Compromise in Congress Clears Way to Adjourn

WASHINGTON (AP) — Congressional negotiators reached agreement on compromise terms for the year's final appropriations bill today and sent it back to the House for another vote for an explicit foreign policy feature. The action may have eased the biggest obstacle to adjournment of this session of Congress by tonight.

On that provision, a House-Senate conference committee erased a House-approved ban on use of new export-import bank funds to extend credit to the Soviet bloc nations of Eastern Europe.

The version the conference committee approved would leave it to President Johnson to decide whether the bank should underwrite trade with those Communist nations.

Rep. George Mahon, D-Tex., chairman of the House Appropriations Committee, said he thinks the compromise will be approved.

It doesn't require any explanation except do you want to pull the rug out from under the President when he's a broad advocate for peace," Mahon said.

But Rep. John J. Rhodes, R-Ariz., said the House fight for approval of the compromise may be a stiff case. "I think people are going to have to change votes," he said.

In compromise form, the supplemental appropriations bill totals just over \$5 billion—a bit more than the House approved.

Negotiators split the differences on funds for the war on poverty, trimming \$50 million from the \$100 million the Senate had added to the House bill.

That leaves the poverty account \$137.5 million below the \$150 million ceiling set by Congress.

They slashed from \$142 million to \$111 million the appropriation for President Johnson's demonstration cities program.

Despite the drive for adjournment today, the Senate finished its work on the bill to meet at 10 a.m. Saturday. The unanimous consent on a Saturday meeting did not make any sense, Rhodes said.

But Democratic Leader Mike Mansfield of Montana told newsmen he had only slight hope of completing all business by tonight.

Charge of Murder Filed In Shooting

JEROME—Charges of second degree murder were filed Thursday against the 37-year-old slayer of a Rupert man killed Wednesday by a blast from a rifle.

Mrs. Emelio Rodriguez appeared before Probate Judge Russell C. Shaud at 3 p.m. after she was served with a warrant charging her with the shooting.

The warrant accuses her of the shooting-death of Ralph Rodriguez, 48, a Rupert farm laborer.

An inquest was conducted Thursday with Mrs. Rodriguez, 48, a mother of six children, was advised of her rights to obtain counsel and to request a preliminary hearing during Thursday's court appearance.

She was given until Monday to obtain a lawyer and decide if and when she wants a preliminary hearing. In lieu of \$5,000 bond she was released.

Shaud noted the amount of bond is subject to increase.

Third of Prospective T. F. County Draftees Rejected

About one-third of Twin Falls County young men eligible for the draft are being rejected each month, P. V. Morrison, Murphree, Twin Falls County Draft Board chairman, stated Friday.

Morrison said these individuals are being rejected because of physical and court records so they can be rejected. However, Morrison said, some are being accepted if the court records are not in conflict.

When asked why there are many young men in Twin Falls County who appear to be "eligible" for the draft, but are not in the service, Morrison said

RED AND GREEN PAINT is splattered on President Johnson's limousine Friday in Melbourne, Australia. White House Press Secretary Bill D. Moyers said two young

sters threw two plastic balloons loaded with paint at the vehicle as the Presidential motorcade moved through downtown Melbourne. (AP wirephoto via cable from Melbourne)

Shepard Postpones Grand Jury Call

BOISE (AP) — It appeared Thursday that a grand jury investigation of the closing of the Idaho Savings and Loan Association would not be forthcoming—at least not right away. Atty. Gen. Allan G. Shepard said that although he had "grave reservations concerning some of the transactions in this association," any grand jury investigation of the firm now would be premature.

"I cannot see how it can be attributed solely to gross mismanagement or bad judgment," he said.

Several candidates for state offices have voiced support for a grand jury investigation and petitions for it were presented to Third District Court in Boise last week.

"I suggest you ask yourselves what demands this premature action and what can be profitably made by it," Shepard continued in a statement issued last Thursday.

The attorney general said he refused to be "stamped into prematurely calling for a grand jury probe which might result in a whitewash of the association's July 6 closing and its cause."

The firm which has offices in Boise, Idaho Falls, Twin Falls and Pocatello, turned its affairs over to the State Department of Finance when directors found the firm could not meet all of its financial obligations.

Later, it was revealed by State Finance Director Tom D. McElwain that the 20,000 debtors could expect to lose about 21 percent of the \$20 million they had put into Idaho Savings and Loan.

A committee of depositors has since been formed and is now preparing a reorganization plan. The plan would have the firm liquidated by the Third District Court, the association will re-open.

T.F. Chamber Vows Backing Of Sales Tax

WASHINGTON (AP) — The Twin Falls Chamber of Commerce Board of Directors has pledged to support retention of the state sales tax, Earl Faulkner, president, reported Friday.

The chamber of commerce resolution states that "the retention of the Idaho State sales tax is essential to the fiscal stability of the state of Idaho," and provides a foundation for tax reform and "a healthier, more equitable and efficient economy."

The board resolved in support of retention of the sales tax, pledged its cooperation in obtaining equitable reforms with the sales tax base, and urged voters to exercise their prerogative on Nov. 6 for a stronger Idaho.

Jeers, Paint Mar Australian Visit

MELBOURNE (AP) — From 500,000 to a million Australians gave President Johnson today a tumultuous Melbourne reception, marred by a paint-throwing incident that splashed his bubbletop limousine amid the cheers and jeers of youths opposing the war in Viet Nam.

The closed car was smeared from windshield to rear bumper but the see-through top protected the President and Mrs. Johnson from the red and green paint. Two

Secret Service men riding on the rear bumper and others in a following security car were smeared. Later, in the press of the crowd, a Secret Service man fell from the security car but was not seriously injured.

The paint was water-based and washed off readily and the car carried the Johnsons back to Melbourne airport for the return to Canberra. Thousands of Australians along the way cheered the Johnsons. "Come back," or sang, "For he's a jolly good fellow."

"I believe there is light at the end of what has been a long and lonely tunnel," Johnson told the Australians, referring to the Vietnam war and his firm belief the Communists no longer can win.

The Johnsons appeared unconcerned by the paint throwing or the jeers from young Australians as they arrived at the airport. They smiled and waved to the crowd as if nothing had happened.

At the perspective of two million people or so, just the first lady, "it was just like a grain of sand."

One report said the paint—in two plastic balloons—was thrown by two youngsters about 14 years old. Another said the thrower was a young man, 18, who was wounded.

Despite Mrs. Johnson's "two million" remark, Melbourne police estimated the turnout for the President at half a million. The Johnsons were escorted by many police, cheering and waving American flags under a rain of ticker-tape from the city's tall buildings.

The President as usual stopped his car repeatedly during the 11-mile drive to Government House and stood in the open doorway, kissing babies, waving vigorously, shaking hands and other courtesies, including a football—on a well-wisher.

On his way to Government House, he was stopped for 45 minutes to visit with Dame Mabel Brookes, who was flanked during his visit by a band of music and her 10-year-old husband, Sir Norman Brookes, former world's tennis champion.

Toll of 200 Feared in Avalanche

ABERFAN, Wales (AP) — A mountain of coal slag sent a black avalanche crashing down on this Welsh mining village today, engulfing the school and crushing 14 houses. Thirty-two bodies were recovered in the first hours of rescue operations but there was fear the death toll would reach 200, most of them children. At least 150 children were missing and presumed entombed or hurt—in their class rooms. The police chief of nearby Merthyr Tydfil told newsmen fatalities were likely to reach 200.

Wendell Sets Welcome for Radar Train

WENDELL — A welcome to the Radar Boat School Express Train personnel is planned by the Wendell Chamber of Commerce and Wendell city council members at 10:30 a.m. Saturday at the City Park on East Main Street, across from the high school.

This is a get-acquainted session and will begin with a welcome by Mayor Carl Gelsinger, Clyde Petersen, president of the Chamber of Commerce, will be master of ceremonies.

The Wendell high school band will play and refreshments will be served by the Future Homemakers of America.

"All Wendell business men and women are urged to attend. All members of the area are cordially invited to attend this social hour. In case of inclement weather the activity will be held in the high school gymnasium.

Meanwhile, a mock, electronic war is going on between train and Air Force bombers.

"The train, bristling with anti-aircraft guns, is on a sliding near Wendell."

At least it's there for the time being. The Strategic Air Command periodically moves it around in the training program.

Using navigation and radar equipment, the planes respond with jamming equipment.

The result is a "battle" much like what the Air Force believes would result in a war.

Gooding Man Is Injured In Explosion

GOODING—Ben Egeler, owner of a machine shop here, was injured Friday morning when a blast from a jack hammer apparently exploded, sending pieces of metal throughout his shop.

Egeler was hit in the right arm and leg when the jack hammer exploded. He was taken to Gooding Memorial Hospital about 9:30 a.m. and then was transferred to Twin Falls.

"RED DEAN" JILL CANTERBURY, ENGLAND (AP) — Dr. Hewlett Johnson, author of "Red Dean" of Canterbury, was reported gravely ill today in the Kent and Canterbury Hospital here.

Decision on Power Played By T. F. Man

Robert Morgan, legislative candidate from District 23, charged Thursday that the agreement between the College of Southern Idaho and Idaho Power to provide an all-electric facility was the result of "a \$400,000 club, which Idaho Power is holding over the head of the institution."

According to Morgan, "the \$50,000 which Idaho Power is 'donating' to the College, should never have been considered in the cost of the heating plant installation, but rather as part of the site 'contingent fee'."

"But in spite of this factor," Morgan said, "it would still be cheaper to pay Idaho Power to move their lines and heat the buildings with natural gas."

"The net additional cost to the taxpayers of the district will add up to around \$32,000 per year," Morgan said, "and that totals nearly half a million dollars over 15 years."

USAF Air-lift On Civilian Gifts Stopped

WASHINGTON (AP) — The Air Force, tightly squeezed for cargo space because of the Viet Nam war, has told its squadrons to stop flying civilian gifts of food and clothes to South Viet Nam for American GIs and homeless Vietnamese.

"The directive dated June 3 but not made available until today, also ruled out a Christmas airlift of cakes and cookies to U.S. troops this year."

"All transportation available to the Department of Defense is fully committed to meet world-wide logistical requirements of our armed forces, especially in Viet Nam," the directive said.

"The Department of Defense has no program which extends to transportation assistance for materials destined for the South Vietnamese."

Earlier, such flights of volunteer food and clothing regularly were made by the Air Force. And last Christmas the Air National Guard made hundreds of flights to carry 400 tons of goods from home to U.S. soldiers in Viet Nam as part of "Operation Christmas Star."

"The reason we stopped is because of a shortage of airlift going to Southeast Asia," said one high officer. "There is a critical shortage of airlift."

Sources made clear, however, that the Air Force is meeting all of its military airlift requirements in Viet Nam. But they acknowledged that some less important, although still vital, supplies are going by water.

Injury Suit Is Filed Against Sun Valley Firm

BOISE (AP) — A \$30,800 personal injury suit was filed Thursday against the Janns Corp., which operates the Sun Valley Resort, as the result of a skiing injury sustained by Mrs. Frances Wimberly.

Mrs. Wimberly and her husband, Carl E. Wimberly, said in their complaint that Mrs. Wimberly was injured when she was hit by a skier taking lessons at Sun Valley as Mrs. Wimberly herself was taking lessons.

She said the Janns Corp. was not careful enough in its choice of locations for her skiing lessons.

Defense Secretary Robert S. McNamara, the Flying Saucer, says he knows nothing of it, but he's got a lot of snow job on Oct. 14 after his eighth return from Viet Nam. It's incredible that he has the nerve to come to the microphones. He stated: "By my measurement we're better off there now than we thought we were when this time last year."

It's hard to hear J. Taylor recall just how well off Mr. McNamara himself was when he came back word shows him dead wrong, constantly wrong and wrong on all sides of the

Mr. McNamara stated: "I know we have plans to increase the forces after the congressional elections. I see no reason to expect that deployment of U.S. forces to Viet Nam will change significantly."

Well, if Mr. McNamara knows of no plans and sees no reasons to expect this he's the only informed man in Washington who doesn't.

Later his office wassled him out of this, when challenged, by "explaining" that Mr. McNamara meant to say that the forces will be significantly increased, that plans do exist, but the buildup will be at a "planned rate" rather than "unplanned."

What would you call his original TV statement and in the way the American people

was no exception.

Four years ago last February: "By every quantitative measure we are winning the war in Viet Nam."

Jan. 31, 1963: "There is a new feeling of confidence that victory is possible in Viet Nam."

Dec. 12, 1963: "We have every reason to believe that U.S. military efforts will be successful in the future."

After Mr. McNamara reported to the White House President Kennedy announced: "I have a clearer picture of the cost of the war."

Mr. McNamara failed to budget even a nickel for the cost of the war until fiscal 1967.

The Treasury Department estimates that in fiscal 1966 the

1964".

On Jan. 13, 1964, heavy Communist units stood 15 miles from Saigon and they are still there.

Feb. 19, 1964, testifying to the House Armed Services Committee: "I don't believe that pouring in thousands of thousands of troops is the answer."

Oct. 3, 1964, after going to Viet Nam on high time "I've

These, he agrees, are another \$1 billion a month. And that tid bit of little exclusion is \$12 billion a year. Thus the real cost is \$2.

March 2, 1966, after first estimating that 12,000 U.S. troops would do the job, then 24,000, then 40,000, then 150,000." "Approximately 235,000 are needed, billion a month, or \$24.4 billion a year, even at the present rate and Anthony's Compeller Role."

McNemar has told the Armed Services Committee behind closed doors that Mr. McNemar may come out after November with a supplemental appropriation request, for it is simply impossible to rewrite the record.

exclusive of the Air Fleet.
April 20, 1966: "About 255,000 are there."

