The Magic Valley Newspaper Dedicated to Serving and Promoting the Growth of Nine Irrigated Idaho Counties

VOL. 64, NO. 83

TWIN FALLS, IDAHO; FRIDAY, JULY 7, 1967

TEN CENTS

BETWIXT AND BETWEEN. A wounded Korean infantryman clutches the runner of an American medical evacuation helicopter hovering over his position as he is helped aboard. The Korean, part of an operation against a Communist training camp near Phan Rang, South Vietnam, stepped on a poisoned stake left by Viet Cong as a body trap. (AP wirephoto)

Governor Sees Trend In Plans For Burley Plant

BURLEY (AP)—Gov. Don W. Samuelson said today that plans by Del Monte Corp. to establish a new food processing plant in the Burley area is proof that the firm "realizes the opportunity for growth in Idaho."
"We in Idaho," the governor said in a statement, "like the fact that industry is eager to get away from the large cities and into the small towns, for we are a state of small towns and friendly people."
"We like the fact that there is still in America a desire to be free and to use our own ingenuity and resources," Samuelson said. "The new plant in Burley is a high plane, piloted by Secretary of State Pete T. Conrath, who long has flown his own plane."
The governor noted that a considerable amount of new farm land has been developed in the Burley area in recent years.
"But the striking fact about the Burley area," he added, "is not what it is today, nor even what it has become in such a short span of time, but the tremendous potential it holds for the future."

Del Monte Plans Processing Plant For Burley Area

BURLEY—Tentative plans for construction of a corn and pea processing plant to be located three miles west of Burley were announced Friday by R. L. Anderson, manager of the Mountain States Division of Del Monte Corp.
Addressing a luncheon meeting of the Burley Chamber of Commerce, Mr. Anderson said the plant will be built on a 125-acre site on Highway 30 between the Union Pacific Railroad tracks and the Snake River.
"The firm has been in operation for the past 11 years, with a fieldman already stationed here," he said.
"The official said he believes Burley is one of the finest agricultural areas in Southern Idaho. Peas have been grown for the firm the past 11 years, with a fieldman already stationed here."
"The official said he believes Burley is one of the finest agricultural areas in Southern Idaho. Peas have been grown for the firm the past 11 years, with a fieldman already stationed here."

Congo Army Claims Control Of Bukavu

BRUSSELS (AP)—The Congolese government radio claimed today that the Congo's army has regained control of Bukavu, a port town in the Kivu province, from white mercenaries and mercenaries who had seized control of the town.
The U.N. Security Council was notified of the takeover.

Sniper Cuts Down Couple, 2 Wounded

VANCOUVER, B.C. (AP)—A tall, gaunt sniper with an arsenal of rifles and ammunition killed a man and a woman and wounded two others Thursday night, killing a university professor and his wife and wounding two others.
Mrs. D.A. Webster, 38, a university professor and his wife and wounding two others.
Mrs. D.A. Webster, 38, a university professor and his wife and wounding two others.
Mrs. D.A. Webster, 38, a university professor and his wife and wounding two others.

Thanks

City police in Twin Falls are looking for a thoughtful and kindhearted burglar.
Mr. and Mrs. John Glendon, 196 Juniper St., told officers someone broke into their home while they were away Thursday night.
He took a portable stereo system valued at \$30 and a portable radio and 20-gauge shotgun.
In leaving, however, he took several bags of milk that had been left on the front porch by the milkman earlier in the day, and helpfully put them in the Glendons' refrigerator.
Officers said entry was gained by breaking the latch on a window screen.

Bliss Man Is Held In Forgery Of State Agency Credit Cards

GOODING—A Bliss service station operator who is charged with illegally obtaining more than \$7,500 over the past two years in credit card forgeries is free on \$5,000 bond.
No date has been set for the preliminary hearing for Dale Prince, who is stationed at

East German Mishap Kills 79 Persons

BERLIN (AP)—East German news agency ADN, in answer to a query, said it had no information on the deaths of 79 persons who were killed Thursday night in a crowded double-decker train and a tanker truck that killed 79, many of them children.

Hope Voiced For Airline Strike Accord

West Coast Airlines employees in Twin Falls were beginning to feel a degree of hope Friday for a settlement of a wage dispute which has caused a strike affecting several states, Canada, and over 300 members of the Airlines Association.
Robert Showalter, local representative for the association, said Thursday night's regular meeting of the association headquarters in Seattle indicated that an informal span of contract agreement had been reached.
However, he said, apparently no agreement has been reached on retroactive payment from October, 1966, when the association's contract expired.
West Coast, which earlier this week offered a contract stipulating wage increases, failed to comply with union demands and retroactive payment demands of its union employees who promptly turned down the new contract offer.
Mr. Showalter said although no firm commitments had been made, it appeared that a

McNamara Confers With Westmoreland

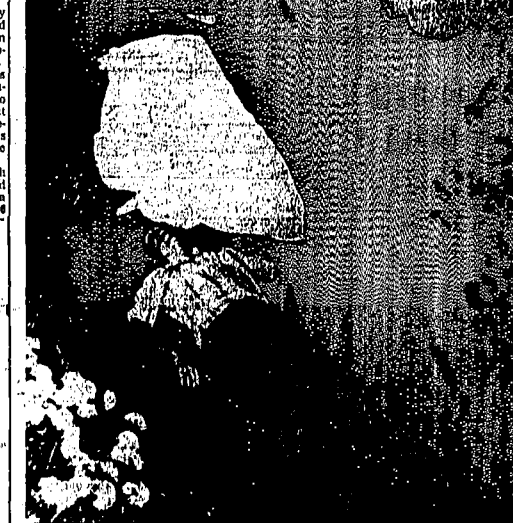

SAIGON (AP)—Gen. William C. Westmoreland told Defense Secretary Robert S. McNamara today that allied forces in Vietnam are winning the war, "slowly but steadily," but he urged McNamara to provide more battle troops to "step up pressure on the enemy by reinforcing our mounting successes."
The U.S. commander in Vietnam, opening the first briefing of McNamara's ninth visit to Vietnam, declared: "North Vietnam is paying a tremendous price with nothing to show for it in return. The war is not a stalemate. We are winning, slowly but steadily."
The briefing at the U.S. Army's headquarters at Tan Son Nhut Air Base was secret, but an account of it was given newsmen by an official U.S. spokesman.
Despite the official optimism relayed from the conference, well-informed sources outside the conference with McNamara have something of a pessimistic atmosphere. Because of the steadily mounting enemy forces and the brutal fighting along the demilitarized zone, they say the situation which came out of the meeting will be vital to the course of the war. It is generally agreed here that tens of thousands of new U.S. troops will be sent to South Vietnam, the only question being how many and how fast.
Westmoreland is believed pressing for 100,000 troops more than the 475,000 now authorized him, a number that probably would mean cutting up some reserves. South Vietnam's generals would like more.
McNamara is expected to continue with briefings in Saigon Saturday and then go into the field for on-the-spot checks Sunday and Monday.
Westmoreland was believed to have discussed in detail the recent large North Vietnamese buildup which has added at least three new divisions, or about 25,000 men, to the fighting in the South since Jan. 1. The United States has committed one new division, about 16,000 men, in the same line.

Hope Voiced For Airline Strike Accord

The death toll could go higher since some of those hospitalized were in critical condition.
An indication of the struggle to get people clear of the flames was indicated in an ADN report that "many readers at the time did their duty without regard for their own safety."
A preliminary investigation headed by Interior Minister Friedrich Dickel showed the traffic jammer was properly closed when the tank truck went through it and onto a level crossing in the train's path, ADN reported.

Vietnam War Costs Are Underestimated

By EDMOND LEBRETON
WASHINGTON (AP)—A congressional study committee said Thursday the administration had underestimated Vietnam costs last year, thus contributing to a money shortage and high interest rates.
Moreover, the Senate-Joint Economic Committee said in a sharply worded report: "The more dire the economic events threaten again."
"Total spending on the war in Vietnam during the fiscal year just ending will double the administration's original estimates," the Democratic-dominated committee said. "And there are already signs that actual spending on the war in the upcoming fiscal year may again appreciably outrun first estimates."
Administration officials have repeatedly insisted their policies are the most current and most effective. They stressed that Vietnam was accomplished without the wage and price controls which marked World War II and the Korean War.
But they also have emphasized the uncertainties of war and the possibility of increased spending if combat operations or troop strength should escalate significantly above the levels assumed in the budget.
They contended President Johnson's proposal for a tax increase this year is designed not only to help pay for the war but also to avoid the cycle of tight money and inflation which marked last year.
At hearings preceding the writing of the congressional report, the committee received what the Defense Department called a rough estimate of \$21.8 billion for Vietnam war costs in the year beginning July 1, 1967.
The report said an increase of \$4 billion to \$25.8 billion in the cost is not unlikely, "and it remains to be seen whether or not even additional amounts will be required."
In addition, the report said, "it is probable that actual expenditures for the Vietnam war exceed the official figures by an appreciable margin."
It said the Defense Department has conceded its distinction between Vietnam and ordinary defense expenditures involved some uncertainty and that consequently the extra Vietnam cost "should be considered an underestimate."
"In terms of official figures," the report continued, "Vietnam new obligations authority outlays for the original fiscal year, \$14 billion in fiscal 1966 and \$12 billion in fiscal 1967."
The committee said that if Congress had known the true outlook in the spring of 1966, it "certainly would have given more serious consideration to a tax increase of spending cuts and quite probably would have enacted one or the other or both."
What happened instead, the report said, was "excessive reliance on a restrictive monetary policy."

GUNNED DOWN IN YARD. This man and wife were slain in their own back yard Thursday night in Vancouver, B.C., by a sniper who also wounded several other persons. The sniper refused to tell police why he began shooting. (AP wirephoto)

FRONTIER DAYS Queen, Vicki Webb, extends an invitation to Gov. Don Samuelson to serve as grand marshal of the July 29 Frontier Days parade and receives an Idaho badge in return. Mrs. Bob Harvey, chairman for the Frontier Days

queen contest, looks on. Idaho Gov. Samuelson will lead the parade on horseback, riding an Appaloosa stallion owned by Mr. and Mrs. L. W. Moore. The parade begins at 5 p.m. in the downtown area and ends at Frontier Field.

