Elusive Comet Sighted by Three Men

The Ikeya-Seki comet, apparently difficult to spot in this area, was reported sighted by three employees of Idaho Frozen Foods, Inc., Wednesday evening. Nicholas Carter, director of the planetarium and observatory, however, reported Thursday morning that he had been able to see the comet with telescopes Wednesday evening and early Thursday morning.

He said he began looking for the comet at 4 a.m. Thursday and discontinued at 7 a.m. Carter explained he also had been listening to a short wave radio to determine if any other observers had made a sighting. There were no reports over the short wave.

Meanwhile, the comet apparently was sighted Wednesday evening by Gary Jenkins, an Ehrmanraut and Joe Carter, all employees of Idaho Frozen Foods, Inc. According to Carter, the men were working on the loading dock when they sighted the comet, at approximately 6:30 p.m. In the Carter described it as looking "a ball of fire" with a "tail and appearing yellowish in color. He said it was visible for about 20 minutes before it went below the horizon.

Johnson Dismissed From Naval Hospital

WASHINGTON (AP) — President Johnson, smiling and waving at well-wishers, left Bethesda Naval Hospital today at 1:05 p.m. EDT, 13 days after his gall bladder and kidney stone operation. The President, dressed in a dark business suit, walked briskly with a Johnson beside him. Before leaving the hospital, he visited for a few minutes in a ward where Marines wounded in Viet Nam were under treatment.

Key West Has Busiest Day of Refugees

KEY WEST, Fla. (AP)—A 62-year-old Cuban fisherman, who has inspired Ernest Hemingway's "The Old Man and the Sea" and who arrived in exile today, the busiest day for refugees since Castro opened the doors of the Coast Guard said more than 100 small boats into the keys as a two-day lull in the exodus of refugees ended. The boats were on the way, many with a crew of two or three, and many were waiting to make the trip. The small craft were coming in a choppy puffing rain and a clip that the Coast Guard, which has been trying to keep up.

Smylie Welcomes Safety Delegates

BOISE (AP)—Gov. Robert E. Smylie welcomed delegates to the annual Idaho-Governor's Conference in Boise. This year's meeting will be devoted to discussions of means of reducing accidents of all types. Scheduled for late today were panel discussions covering industrial safety, traffic safety, mining safety, farm and home safety, construction safety and logging and newsmill safety. The conference will end Friday morning.

Smylie Lauds Renewal Efforts, Says T. F. Needs "Rebuilding"

BY RICHARD HIGH
"Without being critical of Twin Falls, its downtown area could use some rebuilding," Gov. Robert E. Smylie told the Times-News in an exclusive interview Wednesday. "Unless we are willing to have a merodding scab around the sore, we had better do something about it," the governor continued. "This is a classic situation for Idaho cities. Boise and Caldwell have the same problem. Most of the buildings are 50 or 55 or 60 years old and are reaching the end of their lives," he said.

T. F. Man Is Fatally Injured in Accident

A 55-year-old Twin Falls man, employed by the city of Twin Falls on a water department project about three-fourths of a mile south of South Park on Idaho 74, died Wednesday afternoon at Magic Valley Memorial Hospital after he was injured in a car-pedestrian accident about noon Wednesday. Edward Shockey, 55, 571 Highland Ave., died at 2:26 p.m. after being struck by a car driven by Rick Cutler, 16, 842 Morningside Drive. Investigating officers said Cutler was traveling south on Idaho 74 and swerved to the right on the highway in an attempt to avoid hitting a truck driven by John Folsom, 450 Wakefield St., which was crossing from the west side of the road to the east side. Folsom told officers that Shockey had motioned him to cross the highway.

Deny Charges

CARSON CITY, Nev. (AP)—Three ministers, charged with falsely dating marriage certificates in an evade-the-draft rush to the altar, say they'll fight legal actions against them. The three are the Revs. Minnie Orcutt, Opal Beeler and Harold Reymann, who operate wedding chapels in this state capital.

The 44th traffic death occurred Oct. 20 as the result of an accident in Twin Falls County.

Records Are Shown to Klan Dragon

WASHINGTON (AP) — House investigators tried to light a fire under reluctant Klan Dragon James Robert Jones today by producing some of the records he had refused to turn over — income tax returns. Jones, the North Carolina dragon, remained reluctant to talk and kept silent under sharp questioning about whether he had been reimbursed by the United Klans of America for deductions he had claimed — such as the cost of robes. In declining to answer questions, he cited constitutional protections against self-incrimination.

Actress Is Found Dead At Her Home

HOLLYWOOD (AP)—Actress Marie (The Body) McDonald was found dead in her rambling ranch home early today. Sheriff's deputies said the circumstances of her death were not known immediately. Officers said Miss McDonald's husband, Donald F. Taylor, reported discovering his wife's body at 5:30 a.m. Homicide investigators were dispatched immediately to the home in suburban Hidden Hills, on the farthest side of the sprawling San Fernando Valley northwest of Hollywood.

Three hours later the circumstances surrounding the famed actress-singer's death were still cloaked in mystery. Taylor, an independent film producer, was the 42-year-old actress' fifth husband, but her sixth marriage. She was formerly wed twice to show magnate Harry Karl, who is now the husband of actress Dobbie Reynolds. Miss McDonald's other husbands were sportsman Richard Alford, her agent Victor Groutin, and attorney Edward P. Callahan.

Revamped Sugar Bill Passes Senate

Long Overdue

The proposed relocation of U.S. Highway 93 at Rogerson is long overdue. As the result of a succession of fatal and near-fatal accidents down through the years, it became obvious long ago that some change in the highway was necessary. The long delay leading to the present proposal isn't anything peculiar to Rogerson. Any Idaho driver could tick off several other good examples of danger spots that have existed for years and aren't as close to a solution as the routing at Rogerson.

It should be firmly understood by all concerned that everything possible has been done to alert drivers to the danger at all these spots, where major accidents seem to occur. But in spite of more than adequate warning signs, fatal accidents continue to occur. Perhaps flashing yellow lights, more prominent signs and painted warnings on the highway might serve to reduce the incidence of Rogerson crashes, but it wouldn't solve another problem, namely, the unnecessary restrictions imposed on all traffic by being funneled through a tiny community.

On the other side of the problem, through traffic creates an unnecessary danger in Rogerson. Although there aren't too many pedestrians, walking across the highway is hazardous. At night, it's not unusual for cars to roar through Rogerson at 60 miles per hour because many drivers aren't willing to slow down for a small cluster of buildings. The dangerous curve at the south edge of Rogerson slowed many more drivers than the community itself.

Perhaps there will be some objections to the Highway Department's proposal for re-routing, but clearly the plan is in the best interests of travelers and most residents. From the standpoint of public safety, there can be no objections.

SELECTIVE POISONS
When scientists first became involved in what has become the extensive pesticide industry, there were all sorts of claims that insects and other pests could be eliminated entirely. Everyone will recall that with the development of DDT there were assertions that the pesky housefly was a thing of the past. Well, perhaps flies aren't as numerous as once, but some have developed a resistance to DDT and so other lethal weapons were devised. Flies continue to exist and under some circumstances, in profusion.

Some readers may recall this well-known example when reading in the Times-News the other day that scientists at the University of Idaho have found a selective poison that kills only squawfish. An enthusiastic story about the development proclaimed "it's the end of the line" for squawfish. Perhaps, but time will tell. It seems almost impossible to treat all the streams and reservoirs where the wretched trash fish is found in vast numbers.

Even if elimination is on the optimistic side, it's obvious the selective poison will permit selective control, something that hasn't been possible heretofore. Of much greater interest is the possibility that scientists can develop other selective poisons to control other trash fish. If such control becomes economically feasible and scientifically possible, new doors for stream and fishery improvement will be opened immediately.

For example, if a reservoir can be treated with a poison that will kill only perch, for example, the Fish and Game Department can eliminate perch from a reservoir without losing all fishing recreation for two or three years. Of course, the treatment would have to be repeated at intervals, particularly in such cases as Maple Reservoir where some diehards have insisted on re-introducing perch.

BETTER EXPLAIN THEM
Closure of the New York World's Fair was accompanied by the usual ceremony of preserving examples of current "civilization" in a capsule intended to be opened some 5,000 years in the future. This one contains a 117,000-page micro-filmed record of the last 25 years and some 45 objects. The items include a Bikini bathing suit and a Beatles record.

It is to be hoped that the 117,000-word record includes some specific explanations about the objects, particularly the Bikini and Beatles record. Judging by what has happened in the past, it's not always possible to determine the use of an artifact after it has been unearthed. Already the world has many examples of items dug up from the past that have defied explanation.