War Hoax Perpetrator Dies at 44

LONG BEACH, Calif. (AP)—Douglas R. Stringfellow, who built a World War II fame as a hero behind German lines and a heart in Congress, is dead of a heart attack. Survivors include his wife, Mrs. Mack (Anna) Kump, 44.

The 44-year-old Stringfellow had been ill three months before his death last night in Long Beach Veterans' Hospital.

Stringfellow had lived in Mexico, California and Utah, since being forced to admit his hoax in 1954 while seeking re-election to the U.S. House from Utah.

His admission "shattering an image blown into a national reputation" specified he was an Army private first class in southern France for only several weeks and never saw actual combat. He was critically injured by an exploding land mine.

Until the moment of his admission—made on television in Salt Lake City 12 years ago last Monday—he had insisted his record could be substantiated by secret files of the Central Intelligence Agency (CIA).

Stringfellow was forced to quit the Congressional race and spent the final 12 years of his life mainly as an artist. He was a radio disc jockey in Salt Lake City for a time before moving to Mexico. He divided his later years between California and Utah.

He also is survived by his widow, two sons and two daughters.

Mrs. Savage Is Honored By Chamber

HEYBURN — Mrs. Everett Savage was presented an honorary membership in the Heyburn Chamber of Commerce Wednesday evening.

Presented by Forest Blake, chamber president, the honor was for past service to the organization. Mrs. Savage is a news correspondent for the Times-Herald.

Larry Murphy, manager of the newly constructed Idaho Portland Cement business at Heyburn, was welcomed into the chamber.

Blake read a letter from Mrs. Calvin Heiner, of the Mini-Casella Community Concert Association, thanking the chamber for sponsoring two tickets to the high school students. The tickets were sent to Lund Christensen, principal, who will select students to use them.

Everett Savage, president of the Heyburn PTA, reported that the bookmobile from the Twin Falls Public Library is now servicing this area and will be at the post office every other Wednesday morning.

He said the traveling library was made available to this area through joint efforts of Heyburn and Paul organizations and there is no charge for it. It is scheduled to return on Nov. 2 and will be parked in the same location every other Wednesday morning between 10:45 a.m. and 12:30 p.m.

The chamber agreed to write a letter to the library thanking it for this service, which the chamber members will support.

Roy Welson reported on current plans for the No. 2 lake near the interstate highway. He said that the committee had voted on a five-year plan for the development.

Members discussed the proposed location of the airport and it was decided that a public meeting will be arranged at Heyburn with airport committee officials.

Leo Handy reported on meetings held concerning a new highway connecting this area with towns on the north. He said a meeting will be held Nov. 18 at Arco with officials of that area and representatives from chambers throughout Magic Valley.

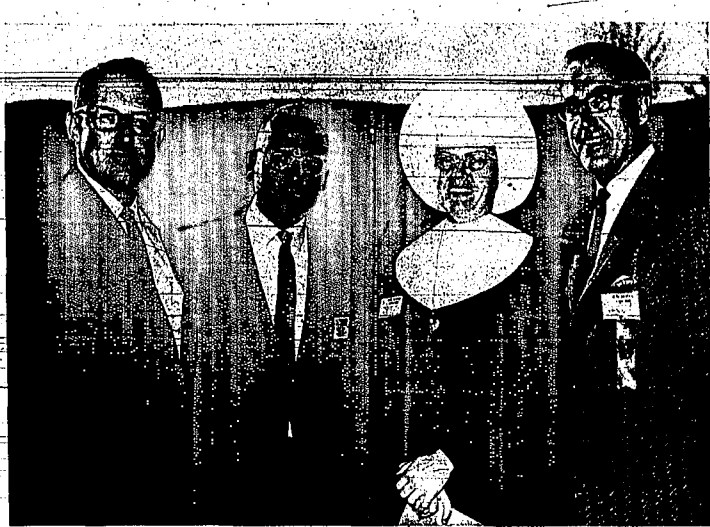

The annual turkey shoot was discussed and it was agreed that a meeting should be held next week with representatives of local organizations and churches to see if this event will be supported before final plans are set up.

This chamber will be represented at the state chamber workshop to be held Nov. 14 at Boise.

Businesses requesting membership with the chamber this month include Jolly's 66, Mac's Market and Mini-Casella Equipment. The Idaho Portland Cement Co. was accepted as a new member.

HEAD NAMED
WASHINGTON (AP)—Vice Adm. Paul E. Trimble, assistant commander of the Coast Guard, will head a government task force to develop plans for establishing a Cabinet-level Department of Transportation.

NATO Alliance and Soviet Bloc Are In State of Profound Transformation

By LEON DENNEN

NEW YORK (NES)—Behind President Johnson's current efforts to improve U.S. relations with Communist East Europe there is the incontestable fact that Russia's satellites are reaching out for greater independence.

In 1946 Stalin was strong enough to prevent Poland and other East European countries from joining the Marshall Plan for economic aid. For a decade Russia was the undisputed ruler of East Europe.

But history has moved fast in the last 10 years. It was in October 1955 that Hungary's Freedom Fighters rose in revolt against their Moscow-dominated regime. Anti-Russian uprisings had occurred in East Germany in 1953 and in Poland at the beginning of 1955. But the heretic Hungarians—first demonstrated clearly to what extent Communist dictators are vulnerable in the countries they rule by force.

If Russia's ex-premier, Nikita Khrushchev had not sent in his ultimatum to crush the rebels and kill their leader, Imre Nagy, the whole edifice of Red power in East Europe might have collapsed.

However, though Russia's Red army could crush the Hungarian revolution it could not turn back history.

Even Janos Kadar, who was installed by Moscow to replace the murdered Nagy, realized that in order to stay in power he would have to come to terms somehow with the Hungarian people.

When he finished executing and jailing the leaders of the revolution and deporting young rebels, Kadar turned to new "liberal" policies. His primary task was to make communism more tolerable to the Hungarians, and to make his regime look more respectable to the West.

Hungary in 1956 is not the country it was 10 years ago. While it is still a one-party dictatorship, much of the practical power is gravitating to administrators and technicians from the old middle class.

Despite a chronic economic crisis and agricultural shortages, there is now a greater abundance of consumer goods in Hungary. Daily life has become easier.

In the cultural field Hungarians now enjoy an open window to the West and vastly increased personal contact with the non-Communist world. This is true of other East European countries, especially Rumania.

All this new "liberalism" is direct result of the Hungarian revolt. It made the Red rulers realize that they were building

violence to crush the rebels and kill their leader, Imre Nagy, the whole edifice of Red power in East Europe might have collapsed.

However, though Russia's Red army could crush the Hungarian revolution it could not turn back history.

Even Janos Kadar, who was installed by Moscow to replace the murdered Nagy, realized that in order to stay in power he would have to come to terms somehow with the Hungarian people.

When he finished executing and jailing the leaders of the revolution and deporting young rebels, Kadar turned to new "liberal" policies. His primary task was to make communism more tolerable to the Hungarians, and to make his regime look more respectable to the West.

Hungary in 1956 is not the country it was 10 years ago. While it is still a one-party dictatorship, much of the practical power is gravitating to administrators and technicians from the old middle class.

Speculation On Bombing Halt Is Seen

OMAHA, Neb. (AP)—Vice President Hubert H. Humphrey voiced belief today that President Johnson and other top U.S. officials would give careful attention to a suggestion to suspend bombing of North Viet Nam during the forthcoming Manila conference.

In addition, Humphrey said at a news conference during a refueling stop at Omaha, he didn't think North Viet Nam should watch the forthcoming elections as a signal of how the American public is supporting the administration in the war effort.

The vice president was reminded at the news conference of the Philippine government suggestion for a pause in the bombing while the conference is going on.

"I have a feeling that matter will be given very careful attention," by the President, Secretary of State Dean Rusk and other high U.S. officials, Humphrey said.

Members discussed the proposed location of the airport and it was decided that a public meeting will be arranged at Heyburn with airport committee officials.

Leo Handy reported on meetings held concerning a new highway connecting this area with towns on the north. He said a meeting will be held Nov. 18 at Arco with officials of that area and representatives from chambers throughout Magic Valley.

The annual turkey shoot was discussed and it was agreed that a meeting should be held next week with representatives of local organizations and churches to see if this event will be supported before final plans are set up.

This chamber will be represented at the state chamber workshop to be held Nov. 14 at Boise.

Businesses requesting membership with the chamber this month include Jolly's 66, Mac's Market and Mini-Casella Equipment. The Idaho Portland Cement Co. was accepted as a new member.

HEAD NAMED
WASHINGTON (AP)—Vice Adm. Paul E. Trimble, assistant commander of the Coast Guard, will head a government task force to develop plans for establishing a Cabinet-level Department of Transportation.

CLYDE'S RADIATOR SHOP
The ONLY Shop in Twin Falls devoted exclusively to the RADIATOR TRADE
245 Washington 723-4080

REMEMBER WHEN?
EVENTS IN TWIN FALLS 50 and 30 YEARS AGO
as recorded in The Twin Falls Chronicle, Twin Falls News and Idaho Evening Times, right in your own back yard.

50 YEARS AGO
The county poor farm was sold last week to J. W. Taylor for \$100 per acre. There were six bidders. The farm contains 40 acres.

Edward Thompson is married here Saturday. Robert Rogers and Miss Ethel E. Clark of this city were present. In the presence of a few friends, at the home of Mrs. Donnell, and at once left for home for a short honeymoon trip.

A new delivery van is now on exhibition at the Glycerin Bros. Motor Shop. This van, a 1917 auto cycle, has been sold to the Modern Market for their delivery service. These vans are used exclusively in large cities.

30 YEARS AGO
Miss Millicent Elshage, Miss Barbara Young, Frank Bentley and Lewis Bonham, students at Whitman College, Walla Walla are returning to the college this week, after spending the spring vacation with their parents.

Howard Anna of Twin Falls "the best young farmer in Idaho" and the best public speaker among the future farmers of the far West. He received this award in Portland and received \$150 for his farming ability and \$20 for his talking talent.

Admission's choice in a new car this year is the beautiful new Imperial. And we can offer you the best deal on the model of your choice in this brilliant new line. You can check our higher trade-in and lower loans.

Humphrey Set For Second Utah Visit

SALT LAKE CITY (AP)—Vice President Hubert H. Humphrey was scheduled to make another visit to Utah today—his second within the past six weeks.

Humphrey was to arrive at the Salt Lake City Municipal Airport shortly after noon and conduct a short press conference before flying to Provo to make a brief speech at Brigham Young University.

Joining the vice president on his 45-mile flight to Provo will be Gov. Calvin L. Rampton, Sen. Frank E. Moss and other Democratic officials and office-seekers.

Humphrey was scheduled to speak in the George Albert Smith Fieldhouse at Provo and then answer questions from a selected group of faculty and students.

He was to be introduced at the BYU assembly by Hugh B. Brown of the first presidency of the LDS Church.

School officials dismissed all 2 p.m. classes to allow students to hear the vice president's speech.

Humphrey was in Salt Lake City last month where he spoke at the American Mining Congress convention.

CHARGES FILED
SEATTLE (AP)—Manslaughter charges were filed Thursday against Mr. and Mrs. Miles Parmenter, both 29, in the death of 4-year-old Dalia Marie Davis, a 6-month child.

The youngster died Sept. 27. An autopsy showed the body bore more than 150 bruises.

Deanery Meet Is Scheduled In Hailey

HAILEY — The Twin Falls Deanery of the Idaho Council of Catholic Women will hold its fall meeting Thursday at St. Charles Catholic Church, Hailey.

Members of the society and the altar society of Our Lady of the Snows Church, Ketchum, are making final arrangements to host the meeting.

Mrs. Mary McGonigal, deanery president, said Mass is at 9 a.m. in St. Charles Church, followed by a workshop session and a luncheon in the recreation hall. The benediction will be given at 3 p.m. by Rev. Francis DeNardis.

Theme of the meeting is "Ecclesiology - the Work of the Holy Spirit."

Mrs. John A. Davies is chairman of the luncheon committee. Members of Our Lady of the Snows Church are in charge of registration and decorations.

Parishes of the deanery include Twin Falls, Rupert, Burley, Hazelton-Eden, Ketchum, Hailey, Dubois, Wendell, Gooding, Shoshone, Hailey and Ketchum.

Date Changed

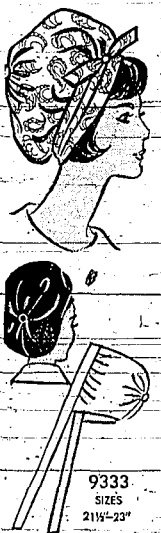

GLENNIS FERRY — Members of The Modern Homemakers have changed the time and date of their regular meeting to 7:30 p.m. Monday in the home economics room of the high school.

Guest speaker is Margaret Nibbrig, home service advisor for the Idaho Power Co. She will demonstrate new electrical appliances.

Everyone is welcome.

Pre-registration with Mary Lou Ruby is required.

Newlyweds Are Honored At Reception

VIEW — A wedding reception honoring newlyweds, Mr. and Mrs. Grant E. Asher, was held Sept. 10 in the View LDS Cultural Hall.

The bride, the former Mervina Marie, is the daughter of Mr. and Mrs. Howard Haley, Pilon Rock, Ore. The groom is the son of Mr. and Mrs. Donald Carlos Asher, View. They were married Sept. 10 in Pendleton, Ore.

The couple greeted guests before an archway entwined with wisteria and enhanced with pink satin bows and white wedding bells. The arch, flanked by beauty baskets of pink carnations, gladioli and white chrysanthemums.

The bride wore a floor-length gown of lace over satin. The full skirt featured a tiered panel of lace to the floor in the back and two tiers on the front panel. The fitted bodice was designed with a rounded neckline and long white sleeves.

A queen's crown, enhanced with seed pearls, held her elbow-length veil of nylon illusion. She carried a cascade bouquet of pink and white carnations accented with satin ribbon and lace streamers.

