Uncle Sam Plays Santa For Homesick Soldiers

FT. BENNING, Ga. (AP) — They'll be traveling to Alaska and most intermediate points—these 120,000 GIs in the process of swapping the drab existence of an Army post for the warm, colorful atmosphere of home at Christmas time.

Uncle Sam is playing Santa Claus. Homesick soldiers, in the first few weeks of Army life and for some, the first time away from home for any length of time, are getting Christmas letters.

Fort Benning is experiencing one of the largest mass vacation operations ever attempted as the recruits begin Christmas leaves of 10 to 13 days.

The troops began leaving the post Monday by automobile, bus, air and rail. Key figure in the extensively planned travel arrangements was Lt. Col. Edward J. Kelly Jr., assistant chief of staff for supply and logistics. He began mapping departure plans for the GIs in October. Representatives of bus lines, railroads and airlines conferred with Army officials and the wheels soon were in motion. Ticket agencies were set up on post, and

each soldier selected his own mode of transportation.

Leaves averaged 12 days, and those furthest along in the eight-week basic training period go first and return first.

Buses will transport some of the recruits directly from the post to their home cities. Others are being taken to Atlanta airport, 125 miles away. Those going by train are being taken to the depot in nearby Columbus, Ga.

Families are coming by car to pick up many of the soldiers, and men who reside in the Ft. Benning area are voluntarily remaining on post for routine duties so others may leave.

Greatest number on Christmas leave to any state is 2,822 traveling to Ohio. There will be 1,891 going to Florida, 1,513 to Alabama and 1,888 remaining in Georgia.

One soldier is going by train to Alaska and back in 12 days. One goes to Canada and two to Guatemala.

"Can you imagine what would happen if we just blew a whistle and turned 'em loose?" Col. Kelly asked.

Bombing Charge Denied By U.S.

By SEYMOUR M. HERSH

WASHINGTON (AP)—The United States offered the world a flat denial today of North Vietnamese charges that American warplanes bombed inside the city limits of Hanoi Tuesday and Wednesday. State Department spokesmen, however, declined to refute widely spread Communist reports that the United States has begun a new escalation of the Vietnamese war, claiming that: "A review of reconnaissance photos showed that all bombs fell on designated targets; a truck

DETOIT (AP) — Obdient to the order of their leader, Detroit Teamsters' strike to work today after a 24-hour walkout protesting a U.S. Supreme Court decision upholding the 1964 jury tampering conviction of their international president, James R. Hoffa.

Hoffa flew into Detroit Thursday and ordered the Teamsters back to work. However, the 24-hour strike had been called at midnight Wednesday and was well under way.

It was early afternoon before Hoffa told some 1,200 cheering Teamsters here to go back to work. Few, if any, returned before midnight.

"Don't take the law in your own hands or you are going to hurt me," Hoffa told the workers at a hastily summoned meeting.

The strike developed Wednesday night at a meeting of Hoffa's home local, No. 295.

Planes Avoid Hanoi During Controversy

SAIGON, South Vietnam (AP) — U.S. warplanes stayed away from the Hanoi area Thursday as controversy continued to rage around the world over American attacks in North Vietnam.

The North Vietnamese capital.

With missions over the Communist-ruled North Vietnam, U.S. warplanes avoided the Hanoi area, where they had made two attacks in the neighborhood of Hanoi, North Vietnam, on Tuesday and Wednesday.

U.S. military officials reported that the North Vietnamese capital.

The U.S. Command denied Communist charges that U.S. warplanes bombed inside the city limits of Hanoi on Tuesday and Wednesday. The command said a "complete review of pilot reports and photographs showed that all ordnance expended by U.S. strike aircraft was in the military target area—five miles south and six miles northeast of the city."

WHITE SULPHUR SPRINGS, W. Va. (AP) — Gov. Robert E. Byrd today called a special session of the West Virginia legislature to discuss the state's response to the federal government's demand that it increase its influence on federal policy to at least double its Washington staff.

Byrd said he would call the session today to discuss the state's response to the federal government's demand that it increase its influence on federal policy to at least double its Washington staff.

Byrd said he would call the session today to discuss the state's response to the federal government's demand that it increase its influence on federal policy to at least double its Washington staff.

Six Projects At Park Near Completion

FARRAGUT, Idaho (AP)—Six projects deemed vital to the World Book Summit at Farragut State Park next year are about half completed.

Jamboree officials said Friday work continues on an administrative center, an information building, a bath house near the beach on Lake Pend Oreille, the Avenue of Flags and a new 50,000-seat stadium.

The Aug. 1-9 Jamboree will attract some 17,000 scouts and leaders from 100 nations.

Grass replanting is coming better than expected, officials said.

The Idaho Highway Department has secured easements along the roads from Athol Junction into the park area so that the Jamboree can be served. A modern intersection is being built at the main junction to handle traffic and assure the safety of the Jamboree route to the wooded Jamboree site.

Teamsters End Walkout After Protest

DETOIT (AP) — Obdient to the order of their leader, Detroit Teamsters' strike to work today after a 24-hour walkout protesting a U.S. Supreme Court decision upholding the 1964 jury tampering conviction of their international president, James R. Hoffa.

Hoffa flew into Detroit Thursday and ordered the Teamsters back to work. However, the 24-hour strike had been called at midnight Wednesday and was well under way.

"Don't take the law in your own hands or you are going to hurt me," Hoffa told the workers at a hastily summoned meeting.

The strike developed Wednesday night at a meeting of Hoffa's home local, No. 295.

Parking Order Issued In Utah

SPRINGVILLE (AP) — A court order for Springville to install parallel parking on its Main Street has been issued in Salt Lake City.

The order came from Third District Judge Stewart H. Hansen and states the city must comply with federal regulations requiring parallel parking on federally-constructed primary highways.

Medical Director Lists Proposals For Ambulance Service Regulations

In an open letter addressed to the Twin Falls County Commissioners Friday, Dr. Luther C. Thompson, medical director of the South Central District Health Department, set forth proposed regulations governing ambulance service suggested by the Magic Valley Memorial Hospital physicians' staff, which he represents.

Dr. Thompson was appointed to represent the physicians' staff at all meetings called by the commissioners to consider the development of ambulance service in Twin Falls County.

Said Dr. Thompson, "It is my opinion that the medical director of this District Health Department

IDAHO INSURANCE COMMISSIONER Leo O'Connell, Boise, right, discusses the merger of Sierra Life Insurance Co., Twin Falls, and Arizona Life Insurance Co., Phoenix, with the Idaho Insurance Commissioner, Fred M. Frazier, Twin Falls. The merger was taken under consideration Thursday afternoon by Mr. O'Connell, after documents of the merger were presented at a public hearing at the Holiday Inn. Solemnity Reigns At Disney Studio

By GENE HANDSÄKER

BURBANK, Calif. (AP) — A telephone operator at Walt Disney's film studio sobbed: "He was a boss to us. He was a friendly man who loved us and we loved him."

Eulogies poured in also from the famous after death. Thursday to the onetime Missouri farm boy whose creative genius delighted a troubled world.

The producer died 10 days after his 65th birthday and 59 years after he began his career in the motion picture industry.

The Associated Press said that the removed portion of the lung was cancerous and that the cancer had spread.

In 40 years, Disney's enterprises ranged from such screen delights as Mickey Mouse, Donald Duck and Snow White to the world-famous amusement park, Disneyland — with more projects in the works.

The empire will keep on growing, said Walt's older brother Roy, president of the company, who said the board of Walt Disney Productions.

"Walt Disney's preparation for the future is a solid creation," said Roy. "All the plans for the future that Walt began through motion pictures, the expansion of Disneyland, television production and our Florida and Mineral King projects will continue to move ahead."

Funeral services will be private. The family asked that in lieu of flowers, contributions be made to the California Institute of the Arts, a college for studies in art and music. It is under construction on the Disney ranch in the San Fernando Valley.

Idahoan Dies In Vietnam

MOORE (AP)—Word was received Thursday that Bruce Jensen, 24, son of Mr. and Mrs. Lloyd Jensen, Moore, an Eastern Idaho community, was killed last Monday in Vietnam when he fell from a truck and broke his neck. He had been serving with the military forces there.

