

Mortar Fire Is Used in Attack On Saigon Area

SAIGON, South Viet Nam (AP)—The Viet Cong attacked a section of Saigon with mortar and heavy automatic arms a few minutes before midnight Saturday. It was the first time in the Vietnamese war that the Viet Cong have used mortar fire against the capital. Mortar rounds were fired into an outlying portion of the city. An area inhabited mainly by Chinese, Indian and other sources said there were no casualties. The shells struck an area less than four miles from the heart of the sprawling city's downtown business district. The heavy automatic fire was described as intense while it lasted. The attack came from the rice paddy fields that stretch southward from the city. Neither Saigon police nor other reliable sources could estimate the number of Viet Cong involved in the attack. Viet Cong have attacked government positions in the area recently, and they have engaged Vietnamese forces on the Saigon. The attack came only hours after the U.S. military command and claimed a dusk to dawn curfew on American military personnel as a means of protecting U.S. troops from mortar attacks that have increased in the past few days. The curfew went into effect Saturday midnight. It obviously was aimed to include Monday, Dec. 20. See VIET NAM, Pg. 2, Col. 7

Tettebaum is a sociology major at the University of Colorado, Boulder; Shindler is a zoology student at North Dakota State University; and Howlett is a classics major at the University of Montana.

De Gaulle Is Given Edge In Voting

PARIS (AP)—Public opinion here on Sunday favored Charles de Gaulle with 55 percent of the votes in Sunday's runoff presidential election against Francois Mitterrand. The polls credited De Gaulle with a stronger position than earlier in the week had shown. These informal samplings by political leaders and the media are not official, but they are considered reliable. De Gaulle was the victor in the first round of the election. President De Gaulle went to his country home at Colombey-les-Deux-Églises in eastern France. Mitterrand said there had been no return there in the evening. Mitterrand will leave for his country home in the morning. He is mayor of that locality. Cloudy weather was predicted for most of the nation with the possibility of showers in the northern half. This would be an improvement over the previous rainy weather that prevailed many parts of France two weeks ago. In the first leg of the presidential race, De Gaulle was expected to be only 17 percent of the 18 million registered voters. De Gaulle failed to cast his ballot.

GOP Urges Vote Fraud Commission

WASHINGTON (AP)—Republican leaders urged Saturday the creation of a bipartisan advisory commission on vote fraud and national elections to fight against fraud at the polls. "No weaknesses in the American system are as glaring as those that permit the frauds which have violated the integrity of some of our recent elections," the Republican Coordinating Committee said in a report formally adopted Dec. 13, the congressmen said. Similar legislation also has been introduced in the House and the Senate. The committee urged state commissions be created. It proposed a federal law that would have a three-judge court to hear complaints from voters. The bill would also have a prompt relief under state procedures.

Inquest Is Pending In Area Fatality

(See Picture on Page 6) HEYBURN — An inquest pending in the death of a young man, who was killed in a car accident Friday morning, according to Sheriff Mark Mindofora County Coroner. Mrs. Banner was killed instantly when her 1964 Oldsmobile coupe, while making a right turn on a Union Pacific world turn at J Street crossing in Heyburn. An eyewitness to the accident who officers declined to identify, said Mrs. Banner appeared to stop after apparently seeing a car skidding on ice in a dirt embankment on the west side of the street and flipped around, straddling the tracks and facing north. "Damage to the train was estimated at \$50, and Mrs. Banner's vehicle was demolished. Crewmembers of the train, who were unharmed, were Milton Erickson, Poate, and engineer; Ralph Murray, conductor; and Roger Spriggs, brakeman. The train was stopped at 10 a.m. It was reported that the Heyburn inquest will be held Friday. See INQUEST, Pg. 2, Col. 6

Report of Peace Feeler Draws Blast

WASHINGTON (AP)—North Viet Nam's denunciation of a U.S. peace feeler confirmed Saturday what U.S. officials had suspected from the start—that the alleged Hanoi overture was hardly a genuine one. The State Department disclosed Friday an exchange that could be construed as a Communist offer to seek a negotiated peace in Viet Nam. But Saturday morning a Hanoi radio broadcast said "reports spread by the American Department of State are sheer propaganda—fabrication." The Johnson administration reacted coldly. White House press secretary Bill D. Moyers said only "I'll let their statement speak for itself." The State Department withheld any comment but officials made it clear the Hanoi-blast was not to surprise. Indeed, as one authoritative source said, the administration would have been surprised if such a denunciation had not been forthcoming. The department had no comment on the Hanoi-blast but reported intermediaries that Secretary of State Dean Rusk, in effect, rebuffed the peace probe by disclosing the peace feeler.

Sun Valley Is Filled For Opening

By The Associated Press—Sun Valley opened its 30th winter season today with hotels and motels booked solid through Jan. 2. Among those with reservations early—besides the Kenney family—were film stars Jimmy Stewart, Janet Leigh and Judy Williams; and U.S. Supreme Court Justice Byron White, said General Manager Harry Holmes. "Christmas is pressure time here," said Holmes, "we open with the season—and we open with a full house." Sun Valley could use more snow, said Holmes, but he said that's not unusual—the first good snows often come in mid-December. Baldy Mountain, including the new lift and ski complex on the north side, is open, and so is the Half Dollar. But Dollar Mountain is not. "Son Robert Kennedy and his family are expected early in the week and Pat Lawford and her family later. Jacqueline Kennedy and her two children are expected Dec. 20. The two-male sub-west Idaho ski areas—Bogus Basin and Brundage Mountain—are on Christmas schedules, open through Jan. 2, except for Christmas day. Bogus Basin reports skiing to good with 12-18 inches of snow. Officials say more snow is needed for operation of the lift. Brundage reports good skiing at the top of the mountain with 10-12 inches of snow and good skiing at the bottom with about eight inches.

Judges Are Selected for Christmas Lighting Contest

Mrs. T. W. Hicks, past president of the Twin Falls Garden Club, announced the office by midnight Dec. 22. Rules are simple. Displays are to be judged by Mrs. Hicks and Lowell Dickler, but they must be clearly representative of the Christmas spirit. The judging will be done Thursday night and results will be announced in Friday's Times-News. Only displays that have been entered in the contest will be judged. Entries should be made on the contest coupon, which is being carried today through Wednesday on page 2 of the Times-News. Anyone living in the city limits of Twin Falls is eligible to enter. Prizes will be awarded for best display, best display of lights, and best display of lights brought to the Times-News.

Gemini's Success Gives Impetus in U.S. Race to Moon

SPACE CENTER, Houston, Tex. (AP)—America's champion Gemini 7 astronauts plunged happily back to earth Saturday after man's longest and most significant voyage in the strange world of space. "Better than expected," summed up doctors' first findings on the bearded pilots, Air Force Lt. Col. Frank Borman and Navy Cmdr. James A. Lovell Jr., home from an historic 14-day flight. Aside from a few wobbly steps, their first since slipping into their tiny spacepod Dec. 4, neither showed any initial ill effects from the two-week ordeal. "I'm dirty," Borman declared cheerily. "But it's good, honest dirt." The flight of Gemini 7, high-lighted by a historic rendezvous with Gemini 6, brought the United States—all-manned flight—back to earth, putting the nation a great stride forward in its race to the moon. With pinpoint accuracy, Borman and Lovell made their fiery dive home just the way they wanted—so good in fact, they may have been asked to return to space. Gemini 6 pilots Walter M. Schirra II and Thomas P. Stafford who preceded them from space two days earlier. The wager of an undisclosed amount was on which spacecraft landed closest to the aiming point. Borman fired his braking rockets without a hitch at 8:23 a.m. EST over the Pacific Ocean. Slowed by a large orange and white parachute after 145 miles from the aiming point, Gemini 7 plucked into the Atlantic about 565 miles southwest of Bermuda, right on schedule at 9:55 a.m. The pilots came down 128 miles from the carrier, out of sight of the ship. Lovell claimed the bet. Schirra and Stafford splashed into the water about 145 miles from the aiming point. Regardless of who pays, Gemini 7 and 6 were closer to their landing spot than any previous Gemini spacecraft. Borman, as command pilot, (AP) He added with him traveling companion, the pilot, a helicopter hovering overhead for the short ride to the carrier. As announced before the flight. After opening the hatch, as the craft bobbed in the water, Borman stood up. Then Lovell was the first to be lifted into the helicopter.

One of the rescuers commented to newsmen that both astronauts were pale and looked like they had been exhausted. "Their spirits were really good and they were really happy to be home," he said. It was the end of a long journey—430 hours and 35 minutes, 206 trips around the globe and 5,120 miles. II Records Are Made by Space Flights

Text (AP)—Gemini 7, with a strong assist from Gemini 6, established 11 world records for manned space flight. There are 11 records resulting from the twin Gemini missions: Longest manned spaceflight—300 hours, 35 minutes, by Air Force Lt. Col. Frank Borman and Navy Cmdr. James Lovell of Gemini 7, exceeding the record of 180 hours, 55 minutes by Gemini 5 astronauts Lt. Gordon Cooper Jr. and Charles Conrad, Aug. 21-28. Astronauts Are in Good Condition

ABOARD USS WASP (AP)—Preliminary medical tests show the 14-day Gemini 7 flight left no serious physical or mental marks on astronauts Frank Borman and James A. Lovell Jr. Space agency doctors said Saturday afternoon—after two weeks of testing, that the Gemini 7 crew appears to be in "better shape" than the crew of Gemini 5, which was up almost eight days. Dr. Howard Minners, chief recovery physician said neither astronaut showed any sign of space or sea sickness. "Lovell was just a bit queasy during the egress from the spacecraft," Minners said. "Borman was just a little unsteady also, but in both cases it was very slight. . . . We're obviously overjoyed that the fatigue response was so benign."

Educator in Caldwell to Seek Office

CALDWELL (AP)—A source close to Edwin Schwelbert said the educator and legislator is virtually certain to try again in 1966 for a seat in Congress. Schwelbert declined to confirm or deny the statement.

Now assistant to the president of the College of Idaho, Schwelbert will be involved until at least early spring in projects at the college. He is unlikely to make any definite political commitment before then.

Schwelbert won the First District Republican congressional nomination in 1962, but lost to Rep. Compton I. White Jr. in the general election.

John Mattmiller of Kellogg was the party's 1964 nominee. He was defeated in the general election. Mattmiller is expected to enter the race again in 1968.

The source, who declined to be quoted by name, said it is Schwelbert's position that his defeat last year was due to the First District definitely can be won by a Republican next year.

In 1962, the Republican primary date lost by a margin of about 16,000 votes. Schwelbert lost to Rep. Compton I. White in the general election. Schwelbert's margin in 1964 was less than 4,000.

Interview Gives Little Hope of Halting War

By WILLIAM L. RYAN
 (The Old Man's Story on Page 9)
 The world's devout Communists, who are inclined to believe what they see on television screens, are not likely to be disappointed. The interview with Hanoi's representative at this time, the Communist spokesman, says that the war will be a long, long war. He said that the Americans find it hard to understand the mind of the North Vietnamese. He said that the United States is not interested in the peace of the world, but only in the profit of its own people.

WASHINGTON
By ANDREW TULLY
The State Department who cry that we must not use force as a weapon may still be sobbing in their barracks in Manila, but they are not so sure of their ground in the knowledge that it is a weapon that works. They are not so sure of their ground in the knowledge that it is a weapon that works. They are not so sure of their ground in the knowledge that it is a weapon that works.

Andrew Tully
State Department officials are working out with Nasser final details of a proposal for a new grain agreement with the United Arab Republic. It involves only \$55 million worth of goods six months period, and thus is a much smaller giveaway than the three-year deal that expired last summer. Nasser wanted more, but the State Dept. officials plan that we are not entering into any long-range agreement with a lower-class dictator who can't make up his mind whether Uncle Sam is a Santa Claus or a monster.

STRINGS TO DEAL? YOU BET!
While the State Dept. never do the final provides that if Nasser can restrain his anti-American demonstrators the current program can be renewed. In implicit criticism of the State Dept. officials, it is a political string to a deal, and about time too.
A year ago, Nasser was so sure of himself that he permitted a mob to burn the Kenmore Hotel in Cairo. He was so sure of himself that he permitted a mob to burn the Kenmore Hotel in Cairo. He was so sure of himself that he permitted a mob to burn the Kenmore Hotel in Cairo.

SUBVERSION IN AFRICA?
But while we've been this preposterous rilly on the hook, we should get some assurances from him that he will knock off his subversive activities in Africa and America. He has only recently succeeded at the Congress to reinstate the Arab League, and he is now trying to stir up trouble in most of the Arab world, particularly in South Arabia and Algeria. He is now trying to stir up trouble in most of the Arab world, particularly in South Arabia and Algeria. He is now trying to stir up trouble in most of the Arab world, particularly in South Arabia and Algeria.

THE PARK PROBLEM
Harrison State Park is an estimable gift by the Roland and Averil Harrimans, mirroring the gift of the Snake River to the state of Idaho and in conserving one of the state's most beautiful outdoor treasures.
But the refusal again by the Harrimans to take over the park is a haunting blemish which they have imposed as a condition of the gift, presents serious difficulties to a proposal to expand the gift from present 20,000 acres to 100,000 acres. The expanded gift would be much more impressive and invites a much greater usage factor.

PATH TO SANITY
Owners of real property in Twin Falls County face a Monday deadline for paying the first half of their taxes. Many aren't happy with the amount they will have to pay, because quite a few assessors are the highest in the state. The reason, of course, is the revaluation program which is becoming effective for the first time. The program has cost considerable money, but it should be well worth every penny. It's the path of sanity in property taxation.

FOR YEAR'S END
The proposed additional 10,000 acres, all of it in the Snake River valley, are traditionally hunted by Idahoans. The proposal would add to the Snake River valley, are traditionally hunted by Idahoans. The proposal would add to the Snake River valley, are traditionally hunted by Idahoans.

EGGING US OUT
It is difficult to think of the cute, little, blue hen as a menace. But that's what she is in the view of the Poultry and Egg National Board. As a working girl, says a spokesman for the egg people, she hasn't time for breakfast. When she comes to work, she has to eat her eggs. She has to eat her eggs. She has to eat her eggs.

Debate Mounting on Great Society vs. Military Costs

WASHINGTON (AP) — The mounting debate about whether the programs of President Johnson are "Great Society" should be shelved or trimmed as Viet Nam military expenditures rise has been conducted so far largely along party lines.

But signs accumulated in Washington this week that more Democrats are inclining toward the guns rather than the butter side of the guns-or-butter argument — at least to the extent of hoping the administration will not significantly expand the domestic projects already started.

