Hope for Gemini 9 Expressed

CAPE KENNEDY, Fla. (AP)—Dramatically successful with the unmanned Surveyor moonship, but seemingly jinxed in getting men off the ground, space officials felt confident today that Gemini 9's two dismayed astronauts finally will rocket skyward Friday.

Twice, Air Force Lt. Col. Thomas P. Stafford and Navy Lt. Cmdr. Eugene Cernan have donned their flimsy space suits and climbed aboard their waiting spaceship; but, twice, they've gloomily taken the slow elevator ride back to the ground.

They got another chance Friday at 9:30 a.m. (EDT) to get out on their 20-hour flight, including satellite rendezvous and 2 1/2-hour space walk after a frustrating two-day delay.

Engineers pinned the blame for the scrubbed Gemini 9 flight Wednesday on a faulty signal relay system. It kept a guidance command from reaching a black box for electronic translation to the spacecraft.

Faulty parts were replaced and preliminary tests indicated the problem had been solved. However, flight officials still aren't certain a protective shroud around the docking apparatus on one end of the stubby, bottle-shaped line-up target separated as planned one in orbit.

The target, known as an Augmented Target Docking Adapter, blasted off a Cape Kennedy launch pad less than two hours before trouble struck Gemini 9. It continued to circle the earth, performing normally.

Fish Derby

The annual fish derby for Twin Falls youngsters will be held at 9 a.m. Saturday in the Harmon Park canal.

According to Howard Johnson, superintendent of the Parks and Recreation Department, more than 500 fish, donated by local anglers, have been planted in the canal. Prizes will be awarded for the first fish caught, the biggest and the one who catches the most fish.

Sponsoring the derby is the Parks and Recreation Department and the Twin Falls Moose Lodge.

Buddhist Center Taken By Troops

SAIGON (AP)—Premier Nguyen Cao Ky's troops took over the Buddhist stronghold of Hue today without any resistance from the Buddhist-led mobs and antigovernment troops that have held the northern city in open rebellion since mid-March.

The junta's forces seized Hue's radio station and other strongpoints in the city 400 miles northeast of Saigon a day after the ruling generals came to a political agreement with their Buddhist opponents in Saigon.

Hue was the last territorial stronghold of the antigovernment forces. Its recapture was a major victory for Ky, who has managed to stay in power with the support of his military generals and the United States despite the massive campaign mounted against him by the Buddhists.

After weeks of street disturbances by Buddhist youths, Saigon took an unannounced coup. However, some militant Buddhist elements protested the Buddhist-government compromise agreement to add 10 civilians to the ruling directorate of 10 generals.

Following up its seizure on May 23 of Da Nang, the junta's troops swept into Hue without a shot after the departure of units of the disoriented 1st Vietnamese division.

DEPRESSION IN SURFACE OF MOON caused by the "foot" of the Surveyor is shown in this picture, transmitted from the moon by the spacecraft and released by Jet Propulsion Laboratory, Pasadena, Calif., Thursday. Laboratory personnel said the depression was caused by pressure of the foot as the Surveyor landed on the moon. The camera was six feet from the area photographed. Girders Sway Over New Hansen Bridge as Strike Stops Work

Work stoppages that crippled the construction industry in Magic Valley Thursday have placed the new Hansen Bridge in jeopardy. The strike by the International Union of Operating Engineers halted work on the bridge at a time when four 23-ton, 96-foot-long steel girders are balanced atop one of the slender concrete piers rising 350 feet from the canyon floor. According to Blaine Sessions, chief engineer of the Shoshone Highway District, there is a definite possibility the huge beams could be torn free if subjected to sustained high winds.

High winds swept the canyon with such force that work on the bridge would have been impossible Thursday, even had the strike not been called. The high winds, however, did attempt to tip the beams around a little, according to Donald Johnson, supervisor for the Peter Kiewit Sons Construction Co. He said the beams are now anchored to the pier with 26 feet extending out into the middle of the canyon and 60 feet extending back toward the south wall.

Because the beams are heavier on the south side of the pier than on the north, the lighter end was tied to a point midway down the pier to keep the beams balanced. However, high winds are exerting a twisting force on the sail-like girders.

Sessions reported that the construction company has been attempting to persuade the union to continue work until the beams can be secured by force calling the strike, but no agreement has yet been reached.

Construction work on the entire length of Interstate 80 through Magic Valley was halted. It was reported that the striking operating engineers had not posted pickets at the construction sites, however.

Department of Highway employees reportedly still were on the job working on survey, engineering and office tasks. However, jobs dependent on the strikers—laying asphalt and gravel base, building embankments and construction of concrete structures—were immediately halted.

Area building trades remained largely unaffected. Thursday morning as pickets failed to be posted. Typical was the job at the new Safeway store in Twin Falls, where work continued despite the single member of the striking union leaving his job.

Members of other unions remained working pending posting of pickets. Store manager Robert DeVore said he anticipated all work would be halted should pickets be posted. Only two of the eight members of the Operating Engineers struck the Galley Construction Co., which is nearing the See GIRDERS, pg. 2, col. 5

Wind Blows in Russia, too, Visitors Admit

BY MARLEY DOUGLASS-REPPER—The wind blows in Russia, just as it does on the Mindoko North Side project. A group of Russian agricultural officials touring Magic Valley Thursday admitted in an interview on the Garth Atwood ranch north of Rupert.

While careful to avoid answering any questions pertaining to their personal lives, the four Russians and their interpreters were most congenial and visibly impressed with the development

Surveyor 1 Sends Back Pictures After Seemingly Perfect Landing on Moon

PASADENA, Calif. (AP)—Surveyor 1, defying long odds against a first-try success, televised earthward today striking photos of the lunar landscape after a seemingly perfect gentle landing on the moon. The pictures indicated to scientific viewers at the Jet Propulsion Laboratory that the Sea of Storms target area has a relatively smooth, hard surface apparently suitable as a possible descent point for future astronauts.

The successful touch-down, executed precisely as programmed, was viewed as a long stride forward for the United States' Apollo lunar exploration program. Surveyor 1's wheel braking system is similar to that on the craft astronauts will use for a landing later in the decade.

A picture series beginning at 5:45 a.m. EDT, using a different TV screen system than that of two earlier batches, showed a broad plain devoid of major features, peppered with either pebbles or pits caused by meteorites. There were several small prominences, and some gulling, as if the surface had been struck by objects from space at an angle.

The pictures showed no damage to the spidery, instrument-jammed, craft 10 feet high and 14 feet in diameter. They showed its feet resting atop the crust—important evidence in view of opinions of some scientists that the surface might be deep dust or spongy lava that could swallow a landing vehicle.

The 620-pound Surveyor planted its three legs firmly on the lunar crust at 2:17:37 a.m. EDT, 63 hours and a quarter past midnight before the flight Monday from Cape Kennedy. Its crucial terminal sequence—a cartwheel in space to point its feet moonward, then at 60 miles out a blast from its powerful retro-rocket engine to slow to landing speed of 8 m.p.h.—apparently functioned.

Thirty-five minutes later, it began televising pictures sent nationwide and employing the Early Bird satellite. The first batch of three showed a log and other portions with the lunar surface in the background.

There was nothing in hint of danger to future manned landing. The second batch of 10 showed more distant terrain—flat and featureless, except for a shadow, apparently that of the spacecraft, in the shape of a three, and what appeared to be a large rock.

The third picture series, televised with 200 scan lines compared to 525 for a home screen, were dim and fuzzy and difficult to interpret. Later shots with 600 scan lines Surveyor is expected to return hundreds before the climb to lunar orbit ends its life 12 days hence—were far clearer. Some shots were expected to be better in quality, experts say, than the nine pictures sent back by the Soviet Union's Luna 9 last Feb. 3.