Gov. Samuelson To Be Marshal For Frontier Days Parade Here

Entries for the annual Frontier Days Parade July 29 in Twin Falls are already coming in, with a procession of floats, horse-drawn vehicles, vintage automobiles and riding groups to be marshaled through the city by Gov. Don Samuelson.

3 Members Of Gem Blind Group Named

BOISE (AP) — Appointment of three members of the newly created Idaho Commission for the Blind — including two blind persons — was announced today by the commission.

The commission was created by the 1967 legislature but the regular session failed to provide an appropriation for it.

Board of Engineering Examiners, S. M. Darion, Boise, reappointed; Sanford Evans, Geneese, replacing B. H. Wittman, Lapwai.

News Of Record CASSIA COUNTY Burley Police Court Jim Hinley, 28, Paul, \$50, intoxication; Marilyn K. Bean, 21, Idaho Falls, \$50, disturbing the peace; George W. Randall, 31, Declo, \$25, pett larceny; Marie Rendon, 25, 800 Burton Ave., Burley, and Eva Paris, 52, Wilson Labor Camp, \$15.50 each, pett larceny; Richard Aldrick, 2320 Miller Ave., Burley, \$25, allowing to run at large, and Joe Miller, 31, Route 4, Rupert, \$50, drunk in auto.

The governor has accepted the invitation of the Frontier Days Committee extended by Frontier Days Queen, Vicki Webb, and Mrs. Robert Harvey, queen contest chairman. As grand marshal of the parade, the governor will be mounted on a black and white Appaloosa stallion, Simcoe's Snowy Rock, owned by Mr. and Mrs. L. W. Moore, Hansen.

16 Men From Area Enlist In Marines

Sixteen Magic Valley residents enlisted in the U.S. Marine Corps during the fiscal year which ended June 30, according to Gunnery Sgt. William M. Allen, Boise.

They are Earl L. Knutson, Frank L. Billback, Michael L. Touchette, William J. Thelton, Jerry B. Selber and Floyd D. Hombler, all Twin Falls; William F. Pont Jr., and Steven F. Fahrwald, both Gooding; Briggs Vulgamare, Castleford; Charles L. Bailey, Murtaugh; Stephen R. Patterson, Bellevue; James T. Anderson, Burley; Rodney Tipton, Hansen; Edwin Shields, former Elmer resident, now of Des Moines, Ia.; George E. Loftis, former Jerome resident, now of Sallisnas, Calif.; and Randall R. Stuhberg, Jerome.

Scheduled to enlist in July are Patrick Touchette, Edward (Eddy) Martinez, Daniel (Mort) Wormshaker and Larry D. Bente and Michael B. Furrrell, both Buhl; Michael D. Sedivy, former Buhl resident, now of Boise; and David L. Swarner, Shoshone.

The two-year enlistment policy in the Marine Corps is now available to qualified persons who are 17 years of age or older. Further information about this program may be obtained from Sgt. Allen July 10-12 at the Rogerson Hotel, Twin Falls.

CHAMBER TO MEET SHOSHONE Chamber of Commerce will meet at 12:30 p.m. Monday at the Manhattan Cafe.

Shoshone Has Guest Pastor

SHOSHONE — Rev. Elmer C. Maier, rector of St. Mark's Episcopal Church, Beaver Dam, Wis., will be guest pastor of Christ Church, Shoshone, during the month of July. The pastor of the congregation, Father John Tulek, will be vacationing in the East. Rev. and Mrs. Maier will be living in the Episcopal Parsonage, 112 East C Street.

Sunday worship will be conducted by Rev. Maier at 9 a.m. in Christ Church and at 11 a.m. in Trinity Church, Gooding. He will also be available for emergency pastoral and hospital calls for the area.

New Copies Of Fieldbook Are Available

New copies of the Scout Fieldbook are now available, according to Mike Mazzone, executive for the Snake River Area Council.

He said the book was published in June and includes 56 pages on every phase of skills and activities that are a part of camping and hiking.

The fieldbooks are available at the Scout Service Center, Idaho Department Store in Twin Falls, and at the Elmer, Jerome and Gooding, and the Merc in Holley.

Inflationary Pressures Showing Gain

PHONE 733-0931

Official City and County Newspaper

Published daily and Sunday at 130 Second Street West, Twin Falls, Idaho, 83301, under the act of March 8, 1929.

Member of Audit Bureau of Circulation and AP... Entered as second class mail matter April 8, 1918, at the post office in Twin Falls, Idaho, 83301, under the act of March 8, 1929.

JARED HOW... O. J. SMITH... DALE THOMPSON... JACK MULLOWNY... AL WESTERGREEN... PAUL STANDLEY... O. A. (Gus) KELKER... WILEY DODDS... HAROLD STILES

WASHINGTON — President Johnson's advisers have told him bluntly that unless he can persuade Congress to approve a tax increase this year inflationary pressures may become unstoppable. This is not good news to a President whose leaders on Capitol Hill have told him that a tax boost is unthinkable. The Administration's problem

is that those inflationary pressures are not yet sufficiently apparent to change Congress' mood. Indeed, there was a small dip in the Gross National Product during the first quarter, and

although most economists expect a second quarter to show a modest increase, the signs are unlikely to be ominous enough by the time Congress gets around to debating a tax jump.

"I Want One Of Those, Too!"

JAMES MARLOW

Foreign Policy--It's Changing

WASHINGTON (AP) — U. S. foreign policy is at a turning point, although it is unclear in American history, at the moment it seems more sensed than seen. The New Deal is a good previous example of how this country, when it has to break with the past, must feel its way along. A new direction had to be found when the depression hit over 30 years ago.

But all that followed had its roots in the Truman Doctrine: the Marshall Plan of economic aid, breaking Stalin's Berlin blockade, the defense of South Korea against invasion from North Korea, sending troops into the Dominican Republic and involvement in Vietnam.

And elsewhere has been intense. For one thing, this country can't afford continuous wars like this, even though its purpose is to prevent a Communist takeover. That's enough to make Congress and the policy-makers reluctant to get involved in anything like it often or soon again.

Gasoline Stations

No American needs to have his attention called to the vast improvements that have been made in automobiles over the years. But how many have noticed what has happened — into industry's biggest companion industry — the 200,000 gas stations that service the nation's 95 million cars?

than an eyesore. Now most companies are employing the best architectural consulting services in order to make both their new and their remodeled stations attractive to customers.

Scientific Probing

Greece had its creative glory and Rome its organizational grandeur. And what is likely to stand out about 20th-century America when history balances accounts?

the poor poorer — he ticks off as "imagineed or, at the very least, overinflated hills."

Fruitful Digging

Archeology is usually associated with a far-off land — part of the biblical heritage of the old world. But today archeologists are engaged in a new and fertile field for their diggings — the U.S.

kingdom of Quivira may have been found. Quivira was visited and recorded by Francisco Vasquez de Coronado in 1541. By all accounts, the Indians living there had developed a high degree of intelligence and a lofty civilization.

MR. SPECTATOR

It Was Only 43 Years Ago

We read where Mrs. O. P. Duvall, Twin Falls, Idaho, and her husband, Mr. L. A. Duvall, who was a pupil of Lucy Gates who was a grand opera and concert soprano. We noticed that Richard Barthelmess was starring in a big, light red — silent, of course — motion picture titled "21" and that it was showing at the Orpheum. A second show on the same bill headlined Harry Langdon.

kingdom of Quivira may have been found. Quivira was visited and recorded by Francisco Vasquez de Coronado in 1541. By all accounts, the Indians living there had developed a high degree of intelligence and a lofty civilization.

GOOD OLD TUBBY

A Chelanpou who has studied the entire habits of businessmen is convinced it's true that they say about fat men.

Dear One, I must confess to you, although I find this hard to do, in spite of all the faults you've got, I really love you an awful lot.

Attempts To Split The GOP

Following the recent convention of the Young Republicans, I was waddy reminded of how long ago members of the GOP have tried to turn such organizations into party-splitting, ideological battlegrounds.

Not just Americans lives and money have been spent in Vietnam, but the criticism at home

destroy them. And to suggest that they should veer to the left is to fly straight in the face of the facts that such a shift would alienate the vast majority of the total membership.

Speech Mockery

WASHINGTON (NEA) — Free speech is a precious right which should be protected against encroachment. It is at the heart of our freedoms.

added to the list of "new left" individuals... go to a draft board and register under the Selective Training and Draft Law of 1964.

Wayne Brandstad, M.D.

A person with apastic colitis can usually maintain a fairly good state of nutrition in spite of the food that passes through him undigested, but the persons with ulcerative colitis has a progressive loss of weight unless the disease can be controlled.

Q—What are the symptoms of colitis? Can it cure constipation? A—The chief symptoms are loose stools often streaked with mucus, excessive gas in the intestines sometimes accompanied by rumbling noises and a distended abdomen.

A Nervous Colon

Q—What is the difference between a spastic colon and ulcerative colitis? A—The chief symptoms are loose stools often streaked with mucus, excessive gas in the intestines sometimes accompanied by rumbling noises and a distended abdomen.

Q—When ringworm affects the nails it is extremely hard to get rid of. Some victims have been cured by a prolonged course of medication by mouth combined with local application of Adviclin but, since more than one kind of fungus may cause a nail infection, it is important before starting treatment to identify the causative organism.

READING THE WELL-KNOWN Christian Science Monitor newspaper in the Christian Science Reading Room, 323 Main Ave. E., is Mrs. O. W. Ring, assisted while Mrs. W. A. Van Engelen brings through copies of the Christian Science Journal. Both ladies are members of the local church board of directors. The Reading Room is open to the public from 12 to 4 p.m. daily, except Sunday and legal holidays.

