TWIN FALLS, IDAHO, FRIDAY, JUNE 17, 1966

TEN CENTS

Gemini 9 Pilots Report On Troubled 3-Day Flight

SPACE CENTER, Houston, Tex. (AP)—Astronaut Eugene A. Cernan reported today that overwork was the main reason for his position during his record Gemini 9 space walk caused the visitor fogging that cut the air short.

Cernan and his flying companion, Thomas P. Stafford, told a news conference about their exciting, often-troubled three-day mission in space earlier this month.

The astronauts reported their work load just to maintain position.

"As soon as we went into a darkness period, my visor started to fog," Cernan said. "I had only two more AMU connections to make. I looked into the black night and the earth and the earth and the night looked the same. I could not see the horizon."

"I'm not saying I felt lonely out there. But a light (in the equipment section) looked like a headlight coming through a fog. That's when we decided not to use the AMU."

Cernan returned to the spacecraft after 2 hours 5 minutes, one-half hour earlier than planned.

A major achievement of the three-day flight was the rehearsal of the moon rescue maneuver, which required radar.

To set up the rendezvous maneuver, the Gemini 9 pilot moved their spacecraft to a point several hundred miles ahead of and about eight miles above the target — called an ATDA—for Augmented Target Docking Adapter.

"This meant they had to zero in on the target from above — trying to spot it against a fast-moving background of land features and clouds."

"Without radar we never would have found the ATDA," Stafford said. "It was like a period on a piece of typing paper."

U.S., Germany Worried Over Possible France-Russia Pact

PARIS (AP)—President Charles de Gaulle leaves Monday for Moscow on a trip that has caused uneasy suspicion among allies—America and West Germany. Both are worried that he may engage in some bilateral treaty of agreement with the Russians which would be disadvantageous to the West. The United States regards the journey with a somewhat jaundiced eye, and officials have been

Buddhist Extremists Keep Demonstrating

(See Picture on Page 8)

SAIGON (AP)—A Buddhist girl set herself aflame Friday night in an abortive suicide attempt as extremist elements kept up antigovernment demonstrations despite a warning that the fate of the Buddhist Church was at stake. Dao Thi Tuyet, 16, suffered severe burns in trying self-immolation in the Buddhist Institute compound about a half-hour after a government curfew emptied Saigon's streets of all but a few Buddhist protesters.

The burning followed the fifth straight day of scattered demonstrations by radical Buddhist elements. The pattern of emotional protests has so far included nine suicides by fire.

Reports from the northern city of Hue said government planes strafed a disident Buddhist army unit some 10 miles from the city.

The warning that the United Buddhist Church was on the breaking point was delivered by Thich Tam Chau, the moderate head of the Buddhist Institute, from a secret hideaway after he abandoned the institute compound to more militant monks.

His statement, published by the pro-government press but ignored by Buddhist papers, was a stern warning for the disorders in Saigon and in the northern Buddhist stronghold of Hue.

Whether his words could stem the wave of unrest fomented by the militant monks seemed doubtful.

A mob of 1,000 chanted anti-government slogans and listened to denunciations of the regime over loudspeakers inside the Buddhist Institute compound on the outskirts of Saigon. Riot police kept the area firmly bottled up. An eight-foot caricature of President Johnson hung from a fence along the compound.

Nearby, the Buddhist set fire to three American vehicles, including a U.S. Embassy jeep. Others spilled debris in the streets and shouted insults at the police.

The new limit is effective with the start of the 1967 fiscal year on July 1.

The national debt now stands at about \$322.6 billion, which is well beyond the "permanent" limit of \$285 billion to which the law would have reverted if Congress had not passed another temporary annual increase.

Tests Begin on Communications Satellite Cluster

CAPE KENNEDY, Fla. (AP)—Tracking stations today began a long series of tests with the first seven satellites in the military's satellite communication (SATCOM) network.

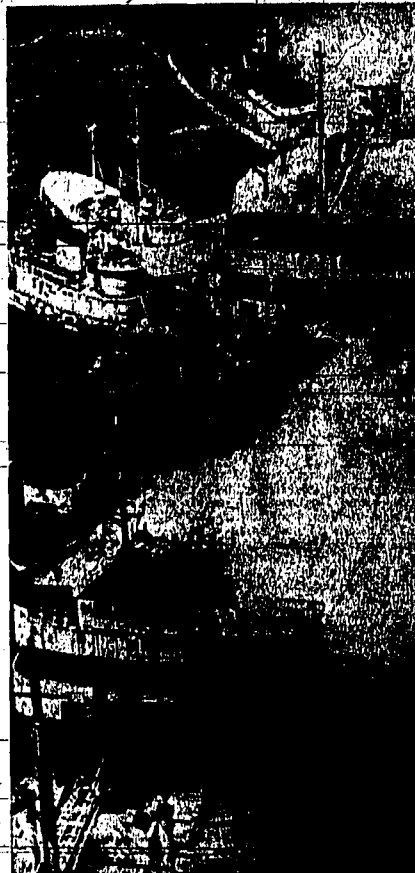

After more than six hours of shifting through space, the communications satellites sprung free from their Titan 3 rocket late Thursday.

They are orbiting 21,000 miles above the equator.

Hearing Set in Vandalism Case

Preliminary hearing in juvenile court for the 17-year-old youth, charged in connection with the butyric acid incident at the high school, has been set for June 29, according to Probate Judge Zoe Ann Shaub.

City police said Friday investigation of the case is continuing and Prosecuting Attorney James J. May said certain persons will be subpoenaed to testify under oath at the hearing.

Garden Club Unit Opens State Meet

Delegates from all parts of Idaho attended the opening session of the Idaho Federation of Garden Clubs 14th annual state convention-Friday morning at the Holiday Inn, Twin Falls. H. L. (Herb) Derrick, Twin Falls city manager, welcomed the delegates and presented Mrs. A. L. Lyons, Lewiston, first vice president, who presided at the morning session; a key-to-the-city of Twin Falls. The flag was presented by two Jerome

Body of Baby Found at T.F. Sewage Plant

Authorities were stymied Thursday on investigation concerning the dead body of an infant girl found Wednesday afternoon caught in the grating of the outlet stream at the Twin Falls Sewage Treatment Plant.

Sheriff James H. Benham said an autopsy determined the baby was at the five and one-half month stage of development and had been dead from 12 to 24 hours before it was found, about 2 p.m. Wednesday.

"There were no marks of any violence on the perfectly-formed infant, the sheriff declared, and there was no way of telling whether it ever had drawn a breath, or if it was stillborn. It weighed approximately two pounds.

There are a number of ways the body could have been put into the sewer line, Benham noted, including dropping it through any one of a number of manholes. He said he doubted if it could have been flushed through an ordinary domestic outlet.

Discovery of the body was reported to authorities by Earl Fullmer, superintendent at the sewage treatment plant. He said it was found during a routine cleaning of a grating used to screen out large objects before the sewage enters the treatment facilities.

Sheriff Benham said it will be extremely difficult to find the mother unless a neighbor or acquaintance becomes suspicious and volunteers information to authorities.

He also said he is uncertain what charge could be filed, in any case, if it cannot be proven that the baby ever was alive.

Elaborate Systems for Civil Defense Misfire

RENO, Nev. (AP)—Wahoe County's elaborate plans for a home explosion.

A detonation near Reno's ultra-modern city hall blew out the door, broke 50 windows in the building and shattered other windows for blocks around.

A backfiring rocket blew the hole in the roof and an exploding rocket started a blaze on the roof of a Reno firehouse. A Civil Defense worker suffered a minor burn while fleeing from one of the blasts.

The rockets were "just an imitation warning system" until Reno gets sirens, Hay says.

Sirens are expected within a month.

20 Dead in Fiery Ship Collision in New York Harbor

NEW YORK (AP)—The sun filtered through the clouds onto the busy ship traffic in the Kill Van Kull Channel in New York Harbor. Then in an instant of screeching metal and searing flames, the channel became a sea of fire and death. The Coast Guard counted at least 20 dead today in the collision of two tankers, one empty, the other laden with volatile naphtha. Of the 101 crewmen on the tankers

Changes in Municipal Code Heard in T. F.

(See Picture on Page 9)

Hearings on proposed changes in the Idaho Code dealing with Municipal Corporations, which were expected to draw loud criticism and comment were conducted in an orderly manner Thursday afternoon at the Twin Falls City Hall. One of the major changes proposed by the legislative council committee in the reclassification of the law, was the doing away with the city manager-city commission form of government. This change,

State Posse Meet Slated For Burley

BURLEY — Annual Idaho State Sheriff's Riding Association will be held Saturday evening through Sunday afternoon at the Cassia Fair Grounds.

About 300 members of various sheriff's posses throughout Southeastern Idaho are expected to attend the event, which is being hosted by the Cassia County Mounted Sheriff's posse.

At 8 p.m. Saturday a parade will begin at the Overland Shopping Center, travel north on Overland Avenue to Main Street, and East on Main Street to the fairgrounds.

A queen's contest will be sponsored by Rich county, and queen will be chosen after the parade.

See POSSE, pg. 2, col. 6

"Idaho" Spud Trademark Is Praised

SUN VALLEY, (AP) — The registered trademark "Idaho" for potatoes was described as the most important marketing tool ever given a statewide duty Friday by the president of the Idaho Growers - Shippers Association.

William L. Floyd of Kimberly told 250 delegates to the growers' convention today that the "Idaho" and "Grown in Idaho" seals were "used-only" by packers within the state and selected pre-packers out of state.

The trademarks prevent use of the name on potatoes from other states and allow the Idaho Potato and Onion Commission to take violators to court at the district court level.

Floyd also told the growers and shippers industry, "Each year of pressure from population increase are coming true and there also is pressure from the war in Asia."

At the same time, Floyd said, arable acreage is decreasing and there is an increase in the industrial labor payroll and disposable income.

The Potato Processors of Idaho Association met in conjunction with the convention to adopt a new budget and elect officers.

The association agreed to access members the cost of completing a study on secondary treatment against water pollution begun several years ago.

Elected officers of the Potato Processors were Vern Routh of Twin Falls president; Eric Anderson of Pocatello vice president; John D. Snow of Burley, re-elected manager.

2 Postmaster Units Slate Joint Meet

The first joint convention of the Idaho National Association of Postmasters and the Idaho League of Postmasters will be held June 27 through June 29 at the Holiday Inn. The announcement was made by Mrs. Ruth Purdy, Pocatello, president of the Idaho National Association of Postmasters.

Fred Sanger, Twin Falls postmaster, will act as host of the convention.

In charge of the various seminars will be Robert Clifton, chief postal inspector of the Seattle region; James Newcomb, inspector in Twin Falls; Richard Purcell, regional controller of Seattle, and Tom Allen, Chief of training, Seattle.

Convention speakers will be Fred Batrus, deputy assistant postmaster general of transportation, Washington, D.C.; James J. Symbol, regional director of Seattle; William Andrews, director of postal service of Seattle; and John Roat, regional advisor for the postmaster general of Boise.

All Idaho postmasters are invited to attend the meeting.

15-Day Strike Continues as Engineers Meet

BOISE (AP) — Operating engineers in southwest Idaho were to meet today as efforts to settle their 15-day strike continued.

Work on most major projects across southern Idaho has been halted, idling some 1,000 operating engineers and 2,000 other workers.

Union members in the Boise area have taken two votes on offers from the Idaho Branch of Associated General Contractors.

Union members in Pocatello and Twin Falls approved the tractor offers earlier this week.

LOOKING AT ONE of several flower displays at the Idaho Federation of Garden Clubs state meeting Friday, from left, Mrs. J. T. McElroy, Jerome, state president, and Mrs. Howard Kline, Jr., Twin Falls, who will speak Friday night on flower arrangements. The convention is meeting in the Holiday Inn, Twin Falls. (Times-News photo)

State Office Building to Be Planned

BOISE (AP) — Plans for a state office building complex will be ready for the 1967 legislature, Gov. Robert E. Smylie said today, and construction of a new state office building could begin early next year.

Smylie, after granting by the Senate the bill authorizing the construction of the new state office building, said the bill would be ready for the legislature. He said the bill would be ready for the legislature. He said the bill would be ready for the legislature.

Chou En-Lai Begins Visit To Romania

BUCHAREST, Romania (AP) — Communist Chinese Premier Chou En-Lai began an eight-day visit to Romania today, the first visit by a Chinese premier to the Balkan country.

Chou En-Lai, 77, arrived in Bucharest today. He will be in Romania for eight days. He will be in Romania for eight days.

Magic Valley Funerals

GOODING — Funeral services for Mrs. Esther Letell Kuhn will be conducted at 2:30 p.m. Saturday at Thompson Chapel by Rev. Wm. W. McLaughlin.

Funeral services for Mrs. Esther Letell Kuhn will be conducted at 2:30 p.m. Saturday at Thompson Chapel by Rev. Wm. W. McLaughlin.

Senator Reports On Resolution

WASHINGTON (AP) — Sen. Len Jordan, R-Idaho, reported Thursday passage by the Senate of a resolution reaffirming federal policy as the goal of the federal government.

Sen. Len Jordan, R-Idaho, reported Thursday passage by the Senate of a resolution reaffirming federal policy as the goal of the federal government.

Weather, Temperatures

MAGIC VALLEY — Partly cloudy today with isolated afternoon and evening showers. Winds becoming westerly 15 to 25 miles per hour and gusty this afternoon diminishing slowly tonight. Clearing tonight. Generally fair Saturday and Sunday. Highs today 62 to 82, lows 45 to 55, except Camas Prairie highs 75 to 85, lows in 40s. Temperatures at 8 a.m., 68 at Kimberly, 67 at Rupert, 61 at Fairfield, 59 at Bailey, 61 at Buhl, 56 at Castleford, 55 at Wendell, 70 at King Hill and 67 at Gooding at noon. 82 at T. P. weather bureau with 26 per cent humidity. Barometer: 30.08. Soil temperatures: At T.F., four-inch 69, eight-inch 67, 20-inch 61; at Rupert, four-inch 80; three-inch level at Buhl 65; at Castleford 68; at Wendell 67; at King Hill 80.