Hangings Are Watched by Huge Crowd

LEOPOLDVILLE, the Congo (AP)—A crowd of more than 100,000 looked on today as four Congolese politicians were hanged in Leopoldville's main square on charges of plotting to kill President Joseph Mobutu.

The government declared a holiday for the execution, and a large turnout to watch "the end of those who wanted to overthrow the regime and betray their fatherland."

One by one, the four condemned men stepped barefooted from a military jeep and climbed the step to the gallows under a blazing sun. They wore black hoods over their faces and blue-striped shorts.

The hanging took less than half an hour. Estimates of the crowd ranged from 100,000 to 200,000. There were a few shouts as the trap was sprung beneath the first man, but otherwise the crowd was quiet.

Those hanged were former Premier Evariste Kimba and former cabinet ministers Emmanuel Bamba, Jerome Anany and Alexandre Mambamba. They were arrested Monday and convicted and sentenced by a military court Tuesday after a 90-minute trial.

Flag on Moon

PASADENA, Calif. (AP)—The U.S. spacecraft Surveyor 1 carried an American flag to the moon's surface today.

The 4-by-6-inch flag was purchased at a drugstore for 23 cents by Sheldon Shalton, chief surveyor project scientist for Hughes Aircraft Co., which built Surveyor.

Shalton said two Hughes engineers stuffed the flag inside the craft's tubular frame before it was launched Monday.

Gov. Scranton Won't Run for Public Office

HARRISBURG, Pa. (AP)—Gov. William W. Scranton of Pennsylvania said today that he would never again run for president or any other public office.

"I'm not going to run ever again for any public office under any circumstances," he told a news conference.

"That is irrevocable," he declared. "There still is some speculation that I may run for president in 1968 or sometime in the future. I am not going to run for president in 1968 or ever."

Scranton, a Republican, ran for his party's presidential nomination in 1964 against Barry Goldwater. He has been mentioned prominently as a possible GOP standardbearer in 1968. His term as governor ends next year.

Balaguer Clinches Dominican Victory

SANTO DOMINGO, Dominican Republic (AP)—Conservative Joaquin Balaguer appeared today to have clinched a stunning victory over moderate leftist Juan Bosch in the Dominican republic presidential elections.

With about half the vote counted, Balaguer, candidate of the Reformist party, had 319,474 votes, to 225,776 for Bosch, leader of the Dominican Revolutionary party. But a defeat for Bosch seemed apparent from his disappointing showing in the national capital, his main stronghold. Balaguer and his supporters issued triumphant victory claims amid wild

Dr. Jose A. Quesada, private secretary to the Reform party candidate, predicted that Bosch, standard bearer of the Dominican Revolutionary party, would be beaten by a 2-1 margin when all returns are in.

A heavy vote piled up in the conservative-minded rural areas for Balaguer, who served as vice president under dictator Rafael Trujillo and as president after Trujillo's assassination.

The vote was interpreted by some observers as a protest in general against the sort of violence which erupted in civil war and U.S. military intervention last year and a longing for tranquility.

Even in Santo Domingo, Bosch's stronghold when he won by a landslide in 1962—only to be ousted by a military coup seven months later—Bosch was badly hurt. He failed even to capture one area in the heart of the section held by armed rebels in the nation's civil war.

A third candidate, Rafael F. Bonelly, was far behind.

330 Workers Are Idled at AEC Station

IDAHO FALLS (AP)—Negotiations were at a standstill today as a travel pay issue left 330 workers idled from their jobs at the National Reactor Testing Station for the 14th day.

A spokesman for three contractors involved in the dispute said another meeting was planned for Friday morning with a federal mediator taking part.

Idaho Construction Impaired in Areas

BOISE (AP)—Southern Idaho construction ground to a halt in some areas and was crippled in others today as operating engineers set up pickets and other construction workers honored them. All but emergency work at the huge Hells Canyon Dam project was halted, according to Bill Dunn of Spokane, business manager of the International Union of Operating Engineers' Local 370. The state's largest interstate freeway and other construction projects—principally in Magic Valley and Caldwell-Boise areas—came to a halt, although State Highway Department personnel remained at work.

Dunn said emergency work at Hells Canyon Dam to prevent flooding or other destruction continued, but he said most of the project was shut down.

Associated General Contractors Manager John P. Molitor said work had stopped where pickets had but he said not all jobs across the state were being picketed. He said reports from Hells Canyon Dam were conflicting.

Dunn said nearly all major jobs were being picketed and other construction workers were staying off the jobs.

But he said work on several jobs—including construction of a new federal building in Boise—continued.

Senator Tells Condition of Idaho Ranges

RUPERT—Drastic deterioration of range conditions because of drought are bringing severe hardship to many areas in the counties of Southern Idaho, Sen. Mary Brooks, Blaine County, said Wednesday.

She urges the county ASC committees to give consideration to releasing the diverted lands and soil bank areas that are in the ASC program, if these lands were used for grazing, it might help save livestock. "One of the cattle in these hard-hit areas," she said. "The condition is rapidly developing a disaster area as the drought continues, she declared.

Idaho Peace Officers Set Burley Meet

BURLEY—The Idaho Peace Officers' 30th annual convention will be held Sunday through Wednesday at the Pomeron Inn. About 300 law enforcement officers from throughout Idaho are expected to attend.

Registration will be held from 3 to 7 p.m. Sunday. A board of directors breakfast will start the first day meeting, followed by general sessions at 9:15 a.m. with Sheriff James Benham, Twin Falls, president, in charge.

Welcome will be given by Joe Peters, Burley mayor. A business meeting will be held during the morning and guest speaker will be Gov. Robert E. Smylie and Allen Shepard, attorney general.

A no-host luncheon will be held at noon, followed by panel discussions in the afternoon, entitled "Topic of Interest to Law Enforcement." Leaders of the discussion will be Capt. Clark Hand, State Police; Fred Abrams, training officer, state penitentiary, Boise; John Bender, Sheriff, Coeur d'Alene; George Denney, Department of Law Enforcement, and Hawley Hill, Fish and Game Department, Boise.

Tuesday will be an all-day pistol shoot at the Burley Pistol Range near the airport, with S. D. Lucock, chief ranger-master, state police, Twin Falls, in charge.

A social hour will precede the banquet Tuesday evening at the Ponderosa Inn. Wednesday business sessions will be held in the morning with guest speaker, Sheriff Bill Baker, President of See OFFICERS, pg. 2, col. 4

Youngsters Steal Show From Society

NEW YORK (AP)—Four youngsters, their hands so dirty they wouldn't shake hands with a prince, stole the show Wednesday night from a group of society's most famous women.

Cheryl, Dobby and Joseph Caponetta and Kevin Mendez turned the trick as some 650 socialites, diplomats, business leaders and a royal prince trooped aboard a Holland-America luxury liner in the name of charity.

They didn't go aboard the liner, but mingled with the crowd at the pier as the vessel was about to sail.

"My hands were pretty dirty," said Kevin. "And I just didn't want to have him look back when we met him."

The him Kevin referred to was Prince Bernhard of the Netherlands, royal host of the fifth annual "Captain's Gala" sponsored by the New York City chapter of the American Cancer Society as a fund-raising program.

"Why don't you come aboard with us and have a dinner?" Prince asked the four youngsters, turning in age from six to 10.

"Oh no," a spokesman said. "We don't even know who they are. We might get them in trouble by taking them away."

The guests, who paid \$150 each, to a point a few miles outside the harbor where it circled for four hours as its passengers ate a seven-course dinner and then gambled in a casino set up in one of the ship's main lounges.

Chapter officials estimated the night's entertainment reaped some \$150,000 for use in research and other work on cancer.

The children had been brought to the pier by the father of three of them — Frank Caponetta, a sporting goods store operator who had delivered some items to be used for prizes at the gaming table.

National Guard's Summer Field Training Scheduled

Col. Edward G. Elliott, commanding officer of the 116th Armored Cavalry Regiment, Idaho Army National Guard, announced plans Thursday for the annual field training period of the regiment at Gowen Field, Boise, June 4-18.

