (UPI)—Cashiers in Idaho are literally scratching the bottoms of silver drawers to meet customer demands but bank officials added a hopeful note Thursday that new minting will alleviate the problem by Christmas rush.

A survey of Idaho banks showed dollars and half dollars seem to have all but disappeared and the pinch now is on quarters.

"We keep a permanent order but just can't get enough silver from our suppliers," said a spokesman for the Idaho Bank and Trust Co., Pocatello. "There have been times we've even been out of quarters."

The burden is on dimes at the Fidelity National Bank, Twin Falls, where Assistant Cashier William H. Miller said, "We're completely out of quarters and half dollars."

Generally, however, bank officials believe adequate shipments through the 12th Federal Reserve District will arrive to meet heightened money-changing during the Christmas season.

At present, many banks are leaning heavily upon vending machine customers for silver needed to operate their banks.

Silver exchanged by vending machine operators is "the primary source" at the Bank of Commerce at Idaho Falls, said Julian Cowley, assistant vice president. The coin scarcity problem "has been getting continuously worse," he said, "and we have not been able to satisfy our customers."

"We will be looking forward to new issues at the earliest possible date," said Curtis Eaton of the Twin Falls Bank and Trust Co. "We certainly hope the Treasury will step up minting. It is our understanding small change will be on the market in January or possibly in December of this year."

At Caldwell, assistant cashier Jerry Anderson of the Idaho National Bank said it has been especially difficult to supply demands by large retail firms such as department stores and supermarkets.

A Bank of Idaho officer at Boise, however, said coinage shortages have been "overpublicized" and said "we are able to run the bank."

In late June, a premium on half dollars was reported by Boise coin dealer John Cooper. At that time he said he was paying a two-cent premium and selling them elsewhere at a profit. Fifty cent pieces were reported selling for 10 per cent premium in areas just outside the state.

**Buhl C. of C. Plans Holiday Decorations**

BUHL. — Christmas decorating plans for the city of Buhl were outlined by Dave Erb, decorations chairman, during the Buhl Chamber of Commerce weekly luncheon meeting held Monday noon in the R and R Cafe Banquet Room.

Erb pointed out some of the old decorations have been traded in one new supplies, with new additions already ordered to add to the present stock. The largest piece ordered is a huge lighted plastic Christmas tree with full decorations and garlands that will be erected at Main Street and Broadway. The four entrance ways into the city will be appropriately decorated, he asserted.

Special guests in the "Welcome Tourists" program were Mr. and Mrs. J. E. Colborn, Danville, Ill. The Colborns spoke briefly to the Chamber.

**Keeps Youth**

PHILADELPHIA (AP)—A touch of vanity in middle age may be good for your health, says Dr. Jose C. Montero of the Stanford University School of Medicine.

Montero said that the desire and efforts of many persons to preserve a youthful appearance helps ward off such degenerative diseases as heart trouble, diabetes and hardening of the arteries.

He reported Thursday to the American Congress of Physical Medicine and Rehabilitation.

**Former Idaho Attorney General Dies**

BOISE (AP)—Former Idaho State Attorney General Frank Langley died Thursday in a Boise nursing home. He was 85.

Langley, a Democrat, served as attorney general from 1944 until 1946 and was a member of the Idaho industrial accident commission for 18 years.

Born Oct. 30, 1879, at Streator, Ill., Langley was a graduate of Emporia, Kan., Teachers College and the University of Kansas.

Following graduation he taught school in the Philippine Islands and then moved to Coeur d'Alene in 1910.

Langley was admitted to the Idaho bar in 1910 and practiced law in Coeur d'Alene until 1930. After leaving the attorney general's office he practiced law in Boise until 1961, when he retired.

Surviving are his wife, Mrs. Bertha Langley and a son, William J. Langley, Twin Falls city attorney. Services will be announced by McBratney - Alden - Waggoner Chapel of Boise.

**State Police Deployed in Integration**

NEW BERN, N.C. (AP)—State police were deployed to handle any trouble as many North Carolina coastal counties begin the first large scale integration of their public schools today.

Negroes enter a large number of previously all-white elementary and secondary schools in eastern North Carolina for the first time.