The body will be sent to Arco for funeral services and interment. Plans to be announced by Marvel Funeral Home in Arco.

NATO Ministers Endorse Plan To Narrow "Brain Gap"

By STEPHENS BROENING

PARIS (AP) — Ministers of the North Atlantic Treaty Organization endorsed today an Italian proposal to encourage technological and scientific cooperation with nations of the Soviet bloc.

Italian Foreign Minister Amintore Fanfani submitted a plan for greater cooperation in this field to narrow the "brain gap" between advanced countries and less-fortunate ones, beginning with such cooperation in Europe.

Later, he said, technological and scientific assistance should be promoted between the United States and European nations. He then added, according to conference sources: "We can then also attack the problem of the ways and timing which would permit the association in this work of other nations which have attained this developed stage under a system of state aid."

He said this would mean pushing the idea of East-West cooperation.

Site Named For Atom Smasher

WASHINGTON (AP)—Weston, Ill., was picked today as the site for a \$375-million atom smasher. Closing out a competition that had involved dozens of communities across the nation seeking the gigantic enterprise, the Atomic Energy Commission announced the choice. The 200-billion-electron-volt proton accelerator is projected as the world's most powerful, designed to unravel many of the mysteries of the structure of matter. Six sites to which the National Academy of Sciences had narrowed the choice have been under study by the commission since last March.

All six sites would have been suitable locations for this project, AEC Chairman Glenn T. Seaborg said. "Each proposal had many strong points, making the selection of one site an extremely difficult task. However, after weighing all factors the commission unanimously decided that the Weston site, which is near Chicago and also near the Argonne National Laboratory, is the most suitable location for this large project."

The AEC said it will ask for \$10 million in the budget for fiscal 1968, beginning next July 1, for initial design work. Funds for construction will be requested later.

The great atom smasher is to be the principal installation of a National Accelerator Laboratory planned eventually to employ about 2,000 persons.

Preliminary estimates based on a design by the Lawrence Radiation Laboratory at Berkeley, Calif., show construction costs at \$300 million, plus \$75 million for research equipment and a bubble chamber.

"Current intentions," the AEC said, "are to proceed at a somewhat reduced scope with potential for expansion at a later date. This approach would significantly reduce the initial cost of the project."

The AEC described the proposed 200-BeV machine as the largest and most complex instrument ever built for fundamental scientific research, which will lead to a deeper understanding of the basic forces that govern the universe.

The main ring of the accelerator will have a diameter of 1,000 feet and will be constructed in a circular tunnel. The AEC has been searching for a site for the nuclear plant for nearly two years.

Originally there were 200 competing sites representing virtually every state. These were pared to 25 and then narrowed to six by the National Academy of Sciences.

The final six, in addition to Weston, were Madison, Wis.; Brookhaven, Long Island, N.Y.; Denver, Colo.; the "Sierra Falls" site near Sacramento, Calif.; and Ann Arbor, Mich.

The site was chosen to explore fundamental secrets of matter for peaceful purposes, world scientists reported. The track nearly a mile in diameter.

The project's operating budget and its 2,000 employees would bolster the economy and scientific prestige of any area.

Johnson Sets Visit With Eisenhower

WASHINGTON (AP) — President Johnson is again setting strange objects in the sky south of here Thursday night. The explanation of the "cone-shaped, slow falling" object was the same as given for the one seen here last week.

Scientists at Tonopah, Nev., fired rockets into the sky Thursday that released a polluting-shaped green cloud. The cloud, used to test wind velocity and direction, hovered from 50 to 100 miles above the earth.

Observers said it was luminous and appeared to have lights beneath it. Thursday's cloud was said to be brighter than that released last week.

Condition Of Ex-Governor Is Unchanged

BOISE (AP) — Former Idaho Governor Chase A. Clark was listed as in "unchanged" condition today in a Boise hospital after a stroke earlier in the week.

He was reported in poor condition Thursday.

The 83-year-old Clark was Idaho's governor from 1941 to 1943 and served from then until the spring of 1944 as a federal judge.

He is the father-in-law of Sen. Frank Church, D-Idaho, and a brother to the late Sen. D. Woodworth Clark, Idaho's late former governor Barzille Clark.

6-Weeks Strike Talks Continue At Test Center

IDAHO FALLS (AP) — Negotiations met again late Thursday in an effort to settle a six-week strike at the National Reactor Testing Station.

Negotiators representing the Idaho, Utah, Nevada, and the Westinghouse Electric Corp., met at 4 p.m. Thursday, a meeting called by Federal Mediation Conciliation Service of Salt Lake City, Utah. The meeting was still in progress late Thursday.

Dee Maynard, secretary-treasurer of the maintenance unions involved in the Metal Trades Committee, said a union membership meeting has been scheduled for Friday at 8 p.m. Members will discuss the strike.

SHOPPING DAYS TO CHRISTMAS

THE STORY OF THE NATIVITY

By JOHN J. STEWART

"And She Shall Bring Forth a Son"

As soon as Elizabeth's baby was born and christened, Mary bade her cousin farewell. She would return to her home in Nazareth, there to await the birth of her own son six months hence.

On this homeward journey the youthful Mary had strongly mixed emotions:

It had been reassuring to see Elizabeth's new-born son, who would be a forerunner to the child now forming in her own womb.

It was exhilarating to possess the supreme knowledge that it was to become the mother of the Son of God, the Savior and Redeemer of the world.

In his time and way, there was the very real problem of being suspect in Nazareth, where acquaintances were almost certain to be particularly ill of her condition.

But, especially did she worry about the reaction of Joseph, her betrothed. Was she still to marry him? Would he believe her? Would he accept her or reject her?

A thousand unanswered questions crowded in upon her mind. It was as though unseen evil forces were trying to destroy her with anxiety.

Yet, there was an answer to all these vexing, tormenting questions: Mary knew that she had been chosen of God. Surely He in His infinite wisdom would take care of her in this. Somehow, in His own time and way, He would provide the answers.

It was only through implicit, abiding faith in God that her fears were thus quieted.

Joseph had eagerly awaited Mary's return to Nazareth. Her three months' absence had endeared her to him the more.

Now upon her return, when he learned that she was with child, his joyous anticipation turned to grief and anguish.

Then Joseph, being a just man, and not willing to make her a public example, was minded to put her away privately.

But while he thought on these things, behold, the angel of the Lord appeared unto him in a dream, saying, Joseph, thou son of David, fear not to take unto thee Mary thy wife, for that which is conceived in her is of the Holy Ghost.

"And she shall bring forth a son, and thou shalt call His name Jesus, for He shall save His people from their sins."

Legislative Support Seen For Function Consolidation

(Editor's Note: This is the first in a series of stories by the Associated Press on problems facing the 1987 Legislature, and reaction of lawmakers to them.)

By JIM ADAMS

BOISE (AP) — There will be strong support in the 1987 Legislature for combining state functions to save money — but not for the comprehensive reorganization plan proposed earlier this year.

A legislative council committee drafted a plan for consolidating some 100 state agencies under 18 departments and centralizing nearly all state spending in the legislature-controlled general fund.

The committee is recommending only part of this plan this session: Consolidation of such "housekeeping functions" as data processing, purchasing, telephone service and management consulting under a new department of administrative services.

The modified recommendation appears to stand a good chance for approval.

More than half the legislators answering an Associated Press

Lodge Elects At Hagerman

HAGERMAN — Officers were elected by members of the Hagerman Masonic Lodge No. 78, AF and AM, Tuesday evening.

Elected and installed were: Warren Berry, worshipful master; Kenneth Hulme, senior warden; Rollin Phillips, junior warden; David Nicholson, treasurer; Gerald Martin, secretary; Rollin Simonsen, senior deacon; Glenn Meadows, junior deacon; Joseph Rudolph, Tyler; Raymond Clawson, tyler; Rex Barlog, senior steward; and Charles Robinson, junior steward.

