GAYE CARLSON

... daughter of Mr. and Mrs. Robert F. Carlson wants to be a nurse and is one of eight brownies entered in the Miss Twin Falls pageant. The 18-year-old Twin Falls High School graduate will sing during the talent portion of the competition—she has sung in choirs for more than eight years. Like many of the other contestants, she likes to ski and enjoys swimming and tennis and "just loves clothes," she says. Standing five feet, nine inches tall and packing—128—pounds into a trim frame, Miss Carlson plans to continue her education at Brigham Young University.

WASHINGTON (AP).—The application for federal antipov-erty funds read simply: "Purpose of Program: Tender Loving Care."  
But therein lies the story of one of the smallest and least publicized, yet most successful programs in the antipov-erty campaign—Foster Grandparents.

Since August, 1965, the Office of Economic Opportunity has brought men and women over 60 together with young boys and girls. It says the combination has produced plenty of "TLC"—the now-familiar slang nickname for "Tender Loving Care."  
Sargent Shriver, head of the OEO, believes the program is one of the most successful in the antipov-erty agency, although he admits some critics once opposed it.  
"Many people said it wouldn't work because, they said, old folks didn't want to be bothered," Shriver reported recently. "But who has more love, than a grandmother? It was a natural."  
"We just brought together elderly persons without grandchildren and children without grandparents. It has worked wonderfully."  
Applicants for the program must come from the lowest third of America's income scale—less than \$3,000 for a family.

\$1,600 for an individual. After screening and medical examinations, they received two weeks of orientation in child problems. Once accepted, they received \$1.25 an hour for a maximum 20-hour week.  
"One of the most striking things about the grandparents is their on-time dependability," said one supervisor. "Grandparents have been used

# Proposed Draft Law Makes College Deferment Easier

WASHINGTON (AP)—The proposed new military draft law Congress is whipping into shape makes it easier for college students to obtain deferment.

And it permits President Johnson to go ahead with his announced plan to put 19-year-olds at the top of the available manpower pool. The present procedure drafts men in inverse order of age from 25 years old down, but Vietnam war demands have brought the age of inducement down to 19 or 20 in many draft board districts already.

The proposed new law, approved this week by Senate and House conferees, would go into effect for four years starting July 1.

Here are some of the questions most often asked about the proposed new law and the answers as supplied by congressional draft experts:

Q. Does it make any changes in the present priority categories for induction?

A. No. These priorities are determined by presidential regulations. The President has said top priority for induction will be the 19-year-old group, followed by students whose temporary deferments have expired. Top priority now are the 25-year-olds.

Q. When would the 19-year-old group go into effect?

A. Whenever the President changes his mind, but Congress has expressed its favor for taking the younger men first.

Q. Why the emphasis on 19-year-olds?

A. Combat commanders generally prefer that most of their new recruits be in the younger age brackets, saying they are more adaptable to training. Problems associated with family dependency are less frequent at such ages.

Q. What are the chances of being drafted at age 19?

A. Statistics show that about two of every seven persons now eligible for induction actually are drafted. The Pentagon expects to meet all of its monthly draft requirements from the 19-year-old group and from students whose deferments have ended. An estimated two million males reach age 19 annually.

Q. If a young man isn't drafted at age 19, what are the prospects for being inducted later?

A. If he gets past 19 and world conditions don't get worse, his chances of not being inducted are very good. A new crop of 19-year-olds will go into the eligibility pool ahead of him.

Q. Would 19-year-old fathers or husbands be deferred?

A. Not automatically. Their local draft boards could defer them if extreme hardship would result from induction.

Q. What change would the new law make?

A. The major change affects students. The proposed new law would require draft boards to grant deferments upon request for undergraduate students pursuing full-time courses and meeting their schools' academic and other requirements. The deferment would be a matter of right. The old law left it to the discretion of draft boards and conditioned the deferment on the registrant remaining in the upper half of his class. Satisfactory scholastic standing, rather than high standing, is the new condition.

Q. How long would the deferment last?

A. It would end when the student completed his undergraduate work, left school or reached age 24, whichever comes first. But if he became 24 in the middle of an academic year, he would be allowed to complete the year.

Q. What would happen after a student completes his undergraduate work or becomes 24?

A. He immediately returns to the pool of registrants most likely to be inducted and would remain in that status for one year.

Q. Could such a student get another deferment?

A. The new law says there shall be no further deferment except for extreme hardship. It would be up to his local draft board to decide whether he merits a hardship deferment. Being a husband or father would not give him an automatic deferment.

Q. Does the proposed new student deferment procedure apply only to future students or does it affect those already in school?

A. It would apply to all.

Q. What would happen to a student who becomes 24 before completing his four years of undergraduate work?

A. He would be eligible for immediate induction.

graduate work or becomes 24? A. He immediately returns to the pool of registrants most likely to be inducted and would remain in that status for one year.

Q. Could such a student get another deferment?

## Space Team Pays Tribute To Comrade

QUANAH, Tex. (AP)—Members of the American space team gathered in this small northwest Texas town today to pay a final tribute to a fallen comrade.

The six astronauts who compose the prime and backup crews for the next Apollo mission will serve as pallbearers for Air Force Maj. Edward G. Givens, Jr. The funeral will be at the First Baptist Church.

Givens, 37, a rookie astronaut who grew up in this ranching and farming community, was killed early Tuesday, when his car hurtled off a road into a

ditch near the Manned Spacecraft Center in Houston.

Memorial services were held Thursday near the center.

Givens, a graduate of the U.S. Naval Academy and one of 19 astronauts selected in 1966, was the seventh U.S. spaceman to die within three years.

His parents, Mr. and Mrs. E. G. Givens of Quanah, lost their only other son in a military plane crash at Corpus Christi in 1952.

## 4 Pounds Lost By Weight Club

HAZELTON — The Valley Benders TAPS club reported a loss of four pounds this last week at their meeting on Wednesday evening at the Village Hall.

Discussion was held on the 4th of July celebration, Grace Rolce and Nita Sellers were appointed chairmen of the committee for setting up a booth. The group plans on having a cooked foods booth, probably pies and cakes for sale.

The members participated in the club song and the flag salute. The next meeting will be held on June 14 and a new contest is to be started.

Fairbanks was not invited. Both Owen and Hoopes were rushed by ambulance to an Idaho Falls hospital, where Hoopes died at midnight.

# Dear Abby

**By ABIGAIL VAN BUREN**  
**DEAR ABBY:** Several years ago, when I was a teenager, I cut out your column on how teenagers should behave in order to stay out of their way with so many strange and sick people running around loose. In case you have forgotten it, I am sending you a copy. I think the teenagers of today need to read and follow these words even more than we did. Please print it again. I benefited greatly and know others will, thank you.

Sincerely Yours,  
 "HELPED" IN LAKE WALES, FLA.

Dear "Helped": With pleasure here it is:

**CONFIDENTIAL TO ALL TEENAGERS:**  
 J. Edgar Hoover, director of the FBI, set down the following rules, which deserve to be read thoughtfully—and remembered:

1. IF ANY STRANGER — OR EVEN A SLIGHT ACQUAINTANCE — MAKES IMPROPER ADVANCES, TELL YOUR PARENTS IMMEDIATELY.
2. IF YOU KNOW OF ANY PORNOGRAPHIC PICTURES OR LITERATURE BEING PASSED AROUND, NOTIFY YOUR PARENTS IMMEDIATELY.
3. KNOW YOUR DATE! DON'T GO OUT ON "BLIND DATES" UNLESS ANOTHER COUPLE IS ALONG AND EVERYONE IS CAUTIOUS.
4. IF someone phones and says he's a friend of Jack Jones, tell him you'd be glad to have Jack Jones introduce him.
5. STAY OUT OF LOVERS' LANES. It's natural to want to be alone with your date, but experience shows that "Lovers' Lanes" are favorite haunts of sex criminals.
6. DON'T WANDER AWAY FROM THE CROWD AT PICNICS AND OUTINGS. STAY WITHIN CALLING DISTANCE.
7. BE CIVIL TO STRANGERS WHO ASK QUESTIONS, BUT NEVER GO PART WAY WITH THEM.
8. BE VERY CAREFUL ABOUT ACCEPTING WORK FROM A STRANGER.
9. DON'T GO ABOUT THE HOUSE HALF-DRESSED.
10. NEVER, NEVER HITCHHIKE!