The regiment, consisting of 20 National Guard units in 15 Idaho communities along the Snake River Plain from Preston to Weiser, includes approximately 1,500 officers and enlisted men. Magic Valley units, which include approximately 600 officers and enlisted men, are located in Twin Falls, Buhl, Jerome, Gooding, Hailey, Rupert and Burley.

Advance detachment personnel left their home stations for Gowen Field Wednesday to draw equipment and prepare the training site for arrival of the main body.

"The first two days of the training period will include checking and testing light and medium gun tanks and armored personnel carriers drawn from the Field Training Equipment Concentration Site at Gowen Field, as well as conducting refresher training on tactical operations and small unit training.

Aggressor forces will be used, and light aircraft will be used to aid in command and control. The exercise will cover advance covering force missions, flank security missions, exploitation and pursuit missions and delaying action missions.

They will end June 12 with the regiment occupying positions for north of the starting point and ready to attack or defend, if ordered to do so.

On June 13, a critique of the exercise will be held in the field, where mistakes committed and lessons learned will be pointed out to all personnel. The regiment will return to Gowen Field that afternoon, and the rest of the field training period will include cleaning and turning in equipment, with some free time in reward for a concentrated effort in the field.

On June 17, a regimental field day will be held where awards and trophies will be presented by Col. Elliott.

On June 18, all units of the regiment will return to their home stations for another year of armory drill training.

Republicans Slam Draft Operations

WASHINGTON (AP)—House Republicans seeking a congressional investigation of the draft claimed today some youths are inducted simply "because their papers are in hand."

It is possible, 21 Republicans said in the last of six statements about the draft, "for young men to be drafted for possible combat in Viet Nam because their papers are in hand while the papers for men even more eligible for the draft are 'lost' in a bureaucratic maze."

The Republican group is demanding a full-scale review of the draft.

The GOP statement cited a Selective Service report of last February and said it showed that:

- 73 per cent of the potential draftees in the IA pool had not been fully examined.
- 115,000 men classified IA had not even been ordered for examination.
- 250,000 men in the IA pool were not available for the draft because their papers were stalled between local draft boards and Army induction centers.

The Republicans urged that computer and data-processing equipment be provided for the Selective Service system.

But they cautioned that they were not advocating a decentralized system that would be unable to consider the personal problems of each potential draftee.

Another Republican, Sen. Jacob K. Javits of New York, described the current draft system as a "crazy quilt of regulations." He proposed legislation aimed at a universal national service requirement for all men under 35.

June Breaks Out in U. S. Food Markets

NEW YORK (AP)—June is busting out all over the nation's food markets this week after a long, cold spring.

"The cold snap cut normal vegetable and fruit supplies, but with the warm weather, starting next week," New York produce wholesaler said.

The cold weather has been particularly hard on food budgets in the Northeast and Midwest.

Strawberries have to be flown in from California, and are selling for 50 cents a box in New York City — when you can get them.

Leafy vegetables, flown in from Florida, are abnormally high.

But corn on the cob is reasonably priced, carrot prices are edging down and celery supplies are good.

Peach supplies are starting to appear, and prices should be low this summer.

There are plenty of cantaloupes and they are being featured in many areas this week-end.

Potato prices, which were so high last summer, are lower now, to be on hand.

Egg prices are 1/10 to 2 cents a dozen lower in the New York area this weekend. They also are down in the Midwest and on the West Coast. Prices are likely to stay in the drop, then go up again in this summer.

Fryers are being featured on the West Coast and in the Midwest and Southeast. Prices are likely to be lower, most of the summer.

Turkey prices are lower. Beef prices should drop a bit now, and probably increase again in the fall. But prices are spotty.

Hangs Picture

NEW YORK (AP)—New York Mayor John V. Lindsay has hung on the wall of his office a painting that unqualified City Hall art critics generally agree was an "abstract."

The watercolor is white around the outside, with a red center surrounded by what can only be called blue blotches. It was signed, "John V." The artist was identified Wednesday as Lindsay's six-year-old son.

Faculty Is Completed At Hagerman

HAGERMAN — The teaching staff for Hagerman schools for next year is announced by Supt. George Carnie, with all teachers hired.

They include Mrs. Glenn Hendrickson, first grade; Mrs. Stanley Pankoff, second; Mrs. Walter Stewart, third; Mrs. Halie Conklin, fourth; Daryl Nelson, fifth; Lyle Gilmore, sixth. Junior high teachers include Jack Martin, Mrs. Martin and Mrs. Elias Cortabartiere.

The high school staff includes Wayne Hie, agriculture; Mrs. Leon Greve, home economics; Roy Strawser, mathematics and science; Mrs. Strawser, English IV and speech; Ann Moore, English; Mrs. Lloyd Brown, commercial; Bill Snapp, social studies; Mrs. Snapp, music, and Jack Martin, coach.

In the new Individualized Learning Center, being inaugurated this summer, Dorothy Phelps will be coordinator and Mrs. Iles, library aide. Positions left to fill are an audio visual specialist, a reading specialist, a study room supervisor who need not have a college education, and a secretary typist.

Supt. Carnie will leave June 12 for Utah State University for summer school. Other attending Utah State are Mrs. Martin and Daryl Nelson. Mrs. Stewart will attend Idaho State College and Mrs. Cortabartiere, Boise College. Gilmore will take a six weeks history course at the University of Idaho. Iles, the agriculture instructor, will arrive July 1. The next trustee meeting is set for June 6.

Veterans at Buhl Conduct Special Rite

BUHL — Memorial Day services sponsored jointly by the Buhl American Legion Post and Veterans of Foreign Wars were held Monday in the local cemetery with Rev. Joseph Papes, Buhl Catholic Church, giving the message.

Participating in the service were Truman Probasen, Primo Gabardi and Albert Kolarik, color guards. The firing squad was composed of V-V members directed by Donald Hicks, sergeant. It included Rusty Rusby, Johnson, Charles Conrad, Wesley Fuller, James Winegar, Eddie Svancera, John Mac Kay, Tony Zagata and James Chandler.

Ormond Smith was bugler with CPTG Saunders playing the echo. Jack Yeiter and Mrs. Alfred Perkins placed the traditional memorial wreaths for the post and auxiliary.

The ceremonies were under the direction of Leonard Poppsil, commander of the American Legion post. The VFW flag program also was in effect with American flags lining the Buhl downtown business section.

Walker Says Water Is Major Issue

BOCADELLO (AP)—Democratic gubernatorial candidate Lloyd J. Walker—old about 35—said Democrats here Wednesday night that water, not the sales tax, will be the most pressing campaign issue in Idaho's gubernatorial campaign this fall.

"We are in the midst of the worst drought since 1934," Walker said.

Walker, a Twin Falls attorney, said cattle raisers in his area have already brought much of their stock from summer range and started feeding them, driving the price of hay upwards. He said a sell-off of feeder cattle may begin in about 30 days.

"This could be a disaster area by fall," he said. "Every candidate for office should take a stand on Idaho's water resources."

He said he opposes transferring Columbia Basin water to the Southwest.

A bill is currently under debate in Congress which would authorize a feasibility study of transferring water into the Colorado River drainage. "The water, presumably, would be diverted from the Columbia Basin."

Walker refused to take a stand on the sales tax, but did say he "probably would have voted for" the tax in the 1965 legislature if he had been a member.

Richfield Dance Slated Friday

6 Candidates Prepare for Rupert Rodeo Queen Event

RUPERT—Six entrants have been announced for the Rupert Rodeo Queen title with riding competition set for June 12, according to Rex Rasmussen, chairman of the queen contest.

The six queen hopefuls include Sharon Dennis, 18, daughter of Mr. and Mrs. Riley Dennis, Jackson area, who will be riding a 5-year-old Pinto gelding, Conanche.