Gov. Dan Moore, noting threats of violence, said Thursday, "We will not tolerate any violence or lawlessness in this state." He vowed to mobilize the National Guard if necessary.

Moore refused to say who had made the threats. He said only that they had been made to parents of school children.

Integration of schools in other areas of the state generally has been accomplished without violence.

**Water Board Asks Change in Wild Rivers Bill**

WASHINGTON (AP)—Six of the eight members of the Idaho Water Resources Board favor removal of Idaho's Clearwater and Salmon rivers from the wild rivers bill, Chairman George L. Crookham said today.

Crookham said a mail poll of the eight members was taken following a meeting of the board in Boise last week.

He said the six believe the two Idaho streams should be placed in a status calling for possible inclusion in the wild rivers system later.

**Grandmother Gets Degree From College**

KENT, Ohio (AP)—A 66-year-old great-grandmother ends a college career spanning 48 years when she receives her bachelor's degree from Kent State University Saturday.

Mildred S. Mathews, a widow since 1954, went to Kent State for a year while still in high school in 1917.

"I decided to get a head start so I could begin teaching," she said.

She taught school for four years, then married James Mathews and they settled on a 237-acre dairy farm 40 miles east of here. After her husband died she decided to resume her education by attending night classes at Kent State.

**Jail Inmate Is Charged With Murder**

SAN JOSE, Calif. (AP)—A Santa Clara County Jail inmate who allegedly stood by calmly and watched a cellmate strangle in an escape plot, was indicted Thursday on a charge of first degree murder.

Leo Estrada Robles, 20, who was in jail awaiting trial for attempted murder, is charged with the slaying of Willard Dale Flynn Jr., 30, of San Francisco, who was jailed on charges of burglary, conspiracy and receiving stolen property.

According to other prisoners, the sheriff's office said, Flynn planned to fake a suicide attempt and escape later after transfer to the prison hospital.

Flynn fashioned a rope of bed sheets, tying it about his neck. The other end was tied to cell bars. The plan called for Robles to support Flynn so he wouldn't strangle — letting him dangle momentarily as guards were called.

However, deputies said, Robles betrayed Flynn and let him strangle.

Undersheriff Charles Perlick said Robles had passed a note to prisoners in adjoining cells, telling them of the escape plot and indicating he would let Flynn die.

## Deadlock End Eyed by Bill Supporters

WASHINGTON (AP) — Sponsors of a bill to fight water pollution hope that a four-month deadlock may be melting from heat applied by President Johnson.

The row between House and Senate is over the extent of federal control to be authorized.

Johnson told legislators concerned with the bill Thursday that it is urgent legislation and that he is eager for them to resolve their differences quickly and send it to him for signing.

The legislation has been held up in a conference committee since the House passed the Senate measure in amended form April 28.

Under the Senate version, the secretary of health, education and welfare would have power to fix water quality standards for interstate rivers and streams.

The House rejected this as too broad a grant of federal power, substituting a provision under which the states would have to certify they are setting up their own water quality criteria by 1967.

The sticking point now is House insistence on provision for quick court tests of federal regulations. Senators said this would permit a company causing pollution to tie up the enforcement procedures for years.

Both sides in the dispute agree the job of controlling and abating pollution in the nation's streams is one of the crucial tasks confronting the United States.

Both versions of the bill would set up a new administration in the HEW department to handle water pollution, authorize research into new techniques of sewage disposal, and require pollution abatement measures in commercial fishing waters.

## Idaho Families Take in 100 Indian Students

IDAHO FALLS (UPI) — A group of eastern Idaho families will serve as foster parents this school year to about 100 Indian youngsters from Montana and South Dakota.

Ranging in age from 8 to 18, the children will attend schools in several eastern Idaho communities.

The Idaho Indian Student Placement Program of the Church of Jesus Christ of Latter-day Saints brought the children to Idaho. Foster parents will meet the students' expenses.

## Boise Youth Pulls Knife After Chase

BOISE (UPI)—A 19-year-old Boise man, who allegedly whipped out a knife after his speeding arrest, has been charged with assault with a deadly weapon.