**DEAR ABBY:** My wife is sloppy, nags me all the time, she's always tired and she is very extravagant, and to top it off, she doesn't understand me.

**DEAN**  
 How has the world been treating you? Unless you complain on Dear Abby, Box 6700, Los Angeles, Cal., 90069. For a personal, unpublished reply, enclose a self-addressed, stamped envelope.

**DEAR DEAN:** Where did you meet this other woman?

If you plant it or feed it!  
**GLOBE SEED**  
 Will have it!

# Range Tour Set At Shoshone

SHOSHONE—The Wood River Soil and Water Conservation will conduct a tour of range improvements—a wildlife-planning on June 16.

The tour will be over much of the area north of the Richfield canal, and will feature range improvements and management by livestock owners and users of the area in cooperation with the Bureau of Land Management, and Idaho Fish and Game Department.

Paul Bancroft, chairman of the Wood River S-WCD Board of Supervisors, and William Mabbitt, local Bureau of Land Management district manager, will be in charge of the tour.

Of the tour, Larry Hordley will show a spray and seed area in the Jacobs Allotment. He will also explain the general allotment and management plans, pasture systems and such in other areas visited. Wayne Clark will show a plowed and seeded area in the range he uses.

The State Fish and Game Department personnel will review the fish production and types of fish in the Richfield canal. Kenneth Harrison will show plow-

DISCUSSING GRASSES during the annual Knoll Creek, Nev., field day, from left, David Mead, Twin Falls branch, University of Nevada, Reno, Agricultural Research Service, University of Nevada, and Boyd Price, Reno, Soil Conservation Service. Mr. Price is a former Twin Falls resident. Cheatgrass and other kinds of grasses were explained to about 150 farmers, ranchers and businessmen from Idaho, Nevada and Utah Wednesday at the annual field day at Knoll Creek Experiment Station.

ALFALFA BREEDING in Nevada was explained during the Knoll Creek Field Laboratory field day Wednesday. O. J. Hunt, left, Agriculture Research Service, University of Nevada, explained the different hybrids planted in plots at the station. Holding megaphone is Clark Torell, superintendent of the field station. Many Twin Falls area ranchers and businessmen attended the field day event and observed experiments being conducted in Nevada.

## Range And Forage Experiments Explained At Knoll Creek Event

By ROBERT VANAUDEIN Times-News Farm Editor

CONTACT, Nev.—Each year farmers, ranchers, cattlemen, sheepmen and others from Southern Idaho, Nevada and Utah observe agricultural research being conducted at the Knoll Creek Agricultural Field Laboratory, southeast of here.

Wednesday, more than 150 such persons heard discussion on range, pasture and forage experiments during the laboratory's annual Field Day. Persons attending the event also viewed experiment plots at the laboratory area.

Only one rainstorm marred the otherwise excellent day for the field day at the experiment station. This storm occurred during the lunch break. The sun was shining during the morning and again in the afternoon after the storm. In years past it has rained and snowed with high winds.

One of the subjects discussed during the day was that of freeze branding. Interest among livestock people has been exhibited lately in freeze branding, according to those working on the experiments, so this topic was discussed.

Clark Torell, superintendent at Knoll Creek, and Norman Nichols, Elko County Extension Livestock specialist, have conducted various trials with the cold branding iron to cattle, meta-

branding iron "super-chilled" in a mixture of dry ice and alcohol are used. After treatment white hair eventually grows over conventional brands.

In applying it to cattle, meta-branding iron "super-chilled" in a mixture of dry ice and alcohol are used. After treatment white hair eventually grows over conventional brands.

This has considerable advantages over conventional brand-

ing or marking, say Torell and Nichols, since hot brands are not recognizable in the winter unless the hair is clipped; car tags, neck chains, brands, etc., are torn off and lost, and tags cannot be read without restraining the animal.

Dr. Verle R. Bohman, chairman of the Animal Science Division at the University of Nevada, Reno, reported on grass tetany research. The tetany is a highly fatal disease of cattle and sheep occurring primarily in the spring during the first two to four weeks that animals have been turned out on grass pastures.

Dr. Bohman said usually animals badly affected die within 12 or 30 hours if not treated. Studies under way at Knoll Creek are aimed at finding out just what set of feed conditions cause the disease and to measure the effect of dietary factors in preventing the incidence of the tetany in cattle.

Dr. Bohman also described the symptoms of cattle with tetany. The early stages are uncoordinated gait, excitability and a depression of feed intake. Later the animal shows some viciousness, rather extensive salivation followed by muscular twitching and convulsions with coma as ultimately death, unless the animal is treated.

Dr. O. J. Hunt, Agriculture Research Service, University of Nevada, described the latest developments in alfalfa breeding in Nevada. In experimenting, Dr. Hunt said Norman Ganssett, Grimm and Ladak were high achievers.

E. H. Jensen, agronomist,

## Murtaugh 4-H Club Elects New Officers

MURTAUGH—Wilma Silvers was elected president of the Better Feeders and Fitters 4-H Club at the meeting recently at the John Silvers home.

Others elected are Linda Morrison, vice president and recreation chairman; Shirley Silvers, secretary-treasurer; and Marlene Lattimer, reporter.

Members voted to pay dues of 10 cents at each meeting. The next meeting time of 2 p.m. every other Friday will be continued.

Projects were selected and record books passed out by F. W. Morrison, leader. Some discussion was held on requirements necessary to complete the various projects.

It was announced that Linda Morrison had been awarded a scholarship for her work in 4-H and will attend 4-H Club Congress at the University of Idaho, New Members joining the club this year are Jimmy Lattimer, Marlene Lattimer, Carol Lattimer, Velvet Jensen, Cheryl Perkins, Irma Flores, and Pats Flores. This brings the club membership up to 12.

The next meeting will be held at 2 p.m. June 9 at the Morris Lattimer home.

Mrs. Silvers served refreshments.

## New Hybrid

WASHINGTON—A new bermudagrass hybrid which gives higher daily beef gains, because it is more digestible, has been developed by the U.S. Department of Agriculture.

It is called Costacross 1, and is a cross between a bermudagrass from Kenya and Coastal bermudagrass.

## 9 Area Boys Are Attending Camp Alpine

Nine Twin Falls County youths left Twin Falls Monday for University of Idaho's Conservation Camp at Camp Alpine. The camp will end Saturday.

Attending are Arlis Silgar, son of Mr. and Mrs. Eldon Silgar, Route 3; Ron Carr, son of Mr. and Mrs. Maxwell W. Carr, Route 3; Jim Watson, son of Mr. and Mrs. Robert Watson, Route 3; Dennis Luis, son of Mr. and Mrs. John Luis, Route 2; and Gregory Lanning, son of Mrs. Donna Lanning, Route 2, all Twin Falls.

Danny Kinsey, son of Mr. and Mrs. William Kinsey, Route 2; Kimberly, and Edward Potucek, son of Mr. and Mrs. Joe Potucek, Route 2; Jan Ruther, son of Mr. and Mrs. Darvan Ruther, Route 1; and Dan Todd, son of Mr. and Mrs. Melvin Todd, 1014 1/2 St., all Buhl.

Glan Genn, Twin Falls County 4-H agent, said subjects covered at the camp were centered around the conservation of soil, water, forests, wildlife and range land. All of the subjects are being taught by specialists and adapted to the level of the boys attending.

## Production Up

WASHINGTON—U.S. winter wheat production now forecast at a record 1.2 billion bushels, states the Department of Agriculture. This is up three per cent from the April estimate and up 13 per cent from the 1966 output.