Alla Lee Bennett, 16, will be riding a 7-year-old sorrel gelding, Fox, who is a Morgan and part quarterhorse. Miss Bennett is the daughter of Mr. and Mrs. William Bennett, Acequia.

Connie Fenstermaker, 16, daughter of Mr. and Mrs. Alvin Fenstermaker, of the Bonanza district, will be riding a 4-year-old thoroughbred quarterhorse mare.

Other queen contestants are Diane Johnston, 17, daughter of Mr. and Mrs. Edward Johnston. She will be riding her own quarterhorse, a 12-year-old sorrel named Gail Thompson, 17, daughter of Mr. and Mrs. Roger Thompson. Rupert will be riding a 5-year-old Arabian mare in competition and Lanno Crystal, 10, will be riding Lantani, a registered quarterhorse. She is the daughter of Mr. and Mrs. Wayne R. Crystal, Paul.

The contestants are being coached in riding ability by several horsemen, headed by Rex Rasmussen, who work with the girls each Tuesday and Thursday night at the Mindoka County Fairgrounds.

At the riding contest at the fairgrounds, June 12, contestants will be judged 60 per cent on riding ability and 40 per cent on appearance.

A popularity vote will be conducted at the Chuckwagon Jamboree which will count 25 per cent in judging. The jamboree is scheduled for June 23 at the civic building and serves as a kickoff for the annual July 4 celebration and rodeo.

The new queen will be announced during the jamboree and will take over reign from this year's queen, Janita Summers, on the final night of the reign over next year's activities.

Two attendants will be chosen from this year's candidates and will serve as attendants in Miss Summers during this year's rodeo and parade.

Johnson-Girls Shopping for New Clothes

NEW YORK (AP)—Lucy's shopping for her wedding trousseau, Lynda's collecting clothes to travel.

Today a parade of sales personnel from this city's smart shops and stores will try to satisfy the apparel needs of President Johnson's daughters.

The girls and their mother flew here separately from Washington Wednesday.

Lynda was the first to arrive and managed to catch two Broadway shows. With a girl friend, Sue Shine, she saw the matinee of the musical "Slyscrapper" starring Julie Harris.

Then in the evening, the two girls and Mrs. Johnson went to see the hit musical "Mame" featuring Angela Lansbury.

Luol, 18, is to be married Aug. 6 to Patrick Nugent.

Lynda, 22, is planning a trip to Spain this summer.

The stay here is expected to be brief. Lynda and Mrs. Johnson are due in Austin, Tex., for Lynda's graduation this Saturday from the University of Texas.

WASHINGTON—As a subsidiary with the "Great" the publisher are indulging in some wifely thinking about those polls that allow President Johnson's popularity has declined to its lowest point in his two and a half years in office. Everything considered, Johnson is doing pretty well. In the first place, Johnson has now passed the mid-point in his first full term in the White House and traditionally that has been a time of ebbing popularity for all Presidents. In recent years, it has happened to Harry Truman, Dwight Eisenhower and John Kennedy, and in itself the fact that it is now happening to Lyndon Johnson is not particularly significant. The electorate tends to grow restive after the first two years of a President's term—possibly because familiarity breeds both impatience and a kind of amiable contempt.

NOT SO BAD—Yet the optimist in Lyndon Johnson is justified in finding a crumb of reassurance in such as the latest Harris poll findings, which reveal that only 65 per cent of the public approves of the way he does his job, compared with 73 per cent in February 1965. His rating is still better than with Eisenhower or Kennedy could manage at their low points, and neither of Johnson's predecessors was forced to fight an unpopular war. Indeed, after the Korean truce, the country relatively was at peace throughout the Eisenhower and Kennedy administrations. In fact the Viet Nam war is not the voter's chief gripe these days. He is annoyed more by Johnson's inability to curb the high cost of living, as shown by a twin Harris poll which reports that 69 per cent of the public disapproves of Johnson's handling of prices, while only 53 per cent complain about his direction of the war.

SUCCESSFUL MOVE—This could indicate that the wily Johnson was not so ill-advised as many of the pundits claim in demanding that congressional candidates this year run on the administration war record. It is clearly Johnson's promise that the voters will give up the war if Democratic candidates not only appeal to their patriotism but go on to trumpet the accomplishments of the Great Society. Those accomplishments, of course, will have to be Johnson's answer to the electorate's gripe about the high cost of living. Five months is a short time for even Lyndon Johnson to wrangle any meaningful reductions in the prices of pork chops and nylons, and so he must build an image of his administration as one which is making steady progress in the battle for a better life for all. And he has the material at hand: Medicare, increased Social Security benefits, civil rights legislation, the anti-poverty program, last year's tax cut.

POSTURE WINS POPULACE—Besides, it is not necessarily true that the country tends to blame a war on the incumbent President. Franklin Roosevelt became the anti-President over his four years despite presiding over the most devastating war in history. Adlai Stevenson was clobbered because Eisenhower was a war hero, not because he promised to end the Korean fracas. The country was solidly behind Kennedy in his confrontation with the Soviet Union over the missile in Cuba. Moreover, although Lyndon Johnson is not the type, there is yet a certain gallantry to his posture of fighting the Viet Nam war with great single-mindedness of purpose while pleading daily with Hanoi and Peking to sit down and talk peace. Americans are more fair-minded than they are often credited. They are looking for evidence of both understanding and sympathizing with a President who clearly means well. The proof is that Lyndon Johnson still has the approval of 55 per cent of them in the middle of the nation's most unattractive war.

COLLEGE TRAINING
There seems no doubt that most of the young college graduates who have enrolled in the Peace Corps have enthusiasm and a desire to serve. But the questions are: How long will they stay? What practical things can they learn in a country where the pressing need is to get enough to eat? A young man may have received "straight A's" in history or economics, but does this fit him for work in a land striving to avert famine? The Peace Corps' new program for work in the field reassures the anti-peace activist. What questions. It plans to give the graduates of liberal arts colleges who enlist the kind of postgraduate work that will fit them into the effort to help India meet its food problem. It may take a good bit of humility for a young person with a new A.B. or M.A. to spend another three or four months learning how to feed chickens, grow potatoes, and perform other tasks in the modern world. But we feel confident that these young people have what it takes. The plan is to give a three-month course in such subjects as poultry feeding and market gardening to most of the 900 new volunteers to be sent in this year. Their results will have further opportunities to learn from American agricultural college graduates—and professors while they are overseas.

ANSWER DUE
A Hollywood actor named George Hamilton has been getting a lot of publicity recently, not as an actor but as an escort of Lynda Belfrage, daughter of President and Mrs. Johnson. In effect, he has moved the White House to his ranch in Texas for two and three weeks at a stretch. No one has ventured to suggest operation of the nation has been crippled. The answer, of course, is the instant communications available because of today's technology. Twin Falls may be far removed from the financial centers of the world, but today's instant communication could change all that.

WHY NOT?
At first blush, everyone would be inclined to label the Twin Falls invitation to the New York Stock Exchange as a publicity stunt. On the face of it, the invitation appears ridiculous. But is it? Is there any reason why the New York Stock Exchange shouldn't move to Twin Falls or anyplace else in the nation that might strike the fancy of directors? No one has suggested recently that the nation's Capitol should be moved away from Washington, but look at what has happened under President Lyndon B. Johnson. In effect, he has moved the White House to his ranch in Texas for two and three weeks at a stretch. No one has ventured to suggest operation of the nation has been crippled. The answer, of course, is the instant communications available because of today's technology. Twin Falls may be far removed from the financial centers of the world, but today's instant communication could change all that.

like major medical insurance. All that is required from the insured is a payroll deduction, a big filing cabinet, and a clover bookkeeper with plenty of time to keep records, correspond with the medical and dental professions and make a few trigonometric computations. There's also hospital insurance, surgical insurance, accident insurance, mortgage, fire and wind insurance on your house, liability insurance, insurance covering repairs to the television set and washing machine, five kinds of car insurance, camera insurance, and life insurance on everybody including the dog. In early April comes the Form 1040. You're finally saved back and invested it wisely. If you listened to a wife who had time to digest brokers' reports and pour over the financial pages every day. Now you discover Schedule D. Do you have a long-term capital loss? You should make a loss in the beginning, you can't be playing pool while your wife works this all out. It's true, the supply of lady lawyers and accountants available for marriage is limited. But there are alternatives. For instance, a girl who can repair electrical appliances will save you a mint. Or you can fall back on the classic solution. Marry a rich widow.

