

U.S. Said Ready For Talks With North Vietnam

WASHINGTON (AP)—Secretary of State Dean Rusk declared in a letter made public today that the United States is ready now to meet with representatives of North Vietnam "either in public or in secret to work out arrangements for a just solution" of the Vietnamese war. Rusk also reaffirmed U.S. assurance to the Communist side in the conflict that "there will be no difficulty in having the views of the Viet Cong presented at any serious negotiation."

But he was emphatic in rejecting Communist demands that the National Liberation Front, the Viet Cong's political arm, be represented as sole spokesman for the people of South Vietnam. These Rusk statements, in a seven-page letter to a North Carolina student leader, came in the midst of widespread speculation that the leaders in North Vietnam may be becoming more interested in discussions—ending the war than they have been in the past.

Only Thursday, Hanoi's diplomatic representative in France declared that if the United States would "reconsider its position regarding this country's government would be ready to 'examine and study' American proposals on negotiating an end to the war."

Earlier, North Vietnamese Premier Pham Van Dong had spoken in an interview of the possibility of profitable talks once the fighting is stopped. Rusk's letter was dated Jan. 4, two days ago, and made public by the State Department today. It was addressed to "student leaders" who had written inquiring about or criticizing U.S. policy on Vietnam.

Move To Oust Powell Hit By McCormack

WASHINGTON (AP)—House Speaker John W. McCormack has informed a group of liberal Democrats he is opposed to attempts to take away from Rep. Alan Chicago Powell either his seat in Congress or his chairmanship of the House Education and Labor Committee, sources confirmed today.

The speaker's position, conveyed to the liberal leaders in a two-hour conference Thursday, was complicated by a split in which critics of Powell are split on how to deal with the controversial New York Negro Democrat.

The speaker declined to comment, however, on meetings Thursday with Rep. Lionel Van Deerlin, the California Democrat trying to keep Powell from the committee chairmanship, and a group of liberal Democrats who want to prevent Rep. William M. Calderon, D-Miss., from becoming the committee chairman.

Hanging

LEWISTON, Idaho (AP)—Idaho Gov. Don W. Samuelson was hanged in effigy on the Lewis-Clark Normal School campus here Wednesday night.

Three young men wearing masks pulled the effigy high on a light standard on the LCN campus. A sign on the figure read: "Big Don."

The action apparently was the result of a suggestion by Gov. Samuelson to the Legislature Tuesday to suspend the union proposed Lewis-Clark Normal be dropped from a degree-granting institution to a vocational school.

Judge Makes Ruling On Road Issue

Judge Theron Ward, Eleven Judicial District Court, Twin Falls, in a judgment issued Thursday ruled the Idaho Department of Highways has the right to condemn the property Dec. 31st. Miss Krueger, for highway construction.

Miss Krueger is one of several property owners involved in right of way suits brought by the highway department for improvement and reconstruction of State Highway 50 and U. S. 30 for connection with the new Hansen bridge.

Judge Ward's findings stated the land is needed for public use as authorized by law, is needed for highway construction and the department of highways is entitled to maintain its action to condemn the property. Miss Krueger owns three parcels of land involved in the right of way action.

Judge Ward's findings stated the land is needed for public use as authorized by law, is needed for highway construction and the department of highways is entitled to maintain its action to condemn the property. Miss Krueger owns three parcels of land involved in the right of way action.

RESCUERS AID INJURED victims while one carries lifeless body of child near wreckage of one of two buses that collided on mountain road south of Manila Friday and plunged in ravine. Buses were loaded with Roman Catholic pilgrims. At least 83 were killed and 60 injured, officials reported. (AP wirephoto by radio from Manila)

83 Killed After 2 Buses Collide On Manila Road

MANILA (AP)—Two buses loaded with Roman Catholic pilgrims collided today on a mountain road and hurtled into a ravine, killing at least 83 and injuring about 60, officials reported. The Philippine constabulary said many dead had been counted at four medical centers and that many of the injured were in serious condition. They expected the toll to rise.

U.S. Pilots Down 2 MIGs Over Vietnam

SAIGON, South Vietnam (AP)—U.S. Air Force pilots downed two more Communist MIG21s over North Vietnam today, running their score of MIG kills for the week to nine, the Air Force announced.

The week's effort wiped out about half of North Vietnam's estimated fleet of 15 to 20 of the late model MIG21s, the fastest Communist plane in Asia, which can travel 1,500 miles an hour.

U.S. officials said no American planes were lost in the duels with MIGs, but they said one Air Force Phantom jet went down today 100 miles west of Hanoi from "unknown causes." Both flights aboard the reconnaissance Phantom were rescued within nine minutes of each other, a U.S. spokesman said.

Stamp Redemption Issue Put Before Idaho Legislature

BOISE (AP)—Idaho's legislature was asked today to compel redemption of trading stamps in cash, if the holder so desires. The action put formally before the 1967 legislature a controversial question that has stirred widespread debate. In 1961 a similar bill embroiled the lawmakers in prolog debate, was eventually enacted then vetoed by the governor.

The House approved the measure Wednesday after three days of debate. The trading stamp bill was offered by Reps. Walter E. Little, D-Idaho, and J. Patterson, D-Cascade. Little is a sheepman and Patterson a retired farmer.

The measure would require that each trading stamp require on its face its cash value in cents. It also would require the company issuing the stamp to redeem it in cash if the holder so desired. The stamps also could be redeemed in merchandise, as at present.

The proposed constitutional amendment, introduced in the Senate by the Printing, Legislative Expense and Elections Committee, would make possible submitting to voters at one time a measure to amend the constitution changes dealing with the same general subject.

Such an amendment could be offered to the legislature, however, only by constitutional revision commission. A similar proposal was turned down by voters last November.

Romanian May Get High U.N. Position

UNITED NATIONS, N.Y. (AP)—Romania's affable foreign minister, Corneliu Manescu, was reported Thursday to have received the necessary commitments to assure his election as the first Communist president of the U.N. General Assembly.

Although the 22nd session of the 122-nation assembly is still more than eight months away, it appeared Manescu might win the key U.N. post without a contest. Communist candidates never come close in the past.

Informal sources reported the only other known candidates, Emilio Arenales, Cation of Guatemala and Gerardo Zeno, Cuba, had bowed out in favor of the Romanian foreign minister. Under the traditional system of regional rotation, Manescu would have been Latin America's turn for the presidency.

Law Enforcement Commissioner Named

BOISE (AP)—Gov. Don W. Samuelson announced today the appointment of Warner C. Mills, director of liquor law enforcements, as Idaho commissioner of law enforcement. Mills replaces E. R. Hopper, who resigned Wednesday. Samuelson said the State Land Board, of which he is chairman, has asked for the resignation of State Forester Roger Guernsey. Samuelson made the announcements at his first formal news conference.

Court Rules In Georgia Election Case

ATLANTA, Ga. (AP)—The Georgia Supreme Court in a 5-2 decision today ruled that the legislature may elect the next governor in the deadlocked race between Democrat Lester G. Maddox and Republican Howard H. (Bo) Callaway, an authoritative source said.

The Associated Press learned of the decision prior to the official announcement, which was delayed until copies of the opinion could be prepared.

The outcome of the gubernatorial contest in the Nov. 8 general election has been steeped in uncertainty since the House Democratic primary last September.

Snow Closes Road Into Pomerelle

Snowfall has continued this week both at Magic Mountain and Pomerelle ski areas with no expected snow for the next two days.

Con DeThomas, manager at Pomerelle, said the road was being plowed Friday and the area will be open Saturday if new snow did not close it again. The area has been closed Thursday and Friday because of the heavy snow.

Skiing conditions should be excellent for Saturday and Sunday, DeThomas said, adding some 15 to 20 inches of new snow has fallen in the past few days.

Another foot of new snow has fallen at Magic Mountain, bringing total depths on all runs to about four feet. All runs are open and are machine packed and powdery.

U.S. Pilots Down 2 MIGs Over Vietnam

SAIGON, South Vietnam (AP)—U.S. Air Force pilots downed two more Communist MIG21s over North Vietnam today, running their score of MIG kills for the week to nine, the Air Force announced.

The week's effort wiped out about half of North Vietnam's estimated fleet of 15 to 20 of the late model MIG21s, the fastest Communist plane in Asia, which can travel 1,500 miles an hour.

U.S. officials said no American planes were lost in the duels with MIGs, but they said one Air Force Phantom jet went down today 100 miles west of Hanoi from "unknown causes." Both flights aboard the reconnaissance Phantom were rescued within nine minutes of each other, a U.S. spokesman said.

The two MIGs were brought down 20 miles northwest of Hanoi in the same area where Air Force Phantom pilots downed seven MIG21s last Monday and an area which U.S. spokesman called "MIG Valley."

Schools In India Closed After Riots

NEW DELHI, India (AP)—The Indian government closed all schools and colleges in the eastern state of Bihar today after a period of three days of riots that took at least nine lives.

Agitation reached a peak Tuesday when several thousand students paralyzed Patna, the state capital, with three hours of looting, arson and acts of mob violence.