## Recognition Of Farming In Minidoka Set For June 21

PAUL—Recognition of the farming industry in Minidoka County is being planned for June 21 by the Chamber of Commerce.

Entitled the Paul Farm Festival, the event is planned as a way of showing appreciation to the farm industry and will include a beef barbecue, entertainment and prizes, rides for the children, and a public dance.

Over 30 prizes, including a Shetland pony, will be awarded during the event.

John Clark, Oakley, will be the "expert" beef barbecue chef with the cooking to be done in a pit. Mr. Clark plans to barbecue hundreds of pounds of beef for the occasion.

The festival is scheduled for 6:30 p.m. in the Paul shopping center parking lot on Highway 25. Entertainment by a group of square dancers is planned and the public dance is set for 9:30 p.m. following the barbecue.

This first such event is under sponsorship of the chamber, J. A. Bator, president.

## Better Feeders And Fitters 4-H Club Has Meeting

MILNER—Steven Brill gave a demonstration on the use of ground tools at a meeting of the Better Feeders and Fitters 4-H Club Sunday afternoon at the Brill home.

James Brill gave a talk on the characteristics of breeding ewes and Paul Warr gave a talk on the control of poultry mites.

Farman Wally, member, showed members the good points to look for in a quality hog, and discussed the projects available to new members in the club.

Mrs. Elwyn Brill served the refreshments.

## Candidate For Grassman Of Year Named

RUPERT—The Farm Bureau today named Clyde Greenwell as their candidate for the Grassman Program in the county.

At the regular meeting held at the courthouse in Rupert, members were urged to write to their congressmen in opposition to a labor bill being considered. It will apply to labor practices affecting farmers, and members felt it was not a good bill.

Appointed as representatives to the Columbia River Plateau Council were Ruben Weber, Ernest Thacto and Frank Hunt, with a fourth member to be named.

David Spreler reported that the Farm Bureau scholarship of \$100 was awarded to Mark Armstrong.

A multi-county resolution meeting was announced for June 28, with the place to be announced later.

Richard Hanks, president, conducted the meeting, and others in attendance were Thacto, Noel Croft, Merrill Maxwell, Hunt, Spreler, and Hanks. Mrs. Payne Shouse and Mrs. Carl Williams.

## REFERENDUM OKAYED LEAGUE CITY Tax-Referendum to establish seven new Soil Conservation Districts in Missouri has carried overwhelmingly. Total in the counties concerned was 1,401 to 81.

## ALFALFA WEEVILS Eating Up Your PROFITS?

puts an end to alfalfa weevils... and at low cost!

Niran M-4, Monsanto's newest insecticide gets the drop on alfalfa weevils before they get the drop on your crops. Don't let alfalfa weevils chew up your profits again this year. Alfalfa weevils are getting worse every year, and good effective controls have been hard to find. Niran M-4 can provide that control, and at a low cost, you will find hard to believe for such an effective material.

Look what Niran M-4 has to offer:

1. Lowest cost per acre of any alfalfa insecticide you can buy.
2. No need to combine Niran M-4 with other insecticides to get optimum performance.
3. No residue in soil, crop, milk or meat of animals when used as directed.
4. Easy to apply by ground or air.
5. No known insect resistance. Niran M-4 gives broad spectrum control of alfalfa pests.

Watch for signs that tell you when to spray

Weather determines alfalfa growth rate, egg hatching and damage rate to crop. Check your fields every few days in early spring when new growth has started. When you can see damage on 30 to 50% of the plants, spray with 1 pint of Niran M-4 per acre with proper amount of water for complete coverage. Niran M-4 can be used up to 15 days before harvest.

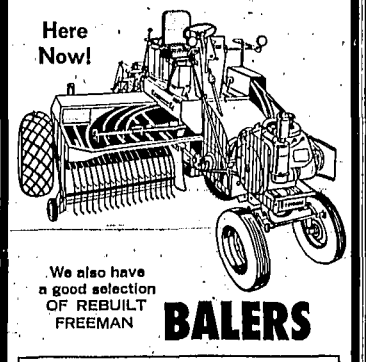

For safety sake

All insecticides are poisonous... that's a plain fact. Niran M-4 is a powerful insecticide... it has to be to do the job it does. Read and follow label directions. They are for your safety. When these label precautions are followed, there need be no problem.

Want more information?

Your local chemical dealer has complete information on Niran M-4 for alfalfa weevil control. See him today and find out how little it will cost you to protect your alfalfa earnings this year.

#### Farm Meet Set

Frank LeRoux, former general sales manager of the U. S. Department of Agriculture, Foreign Agriculture Service, will be the featured speaker at a meeting of farmers from eight counties at 8 p.m. Thursday at the Moose Hall, Jerome.

Mr. LeRoux has had many years of experience in farming, retail marketing, and in civic and political participation. He has taken a leading role in the development of many successful programs for the maximizing of exports of U. S. agricultural commodities.

The public is invited to attend, as a group on June 11.

The memorial service included a poem, "Our Deepest Need," by Mrs. Ted Hicks, lecturer; the reading of Psalm 46, verses one to five, by Mrs. Herman Rider, chairman; and another poem "In Memoriam" was read by Mrs. Hicks. Mrs. W. B. Stonemetz placed the flowers on the altar. Mrs. Lennie Moore, secretary, read the names of departed members. Two hymns, "My Faith Looks Up to Thee" and "Abide With Me," were sung by the group.

Refreshments were served at the close of the meeting by Mr. and Mrs. Bill Zink and Mr. and Mrs. Ralph Hostetter.

#### JERSEY CONVENTION SET

HOUSTON, Tex.—The Annual Jersey Cattle Club's annual meeting has been scheduled for June 18-21 at Houston.

#### Farm Decline Discussed At Grange Meet

MURTAUGH—An alarming decrease in farm ownership and population was examined by Will Beck, Murtaugh, during a recent meeting of the Murtaugh Grange.

Mr. Beck reported that an estimated 122,000 farms in America had failed and were abandoned by their owners last year. He quoted the Department of Agriculture in noting that the farm population declined by more than 800,000. The department, he said, predicts that another 82,000 farms will no longer be operating at the end of this year.

Presenting a legislative report, Mr. Beck noted that the number of bills introduced in the Idaho Senate and House of Representatives since Congress convened in January was 12,686. A large portion of these bills, he stated, "are corrective amendments to measures approved hurriedly in the past."

In other business during the meeting, the charter was draped in memory of Orville McClain, who died Thursday.

The literary program was presented by Mrs. Arthur Carrier, home economics chairman. Mrs. Ralph Breeding gave some suggestions on poisonous medicines which are kept within the reach of smaller children and urged special precautions because of the many accidental deaths of children due to such medicines.

Harold Menser suggested caution in the use of insecticides and herbicides and emphasized that all empty containers of these chemicals should be buried, or otherwise destroyed.

Mrs. Beck read an article on spider bites, bee stings and other poisonous bugs, including the remedies to use and how serious these bites and stings are to some people.

Mrs. Breeding read the closing thought, "Peace—Within—the Heart and the World."

Refreshments were served by Mr. and Mrs. Joe Tugaw and Mr. and Mrs. Glen McKee.

#### Better Livestock 4-H Club Meets

A demonstration on the proper way to trim a lamb was given by Jon Brennan Monday at a meeting of the Better Livestock 4-H Club.

#### Prices Rose

WASHINGTON (AP)—Farm product prices increased 2 percent during the month ended May 15, reversing an eight-month-long decline.

Reporting this today, the Agriculture Department said higher prices for hogs and cattle mainly responsible for the increase. Partially offsetting were price declines for lettuce, tomatoes, cotton and eggs.

The mid-May farm price level was 4 percent below higher prices for hogs and 1 percent below the recent peak set last August.

Other swine breed champions included Tim Danaher, St. John and Roger Brazier, Genesee, Idaho, reserve winner.