The suspect, James Wellman,

was still under observation at St. Alphonsus Hospital Friday.

He was arrested after a high-speed chase through a residential area of Boise Wednesday night. Officers said that when they stopped Wellman, he held a six-inch butcher knife in his hand.

Two city police cars were wrecked before Wellman was captured.

## Buhl School Lunches Begin Monday

BUHL — Buhl school district will begin its hot lunch program Monday, the opening day of the 1965-66 school year, according to Rex Engelking, superintendent.

Students may purchase tickets prior to the start of school at the elementary school cafeteria. School lunch daily tickets will be 25 cents, weekly tickets, \$1.25. The lunch program will continue to feed all grade levels at the elementary school. Lunch hours have been arranged to allow elementary students to eat first, followed by the junior high school and senior high school in that order.

The program serves approximately 800 meals per day and students are requested to purchase tickets prior to the lunch hour. Federal participation in the school lunch program will continue as in the past with surplus commodities furnished on a request basis. Type A lunches will be served and menus varied from week to week, Engelking asserted.

Students are urged to participate in the hot lunch program. Mrs. Orinda Kast will be school lunch supervisor and Helen Lemmons, head cook. Other employees will be Mrs. Beatrice Johnson, Mrs. Oma Worland, Mrs. Stella All, Mrs. Maude Avery, Mrs. Edna Herrick and Mrs. Gladys Messley.

A new vertical cutter-mixer has been added to school kitchen equipment. This will reduce time spent cutting and mixing of all types of vegetables, meats and doughs, necessary in food preparation, Engelking said.

# Patrick, Madurski Stop Cubs on Two-Hitter as Cowboys Claim 1-0 Win

CALDWELL (AP) — The Magic Valley Cowboys posted a 1-0 victory over the Pioneer League-leading Treasure Valley Cubs Thursday night behind the two-hit pitching of Billy Patrick and Dave Madurski. Patrick gave up both Cub hits during his seven and a third inning stint while Madurski pitched hitless ball the final one and two-thirds innings. Al Deravin's fifth inning double with Chris Arnold at first base produced the only run of the game. Cubs starter Dave Amman went seven innings and allowed all six Magic Valley hits while fanning 10.

## Bad Throw Lets Astros Top Phils 6-4

PHILADELPHIA (AP) — A throwing error by pitcher Gary Wagner opened the door for two eighth-inning runs as the Houston Astros edged Philadelphia 6-4 Thursday night.

It was the third straight night that a throwing error by a Phillies' pitcher had led to the winning run for the opposition.

Joe Morgan opened the eighth for Houston with a single to center. Jim Wynn dropped a bunt in front of the plate, and when catcher Clay Dairymple hesitated on where to throw, Wynn beat it out for a hit. Rusty Staub then dragged a bunt toward first and beat it out when first baseman John Herrnstein waited for Wagner to cover the bag instead of making the play himself.

On the next play, Bob Aspromonte grounded to Wagner, who had thrown lost Tuesday night's game, and the pitcher threw wide of the plate, allowing Wynn to score for a 4-3 Houston lead.

## Mantle Bothered By New Ailment

MINNEAPOLIS-ST. PAUL (AP)—Mickey Mantle, the New York Yankee star who has been plagued by a variety of injuries and ailments throughout his 14-season career, is hampered by a new physical setback.

The 33-year-old switch-hitting slugger has a sore right shoulder that prevents him from making effective throws from the outfield. And the handicap is proving an added windfall for opposition base runners, who already were taking liberties with Mantle because he's been slowed down by bad legs.

Mantle's trouble became obvious during the Yanks' four-game series here against the Twins which ended Thursday. His throws from left field were weak, side-arm tosses, more than once allowing a runner to get an extra base.

## Bases-Loaded Hit Lets Sox Drop Solons

BOSTON (AP) — Three runs scored on Bob Tillman's bases-loaded single Thursday and pointed the Boston Red Sox to a 4-2 victory over the Washington Senators.

Phil Ortega, the Washington starter, walked Felix Mantilla, Lee Thomas and Tony Conigliaro to start the Boston second. After Rico Petrocelli struck out, Tillman singled to center, scoring Mantilla and Thomas. When the ball got by Don Lock, Conigliaro came all the way around.