FIVE-DAY FORECAST

During the next five days high pressure will continue dominant over the Northwest with a clear, low-centered over the Gulf of Alaska. Discharges moving out of the Gulf of Alaska will pass through Northwestern Canada with very little effect on Southern Idaho.

Temperatures Saturday through Wednesday will average near seasonal normals in the southwestern valleys, in Magic Valley, Camas Prairie and the Wood River Valley, and will average two to five degrees above normal in southeastern Idaho. No large changes are indicated, but it will be slightly cooler over the weekend and a little warmer about Monday and Tuesday. Normal maximum and minimum temperatures for this period are Gooding 80-50, Twin Falls 83-40, and Burley 70-47. No precipitation of consequence is expected for most of the agricultural areas of Southern Idaho. Isolated thunderstorms will occur most likely over the mountains and some of the western valleys. These showers will be localized, probably lasting less than 15 minutes.

SYNOPSIS AND AGRICULTURAL SUMMARY

The air over this district is drier today, as evidenced by mostly sunny skies during the forenoon. Temperaturewise, the air over us is still unstable enough for convective currents to develop as the ground warms up. This fact was verified by late forenoon when a few towering thunderheads were already developing over the mountains. Some increase in cloudiness may be expected over the valley areas this afternoon with a chance of isolated thunderstorms during the afternoon and evening. Clearing is expected to occur tonight, followed by generally fair weather Saturday and Sunday. Temperatures will be about five degrees cooler in most sections by Saturday.

Arthur J. Lanting, 21, Route 1, and Lavon G. Henderson, 33, Rupert, were fined \$25 each, Judge Robinson for a solid line violation. Delpha Bourn, 41, Murtaugh, was fined \$10 by Judge Robinson for "failure to yield the right-of-way."

Foreign Aid Programs Are Authorized

WASHINGTON (AP) — President Johnson's foreign aid program was approved by House and Senate today.

The House Foreign Affairs Committee voted for a two-year authorization, the Senate Foreign Relations Committee for one.

Elmore 4-H Clubs Hold Work Meet

KING HILL.—The 4-H Variety Club and Saddlelites 4-H members met Tuesday at the Pith Fork Ranch of Mrs. W. W. Knox to work on their sewing projects, supervised by Mrs. Knox.

Mrs. James Russell supervised the members who are taking cooking. A sack lunch was served at noon.

Afterward the group went to the City Hall in Glens Ferry where Mary Lou Ruby, Elmore County home demonstration agent, helped all 4-H members with their standard report forms.

At 7 p.m. a singing and fitting demonstration of livestock was presented at the Pith Fork Ranch by Clarence Wells, horse trainer and livestock man, Gooding.

Members are being briefed on their 4-H projects in preparation for the Elmore County Fair.

Members of the Variety Club donated \$22 to the 4-H Camp near Ketchikan.

Herbert Edwards, Elmore County agent, will give a talk at 7 p.m. June 30 on how to give demonstrations, how to conduct illustrated talks and public speaking at the King Hill Grange Hall. All 4-H members in the area are urged to attend.

The next meeting of the Variety 4-H Club and the Saddlelites 4-H Club will be held at the Wolfson Henderson Ranch one mile west of King Hill where demonstrations will be given on saddle horses and livestock.

New "Trot-in" Bank to Open

MACKINAC ISLAND, Mich. (AP)—Residents of this resort island in the Straits of Mackinac will have a chance after July 1 to do some "trot-in banking."

The First National Bank of St. Ignace plans to open a branch here next month, one which will cater to the island's favorite means of transportation, the horse. Cars are prohibited on the island.

Patrons arriving on horseback or in one of the popular horse-drawn surreys will find hitching posts in place of parking lots, said the bank president, Warren Hagen.

The bank plans to offer two lumps of sugar to each horse bringing a new customer on opening day, Hagen said.

SON ENLISTS—Asael Elrey Dilworth, son of Mr. and Mrs. Asael Dilworth, Hansen, has enlisted in the Air Force, reports T. Sgt. Art. Harmon, USAF Recruiter for the Magic Valley area. He is training at Lackland Air Force Base, San Antonio, Tex. He was graduated from Hansen High School.

Regulations On Diet Food Are Reported

WASHINGTON (AP)—The government announced new regulations today which affect the labeling of content, or both, of most special diet foods and diet supplements.

Dr. James L. Goddard, commissioner of food and drugs, told a news conference the regulations are designed to become effective 180 days after publication in the Federal Register Saturday.

The Food and Drug Administration said the revised regulations are aimed at providing the consumer with more facts about the food he buys for weight control, for dietary supplementation with vitamins and minerals, and for other special diet needs such as controlling salt intake.

A major change from current procedure is adoption of recommended dietary allowances as a guide to meeting nutritional needs. These allowances, based upon findings of the National Academy of Sciences, replace what Goddard described as EDA's outmoded 25-year-old concept of "minimum daily requirements."

The new regulations will: Restrict "low calorie" labeling to foods that contain 15 or fewer calories per serving. Limit "reduced in calories" claims to products which contain at least 50 per cent fewer calories than their ordinary counterparts.

Establish eight classes of foods which may be "fortified" with vitamins and minerals. These include breakfast cereals and iodized salt.

Stipulate which nutritional elements, and the amounts of each, that may be used in "fortified" foods.

Prohibit extravagant promotion of "shotgun" multivitamin and mineral supplements containing nutrients that meet no dietary need and tend to deceive the consumer.

Car Damaged When It Hits Power Pole

SHOSHONE — About \$550 damage resulted to the front of a 1966 Dodge sedan owned and driven by John F. Reichelle, Glens Ferry, when it went off the road and hit a power pole three and one-half miles north of Shoshone on U.S. highway 83 at 9:30 a.m. Wednesday.

State Patrolman Ronald Eggleston said the driver reported he went in sleep-and-lost-control of the vehicle. The car, traveling east, went across the road, hitting rock, then back across the highway and striking the power pole.

There were no passengers. Reichelle, 71, was taken to the Gooding Memorial Hospital with cuts on his face and hands.

Patrolman Eggleston cited Reichelle for driving on the wrong side of the road.

Castro May Be Slipping From Power

WASHINGTON (AP)—The State Department publicly raised a question Thursday as to whether Fidel Castro is slipping from the Cuban throne.

"It is a fact," said Robert J. McCloskey, press officer, "that Castro uncharacteristically has not been in the foreground of events since May 1, and this understandably has led to widespread speculation inside Cuba about his whereabouts."

The State Department spokesman offered this comment on a published report of speculation about whether Castro is still in full command in Havana. The bearded revolutionary, who is 39, came to power in 1959 as prime minister and party head and subsequently joined the Communist island to the Communist bloc.

Washington officials said, however, that they have no hard facts to prove Castro is on his way out.

Washington authorities said Castro has been seen by diplomats in recent days but has not made a major speechmaking appearance since May Day, when he delivered a lengthy attack against the United States.

They noted that his ordering of a national alert over an alleged U.S. threat in the Gumban area in May was by communists read in his name over Havana Radio rather than a personal speech. A major

foreign policy address in early June was delivered by President Canavado Dorticos with Castro sitting silently on the platform, they said.

Havang Radio reported on June 9 that Castro inspected some areas of Cuba stricken by Hurricane Alma and met with Communist party officials to assess the damage. Dorticos presided at the meeting, the broadcast said.

Banjo Artist Dies at Age 76

LOS ANGELES (AP)—Johnny St. Cyr, 76, a pioneer banjo artist of the New Orleans hot Dixieland jazz era, died today of leukemia.

He played with such jazz greats as Louis Armstrong, Joe (King) Oliver and Jelly Roll Morton.

Nature Nuts 4-H Club Holds Meet

SHOSHONE — Ann Freeman led the pledge of allegiance and Terri Churchman recited the 4-H pledge at the Nature Nuts 4-H club meeting held Thursday at the home of Mr. and Mrs. J. R. Churchman.

Kathy Ross distributed material and told members what would be expected at various meetings. Reference material was distributed.

Donna Mahbutt served refreshments.

Plans Completed for Carey Valley Horse Show Saturday

CAREY — Trophies were displayed and final plans were made for the "Carey Valley Horse Show" when the committee met Tuesday night at the home of Mrs. A. J. Bennett, horse show secretary.

The event, to be held at the Carey rodeo arena, will begin at 8:30 a.m. Saturday with halter classes, Appaloosa and Morgan horses do not have to be registered to enter. Arabians and Quarter Horses must be registered to enter halter classes.

Performance classes will be open to all breeds. An open trail class has been added. Rocky Goodhue, Wendell, will judge Quarter Horses and Morgans. Arabians and Appaloosa will be

judged by Ed Duren, Soda Springs.

The judges will work together on judging the reining and cutting classes. English pleasure, adult western pleasure, Arabian costume and open trail classes will be judged by Duren. Goodhue will judge the trail class for Quarter Horses only, novelty costume, kids western pleasure and clover-leaf barrel race.

Two \$5 gift certificates donated by Vickers Saddlery will be awarded to first place winners in the kids western pleasure class and the adult western pleasure class. The high point trophy is donated by Olson's, Twin Falls.

Connie Barton and Rebecca (Becky) Eldredge will make a guest appearance on an area television program to advertise the horse show, it was announced by Mr. and Mrs. Jay Strade, chairmen.

Special trophies for grand champion stallions in Arabian, Appaloosa and Quarter Horse breeds will be horse head plaques made by Virginia Orison, Blackfoot, a horse sculptor.

Carey Riding Club is the sponsor. The public is invited and admission is free.

Spy Chief Is Not Ducking Questioning

WASHINGTON (AP)—The director of the Central Intelligence Agency is not ducking a looming Senate battle over supervision of the spy agency.

William F. Raborn, it was learned today, has informed the Senate Foreign Relations Committee he was willing to give it "substantive intelligence information" — but would not disclose "sources and methods."

And that, he said in a letter Wednesday to Chairman J. W. Fulbright, D-Ark., was the only kind of question the committee asked that he refused to answer at a February briefing that helped trigger the clash over who supervises cloak and dagger activities.

The exchange of letters between Raborn and Fulbright was interpreted as probably killing the last chance for a compromise that would avert a floor fight on the touchy issue.

Fulbright's group has argued that because of its jurisdiction over foreign relations it should have some role in overseeing activities of the intelligence agency.

He and some committee members were disturbed when Raborn acknowledged in the February briefing that he did not feel he could give them as detailed information as he gives the Senate's Executive CIA Watchdog subcommittee.

That committee, headed by Chairman Richard B. Russell, D-Ga., of the Armed Services Committee, opposes a resolution approved by Fulbright's group to add three of its members to Russell's seven-man panel.

What's new about Anhydrous Ammonia?

Research, that's what's new!

Research shows that when you side-dress crops with anhydrous ammonia, you supply nitrogen to your plants immediately and throughout their growth. Anhydrous ammonia — when properly applied — has unusual characteristics:

(1) When plants are in the early stages of growth, they can use the ammonium form of nitrogen. When anhydrous ammonia is applied, it combines quickly with soil particles and is available in the ammonium form to feed young plants.

(2) In later stages of growth many plants prefer the nitrate form. As plants develop, they need more nitrogen than in early stages of growth. At soil temperatures above 50 degrees and with proper moisture, soil micro-organisms change the ammonium nitrogen into nitrate nitrogen. The nitrate nitrogen moves with irrigation water and is readily available in increasing amounts as plant needs for nitrogen increases.

Thus, anhydrous ammonia fertilizer makes it possible for your crops to have adequate nitrogen throughout their growth.

And here's why you should call on Soil Fertility Specialists at United States Steel for your side-dressing with anhydrous ammonia.

(1) The Right Equipment: For custom application or for your use. United States Steel equipment is most modern anywhere, enables accurate application at the proper depth. (2) The Right Time: Application too late can be harmful. USS Soil Fertility Specialists can tell you when to apply anhydrous ammonia. (3) The Right Amount: USS Soil Fertility Specialists can tell you how much nitrogen to add for maximum yields at lowest cost. (4) The Right Conditions: USS Soil Fertility Specialists can tell you when the soil is in the proper moisture condition for best results. (5) Extra Measure Service: At United States Steel, you get "Extra Measure Service"... attention to detail; innovation, personalized attention. Example: Scales checked regularly and certified by state inspectors are used to weigh ammonia tanks in the field before and after every use. The farmer can quickly see how much anhydrous ammonia has been applied.

Protect Rights

Law enforcement officials and public prosecutors everywhere must feel there's a concerted effort to make life miserable for them. In the last couple of years, U. S. Supreme Court decisions have resulted in curtailing rather severely the methods used in maintaining control over the lawless element. That's the result of the decisions, but certainly not the reason for them. The Supreme Court obviously is concerned with safeguarding the rights of individuals. And there have been any number of cases which emphasize that the high court's concern is well-placed and probably long past due.

One of the most common police methods involves taking a person into custody "for questioning." Many years ago, "questioning" involved such items as rubber hoses. It was quite common for police to literally beat a confession out of a prisoner. In more recent times, the questioning procedure has become more refined, though it may remain almost as effective. Now the Supreme Court has spelled out protection of individual rights—no one has to answer so much as one question if he doesn't want to.

It all evolves from the constitutional guarantee against forcing a person to bear witness against himself, to incriminate himself. By insisting that this right is paramount, the Supreme Court has deprived the law-enforcement branch of one of its most effective weapons. Even without the old-time rubber hose and bright lights treatment, police have evolved effective means of obtaining confessions or statements. Once a prisoner has admitted a crime, it's a much simpler task of uncovering sufficient evidence to obtain a conviction. But even in those cases where solid evidence isn't found, police have been known to lie under oath as a last resort to obtain a conviction. They rationalize their perjury as "necessary to justice because they 'know' the prisoner is guilty."