### County Farm To Be Sold At Auction

Sale of the Twin Falls County farm east of the Amalgamated Sugar Co. Plant, is scheduled for July 10 in public auction at 10 a.m. on the steps of the county courthouse.

County Commissioners say they will sell the 46-acre of farm land to the highest bidder. Until recently the farm has served as a home for elderly indigent residents of the county, now housed in a residential home. During the past year the old home, once a hotel at Milner, has been torn down and cleared away.

Purchased Nov. 8, 1933, from Mr. and Mrs. W. B. Newman for \$8,000, the farm land has since been leased by the county for operation each year. In the same year, the county purchased the old hotel from the sugar company where it had been used for a number of years to house employees. Last records show it cost the county \$1,500 to move the large three-story building, and the building itself cost another \$1,500.

County records in the first book of county commission meeting minutes on file show that on Feb. 8, 1936, the commission purchased its first farm. This consisted of 40 acres acquired for a "poor farm and hospital site." The minutes show the price for the land was \$3,000 and it was located one mile east of the present city limits on Addison Avenue East.

Records fail to show why a hospital was never built on the property and the land was sold just before the purchase of the present farm.

Commissioners say "poor farms" have become outmoded and with the July sale, the county will be completely out of the farming business.

Commissioner William Chaney is making one site restriction, however.

### Along Fences And Canals

Michael Kast and Jim Kast are doing custom baling and washing of hay in the King Hill area. They are harvesting the first cutting of hay at the Stout Ranch east of King Hill and the Wheeler ranch to the south east.

Keith Morrison, Glenn Ferry, is harvesting the first cutting of hay at the Arthur Green ranch south of King Hill.

Mr. and Mrs. Arlie Broad, Glenn Ferry, have moved to the Charles Kast ranch east of King Hill, formerly occupied by Mr. and Mrs. Sam Myers who have moved to a ranch west of Glenns Ferry.

Mr. and Mrs. Frank James are harvesting their first cutting of hay on the La Mar Okleberry ranch south east of King Hill. Mr. and Mrs. James moved here from Murtaugh and are taking care of the ranch.

Mr. and Mrs. Sam Maupin and family moved over the weekend from the Lloyd Barron Ranch on King Hill Creek to the Lloyd Barron Ranch near Corral for the summer. Mr. Maupin is employed by Mr. Barron and will work with the cattle during the summer. Mr. and Mrs. Carl Hill Ranch, also will move to Corral. He is employed by Lloyd Barron.

Gary Gallo and Dick Miller, both Tuttle, are spending this week on the campus of the University of Idaho as members of the FFA Judging Team of the Hagerman High School.

Mr. and Mrs. Bert Brown, Lancaster, Calif., are new owners of the former Thurman Hansen ranch in Marley. The couple include Mr. and Mrs. Harry Brown, Jerome, former north Richfield ranch owners.

The Dean Patterson family has moved to one of the Morrigage insurance ranches in Marley. Patterson is manager of the company holdings in Richfield. Other new families moving to Richfield to work for the company include Mr. and Mrs. Leslie Miller and two sons, Gooding; Mr. and Mrs. Orval Wall, formerly of Jerome, and Le Roy Lee of Richfield. Mr. Patterson was formerly sale yard manager for the Twin Falls Livestock Commission Co.

Beet winning and all other farm work has been hampered because of the recent heavy rain. A severe hailstorm struck the southeastern part of Springdale, causing damage to beets and hay. The amount of damage has not yet been determined.

Charles Ward and sons recently trailed their cattle from the home ranch in Malta to their summer pasture in the Moulton area.

Mr. and Mrs. George Terry have finished building a board yard fence at the west of their ranch home south of King Hill and will corral their small calves. The yard has been seeded to pasture grass for the calves. They also are having some ground leveled to the east of the ranch and will be seeded and used for pasture for their milk cows and other stock. The Terrys are talking about 30 cows at the present time.

Mr. and Mrs. Thurman Hansen, twelve year owners of the 325 acre former John Johnson ranch, a Marley landmark, have moved to Falls Avenue in Twin Falls where they have purchased a residence.

Walter and Jim Solder have cut down several very large trees that were considered to be dangerous near the tenant house at the Walter Solder farm.

### Modern Methods Blamed For U.S. Dairy Farm Decrease

RUPERT — Modern dairy farming and labor-saving devices have contributed to a drop in the number of dairy farms across the nation from 2,400,000 in 1940 to less than 500,000 today, according to Vernon Hansen, president of the Mini-Cassidy Dairyman's Association.

Hansen was guest speaker at a recent Rupert Chamber of Commerce meeting in observance of June Dairy Month.

The speaker outlined several other factors which have made it possible for this smaller number of farmers to produce milk for the nation and thus to increase the number of dairy farmers.

### General Mills Forms Firm In Chile

MINNEAPOLIS — General Mills announced today the formation of a company in Santiago, Chile, to produce high quality food products. The flour and convenience consumer food items which will be marketed under the Betty Crocker label are through a family partnership to other South American countries.

The company will be known as General Mills de Chile Alimentos, S.A., and is a joint venture between the Minneapolis-based company and three Chilean industrialists, Rodolfo Arbat, Gil, Jose Ferrer Torres, and Miguel Calat Rocosa.

Mr. Arbat is the owner of an engineering firm and a professor at the Universidad de Chile. Mr. Ferrer is a well-known industrialist and financier. He is the Chairman of Molinera Ferrer-Hnos. S. A., and has interests in many other countries. Mr. Calat is the Managing Director of Calaf S.A.C.T., one of the oldest and largest carry manufacturing companies in Chile. He is also Director of the Banco de Talca.

Hansen traced the history of the use of dairy products, and said that while the origin of milk in the diet is undetermined, it is known that it was included as long ago as 4,000 years ago. Presently one-fourth of all food consumed is a dairy product. He placed the dairy industry as the largest in the nation, and said it adds one and one-half billion dollars to the economy in Minidoka County alone.

Plans for Dairy Month in Minidoka County will include meetings of all the service clubs; a dairy bar on the Rupert City park, June 16-17, with a milk add-on and a quality cooking demonstration in use of dairy products, together with recipes to be given by the extension homemakers in the county June 29 at the Civic Building.

Also planned in connection with the demonstration is a tour of dairy farms.

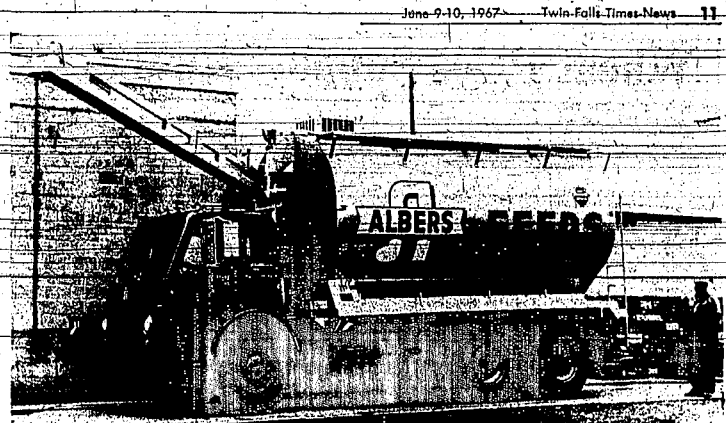

In other business at the meeting, conducted by Claude Bowman, members voted to sign a proclamation urging merchants to display and sell beet sugar.

Rex Rasmussen reported progress of the Rodeo Queen contest, with seven girls signed up for the riding competition at the rodeo grounds on June 11. He said each girl will have two sponsors and asked interested merchants to contact him, or members of his committee, Bill Bennett and Seth Rasmussen.

Delmar Hollinger reported that enough stalls have been sold to merchants for construction of the larger 100 by 100 foot fair building, and this has been approved by the county commissioners.

A meeting with Wayne Summers in Boise to discuss Rupert signs on the Interstate highway was announced for June 13, with interested members invited to attend. Hollinger and Bowman indicated their plans to attend, and Mr. Bowman said Rep. Omer Artzt and Sen. Harry Brooks are also expected to attend.