Mrs. Donald Asher was matron of honor and Marlene Asher was bridesmaid. Best man was Donald Asher, brother of the bridegroom.

Guests were registered by Mrs. Forrest Helms, sister of the bridegroom. Gifts were arranged by Mrs. William J. Kunzler, Mrs. Rodney Anderson and Mrs. Roger Woodbury, cousins of the bridegroom. Gifts were carried by Eugene Woodbury, Clayne Woodbury, Carlene Woodbury and Ronald Asher.

Refreshments were prepared by Mrs. John W. Taylor, Mrs. Elmer Anderson, Mrs. Jess Elmer, Mrs. Milton C. Payne, Mrs. John Koyle and Mrs. Jerold Anderson.

Serving were Peggy Searle, Brenda Wirtz, Elaine Howard, Debbie Smith and Kathy Wayment.

The three-tiered wedding cake was centered on the bride's table. It was decorated with pink roses and topped with a miniature bride and bridegroom set in lattice work and tulle. The cake was served by Mrs. Edwin E. Anderson, aunt of the bridegroom.

Bishop, Milton C. Payne was master of ceremonies for the program. Prayers were given by Beldon Anderson, uncle of the bridegroom.

"The couple will reside in Herndon, Ore., where the bridegroom is employed on the police force."

Social Events

HAGERMAN — Genevieve Grubbs Circle of the Hagerman Methodist Church will meet at 2 p.m. Wednesday at the church. Thelma Butts is in charge of the program. Corrine Caldwell is hostess.

Charm Course Offered for Valley Women

"Every woman has the potential for beauty," says Judy Aldape, instructor for "personal grooming," a charm course now being offered at the College of Southern Idaho.

Available now to the first 15 girls and women who sign up is a complete course that helps to solve beauty problems, corrects misconceptions about beauty, and changes negative attitudes into positive ones.

Many failures in social life and in the business world are due more to fears of personal inadequacy rather than training. This six-week evening course will offer advice on self improvement, how to eat correctly, dress right, correct make-up application, advice that gives a new sense of confidence.

Hansen Women's Club Convenes

HANSEN — The First Psalm was read as the opening exercise at the Rock Creek Northville Club meeting at the home of Mrs. Glenn Galt, Mrs. Gale Windle and Mrs. Jess Posey were guests.

A bridal shower was planned for the next meeting. Honorary Mrs. Raymond McKinister Jr. was presented a gift for having perfect attendance at club meetings during the past year.

Mrs. Elsie Henry was program chairman and presented games, with Mrs. Posey, Mrs. Neil Bradshaw, Mrs. Windle and Mrs. Capitola Larsen winning prizes.

Presbyterian Women Attend WSCS Luncheon

WENDELL — Members of the United Presbyterian Women's Organization were guests of the Woman's Society of Christian Service at a luncheon at the Methodist Church Dining Room.

Mrs. Bess Edwards and Mrs. Irene Miller greeted the members and guests.

Luncheon tables were decorated with arrangements of zinnias and asters. Arrangements of dahlias and by were used for the room decoration.

"The theme of the day and program was 'God, Who Touches Earth With Beauty.'"

Mrs. J. H. Freeman, president of the WSCS, gave the address of welcome. Introduced were Rev. and Mrs. E. J. Hargrave, Mrs. Jack Tennings and Mrs. Harold F. Holsinger, vice president of the UPW, who responded for the guests.

Mrs. Faeth Eaton used the theme of the day in the presentation of the devotional service. Mrs. Loyal Crosby, accompanied by Mrs. Barton, sang the theme song. Mrs. Crosby led the group singing.

Colored slides were shown and narrated by Alonzo Brown. Members of the Ruth Robb Circle were in charge of the luncheon, with Mrs. Hazel Haviland, Mrs. Arthur Byce, Mrs. Fester Anderson, Mrs. Earl Lowry and Mrs. Cora Fritz in charge of arrangements.

The decorations and program were arranged by members of the Isabel Burdon Circle.

CHAPTER MEETS RICHFIELD — Mrs. Arvilla O'Donnell read the landmarks when the Richfield Chapter, Order of Eastern Star, met.

Mrs. Marie Pope and Mrs. Clifford Conner were refreshment hostesses.

Miss Trounson Is President Of Auxiliary

WENDELL — Bonnie Sue Trounson was elected president of the Junior Auxiliary of the American Legion Auxiliary Unit No. 41 at the afternoon meeting at the American Legion Hall.

Others elected include Peggy Morgan, vice president; Mary Trounson, secretary; Ellen Kay Bailey, historian; Cheryl Zollinger, chaplain; and Betty Lou Trounson, sergeant-at-arms.

Many Trounson, retiring president, presided at the election. The colors were advanced by Miss Morgan and Miss Zollinger.

Mrs. Joseph Spradger and Mrs. John Jackson, adult advisers, were present and served refreshments.

Plans were made for the November meeting. Cheryl Zollinger and Janice Zollinger are members of the refreshment committee. Members are asked to bring artificial flowers and gloves for the work project.

Prospective Members Feted

FILER — A tea for prospective new members of Future Homemakers of America was held at the Junior-Senior High School.

FHA members are selling five different cookbooks which may be obtained as a set or separately. The five books are on meat cookery, desserts, casseroles, vegetables and salads.

Linda Forrest and Betty Hawkins are on a committee which is looking at materials for uniforms for the members.

Students Give Music Program

Students of Wayne Winkoop, Gary Eldredge, Terry Killinger and Stan Ryals, presented the special music at the First Baptist Amoma Class meeting at the home of Mrs. Carl Benson.

The devotional service was presented by Elizabeth Uhler. Letters were read by Martin Turner and Gladys Hall from past members of the Amoma Class that were unable to attend the unit's 55th Anniversary luncheon.

Refreshments were served by Mrs. Benson, Grace Tilly and Ada Miracle.

Bidding Asked on City Equipment

Sealed bids for a truck and
tractor for the Parks Depart-
ment will be received at the City
Clerk's office until 7 p.m. Thurs-
day, Nov. 3.
A one-ton truck with flat bed
and hoist, less (trade-in) of a 1955
one and one-half-ton Dodge
dodge truck, and a gasoline-pow-
ered (turf-type tractor) with
drawbar, minimum 30 horse-
power at the drawbar, are need-
ed.
Bids will be opened at a
meeting of the City Commission-
ers at the time designated.

REACHING SKYWARD, flames from a hay fire approxi-
mately six miles west of Twin Falls were seen for several miles
Thursday night. The fire, of an undetermined origin, was re-
ported to the Twin Falls County Sheriff's office at 2:35 a.m.

Free

LEADERS—Some 40 per-
sons here got their winter
supply of potatoes free when
a trailer loaded with 20,000
pounds of Idaho russets up-
set on Idaho Highway 28
near here.
Elvin Albiston, Idaho state
policeman, said the spuds
were given away to persons
in the area rather than be
left on the highway over-
night to freeze.
Gary Gokev, 70, Idaho
Falls, was on his way to
Reburg Wednesday with
the load when the trailer
hit his truck was pulling over-
turned, dumping the potatoes
onto the highway.
Persons flocked to the
scene to pick up the spuds.

Kellogg Mine Slated for Deepening

KELLOGG, Idaho (AP)—The
nation's largest silver mine, and
deepest in the Coeur d'Alene
Mining Area—the Sunshine Mine
here—will be deepened to at
least 6,300 feet.
Sunshine-Mining Co. officials
said this week that the deep-
ening project would put the shaft
down to about 3,300 feet below
sea level. The No. 10 shaft of
the mine is at the 5,100 foot
point now.
James B. Colson, manager of
the mine, said sinking operations
are to be resumed next month
with the 5,700 foot level the im-
mediate target.
Mine officials said installation
of a new service hoist in the
No. 10 shaft from the 3,700 foot
level on down, and enlargement
of the shaft to four compart-
ments, will make possible an
increase in the mine's present
production to 700 tons of ore
daily.
Colson, the firm's chief geolo-
gist, said he sees no reason why
the ore shouldn't extend at least
that deep.

Cincinnati Police Alert After 5th Murder Report

CINCINNATI, Ohio (AP)—ly on the head and face with a
blunt object, raped and strangled
with whatever was at hand.
The body was discovered by a
nephew, Robert C. Winstel, who
said he went to the home when
he couldn't reach his aunt-by-
telephone.
A chain lock on the apart-
ment's kitchen door had been
broken. All the other doors and
windows were locked.
Police said this was the first
time the killer had used force to
gain entry. The other victims
were caught in surprise attacks
either in their apartment build-
ing or outside.
Nothing appeared to be stolen, po-
lice said.
FARMERS
Have to contract 14 acres
new shortle fall barley. Out
yields present fall barley
by 10%. Contact ...
GLOBE SEED
& FEED CO.
Twin Falls, Idaho
733-1373

The attack took place about
two miles from the scene of
three of four previous rap-
ist strangulation murders, the first
of which occurred last Decem-
ber.
"It's an exact copy of the others,"
said Detective Chief Jacob
Schott.
"She looked exactly like the
others," another veteran detec-
tive said. "There's no doubt
about it."
Police said the aspects of the
five slayings were the same.
Each victim was beaten severe-
ly.

Washington State Newsmen Dies

AUSTIN, Tex. (AP)—Frank
M. Dallam, former Washington
State newsmen and secretary to
three Washington governors,
died in Austin Thursday. He
was 68.
He served Washington Govs.
Albert E. Mead, Samuel C.
Congrove and M. E. Hay in
1907-1913.
Dallam once was editor and
publisher of the Kootenai Tri-
bune at Kelso, Wash.; chief edi-
torial writer for the Spokesman-
Review in Spokane and worked
for the Seattle Post-Intelligen-
cer and the Wenatchee Daily
World, Wenatchee, Wash.

**Santa Claus Reject Shows
186-Pound Weight Loss**
MILWAUKEE, Wis. (AP)—
Herbert A. Cohn was so fat he
couldn't get into a store door
wouldn't let him be Santa Claus.
Once he was refused service
at a hot dog stand. "You know,
mister, you shouldn't take any-
thing," the waitress said.
"You're really not hungry."
His wife nagged him. So did
everyone else.
Herb Cohn weighed 376
pounds.
"I was told by everyone, even
my enemies, to lose weight."
How had it been, said
Cohn, 43, a Skokie, Ill., busi-
nessman.
Today, Herb Cohn weighs 186
pounds.
"I was sitting alone in my
living room on a Saturday after-
noon in October two years ago
I was probably eating. Anytime
I saw an article in the paper, I
said if you want to lose weight
call this number. I did. I don't
know why. You never know
why," Cohn said.
The telephone call was the
beginning of Cohn's commit-
ment to TOPS Club, Inc., a non-
profit organization dedicated to
"taking off pounds sensibly."
The organization's 160,000
members count calories collec-
tively in a group therapy ap-
proach to obesity.
Cohn had tried dieting before.
He had 235 pounds packed on
his 5-foot-9 frame when he en-
rolled at Wabash College before
World War II and tried to make
his mark as a football player.
The coach insisted he lose
weight so he dropped to 175
pounds.
"I was a perennial sub after
that," Cohn said. "I was too
weak to play."
Not long before joining TOPS,
Cohn bought a suit with a size
30 waist.
It took him 20 months to lose
almost 180 pounds.

Bids Open for City Insurance

Sealed bids on annual blanket
liability and fire insurance will
be received by the city of Twin
Falls, City Clerk's office, until
5 p.m. Monday, Nov. 21.
The fire insurance will cover
approximately 130 city vehicles.

Idaho Favored to Make It Three in Row Over WSU

MOSCOW, Idaho (AP) — Ray McDonald and his University of Idaho football team are in a nearby University of Washington in an non-conference football game. The big fullback from Caldwell, Idaho, ranked No. 3 in the nation in rushing with 669 yards, is expected to lead the Vandals to their third straight victory in the 69th annual "Battle of the Palouse" against Washington State.

Faison Says 'Machine' Controls Him

MIAMI, Fla. (AP) — Earl Faison joined the Miami Dolphins Thursday and said he would have departed the San Diego Chargers' roster earlier for a pro football "machine" that controls player movements.

After playing out his one-year option with the Chargers, the 265-pound defensive end said he was approached by other clubs at the end of last season.

"The machine went to work to keep me from going," Faison said. "The politicians left me just one choice—San Diego. So I went back."

Faison declined to go into detail on the "machine" or on his troubles with Sid Gillman, the Chargers coach, who dropped him last week with no explanation.

"I don't want to carry on a feud with Gillman. I'm not the violent type except on the football field."

After two weeks on the injured roster with muscle spasms in his back, Faison was reactivated for last Sunday's game with the Dolphins.

BYU Must Beat New Mexico to Hope for Share of WAC Crown

Defending champion Brigham Young University tangles with New Mexico Saturday in a football game which the Cougars must win if they hope to retain even a share of their Western Athletic Conference crown. After winning three non-conference titles, BYU fell before Arizona State, 10-7, in its initial league test last week.

Discontent Splits Detroit and Coach

DETROIT (AP) — The rumbling discontent among the Detroit Lions broke out anew this week—this time in a verbal exchange between team captain Alex Karras and Coach Harry Gilmer. Disenchanted with the team's performance in its 45-14 loss to Baltimore Sunday, Gilmer said he talked to the team about not getting ready to play.

But Gilmer denied reports that he had threatened to put the entire club on waivers.

"I know for a fact that Gilmer wanted to put me on waivers," said Karras, the National Football League club's star defensive tackle.

Karras said Gilmer "directed" most of his yelling and screaming at me. I know why. He wants to strike fear into the other ball players. But I'm not a whipping dog. All I want to do is play football.

Gilmer said there was an exchange of words Tuesday with Karras, adding: "I'm not saying what was said."

"You've got to let me direct my team without all this fanfare," he added. "I just did what any coach does when his club wasn't ready to play."