Press reports from Patna, 200 miles east of New Delhi, said the army was patrolling parts of the city but that a dusk to dawn curfew had been imposed. Rioting began when several hundred students clashed with police after curfew hours.

Strikes And Threatened Walkouts Plague Schools, Hospitals

By The Associated Press. A series of strikes and threatened walkouts—mainly in the teaching and medical professions—plagued schools and hospitals today.

In Chicago, union teachers seeking higher wages and shorter working hours, began a strike against the city's eight public junior colleges, which affects about 30,000 students.

In Youngstown, Ohio, a strike at Cator Memorial Hospital moved into the courts with a hearing on a petition by hospital to limit the activity of pickets, Local 47 of the Building Service and Maintenance Union struck the hospital last Saturday in a bid for recognition.

Doctors threatened a strike at New York's Harlem Hospital if one of their colleagues, suspended after criticism of the city's hospital affiliation program, is not reinstated by Monday.

The Chicago Teachers Union, in a bid for higher wages, threatened a strike for Monday.

Following the closing of five schools, The Cleveland Education Association has called a strike for Monday, but apparently won't have the support of its rival, union-bigger Cleveland Teachers Union.

The American Nurses' Association is holding a meeting in New York City today to discuss a proposed strike against the regional carrier.

More than 100 plumbers returned to work in New York Thursday, ending a strike that had slowed construction for 104 days on projects valued at more than \$30 million.

Book Suit Trial Slated For Jan. 18

NEW YORK (AP) — Trial of Mrs. John F. Kennedy's suit against Harper & Row to block publication of the book, "The Death of a President," has been set for Jan. 18. Observers close to the dispute still expect, however, that it will be settled out of court.

State Supreme Court Justice Saul S. Streit set the date Thursday after author William Manchester and Harper & Row filed separate but similar answers to Mrs. Kennedy's suit. Streit had said last week he would hear the case against Manchester on Jan. 16.

Streit said discussions aimed at reaching a settlement were continuing, then added, "In the event negotiations are not completed, the parties will go to trial."

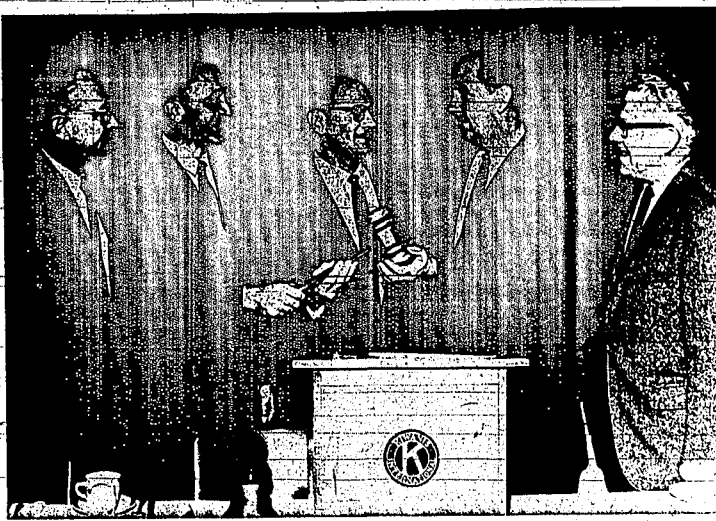

Mrs. Kennedy seeks a permanent injunction against the publication of the book, unless author and publisher agree to delete some material she deems too personal.

Harper & Row plans to publish in April Manchester's 306,000-word book on the 1963 assassination of President Kennedy.

Look magazine, which has serial rights to the book, agreed to certain deletions in an out-of-court settlement and begins a four-part, 60,000-word series in its issue going on sale next week.

Mrs. Kennedy's suit is based on an alleged breach of contract between Manchester and Sen. Robert F. Kennedy, D-N.Y., her brother-in-law. The Kennedy brothers had the contract stipulated the text be approved by them prior to publication.

In their answers, both author and publisher offer broad denials of virtually all Mrs. Kennedy's charges.

WILLIAM (BILL) KOCH, second from right, president of the Twin Falls Kiwanis Club for 1967, accepts the club's special gavel during installation ceremonies Thursday noon. Others in the picture, from left, are Vernon Riddle, last first vice-president; Armour-Anderson, retiring president; Ted Kelsey, lieutenant-governor for Kiwanis Division Five; and William Grange, club secretary. Mr. Kelsey, from Burley, was installing officer. (Times-News photo)

T.F. Kiwanis Club Has Installation Ceremonies

William (Bill) Koch, president of the Soft Manufacturing Co., was installed as president of the Twin Falls Kiwanis Club Thursday.

The installation ceremony highlighted the regular session of the club at the American Legion Hall at noon. Ted Kelsey, lieutenant-governor of Kiwanis Division Five, was installing officer.

Others taking over official posts for 1967 were Vernon Riddle, local accountant, first vice president; Pat O'Connor, Idaho Power Co. engineer, second vice president; William (Bill) Grange, manager of Cable Vision, secretary; and Claude Brown, Jr., owner of Spring Crest Draperies, treasurer.

Directors-for-the-year are Bill Emerick, Dr. James Taylor, Hull Hill, Bert Lassen, Jim Olson, Steve Baiteroff, Larry Harvey, J. Hill, Rev. Forrest Hibbard and Lee Vogel.

Perfect attendance pins went to 41 members and the awards ranged from one-year pins to a 28-year pin. The 28-year pin went to James E. Reynolds. Others being awarded for 10 years or more included Juneau

News Of Record

TWIN FALLS COUNTY
Clerk's Office
Marriage license was issued to Benjamin Franklin Edmundson III, Salisbury, N. C., and Sally Caroline Sieber, Twin Falls.

GOODING COUNTY
Fourth District Court
Divorces were granted to Mrs. Doris Carlotta from S. A. 1 & 1/2 Farbotko and to Mrs. Kathleen E. Slaton from Mike O. Slaton.

Donald J. Kelley was given a divorce from Mrs. Juanita Kelley and the defendant was given her former name of Juawita Donnan.

Stanley Silberman was given a divorce from Mrs. Loree J. Silberman. Divorce was also granted to Mrs. Susan Threlkeld.

Public Business, Robert Alexander; Key Club, Larry Harvey; New Club Building, Max Brown; Kiwanis Club, Relations, John Hahn; House and Reception, Ernest Gyer; Support of Churches, Rev. Forrest Hibbard; Budget and Finance, William Evans.

Program and Music, Pat O'Connor; Membership, Oren Fisher; Laws and Regulations, O. P. Duvall; Kiwanis-Blade Editor-in-Chief, Gus Keller; International Relations, Charles Allen; Education and Attendance, Ray Lincoln; Circle K, Stan Snow.

A standing ovation was given Judge Duvall, the club's only active charter member, when he was introduced. The installation was the 46th for the local unit.

Armour Anderson is retiring president.

Astromouse Is Fitted With Radio Transmitter

WASHINGTON (AP) — A miniature mouse no larger than a man's thumb has been fitted with pea-size radio transmitter and is being groomed for possible future space journeys.

Dr. Orr E. Reynolds, director of bioscience programs for the National Aeronautics and Space Administration, displayed the mouse, one of several of a desert variety that never drink water, at a briefing on space research Thursday.

"You've heard of astrobugs — this is astromouse," Reynolds said. "He is a desert mouse of the Southwest, a pocket mouse and has a lot of capabilities for space research."

"He doesn't need water, eats only sunflower seed, and has no liquid excretion."

Reynolds said one of the instrumented mice may be sent into orbit along with three astronauts and in an Apollo spacecraft.

Another may be sent far out into space in a probe in a study of biological specimens outside the earth's gravitational sphere.

The tiny radiotransmitter was planted in the cheek pouch normally used by the mouse to store food. Reynolds said the transmitter also could be placed in the animal's abdomen.

Whenever Reynolds held a recorder near the mouse, the signals from the animal's transmitter could be heard clearly. But the mouse continued nibbling food unconcerned.

Reynolds said the radio telemetry equipment could continue broadcasting the mouse's temperature for six months.

He said some hospitals are planning to test the use of the miniature transmitter in internal studies of persons suffering from ulcers or other stomach or intestinal disorders.

The patient would swallow the small transmitter. As it coursed through its digestive system it would broadcast internal temperatures. A temperature rise would indicate a fevered condition such as an ulcer or tumor would pinpoint the trouble spot.

Circulating
SAN FRANCISCO (AP) — The half-dollar is circulating again, says the director of the U.S. Mint, Miss Eva Adams.

Miss Adams said speculative hoarding of half-dollars, as well as new pennies, nickels, dimes and quarters, has subsided. She said the mint would produce 200 million half-dollars this year.

FALSE TEETH That Loosen Need Not Embarrass
Many wavers of false teeth suffer embarrassment because their plates don't fit or wobble at just the wrong time. Don't live in fear of a little PASTESTH. The new acid powder, on your plates, holds false teeth more firmly so they feel more comfortable. Check your dentures. Notice that they are essential to health. For your dentals regularly. Get PASTESTH at all drug counters.