A triple by Eddie Brinkman and a wild pitch gave Washington a run in the fifth, but Boston came right back in its half, Carl Yastrzemski hitting his 17th homer into the center field bleachers.

Big Frank Howard belted his 20th homer in the sixth for Washington's only other run off young Dave Morehead, who picked up his seventh victory as compared with 15 defeats.

Washington 000 011 000-2 3 1  
Boston 030 010 000-4 5 0

Home runs—Washington, Howard (20). Boston, Yastrzemski (17).

## Pirates Take Two Victories From Giants

PITTSBURGH (AP) — The streaking Pittsburgh Pirates pounded pitching-weak San Francisco for 26 hits and crushed the pennant-contending Giants in both ends of a twin-night doubleheader Thursday, 8-0 and 6-5.

The loss was the fourth straight for the Giants since Sunday's Juan Marichal-John Roseboro incident and dropped them into fourth place, 1½ games behind National League-leading Los Angeles.

The Pirates, meanwhile, stretched their winning streak to six and jumped into fifth place, 4½ games off the pace.

The Giants were so hard pressed for pitching help that they were forced to use outfielder Matty Alou in relief in the opener and had to come back with Ron Herbel, who lost the first game, in the eighth inning of the nightcap.

(Twilight Game)  
San Fran. 000 000 000-0 7 2  
Pittsburgh 000 400 000-8 14 0  
Herbel, M. Alou (7) and Berbel; Veale and Pagliaroni. W.—Veale (14-9). L.—Herbel (8-7).  
Home runs—Pittsburgh, Bail-

## Small Turnout Dims Valley's Grid Hopes

EDEN-HAZELTON — Valley coach Bob Brulotte can't start an all senior and junior football team but the first reserve into the game will have to be a sophomore. That's the situation that greeted the new coach, a former Jerome high school athlete, the first week of practice.

Only 33 men, freshmen through seniors, checked out suits and the staff can only hope more will turn out when school starts. The turnout breakdown had five seniors, six juniors, eight sophomores and 14 freshmen.

"We will be young and innocent," says Brulotte. "A shifty backfield and a shifty line. This is a great bunch of kids but this (the turnout) is ridiculous. That Peterson (Buhl coach Ed Peterson) will have a field day against us (Sept. 10)."

There are seven lettermen, four with three years of experience. They include halfback Cal Olson, 160 pounds; halfback Jerry Hughes, 155 pounds; end Gregg McDonald, 145 pounds, and guard John Bragg, 165 pounds.

Two-year veterans are Dale Perkins, 170-pound fullback; Ron Ross, 165, tackle, and Art Watkins, 150-pound center.

The Vikings lost eight starters off last year's club but the losses will be most severely felt in the line. Perkins showed a lot of promise as a sophomore last year and Olson and Hughes are seasoned veterans. They still need someone to create running room.

The Valley schedule includes Sept. 3, Valley at Murtaugh; Sept. 10, Buhl at Valley; Sept. 17, Valley at Gooding; Sept. 24, Valley at Wendell; Oct. 1, Valley at Filer; Oct. 8, Valley at Shoshone; Oct. 15, Kimberly at Valley; Oct. 22, Glens Ferry at Valley; Oct. 29, Wood River at Valley, and Nov. 5, Wells, Nev., at Valley. All games begin at 8 p.m. except the 2 p.m. kickoff against Murtaugh.

## Clean Sweep

HAGERMAN—Don Hulme placed first in all three events in the senior men's division at the Tri-City open ski tournament held at Pasco, Wash., the past weekend.

Hulme won the slalom, jump and tricks events, to top the overall position in his division.

Ed Hulme, Hagerman, placed sixth in the men's division on the slalom course.

ey (11), Clendenon (12), Mazr- oski (5).  
(Night Game)  
San Fran. 000 002 003-3 8 2  
Pittsburgh 024 000 000-6 12 3  
Perry, Murakami (3), Henry (7), Herbel (8) and Haller; Sisk, McBean (6) and Crandall. W.—Sisk (5-2). L.—Perry (8-12).