NATIONAL WHIRLIGIG

By ANDREW TULLY
WASHINGTON — For the select, lunch in Washington is not eaten—it is staged. The midday meal is a production, a carefully contrived show with all the cunning of an Otto Preminger. It is show-and-tell on what might loosely be described as the adult level, a performance aimed at seeing and being seen in an establishment which is indisputably "in."

But it is no good swooping into an "in" restaurant with someone who is unin. This will get you attention, but of the wrong sort; friends who have snagged an assortment of assistant cabinet secretaries and Peace Corps gentlemen for the ritual bread-crumbling will shake their heads sadly and note with suppressed glee that "Glotz doesn't seem to have it anymore." You have only yourself to blame for eating with a mere friend instead of Bob McNamara.

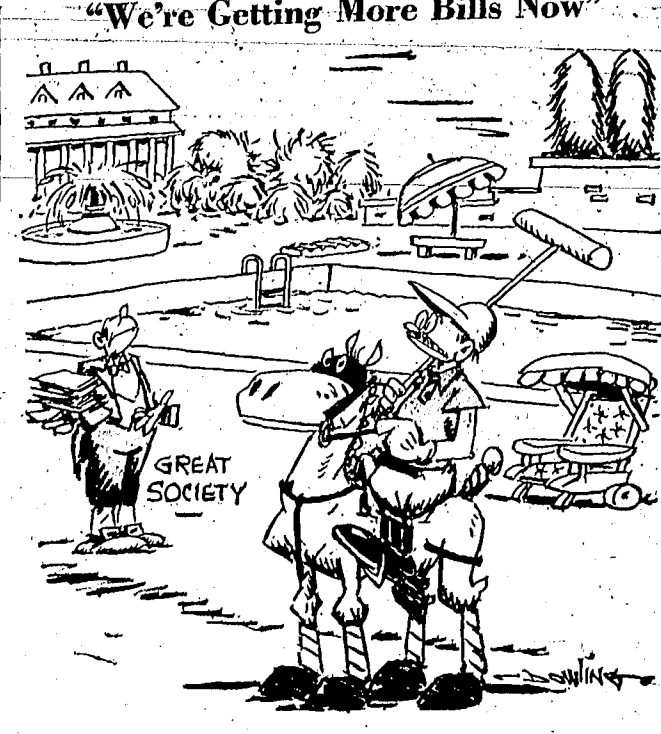

SEE AND BE HEARD People lunch with other people in Washington to find out things they can use in their own little jobs. But lunch with an undignified VIP is a social success even if the VIP limits his conversation to observations about his chronic hayfever or the proper consistency of vichyssoise. First, you have been seen with this job and second, Washington assumes he has told you all kinds of secret and important tidbits.

Having thus lunched, you can pretend to knowledge by association—often without telling a barefaced lie. At the daily cocktail party, you are permitted to toss off the intelligence that "I had lunch with Bill Moyers today." And then depose candidly that Hubert Humphrey because the vice president made a speech to the Associated Mothers-in-Law of America in which he failed to mention that the latest polls showed 99.8 per cent of the voters approved of Lyndon Johnson's decision to wear a navy blue suit for his latest TV appearance.

HOW TO DROP A NAME This name-dropping works both ways. Should you actually lunch with Moyers, or Dean Rusk, it is available to get the conversational ball rolling by remarking that "Art Goldberg was saying the other day..." or "Earl Warren doesn't seem too worried about that move by the John Birch Society to impeach him." Your companion will not lightly dismiss this as malarky; United Nations ambassadors and Supreme Court justices often are trapped into passing the time of day by strange people.

Lunch with a military uniform is always a good bet. If he is, in fact, an obscure colonel, he knows your Aunt Agatha, you can get him off the cocktail circuit as "Army Intelligence, you know; sorry I can't tell you his name." Or the hometown civilian who took you for \$5 worth of eggs benedict can be identified with a meaningful lift of the eyebrow as "a spook from Central Intelligence." Or, better, "one of the hands out at the pickle factory."

A THREE-MAN PARLAY A journalistic acquaintance who once pulled this play found himself suddenly persona grata at the Pentagon. The day after lunching with an old Yale pal who was looking for a job, he got a phone call from an admirer who confided that "those eggs, Eggyolk. Did your friend happen to say anything about it?" The newsmen, of course, revealed he had been sworn to silence, a gambit which won him three free lunches with the admiral.

GELFEMAN IN THE FOURTH ROW

Washington News
By LYLE WILSON (United Press International)
To understand what goes on in New York City, it will be necessary for Republicans in the vast Middle West and conservatives everywhere to realize that the Republican Party label no longer means much of anything in the great state of New York.
What goes on in New York City is a majority election. This election could validate the Republican Party label. It might also offer conservative New Yorkers an escape from the political doghouse. All American citizens have a far stake in next month's election and all should understand why. Left wingers of all parties should know that the conservative political movement may be born again next month in New York City. Left wingers will hate and fear the very thought of it.
Consider this: The Conservative Party, Inc. (CPI) has a candidate in a three-way contest for mayor of New York. CPI knows its man cannot win. But there is a good chance he will win. He will win with a margin away from the so-called Republican candidate enough votes to obtain the election of the Democratic candidate. The Democrat is a pedestrian politician named Abraham Bram.

The CPI candidate is in the contest not to win but to damage the Republican candidate. He may do it, too. Polls indicate as much. The CPI candidate is William F. Buckley Jr., editor of the magazine National Review. It is important to know that Buckley is not a member of the John Birch Society and that he can prove it. That makes him safe against the usual and deadly attack to be expected by all conservatives who now venture into politics.
One of the reasons for this is the personal freshness of modern man, he claims.
Mathes, part-time ringmaster of a miscellaneous circus but usually a mechanic, complains in common with most West German employers, of an acute staff shortage.
The personnel shortage is one of my biggest problems, he says.
"Modern living conditions and especially sleeping facilities are simply unbearable for fleas."
You just cannot get fleas from private people any more—only from scientific institutes.
The art of training fleas is at least 500 years old according to Mathes, who says a medieval English monk was burned hot to the stake because he knew how to train fleas, an art then considered witchcraft.
But, because of the flea shortage, the day of the flea circus is nearly over, he says, adding that besides his there are only two others operating in West Germany.
Mathes inherited the secrets of flea-training from his uncle Roloff Ottow, who took his troupe all over the world. His uncle even presented shows to Queen Victoria of England, Kaiser Wilhelm of Austria and Pope Leo XIII, Mathes says.
On engaging a couple of dozen artists from a scientific institute that breeds fleas he puts a minute thread around the neck of each one, to prevent them from escaping.

MARQUIS CHILDS WRITES ON WASHINGTON

WASHINGTON — The scoreboard for the session of Congress coming to an end shows most of the runs racked up by the star player, Lyndon Johnson. How much of this is performance, how much public relations and how much the big Democratic majorities pulled in by last year's year's landslide, the historians will sort out.
But however it is judged, the score is as impressive as any in this century. New legislation has meant advances in every field from the arts to medical care to highway beautification. The program has been the President's, bearing his stamp to an extent unequalled since the hundred days of the New Deal.

Johnson, to the surprise of no one, is a one-man band. Or, to change the figure of speech, he is like a great banyan tree with branches that spread out shoots which grow down to the soil and form secondary trunks. Covering a wide area these trees cast a deep shade that kills all other vegetation.
Other scoring players are obscured by the big letters at the top of the scoreboard. Sen. Mike Mansfield, the majority leader, has followed a sensible course trying to keep the machinery moving at White House orders. On the House side, the Democratic leaders have shepherded the top-heavy majority with unassuming skill at the signals from the executive office.
It is the Johnson approach as a master maneuver, it was in

Party and got the Liberal nomination as well. The Liberal Party is a far left creature of the New York garment industry trades unions. Lindsay's effort to mix the political principles of the Liberal and Republican parties is an outrageously unwatered as a mix of oil and water. The Liberal Party usually supports Democratic candidates in New York elections provided that they are left wingers running on half-center programs.
The Conservative Party, Inc. was formed in 1962 to prevent the Republican Party in New York from following the Democrats and Liberals into left field. CPI explained: "The founders of CPI are Republicans who assert their purpose to compete Republican national and New York State conventions to consider conservative preference when nominating candidates for national and state tickets."
The politically unknown CPI candidate for governor in 1962 polled 142,000 votes. A political unknown U.S. senatorial candidate in 1964 polled 200,000. Polls indicate that Buckley may get 10 per cent of the New York vote for mayor and that, if so, he probably would prevent Lindsay's election. CPI is coming of age.