Christian Science Reading Room Is Conducive To Study

A quiet room, devoted entirely to prayer, reading and meditation by those who enter, is maintained at 323 Main Ave. E., Twin Falls, by members of the Christian Science church.

According to Mrs. Alma Vaughn, assistant committee on Publication, the room is not restricted to church members alone. It is open to the public from 12 to 4 p.m. daily, except Sundays and legal holidays, and a cordial invitation is extended to all who desire to use this room for study and meditation.

"The church for Sunday and Wednesday services is located at 160 Ninth Ave. E. Sunday School is held at 9:45 a.m., with worship at 11 a.m. The testimony meeting is held at 7:30 p.m. Wednesday.

Sunday school classes are provided for children and young people from ages 2 to 20, who are taught from the traditional Protestant version of the Bible. No social activities of any kind are associated with the Christian Science church or Sunday School.

The Sunday morning worship service, selections are read from the Bible and "Science and Health with Key to the Scriptures," the latter written by Mrs. Mary Baker Eddy, discoverer and founder of Christian Science.

The Wednesday evening meetings, where testimonies of healing are given, also feature experiences and remarks on Christian Science teachings in everyday life. This is conducted by the First Reader.

A unique feature of the church services is that all over the world, Christian Scientists study the same lesson-Sermon each Sunday. The Lesson-Sermons, for which there are 26 subjects, are references from the Bible and the Textbook.

The local Christian Science Church had its beginning in Twin Falls in June, 1917, when a private home was rented for the weekly lesson from the Bible and the Textbook.

Others joined this group unit, through many steps of progress, the attendance and interest caused a Christian Science church, Sunday School and Reading Room to be established. The present building was erected in 1920, and was dedicated the same year, debt-free. It is an authorized branch of The Mother Church, The First Church of Christ, Scientist, Boston, Mass. The Mother Church is a world-wide church, with branches all over the globe.

The local board of directors includes A. E. Williams, chairman; Mrs. Marjorie Mitchell, clerk; and Mrs. Margaret Van Engelen, Mrs. Virgil Magnuson

Plans Made For Bible Conference

PORTLAND, Ore. — Lt. Col. Danzig G. Rody, Oregon-Southwest Divisional Commander of the Salvation Army, has announced plans for the first annual Bible Conference and Preaching Mission, to be held July 14-16 at the Salvation Army "Trestle Club," 20 miles southeast of Portland, at Barton.

Featured speakers for the three-day event will be Commissioner and Mrs. Robert Hoggard, the former being pastor and chairman of the Army's International Headquarters' Advisory Council; Miss Helen G. Wilson, dean of women at Northwest Nazarene College, Wapato, and Lt. Col. and Mrs. Rody.

All facilities of the 55-acre camp will be available to those attending the Bible Conference. Those who desire may bring tents and camp out, or cabins will be available. Meals will be served in the dining hall. There is no charge for the conference.

Further details may be obtained from Salvation Army District Headquarters, 20 S. W. Sixth Ave., Portland, Ore., or through any Salvation Army corps office.

Local Pastor To Serve For Third Year

Rev. Keith Maxwell was returned to the Twin Falls United Brethren Church pastor for the third year during a recent annual Idaho Conference.

Mrs. Josephine Maddocks, 321 Diamond St., was elected conference treasurer for the coming year, and Mrs. Keith Maxwell was named conference secretary.

The newly elected conference superintendent is Rev. E. Robert Heckman, pastor of the Log Cabin Church, Boise. He succeeds Rev. Arlio Whybark, Clarkston, Wash.

During the conference, pastors were reassigned fields, and a \$1,000 offering was received from pastors and delegates. Bishop R. W. Wash, Huntington, Ind., conducted the conference sessions.

College Adds Three More LDS Wards

RICKS COLLEGE, Rexburg, because of an increasing enrollment at Ricks College, a two-year college operated by the LDS Church, three more LDS Wards have been created in the Ricks Stake, bringing the total to 12.

Keith Sellers, religion instructor at the college, was named pastor of the Tenth Ward. His counselors are Mack Shirley and Kent Jolley, Madison County prosecuting attorney.

Named bishop of the Eleventh Ward, which will be for married students on campus, was Rulon S. McCarrey, co-chairman of the Division of Family Living. His counselors are Elders M. Godfrey and Cleve R. Winkel, Clem Thompson, Ricks College chemistry department instructor, was named bishop of the Twelfth Ward. No counselors have yet been named.

Enrollment at the college is expected to exceed 3,000 this fall. Registration will be held Aug. 22-25.

Shoshone Sets Bible Classes

SHOSHONE—Summer church school classes in cooperation with the Shoshone Methodist Church will continue on Thursday mornings at 10 a.m.

The nursery and kindergarten classes meet at the Episcopal Jennings Memorial Parish house, and classes for children from first through seventh grade meet in the education building of the Methodist church. All children of the community are invited to attend these classes.

Missionaries To Present Concert

The Missionaries, a summer touring group from Bethany Bible College, Santa Cruz, Calif., will present a missionary and music program at 7:30 p.m. Sunday at the First Assembly of God Church, North Locust St. at Shoup Ave., according to Rev. L. I. LaManche, pastor.

The group includes Adriaan Van Aswegen, South Africa; Rachel Ernest, Turlock, Calif.; Ross Cafe, Manila, the Philippines; Arleta Lewis, Modesto, Calif.; and Ron Shaw, Calcutta, India.

The public is invited to attend the program.

Scope Of Red Aid To North Vietnam Listed

By FRED S. HOFFMAN
WASHINGTON (AP)—Communist China has supplied North Vietnam more than 750,000 small arms, many of which have been shipped on to Communist forces fighting in South Vietnam, U. S. sources report.

The Soviets have furnished the North Vietnamese more than 10,000 artillery pieces, mortars and other heavy weapons.

These figures, gathered from a variety of U. S. government sources, indicate the scope of Soviet and Red Chinese aid to North Vietnam, the main supplier of the Communist Viet Cong as well as North Vietnamese regulars in South Vietnam.

The volume of cargo unloaded by Soviet ships at Haiphong, North Vietnam's chief port, reached a record level of more than 200,000 tons in the first three months of this year.

U. S. experts calculate that Viet military aid to the North Vietnam totaled close to \$1.5 billion from 1955 through last year. Chinese military assistance to North Vietnam totaled nearly \$200 million through 1966.

Economic aid to North Vietnam from all Communist sources reached \$1.5 billion during this period. About half came from Moscow, and the other half came from China and some 10 per cent from Red nations of eastern Europe.

The war in Vietnam currently is costing the United States about \$25 billion a year.

The current assessment by knowledgeable U. S. officials is that even without help from the Soviet Union, or China, North Vietnam could continue the war.

But its effort would be much less effective. This assessment also covers action in Laos.

U. S. experts believe shutting the port of Haiphong would magnify North Vietnamese problems and drain material and human resources.

But the Soviets and Chinese kept up basic support in the face of a port closure. American analysts are convinced North Vietnam could continue the present degree of operations in both South Vietnam and Laos.

The Soviets, it was said, could use south Chinese ports, shifting to rail transportation there, instead of sending goods into Haiphong as now. Crude oil could be shipped to Chinese Rodgers and refined products, transhipped to North Vietnam by train.

This supposes the Chinese would permit such action. Although the Soviets and Chinese are bitter foes politically, indications are the Chinese are not interfering with present Soviet overland shipments through China to North Vietnam.

China is providing most of the small arms, ammunition, anti-aircraft artillery, some heavy weapons and some trucks to North Vietnam. U. S. experts say Moscow is furnishing virtually all of the petroleum supplies to North Vietnam, with some small amounts from Romania, the Soviet Union also is sending North Vietnam most of its radar, surface-to-air missiles, MIG jet fighters, heavy weapons and some of its trucks.

More than 95 per cent of the small arms, artillery and ammunition enters North Vietnam by rail—which makes vitally important the two main rail lines connecting Hanoi with China.

Electrical Strikers Okay New Contract

WASHINGTON (AP)—Some 22,000 electrical workers at Radio Corp. of America plants in six states accepted a four percent pay hike Thursday and started back to work after a month-long strike.

Lawson Wimberly, chief negotiator for the AFL-CIO International Brotherhood of Electrical Workers, said a contract ratified by the workers provides a wage increase of four per cent a year for three years.

"Our members should return to work as soon as possible," Wimberly telegraphed strike leaders at RCA plants in Indianapolis, Bloomington and Marion, Ind.; Lancaster and Maryland, Pa.; West Palm Beach, Fla.; Rockaway, N.J.; and Findlay, Ohio. The contract applies also at a plant in Woodland, Calif., where employees had voted to continue working during the negotiations.

The RCA plant manufacture television and radio sets and tubes, phonograph records and electronic components.

Idaho News

BOISE TO BE HIGHER SURPLUS (AP)—A surplus higher than most predictions was reported for Idaho's general fund by State Auditor Joe Williams and Treasurer Marjorie Moon.

Williams said the surplus would amount to \$16.4 million, approximately \$1 to \$4 million above forecasts at start of legislative sessions earlier this year.

In regular and special sessions lawmakers spent about \$11.7 million of the surplus. Additional claims against Idaho incurred in the 1965-66 session will cost another \$1.9 million.

This leaves unappropriated from the surplus an amount of \$2.8 million.

LAWYER TO SPEAK
COEUR D'ALENE, Idaho (AP)—The Coeur County, Idaho public defender who handled the murder trial of Richard Speck speaks today at Idaho lawyers.

Gerard W. Getty, Chicago, will speak on "The Public Defender in Idaho" during the second day of the Idaho Bar Association convention here.

In a news conference Thursday he said adverse publicity had done "irreparable damage" to Speck's right to a fair trial for the murder of eight student nurses in Chicago last year.

INSPECTOR NAMED
BOISE (AP)—A former Fayette County deputy sheriff has been appointed liquor law enforcement inspector for the Pocatello area, department of law enforcement officials said Thursday.

Keith L. Mathews, 32, Fayette, was appointed by Richard Cade, division director. Mathews has been a deputy sheriff for three and a half years.