The President's own intentions are kept closely guarded and it is evident the administration wants to avoid any early disclosures that would put it at a disadvantage when the debate resumes, as it inevitably will when Congress reconvenes next month.

The clearest indication of the Democrats' concern was given for the straight party line by which the Senate-Economic Committee refused to call for a major or fiscal officers to the stand for public questioning now.

A sign of growing worry among some Democrats as to whether the country simultaneously can have a booming private economy, extensive social improvement programs and a steadily more costly military undertaking came — in characteristically oblique fashion — from one of the most powerful Democrats in the House, Rep. Wilbur D. Mills of Arkansas.

Mills, as chairman of the Ways-and-Means-Committee, was the principal architect of the two big tax-cut bills credited with much of the steam behind the continuing economic advance in the weeks before a Republican bid in Little Rock, Ark., and then took the unusual step, for him, of having copies of his speech distributed in Washington a day later.

"If federal government spending is to be under reasonable restraint, the growth of the economy will both make possible and require periodic tax reductions," Mills said, and urged restraint on expenditures on the other hand, will mean passing up this fiscal dividend. Hopefully, we will so manage our affairs that we can begin to continue to realize the gains from raising tax restraints on personal and business income and growth.

Mills' new approach to calling for spending cuts rather than any special Viet Nam war taxes, The White House denied.

Eisenhower Goes Home For Holiday

GETTYSBURG, Pa. (AP) — President Dwight D. Eisenhower, hospitalized with a cold since Nov. 9, returned to his Gettysburg home today, flanked by his youngest son and washed the nation and the world a happy holiday.

Appearing in good health as he arrived at his farm in the central Pennsylvania community, Eisenhower turned before the crowd of well-wishers during the wreath-laying ceremony and said: "We are, we are, everybody a merry Christmas."

The five-star general, now 75, was released Saturday by Walter Reed Army Medical Center in Washington.

His wife, Mamie, a Secret Service man and a chauffeur drove with him on the 50-minute ride in a black limousine.

"I'm feeling fine," he told a group of photographers and a newsman after he had arrived at the farm.

"Doesn't he look good?" Mrs. Eisenhower commented, smiling broadly.

Eisenhower and his wife plan to spend a quiet family Christmas with their son, John, and grandchildren.

Residents Urged to Send Late Yule Mailings Now

It is urgent that all remaining Christmas mailings be sent out now, Postmaster Fred Sanger stressed Saturday.

In the last three weeks, the people of the United States have mailed more gift parcels, cards and letters than ever before.

The postmaster said that across the nation every piece of Christmas mail that can possibly be delivered will reach its destination on time. However, at this time of the year, the strain on transportation facilities and the unpredictability of weather can cause unexpected delays.

Sanger suggested that mailers consider the use of airmail and special delivery, especially for mail intended for any considerable distance across country. It is especially recommended that mailers use first-class five-cent postage in mailing their Christmas cards. The five-cent rate permits forwarding or return of the letter or card where it is undeliverable as addressed, allows the use of a handwritten message on the card—adding a personal touch—and also provides expedient handling and delivery, particularly for cards going out of town.

RUPERT — Mrs. Alma Williams, 94, longtime Rupert resident, died Saturday at Boise following a short illness.

She was born Oct. 18, 1871, in Wedderbridge, Cornwall, England. In July, 1893, she came to the

United States. On Sept. 8, 1930, she married Luke Williams of Butte, Mont. She was a member of Order of Eastern Star Ruppert Chapter No. 28, Episcopal Church. Her husband and two daughters preceded her in death.

Survivors include three daughters, Mrs. Gladys Willis, Rupert, and Mrs. Dora Mae Williams, Boise. Funeral services will be in Rupert Cemetery Sunday, Dec. 19, 1965. Twin Falls Times-News 7

Queen Mourned

AUCKLAND, New Zealand (UPI) — Queen Salote of Tonga is in state at Government House Friday while Tongans and New Zealanders of all classes paid their last respects.

The six-foot-two-inch queen, who weighed 252 pounds before becoming ill, died Wednesday. Tonga, a cluster of 150 islands in the southwest Pacific, is the world's smallest kingdom.

Pumps Used To Lower Water Level

TUJANA, Mexico (AP)—Engineers hoped huge pumps could lower the water level behind a crumbling earthen dam today before new rain—expected to hit weekend—increased chances of a dangerous flood.

Officials at the site—where a month's rainwater has collected behind a 103-foot fill—said pumps were operating today in an effort to reduce pressure on the weakened fill.

Officials said the pressure from 300 million gallons of water in the lake is causing seepage under the dirt fill, which was weakening.

Below the new lake—and in the path of floodwaters—20 families have evacuated their homes in the Tijuana River Valley. This, officials said, is where the water would dash in its 2 1/2-mile rush to the sea.

All damage, they said, would be on the American side of the border.

It was estimated that damage to crops, livestock and other property could total several million dollars.

Universities In Gem State Can Lose Aid

BOISE (AP)—Idaho's two universities could lose up to \$7 million in federal matching funds for construction if extraordinary measures are not taken to obtain state money, the Board of Education was told Friday.

Rosa E. Barney, deputy superintendent of public instruction, recommended that state construction funds be used for the construction of a new library building to replace one in use since 1908, an apartment building and possibly more housing at the University of Idaho.

He said Idaho State University needs more living and classroom space and is preparing a list of priority projects for which it would ask the federal matching funds.

Barney said Idaho expects an allocation of \$1,850,000 for 1965-66 under the Higher Education Facilities Act of 1963, and Northwest Nazarene College of Nampa plans to apply for \$150,000 of it.

Thus, he said, \$1.7 million would be diverted to other states if the state does not take action for it. He said the universities have not been able to apply because they do not have the state money.

Appropriation of funds by the regular 1967 Legislature would come too late for application for the funds, Barney said.

The board instructed him to investigate the alternatives and report back to the board at its January meeting.

Unmarked County Cars in Utah Are Violating Law

SALT LAKE CITY (UPI)—Unmarked county cars being driven by employees of Salt Lake County may be in violation of the state law requiring government owned vehicles to be marked except in investigative work.

The law requires all county owned cars to be marked with letters at least three inches high.

County Atty. Ollie McCulloch ruled the only exceptions are those cars used in investigative work whose secrecy is essential.

Currently, all three Salt Lake County Commissioners drive unmarked county owned vehicles. Commissioner W. G. Larson said he does not drive a marked car because many times he must do investigative work in the line of duty.

Commissioner Marvin G. Jensen said the EX license plates on the car he drives helps to establish county ownership.

Commissioner J. O. Preston Cree said the same rule which exempts the governor's car from the marking law should be applied to county officials.

White House Chef Spills Beans, Tells Practices of Which He Disapproves

WASHINGTON (UPI)—The White House chef has spilled the beans.

Rene Verdon, who is packing his French recipes and carving knives to leave the White House Jan. 1, took advantage of an opportunity to air some White House kitchen secrets which cut to the quick of his Gallic sensibility.

Verdon's complaints didn't exactly involve beans. More precisely, it was frozen boiled potatoes and whipped cream in the turtle soup with sherry.

The French chef was brought to the White House in 1961 by Mrs. Jacqueline Kennedy. When Lyndon Johnson of Texas moved into the White House he brought his own family cook along, but Verdon stayed on to officiate at state dinners and other social functions.

In an interview with UPI Verdon said that it has become customary at the White House to boil potatoes ahead of time and store them in the freezer until they were needed.

"What did he think of this?" "Very lousy."

"But what can you expect?" he added.

Gains New Look

HOLLYWOOD (AP)—Mia Farrow now looks like someone's little brother.

The 29-year-old star of television's "Peyton Place" has had her hair cut—boyishly short.

This, plus a freckled nose and no makeup, gives her that different look. Friends say she did it so she could have a "new look."

Ordinance to Be Discussed by City Commission

The consideration of an ordinance vacating an alley near Locust Street South and Highland Avenue and the authorization of an investment of \$125,000 in U.S. Treasury bills for a six-month period will highlight a meeting of the Twin Falls City Commission at 7:30 p.m. Monday in the City Hall.

Also on the commission's agenda is the authorization of an agreement with Oregon Short Line and Union Pacific Railroad companies for a pipeline agreement for five water pipeline crossings and an agreement with officials of the Depot Grill for construction of a temporary structure at 315 Johnson St. S.

Additional items will be brought up by the city manager, city clerk and city attorney.

Rites Held

Gravelside services for Holly Jo Davis, infant daughter of Mr. and Mrs. Loyd G. Davis, were held at 2 p.m. Saturday at Sunset Memorial Park, with Rev. R. O. McCall officiating.

Fun, Surprises Highlight Magical Holiday Season

By NORMA HERZINGER
Women's Page Editor

Santa's helpers are all busy, Christmas music fills the air and the sound of the holiday season is everywhere. Christmas time is a magical season filled with fun and surprise to delight all ages. Social gatherings this time of year are many, and all brightened with a new twist to engulf everyone in the holiday spirit.

The enthusiasm of this festive time can be wonderful when shared with friends and acquaintances as well as with family members. Homes are gaily decorated and the festive light spread to local business establishments, making all realize Santa's night is almost here. Holly, mistletoe and pine are the traditional greens of Christmas, and the joyous season wouldn't seem right without some of these greens decking the halls, inviting everyone to participate in traditional social functions being offered throughout Magic Valley.

Members of Twin Falls Omicron Chapter, Beta Sigma Phi, and their husbands and guests were swept into the holiday whirl of party goers at a social at the home of Mr. and Mrs. Michael Tegan, 152 Wiseman Ave., Twin Falls.

The yule spirit blossomed all through the house, with a pink, gold, red and green theme predominating. The dinner tables were highlighted with gold-colored Christmas tree centerpieces. Making the holiday mood complete, large colorful Christmas bows were used in deco-

Sorority Menu Is "Bewildering"

By GEORGINA LAYTON
BURLLEY—A festive Omicron Chapter, Beta Sigma Phi, dinner party in honor of the members' husbands. (Guests had been seated at quaint tables and were eagerly awaiting the time for dinner to be served.)

"I'LL TAKE SOME OF THIS, this and this," says Robert Saxvik as he views the "Cafe La Parisienne" menu at a recent Xi Omega Chapter, Beta Sigma Phi, dinner party. The menu was written entirely in French and proved to be a most interesting point of conversation during the social. Mrs. Saxvik assists her husband in ordering from the menu. (Times-News photo)

Only one thing was wrong, however, as was evident on the faces of the husbands as they opened the menus and began to read. The entire selection of foods was written in French. All agreed that the theme for the holiday social, "Cafe La Parisienne," was terrific—quaint tables covered with white cloths and centered with drip candles and the red and white napkins accented the French theme very well, but a French written menu—that was something else.

A portion of the menu viewed by the men looked something like this:

Lamb en Brochette	220 Fr.
Chateaubriand	845 Fr.
Baba-Bisque-Brioche	490 Fr.
Pate de foie gras-croûton	340 Fr.
Bordeaux chateau	
Morgaux	1947 Year
Le Chambertin	1847 Year
Pouilly Fuisse	2700 Fr.

The average person would be taken by surprise to see something like this when hamburger patties were telling them that a nice juicy steak would taste good.

The party was held at the home of Mr. and Mrs. William Suggs. A social hour was held prior to the dinner and the husbands were presented the ties bearing the sorority emblem. Mrs. LePage Layton presided during the ritual honoring the husbands.

Following the ritual, the husbands elected a "Husband of the Year," with Layton receiving the special honor. He was crowned by Mrs. Ned Warner, social chairman.

After the bewildering of the unique menu subsidized, dinner was served by chapter members dressed in black dresses and served with pert little white aprons.

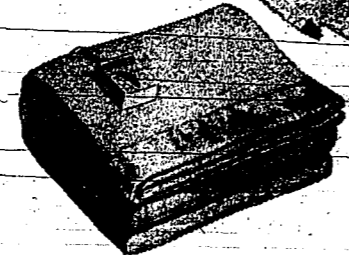

VIEWING THE CAFE LA PARISIENNE poster displayed at the home of Mr. and Mrs. William Suggs. The social was held at the Suggs home and featured a cocktail hour, dinner, games and dancing. A French motif was used throughout the home for decorations. (Times-News photo)

Husbands of the Beta Sigma Phi members were presented the ties bearing the sorority emblem and a "Husband of the Year" award was presented. (Times-News photo)

Lila S. Bean Is Bride of Dennis Ballard

BURLEY—Lila Selena Bean, daughter of Mr. and Mrs. Raymond Bean, Burley, and Dennis Ballard, son of Mr. and Mrs. Harry R. Ballard, Murray, Utah, were united in marriage Nov. 12 at the Salt Lake City LDS Temple.

A white backdrop flanked by white pillars and topped with arrangements of orchid-colored chrysanthemums and white carnations formed the background setting for the reception held at the new home, Nov. 19 at the Untley LDS Cultural Hall.

The bride wore a floor-length wedding gown of lace over satin, featuring long lily point sleeves, a sweetheart neckline, pearl and sequin trim and a bouffant skirt of tulle.

Her shoulder-length veil of illusion featured a border of wide lace and was held by a cascading arrangement of orchid-colored chrysanthemums and white carnations.

Mrs. Roland Bean, sister-in-law of the bride, was matron of honor. Bridesmaids were Lillian Bean and Lynette Bean, sisters of the bride. Flower girl was Shelia Bean, sister of the bride.

Ken Ballard, brother of the bridegroom, was best man. Ushers were Bruce Bean and Dennis Bean, brothers of the bride; Dennis Bean, cousin of the bride, and James Irvine.

The bride's table was covered with a white lace cloth over orchid and centered with a four-tiered wedding cake. The cake was topped with a double heart. With three square-topped pillars separated by Grecian pillars adorned with silver and white ribbons, white roses, purple orchids, orchid and white bells and double lattice hearts. The wedding cake was topped with a miniature bride-and-bridegroom standing in front of a lace heart. It was made and decorated by the bride's mother and Mrs. Roland Bean.

Mrs. Wade Baker, Mrs. Page Crandall and Mrs. Edna Johnson were bridesmaids. The bridesmaids of the bride, cut and served the cake. Serving were Colleen Carey, Marilyn Egan, Mrs. Ann Hald, Mrs. Karen Funk, Sandra Hild and Janice Staker. Assisting in the kitchen were Mrs. Dolores Huber, Funk and Mrs. Tarvel Rasmussen.

Mrs. Jack Jensen, aunt of the bride, registered the guests. Gifts were displayed by Linda Rigby, Darla Turner, Sally Crane and Linda Anderson.

