

Paratroopers Kill 55 Viet Cong in Bloody Fighting

SAIGON, South Viet Nam (AP) — U.S. paratroopers killed 55 Viet Cong in bloody fighting near Ah Khig over the weekend, military authorities said today. An officer came here from the fighting area 250 miles to the north. He said 100 Viet Cong bodies were found today in a trench. They apparently were victims of air strikes that started the operation. The 101st Airborne Brigade, the report came from the 101st "Screaming Eagle" paratroopers.

Third Storm Boiling up In Atlantic

MIAMI, Fla. (AP) — Tropical storm Carol, third of the season, boiled up far out in the Atlantic Ocean today but forecasters say the chances are the storm will never reach the United States.

"When a storm forms this far east the chances are good it will not reach the United States," said forecaster Gilbert Clark. "I won't say it isn't possible but it's less likely than if it had formed further to the west."

Tropical storm Carol was about 1,550 miles east of San Juan, P.R., and about 2,550 miles east-southeast of Miami early today, moving west-northwest at 14 miles an hour.

Ships in the expected path of the storm were advised to exercise caution but no land areas were threatened for the next 24 to 48 hours.

Erhard Party Has Election Triumph

DOON, Germany (AP) — Chancellor Ludwig Erhard and his Christian Democratic party kept their leadership of West Germany in an election triumph for the chummy government chief.

The voters decided Sunday that after 10 years of Christian Democratic rule they wanted more of the same. The turnout was 86.9 per cent of the eligible voters.

The election results, giving 15,392,973 votes to Erhard's party, disappointed the challenging Social Democrats and their chancellor candidate, Mayor Willy Brandt of West Berlin. His party tallied 12,711,728 votes.

Although Erhard's party won the highest share of the votes, 47.6 per cent, it did not get an absolute majority and is certain to continue its coalition with the Free Democrats.

The Free Democrats garnered 9.5 per cent of the popular vote, compared with 12.8 per cent in 1961.

Erhard told a nationwide television audience: "We are determined to continue our present policy which has won the voters' approval."

This means continued strong support for the Atlantic alliance, the common market and business-oriented domestic policies.

It also means a trip to Washington for Erhard to confer with President Johnson. Erhard has said he would carry it out "as soon as possible."

Loose Gas

ENCINITAS, Calif. (AP) — One tanker truck hit by another tossed a flood of gasoline which ran down the street gutters, ignited, and destroyed eight autos and a small office today.

The sheriff's office reported no injuries. The crash occurred at a deserted downtown intersection at 5 a.m.

Blazing gasoline ran down gutters 1 1/2 blocks in two directions. Firemen, deputies and the Highway patrol arrived at the scene before the gasoline ignited.

Some Pickets Removed in Boeing Strike

CAPE KENNEDY (UPI) — Striking Boeing Co. missile mechanics today removed pickets from four of five space center entrances, clearing the way for a return to work by hundreds of moonport construction workers.

The Boeing members of the International Association of Machinists (IAM) were ordered to direct all Boeing personnel to use one entrance and told the strikers to picket at that gate only.

About half of the 3,500-man building tradesmen at the cape refused to cross the picket lines last Thursday and Friday. The walkout crippled key construction projects at the huge Project Apollo "man-to-the-moon" base.

Nearly all Boeing's mechanics were away from work but the company's missile test work was proceeding with supervisory personnel. Other rocket projects were not seriously affected.

The strike was called Thursday when negotiations for a new contract fell through, largely because of a job security dispute. Bargaining talks were scheduled to resume today at Boeing headquarters in Seattle.

N. Y. Senators Say Immigration Bill Will Wipe Out Discriminatory Policy

WASHINGTON (AP) — Two New York senators, Jacob K. Javits, R., and Robert F. Kennedy, D., told the Senate today that the immigration bill will wipe out a discriminatory policy of 40 years' standing.

The Senate was in its second day of debate on the administration legislation which passed the House Aug. 25. The bill would eliminate the present national origins system of assigning immigration quotas.

Security Council Orders Cease-Fire Within 48 Hours

UNITED NATIONS, N.Y. (AP) — The U.N. Security Council demanded today that India and Pakistan order a cease-fire in 48 hours. The council voted 10-0 in a postmidnight session to adopt a resolution in those terms strengthening its unanimous cease-fire appeals of Sept. 4 and 6. Jordan abstained. The resolution, sponsored by the Netherlands, gave an implied warning to Communist China to stay out of the India-Pakistan fighting. It called on "all states to refrain from any action which might aggravate the situation in the area."