Dr. W. E. Berry, Lewiston, father of the newly elected worshipful master, and master of Jerome Masonic lodge, was installing officer. Journey, Gooding, was installing marshal.

It was announced that the second degree will be conferred at the Jan. 10 meeting. Refreshments were served by Clyde Allen and Charles Chaplin.

MANY THANKS

for paying your news-paperboy promptly

It's tough for a youngster to come home some other time for payment. As a young businessman, your time is precious. You're always in a hurry to get to work, to the bank, to the office, to the store. You're always in a hurry to get to the bank, to the office, to the store. You're always in a hurry to get to the bank, to the office, to the store.

Miss your paper? Please phone before 6:30 p.m.

Jury Rejects Added Charge In Ohio Case

CLEVELAND, Ohio (AP) — With the words, "The Sheppard case is closed," the Cuyahoga County grand jury Thursday rejected charges that two persons still at large murdered Samuel H. Sheppard's first wife, Marilyn, on July 4, 1959.

The report said a two-week grand jury investigation found no basis for the charges.

Sheppard was acquitted of a second-degree murder charge last Nov. 16 in a retrial after the U.S. Supreme Court ruled he was denied a fair trial and ordered him retried or freed. He was freed from prison in 1964 after serving nine years of a life sentence.

Shortly after the acquittal Sheppard's attorney, F. Lee Bailey of Boston, sent a 15-page letter to Police Chief Fred Drenth of suburban Bay Village, where the Sheppards lived when Marilyn was killed.

The letter, according to Drenth, contained "evidence and 'considerable supposition' that Bailey said pointed to the Sheppards as the killers."

The jury said Thursday the charges were "unsubstantiated and without merit. The persons whom Mr. Bailey demanded be arrested are completely innocent and are exonerated from Mr. Bailey's charges."

Speeches Cut

LONDON (AP) — The parliamentary procedural reforms the Labor government hopes to inaugurate in February may — over Conservative cries of dismay — shorten speeches to a maximum 30 minutes for front-benchers and 15 minutes for back-benchers. The reforms won't curtail or trample any traditional ceremonial, promises House Laborite Leader Richard Crossman, "because the people like them."

By ABIGAIL VAN BUREN

DEAR ABBY: My wife and I are retired. We rented a beautiful apartment (not cheap) which does not, tant to couples with small children. That's one of the reasons we took this place. The people directly above us have their grandchildren over three and four afternoons a week. They are three little kids, under six years old, and you never heard such a commotion.

They chase each other around knocking things over, screaming and yelling and thumping and bumping. I have pounded my ceiling with a broom handle, and even got out some pots and pans and banged them together to give them a taste of their own medicine, but it didn't help.

I complained to the manager. He told me to talk to the landlord. I talked to the landlord. He told me to complain to the manager. We have a three-year lease and like this apartment. What do I do now?

DEAR STUCK: The "kids" are under six years old. What's your excuse? Mature, reasonable grown-ups do not "give people a taste of their own medicine" in the manner you describe. Go upstairs, knock on their door and talk with the adults.

DEAR ABBY: A few days ago a girl was standing near me in the hall at school while I was repeating to some of the guys a poem I'd heard. It was a little, short thing. The girl asked me if I would write it out for her so I did.

Well, the girl's mother got a hold of it in some unintentional way and read it. I guess I should mention, the poem was in rather poor taste. I called the girl the other day, and her mother answered the phone and said I was never to call or see this girl again.

I like this girl a lot and she likes me. We are both very upset over this incident. I called and apologized to the mother, but she won't let us see each other. What should I do?

DYING

DEAR DYING: Nothing. Perhaps in time the mother will reconsider and give you another chance, but personally, I think you're dead in that regard. There is a good lesson to be learned from this. DON'T put anything in writing that could incriminate or demean you.

DEAR ABBY: Because of you, my Christmas is a lot merrier this year. Last year my husband and I were driving me crazy sitting around the house doing nothing. He had just retired at age 65, was in good health, and didn't know what to do with himself. He'd worked hard all his life and never had time to cultivate any hobbies.

I kiddingly suggested he write to you. And he did. You told him to offer his services to some volunteer group, and you named a few. He called the Crippled Children's Society, and they gave him names of some handicapped children who needed transportation to and from the therapy clinic. He's never been happier. Aren't men peculiar? They'll listen to advice from a stranger, but just list their wives tell them the same thing and they'll say she's off her rocker. Merry Christmas, Abby! — DORIS

CONFIDENTIAL TO "WILLING TO LEARN": This may seem like an oversimplification, but if a marriage is to be successful, both husband and wife should remember to use these three phrases frequently: "I love you," "Thank you," and "I'm sorry." Troubled? Write to Abby, Box 87000, Los Angeles, Cal. 90069. For a personal reply, inclose a stamped, self-addressed envelope.

Marian Martin Pattern

by Marian Martin

9043
Size 2-10

PRACTICAL PAIR

Easy-Sew charm! Low-waist jumper has kiddy pleats for hopping about a school bus or dancing off to a party. Choose velveteen, corduroy.

Printed Pattern 9043: Children's sizes 2, 4, 6, 8, 10. Size 8 jumper 1 1/2 yards 35-inch nap; blouse 1 1/4 yards 35-inch.

Fifty cents in coins for each pattern add 15 cents for each pattern for first-class mailing and special handling. Send to Marian Martin, Times-News, 385, Pattern Dept., 221, 18th St., New York, N.Y. 10011.

Print name, address with zip, size and style number.

Excuse New! We're proud to tell you that ours is the only Fall-Winter Pattern Catalog to bring you over 125 top designs plus the Pattern Coupon for any style in Catalog. Send 50c.

Social Events

An old time dance will be held at 8:30 p.m. Saturday at the Moose Hall. A gift certificate from Roper's will be given. Music will be furnished by Ben Loezler's Tune Twisters. The public is invited.

SHOSHONE — Baptist Women's Mission Society will meet at 7 p.m. Dec. 22 at the home of Mrs. Arthur Warrington. There will be a special Christmas program.

Countryside Flowers Club will meet Tuesday at the home of Mrs. Lyle Schlichter. Turkey will be served. Members will report on an item made for Christmas.

Book Nook Hours Listed

The Book Nook, operated by the American Association of University Women, upstairs at 121 for Mrs. E. will be open from 10 a.m. to 5 p.m. Saturday, but will be closed until Jan. 7 except by appointment only.

Appointments can be obtained at any time by contacting: Bernice Babcock, 733-5893, or Mrs. A. J. Peavy, 733-8199.

The Book Nook is soliciting more books. Any contribution can be left at the book store. The policy of exchanging two for one is still in operation.

Favorite Carols Are Discussed

Favorite Christmas carols were discussed at the Salmon Social Club Christmas meeting at the home of Mrs. Glen Nelson.

Mrs. Victor Nelson was in charge of the afternoon entertainment. Secret pal gifts were given and a Christmas exchange held.

Mrs. Katherine Cavender was guest. Refreshments were served.

THE MUSICAL, "The King and I," was presented by Mr. and Mrs. Gordon Beckstead and their three children, from left, Barbara, Beverly and Susan, at the LeLivre de La Plume Literary Arts Society Christmas meeting at the Blue Lakes Country Club. Hundreds of club members were special guests for this social. (Times-News photo)

Local Family Gives Program At Yule Party

The musical, "The King and I," was presented by Mr. and Mrs. Gordon Beckstead, with the assistance of the three daughters, Beverly, Barbara and Susan, during the LeLivre de La Plume Literary Arts Society Christmas meeting at the Blue Lakes Country Club.

"The King and I" is a lively musical about the King of Siam and an English schoolteacher. Prior to the program, a dinner party was featured for members, with their husbands as honored guests. Favors were Santa candy dishes made for the members by Mrs. Lynn Pettengill.

The program, which was given by Mrs. Bud Hansen and the author's sketch by Mrs. Leonard Holst.

"Silver Bells" Is Dance Theme

DECLIO — "Silver Bells" was the theme of the annual Gold and Green Ball held at the Dec 12 at the LDS Ward Cultural Hall, under the direction of the Mutual Improvement Association.