Master of ceremonies at the reception was Raymond Bean. Prayer was given by W. C. Gardner, grandfather of the bride.

Accompanying the couple to the temple were parents of the bride and bridegroom, Bishop and Mrs. Wayne Call, Mrs. Jone Church, Mr. and Mrs. Roland Bean and Kent Ballard.

The couple took a wedding trip to Las Vegas and are residing in Murray.

A wedding breakfast at the chairman honored the newlyweds and was hosted by the bridegroom's parents. A reception was held in the Reception Center, Salt Lake City, hosted by the bride's parents.

MAKING FINAL ADJUSTMENTS to a gold-colored Madri Angel is Mrs. Robert Braliford, left, and Mrs. Larry Christensen when members of the Magic Valley Memorial Hospital Guild decorated the hospital for the holiday season. The Madri Angel was made by Mrs. Braliford and took about one and one-half hours to complete. She completely decorated the snack bar in this motif. All decorations for the hospital were

made by members of the guild and the art work on the windows was done by Twin Falls High School art students. Mrs. John Peterson, decorations chairman, has worked approximately six weeks getting all materials together for the decorating projects. This is an annual project sponsored by the guild to help bring the Christmas spirit to hospital personnel and patients. (Times-News photo)

Two Girls Are Honored at Annual Event

JEROME—Incoming-honored queens, Shirley Sheppard and retiring honored queen, Teresa Hagler, were honored at the International Order of Job's Daughters Annual Ball at the Jerome High School Gymnasium.

Theme for the formal ball was "Goldfinger." Decorations were carried out in colors of gold, yellow and white with the "00." The false ceiling was formed of yellow and white crepe paper. Large gold letters spelled out the theme on the stage curtains. Music was by the Conquerors, Bolts.

Leading the grand march were Miss Hagler and her escort, Glen Sidwell, and Miss Sheppard and her escort, Cecil Wright.

Dance programs were distributed by Shirley Bow, Theresa McClain, Kelly McIntyre, and Kent Goehner.

During intermission Miss Hagler presented her queen's robe and crown to Miss Sheppard. Officers of the ball performed a skit and presented the award. The refreshment table was covered with lace and centered with gold candles. Mrs. Gerald Hill and Mrs. Paul Malone presided at the punch bowls.

Committees for the dance included Carol Jewell and Kathleen Messenger, refreshments; Mary Kay Sisk, Dorothy Gano, publicity, and Bobbi Ambrose, Sandra Sheppard and Miss Messenger.

Marjlyn Hill, senior princess, and Christine Thomason, junior princess, were general chairmen in charge of arrangements.

Church Women Elect Officers

BUHL—Mrs. Donald Schroeder succeeded Mrs. Nell Stigemeier as president of the Lutheran Women's Missionary League of St. John's Lutheran Church, Buhl, during an election meeting at the church.

Other officers elected include Mrs. Clinton Claxton, vice president; Mrs. Harlan Schmedtke, secretary, and Mrs. Alfred Datis, treasurer. Officers were installed in a ceremony conducted by Rev. Henry Trell.

It was voted to contribute the year's birthday offerings to the Good Shepherd Home of the West, a Lutheran home for retarded children, at Terra Bella, Calif. Preparations were made for baskets to be distributed to the less fortunate. It was reported Sunday school children have brought toys and clothing to the church which have been packed and sent to an Indian school in Montana.

It was the third time around for the unbeaten, United Bowl Spartans, winners over UCLA in the New Year's Day Rose Bowl games of 1954 and 1956, and a 15-7 victory over the Bruins in their regular season opener this fall.

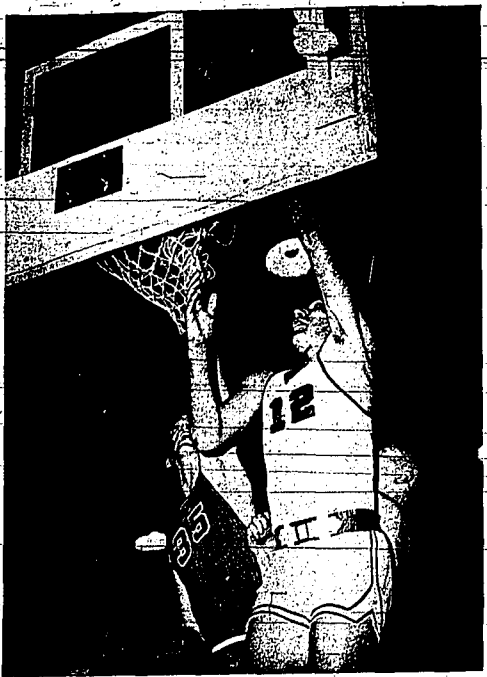

The chartered carrying the 44-man squad, coaches and members of the team's families, left a chilling temperature in the mid-20s in Michigan to find it a comparatively balmy 50 degrees in California.

"This is perfect," said Coach Duffy Daugherty. "This is like September back in Oregon. I hope it stays this way."

Boxer Dies in His First Bout
 BAD KREUZNACH, Germany (AP)—A 25-year-old GI, making his debut as a boxer in a United States Army tournament Friday night, died Saturday of a heart attack after a bout with Sgt. Louis E. Hand collapsed during the third round of a lightweight bout and died later in a hospital of head injuries.

He was knocked down twice earlier. It was his first appearance ever in a bout, although he had trained for the event.

Vikings' Big Fourth Fells Oakley 62-50

EDEEN—HAZELTON—The Valley Vikings outscored Oakley 18-14 in the fourth quarter Friday night to take a 62-50 victory over the Hornets.

The Vikings had three players in double figures as they led all the way, letting the Hornets close the gap to three points in the third quarter—the closest they got.

Buhl Edges Minico 53-51 in Last Minute

BUHL—Ian Von Lindern and Nell Barjor got clutch buckets in the final minute Friday night to give the Buhl Indians past the Minico Spartans 53-51, victory over Tuesday. Buhl trailed most of the first half.

The Indians opened up a six-point lead in the third quarter but Minico flourished back on top 49-39 at the quarter rest to set the stage for the hectic finish.

Met Hurler Does Not-Like League

CARACAS, Venezuela (AP)—Larry Bearnarth, New York Mets pitcher playing in the Venezuelan Winter League, said Saturday he doubted he would return to his country after a Christmas vacation at home.

Bearnarth has been the center of controversy since Harry Allen, sports columnist for the New York Post, published a personal letter in which the young pitcher criticized Venezuelans, their way of life, speech and gullibility. The letter, in turn, was translated into Spanish and published in a Caracas paper.

Cowboys End Bulldog Win String 67-56

HANSEN—North Gem's point scoring from both Ford and Maxwell saved the Cowboys ending the Kimberley Bulldogs' 11-game winning streak.

The Bulldogs held the lead through most of the first half behind shooting of Steve Fitzhugh, Larry Hudson, but lost a third quarter when Maxwell scored twice in a row while Berkeley could not hit.

The Bulldogs closed in on the lead early in the fourth quarter but the five free throws a field goal by Maxwell put the game away.

WINS CLASSIC MILWAUKEE (AP)

Sophomore Ron Williams sank 38 points to set a Milwaukee Classic individual scoring record and lead the fast-breaking West Virginia Mountaineers to a 101-93 consolation victory over Wisconsin Saturday night.

Gemini Program Achieves All but One Major Goal

SPACE CENTER, Houston, Tex. (AP)—With the flights of Gemini 6 and 7, the Gemini program has achieved all but one of its major goals.

The National Aeronautics and Space Agency now will start applying what has been learned to more sophisticated missions leading to manned lunar landings.

On tap for the remaining five Gemini launches, all scheduled in 1966, are quick rendezvous missions, linkups with more than one satellite, and intensive astronaut walks in space.

Discussing the completion of the Gemini 6-7 mission Saturday, Dr. Robert R. Gilruth, director of the Manned Spacecraft Center, said:

"The flights climaxed a fabulous year for manned space flight. Since NASA's first satellite was sent five two-man crews into space and recovered them all safely."

"We now have accomplished the major Gemini goals. Among them were long-duration flight of 14 days, extra-vehicular activity (space walk), controlled re-entry and landing and rendezvous."

"Actual hookup with another satellite is the only major Gemini goal not achieved. The Gemini 6 pilots, Walter M. Schirra Jr. and Thomas P. Stafford, originally planned to dock with Gemini 7. But the Gemini 6 flight wiped out when the Agena failed to reach orbit."

The rendezvous with Gemini 7 was substituted. After coming within six feet of Gemini 7 astronauts Frank Borman and James Lovell, Schirra said: "Docking will be easy."

The Gemini program director, Charles Matthews, said:

"Gemini 6 and 7 demonstrated two spacecraft can rendezvous 'how way' on more elaborate rendezvous techniques which will be more useful to the Apollo moon landing program."

He said that on Gemini 8, scheduled in March or April, two methods will be used to catch and link up with an Agena satellite.

"First, we'll try it in much the same way as Gemini 6 caught Gemini 7," Matthews said. "Then we'll try it without the use of radar and computer aids with optical techniques only. We'll be looking at developing a more simple operation."

The crew for Gemini 8 will be Neil A. Armstrong, veteran X-15 rocket plane pilot and Air Force Major David R. Scott. Scott plans to be outside his spacecraft for a full 90-minute orbit on a 100-foot lifeline.

Astronaut Edward H. White Jr. took a 22-minute space stroll in Gemini 4.

"There is much more we want to learn about EVA—extra-vehicular activity," Matthews said. "Just a single demonstration of EVA is not enough. We want to know how to use it."

Here is the tentative plan for the Gemini flights after No. 8. All will be two or three-day missions.

Gemini 9: Astronauts Elliott S. Sizemore and Air Force Major Charles A. Bassett will try to rendezvous with an Agena in an elliptical orbit rather than a circular path. They also are to try to rendezvous with the Agena left in space by Gemini 8. Recovery of instrument package left there by Scott. Bassett will test a new self-propelling back-

pack outside the spacecraft.

Gemini 10: A direct ascent rendezvous flight, during which the astronauts will try to dock with an Agena just 102 minutes after the Agena is launched. Extensive maneuvering planned with the backpack during a space walk.

Gemini 11: To practice a docking maneuver that the Apollo pilots will have to perform when launching themselves from the moon to rendezvous with their mother ship in lunar orbit, Agena will be used.

Gemini 12: To rehearse the docking maneuver the Apollo astronauts would have to make if they separated from their mother ship and then decided not to land on the moon after approaching the surface.

NASA plans to complete the Gemini flights by next fall and then move on to the three-man Apollo flights with the three-man Apollo ship. The goal of a manned lunar landing is 1969, but could come as early as 1968 if there are no hitches.

Girl Listed Good After 2-Car Wreck

CASTLEFORD — Valeria Brown, 17, Buhl, was listed in good condition Saturday in Magic Valley Memorial Hospital following a two-car collision Thursday one mile north of here. She received a broken arm and facial lacerations.

Mrs. Margaret J. Brown, 40, driver of the 1959 Mercury, and her other daughter, Susan, 19, were disoriented from the hospital Friday. They received bruises and head cuts.

According to Twin Falls County Deputy Sheriff Curtis Fryor, Susan was thrown from the car on impact with a 1963 Dodge pickup truck driven by John B. Bragg, 35, Twin Falls.

"Fryor said Mrs. Brown was traveling north and Bragg east when the vehicles approached an intersection. Bragg told officers he did not see the Brown vehicle and Mrs. Brown said she assumed the pickup truck was going to stop.

When she realized it wasn't, she told officers she attempted to avoid impact, but was unable to do so and her car was struck on the driver's side. It traveled on north, knocking over an Idaho Power pole and tearing out a portion of fence.

The Brown car was demolished and damaged to the truck was estimated at \$250.

PICTURE OF A contented man in retirement, is this one of H. G. (Chick) Hayes who, after 48 years engaged in the teaching profession, and in business, has retired. Right now he is sitting a little waiting for trying to see how he can do some fishing and some traveling. Mr. and Mrs. Hayes reside on Route 3, west of Twin Falls. Born in Missouri, Hayes came West in 1920 as superintendent of the newly consolidated school at Castleford. (Times-News photo)

H. G. (Chick) Hayes Retires After 48 Years in Business, Teaching

BY G. A. (GUS) KEMMER
Times-News Feature Editor

H. G. (Chick) Hayes, who was practically a legend in his time, so far as the hatchery business was concerned, has retired.

After 48 years in the teaching profession, the hatchery business and as a furniture store operator, he has decided to take it easy.

Through the years, without much personal fanfare, Hayes was instrumental in increasing the population of the Magic Valley area by about 1,000 people.

"I wasn't the father of that many," he laughed during a recent interview. "It was just that I interested that many Missouri boys into coming out here."

He added, "I was just enthused about this country, so I did a lot of talking about it. Friends here estimated that the noise I made about the virtues of this area interested that many people and they came West to stay."

"It might sound rather strange, but Hayes got interested in the hatchery business while he was still an educator.

"When I first got to this section of Idaho I found that the farmers were very prosperous and yet they did not raise their own chickens or hogs, or cows."

"I got to thinking about this and the idea came to me that a chick hatchery would be a good business venture. So, in 1924, I decided to try it and I put in my first 10,000 egg capacity setup."

"This was in a frame building in the 300 block of Main Avenue East, just at the rear of the present Texaco station at that location."

"I continued in the educational field and hired a man and his wife to operate the business while I was teaching. A couple of years later I was hooked. I gave up school administration and entered the hatchery business in earnest.

"One thing about it. There was absolutely no competition and things were easy. It was one of those situations that come around once in a lifetime. Today, for instance, you even have competition when you take a deep breath."

After that 10,000-chick start, it was not long before this was increased to a production of 47,000 and then to 124,000 and still higher to 141,000.

His second hatchery was located in a building that still stands at the rear of the Idaho Department Store and his third was in a newly constructed building, in 1928, which was at 460 Main Ave. S.

Later he added an identical addition to this building and opened a feed store and mill in connection with the hatchery setup.

It was in this same building that he finally ended up selling new used furniture and running upholstery business. But reaching that point was a long ride.

Hayes started life as the son of "farm folks" back in Linn County, Mo., in 1893. His education started in Missouri—where he lived prior to the time he came to Idaho—and he went through the first eight grades in a one-room schoolhouse with one teacher instructing all grades.

Getting through those first eight grades was somewhat of a

task. It was financially necessary that he do a lot of work directed toward "book learning." The result was that he was 18 years old before he finally completed those eight grades.

Then he entered high school—a county high school—and he was 22 when he was graduated.

To get that educational opportunity he was assistant janitor at the school and he "hacked" and did his own cooking and own housekeeping.