Increase Hinted
PITTSBURGH Pa. (AP)—The new president of top-ranked U.S. Steel Corp. hinted Thursday at the possibility of increased steel prices in the coming months.

Edwin H. Gott, in his first meeting with newsmen since taking over U.S. Steel's corporate reins last Saturday, said the company's "margin is tighter than it has been for some time."

16 From Area On Dean's List

Sixteen Magic Valley students have been named to the Dean's List for the spring semester at the College of Idaho, Caldwell.

Debra Owen, a senior from Castleford, and Leevon Adfield, a freshman from Jerome, both achieved a 4.00 average.

Others on the Dean's List include Cheryl Couch Blegert and John R. Hull, both Twin Falls; Gary D. Habbitt, Cindy A. Malone, Eileen M. Overman and Cathryn Fleming, all Jerome; Gretchen Belscher, Dilas, Dianne M. Pool and Gail M. Washburn, both Hazzleton; son L. Freeman, Wendell P. La Vern Gentry and Michael J. Anderson, both Buhl; Ann Kay Westendorf and Teri Jean Degler, both Gooding.

Jamboree Set

SHOSHONE—Annual Old Time Fiddlers' Jamboree will be held Sunday at the local city park. All interested in playing are invited to bring along their instruments and join the group.

Family members and groups are invited to bring a picnic lunch and enjoy the music in the city park that encompasses the winding Little Wood River. Light refreshments will be served.

NEGROES REGISTERED
WASHINGTON (AP)—The Justice Department said Thursday that more than half the eligible Negro voters in five Southern states now are registered to vote.

Dear Abby

BY ABIGAIL VAN BUREN
DEAR ABBY: When a woman asks, "Should I tell my friend that her husband is having an affair right under her nose?" you always say, "No — mind your own business."

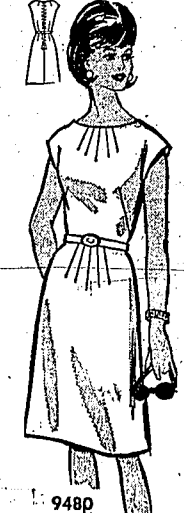

I disagree with you. I was one of those trusting wives who was the last to know that her husband was carrying on with a young woman in his office.

After I found out, my friends said, "Everyone else knew it." Abby, I caught my husband with his girl-friend. He said he didn't want to break up our marriage, and he begged me to forgive him. The girl left town, my husband has been trying to make it up to me ever since, but I can no longer trust him.

If some kind friend had told me sooner I think it might have softened the blow. This is making an old woman of me and I am
ONLY 35

DEAR ONLY: You may actually believe that hearing the news from a friend might have softened the blow, but I doubt it. It usually works the other way around. When your husband was faced with a choice, he chose you, which indicates he thought more of you than he did the girl-friend. That should count for something. Stop beating yourself and try

Marian Martin Pattern

9480
 SIZES 12-22 1/2
 by Marian Martin

FOR HALF SIZES
 Begin with a simple, but great shape, then light it up with sun-burst tucks — and the result is high fashion news! Easy-sew in cotton, linen.
 Printed Pattern 9480: Half Sizes 12-14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50-inch fabric.
 Fifty cents in coins for each pattern — add 10 cents for each pattern for first-class mailing and special handling. Send to Marian Martin, Times-News, 305 Pattern Dept., 1801 St. New York, N. Y. 10011. Print name, address with zip, size and style number.
 Everything new — 115 most-wanted fashions, fabrics, accessories in our new Spring — Summer Pattern Catalog. All sizes! Clip coupon in Catalog and order pattern free. Send 50 cents now.

to forgive and forget, and rebuild your one-good relationship. Your unwillingness to face one of life's uglier realities is making an old woman of you — not your husband's indiscretion.

DEAR ABBY: I like a boy. I have the feeling he likes me only as a friend. He comes over to my house a lot, but I think it's only to eat. I like to cook and bake, and I try out my new recipes on him. He'll eat anything — burnt, raw, he's not fussy. I ask him to everything our club or the school has that a girl can ask a boy to, but when something comes up that he can ask ME to, he at ways asks one of my girl friends. This sure hurts. Sometimes I think he does it just to be dirty. How can I get him to like me like I like him?
DOWN-HEARTED

DEAR DOWN: The way to a man's heart is through his stomach. Try chess!

DEAR ABBY: I raised a wonderful boy, and I always took pride in the way he was dressed. But now that he is married, neither he nor his wife seems to care how he looks.

Isn't the wife supposed to see that her husband's shirts are clean, and have all the buttons on, and that his suit is pressed, and his shoes are shined?

Dear Mother, just have to swallow her pride and say nothing when her son looks like a bum in public? Or isn't he my son no more?
DISAPPOINTED MOTHER

DEAR MOTHER: Yes, the wife is responsible for keeping her husband's clothes in shape. But if she lets her husband go around looking like a "bum," and the man himself does nothing about it, it reflects not on his mother, or on his wife, but on himself.

CONFIDENTIAL TO "A" and "B": What parents leave in their children is far more important than what they leave to them.

How has the world been treating you? Unload your problems on Dear Abby, Box 6700, Los Angeles, Calif. 90063. For a personal, unpublished reply, enclose a self-addressed, stamped envelope.

SHOWER HELD

VIEW A personal bridal shower, honoring Miss Searle, was held at the home of Mr. and Mrs. Alfred Crane Jr. The event was hosted by school friends, Miss Searle, Mrs. Crane, Elma Hatch, Cheryl Nowland and Diane Bowen. Miss Searle will marry Michael B. Judd July 14.

Magic Valley Favorites

MRS. LAURENCE CAMPBELL, Route 3, Jerome

Strawberry Cheesecake
 Combine one and one-fourth cups of graham cracker crumbs with one-fourth cup melted butter or margarine. Mix well and press into bottom and sides of an 8-inch pie plate, or use an 8-inch spring form pan and press crumbs on bottom and 1-inch up the rim. Set aside.
 Combine one package, 8 ounces, cream cheese, one-half cup sugar, one tablespoon lemon juice, one-half teaspoon vanilla and a dash of salt.
 Mix well and add, one at a time, two eggs, beating well after each addition. Turn into crumb-lined pan. Bake at 325 degrees for 25 to 30 minutes. Remove from oven and cool for five minutes.
 Combine one cup sour cream, two tablespoons sugar and one-fourth teaspoon vanilla. Spread

OFFICERS for the newly organized Idaho Beta Theta Group include, seated from left, Mrs. Ina Knox, vice president, and Mrs. Bess Harrison, president. Standing from left are Mrs. Eva Mankin, corresponding secretary; Mrs. Betty Newby, recording secretary, and Mrs. Retta Page, extension officer. Mrs. Trille Bates is treasurer of the group. The new group was sponsored by the Beta Sigma Phi, Omicron Chapter, Twin Falls, as a friendly venture chapter. The new unit was organized at a gathering at the home of Mrs. Mike Tegan, with Mrs. Betty Diamond, president of Omicron Chapter, giving the group its full obligation, and Mrs. Marjorie Vecera installing the officers.

Miss Freeman, Powell Reveal Marriage Plans

WENDELL — Mr. and Mrs. Charles Freeman Wendell, announce the engagement of their daughter, Jeannie Kay, to Wilbur C. Powell, son of Mr. and Mrs. Vernon H. Powell, Nord Potatello.

Miss Freeman was graduated from Wendell High School in 1965 and has attended Idaho State University, Potatello, for the past two years.

Mr. Powell was graduated from Pocatello High School in 1961. He is attending Idaho State University, majoring in government. They plan to be married July 21 at the United Presbyterian Church, Wendell.

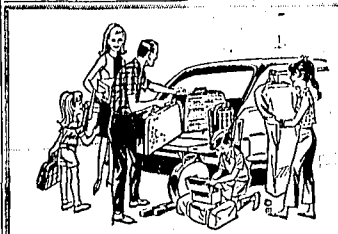

ARTICHOKES ADDED

Company coming. To give that tossed green salad epicurean flavor, cook a package of frozen artichoke hearts according to package directions, then chill. Toss the artichoke hearts along with the greens and French dressing — at serving time, of course.

FHA Loan Program Aimed at "Family Farm" Operations

Senator Frank Church announced recently the approval of a \$705,460 loan by the Farmers Home Administration to the Pleasant Valley Grazing Association in Twin Falls County.

This is only one instance of the many ways that this federal agency is trying to help the family farm stay in existence in our country.

The government feels that the family farm is still the backbone of our country and is making an effort through this and other loan programs to help its economy and to encourage him to stay on the family farm.

In the case of the Pleasant Valley Grazing Association, 28 families borrowed the money to buy, lease and develop 23,000 acres of grazing land in South-

Open House Set

The Snake River Conservation Research Center, University of Idaho, Twin Falls Branch Experiment Station, and U. S. Weather Bureau will hold a joint Open House-Field Day from 10 to 11 a.m., July 11. The Research Center is located one mile north and one mile east of Kimberly.

The equipment used will be on display and will be demonstrated. Tours of laboratories and field plots will be conducted and conferences will be arranged to discuss special problems.

The Open House-Field Day has been planned so that the visitor may spend a few minutes on the open house and see as much of the research operations as desired.

Soil Men To Discuss Farm Need At Meet

Agricultural scientists concerned with soil fertility will explore needs of the future at an annual conference of the Pacific Northwest Plant Food Association July 11-13 at the Holiday Inn, Twin Falls. The program was announced today by Lyman Judson of Lynden, Washington, president.

James E. Kraus, dean of the University of Idaho, will preside. He will talk about "Research for the next 10 years." W. E. Foltz, head of the department of agricultural economics at the University of Idaho, will discuss the impact of agriculture on the economy of the Northwest for the next 20 years, and Norman H. Moore, assistant regional director of the U. S. Bureau of Reclamation, will consider irrigation development in the West in the next two decades.

Along the same line of looking into the future, R. B. Farnsworth, chairman of the Board of Brigham Young University, Provo, Utah, will speak on "There's more than a Trip to the Moon."