John Trevino is program chairman for the month's chamber programs.

### Cattle Numbers Up One Per Cent

WASHINGTON — The number of cattle in the world reached a new high of 1,140 million head at the start of 1967. This was a one per cent jump from 1966 and up seven per cent from the 1956-60 average level.

There were declines in cattle numbers in the United States, as well as in Canada. In this country, the number of dairy cattle dropped five per cent, and beef cattle numbers were up one per cent.

### Albers Puts New Delivery Truck In Use

A Twin Falls firm has added a new unique delivery truck to its operation.

Albers Milling Co. has just recently purchased an International bulk feed delivery truck for about \$24,000. The large tank, which carries a load from 13 to 14 tons, can be unloaded from both the front and back ends.

The front system is a paddle system of unloading and is hydraulic controlled. This type of unloading is easier than most because the feed does not break up as bad.

The other unloading system of the truck, which most all feed

delivery trucks have, is the air unloading system.

The new truck can unload from 12,000 to 22,000 pounds per minute.

The doors of each compartment are hydraulic controlled. The new truck is now in operation.

Manager of the firm is Gene Deoney.

# Wheat Price Support Rate Set At \$1.18

The Twin Falls County price support rate for 1967 crop wheat this week set at \$1.18, it was announced this week by Carl Boyd, chairman, Agricultural Stabilization and Conservation County Committee.

"This county rate reflects the national average farm loan rate of \$1.25 per bushel, same as for the 1966 crop," Mr. Boyd said, "but it also reflects the price relationship and support rate for the terminal market area serving this county."

The chairman explained that in general loan rates in counties tributary to the terminals will reflect any terminal rate changes. Terminal rates announced by USDA May 26 range from \$1.43 to \$1.68 per bushel.

Several changes in the price relationships among terminals are being made from the 1966 crop rates. These changes reflect cash market price relationships and are based on a study made of cash market terminal prices. The changes are supported by county price data which reflected the differences found in the terminal market price study.

Generally, the changes are about like this, Mr. Boyd said. Gulf ports are being increased one cent per bushel from last year. Pacific Northwest, Central, South Central and Eastern terminals are being reduced two cents per bushel. Minneapolis and related terminals are reduced one cent. Missouri River and California terminals are unchanged.

County wheat growers who want to get price support loans or be eligible for acreage allotments and cooperate in the 1967 wheat program, Mr. Boyd said, must be pointed out that participation in the 1967 wheat program not only qualifies growers for price support loans and purchase of domestic marketing certificates.

Certificates for the '67 crop will be based on 85 per cent of the former project's allotment of wheat on the allotment. Certificates have a cash value equal to 100 per cent of parity as of next July 1. The national average price support loan rate of \$1.25 (May, 1967, effective parity price for wheat is \$2.39 per bushel).

## Beet Thinning In Rupert Area 40 Per Cent Completed

**RUPERT** — Ernest Blauer, Amalgamated Sugar Co. official, stated this week that beet thinning in the Min-Cassia area is about 40 per cent completed.

Blauer added, "We have a beautiful crop this year — one of the finest starts we have had in years, due to the good moisture and the warm weather which started them off fast."

There was a mild shortage of beet thinners for a time in the area, with the warm weather blamed for most of this. The usual migrant laborers were finishing up the thinning in the Nampa-Nyssa area and the local beet workers were ready before they finished in that area. The shortage has now eased, he noted, since the workers have moved in from the northern area.

Millard Davenport and Monte Jo Watkins are assistant leaders for the horses and George Willis is assistant leader for the livestock, calves, sheep and other animals.

Refreshments were served by Lenny, Kris and Dean Anderson.

## Plant To Close

**HEYBURN** — A shut-down date of June 17 has been announced for the J. R. Simplot Co. starch plant in Heyburn.

Company official Hugo Dalsoglio said today the plant is operating on three shifts and has been running since last September. Shifts will resume when potatoes are available again in the fall.

Mr. Dalsoglio reminded any farmers with potatoes to sell for use in the plant to get them in before the shut-down date.

## Deadline for control of perennial noxious weeds in Twin Falls county is June 15, weed director Wallace Savage reminded farmers Thursday.

County commissioners set the deadline each year, he said, giving landowners and farm operators a date by which to provide their own noxious weed eradication or the county crews will perform the service and charge the landowners.

Weeds in this category include Canadian thistle, ground cherry, morning glory, saw tooth and wild radish and this year considerable white top is showing up, Mr. Savage said.

Recent damp weather, Mr. Savage added, has boosted weed growth in the county and slowed the eradication program.

**MALATHION CONTROLS ALFALFA WEEVIL WITHOUT RESIDUE PROBLEMS**

**Get top performance at low cost...**

Malathion provides the most effective control of alfalfa weevil — with none of the problems encountered with other commonly used insecticides.

The preferred practice for weevil control now recommended by authorities is to treat the larvae with malathion. By spraying when the larval counts are high, good control of weevil can be obtained with a single application.

When you use malathion for alfalfa weevil larvae in accordance with label directions, you enjoy exceptional freedom from insecticide hazards. There is no danger from drift... no worry about residues on hay, milk, milk products or meat.

**NO WAITING PERIOD.** A recent USDA registration has raised the tolerance level of malathion to 135 ppm on hay and grass crops and allows harvesting or grazing on the day of application.

This important advantage along with malathion's low toxicity to workers — and small cost per acre — has made malathion the insecticide of choice for alfalfa weevil programs.

ALSO CONTROLS APHIDS and other forage pests including legumes, grasshoppers, leafhoppers and armyworms. Consult local agricultural authorities for information on timing of application.

Before using any pesticide, stop and read the label.

### Milk Output Up

HOISE — Total production of milk in Idaho was estimated at 126 million pounds during April, compared with 121 million pounds a year ago and the 118 million pounds for the 1961-65 average for April.

The output of all manufactured products of the dairy program was well above the production for the same month a year ago.

# The Green Thumb

by GEORGE ABRAHAM

**INSTANT LAWNS:** After seeing how much money some homeowners spend getting a lawn started from seed, I'm convinced that sod is the most efficient, quickest and the smartest way to plant a lawn.

**Sodding has the advantages of being done almost any season of the year — spring, summer, fall or winter. Seeding has to be done in spring or fall for best results.**

It takes a seeded lawn about two years to become well-established, but a sodded lawn is complete within a few hours. Sodding is wonderful in that it eliminates the mud, dust, dirt and muss of a seeded lawn. Sod growers produce a weed and insect-free product that needs no immediate attention other than irrigation. Maintenance, the homeowner gets a bargain when he buys sod.

You can buy the sod from a nurseryman and apply it yourself, or you can contract to have him do it. Laying the sod is no trick. Soil preparation is quite important. Make sure the soil is graded properly because the ultimate smoothness of the sodded area is determined by the quality of the finish grade. After we lay the sod, we topdress with a liquid plant food (2-10-17) applied with a hose attachment. It's a good idea to moisten the soil area in dry weather, before sod is laid.

Sod is laid with the ends and sides butted up evenly. It's best to lay sod in a brick pattern. After the sod is laid, it can be stamped or rolled lightly, and then watered for 24 hours. The turf knots to the sub-surface.

**NEVER LET IT DRY OUT** after laying. Yet on the other hand, do not keep it too moist. Lift a corner occasionally, and if the soil beneath is damp, it needs no extra water.

**DOG PROBLEMS:** Ever notice holes "something" dug in your flower garden? Three or four holes are dug in an area, along with flowers and plants. These holes are dug (looking for bones) especially where bone meal fertilizer has been used.

Chlorine is a byproduct of the meat industry and it does a terrific job of killing fleas, ticks, chipmunks and squirrels will also dig holes, either in search of nuts, or to bury them.

A fence will keep out dogs and cats, but there's little you can do to keep squirrels and chipmunks away. Some folks have good luck using moth flakes in the flower beds, but these have little effect on dogs and cats.