Passport May Be Issued To Oath Decliner

WASHINGTON (AP) — Under new State Department regulations, passports may be issued to citizens who refuse to swear allegiance to the United States.

But we do not believe we have legal authority to deny a passport to a citizen who declines to take an oath," press officer Robert J. McCloskey explained Thursday.

However, the new passport application forms will still carry the familiar allegiance oath as required by the United States. The oath is normally designed by those who do not object.

It was understood that the passport director, Frances G. Knight, who has been at odds with her State Department superiors on a number of other issues, strongly opposed a move to drop the oath from the application forms.

The office of the State Department legal adviser, Leonard C. Meeker, was said to have blocked some months ago that the secretary of state did not have legal authority to require the oath of allegiance from passport seekers. The Supreme Court has not passed on this, but neither has Congress enacted a law authorizing it.

A study group within the State Dept. has recommended that the oral oath-taking on passports be abolished for the sake of efficiency in the issuing of some two million passports a year.

Grange Gives Obligation At Hollister

HOLLISTER — Mrs. Heber (Virginia) Loughmiller became a member of Hollister Grange when it met Wednesday evening.

Lester McGregor gave the Grange obligation to Mrs. Loughmiller.

The speaker, agriculture chairman, reviewed the Idaho State Reclamation meeting held recently in Pocatello, in matters pertaining to the water resources studies on the Salmon tract. W. J. Lanting announced the annual Salmon Tract Canal board election will be held Monday.

Lanting stated possible changes in the voting bylaws of the company are to be discussed and voted on, and all land owners and voting delegates are asked to attend.

A discussion of the "hott district" laws which concern entire waters and the public liability laws was held, and members were asked to think about new changes in boundaries of the herring law.

Mr. J. L. Schmitt, home economics chairman, distributed the 1967 serving committee yearbooks.

Mr. and Mrs. Harvey Montgomery were in charge of the evening's holiday program. Homer Roberts talked on New Year's resolutions, Steve Nelson gave several piano selections. David Fullmer presented piano numbers, and Steve Fullmer recited a Christmas poem.

David Chudwick, accompanied by his daughters, Lila and Christine, on the melodion, sang. Patricia Lanting presented several piano selections.

The men were hosts for the evening, serving a buffet lunch and doing all the kitchen duties. The hostess for the next meeting are Mr. and Mrs. Homer Roberts.

Foresters To Analyze Magic Fire

Regional Forest Service officials will reanalyze the Magic Fire through slides and reports Jan. 12-13 at Twin Falls. They will in an effort to analyze fire fighting technique and improve it. Sawtooth National Forest personnel reported Friday.

Seven regional foresters from Oregon will take part in the meetings, termed an "Administrative Fire Analysis."

Present will be H. S. Coons, assistant regional forester in charge of fire control; Bob Han regional dispatcher; F. C. Curtis, assistant regional forester, division of land management; D. M. Gaultin, assistant regional forester for life management; R. E. Hall, regional coordinator and dispatcher; G. B. Doll, branch chief of fire control; and D. E. Major, assistant branch chief of fire operations.

Approximately 30 Sawtooth National Forest Service personnel will attend this first meeting in a series of four throughout the state.

The participants will analyze the Magic fire from the initial suppression to the resulting actions which controlled it. The meetings will also be used to train personnel in new fire fighting techniques.

The three other Administrative Fire Analysis meetings scheduled throughout the state are, Caribou National Forest, Pocatello, Jan. 19-20; Boise National Forest, Boise, Jan. 26-27; and Payette National Forest, McCall, Feb. 23.

Trial Set For Man Who Claims To Be Strangler

By SID HURLBURT
CAMBRIDGE, Mass. (AP) — A mental patient who claims to be the Boston strangler is set for trial next week in a variety of charges not related to the stranglings.

Defense Atty. Gen. Leo Danley says his client, Albert DeSalvo, is the man who strangled 26 women in eastern Massachusetts between June 1962 and January 1964.

The defense plans to identify DeSalvo as the strangler in next week's trial in Middlesex County Superior Court.

At least the 34-year-old house painter-handyman in 1965 on 16 counts of robbery, assault, burglary and sex offenses.

DeSalvo has been confined to the Massachusetts State Hospital at Bridgewater since shortly after his arrest in 1964. After an initial insanity trial, he was judged mentally unfit to stand trial.

Last June, DeSalvo testified at a Superior Court hearing that he believed himself competent to stand trial. Psychiatric testimony was divided, but a judge ordered the trial to proceed.

Danley, who successfully defended Dr. Sam Sheppard in his second murder trial and Dr. Carl Cappolino in his recent New Jersey murder trial, took DeSalvo's case after the man was committed to the hospital's special center for sex offenders.

Although DeSalvo has said repeatedly he is the strangler who held Boston in a grip of near panic for 18 months, the state has said only that it lacks evidence sufficient to convict anyone of the slayings.

The stranglings began on Jan. 14, 1962. Within 18 months 11 women living within a 26-mile radius of Boston were raped and strangled.

The latter used a nylon stocking or kerchief and left the death instrument arranged in a haphazard way about the victim's necks.

THANKS

For The Greatest Year In The History Of

THEISENS

Thanks for believing in us, and the great new cars from Lincoln Mercury. Because of you, we've just completed our greatest year since starting business in 1953.

Thank you for making Mercury the Number 1 car in Magic Valley.

Big, Big And Bigger

It is difficult to visualize an airplane big enough to take between 400 and 500 people up in the air. It is almost as difficult as believing the plane that can do the job would still be able to fly more than 1,000 miles an hour. Much more, really!

If such a plane could land at Twin Falls, it could take off and reach San Francisco in quite a bit less than 30 minutes. It could go on to Honolulu in less than two hours more.

By flying the opposite direction, say San Francisco to New York City, you could eat breakfast in the Pacific Coast community, arrive at the Empire State capital, and be back in San Francisco before it was time for lunch.

But with the supersonic jets now being planned, this cross country trip might not be possible. The planes are so large, and are expected to be so noisy, that they may be used only for overwater flight.

Going overland you might end up having to be satisfied with taking as many as three hours to get across the nation. It wasn't much over 100 years ago that pioneers, wending their way across Magic Valley on the Oregon Trail, took up to six months to get from the Mississippi to the Pacific Ocean.

Even now, the existing commercial air transportation and not taking into consideration the big jets of a few years from now, a modern traveler can cover as much ground in one minute as it took the wagon pioneers a long day to accomplish.

We wonder where it will all lead. Is a hectic life the answer to living? Is running better than a stroll?
Someone said we pass this way but once... Perhaps in the not too distant future, we will be traveling so fast we will never get to take a good look—even that once!

CLEAR

Words—they're wonderful.
Used by experts, they can come out so simple or so clearly to articulate their meaning is unmistakable.
Used by others just as expert, they can be so vague, so obtuse, so circuitous that they successfully fuz up whatever meaning the genius who used them might have had to convey if he hadn't used them instead of words which would have tipped off his audience to what he was really saying.

This art of frank and honest double-talk is at its best with public officials and others who have frequent occasion to wiggle off a sticky spot.
The example of how a real pro can handle a sticky situation like this was offered recently when Treasury Secretary Henry H. Fowler addressed the U.S. Savings and Loan League in New York.

Fowler was letting his audience in on the goals of U.S. fiscal policy in 1967. And he gave it to them straight and hard, no punches pulled, when he said:

"Although specific measures can help achieve these results, the most fruitful approach would seem to be to shift the mix of policy so as to permit some easing of monetary restraints."
How's that for a stunner?
Here was something the men on the street could dig. But just in case he couldn't, the wire service carrying the story added:

WASHINGTON — I have been attending close to 100 public appearances of a sample of glamor boys who will join the United States Senate next Tuesday and I am afraid they will find it hard sledding, at least for a while.

Although the "glamor boys" of Massachusetts nor Chuck Percy of Illinois knows how to talk like a Senator.

However, a new member cannot depend on such tolerance. Merely because he is a new man, he is viewed with dark suspicion, because there is always the danger that he will make a blunder.

NO SPEAK SENATESE

This sort of restraint will not set well with their incumbent colleagues. Senatorial language has been tested by time and has been found good, and good and the things up there are inclined to regard as snobbishness any suggestion that a new member of the world's most exclusive club is understocked with cliches.

However, a new member cannot depend on such tolerance. Merely because he is a new man, he is viewed with dark suspicion, because there is always the danger that he will make a blunder.

THE RIGHT Cliches

Thus, in discussing foreign aid, he must be sure to insert the phrase "aids and airdrops" as a whole. He must remind his constituents that Khrushchev threatened to "bury" us. Frequent tribute must be paid to "the American way of life," base ball, the Senate speaker's bean soup and all manners of more than five children.

CONFORMITY IS SACRED

Fortunately, such new men as Brooke and Percy will be taken in hand by their aging peers. They will be informed that the way to get along is to go along with more than five children.