India Leader Says Chinese Hit Frontier

NEW DELHI, India (AP) — Prime Minister Lal Bahadur Shastri declared today Communist Chinese troops are firing across the Indian frontier in two sectors and that Peking is out to dominate all of Asia.

The Chinese, though pretending they want peace, have started firing in the Sikkim area on the eastern front and in the Lushai region of Kashmir State on the western front, Shastri said.

China's "basic objective," Shastri said, "is to attain a position of dominance in Asia."

The prime minister declared that notes and protests from Peking make it clear that "we must defend ourselves at all the means at our disposal."

Socialist leader Nath Pal jumped to his feet and demanded to know whether Indian units on the China frontier had been ordered to fire back.

"I would merely wish to say we will retaliate," Shastri replied. "Shastri made no reply to the resolution passed earlier today by the U.N. Security Council in New York, demanding India and Pakistan end their war within 48 hours."

Stronger than the two previous resolutions, it asked them to help "ensure supervision of the cease-fire and withdrawal." It also asked them to "exert every possible effort to give effect to this resolution," and to report back.

The resolution said that, after a cease-fire and withdrawal, the council would consider "what steps could be taken to assist toward a settlement of the political problem underlying the present conflict."

The resolution called on India and Pakistan to utilize all peaceful means to this end.

Besty's Toll Goes Upward In Cleanup

NEW ORLEANS (AP) — The death toll continues to inch upward as Hurricane Besty's flood waters recede and salvage and cleanup workers move in.

Two drowned New Orleans residents were found in a city street after the hurricane struck 10 days ago.

The Red Cross reported 7,614 evacuees remained in 11 shelters, with another 8,000 being fed by mobile kitchen units.

At Baton Rouge, 45 miles up the Mississippi River, an Army diver, working blind in the muddy water, resumes his painstaking bare hand inspection of a sunken barge loaded with dead-bird choline.

The Illinois Republican told newsmen that backers of the bill to nullify state right-to-work laws "will not even get a majority to curb his planned filibuster against the measure."

The votes of two-thirds of those present (67 if all senators are on hand) are required to end debate under the cloture rule. Dirksen's claim that not even 51 senators would vote for cloture was his strongest claim of strength to date.

142 Killed

BERN, Switzerland (AP) — Skiing and mountaineering accidents claimed 142 lives in the Swiss Alps last year, the Alpine Club of Switzerland reports. This compares with 85 deaths the previous year.

Pakistan Has Victory Over India Tanks

RAWALPINDI, Pakistan (AP) — Pakistan claimed today its forces had knocked out 41 more Indian tanks, all but one during a battle in Sialkot sector, where fighting entered its second week.

A spokesman said the pace of the battle was reduced somewhat from the fighting Sunday in which the Pakistanis said they shot down two Indian jet fighters, captured two tanks, and took 143 prisoners.

Diplomatic activity in the Pakistani capital continued but there were no Pakistani comments on the U.N. cease-fire resolution or the Soviet proposal for an Indian-Pakistan summit meeting in the Soviet Union.

Sialkot Sector lies between the Pakistani city of Sialkot and the Indian city of Jammu, winter capital of Kashmir.

In the Jhelum sector, southeast of Lahore, the spokesman said, Pakistani forces were about six miles inside Indian territory. He said the Pakistani forces had made more tactical gains.

Progress of Sealab 2 Is Praised

LA JOLLA, Calif. (AP) — The Navy's 45-day Sealab 2 under water living experiment reached the half-way point Sunday. Officials praised its progress lavishly.

"We are easily accomplishing or exceeding what we've planned to do," said Capt. George Forster, chief investigator of the experiment.

The second 10-man aquanaut team, except for Cmdr. M. Scott Carpenter, completed its seventh 15 days in 205-foot-deep Sealab Sunday.

Carpenter, the astro-aquanaut, is in his 23rd day on the ocean bottom. He's scheduled to come up after 30 days.

Congo Has Parliamentary Session

LEOPOLDVILLE, the Congo (AP) — The first Congolese parliamentary session in two years opened today in Leopoldville.

In the Senate, a debate on credentials turned into a shouting match. The shouting was ended by sending the question to committee.

The Chamber of Deputies obtained an immediate quorum. Premier Moise Tshombe sat in the front row with three members of his Cabinet, including his Congo party rival, Interior Minister Victor Nendaka.

The chamber chose Congo Deputy Jean-Pierre Darleoyard as temporary chairman. The Congo party claims about two-thirds of the 166-member chamber and half the 132-man Senate.

The last Parliament assembled in 1960 and was sent home by President Joseph Kasavubu two years ago.