Russ Thomas, director of player personnel, said the idea of placing Karras on waivers was "ridiculous."

"Harry, I understand said 'Just you play football or he gone,'" said Thomas. "It was a dressing down for the performance a week ago, like Don Shula gave his Baltimore team and George Halas gave the Chicago Bears after their bad ones this season."

Karras said Gilmer told the team at the end of practice: "If we didn't want to perform, he would get rid of us."

"I asked him the question if he was going to put all of us on waivers," Karras said. "He thought I was playing halfway decent football for him. I'm disappointed with myself."

Earlier this season, fullback Joe Don Looney was traded to Washington after being suspended by Gilmer for refusing to re-enter a game against Atlanta.

Veteran fullback Nick Pietrosante was released early this year amid some criticism. End Gail Cogdill was fined \$1,000 and suspended during the summer for criticizing Gilmer at an off-season banquet.

Two Basketball Players Report 'Feelers' From Pro Grid Teams

BOSTON (AP) — Pro football players who have settled their internal squabbles with the merger of the National and American leagues. Now looms a big question: Does it plan occasional raids on pro basketball?

Two key members of the Boston Celtics, perennial champions of the National Basketball Association, reported Wednesday talks with NFL clubs about the possibility of switching to pro football.

John Havlicek, who led the Celtics to an eighth straight NBA title last spring, said he received an offer of \$10,000 to play flanker-back for the Cleveland Browns and a \$15,000 bonus to try to report to the Washington Redskins' training camp for a trial last summer.

Larry Siegfried, Havlicek's former Ohio State basketball teammate and another top player for the Celtics, said he had received "feelers" from an unnamed NFL club.

Havlicek, 26, and Siegfried, 27, told Bill McSwenny, basketball writer for the Boston Record-American of their pro football dealings. However, they emphasized they would give no further thought to football until after the basketball season.

In Cleveland, Browns' President Art Modell said that "no offer was made" to Havlicek, who tried out with the club as a tight end and was the last player to be cut before he joined the Celtics four years ago.

"John and I are good friends and he visited our training camp," Modell said. "Even since he turned pro (in basketball), I've kidded him, 'Why not give it one more try for kicks.'"

"It was a social get-together and I invited him to the double header on Aug. 26. There was no offer made, but anytime he would try to get out of the Celtics, we would be a real challenge."

Otto Graham, coach of the Redskins, confirmed that he had received "feelers" from an unnamed NFL club.

Havlicek, 26, and Siegfried, 27, told Bill McSwenny, basketball writer for the Boston Record-American of their pro football dealings. However, they emphasized they would give no further thought to football until after the basketball season.

House Gives Antitrust Immunity to Pro Leagues. Clears Way for Merger

WASHINGTON (AP) — The House Thursday granted the National American football leagues the antitrust immunity they wanted to go ahead with their merger into one league. In approving the merger, the House turned down a final protest by Rep. Emanuel Celler, D-N.Y., chairman of the Judiciary Committee, who wanted to probe its possible repercussions in extensive hearings. Final Senate approval is needed to send the measure to the White House, but that will just be a formality. The Senate has already passed the legislation twice unanimously and overcame Celler's opposition by taking it on to an anti-inflation bill as requested by President Johnson.

Coming and Going

Riches Filly Race Slated For Saturday

CHERRY HILL, N.J. (AP) — The richest winning race in history for a filly or mare race — \$117,612 — is expected to be run on the line Saturday when a probable field of 14 runs in the Garden State, a race that has produced the 2-year-old filly queen in seven of the last nine years.

The stables currently owning the top two previous first place earnings records for a filly or mare race have entries in the 1-1/16-mile Garden State at Garden State Park — Wheatley Stables and the interests of C. W. Whitney.

The Wheatley Stable, owned by Mrs. H. C. Phillips, picked up the highest dollar for such a race when, in 1964, its Queen Enpress won the Garden State. Mrs. Phillips collected \$112,854.

Before that the highest was won by the \$111,265 earned for Whitney in 1955 when his Silver Bright came home first in the Arlington-Huntington classic. On Saturday trainer Eddie Neloy saddles Irish queen for Mrs. Phillips, while I. G. Balding sends Flash House and Silver True after the big money for Whitney.

Irish County, winner of the Astoria in New York and beat by a nose in the Preakness, owns the 3-1 choice in what is considered a wide open race. Flash House and Silver True are coupled at 4-1 in the early line.

Odds-On WSU Team Is Rated Best in Nine Seasons

NEWBURY, England (AP) — The Duke of Norfolk realized the dream of the man in the street Thursday by hitting a horse race jackpot at odds of 11,183-1.

The wife of the premier duke of England picked the winners of all six races at the Newbury race track and collected \$7,828.20 for a 70-cent bet.

She was the only one at the course to hit the parimutuel jackpot.

PULLMAN, Wash. (AP) — Washington State University's basketball team, with nine interim returning, is rated by Coach Mary Harshman as the best team he has had during his nine years here.

The Cougars open the 1967 season Dec. 2 here in a contest with Gonzaga University.

In addition to his interim, Harshman has several promising sophomores and three junior college transfers to choose from.

Pro Grid Leagues Can Start Setting up Football Playoffs

NEW YORK (AP) — The wheels started spinning when the pro football merger finally got the green light from Congress. The first matter of business for the joint committee of National Football League and American Football League owners undoubtedly will be the date of the Super Bowl game between the two champs. With the AFL title game set for Monday, Dec. 26, in the home park of the Eastern Division winner, and the NFL championship slated for Sunday, Jan. 1, in the home stadium of the Eastern Conference winner, the logical date would be Sunday, Jan. 8.

However, the NFL already has the Playoff Bowl at Miami between the two runners-up teams in the league set for Miami on Jan. 8 with television commitments.

Nobody knows what sort of compromise might be worked out. Much depends on the TV network which will win the rights to the Super Bowl game. It is likely the game will be held the weekend of Jan. 7-8 with either this game or the Playoff Bowl winding up at night.

They have talked about the Rose Bowl, the Sugar Bowl, the Orange Bowl and the Astrodome as the site. If you have to make a guess, take the Rose Bowl, although some college authorities will not be happy.

The NFL's Pro Bowl in Los Angeles and the AFL All-Star game in Oakland are supposed to be played Sunday, Jan. 15 but that presumably could change. However, it is unlikely they would wait that long to play the Super Bowl when the AFL winner will have been decided Dec. 26. If there is a tie game, the game will be played another playoff, they may be playing until baseball opens spring training.

San Diego State climbed one place to third after losing San Jose State 25-0. Chattanooga jumped six positions to fourth. The Moccasins beat Middle Tennessee State 5-0.

Saturday to Decide Small College Poll

By The Associated Press

The winner of Saturday's big game between North Dakota State and North Dakota is likely to finish on top in The Associated Press' final small-college football poll. The loser's chances won't be worth a plugged nickel.

The meeting at Grand Forks, N.D., matches the two top teams in the latest poll. The victor will take possession of the Nickle Trophy, an 86-pound aluminum replica of the 1937 nickel which has a buffalo on one side and an Indian head on the other.

The Blison of North Dakota State, winner of 22 straight, colored eight first-place votes and 141 points in the balloting by a national panel of 15 sports writers and broadcasters based on games through last Saturday.

The North Dakota Sioux held second place, accumulating 114 points on a basis of 10 for a first place vote, 9 for second or 5 for third or 1.

North Dakota State beat Augustana, S.D., 28-0 last weekend for its sixth victory of the season. North Dakota walloped South Dakota State 43-0 for a 5-0 mark.

San Diego State climbed one place to third after losing San Jose State 25-0. Chattanooga jumped six positions to fourth. The Moccasins beat Middle Tennessee State 5-0.

Lincoln Hopes For Early KO

NEW YORK (AP) — Amos (Big Train) Lincoln, a heavyweight in a hurry, said Thursday he will be gaining for a knockout against Johnny Gerard at Madison Square Garden Friday night as he can catch a midnight plane for Los Angeles.

"I don't like to predict knockouts, but I think I can catch a midnight plane for Los Angeles," said the third-ranked heavyweight contender from Los Angeles.

Lincoln, 34, is coming to try for one from the opening bell in this one. I'm moving into a new house in L.A. Saturday morning and I want to be there in plenty of time.

On the basis of his record, his ranking status, and a big edge in weight, height and punching power, Lincoln figured to be a strong favorite over his New York rival, a fresh graduate of the 175-pound, light heavyweight class.

But he's not. The 10-round fight was ruled even money. Earlier in the week, Gerard, the No. 11 light heavyweight contender, was a 7-5 favorite.

Pro Grid Leagues Can Start Setting up Football Playoffs

NEW YORK (AP) — The wheels started spinning when the pro football merger finally got the green light from Congress. The first matter of business for the joint committee of National Football League and American Football League owners undoubtedly will be the date of the Super Bowl game between the two champs. With the AFL title game set for Monday, Dec. 26, in the home park of the Eastern Division winner, and the NFL championship slated for Sunday, Jan. 1, in the home stadium of the Eastern Conference winner, the logical date would be Sunday, Jan. 8.

However, the NFL already has the Playoff Bowl at Miami between the two runners-up teams in the league set for Miami on Jan. 8 with television commitments.

Nobody knows what sort of compromise might be worked out. Much depends on the TV network which will win the rights to the Super Bowl game. It is likely the game will be held the weekend of Jan. 7-8 with either this game or the Playoff Bowl winding up at night.

They have talked about the Rose Bowl, the Sugar Bowl, the Orange Bowl and the Astrodome as the site. If you have to make a guess, take the Rose Bowl, although some college authorities will not be happy.

The NFL's Pro Bowl in Los Angeles and the AFL All-Star game in Oakland are supposed to be played Sunday, Jan. 15 but that presumably could change. However, it is unlikely they would wait that long to play the Super Bowl when the AFL winner will have been decided Dec. 26. If there is a tie game, the game will be played another playoff, they may be playing until baseball opens spring training.

San Diego State climbed one place to third after losing San Jose State 25-0. Chattanooga jumped six positions to fourth. The Moccasins beat Middle Tennessee State 5-0.

Perm, Purdue Men Maintain Point Leads

NEW YORK (AP) — Perry Williams of Purdue and Cabot Knowlton of Pennsylvania, who didn't score a point between their last season, share the national scoring lead for the country's major college football teams.

Figures compiled by the National Collegiate Athletic Association Service Bureau Wednesday show each has nine touchdowns and 54 points.

Williams, a 183-pound sophomore, played only on defense last year. He is bidding to become the Big Ten's first national scoring champion since Tommy Harmon in 1940. Knowlton, a 177-pound tailback, is a transfer from Florida State who sat out all of last season.

Gary Behan and Mel Farr, teammates at UCLA, are next in line with 44 and 42 points, respectively.

Jack Clancy of Michigan and Doug Flansburg of Washington State share the pass receiving lead, each with 40 receptions. Clancy's have been good for 525 yards, compared with 425 for Flansburg.

Doug James of Princeton continues to lead in punt returns with 265 yards, while Marcus Rhoden of Mississippi State leads in kickoff returns with 377 yards.

Extra!

Here's extra flavor and aroma too good to miss. Half and Half pipe tobacco in a filter cigarette.

OUT FOR YEAR

MIAMI, Fla. (AP) — The Miami Dolphins said Thursday that flanker John Roderick will undergo surgery for a back injury and may be out the rest of the season.

UNSTOPPABLE BIG 6

For unstoppable, grab-hold-and-go power, professional 4 wheelers depend on the TOYOTA LAND CRUISER. It's the rugged power that goes where the others get hung up. Only TOYOTA — world's champion of 4 wheel drives in 78 countries — gives you the BIG 6.

- TRADE UP TO TOYOTA AND GET THE BIG 6:
- 1. POWER 6 cylinder, 135-hp astutishness engine
- 2. SPEED cruises 55 mph on the highway all day long
- 3. SPACED OUT only 4-wheel drive that climbs 67% grade
- 4. HILLO CLEARING forward, 6 reverse gear combinations
- 5. RUGGEDNESS heavy duty, tank-tough TOYOTA construction
- 6. COMFORT carries 7 men on foam rubber seats, plus gear

Pro Grid Leagues Can Start Setting up Football Playoffs

By The Associated Press

NEW YORK (AP) — The wheels started spinning when the pro football merger finally got the green light from Congress. The first matter of business for the joint committee of National Football League and American Football League owners undoubtedly will be the date of the Super Bowl game between the two champs. With the AFL title game set for Monday, Dec. 26, in the home park of the Eastern Division winner, and the NFL championship slated for Sunday, Jan. 1, in the home stadium of the Eastern Conference winner, the logical date would be Sunday, Jan. 8.

Saturday to Decide Small College Poll

By The Associated Press

The winner of Saturday's big game between North Dakota State and North Dakota is likely to finish on top in The Associated Press' final small-college football poll. The loser's chances won't be worth a plugged nickel.

The meeting at Grand Forks, N.D., matches the two top teams in the latest poll. The victor will take possession of the Nickle Trophy, an 86-pound aluminum replica of the 1937 nickel which has a buffalo on one side and an Indian head on the other.

The Blison of North Dakota State, winner of 22 straight, colored eight first-place votes and 141 points in the balloting by a national panel of 15 sports writers and broadcasters based on games through last Saturday.

The North Dakota Sioux held second place, accumulating 114 points on a basis of 10 for a first place vote, 9 for second or 5 for third or 1.

North Dakota State beat Augustana, S.D., 28-0 last weekend for its sixth victory of the season. North Dakota walloped South Dakota State 43-0 for a 5-0 mark.

San Diego State climbed one place to third after losing San Jose State 25-0. Chattanooga jumped six positions to fourth. The Moccasins beat Middle Tennessee State 5-0.