Several soil and plant technicians of Western universities and agricultural chemical companies will present papers on a wide variety of subjects. Among them are Marshall LeBaron and John Kolar, Twin Falls branch experiment station; W. Brown, W. W. Rasmussen, John N. Carter, and James Wright, all of the USDA agricultural research service, Twin Falls.

Wood River Control Meet Set July 11

SHOSHONE - There will be a meeting of the Wood River Resource Area Committee at Fairfield in the American Legion Hall at 8 p.m. July 11.

Much of the business to be brought before the committee will be concerned with taming run-away waters which periodically raise havoc in cities and on farms along the river channels.

Planning the control of waters before they reach the "run-away" stage and converting them to more peaceful uses is an important matter, officials stress.

PERHAPS THIS PILE of cans and rubbish looks small, but multiply this trash pile with the hundreds of campers and fishermen throughout the summer and you have a problem. One camper was asked by a landowner to clean up his campsite which he did, but later the rancher found the camper had just picked it up and dumped it into the creek nearby.

Ranchers Welcome Anglers; Resent His Messy Campsite

By PEGGY LALEY Times-News Staff Writer

Summer's here; the fishing's great, and the highways are thronged with pick-ups and campers, cars with trailers and just cars, bristling with fishing poles from every window.

Excellent fishing in our state is one of the things Idahoans take pride in, but unfortunately most of the easily accessible trout streams run through private lands and often the fishermen from urban areas find their blood pressure rising when they see "no fishing" and "no trespassing" signs barring them from their favorite holes.

This bone of contention between farmers and ranchers and the angler is mostly one of misunderstanding. Most landowners are not objecting to people fishing on their lands—they are objecting to the mess they leave behind.

Campsites, whether for a picnic or an overnight stay, are left littered with beer and pop cans, broken glass, paper plates and other trash that could have with little effort on the part of the camper, been taken home for disposal or stashed in the

carload of strangers drove into our back yard and proceeded to spread a picnic lunch in our back yard. The country resident is not much different.

But he is not asking that the fisherman, the picnicker or the camper stay off his land; he is only asking that they show a little consideration for his home, his property and his time.

He also appreciates it if the stranger asks permission to use his land. This is only so that he has some idea who is there and where they are so that he can keep an eye on gates and stock.

The landowner has a right to refuse access to his property, but most of them won't if the visitor observes the common laws of courtesy.

Tour Planned

Plans to tour the Ida Gem Creamery, Jerome, were discussed by members of the Top Livestock 4-H Club at the home of Tommy Irish. Summer camp applications were distributed. There were two visitors, Jet Morenski and Patrick Bour-

Tour Scheduled For Cedar Creek Watershed Project

The recently completed Cedar Creek Watershed project will be dedicated during a public tour July 21.

The tour, which is being sponsored by the Cedar Mesa Reservoir and Canal Company and the Twin Falls Soil Conservation District, will include stops at 10:15 a.m. at the diversion dam and inlet structure, 11 a.m. at the outlet structure, and 11:45 a.m. at the regulating reservoir.

At 12:30 p.m. the luncheon and dedication ceremonies will be held at the Lawrence O. Hill Ranch. O. A. (Gus) Koller, executive editor of the Times-News, will be master of ceremonies.

The guest of honor, Sen. Frank Church, will speak on "Partners in Development."

Richard Dooly, assistant deputy for Watershed Operations, Washington, D. C., will discuss the small watershed program in action.

The introductions and acknowledgments will be made by Laurence Hill, Twin Falls Soil Conservation District; John Bryant, Cedar Mesa Reservoir and Canal Company, and Lee T. Morgan, state conservatorist, Soil Conservation Service, Boise.

Following the luncheon and dedication ceremonies a short tour of the Hill ranch will be carried out on the Roseworth tract.

Free bus transportation for those wanting to attend this event will leave the old county hospital building, 533 Addison Ave. W. at 9:15 a.m. and will proceed by way of Rogerson to the tract.

Along Fences And Canals

Patches of grain in fields at Tuttle are on the ground as a result of heavy rain and wind. Difficulty in ripening and combining the grain is expected to result in lower yields especially as some patches extend over large portions of the fields. Corn is now being irrigated for the first time at Tuttle.

Clifford Ward recently returned to Richfield with a new 3,000 gallon semi-truck and bulk milk tank for the Banquet Better Foods creamery and cheese plant at Richfield. Ward is Richfield area leasee. The truck was picked up at South Bend, Ind., and the tank at Food du Lac, Wis. Mr. and Mrs. Ward and daughter, Joyce, made a trip by jet to the World's Fair at Montreal while in the region.

Tamara and Kevin Sherman, King Hill, are very proud of the baby colt born Sunday night to their 3-year-old pony Stormy. Stormy is half Shetland and half Welsh. They think they will name the colt Sparky.

Almo boys hauling baled hay for ranchers in the area include Randy Taylor, Kevin Harrington, Keith Cahoon, Clayton Taylor, Gary Jones, Kevin Tracy and Brent Jones.

FARMERS ASK US:

How do I know Anhydrous Ammonia in irrigation water is reaching my plants?

Area Man To Organize Fair Booth

SHOSHONE - The Community of Resource exhibit booth for the Lincoln County Fair Aug. 4-5 will be supervised by Murdo Gage, fair board member.

Exhibits may be done by individuals or organizations with an idea or message worked out in advance to go back to the community in any phase of farming, rural or urban living.

Judging will be 1 p.m. Aug. 4, and all exhibits must be complete by 11 a.m. that day.

Awards will be a blue rosette and \$25; red rosette and \$20 and a white rosette and \$15. An award of a special rosette and \$10 will be given to an outstanding exhibit which may or may not be received by one of the award categories.

Report On Farms Shows Increase For Agriculture

WASHINGTON (AP) - Agriculture increased its efficiency rate again last year by nearly seven per cent.

The Agriculture Department's annual report on farm efficiency said American farmers produced on the average, sufficient farm products to supply himself and 36.50 other persons. This compared with an average of 37.02 persons, including himself, in 1965.

Kimberly 423-5586

Your United States Steel Soil Fertility Specialists will show you how to add ammonia to your irrigation water at the proper rate. Metering devices provided on each tank are precise and easy to set.

Then, as the water moves down the rows, nitrogen distribution can be checked chemically with an ammonia test reagent. You actually see how far the ammonia has progressed through the field—uniform distribution is assured.

The experts at your USS Farm Service Centers can test the nitrogen level of your green plants to detect whether the plant is deficient in nitrogen or if it will soon run out. These tissue tests will detect "Hidden Hunger" before visual deficiency symptoms appear. Additional nitrogen can be added to irrigation water as needed for maximum yield and profit.

Now is the time to give your crops a nitrogen boost that will help assure a larger harvest and greater profits for you—see your U.S. Steel Farm Service Center now.

Cattle Tour Promises To Be Big Success This Year

Registrations are coming in at a good rate for places in the motor caravan of the annual Idaho Cattlemen's Association Beef Tour July 11-14, according to R. M. Henderlier, secretary of the association.

This year's tour starts from McCall, swings through south-western Idaho, a portion of eastern Oregon and ends in Twin Falls. Association Vice President Marvin Wittman, Caldwell, is tour chairman.

Stops are planned at such points of interest as large cattle operations, feed lots, packing plants, the Forest Service base for smokejumpers in McCall, C. J. Strike dam and at least two manufacturing firms, Wittman said. Speakers and guides will be on hand at each stop.

Months of planning go into the tour. A "dry run" is made over the route to insure proper timing. Room assignments must be worked out for each overnight stop. Local cattlemen's associations, State Fair coordinators, service clubs and chambers of commerce assist in the preparations for refreshments, meals and entertainment.

County agents play an important part in local arrangements, too, Wittman added, and Idaho State Fair coordinators, traffic control with law enforcement officers along the way. Two state patrolmen usually are assigned to escort the caravan.

The tour covers a different section of Idaho each year. Here, in brief, is the 1967 itinerary.

Western Bean Cutworms biting into profits?

control with selective DYLOX

Being a selective insecticide, Dylox doesn't destroy beneficial insect populations. These helpers are still able to do their pollinating and predator tasks. But Dylox does go to work on the Western bean cutworm and other profit robbers—and goes to work fast. Dylox is easy to use—just mix with water and apply. This season, help nature control Western bean cutworm, lygus and other harmful insects with field proven, selective Dylox. It's another quality Blue Bullseye product from Chemagro Corporation.

Reductions

WASHINGTON (AP)—Rep. James A. McClure, R-Idaho, said Wednesday he was "delighted" that they are reducing dairy imports.

"However," he added, "I think the dairy farmers still have a right to know what the President did not restrict imports earlier, as Congress called upon him to do and do again, as to why 16 months before one."

"I wish Mr. Johnson would show as much concern for the farmer 16 months after an election, as to why 16 months before one."

Farm Office Asks Report Of Damages

"With the growing season well underway, the Federal Crop Insurance Corporation has issued a reminder to all policyholders to be sure they report any evidence of crop damage to their county FCIC District Office.

If the apparent crop damage warrants an appraisal, the FCIC District Office must be notified by the producer so proper forms can be prepared before appraisal action can be undertaken.

If the producer suspects extensive damage to all or part of his crop and he wishes to put the acreage to another use, he must notify the FCIC agent before this action is taken, otherwise, the policyholder will be subject to the loss of any indemnity that might be forthcoming from his crop loss.

Producers in the county who have any questions about their Federal Crop Insurance protection are urged to contact their county FCIC District office person, by phone or letter.

The FCIC District office for this area is located at 628 Blue Hills Boulevard North, Twin Falls, phone 733-8449.

Carol Sanders Heads 4-H Club

RICHFIELD — Carol Lynn Sanders was elected president of Linda's Lassies 4-H Club at the Thursday meeting at the home of Marie Hubschmidt, Susan Sanders was named vice president in re-organization of the top club officers following resignation of Colleen Brown, president.