Views of Others

Propagandized — If the House Un-American Activities Committee is really interested in exposing conspiracies against the people of the United States it should take a look into the affairs of the U.S. Information Agency.

When government officials talk about shifting the mix of policy, they generally mean either raising taxes, cutting federal spending or both. Sources close to Fowler cautioned against reading more into his words than an assertion that the current slowdown in the economy does not include a tax increase.

RELIGIOUS SCHOOLS

"People who send their children to religious schools pay taxes for the support of the public schools, as well as paying for the support of the religious schools. Do you think public taxes should be used to support the religious schools also, or not?"

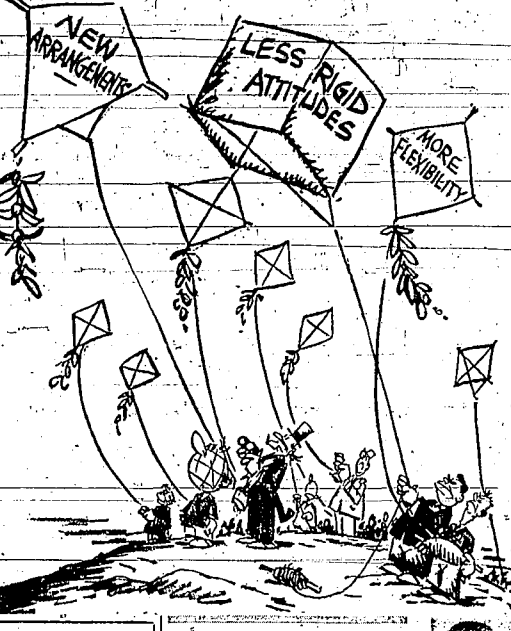

A Gallup Poll of the adult American population, sponsored by the Catholic Diocese, reveals that 52 percent favor use of taxes to support such schools, while 45 percent are opposed with 12 percent undecided. The percentages are but slightly changed from an identical poll in 1952, when 49 percent were in favor, 49 percent against and 11 percent undecided.

Catholic opinion in favor of public taxes for religious schools dropped eight percentage points to 53 percent; with 31 percent against such public tax aid, compared with 25 percent against in 1952. There was an increase of 14 percent undecided.

Winds Of Change In Europe

TAYLOR'S VIEWS ON WASHINGTON

By HENRY J. KAYLOR

President Johnson, who could stand a little bit more of the good news, will get it in Brazil at the forthcoming hemisphere Presidents' summit meeting. His prompt, courteous and successful Dominican Republic intervention that blocked a Communist takeover is certainly paying off there.

Brazil borders on all but two of our South American countries. No Latin-American resistance to Henry J. Taylor communism does not include Brazil. It is worth nothing. And the great Red target from the Cuban base, expanded to the Dominican Republic, was Brazil.

The Reds staged their bloody coup in Cuba to get their feet on a demagogic band in power. The Cuban Communist conspirators made the attack against which President Johnson intervened. They were there, on hand in Santo Domingo. Their puppet, anti-American Bosch, was not.

Brazil's foreign policy was not a policy; it was a catastrophe—a series of catastrophes. Chroniclers of the Kennedy period portray Robert Kennedy as a man who, as President with his brother, and a living man has contributed as much as he gets to the downside in world affairs that President Johnson inherited.

The Spectator

Dear Spectator: What with all the efforts at making automobile operation safe for everyone, I'm convinced there is one thing they will never be able to change.

This was proved to my satisfaction the other morning when I was shoveling snow from the driveway (I always seem to get stuck with this job).

My wife, she's giving me hell about it, partner.

Childs' Views On Washington

By MARQUIS CHILDS

WASHINGTON — In this town there are few things worse than not having an anonymous source through which to attack the President. Time Newsweek and 113 separate columnists seemed to have oodles of LBJ-hating sources during the Manchester book crisis and I had none.

"Oh, I see," I said, "what about the literary and art set in New York? They've been quoted a lot on this. Are they using Kennedy intimates?"

"No, no," I said, "they're all anonymous sources. But you might refer to them as the 'red' camp. You don't really know how to handle a story like this, do you?"

Poor Man's Plato

By HAL BOYLE

"I'm probably the only middle-aged, South-borne, frustrated English cowboy you've ever met," explained John Ridley 45, and I'm the proprietor of the South.

Q — I have had a fungus infection under my nails for many years. You recently suggested that I try a tritacholone plunger with nystatin for this condition. What is the trade name for these products?

Q — I have been using propaganda with sulfur and allylic acid for arthritis but it keeps coming back. Is there a remedy that can be taken by mouth, that would cure it?

Idaho News

FIRE GUTS BUILDING IDAHO FALLS (AP) — Fire destroyed a building and milling equipment at the Young's Timber Yard here Wednesday night. Loss was estimated by owner Sidney C. Young at \$20,000. Young was in a nearby trailer house when the fire was noted by a passing motorist at Beech- es Corner. Young attributed the fire in the wood frame building to a short-circuit, short or sparks from an electric fire in a barrel. The loss was not covered by insurance, he said.

PLANT ACQUIRED LEWISTON, Ida. (AP)—Omark Industries, Inc., has acquired Cascade Cartridge, Inc., of Lewiston, Ida., manufacturer of several ammunition products, John D. Gray, Portland, Omark president, announced Thursday. It was a cash transaction for an undisclosed amount, Gray said.

Cascade Cartridge produces power loads for powder-actuated tools, ammunition primers for hand-loading enthusiasts, 27-caliber cartridges and shotgun shell primers.

Utah Killed

DRAPER, Utah (AP)—A car skidded on a snow-covered highway and slammed into an oncoming vehicle Thursday, killing a Salt Lake City man and injuring his parents. Dead on arrival at a Murray Hospital was Albert Joseph Barber, 41, his father, Charles Barber, 71, also of Salt Lake City, was in serious condition in the hospital and his mother, Theresa, 62, was listed critical.

BOISE (AP)—The Idaho Supreme Court unanimously upheld a Jefferson County District Court judgement regarding payment of the plaintiff's attorney fee in a divorce case. Carrie S. Loveland had appealed the judgment by the District Court in which the court did not require her former husband, Harold G. Loveland, to pay her attorney fee.

The Supreme Court found no error in the district court's judgment either in relation to the attorney fee or distribution of property and child custody which were also contested.

DELICACIES NOTED

BOISE (AP)—Smoked moosemeat, reindeer sausage, whale blubber — these and other dubious delicacies are on dinner menus for the National Federation of Press Women's annual meeting in Sun Valley June 17-23.

The Eskimo fare will be served by the Ladies of the Alaskan Press Women's Association who are helping make arrangements for the Sun Valley meeting.

The meeting is hosted by the Idaho Press Women's Association. The Idaho group has its annual meeting Jan. 21 at the governor's mansion to plan and prepare for the national meeting. Mrs. Don Samuelson will host the Idaho newspaperwomen.

BRIDGE BY JACOBY

EXPERT-PAIRS ON EASY HAND

Only a great expert could manage this hand to get himself set at four spades. West opened the king of clubs and continued with the queen. East overtook with the ace and cashed the jack. West discarded the nine of diamonds and East led the jack.

The ordinary South player would waste no time running off the rest of the tricks. He would win the diamond, play the ace of king of trumps, cash the other high diamond, ruff his low diamond with dummy's last trump, return to his hand with the ace of hearts and show his hand.

Expert South didn't take this

the chances were that East would hold one spade and West three. In that case the odds would be three to one that West would hold the queen.

In ordinary circumstances South could guard against the singleton queen in the East hand by playing his king of spades and continuing with the jack for a finesse.

The trouble with this line of play would be that all North's three trumps would be used up that way and that South would be left with a losing diamond. Therefore South decided to lead his jack of spades and let it ride for an immediate finesse. This would give him a chance to have his cake and eat it also.

South tried this play and East made his singleton queen of trumps.

Announcing the Times-News 5th Annual
WINTER VACATION IN

HAWAII

LEAVE TWIN FALLS FEBRUARY 3, 1967

Overlook Waikiki:

... from the famous REEF HOTEL where you'll stay in luxury, only a few steps from the surf and sand of Waikiki Beach and walking distance from Kapiolani Park, the International Market Place and the centers of activity.

See Oahu Highlights:

... with a yacht cruise through Pearl Harbor, a visit to the Polynesian Cultural Center, and the Oceanic Sea-Life Park. These features are included in the bargain cost, as well as the Hotel Accommodations, air fares from Twin Falls and return, and transfers between airport and hotel. Itinerary allows free days for the many activities of your own choosing: picnics, surfing, museums, golf, deep sea fishing and just plain relaxation!

Hawaii Is Casual:

... nowhere else can relaxation be so complete and satisfying! Imagine yourself here, in February! and wearing nothing but light cotton clothing daytime and evening.

Hawaii Is Beautiful:

... as you'll experience from the moment the lovely "Aloha" lei is placed on your shoulders on arrival. The entertainment, the tropical scenic grandeur, the art and architecture are all beyond your fondest dreams!