Teacher Gives Time, Money To Homeless

LOS ANGELES (AP) — Her spare time and modest savings went to start a \$3-million fortune — all the profits from which she spends on homeless boys.

Miss Lee, 79, a retired Los Angeles school teacher, and an aunt of Secretary of the Interior Stewart Udall, earned the money investing in real estate over the past 35 years. All her profits go to the Little League for Homeless Boys, a charity for boys who maintain. She lives on her teacher's pension.

Her explanation: "As a teacher, I noticed quite a pattern in boys having difficulties. They were boys who didn't have a good home situation.

"This is a man's world. It takes a man to develop a boy into a man. Ninety per cent of the boys in trouble were from homes where there was no home, no male figure in their lives. I tried to find homes for these boys, but I was unsuccessful. I made up my mind then that I'd have to be like the little red hen and do the job myself."

This meant she'd need plenty of money, and she never made more than \$300 a month as a teacher. But she saved what she could.

Her first real estate deal came in 1930 when she paid \$1,000 for a lot in the Wilshire district.

"I sold it two years later for \$5,000," she recalls.

Then she began looking for larger investments.

"I must have bought and sold 50 apartment houses since I started operating," she said.

By 1950 — four years after she retired from teaching — she had enough resources for her project. She says that when she dies her estate will go to continuing the project.

Miss Lee said it cost from \$40,000 to \$50,000 to build each home.

Miss Lee hires Mormon couples — her own faith — to run the homes, which, however, are non-denominational. Each house is 10 to 12 boys 12 to 17 years of age.

Grand Opening Slated at Remodeled Radio Station

KEEP radio station will have a grand opening at its remodeled facilities from noon to 9 p.m. Saturday. There will be a private opening for clients and stockholders from 2 to 10 p.m. Friday.

Prizes such as snow tires, family vacations to Yellowstone Park, radios, groceries and records will be given away Saturday. Hot dogs, soft drinks, coffee, Schroeder's popcorn and free balloons for the children will be served.

There will also be a merry-go-round, llama rides, stage-coach rides and live music by the Saints. Tours through the building and meeting of the personnel will be arranged.

To celebrate this event, KEEP personnel will be driving old buggies and antique cars until the Saturday opening.

New equipment and remodeling on the station cost about \$30,000. With this new equipment the station will be able to send out a stronger signal so people in the outlying areas of Magic Valley will be able to pick up the radio station with-

out having the signal fade in and out as before.

KEEP radio station, which is a subsidiary of Idaho Investment Corp., has nine people on its staff, with a total of 105 years of experience in radio among them.

Disappointment

STANLEY, England (AP) — After practicing for 20 years, the Stanley Civic Orchestra family is going to play in public.

Twenty years ago a group of local amateur musicians began playing together, but no one ever asked them to play.

The Urban District Council built a civic center and asked the orchestra to play next Monday night. At the final rehearsal, the orchestra was told the concert must be postponed for another six weeks. The building isn't ready.

Comedian's Papers to Go In Library

BEVERLY HILLS, Calif. (UPI) — Comedian Groucho Marx in one school dropout whose personal papers are destined for inclusion in the U.S. Library of Congress.

Marx, saying he was "astounded and flattered," confirmed last night that the congressional library had asked him to donate his papers, including letters and manuscripts.

For a fellow who didn't finish public school and who spent most of his life in small-time vaudeville and the movies, it's quite a thing, said the cigar-puffing, mustachioed member of the famed Marx Brothers.

"They must be desperate for material," he quipped.

Future of Rent Subsidy Plan Unsure

WASHINGTON (AP) — President Johnson's controversial rent subsidy program is still alive after a victory in the Senate. But it faces an uncertain future.

Wednesday the Senate narrowly approved funds to launch the program this year.

Today House conferees are expected to try to torpedo the program in a meeting with Senate conferees on the rent-subsidy money bill that includes \$360,000 for the first year of rent supplements.

Eventually, under terms of the bill, the government would be authorized to provide \$12 million in federal grants to help low-income families pay their rents.

The House voted 185-162 last week against providing funds for the program this year. But the Senate Appropriations Committee put the money back and the Senate in two roll-call votes Wednesday went along.

A Republican-led effort to eliminate payments this year failed 45-37. Then, a Republican drive to cut the program in half was beaten 41-37.

The Senate then made several minor changes in the \$1,867,248,103 appropriation bill, the last of the year, and passed it by voice vote.

The conference committee will try to reconcile the bill with a House version which provided \$4,214,420,619. The Senate bill in turn requests a number of administration requests were sent to Capitol Hill after the House Appropriations Committee ended its hearings.

Live Longer

MOSCOW (AP) — People in the Soviet Union live an average 70 years now, as compared to 52 for Russians at the turn of the century, the government paper Izvestia reports. In an article by Prof. J. Uralis it says longer life could be achieved by overcoming such problems as alcoholism.

Meet Slated on Sewage System

FAIRFIELD — A public meeting is planned for 8 p.m. Wednesday in the American Legion hall to acquaint residents with the details of the proposed sewerage system.

Officials are expected to be present to present the plan and answer questions concerning the proposed system.

Residents will vote on a \$125,000 revenue bond issue and a \$30,000 general obligation bond issue at the Nov. 2 election, for the construction of a sewerage system and waste disposal system for the village.

A two-thirds majority is needed to pass the bond issue.

PTA Membership Drive Under Way

Buhl — The annual PTA membership drive is currently under way. It is announced by Mr. and Mrs. Richard Snow, ex-presidents.

It is also noted the school activity calendar, which is an annual PTA project, has been completed and will be available to the public next week.

PTA room representatives will host a Halloween party for Buhl Elementary School students Oct. 29. Treats will be served and special entertainment planned.

Advisors of T. F. School Course Meet

Lyle Brenna, Idaho state supervisor of business education, met with the advisory committee for the office occupations course at Twin Falls High School Tuesday noon for a luncheon in the cafeteria followed by a meeting in principal George Staudacher's office. Members of the committee are L. M. Hall, Idaho Power Company; Al Westergren, Times-News; Glenn Romig, Sears, Roebuck and Company; George Staudacher, principal of Twin Falls High School; Ernest T. Reed, superintendent of schools; and Arthur Kleinkopf, assistant superintendent. Mrs. Dorothy Pressay is the teacher-coordinator of the course in office occupations.

Additional businessmen will be asked to serve on this advisory committee and the next meeting will be held Nov. 8. Hall was elected chairman to serve for the coming year. One purpose of having such a committee is to acquaint the committee members thoroughly with the materials used and the content of the course. Another purpose is to determine if there are areas which are not now being included and could make the students better prepared to succeed in a business office as a clerical or stenographic worker. Still another is to discover if equipment used for training is adequate and necessary. Mrs. Pressay presented an outline of the course and the list of business offices where the students will work part-time beginning Nov. 8, the start of the second quarter of school. She pointed out three offices already using girls because they needed part-time help before the regular starting time in November. There are 20 girls in the class this year as compared with 16 last year. Any businessmen interested in participating in this work-experience program may contact Mrs. Pressay at Twin Falls High School.

Civil Service Examinations Announced

A new entrance-level examination for professional engineers and scientists is announced by the U. S. Civil Service Commission. These entrance-level positions pay \$5,990 and \$7,050 a year. Successful applicants will be engaged in professional work in research, development, test, and evaluation projects in all branches of engineering and in chemistry, mathematics, metallurgy and physics. Most of these positions are for duty in various departments and laboratories in the Washington, D. C., metropolitan area although a number of engineering jobs will be filled in other parts of the country. Education in an appropriate field is required, or a combination of appropriate experience and education.

Another new examination is for illustration jobs in the Washington, D. C., area paying \$5,000 to \$10,250. Varying amounts of experience are required as a commercial artist in public information, exhibits, advertising, or as an illustrator of technical or scientific material. Appropriate education may be substituted for experience. Announcements and application forms may be obtained from R. O. Finney at the Civil Service Examiner's office, Twin Falls, or from the U. S. Civil Service Commission, Washington, D. C.