Little Men to Carry Hopes Of Spartans

EAST LANSING, Mich. (AP) — The smallest Spartans of all — and two other little men — have big jobs to do Saturday when Michigan-State and Purdue fight for the Big Ten football lead.

Their mission: Keep Bob Griese's passes from winding up in the hands of the Big Ten's number one defense.

This is the task assigned to the J-squad—Jim, Jerry and Jess: Phillips, Summers, Jerry Jones and Jess Phillips of MSU's defense.

Jones is 5-foot-10 and 158 pounds; Summers 5-9 and 179 pounds; Phillips, the biggest of the three, but no giant in football—5-11 and 194.

They'll be fighting for the football with 6-foot-4 ends and blocking—whom? Indiana's 200-pound backs in the battle between the two ranked teams—Michigan State No. 2 and Purdue No. 3.

Mrs. Welts Shoves U.S. Into Lead

MEXICO CITY (AP) — Mrs. Ann Quast Welts, a Mt. Vernon, Wash., housewife, playing with a borrowed driver and a museum putter, fired a one-under-par 71 to send the United States into a one-stroke lead over Italy in the first round of Women's World Amateur Golf Championship Thursday.

Mrs. Welts' score bracketed with that of Mrs. Theodore Boddie, the former Barbara Fay White, of Shreveport, La., who shot a 74, gave the American a team total of 145.

Italy followed at 148 with defending champion France third at 147, followed by Canada and Belgium, tied at 150.

Teams of college players are competing over the 6,200-yard, par-72 Mexico City Country Club course. The best two scores of each team are taken daily for the official team tally.

Mrs. Welts, three-time U.S. national amateur champion, had a magical putting touch, using only 26 strokes on the damp, sluggish greens.

She used a putter, which previously she had given to the United States Golf Museum but asked back just before she came to Mexico.

Today's Market and Financial Report

Stocks

NEW YORK (AP)—The stock market held a small gain in moderate trading late today. Prices near the close included: United Aircraft, off 1/4 at 66; Boeing up 1/2 at 44; Canadian, off 1/4 at 73 1/2; Eastman Kodak, up 1/4 at 11; Du Pont, off 1/4 at 10 1/2; GM up 1/4 at 31 1/2; Xerox, off 1/4 at 158 1/2; Control Data, off 1/4 at 24 1/2; Texaco, up 1/4 at 73 1/2; United Technologies, off 1/4 at 44; and Lockheed, off 1/4 at 44.

Volume was estimated at 5.9 billion shares, compared with 6.3 billion Thursday. The market was mixed at the opening and then drifted lower before turning up. Price movements were mostly narrow, as investors moved cautiously before the weekend.

Eastern Air Lines lost more than 1 point and appeared likely to be the most active stock.

KLM Royal Dutch Air Lines advanced more than 4 points after losing 1 1/4 Thursday on announcement that it will issue \$14 million of new common stock.

Long-Term-Vought soared 7 1/2 to 43 1/2 after offering to buy 1 million of its common shares for cash and stock worth \$5 in share.

Control Data also was actively traded and fell about 2 points.

United Aircraft and General Dynamics declined more than a point.

Eastman Kodak advanced more than a point and Du Pont dropped about a point. Polaroid fell more than 2 points.

Paid advance in moderate trading on the American Stock Exchange.

"Your date looks NORMAL! What's wrong with him?"

BRIDGE BY JACOBY

FIRST TRICK
IMPORTANT ONE
What heart would you play from dummy at trick-one? This is somewhat of a trick question because most people will go into a long study about the relative merits of the deuce and the eight. Your plan will be to get East to play the king so that

East was in with the queen and had no problem with his play. He led the ten of hearts. Don ruffed and played a third round of trumps. East was in with the king and led another heart. Don ruffed and claimed misis of the deuce and the eight. Your plan will be to get East to play the king so that

your queen will become a trick but if East is silly enough to rise with the king instead of some intermediate card your chance of eight or deuce will be meaningless.

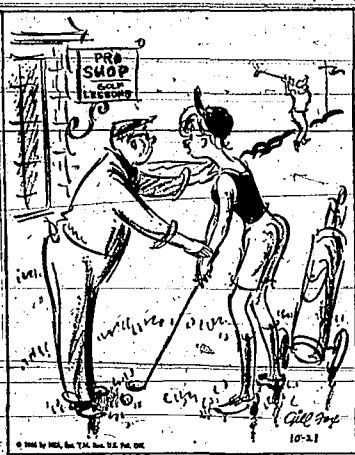

When Don Krauss of Los Angeles played this hand in a California tournament he called for the queen from dummy. East covered with the king and Don won with his singleton ace. Then he played ace and five of trumps.

Along Fences and Canals

Mr. and Mrs. W. L. Henderson have sold their ranch on the Snake River, west of King Hill, to Mr. and Mrs. John Robinson, Yerington, Nev. Mr. and Mrs. Henderson moved their trailer house to Glenn Ferry last week where they have bought some property and will make their home. The Robinson family moved from their home in Nevada to King Hill this week.

Mr. and Mrs. Charles Kast are moving their cattle from the Fire Grove Ranch near Fairlie to their 101 ranch east of King Hill. The Kasts have spent most of the summer at their Fire Grove Ranch. The cattle are being trailed from the ranch by Kast, Jim Bleivins, Ralph Gluch and Sam Myer. The cattle will be pastured along the way at Clover Creek and riders will ride later in the month to bring them in to pasture at the Kast Ranch where they will be fed during the winter.

Mr. and Mrs. John Davis are baling their cutting of hay at their ranch east of King Hill, and are also cutting some third cutting to bale.

Mr. and Mrs. Red Ellis sold a number of head of cattle at the Twin Falls Livestock sale last week. The Ellis farm is located east of King Hill.

J. McCoy Jones, Washington, D.C., is in the King Hill area on business pertaining to his ranch on King Hill Creek.

Harold Van Sickle has been cutting beans at his ranch south of King Hill, and is about ready to thresh.

Fish Creek is a popular camping and fishing area for Richfield people this month, although the deer seem to have migrated to the high country after the first two weeks of hunting season.

Farmers in Pasadena Valley, south of King Hill, are making preparations to start harvesting their beet crops. Beets will be hauled from the Lee Trail, Don Carnahan and William Trail ranches to the Glenns Ferry beet dump west of Glenns Ferry.

Bean farmers in west Richfield report bean yields of 22, 25, or 31 sacks to the acre this year and overall average of 20 sacks. Beans were a principal crop for many farmers from three miles northwest and through the Marley area.

John Schenk, 75, pioneer Richfield farmer, was injured at his ranch in northwest Richfield last Friday after his tractor pinned him between the machine and a building, breaking one of his legs. He had left the tractor running while he looked at some pipe, and it rolled down a small knoll, causing the injuries. Schenk, who lives alone, managed to free himself and get to his house to telephone a neighbor, Mrs. Orrin Capps. Mrs. Capps sought help from Lars Jensen, who moved Schenk to the Gooding Hospital. Capps is looking after Schenk's cattle.

Fred Miller, Tuttle, is plowing his sweet corn ground for planting next spring. Mr. and Mrs. Boyd Graves have finished stacking the hay they harvested of new seedling. Gene Turner has been having finished and is now harvesting the hay at the ranch of Mr. and Mrs. Ted Andrews and is in full swing this week at the ranch of Mr. and Mrs. Floyd Marsh.

F. V. Morrison, Murtaugh, recently sold a registered dapple gray Percheron mare, Idamara Chastelina V. to Wayne D. Flitting, Selah, Wash.

Harold Ward and Wallace Taylor, Almo, have completed trucking cattle belonging to Zenith Taylor to the Rupert sales yards.

Estimates Rise 20 Per Cent For Production of Potatoes

BOISE—Production of potatoes in Idaho is now estimated to be 60,715,000 hundredweight, according to the United States Department of Agriculture, based on reports from the Idaho Crop Reporting Service for Idaho.

This is up 10,115,000 hundredweight (20 per cent) from the Sept. 1 forecast due largely to the above normal temperatures during most of September. Production at this level would be one per cent smaller than the record high 1955 crop but 26 per cent above the 1950-54 average.

In the 10 Southwest counties, production is expected to total 9,100,000 hundredweight, or 15 per cent from the Sept. 1 forecast, above normal except for the east. Temperatures averaged 67.5 degrees during the first few days of September, but low average stands and early dry conditions, however, prevented the crop from taking full advantage of the extended growing season this year.

However, not all acreages in the area were able to take advantage of the extended growing season this year. Those fields already drying from Verdict Wolf as of Sept. 1, and fields severely hurt by the June 25 freeze did not show much growth during September.

Also, extremely weedy fields did not make more than usual gains. Largest increase were made on acreages not seriously hurt by the June 25 freeze which had good weeds and were free of weeds (usually on new land). Quality of these potatoes as indicated from early diggings is practically all fields were rolled, shredded, or sprayed by Oct. 1, harvesting the bulk of the 1956 crop was expected to start about Oct. 15-18 since it will take approximately that long for the crop to "set up".

Prices Climb In September For Farmers

BOISE—The Sept. 15 index of prices paid by Idaho farmers for all commodities and services, including interest, taxes and wage rates, was 136 per cent of the 1947-49 average, reports the Department of Agriculture Reporting Service.

This is the same level as June 15 and four points higher than the mid-September index for 1955.

The family living index was 132, one point above June 15 and seven points above mid-September a year earlier. Clothing and dry goods prices were slightly lower with auto supplies unchanged from the previous quarter. All other items show an increase.

The mid-September index of prices paid for farm production at 129 was up one point above the previous quarter, but four points above mid-September, 1955. Motor supplies and building and fencing materials showed a decline with the index for farm power and seeds unchanged from the previous quarter.

All other items showed an increase. The wage index was down 4 points from the June 15 index.

Lemhi County Crops Look Good

SALMON—Despite a summer-long drought, Lemhi County's agriculture picture is not as dark as it would appear to be, Russell Hillman, county agent, reported.

Hillman said the potato and grain crops look good and ranges have improved from rains in September.

Some cattle have been sold because of shortage of feed but ranchers are now holding onto their animals. The county has some 30,000 head of cattle.

The county was declared a drought disaster area, the past summer.

Magic Valley's Week-End Farm Paper

Oct. 21-22, 1966

Twin Falls Times-News 19

WITH COVER, destroyed by fire, thousands of acres of land south of here is easy prey to high winds which move the ash and topsoil. In this picture Clarence Hedrick, unit conservationalist, looks at drifts which have blocked a road in the area. The black on the soil was caused by a light snow which fell earlier but which promptly melted. The work under way in that area now through cooperation of the Soil Conservation Service and landowners is designed to rehabilitate the 25,000 acres of private land burned over. The land is located south of the Twin Falls area. (Times-News photo)

Soil Conservation Service, Ranchers Cooperate in Great Erosion Project

By O. A. (Gus) KELKER
Times-News Farm Editor
Without a doubt, it is probably the "biggest" erosion project of this nature ever undertaken in the history of the west.

It is the rehabilitation of more than 25,000 acres of private land south of here which was destroyed in the huge range fire which swept the area south of Twin Falls last August.

The rehabilitation program is now being rushed in an effort to beat the winter weather and get the work done before the snow comes.

The burn—37,000 acres of private land and a like amount of public land—was in the Twin Falls Soil Conservation District. The flames, battled for days by hundreds of ground workers and a dozen planes dropping chemicals, also destroyed 500 sheep, about 600 head of cattle, numerous deer and even 151 miles of privately owned fence.

Total damage to private land is estimated at over \$500,000.

Right after the fire, through Clarence Hedrick, unit conservationalist, and other soil district officials, it was requested that technicians make a study of the area as the initial step in bringing it back to production.

Most of the desirable plants have been destroyed and the problem was erosion. It was decided that to rehabilitate, the range it was necessary to seed grass on all the private land burned and, in addition, it was felt that contour ripping should be resorted to, thus permitting water penetration into the soil.

The supervisors of the Twin Falls district contacted Lee Morgan, Boise, state conservationalist, and he, in turn, urged that emergency funds be made available for the project. This request was granted and \$72,000 was made available for the project.

Other county candidates are: Walter Scott, St. Maries; Benedict Archibald, Blanchard; Bonner, Gil Hagen; Bonners Ferry; Bonduy, Russell; Lucas, Orofino; Clearwater; Victor and Richoltus, Cottonwood; Idaho; Earl Sears, Post Falls; Kootenai; Richard McQuire, Uniontown; Wash. Little; Charles and David Taylor, Nez Perce; Lewis, and Darrell and Lyle Kerby; Lenore; Nez Perce; and all of the northern district.

Representing the Western District are J. C. Warren, Boise.

Call for Men Made by ASC Committees

A call for the "best men available" to serve on the ASC Community Committees was issued today by Carl Boyd, chairman, Twin Falls County ASC Committee.

States of nominees for membership on the seven ASC Community Committees soon will be established at the ASC county office.

Nominating petitions will be accepted up to Nov. 7, however they may be filed any time before that date Boyd stated.

"Any local resident who is eligible to take part in one or more of the farm programs which ASC committees help to administer may vote in the election, may hold office as a committeeman regardless of race, color, creed or national origin."

Eligible voters may also nominate by petition, each petition may nominate one farmer and one non-farmer.

Those now at the check-off lists include the conservation of natural resources, stabilization of agricultural commodities, and price-support activities which protect and improve farm income.

"We need the best possible cross-section of farmers to insure effective administration of the various programs," Boyd added.

Further information regarding qualifications of committeemen is available at the ASC county office.

Soil Moisture On Watershed At Record Low

By D. A. (Gus) KELKER
Times-News Farm Editor
Watershed soil conditions— even at the high elevations— the driest since snow measurements were first taken and may even be the driest in the history of the area.

This situation is true at all 31 soil moisture sites scattered over the district. The snow-water conditions at the sites have been measured for the past 14 years and precipitation records are available before that time. In each case the soil is probably the driest in history for this time of year.