The governing party of the last Parliament, the National Congolese Movement of the late Premier Patrice Lumumba, was reconstituted today by only one member.

With Kasavubu's backing and his group's support, Nendaka might feel that he could form a strong bloc around himself.

Red China Says U.S. Intruded

TOKYO (AP) — Communist China charged that a U.S. plane "intruded" into China's Hainan Island and was shot down by Chinese aircraft today.

A broadcast heard here identified the pilot of the F104 fighter as Capt. Philip E. Smith. It said he was captured and parachuted from his plane and tried to flee.

The broadcast claimed the plane was shot down over Hainan, on the northern shore of the island, or just south of the mainland.

Auction Set For Selling of Oswald Notes.

NEW YORK (AP) — A scant collection of letters and other memorabilia left by presidential assassin Lee Harvey Oswald will be auctioned to the highest bidder next week.

This is the first and probably the last sale of Oswald's letters, says autograph dealer Charles Hamilton, who is selling the collection for Oswald's widow, Mrs. Marguerite Oswald of Fort Worth, Tex.

Hamilton estimates the collection's value at \$5,120.

The items include:

A letter to his mother from Russia in which Oswald writes about his "undesirable" discharge from the U. S. Marine Corps, an event which embittered him toward his native land.

His application for admission to Albert Schweitzer College in Switzerland, in which he says he wants "to be a short story writer on contemporary American life." \$100.

His baptismal certificate, signed by a Lutheran pastor, Michael R. Legoon of New Orleans, in which Oswald altered his date of birth so he could join the Marines at 18. \$200.

Two letters from Mrs. Oswald to her son at the Hotel Metropole in Moscow. They were returned with the notation that he had left. Mrs. Oswald says they never have been opened and she doesn't remember what she wrote in them. Hamilton calls them "mystery letters." \$200.

Hagerman Youth Receives Eagle Scout Award at Rites

HAGERMAN — Bryan Berry, son of Mr. and Mrs. Warren Berry, was awarded the Eagle Scout badge during an Eagle Scout court of honor at the Methodist Church, with Alfred Sandy, institutional representative, in charge.

Heber Prescott, Northside District advancement chairman, Jerome spoke, stressing the importance of Scouting, and stated one of the finest character references a boy can have is to say "I am an Eagle Scout." Prescott said that only one and a half per cent of all Scouts attain the rank of Eagle. A Scout works for the Eagle badge and then the Eagle badge works for him.

Special guests were Dr. and Mrs. F. L. Berry, Lewiston, grandparents of the honoree.

The court of honor was opened by the presentation of colors by Sam McAnulty, James Simonson and William Partin. Rev. Ed-

ward Hargreaves gave the invocation. Assisting Sandy in presenting other awards were Leonard Titmus and Elwood Grinos.

Merril Watson was advanced to the rank of second class Scout.

Merit badges went to Dick Bennett, Steve Bennett, Billie Partin, Pat Russell and John Sandy.

The benediction was given by the Rev. Hargreaves.

Compulsion Used Since Days of Moses to Put Men in War

Monday, Sept. 20, 1965
Twin Falls Times-News 5

BY MYRON FEINSLBERG
United Press International
Compulsion has been used since the days of Moses to put men in war. Some men have been drafted into military service, while others have been drafted into the most shameful of American history.

tant decree that the North would conscript an army. From the draft riots of 1863 to the summer of 1965, when the Congress found it prudent to make it a federal offense to desert draft cards, conscription has never been popular in America.

Its history precedes America's. Indeed, some find in the Bible evidence of an early draft. The 46th Verse of the First Chapter of Numbers tells how Moses and Aaron registered men "from twenty years old and upward, every man able to go forth to war in Israel—their whole number was six hundred and three thousand five hundred and fifty."

Napoleon conquered Europe with conscripts. Between 1800 and 1813, he drafted 2.6 million men. In colonial America, every man, even the weak-bodied, had a duty to keep himself armed to protect the community.

More than 650 colonial laws dealt with conscription. The Virginia General Assembly during its 1623-24 session gave commanders authority to "levy a part of men of the inhabitants as well as well as spread the platations and to employ these men against the Indians, when they shall assault us, or need us into our habitations."

George Washington—as a desperate general and later a prudent President—asked Congress several times for a draft law. Wary of a too powerful central government, Congress each time refused.

But the Civil War, the world's first mechanical war in which millions were combatants, made a draft necessary—North and South. Northern volunteers, enlisted for durations of from three to nine months, laid down their arms, sometimes in the midst of major battle, and went home when their enlistments ended. Compulsion became necessary.