Three Magic Valley Peace Officers Receive Honor

HAGERMAN — Three members of the Magic Valley Peace Officers Association were presented lifetime membership cards and plaques at a meeting Tuesday night at the Hagerman Hotel. The awards were made by State Patrolman Richard Burns, Buhl, Lt. Jake Wall, Rupert, Fred Abrams and First Lt. M. J. Bays Jr., both Boise. Wall started his law enforcement work as sheriff of Mindoka County in 1943 and later served as Rupert chief of police for five years. He also served as justice of the peace, probate and city judge at Rupert. Abrams was Jerome police chief for 17 years and prior to that was in the Mindoka county sheriff's office at Rupert. He has been employed at the State Penitentiary, Boise, the past two years. Lieutenant Bays is the lieutenant inspector of the Idaho state police. He formerly was in charge of district four, which includes Magic Valley, for four years. Bays has had 19 years of service with the department. Guest speaker for the evening

September Is Big Vacation Month in Idaho

BOISE (UPI)—September has become a big vacation month in Idaho as the summer months. Says Louise Shaddock, head of the Idaho Department of Commerce and Development. Miss Shaddock said Wednesday there was a 91.3 per cent increase in tourist inquiries for September 1965 over 1964. She said there has been a 37.4 per cent increase in tourist mailings for the year to date.

More than 637,000 brochures, maps and other tourist information have been sent out this year. She said this tops the record year of 1962 when the Seattle World's Fair brought a great influx of tourists.

the course, which lasts for 47 weeks, with a six hour day, five days a week. To enter a student must take an aptitude test, have a high school education, be 21 years of age upon graduation from the course, or shortly after. They must be at least 5 feet 8 inches tall and weigh 145 pounds and not over six feet 6 inches and 220 pounds. Eyes may be correctable to 20/20 vision and the applicant cannot be color blind. An oral interview with the counselor and character reference are necessary, as is FBI clearance. This far, the 204 hours covered have dealt with police history, ethics, gunnery, reports, typing, first aid, sketching, untrace defense, law of arrest, criminal identification, accident investigation, traffic control and enforcement. The equipment is available for this training and trainees will do field work with various police agencies in the valley. The police agencies are sending specialized instructors to teach certain phases of the course. Dohbs states this training program fills a need as there are no funds set up for police training, and more law enforcement experience is needed in the state. The Magic Valley Police Officers' association is made up of nine counties, from Stanley to Nevada, and from King Hill to Utah. Thirty-two peace officers attended the meeting.

Forest Unit's Use Receipts Are Reported

P. M. Rees, forest supervisor, has announced payment totaling \$34,788 to the states of Idaho and Utah in the amount of 25 per cent of all proceeds from sale of timber, grazing, land special uses, recreation, power and mineral uses collected by the Sawtooth National Forest. These "25 per cent part payments" become part of the states' tax structure and are expended as the legislature may direct for the benefit of the public schools and public roads of the counties in which the Sawtooth National Forest is situated. By counties, fund receipts were allocated, based on national forest acreages, as follows: Blaine, \$3,575; Coeur d'Alene, \$2,840; and Twin Falls, \$1,788. Besides the revenue sharing payment benefits listed, many intangible benefits accrue to counties and local communities from national forest activity as contributions in kind. Other benefits of this type are both economic and social in character. The assurance of a permanent raw material supply for the timber-based industries in local areas represents an economic benefit of the national forest system that is difficult to measure, according to Rees. Reforestation of cut-over areas, protection of the forest

resource from fire and pests, and timber management including regulation of the cut are all important factors in the stability of forest industries and of local economies. Livestock industries and recreation-based industries likewise benefit from the assurance of a permanent grazing and recreation resource.

Social benefits of the national forests relate primarily to watershed and recreation values. From a watershed standpoint the protection afforded the soil cover through sustained watershed management helps regulate water flow and prevent erosion and floods. Suitable watershed cover is of prime importance in maintaining water quality.

Draft Demonstrators Said To Be Hypocrites at Heart

WASHINGTON (AP) — Marine Corps Commandant Wallace M. Greene Jr. says American youths who demonstrate against the nation's Viet Nam policy are hypocrites at heart.

If they were sincere, Greene said Wednesday, they would volunteer for humanitarian programs in Southeast Asia.

"Let them prove themselves as Good Samaritans by crossing the road to lift up their brothers, to tend the sick, to feed the hungry, to clothe the naked, to shelter the homeless," he told the Defense Supply Association's national convention.

"If they do this first, rather than parade on the other side of the street, with a placard on their shoulder, a song on their lips and hypocrisy in their hearts."

The same day Greene issued this challenge, Students for a Democratic Society, leaders in recent student demonstrations against the war, proposed that draft-age men be given the alternative of public service — the Peace Corps, for example.

Otherwise, he said, "Both the group's national secretary, 'We have only one choice. We do in conscience object, utterly and wholeheartedly, to this war; and we will encourage every member of our generation to object, and to file his objection through the Form 150 provided by the law for this conscientious objector.'"

Booth continued: "We are fully prepared to volunteer for service to our country and to democracy."

"Let us see what happens if service to democracy is made grounds for exemption from the military service."

Throughout the country a wave of counterdemonstrations continued to build.

At New Haven, Conn., for instance, a group of Yale students came for attendance at a mass rally today to demonstrate backing for American policy.

At the University of Missis-

sippi in Oxford, the campus senate adopted a strong resolution of support of administration policy and condemned demonstrations against it.

In Sacramento, Calif., California Assembly Speaker Jesse M. Unruh said there will be a legislative crackdown on the University of California if the Berkeley campus continues to be "a staging area, a fountainhead" for the demonstrations.

In Iowa City, Steve Smith, 20, sophomore engineering student at the University of Iowa, burned what he said was his draft card before a group of students on the campus.

In Omaha, Charles H. Deford, Iowa-Nebraska field office of the FBI, said the incident is being investigated.

Marine Corps Prepares for Draftees

SAN DIEGO, Calif. (AP) — The Drill Instructors of the Marine Corps Recruit Depot are preparing for company: The draftees are coming.

For the first time since the Korean War the Marine Corps, traditionally a volunteer outfit, is turning to Selective Service to help expand the corps by 30,000 men.

Preparations are being made for the arrival next month of the first of the November quota of 4,050 draftee Marines.

The draftees won't know they're on their way here until they're assigned, by lottery, at the time of induction. The November call is for a draft of 30,450. Eight out of nine men will go to the Army, the ninth to the Marines.

Eastoners will go to the recruit depot at Parris Island, S.C., the rest here.

Here's what they'll find at San Diego:

Training will be accelerated. Boot camp has been cut from 12 to 8 weeks. Recruit companies will be bigger, with as many as 80 men, instead of the old average of 70. The number of DI's is being increased 40 per cent.

Each company will have a platoon commander and two DI assistants. Physical training, always rigorous, will be reduced by 18 1/2 hours.

"I think the eight-week schedule is bigger, with as many as 80 men, instead of the old average of 70. The number of DI's is being increased 40 per cent."

Many of the new boot camp graduates are told they'll be headed for Viet Nam after three weeks' infantry training at Camp Pendleton, Calif.

Physics Prize Awarded Jointly

STOCKHOLM (AP) — The 1965 Nobel Prize for physics was awarded jointly today to two Americans and a Japanese — Julian Schwinger of Harvard, Richard Feynman of the California Institute of Technology, and Sin-Itiro Tomonaga of Japan.

The Royal Swedish Academy of Science said the award was given for "their fundamental work in quantum electrodynamics with deep-ploughing consequences for the physics of elementary particles."

The prize money—about \$55,000—will be shared equally by the three winners.

Steve Allen May Appeal to State Court

SAN FRANCISCO (AP) — Comedian Steve Allen says he will appeal a State Supreme Court decision that he can not run for the congressional seat vacated in Los Angeles by James Roosevelt.

In a brief, unanimous opinion the California high court ruled Wednesday that Allen "failed to comply with the provisions of the election code and... therefore cannot be certified as a partisan candidate."

The court agreed with Los Angeles registrar of voters Benjamin S. Hite who refused to certify Allen as a Democratic candidate because Allen had registered too late as a party member.

The election code requires that a candidate be a member of the party 90 days before filing his candidacy. Allen registered as a Democrat Sept. 18. The special election to fill the congressional vacancy is scheduled for Nov. 21.

Allen, who had announced his candidacy last Sunday, commented on the court's ruling that he was "still very much in the race for Congress" and would appeal the Supreme Court decision in federal court.

Roosevelt quit Congress to accept an appointive office at the United Nations.

New Lutheran Pastor to Be Installed Here

Rev. Harold A. Iden, Walla Walla, Wash., has accepted the pastorate position at Immanuel Lutheran Church of Twin Falls. He will be installed at 3 p.m. Sunday at the church.

Rev. Carl Rathjen, former pastor of the Twin Falls church, has accepted a position at Vacaville, Calif.

Installing Reverend Iden will be Rev. Henry Trett, Bull, circuit counselor at the church. A reception will be held at the Memorial Lutheran School after the installation ceremonies.

Reverend Iden is married and has five children.