Mrs. Sanders demonstrated making orange toast and Lori Priddy on how to be a good cook. The July 8 meeting will be at the home of Susan Kelly, and make a celebration of the Thursday at the home of Luan Edwards. Norma Ralls demonstrated making a chocolate cake. Kathy Riley, using a tracing wheel, and Kathleen Riley, choosing and matching a pattern.

The July 10 meeting will be held at the home of Sherry Magoffin.

Conservationist Named In Camas

FAIRFIELD — Davo Crnkovich is the new work unit conservator for the Camas County Soil Conservation Service. He replaces Leo Sentien, who has been transferred to the Pocatello unit. Crnkovich has been at Cragmont the past year.

Mr. and Mrs. Crnkovich and three children have moved into the former farm home of Mrs. Olga Nasr.

Mr. Crnkovich will work under the supervision of Dick Geobly of the Gooding Soil Conservation office.

Local Farmer Speaks Out Against Government Control In Agriculture

(Editor's Note: After reading the editorial "Controls Outlined" which appeared on the Opinion Page of the Times-News June 28, Louis E. Reinke, president of the Twin Falls County Farm Bureau, took exception to the statement that farm program controls had been a worth-while service. Here he presents his side of the discussion.)

An article titled "Controls Outlined" on the Opinion page of the Times-News recently caught my eye.

As Twin Falls County Farm Bureau president, I want to assure you that many of us farmers, yes, even those who are farmers, never could live with government controls.

This article made it seem that the government was providing service to Agriculture. I take exception. The Agriculture program is a bigger trouble-maker than it is a service. It is a government program that has degraded the farmer's life. It is a government program that has degraded the farmer's life. It is a government program that has degraded the farmer's life.

Six Valley Cows Listed In Report

Performance records of six registered Idaho Valley Holstein cows have been listed in an official production testing report from Holstein-Friesian Association of America, Brattleboro, Vt.

The cows and their production records are:

- Dollie Piebe Segis Walker 4989818, 7-year-old, 18,100 pounds milk, 520 pounds butterfat.
- 1958-59-year-old, 13,440 pounds milk in 364 days, is owned by Louis Bots and Sons, Rupert.
- Flossie Ston G. m. l. Windy 4153282, 5-year-old, 13,440 pounds milk, 653 pounds butterfat and 1,565 pounds solids-not-fat in 352 days, and Hous-Slon Reflection Palmary 598087, 3-year-old, 17,270 pounds milk, 603 pounds butterfat and 1,471 pounds solids-not-fat in 338 days. Both owned by Frank W. Houston, Jerome.

Tamarix Burke Melanck 4981078, 6-year-old, 23,389 pounds milk, 624 pounds butterfat and 1,972 pounds solids-not-fat in 303 days; Tamarix Lady Lou Burko 4798074, 7-year-old, 18,790 pounds milk, 624 pounds butterfat and 1,536 pounds solids-not-fat in 303 days; and Lisa Inka De Kol 4322274, 7-year-old, 18,050 pounds milk, 624 pounds butterfat and 1,494 pounds solids-not-fat in 301 days. All owned by Gordon M. Martin, Jerome.

The Holstein testing program includes the capability for recording the solids-not-fat nutrients, such as protein, lactose and minerals found in milk. This feature is made available to breeders to the lactation records.

cause they can't agree on one. So please don't blame us if you don't like the program and don't like it cost.

The truth of the matter is the majority of farmers do agree on what they want. But it doesn't agree with the socialistic government planners. They are a planning to pull all of agriculture under this program and they don't want to do it.

Admittedly there are farmers, and other industries, too, that honestly believe they cannot get along without these payments and controls. Once you become accustomed to these payments it is hard to let go.

Someone has said, "The government is no longer a government by the people; we now have government by the people." Please remember that the farmer is not the only one who is receiving government subsidies.

Let us see the image of the farmer has largely been degraded by the farm program. We, in the Farm Bureau, regret this most deeply. Many farmers like myself receive no government subsidies or direct payments, but we do pay our share of the taxes to the producers of the commodities that are under the program can receive their payments.

And, ironically, these are the commodities that are always in the shortest supply. The farm commodities that are not under the program are in much better shape than those that are. And yet the government planners will not be satisfied until all of agriculture is under government control.

The Farm Bureau is supporting Bill HRF 8307 called the "Wheat and Feed Grain Act of 1967." This bill, if enacted, would reduce the authority of acreage allotments, marketing certificates, diversion payments and price supports.

The Times-News article said, "now is the time for the government to abandon this program."

The farmer represents little over five per cent of the population. We cannot tax ourselves — we don't have the vote.

Let us see the image of the market system work. Food is a bargain; it takes less of the consumer's income to buy food than it did in all the past 30 years.

To this extent, the farm program has been a success. But if you add the cost of the taxes taken from your income to administer the farm program and to pay these subsidies and then to the cost of the program, you buy then wonder if we can still say food is a bargain.

Another proof the program is not by for farmers is the USDA calls for the 1967-68 marketing program to Washington, D.C. periodically to train them in the techniques of selling the program to the consumer. Let us see the image of the farmer at the expense of the taxpayer.

The farmer hardly needs to be sold something he himself has developed. Write to your congressman and urge him to vote for Bill HRF 8307. This bill is a step in the right direction for the American farmer.

Appaloosa Horse Show Scheduled

Final arrangements were made for the ninth annual I.O.N. (Idaho-Oregon-Nevada) Appaloosa Show Saturday night at a meeting at the Highland Stables, Boise.

Maude Bruce, Payette, show chairman, reported that all arrangements have been made for the show to be held at the Malheur County Fairgrounds, Ontario, Ore., July 14 through 16.

All youth performance classes are slated for 7 p.m. July 14 with nine events for both the junior division, 13 years and under, and the senior division, 14 through 17 years.

On July 15 and 16 there will be both halter and performance classes.

A demonstration on fringing was given by Holly Coole for the Classy Lassies 4-H Club last week. Donna Downing showed how to make a sundae which was used for refreshment. The next meeting will be July 9 at the home of Rosemary Donnelly.

Warmer Ties Hoped Jerusalem

JERUSALEM (AP)—Israeli government circles expressed hope today for warmer relations with the Vallens, which does not recognize Israel.

Cut In Wheat Allotment Is Based On World Food Needs

WASHINGTON (AP)—An Agriculture Department official said today the decision to cut wheat allotment 13 per cent for next year turned its back in any way on foreign food-aid needs.

He said the allotment was based upon a calculation of all domestic commercial export and foreign assistance needs, as they were determined by the department and other government agencies concerned with the world food problem.

This comment was made by the official himself deeply in domestic commercial export production decisions—in connection with a report submitted to President Johnson by James A. Perkins, chairman of a White House general advisory committee for foreign assistance programs. Perkins is president of Cornell University.

The Perkins report apparently was forwarded to the President the day before Freeman announced that the government would cut wheat allotment for 1968 calls for planting of 59.3 million acres compared with 68.2 million this year.

In announcing the decision, Freeman said the 1968 wheat allotment would be increased to 68.2 million acres, but that "we cannot believe that this country should so flatly turn its back on starvation."

In announcing the decision, Freeman said the 1968 wheat allotment would be increased to 68.2 million acres, but that "we cannot believe that this country should so flatly turn its back on starvation."

Change To Come To Vote By Growers

Union growers in Idaho and Malheur County, Ore., will vote on whether their federal marketing order should be amended to authorize paid advertising and sales promotion activities.

The United States Department of Agriculture has announced.

USDA's Consumer and Marketing Service said the amendment would also permit the marketing order administrative committee to establish a reserve fund to cover up to one year of operating expenses, and add marking, for product identification, to the authority now included in the marketing order for regulating containers.

The proposed amendment is based on evidence received at a public hearing April 19 in Parma, USA has recommended adoption of the amendment. To become effective, it must be favored by two-thirds of the growers voting, or by growers accounting for two-thirds of the union volume represented in the marketing order.

Ballots and copies of the proposed amendment will be mailed to union growers in advance of the voting. The Northwest Marketing Field Office, the Fruit and Vegetable Division, Consumer and Marketing Service, USDA, Washington Building, Room 1218 S. Washington St., Portland, Ore. 97205.

Final arrangements were made for the ninth annual I.O.N. (Idaho-Oregon-Nevada) Appaloosa Show Saturday night at a meeting at the Highland Stables, Boise.

Maude Bruce, Payette, show chairman, reported that all arrangements have been made for the show to be held at the Malheur County Fairgrounds, Ontario, Ore., July 14 through 16.

All youth performance classes are slated for 7 p.m. July 14 with nine events for both the junior division, 13 years and under, and the senior division, 14 through 17 years.

On July 15 and 16 there will be both halter and performance classes.

Man Stresses Education In Rural Relief

WASHINGTON (AP) — An Agriculture Department report says education is being neglected in society's efforts to alleviate rural poverty.

The report said inattention to education springs mainly from a lack of motivation resources. The report was prepared for the department's economic service by Prof. L. G. Twetten of Oklahoma State University.

"The relatively small commitment of public effort to relieve rural poverty is attributable to a lack of feasible procedures as well as public indifference," Twetten wrote. "A substantial number of publications on area development conclude with optimism about the role of education."

"Yet education has received comparatively little emphasis, and many questions remain unanswered," he said.

New Farmer Service Unit Opens Here

With the latest in modern equipment the American Oil Farm Service Center field a private showing of its new facilities on South Eastland Drive Tuesday.

The center is open for a public open house today and tomorrow from 8 a.m. to 3 p.m. A number of local businessmen, newsmen and women plus visiting dignitaries from other areas toured the plant Thursday following a luncheon in the meeting room at the office building. This meeting room complete with audio-visual equipment will be available for group meetings.

The service center is the second one in Idaho to be opened by the American Oil Company. The first, in Caldwell, held its open house in June.

These new service facilities include a fertilizer formulating plant, LP-Gas storage and equipment for field use of the products.

The center, built on land purchased from the Chamber of Commerce at a total cost of \$340,000, has created 12 new jobs in Twin Falls with several positions yet to be filled.