## Small Turnout Dims Valley's Grid Hopes

EDEN-HAZELTON — Valley coach Bob Brulotte can't start an all senior and junior football team but the first reserve into the game will have to be a sophomore. That's the situation that greeted the new coach, a former Jerome high school athlete, the first week of practice.

Only 33 men, freshmen through seniors, checked out suits and the staff can only hope more will turn out when school starts. The turnout breakdown had five seniors, six juniors, eight sophomores and 14 freshmen.

"We will be young and innocent," says Brulotte. "A shifty backfield and a shifty line. This is a great bunch of kids but this (the turnout) is ridiculous. That Peterson (Buhl coach Ed Peterson) will have a field day against us (Sept. 10)."

There are seven lettermen, four with three years of experience. They include halfback Cal Olson, 160 pounds; halfback Jerry Hughes, 155 pounds; end Gregg McDonald, 145 pounds, and guard John Bragg, 165 pounds.

Two-year veterans are Dale Perkins, 170-pound fullback; Ron Ross, 165, tackle, and Art Watkins, 150-pound center.

The Vikings lost eight starters off last year's club but the losses will be most severely felt in the line. Perkins showed a lot of promise as a sophomore last year and Olson and Hughes are seasoned veterans. They still need someone to create running room.

The Valley schedule includes Sept. 3, Valley at Murtaugh; Sept. 10, Buhl at Valley; Sept. 17, Valley at Gooding; Sept. 24, Valley at Wendell; Oct. 1, Valley at Filer; Oct. 8, Valley at Shoshone; Oct. 15, Kimberly at Valley; Oct. 22, Glens Ferry at Valley; Oct. 29, Wood River at Valley, and Nov. 5, Wells, Nev., at Valley. All games begin at 8 p.m. except the 2 p.m. kickoff against Murtaugh.

HAGERMAN—Don Hulme placed first in all three events in the senior men's division at the Tri-City open ski tournament held at Pasco, Wash., the past weekend.

Hulme won the slalom, jump and tricks events, to top the overall position in his division.

Ed Hulme, Hagerman, placed sixth in the men's division on the slalom course.

## JOINS RESERVES

BOSTON (AP) — The Boston Red Sox announced Thursday that outfielder Tony Conigliaro has joined the Army Reserves and will go on active duty for about six months after the baseball season.

## Koufax Fails, L.A. Drops Third to Mets

NEW YORK (AP) — Consecutive eighth-inning homers by Joe Christopher and Ron Swoboda broke open a tight game and gave the New York Mets their third straight victory over the pennant-contending Los Angeles Dodgers, 5-2 Thursday night.

The loss was tagged on 21-game-winner Sandy Koufax, who lost his first game against the Mets in 14 lifetime decisions.

Rookie New York southpaw Tug McGraw protected a 2-1 lead until the seventh inning when a double by Ed Kranepool, an infield out and third baseman's Don LeJohn's throwing error gave the Mets their third run.

The Dodgers knocked McGraw out in the eighth but lost a chance to tie the game when fleet Maury Wills was thrown out trying to stretch a single into a double.

Dick Tracewski was on first with a walk when Wills stroked his fourth straight hit to left center. As Tracewski raced to third, Wills tried for second but was thrown out by Jim Hickman.

Wes Parker followed with a triple, scoring Tracewski, but Jack Fisher came on to retire J. Miller, S. Miller (8) and Brown; John, Larry (6), Locker (8) and Romano. W.—J. Miller (5-3). L.—John (11-6).  
Home runs—Baltimore, Powell (11), Brown (5), Robinson (2-11).  
Chicago 000 000 010-1 5 0  
Los Angeles 100 000 010-2 8 1  
New York 200 000 12x-5 6 0  
Koufax, Podres (8) and Tracewski; McGraw, Fisher (8) and Cannizzaro. W.—McGraw (2-12). L.—Koufax (21-6).

## Orioles Use Power to Belt Sox 8-1

CHICAGO (AP)—Brooks Robinson drove in four runs with a pair of home runs Thursday and led Baltimore's free-swinging attack that subdued the faltering Chicago White Sox 8-1.