The program, which was introduced by Brent Peterson, began with Dennis Yarrington singing the theme song. A medley of Christmas songs was sung by Mrs. Donald Jacobs, accompanied by Mrs. Bruce Turner.

Claire of the Declo MIA participated in the all-girls dance, under the direction of Mrs. Turner, dance director.

A life-size sleigh and horses, which decorated the stage, were made and painted by Mrs. Louise Zadorozny, Burley. Lighted Christmas trees and silver bells added to the old-fashioned decor of the LDS Cultural Hall.

BAZAAR HELD

CAREY — The LDS Relief Society bazaar was held at the LDS Cultural Hall in conjunction with the bazaar there was a cooked food sale, a home made candy table and a rummage sale.

Magic Valley Favorites

RUTH HANSON
Route 2, Filer

- Chicken-N-Stuffing Bake
 - 8-ounce package (3/4 cup)
 - herb seasoned stuffing
 - 3 cups cubed cooked or canned chicken
 - 1 cup butter or margarine
 - 1/2 cup flour
 - 1 teaspoon salt
 - Dash of pepper
 - 4 cups chicken broth
 - 6 slightly beaten eggs
 - 1 recipe pimiento mushroom sauce
- Prepare stuffing according to package directions for 2 1/2 inch.
- Sprinkle in a 13 by 9 by 2 inch baking dish. Top with a layer of chicken. In a large saucepan melt butter. Blend in flour and seasonings. Add cool broth. Cook and stir until mixture thickens. Stir small amount of hot mixture into eggs, and return to hot mixture. Pour over chicken.
- Bake in a slow oven, 325 degrees, for 40 to 45 minutes or until a knife inserted halfway to center comes out clean. Let stand five minutes to set. Cut in squares and serve with sauce.
- Pimiento Mushroom Sauce
Mix one can condensed cream of mushroom soup, one-fourth cup milk, one cup dairy sour cream and one-fourth cup chopped pimientos. Heat and stir until hot.
- This recipe serves 12 and is an elegant buffet supper dish.

Luncheon Held

FILER — The Woman's Society of Christian Service held a holiday luncheon at the social hall of the Methodist Church, Mrs. E. A. Beem was in charge of arrangements which featured Christmas decorations.

Mrs. Rox Reed presented vocal solo, accompanied by Mrs. Roger Vincent at the piano and Jo Vincent, violin.

English Toffee

Hand-made fresh daily in our "own" shop. Unique gift for your loved ones. Perfect for the holidays. Packs and mails well, too.

Waiting Wives Club Convenes

"Holiday Decorations" was the theme for the December meeting of the Waiting Wives Club.

Decorations were put up in the lounge at the YM-YWCA. Members of the junior unit, of which Bonnie Sue Tronstun is president, met after school at the American Legion Hall with their advisers, Mrs. Joseph Sprenger and Mrs. John Jackson, to bake cookies.

The group packed baskets of cookies, and delivered more than 12 dozen cookies to the manor.

Ronda Miracle Gives Reading At Local Meet

A Christmas Reading, "The Littlest Angel," was presented by Ronda Miracle at the Christian Women's Fellowship meeting at the church.

A minstrel group, Gloria Sawyer, Beckie Reed, Mary Ellen Pouton and Bill Hoffman, presented musical numbers.

The devotional service was given by Mrs. Frank Esslinger and the group sang Christmas carols.

Gifts were brought for the Beverton Home for the Aged. The devotional service was made that World Day of Prayer is set for Feb. 10 at the Church of the Brethren and a birthday luncheon will be held in January.

Group No. 1 met with Mrs. Marvin Esslinger, with Mrs. O. A. Jackson as co-hostess. Mrs. Grabert presented the lesson and Mrs. Phillip Schmidt gave the devotional service.

Members of Group No. 2 met with Mrs. G. Davis, with Mrs. Monroe Hays giving the lesson. Mrs. Albert Wegener was hostess for members of Group No. 3. The lesson was presented by Mrs. Floyd Smith, with Mrs. Harold White giving the devotional service.

Cheer Baskets Are Delivered

WENDELL — The project of the Junior American Legion Auxiliary for December was to take cheer baskets to the guests at Magic Valley Manor.

Members of the junior unit, of which Bonnie Sue Tronstun is president, met after school at the American Legion Hall with their advisers, Mrs. Joseph Sprenger and Mrs. John Jackson, to bake cookies.

The group packed baskets of cookies, and delivered more than 12 dozen cookies to the manor.

Mid-Winter Social Held

HAGERMAN — The Fourth District American Legion mid-winter social was held at the American Legion Hall, Hagerman.

Decorations included a large lighted Christmas tree. The tables were covered with white and centered with greenery, red candles and balls. Mrs. Merle Owsley, Mrs. C. O. Shore and Mrs. Wesley Whorton were in charge of decorations.

Mrs. and Mrs. LeRoy Rodau of the Hagerman Hotel catered the dinner. Guests introduced at the dinner by Merle Owsley, commander, were Joseph Aguirre, Mountain Home, fourth district commander, and Mrs. Aguirre; Mrs. Gilbert Gridley, Mountain Home, fourth district auxiliary president and Mr. Gridley, and others from Richfield and Carey.

Circle Meets

KING HILL — Mrs. George Peter was hostess at her home in members of the Young Peoples Ladies Aid Circle of the Glenns Ferry Methodist Church.

The devotional service was given by Mrs. Wes Lee Holst. Program prizes went to Rev. Grace M. Weaver and Mrs. William Thompson. Members exchanged Christmas gifts.

"The Carlsens wish we were in Florida, the Whipples wish we were in Hawaii, and I wish they'd all jump in the lake!"

"It isn't a question of Jimmy going places, Dad! The problem is to get him to take me along!"

"I have a secret for getting little Freddie to bed. I told him not to!"

BRIDGE BY JACOBY

WEST'S DOUBLE SHEER BRILLIANCE
A letter from Toronto reads, in part: "In a recent duplicate almost every North-South pair wound up at four spades. The bidding usually went as I have shown and several West-players opened the three of diamonds. After this start the rest of the defense was easy. West would

some of the best bridge in the world is played there but we did not realize that the average players there were sharp enough to reason out the diamond lead against the four spades contract. It is very good reasoning indeed. East's raise is obviously based on distribution, not on high cards. Thus he is likely to have a singleton in the diamond suit which both opponents have bid. He is also marked with three trumps so that the diamond opening will produce two trumps.

As for this West's double we have to consider it as sheer brilliance. He decided to get a top, not just a good score, and he got his top.

On the other hand we must point out something that everyone at the table overlooked. If either North or South had run out to five diamonds (no reason why they should) there would have been no way to defeat that contract assuming that declarer located both the diamonds and queen of clubs.

TODAY'S QUESTION
You bid three no-trump and your partner went to four clubs. What do you do now?

Along Fences and Canals

Mr. and Mrs. William Trail and Mr. and Mrs. Lee Trail, King Hill, attended a bull sale at Salmon last Wednesday.

Lee Trail, Don Carnahan and Martin Woodward are doing their fall plowing at their ranches south of King Hill, in Pasaden Valley.

Rodney Ruberry has finished harvesting the corn crop at his ranch south of King Hill.

Mr. and Mrs. Charles Kast, 101 ranch east of King Hill, are in Oroville, Calif., on business.

Mrs. Robert Graham is hauling sludge from the Green Giant plant in Buhl, feeding it to their cattle at their ranch south of King Hill.

Mr. and Mrs. Robert Clark have moved from the Earl Ellis ranch east of King Hill and have purchased the ranch home of her brother and sister-in-law, Mr. and Mrs. Jack Allen, who have moved to Nampa. The ranch is located about two miles south of Hammett. The Clarks have lived in the King Hill area about a year.

Mr. and Mrs. Harold Richards and family have moved from the Karl Richards ranch east of King Hill to their ranch four miles west of Glenn Ferry. The Karl Richards ranch has been sold to Mr. and Mrs. Harold Anderson, Boise. Mr. and Mrs. Richards have lived at the Richards farm for several years and managed the ranch for his parents, Mr. and Mrs. Anderson and family have finished moving to their ranch this week.