He was graduated from Concordia College, Milwaukee, Wis., in 1937 and from Concordia Seminary in 1941. He attended Washington University of St. Louis from 1939 to 1940.

American G. I. In Viet Nam Is Informed

SAIGON, Viet Nam (UPI)—The American G. I. in South Viet Nam is about as well informed of what's going on in the world as if he lived on a farm or in a small town in the United States.

The G. I. gets his daily newspaper, can buy a magazine at the military equivalent of a general store, or tune in an hourly news broadcast on his transistor radio.

The soldiers' daily newspaper Pacific Stars and Stripes with its estimates 34,000 free copies per day in South Viet Nam and aims for a circulation of 40,000 by the end of the year.

"Stripes" is far more than a military house organ. It prints a lot of international news. It subscribes to American news agencies and publishes their dispatches.

Opinion back home is also filtered through to the G. I.'s through Stars and Stripes and through magazines on sale at the post exchanges.

Stars and Stripes subscribes to syndicated political columns and cartoon services in the United States and publishes both conservative and liberal opinions, side by side.

The availability of magazines and newspapers is limited more by transportation problems than anything else.

A wide range of magazines is available at post exchanges, which spring up as soon as a unit has set up a new base.

PX officials say Playboy, Newsweek, Time, Cavalier, the Saturday Evening Post and adventure magazines called True and Real are the fastest selling.

The PX system places its biggest monthly order for Playboy, at the rate of 25,000 copies per month but adds that "anything we get, we sell."

The same magazines are also available in civilian bookshops in the major towns, sometimes for less than they would cost in the United States.

EYE REPAIRED
NEW YORK (AP) — A small break in the retina of the Duke of Windsor's right eye has been repaired in a hospital, and the team of eye specialists who did the work say the difficulty should not recur.

Radios Have Rehearsal for Space Hunt

CAPE KENNEDY, Fla. (AP) — World-circling radios buzz today in a communications dress rehearsal for the space hunt of the Gemini 6 Monday — the most difficult U.S. manned flight to date.

The 10-station Gemflin network swung into action early in the morning and was to continue until 7 p.m. Mission control center, Houston, Tex., was in direct charge.

At Cape Kennedy, command pilot Cmdr. Walter M. Schirra Jr. and pilot Maj. Thomas P. Stafford of the Air Force were to enter the Gemini mission simulator to participate in the communications rehearsal.

Through instant voice relay, mission control will have direct contact with the pilots through more than half of each critical orbit as the astronauts track down, rendezvous and dock with an Agena target rocket 185 miles above the earth.

The astronauts Wednesday entered the spacecraft atop the 10-foot Titan 2 rocket and spent three hours rehearsing the complex job of matching orbits with the Agena and maneuvering close enough to dock.

Then backup pilots Lt. Col. Virgil I. Grissom of the Air Force and Navy Lt. Cmdr. John W. Young replaced them in the spacecraft and completed the simulation.

At the launching pads, experts completed checks of the Atlas-Agena rocket that will precede Gemini 6 into orbit by at least an hour and 41 minutes. They reported no difficulties.

During the communications rehearsal, full crews were set for all of the worldwide Gemini tracking network stations. Communications during the space maneuver of the Gemini spacecraft are critical.

The Eastern test range will conduct countdowns on two rocket systems simultaneously for the first time in the range history. The 102-foot Atlas-Agena rocket is not to blast-off at 10 a.m. EST Monday with the Gemini 6 following at 11:41 a.m.

Schirra and Stafford will stay aloft one or two days, depending on when they accomplish the rendezvous and docking.

Sophia Loren's Bigamy Trial Is Postponed

ROME (UPI)—A Rome court announced Wednesday a hearing in the bigamy trial against actress Sophia Loren and producer Carlo Ponti will take place Thursday as scheduled.

The court gave no reason for the postponement, and did not set a definite date for the hearing.

Ponti was married to Giuliano Finelli before he obtained a Mexican divorce and then married Miss Loren my proxy in Mexico.

Divorce is not recognized in Italy and although the couple have since had their marriage annulled—officially a maneuver—and Ponti has become a French citizen, the court case was continuing.

Professor Gets Chemistry Prize

STOCKHOLM (AP)—The 1953 Nobel Prize for chemistry was awarded today to Prof. Robert Burns Woodward of Harvard University.

In its citation, the Royal Swedish Academy for the prize was awarded for "his meritorious contributions to the art of organic synthesis."

Baptist Women Make Plans for Annual Bazaar

HAILEY—Preparations for their annual bazaar and donations to charities were principal business discussions of members of the Baptist Mission Society at their regular meeting at the home of Mrs. C. L. Scofield, Ketchum.

Mrs. Clyde Sworsky was co-hostess. She led the devotional service.

Members discussed "The Great Ideas of the Bible" under the direction of Mrs. Roger Bunnart, program chairman. They voted to send Christmas gifts to children at the Community Christian Center, Boise, and a donation for gifts to the Central American Mission, Haiti.

In planning for the Christmas Bazaar to be held Dec. 3 and 4 at the Hailey church annex, Mrs. C. E. Read was appointed needlework chairman; Mrs. Frank Moore, cooked food, and Mrs. R. H. Wright, gifts. Mrs. Kerschner and Mrs. Bangert are members of the calling committee.

Plans were made to serve a salad bar luncheon for Bethany Chapter, Order of Eastern Star, Nov. 10 in the church annex. The Nov. 9 meeting is at the home of Mrs. Kerschner, Hailey.

Public Pinochle Party Scheduled

HAZZELTON—A public pinochle party was planned when members of the Adelphi Rebeccah Lodge No. 2 held their regular meeting at the lodge hall.

The party is the first of many to be held the first and third Saturdays of each month at 8 p.m. in the hall beginning Saturday.

MR. AND MRS. DAN L. ALLWARDT

Double Ring Wedding Rites Unite Couple

SHOSHONE—The Blessed Sacrament Church, Santa Venetia, Calif., was the setting for the marriage of Kathleen Carey Goldsborough, daughter of Mr. and Mrs. Rex Goldsborough, Jr., San Rafael, and Dan L. Allwardt, Eureka, Calif., son of Mr. and Mrs. William Allwardt, Yuba City, Calif.

The Goldsboroughs are former Shoshone residents, and the bride is the granddaughter of Mr. and Mrs. Rex Goldsborough Sr., Shoshone.

Rev. Leonard Galegar officiated at the double ring ceremony.

She wore a floor-length gown of silk organza over tulle. It was fashioned with a fitted bodice with a scooped neckline and three-quarter-length sleeves. The skirt was a sheath design with an overskirt of unpressed pleats, tailored bow at waistline and brush train. Hand-clippled Chantilly lace was applied on the bodice and front of the skirt. Her bouffant veil cascaded from a queen crown of pearls. She carried a bouquet of white roses.

Lora Murphy, Klamath, Calif., was maid of honor. Vicki LaFrantz, Whittier, Calif., and Susan Hampson, Crescent City, were bridesmaids.

Martin Goldsborough, San Rafael, brother of the bride, best man. John Stone, San Mateo, and Tim Follett, Ukiah, were ushers.

A reception at Rancho Rafael followed the ceremony.

The reception table was covered with lace and centered with a four-tiered wedding cake decorated with white and colored roses and topped with a miniature bride and bridegroom.

Mrs. William Thompson, Shoshone, aunt of the bride, was in charge of the guest book.

After a honeymoon trip to Southern California, the couple will reside in Eureka, Calif.

DAR Unit Fetes State Regent At Luncheon

Twin Falls Chapter, Daughters of the American Revolution, honored Mrs. Arnold Francis Oshlund, Idaho state regent, at a luncheon in the Library Room of the American Legion Hall. This was the Diamond Jubilee date of the National Society commemorating 75 years of work and accomplishments. In the official message to the chapter, Mrs. Oshlund told of her experiences as a member of the National Resolutions Committee. The resolutions, when voted upon and accepted at the annual meeting of Continental Congress in Washington, D. C., became the policies of the National Society. DAR is non-partisan and works diligently toward an enlightened public opinion as gleaned from every branch of the news media. The society has given much time and effort to the immigrants of this country. The "Manual for Citizenship" is used in such classes, teaching that citizenship is a privilege and not a right. "A positive approach of work, discussion and more work toward an enlightened public opinion, historical preservation, educational promotion and patriotic endeavor represent the aims of the society members," said Mrs. Oshlund.

Mrs. H. J. Zilliox, local vice regent, introduced assisting regent, the John Day Chapter Burley, Mrs. M. J. Neumann, state corresponding secretary, announced the date for the state convention to be held in Twin Falls on March 31, April 1 and 2, 1966.