Interpreting The News

By JAMES MARLOW

WASHINGTON (AP)—President Johnson, a great believer in being backed up by a broad consensus when he tries to put an idea across, laid the foundation for a lot of future action on civil rights. A two-day White House Conference on Civil Rights, with about 2,400 people taking part at his suggestion, will send him a bundle of recommendations. In a speech a year ago Johnson said that trying to obtain justice for the Negro "will be a chief goal of my administration" for the years to come. He said he would call a White House conference in the fall of 1965 — as a starter — to help the "American Negro" fulfill the rights which after the long time of injustice he is finally about to secure. He called the conference in the fall. Eight panels of civil rights workers, experts in various fields, and government officials were asked by Johnson to come up with ideas for a big White House conference this spring. The delegates include representatives of business, labor, all levels of government, churches, foundations, educational institutions, civil rights workers, and what the conference calls the "grass-roots" of society. The 2,400 delegates were to be divided into groups of 200 each to discuss a 100-page report which the council sent last week to all those taking part in the conference.

It contained dozens of recommendations for immediate and long-range action to bring the Negro into equal status in housing, education, economic and job security, and the administration of justice. This conference will not be asked to vote on the proposals but discussions and suggestions will be recorded and reflected in a report to be submitted to Johnson within a few weeks. The chairman of the planning council — Ben W. Heineman Jr., a railroad executive — sees the conference as a jumping-off point for a full-scale involvement by society at every level, by private citizens as well as government officials. He denied the goals are "pie in the sky" although acknowledging that all the measures recommended might cost billions of dollars. One idea emphasized by the council and about proposed to Congress by Johnson is running into tough opposition there. This way.

The Doctor Says
By WAYNE G. BRANDSTADT, M. D.
Q—I am 67 years old and have high blood pressure. What should my pressure be? Would a cocktail before dinner be harmful? Would a large amount of salt on my food affect my blood pressure? Several years ago I read about a diet diet used at Duke University to control high blood pressure. What do you think of this diet?
A—The blood pressure varies widely. The upper (systolic) reading should be about 100 plus half your age but readings that are much higher may be observed and have no significance. The reading to watch is the lower (diastolic) level which should never be over 100. Inasmuch as a cocktail may help you to relax it may lower your blood pressure slightly. Sodium as table salt or in any other form tends to increase your pressure. The rice diet was highly successful in reducing blood pressure when properly administered but was too unpalatable for most persons and was deficient in protein. It has no advantage over a more liberal diet that is poor in sodium and is now rarely prescribed. Substitutes for table salt are now available for persons who don't like unsalted food. Q—What causes high blood pressure? Can it be cured? Are there any side effects from drugs given to reduce high blood pressure?
A—The cause of high blood pressure is not always apparent but nervous tension and obesity certainly aggravate it. Although a cure is unlikely it is both possible and advisable to control this condition. Many different drugs are used for this purpose and all of them may have undesirable side effects but, by skillfully adjusting the dosage and switching from one to another, your doctor can help you avoid these. Q—A friend has a blood pressure of 150 over 110. I didn't think a person could have so high a diastolic pressure and be able to work. Isn't she in danger of having a stroke?
A—High blood pressure does do a little celebrating of their

MARQUIS CHILDS WRITES ON WASHINGTON

WASHINGTON—Part of the cost of the spreading conflict in Viet Nam can be lumped under the heading of the "brain drain." The military to one side, a concentration of skilled and able men to the other, has been a drain of skilled and able men from the neglect of other vital areas of American involvement. Certain of the President's advisers are aware of how costly this can be. With government resources and public attention concentrated on Southeast Asia the all-purge in other areas goes almost unnoticed. There are signs that the Soviet Union is taking advantage of this country's absorption in a war that will shortly see 400,000 American troops on the ground in Asia.

The Middle East is a prime example. A blowup can come this summer. The degree to which Premier Aloekis Kosygin, backed President Gamal Abdel Nasser during Kosygin's recent visit to Cairo is not clear. But the Soviet Union has provided Egypt with massive arms aid and has made loans available up to a half-billion dollars for the Aswan Dam. Nasser continues to keep more than 50,000 troops in Yemen, East Africa, and elsewhere. He fears that he may launch a direct attack on Saudi Arabia over control of the primitive desert state helpfully moving out of the remote past. This could involve J. A. d. n. since King Ibn Saud has ordered his nation with Saudi Arabia a spreading war between rival Arab states Israel would be endangered. The arms race in the area has rapidly accelerated with the United States supplying weapons to both Jordan and Israel.

It is in foreign policy that the consequences are felt most. In 1958 President Eisenhower ordered 16,000 Marines into Lebanon at the request of the Lebanese government. The area was in an uproar with leftists in a weak violently government. Lebanon today is said to be far more stable. Yet if a request should come from, say, Jordan or Saudi Arabia for help in the face of an Egyptian attack, with the threat of the whole area going up in flames, the United States would be strained in view of the over-widening Viet Nam commitment. Africa is another area in which the drift of events can present Washington with grim, unpalatable choices. The black Africa is directed at the remaining enclaves of white supremacy, notably South Africa and Rhodesia. The President's initiative in his address to the Congress was to try to change the rules so that the militant can bring forth ideas which otherwise would not be brought forth.

This was the word from CORE's national director, FLOYD B. McKissick. He wants the 2,400 delegates to vote on the council's recommendations, not just discuss them. Another civil rights group, the Student Nonviolent Coordinating Committee, decided to stay in Washington.

own and come up with the killing lead of the queen of trumps. The unfortunate Souths won with their kinds and had the chance of a "hugging" shooting. They could have one losing heart in dummy but that play would establish East's nine of trumps and they would win up-losing-one trump, one club and two hearts or they could pull East's last trump and lose both trumps and both experts went down. If either South had stopped for some rest study before finding that first trump he would have had no trouble making his game. He would simply have led the queen of hearts from dummy to make it impossible for two trumps to be led before Smith's trump. From the hearts. Of course, this might have just against some very bad break in hearts but there was less chance for it to happen than for the actual distribution.

SAMUELSON CAMPAIGNS
SANDPOINT, Idaho (AP) — "Idaho taxpayers need more value for their tax dollar and they need a business man, not a politician, in the statehouse," State Sen. Don Samuelson of Sandpoint said Wednesday. Samuelson is a Republican candidate for governor, incumbent Robert E. King is the only opponent for the nomination. "The state's finances should be handled as carefully as a man handles those of his own business," Samuelson said in a statement.

Gymkhana Is Scheduled By Wranglers

RUPERT — Mindoka County Wranglers Riding Club will hold a jackpot gymkhana day Sunday at Mindoka County Fairgrounds.

The jackpot events will begin at 1:30 p.m. and be open to anyone. Included will be polo bending, stake race, musical chairs, girls goat tying, flag race, egg marathon, seven barrel race and the cloverleaf barrels, plus two flat races.

A small entry fee will be charged for all events except the two flat races which will be one eighth mile and one fourth mile races with entry fee set at \$5.

Children will be able to participate in two Western Pleasure Classes, including a class for 10 years and under, and a class for 11 years and over. Trophies will be awarded winners in each event.

The public is invited to attend and there will be no admission charge.