From there he managed to enter Columbia University in the summer of 1915 and in a short period of time knew enough to qualify as a teacher in a one-room school only three and one-half miles from his original home.

"His next year—1920—a month which, he said, "was the greatest salary ever paid in the history of that school."

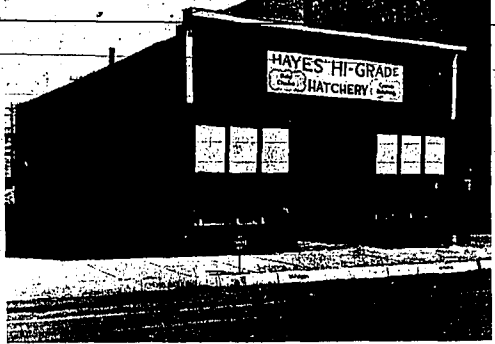

After one year there he went to Kinkville Teachers College and finally got a BS degree in education. He got through his cut lawns, stoked furnaces and did other odd jobs.

His first real job, after graduate work.

(Continued on Page 27)

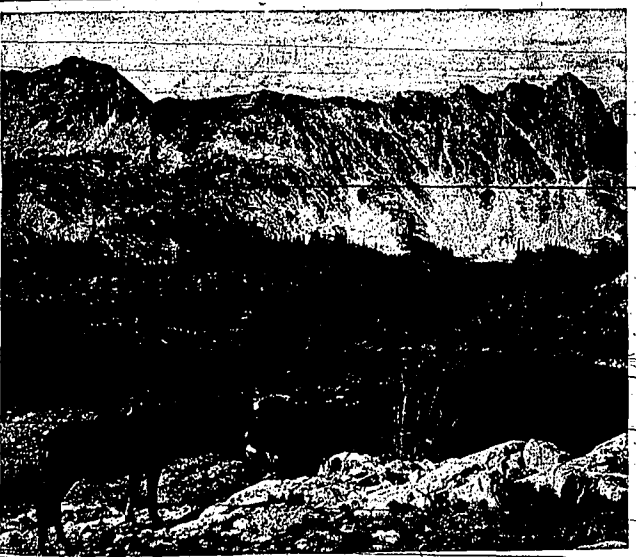

THIS TRADEMARK is one H. G. Hayes made famous in the Magic Valley. He also gave him the nickname of "Chick" and he used it in all his newspaper advertising.

TOTAL OF 47,000 eggs was hatched at one time in this building as H. G. (Chick) Hayes entered the hatchery business in a big way in 1925. This structure still stands behind the Idaho Department Store in downtown Twin Falls. It houses a shoe repair business and a barber shop.

WILDERNESS LAKES, reached only by horseback or by plane, are numerous in the northern division of the Sawtooth National Forest. In this picture, Ralph Claco, ranger of the Sawtooth Valley, is shown beside such a lake. Multiple use of forest land is shown in the new area map now available for distribution. (Sawtooth Forest photo)

SCENES SUCH as this one, showing sheep grazing in a meadow of the Sawtooth National Forest, are used to illustrate the new northern-division map and brochure now available at Twin Falls Chamber of Commerce office and at ranger offices throughout the area. (Sawtooth Forest photo)

New Map Details Attractions of Northern Sawtooth Forest Area

People who yearn for some place to go where they can do a little thinking without being involved in the everyday stress of living now will be able to find just such an area.

Pointing the way—and making a lot of suggestions in the process—is the "brand new" map—brochure now available, which details the northern division of the Sawtooth National Forest.

Completion of the map and its availability is announced by Max Rees, forest supervisor, and Robert Hoag, recreation staff officer.

Copies of the map—brochure are available at the present time, at the local supervisor's office on Addison Avenue East, at the Twin Falls Chamber of Commerce or at any ranger's office in the district.

"It is without a doubt the most

useful map we have ever distributed, from the standpoint of a lover of the outdoors who wants to know just where to go in the country north of us," Rees said.

The new publication, when expanded, measures approximately 24 by 30 inches and details creeks, lakes and trails throughout the northern forest division. Portions of the Challis and Boise National Forests also are shown on the map.

Printed in bright and light green and light blue, named places are in easily read type and the legend includes national forest boundaries, paved roads, dirt and primitive roads, trails, fire stations, ski areas, district ranger stations, forest development roads and urban areas.

Numerous photographs were used to illustrate the brochure section of the new publication.

By the photographs, the visitor

realizes that the multiple use theory is paramount in forest operation. Rees said, "It shows that forest land is for all people to enjoy for all time."

In a "Welcome to the Sawtooths" paragraph it is pointed out that "there, in the authentic environment of the Old West, you can capture the exciting character of your National Forests."

The spectacular beauty of the Sawtooth Mountains, some of which has been reserved in a natural, wilderness state, contrasts with the orderly beauty of managed lands below. Beauty and productivity are blended to provide the greatest good of the greatest number in the long run.

Names of old towns still existing, or which have disappeared with the years, are detailed as well as the names of the pioneers who traversed the area or lived there in the years

that are past.

Both officials point out that even though paramount interest of an individual to "be alone" is high on the list of sought-for things, everyone should make a stop at the new Visitor's Center at Redfish Lake.

Here, through informative exhibits, slide lectures and nature walks, you can "learn more about the big country."

"This is the place to start your Sawtooth adventure," Hoag said. "From here you can visit various interpretive sites throughout the forest, finding added beauty because of new interest and understanding."

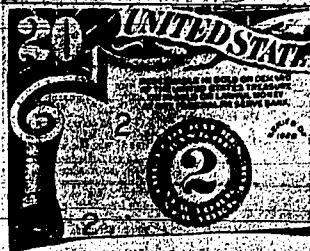

Personnel at the Redfish Lake Center and other Forest Service offices are anxious to answer your questions and provide a variety of information to make your trip more enjoyable.

CORNER OF FEDERAL Reserve note, like one which prompted a question by a Money Box reader, is noted in this photo.

CORN OF NAPOLEON III, emperor of France, has a monetary value which is very low.

The Money Box

BY FRANK SCHELL

Question from Mrs. J. G., Twin Falls: We think we have a real old coin. Dark brown in color, with a man's head on one side, with coin whiskers, and an eagle on the other. Best we can see, it says III Emperor, either 1235 or 1245. Will you look for this over in next week's paper.

Answer: It is rather difficult to identify your coin from the meager description, but I think you have one of the coins of Napoleon III, Emperor of France. (See illustration and complete description with your coin.) Since you do not give a denomination, it could be either one cent, two cent, five centimes or 10 centimes, and since the coins were issued from 1852 until 1870, yours is undoubtedly 1852. It is very little value—the coin is in new condition for 15 cents to 25 cents, depending on the denomination. Incidentally—it takes 100 centimes to make a French franc—and the coins are now worth approximately two to three thousandths of a cent, so the monetary value is very low.

Question from L. J., Route 1, Duhl: I have a 1928 Series B, 210 bill, Federal Reserve Note, on which is stamped "Redeemable in gold on demand" at the United States Treasury or in gold or lawful money at any Federal Reserve Bank. I have a bill of more value than a \$20 bill without this marking? It is in excellent condition.

Answer: Your description is excellent. You did not give me the Federal Reserve District which issued the bill. (See illustration.)

Your bill will be marked with a number—one through 12, designating the Federal Reserve District (You will note that under the large number the name of the District is also given). All Federal Reserve Notes are now worth approximately 1/100th of a cent. New York, 3—Philadelphia, 4—Cleveland, 5—Richmond, 6—Atlanta, 7—Chicago, 8—St. Louis, 9—Minneapolis 10—Kansas City, 11—Dallas, 12—San Francisco.

A year ago it would have been unobtainable for one to own a gold demand note, but last

year the Treasury Department loosened the regulations so that it is a collectible item. Your note, if in as good a shape as you indicate, would bring you from \$23 up to \$23 depending on the district of issue. Some of these notes are scarcer than others. Uncirculated or new notes of this type bring about 25 per cent more.

Question from L. M. R., Burley: I have a coin which says Republics de Honduras and the year 1831 on one side, and on the other side is the legend "Un Lempra" over an Indian's head, with 0.500 under it. I presume it comes from Honduras, but what in the world is a "lempra" and why the 0.500? Answer: Your coin is from Honduras as you surmised. The designation of "Un Lempra" is a denomination of Honduran money. The "lempra" is the same as a "peso" in Honduras, and equal to about 50 cents in United States money. The 0.500 designates the fineness (or amount) of silver in the coin. Your coin is in very fine condition, is worth about \$1.50 to a collector. Life in MAGIC VALLEY

A unique display depicting the Christmas story, another outstanding contribution of the BUHIT, feature artist, Mrs. Harvey (Glady) Blockbaust and Lucille Houston, is now on display in the window of the Mountain States Implement Co. on Broadway Ave. S. The picturesque scene features the "Three Wise Men" in colorful costume bearing gifts, leading the Christ child, who is being held by the Virgin Mary, against a background of the city of Bethlehem and topped with a shining Star of the East, their guiding light to the birthplace of Jesus.

The enchanting creation is entirely made up of feathers. The animals, especially the camels, are so realistic they captivate the attention of a passer-by.

The highly superior look so characteristic of the camel has been captured as well as the docile look so descriptive of the sheep.

Many months of hard work have gone into the making of this creation and the only reward the two BUHIT women receive from their work is the pleasure that can be derived from it by local residents this holiday season.

The artist noted as many natural colored feathers as possible were used in the concoction. Many friends contributed the feathers from wild game shot during the hunting season. Some 15 varied busts of colored feathers of wild game went into the making of this masterpiece. Feathers were used from natural red hen, natural game grey hen, natural black bantam, Cornish game chicken, California bantam and Cornish game, barred rock, hen, natural white wyandott, pheasant, peacock, chukar

mountain quail, wild goose, wild duck, grey goose, white goose, turkey, vantage chicken, leghorn chicken, as well as feathers from many different colored chickens.

This Yuletide greeting to the community is certainly a contribution to the city's seasonal decor and must be seen by all to be appreciated.

Mabelle Shaw, CORRAL Farmer and well known fiddler, has been performing as Santa Claus since 1924. He stated he has never missed a year since he started.

His first appearance as the "Old Gent" was at the GOODING High School when Shaw was a senior student there. He had so much fun, he decided to try it again. He has since played the role as many as six times in one year during the Christmas season.

Most of his appearances have been in Gooding, FAIRFIELD and Boise. For many years, he has been Santa Claus for the annual Lions Club Christmas party for the school children in Fairview.

He states that when he puts on the costume that he feels like he is "Santa's" action to do the part. He says that he never fails to get a thrill out of the eager eyes of the children as they crowd around him.

He states that the only thing that he is not an expert on is larger children rudely push the little ones out of the way in order to try and get to the first line.

Besides his many public appearances, he has always played "Santa" for his brother-in-law's family, the children of State Sen. and Mrs. Lloyd Barston. He has continued to make particular appearances at their home by coming in through a window or some other way.

Shaw states that he has never received any remuneration for his services and that the word pleasure that he attains when he sees the look of rapture on the faces of the children is worth the efforts to perform the role.

Disposal of Garbage Far Behind Times

NEW YORK (UPI)—A poll of homemakers has shown that the average American household to dispose of garbage hasn't kept pace with the times.

Less than 10 per cent of American homes dispose of garbage and trash on site. The survey shows it is shifted two or three times to different containers on the premises. Then the responsibility of finally getting rid of it is transferred to a municipality or private agency.

The variety of activities required to collect waste around the home would surprise efficiency experts.

The following are some mentioned by the homemakers interviewed in a recent study:

- Emptying and relining waste baskets, a daily or every-other-day job.
- Collecting magazines and newspapers. About one-third is given to charity, one-third is burned, the hauled away.
- Sorting garbage from non-burnables. Some families drain garbage, others also wrap it in paper then store it temporarily in a kitchen tub.
- Transferring it outdoors to a collection can.
- Burning of paper and trash, conforming to specific times regulated by municipalities. This is usually a daily or every-other-day activity.

We are receiving precludes answering unless you do so. (Questions on coins and currency should be sent to The Money Box, c/o The Times-News, Twin Falls, Idaho.)

L. G. Vost, house-parent at the Idaho Youth Ranch, RAR, PERT, has accepted an appointment and lecture from Mrs. Vernice Hansen, Mrs. Hansen's husband, Mr. Hansen, has not yet been built, plans have been made and blueprints drawn for one to be built in the near future.

The piece, also including a calendar and collection plates, will also go with the set.

Nepes, of mysterious origin, which he imported from Oregon several years ago. He made trips and brought it home himself from this area by truck.

The set has been used in the Lutheran Community Methodist church for many years, but the letters was added just a few years ago. Since the merger of the Lutheran and RME churches, Mayor decided to give it to the Idaho Youth Ranch.

Head of Draft Setup Would Have All Males as Members of Citizens' Unit

WASHINGTON (UPI)—Lt. Gen. Lewis B. Hershey has the controversial job of saying who goes into the military. But Hershey says he is like his grandfather, who "read the Bible and ran his own country schools. But he is a Catholic and a member of the United Methodist Church."

He advocates universal military training and a citizen's army patterned after the Swiss in which all males are trained for a 4-month period. Hershey recalled for refresher duty. Hershey contends that the nation lost 400,000 men during World War I after a war only to find itself embroiled in a new conflict a few years later.

He considers post-World War I an example. Appropriations for Selective Service were scanty and hard to obtain. Enlistments dropped sharply and rumor had it that the draft was in motion and when the Korean war broke out, he was ready. Within two months, 80,000 men a month were being called for duty.

But Hershey's insistence on readiness is tempered by an understanding and feeling for the men who receive "greetings" from Uncle Sam. He has noted unflinchingly that a truly democratic draft system must have its roots in the community. A youth subject to call is known best to his neighbors, Hershey says, and they should decide whether he would be more effective at home or in uniform. He sees state and national draft headquarters—and even the director himself—as mere cogs in induction machinery.

Wrong Spirit

SPRINGFIELD, Ohio (UPI)—A shy Santa Claus, who gave children his Christmas list instead of listening to theirs, will get out of jail.

Police said Robert Fraley, 41, of Paintsville, Ky., was acting as Santa for Christmas in Dayton, Ohio, but left, still in uniform, to plead his own case on the streets of Springfield.

"Give old Santa a dime so he can have a good Christmas," Fraley allegedly asked youngsters.

Population of World on Rise

WASHINGTON (UPI)—The world population is rising rapidly, and the United States is one of the few nations that is not keeping pace with the increase.

—About 25 million persons died in the world-wide influenza epidemic in 1918.