**FREE:** Have you studied my bulletin, How to Keep Dogs, Cats and Other Animals Out of Your Lawns and Gardens? It contains good tips gardeners have used, and we think you'll find them interesting. Send me a self-addressed, stamped envelope for your copy.

**BLUE SPRUCE:** What causes a blue spruce to lose its nice color and take on a muddy green look? The bluish color is a "blow" or sheen, a sort of powdery substance on the outside of the needles. It's also found on plums or grapes. The color is more pronounced during later spring and summer months, but as the season wears on the rains and winds cause the blue to disappear.

Some blue spruce remain blue the entire year, others remain green. If you start your own spruce from seed, you'll get some seedlings that are muddy green, and some that are true blue. A great majority of the blue spruce are of a greenish tint with a slightly bluish tendency.

What can be done to make a blue spruce bluer? Some nurserymen say that if the spruce responds and improves their color where an acid soil prevails. Iron sulfate added to the soil makes it helpful in improving color. A handful of the material scattered around the

The boys built two sections of bleachers, each 18 feet long and four rows high, as well as portable stalls for the horse barns. Boys on the front row, from left, include Ray Koyle, Stanley Schewe and John Osterhout, while the back row includes Harold Wicket, Ray Schrenk and Max Fuqua, from left.

## Students Build Bleachers For Cassia Fairgrounds

**BURLEY**—Cassia County Fair Grounds will soon have two new sections of bleachers and portable stalls for the horse barn. Thanks to agriculture students in county schools.

Two sections of bleachers 18 feet long and four rows of seats high have been built by the Vocational Agricultural class at Oakley High School. Most of the work was done by five high school students, reports Bert Gardner, instructor at Declo.

The material was purchased by the Cassia County Fair Board and students built the bleachers as a work project.

### More Milk

SAN FRANCISCO — The more salt cows eat, the more water they drink and the more water they drink, the more milk they give.

Recent tests have documented this chain reaction, says L. R. Ruppel, animal feed specialist with Lesilo Food, Inc., said today. Cows watered twice daily gave one percent more milk than those watered only once daily.

"And when you let them drink whenever they want to, milk production went up another 2.8 per cent," Ruppel added.

### Research Center Director Attends Engineering Meet

KIMBERLY — A. R. Robinson, director of the Snake River Conservation Research Center, Kimberly, attended a meeting of the Research Committee, Irrigation and Drainage Division, American Society of Civil Engineers this week at Colorado State University.

This committee functions as one of several research committees under the ASCE to focus research attention on a specific phase of engineering. In this case, the search is aimed at problems involving hydraulics and the flow of water for irrigation and drainage of irrigated lands.

Mr. Robinson is chairman of the committee.

Major donated foods were beef, butter, cheese, corn meal, flour, margarine, non-fat dry milk, peanut butter, rice, shortening, frozen turkeys, rolled wheat, dry beans; raisins and orange juice.

At the end of March, 2,148 of the nation's 3,072 counties were taking part in the department's food aid program, versus 1,815 in 1966. The program is expected to hold first place in total number of needy persons receiving donated foods—555,500 compared with 515,511 a year ago. New York was second with 416,254, down about \$5,000 from a year earlier. Third was Mississippi with 287,333 compared with 406,830.

An important tool that farmers use to money in the form of long-term real estate loans. And it wasn't until the Farm Loan Act was signed by President Wilson in 1916 that farmers were able to get great use of capital to keep abreast of technical advances in scientific farming. The Federal Land Bank Association was organized by the members of the agricultural loan. We salute the farmers... Providers of Plenty.

### FARMERS ASK US:

What are the advantages of Anhydrous Ammonia for side-dressing?

- There are five principal advantages:
1. The nitrogen is placed deep where crop roots are growing.
  2. Anhydrous ammonia is immediately available to plants and it is also a long-lasting form of nitrogen.
  3. It does not leach out of the root zone.
  4. With anhydrous ammonia application as a side-dressing, there is very little movement of the nitrogen to the top of beds where it can become unavailable.
  5. Side-dressing with anhydrous ammonia helps you assure your crops of enough nitrogen for maximum yields and profits.

For answers to all your soil fertility problems, call your United States Steel Farm Service Center... experts in anhydrous ammonia application. At your U.S.S. Farm Service Center you get; custom application or applicators available for rental; nitrotrons on equipment assure you accurate rate of application; ammonia tanks are weighed before and after every application so you pay only for the ammonia used, and remember — U.S.S. Soil Fertility Specialists are professionally trained to give you the ultimate in service.

If you have a question about anhydrous ammonia, do as other growers do — call your United States Steel Farm Service Center.

# BRIDGE

By Jacoby

**CONTRACT MADE BY DISREGARD**  
The case of the people vs. South, accused of willfully and maliciously stealing three tricks, has been skillfully prosecuted by Hamilton Burg, the District Attorney.

Bridge Detective Lieutenant Grang had described the actual

play of the hand in which South, with 18 points in his hand and one point in dummy, had made three over-tricks at a west-north contract.

Merry Payson, attorney for the defense, rose to cross-examine. He began, "Lieutenant, I Pass."

South returned a club. West took his king and jack and then South in with the ten. Meanwhile East had discarded two spades. South led his ace and king of spades. The queen dropped and a third spade was led to dummy's ten. South cashed the jack and discarded the eight of diamonds. Meanwhile, East had thrown the five and jack of hearts and West the deuces of hearts and diamonds. Then

South led a heart to his ace and threw West a queen with the king of hearts. West made the last three tricks with the king, queen and eight of hearts. Will you kindly inform the court which card West played on the third spade lead?

"He played the deuce of hearts," replied the Lieutenant. Payson turned to the Judge and said, "Your Honor, I respectfully move for a directed verdict of acquittal. In the famous case of People vs. Culbertson it was established that the discard of a deuce under those circumstances clearly tells partner to protect that suit. If East had protected hearts then West could have dropped his king of hearts under South's ace. East would have gained the lead and played a diamond. When East discarded hearts in spite of his partner's deuce discard he actually gave South three tricks. West gave him the third which he undertook his ace of diamonds."

"Motion granted," said the Judge. "Defendant is acquitted."

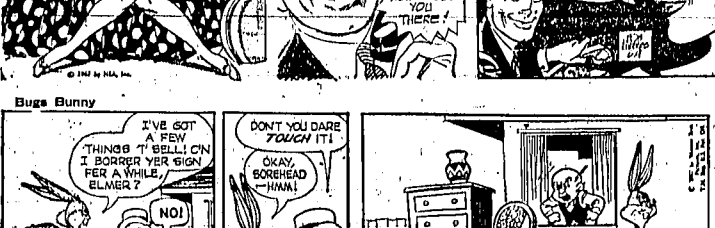

### CARD SENSE

Q—The bidding has been: West North East South  
1♣ Pass 2♣  
2 N.T. Pass 3♣  
3♥ Pass 4♥  
4♠ Pass 7

What do you do now?  
A—Jump to six clubs. Your partner has obviously been showing controls but he did not hold both black kings.

### TODAY'S QUESTION

Instead of bidding three hearts over your three clubs, your partner has bid four clubs. What do you do?

## Friendship Hinges On A Broken Door

Dear Walt: My ex-best friend isn't speaking to me, and I don't think he's got a right to be mad at all. One night we were drinking, and when he got out of his car, I shut the door rather strongly. This is necessary because the hinges aren't so good, and the window broke. Don't get me wrong, it was already cracked a long time before this, but when I shut it, it finally let go. He said, "That will be twelve dollars," and I told him it was an act of God—and just had luck that it happened when I closed the door. He said God hadn't slammed the door, and who did I think was going to replace the window? We both got madder, and that's the last time we spoke to each other. Now when we pass, we just look at the other way. I'm sorry about this, but I think he's being unreasonably. What do you think?