Other events slated for the riding club include a ladies' drill to be presented at the Onkley Rodeo, July 23; participation in the parade in Burley Friday June 10 prior to the opening of the Fifth District High School Rodeo which is being held in Burley this year.

The annual Mindoka Wranglers Horse Show, which is an all-breed show, will be held Aug. 6 and 7 at the Mindoka Fairgrounds.

BUYS AIR SERVICE
POCATELLO, Idaho (AP) — Airways, Inc., a Pocatello aviation flight service, has been purchased by the J. R. Simplot Co. The purchase was announced Wednesday. The flight service will be known as Simplot Aviation, Inc. Estimated purchase price was \$75,000.

The sale included two aircraft, flight service equipment, a government-approved ground school, and an agreement with Western Airlines to provide charter service for Western passengers from Pocatello.

GETS AWARD

The award, presented by the American Institute of Management in New York, was announced by Boise Cascade.

WOMAN KILLED
SODA SPRINGS, Idaho (AP) — A Smoot, Wyo., woman was fatally injured and six other persons were hurt in a two-car head-on collision 11 miles west of Soda Springs Tuesday evening.

Mary Cox, 33, died at 11:35 p.m. Her husband, Marvin Cox, 36, and son Kevin Eugene, 3 months, were listed in satisfactory condition in Caribou County Hospital. Also hospitalized were John Lloyd, 17, Border, Wyo., driver of the other car, and his brother Vaughn, 13. All were listed in satisfactory condition.

State police said the collision occurred when Lloyd attempted to pass a third vehicle and collided with the car driven by Cox.

HAS COMMITTEE
PAYETTE, Idaho (AP) — A Payette businessman, Ralph Paris, announced Wednesday he has organized a "McClure for Congress" Committee.

State Sen. James A. McClure is one of three Republicans seeking the job now held by Rep. Compton White, a Democrat, in the First District.

The others are Boise businessmen Kenneth Arnold and Robert B. Purcell of Lewiston.

SEEKS RE-ELECTION
BOISE (AP) — Joseph J. Mcadden, chief justice of Idaho's Supreme Court, is not a candidate Wednesday he will be a candidate for re-election.

McFadden was first appointed to the Supreme Court in December, 1959, to fill a vacancy caused by the death of Justice James W. Porter.

He was elected to his first full six-year term in 1960.

On Jan. 3 of this year, he became chief justice for one year.

WHITE SPEAKS
MOSCOW, Idaho (AP) — Graduates of Moscow High School were told Wednesday night solutions to today's complex problems rest with an acceleration of education and the compassion of man.

Rep. Compton I. White, D-Idaho, cited some of the problems as overpopulation, shortage of good, race relations and poverty.

GETS CONTRACT
BOISE (AP) — Morrison-Knudsen Co. Inc. of Boise said Wednesday a wholly-owned subsidiary in California has been awarded a \$144 million contract to prepare engineering designs for a huge new water development on the Yuba River in California.

J. B. Bonny, Morrison-Knudsen president, said the firm is International Engineering Co., Inc.

RACKS SMYLIE
BOISE (AP) — Gov. Robert E. Smylie announced Wednesday the appointment of Theodore Hoff, Jr., Horseshoe Bend as chairman of the Smylie for Governor Committee.

Smylie said Hoff, vice president and general manager of the Hoff Lumber Co. in Horseshoe Bend, would direct all activities in the governor's bid for an unprecedented fourth term.

Hoff said the organization and operation of this year's campaign would be "exceptionally different" from the past.

Job Opportunity Program Works for Aircraft Business

LOS ANGELES (AP) — In a May of 1961 Lockheed Aircraft Corp. was first to sign for the federal government's equal opportunity employment program, aimed at finding jobs for minorities.

Result: Lockheed now reports that 6,500 of its 84,000 employees are members of minority groups — and among the 6,500 there are 2 1/2 times as many in managerial or professional jobs than in unskilled or service work.

To help make its planes, ships, missiles and a host of other things the firm goes after Indians in Washington, Mexican-Americans in Arizona, Filipinos in California, Negroes in Georgia and Alabama.

It says 91 such employees are managers at \$10,000 to \$20,000 a year; 967 are scientists, engineers or accountants at \$5,000 to \$20,000; and 4,904 are in such skills as lab operators, flight mechanics, carpenters, electricians, at \$5,000 to \$7,000.

Federal civil rights laws can be met by hiring service workers. Lockheed is one of 328 major firms joining voluntarily a federal "plan for progress" to recruit minority workers above the janitorial level.

How does it work? Lockheed representatives go into minority living areas sometimes 20 miles from plants, leaving job-hunters with ministers, leaving-area employment offices and such organizations as the Urban League.

High school principals and counselors from slum schools are taken to four-day company facilities; told what's needed, what's available, and urged to spread the word.

Campus recruiters include such Negro colleges as Howard and Tuskegee Institute in their ranks.

Lockheed's industrial union, International Association of Machinists and Aerospace Workers, pushes a summer-long apprentice program for skill training. In Georgia, the union has several Negro business agents.

PORTLAND, Ore. (AP) — "Mom," Marine Lance Cpl. Gary Rungler told his mother on the phone from California, "don't make a big fuss about me coming home."

When he arrived Wednesday night in Portland, after a tour in Viet Nam, he was astounded.

There was a huge crowd, waiting at his airport gate, complete with lights and television cameras.

It was for actress Jane Russell, who walked out just behind Gary, arriving in Portland to support a war fund-raising affair.

2 Breakins Are Probed by Police

Twin Falls police are investigating two breakins which occurred sometime late Wednesday night or early Thursday morning.

Police said the breakins occurred at Green Cross Veterinary Hospital and the Twin Falls Veterinary Hospital. Police said only \$2 was taken from the Green Cross Veterinary Hospital and nothing was reported missing from the other veterinary hospital.

Entry to the two businesses was gained through rear windows which were broken. Police said a person or persons climbed over a high fence, went through the dog kennels and broke the rear windows.

Investigation is continuing.

Statement on Education Is Corrected

WASHINGTON (AP) — A spokesman for the Educational Practices Commission said today that while it wants universal public education down to the four- and five-year-old level, it specifically did not intend it to be mandatory.

The commission announced its revolutionary proposal to lower the school age last Tuesday, saying "Education in this two-year period can affect the character of the child and all his future life more deeply than education at any later period."

The Associated Press erroneously reported Tuesday that the recommendation was for mandatory education for four- and five-year-olds.

The commission is sponsored by the National Education Association and the American Association of School Administrators.

Good Road and Low Water Conditions to Accompany Opening of Fish Season

With access roads and water conditions all in the best shape in many years, several thousand Magic Valley residents will take to the streams and reservoirs at 1 p.m. Saturday to open the 1966 general fishing season. The Idaho Fish and Game Department has loaded all sized trout. This, combined with the low, clear water opening weekend a banner one. The big concentrations of anglers are expected at Magic Reservoir, in the Snake River Canyon from Clear Lake through the Hagerman Refuge and below and, of course, Silver Creek.

Giants Ride Power to Win Over Braves

ATLANTA (AP) — Willie Mays and Willie McCovey headed home runs in the first inning, triggering San Francisco's 4-3 victory over Atlanta Wednesday night.

Mays' 12th homer of the year was an inside-the-park blast which skipped off the glove of straining Henry Aaron, center fielder. It was the 57th of Mays' career and pushed him within four of Ted Williams, who ranks third on the all-time list.

Jim Davenport was on base with a walk when Mays connected. McCovey then slammed the ball home off the season over the center field fence.

Both drives were off Atlanta starter-Kon Johnson—who also gave up a solo homer to Davenport in the sixth inning. Johnson allowed only two other hits—singles by Mays and McCovey—before he was lifted for a pinch hitter in the sixth.

Alou Guides Pirates Past New York 3-1

NEW YORK (AP) — Matty Alou drove in one run and scored another as the Pittsburgh Pirates downed the New York Mets 3-1 Wednesday night.