—Josef Stalin deliberately starved peasants to death because they resisted his campaign to establish collective farms.

—He sent the Red Army into the Ukraine to seize all the grain, and estimates of the number of peasants who starved to death run as high as 4 million.

Resolution Adopted by Farm Bureau

CHICAGO (AP)—The American Farm Bureau Federation convention has adopted a resolution condemning action of a resolution of Agriculture U.S. Freeman in offering Government wheat on the market in bulk price advances.

The resolution declared the Freeman move constituted dumping wheat on the market at controlling prices at what is being sold by farmers.

Department officials, in announcing a broadened wheat sales program in Washington, said the action was needed to prevent possible increases in prices of flour and bread.

"It is now abundantly clear," the resolution said, "that it is the policy of the secretary of agriculture to use price supports in production control programs to depress and control market prices and thus lower prices received by farmers."

This criticism of Freeman was made shortly before the federation's annual four-day convention adjourned. Delegates voted to continue past policies, seeking eventual elimination of federal farm controls.

They also urged use of American food to help needy countries under a program involving less government participation than at present.

He whips into student demonstrators who, he has stated, are essentially should be engaged in "academic pursuits." His answer would be to classify them.

It is largely through Hershey's efforts that Selective Service has become the effective system it is today. When Franklin D. Roosevelt declared a state of emergency in 1938, Hershey had been secretary and executive officer of the Joint Army and Navy Selective Service Committee for three years in 1940 when the draft law was operating and ready for action.

Even now he continues to reorganize and amend the system to enable it to meet changing demands. He has seen too much war to relax. He holds the Army's Distinguished Service Medal awarded him by Harry Truman, and the Navy's DSM.

And if South Viet Nam should require more troops, Hershey will be prepared to provide them.

HAYES HATCHERY business came of age when an addition was constructed on first section and a feed and mill setup was installed. This was completed just before the financial "crash." H. G. Hayes, who is now retired, recalls that

times were tough and for months it was touch and go as to whether the business would hold together. In 1932 he left the hatchery business entirely. Following that he established a furniture business.

FIRST SECTION of H. G. Hayes' first permanent store building is shown in this early photograph taken 37 years ago. At that time his business was hatching some 141,000 chickens at

one time, making it the biggest such business in Idaho. Better yet, Hayes recalls today, there was no competition. The depression which followed changed all that.

H.G. (Chick) Hayes Decides to Quit After 48 Years in Two Professions

(Continued from Page 23)
Hayes, who was superintendent at Novelty, Mo., and still is engaged in that work.
After being at Castleford for two years, H. G. Hayes went to the Kimberly grade school where he was principal for a year and then to Eden where he was superintendent for three years. This was from 1932 to 1936.
It was about this time that the idea of operating a hatchery struck him and his days as an educator were about completed.
His hatchery - feed operation was going strong when the depression struck and, although he didn't "go under," the business was never the same. Times had changed and so he tried to sell, but by 1932 the sale proved to be impossible.
"I just decided to take all that equipment and wreck it," he said. "I then turned to handling used furniture—no one had any money for the new stuff—and finally added upholstery and finally new furniture at times got better."
On Nov. 19 of this year he sold his business to Blair Thompson and Thompson's brother-in-law, Frank Rayboun. The name will stay the same, but a television and household department has been added.
During his years as an educator and businessman, Hayes also has been active in community work.
He points out, for instance, that he was a member of the local Rotary club until the 1930's and things "got so tough

that I couldn't pay my dues."
In 1935 he had recovered enough financially to become a charter member of the Twin Falls-Lone-Club. He is a 30-year member of the Elk and will receive his Life membership next April.
A son, Earl E. Hayes, was a fighter pilot during World War II, is a graduate of the University of Idaho and heads a calculator business in San Jose, Calif.
A daughter, Mrs. Richard (Gibber) Jean Hickman, a graduate of Whitman College, is married to an attorney at Oakland, Calif.
What will Hayes do now that he has retired?
"Right now I'm just going to sit here and wait for spring and summer. One thing I never got used to learning to do is to sit," he commented.

Efficient (up)

NEW YORK (UPI)—A dog's efficiency as a burglar alarm is now recognized officially, according to the Pet Food Institute.
An English insurance firm gives a 20 per cent discount on burglary insurance premiums to dog owners.
It doesn't matter whether the dog is a Pekinese or an Alsatian—or a mixed breed. A home with a barking dog has built-in burglar protection, the firm maintains.

Yearly Yule Fete Held by Bridge Unit

Annual Christmas party was held by the Twin Falls unit of the American Contract Bridge Association at the American Legion Hall Thursday night with 14 tables in play.
Dr. H. E. Burgess was the director. Winners for section A north and south, were Mrs. J. S. Feldhusen and Mrs. J. W. Kingsbury, first; Mrs. Elva Meeks and Mrs. L. R. Dunken, second; Mrs. H. E. Jiff and G. M. Wolfe, third.

Mrs. John Brown, third.
Players had to play with someone they never had been partners with before, the director noted.
The nominating committee includes Mrs. G. Wolf, chairman and Mrs. Hartruff. It also will announce that the Burley Duplicate Club will hold an individual championship event Tuesday.
The Twin Falls Duplicate Club will not meet Monday, but will resume play Dec. 27.

Baby Honored

MURTAUGH—Funeral services for 16-day old Bowman were held at the Sunset Memorial Mortuary Chapel with Bishop Roger Tolman presiding.
Invocation was given by LeRoy Lee and a diet was sung by Mrs. Lova Watts and Thelma Lee. Speaker was Earl Watts and benediction was given by Joffre Jensen.
The grave at Sunset Memorial park was delicately by LeRoy Lee.

Insurance Bids Sought at Buhl

BUHL—Bids for liability insurance for the city of Buhl will be received up to 8 p.m. Dec. 28, was announced Friday by city officials.
Reed P. Maughan, mayor of Buhl, points out since only one bid from the Dairs Insurance Agency was submitted to the council meeting last week, the council voted to reject the bid and issue a new call for bids.
It is the policy of the council to have at least two bids in its possession prior to awarding a contract. This is in order to safeguard the taxpayers dollars in addition to being a good business procedure, he asserted.
Maughan expressed appreciation to the Dairs agency for the time and effort that went into the preparation of the bid. Bids from insurance agencies in Twin Falls County are being accepted.

RCA Solid Copper Circuits—for Space Age Dependability

RCA Solid-Copper-Circuits replace old-fashioned "hand wiring" ... for greater dependability, better performance, lower service headaches. Every copper circuit is an exact replica of the original master design. Scientifically controlled techniques assure uniformity of connections and placement of critical parts, eliminating the quality variations caused by hand assembly. Servicing individual parts is fast, simple and precise. Machine-perfect circuitry of this kind is also specially designed and produced for use in spacecraft, satellites, missiles and computers for the ultimate in precision, dependability and compact design.

PUBLIC ACCESS SITES such as this one at Ford Bay, below American Falls Dam power house, give more fishing and hunting opportunities away from the city. This one is on the south bank of the Snake River and shows area development, including boat ramp, parking lot and toilets. The Idaho Fish and Game Department now has nearly 150 such sites around the state.

Many of them have been improved, as this one, often in cooperation with county commissioners, highway districts, county waterways committees, municipalities, federal agencies and private enterprise. (Fish and Game photo)

Wide Open Spaces of West Disappear As Population Continues to Expand

BY JIM HUMBRID
Idaho Fish and Game Department
BOISE — There is a Santa Claus dwelling in the collective heart and imagination of mankind, if not at the North Pole, and it takes nothing away from the Christmas story to say that he needs all the help he can get. Here in Idaho, with a total state population far less than many American cities, the pressing need for outdoor recreation facilities nonetheless is apparent to natives and tourists alike.

Santa would have to put on more help and work around the clock 365 days a year just to keep abreast with the growth of the problem from year to year, with no thought for the backlog that has piled up in recent decades.

For example, a million acres a year of 1952 American landscape, the earth-wide wide open spaces, are being transformed to highways, subdivisions, shopping centers and all that goes with the urban sprawl.

Even so, the problem that is Idaho so far is more fortunate — large sections of the state are in the public domain. Most big game hunting and most fishing is done on national forest and other public lands.

Even so, the problem that is Idaho so far is more fortunate — large sections of the state are in the public domain. Most big game hunting and most fishing is done on national forest and other public lands.

This makes it possible for the department to proceed at a much faster pace with the work of acquiring and developing important hunting and fishing sites.

The new Land and Water Conservation Fund program also cooperates on a 50-50 per cent cost matching basis with state agencies and counties and municipalities desiring to sponsor outdoor recreation projects.

Through cooperative arrangements with the Bureau of Outdoor Recreation, which pays half of the cost, just over 1,000 acres of deer winter range have been purchased near Lucky Peak Reservoir for \$76,000, and a 230-acre ranch to give public access to Silver Creek has been bought for \$72,000.

John R. Woodworth, director of the Fish and Game Department, says that the advent of the Multiple-Use Act as an integral part of the present program of the U.S. Forest Service, plus the recent policy of the Bureau of Land Management giving wildlife consideration in range planning, allows for cooperative programs benefiting fish and wildlife on public lands.

Controlled by federal agencies, this is important in view of the fact that the department owns relatively little land and maximum development of these lands would still provide only a very small fraction of the state's total geographic area.

State residents recall that the department went to the state

Electronic Age Produces Teaching Methods Children Seem to Like

PHIL WATSON calls it the road to instant success. For both the electronic age have produced a new method to teach young students everything from languages to logarithms. And the kids like it.

The system is called, "programmed instruction." It probably the biggest quick change in teaching methods in history. Sales of programmed texts have zoomed from less than two per cent of the national school market in 1961 to an estimated 12 per cent this year.

A teacher calls it the road to instant success. For both the electronic age have produced a new method to teach young students everything from languages to logarithms. And the kids like it.

The student writes down the answer at each frame and checks to see if he is right before going on. The student uncovers it by moving a strip of cardboard called a slider.

Essentially, the system involves taking one small step at a time, but that step is such a firm one that learning it is far more positive a process than with old-style textbooks.

Taal Volcano Expected to Erupt Again

Several land purchases during the last fiscal year were large, bringing the total budget for this year to over \$100,000. These included the Fort Boise

Several hundred projects already were in the planning stages. They included everything from public access to zoology. All of them were designed to improve fish and wildlife conditions in Idaho.

The people using the resources called behind the department's five point program for the future—and the state legislature acted to provide more money to get the job done by increasing fishing and hunting license and tag fees in most classes.

Commenting in a booklet carrying the ambitious title, "A Ten Year Program for Fish and Game Management," Director John R. Woodworth summarized the job ahead as follows:

"Planning for a 10-year period involves more than just jotting down a list of projects. It is important that we consider the things that we plan to do will fit in with the overall recreational picture.

"We need to study such things as the state and national trends of population and how much additional pressure will be exerted on hunting and fishing.

"The demand or pressure on the resource is very real and we will need to plan our programs very carefully if we are to make adequate provisions for the years ahead," Woodworth concluded.

"It will be necessary to provide more access to hunting and fishing areas, more public use areas for hunting and fishing, more research so that we

MAGIC VALLEY PORTRAIT... Crash Diet Failed to Get Local Man Into Army During World War II Era

Charles E. Sieber is what might be known as a persistent individual. At the start of World War II he wanted to go to the war.

CHARLES E. SIEBER

...the thing held him back. He was overweight, according to the military standards, and he decided to do something about it. He traveled to Salt Lake City to get a physical there and was put on a strict diet—sort of a program to lose weight.

...It wasn't long after that when the end of the conflict came around and, as Sieber tried to get into the service once more, he found that his physical condition was just what the military needed.

...He worked for years in March of 1931, when graduation rolled around, things were rough, financially, and his mother's two brothers and three sisters moved back to Freeport.

...By "pulling strings" Mr. Perry was allowed to return to the Twin Falls from the service for a period long enough to present the award to Sieber on behalf of the national organization.

...At the time Sieber was active in community work the Jaycees were instrumental in providing the city with Jaycee Park, the swimming pool, Harmon Park and other major improvements.

...Sieber has lived in Twin Falls most of his life. He was born in a house which then stood on the south bank bridge.

...He started grade school at the old Elmwood one-room school house, where he had completed three grades at the time of his father's death.

...In 1921 his mother was forced to give up the farm and the Filer family moved to the Central grade school and then high school.

...He was active in Filer high school sports, was captain of the football in his freshman year and as manager of football for two years. He played a trumpet in the band and the Saxophone.

...In 1931, when graduation rolled around, things were rough, financially, and his mother's two brothers and three sisters moved back to Freeport. Young Sieber decided to stay in town, however, and went to work on a "farm" operated by Paul Detweiler.

...This association led to his being elected president of the Detweiler Bros. firm in September, 1932, and this association was to last for over 20 years with his first job—that of shoveling coal—leading up to the position of manager of the appliance department.

...Along the way he held various other positions of importance with the firm, including those in which he was associated with the war effort.

...He was associated in a furniture business for only a year after leaving Detweiler's before he was approached by Vay Howard, then president of the Blue Lakes Country Club, and the job as manager was offered to him.

...This association even endured through that time in October, 1960, when the original building burned to the ground. Although Sieber admits that he "stood there and cried" as the club burned in flames, it was a blessing in disguise.

...Now we have the best plant in the state and it was going to be burned, he said. He is certain that community service is a "must" for all students and the owners of the new Inn.

...The Inn is expected to open in 1966 and Sieber will go to Memphis, Tenn., in February for an intensive course of training and accounting. He also will spend three weeks as an active observer at one of the Inn's in that area.

...He added, "I've enjoyed my work all my life because it gives me the chance to work with and for people. I've never in my life like people, and they in turn do not like you, you really do not have much of a future."

...He added, "I've enjoyed my work all my life because it gives me the chance to work with and for people. I've never in my life like people, and they in turn do not like you, you really do not have much of a future."

Black Rule Groups Still No Threat

LUSAKA, Zambia (AP)—Two groups sworn to establish black rule in Rhodesia are still leading between themselves, more than a month after the white-ruled government there declared its independence of Britain.

The groups, with the announced aim of making Rhodesia into a black-ruled country, are the Zimbabwe People's Union—ZANU and the Zimbabwe African People's Union—ZAPU.

Neither seems a threat to Prime Minister Ian Smith's regime in Salisbury. ZAPU was formed in Rhodesia in 1961 and claimed a membership of half a million when its records were confiscated the following year.

ZANU splintered from ZAPU in August 1963 and was banned by the Salisbury government one year later.