The story of the draft during the war between the states, say the Selective Service System, "is a story of bungling, mismanagement, graft and blundered character."

In the South, blanket exemptions were granted men who owned 20 or more slaves and teachers, druggists and newspapermen. As a result, men who were not to serve founded schools without pupils, drug stores without customers and newspapers without readers.

Because men of wealth could buy their way out of the draft, their wages, southern volunteers were paid less than the substitutes and resented them.

In the North, a man of wealth could either buy exemption from the draft for \$300, half a year's pay for an immigrant with a steady 12-hours-a-day work, or hire a substitute at whatever bargain the two reached.

Men became rich as professional substitutes, collecting their bounties only to desert and sell their services again. Rich districts sent substitutes; poor districts sent conscripts. It was a poor man's draft and the poor man's blood.

To New York's Irish immigrants, the war was a far-off affair; to them, the Negro was freed, was likely to take their jobs for lower wages.

A crowd gathered for the first drawing of the lot in 1863. 1,200 names from a barrel at district draft headquarters. Three days later, the riots erupted.

In all, 1.2 million northerners were said to have been drafted; but only 42,000 draftees were actually inducted.

But the time America reluctantly entered World War I "to make the world safe for democracy" it had learned how to draft efficiently and bloodlessly. It registered 24 million men, drafting 2,610,296 of them. Resistance came only from Oklahoma, there tenant farmers, Negroes and Indians staged the "Green Corn Rebellion." It was a brief, ineffective and short-lived affair.

By then war had become

systemized. Europe had learned from Napoleon. When Archduke Ferdinand was assassinated, France, Russia, Germany and Austria-Hungary, all with peacetime drafts, quickly put millions of men into the field.

America could do no less, despite the protest of Speaker of the House Champ Clark, who declared: "In the estimation of Missourians, there is precious little difference between a convict and a convict."

By then, war had made all men its prisoners.

SEARCH RIVER
BONNERS FERRY (UPI)—Boundary County sheriff's officers said Sunday an investigation was being conducted into a report that a man, Adams, 40, a Kootenai Indian, had drowned in the Kootenai River here.

Officers said they received a report Friday that Adams fell into the river while he and a friend were walking near the downtown area Thursday.

The friend, John Abraham, also a Kootenai Indian, told officers he pulled Adams out of the water and left him on the bank and ran to get help. Abraham said when he returned Adams was missing.

Officers, theorizing that Adams might have regained consciousness and again fallen into the river while trying to climb the bank, began a search for the body.

PLANS TO BE HEARD

Concern for the youngster was heightened by low temperatures in the 20s, but the lad appeared to have suffered no ill effects.

MINERS THREATEN TO PARALYZE AFRICA'S INDUSTRY
JOHANNESBURG (AP)—Thousands of dismissed white miners refused to go to work today and threatened to paralyze South Africa's multi-million-dollar gold-mining industry.

Because of their refusal to work, only four of the 11 mines in the Orange Free State goldfield were working normally.

Miners in the Johannesburg area also were affected.

The miners said they are protesting the alleged victimization of some workers and "to insure that in future we shall be treated with justice and equity."

The stone, in remembrance of Churchill, is in the cathedral's west nave, surrounded by the names of Britain's great men down the years.

In a short eulogy before the unveiling ceremony, the dean of Westminster, the Very Rev. E. S. Abbott, said: "Overburdened with memorials that are many, but no one surely grudges the space given to the memory of the great man whose unassailable verdict on the battle of Britain was, 'Thus Britain was saved and never was so much owed by so many to so few.'"

The few were Royal Air Force pilots who manned the Spitfire and Hurricane fighters that battled Adolf Hitler's Luftwaffe. Two hundred of them, their heads now gray, were in the congregation.

Fleet Admiral Philip, Queen Elizabeth's husband, read the lesson. He wore an air marshal's uniform.

Close to the altar sat Sir Winston's widow, Lady Churchill, with her son, Randolph, and other members of the Churchill family. Prime Minister Harold Wilson, along with Cabinet ministers and service chiefs, also attended the service.

Can you put a check-mark in any of these squares?
 My executor is my WIFE.
 My executor is a personal FRIEND.
 My executor is my BROTHER-IN-LAW.

If you checked any of these squares, the chances are you've picked an executor who'll be long on willingness, but dangerously short of the time and special experience it takes to manage the job.

It's a far bigger assignment than you dream... even if your estate is only "average" in size. And a mistake could be costly to your family.