Alou opened the fourth inning with the first Pirate hit off loser Dennis Ribant. He moved to second on an infield out and scored on a single by Roberto Clemente.

In the fifth, Bob Bailey sacrificed and came around on a single and scored another run.

Sox Convert Yank Errors Into 6-2 Win

CHICAGO (AP) — The Chicago White Sox capitalized on four New York errors and Tommy Agee's base running for a 6-2 victory over the Yankees Wednesday night.

Juan Pizarro, who had a five-run shutout until the ninth, lost his first home run to Short and Mantle's homer in the ninth and eventually needed Eddie Fisher's relief help before recording his fourth victory against one defeat.

The White Sox scored a pair of runs in the third inning and then stole another in the fifth on Agee's base running.

Ken Berry led off the Chicago third with a ground ball which third baseman Tom Tresh bled for an error. Agee singled with one out and two out singles by Bill Skowron and Floyd Robinson accounted for a 2-0 Chicago lead.

Agee walked to open the fifth and stole second while John Romano was striking out. Skowron then grounded to Short and was thrown out but Agee kept running and scored all the way from second.

Koufax, L.A. Nip Cards in Pitching Duel

ST. LOUIS (AP) — Willie Davis' triple and an error by Bob Tolan produced the game's only run, lifting Sandy Koufax and the Los Angeles Dodgers to a 1-0 victory over the St. Louis Cardinals Wednesday night.

The error in the seventh inning broke up a pitching duel between Koufax and Al Jackson and gave the Dodgers the lead. Koufax pitched eight innings and set a new record, allowing seven hits.

Davis became the first Dodger to get past first base when he lined a smash into the corner that bounded off the wall past Tolan, who slipped trying to field the ball. Koufax rook out the flyer then threw badly to second baseman Julian Javier, and Davis came all the way around, easily beating Javier's relay.

Jackson, losing his third game in seven decisions, had out-pitched Koufax to that point. Davis hit his only third for the Dodgers.

Tigers Come From Behind, Rip Twins 9-4

ST. PAUL, MINN. (AP) — Jerry Lumpe lined a double to break a tie and Al Kalina drove in four runs with two hits as Detroit rallied to defeat Minnesota 9-4 Wednesday night.

Former National League Johnny Podres won his second game in three decisions by blanking the Twins on a one-run night. He struck out seven and pitched 7 1/3 innings in relief of Lumpe's hit broke a 3-3 tie in the sixth inning and Kalina drove in another run with a check-swing single to center.

The left-handed hitting Lumpe was the first batter to face the southpaw Jim Merritt, who received Twins' starter Dave Boswell. He lined an 0-2 pitch for his hit.

Legion Team Opens Season With 5 Weekend Games

The Twin Falls American Legion baseball team, making its first giant step into interstate competition, will test its pitching staff right off the bat in a weekend to open an ambitious schedule.

The team, known as the "Red" team, will play all the inter-district and state games while the "red" team will participate in about 30 games in the Magic Valley League.

Composed largely of Twin Falls High School players, the team has received good help, particularly in the pitching department, from boys from

Legion Team Opens Season With 5 Weekend Games

four states and planning at least 40 games. The team will open with a single game at 8 p.m. Friday against Mountain Home, hosts Caldwell in a doubleheader, beginning at 6 p.m. Saturday and finish up with another twin bill against Borah at 8 p.m. Sunday. All games are scheduled for Jaycoe Park.

Orioles Rally In 10th to Edge Angels

ANAHEIM (AP) — Jerry Adair's pinch-hit single and a sacrifice fly by Luis Aparicio gave the Baltimore Orioles two runs in the 10th inning Wednesday night and a 7-6 victory over the California Angels.

It was the second extra-inning loss in two days for the Angels, who bowed to Cleveland in 17 innings Tuesday night.

The Angels scored three times in the seventh off Stu Miller to go ahead, 7-6. Two walks and an infield hit by Rick Reichardt loaded the bases and started the surge. Willie Smith's sacrifice bunt scored one run and Bobby Knoop singled to drive in the other two.

Earlier, Boog Powell hit two home runs and Etchebarren for the Orioles.

Stocks

NEW YORK (AP)—The stock market showed an irregularly lower trend at the close today. Brokers attributed the weakness to typical Thursday evening-up operations by traders who were looking for a pullback against gains prior to the week-end.

Business

By SAM DAWSON NEW YORK (AP)—Rising interest rates have been blamed for many things: For causing nervous investors to sell stocks. For chilling the hopes for a revival of an ailing housing industry. For forcing some businesses to shelve expansion plans. For discouraging some prospective new car buyers. For causing some state and local governments to withdraw bond offerings to finance public projects. But the interest rates in the United States, although much higher than a year or two back, are not all that high in most other leading industrial nations. And most lenders here scoff at the argument that tighter borrowing charges are slowing the business boom. They point to the fact that demand for loans in most fields, if not for home mortgages, is new cars, by paying savings higher interest, so the banks are not losing out at the higher interest rate. In the United States today, short-term lending rates start at 5 1/2 per cent. This is the lowest figure at which businesses of the highest credit rating can get a bank loan. In most other leading industrial nations, Most bank customers have to pay more than this prime rate. And the charges vary from region to region and even city to city. In only two other of the major industrial countries, the prime rate is lower than here. In France and Japan it is slightly below 5 1/2 per cent. In Switzerland the prime rate ranges from 5 1/2 per cent to 6 per cent, depending upon type of loan. Canada's 6 per cent prime rate has been low, it flew from bank-to-bank who would like to see it higher. Rates from 6 to 7 per cent prevail in the Netherlands, West Germany, Britain and Belgium. Italian rates are complex but average 7 1/2 per cent. In Sweden the prime rate is as high as 7 1/2 per cent. But in less industrially developed countries the businessmen really try to pay when he borrows. Bank rates in Latin America range from 10 per cent in Ecuador to 24 per cent in Brazil. Mostly this is due to shortages of capital, but rapid depreciation of money also plays a large part. The percentage commission bite would be the same. But you would pay only one "handling charge" or "custodian fee." That charge goes to the bank or whatever other organization handles the paperwork for the mutual fund. In the vast majority of cases it is a flat fee (perhaps \$1) whether you invest \$10, \$100 or any amount in a mutual fund accumulation program. But, if you are "in a position to invest" only such a small amount, you might skate onto thin financial ice by doing so. More likely, your money should be put into the safety of a savings account. (They will answer only representative letters of general interest in this column. We cannot answer those queries.)

Q. Why do stock prices fall on what is often described as a "selling wave"? When there is a great deal of selling, isn't there a corresponding amount of buying? I can't sell something unless someone else buys it.

Short Term Trusts Offer Big Income-Tax Savings for many families — not just the rich!

Example: A Short Term Trust enables you to divert investment income from yourself to others for 10 years or longer. Suppose you have \$1200 in taxable income a year from stocks, bonds or rents. If you are in the 25% Federal tax bracket, \$300 or 25% of the \$1200 will be paid in Federal income taxes this year. If you should remain in the same 25% bracket for 10 years, a total of \$3000 would be paid in taxes. However, should you place securities or property (earning the \$1200 annual income) in two Trusts — one for each of your two children — there would be no tax. Each child has a \$600 income exemption. And you do not lose your right to claim your children as dependents on your income tax return. At the end of a 10-year period your family would have saved \$3000 in taxes (\$300 a year for 10 years). You also have the interest earned on the money you did not pay in taxes. The capital, which produced \$1200 income each year, would automatically be returned to you at the end of 10 years. The above is a very simplified example but indicates the tax saving advantages of a Short Term Trust. Income can be diverted from yourself to anyone you choose and will result in tax savings if the income of others is less than yours. There may be gift taxes at very low rates, but tax saving advantages generally far outweigh all costs.

Without cost or obligation, our Trust Department will be glad to work with you and your Attorney on the financial and practical aspects of planning your estate in order to achieve your aims at the lowest possible cost in taxes and other expenses.