Willis-Hawkes, Tuttle, is hauling and spreading barnyard fertilizer with his truck to his farm and several farmers are hand picking the corn which was left by the mechanical pickers and combines where it was bent down too far.

Mr. and Mrs. John Davis and family spent the weekend branding and vaccinating their cattle at their ranch east of King Hill.

Wool Quality Stressed At Stock Meet

Lowell Wilson, wool technician of the U. S. Sheep Experiment Station, Dubois, spoke on quality variations of wool at the annual meeting Wednesday of the Twin Falls County Livestock Marketing Association.

Wilson said that in the future wool will be sold at prices based on the yield and staple length.

"The grower with the best quality wool will receive the premium prices," Wilson stated at the meeting of the American Legion Hall.

Feeds for wintering sheep was discussed by Wade Wells, Boise, University of Idaho Extension animal husbandman.

Earl O'Hanlon, livestock committee vice chairman, reported that the association has handled 2,123 lambs during the year at prices ranging from \$5.55 to \$22.55 per hundredweight with a four per cent shrink deducted. Paid to the growers was \$48,076.

Charles Potoczek, Kimberly, wool committee chairman, announced that the association handled 47,874 pounds of wool this year with \$23,182.22 paid to the growers.

The importance of proper feeding and management practices to insure good quality wool was stressed by Lester Skinner, director of the Bear Lake County Wool Pool. Mr. Skinner is also a member of the American Sheep Producers Council.

All officers of the association were re-elected during the meeting. Luis Alastru, Hazelton, continues as president; F. V. Morrison, Murietta, vice president; M. F. Custer, treasurer, and Donald Yout, secretary. Directors elected to a three year term were Marvin Lohr, Filer; Alastru; W. E. McCoy, Buhl; and L. E. Venable, Kimberly.

COMPETITION UP
A record wheat crop in Canada along with large crops in both Australia and Argentina point to increased competition to U. S. commercial sales this year. The Soviet Union as well as several other Communist countries have harvested larger crops this year than for several years.

Potato Loss Estimated At \$50 Million

IDAH0 FALLS — "Don't be foolish enough to say that we have no Idaho potatoes for sale," Allen Larsen, Moreland, president of the Potato Growers of Idaho, told members at their state convention last week.

Larsen was commenting on the loss of some 17 million hundredweight of potatoes from frost damage. The damage was confined mostly to Eastern Idaho with Butte County reporting a 40 per cent loss and the Grace area 40 per cent.

Larsen went on to say that "we have 47 million hundredweight of good potatoes, let's work to sell them at a price that will profit us and recoup our losses."

Association officials agreed that potato growers over the state suffered an approximate \$50 million loss on the crop, based on \$1.50 per hundred field run, but insisted to point out that Idaho would ship 20,000 carloads of fresh potatoes this year, about the same number as were shipped in 1964. This compares with the 32,000 cars that were shipped last year.

It has become apparent from studies of the crop now in storage in cellars, that it will yield only 35 per cent No. 1, compared to a normal of 60 per cent.

The frost struck in mid-October during the harvest operations. At this time about half of the crop had been harvested. Potatoes that remained in the fields were heavy hit but the full extent of the damage did not

New Assistant Appointed For Land, Minerals

WASHINGTON, D. C.—Irving Senzel, for 27 years a lands specialist in the Interior Department's Bureau of Lands and Management, has been appointed Assistant Director, Lands and Minerals.

Secretary of the Interior Stewart L. Udall, in making the announcement, termed Mr. Senzel "an outstanding expert in public lands, intergovernmental relationships, and land planning."

Mr. Senzel, 52, has filled the position of assistant director in an acting capacity since June, 1966. He is the key lands and minerals assistant to BLM Director Boyd L. Rasmussen, whose Bureau administers 458 million acres of public lands.

BLM also administers mining and mineral leases on National Forests, wildlife refuges, and other Federal lands including the Outer Continental Shelf.

show up until after a period of time in storage.

Virgil Cross, Burley, extension potato specialist, told the growers that the frost damage would probably not have the adverse effect of this year's crop of seed potatoes. He explained that if there was no internal damage to the potato it would produce.

Clarence Parr, Burley, was elected president by the group for the new year with Kurt Kandler, Ashton, and Willis Williams, American Falls, as vice president. Dick Kerbs, Blackfoot, was named secretary-treasurer.

Efforts Of 4-H Leaders Win Recognition At Banquet

There is "genius in 4-H Clubs," said Don Warren, state 4-H Club leader from the University of Idaho, when he spoke to Twin Falls County 4-H leaders during the annual recognition dinner last week at the Filer Grange Hall.

"Little 10 year-old boys and girls who find themselves elected president of their local 4-H clubs have little thought about how they are being prepared for the roll of leadership later in life," Warren said.

"Completing projects is learning by doing and planning programs and conducting meetings is also learning by doing," the state leader said. "The genius of 4-H is arrived at in many ways but most important is young people having the supervision of adults other than their parents."

Warren pointed out, "While we place emphasis on boys and girls learning we often overlook the opportunities for learning by those who lead the clubs."

He concluded that there is the greatest need ever for adults to lead 4-H clubs and expressed hope that more will seek the honor and rewards by becoming 4-H leaders in 1967.

Twin Falls County 4-H leaders who received awards of recognition during the dinner were:

How About Growing Crops On Asphalt?

Ever think of planting an acre of potatoes on a black-top parking lot?

As silly as it sounds, this may be just what Magic Valley farmers will be doing in a couple of years — and if things work out as expected they'll love it.

American Oil Co. has been experimenting for seven years with laying an asphalt layer about two feet beneath the surface of the ground to conserve irrigation water and fertilizer nutrients used to raise crops.

The idea was worked out with agriculture experts at the University of Michigan seven years ago by American Oil, and has been in the experimental stage since then.

The mechanical problem involved in laying asphalt machine which pulls a blade that dips under the ground and contains outlets through which asphalt is pumped to produce an underground pavement at the proper level.

A brief outline of this operation was reported Thursday at a meeting of American Oil Co. officials and agents in Twin Falls.

William Matheis, Chicago, director of the Consumer Project Development Department of American Oil, said several plots have been operated with great success on this plan, on an experimental basis.

Savings in water and fertilizer and increase in production have been spectacular, he said. The company presently plans to try a couple of plots in this area on an experimental basis in connection with its new Twin Falls Farm Service Center, Mr. Matheis said.

The experiments probably will be started here next year, he declared. Cost of laying the asphalt for an experimental plot is about \$2,000. It is expected that when it is ready for commercial use, the cost will be about \$400 to \$600 an acre, he estimated.

He added that although experiments have been going on for seven years, it is not expected that the plan will be ready for commercialization before 1969.

Increases in production cost are a major problem for producers. Profits have been small even for the more successful cattlemen. Larger units are frequently necessary for adequate income.

However, most ranchers are near the limit of carrying capacity for range and cropland. Expansion through improvement of ranges is slow and limited by changeable weather and availability of time and capital.

Feed grain supplies of the United States are the lowest in several years. The total estimated at 25 million tons is 18 million less than last year. Domestic use and exports are expected to continue heavy. Production in Idaho was substantially below 1965. Stocks of barley, the principal feed grain in this area, were lower this year in Idaho, but higher in Montana, Oregon, and Utah.

K. Marshall Is New Head Of Spud Group
Kenneth W. Marshall has been elected chairman of District 5 of the Potato Growers of Idaho, Inc.

At the meeting last week at the Ponderosa Inn, Burley, the group also elected Charles A. Farr and Gerald I. Conrad, both Burley, and Harold Pickett, Oakley, to the organization's state board.

R. Barlow, Burley, is the new legislative chairman.

A series dedicated to Northwest Farmers

If he wanted long term farm mortgage credit, it was tough to get. Interest rates were high and credit extension was on a short term basis.

The farmer is a good businessman and recognized as such. Most farmers enjoy gift edged credit. They have earned it. And it was with the assistance of the type of credit that the Federal Land Bank system initiated that farmers made the great strides forward that have occurred in the past fifty years. Farm progress takes teamwork — individual initiative, technological knowledge and capital. The Land Bank Associations are proud to be a member of that team.