Because of this condition the survey activity will get under way a month earlier this season, coming on Dec. 1 instead of Jan. 1. The special measurement will be made so that if the dryness continues this fact will be made known to interested persons early in the winter.

Plans for the early reading were made in Twin Falls at a session, attended by M. O. Nelson, Boise state snow survey leader for the Soil Conservation Service; Clarence Hedrick, Twin Falls, SCD unit conservationalist; and W. H. Young, area conservationalist with headquarters in Pocatello.

Nelson told the Times-News that the moisture situation is "unusual" and pointed out that the soil is as dry at 6,000 feet as it is at 4,000 feet. Normally the moisture content would be three times as much at high elevations.

He pointed out that the long range forecast indicates the dry spell may continue.

"We are on the bottom of a long trend," he said. "The moisture has been steadily falling since about 1870. Although the moisture content would be three times as much at high elevations, it would take from 110 to 130 per cent of the average snow cover to provide a normal runoff."

On January 1 one-third of the snow pack is usually down and if this is not the case next year then there is every indication that the situation could turn critical.

Without adequate water the only way of meeting the situation would be to cut seeded land. A Times-News check shows that Salmon, Goose Creek (Oakley), Roscoy, Magic Little Wood and the Mackay reservoirs are all low at the present time and very little, if any, carryover will be in the cards. The situation next spring will depend on the snow this winter.

In the warmer areas of Idaho it is seldom necessary to hill up roses to protect them from cold, however, it is advisable to hill them up about 10 inches as an annual practice. Straw, hay or similar mulch should be placed over the mound, the time for providing this protection is before a heavy killing frost, but after the soil is frozen hard.

Tony Horn, extension horticulturist, says it is good practice to water trees and shrubs after they are dormant and before ground freezes. Much of the common winter damage from extreme cold is caused by drying winds.

If the tree or shrub has enough moisture in the soil to meet these demands, it has a better chance of surviving. Evergreens are particularly vulnerable to windburn, Horn says. He advises keeping their feet moist, providing a windbreak and shade from afternoon sun.

Six hundred head of cattle and numerous deer also perished in the blaze which covered 74,000 acres of private and public land. (Times-News photo)

Sugar Company Fills New Industrial Relations Post

OGDEN — Amalgamated Sugar Co. today announced the appointment of J. J. Christensen as the big beet sugar producer's new director of industrial relations.

Executive vice president Keith M. Orme said that 38-year-old Christensen assumes duties previously divided among several of the firm's operating and staff departments.

"He fills an important need for us," Orme said, "and it's doubly pleasing for us because Jim is a former Utah, one who seems quite happy to be back."

Christensen was a corporate manager of wage administration for Aerojet General Corporation in Los Angeles, and also assistant to Aerojet's vice president of industrial relations, before joining Amalgamated. He was born in Salt Lake City, attended high school in Huntington, Utah, and graduated from the University of Utah in 1951 with a degree in business administration.

His duties in the company's Ogden headquarters will encompass labor negotiations, salary and wage administration, professional recruiting, general employment and a variety of other personnel programs. Amalgamated's employment in Utah, Idaho and Oregon averages just under 1,000 and peaks at about 3,000 during the beet harvesting and processing campaign each year.

Christensen said the new position was "an exceptional opportunity" for him.

"Two aspects of the job that make me particularly enthusiastic," he said, "are the challenge of formalizing and administering a complete industrial relations program, and the opportunity to associate with a very fine management team."

A husky, blonde six-footer, Christensen is married and has two sons — Curtis James, 6, and Todd Stewart, 4. His wife, Barbara, also was born and raised in Salt Lake City, and attended the University of Utah. They reside in Ogden.

BOISE (AP) — Idaho's crop outlook improved during September but the U.S. Department of Agriculture said today production still is expected to be far short of that in 1965.

The all-crop production index was put at 156 as of Oct. 10, up 10 points from that a month earlier but nearly 20 points below the 1965 level of 172.

The only crop which showed a decline in probable production during the month was sweet corn. But that decline was more than offset by increased prospects for corn for grain, potatoes, sugar beets and apples.

Cold weather in early October may also have reduced prospective yields in some crops, the department said.

Output at this level would be 17 per cent above last year's total and 12 per cent above the 1964 - 64 average. Yield per acre this year, at 1,600 pounds, is 100 pounds above last year, but 170 pounds below average.

Total Told

BOISE — Dry bean production in Idaho is expected to total 2,448,000 hundredweight (clean basis), according to the USDA Crop Reporting Service for Idaho.

Output at this level would be 17 per cent above last year's total and 12 per cent above the 1964 - 64 average. Yield per acre this year, at 1,600 pounds, is 100 pounds above last year, but 170 pounds below average.

Rehabilitation work on public lands is being carried on by the U. S. Forest Service and the Bureau of Land Management. The SCS is working the private areas.

Harvest of Timber Sets New Record

SALMON — Timber harvest on the Salmon National Forest during the fiscal year 1966 amounted to 30,629,000 board feet.

Clifford Solberg, forester in charge of timber management, said the forest's timber harvest ranks third-of the 18 national forests in the Intermountain Region. Only the Boise and Payette forests cut more.

Solberg noted that 10 years ago the Salmon Forest's timber cut was only 13 million board feet.

The Salmon Forest's annual allowable cut is set at 69,000,000 of which 27,700,000 is considered to be economically operable.

Three firms process timber cut on the forest, Intermountain, Robinson and North Fork Lumber companies.

Holsteins Take Honors

RUPERT — Lee Stewart and sons, Rupert, took top honors in the Dairy Herd Improvement Association for September with their herd of grade Holsteins. Thomas E. Maberly, Rupert, had the highest breeding cow in the association, a registered Holstein.

B. T. Crandall, DHIA supervisor, reports a total of 23 herds were tested during September, including 791 milking cows. A total of 861,085 pounds of milk was produced, and 33,640 pounds of butterfat.

Average pounds of milk produced per cow was 1,122 and average pounds of butterfat produced per cow was 39, with 452 cows producing 40 or more pounds of butterfat.

Lorain, top cow in the association, owned by Thomas E. Maberly, produced 9,691 pounds of milk with a 4.6 percent butterfat.

A grade Holstein owned by Hillcrest Dairy Farms, produced 2,034 pounds of milk at a 4.7 test; and a grade Holstein owned by Hillcrest L.L. produced 2,164 pounds of milk at a 4.0 test.

No. 89, a grade Holstein also owned by Hillcrest, produced 1,891 pounds of milk for a 4.7 test; Spottie, a registered Holstein owned by Mrs. Marian McCall, produced 1,435 pounds of milk at a 3.3 test; Lou, a grade Holstein owned by Ralph Jurgensmeier, produced 1,384 pounds of milk at a 4.3 test; Donna, a registered Holstein, owned by Harold Nelson, produced 2,004 pounds of milk at a 4.7 test; and No. 39, a registered Holstein owned by Hillcrest Dairy Farms, produced 2,001 pounds of milk for a 4.7 test.

Highest herd averages, including dry cows, was a herd of 29 grade Holsteins owned by Lee Stewart and sons, producing an average of 51 pounds of butterfat from an average of 1,493 pounds of milk; a herd of 129 grade Holsteins owned by Hillcrest Dairy Farms produced an average of 48 pounds of butterfat from 1,405 pounds of milk; and a herd of 25 registered and grade Holsteins owned by Ralph Jurgensmeier, produced an average of 48 pounds of fat from an average of 1,392 pounds of milk.

Also a herd of 7 milking Holsteins owned by LaMont Smith produced an average of 46 pounds of butterfat from an average of 1,350 pounds of milk; and a herd of 84 Holsteins owned by John Thain produced an average of 47 pounds of butterfat from an average of 1,350 pounds of milk.

Winners of Coast Wool Show Named

PORTLAND — The Colorado State University at Fort Collins, Colo., won the grand championship at the Pacific International Livestock Exposition, Coast Wool Show, which opened Friday, Oct. 14. This beautiful fine fleece was an outstanding entry in the largest wool show in the United States.

The reserve champion was a low one-fourth blood fleece entered by Greg Knopf, Troutdale, Ore., and the champion medium wool award went to Bill Slaughter, Helena, Mont.

There were 435 fleeces entered in this year's wool show, according to Bruce Arnold, manager of Pacific Wool Growers, sponsor of the show. This year, again, the show was held in two sections, with the open glass show in the main exhibit area and the 411 and E.F.A. shows in the sheep barn.

A feature of this year's show was the National Corriedale Wool Show, being held in conjunction with the National Corriedale Show. These fleeces are also being shown in the sheep barn.

The grand champion of the 411 division was a beautiful grand champion of the P.F.A. division is an outstanding Targhee fleece entered by Stanley Pittman, Helena, Mont.

This year's judge, Jack Gibson, manager of Columbia Wool Scouring Mills, said the fleeces are of fine quality with several outstanding entries and of good variety, representing several regions of the United States. In his opinion, this is a very fine and worthwhile show.

Slaughter up

RUPERT — Seven Minidoka County 4-H youth, winners of livestock judging contest at both the county and district levels, participated in the Pacific International Livestock Exposition in Portland, Ore.

Making the trip were Martha Kramer, Norma Tucker, Jeanne Orlesini, George Montgomery, Monte Smith, Jeffery Bott and Tony Bott.

Team judges dairy and other livestock, including beef, sheep, swine and horses.

The youth were accompanied on the trip, which is sponsored each year by the Minidoka County 4-H Leaders Association, by Mr. and Mrs. Arlo Montgomery and Mr. and Mrs. Harry Tucker.

FEATURED ON STAMPS
CALCUTTA, India (AP) — The legendary abominable snowman of the Himalayas is featured on a set of postage stamps issued by Bhutan, an Indian protectorate.

Horticulturist Details Methods of Saving Vegetables From Cold Snap

MOSCOW — Anton S. Horn, horticulturist, University of Idaho Extension Service, says that you can save much of the flower and vegetable garden after the first cold snap.

When frost has cut down your dahlias but before a severe freeze, start digging the tubers. Cut off the stems within 6 inches of the ground. Lift the clumps with a fork. If the dahlias are growing on a heavy soil let the soil cling to the roots and store on the basement floor. If the soil is light, it will fall away from the roots. In that case, let the tubers dry a couple of weeks, then put into a carton and cover with vermiculite. Leave until spring at 45 to 50 degrees. Then move to a warm place to start sprouting.

Give your gladioli as long a growing season as possible. Just after a severe frost, dig and glaze. Cut off the tops to about six inches. Put each variety in a flat and label it. Sprinkle with DDT dust and let dry a few weeks in the basement.

The old corns will tend to separate from the new, so separate them and discard the old but keep the new, taking care not to take off the outer husk down to the fleshy corn. Save the corns for planting next year.

Just the corns with five percent DDT to combat thrrips and store at 40 to 50 degrees F. Place on trays so there is good air circulation. Some women place them in hose with runs in them and hang them in the basement and hang them in the basement with good success.

If you have tuberous begonias dig the tubers after a frost, leaving as much soil as possible on them and store for a couple of weeks. Then clean the tubers and pack in dry peat moss, vermiculite or other suitable material, and store until late April when it will be time to force them into growth again.

Cannas should be dug after a frost that cuts them down and stored in the potato cellar. Cut them back to six inches and let the roots dry. Store in a single layer in a box of peat, vermiculite or sand at 49 to 50 degrees F.

You can prolong many of the advantages of a home garden by two to six months if you store wisely.

If you have storage, keep it at 32 degrees for most vegetables. They don't freeze unless 30 degrees is reached. If you can't keep the temperature below 35 degrees, then, should be no attempt at storage. You can adapt cellars, basements, etc., for storage. Pit storage, bank cave or other place underground may be used.

Sweet potatoes — and winter squash keep well at 50 to 55 degrees F. If sweet potatoes are properly cured they can be kept until April or May at temperatures of 55 to 60 degrees. Freshly dug sweet potatoes should be cured for about 10 days under moist conditions at 80 to 85 degrees. The roots can be cured by placing near the furnace if temperatures near the furnace are 65 to 70 degrees the curing should cover a period of two or three weeks because the healing of the wounds is slower at temperatures below 80 degrees. At the end of the curing period, move the crates to the cooler part of the house or basement where temperature of 55 to 60 degrees can be maintained.

Hard — kind pumpkins and squash should be harvested before frost with about an inch of stem attached for storage. They must be cured like sweet potatoes. Damp places such as root cellars should not be used. They prefer dry storage.

Root crops such as carrots, beets, turnips and winter radishes need not be stored until late fall. They withstand autumn frosts. It will take about 25 days to ripen at this temperature. At 65 to 70 degrees it ripens in about 14 days.

Cabbage, turnips and rutabagas, give off undesirable odors and should therefore be stored separately. Dairy products and eggs absorb odors and should not be stored with fruits and vegetables.

Fruits keep best if stored at 31 to 32 degrees F. Apples and grapes absorb odors from potatoes and certain vegetables so should not be stored with them.

CONVERSION TOLD
TOKYO (AP) — Red China has agreed to convert economic aid to Nepal from a total of \$600 million — Indian — rupees — granted under 1956 and 1960 pacts to 12 million pounds sterling — \$33.6 million — Peking's official news agency reported. It said the new agreement was signed in Kathmandu, capital of the Indian-aided Himalayan kingdom bordering both India and China.

Under the new pact, the Chinese will supply Nepal with 100,000 pounds of rice and 100,000 pounds of wheat annually.

Boundaries Given for ASC Voting

SHOSHONE — Eugene Alexander, chairman of the Agricultural Stabilization and Conservation County committee, has announced the designation and boundaries of each community within the county for the ASC elections.

Elections will be by mail, Dec. 1 being the final day by which ballots must be postmarked or personally delivered by voters to the place designated by the county committee.