Hawaii Is Exciting:

... try your skill at surfing on the breakers at Waikiki ... or be thrilled by watching the others from your outrigger canoe ride nearby. (Hawaii Visitors Bureau photo)

Olla Turner of the Shoe String Community and Jim Reed, Tuttle, did chores for Gene Turner while he and his family were recovering from carbon-monoxide poisoning caused from fumes from a gas furnace at their farm home near Tuttle.

John Allen has returned home from Stiles, Idaho, where he helped Mr. and Mrs. T. J. Heath move their household furnishings to their new home. They have purchased a cattle ranch there; after selling their ranch on King Hill Creek to H. McCoy Jones, who has a ranch and cattle spread on King Hill Creek, three miles west of King Hill.

Mr. and Mrs. Richard Hoagland, King Hill, have purchased two Aberdeen Angus bulls from Les Stephens, Gooding. Mr. and Mrs. Hoagland live on a farm in Pasadena Valley, south of King Hill, and have a small herd of Hereford cattle.

Survey Of Idaho's Crop Year Blames Weather For Damage

BOISE — Total production of principal crops, including vegetable crops, field seeds and tree fruits in Idaho in 1966 was under last year's record high, reports the USDA Crop Reporting Service for Idaho.

The 1966 crop index of production, at 83.3 per cent of the 1927-49 average, was nine points below 1965. The 1966 growing season had many extremes, all areas of the state were drier than usual with some areas unusually dry.

A hard freeze the morning of June 25 hurt beans, winter grains in the susceptible blooming stage and flattened potatoes. Late seedings in the southern and central and most of Eastern Idaho.

Per acre yield showed considerable variation throughout the state with no record yields established. Crops showing higher yields for 1966 include corn for grain, corn silage, rice, commercial dry beans, Austrian winter peas, sugar beets and most seed crops.

All crops had better than average yields except oats, all hays, commercial dry beans and

most seed crops which were lower than average. Production for each of the six commercial fruit crops were below last year's record high.

Early seedings of 1966 fall grain crops were slowed by wet soil during August in North Idaho. Seeding was one-half to nearly complete in most areas by the end of September. Plants emerged to a good stand.

Rainfall in September and October varied from below normal in the north to slightly above normal elsewhere.

Mild weather during November in most of the winter wheat areas permitted germination of late seedings and the crop went into the winter in mostly good condition.

Snow cover during late December and January, although below normal, was adequate to protect the crop. Precipitation during the rest of the growing season was far below normal.

Fieldwork for spring crops gained momentum slowly in the southwest and southern areas during March. Progress was hampered by snow-furries, light rain, strong wind and below normal temperatures.

Sub-freezing temperatures the last two weeks of April caused considerable damage to orchards in the southwest. Smudging was necessary 12 nights during this period.

Good progress was made in planting early crops during April, but dry cold weather slowed plant development.

Planting during May progressed rapidly although wide variations in temperatures and below normal precipitation continued to slow crop growth.

A cool July with damaging frost the first week and again the morning of June 25 slowed crops and did varying degrees of damage to all crops.

This resulted in replanting of some crops, weedy potatoes, sugar beets and beans, and considerable grain acreage cut for hay.

Temperatures from July and later were generally favorable for crop growth and harvest.

Except in Irwin county where frost did considerable damage to potatoes the last of August.

The late fall allowed most crops to mature. Vine killing by chemical and mechanical methods was extensive in the southern and eastern potato areas during September. Digging was completed by the first week of October.

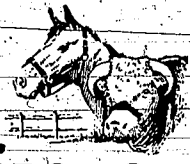

The first general killing frost was accompanied by sub-freezing temperatures resulting in severe frost damage to much of the unharvested potato crop.

Weather during the first half of October and November was generally favorable for completion of harvest. Fall seedings of 1967 fall grain crops were slowed by below normal moisture supplies in most areas.

Per acre yield showed considerable variation throughout the state with no record yields established.

Farm AND Ranch

Magic Valley's Week-End Farm Paper

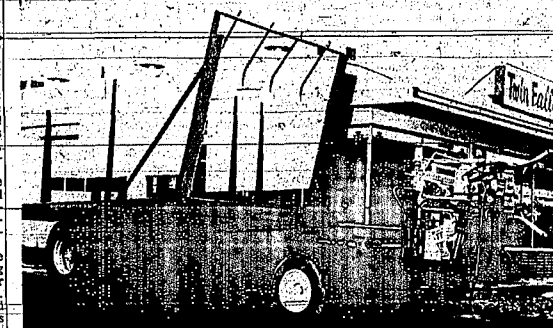

Jan. 5-6, 1967 Twin Falls Times-News 9

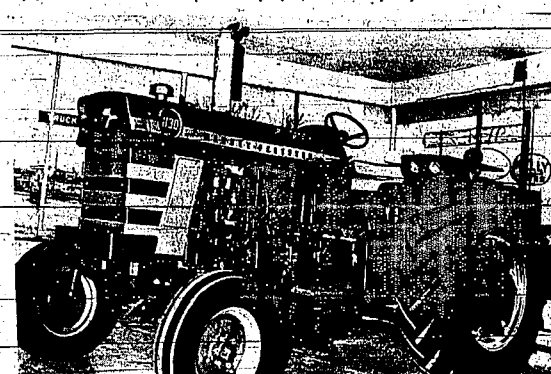

THE FARMALL 76 diesel tractor has a new low friction pull-range engine with bigger cubic inch displacement and hydraulic power steering. Its Dyna-Lite clutch is said to last up to five times longer. It's available at McVeys, Inc. (Times-News photo)

THE CASE 1030 TRACTOR with 100 horsepower with a high-torque diesel to handle full 4-plow load. It has wide fenders for protection against wind, dust and mud and adjustable wheel tracks front and back. The improved 3-point hitch eliminates precise alignment of equipment—see it at Reed-Tractor Company. (Times-News photo)

THE NEW HOLLAND Haro-Bed is an automatic bale wagon that will go into the field, pick up hay bales, load them on the wagon and transport them to the stack in a one man operation. Fully automatic, it will handle 118 bales in one load. See it at Twin Falls Tractor Co. (Times-News photo)

THE MASSEY-FERGUSON 113 tractor has a turbo-charged Perkins-diesel engine with 120 horsepower. This tractor's new and exclusive feature is the pressure control system which provides finger-tip control over all types of implements. It's on display at Twin Falls Tractor Company. (Times-News photo)

Farm Equipment Dealers Look Ahead To Busy Year

To the average "city-feller" to market a tractor at a time when the crop "city feller" there doesn't look as if there is much difference between them. But these models are all brand new. Each one has special features that have never before been found on a tractor. There is one thing they have in common: tractors are getting bigger and more powerful. The labor situation and the trend to larger farm units are greatly responsible for this. Farm help is getting scarce, therefore the farmer is looking for equipment designed for one-man operation to cut labor costs and to eliminate, in part, having

Soil Testing Program Noted

SHOSHONE — Throughout the fall and winter the County Extension Service through agent Ivan Hopkins has stressed the importance of a sound soil-testing program and the proper implementation of soil analyses. There were 120 separate soil samples submitted to the University of Idaho Biochemistry Department for analysis during 1966. Fertilizer plots that were established on the Burrell Williams farm in north Shoshone and Glenn Nelson's farm at Dietrich were evaluated and rated on their application of nitrogen fertilizer. Their work easier and more profitable.

SPECIAL FEEDER and STOCK COW SALE!

1750 HEAD
FRIDAY, JAN. 13, 1967
520 STOCK COWS

97 Black Angus, 4 years old
303 Herefords, 4 years old
120 Herefords, 5-7 years old

This is the most outstanding herd of brood cows ever offered for sale. All are banga vaccinated, have the leptos shots. Will start calving Feb. 10th. They will weigh between 1000 - 1160 lbs. Harb is a chance to start at the top in the cow business, or upgrade your present herd. This is the quality we have been breeding for.

1250 FEEDER CATTLE

Weights will vary from 300-550 lbs. The heifers will make good replacements. They are the fancy type, good haired, heavy boned, mountain-grown cattle. They are all weaned and started.

Fruit Losses Shown In All But Apples

BOISE — The 1966 production for each of the six commercial fruit crops in Idaho was below the 1960-64 average with the exception of apples which is slightly above average, according to the USDA Statistical Report Service.

All fruit crops were below the 1965 production. The commercial apple crop at 1,200,000 bushels was 14 per cent below the 1965 production but eight per cent above the five-year average production. The 1966 peach production totaled 100,000 bushels, 60 per cent below last year and 49 per cent below the 1960-64 average. Production of pears is estimated at 25,000 bushels. This is 70,000 bushels below last year's production and 42,000 bushels below the average. The Idaho sweet cherry crop of 1,800 tons is 400 tons below last year and 80 tons below average. Sour cherry production at 600 tons is 600 tons below last year's large crop and 466 tons below average.