The Supreme Court decisions can't protect a prisoner from police perjury, but the rulings might eliminate many opportunities for lying to obtain a conviction. The handwriting is on the wall. It won't be enough for an officer to "know" a man is guilty in the future; it will require solid evidence.

As a result, cities from coast to coast will be forced to upgrade their law enforcement agencies. If police are to accomplish their primary goal of upholding law and order, they will have to go about their task in the future through scientific detection and solid evidence. Some of the more common techniques of questioning suddenly are just as obsolete as the soundproof backroom with its rubber hose.

Law enforcement men and prosecutors may run up a rather poor record in the way of convictions in the near future because they have been deprived of one of their principal tools. However, in the long run the law enforcement field will be better off because it will be forced to use better methods and better men.

Society also will be better off because of the changes that will be forced by Supreme Court rulings. However, the period of transition into new and better law enforcement and prosecution practices might be painful. There will be times when many citizens will think the Supreme Court was more interested in promoting crime than in protecting individual rights.

EN ROUTE, ANYWAY

Liquor is pretty well accepted in American life and it's also fairly well agreed that use of liquor creates some problems for society. But a professor of sociology who says that 12 per cent of American adults are heavy drinkers might get some arguments, perhaps even including some segments of the medical profession. It's all in his definition of a heavy drinker, namely, a person who has one drink almost daily or at least five drinks in one session once a week. A two-fluted drinking man would double up with laughter over the definition.

However, if all things are relative, the drink-a-day person could be rated a heavy drinker from an abstainer's viewpoint. Of more importance would be future possibilities for the drink-a-day drinker. Persons who have had experience along that line would warn there's a danger of the daily drink becoming two drinks, then perhaps three and so on. An alcoholic would warn that the one drink daily could lead to a situation in which a person could lose control, become a heavy drinker.

At any rate, the definition of a heavy drinker focuses attention on a growing problem. Somewhere between the drink-a-day person and the fifth-day man is a point where drinking would be labeled heavy. Significantly, few persons are capable of recognizing when they reach that point.

NATIONAL WHIRLIGIG

WASHINGTON—Tell me a candidate with 5-o'clock shadow and an extra inch of chin, but I am not yet prepared to accept the pulchritudinous Mr. Ronald Reagan of the flicks as a potential candidate for President of these United States in 1968. Reagan still has to deal with Pat Brown, a candidate who is never supposed to win but who always does.

A great deal of twaddle has been written about Reagan's achievement in mounting a 2-1 victory over former Mayor Francisco in the Republican primary, while Brown managed only a disappointing 55 per cent of the Democratic vote in beating Mayor Samuel Yorty of Los Angeles. It is twaddle because it overlooks matters which will be of considerable significance in the November election.

LOTS OF DEMOCRATS—Of these matters, the important may be the head count of Republicans and Democrats in the Golden State. As of primary day, there were some 200,000 more Democrats than Republicans in the state—or at least 200,000 more Democrats who bothered to vote in the primary. It is a fact, too, that the glamorous Reagan was a big-draw—only on his side. Because Brown is relatively unknown, there is no doubt that a lot of Democrats stayed home on primary day, both from enmity and from the belief Brown didn't need their votes. But in California, as elsewhere, Democrats tend to unite on election day.

A STRETCH-RUNNER—Finally, there is Pat Brown himself. Nobody seems to like Brown except at election time. In 1958, the experts predicted he would be clobbered by Sen. Bill Knowland, but Brown won an upset victory. In 1962, Dick Nixon was expected to bury him. Brown won a second term almost without working up a sweat.

Pat Brown is a rarity in these high-pressure days—a lazy politician. He seems incapable of exerting himself fully until the blue chips are on the table. He ran against Yorty almost as though he found the election "finished" during the last week of the campaign. He canceled a panel of television broadcasts and other eleven-hour efforts as a waste of time. He never seemed to take Yorty seriously. But Bill Knowland and Dick Nixon both have discovered that Brown is tireless and ruthless in the stretch.

NIXON'S DILEMMA—Whatever Yorty's public pronouncements, there is reason to believe that some Democrats who voted for him will support Reagan in the fall. But it is always dangerous for a candidate to bank on such a supposition, especially where control of the state involves the number of Democratic bosses who don't like Brown, but they like him better than they would like a Republican governor doing out patronage to Republicans. As well as the art of the possible, politics is the art of the probable.

Reagan's campaign is a masterpiece of timing. He must hold 90 per cent of the Republican vote while picking up one out of every four Democrats. And if Reagan can expect help from former Yorty supporters, then it follows that Brown will fall heir to some of the Christopher people, many of whom cast their ballot only as a gesture of distaste for the conservative Reagan.

Meanwhile, Nixon must be beset by mixed emotions as he prepares to campaign for Reagan. For the candidate, there is never room for one more in a presidential race, and Nixon will have to wonder whether his speeches for Reagan will help to create a Frankenstein monster!

Views of Others

NO WRAPPER, PLEASE
If there is one thing that pleases an American tourist in Paris, it is to see a well-tourged loaf of French bread, unwrapped save for a tiny hand for grasping it in the middle. Equally appealing is the sight of an old-fashioned man luging one of these long-bread loaves.

But now this charming custom is threatened, as are old ways of many other lands. We regret to say it is due to the influence of the mass-production system so successfully developed in the United States. The American way, it seems, has led the Generale Alimentaire, a large French corporation producing packaged food, to consider mass production bread.

The bread may be as good from a nourishment standpoint as that made by the small baker. But what about taste? Furthermore, it won't be enhanced by the pleasure of buying it from the man who supervised it paternally on its way from pale dough to crusty brown loaf. It won't bring with it "bonjours," "merci" and "au revoir" greetings that go with a transaction in a small French bakery. And it won't be a sight to gladden the eyes on Paris streets.

Perhaps we are lamenting the possible demise of the little boulangerie too soon. It may be that the French will resist the innovation.

Even in the United States, a country long accustomed to wrapped "store bread," some housewives are returning to their grandmother's custom of baking their own. Television chefs teach them the art.

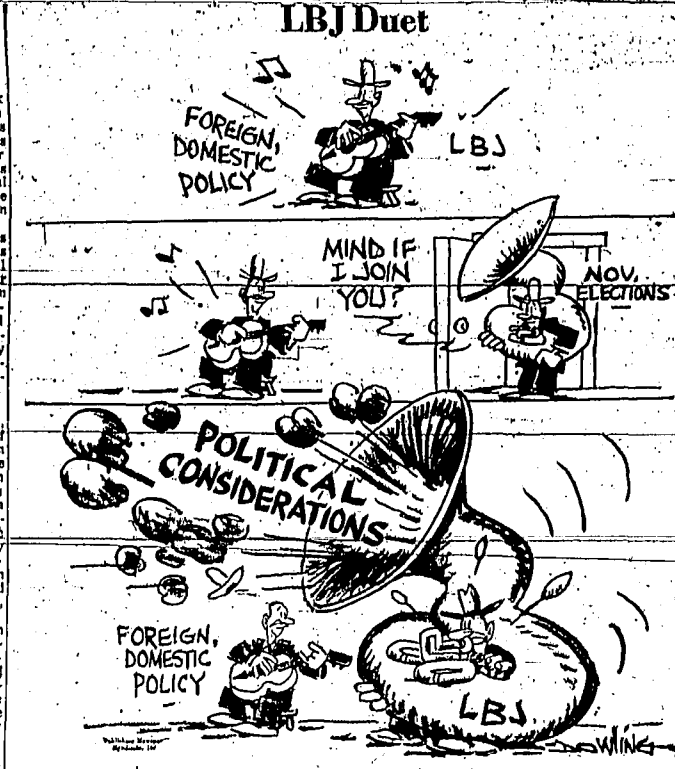

If American women feel so impelled, it seems possible that there will long be a place for the neighborhood baker in France. We hope so. —Christian Science Monitor.

BOATERS POLLUTE WATERWAYS

Sen. Tydings' assault on boat pollution of our streams merits hearty support. Boating has become a delightful recreational activity for millions in this country, and much greater use of rivers, canals and other waterways for pleasure may be anticipated. The mounting volume of the traffic makes it imperative that boatmen stop contaminating waters that serve them so well.

The Tydings bill would modify the Water Quality Control Act so as to pressure the states into applying antipollution standards to maritime wastes as well as to municipal and industrial wastes. If the states should fail to provide adequate protection, the federal government would apply standards of its own. This is not a drastic approach. The existing law is that Congress should have passed the Clean Water bill only last year without provision for dealing with raw sewage and dumped into waterways.

Washington has a special interest in this bill. A vast number of boats and marinas are flourishing along the Potomac River. Boatmen and boaters have been known to be a nuisance to the city and its industries. —Washington Post.

POT SHOTS

TRY HARDER
Dear Gent:
I have friends who bring home their limits of trout every time they go fishing, but I just can't seem to catch more than a couple a day.

There must be some sort of secret, but whenever I start talking about the secrets of catching trout, my friends—just grin.

Won't someone tell me how it's done?
A. Newcomer (Twin Falls)

DON'T THEY LOOK?
Sincerely suggest you need time to limit women riding in cars to one—the driver. Talkers aren't very good lookers.
I. Stoppedtime (Twin Falls)

POSSIBLY
A youngster is apt to wonder about lots of things, but the type who inquired about the sunset the other day wanted to know why there weren't any green sunsets.

He'd seen all the others, but green, he noted, was his favorite color and why couldn't there be a green sunset.

Finally he said, "Maybe it's because God used up all his green on the grass and trees and things."

OUR BULLETIN BOARD
Wondering, Twin Falls—Normally, Pot Shots can't help anyone look for anything, but we might make a small exception in this case. However, we'd have to use your name and address so anyone with the information could send it directly to you.

FAVORITE LAST LINE
"His big trouble is that he's too realistic and doesn't hesitate to let everyone know it."
GENTLEMAN IN THE FOURTH ROW

Poor Man's Plato

By HAL BOYLE

NEW YORK (AP) — Jumping to conclusions:
It's the guy who does the least work in the office who most often seems to need a new cushion for his swivel chair.

About the only real pleasure in going to war is that a fellow can get dirty and scratch himself in public without being hauled out by his mother or his wife.

Wouldn't it be nice to go to a movie again that wasn't about either sex or rape?

The art of making desserts has been going steadily downhill ever since someone first put fresh strawberries and vanilla cream together — and achieved perfection.

I always look for a character defect in any man who openly admits he likes leg of lamb.

It helps to put money in his proper perspective if you remember that hens get just as much enjoyment out of laying eggs whether they sell for a dime or a dollar a dozen. You'd maybe be happier if you felt that way about your work, too.

Two things we don't recall seeing lately — a farmer with a plow and a policeman with a bunions.

When all the world seems

Religion Today

By GEORGE W. CORNELL
(AP Religion Writer)

NEW YORK (AP) — The old to forthright involvement in American theologians, struggles for social justice. He regards himself a political liberal, although a theological conservative.

Men can't build a perfect order, he emphasized, but neither can they escape responsibility for striving at its approximations, recognizing them always as only that.

Throughout his life, Dr. Niebuhr has plunged into the thick of labor for social betterment and he has influenced a whole succession of church leaders in the same direction.

A Lutheran in background, a thoughtful man of humor, profundity and practicality.

Widely regarded as one of the great Christian thinkers of the century has produced, Dr. Niebuhr turns 74 next Tuesday, unshaken either in his hard realism or his hope about the human situation.

"Religious faith," he says, "is basically a trust that life, however difficult and strange, has ultimate meaning."

The "impossible possibility," he has described it.

"Man's reach is always beyond his grasp," he says, but adds that the object of the reach is real, to be sought in history, although fully found only on the other side of it.

Early in this century he joined Protestantism back to an awareness of men's inescapable egocentric failings — their corrupting urge to play God.

It has been said that he brought "original sin" back in fashion. However, he saw it in terms not just of individual self-adoration, but in the whole web of collective forces that tend to become objects of idolatry.

whether nationalistic, scientific, pleasure cult, wealth or utopian social schemes.

The most subtle evil, he says, is "always a good that pretends to be better than it is."

Yet he also spurred churches

sour and dreary, one of the best ways to cure your blues is to take a small child for his first ride on a department store elevator.

"Life is much more complicated for a bride today than it was for a bride before she even learns how to cook a meal she must first learn how to thaw it properly."

I feel sorry for modern youth when I realize that most of them will grow up without ever having heard an old-fashioned organ grinder play his tuneful way down their street.

The best wisecrack of the century is Madison Avenue's definition of death: "It's nature's way of telling you to slow down."

How could we capsule this frantic generation better?

The worst thing that about new false teeth is that they insist on whistling when you're trying to talk, but won't let you whistle when you're trying to summon a cab.

Nothing is as boring as the shop talk of amateur gardeners who raise their own vegetables. Anybody who orders tomato soup the day he buys a tomato is a simple-minded fool.

\$5 necktie simply deserves his fate.

TAYLOR'S VIEWS ON WORLD NEWS

By HENRY J. TAYLOR
While our men die in Viet Nam the Panama Canal serves the enemy mightily. But who would know it?

Have we heard one word from Defense Secretary Robert S. McNamara's mouth since he left the State Department?

Without exception, Fidel Castro's vessels sailing from Cuba to North Viet Nam pass through the Panama Canal. They are sometimes fully, and always partially, loaded with enemy materials for the war. Yet our American authorities usher them through. Why?

Those only partly loaded invariably follow either of two routine routes. They call at Japan, where they pick up war materials for the war. Yet our American authorities usher them through. Why?

While we bomb and bomb the Ho Chi Minh jungle trail to reduce its supplies, and our outposts are shot down in the process, the ships steam in and the enemy

LDS Youth Group Opens Conference

SALT LAKE CITY (AP) — The youth organization of the LDS Church opened its general sessions today after an awards banquet Thursday night. More than 25,000 members and leaders of Mutual Improvement Associations from all parts of the world were in Salt Lake City for the 67th annual conference.