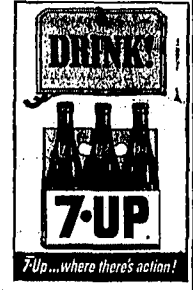

Salads Made For Modern Maids

BELLEUE — Demonstrations on salad making and serving were demonstrated by Anne Wunderlich, Pat Moran and Diane and Cheryl Byington for Modern Maids 4-H Club at the home of the leader, Mrs. Jack O'Donnell.

The nine members present cut out patterns and made samples of easy-cutting and putting in zippers. Julie Trotter made a cookies and served the group.

FOODS FEATURED

Cooking demonstrations were given by Robin Carle, Dixie Eldredge and Barbara Smith for the Busy Doers 4-H Club. Refreshments were served by Miss Carle and Miss Eldredge.

Rupert Haylage Operation Draws Interest

RUPERT—Ronald M. Hawkes and his son, Glen Hawkes, who operate a large Holstein dairy herd in Mindoka County, have had inquiries from as far away as Montana, Wyoming and Utah regarding their hay silage operation, which is in its second year.

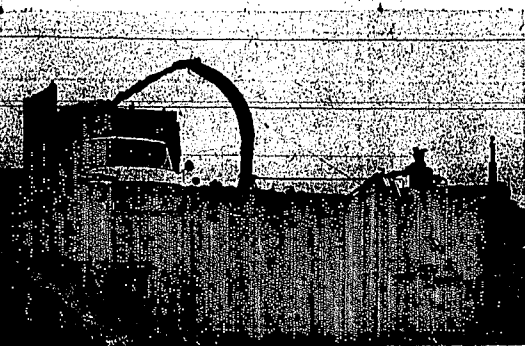

Interest has been high this year because of the rainy weather, making baling of dry hay in some areas virtually impossible. Utah has had two-thirds of the first cutting hay, crop because of the wet weather, it is reported.

Not the least of the advantages to the silage operation is the putting of the wet feed into the pits, "the sooner out of the fields, the better," according to Glen.

The Hawkes' operation uses a preservative called hi-sy which keeps the feed from heating and rotting. The moisture, "the more in the silage shows the temperature to be actually one degree cooler than the surrounding air," Glen noted.

Cost for harvesting the silage costs no more than baling equipment, and the only additional cost is for the storage pits. These are 14 feet deep and have concrete floors. For most of their pits they also use concrete walls and feed these are more satisfactory than the dirt walls. Cost for each pit is approximately \$2,500 with the concrete walls.

There is no loss of nutrients

HAY SILAGE operation carried on in Mindoka County by Ronald M. Hawkes, and his son, Glen Hawkes, has brought inquiries from Montana, Wyoming and Utah. The Hawkes use a preservative called hi-sy which keeps the feed from heating and rotting. Equipment for harvesting the silage costs no more than baling equipment, and the only additional cost is for storage pits which are 14 feet deep and have concrete floors and walls. Extensionists from the University of Idaho are watching the haylage methods with interest.

In the feed using it wet, and the operators estimate they can feed one-third more cows on the same acreage using the silage. The herd average milk production for the Hawkes Dairy has increased an average of 50 pounds per cow per year under the new feeding program.

The Hawkes' use a windrower and follow within four or five rows with the chopper which puts the silage into the trucks. Equipment for harvesting the silage costs no more than baling equipment, and the only additional cost is for storage pits which are 14 feet deep and have concrete floors and walls. Extensionists from the University of Idaho are watching the haylage methods with interest.

Cattle, Sheep Heading For Forest Grazing Areas

OGDEN — Regional Forester Floyd Iverson announced that cattle and sheep permitted to graze the National Forests of Utah.

Cost for each pit is approximately \$2,500 with the concrete walls.

There is no loss of nutrients

Grazing of the Department of Agriculture's National Forests is an important part of multiple use. The National Forests are now entering their grazing allotments. The annual trek to these mountain pastures will begin in late July and early August. The first of the allotments, in the region of the Snake River, will be made available for grazing in late July.

The first, in Caldwell, held its open house in June.

These new service facilities include a fertilizer formulating plant, LP-Gas storage and equipment for field use of the products.

Most of the cattle are driven to grazing allotments near the winter months, but many are trucked onto their grazing areas where trailing is not convenient. Some more cattle are trucked to and from their summer pastures. Sheep are trailed or hauled by truck from the home of the leader, Mrs. Jack O'Donnell.

The nine members present cut out patterns and made samples of easy-cutting and putting in zippers. Julie Trotter made a cookies and served the group.

Bean Growers Organize As Control Unit

Bean growers from four western states including Idaho have organized the United States Bean Marketing Association which will represent them in the purchase or contracting for elevator space to handle storage of the 1967 plant bean crop.

Other states involved include Colorado, Wyoming and Nebraska. Headquarters for the USBMA will be in Englewood, Colo.

William Abbott, Wiggins, Colo., president of the association, said the farmers hope to have purchased or contracted with every major bean elevator operation in the four-state area by the end of August. He said that the farmers hope to have committed their 1967 bean crops to USBMA storage prior to the end of August, he said.

This is a move by the bean growers to provide a control over bean prices. The Bean Growers Warehouse Association, 7 W N Falls has been reported in some publications as having joined forces with the organization, but J. P. Smith, general manager, told the Times-News that this was not correct although his association had met with them to investigate the possibility.

He said that his firm is not adverse to the program, but has taken no definite steps in that direction as yet.

Other bean dealers in Twin Falls indicated a "no comment" attitude and have said that they are waiting to see what the growers will do.

As one dealer put it "the thing is not off the ground yet."

Sturdy plants are established easily from seed yet it does not become a weedlike nuisance and mature plants can be killed by normal tillage operations.

Soder's forage yields are very low, thus eliminating much ditch bank burning during the irrigation season. It is very drought tolerant and the dense sodding provides an excellent weed barrier.

The grass produces numerous stems and seed heads during the first two to three years, or until it becomes fully sodded, but thereafter the seed head formation nearly stops.

More information concerning Soder Wheatgrass is available from the Twin Falls Soil Conservation District, 634 Addison Avenue West.

Minidoka Campaign Will Boost Sugar Beet Products

RUPERT—A drive by a number of farm-related groups in Mindoka County is aimed at directing trade of their members to "grocerymen who stock, display and sell sugar products produced from the sugar beet."

The effort was spearheaded after it was noted that wide promotion was going to cane sugar products in many local markets, and businessmen and farmers alike noted the importance of beet sugar to the local economy.

A number of the organizations have signed a resolution offering their support to grocerymen who use the best sugar products.

Among groups who have signed are the Mindoka County Farm Bureau, Emerson, Paul and Rupert Granges, Chamber of Commerce, Extension Sugar Beet Advisory Committee, and Mindoka County Beet Growers Association.

The resolutions are on file at the county agent's office in Mindoka County.

Paul Grange Sets Picnic On Sunday

PAUL — Plans were made for the annual picnic to be held Sunday at the water tower park in Buhl when the Paul Grange met.

Judy Twiss was in charge of the program, discussing some of the new dried food products on the market, including ice cream, fruits and other new products. She also presented a quiz.

Mrs. Alma Stewart read the grange centennial prayer.

During the business meeting there was further discussion of resolutions regarding farm commodities, but no action was taken and a decision was delayed until the next meeting.

Mrs. Jodie Twiss, home economics chairman, reminded members of the Sept. 1 deadline for entering the state grange sewing and needlework contests, and urged the women to participate.

Mr. and Mrs. David Peterson and Mr. and Mrs. Schneider served.

PREMIUM QUALITY

CULTIVATING BLADES

Acme Cultivating Blades can be set to match any hill or row. They adjust vertically, horizontally and to angle of the furrow shoulder.

One other advantage is control of weevil. If there is weevil in the hay, it goes into the silo and is not left in the field, and the cows "get a little meat with their meal."

Other dairymen on the north side of the river who are using the new method are Larry Harper, Clyde Harper, Arlo Montgomery, Hyllak Beaver and Ralph Jurgensmeyer, among others. There are also Cassia County farmers who use the haylage operation.

CRAB APPLE TROUBLES:

We're getting a lot of letters asking what to do for trees losing their leaves.

Dry soils will cause the leaves to turn yellow and drop prematurely, and this is nothing extraordinary. You can punch holes in the soil under the tree, a depth of 18 inches, and fill with water, with a little liquid plant food added.

Trees growing on slopes or banks will shed leaves (followed by shedding), quicker than trees growing on flat land because they get less water.

Various fungi will also cause yellowing and dropping. Control, spray with Captan or sulfur. Rust can be another reason. If a common red cedar is growing in the vicinity of a flowering crab apple, a number of brown spots may appear on the leaves. This will cause heavy defoliation. Control, if practicable, eliminate the red cedar.

QUESTION OF THE WEEK: S. E. of Twin Falls: "Please tell me what causes a healthy African Violet plant to slowly grow limp, wilt and die."

There are several reasons for wilting. One is crown rot disease, catch-all name for a group of fungus troubles which plug up the plant's plumbing system.

HOUSE PLANT PESTS: Now is a good time to be on the lookout for plant lice (aphids), a common summer pest.

FREE: Send me a self-addressed, stamped envelope for my illustrated guide, HOW TO CONTROL INSECTS AND DISEASES ON YOUR HOUSE PLANTS.

WHY APPLES ARE OVER-BEARING: Some apple trees bear every year and some only in alternate years. This can be done to change this over-bearing habit?

Apples are classed as annual bearers or biennial bearers. Annual bearers tend to produce a medium sized crop every year, while the biennial bearers produce a heavy load of crop during 1967, this crop tends to interfere with the formation of blossoms for the 1968 crop.

Condition of Cattle Shows Improvement

DOISE—The condition of Idaho cattle is reported as being improved two points by the USDA Statistical Reporting Service.

This raises the rating to 84 which is four points above last year's point above the five-year average.

Commercial growers have ways to trick the tree's over-bearing habit by reducing the amount of crop the year they are in bearing heavily.

THANKS!!