Dear Tony: Being human, at being given up a pretty bad time or another we've all flipped out, a relatively small thing like a bluish to remember the hurricane I raised the door's Ele inadvertently scratched our friend's (stereo) Now that the storm has blown out, I call your pal and tell him your dropping over, then hand him an envelope with \$6 as your half of the cracked window, and your half of the window's replacement. As I see it, it's 50-50 responsibility. He supplied a car, and called all our fathers. cracked window, and to pay a total of \$250 in repairs, and we almost got blocked from a good friendship!—Walt, graduating.

# Kelly Obtained In Trade, Named To Coach Kings

By DICK COUCH  
MONTREAL (AP) — The Los Angeles Kings acquired the rights to Red Kelly in exchange for a young defenseman Tuesday night and immediately named the 29-year-old veteran to coach of their new National Hockey League team.

## Beats U.S.

MONTEVIDEO, Uruguay (AP) — Yugoslavia, the defending champions, came from 14 points back and upset the United States 7-2 Thursday night in the World Amateur Basketball Championship. Yugoslavia's fourth straight victory against no defeats and the first setback for the Americans in the round-robin tournament that ended Sunday. The United States, with a 3-1 record and two games left to play, still has a chance for the title along with Russia at 4-1.

## Goalby Nabs Early Lead In Buick Open

GRAND BLANC, Mich. (AP) — Sharp-shooting Bob Goalby tamed Warwick Hills' famed 555-yard 16th hole Thursday as he grabbed a one-stroke lead in the opening round of the \$100,000 Buick Open Golf Tournament.

Goalby put together two tremendous wood shots before wedding home a 75-footer for an eagle 3 that helped him to his three-under-par 69.

The Palm Springs, Calif., golfer took only 30 putts and got another big hit on the 10th, when he hit a 46-foot chip shot for one of his two birdies.

Hugh Royer of Columbus, Ga., and Frank Beard of Louisville, Ky., matched 70s but under par. Beard had a stroke off Goalby's red hot pace.

Defending champion Phil Rodgers came in with a three-over 75.

The field, minus the glances of Arnold Palmer, Gary Player, Jack Nicklaus and Masters champion Gary Brewer, blushed through the humid weather and a course left soggy by intermittent showers and a heavy overcast rain. By mid-afternoon, weather conditions had improved and the course played much easier.

# Granatelli Says USAC Will Okay Turbine Motor

CHICAGO, Ill. (AP) — Anthony Andy Granatelli said he has approved his controversial turbine engine car.

The president of Studebaker's STP Division said in a statement Thursday that a decision to refer the question of the engine's power output to a committee of turbine experts "is tantamount to approval."

The committee Wednesday asked experts of Pratt & Whitney, which built the Granatelli engine, and other makers to help compare the admittedly faster STP "Turbo" to production engines.

An agreement to build the turbine car was announced at the STP Division's Paxton Engineering plant in Santa Monica and was certainly anticipated a winning season for turbine automobile either our own or the product of some one who builds a better engine," Granatelli said.

Granatelli repeated an earlier contention that the engine was only partly responsible for the fastest performance of the car, which Parand Jones was able to jump from sixth to first place in the first lap of the Indianapolis Memorial Day race.

# Grizzly Bear Mauls Idaho Falls Trio

ASHTON (AP) — "I thought they were both dead," Kristen Sparks, 14, of Idaho Falls said from his bed at Ashton Memorial Hospital Thursday night, where he is being treated for wounds inflicted by a grizzly bear Wednesday.

The transaction ended the liveliest controversy to come out of Tuesday's expansion draft at the 50th annual NHL meeting in Denver. Kelly, a 20-year NHL veteran, was headed for the Los Angeles coaching job until Toronto turned his list protected list after 10 rounds had gone by in the draft.

Kelly and Kings owner Jack Kent Cooke charged the Leafs had gone back on a prior agreement to insure the player's availability to Los Angeles.

The Leafs denied making a deal with Cooke, and charges and countercharges punctuated the remainder of the league meeting.

Block, the Kings' next to last draft choice Tuesday, is a 23-year-old product of the Los Angeles Stock Bangers organization, which played with New York's Vancouver farm club last season.

Earlier in the day, the league set a minimum salary of \$10,000 for all players — topping the minimum set for major league baseball — in its final sessions.

The board of 12 governors of hockey's expanded major league boosted the salary minimum \$3,000 over the bottom figure set for the last six years. The minimum salary in baseball is \$7,500 per year.

NHL President Clarence Campbell said the increase had nothing to do with the newly formed Players' Association which met for the second time with a committee of club owners earlier in the day.

Campbell said the average earnings of an NHL player in 1966-67 amounted to \$24,000 to \$35,000, with an average base of \$13,225 plus bonus and pension considerations.

# 17-Year-Old Is Youngest To Win Berth In Open

BUTLER, Pa. (AP) — At the age of 3, Jim Simons of Butler, Pa., took a few clumsy swings with a too-large golf club, but waited until he was 10 before he started playing regularly.

Simons, one of the youngest golfers to qualify for the Open "was I happy?" said the jubilant Simons in an interview. "It was probably the best thing I ever accomplished."

The victory climaxed years of hard work for the youngster. During the summer, Simons played the Butler Country Club course "just about every day."

His last big victory was the International Orange Bowl Tournament last winter. He carded 69-72-141 over the par 71 Biltmore golf course at Coral Gables, Fla.

"I'll have to play every day to keep in shape," says Simons, a hefty 170-pounder with heavy legs and strong back and shoulders. "I don't, I don't, I lose my timing."

He'll tune up for the Open June 15-18 at Baltusport with the Sunbeam Amateur Tournament for Champions at Johnstown, Pa., which runs through Sunday.

What does he think of his chances in the Open? "Well, it's going to be a little different playing with the pros," said Simons. "I think I'm going to take them in stride, try not to get too keyed up and then I won't be nervous. I'm going to try to play my natural game."

22 POUNDS OF TROUT are shown by Art Watson, 16, and Scott Riach, 17, after a successful day of fishing in the stream below the Clear Lakes Hatchery. Three of the fish run five and one-half pounds, two are three and one-half pounders.

## Big Fish Got Away, But Who Cares?

The big one got away but "I'm not complaining," says Scott Riach, Twin Falls, who combined with Art Watson to pull a 22-pounder from a common trout run of the stream below the hatchery at Clear Lakes Thursday morning.

The three school students pulled in three five and one-half pounders and two more that went three and one-half pounds.

Another reason that Riach wasn't complaining much about the one getting away was a conservation officer checked them out and they were just inside the limit of seven pounds and one fish each.

Only one of the big ones gave the lads much trouble. Riach fought the five and one-half pounder for 20 minutes before getting him close enough to shore to net. "My arm was a little sore after that," Riach admits.

The boys were using six-pound test line on their outfits and after the first couple of catches used the fish viscera for bait.

## NBA All-Star Game Set For New York

CHICAGO (AP) — The National Basketball Association's 1968 All-Star game will be played in the new Madison Square Garden, at New York, Jan. 23.

Commissioner Walt Kennedy announced Thursday that the All-Star games will be the only announced business by NBA club owners as they closed a two-day annual meeting.

The 1968 All-Star game will be played in Baltimore's Civic Auditorium and the 1970 All-Star contest in Philadelphia's new arena opening this fall. The 1969 and 1970 games will be played in January with exact dates to be set later.

What happened? "We were looking for lean cans, used to hunt insecticide in the forest—that had been left from last fall's operation. The boys and I were in separate lanes of trees which had been roped off for treatment."

"I looked back and saw this bear angling off my trail. Evidently he had caught my scent and was out for his dinner. In my opinion it was a grizzly, but I didn't take time to study him too close."

"I started yelling, and the two boys came to see what was happening. They threw rocks and sticks trying to distract the bear's attention from me. The bear left me and started after the boys. Then he came back to me but left again and jogged down to the creek bottom."

# Patterson Places Long Ring Experience Against 22-Year-Old Prospect

By BOB MYERS  
LOS ANGELES (AP) — It seems as though Floyd Patterson has been around boxing for two decades, and give or take about four years he is still young. Then there's this upstart kid from California, Jerry Quarry.