ABOUT 1200 POUNDS OF pork now in the form of two hogs owned by I. T. Creed, right, will be prepared for the pig supper to be sponsored by the Twin Falls Grange Jan. 21 at the Grange hall. With Mr. Creed is Ressa Gilck, left. (Times-News photo)

Idaho Hog Raisers Entered For Spokane Show And Sale

Three Idaho hog raisers have entered purebred hogs in the annual "big pig" and "barrow" show and sale and the barrow show and carcass contest Jan. 31 to Feb. 3 in Spokane.

The raisers are Paul Bollinger, Meridian; Carl James, Blackfoot; and one Yorkshire bred gilt and one Yorkshire bred gilt and one Yorkshire boar. Carl James, Blackfoot, three Hampshire bred gilts and one Hampshire boar.

The barrow show will be held starting at 7 p.m. The reason for a night show is to attract more club and FFA members as well as give the public an opportunity to see the excellent quality of hogs being raised in the Northwest.

On Feb. 1 all barrows will be slaughtered at the Becwar Packing Plant. Judges of barrow carcasses will be Dr. Leon Owen, University of Idaho, meat specialist, and Clinton Luce, extension livestock specialist, Colfax, Wash.

At 10 a.m. Feb. 2 there will be a special barrow show meeting. Noon the group will be host to Spokane businessmen at a luncheon. At 1:30 p.m. hog raisers will query Spokane meat buyers at a round table discussion. At 6:30 p.m. the annual meeting of the Washington Swine Breeders Association will be held.

Starting at 10 a.m. Feb. 2, bred gilt and boar judging will begin at the Interstate Fairgrounds with Mr. Wells as judge. Barrow carcasses will be judged at the Becwar plant at 3:30 p.m. Feb. 2.

Each carcass will have full information on live weight, killed hot weight, chilled carcass weight, size of loin eye, weight of ham, length of carcass, dressing percentage and thickness of backfat. This information is extremely valuable to hog raisers who try to produce quality pork.

The annual awards banquet will be held at 7:30 p.m. Feb. 2 when the group will hear Dr. John L. Barnhart, University of Idaho Department of Dairy Science, speak on "The Feeding of Astronauts and the Future of Food."

Dr. Barnhart speaks each two months of each year working with the Air Force on special foods for astronauts.

The bred gilt and boar sale will be held at the Fairgrounds starting at 10 a.m. Feb. 3. Bill Dippel, Lewiston will be the auctioneer.

Top Gardens Will Display New Flowers

There were 25 flower demonstration gardens in 1966, where the award winning All-American Selections for the past three years and the designated winners for 1967 were displayed.

These gardens are in addition to the 28 regular A.S.S. flower trial grounds where all the new entries are grown alongside their nearest, most competitive varieties for comparison evaluation.

Additional A.S.S. demonstration gardens will be planting and displaying these newest flower winners next season.

They are already located in some of the most famous gardens. A few are in municipal parks, as at Milwaukee, Minn.; Colorado Springs, Toronto, Cincinnati and Jackson.

Some are at universities, Rutgers, Michigan State, Colorado State, Iowa State, Connecticut and Kentucky.

Others are at arboretums and experiment stations, such as the Norfolk Botanical Gardens, Los Angeles State and County Arboretum, USDA Central Research Station in Maryland, Berks State University, Canadian Central Experiment Station in Ottawa and National Arboretum in Washington.

Some are in famous gardens such as Longwood Gardens at Kennett Square, Pa.; Hershey Estates, Hershey, Pa.; Kingwood Center, Mansfield, Ohio; Callaway Gardens, Pine Mountain, Ga.; Hidden Lake Gardens, Tipton, Mich.; Hodges Gardens, Many, La.; Sterling Forest, Tuxedo, N. Y.

Supervisors are asked to grow

GOAL SET

The National Milk Producers Federation has announced that effective import control is the number one legislative goal for 1967. It is unjust that our dairy men should be flooded with dairy products from other countries just after having received domestic milk production more nearly match consumer requirements, said E. M. Norton, federation secretary.

And display these winners, plain and labeled on stickers with their variety names. Visitors can then note varieties of their choice for their own gardens. Seeds are available from most seedmen and leading garden centers should have the "pot plants" in season.

Figures Released By USDA Record Stock Expected At Denver Show

Production of all wheat in Idaho during 1966 totaled 38,278,000 bushels, 20 per cent below last year's near record crop.

According to the USDA Statistical Reporting Service, winter wheat production, 77 per cent of the total, was 29,378,000 bushels, 14 per cent below the previous year. Yield per acre is placed at 37 bushels.

Spring wheat production, at 8,900,000 bushels was 35 per cent below a year earlier. A yield of 4.3 bushels per acre was 6.5 bushels below last year's record yield.

All wheat production in 1966 was 4,311 million bushels, 0.4 per cent below 1965 and seven per cent above average. The total potato crop in Idaho is estimated at 66,650,000 hundredweight, the largest crop on record, but includes frost damaged potatoes hauled from the field.

A record high acreage harvested combined with the fourth largest yield of record accounted for the record production. A total of 55,200,000 hundredweight came from other counties while 10,850,000 hundredweight was produced in the 10 southern counties.

Production of fall potatoes in the U.S. totaled 221,000,000 hundredweight, three per cent above last year's crop, 15 per cent above average for the largest fall crop on record.

Idaho commercial dry bean production totaled 2,059,000 hundredweight, clean basis, in 1966. This is 16 per cent above last year and 13 per cent above average.

Per acre yield at 1,760 pounds was 120 pounds above last year. Production in the U.S. totaled 20.3 million bags, 23 per cent above last year. Garden seed production in Idaho totaled 408,000 hundredweight, up from last year's 328,000 hundredweight.

Dry pea production in Idaho in 1966, excluding Austrian peas, is placed at 1,568,000 hundredweight. Production at this level is five per cent below the 1965 crop. Production of dry peas in the U.S. this year is estimated at 3,721,000 hundredweight, 20 per cent below last year and 14 per cent below average.

Austrian winter pea production in Idaho is estimated at 772,800 hundredweight compared with 420,500 hundredweight for last year's relatively small crop.

All hay production in Idaho during 1966 totaled 3,123,000 tons, nine per cent less than last year's crop and three per cent below the 1965-66 average.

Production of all kinds of hay in the U.S. at 121 million tons was four per cent below 1965 and two per cent below average.

All states bordering Idaho showed lower production in 1966 than in 1965.

Idaho production of barley at 22,435,000 bushels was four per cent below last year but 25 per cent above average. Total output of barley for the nation is placed at 390 million bushels, down slightly from a year ago and four per cent below average.

Oat production in Idaho for 1966 at 3,022,000 bushels was 42 per cent down from a year earlier and 20 per cent below average, the smallest production since 1936.

Wheat grain production in Idaho for 1966 was 16,600,000 bushels, 16 per cent below a year earlier and 17 per cent below average.

Record Stock Expected At Denver Show

DENVER, Colo. — A record number of individual animals, possibly reaching 5,000 will be on exhibit and another 12,000 carload livestock were expected in the stockyards for the 61st annual National Western Stock Show, Jan. 13-21, according to show general manager Willard Simms.

The previous high for single livestock entries was set last January when 4,433 animals were on the show grounds.

Entries for the 1967 National Western closed on Dec. 1.

The 2,700 cattle entered in the breeding and fat classes is the largest number ever attracted to the National Western. The figure tops the former high of 2,201 cattle exhibited in 1948.

Breeding cattle exhibits, Simms announced, included 518 Herefords, 715 Angus, 209 Short-horn, 123 Charolais and 50 Santa Gertrudis. It is the first time

Report Given

SHOSHONE — The Lincoln County Marketing Association conducted the sale of its wool in 1966 in conjunction with Elmore and Coaling counties.

The Lincoln pool was down considerably in poundage with Wilken and Company Ltd., Denver, purchasing the pool for 59.91 cents per pound.

According to Ivan Hopkins, county extension agent, the board of directors have worked hard to maintain the reputation of the association and the members can be justly proud of the way business is conducted.

Awards Given To Three New Annual Flowers At January's Presentation

Three new annual flowers received All-America awards at their Jan. 1, 1967, introduction: Foxglove or Digitalis "Foxy" is the only Silver Medal winner and barely missed award points for the elusive Gold Medal. It has mixed colors, Foxy is the first and only biennial foxglove of this important breeding achievement. It also may be treated as a biennial.

Considered dwarf, it averages two and one-half feet tall with as many as nine branch spikes besides the main spike in the usual color range of the best excelsior type of white, cream, yellow, pink, lavender, magenta and purple, uniformly spotted. The earlier colors named, bloom earliest and flowers are closely placed for 8 to 12 inches at top of spikes. Plant spread is about 15 inches with vigorous early and long season flowering. It has a sturdier growth and somewhat sparser but darker rich green foliage for more attractive appearance. An outstanding advance in bringing foxgloves into the class of annuals.

Fl hybrid Marigold "Golden Jubilee" is a new hedge or knee-high type of giant flowered marigold of about 20-inch height with deep, almost slightly refined carnation - flowering blooms held above the foliage.