Boundaries of each community in the county have been set, with Richfield community including those persons served or who own property served by the Richfield postoffice and including those farms located in Township 18 North, Range 18 East, Range 18 EBM served by the Shoshone postoffice.

Shoshone Community includes all those persons served by the Shoshone postoffice and persons served or who own property served by Route 1, Gooding within the confines of Lincoln County, Range 1, Townships 18 North, Range 18 EBM served by Route 1, District.

Dietrich community includes those persons served or who own property served by the Dietrich postoffice, excepting those persons living in Sections 7, 17 and 20 of Township 6S, Range 18 EBM.

Kincaid community includes those persons who are served or who own property served by Route 1, Paul, within the confines of Lincoln County.

The chairman explained that petitions signed by six or more eligible voters nominating persons for membership on the community committee will be received at the ASC County Office any time before Nov. 7.

The persons nominated will have their names included in the slate of nominees if they are willing and eligible to serve.

The elections will choose three community committee members and two alternates. The chairman, chairman and two alternates will also serve as delegates to the County convention to be held soon, where the ASC county committee will be chosen.

Minidoka Youths Participate in Livestock Show

BOISE (AP) — Cattle and calves being fattened for the slaughter market in Idaho on Oct. 1 were estimated at 151,000, the U.S. Department of Agriculture reported today.

That compared with 118,000 on feed a year earlier. The department said the 1965 total is the largest ever reported for Oct. 1.

Production of alfalfa seed in Idaho, this year was estimated at 11,220,000 pounds, the department said, seven per cent larger than the 1965 crop.

Five Auction Sales Slated During Show

OGDEN — Five auction sales are scheduled during the Golden Spike National Livestock Show in Ogden Nov. 10-19, offering breeding and market animals, and Quarter horses.

Vern Thompson, show manager, said the auctions have been arranged to enable ranchers and farmers to fill their requirements for the month ahead. Weber County government is again the exposition sponsor.

Breeding Angus cattle will be offered at 2 p.m. Nov. 11 in a sale sponsored by the Utah Angus Association. The Hereford cattle auction at 10 a.m. Nov. 12, sponsored by the Intermountain Hereford Breeders Association, will offer about 100 bulls and 25 heifers.

At 8 p.m. on Nov. 12 all prize-winning market steers, market lambs and market hogs, in singles and pens, will go over the block.

A bred ewe sale, open to all sheep breeds, is the main auction attraction for sheep men of the area. It is scheduled for 5 p.m. Nov. 12.

New to the Ogden show will be the Quarter Horse Futurity sale, offering 50 head of yearlings at 2 p.m. Nov. 10. Horses sold in the sale will be eligible to run in the Golden Spike futurity next July in Weber County.

Take Care in Disposing of Pesticides

The best place to dispose of leftover agricultural pesticides is in a partially filled container in a pit covered with earth, advises Donald Youtz, county agricultural agent.

Dig the pit, he suggests, in an area not used for recreation or gardening and far from a well. Dig it at least 18 inches deep. Pour in the odds and ends of pesticides, being careful to avoid spills on your clothing or skin. Then fill the pit with soil. Do not smoke during the job. Avoid breathing the fumes.

Never flush unwanted pesticides into a sewer or septic tank system, the agent warned. Any of several of the materials might stop bacterial action. In a septic tank, this might result in an expensive cleaning job. If the materials go through a sewer, they may contaminate water supplies and damage fish.

Discard all empty containers, the agent advises. Break glass jars and put the pieces in a trash can. A recommended method is to wrap them in several layers of newspaper first, then place them in a plastic-lined package in the trash barrel. Puncture and crush metal containers, and bury containers under 18 inches of earth.

Aerosol cans or "bombs" are an exception. Dispose of them as they are. Do not burn or puncture these cans. If you have paper containers that have been used for pesticides, burn them when there is little or no wind. Do not breathe the smoke.

Full containers left over from the year's operations should be kept under lock and away from flame, moisture, food, feed and seed. Be sure all containers are closed and properly labeled.

Yield Increases

BOISE — A 16 per cent increase in the production of sugar beets is predicted for this year by the Department of Agriculture Reporting Service.

This advance is due to above normal temperatures and sufficient irrigation water during September resulting in an unusually heavy growth. The 1968 crop is now forecast at 2,400,000 tons, 14 per cent below last year and three per cent below the average. For the nation the 1968 crop is now expected to total 20.3 million tons, slightly below 1965 but five per cent above average.

MRS. CAL McDONALD, who lives on Kirtley Creek near Salmon, grew this huge head of cabbage in her garden. The vegetable weighed 20 pounds when picked. She also grew a head of cauliflower which produced seven quarts when canned. (Times-News photo)

Ogden National Livestock Show Set in November

OGDEN — The 48th Annual Golden Spike National Livestock Show in Ogden, Utah, Nov. 10 through 19, should offer events of interest for all tastes, officials said this week.

The range of activity will be of interest to boys and girls in and out of the area. The American Quarter Horse, Appaloosa horse, and Pony of the Americas are expected to draw livestock growers of cattle, horses and hogs, for horse owners and for owners of several states.

Packing house representatives looking for good bargains. Open class events for the adult breeders will include contests for breeding Hereford and Angus cattle, for market steers, breeding and market sheep, and market hogs.

A truckload entry of 10 head of market hogs has been of particular interest to exhibitors in recent years, officials said. Major regional shows in Quarter horse, Appaloosa horse, and Pony of the Americas are expected to draw livestock growers of cattle, horses and hogs, for horse owners and for owners of several states.

Nation's Farmers Show Discontent With Federal Policy in Recent Poll

PHILADELPHIA — The nation's farmers are enjoying unprecedented prosperity, but many are dissatisfied with the way the government is handling the war in Viet Nam, inflation and the farm program. A majority of farm owners and operators responding to a survey conducted by Farm Journal, national farm magazine, summed up their feelings by voting that both President Johnson and Secretary of Agriculture Freeman are doing a "poor" job.

Nine out of 10 were against continuing the present policy in Viet Nam. The same number felt the best way to control inflation would be to cut Federal spending. Nearly two out of three want the government to get "completely out" of the business of farm supports and controls. Only one percent favored raising interest rates. Voting was similar for all regions.

Only 13 per cent of the respondents thought we should continue the present farm support and acreage control program. Another 21 per cent voted for "some support" at about 80 per cent of the three-year average market price; with fewer controls, and with any extra land sopped up by a long-range get the war settled as quickly as possible. About one-third urged that we ease off, leave what we can and pull out of Viet Nam. Only 7 per cent said we should continue our present policy. There was little difference, by regions, except that Eastern farmers were more interested in pulling out (42 per cent) and Southwestern farmers more interested in hitting harder (64 per cent).

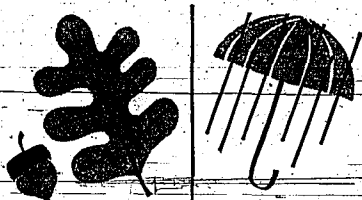

Eighty-seven per cent voted for cuts in Federal spending as the best cure for inflation. Other means got only a sprinkling of support. Seven per cent voted for nationwide wage and price controls, four per cent for increased taxes.

The proposal to remove the seven per cent depreciation on machinery and equipment, now being considered by Congress, was favored by only one per cent. Only one percent favored raising interest rates. Voting was similar for all regions.

Results of the survey appeared in Farm Journal's November issue. Tabulation was made of 5,000 ballots selected at random from reader replies representing all sections of the country. The majority of those responding — 57 per cent — thought we should throw more men and materials into the war, hit North Viet Nam harder, and try to land a negotiated settlement as quickly as possible. About one-third urged that we ease off, leave what we can and pull out of Viet Nam. Only 7 per cent said we should continue our present policy. There was little difference, by regions, except that Eastern farmers were more interested in pulling out (42 per cent) and Southwestern farmers more interested in hitting harder (64 per cent).

FALL vs. SPRING Which is your best time to fertilize!

For many years farmers thought nitrogen fertilizer applied in the fall would be lost through leaching. This is because nitrogen in the nitrate form is water soluble and moves with the moisture in the soil. They thought that fall and winter moisture would move the nitrates out of the root zone. But recent research has shown this to be an exaggeration. Tests showed that, except in extremely sandy soils, practically no nitrate nitrogen moves down deeper than 24 inches.

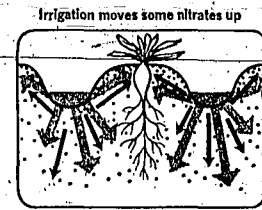

Actually, the research showed that fall applied fertilizer is used more effectively by plants. This is because the fall applied nitrogen has been moved away from the surface and deep into the root zone. This is important because when soil moisture evaporates during drying cycles between furrow irrigations, nitrates near the surface move upward and accumulate along the top of the beds. Unless these accumulated nitrates are moved back down in the root zone they will remain at the surface, unavailable for plant use. Rainfall or sprinkler irrigation will move them back down, but furrow irrigation merely adds to the problem. This is because under furrow irrigation, water moves the soluble nitrates near the surface out in all directions, including up, toward the top of the beds, thus accumulating additional nitrates at the surface. However, because fall applied nitrogen is deep in the soil, it remains available for plant use, even under furrow irrigation.

Summary, the research showed that fall, usually is not only the best and most effective time to apply nitrogen . . . but is also the best time to apply phosphorus and all other essential plant food elements.

1. Fertilizer applied in the fall and plowed down is distributed throughout the plow layer down to a depth of 10 inches. Fall and winter moisture moves water soluble nitrate nitrogen throughout the soil to a depth of approximately 24 inches.

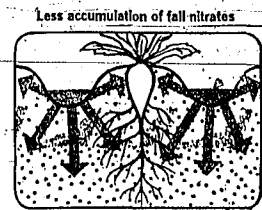

Phosphorus and most other plant foods do not move to any extent in the soil even under irrigation. Thus it is important that they be plowed down as deep and as far ahead of the planting season as possible for maximum effectiveness. Plowed down phosphate is placed deep in the root zone ideally located in moist soil for absorption by the plant all season long.

2. Water, under furrow irrigation, moves in all directions . . . carrying nitrates down, out to the side, and also up into the surface of the beds. Thus, with each furrow irrigation, most of the nitrates found near the surface will tend to accumulate in the tops of the beds, unavailable for plant use because this area is usually too dry for good root activity.

Here are other reasons for deciding why fall is best for fertilizing:

1. It measures fertilization because weather and soil conditions are usually more suitable in the fall.
2. Fall fertilization distributes your yearly work load.
3. It enables you to use farm labor and equipment more efficiently.
4. Fall fertilization prevents compacted and rutted fields.

3. There is less nitrate accumulation at the top of the beds if nitrogen is applied and plowed down in the fall. This is because fall and winter moisture has moved the nitrates deep into the root zone. They remain available to plants even under the influence of furrow irrigation and drying cycles.

5. It prolongs the fall grazing season.
6. Fall fertilization will give you more pasture in early spring.
7. Fertilizer applied in the fall works all winter helping decay crop residues, converting them into available nutrients and adding vital organic matter to the soil.

Association Slates Filer Bull Auction

The Idaho Cattlemen's Association will sponsor its 27th annual Filer, Nampa Bull Sale at 11 a.m. Oct. 29 at the Filer Fairgrounds according to word from Pat Allen, Cascade, sale manager.

Allen stated there are 225 Herefords, both polished and horned, all over 18 months and under 24 months of age consigned to the sale by registered cattle breeders from Idaho, Utah and Wyoming.

All of the bulls are registered and will be graded into classes of A, B and C by Jack Pierce, Filer, commercial cattleman; Farrell Daniels, Filer, purebred breeder; and Wade Wells, animal husbandman from the University of Idaho.

Grading will begin at 10 a.m. Oct. 28. Each bull will be inspected for visual defects by Dr. D. A. Jackson, deputy state veterinarian.

The Idaho Cattlemen's Association began these sales 27 years ago as part of its program to improve the quality of Idaho beef and for the convenience of the state's cattlemen. The fall sales are held at Filer, Idaho Falls and Caldwell. The spring sale is held at Filer.

Auctioneers for the sale will be: St. Williams, Walla Walla, Wash., and Ken Trout, Emmett. Members of the sale committee include Colin McLeod Jr., Caldwell, chairman; Allen, assistant manager; James Brackenbury, Filer, secretary; Albert Wolford, Meridian; E. P. Reese, Salmon; Gus Erickson, Almog; Tom Pence, Payette; Wayne Naugle, Nampa; and Clyde McAffee, Darlington.

Official

W. H. (Willie) Youtz, with headquarters in Pocatello, is the new area conservationist for the Soil Conservation Service, it is announced.

A brother of Donald Youtz, Twin Falls, county agricultural agent, has been with the service about 20 years and previous posts have included Worland, Riverton and Rock Springs, Wyo.

The new conservationist visited in the area this week. A former veteran, Youtz, was with the Navy in World War II.

Local Firm's False Labels Violate Act

Northrup King and Co., Minneapolis, Minn., seed firm, has forfeited \$10,000 and costs for violating the Federal Seed Act by falsely labeling seed shipped in interstate commerce, the United States Department of Agriculture has announced.

USDA's Consumer and Marketing Service, which administers the Federal Seed Act, took action against the firm for four shipments of falsely labeled seed into Alabama, Texas and Florida. Judgment was entered Sept. 1 in the U. S. District Court for the District of Minnesota.

One shipment of 750 bags of annual ryegrass made from Junction City, Ore., to Denton, Tex., in June 1963, contained the noxious weed seed hairy cheater at the rate of 135 percent. The labels indicated 53 percent noxious weed.

In a shipment of 200 bags of crimson clover seed from Pratum, Ore., to Decatur, Ala., in October 1962, the bags did not bear labels showing the name and rate of occurrence of sheep sorrel seeds, as required by Alabama State law, but the seed was found to contain 189 sheep sorrel seeds per pound.