The first general session was scheduled to begin at 9:30 a.m. with addresses by Harold B. Lee and Delbert L. Stapley of the LDS Council of the Twelve Apostles.

Thursday meetings took leaders of the Young Women's MIA into the Wasatch Mountains east of Salt Lake City for a camp institute. They were told proper communications can make life easier.

They heard Robert L. Simpson, First Counselor of the church, Presiding Bishopric and S. Dilworth Young, member of the First Council of Seventy, speak on the value of camping experiences.

The Camp Institute was a prelude to the general MIA conference, which began this morning at 7:30. The theme of the conference is "MIA — The Happy Way."

At the Master M-Men and Golden Gleaner banquet Thursday night Gordon Hinckley, a member of the Council of Twelve was named an honorary Master-M-Man and Mrs. Mathew Cowley was named an honorary Golden Gleaner for service to Mormon youth. She is the widow of a former church apostle.

Rioting Stopped In Chicago, 300 Police on Duty

CHICAGO (AP) — Everything appeared quiet today in the Puerto Rican neighborhood on Chicago's Northwest Side where rioting erupted early this week. Three hundred policemen remained on duty in the 16-block area 15 minutes from downtown Chicago. Taverns in the neighborhood were permitted to reopen.

The Chicago Commission on Human Relations announced a bilingual hearing to investigate the conflict between Puerto Ricans and police.

VIETNAMESE WOMEN WAIL and cry at the Buddhist Institute in Saigon Friday as Buddhist monks left the pagoda trying to get jailed as a protest against the government. More

\$50 Given by Chamber for Tour Abroad

HEYBURN — The Heyburn Chamber of Commerce has presented a \$50 check to Joe Shelton, American Abroad Coordinator for the American Field Service.

The money which was raised from a recent turkey shoot for the youth program will go towards financing Judy Kerbs, 17, daughter of Mrs. Hilda Kerbs and the late Jake Kerbs, who has been selected an Exchange student to Denmark.

The presentation was made Wednesday night during the regular meeting. Shelton said the purpose of the exchange program is to help promote peace through understanding.

A committee representing the Heyburn Chamber of Commerce has sent a letter to Samuel V. Morrick, special assistant for legislative affairs for the U.S. Department of Labor, concerning the purchase of land and the building of a new joint Rupert-Burley employment office. A copy of the letter was read by Forest Blako, chamber vice president.

Bruce Young, Burley, representing Idaho Sheet Metal Works, Inc., was introduced. Officers were elected but the results will not be determined until after the absentee ballots have been returned. A committee composed of Robert Burnham, John Wort and Mrs. Ivan Eliason was selected to make arrangements for the installation banquet.

The chamber will purchase five painted picnic tables to be placed in the new village park.

than 100 followers gathered at the pagoda to see off six monks who left for Saigon's City Hall in an attempt to get arrested. (AP wirephoto via radio from Saigon)

Idaho Girl In Miss Wool Final Event

DALLAS, Tex. (AP) — Twenty finalists in the Miss Wool of America contest started gathering in Texas today for a gay and busy week which will end with one named the winner the night of June 24 in San Angelo.

First among the arriving beauties was Miss Wool of Texas — Janice Archer, 20, Austin. Finalists from other wool producing regions include Beverly Ball of Pocatello, Idaho; Scotta Herrin of Helena, Mont.; Cheryl McKoy of Salt Lake City, Utah; Vicky Ann Melvin of Casper, Wyo.; and Susan Richards of Everett, Wash.

They will vie for the crown now worn by Sharon Moline of Utah, who claimed the title at San Angelo a year ago.

As prizes the new Miss Wool of America will receive a college scholarship, a year of travel to major cities across the nation as envoy of the wool industry and a down-to-duck wardrobe of wool and mohair fashions from leading designers.

Forest Blazes Out of Control

PHOENIX, Ariz. (AP) — Fires raged out of control in the Tonto and Coronado national forests late Thursday with new ones being reported at the rate of nearly one an hour.

Eleven new lightning-caused fires were reported in southern Arizona as the parched brush and forest ranges offered prime fuel to the spreading blazes. Service official said three fires

Reds Reveal Proposal for Moon Treaty

MOSCOW (AP) — The Soviet Union disclosed today the text of its proposed treaty to guarantee a peaceful exploration of the moon and outer space.

On several points the Soviet draft agreed with a proposed treaty which the United States submitted to the United Nations Thursday.

A major difference concerned sharing of the findings of space research.

The U.S. draft contained a specific proposal that a country conducting activities on a celestial body shall report them to the U.N. secretary-general and give the findings to the public in the international scientific community.

The Soviet draft had no such provision. Both the Soviet and U.S. drafts are proposed for consideration at the next session of the U.N. General Assembly.

The two drafts agreed on these major points: The moon and celestial bodies are open for exploration and use by all countries.

They are not subject to national appropriation. Such bodies should be used for peaceful purposes only.

Nuclear and other weapons of mass destruction and other military fortifications should not be established on or near celestial bodies.

A country retains ownership of stations or vehicles it puts on a celestial body.

Calls

KETCHUM—Capt. James McRoberts, of DaNang Marine Airbase in Viet Nam, called his parents, Mr. and Mrs. Glenn McRoberts, Tuesday.

He was talking at 11:30 p.m. Wednesday and his parents talked at 8 a.m. Tuesday.

His conversation was by shortwave radio to El Toro Marine Base, Calif., where it was picked up by telephone. Reception was good, Mrs. McRoberts said.

Capt. McRoberts went to Viet Nam last Jan. 8 on a 12-month tour of duty. He told his parents, "It is plenty hot over here."

Makeup of Basin Group Discussed

OLYMPIA (AP) — There may be some value in having three water-short states involved either as members or observers in the proposed Columbia River Basin Commission, Gov. Dan Evans said at a press conference here Thursday.

In reply to a suggestion by Gov. Robert E. Smylie of Idaho, Oregon and Montana should be in the commission, Evans said: "Obviously the three states of Utah, Nevada and Wyoming are all water-short states. But I think there is some value in having people like that involved."

Ideas About Alcohols Often False

SALT LAKE CITY (AP) — "Alcoholics are people who can knock themselves off with ease," said a New York doctor at a seminar at the University of Utah Thursday.

Dr. Stanley E. Gitlow, associate clinical professor of medicine at the New York Medical College and assistant physician in Mt. Sinai Hospital, spoke to a seminar for physicians on treatment of alcoholics.

Gitlow said that, contrary to what most people believe, cirrhosis of the liver is not the most common cause of death for alcoholics. He said the highest percentage of alcoholics die in automobile accidents, from burns caused by dropping cigarettes into chairs or bedding, or from over-doses of barbiturates.

Gitlow said several other popular ideas about alcohol and alcoholics are false. He said that alcohol has no beneficial effects on high blood pressure and does not prevent arteriosclerosis — the cause of heart disease.

Respiratory diseases are perhaps the most critical complications of alcoholism, he said, since alcoholics are generally heavy smokers.

either directly or as observers so they will understand the problems of the Columbia Basin better."

Petrolane Twisters vs. ISI, 1:30 p.m. Friday, diamond 3; Buttreys vs. Sugar Cured Cuties, 3 p.m. Friday, diamond 3.

Reform of Gen Courts Requested

BUHL—Douglas D. Kramer, a member of Idaho's Constitutional Revision Commission, said today that he advocates court reform to amend to permit a complete court reform in the State of Idaho.

Kramer, speaking as a member of the Constitutional Revision Commission to the Buhl Kiwanis Club, stated that he advocates court reform but warned that there are many people in this state advocating a court reform which would take virtually all power away from the people.

Kramer said there are those who would place total power in the Supreme Court of Idaho and remove all judges from elective office so that they would be appointed only. This could create a judicial hierarchy which I personally, as a lawyer, fear.

Kramer concluded, "I believe strongly in court reform, but I also believe judges should be responsible to the people in some manner. The judicial section of the Constitution Revision Commission, of which I am a member, is now studying a plan where laymen can have a large voice in the selection of judges and the firing of the same."

"All branches of government must be responsible to the people. We have too much bureaucracy now, and I feel sure that a court reform system can be enacted which will preserve the rights of the people in the selection and firing of judges, and accomplish at the same time the necessary reforms."

Civil Service Opportunity Told

Applications for a rent supplement specialist are requested by the U. S. Civil Service. The positions for the Department of Housing and Urban Development, Federal Housing Administration, pay \$8,901 for GS-11 and \$10,619 for GS-12. Closing date for applications is July 8.

For details on qualifications and application forms see R. O. Finney, Civil Service Examiner, Twin Falls Post Office, Twin Falls.

ENJOYING SAWTOOTH AREA they discussed at their Senate Subcommittee hearing in Sun Valley are from left, Sen. Frank Church, D-Idaho, Sen. Frank E. Moss, D-Utah, and Sen. Len Jordan, R-Idaho. They went by helicopter to Redfish Lake for a picnic luncheon and a closer view of the mountains. (Sun Valley photo)

CARRYING THREE U.S. SENATORS, this helicopter aids in an inspection tour of the primitive area of Idaho. Sen. Len B. Jordan and Sen. Frank Church, both Idaho, and Sen. Frank E. Moss, Utah, made the tour following the heading on the use of the Sawtooth area earlier this week in Sun Valley. (Sun Valley photo)

Summer Camps Changing To Age of Specialization

NEW YORK (AP) — Kid catches frog, kid carves Indian head in piece of soap, kid comes home sun-tanned: a simple but outrageously outdated picture of summer camps.

They've changed.

This year, they have midgeet submarines, go-kart trucks and bowling alleys. There's one for overweight girls, another for underweight boys, and a few that specialize in going barefoot.

Ballet camps are down the road from tennis camps. French camps share the same lake with science camps, and travel camps get away from everyone.

The new specialization, a development of the last 10 years, probably will take a greater share than ever of the nation's six million campers when they begin packing for this summer.

Although the American Camping Association makes no estimate of their number, it has set aside a separate section for specialized camps among the 11,000 it lists across the country.

"If they are a trend, it's understandable, I suppose," says Betty Lowenstein, executive director of the association's New York office.

"We're in an age of specialization and kids are much more advanced and sophisticated. Unless they're sufficiently stimulated, they just don't want to go back the next year."

Enter Park Yellowstone National Park

YELLOWSTONE NATIONAL PARK (AP)—Yellowstone National Park reports tourists have entered the nation's oldest park in record numbers this season.

Although the number for the first ten days in June is below that for last year, the total number of cars entering the park is up about 16 percent from last year.

From June first through tenth, 70,322 tourists entered Yellowstone. And 25,945 more people have entered the park during the same period in 1965.

Hansen Trying To Change Bill

WASHINGTON (AP) — Rep. George Hansen, R-Idaho, said Thursday a definite and specific threat of water exportation from the Pacific Northwest exists in the current language of the Lower Colorado River Project bill.

The measure is under congressional consideration.

Hansen said he has been trying all week to change the language of the bill. He is a member of a subcommittee studying the bill.

Waves Want to Sink World War II Image as Bunch of Fun-Loving Girls

BAINBRIDGE, Md. (AP) — The Waves want to sink a World War II image.

Top brass at Bainbridge's U.S. Naval Training Center, where the nation's enlisted Waves struggle through boot camp, are out to torpedo the public idea that Waves are a group of crass, loose-living women whose primary duty is entertaining sailors at overseas cantinens.

The new society of bell-bottom skirts is young, between 18 and 26, single, college or high school alumnae, and painfully clothes conscious.

"We want the normal American girl who's devoted to her country — not the drops of society," said Lt. Janet Blumberg, 24, Mount Holly Springs, Fla. She is the Waves public information officer.

Commanded by Cmdr. Anne L. Zucy, 31, of Haverstraw, N.Y., the Navy's only female commanding officer, the center trains 600 recruits in summer months.

This drops to half that in winter after graduation—rushes. The Navy has upward of 5,000 Waves, short for Women Accepted for Volunteer Emergency Service.

Recently the Waves came into the news when Paul H. Nizja, secretary of the Navy, announced a cutting at Bainbridge. He said the Navy plans to shift the Waves training center and other facilities to Orlando, Fla., because of cost factors.

A half-finished barracks for the Waves will be used for other purposes.

"It's tough. But it's fun," said Seaman Sharon Tremmel, 18, Cleveland, Ohio. "And you learn how to get dressed in two minutes flat, head to foot. Before coming here, boy was I unorganized."

That's the keyword, organization.

Either "baby booties"—new recruits—shape up in 10 weeks of boot camp or they're out.

"Fifteen per cent do not make it so a board of naval officers and doctors sign release papers. Some dropouts won't accept discipline. Many are too slow and buckle under the diet of drills and classes.

Sixty recruits, a company, arrive every two weeks. Today, age girls accustomed to Bobby Darin, pop-op, and privacy are apt to be jarred silent.

Eight recruits share a cubicle. They sleep in bunk beds, walk on bare-board floors and look up at bare-board ceilings.

Next, a crew of seamstresses doggedly stitch 60 helmets to "within two inches of the knee, ladies," and put in countless tucks to compensate for Jayne Mansfield figures.

Sometime later, after the tailoring is done, they'll be issued Navy blue winter uniforms, very smart white dress uniforms, and two-piece blue-and-white striped summer suits. But now, 60 rather scared recruits trek out of the fitting room, clad in blue raincoats with the hoods up. For all the world they look like a band of monks. Ahead of them is 10 weeks of learning—navy mounds, weapons parts and endless drills.

Cadet From Academy Is Gem Speaker

JEROME — Cadet Melvin Tinker, son of Mr. and Mrs. Elwin Tinker, Jerome, is here on 30 days' leave from the U.S. Military Academy at West Point, N.Y.