Week of Prayer Scheduled by Church Women

BUIH—Plans for the Week of Prayer, a 14-day program from Monday through October 26, were announced when the Twin Falls Methodist Women's Society for Christian Service held its monthly meeting in the fellowship hall.

Lucile Huston reported Buih's hours in the prayer vigil were set from 7 to 8:30 p.m. Monday. A Quiet Day of Prayer will be observed with an 11 a.m. service Oct. 28. Luncheon will be served at noon and the prayer service will continue following the luncheon.

Mrs. Robert Peterson reported the rummage sale and the project undertaken by the church circle to paint and furnish draperies for the pastor's study. It was noted 10 members from the local church attended the annual fall workshop in Elmer, Monday.

Following a discussion on the disposition of good clothing held over from the rummage sale, it was voted to start a clothing bank. A room in the church basement will be cleaned in which to hang the clothing, which will be used for relief calling and future rummage sales.

Mrs. Lawrence Roubinek volunteered to serve as WCS Christian vocations chairman. It was reported 14 cards had been mailed out to white satin kneeling pillow is available for weddings.

The program, "Living in the Space Age," was presented by Mrs. Wayne Aland. Special emphasis was placed on contributions scientists are making for the future of mankind. It was depicted with the showing of the film, "The Universe."

Members of Easter Circle will host the November meeting. Lucile Huston will present a program on the school drop-out.

Burley Shoots for South Central Title; Bruins To Entertain Pocatello

Burley goes after the South Central Idaho Conference at Jerome's expense and Twin Falls returns home for the first time in three weeks to host Pocatello in a pair of headliners for a seven-game high school football week-end. Out of the race in the Eastern Idaho Conference, the moonlighting Bobcats can pick up the SCI title by beating the Tigers at Burley. The Bobcats currently are undefeated in that league and have lost twice in the EIC. Another game that could decide a championship comes at Dec 7 where the Raft River Trojans, now cast in a spoiler's role, test the home-standing Trojans and the visiting Raiders in the Murrain-Red Devils.

Majors Delaying on New Commissioner

CHICAGO (AP) — The major leagues failed to pick a new baseball commissioner yesterday and named an expanded screening committee to report back at the winter meetings at Miami in December. "I feel confident a commissioner will be elected in the December meetings," said John Galbreath, owner of the Pittsburgh Pirates and a member of the original two-man screening committee.

Fetzer confirmed that five men named by The Associated Press Wednesday as top candidates to succeed retiring Ford Frick as commissioner were in the hopper. But Fetzer said he wouldn't venture a guess as to who was the leading prospect.

The five named by The AP were: Eugene M. Zuckert, former secretary of the Air Force; Curtis E. LeMay, former chief of staff and head of the Strategic Air Command; G. Keith Johnson, president of the New York Stock Exchange; Louis Carroll, National League attorney; and Joe Cronin, president of the American League.

The committee will have complete authority to interview candidates and to report to the winter meetings. If the four men unanimously agree on one or more names to whom the owners will take a vote. There was no word when the expanded committee would hold its next meeting.

Frick, who currently is paid \$75,000 a year on a seven-year contract that expires this year, will reside at the Miami meetings Dec. 20. There have been reports that his successor will get \$100,000 a year.

The owners did create a new front office staff for the administration of the game as an aid to the new commissioner in a chain of command similar to the U.S. Cabinet.

The proposal was submitted by owners Walter O'Malley of the Los Angeles Dodgers and Bob Reynolds of the California Angels.

This chain of command, intended to serve as a guide to the affairs of baseball, was divided into five departments—all subservient to the commissioner.

The new setup will consist of an administrator, a director of player affairs, a director of public information, a director of broadcasting and a director of amateur baseball.

The heads of these departments will be selected by the new commissioner, subject to ratification by the club owners.

"We believe the five divisions speak for themselves," said Fetzer.

"We feel that in order to do the total job required in baseball the commissioner should surround himself with a staff covering the broad spectrum of problems that exist in baseball."

Warfield to Miss Two More Games

CLEVELAND (AP) — The Cleveland Browns will be without the services of receiver Paul Warfield for at least two more games, his doctor said Wednesday.

Dr. Vic Ippolito said another X-ray taken of Warfield's injured collarbone showed enough calcium has formed at the two fractures to permit grid contact.

Warfield was injured Aug. 6 against the College All-Stars.

John Hartman of Dixie is second to Evenson in rushing yardage — 104 — and first in scoring with 36 points.

Perkins-Led Valley Drops Pilots 13-6

EDEN—Workhorse Dale Perkins plunged for two touchdowns, the second one after a one-man march, and made a game-saving tackle Wednesday night to lift the Valley Vikings past the Glens Ferry Pilots 13-6.

Valley cashed in on a Glens Ferry fumble on its first score, picking up a fumble on the Pilot 55-yard line. The Vikings appeared to misfire on that opportunity when they scribbled the ball back, but kept Glens Ferry in a hole and the Pilots had to punt out of their end zone. Valley took over at the 31-yard line and within five plays had the score. Ted Black passed to Perkins for 12 yards and a key first down to the Pilot 12-yard line. Two plays later Perkins punched over and Bernie Schutte converted.

Glens Ferry, held to one first down via a penalty in the first quarter, bounced back into the game when Bob Gonzales intercepted a Valley pass and rambled 37 yards to score. Valley smothered the point-after attempt.

After the kickoff, Perkins took loose on an end sweep for 37 yards and came back on the same play carried later for 14 more. That carried the ball to the Pilot eight-yard line and Perkins rambled off tackle for the touchdown on the next play. The kick failed and Glens Ferry had to punt.

The Pilots almost cashed it in with just under four minutes left in the game. Gonzales, in punt formation, flipped a fourth-down pass to Rich Porter who shook away from the Vikings and rambled from midfield to the Valley seven-yard line.

Two plays carried to Valley's four before Perkins came up with a big tackle, nailing Porter for an eight-yard loss. Glens Ferry's last effort was a pass that fell incomplete and Valley ran out the clock.

Braase Cited For Defense Of Redskins

BALTIMORE, Md. (AP) — Ordell Braase labored five seasons "as that other end" on the Baltimore Colts, but he has won recognition quickly upon retirement of the limelighter Gino Marchetti.

Braase was named by The Associated Press Wednesday as the outstanding defensive player in last Sunday's National Football League games. There wasn't anything sudden about his standout performance in the 38-7 victory over Washington.

As coach Don Shula noted, Braase tipped two passes, one of which was intercepted by his sidekick Billy Ray Smith and set up a cold touchdown. "Last week against the Detroit Lions, he produced nine great rushes, and this was vital to our overall effort," said Shula.

Braase spent his first three seasons with the Colts as a substitute for Marchetti. He took over for the other side in 1960.

Prices For Wild Furs Going Down

NOISE—Prices for most wild furs continued their downward trend last season along with a drop in Idaho sales of trapping licenses and furbearing animal catches, the Fish and Game Department disclosed Tuesday.

Figures show that 641 trapping licenses during the 1964-65 season compared to 726 the previous year, a decline of 12 per cent and only 45 per cent of the average season sales of trapping licenses over the past decade.

Wes Shaw, Boise game biologist, said the total calculated catch for all animal species was 65,840 pelts. This indicated a 30 per cent decline from the 196,781 pelts taken the previous season. Their value, as determined for the 1964-65 statewide fur catch, was \$140,858. This is a 25 per cent drop from the \$186,921 total for the previous season. For example, revenue from muskrat pelts was down about \$38,000.

JOHN F. ALLEN, 83, Lemhi, shows deer he shot Sunday while hunting above Lemhi. The large animal had six points on one side and five on the other and was killed with a .243 caliber Savage. Allen said he hunts every season. (Times-News photo)

Filer Turns To Air To Top Indians 34-7

SHOSHONE — Filer's undefeated Wildcats turned to the long scoring bomb Wednesday night to down the winless Shoshone Indians 34-7 in a Big Eight Conference game.

The Wildcats scored three times in the first quarter with quarterback Steve Sharp first in each. Sharp got the first touchdown on a five-yard run and Gordon Pedrow converted. He then came back with a 45-yard scoring pass to Daugherty and later flipped a 30-yard aerial to Senepser. Taylor converted the first point after.

The final two touchdowns came on a five-yard quarterback sneak and Lierman might a pass for the last one.

ISU Frosh Hope to Enter Win Column

POCATELLO — The Idaho State University freshmen hope to enter the victory column for the first time this season when they tangle with the Utah State University frosh football squad at Logan Friday afternoon.