Fifty years ago the farmer did not have the same freedom to get credit

Beef Council Discussed By Industries

The proposed Idaho Beef Council, which is in the planning stages, is being organized for the purpose of promoting the sale of beef through education of the public and through advertising.

The plan, which must be submitted to the state legislature, is being considered by a number of industry-related groups. Patterned on similar programs in other states which have proved very successful, the proposal provides for funds to be collected by an increase in state inspection fees. This fee which is now 10 cents per animal would be increased to 20 cents per animal, will be collected at the time of the inspection.

If livestock men paying this increased fee do not wish to contribute to this program they may file for a refund of the additional 10 cents within 60 days.

The council would include four representatives of cattle producers; three from cattle feeders; one from dairymen; one packer; one livestock auctioneer and one member of the Cattle Raisers.

This plan was discussed by the Idaho Cattle Feeders Association during a meeting Nov. 30 at the Round-up room of the Rogerson Hotel.

At this meeting Ed Shaff spoke to the group about ideas relating to the cattle industry that were brought out at a recent bankers' convention.

The need for encouragement to farmers to raise "warm-up" calves was discussed by Larry Lickley from Southern Idaho Production Credit Association. This would mean the farmer would take the calf when it is weaned and feed it on farm crop residue until it reaches a weight of about 700 pounds.

At this time the specialized feeder was discussed by Ralph Ensign, who reported on a special feed-meeting which was held in Salt Lake City.

The group also discussed the type of cattle that the meat packer wants and the problems created by overweight cattle.

Former Area Man To Move To Australia

RACINE, Wis. — Douglas P. Burks, most recently an assistant to the vice president of marketing on special assignment, has been named managing director of J. I. Case (Australia) Pty. Ltd. He will move to Sydney, Australia, with his wife, Margaret, and their four children in mid-December to assume his new position.

Mr. Burks, who is a former resident of the Twin Falls area, is the son of Mr. Douglas H. Burks, who was a partner in the J. I. Case (Australia) Pty. Ltd. in Sydney makes plows, hammers and also loads and buckets for crawler and wheel tractors.

New Variety To Increase Wheat Yields

MOSCOW—The wheat farmer of the future will harvest 150 to 200 bushels per acre of wheat varieties tailored for specific purposes, Dr. R. D. Ensign, associate director of the University of Idaho Agricultural Experiment Station, forecast in a report prepared for the Idaho State Wheat Growers Association.

"In Idaho, we have seen wheat yields more than double in certain areas through use of improved varieties, better cultivation conditions and all-around better farming," he said. "The production potential for some of the state is still untapped."

"A well-adapted, dwarf-type wheat for fertile irrigated areas will possibly have a greater impact upon the wheat production picture than has the phenomenal Gaines variety."

Specialization is one area likely to develop rapidly, as we stop thinking of wheat as "just wheat," Ensign believes.

"Plant breeders will be required to develop wheat which possesses a certain protein quality. The wheat grower will need to follow rigid fertilization and production practices in order for the variety to meet market requirements. He will become a specialist along with all others in the production, marketing and processing of this food crop."

These developments will come through the intensive interest and continued cooperation of the wheat grower, the wheat processing industry and university agricultural researchers, Ensign pointed out.

Currently, he said, University of Idaho scientists are engaged in a study of wheat varieties related to wheat. These range from wheat breeding work to cultural studies to quality and marketing investigations.

Principal wheat research locations are the branch agricultural experiment stations at Aberdeen, Teton, Twin Falls and Sandpoint - Bonners Ferry and the main station at Moscow. In addition, wheat test plots are located in most of the principal wheat growing counties.

equipment division and early in 1965, he became acting general sales manager of that division.

Shoshone Girl, One Out Of Six, Wins National Award

SHOSHONE—"Look to your trees—America," was a theme of a county fair booth that has helped to increase 4-H forestry enrollment from a single member eight years ago to 30 in an Idaho county.

The enthusiasm of a 17-year-old young lady, Kathleen Ross, shows the reason why she was chosen out of 70,000 boys and girls as one of six to receive from American Forest Products Industries, Inc., through the National 4-H Service Committee in cooperation with the Cooperative Extension Service, an all-expense paid trip to the National 4-H Club Congress and a \$500 college scholarship.

"My project was different from most because I spotted, at a very early stage, the weakness of 4-H forestry in my county," Kathy confided. "Then I built my program around this instead of raising trees. My love for people and for forestry were combined to mushroom forestry enrollment."

Delry was her first project, but the love for the out-of-doors convinced her to take up forestry. She's the daughter of V. C. Ross, a farmer and teacher. Her cross section of a Norway pine stump—one of her first projects, has since been used by three science teachers for classroom study. The mounding of tree species presented a problem for pressed needles lost their color. Her experiments resulted in a discovery that hair spray provided the best results.

Another failure didn't stop her—soil fungus struck her scotch pine seedlings. Now,

Area Group Syndicates Idaho Horse

ALBION—Final arrangements have been made to syndicate the horse, Testum, Spectrum II, Testing by With Rogers here in Intermountain country.

Testum was bred and raised by Mr. and Mrs. Dick Anderson at Albion. The Andersons sold half interest to Leo Schilz, Pasadena, Calif., in January, 1962. Testum raced in the colors of Schilz and Anderson until he was purchased by the Testum Syndicate in September, 1966.

Testum, bay horse, foal of 1960—a stakes winner of \$11,985. In his three-year-old year, he won the Pomona Governor's Cup, equalling the track record, 6 furlongs, 1:10-3/5, and the La Jolla mile.

He placed second in the Oceanic Handicap.

At four he won the William P. Kayne and Hillside Handicap, was second in the Bing Crosby and Golden Gate Autumn Handicaps and placed third in the Lakes and Flowers and Peninsula Handicaps.

At five he placed second in the Redwood City Handicap. Through his seventh year, Testum started 68 times, placed first 21, second 10, third 11, and was unplaced 24 times. He was the winner of the Ely Thoroughbred Futurity at Ely, Nevada, and Elko County Fair Futurity at Elko, Nevada.

Testum, the greatest horse ever raised in Idaho to date, raced against and defeated such horses as Native Diver, Sledge, Gallant Hot, Rebel, Olympian, Double Lea and many others.

Syndication arrangements were handled by H. D. Witherspoon, Rupert. Testum was developed and sponsored by her own funds as a junior leader and leader in forestry clubs.

She once thought of a forestry career but has decided on biology.

"Still a proud 4-H forester," she says, "she's a national winner without a forest but certainly she deserves it."

SLAUGHTER DOWN
Non-fed cattle slaughter, including cow slaughter, is expected to be down substantially in this winter and to more than offset the increase in fed cattle marketings. Thus total beef production this winter likely will be smaller than a year earlier.

Speakers For Dairymen's Meet Named

BOISE—Two main speakers for the annual meeting of the Idaho Dairymen's Association, Jan. 17 to 19 at Boise, have been announced by Robert S. Davis, Kuna, president.

They are W. D. Knox, editor of Hoard's Dairymen, and Dan Jacobsen, member of the state of the American Dairy Association, Chicago.

Knox will talk about the future of dairying. Jacobsen will discuss the national research program.

Joe Hall, Boise, manager of the association, said about 300 dairymen are expected at the forty-third annual convention at the Wythe Hotel. He said the meeting is one of the most important in many years because of the decline in number of milk cows in Idaho and the nation. Fewer farmers have dairy stock. Most of those who are still in business have expanded their operations.

Farm Bureau Leader Speaks Against Production Controls

LAS VEGAS, Nev.—At the 4th annual meeting of the American Farm Bureau Federation, a national farm leader said that the bureau has consistently opposed the whole series of government farm controls, direct subsidy payments and price manipulation.

Charles B. Shuman, federation president, added that the "new Congress should end all production controls, direct payments and price management authorities as rapidly as possible."

The first step should be the immediate repeal of the payment provisions of the Food and Agriculture Act of 1949 and the enactment of effective legislation to prohibit the further use of Commodity Credit Corporation stocks to manipulate market prices.