Bright golden yellow, fully double flowers are three and one-half to four and one-half inches in diameter. They sometimes seem fastened atop the vigorous bushy, compact plants. The darker colors named, deeper shade than Golden Climax. Earlier and more prolific blooming with superior habit is the consensus for this fine novelty.

New Knee-Hi bush type Sweet Pea "San Francisco" is a salmon-cream pink. The Cuthbertson Floribunda or spring-flowering sweet peas brought sweet peas back to gardening-pritty well over the country because of their earlier and longer flowering.

They have more tolerance than other summer or late flowering giant Spencer varieties. With more flowers per stem and which persist, without dropping, we now have this more vigorous growth and somewhat resistant kind in the new Knee-Hi type.

Sturdy, heavy stemmed plants need no staking or other support and stems are long and strong for excellent cutting. Plant height depends upon culture and climatic conditions, but range

from about 18 inches with four or five flowers to four feet with are huge panicles with large five to 10 flowers per stem in the Pacific Northwest.

At least six inches higher and larger flowered than the dwarf Blou-type, "San Francisco" stands out as the most sturdy, beautiful and desirable of this new type. It was also the sturdiest, most vigorous, non-shattering, multi-flowered variety in the trials.

Good taste is expressed in separate color plantings, as in bouquets. Other colors of Knee-Hi are pure and good-but-the-entire cream pink was voted the versatile leader.

Attention is called also to the 1965 and 1966 award winners, now in standard production: Cosmos "Sunset," Gold Medal winner is the only red annual Klondike cosmos. Sunset is an all-season bloomer, finally reaching three feet, for cutting and border display. It has airy fern-like foliage and is the easiest to grow, needing no transplanting.

Fl hybrid "Bright Butterflies" is a beautiful, new tall, summer blooming, open faced snapdragon. In all snapdragon colors, it has about 10 spikes of flowers per plant at a time and is two and one-half to three feet tall.

Fl Hybrids, "Giant Majestic" or "The Majestic" with large blanches and are without equal. The Giant Majestic "White with Blotch" is the largest. Early and heat resistant with all season blooming. It is the most spectacular pansy to date.

Sweet William "Red Monarch" is a solid red, annual blooming sweet william, for bedding and cutting, about 10 inches tall from spring planting with striking three-inch flower clusters on strong stems.

Verbena "Amethyst" is the only dwarf-compact mid-blue or sky-blue verbenas. About six inches tall, it spreads 12 inches and is free-blooming for low beds and edging walks, patios and borders.

Marigold "Spun Yellow" is a very early, large mum-flowered bright yellow, covering 12-inch compact bushy plants.

1965 winners, still new and outstanding for their kinds are Pelunia, Fl grandiflora "Apple-blossom." It is supreme-weather resistant large fringed light salmon pink with tremendous flowering and color appeal for all purposes.

Delphinium "Connecticut Yankee" is a first-year blooming hardy perennial with large flowers in blue shades to white on

strong bushy plants with many spikes. Zinnia Fl hybrid giant cactus-flowered "Yellow Zenith" in the brightest of yellows, is the finest of all zinnias.

Snapdragon Fl hybrid, "Floral Carpet Rose" is an ever-blooming dwarf and most beautiful of the new bedding, edging and pot plant type. It has clusters of colorful blooms on six to eight-inch plants with about 25 spikes of bloom per plant at a time.

WEATHER AFFECTS LENTILS
The 1966 lentil crop in Idaho is estimated at 158,000 hundred-weight, harvested from 17,000 acres which average 330 pounds per acre. Seeding was delayed by dry weather and plant growth-throughout-the-season was below normal because of dry weather.

Idaho Farmers' Index Moves Up

BOISE (AP) — The index of prices received by Idaho farmers moved up two points in the month ended Dec. 15, the U.S. Department of Agriculture reported today.

That put the index at 267 per cent of the 1910-14 average, three points above that a year earlier.

The index of prices paid by farmers for feed increased one point during the month, to 35, compared with 86 on Dec. 15, 1965.

The department reported production of milk for Idaho during November was estimated at 104 million pounds compared with 103 million pounds a year earlier.

THE SALMON-CREAM pink Knee-Hi sweet pea, "San Francisco," above has made the list of 1967 All-America Selections. The giant gold hybrid marigold, Golden Jubilee, left, is a new hedge type plant. Top winner is first annual blooming digitalis or foxglove, named "Foxy," in mixed colors. (All-America Selections photo)

Gardening Is Good Hobby, Investment

Gardening, of course, has that distinction of being the outstanding hobby.

Perhaps we have considered ladies first as gardeners for too long. Word comes from Jackson, Miss., which won the City Beautiful trophy, presented by Lady Bird Johnson last spring, that there are now more men than women gardeners.

Our contention is that gardening is a family as well as individual interest. Colorful flowers and borders not only enhance the looks—but the value—of one's home. Make America beautiful is our national project. Its success depends upon what gardening we all do at our homes.

We appreciate arrangements of our flowers—indoors, freshly cut from the garden whenever possible. Our florist and garden center friends gladly supplement cut-flowers and pot plants the year around. But to bring our homes alive, we must do the color work in our own yards and gardens.

Perhaps the smaller a garden space, the more intimate and colorful the planting can be, and more rewarding for the time and thought devoted to it. However, we usually wish for a little more space to plant.

A favorite expression in describing the garden of Mr. and Mrs. Tom Barber (he is one of the All-America Selection flower judges) is that they grow more to the square inch than anyone else we ever saw. And they do it beautifully, not only with many kinds and varieties of flowers but the most delicious fresh vegetables, always picked just in time for lunch and dinner.

A letter from a new home owner, with no gardening instruction or experience but anxious to know how to start and what to plant, certainly makes one want to help. Surely needs of easily grown annual flowers are the quickest, cheapest and best kinds to plant.

Culture directions are usually

printed on the reverse side of the seed packets and are found in seed catalogues and in some gardening books. Such planting guides should be kept on hand for ready reference at all times.

Starting with the best liked or most popular kinds of flowers, varieties are chosen for the colors preferred and the heights of plants for purpose of location desired. You would naturally use taller plants toward the center or rear of beds or borders. Low growing plants are used toward the front or ending of borders, drives, paths and in boxes, pots and rockeries.

It is natural to want varieties with the best growth habit, disease and weather resistance, early and long season flowering and with bright clear colors.

The newest and best of their kind, for greatest garden interest and satisfaction, have merited awards from thorough testing over North America in comparison with similar varieties. These are the All-America Selections, conveniently obtained from any good garden seed firm. They are dependable and most highly recommended to new and older gardeners alike.

Get the most from your time and effort. Make your part of America beautiful. See why gardening is the greatest hobby on Earth.

Changes For Spud Storage Recommended

For lowest sugar accumulation the best tuber temperature is 45 degrees. Richard E. Ohms, potato specialist of the University of Idaho extension service, reported on the basis of recent research at the Aberdeen branch-experiment station. Findings by Walter Sparks, a horticulturist at Aberdeen, showed that Russet Burbanks have less loss and less sugar accumulation in storage at 45 degrees than at either 35 degrees or 65 degrees. There are a few catches, however. In order to store at 45 degrees Fahrenheit there must be forced air ventilation, 85 per cent relative humidity, and the tubers should be treated with a sprout inhibitor. Previous recommendations said that best temperature was 35 degrees in the light of new tests, warmer storage is suggested. "Each potato variety has its optimum environment for production and storage," Ohms said. "One of the functions of production research is to identify these factors." "Although the Russet Burbank has been a prominent variety for many years, there has been surprisingly little known about the environment necessary for long storage. It was not until the potato industry of Idaho built the research-storage facilities that it was possible to learn facts about storing this variety."

HOPS DOWN SLIGHTLY The 1966 production of hops in Idaho was 55,418,000 pounds, a 20 per cent above average, according to the USDA Crop Reporting Board. Gardens Are Gaining With New Varieties Of Seeds

The best garden vegetables to plant are the kinds most liked by the family. But there are many varieties, early-to-late-maturing, and of different growth habits. Some are more productive, more weather- and disease-resistant, some are tender, juicy, sweet, of superior flavor and quality. Outstanding new creations, better than others for their purposes, are awarded and recommended as All-America Selections. Seeds are available through all reliable garden seed firms.

The evaluations of 26 All-America vegetable judges' pro-

Local Service Center To Close For Three Days

BOISE — United States Steel Corporation has announced that the Farm Service Centers in Ontario, Ore., Wilder, Nampa and Elgin will be temporarily closed for business for three days, Jan. 10, 11, 12.

Inquiries from Filer area growers should be directed to the Hansen Farm Service Center.

"The purpose of the temporary closing is to allow the personnel at each of the centers to attend an intensified agronomy training course in Boise," Alan K. Kinde, general manager of the fertilizer distribution centers said.