Cadet Tinker was first flown to Boise, as representative of the Academy at the Boys' State and addressed the delegates there on various facets of the routine and regulations of the academy. A midshipman from the U.S. Naval Academy at Annapolis also addressed the delegates.

At the end of his leave, Cadet Tinker will report to Camp Buckner for summer training, which will also include a two-week period at Ft. Knox, Ky.

He will resume his studies at the academy in September as a third year man.

GIVES WARNING
MOSCOW (AP) — With a twist of wry Gallic humor, the cook at the French Embassy is reported to have warned Ambassador Philippe Baudet to be on guard against saying: "Charles, more champagne," "Yvonne, more sandwiches." Charles is the embassy butler and his wife Yvonne is the cook.

The guests arriving New Monday for an 11-day Soviet visit are French President Charles de Gaulle and his wife, Yvonne.

Along Fences and Canals

Haying operations are in full swing at Tuttle, corn being cultivated and watered and beans cultivated. Some weevil has been noted in the alfalfa but no reports of damage yet. Yields are varied with all of it shorter than usual because of frost and cold weather.

Several farmers in the Springdale area near Burley have cut their alfalfa crop early because of weevil damage. A chemical treatment is used to kill the eggs.

Rick Wilcox, 8-year-old son of Mr. and Mrs. Smiley Wilcox, Shoshone, broke his right arm when an 8-inch belt broke on a fly wheel of a tractor on which he was sitting and whipped back and hit him. The family lives on a farm in north Shoshone.

Mr. and Mrs. Albert Pelly branded 70 head of cattle Monday and Tuesday morning trailed the animals to their north Richfield ranch for pasture. Mr. and Mrs. Rupert Golgochea and son, Ronald, helped the Pellys brand.

David Gabert, who has been helping with farm work at the ranch home of Mr. and Mrs. George Peter, has been accepted as an employee at the Wilderness Patrol of the Challis National Forest, in the Stanley area. He is the son of Mr. and Mrs. Eugene Gabert, New Meadows, who recently moved from King Hill to New Meadows.

A weeding crew is working at the Wesley Fink ranch south of King Hill hoeing and weeding melons and cantaloupes. Those working are Mrs. John Allen, Mrs. Fred Heath and sons and Donna Hopkins and Gary Atwood, Eugene, Ore., who is here spending the summer with his grandparents, Mr. and Mrs. C. L. Atwood. He is stacking hay at the Fink ranch.

Dave Borling, employee of the D and E Leveling Co., Gooding, is taking down locust trees at the Glenn McClary ranch, north of King Hill and leveling some ground near the house. A reservoir has been made east of the ranch for irrigation purposes.

Mr. and Mrs. John Baple went to Denver this week to accompany their son and daughter-in-law, Mr. and Mrs. Ray Baple, to Mexico on a fishing trip.

Practicing for Richfield's Outlaw Dav races netted Richard Golgochea, 16, an overnight stay in St. Benedict's hospital. Jerome. His racing horse shied at a gate causing Richard to fall off. His left arm was deeply cut by nails studding the top of the gate and his shoulder was bruised when he hit a pole. The youth was taken to the hospital by his father, Rupert Golgochea. Richard's mount was ridden in Outlaw races by a friend and won third place money in the 3-year-old race.

Mr. and Mrs. Martin Woodward report that two deer came down off the hills to the north of Pasadena Valley this week, went through their beet field, jumped the fence into Lee Trail's farm and went on out through the valley to the south hills, south of King Hill. It is unusual to see deer in this vicinity.

\$2 Million Budgeted for Services to 4-H Program

CHICAGO—Beginning with an annual contribution of a few thousand dollars a year ago, the National 4-H Service Committee, Inc., this year budgeted a record \$2 million for services to the 4-H program.

"For nearly half a century the committee has fostered a steady growth of service and support to 4-H," according to

Idaho Range Conditions Termed Fair

BOISE (AP) — Idaho range feed conditions were only fair on June 1, the U. S. Agriculture Department reports.

Cool weather and continued below-normal precipitation during May failed to stimulate new grass growth, the department said.

Summer range prospects remain only fair and normal rainfall will be needed during this month to maintain adequate grazing supplies, the department added.

Idaho cattle and sheep were listed in good condition although, the department said, both classes showed a loss of condition during May from short feed supplies and lower palatability of existing feed.

Farm Resolution Goes to Senate

WASHINGTON, D. C. — Dispensing with hearings, the Senate Agriculture Committee on June 8 sent the farm parity resolution with a favorable report directly to the floor of the Senate where early action was expected.

The Senate concurrent resolution 98 points up a "billion and a half" of dollars in farm parity prices for farm commodities, and maintains this as a goal of all government agencies, none of which should take any action which prevents a farm commodity from rising to full parity price.

Fertilizer Guide Is Big Success

WASHINGTON, D. C. — A million copies of Peyton Pace requested by American readers is not news—but a million copies of a fertilizer guide is news.

Over three-quarters of a million copies of crop plant food content, a pamphlet-wall chart story, have been used around the world since the American Potash Institute first issued the combination 25 years ago.

The latest version, updated by author J. D. Romaine, is moving like hot cakes—averaging 4,000 pamphlets and 1,000 wall charts per month.

Why such interest and use?

The "successful" fertilizer program. Among the 20 crops featured, it shows how a 150-bushel corn crop will use up to 200 pounds nitrogen, 75 pounds phosphate, 195 pounds potash per acre—200 pounds of it in the grain, 250 pounds in the stover.

It shows how legumes—alfalfa, the clover, soybeans, long considered soil building crops—are greedy nutrient users. And though they can produce much of their own nitrogen through root nodules, they drain heavily on such materials as phosphorus and potash.

Interesting facts about the role of organic matter on nitrogen supply and the tendency of some soils to lock up minerals as phosphorus and potash are mentioned.

Single copies of the plant food use pamphlet can be secured by writing PFI pamphlet, American Potash Institute, 1102 Sixteenth St., N.W., Washington, D. C., 20036.

Tour Set

Dr. Macdonald will explain the Hagerman quarry to members and friends of the Twin Falls Historical Society when they visit the site next Sunday, June 26.

Edward (Eddie) Jagels, curator of the historical society museum, at the Hagerman fairgrounds, said society members should meet at the Thousand Springs (Sligar's) park by noon and should bring a picnic lunch. They should also bring drinking water for use at the site, which is in a very dry area.

The group will leave Thousand Springs park at 1 p.m. for the digging area. Those making the trip should wear walking shoes. Passenger cars are able to negotiate the desert road to the site, Jagels said.

Multi-Purpose Feeding Wagon Is Developed

MINNEAPOLIS, Minn. — A new, multi-purpose feeding wagon, specially designed to meet the needs of dairy farmers, or operators of small to medium size feedlots, has been developed by Farmhand division of Daffin Corp., Hopkins, Minn., according to Donald Hoagland, director of marketing.

Called the Farmhand model "220" mixer-feeder, the new all-steel wagon has distinct advantages over most existing wagons of its type.

Buhl, Olan Genn, Twin Falls County agent, right, helped the boys get ready to leave. Alpine Camp teaches the boys the right methods in all fields of conservation. It is a statewide promotion. (Times-News photo)

Six Boys From Twin Falls County Attend Alpine Camp

Six boys from Twin Falls County are attending the Alpine Camp being held at Alpine, on the border of Idaho and Wyoming, which is being held this week.

The six boys are—David

Thomas and Gerald Karel, both

Buhl, and Robert Ponder,

James Watson, Brent Martens

and David Lookingbill, all of

Twin Falls.

Martens is being sponsored by

the Twin Falls Soil Conservation

District—Thomas is being sponsored by the Balanced Rock Soil

Conservation District.

There usually are about 100

boys from Idaho who attend the

camp. They are taught by University of Idaho extension specialists in the fields of forestry

conservation, water conservation, soil conservation, range

conservation and wildlife conservation.

Upon returning home they will be given a full set of materials and full set of slides so they may teach other young people.

The proper management of conservation.

Main activities during the period included irrigating, cultivating, thinning beets, planting late acreages and cutting hay. Planting remaining acreages of potatoes, dry beans and corn was in the window stage.

Cultivation of row crops near the highway mark in most areas. Winter grains were mostly in the boot or heading stage, while spring grains were largely not yet in the boot.

Orchard Grass Is Excellent For Use as Orchard Cover

UNIVERSITY OF IDAHO, Moscow — A dwarf-type orchard grass excellent for use as an orchard cover crop on irrigated soils has been approved for release in Idaho, reports Dr. R. D. Ensign, associate director of the University of Idaho agricultural experiment station.

The variety, called Pomar, is a rapid-developing, long-lived grass, and produces dense stands that prevent weed invasion, yet requires little maintenance because of its low-growing characteristic.

Pomar was approved for release following extensive tests by the Soil Conservation Service plant materials center at Aberdeen, Ensign said.

The variety is recommended as an orchard cover crop on irrigated soils in Idaho.

It is not recommended as a forage plant to replace Lalar orchard grass.

Normally less than 24 inches tall, Pomar has succulent foliage that deteriorates quickly after clipping. The variety is easy to establish and will grow well on a wide range of soil types ranging from loamy sands to all-loams. It has superior shade tolerance and good drought tolerance once it is established.

The variety, an introduction from Russia, is a good seed-producing plant, averaging about 800 pounds per acre under irrigation at the Aberdeen branch experiment station.

Approximately 800 pounds of foundation seed were harvested at Aberdeen in 1965. Seed may be obtained through the Idaho Crop Improvement Association.

CONNIE PRESCOTT, Jerome, queen of the Western Charolais Association, greets Apollon, highest priced Charolais bull in history, which was recently imported from France. It was consigned to Winston Wolfenden and Lloyd Wiler, Birchfield.

FARMER, L.H. BRISCO, British Columbia. The animal is scheduled to be exhibited at the annual Western Charolais Classic, Caldwell, in 1967. Half interest in the bull went for \$85,000. (Charolais Association photo)

Meat Down

BOISE (AP) — Idaho red meat production in April was estimated at 13,336,000 pounds, 21 per cent below March, the U.S. Agriculture Department said.

The department's crop reporting service for Idaho said the April figure brought production for the year to 52,185,000 pounds.

The service also reported farm prices remained unchanged May 15 from the month before while prices paid for feed dropped slightly.

The index for prices received remained at 263 per cent of the average, the service said. The index for prices paid dropped two points.

Half Interest in Apollon, Charolais Bull, Costs Association \$84,000

BRISCO, British Columbia — When Apollon, the highest priced Charolais bull in history, arrived here the queen of the Western Charolais Association, Connie Prescott, Jerome, Idaho, was here to greet him.

Miss Prescott is the daughter of Mr. and Mrs. Thomas Prescott, Jerome.

The Western Charolais Association signed a purchase agreement for a half-interest in the bull at a price of \$84,000. The animal was one of a group of 110 Charolais imported from France under the auspices of the Canadian government and was consigned to Winston Wolfenden and Lloyd Wiler, Birchfield Farms Ltd.

It is the first importation into the North American continent since 37 head were shipped to Mexico in the 1930's.

The 31,000 registered animals in Canada — it stems from those of Mexican imports, it is pointed out.

"The Western Charolais Association is confident that the introduction of the new French line will supply desired hybrid vigor to our herds," Glendon L. Andrews, president, said.

"Our business is largely concerned with raising range bulls, demand for which far exceeds the supply. New blood will be of considerable value in keeping up the standard expected of Charolais as a superior beef producer."

The transaction, according to Andrews, will benefit both countries, since Matrix-Analytis, a WCA developed method of progeny testing, will enable the WCA

to supply genetic data in depth to all breeders.

Advance orders have more than justified enthusiasm for the project. Over 800 requests have been received for the new bloodline which will be available after Oct. 1.

Plans to exhibit Apollon include an appearance at the Calgary Stampede in July and in the United States a showing is

FILER, IDAHO

Rams Listed

FILER — Listings are complete for the annual state ram sale to be held at the fairgrounds here Aug. 3. It is announced by those in charge.

Peh sizes will vary so buyers can purchase their exact needs. All rams sold will have been vaccinated for Blue Tongue. They will also have been inspected to be sure they are free of foot rot.

Again this year there will be an offering of Hampshire yearling rams in pens. The sale will also feature Suffolks and Suffolk-Hampshires.

Dairy Import Bill Picks up Added Support

Additional members of Congress have given their support to "The Dairy Import Act of 1966," which would limit imports of dairy products, in general, to the average quantities imported during 1961 through 1965, under licenses issued by the Secretary of Agriculture.

Under the bill the President may permit additional quantities of imports if deemed in the public interest. When dairy prices are below parity, however, the Secretary of Agriculture would be required to remove corresponding quantities from the domestic market.

The bill was sponsored by

Intermountain Sheep Are Now Entering Allotments

OGDEN, Utah — Regional forester Floyd Vorse announced that cattle and sheep permitted to graze the national forests of the Intermountain region are now entering their grazing allotments. The annual trek to these mountain pastures will be completed soon after July 1, he said.

Grazing of the Department of Agriculture's national forests is an important part of multiple use management in the Intermountain region.

About 311,000 cattle and 1,881,000 sheep owned by 5,346 ranchers and stockmen will obtain a substantial part of their annual forage requirement from the 18 national forests in the region.

Most of the cattle are driven to grazing allotments near the home ranches where they spend the winter months, but many are trucked onto their grazing areas where trailing is convenient. Each year more cattle are

stock. Range improvements constructed during the past year include 280 miles of fence and 285 range watering facilities.

More than 31,900 acres of depleted rangeland were revegetated by seeding, or by spraying to control undesirable plants.

Most of the cattle and sheep are counted by the national forests as they enter the national forests. Over half the cattle are tagged with metal tags or dye branded with a hair coloring solution. Grazing animals can be readily identified as those permitted to graze on specific areas by this method.

More than 2,280 individual grazing allotment areas have been designated for cattle and sheep. Management of the livestock on each allotment is planned by the forest ranger responsible in cooperation with the grazing permittee.