ZAPU President Joshua Nkomo and ZANU leader, the Rev. Ndabandye Sithole, as well as top aides, are being held in prison detention camps.

ZANU's Lusaka office manager, Percy Nino says ZANU had 30,000 members when it was banned.

The Organization of African Unity has made several attempts to heal the breach between the two movements.

ZAPU publicity director George Silindika said: "Our emphasis is on complete non-cooperation with the enemy. First we want to bring Rhodesia's rural areas to a standstill and then convince the Africans to withdraw from the Rhodesian police force."

He estimated Rhodesia's working population at 700,000 and said the revolutionary major problem was that only 250,000 of these are indigenous Rhodesian Africans.

"Another 250,000 of these come from Malawi, whose president, Dr. Banda, has ordered them to stay on the job and forget about strikes and civil disobedience," he added.

"Our strike weapon is therefore very limited," Silindika said.

"Guerrilla warfare is the next phase in the revolution. It might come tomorrow or it might come next year. We must be able to meet force with force and this is the direction in which we are working."

There are hints that Ian Smith's security operations have infiltrated both revolutionary movements and have eliminated their capability to accomplish anything except minor harassment.

Zambia's welcome for Rhodesia's "freedom" fighters is lukewarm at best. President Kenneth Kaunda was disappointed when they did not march into Rhodesia after it declared independence, and began guerrilla activities.

Travel by Air Gains in Nation

NEW YORK (UPI)—More Americans are taking to airplane travel, according to a survey taken by the Gallup Organization for Trans World Airlines among a representative sample of the U. S. adult civilian population.

The survey showed that 38 per cent—or more than 47 million passengers—now fly on a special airliner, compared with 33 per cent reported in a similar survey made for TWA by Gallup in 1962.

YOUR SPINE AND YOUR HEALTH

Dr. LUDWIG C. LANDWEHR, D.C.

Brain and spinal cord form the central nervous system which acts as a command center for the entire human system. The spinal cord is contained in a tube of the spine, properly aligned. Throughout its length different branches of nerve fibers branch off to supply different organs of the human body. Any interference with normal flow of nerve impulses, caused by one or more abnormal, twisted vertebrae, may weaken or even stop the flow of nerve impulses to the organs and make it impossible to function, cause improper functioning, pain and discomfort.

With Chiropractic adjustments that improve alignment of the vertebrae, the nerve impulses can be transmitted and normal nerve impulses restored.

Sergeant Thinks of Wife, Children As He Becomes Target of Artillery

When he grew up he made the U.S. Army his career. He was with eight medic buddies when the Viet Cong ambushed the convoy, leaving three of the medics were killed by Viet Cong lying at the roadside. Three others were wounded.

After leaping from his jeep and crawling under it, he noticed a green hat and then raised head 25 feet away. The barrel was raised, and there was a sheet of flame.

The enemy bullet punctured the jeep's rear. Mocalikin's head. His return volley found its mark to the Viet Cong's skull.

A U.S. doctor, Capt. Maxwell Earl Cline, lay across the road in a ditch and cursed the fact that as Medics his group had only a minimum of weapons.

A Viet Cong was soon to play a game with him, tossing stones at him through the brush to de-sinking them in the mud.

That was when Mocalikin found loneliness, and the memory of his wife and family. "I was wondering if she would move with the four kids from Denver back to Boston with my folks," Mocalikin recalls.

"I was wondering how she would get the telegram that I'd died."

"It was so lonely, and I was so homesick out there. But I'd cried all my tears."

"The medic was so softy. Broad-shouldered and with penetrating blue eyes, Mocalikin had tied to the United States from Latvia when the Communists overran East Europe.

When he grew up he made the U.S. Army his career. He was with eight medic buddies when the Viet Cong ambushed the convoy, leaving three of the medics were killed by Viet Cong lying at the roadside. Three others were wounded.

After leaping from his jeep and crawling under it, he noticed a green hat and then raised head 25 feet away. The barrel was raised, and there was a sheet of flame.

The enemy bullet punctured the jeep's rear. Mocalikin's head. His return volley found its mark to the Viet Cong's skull.

A U.S. doctor, Capt. Maxwell Earl Cline, lay across the road in a ditch and cursed the fact that as Medics his group had only a minimum of weapons.

A Viet Cong was soon to play a game with him, tossing stones at him through the brush to de-sinking them in the mud.

That was when Mocalikin found loneliness, and the memory of his wife and family. "I was wondering if she would move with the four kids from Denver back to Boston with my folks," Mocalikin recalls.

"I was wondering how she would get the telegram that I'd died."

"It was so lonely, and I was so homesick out there. But I'd cried all my tears."

"The medic was so softy. Broad-shouldered and with penetrating blue eyes, Mocalikin had tied to the United States from Latvia when the Communists overran East Europe.

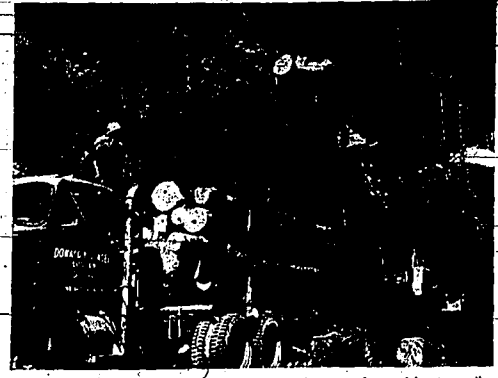

Guilty Pleas Are Declared by Two

Leon Urie and Michael Kernin entered pleas of guilty Thursday in Elsworth District Court on a charge of first-degree burglary in connection with the breaking and entering of Interstate Motor Lines, Inc., 222 South Park Ave., on Oct. 19.

A pre-sentence investigation was ordered by Judge Thorne Ward for the two.

Kernin was arraigned in Twin Falls Police Court Nov. 9 and Urie was arraigned Dec. 8. Both men waived preliminary hearing.

Mocalikin's night of horror happened a month ago, but to him it is still as real as if it happened last night.

LOGGERS LOADING a giant truck depict one of the many phases of forest operation. The picture is used as an illustration in the Sawtooth National Forest arboreal divilgia map-brochure just off the presses. (Sawtooth Forest photo)

Where to Go in Northern Division of Sawtooth Forest Related on New Map

(Continued from Page 2)

in a 1 1/2 page, the brochure points out that "the forest ranger's job is much more than putting out fires and growing trees and other vegetation to protect and improve watersheds, maintain and develop recreation values and improve wildlife habitat and storage conditions for livestock."

Rees pointed out that there is no charge for the map. It can be secured, for instance, at any ranger station or at the forest headquarters in Twin Falls at 1525 Addison Ave. E. Copies also are available at the office of the Twin Falls Chamber of Commerce.

"We're pretty proud of this new map," Rees said. "It will be helpful to everyone who uses it. We trust it will make use of the northern Sawtooth area even more of an enjoyment than in the past."

"There are, for instance, 30 recreational sites in the Northern Division of the forest and the location, size, elevation and permitted use of each one is detailed in a special section printed on one of the folds of the brochure."

"Now, those who love the outdoors will know right where to go, and just how to get there."

Christmas Greeting Sounds Strange When Spoken in Various Tongues

NEW YORK (UPI)—"Onsket om en god og glad Jul sendes fra hjem til hjem."

Before you start swigging, let it be hastily explained those words are merely "A Merry Christmas and a Happy New Year" in Danish.

And if you think that's a mouthful, try the traditional Yuletide greeting in Gaelic:

Nodrig shona dhuit agus aith-bhladhain Feòil agus chugairt. For the benefit of students of language and others who would like to learn the greeting in these and other tongues, Encyclopedia International has compiled a rundown which includes:

- Czech—Veselo vanoco a stastny Novy rok.
- Dutch—Prettige Kerstdagen en een gelukkig Nieuwjaar.
- Finnish—Haukkaa joulua ja onnellista uutta vuotta.
- French—Joyeux Noel et Bonne Annee.
- German—Froehliche Weihnachten und ein glueckliches Neujahr.
- Hungarian—Kelleses karacsonty es boldog ulvet.
- Italian—Buon Natale e buon Anno.
- Latvian—Priecigus Ziemsvakarus un laimigu Jauno gada.
- Lithuanian—Laimingu Kaladu svenulu ir laimingu Naujuju Metu.
- Norwegian—Guds rike veiselsne over eders julefest.
- Polish—Wesołych Swiat i pomyślnego Nowego Roku.
- Portuguese—Feliz Natal e Bons Festas.
- Romanian—Craciun si an nou fericit.
- Russian—Veselyja Svjatkij srazivnyj Novyj God.
- Slovakian—Veselo Vanoco a stastivny Novy rok!
- Spanish—Feliz Navidad y Aho Nuevo.
- Swedish—God Jul och gott nytt ar.

As for pronunciation, you're on your own. The Encyclopedia didn't say.

Writer Is Absolved of Tax Evasion

WASHINGTON (UPI)—The U.S. Court of Claims Friday absolved D. Armstrong of Springfield, Mo., of intent to evade taxes in the 1940s but denied him part of the refunds he was seeking.

The writer and former U.S. congressman was convicted by a jury on April 13, 1955 for fully attempting to evade federal income taxes owed for 1947, 1948 and 1949. He was fined \$300.

Armstrong thereafter sued in the claims court to recover assessments, including interest and penalties for those and three other years—a total of \$15,000.

At the time the case was heard by Claims Court Commissioner W. Ney Evans, there was a conflict among courts as to how binding a prior conviction is in a civil proceeding. Evans found the conviction not binding.

Evans also found a lack of fraudulent intent on the part of the former congressman.

Heyburn Urges Rail Warning

HEYBURN—The Heyburn Chamber of Commerce is instituting a project to get the Union Pacific Railroad Co. to place some type of warning signal at the crossings of four village streets.

The areas in question have been the scene of several accidents involving trains and highway vehicles.

No committee was appointed and the members will discuss it further at the next meeting.

It was reported that about 300 was netted from a recent turkey shoot sponsored by the Chamber. Members wish to thank everyone who participated in the annual event.

SLIDE KILLS TWO BRIDGEND, WALES (UPI)—An engineer and his assistant were killed when their empty passenger train was hit by a landslide near here.

Guam Said Strategic Now as During World War II

ANDERSON AIR FORCE Base Guam (AP)—Airman James Anderson, 22, rolled a 50-pound bomb along a runway on the island of Guam, U.S. Air Force enlisted man, V.A., paused for a moment to pick up another bomb up to the leader, ready to begin another 50-pounder. Anderson is a member of the Strategic Air Command's 31st Bomb Wing.

"You know, the fact is that we are now dropping these bombs on the island of Japan," Anderson said, "and we are dropping them on the mainland state of where we'll do some good. We'll put the bombs on the ten off again and take them back to the main point to that."

Newcomer, one of several thousand Americans in the area, Anderson, was helping to load 500-pound—khaki-colored—atomic bombs on the main island of Japan. Anderson said the bombs were being taken to the bomb bay in the aircraft's belly.

Anderson said that the bombs would be exploding on targets in South Vietnam. On a previous mission, three B-52s launched from Anderson's 14,000-foot runway dropped 369,000 pounds of high explosives in 600 acres which Gen. William C. Westmoreland, commander of all U.S. military forces in Vietnam, suspected were being used by Communist forces.

The airman—daily—said that Guam, as strategic as it is now as it was in both Japanese and American hands, it will be bombed again if not in numbers of sorties, certainly by the planes that carry it.

The million-dollar planes that are 300-mile round trip to South Vietnam day or night dropping their loads from high altitudes, Anderson said, are getting better precision by using computers.

Performing the missions to-day means that several hundred young men in their mid-20s and early 30s from SAC bases at Columbia Miss. and Wether, Calif.—in the 6th and 32nd bomb wings. They took over Dec. 1 from the 7th Bomb Wing which returned to Carswell, Tex., after several months on the island.

That Anderson is a "warrior" status is apparent. Anderson said that the B-52s are being slung across their shoulders, are everywhere. Mention a mission, and Anderson will talk guardedly — if they talk at all. Watch dogs roam the 20,000-acre station fences at night.

Anderson and crew work together, three to a room, in special quarters. Their families are not permitted to join them, but their duty here is comparatively short. Their immediate boss, Col. William T. Cumsley, a blue-eyed, weathered veteran of 22 years' Air Force service, is admired and feared by his men.

Santa Changes Plans at Carey

CAREY — Plans have been changed so that Santa Claus will arrive at the conclusion of the Christmas Concert which will begin at 7:30 p.m. Tuesday in the new gymnasium.

Santa's study will be furnished by the LDS Church. These plans were made because of the inconvenience of moving chairs from the LDS Church to the gymnasium for the concert, back to the Church for the ward-Christmas party, and again to the school for the decision program Dec. 29.

Indians to End 110-Year U.S. Battle

PENDELTON (AP) — The Umatilla Indians agreed Friday to end their 110-year war with the United States.

They voted 306-18 to accept \$2.4 million at a settlement of all claims against the federal government. Most of this is for about 3½ million acres of land taken over by the white man.

The government in 1853 made a settlement, but the Indians did not accept it. When the government a decade ago opened the way for the tribe to reopen the matter, the Umatillas asked \$8 million.

Attorney fees will not exceed 10 per cent of the settlement.

The claim still must pass through several government offices, and Congress must vote the money.

The Indians then would decide how to divide the money among the 1,200 tribal members.

"Goof" on White House Cards Noted

WASHINGTON (AP) — Somewhere in the social structure of the White House, there apparently has been a goof in the field of Christmas greeting cards.

Recipients of several hundred cards had no way of knowing where they came from. They bore no signature, printed or otherwise.

Members of Congress who got the anonymous greetings promptly received an official explanation and apology from the White House. They were in the mail, leaving no doubt that the President and Mrs. Johnson were the recipients of the unsigned greetings knew where they came from, was the fact that photographs of the cards had been published and in the background was an outline of the White House.

The cards did not even bear postage stamps.

Hansen was traveling north on Overland Avenue and her controller will be cited for the Studebaker as it was making a left turn. Damage was set at \$150 to the Studebaker and to the Studebaker and \$300 to the Chevrolet.

Forest Service Releases New Skiing Booklet

A colorful new booklet of interest to the skiing public has been released by the Mountain Regional Office of the U.S. Forest Service.

The publication contains a list of all national forest ski areas in Utah, Nevada, Southern Idaho and western Wyoming along with a map showing their locations.

Regional forester Floyd Jensen said "With ever-increasing numbers of skiers enjoying intermountain region areas, this directory will serve a useful purpose for those looking for new slopes to conquer."