Potato Prices "Uncertain" As Result Of Frost

BOISE (AP)—A University of Idaho economist described today as "uncertain" the outlook for potato prices as a result of extensive frost damage during last fall's harvest. "One of the major questions," said economist Quentin Banks, "is how the available supply will be allocated among markets. If processors use a large portion of the crop as they did last year, quantities to the fresh market will be reduced. However, it is possible the demand for high quality Russets may displace a larger portion of the available supply to the fresh market. The situation appears favorable for price improvement as the season advances."

ANNOUNCING Our Association With United Farm Agency A National Real Estate Firm BURLEY OFFICE 123 East 5th St. North (Near Ponderosa on Overland) We are sending out 1500 brochures and letters per month advertising our listings in this part of the state. Everyday we receive a flat of about 200 names from the home office of prospective buyers for this area. We have buyers for large and small cattle ranches, farms, homes, lots, large and small businesses. We still have money available on large qualified properties. L. B. Highest level of oil heat service for Northwest farmers

There's no better heating oil than Pacific heating oil. But we must admit there are other brands that are pretty close in quality. The big difference is the Circle P brand of service, based on these principles: HONEST PRICING... the same fair tank wagon delivery price without discrimination to any buyer of the same quantity and service. TIMELY AVAILABILITY of heating oil and other products delivered where and when you need them. ASSURED QUALITY... Pacific heating oil is high in heat calories, and clean burning. HIGHEST LEVEL OF SERVICE, filling routine and emergency needs plus a variety of special services at no extra cost. "We believe that the agricultural industry, which can be victimized by nature, should not be plagued by problems over which man has a degree of control—namely service, prices and availability of necessary supplies."

Hula Bowl Teams Called Finest In Tilt's History

HONOLULU (AP) — The Hula Bowl game Friday night will have more outstanding players than any other all-star football game has ever had, declares Stanford coach John Ralston. Ralston and Darrell Royal of Texas are coaches of the South squad. It will face a North team directed by Jack Mollenkopf of Purdue and Murray Warmton of Minnesota.

Game Tonight

College of Southern Idaho will host the Northwest Nazarene College Junior varsity at 8 p.m. Friday in the Twin Falls gymnasium. The clubs will collide again Saturday night in Jerome.

CSI Sets High School Night Next Week

The College of Southern Idaho Golden Eagles will invite all 26 high school basketball teams in Magic Valley to be their guests Wednesday night when they host the Idaho State University freshmen at the Twin Falls gymnasium. Coach Eddie Sutton said invitations will be mailed out to all area coaches over the week-end. These will provide free admittance to the coaches and their varsity team members. The game is one the Eagles have been pointing toward since 1912 when they were defeated by a 37-1, last-second setback in Pocatello early in December.

Coach Sutton said if Wednesday's "high school night" was successful, the college would consider sponsoring more of the events. "We want everyone to feel that the college belongs to the people of this area and we have our basketball team, a fine representative. We want area boys on our teams as our athletic program grows and this is the way we feel we can get a little better acquainted," he said.

Warriors Win 122-91 Over L. A. Lakers

OAKLAND, Calif. (AP) — The San Francisco Warriors, led by Nate Thurmond, scored a 122-91 National Basketball Association victory over the Los Angeles Lakers in the Oakland Arena Thursday night. Thurmond hit eight of his first nine field goals and the Warriors carried their fifth consecutive win over the Lakers and increased their Western Division lead to seven games over St. Louis. The big center finished with 24 points and 25 rebounds, overshadowing the 23-point effort of teammate Rick Barry, the NBA's leading scorer. The Warriors took the lead after two minutes and never lost it. The Warriors led 59-44 at halftime and in the closing minutes both coaches cleared the benches. Jerry West was high scorer for Los Angeles with 21 points. The Warriors announced they are reacquiring Bobby Warlick and pulling George Lee from the line-up to become assistant coach.

Providence Nips Massachusetts

PROVIDENCE, R.I. (AP) — Jimmy Walker, the nation's leading scorer, connected for 20 points Thursday night in a sparkling seventh-ranked Providence victory over a 62-59 basketball victory over stubborn Massachusetts. Walker hit 12 of 30 floor shots and five of six free throws in setting a Providence career record of 1,522 points, two more than scored by John Thompson, who was graduated in 1984. Walker's turn-around jumper from the key with 1:32 left put the Friars in front to stay, 59-57. Mike Ritardon added a free throw before John Lisausk scored for Massachusetts. Trent Tony Koski converted two free throws with one second remaining.

Proposed Kansas City Stadium Is Praised By Owner Of Chiefs

By JIM VAN VALKENBURG
KANSAS CITY (AP) — Lamar Hunt, young owner of the AFL's champion Kansas City Chiefs, right now, said Wednesday the 75,000-seat football stadium in the city's proposed 2-stadium complex would be "second to none in football." "Neither stadium in New York could touch it," Hunt said. "It would surpass even the Rice stadium, which I consider the best in the world for football." The authority noted the city plans to build an exhibition hall downtown. A 20,000-seat arena for indoor sports, part of the original plan, should be built downtown, the authority said. "Hopefully, the football stadium can be ready by 1969," said Jack Steadman, Chiefs general manager. "Then we could go to the AFL-NFL, recombine a meeting in 1970 in strong position to be in a division with top clubs." "We want the Chiefs to be in the winner's circle at that meeting," Brookfield said. Hunt, the 34-year-old oilman who started the AFL, and instigated the AFL-NFL merger leading to a world title playoff, replied. "We want to be in the winner's circle—Jan. 15 against Green Bay."

Seattle Tops ISU With Big Second Half

POCATELLO, Idaho (AP) — Powerful Seattle University stormed from behind in the second half to win its 10th basketball game of the season by defeating Idaho State University 99-81 Thursday night. The Chieftains, breaking Idaho State's zone defense apart in the final stages of the game, scored the first seven minutes of the second half playing catch-up ball and then moved away from a 73-73 tie near the finish. Malkin Strong, 6-7 center, and Art Tom Workman led the second half Seattle blitz that accounted for a 75 per cent field goal shooting mark. Strong poked in 20 points and Workman added 16.

Game Trend Count Set In Eight Areas

Big game trend-counts will be made by Idaho Fish and Game Department workers this winter in eight key wintering areas, it was announced today. The results will be compared with total numbers of animals found on previous counts, which generally are several years apart, according to Charles Haynes, game management supervisor. Winter range areas are counted when elk and deer and other animals are concentrated on snow. The work now is done by helicopter observations, since as complete trend counts as possible are wanted by game managers. Helicopter observations are better than those from rigid-wing airplanes because better counts are obtained, making the time and expense worthwhile.

Place Kickers Can Feel Pressure In Super Bowl

By JACK HAND
NEW YORK (AP) — If the Super Bowl comes down to a field goal or a point after touch-down the pressure will be tremendous on Don Chandler, Green Bay's veteran kicker, and Mike Mercer, Kansas City's specialist.

Pat Summerall, an old hand at the kicking business, knows just how great the pressure can get. Summerall, who will be doing the pre-game and post-game television shows on the Jan. 15 Super Bowl for the Columbia-Broadcasting system, used to be a pretty fair kicker himself.

"A lot depends on how much time there is to wait and think about it," said Summerall. "If I can psyche you a little bit. You may remember that National Football League game in Dallas this year when Sonny Jurgensen brought Washington down the field to set up a winning field goal with eight seconds to go. Before he got that far he ran two running plays to get the ball in front of the goal posts. Then he let the clock run until there were eight seconds to go. That really put the heat on Charlie Goggin. But the kid came through."

"I know Chandler a lot better than Mercer, of course, because we played together on the New York Giants. Chandler doesn't get rattled, at least not outwardly. I know he has not been having one of his best years (12 field goals in 28 attempts during the regular season). It may have shaken his confidence a little."

"When Mercer was in the NFL with the Minnesota Vikings I don't remember him as such a strong kicker but he has come back of Indianapolis."

Cale was one of 11 drivers whose cars were knocked out in a first-lap pileup last May. Two of the White cars will be new and the third a 1966 Lotus. Cale Yarborough of Timmonsville, S.C., whose stock-car competition with Harbrough has been a composer's nightmare, was nominated for his second 500 in one of the two new Ford's entered by Phil Hild-

FAR as you go? NO!

It's actually the start of a new road — the one only a Johnson Skee-Horse Snowmobile travels so aptly. It leads to a world as new and fresh as last night's snow — crisp, clean, invigorating. And, best of all, FUN!

Try snow-cruising out-of-the-way places. Try "rollercoastering" or flat-out flatland runs at 30 mph. Hunting, fishing, racing, skiing — Skee-Horse is game for anything. Heat-treated steel cleats on the specially designed power track provide Snow Claw traction. Unique Torque-Sensor Drive automatically gears to changing hill and load conditions all you do is squeeze the throttle. Exclusive Lock-Out Neutral lets you idle the 14-hp arc-tuned engine at a stop — no need to tip the machine off its track as you must with many other snowmobiles. And Skee-Horse "trailers" easier than a boat. See it now at your Johnson Skee-Horse dealer's!

Hit your Skee-Horse to the new Johnson Outfit, a two-passenger fun sleigh.