Here is a suggestion that every family man should consider. Many men like yourself have seen the wisdom of it. Your lawyer will probably approve of it heartily.

Make First Security Bank executor or co-executor under your will. When you do, one of the most experienced Trust Departments in the West will serve you — never "out of town," never "on vacation," never "too busy."

The fee which the executor is entitled to receive is the same whether the executor is an individual or trust department. We'll be pleased to fully explain. Phone, come in or write for details.

East Berliner Scales Wall in Graveyard

BERLIN (AP)—A young East Berliner fled to West Berlin Sunday through a graveyard, scaling the wall on a ladder extended to him by helpers in the West.

The flight was staged under the noses of East Berlin border guards sitting in a watchtower only 30 yards away. They did not notice what was going on until the man fell into the arms of his helpers and nearby West Berlin residents sent up a cheer.

All the Reds could do was retrieve the ladder, still lying across the 8-foot, barbed-wire-topped wall.

The refugee was identified as a 25-year-old technician who wanted to join his fiancée in West Berlin.

Cardinal Is For Liberty In Religion

VATICAN CITY (AP)—Long-imprisoned Cardinal Beran of Czechoslovakia backed a declaration on religious liberty today and said the Roman Catholic Church apparently was suffering in its Communist-ruled homeland because of past sins against Protestants.

The 75-year-old prelate, released last February from 16 years in confinement in Czechoslovakia, was warmly applauded as he stood before the Vatican Ecumenical Council to address it for the first time.

Cardinal Beran said the principle that every man has the right to worship according to his conscience was confirmed by his own experience.

The Czech cardinal spoke as debate continued in a controversial council draft declaration on religious liberty. A vote had been expected today, but so many of the 2,200 council fathers still wanted to speak that a vote seems unlikely until later in the week.

An approval vote doesn't mean the religious liberty declaration is finished and decreed. Instead, the text becomes frozen from any major change while a subcommittee of the Vatican's Christian Unity Committee looks over suggested amendments made in council speeches or in writing.

No suggestion that runs counter to the spirit and basic principles of the declaration can be accepted, however, under council rules. Later in this fourth and final council session, the declaration will go back to the bishops and a final over-all vote before Pope Paul VI and the entire assembly can make their decree.

"WE ARE AMERICANS"
Music for Our Country's School Children

"To create the love of music in a child ... is an artist's finest reward!"
No artist is better qualified to speak such words than Carmen Dragon, conductor of the Standard School Broadcast, heard by millions of children in their classrooms, and adults in their homes, on Thursdays throughout the school year.
"What a thrill," says Dorothy Warenskjold, "to open a world of music to American children!" "It is a wonderful privilege to share in this creative work," says Paulina Carter. "The child with a love of music grows into a richer person," says Norma Zimmer.
For these stars of opera, concert, radio and television, as for many others, the Standard School Broadcast helped to start their present successful careers. They have performed regularly since, with enthusiasm.
These distinguished artists are only a few of hundreds who have made this unique program, from opera to folk music to symphony to jazz, an American educational asset. They gladly take time from their busy lives to perform with Standard Oil because... "To create the love of music in a child is an artist's finest reward."
"We Are Americans," the 38th annual Standard School Broadcast radio series, begins October 21, 1965. Please consult local papers for time and station.
Just as they learn the appreciation of music, young people also learn that the man at the Sign of the Chevron means friendly service to the family car.

DENVER, Colo. (AP)—Passing stole the show from a herded fullback duel as Buffalo's Jack Kemp threw oftener and sharper to beat Denver 30-15 in an American Football League game Sunday.

Vandals Lose Game, But Retain Image

By United Press International
Idaho's Vandals may have lost their season opener last weekend but the men from Moscow confirmed what their new football coach has been saying all along—"we'll be tough." The Vandals, pre-season favorites in the Big Sky Conference, opened against non-league rival Washington and outplayed the Huskies most of the game only to lose in the final minutes, 14-9.

The loss was a heartbreaker for Coach Steve Mussean, who was making his debut as head coach of the Vandals. Mussean and his players certainly didn't lose any prestige, even in losing. In fact, they gained stature.

All teams, with the exception of Montana, are involved in non-league play next weekend. Idaho will try to forget the loss to Washington by playing at home against San Jose State.

Idaho State will make its home debut against upstate rival College of Idaho and defending Big Sky champ Montana State returns to action at home against Wichita. Weber State hits the road to meet Eastern Montana at Billings.

Idaho, seeking its first victory over Washington in 60 years, had taken a 9-7 lead in the third quarter when 24-pound fullback Ray McDonald smashed over from five yards out.