Boog Powell drove in three runs with a homer and single and Dick Brown also had a homer for the Orioles.

Robinson had a solo homer in the third and a three-run shot in the ninth. Powell singled in a run in the fifth and had a two-run homer in the first and Brown's blast came in the sixth.

John Miller got credit for the victory, his fifth in eight decisions, but had to have relief help.

## Pirates Build Grid Team on 15 Veterans

HAGERMAN—With 15 returning lettermen, including six starters, the Hagerman Pirates and new coach Jim Martin figure to have a good year. The trouble will be improving on last year's 9-1 record. It doesn't leave the Pirates much margin for error. Martin takes the coaching reins from Al Glanders, who resigned to accept an administrative position. But the new coach is no stranger to Hagerman, having worked there as an assistant for several years. He took his degree at Idaho State and post graduate work at Utah State.

Gone from last year's solid club are Bob Gould, Terry White, Butch Bonning, Dean Jensen and Eddie Hulme, all seeing considerable action.

But returning are enough men to put experience at all positions and seven seniors who are seeking their fourth grid numerals.

The four-year men include Rusty Akers, 200 pounds, and Pat Russell, 170, at tackle; halfbacks Alan Boyer, 150, and Jerry Laughlin, 150; fullback Dave Glauner, 160; quarterback Alan Palmer, 155, and end Danny Butler, 155.

Two-year veterans are guard Ray Zaccane, 155, and Frank Zaccane, 157; John Sady, 150, center, and one-year man, George Tate, 153, tackle. All are sophomores.

Hagerman will play as an independent this year but will again have a special eight-man, 11-man contest with Camas County to open the season. Camas County handed Hagerman its only loss in a similar game last year.

The Hagerman schedule includes: Sept. 23—Camas County at Hagerman; Sept. 10—Hagerman at Raft River; Sept. 17, Castleford at Hagerman; Sept. 24, Declo at Hagerman; Oct. 1, Hagerman at Rockland; Oct. 8, Hagerman at Wendell; Oct. 15,

## Scrimmage

Bruin Field, the new home of Twin Falls high school football team, will host its first full-scale varsity action at 7:30 p.m. Saturday in an intra-squad scrimmage.

Coach Merl Eden said the clock, officials and yard markers will be used.

The week has been spent getting the new T officers installed in the boys' team. Coach Eden reports "spirit is growing and it was good when we started. He added, "what little contact we allowed the boys has shown them really banging. They were very pleased with our first week."

The public is invited to the intra-squad game.

## HIRE AIDE

ATLANTA, Ga. (AP) — Edward M. (Bud) Erickson, assistant general manager of the Detroit Lions since 1958, was named Thursday as assistant president of the new Atlanta National Football League team.

**YOUR BIRTHDAY and HOROSCOPE**

**FRIDAY, AUGUST 27**—Born today, you are highly ambitious, and willing to work to achieve your aims. Not one who expects to have the world handed to him on a platter, you realize that education and training are necessary if you are to make the most of your capabilities; in addition, you have no reservations about starting at the bottom and working your way up. With such attitudes toward work, and armed with abilities for which there is a call, success is practically guaranteed. You will probably be a demanding taskmaster if and when you are in a position of authority; even so, those work-

ing under you should be content with your leadership, for you are fair and understanding, giving praise where it is due, and leveling blame only when it is richly deserved. Indeed, the longer people work with and for you, the more rewarding they find it in terms of both professional and personal satisfaction. Basically an intellectual, you will nevertheless take a great deal of pleasure from physical exertion. It may even be that you will make active participation in sports so much a part of your life that they become bona fide hobbies. As you grow older and are forced to give up

active participation, you will probably find that working with young people in sports — Little League, Scouts, etc. — will bring you equal satisfaction. To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

**Saturday, Aug. 28**

**VIRGO (Aug. 24-Sept. 23)** — Postpone decisions on business matters until some later date, especially should finances be the major issue.