Shuman said "there never has

been a better time to bring these 'temporary' programs to an end—consumer demand is strong and market prices are generally above support levels."

The farm leader rejected the often proposed "gradual phasing out of government programs as unrealistic. He said it would be "like cutting off a dog's tail one inch at a time—far more painful."

Shuman also rejected predictions of the administration that removal of controls would result in farmers being drowned in a sea of surplus production.

"There is ample evidence that no disaster would occur," Shuman said.

"Wheat producers have not planted all of the acres allotted for 1957. Many of the retired acres will never come back into production as they have been converted to other uses," he said.

While all segments of agriculture have the capacity to produce in excess of market needs, Shuman said, the availability of land does not determine wheat, soybean, cotton or feed grain prices.

Price, the prospect for profit, and the availability of capital, are the most important determinants of effective legislation to prohibit the further use of Commodity Credit Corporation stocks to manipulate market prices.

Shuman suggested several protective actions that should be taken in making the transition from government manipulated prices to the market price system.

First, government price support and allotments have tended to become capitalized into land values, Shuman said. That condition should be ended. In this case, loans be made to the farmer to purchase the allotment of any farmer who chooses to discontinue growing the controlled crop for a stated period of years rather than producing for the competitive market.

A second, important transition, he said, would be to prohibit the dumping of government-owned stocks through the market. Shuman also recommended that price supports through non-recourse loans be ended. In this case, commodity loans be made to the farmer to purchase the allotment of any farmer who chooses to discontinue growing the controlled crop for a stated period of years rather than producing for the competitive market.

Shuman also recommended that price supports through non-recourse loans be ended. Membership In Farm Unit Hits Record

LAS VEGAS, Nev.—At a time when the total number of farms in the nation is dropping, the farm organization, the American Farm Bureau Federation, announced a new all-time high in membership.

Roger Fleming, secretary-treasurer of the Federation, told the annual meeting that membership here has reached 1,703,908 families, a gain of 26,008 over the previous year.

Fleming said this is the sixth consecutive year Farm Bureau has posted new highs in membership. Texas joined Illinois, Indiana and Iowa as a 100,000 membership state.

He predicted that Farm Bureau would continue to represent an increasingly large percentage of the total number of farms in the nation because, he said, the organization is "in tune with changes occurring in American agriculture" and is "open to commercial agriculture."

Fleming also told the farmers and ranchers and their families that there is no future for them in a "poor mouth" approach to urban consumers.

He said they need another hole in the head, adding, "what they need is understanding and sympathy like they need another hole in the head."

He said they need to "get their heads out of the hole" and to "get their heads out of the hole."

He said they need to "get their heads out of the hole" and to "get their heads out of the hole."

Tests Given By Agent For Potato Seed

RUPERT, Idaho—Potato seed selection is very important this year, advises Virgil S. Cross, area extension potato agent.

The grower's survey at Idaho Falls indicated over 50 per cent of the total certified seed supply was lost by frost. Cross points out that the seed supply was lost by frost. Cross points out that the seed supply was lost by frost.

Seed growers are making a determined effort to prevent bin heating by resorting now, Cross said.

He states that for every percent of damage in seed, either from frost or bin heating, one can expect a decrease in yield of 200 bushels.

A reasonably sure method he advised for testing potato seed before purchasing was examined. He said that testing potato seed before purchasing was examined.

Such a length of time will bring out the grey and brown discoloration of the inner ring, and peeling will show the grey pressure bruises, due to chilling.

If the sample turns pink in a few minutes after cutting, it indicates internal trouble. He cautions that planting one-year-old seed that has frost damage is much more hazardous.

Chilled seed is defined as having been subjected to freezing temperatures without showing any internal damage but which will discolor and rot. This seed will heal very slowly and must be treated, preferably with dust. The seed has to be warmed up in addition to having ideal planting conditions.

Bin heated seed will show internal cell damage such as greying, or brown or dark spots. This seed has usually resulted in a very poor stand that was not profitable.

Better balance of power and is fortified by a mandate from the voters to execute independent judgment.

For zealous advocates of government supply management who served on the House Agriculture Committee were elected by the voters. It should now be possible to obtain bi-partisan cooperation in seeking economic rather than political solutions to agriculture's problems," Shuman said.

Glenns Ferry Girl Awarded Scholarship

CHICAGO—A 17-year-old Idaho girl has been awarded a \$500 educational scholarship as a national winner in the 4-H horse competition.

She is Marty Jo Watkins, Glenna Ferry, who won one of six national scholarships awarded by Merck & Co., Inc., Rahway, N.J., producer and distributor of medicinal chemicals and drugs.

The Merck scholarships mark the first time national awards have been presented in the horse program, which was conducted by the Cooperative Extension Service and arranged by the National 4-H Service Committee.

More than 145,000 4-H members from all 50 states (except Vermont) and Puerto Rico took part in this year's 4-H horse program. The 50 state winners were awarded pins and certificates, plus a trip to Chicago to take part in the 45th National 4-H Club Congress, Nov. 27 through Dec. 1, also donated by Merck.

Marty Jo is a heroine in the eyes of her friends and neighbors. She and her horse led a rescue team through rocky terrain at night to recover the body of a hunter killed by a fall in nearby inaccessible mountain territory. She plans on a career as a medical secretary.

Under consideration is a new, so-called "freeze" method of applying brands, developed by Dr. R. K. Farrell, an agriculture department research veterinarian at Washington State University.

It would replace the centuries old method of hot metal brands—a method that is painful to the animals and damages hides. The new method is not felt by the animal, officials say.

Some livestock organizations plan to push adoption of this method at upcoming meetings. Thought is being given to working for its use worldwide.

The new method involves applying material in the shape of the desired identification mark, chilled to an extremely low temperature by chemicals and dry ice.

Lincoln Farmers Still Planting Fall Grain

BY MELBA THORNE
Time-News Correspondent
SHOSHONE—Farmers in Lincoln County still are planting their fall grain, according to John Thomsen, manager of the local Beaton Bean Co.

The unusual weather conditions of the fall contribute to the unusual plantings and on some crops planted at the usual time—that the grain is "foot" tall.

Four storage warehouses besides the main building make up the housing of Beaton Bean in Shoshone. Farmers sell and buy in the planning and harvest season.

Thomas said they take in 100,000 bushels of wheat each year and between 50,000 and 80,000 bushels of other grains, in addition to the beans, mostly pinto. All of these are from area farmers' crops.

The wheat nearly all goes to Twin Falls, Ogden, and California mills. Previously it was shipped to stores but in recent years has gone back to the mills.

The wheat is shipped out from the local warehouse at the rate of about one or two railcars a day. The mixed grains, barley and oats, are sold back to local farmers.

Very popular the past two years, with the heaviest sale of all this past year, is Gaines wheat. It is expected to continue to be the best buy for most feeders in this area, as it is to the Agricultural Extension Service of the University of Idaho.

Barley has favored the most economical feed for the northwestern states at the prices that prevailed through the fall of 1966. It is expected to continue to be the best buy for most feeders in this area, as it is to the Agricultural Extension Service of the University of Idaho.

Country Squire

MUD and SNOW TIRES

The stud maintains excellent retention in the tire and stability in the tread. Proper gripping remains through most of the tire life because the slow wear rate of the tungsten carbide steel corresponds to the slow wear rate of the Country Squire tread rubber. Years of testing in the United States and Finland have shown that traction is increased by 180% and stopping traction by 70%.

The Country Squire Tires offers 18 plus benefits for gripping "go" power in mud and snow, great tire strength and happier winter motoring.

Murtaugh, T. F. Granges Have Meeting

Kenneth Poe reported on the Associated Taxpayers conference which he attended recently in Boise at the combined, December meeting of the Twin Falls county Pomona Grange and the Murtaugh Grange.

Poe stated that economy in government was stressed by all the speakers at this meeting with more control for the state and less by the federal government to be accomplished by direction of taxation.