The grazing use of national forest rangelands is of major economic importance to the livestock industry.

To graze ranges properly, construction of watering developments and fences is necessary for distribution of live-

Farmers May Get Larger Pension Tax Deduction

WASHINGTON, D.C. — The House of Representatives passed this month a bill which would allow self-employed persons, such as dairy farmers, a tax deduction for the full amount of contributions to a retirement program. Under the present law only 50 per cent of such contribution may be deducted for income tax purposes.

The National Milk Producers Federation has endorsed the bill, H.R. 10.

Self-employed persons would be able to contribute up to 10 per cent of their earned income or \$7,500, whichever is less, to a retirement program.

Use of Wool Gains From Last Year

BOISE — All statistical indicators to far in 1968 wool use gains are over last year. Among the figures cited for comparison with the corresponding period in 1967 are as follows:

Mill consumption of apparel wool up by 20 per cent during the first two months. Worsted system wool consumption up 25 per cent for the period. Woolen system wool consumption up 11 per cent. Wool's share of total fiber consumption up to 54 per cent. It was 51 per cent last year. Imports of raw apparel wool for consumption by U. S. mills up 84 per cent during the first quarter.

Unfilled orders for woollens up one per cent. Imports of wool apparel fabrics up 30 per cent during the first quarter. Production of wool knitting yarns for sale up 13 per cent during the first two months.

These across-the-board increases reflect an accelerating government demand for military textiles as well as domestic increased use of wool. Various other comments besides the wool bureau's coming from magazine reports stated there is no question that the market is firm, goods are sold well ahead.

Another comment from the Journal of Commerce stated that "Wool mark program a success, promotional efforts spur sales." This label "The Wool Mark" has assured consumers they are buying virgin wool products and all wool products that carry the mark are top quality products. Civilian buyers of wool have responded well in recognizing this label.

Control Pill May Boost Plant Growth

RICHLAND, Wash. AP — A potent control pill in the form of gamma rays may mean more french fries and baked spuds in the future.

Scientists say the rays can be used either way—more potatoes or no more potatoes.

Dr. Charles A. Rohman, research associate in Battelle-Northwest's chemistry department, says it works like this: the potatoes are exposed to the rays—small doses mean more spuds and stronger doses cut their number.

In Canada, Dr. Rohman says, supermarkets have sold potatoes treated with heavy doses of gamma radiation to inhibit sprouting.

Dr. Lyd E. Brownell, professor of chemical and nuclear engineering at the University of Michigan, said experiments conducted at the University of Michigan showed that the best period for seed potatoes can be shortened by irradiation.

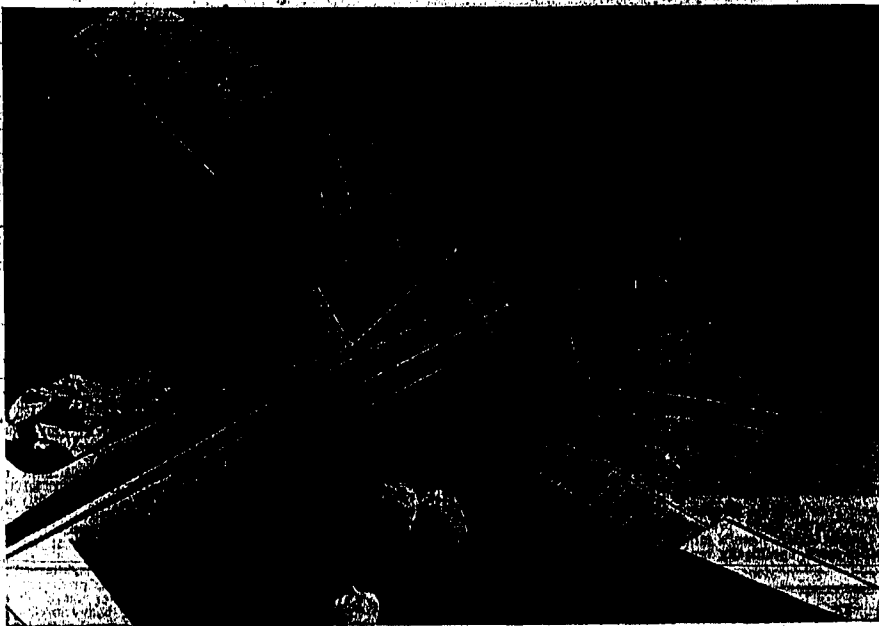

It means, he said, two crops per year where the growing season is sufficiently long. Exposure to the rays, the scientists said, contributes no radioactivity either to the seed potato or the new crop.

Cold and Windy Weather Stalls Crop Growth

BOISE — Cold, windy weather hampered crop growth and development during the week in southeastern Idaho, according to the U.S. Department of Agriculture and the U.S. Weather Bureau.

Main farm activities during the week were irrigating, replanting beet acreages and starting to cut hay. Potato, corn and dry bean planting was mainly over three-quarters completed except for the replanting of abandoned sugar beet acreages.

Most acreages were being replanted to sugar beets and barley with some to beans and potatoes. Cultivation of all crops was continuing. Winter grains were mostly in the boot to heading stage, and were short due to lack of moisture.

CROP DUSTING airplanes are becoming specialized craft as farmers and ranchers make more use of this speedy method of controlling infestations of crop damaging bugs and disease. One of the latest is the Agwagon, now being put into production.

by Cessna Aircraft Co. of Wichita, Kansas. This is the first company aircraft designed specifically for the aerial application market. Planes like this will gradually replace the bulk of converted aircraft which are now being used.

Water Critical

Snow surveys made June 1 indicate a continuation of the unusually dry spring with three months having passed without a single storm heavy enough to increase stream flow significantly.

The survey was made by the United States Department of Agriculture, the Soil Conservation Service and the Idaho State Reclamation Department. Private concerns also assisted.

Forecasts made on May 1 were further reduced and soil moisture measurements showed it would now take heavy rains to satisfy the dry soils. Rivers without adequate storage are experiencing critical water shortages and reservoir storage is dropping.

Higher Prices Sought at Milk Class Hearings

The nationwide aspects of an impending milk shortage, which only can be prevented by increasing prices to farmers, was the focal point of testimony prepared by the National Milk Producers Federation at four public hearings scheduled this month by the U.S. Department of Agriculture.

The statement supports the effort to attain, as far as possible, uniform class 1 price increases in all federal order markets, effective July 1 without termination date. Such an increase, it is stated, would not cause or make necessary any changes in intermarket relationships.

Higher class 1 prices are a partial, but not the whole answer, it is stressed. An increase

USDA to Cooperate in Planning Wise Land Use

TIPP CITY, Ohio — The Senate has passed legislation authorizing USDA to cooperate with conservation districts and other public agencies in planning land use in rapidly expanding urban areas.

The bill, S. 802, clarifies the authority of the Soil Conservation Service to provide soil surveys for broad community planning.

Sponsored by Senators Allen J. Ellender (La.) and Jacob K. Javits (N.Y.), the legislation has been strongly endorsed by NACD.

Speaking in support of the bill, Sen. Harrison A. Williams (N.J.) said it would facilitate cooperation in rural areas undergoing drastic changes in land use and in areas of rapid development.

He noted that soil surveys used to aid in the establishment of soil and water conservation

measures on the farm "can be used equally well for non-agricultural purposes, such as locating soils for housing, sewage disposal, industry, highways, airports and general town planning."

In a statement urging passage of S. 802, Senator Javits pointed out cases where the lack of soil information had created health hazards and unwarranted costs to the public.

FERTILIZERS — FARM CHEMICALS KIMBERLY PAUL

Jordan Renews Critical Stand on Desert Entries

WASHINGTON — Senator Len Jordan has renewed his criticism of the Department of Interior's handling of Idaho desert land entries.

He told Interior Secretary Stewart-Udall that administrative delays and lack of coordination "have placed a cloud of confusion over all pending land cases in my state."

"With government finances strained at this time, it is difficult to understand why officials in the Department of Interior want to stop private reclamation development on these lands. All of these 115,000 acres are 'guaranteed' proposed Bureau of Reclamation project and would not interfere with them."

"Each year that these desert entries are held up is costing the people of Idaho \$20,000,000 in crop production, \$231,000 in tax payments, and a total of \$475 jobs."

During the past year that processing of these entries has been halted, no official progress report on the progress of untangling the legal technicalities has been made to the people of Idaho who are directly affected, Jordan commented.

Citing the Indian Hill case, Jordan noted that Interior Department officials advised him over two years ago that any question of legality would be decided without delay.

In August, 1964, the Bureau of

Land Management ruled favorably on 12 entries on the Indian Hill project near Hammett; but last week the chief hearing examiner for the BLM held that the Indian Hill development program violates the desert land laws.

Jordan said that several hundred other entries in Idaho have been held up awaiting a legal determination on the Indian Hill case. The case is firm said here Wednesday.

Twin Falls Times-News 13 June 17-18, 1968

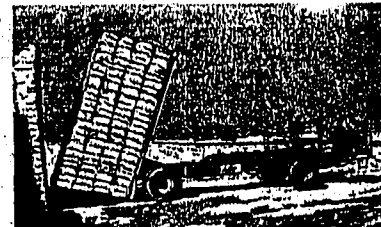

still not finally resolved. He asked Udall to take action to see that other pending entries are "expeditiously classified and considered on their individual merits."

PLANS EXPANSION POST FALLS, Idaho (AP) — The Clare Pendar Co. plans to extend its sales territory into Canada and Europe. Lewis Zirkle, general manager of the firm said here Wednesday.

SAVE TIME and MONEY! with this "New Holland" BALE WAGON

More Bales From Field To Stack...

A One-Man Job All The Way!

All it takes is one man to handle bales with a Stackrunner™ 1046 automatic bale wagon from New Holland. One man scoops up, loads, transports, and stacks up to 14 tons of bales an hour. The "1046" carries 64 big bales at a time... which means less traveling back and forth to the roadside, less land compaction, faster haying and tighter stacks. The Stackrunner 1046 is a "must" for top-dollar western haying. See us soon for all the profit-making details!

Brown Swiss Herd Tops Records

RUPERT—A herd of 14 registered Brown Swiss, owned by Geoff Dunham, Heyburn, was the top producing herd in the Dairy Herd Improvement Association for May, according to B. T. Crandall, DHIA supervisor.

Louis Bott and sons had the top two individual producers, both registered Holsteins. Crandall reported a total of 24 herds, totaling 879 cows, were tested during the month. Of these, 782 were milking. A total of 994,488 pounds of milk and 35,127 pounds of butterfat was produced.

Average pounds of milk produced per cow, including dry cows, was 1,131, and average pounds of butterfat produced per cow, including dry cows, was 40. A total of 458 cows produced 40 pounds or more of butterfat.

High cows in the association included No. 39, a registered Holstein owned by Louis Bott and Sons, who produced 121 pounds of butterfat from 2,744 pounds of milk at a 4.4 test; No. 31, a Holstein owned by John Thain, produced 92 pounds of butterfat from 2,226 pounds of milk at a 4.3 test.

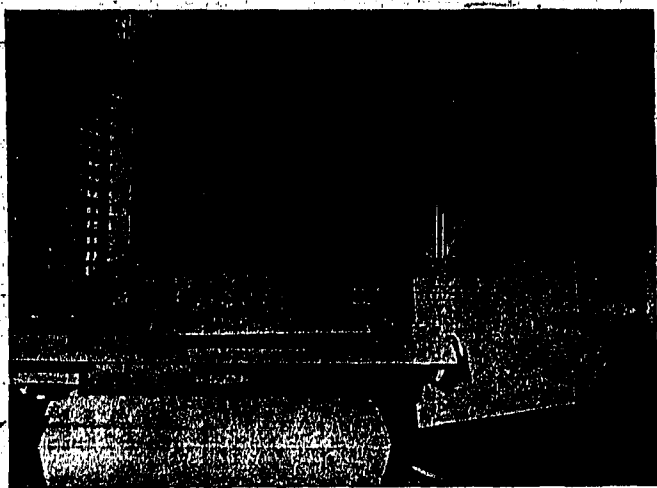

Kay, a registered Holstein owned by William Tanner, produced 94 pounds of butterfat from 3,027 pounds of milk at a 3.1 test; No. 3, a Holstein owned by John Thain, produced 92 pounds of butterfat from 2,226 pounds of milk at a 4.0 test; No. 23, a registered Holstein owned by Louis Bott and Sons, produced 92 pounds of butterfat from 2,226 pounds of milk at a 4.1 test; and No. 82, a Holstein owned by John Thain, produced 88 pounds of butterfat from 2,313 pounds of milk at a 3.8 test.

Holly H, a Holstein owned by Lamar Neff, produced 87 pounds of butterfat from 2,489 pounds of milk at a 3.5 test; 179, a Holstein owned by Hillcrest Dairy, produced 87 pounds of butterfat from 2,489 pounds of milk at a 3.5 test; Sally, a Holstein owned by Lee Steward and sons produced 87 pounds of butterfat from 2,489 pounds of milk at a 3.5 test; and Heater, a Holstein owned by Jack Hiltbrand, produced 87 pounds of butterfat from 2,489 pounds of milk at a 3.5 test.

High herds in the association included—the 14—Brown Swiss owned by Geoff Dunham producing an average of 85 pounds of butterfat from an average of 1,285 pounds of milk; a herd of 8 Holsteins owned by William Tanner produced an average of 47 pounds of butterfat from an average of 1,235 pounds of milk.

A herd of 17 registered Holsteins owned by Jack Hiltbrand produced an average of 44 pounds of butterfat from an average of 1,244 pounds of milk and 89 Holstein cows owned by Joe A. Studer produced an average of 44 pounds of butterfat from an average of 1,235 pounds of milk.

CHERYL TOWNE, Dietrich, and Lincoln County Extension Agent Ivan Hopkins, Shoshone, review work to be done by Miss Towne through the Neighborhood Youth Corps program which has provided the opportunity for her to be employed at the Lincoln County Agent's office this summer. Miss Towne will be given on the job training in office work, specifically working with 4-H and county fair books.