Who's been boxing as a professional just two years and a few weeks. Jerry is barely 22, Patterson is 32, and the two angle in a match that marks a cross-road for each gladiator.

The 10-round go-on in the huge Memorial Coliseum Friday night. Patterson, the only fighter to win the world heavyweight title twice—and lost it twice, of course—is a 75 favorite to whip the blond, crew-cut Quarry.

Few expect the match to last 10 rounds. The principals are inclined to agree.

Mrs. Alison Eaton, the only lady fight promoter in the world expects 20,000 or more to sit on the boat, which will not be elevated locally or otherwise.

What next if Patterson loses? "I never go into a fight with the thought of losing," Patterson said.

"Patterson will come to me and that's what I want," said Quarry. Mr. Patterson isn't taking anything for granted. The international experience, I'm young, I'm still improving."

## Red Sox And Chicago Split Twin Bill

CHICAGO (AP) — Gary Bell, making his debut for Boston, scattered nine hits and rode a fourth-inning home run to a 3-1 victory over the Chicago White Sox, giving the Red Sox a split in their doubleheader Thursday.

Unbeaten Joe Horlen, backed by home runs by Gerry McNertney and Ken Berry, posted his seventh victory in the opener, pitching Chicago to a 5-2 triumph.

Bell, 25, acquired recently in a trade with Cleveland, yielded two first-inning runs on Tom McCraw's hit-and-run single and Fred Don Buford's from second and Tommy Agee from first.

Ron Hansen homered in the fifth for the third run.

Horlen scattered six hits in his fourth complete game in 10 starts. Carl Yastrzemski doubled home a run against him in the first inning and in the seventh, his fifth homer in the season.

## Braves Edge L.A. 5-4 In Last Inning

ATLANTA (AP) — Felipe Alou's ninth-inning single brought the 1 rally that lifted Braves to a 5-4 victory over Los Angeles Thursday night.

Dennis Menke had opened the second on Woody Woodward's sacrifice. After pinch hitter Mike de la Hoz was retired, Alou singled to right, scoring Menke.

The Braves held to Mack Jones' solo homer and Alou's infield hit in the first six innings, chased Los Angeles starter Don Drysdale in the seventh with a three-run outburst that tied the score 4-4.

## Yanks Smash To 6-0 Win Over Solons

NEW YORK (AP) — Pitcher Joe Verbanic's second-inning double ignited a string of five straight two-out hits that produced five runs as New York blanked Washington 6-0.

Verbanic allowed just four hits and won his second straight.

The victory was New York's fourth in the five-game series with the Senators and lifted the Yankees within one game of the 500 percentage.

## Cards' Gibson Stops Astros On Four Hits

ST. LOUIS (AP) — Bob Gibson fired a four-hitter and Julian Javier's leadoff homer in the fifth inning snapped a tie as St. Louis whipped Houston 6-2 Thursday night.

The victory ended a string of three straight losses which the Cardinals had suffered against the Astros.

Javier's homer ignited a three-run St. Louis burst in the fifth and Gibson, who struck out nine, coasted the rest of the way.

## Giants Rally In Eighth To Drop Redlegs

CINCINNATI (AP) — Ollie Brown's tie-breaking single and a two-run throwing error by John Edwards gave the San Francisco Giants their eighth-inning runs Thursday night that lifted them past Cincinnati 8-7.

The loss broke a string of 11 straight one-run decisions for the league-leading Reds.

Willie McCovey, who hit his 10th home run with a man on base in the sixth inning, doubled with one out in the eighth off Jerry Arigo and Jim Hart was walked intentionally.

Brown, who had given the Giants a 5-4 lead with his 10th homer in the sixth, singled for one run. Two more scored when Tommy Helms finished Hal Lanier's ground, threw home catching Hart in a rundown and Edward Howard hit Hart and rolled into left field.

## Homers Lift Angels Over Orioles 6-5

ANAHEIM (AP) — Rich Reichardt climaxed a home run barrage with a two-run shot in the sixth inning that brought California from behind to a 6-5 victory over the Baltimore Orioles Thursday.

The Angels were trailing 5-4 when Jimmy Hall's double and Reichardt connected off loser Steve Miller, 1-5. It was his seventh homer.

Hall and Jim Fregosi slugged earlier two-run homers in the third inning, staking the Angels to a 4-0 lead against starter Jim Powell while Brooks Robinson singled and Andy Etchebarren beat out an infield hit to load the bases.

## Alvis Powers Indians Past Twins 7-2

ST. PAUL, MINNEAPOLIS (AP) — Max Alvis, who led off the game with a homer, capped a four-run ninth inning with a two-run blast that boosted Cleveland past Minnesota 7-2 Thursday.

Twins had taken a 5-3 lead into the inning after scoring four times in the eighth, but Alvis' home run, followed by reliever Al Worthington.

With one out, pinch hitter Leon Wagner walked and Fred Wood walked.

Wagner scored on a force out, but pinch hitter Duke Sims singled, and the tying run scored on a wild pitch.

Alvis connected for his ninth homer.

Alvis' first homer, a homer by Joe Jacca and a triple by Chuck Hinton, scoring Alvis who had singled, gave the Indians a 3-1 lead entering the eighth inning.

Starter Ed Connolly, last recalled from Portland and working on a five-hitter, walked the first two hitters and Bob Allen relieved.

Tony Oliva singled in one run and Orlando Pena came in to pitch. Oliva stole second and Zolfo Versalles singled for two runs and a 4-2 Twins lead.

Earl Battey followed with a home double for another run. Cleveland 100 001 104-7 11 0

**Summer Of  
Fun Listed  
At Burley**

BURLEY — The summer recreation schedule for the Burley area was announced recently by Jack Keen, city recreation director.

Public swimming hours in the city pool at Salmon Park are daily from 1 to 5 p.m. and 6 to 8 p.m. The wading pool will be open from 1 to 8 p.m. General admission and season tickets are available at the pool office. There is no charge for the wading pool. Children under 6 must be accompanied by an adult while using either pool.

Red Cross youth swimming lessons begin June 19 and continue through July 1. Registration will be held the week of June 12 at the pool office. Private, four to six people, and semi-private lessons, seven to 15 people, are available all summer.

Adult "Learn to Swim" instruction begins July 3. Registration will be held the week of June 26 for evening classes. The second session of the Red Cross youth lessons begin July 31 and end Aug. 11. Registration will be the week of July 24 at the pool office. The first session of lifesaving and Explorer Scout instruction will be held from June 12 to June 24 and the second session from Aug. 14 to Aug. 23.

The pool is available after 8 p.m. and after 9 p.m. during lifesaving instruction, for private party rental. There will be an open house from 6 to 9 p.m. June 24.

Women's fitness swim will be held every Monday, Tuesday and Thursday from 9 to 11 a.m., except during Red Cross lessons. Advance registration is required. A minimum of 20 people must participate.

Family nights begin July 5 and will be held every Wednesday from 6 to 7 p.m. All children must be accompanied by at least one adult.

Teen night begins June 29 and will be held every Thursday from 9 to 11 p.m. Age limit is 14 to 18 years of age. Advance registration is required. A minimum of 30 people must participate.

Synchronized swim classes begin June 12 and will be held every Monday, Tuesday and Thursday from 12 to 1 p.m. Swim team begins June 12 every Monday, Tuesday and Thursday from 5 to 6 p.m. Advance registration is required. Age limit is 10 to 16 years of age.

Teenage "Learn to Swim" begins July 17 to 21 at 8 to 9 a.m. Advance registration is required. There will be a water show July 23 at 8 p.m. Inquire at the pool office for information on diving and other special events.

Indoor and outdoor ranges are available for summer archery. Contact the Burley Bowmen at Main and Highland Ave., for information. The meet at 8 p.m. Thursdays.

Children summer band program will be available at the Duorshak and Junior High schools, for beginners and advanced. Inquire at the County Central office for details.