Others attending from out of state were Elder Dale Doty, Junior Fuller Mr. and Mrs. Charles Winfield and family, also of Kansas City; Lowell Farmer, Kansas City, Kan., Elder and Mrs. Howard Winfield, Fairplay, Mo., Elder and Mrs. Meredith Jeffries and son, Elder and Mrs. Lewis Tackitt and daughter, Maxine, and Elder and Mrs. Jack Cooper and sons, Manson, Wash.

Elder Archie Saltee, pastor of the local church, held a special service with Elder Meredith Jeffries as the guest pastor. A potluck dinner was held at the church after the services.

REPUBLICAN WOMEN of Idaho received an award for the greatest percentage increase in the number of delegates attending the recent Republican Women's Conference in Washington, D. C. State Sen. Mary Brooks, R-Blaine, second from left, presents the award to Mrs. Dallas Pohlmann, Boise, on behalf of Idaho Republican women. Mrs. Pohlmann, assistant national GOP chairman, conducted the Washington meet. Mrs. Pohlmann is president of the Ada County GOP Women's Club.

White House Group Airs Civil Rights

WASHINGTON (AP) — The White House conference on civil rights rolled down Wednesday to group discussion with President Johnson promised thorough consideration by the administration of any ideas that are produced.

Procedural differences appeared resolved, though Johnson was asked about the rumblings of discontent at a news conference he called at the White House.

"We always have differences," the President said, "and I think maybe you all are inclined not to overlook any of them."

Johnson described the civil rights situation as one "we think desperately needs attention." He then pledged full consideration of what the conference produces, said the administration will work for rapid progress in civil rights and said there is far more agreement than disagreement in the area.

Meanwhile, Vice President Hubert H. Humphrey opened the two days of meetings by reminding some 2,000 applauding delegates that "people," not laws and court decisions, can erase centuries of injustice.

Before Humphrey spoke, the conference chairman, W. Heinsinger, announced that his advisory council had decided members could vote on resolutions in each of the committee meetings at the final sessions.

Floyd B. McKissick, national director of the Congress of Racial Equality, had protested what he called the fixed agenda of the conference and no chance to take votes. He had planned to offer a motion to change the procedure, but didn't after the announcement.

Humphrey drew applause when he said there were some Americans who appear more concerned about "preserving the status quo than rooting out long-standing injustices facing residents of their community."

He drew applause, too, when he said "and I can say with considerable regret," that there are Negro Americans "who appear more concerned about their own positions than about the plight of those less fortunate, less articulate members of their race."

"I can see I'm not making friends with these candid obser-

Businessmen Have Keen Interest in Senate Elections

WASHINGTON (AP) — Bankers, builders and businessmen have a particular interest in this year's Senate elections in Virginia, Alabama and Illinois.

Involved in the contests are the three top Democrats on the Senate Banking Committee. All appear to have hard re-election fights.

Sen. A. Willis Robertson, 70, chairman of the committee, is engaged in Virginia in a slugging primary campaign with William B. Spong, 46, a state senator from Portsmouth, Va. The primary is July 12.

Sen. John J. Sparkman, 65, who is next in line for the chairmanship, already has won the Democratic nomination in Alabama. But in the cross-currents of emotion in that state, the Democratic nomination is not the assurance of election that it has been for years. Four years ago, Democrat Lester Hill of Alabama won re-election by only about 6,800 votes.

Alabama Republicans will choose their Senate candidate in a convention July 29. The expectations," Humphrey said, "but I'm not here in a popularity contest."

Sen. Paul A. Douglas, 74, who ranks behind Sparkman in committee seniority, already is campaigning vigorously in Illinois against his expected Republican opponent, Charles H. Percy, 46, ran for governor two years ago but was defeated in the Democratic landslide of that presidential election year. He is a former chief executive of Bell & Howell Co.

In addition to legislation dealing with banks, the Banking Committee handles a variety of other business legislation. Housing matters come under its jurisdiction. It would handle wage-price control measures if world developments led Congress to consider them.

The chairman of the committee, as is true of any major congressional committee, has great power. Particularly, he can expedite or delay consideration of specific bills.

For instance, Douglas has been trying for years to get enactment of a law requiring that installment purchasers be given more complete information on finance charges.

Douglas' bill once came out of a subcommittee, which he headed, but the full committee sent it back there. Robertson opposes the bill.

YOUR BIRTHDAY and HOROSCOPE

THURSDAY, June 2 — Born today, you are one of those whose determination is often seen by your opponents as being sheer stubbornness. You must not let this bother you, however, for it is through determination that you will end up achieving far more than those who criticize you for this trait. You must learn, however, to be determined only about worthwhile things; the project that will obviously and in failure of your repetition of another's work is hardly worth pursuing. Both you men and women born today have highly disciplined minds. You can make yourselves carry on in the face of obstacles that would stop others completely. Never one to shirk your own duty, you will even take on duties of others if you feel it necessary to the success of the operation. — Because you are very demanding of yourself, you are inclined to be a hard taskmaster when placed in a position of authority.

Learn to temper your demands with kindness, and to realize that your own strength is unusual. What may seem to you to be the weakness of others may really be a normal human strength. You have it within you to become a real force in the world, but you will have to learn how to get others behind you before you can realize your potential. To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Friday, June 3
GEMINI (May 22-June 21) — Don't allow your impulses to lead you astray from your initial aim for the day. Keep your sights clear.
CANCER (June 22-July 23) — Be cautious in your reception of new ideas today. Make certain that you test out new theories before becoming committed to them.
LEO (July 24-Aug. 23) — Take normal precautions against any threat to your well-being. These are days when you must be in the pink of condition.
VIRGO (Aug. 24-Sept. 23) — Don't be high-pressured into making a larger purchase than you'd planned. Better to lose status than to break the budget.
LIBRA (Sept. 24-Oct. 23) — A day of mixed blessings which you can control through making the right decisions. Take your time over issues.
SCORPIO (Oct. 24-Nov. 22) — An exciting morning may cause you to take on more responsibility than you're capable of handling for the afternoon. Gauge your strength.
SAGITTARIUS (Nov. 23-Dec. 22) — Overcome obstacles by first recognizing their existence. To pretend all is well when it isn't can only cause setbacks.
CAPRICORN (Dec. 23-Jan. 20) — Make a deliberate effort to control circumstances and you should be able to make this day do what you want it to.
AQUARIUS (Jan. 21-Feb. 19) — Patience and calm will help you solve problems as they arise today. Don't put off finding solutions until tomorrow.
PISCES (Feb. 20-March 21) — Turn the unexpected to your distinct advantage today as you keep alert and on your toes. Don't be taken in by a pretty package.
ARIES (March 22-April 20) — An unusually busy day that could bring you an exciting and profitable aftermath. Take care not to count your chicks before they hatch.
TAURUS (April 21-May 21) — Steady nerves and a firm grip on your emotions can bring a high-pressure day to heel. Remember: A soft answer turneth away wrath.

JOHN M. BARKER, Safeco insurance agent, is congratulated for being named Idaho Agent for 1966 by Gordon H. Swann, president of the Safeco Insurance Group, Seattle. Barker received the award during the organization's meeting at Sun Valley which ended Tuesday. (Sun Valley photo)

FLOWERS ARE as much a part of a wedding as the bridal fashions and should be in keeping with the gowns. Bridesmaid's gown, left, in blue crepe has embroidered bodice. Bridal bouquet of daisies, carnations and roses is coordinated with the bridesmaid's coronet. Bridal gown, right, in pearl de sole has a

beaded bodice and detachable train. Bridal bouquet is of white roses and daisies. Fan-shaped bouquet of daisies and roses is a perfect complement to the demure bridal gown; center, in quilted brocade with chapel train and flared sleeves beaded with pearls. Gowns are by Alfred Angelo.