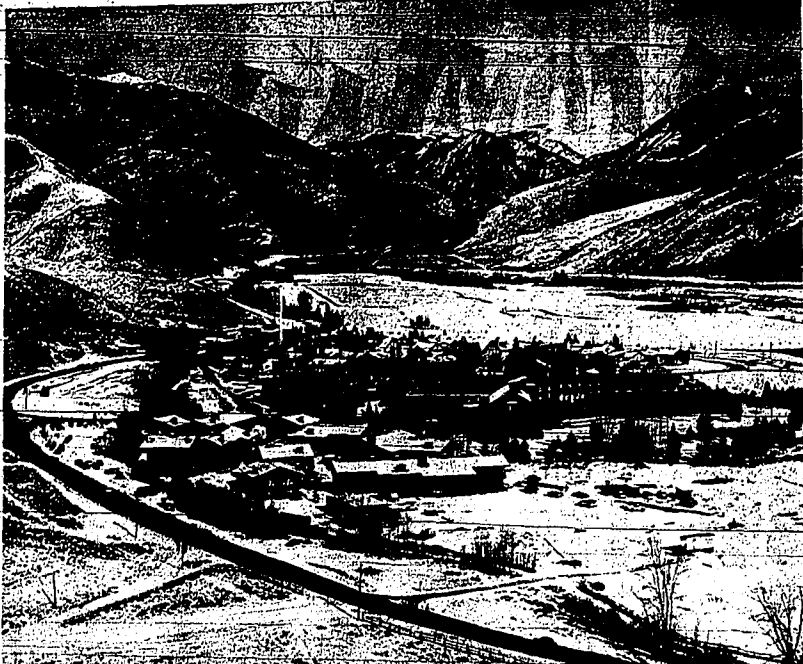

The booklet also contains the new code of signs which identify ski runs on basis of skier experience. These color codes were approved last year by the National Ski Area Association and the National Ski Patrol.

FOUR OF THE SIX NEW condominiums at Sun Valley were ready for occupancy when the winter season officially opened at the resort Saturday. The six lodges contain 50 apartments, including both two and three-bedroom apartments. The condominiums are in front and center of this view of Sun Valley. Resort officials said the three-bedroom units will sleep eight persons and the two bedroom units will sleep six. There are no Magic Valley residents listed among the owners of the new apartments, according to Dorice Taylor, publicity director at the resort. (Sun Valley photo)

Hurricane Betsy Fails to Raise Roof In New Orleans' Notorious "Quarter"

By **BILL CRIDER**
NEW ORLEANS, La. (AP) — Tourists are gleeful in the naughty French Quarter—the nation's No. 2 port is busy and before Hurricane Betsy's 15 m.p.h. winds.

The casual eye sees little evidence that the city's most destructive hurricane passed this way three months ago. Jeweled about \$1 billion damage. Except for a few broken billboards or neon signs, the midtown area looks much as it did before Hurricane Betsy's 15 m.p.h. winds.

The same is true of the Midtown, Fla. vicinity, raked by winds that doubled back over the Atlantic to run the slot-between Florida and the Bahamas and rage into the Gulf of Mexico.

But Betsy, 90 days after, remains a major factor in the daily lives of thousands. The aftermath will linger for months to come in some sections.

Louisiana was hardest hit. Midtown New Orleans may show few scars but in residential areas the roof-raising which doesn't need or wear a patch.

In New Orleans sections flooded by levee breaks due to tidal waves, thousands of home owners still struggle with "do it yourself" repairs.

Corrosive salt-water ruined clothing, furniture, floors, wallboard, electrical appliances, stambler—and cars.

The water left behind a heavy mold of black, gray, green and yellow. It persisted nearly two

months, despite scrubbing.

For reasonably prosperous citizens Betsy was a staggering financial blow. For the less prosperous it would have been a knockout except for Red Cross or other welfare agency help.

The Insurance Information Institute estimates total claims in Florida and Louisiana will reach \$750 million — most of it in Louisiana.

The enormously expensive offshore oil well installations which dot the blue Gulf for 80 miles out to sea from the Louisiana coast caught 150 m.p.h. winds and battering waves.

Shipping losses on the river, which wrung a cry of financial pain from Loyds of London, are being captured by this recent survey by Army Engineers.

Pageant Slated By Area Church

SHOSHONE — The local Assembly of God Church Christmas program will be held at 8 p.m. Sunday. A pageant entitled "He Came and He's Conquering Again" will be presented by the children and young people of the church.

Directing the performance are Carl Kinney, James Pate and Mrs. John Shaw.

At 7:30 p.m. Tuesday at the church the Children's Bible Club will hold a birthday party for Jesus. Each child will take a gift for the Lord.

ENGLISH STUDIES
RICHFIELD — Estel Larry Stubbs is spending this week on an assignment in San Diego to study nuclear weapons. He has been serving aboard the U.S. Reeves now based at Long Beach, Calif., after returning from three months in the Philippines as well as other South Pacific areas. One of the ship's duties was to pick up pilots crashing on take-off or landing, on the aircraft carrier Midway.

SUN VALLEY'S NEW SWINGING discotheque installed in the Boiler Room features Penny Duff, disquieting, who poses as the older beller which makes the bar in the spot popular with the younger set. She has a fabulous collection of records at her disposal and is thoroughly trained in what it takes to run a pop-a-discotheque. (Sun Valley photo)

Raves From Las Vegas Play For Opening at Sun Valley

SUN VALLEY — The Raves from Las Vegas played in the Boiler Room of the Lodge when Sun Valley opened its winter season Saturday night. Bill Sparks, the new host of the Boiler Room, calls this five-man group fine musicians and fine entertainers. They are students at Nevada Southern who have been breaking records for popularity in Nevada. Sparks, who has come to Sun Valley from Los Angeles to take over the management of the club, believes it is on his way to becoming the most interesting club in the United States. "The room itself with its old boilers, pipes and cavernous depth is fabulous," he says. "If I had asked a club designer to build me a new club, I am sure he couldn't have dreamed up anything half-so exciting." A complete new discotheque patterned after the famous Arthur and Daisy discotheques in New York and the Lake Club in Beverly Hills has been installed to take over when live music is not playing.

White House Chef to Quit, Hits Memos

WASHINGTON (AP) — Rene Verdon, the French chef at the White House, is quitting because "I don't agree" with some of the suggestions coming his way since the Johnsons hired a Texas food coordinator.

But Verdon, in the First Family's love for Texas-style victuals doesn't figure in the culinary crisis, he doesn't really cook much for the Johnsons, anyway.

Verdon, 41, who has prepared gourmet meals for some of the world's most famous personages, was brought in to take charge of the White House kitchen in 1961 by President and Mrs. John F. Kennedy.

Reached at his post in the presidential kitchen, Verdon expressed concern over culinary interference, declaring: "After cooking for 25 years, I suppose I know my business."

His troubles evidently began Oct. 12, when Mrs. Mary Elizabeth Carpenter, press secretary to Mrs. Johnson, said Verdon will be replaced shortly after the first of the year.

Verdon's resignation was attributed by the White House to "personal reasons." Mrs. Elizabeth Carpenter, press secretary to Mrs. Johnson, said Verdon will be replaced shortly after the first of the year.

Mrs. Kaitman, whose menu suggestions by memorandum linked Verdon, declared "I really am not involved in it at all."

Guards Wary of Jailbreak Plans

DURHAM, England (AP) — British soldiers with machine guns have been posted on a roof overlooking the main entrance to the Durham Jail to increase the guard on three prisoners in the \$7-million "great train robbery" of 1963 who are serving 30-year sentences there. Officials had a tip that underworlders might try to free the three.

SWINGING IN THE BOILER ROOM at Sun Valley to live music was part of the festivities Saturday night at the official opening of the resort. The younger set flocks to this rare spot which includes a bar-bull into an old steam boiler, right foreground. The Raves from Las Vegas played Saturday night. They are students at Nevada Southern and have broken popularity records in Nevada, according to Bill Sparks, new host for the Boiler Room. (Sun Valley photo)

"Tighten-up" Phase of Job Corps Begins

WASHINGTON (AP) — The Labor Department helps tighten up the job-corps program with the accession of enrollees. Corps and the "tighten-up period" is about to begin, Director Otis A. Singletary said Friday. "What we have done, for better or worse, is to create a third-year public school system," Singletary said in an interview. He referred to the program for teenage school dropouts in conservation and urban centers, with their emphasis on learning by doing and special aid for youngsters who are only barely literate.

The main emphasis in the first year has been creation of the program — the startup phase," Singletary said. "Frank Johnson will be faced with an entirely different job — later administration, the tighten-up period." Singletary steps out Jan. 1 to return to Greensboro, N.C., where he heads the Women's College of the University of North Carolina. Singletary, Johnson will take over from Singletary, Johnson is president of California State College. Singletary noted that where on Jan. 1, there wasn't any such thing as a Job Corps center or enrollee, we now have 10,900 enrollees in 75 centers. We plan to have 40,000 in 120 centers by June 30, 1965. "People don't see it, but a lot

Maugham Estate Value Estimated At \$5.6 Million

LONDON (AP) — Author W. Somerset Maugham left an estate of more than \$5.6 million, including assets in France, the United States, Britain and Switzerland, London newspaper estimated Friday.

Maugham, 91, died Thursday in his Riviera villa near Nice, France.

Chief beneficiaries are expected to be his secretary, Alan F. Strack, his daughter, Ursula Glendevon, and the Royal Literary Fund, which gives grants to authors.

In addition to the net value of the estate, royalties will pour in for years from films, plays, television adaptations and new issues of Maugham's novels, plays and short stories.

College Student, 12, Gets Honors

EAST LANSING, Mich. (AP) — Michael Groat of Lansing, who was admitted to Michigan State University at age 12, now has been accepted into MSU's honors college at age 12. His name was on a list of 200 students accepted into the honors program. Groat, now a sophomore, finished his freshman year with a perfect A-11 record. Students in the academic college all are in the academic upper 5 per cent of the student body.

Keeping Summit Open Is Winter Problem

SHOSHONE — Every winter keeping the route open over Galena Summit on U.S. Highway 89 about 30 miles from Twin Falls presents a problem to the State Highway Department.

School Buses Okayed for Ski School

RUPERT — The Minidoka county school board has agreed to allow use of county school buses to transport youngsters to and from the Pomeroy Ski School, Supt. Camden Myer said Friday.

The city, county or some other source will have to provide the cost of driver wages, insurance and gas for each bus.

Students at Minico Give Program

RUPERT — Students from Ripert High school presented the program during the Chamber of Commerce luncheon meeting Thursday at Hitting Hall.

Sylvia Nielsen, Susan Whitaker and Dennis Rupard presented the program. Nielsen reported on current activities at the high school including wrestling and basketball.

The Senior Ball will be held at 8 p.m. Saturday at Minico with the Royal Blazers, Buyley High, and the band, furnishing the music.

Theme for the Ball is "Christmas Song" and general chairmen include Lynn Adams, Dennis Gregory and Bryan Felt. A king and queen will be crowned during intermission and candidates for king include Rupard, Gregory, Danny Tyler and James Whistler.

Queen candidates include Celeste Olauson, Diane Whelan, Ashley and Kathleen Stocks.

Royalty will be crowned during intermission at 10 p.m.

The program was introduced by C. R. (Bob) Jones, program chairman for December.

Mervin Ling, president, announced that Santa Claus would be in Rupert on Saturday and committee to assist in distributing Christmas treats were Jerry Masterson, Robert Caldwell, Dell Hollister, Jones, Henry Dockter and Ling.

A special Christmas recording will be presented at the weekly chamber luncheon next Thursday.

William Berry, agriculture engineer for Idaho Power Co., Twin Falls, was a guest. William Strasser gave the invocation.

Buhl Theater Opens Office

BUHL — A year around public relations office for the Antique Festival Theater Corp. was opened this week at 1214 Broadway Ave. S., at the rear of the Lloyd E. Byrne Agency office hours will be 9 a.m. to 5:30 p.m. Mondays through Fridays, according to Mrs. Joe Fahrbacker, publicity director for the theater.

This office, she noted, will be compiling publicity materials for the news media of Magic Valley and throughout Idaho, and for magazines and prospective subscribers in addition to furnishing a central location in town the year around for the theater business.

Producer Aldrich Bowler and H. Paul Kliss, business manager, may be reached through this office also.

Scripts are being readied and the new 1966 brochures will be ready for distribution shortly after the first of the year. The 1966 productions include "Yankee Doodle" by Mollere, "The Merry Wives of Windsor" by Shakespeare, and "The Twin Macchitti" by Pitman. The season will run from July 15 to Aug. 28 on three-day weekends similar to the 1965 season.

Lions and Wives Hold Yule Party

HAGERMAN — Members of the Hagerman and Wendell Lions Clubs and their wives held their annual Christmas party Monday evening at the Orbow cafe, Billas.

C. F. (Ed) Bossard, Twin Falls, district governor, made his official visit at the meeting and talked on Lionism. Mrs. Art Kaster was in charge of the program and dance numbers were presented by Stan Harmon and Lauren Sill, Roseworth.

Merle Owsley, Hagerman president, and Harold Hollister, Hagerman president, introduced their members and wives. Gifts were exchanged.

Mrs. Owsley and Mrs. Elvete Thompson decorated the tables with the Christmas theme.

presenting the problem, so much as the debris, rocks, brush, trees, etc., that are in the slide.

"A rock the size of a softball, if not detected and removed ahead of the plow, can tip the rotors out of a Snowgo and make it entirely ineffective until repairs can be made. This is costly, to say the least," Sessions said.

Future planning in the Galena area includes the widening of cuts to provide for more effective snow removal and slides known as Snowgo control. It is hoped that in five years the maintenance of an open road throughout the winter will be more complete.

The district is assigned four major and less costly, sessions. An approaching car is not always easy to see, particularly a light colored one with a snow background. Operators are concentrating on their work and drivers of passenger vehicles should not drive too fast or stop too close to a plow in operation, the engineer added.

YOUR BIRTHDAY and HOROSCOPE

SUNDAY, December 19—Born today, you have a high degree of adaptability in combination with a blunt, straightforward manner. Such a combination makes it relatively easy for you to survive under adverse circumstances; it also makes your relationships with other people something definite, something both you and they can count on, for it makes those relationships stable, honest, and at the same time flexible.

Gifted with excellent judgment and a good business sense, you also have the natural-born student's bent for inquiry. You might easily find your niche in scientific research, and, if so, you are sure to find a way to commercialize the results of your labors. Knowing how to get full value for a dollar, you also know how to get sufficient dollars for value offered.

Judgments you thought erroneous may prove to have been correct today. Take your time in redirecting your energies along more productive paths.