Dietrich Girl Helps County Agent in Youth Program

SHOSHONE — Through the Neighborhood Youth Corps program, Cheryl Towne, 17 year old daughter of Mr. and Mrs. Ralph Towne, Dietrich, is receiving first-hand information

Range Feed Conditions Are Fair

BOISE—Idaho range feed conditions were only fair on June 1, according to the United States Department of Agriculture crop reporting service for Idaho. The reported condition was the same as a month ago, but 12 points below the 1960-64 average. It was the lowest June 1 condition since 1924.

Cool weather and below normal precipitation during May failed to stimulate new grass growth. Many lower elevation pastures were beginning to cure and short feed supplies have forced removal of livestock in some areas.

Summer range prospects remain only fair and normal rainfall will be needed during June to maintain grazing. Stock water supplies are getting short in some areas.

Cattle and sheep remain in good condition, although they showed a loss of condition during May. This was due to short feed supplies and lower palatability of existing feed. Supplemental feeding of hay has been necessary in a few areas.

The June 1 condition of cattle and calves was two points below a month ago and three points below the five-year average for June 1. Sheep and lamb conditions were one point below last month and two points below average.

Movement of livestock to higher elevation summer ranges is underway as well as the marketing of early lambs.

LUMBER MILL BURNS AUBURN, Wash. (AP)—Fire Tuesday destroyed the component fabrication center operated here by Pollack Forests, Inc. The cause and damage to it were not determined.

Employment

BOISE—During the week of May 22-28, an estimated 64,000 persons were employed on Idaho farms, according to the Idaho USDA crop reporting service.

This year's total employment is 4,500 workers below both a year earlier and the 1960-64 average. Family workers, including farm operators, totaled 45,000—3,000 below the comparable period of May, 1965, and 4,000 below average.

10,000 is also 3,000 below last year and 2,000 below average.

Ms. Joyce Bernard, the agent's secretary, as time permits, is willing a very few make under this program. Miss Towne will be a senior at Dietrich high school next fall.

Hereford Breeders Getting Ready for Tanbark Circuit

KANSAS CITY, Mo. — Hereford breeders all across the country are readying their show cattle for the 1966-67 show season and the coming tanbark circuit promises to be an eventful and colorful one for Hereford breeders and spectators alike.

Highlighting the more than 100 large fairs and exhibitions will be the Tanbark Circuit Hereford shows, with the first being held at the Nebraska state fair the first week in September.

Following shows with the regular of merit designation will be the state fair of Oklahoma, Oklahoma City; American Royal, Kansas City; Pacific International, Portland; Great Western, Los Angeles; Eastern National, Timonium; International, Chicago; Arizona National, Phoenix; National Western, Denver; Southwestern Exposition, Ft. Worth; Dixie National, Jackson, and the Houston Stock Show, Houston.

The spotlight of the beef industry turns to the red and white cattle at these shows as exhibitors bring out their best striving for points to place their breeding animals on the coveted register of merit listing.

Western Forestry Center Acquires Building Site

PORTLAND, Ore. — Western Forestry Center, the non-profit organization formed to raise funds and build a \$2 million center for the exhibition of western forestry products here, has cleared the first hurdle in its program — the acquisition of a site.

Charles W. Fox, Western Forestry Center president, said Portland Mayor Terry Schrunk advised him in a "letter of intent" that the site desired by Western Forestry Center will be made available.

The site is 3.44 acres in the west hills of Portland in a complex that currently includes the Oregon Museum of Science and Industry and the Portland Zoological Gardens. Several holes of the Hoyt Park Pilch and Putt golf course, a city-owned operation, will be relocated to make room for the forestry center.

"We are very happy to obtain this site from the city of Portland and are grateful to the city council for their cooperation in granting the site," Fox said. "It is winning a very few make under this program. Miss Towne will be a senior at Dietrich high school next fall."

Livestock Reported in Fair Condition

SALT LAKE CITY (AP) — Livestock are reported in generally fair to good condition in Utah.

And the weekly report from Agriculture and weather agencies says supplies of feed and water are generally adequate.

Harvesting of the winter wheat crop is expected to start early in July, with damage from frost and hail at a minimum.

Wheat Forecast Down 7 Per Cent From Last Year

WASHINGTON (AP) — The Agriculture Department today forecast this year's all-important wheat crop at 1,235,000,000 bushels, 7 per cent less than last year.

The 1965 crop had been reported at 1,328,747,000 bushels and the five-year (1960-64) average at 1,233,660,000 bushels. A month ago this year's wheat crop was indicated at around 1,372,000,000 bushels.

Great interest is attached to this year's wheat production because surpluses have disappeared under heavy foreign demands and influence of government crop control programs.

Cold Weather Has Damaged Fruit Crop

BOISE—Early this spring Idaho fruit growers were looking forward to one of the best fruit seasons in years. Heavy bloom and good pollination was noted in nearly all areas with the fruit crops averaging seven to 14 days early in maturity.

Smudgepots were fired in all areas the night of April 18 as temperatures dropped into the low 20's. Again the night of April 19 firing was necessary as temperatures dipped to 21 at Emmett, 22 at Ontario and 24 at Payette and Fruitland.

In the cold sections, the mercury dropped to 19 and 20 degree readings with the sub-freezing temperatures noted for 10 to 11 hours. As a result, all fruit crops experienced freeze damage during this period.

Additional frost damage was inflicted to the fruit crops periodically throughout April and May. Capping the adverse conditions was a hail storm on May 30 which inflicted heaviest damage in Canyon and Gem counties.

There is a possibility that some limitations may have to be imposed on exports before the 1967 crop becomes available to assure Americans ample supplies.

Need a New Building?

BUY IT with a PCA Loan!

Use a PCA loan to buy your next building. Or, if you already have a PCA line of credit, add the cost to your present loan. Either way, you get these advantages:

Low Interest Rates...and interest to pay only on the amount you use, and the time you actually use it.

Repayment Schedule...spread the cost of equipment over several years, with payments scheduled when you sell crops or livestock.

Ownership...your PCA loan automatically makes you a member and part-owner of your local association.

Production Credit Associations specialize in credit for all operating and production needs. Stop in, get all the details.

Opal Rebekah Lodge Conducts Memorial

SHOSHONE — A special memorial service was held at the Opal Rebekah Lodge meeting, with Mrs. Lucille L. Kinsley in charge of arrangements. Participating in the service were Mrs. George Horn, Mrs. Marjory Eldredge, Mrs. Omer Shook, Mrs. T. V. Strunk, Mrs. Bennie Ray Webb, Mrs. Delbert Gehrig, Mrs. Leonard Kennison and Mrs. Gertrude Biswell. Members of the Odd Fellows Lodge who participated include George Horn, Webb and Gehrig.

Odd Fellows members were guests.

Mrs. Biswell was in charge of a Flag Day skit, telling the story of the flag.

Report was made on attendance at other meetings.

Attending the meeting at Fairfield for the assembly president's visit were Mrs. Horn, Mrs. Shook, Mrs. Dora Froen, Mrs. Floyd Silva and Mrs. Kennison.

Refreshments were served by Mrs. Horn and Mrs. Kennison.

Work Meet Held

RICHFIELD — The June all-day work meeting of the LDS Relief Society featured quilting, smoked pillow-making and knitting.

Mrs. Lyle Deeds presented the lesson, "Simplify the Job and Organize to Save Time."

Mrs. Vern R. Thomas, St. George, Utah, was a visitor.

Mission Work Topic Presented At LWML Meet

Mrs. Ralph Hann and Mrs. C. V. Hovey presented a topic on mission work in Japan during the Immanuel Lutheran Church Women's Missionary League meeting.

They stated there are 70 Lutheran hour stations in Japan of which one is sponsored by the local YWML. The Lutheran Teaching Center has 28 teachers, and the Holy Hope School now has 175 children attending, they reported.

Mrs. Louis Reinke led the devotional service. The first reading for a change in the unit's constitution was given by members of the constitution committee.

Members voted to serve treats for the Vacation Bible School children.

All members were urged to invite a guest for the July meeting. Rev. John Sprler, missionary from the Far East, will be the guest speaker.

Clothing collected during the past several months was taken to the local welfare station for distribution.

Mrs. Zollinger is President of Auxiliary

WENDELL—Mrs. Grant Zollinger was installed president of the American Legion Auxiliary Unit No. 41 at the American Legion Hall. Mrs. Chet Floyd, Gooding, past president of district No. 4 was installing officer.

She was assisted by Mrs. Ann Ruhter, acting sergeant-at-arms, and Mrs. Dessie Jensen, acting chaplain.

Other officers installed include Mrs. Cora Frith, first vice president; Mrs. Ralph Black, second vice president; Mrs. S. K. Bungum secretary; Mrs. Hilma Snodgrass, treasurer; Mrs. Norman Miranda, historian; Mrs. Mabel Stanger, chaplain, and Mrs. Lena Strickland, sergeant-at-arms.

Mrs. Agnes Higgenbotham, retiring president, was presented a rhinestone necklace from the unit, with Mrs. Floyd making the presentation.

The family potluck picnic for American Legion and Auxiliary members is set for 1 p.m. July 10 at the city park. Those attending are asked to bring table service and covered dishes. Coffee and punch will be furnished by the auxiliary.

The auxiliary will vacation during July and August. The next regular meeting is set for 8 p.m. Sept. 12 at the American Legion Hall.

Delegates to the convention at Coeur d'Alene July 21 through 24 are Mrs. Floyd and Mrs. Frank Smith.

Mrs. Benson and Mrs. Ruhter served refreshments.

Mrs. J. H. Sharp was appointed chairman of a county-wide "cooked-food" sale. All proceeds for the sale will go to the Agnes Hurst Memorial Fund for 4-H camp.

Mrs. Clinton Dougherty was elected as nominee for state vice president and Mrs. Sharp elected as nominee for state treasurer.

A candlelight memorial service for the late Mrs. Agnes Hurst was presented by Mrs. Ben Eldredge, assisted by Mrs. Sharp and Mrs. Raymond Montgomery.

Donald Youtz, county agent, and Mrs. Charlene Lickley, part-time home agent, were guests.

MR. AND MRS. CHARLES E. OTTO

50th Wedding Anniversary Open House Set

JEROME — An open house honoring the Golden Wedding Anniversary of Mr. and Mrs. Charles E. Otto will be held from 2 to 4 p.m. Saturday at the home of the couple's son and daughter-in-law, Mr. and Mrs. Harold Otto, 300 E. Ave. D.

Mr. and Mrs. Otto were married June 17, 1916, in Jerome, setting in the Appleton area, where they have lived since.

They are the parents of two sons, Harold Otto and Ivan Otto, both Jerome, and two daughters, Mrs. Paul (Gertrude) Jones and Mrs. Harry (Charlotte) White, both Pocatello, and eight grandchildren.

The couple requests no gifts.

Edward John Is Speaker for Jay-C-Ettes

Edward John, Burley, was guest speaker at the joint district orientation meeting held by the local Jayces and Jay-C-Ettes at the Holiday Inn.

Other guests were Mr. and Mrs. Donald Bizzillon, Jerry Leasing, Mr. and Mrs. Donald Egbert, Mr. and Mrs. Dale Aspengren and Gary Watts.

The board meeting was held at the home of Mrs. Harold Grigg and the summer board meeting in Salmon, Idaho.

Announcements were made including a joint picnic set for July 16, a family camp outing Saturday and Sunday and a rodeo queen promotion Thursday at the Lynwood Shopping Center.

Members of the Jay-C-Ettes met at Harry Barry Park to play baseball and then went to the home of Mrs. Donald Jackson for a regular meeting.

Guests included Mrs. Marvin Anderson, Mrs. Jack Steel, Mrs. Margaret Peterson, Mrs. Richard Shelton, all Filer, and Mrs. Jack Fields, Mrs. James Lowder and Mrs. Gary Meyer, Buhl.

Mrs. Fields, outgoing district vice president, presented the Twin Falls unit a district travel award.

Guests from Twin Falls included Mrs. J. J. Harrington, Mrs. Bizzillon and Mrs. Darrell Smith.

Demonstration Is Presented

SHOSHONE — A demonstration on flower arrangements was given by Mrs. Ben Gomm at the LDS Relief Society meeting.

The lesson on home management was given by Mrs. James Beck, on the subject of simplifying the job to eliminate unnecessary work and become more efficient as homemakers.

Mrs. Burton Thorne gave information to visiting teachers and urged welfare storage.

Handwork was done on a double wedding ring quilt, wall plaques, tea towels and a baby quilt.

Luncheon was served by Mrs. Lawrence Rands, Mrs. Elizabeth Thorne, Mrs. Rex Thomas, Mrs. Louise Mulliner and Mrs. Howard Pittman.

Mr. and Mrs. Vern R. Thomas, St. George, Utah, were guests.

Social Events

A card party will be held at 7 p.m. Monday at the home of Mrs. Harold Billings, 406 Tyler St., sponsored by the Woodmen of Omaha. The public is invited. Pie and coffee will be served and prizes given.

Mrs. Lebsack Is President of Area Auxiliary

PAUL — Mrs. LeRoy Lebsack was elected president of the Paul American Legion Auxiliary. Other officers include Mrs. Marie McGregor, first vice president; Hannah Hicks, second vice president; Mrs. Mario Field, historian, and Mrs. Donovan Webster, secretary.

A report was given that people were sold by the Junior Auxiliary members before Memorial Day. Mrs. Lebsack reported there are 65 members and the recent membership drive went over the goal.

Delegates to the department convention set for next month at Coeur d'Alene include Mrs. Otha McGill, Mrs. Marvin Loe, Mrs. Arthur Ulrich, Mrs. Lebsack and Mrs. Webster.

Mrs. Webster reported the jewel flag pins have been sold for the recent fund raising project. It was decided to send \$3 for the purchase of a new flag at the new Boise Veterans Home.