**LIBRA (Sept. 24-Oct. 23)** — Moderation in all things: that should be the motto for this Saturday's activities.

**SCORPIO (Oct. 24-Nov. 22)** — A day when you should be able to fulfill your ambitions in regard to the cementing of an important personal relationship.

**SAGITTARIUS (Nov. 23-Dec. 22)** — Avoid careless mistakes as you stick close to customary routine during morning hours. Afternoon is for fun and relaxation.

**CAPRICORN (Dec. 23-Jan. 20)** — Haste makes waste! Take your time and you should be able to make things turn out as you planned.

**AQUARIUS (Jan. 21-Feb. 19)** — The budget-wise Aquarius will be the one to gain in the long run — though it may not seem so at the moment.

**PISCES (Feb. 20-March 20)** — Postpone any trips until afternoon if possible. Morning hours are not particularly favorable.

**ARIES (March 21-April 20)** — Extravagance now could lead to real want later on. Don't be talked into making purchases you can ill afford.

**TAURUS (April 21-May 21)** — Opposition may seem your only reward for well-laid plans this morning. Take heart; a way should open up.

**GEMINI (May 22-June 21)** — Faulty judgment could deprive you at the last moment of a well-earned success. Keep your wits about you.

**CANCER (June 22-July 23)** — Take advantage of the excellent prospects for both fun and profit. Stick to your guns.

**LEO (July 24-Aug. 23)** — A progressive afternoon should counter a slow morning. Financial difficulties should begin to fade away.

**SATURDAY, Aug. 28** — Born today, you are somewhat inclined to becoming so involved in affairs of your own that you fail to realize what is going on in the lives of other people. This could be extremely detrimental to your professional career, since it could cause you to be unaware of the activities of the competition and, therefore, to underestimate it. Needless to say, such self-involvement could also wreak havoc with your personal relationships.

If you are wise—and you are certainly intelligent enough to be wise—you will make an effort to become actively engaged in the affairs and interests of others; it only means that you should reattach yourself to that mainland from which you may have, through self-engrossment, become separated.

Those born on this date often do not realize until late in life what close ties to family and friends can mean in terms of happiness and satisfaction. Be warned, therefore, against going entirely your own way when you are young. Marry, establish a family, learn to give at least as much as you take, allow yourself to flatter others through a degree of dependence upon them — all these should see you a happier, better integrated person.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

**Sunday, August 29**

**VIRGO (Aug. 24-Sept. 23)** — Plan to spend this day enjoying friends and family. There's romance in the air.

**LIBRA (Sept. 24-Oct. 23)** — The inspiration you need for bigger and better success may come through spiritual guidance during morning worship.

**SCORPIO (Oct. 24-Nov. 22)** — Plan properly and you should be

able to spend a restful, contemplative day.

**SAGITTARIUS (Nov. 23-Dec. 22)** — The usual Sunday activities are favored today. Avoid getting off the beaten track if you would enjoy yourself.

**CAPRICORN (Dec. 23-Jan. 20)** — The Capricorn planning marriage should use this day for thinking everything over carefully.

**AQUARIUS (Jan. 21-Feb. 19)** — An especially rewarding Sunday for one who takes family wishes into consideration.

**PISCES (Feb. 24-March 20)** — You can play a large and inspirational part in church or civic activities today. Extend the hand of friendship.

**ARIES (March 21-April 20)** — This is a day that slowly evolves into a pleasing pattern of family relationships.

**TAURUS (April 21-May 21)** — Afternoon and evening hours are most favorable. Morning worship should lead to interesting observations.

**GEMINI (May 22-June 21)** — Spend time with friends in casual

conversation; enjoy outdoor sports if possible.

**CANCER (June 22-July 23)** — Consideration for others and some self-reflection should be the rule for the day.

**LEO (July 24-Aug. 23)** — Put forth your best efforts to appear congenial even if you don't feel so.

**Fairfield Dance Planned at Meet**

**FAIRFIELD** — Plans were made for a public dance the night of Sept. 11 by the Fairfield Merchants Association at a Tuesday meeting in the Court as County courthouse.

The dance is planned to thank residents who trade in Fairfield with local merchants.

This will be the third special event planned by the newly formed merchants association. William F. Stewart is president of the group.