Coach Bus Connor's ISU Kitten lost to the Montana State frosh 14-10 last week. Utah State's freshmen rolled over Utah 37-22 in their initial outing.

"We have a good, tough bunch of kids who really like to hit, and I felt that we played a fine game at Bozeman even in losing," Connor said Monday.

Idaho Announces Fresh Lineup

MOSCOW (UPI) — Coach Daniels Wednesday named his starting units for the University of Idaho freshman football team's first action Friday against the University of Washington at Seattle.

Three players were included on both the offensive and defensive units but the starting offensive quarterback remained in doubt.

The three two-way men were tackle Randy Bloom, linebacker Roger Ferguson, Westminster, Calif., and back Ken Dotson, Santa Ana, Calif.

North Dakota State Is No. 1

By The Associated Press
A come-from-behind victory over bitter rival North Dakota has strengthened North Dakota State's position as the nation's No. 1 small college football team.

The unbeaten Blons, who ripped North Dakota 6-3 last Saturday for their sixth victory, topped The Associated Press weekly small college poll Wednesday for the fourth consecutive week. They drew seven first place votes for 139 points in the nationwide survey of sports writers and sports casters.

ST. LOUIS, Mo. (AP) — The St. Louis Cardinals traded veteran Ken Boyer to the New York Mets Wednesday for third baseman Charles Smith and left-handed pitcher Al Jackson. Cardinal General Manager Bob Howsam and Met President George Weiss closed the deal in Chicago. It was announced here in New York, the Mets said they would also receive a minor league player to be named later.

Arkansas Ends Is Lineman For Week

FAYETTEVILLE, Ark. — "I never thought I would make it," said Bobby Crockett, the Arkansas end whose trade to the Associated Press Lineman of the Week Wednesday.

Crockett, who finished seventh in the National League this year after winning the world championship in 1964, while he dazzled 42,000 fans at a national television audience last Saturday with his pass options — was "the man behind the man."

That man was one of Longhorns assigned to Crockett covered, but he caught eight passes for 75 yards in Arkansas' 27-24 back triumph.

The victory moved Arkansas to No. 1 in the nation and led Crockett to the top spot of the 6-foot-1, 195-pound end caught six passes in the first minute of the game, and for 22 yards in the closing minutes, and a 14-yard drive in a 14-10 victory over Texas.

Arkansas Coach Frank Broyles said Crockett "had the greatest performance I've ever seen out of a football player in a long time."

PHEASANT SEASON TO OPEN

Slight Decrease In Population Is Predicted

A slight decline in targets is expected Saturday noon when thousands of Magic Valley and Idahoans for a weekend begin the six week pheasant season. Charles Blake, district biologist for the Idaho Fish and Game Department, estimates a 10 per cent decrease in the opening day bag which would put the take at just above average. Last year's opening day average was 1.1 birds per man, which was considered above average. The department believes that the one-bird per man average indicates a good season. But it says there is a small line of difference between that and a poor year—one in which the opening day or opening weekend take would be eight-tenths of a bird per hunter.

With the 1.1 of last year, the 1965 season figures to be fairly good as the predicted 10 per cent decrease would bring it to the breaking point between good and bad. For the most part the pattern will follow the one with the Northside Hunt Project and pumpkin north of Rupert expected to be the top producers. Twin Falls County is expected to show an overall decrease.

The predictions are based on spring crow trend counts and later brood trend counts. Since the pheasant population is a 18 month and mortality will approximate 65 per cent in average years, carry over has little effect on the fall shooting. It is largely spring-hatched birds that provide the targets.

Counties of Ada, Adams, Blaine, Boise, Butte, Camas, Canyon, Cassia, Coeur, Elmore, Gem, Gooding, Jerome, Latah, Lincoln, Minidoka, Owyhee, Payette, Valley, Twin Falls and Washington all have opening dates of Noon Oct. 23 to Dec. 5. The daily bag limit is four pheasants, one of which may be a hen. Possession limit after the first day is eight cocks, except Oct. 23 to Dec. 5 when the possession limit shall be eight pheasants, two of which may be hens.

The pheasant is the last upland bird becoming legal targets in the American League pheasant hunt, is too busy these days to really savor the honors she has received since the winding of the season.

The year-old Melo was a unanimous choice as the manager of the year Wednesday in the annual Associated Press poll, earning 328 of the 331 votes cast by sports writers and sportsasters.

The other three voted went to Bill Bridges, who served the Washington Senators to an eighth place finish.

"I really appreciate the honor," Melo said at his home, especially since I believe it is a team that is being honored."

Packers Can't Use Data to Verify Record
NEW YORK (AP)—Green Bay is a super team in the league standings with the only perfect 5-0 record, but the National Football League statistics tell a different story.

Vince Lombardi's Packers, always a fine running team with an attack that emphasizes the sweep, are seventh in rushing with only 587 yards.

Although Green Bay has added only 71 points, lowest in the league, they are 10th in passing defense, fourth in rushing defense, and seventh in total defense. The leaders in those three departments are Baltimore, with 401 rushing yards per game, and St. Louis with 61 passing yardage but 1,211 total yardage.

WSU Emphasizes Pass Patterns
PULLMAN, Wash. (AP)—It is passing, punting and dodging for most of the Cougars of Washington State during Wednesday's workout.

Coach Bert Clark had his backblows passing and dodging other backs as they worked bootleg plays and short runs.

All the backs went through a drill in which linemen tried to get a hand on the backs during the dodging backfield men.

Red Grider practiced on punts, kick kicks and point after punts. The defensive and offensive line got a turn on the blocking and practiced one-on-one.

GRIDER DIES
ORANVILLE, Ill. (AP)—Louis Diers, 17, guard on the Oranville High School football team, died Wednesday of head injuries suffered in a game Friday night.

SKIING SCENES such as this shot in powder snow will be part of a film slated for showing at 8 p.m. Tuesday at the O'Leary Junior High School Auditorium. The film includes action by some of the finest skiers in the world.

Ski Film to Be Shown in T. F. Tuesday

Some of the world's best ski run and top skiers from Aspen, Colo., to Zurs, Austria, will be featured at 8 p.m. Tuesday in the annual Warren Miller ski film in Twin Falls.

The 90 minute color and sound film "The Sound of Skiing" will be shown at the O'Leary Junior High School, sponsored by the Magic Mountain Ski Resort and Olson's ski shop.

Tickets are available at the door or from the sponsors and several skiers in Dubl, Twin Falls and Jerome.

Among nationally known skiers who will be seen in action in deep powder snow and on steep race courses are Stein Eriksen, Tom Corcoran, skiing at Aspen; Olympic skier Starr Walton at Vail, Colo., and Junior Downes, Detsy Snite and Don Powers at Sugar Bowl, Calif., and many top European skiers.

Open to the public, the film is brought here annually as a ski season prelude. This year's show will even feature some of snow skiing and canoeing, all on one filming expedition.

Scarpitto Takes AFL Week Award

NEW YORK (AP)—Bob Scarpitto, Denver flanker, does not rank among the top receivers in the American Football League but his 100-yard touchdown pass reception from John McCormick earned him The Associated Press' top as offensive Player of the Week.

Scarpitto is only 5-foot-11 and 190 pounds, but he has chased away a platoon of candidates who were looking for his job.

The Broncos trailed Houston 14-0 late in the first half of their game at Denver Sunday when McCormick whipped a strike to the former Notre Dame star. Scarpitto took the pass on the Denver-40 and outraced two Houston defenders to the goal line. Denver went on from there to win the game 28-17.

Gino Cappelletti's two field goals in the second half enabled Boston to tie the San Diego 13-13 after losing their first five games.

Celtics Rally to Defeat Lakers

BOSTON (AP)—The Boston Celtics rallied in the second half to defeat the Los Angeles Lakers, 106-90 Wednesday night in their National Basketball Association game.

The Celtics trailed 55-46 at halftime, but John Havlicek and Sam Jones spearheaded a surge that put Boston in front briefly 62-61, then the two clubs battled an even tussle through the rest of the third period which ended with Los Angeles ahead 77-74.

The Celtics then ran off 11 points to a single free throw for the Lakers to take an 85-78 lead that they were able to protect down the stretch.

Breedlove's Car Leaves Earth During Run for Speed Record

BONNEVILLE SALT FLATS, Utah (AP)—Craig Breedlove's Spirit of America racer tried to fly Wednesday as it screamed into the measured mile at an estimated 600 miles per hour. Breedlove was unhurt at the end of an uncontrolled ride of nine miles across the salt flats of Western Utah.