GEMINI (May 22-June 21)—Underlying uncertainties of present projects should not be allowed to deter you from moving ahead. Progress toward your goal.

CANCER (June 22-July 23)—Take another look at any agreement offered you for signing. There may be more advantage to remaining where you are.

LEO (July 24-Aug. 23)—An excellent day for the Leo who plans are of the practical variety. Not a day for dreamers—save your imagination for another time.

VIRGO (Aug. 24-Sept. 23)—You can probably gain your ends today if you go about it tactfully. Approach those in authority with respect for their position.

LIBRA (Sept. 24-Oct. 23)—Take care you aren't overpersuaded by the honeyed talk of optimists. Look at the situation realistically and make your own decision.

SCORPIO (Oct. 24-Nov. 23)

Because of your adventurous streak, you are sometimes willing to risk too much for the sake of putting forth an idea. It is true that your adaptability will enable you to overcome quickly whatever may befall you as a result, but you might be able to make things easier on yourself if you kept your risk-taking check—Make sure the idea you are trying to put over is really worth the effort.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Monday, December 20

SAGITTARIUS (Nov. 23-Dec. 22)—Avoid committing yourself on any big business deal today. Leave loopholes so that no decision becomes irrevocable.

CAPRICORN (Dec. 23-Jan. 20)—Should legal matters come to your attention, you would be wise to enlist the services of an expert. Financial affairs may be confused.

AQUARIUS (Jan. 21-Feb. 19)—Definite gain in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Aquarius—who keeps his mind strictly on business. Don't fall victim to false promises.

PISCES (Feb. 20-March 20)—Schedule your time intelligently and you can combine business and social activities to the best advantage of both.

ARIES (March 21-April 20)—Proceed with caution if you would not be trapped into making decisions now that you would rather have held off on until a better day.

Eisenhower To Be Home For Holiday

WASHINGTON (UPI) — Gen. Dwight D. Eisenhower will be home for Christmas.

Walter Reed Army Medical Center, where the former President has been recuperating since Nov. 21 from the effects of two heart attacks, said Friday the general would be released Saturday.

Eisenhower, accompanied by his wife, will motor to his farm at Gettysburg, Pa., about 70 miles from the hospital.

At the time he was transferred to Walter Reed from the Fort Gordon, Ga., Army Hospital, doctors said Eisenhower's recovery was expected to be swift enough to let him spend New Year's contacts and contracts should be approached with care. All that gifters is definitely not sold today.

Blind, Retarded Child Soon May Be Normal

SPRINGFIELD, Ill. (AP)—The object is to establish rapport between one and one. Maurice Tretakoff, director of the school, said. After repeated coaxing, the child uttered the words "Mouth, mouth, Johnny's mouth."

The teacher didn't give Johnny a passing mark or a star for mastering a new word. He hugged him lovingly.

Johnny desperately needs both the individual attention and the affection. He has been blind since birth and is mentally handicapped.

But he is learning. Johnny is a pupil at Hope School for Blind, Multiple Handicapped Children, an institution devoted to rescuing such youngsters from their lonely, frustrating worlds.

There are an estimated 15,000 blind children in the United States who are mentally retarded and also may have other physical handicaps.

Because they are blind, they can't get admittance to school for the retarded. Because they are functionally handicapped, they can't enter schools for the blind.

That is why Hope School was founded.

Johnny, one of 23 pupils in the school, is the only child in his class. There are two desks, his and his teacher's.

—The object is to establish rapport between one and one. Maurice Tretakoff, director of the school, said. After repeated coaxing, the child uttered the words "Mouth, mouth, Johnny's mouth."

"We believe we're the first to try to combat this problem in depth," Tretakoff said.

Johnny, who came to Hope School in June 1963 from Chicago, now has a vocabulary of 10 words. His hands no longer have to be restrained and self-inflicted scratches and sores on his hands and face are healing.

"These children are afraid," Tretakoff said. "They are their own worst enemies. The answer is human contact and lots of it."

Contact, Tretakoff said, is the key. Letting you know he is listening. Then, and only then, can training begin.

Hopelully, Johnny one day will join others in organized activities. Across the hall from his one-pupil classroom, 10 children were seated in a semicircle keeping time with sticks to recorded march music.

One, Mary Lou, 9, was "practically a vegetable" when she came to Hope School five years ago, Tretakoff said. Today she can dress herself, find her way in and from her room and is learning Braille.

Another is Judy Jordan, now 18, whose parents, Dr. and Mrs.

Charles E. Jordan of Springfield, founded Hope School in 1957.

Because Judy was blind, retarded and emotionally disturbed, her parents could find no school for her. They traveled in vain throughout the United States and parts of the world.

When a state official suggested that Jordan "put Judy in a mental hospital and forget about her," he was so shocked he decided to set up his own school.

The first school was an old six-room house. Jordan, a dentist, hired a housekeeper and a nurse. Judy, then 11, was joined by a Springfield boy with similar afflictions. The enrollment continued to grow.

Today a new Hope School, a \$600,000 modern brick-and-glass building, is rising in a wooded area along Lake Springfield.

Just 23 pupils come from 11 states. The school is besieged by requests from parents who want to enroll their children.

The school's two cottages which adjoin the classrooms and administrative offices will be expanded eventually to 10 with accommodations for 125 persons, Tretakoff said.

Most parents with children at Hope School are able to pay only a fraction of the \$20,000 annually it costs to care for each child. The rest comes from public donations.

THIS BELL on the John Breckenridge farm north of Twin Falls was once a dinner bell on a neighboring ranch. Now it is used to call farmhands to the telephone. A system of rings was used to signal individual members of the family so Mrs. Breckenridge wouldn't have to leave her baby to find those wanted. The bell has a certain attraction to small visitors who must have the farm without ringing it at least once. (Times-News photo)

Reynolds Is Re-Elected as Lodge Chief

HANSEN—Norville Reynolds has been re-elected as consul of the Modern Woodmen of America lodge.

Other re-elected officers include James Bennett, past consul, and Mrs. Minerva Smith, banker.

Newly elected officers include Mrs. Ruth Hill, advisor; Mrs. Helen Reynolds, escort; and Kyle Smith, watchman. Mrs. One Welch is secretary, a nationally appointed office.

Mrs. Welch was re-elected to the board of trustees for a three year term. Joseph Hill and Vergil Ball are other trustees.

A new executive board was selected this year. In the past the trustees served in this capacity. Mrs. Welch was elected for a one year term; Joseph Hill, two years; and Norville Reynolds, three years.

The Christmas party and rifle shoot will be held at 7 p.m. Tuesday at the Woodman Hall.

Hearing Set for Jan. 3 on Rupert Processing Plant

BOISE (UPI) — U.S. District Court will hear another round in attempts to revive a bankrupt potato and alcohol processing plant at Rupert Jan. 3.

The court Thursday rescheduled the hearing from Dec. 20. Attempting to revive the Rocky Mountain Chemical Corp. are secretary-treasurer Floyd Clark, Boise, and president Floyd West, Burley. They said they represent minority stockholders.

The group seeks permission to put Rocky Mountain funds into a new corporate known as the Nu-Dabo Corp.

Owners Vacation

RICHFIELD — Lemmon's Hardware will be closed from Dec. 29 to Jan. 1 while the owners, Mr. and Mrs. John Lemmon, vacation in California.

Other Richfield businesses will be closed Christmas Day, including the Pheasant Cafe.

Fairfield Fetes Senior Citizens

FAIRFIELD — Senior citizens of the community were honored by a dinner Wednesday noon at the Community church by the Ruth and Naomi Society.

This was the first event of its kind and Rev. W. James Purr stated he hoped that another get-together could be arranged at a future date.

There was a Christmas program in addition to the dinner. Taking part in the program were Mannie Shaw, Arthur Reagan, Mrs. John Gaskill, Mrs. Perilla Carman, Sharon Carman, Mrs. Victor Planaskey, Mrs. William A. Simon and Rev. Post.

Members of the Ruth and Naomi Society prepared and served the dinner. Mrs. Loy Vanacke is president of the society.

Intruder Has Sweet Tooth At Heyburn

HEYBURN — Someone who was apparently trying to satisfy a sweet tooth broke into Mack's Market sometime Wednesday night or Thursday morning and helped themselves to the candy store's supply. Sheriff's officers said Friday.

Ralph McCombs, part owner in the business, told Deputy Ray Jarvis that he closed the store about 8:30 p.m. Wednesday and discovered the broken window on the front door at 8 a.m. when he came to open the store.

The deputy noted the intruder tried to get through the back door but was unable to break through the wood board across the door inside the building. They went around to the lighted front entrance, broke the door and entered the store by reaching inside.

Muddy footprints on the floor led to an older person had participated in the break-in.

News of Record

MINIDOKA COUNTY

Jose R. Zamora, 28, Rupert, was cited for failure to yield the right of way after a two-car accident at 1 p.m. Wednesday at 400 W. and 500 S. on the Albrezo Road.

Two accidents reported by the Sheriff's office resulted from icy road conditions Wednesday.

A 1955 Ford driven by Rudy Zamora was involved in a two-car accident at 195 Ford driven by Wanda Gulley, 45, Rupert, when Mrs. Gulley slowed down before coming to a stop.

The accident occurred on 400 S. and F Street in Heyburn. Damage to the light-colored 1955 Zamora vehicle was \$25 and an estimated \$100 to the 1955 Ford.

Tony Pena, 20, Rupert, lost control of the 1958 Chevrolet he was driving and the vehicle rolled into the borrowpit at 50 S. and 100 West.

Police damage was reported and \$50 to the Chevrolet. There were no injuries.

LINCOLN COUNTY

Petition for guardianship was filed by Mrs. Lois M. Ballard in the interest of her children, Susan Marie Ballard, Floyd Leon Ballard, Brian Lynn Ballard, Daryl Brent Ballard and Louis Arthur Ballard, all minors.

The petition results from the death of the husband and father of the children, Robert A. Ballard, who died in a Union Pacific Railroad passenger train Dec. 11, 1961.

Petition for probate of the estate of the late Mrs. M. A. Harrison filed by Myrtle Albright. Heirs listed are Ruth Central McLaughlin, Bert J. Jand, and Kathryn A. Glahn, Gresham, Ore., both daughters.

Earl G. Piercey, Twin Falls, is expired driver's license. Frances Camacho, 36, Buhi, 335, hunting water fowl with power boat.

T.M. REG. U.S. PAT. OFF.

The Thunder explained to Vladimir Glay that he planned a stakeout to catch Boris, the killer-burglar.

THE GOOD GUYS

VIC FLINT

T.M. Reg. U.S. Pat. Off.

THAT CANINE CREATURE SLEEPING AMONG MY PRICELESS OBJECTS D'ART, MR. THUNDER? IT'S UNTHINKABLE!

EYEBALL'S GOT THE SOUL OF A POET, SIR! BESIDES WE'RE DEALING WITH A FAST-MOVING CROOK AND EYEBALL'S GOT SPEED!

VERY WELL, FETCH A TOWEL FOR THE CREATURE TO SLEEP ON, PARSONS!

I THINK HE'S DEMANDING A GUEST TOWEL, SIR!

GRRR!

BOB D'ARCY 12-19

Elsewhere Boris prepares to carry out Sir Harry's orders.

To The Good Guys With No Love From T.B.G.

I BETTER GET THAT PICTURE FRAME TONIGHT -- OR ELSE! SIR HARRY AINT STRONG FOR BOO-BOOS!

GRRR!

GRRRI!

EASY THERE, PAL! DON'T BITE TILL YOU SEE THE SEAT OF HIS BRITCHES!

GRRRI!

NOW, EYEBALL! GET HIM!

THE DEVIL FOUND AGAIN!

GRRRI!

GUZ! HAVE YOU MADE YOUR MORNING ROUNDS YET?

NO...

...BUT I WAS JUST FIXIN' T'GO

WELL, GET ALONG WITH IT AN' HURRY BACK... I WANT YOU T'HELP ME MOVE SOME FURNITURE IN TH' KITCHEN!

YES, DEAR.

OH OH!

LOOKS LIKE I HAD TH' RIGHT IDEA ALL ALONG!

MY GOONNESS, IF I DIDN'T KNOW BETTER, I'D SAY...

OH OH!

LOOKS LIKE I HAD TH' RIGHT IDEA ALL ALONG!

WELL, HI, OOP! BEEN HAVIN' A LITTLE WOMAN-TROUBLE, I SEE!

YEAH...

...BUT HOW WAS I TO KNOW SHE'D JUST HAD A NEW HAIRCUT FOR CATSKAPE?

TROUBLE WITH YOU IS THAT IF YOU'RE GONNA ACT LIKE A GORILLA, Y'GOTTA SEE IT THROUGH!

...Y'CAN'T GO CHARGIN' UP TO A BARE, GRAB HER BY TH' HAIR AN' THEN GET FAINT-HEARTED? TAKE IT FROM ME, BOY, I KNOW WHAT I'M TALKIN' ABOUT!

...WHEN AN OL' GORILLA-TYPE LOTHARIO LIKE ME GRABBED 'EM BY TH' HAIR...

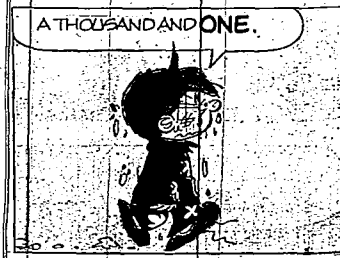

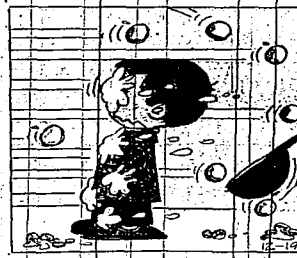

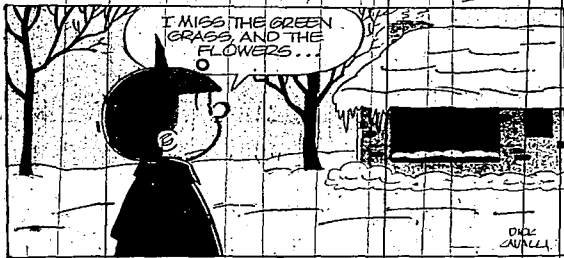

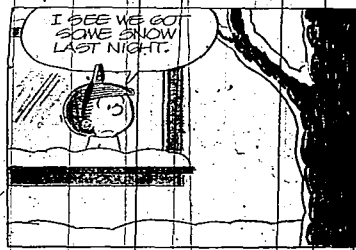

...MAN, I'M TELLIN' YOU, THEY... THEY...