A shipment of 600 bags of annual ryegrass seed from Verdu, Ore., to Decatur, Ala., in August 1963, was also mislabeled. It contained the noxious weed seed cheat or chess at the rate of 135 percent. The labels indicated 21 percent noxious weed.

The fourth shipment consisted of 100 bags of garden bean seed sent from Twin Falls, Idaho, to Zellwood, Fla., in March 1964, which was falsely labeled in that the seed had a lower germination rate than was indicated on the label and was below the germination standard for that kind and variety of seed.

The Federal Seed Act is a thrust-in-labeling law designed to protect farmers and other consumers in the purchase of seeds. It requires in part that agricultural seed be labeled to show the name and quantity of noxious weed seed and the percentage of germination.

It also prohibits shipment of certain noxious weed seeds into states which prohibit them by state law, and it requires that vegetable seed which does not germinate at the established standard be labeled below standard.

First-place winner in the individual judging contest at the Cassia County fair for the second year, Orin Kidd, 14, right, son of Mr. and Mrs. Jay Kidd, Declo receives a check from Loren Bingham, master of ceremonies at the Cassia county 4-H awards assembly. (Times-News photo)

Cassia County 4-H Members Hold Yearly Awards Fete

DEULO — Cassia County 4-H Club members received special awards at the annual Awards Assembly held at the Burley Elks Lodge last Saturday night. The 4-H pledge was led by Loren Bingham, who also served as master of ceremonies assisted by Sheryl Bowers.

Awards were presented for a variety of activities, ranging from dress reviews and gardening to electrical projects and entomology.

Bonnie Jeronime received awards in clothing, swine, lead, sheep, achievement, home improvement, and style review. Claudia Hawker, bread; Judy Duncan, leadership, foods and bread; Dovie Roberts, dairy and food; Sharon Amode, clothing and achievement.

Margaret Clark, foods; Linda Brackenbury, bread; Linda Brackenbury, Carol Warr, swine; Janet Seymour, garden; Brenda Brill, health; Mary Goring, foods; Kaye Goring, achievement; Lorna Goring, food preparation; Christian Harper, food; Bonnie Harper, agent.

Christmas Tree Growers in Idaho Are Invading Market

UNIVERSITY OF IDAHO — four native species, and are developing marginal lands for the booming as growers enter production of Scotch pine, Norway spruce, Austrian pine and blue spruce.

Burlison addressed members of the Idaho Christmas Tree Growers association meeting at university last weekend.

Growers are already beginning to cut an estimated 120,000 trees for markets in California, Arizona, Utah, Colorado and Alabama. More than 10,000 trees will be shipped to southern Idaho, according to Burlison.

He said the industry growth in the last six years has been remarkable. Idaho growers never knew they had a market for their trees until the regional buyers got in a pinch. Burlison attributes the industry growth to reliable growers and good quality trees. In a few short years growers' financial returns have tripled.

Burlison said, "I am encouraged by the progress of the industry. We are not totally mature, but making progress."

Idaho growers are marketing

Local Engineer Named Chairman Of Society Unit

KIMBERLY — James A. Bondurant, agricultural research engineer at the Snake River Conservation Center, here, was recently elected chairman-elect in the Pacific Northwest Region of the American Society of Agricultural Engineers.

Bondurant was elected during an annual meeting at the Oregon State University—campus, Corvallis, Ore. Others from Magic Valley attending the meeting were Claude H. Pail and Robert W. Worstell, both Twin Falls.

Bondurant was selected as the site for the next convention. Bondurant will be in charge of planning the meeting.

Freezes Hit in Area to Finish Growing Season

BOISE — Hard freezes near the end of the week ended the growing season in most areas of Southcentral Idaho, according to the Department of Agriculture Reporting Service.

Harvesting late season crops is now expected to accelerate as a result of the cooler weather. Dry bean and hay harvest were in the windup stage by the end of the period. Sugar beet digging operations were under way, but are not expected to peak until after most of the potatoes are harvested.

Good progress was made during the week on the 1968 potato crop. Planting of winter grain was about completed and more than one-half of the total acreage was up to a stand.

The Eastern Idaho rain and cooler weather slowed potato harvesting operations in most areas. Field frost—in potatoes—was reported in the Upper Snake River Valley, especially in Fremont County. Some abandonment is expected where damage was most severe.

Harvesting sugar beets gained momentum slowly during the week. Fall grain planting operations neared the finish line.

Sharon Amende, Alblon, daughter of Mr. and Mrs. Keith Amende, right, receives pins from Annleen Coltrin, Cassia county home extension agent, for achievements earned in 4-H style review and clothing. The awards were presented at the annual awards assembly held at the Burley Elks lodge. (Times-News photo)

Minimum Wage Will Affect Only Small Percentage of Nation's Farm Workers

WASHINGTON (AP) — Farm workers are being brought under the minimum wage law, courtesy of a new act of Congress. But only a fraction of the nation's farm hands will be affected, thanks to numerous exemptions in the law.

The law is expected to apply to about 1 1/2 per cent of all farms and ranches and to about 300,000 workers, or 12 1/2 per cent of all farm workers.

The farm as well as the individual must meet certain eligibility rules. Generally speaking, only large farm operations are covered.

Exemptions as to coverage are set forth in the statute President Johnson signed Sept. 23, to become effective next Feb. 1. Backers of the legislation say they would like it to go further, opponents say it places an unfair burden on the farmer as it is.

The new legislation amends the Wage-Hour Act, which heretofore has not been applicable to farm workers. The amendments provide \$1.40 an hour minimum for non-farm workers initially, with a boost to \$1.60 on Feb. 1, 1969. For farm and ranch workers the minimum is to be \$1 an hour in the first year, \$1.15 in the second, and \$1.30 an hour in the third.

Hay Prospects Stay Unchanged

BOISE — The U. S. Department of Agriculture Reporting Service has announced that Idaho's hay yield prospects remain unchanged from last month, which is the lowest yield since 1951.

Production of all hay, at 2,300,000 tons, is nine per cent below last year and six per cent below average. All states bordering Idaho are expected to have less hay than last year and all will have less than average, except Montana, Washington and Utah.

With the bulk of the total acreage up to mostly good stands, soil moisture supplies, however, were still rated short in some areas.

Livestock continued to move to fall pasture, feedlots and to market throughout the region.

Rat Population Explodes in Increasing Urban Slum Areas

ELIZABETH, N.J.—A growing and prosperous America combined with increasing urban slums is providing the nation's rat population with one of its greatest opportunities for expansion.

Dr. Ralph E. Heal, Executive Secretary of the National Pest Control Association, declared today that despite control efforts in several major cities, there has been no slackening of rat population growth. If anything, he says, it's on the increase.

Particularly in expanding suburbs, man is providing a pretty soft life for rats, says Dr. Heal, who singled out some of the reasons.

Extensive landscaping and abundant fruit producing shrubs and trees provide attractive food and shelter for rats.

An increase in the number of garbage disposal units in homes adds to the rat food supply in sewers. Plastic walls of dry-wall construction provide harborage. Outdoor barbecues offer food scraps. Stacks of firewood are attractive harborage. Increased number of pets outdoors provides additional food and shelter. Rats sometimes live right under the doghouse. Food from bird feeders and water from bird baths and lawn sprinklers attract rats. Plastic garbage containers are not rat proof.

Garbage collection in new developments suffers in the early stages. Many new communities are constructed on previously rat-infested land.

The nation has a greater abundance of food, and there is more garbage and, thus, more rats.

The cost of providing a happy haven for rats in the country is not inconsiderable, points out Dr. Heal. The food price tag is \$2 per rat per year—or \$400,000,000. But that's only the beginning. Rats cause from one to ten billion dollars in damage annually.

Widespread control programs, particularly in urban areas where overcrowding has taken place in recent years, are essential if man is going to win the rat race, says Dr. Heal.

Many cities, particularly New York, Detroit, Houston, Baltimore, Atlanta, Milwaukee, New Orleans, Chicago, Kansas City,

Denver and Albuquerque, have instituted control programs with some degree of effectiveness.

Isolated programs will not solve the growing problem, says Dr. Heal. It will take a nation-wide all-out effort if America is going to make serious inroads in the rat population, and the pest control operator is in the forefront of this campaign.

Infection of Beans Is Cut 15 Per Cent

JEROME — This year there have been 850 acres of beans infected with bacterium blight, according to Wilmer C. Priest, Extension Agricultural Agent.

This compares with a total reported acreage of 5,693 during the preceding growing season of 1965. The degree of infection has been cut to 15 per cent.

Another comparison is the number of seedlots that showed primary infection. In the 1965 season four seed lots were involved. In 1966 there were 137 seedlots with primary infection.

Thus the number of infected seedlots were reduced to approximately three per cent of the number involved in the previous season.

This reduction is better than was expected and shows that this disease of beans can be controlled when a concerted effort is devoted towards its eradication.

Common and halo blight organisms live over in diseased vines and in the seed. When seed is infected, the bacteria develop in the seed coat of the germinating seed and contaminate the surface of the expanded cotyledon, penetrating through rifts in the cuticle and progressing intercellularly, until the vascular system is reached.

The large water conducting vessels of the plant serve as systemic translocation, which results in systemic infection as indicated by leaf lesions and stem cankers. Primary local infection may take place through the so-

ma by inoculum of infected cotyledons or plant debris.

Spread of the bacteria from diseased to healthy plants in the field, or from field to field, is accomplished by wind-borne rain, dust, implement man and animals. Infection of the seed occurs through the funiculus or through the micropyle, thus giving good protection to the disease causing organisms.

Common blight is favored by relatively high air temperatures; whereas halo blight is favored by relatively cool temperatures. Spread from area to area occurs chiefly by means of infected seed. There are three necessities for control: (1) Three year rotation to dispose of debris and volunteer plants, (2) Rigid sanitation, and (3) Disease-free seed.

LEE MORGAN, Boise, left, state conservationist, and Glenn Nelson, Twin Falls, president, division four, Idaho Soil Conservation Districts, will both take prominent parts at the annual division four fall meeting at Richfield Tuesday, Nov. 1. The session will get under way at 7 p.m. with a dinner and reports and speakers will follow. The Wood River District is host. (Times-News photo)

Richfield Is Site of Annual Fall Conservation Meet

About 120 are expected to attend the annual fall meeting of the Conservation Districts.

Speakers at the session will include Lee Morgan, Boise, state conservationist, and Carol Youngstrom, also Boise, representing the extension service.

Morgan will discuss new developments in SCS programs, conservation trends, inventory and also the Columbia Basin River resource study.

Youngstrom will talk about the Columbia Resource Plateau. Each SCD chairman will give a brief report on the activities of the past year and opportunities for SCD activities will be discussed. Division business, the state convention and contemplated resolutions will also come up for discussion.

Exchange Student Writes of Life in Israeli Cooperative Farming Village

(Editor's Note: This is one of a series of letters which have been written for the Times-News by Carole Lynn Ives, who is an international farm youth exchange student from Idaho who is serving in Israel.)

At Nahalal, a moshav in the Yisrael Valley of Israel where a section of the Carmel Mountains form a portion of the Valley wall, cooperative pattern of living encompasses a spirit of its own.

Among the families there is a pride for their accomplishments and they have every right to be proud because the area was a malaria infested swamp only 45 years ago. Today Nahalal is a peaceful cooperative village with successful farmers in nearly every house on the circular road which connects every farming unit.

My host and hostess, Joel and Ruth Freudenberg, met me at their gate with warm greetings and a smile. I was welcomed with a handshake and a hug. Joel had unpacked and begun to unwind my question box.

As each member of the family stopped for a moment, I realized that my host father was surrounded by women and jabbering women, at that. He was up to the situation, however, and held his own as the two and a half weeks at Nahalal passed.

My first duty as No. IFYE Daughter was to help with the dishes and before long it became my inherited position. However, I enjoyed every minute of it since I had so much help from my "sisters."

They cleared the table for me, leaving more on it than they brought to the kitchen, ending up making the simple dishwashing technique last twice as long. However, they were certain they were doing me the biggest favor of my life.

My duties progressed to housecleaning, picking apples and occasionally moving irrigation pipe. I tried to get into the dairy business, too, but found that accompanying my host father and from the dairy was as far as I got.

A typical day began with taking the milk to the dairy and returning to a breakfast of cucumbers, tomatoes, bread, lettuce and instant coffee mixed with sugar and cold milk. After a short swim in the pool, it was either off to market to do the day's shopping or housecleaning tasks.

The market was a typical general store with limited clothing, fresh vegetables and some fruit, canned goods, household and cooking utensils and a few necessities of life like toothpaste, shampoo and cigarettes. The highest of all was the large soda my host mother and I had just before our hot walk home. Funniest thing — "Coca Cola" can be found in nearly every country of the world but not here.

I learned something new about scrubbing floors, too, when we were cleaning the house. You don't scrub with a damp mop. You pour the water on the floor and then risk breaking your neck as you brush it out with a device that looks like a window scraper.

Continuing with the day, we went to the dairy where we prepared lunch consisting of the eggplant, which was cooked and mixed with mayonnaise or else dipped in egg and fried — which became my favorite way of preparation.

We had it every day in one way or another. We always served the eggplant, the only vegetable of the meal, first with bland bread and then the chicken, which was grown by the Freudenbergs, and other poultry, rice, Italian pastes. The Friday evening Shabbat meal was the only time when another meat was served, and then we had fish.

After lunch, a short rest followed in the tradition of the Middle East. Even business and shops closed between 1 and 4 p.m. all over Israel, but soon as everyone wanted to rest Tommy and Samdard, the two smallest girls, would get a sudden surge of energy and wish to share it with their sister.

After dinner, I was ready for a rest. After dinner, I was ready for a rest. After dinner, I was ready for a rest.