The 28-year-old Californian was making the first run of the race car did not appear badly damaged. No tires blow out despite the pounding on the upgraded, soft surface of the track salt.

Breedlove's crew towed the auto back and began to tear it down in preparation for another record try if one could be scheduled.

Shivers and Jackson Lead Grid Scorers

NEW YORK (UPI)—It's too bad college football doesn't give a "comeback of the year" award because Bill Mickey Jackson of Marshall and Roy Shivers of Utah State are sure deserving of the honor.

Shivers, a 177-pound halfback, played very little and didn't score a single point last season, but the official NCAA statistics released Wednesday show that he has tallied 10 of his team's 11 touchdowns this season to share the national scoring leadership with Shivers.

Shivers, a 190-pound tailback, missed five games last season because of a broken ankle and finished with five TD's. This season he's scored 10 of Utah's 24 touchdowns, including three last week that moved him from fourth place to a tie for first.

Holding on to their leadership in other departments from last week are Princeton's Charley Gogolak in kick scoring, Tulsa's Howard Twilley in pass receiving and Nebraska's Larry Wacholtz in punt returns.

Gogolak kicked two field goals last Saturday to set a modern career record of 22. He has booted 11 three-pointers this season and all 13 of his extra points tries to give him 46 points which is 12 more than runner-up Dick Kenney of Michigan State has tallied.

Bullets Collect First Victory

BALTIMORE, Md. (AP)—The Baltimore Bullets won their first National Basketball Association victory Wednesday night after two defeats, beating the St. Louis Hawks 110-99 before a crowd of 1,632.

The Bullets were playing without the services of veteran forward Gus Johnson, one of their leading scorers, who was placed on the inactive reserve list shortly before the game.

Johnson dislocated a bone in his left wrist during Sunday night's game with the Cincinnati Royals.

CONTROL NUISANCE AREAS Related Words Will Help 'able' and 'ible' Usage

BY THE READING LABORATORY, INC.
Written for NEA Special Services

Between ible and able
You find you're unable.
Find a cousin of either
And decision's a breather.

By this time it should be clear, at least to regular readers, that these articles have attempted to simplify the so-called problem areas in spelling. There is tremendous common sense in spelling the English language, despite all the dirges sung by those who profess the desire to help us with spelling problems. It does not give much help, though it may give comfort, to tell that most of us cannot decide, for example, between ible and able as a suffix. It would be a lot more helpful—*ible* and *able* would give greater comfort—to be told how to solve a problem. Our rhyme at the top of the page sets out to do that.

The only word we should explain briefly in this verse is the word "cousin." A cousin is a relative, and in our context of spelling we mean a related word. For example, *admirable* is a "cousin" of *admirable*. What helped us to spell that word as "admirable" and not as "admirible"? The cousin word has an "a" in its suffix (ation), so we put an "a" in *admirable*. Admiration, on the other hand, had "i" in its suffix (ion); therefore we chose *ible* over *able* in its cousin, *admirable*.

Is it imaginable or inadmirable? Look for its cousin, and you will find the answer. That suffix has an "a," so this suffix will also have an "a" in its cousin. Is it terminable or terminible? Apply the verse and find the cousin. You come up with *terminable* and the "e" in the "ible" is unmistakable in the pronunciation. Therefore you choose *terminable*.

Another question which gives needless annoyance has to do with verbs (words which generally speak of the action in a sentence) which end with the sound of *eed*. Do I spell it *ceed*, *seede*, or *ceede*?—that is the question. Is it *proceed*, *procede*, or *prosedee*? It *proceeds*, *proceeds*, or *proceeds*? And so on. Here is a rhyme which will settle this question once and for all.

To proceed, to exceed, to succeed—
These three have two e's after c.
Se-d-o happens once; supercede.
All others have c-e-d-e.

In other words, there are only four words in the whole English language you must keep in your memory: only one word is spelled with *eed*, and that word is *supercede*; only three words in the whole language are spelled with *ceed*, and they are *proceed*, *exceed*, and *succeed*. All other verbs, whose endings sound like *eed*, are spelled with *ced* in ending.

A Quiz
We have covered two nuisance areas in this article. The hope that you now know there was no need of nuisance value in either case. So that you may be convinced for your own comfort, underline the correctly spelled words in the following list. With this suggestion: do memorize the little verses. Why? It has been probably less than a minute since you saw the utter simplicity of deciding between ible and able. It would be somewhat silly to memorize from now to have to face that decision and not know what to do. Recall the verse from memory, and your "decision's a breather."

YOUR BIRTHDAY and HOROSCOPE

THURSDAY, Oct. 21—Born today, you have a generally placid nature, but are given to occasional outbursts of temper that seem to come—when they come—just at the time when they can do the most harm. These destructive moods never come upon you without warning, however, and if you are wise you will learn to recognize the signs—the nervousness, the growing restlessness—and to channel this excess of energy into more constructive fields. One who enjoys many friends and good family relationships, you nevertheless are not one who socializes to excess, or even frequently. You need—and take—time alone to work out your own problems in your own way, for though you are willing to listen to the advice of others, you realize that you must work things out for yourself if you are to be happy with the results. You would make an excellent wife-and-mother or husband-and-father, so long as you kept your outbursts of temper out of the house. Take special care in

Water-Rising In Reservoir

HAILEY — Reid Newby, watermaster for Big Wood River, said Tuesday there are 137,200 acre feet of water in Magic Reservoir. "The gates at the reservoir were closed on Oct. 14 and the waterline has risen three-tenths of a foot since that time," he said. He noted Magic has more water in it now than some years in the past when it was at its peak. Newby said the Geological Survey is putting in a new structure for measuring station No. 2, which is an short distance downstream from the Stanton crossing bridge. The water is so deep there to wade and a boat had to be used. Newby said there is three times as much water in Big Wood river at the present time as during the irrigation season.

Burley Firm Is Given Contract

BURLEY — Ferris Gilkey, manager of the Bonneville Power Administration (BPA) Idaho Falls area office, announced Monday that the BPA has awarded a contract to Thurston Construction Co., Burley, for improvements to the BPA ferry substitution. Thurston was low bidder at \$1,450 on the contract for filling, grading, and fence relocation in preparation for raising the supply voltage to the Unity Light and Power Co. Gilkey and John L. Jones, manager of Unity Light and Power Co., commented that the improvements are the first step in a systematic upgrading of the Unity system which is planned for completion by the end of 1967. Jones stressed that the planned changes would be done with a minimum of inconvenience to utility customers.

Richfield Lists Seminary Aides

RICHFIELD — Richfield LDS Seminary officer appointments have been made by Bishop Jay Ward. Gaylen Swainston is president; Marilyn Patterson, vice president; Eva King, secretary; Bill Crowther, second year representative; Dale Sanders, first year representative; Phyllis Flavel, organist; Linda Sanders, chorister and Cathie Flavel, assistant chorister. Mrs. W. T. Flavel is instructor for the church history studies this year. Classes are held at 7:30 a.m. on regular school days. Six senior seminary students will attend senior day at Rick's College Nov. 6. One of the planned activities is attendance at production of "The Sound of Music."

COLLECTORS ITEM RECEIPTS FROM THE OLD WEST

SIERRA SCONES

2 cups Drifted Snow
3 teaspoons baking powder
1 teaspoon salt
3 tablespoons sugar
1/4 cup shortening
1 egg
1/2 cup milk

Heat oven to 450°. Grease a baking sheet. Stir together dry ingredients in mixing bowl. Cut in shortening thoroughly. Beat egg and milk in small bowl; blend into dry ingredients thoroughly. Roll out dough on lightly floured board to 8-inch circle. Cut into 12 wedges; prick tops with fork several times. Place on baking sheet. Bake 10 to 12 minutes or until golden brown. Makes 12.

Party Scones: Follow recipe (above) except—before baking, brush top with milk and sprinkle lightly with sugar.

Fruit Cobbler: Follow recipe for Sierra Scones except—use only one-half the amount of all ingredients except egg and milk. Break 1 egg in measuring cup; pour milk to 1/2-cup mark. Roll dough on lightly floured board; cut into 8 pieces with doughnut cutter. Heat, stirring constantly, 1 can (1 pound, 5 ounces) fruit pie filling to boiling. Pour into baking pan, 10 x 1 1/2 inches. Place rings on filling. Bake 20 minutes. 6 servings.

This collector's item recipe is a western favorite. So be sure to start with Drifted Snow—it's the western flour. Milled in the west and performance-proved in western homes since 1852. When you see how Sperry makes a bake you'll know why cooks from the Rockies to Calisco have depended on Drifted Snow for more than a century now. FREE!