Mr. Poe, Grange state deputy for Twin Falls County, also announced that plans are being made for a membership drive in the near future. Because this is the centennial year for the Grange, special emphasis is being placed on gaining members.

Poe stated that Harry N. Althouse, Washington, D. C., national deputy, has initiated a plan for Idaho deputies for a membership increase for the centennial. Although the Grange special emphasis is being placed on gaining members.

State Grange leaders were urged to stress to the public the many services and advantages gained by membership in the Grange, such as a voice in state and national legislation, credit unions, a voice for rural residents, a community service organization and social and recreation opportunities.

At this meeting Mrs. Don Dietz, Buhl, was elected home economics chairman for Pomona with Mrs. John Meyer, Buhl, as her assistant. Mrs. Burton Harmon, Kimberly, as assistants.

Mrs. Thomas E. Speedy announced that the annual Twin Falls Grange parade, supper and dance will be held Jan. 11 at the Twin Falls Grange hall with proceeds to go to the Idaho Youth Ranch, Rupert.

Mrs. Clifford Davis, Pomona, reported on the meeting of the lecturers' conference held recently. This group decided to have a Grange visitation program this year.

Mr. and Mrs. Ed Schwager, Burley, were guests at the meeting which featured a potluck dinner. Mrs. Schwager, who is state Grange home economics chairman, presented Mrs. Henry Lehman, Buhl, with an award for winning the place in the National Sampler contest. Mrs. Lehman also won third place in the National Needlework contest.

The lecturers' program included a centennial candle-lighting service; a Christmas prayer by Kim Breeding; a play by Jim Breeding; a play "God is Not Dead" by Mrs. Harold Messer; and "The Night of Christmas" by Mrs. Dick Morgan.

Mr. and Mrs. Eugene Dillon, Mountain Rock Grange, were accepted as new members.

The Twin Falls Grange will host the January meeting.

Fall Favors Late Harvest And Planting

BOISE (AP)—Weather during November was favorable for the harvesting of late crops and also for the planting of winter grains, the U. S. Department of Agriculture reported today.

Seeding of winter grains was near completion by the end of the month in most areas, the department said.

"Mild temperatures favored germination and emergence in areas of sufficient moisture," the agency said. "Rain was reported as excellent where moisture was plentiful, but it spoiled in dry areas."

By Dec. 1 the ground remained unchanged from Nov. 1 at 66 percent, down 13 points from the Dec. 1 average of the preceding five years. It was the lowest rating for Dec. 1 since 1934.

HANDSHAKES AND CONGRATULATIONS were in order when Alfred Peters, left, announced the retirement of Nathan O. Kempton, center, and Charles E. Carle, Buhl, right, from the Twin Falls Canal Company effective the first of the year. (Times-News photo)

Two Men To Retire From Firm Noted For Personnel's Length Of Service

It may be possible that the Twin Falls Canal Company holds some kind of record for its lack of turnover in personnel and for the number of years of service held by its employees.

Two of the employees, Nathan O. Kempton and Charles E. Carle, Buhl, will retire the first of the year, illustrating Alfred Peters' statement that "about the only way we lose employees is by retirement."

Mr. Peters himself has 43 years of service, having started with the company in 1923. Mrs. Margaret Connel, secretary, clerk at the Twin Falls office, is now in her 28th year.

Mr. Carle, who has been the watermaster at Buhl for the last 10 years, worked for the Canal Company during the year 1917-18. This was the year they were putting the Cedar River spillway and he recalls they slept in tents at the site and admits that "it got a little cold."

He worked at the location

from Monday through Saturday.

Mr. Kempton, who is a Twin Falls resident, first came to this area in June of 1910. He could beg off work early he caught the train at Filer to get to Buhl.

He recalls that at the Buhl division of the Canal Company in 1917 they had one Model T Ford which was provided for the watermaster. There were no trucks.

At the end of this year, Mr. Carle moved to Southard, Okla., where he was mill and mine superintendent for the U. S. Gypsum Co., from 1918 to 1930.

In 1930 he returned to the Twin Falls Canal Company as a truck driver and later as construction superintendent. And there he has remained for 36 years. He said he has seen lots of progress on the canal system here, and will miss working with his fellow workers, but he does have a lot of hunting and fishing to catch up on after his retirement.

Retirement.

A banquet was given in honor of the two retiring employees last week at the Twin Falls Grange hall.

While some farmers may escape crop losses entirely in any given year, those who are hit are frequently struck a devastating blow and in many instances, losses to assets tend to be compounded.

Here's how Federal Crop Insurance works.—It draws—on years of experience and detailed records to determine area by area—the yield local farmers must be able to count on to produce their crop.

Once a guaranteed yield is established a value is decided on for each bushel or pound. That is, the price which the policy holder is to be paid for each bushel or pound that his damaged or destroyed crop is below the guarantee.

In this way, each farmer is able to tailor his crop insurance to his individual needs.

Annual premiums are set at a level that over the years, will cover indemnity payments.

On the average, 83 cents of each \$1 of premiums has been paid out to farmers in indemnities and the balance is held in reserve. Substantial discounts from regular premium rates are given to policyholders fortunate enough to have low recurrences of losses and, of course, premiums are a tax deductible business expense.

A farmer's toughest competitors

are insects, disease and weather.

Annual insect losses, it's estimated total upwards of two billion, and crop diseases take an annual toll of nearly three billion. Together, they destroy production equal to more than one acre of every ten acres.

Weather caused losses, although not subject to precise estimate, are even larger.

Area FFA Chapter Features Broadcasts-And Newsletter

SHOSHONE—For the past several years the Future Farmers of America at Shoshone have edited and published a newsletter.

This fall the school turned over a room for the chapter's use and two more eggs the boys began by remodeling and paneling the room with mahogany.

The office will be used primarily for the preparation of the Newsletter which is distributed throughout the county to the farmers and includes farming tips and articles on farm topics.

Tom Race is the newsletter

editor. Robert Bowdler is the assistant editor with Gary Larson and Kim Mills also on the staff.

In addition to the publication of the FFA chapter also prepares and records radio talks pertaining to farm interests. These are carried by KSTP Radio KBAK, Burley; KILX, Twin Falls; KART, Jerome, and KFLI, Mountain Home, range from one to five minutes each and are broadcast over some of the stations five days a week and on others three days a week.

Fred Silva, George Artosca and Milton Sorensen are the radio co-chairmen with Carl Peterson, Ted Davis, Craig Harris and Layne Hadlock assisting.

The chapter officers are Ronald Croft, president; Rusty Tows, treasurer; Walter Hubbs, secretary; Carlene Shoen, Linda Abers and Judy Peak as attendants.

Ed Griggs is the teacher adviser and directs the boys in the various projects.

"Greenhands" were initiated into the chapter recently and the chapter farmer degree ceremony will be conducted in the near future.

Debbie Harris was selected by the members as the sweetheart of their recent Sweetheart Harvest ball with Joann Peak as interior, Leta and Leiford, Gply whitewalls...and more.

Delivered on pickup, the new Datsun 510 can handle up to 2,000 lbs. It carries at savings of up to 50%. Datsun is the number 1 import truck seller today! Delivers complete with synchromesh 4-speed, alternator, vinyl interior, heater and defroster, 6-ply whitewalls...and more.

Seeds potatoes were inspected in 24 counties. Fremont county had the largest acreage—8,053. Butte was second with 4,178, and Bingham was third with 3,505.

Winter test plots are now being planted in California. The Idaho samples will be read for disease in March. There were about 630 grower samples in the tests last year. A similar number will be grown this winter.

CHANGES MADE
Recent changes in income tax law will influence some Idaho farmers' income tax. The seven per cent investment tax credit on machinery cost and the allowance of accelerated depreciation on certain real property has been suspended for the period October 1, 1966, through Dec. 31, 1967, according to the Agricultural Extension Service of the University of Idaho.

USE TIMES-NEWS WANT ADS

Feed grain supplies in the U. S. are lower than they have been for several years. The supply of all feed concentrates for 1966-67 is estimated at 235 million tons, 10 million less than last year and 25 million below the record supply of 1960-61. A decline in feed grain stocks accounted for most of this reduction.