A prayer for peace was given by Mrs. Hild, Mrs. Henry Pack, The Dalles, Or., was a guest.

Members Host Breakfast Meet

A breakfast meeting was hosted by members of the Magic Valley Saintpaula Club at the home of Mrs. Fred Nelson, Jerome.

Members reviewed the history of the club and the violet tour and garden tours taken by them. Reports were given by the committee chairmen. Members decided to host a potluck luncheon for the next meeting instead of the hobo party and driftwood hunt.

Mrs. Sam Hawkins gave a vocationing tips for violet and a report on the use of CO2 on the growth of violet from the National African Violet magazine. Mrs. W. L. Chancey gave a report on the earth meslebug and its control.

Two members received violets for birthday anniversary gifts from their secret pals. The next meeting is set for 1 p.m. July 11 at the home of Mrs. Sam Porter.

Knee Beauty Emphasized by Leg Watchers

By ALICIA HART

NEW YORK (NEA) — Members of the Society of Leg Watchers, Inc., have polished their eyeglasses and now go around with a Cheshire-cat smile. The reason for their happiness? The nutty, snaky, kooky, miniskirts sweeping so to speak, the fashion world.

The skirts—which often ride three to five inches above the knee—are cute on perky little girls—any in their teens. However, women in a big way, some pushing 45 (and over) are joining the parade and flaunting their fashion freedom. Fashion freedom? Any mature woman who insists on dressing half her age is as ridiculous as a swimming following its suicidal leader.

For those who turn to short skirts, brush up on your leg and knee beauty tricks.

Your legs require special attention during their exposure. Be certain to keep them smooth and clean.

Knees, especially, present a special problem since the Leg Watchers report most women have knobby, ugly knees. But cosmetics come to the rescue here—Unattractive knees can be camouflaged.

First apply a foundation front and back. One with a matte finish that dries quickly is good. This covers rough spots or blemishes. If the knee area is more "porky" than "stinky," experts at John Brown Powers suggest using a brown shadow on the knee.

Use the brown on the inner knee to mold and help create an illusion of contours. Fill out a knobby knee by applying the shadow in the center and a lighter foundation on each side.

Another knee cap fashion keeping pace with the shorter hemline is the use of a pressed powder blush brushed on the knee. If your complexion is pale, select one in the pink family. Peach is good for the fair to mid skin tone and bronze for the darker-skinned.

Another kick for evening is to dab one of the pearlized or golden cosmetics in the hollow of the knee. The fashion-conscious may be short on fabric this season—but they are long on the shimmery, luminescent cosmetic look.

Mrs. Undhjem Favored to Retain Title in Women's State Golf Tournament

Mrs. Marlon Undhjem, Twin Falls, the defending champion, appears the woman to beat next week when the Idaho State Women's Golf Association conducts its annual state tournament over the municipal golf course. Mrs. Undhjem will be running into several familiar foes, not the least of whom is Ruby Stone, Boise, who placed second last year. The match play tournament will begin Wednesday and carry through the finals Saturday but there are several preliminary competition and continuing social events to highlight the week.

Lindgren Wins First Event in NCAA Meet

BLOOMINGTON, Ind. (AP)—Garry Lindgren, Washington State's bounding bantam, won the day's only final with an easy 6-mile triumph, but phenomenal Tommie Smith of San Jose State gave a real blast-off to the 45th NCAA Track and Field meet Thursday. Smith

Chicago Trims Drysdale and Dodgers 5-3

LOS ANGELES (AP)—Pitcher Bob Hendley doubled home two runs to key a four-run rally in the second inning as the Chicago Cubs trimmed Los Angeles 5-3 Thursday night, handing Dodgers right-hander Don Drysdale his fourth straight loss.

Drysdale, 4-8, surrendered nine hits while losing to the last-place Cubs for the third time in as many decisions this season. Don Kessinger and Glenn Beckert each singled home a run in the Cubs' second-inning burst. Reliever Cal Koonce's squeeze bunt in the fourth delivered the fifth run.

Koonce, 1-1, choked off a Los Angeles rally in the third inning and allowed only two hits until the ninth, when he needed last-out help from Billy Hoefs after a walk and singles by pinch hitter Jim Lefebvre and Maury Wills gave the Dodgers their third run.

Starter Hendley walked six batters in 2-3 innings and gave up a run-scoring double by John Kennedy in the second and a run-producing single by Lou Johnson in the third.

The loss was the Dodgers' fourth in their last five games and dropped them three games behind San Francisco going into the weekend. The Cubs' victory against the National League-leading Giants.

Chicago 040 100 000-5 9 0
Los Angeles 011 000 001-3 7 1
Hendley, Koonce (3), Hoefs (9)
and Hendley; Drysdale and Torborg W Koonce, 1-1. L — Drysdale, 4-8.

Buckeyes Handed First NCAA Loss

OMAHA, Neb. (AP)—Southern California halted Ohio state's unbeaten march in the 20th NCAA basketball tourney with a 51 victory Thursday night. Fred Shuey drove in the winning run with a 400-foot triple and Bill Lee saved the game in relief.

Oklahoma State's Big 8 champions won a drawing at home plate and drew a bye into the finals Saturday night. Ohio State and Southern Cal will meet again Friday night in the semifinals.

The Oklahoma club eliminated St. John's of New York 61-31 on Bob Toney's three-run seventh inning triple and Frank Warrington's shutout relief job.

Sox Collect Two Victories From A's

CHICAGO (AP)—Tom McCraw hit two home runs, including a grand slam, powering the Chicago White Sox to a 5-2 victory over Kansas City and a sweep of their doubleheader Thursday night.

The White Sox snapped a three-game losing streak by taking the opener 6-4, scoring twice in the seventh inning on a wild pitch and passed ball to break a 4-4 deadlock.

McCraw belted his second homer of the season into the right field stands in the third inning of the nightcap after the White Sox loaded the bases against right-hander Ralph Terry on singles by Ken Berry, Tommy Agee and Don Buford.

McCraw accounted for Chicago's other run with a bases-empty homer in the sixth.

In the opener, the Sox pushed across their decisive runs in the seventh as four Kansas City pitchers saw action in the inning.

Buford scored third on a wild pitch by Guido Grilli and McCraw raced home from third when catcher Phil Roof let Jim Dickson's pitch get past him.

(Second Game)
Kansas City 002 000 000-2 7 0
Chicago 004 001 000-5 5 1
Terry, Dickson (7), Grilli (8) and Suarez; Pizarro, Locker (9) and Romano. W — Pizarro 5-1. L—Terry 1-4. Home runs — Chicago, McCraw 2 (3).

TROPHIES await the flight winners of the Idaho State Women's Golf Tournament, which will be conducted over the Twin Falls Municipal Golf Course this week. From left, Mary Jensen, trophy committee chairman, host pro Clyde Thomson and State President Shirley Straughn show off the silver service. The sweater, which will have a state-shaped crest, will go to the flight winners. The silver tea service goes to the runner up; consolation winner wins the silver casserole; consolation runner-up, the water pitcher, and the medalist will receive the covered vegetable dish. All the prizes are engraved. (Times-News photo)

SPORTS

Yanks Rally In Fifth to Top Indians

NEW YORK (AP)—The New York Yankees drove Sam McDowell from the mound in a five-run sixth-inning burst and edged Cleveland 7-6 Thursday night, snapping a three-game losing streak.

The five-run rally overcame a 3-2 Cleveland lead and enabled right-hander Fred Talbot to register his first victory as a Yankee while saddling McDowell with his second loss in seven decisions.

Talbot, acquired from Kansas City last Friday, gave up three runs—including Dick Howser's homer—in the fifth inning, then checked the Indians until the ninth. He then yielded singles to Joe Azcue and Tony Curry, and was replaced by Steve Hamilton.

Pinch hitter Chuck Hinton slammed a three-run homer off Hamilton before Hal Renfili came on to get the last out.

Cleveland 003 000 003-6 9 3
New York 002 050 000-7 9 0
McDowell, Hargan (5), Tiant (7) and Azcue; Talbot, Hamilton (9), Renfili (9) and Gibbs. W—Talbot 5-4. L—McDowell 5-2. Home runs — Cleveland, Howser (1), Hinton (1). New York, Mantle (6).

Tigers Erupt To Bury Sox In 16-4 Rout

BOSTON (AP)—Willie Horton tore into six runs, including three with a homer, and Al Kaline and Jim Northrup contributed four hits each in helping Denny McLain breeze to his 10th victory Thursday in the Detroit Tigers' 16-4 rout of the Boston Red Sox.

The surging Tigers pounded four Boston pitchers for 20 hits in posting their 10th triumph in the last 13 games.

Detroit 214 330 111-16 20 1
Boston 001 001 020-4 9 1
McLain and Freehan; Sheldon, Stephenson (3), Brandon (6), Osinski (8) and Ryan. W — McLain, 10-3. L—Sheldon, 4-8.

Home runs — Detroit, McAuliffe (8), Horton (6), Freehan (7), Browne (3). Boston, Petrocelli (10), Scott (17).

Marichal Wins 12th For Giants

SAN FRANCISCO (AP)—Juan Marichal became the first 12-game winner in the majors this season by stopping the Houston Astros 3-1 on four hits Thursday as the National League-leading San Francisco Giants won their fifth straight.

The Dominican right-hander didn't allow a hit until Lee Maye singled with one out in the fifth. John Bateman put men on second and third with a two-out double but Marichal got pinch-hitter Bill Heath to foul out, ending the threat.

Tom Haller hit his 11th homer and third in as many days for San Francisco in the second-inning with none on.

Ollie Brown and Hal Lanier followed with singles off starter and loser Bob Bruce. Brown scored when third baseman Bob Aspromonte threw Marichal's tapper to home too late.

Houston 000 001 000-1 4 1
San Fran. 020 000 000-2 5 2
Bruce, Raymond (8) and Bateman; Marichal and Haller. W—Marichal 12-2. L — Bruce 1-4.

Home run — San Francisco, Haller (11).

Miss Whitworth Leads Tourney

MILWAUKEE (AP)—Slim Kathy Whitworth shot a sizzling Thursday to take a two-stroke lead in the opening round of the \$13,000 Jaycee Open Women's Golf Tournament.

The Texan, leading money winner on the ladies tour this year, carved up the back nine for a 33 en route to her two-under-par performance.

Sue Maxwell of Tulsa, Okla., matched par 70 over the 6,200-yard Tuckaway Country Club layout for second place at the outset of the 72-hole tournament.

Betsy Cullen, also of Tulsa, shot a 71 and Donna Caponi of Los Angeles had a 72. Defending champion Marlene Hagge, Pensacola, Fla., carded a six-over-par 76.

was never any doubt that Old Hilltop was doomed.

The track had closed its 1966 season with the Preskness, middle leg of the Triple Crown, on May 21.

SIGNS-FREE AGENT
WASHINGTON (AP)—The Washington Redskins announced today the signing of Jerry Flahman, a free agent, for the 1966 National Football League season.

TRANSFERRED
MINNEAPOLIS, Minn. (AP)—Nick Plantanida, the sky diver who survived a 57,000-foot descent without oxygen, has been transferred from Hennepin County General Hospital here for the National Institutes of Health at Bethesda, Md. He remains in serious condition. He has been in what doctors call a "waking coma" since his oxygen supply was cut in an unexplained accident as he tried for a world free-fall record May 1.

Gov. Smylie Addresses Girls' State

BOISE (AP) — Gov. Robert E. Smylie told 252 Syringa Girls State delegates today Idaho's progress depends on a state government "financially able to respond to public needs."

Stressing education and outdoor recreation, Smylie's talk opened a one-day mock legislative session for the girls in the statehouse.

Said the governor: "If we are to have good programs in education, in welfare, in health, and in conservation — and a balanced budget too — continuance of the sales tax is the first and most important requirement."

The Syringa Girls State, sponsored by an American Legion Auxiliary, began last Sunday at Northwest Nazarene College in Nampa.

SHOWING GOV. ROBERT E. SMYLIE a "branded" quilt they have made are Idaho Cowbells, from left, Mrs. John D. Lamb, Grangeville, vice president; Mrs. Earl Clayville, Declo, beef education chairman; and Mrs. H. V. Beaver, Heyburn, promotion chairman. The Cowbells are promoting beef for Fathers' Day. Members also gave Gov. Smylie beef roasts for the Children's Home, Boise.

Go to Brazil

living in Washington, D.C., where he is employed by General Murrow Co. After a six to nine week preparation period, they will go to Rio de Janeiro, Brazil, where he will work. The Milos family lived in Arable in 1963-1965. In the interim the family lived at Bountiful, Utah, where he was employed by the State Highway Department. They will be in Brazil about two years.

Rites Honor William Leek

FAIRFIELD — A crowd estimated at about 500 persons overflowed the Community Church for funeral rites for William W. (Bill) Leek, prominent Fairfield resident who died on a fishing trip.

Rev. W. James Post officiated at the services held at 10:30 a.m. Wednesday. Mrs. Leek, daughter, played the prelude. Mrs. George Perkins Jr., pianist, played the postlude. Duets were sung by Mrs. Perdita Carman and Mrs. Victor Plannan. Mrs. Linda Carman as accompanist.

Thomas Trouble

ELLENBURG, Wash. (AP) — When Judge John Thomas walks into court next week, defendant John Thomas will stand up and so will complainant John Thomas.

John B. Thomas of Ellensburg, contends John M. Thomas of Green River, Wash., nearly ran him down with his truck in a crosswalk, then stopped and became belligerent.

John B. signed a complaint. Judge John D. issued a warrant and John M. was arrested.

SON-GRADUATED

SHOSHONE — Mrs. Richard Mahbutt has returned from a visit to Kansas where she attended the graduation of her son, Rick, from the University of Kansas. Mrs. Mahbutt is now attending summer school at Idaho State University where she is working for her master's degree.