Sheriff's Posse To Compete In State Event

Sandra Carr, daughter of Mr. and Mrs. Walker L. Carr, Route 1, Twin Falls, is one of the 21 members of the Twin Falls County Sheriff's Mounted Posse in the queen contest at the Idaho State Drill Camp, Monday and Sunday at Ontario, Ore.

She is a 1963 graduate of Twin Falls High School, and attended Idaho State University, Pocatello, for one year. She works as a telephone operator at Mountain States Telephone Co., Twin Falls. Her hobbies include horseback riding and all outdoor sports.

She also represented the Twin Falls Posse last year at the meet, held in Burley, at which she was runner-up for the Idaho State Posse Queen.

Miss Carr also will represent Twin Falls in the Snake River Stampede July 15-22 at Nampan, Frontier Days July 23-30 at Frontier Field, and at the Twin Falls County Fair and Rodeo, Sept. 6-9, at the Filer Fairgrounds.

D. A. McGuire, 1746 Addison Ave. E., and Warren Skinner, 320 Second Ave. S., both Twin Falls, are two of the 21 members who will attend the meet.

The group was organized in 1945 by the late Warren Lowry, former Twin Falls County Sheriff. Mr. McGuire is a charter member of the group, and has served 15 years as captain. Mr. Skinner has been secretary of the group for four years.

The meet includes a parade, followed by drill and the queen contest. There are 12 working events, such as clover-leaf barrel racing, trailer racing, scurry racing and rescue racing. All events are timed, and trophies will be awarded to the winners of each event. Judge for the event is LeRoy (Andy) Anderson, Twin Falls.

Last year the Twin Falls Posse took first place in all of the working events at the meet held in Burley, sponsored by the Cassin County Sheriff's Mounted Posse. The group brings back several trophies for different events.

All members of the posse are identified and are subject to call from the sheriff at any time.

GRINNING From beneath a head of hair that nearly two months ago was a neat crew cut is Dr. William Doody, 20, who received 20 pints of blood from the Red Cross within two days after being critically injured in an automobile ac-

20 Pints Of Blood Transfusions Made "Real Idahoan" Out Of Injured Doctor

By CATHERINE TATE, Times-News Staff Writer

A pair of friendly blue eyes twinkle from beneath a bushy crew-cut. A chest-high bodycast gleams in a darkened room. The man in the cast, his left arm swathed in an "extra" cast, announces that he surely is a "real Idahoan now."

And a visitor in the cool Mt. Idaho Memorial Hospital room on the fifth floor—a room with restful blue walls and drawn shades—assures the man that he indeed should be exactly that way, "what with all that good, sound Idaho blood in you."

The man is Dr. William Doody, 20, a resident of Idaho for less than two years; a man who received 20 pints of blood within two days after being critically injured in an automobile accident at 6:30 p.m. July 16.

Dr. Doody received the blood, an amount which exceeds by several pints the 12 regularly used in the typical adult human system, from the Red Cross through a service that is maintained by the familiar Red Cross blood drawings.

The blood he was needed immediately. It was there—available largely because of the blood drawings which are held every other month.

The drawings have settled into the category of the routine, the ordinary and the unexciting. And according to Mrs. Irene Basom, secretary of the Twin Falls Red Cross, the situation may become one of literally life or death "if something doesn't happen soon."

Twin Falls will have another blood drawing Monday beginning at 2 p.m. at the Odd Fellows Hall, 225 Third Ave. E. The quota is 150 pints, which has become a regular goal, and which also has become traditionally unfulfilled.

As far as Dr. Doody is concerned, "it's ridiculous that Twin Falls can't make good that which is slightly more than the one in 100—with the population here, they should be ashamed."

Mrs. Basom is convinced that the apparent lack of interest in the routine blood drawings is not due to a widespread unwillingness, but more to simple apathy and perhaps unavailability.

"I feel that most people just don't realize how badly blood is needed at all times, and how important it is to have the blood in the refrigerator—typed and ready to go at a second's notice," she said.

Dr. Doody, an active worker in the Twin Falls Red Cross blood program before his accident, commented, "It's frequently easier to get the blood 'paid back' than it is to get it through to the paid back."

No charges, other than the cost of processing, is made for blood provided by the Red Cross. However, according to Delia Patterson, chairman of the drawing, "There is a moral obligation that blood be replaced in the name of the recipient."

In addition to the frequent little apathy toward blood drawings, adding to the problems of the Red Cross blood program is the fact that government requests for blood have been far above average recently.

A letter written to Mr. Patterson by Dr. E. F. Sestero, Boise, director of the regional blood center, reads in part, "The hospital requests for blood during May and June have been far above average. At the same time, indications of the usual 'summer slump' in blood collections began to appear in May rather than July."

In other words, the need for blood is "greater while the supply gets smaller."

Dr. Doody extinguished his third cigarette in less than a half hour in a small, green plaid ash tray, he quietly said, "The accident made me more grateful for the Red Cross blood service, although as a doctor I had long been aware of its value to medical personnel as well as to the public."

And in response to a question, the 35-year-old father of three children rattled off the list of his fractured bones as if it was an addition table: left hip, right leg, left arm, left rib, left collar bone, left knee cap, etc., etc.

Dr. Doody has no memory of anything that happened during the first five days I was in here," he said.

The doctor will be on the other side of the fence at the hospital for at least another month; after his release he will be confined to a wheelchair for still another month, and he won't see the inside of his Buhl office as a practicing physician for two months after that.

During the long hospital days he reads—frequently medical books and periodicals—watches television and examines the big, handmade calendar that dominates a corner of his room's bulletin board.

A calendar with big black "X's" drawn through the past days.

And he thinks, About the days when he didn't have to think about his injuries, he would like to develop any hobbies. About how he and his wife, who is a nurse, got him through college, medical school and internship with \$1,100 in the bank and the ability to work hard.

About the 26 people who have donated blood in his name. About the people who will hear his story, making a fleeting resolution to donate blood and then forget about it.

Dale Patterson, Irene Basom and the more than 35 other people who annually volunteer their services and time in the interest of the Red Cross blood program will be sharing his concern.

cident May 16. He is one of many physicians who are concerned about the lack of interest in Red Cross blood drawings. Mrs. Irene Basom, Red Cross representative in Twin Falls, visits with him in his hospital room.

Valley Scouts To Recreate First Camp

The first Scout Camp held 60 years ago on Brownson Island, off the coast of England, will be recreated at Camp Bradley, the summer training facility for the Snake River Area Council.

Donald Wilke, director of Cape Horn Scout Reservation, said that area Scouts will pitch their tents to resemble the first camp, demonstrate the same skills and participate in the same games as the Scouts of 60 years ago. He noted that all these skills, including firebuilding, observation, knots, cooking, tracking, nature trails and first aid, are still a part of modern Scouting.

Other major events planned for the 60th anniversary include the 12th World Scout Jamboree at Farragut State Park—the first to be held in the United States.

Friendship camps also will be held this summer by the 115 packs, posts and troops in the Snake River Area Council.

17 Candidates Seek Position Of South Vietnam President

By BARRY KRAMER

SAIGON (AP) — Seventeen candidates are running for president of South Vietnam, but few observers expect all will still be in the race on election day, Sept. 2.

Only a few seem to be serious contenders.

Last week Premier Nguyen Cao Ky accepted the No. 2 spot on a list headed by Chief of State Nguyen Van Thieu. Some Vietnamese who consider themselves political experts are betting that Ky will be out of the race entirely before long.

With most of the armed forces—about 12 per cent of South Vietnam's 5.2 million registered voters—the Thieu-Ky ticket at this time appears to be running smoothly.

A confusing element is the candidacy of retired Lt. Gen. Duong Van Minh, now in Thailand. "Big Minh" was exiled as ambassador-at-large several months after he was overthrown as premier in 1964.

His chief rival was registered by his vice-presidential running mate, Tran Ngoc Lung, a lawyer. But South Vietnam's ruling generals say Big Minh would not be allowed to return.

Tri Quang, leader of a militant Buddhist faction, has begun to exploit the general's refusal to allow Minh back. Although Tri Quang's faction was able to call tens of thousands of demonstrators into the streets as recently as a year ago, it now is divided.

Tri Quang, however, could get a few thousand into the streets, and if other groups apply enough pressure, the generals could be forced to change their minds.

Minh could be expected to draw off some of the military votes from Thieu and Ky and would have some Buddhist support. He is also southern born and because of this would take southern votes from Thieu, born in central Vietnam, and Ky, a native of Hanoi.

The most prominent civilian candidate, Tran Van Huong, 63, is also a Southerner and has a large following, especially among intellectuals. Huong has chosen a lay Buddhist leader, Mal The Truyen, 61, as his running mate.

A popular theory among Vietnamese politicians is that if Thieu wins, Huong would be asked to serve as premier.

Another prominent civilian ticket unites Phan Khac Suu, 61, a former chief of state and now speaker of the Provisional Assembly, with Dr. Phan Quang Dan, 49, a member of the assembly. Suu was jailed briefly by President Nguyen Khanh.

The candidates include 15 Southerners, 11 Northerners, and 8 born in central Vietnam. Twenty-two of them live in Saigon, 22 in the surrounding province of Gia Dinh, 1 in Cholon, Saigon's Chinese suburb, 1 in Vung Tau, south of Saigon, and 1 in Thailand.

The candidates include five lawyers and judges, five businessmen and firm owners, three teachers, four doctors, four former civil servants, three military men, a religiousist, three writers and journalists, an engineer and a tax consultant.

Church said he would first seek the approval of the Senate Foreign Relations Committee for the aid.

Nasser's Silence Since End Of Battle Speaks Louder Than Usual Oratory

By WILLIAM L. RYAN, AP Special Correspondent

President Gamal Abdel Nasser's silence since the end of the Arab-Israeli war speaks louder than his accustomed resounding oratory.

Not since the night of June 5, when he offered to resign—unofficially rejected by his cabinet and the National Assembly—has the Egyptian president had anything to say publicly. This reticence strengthens an impression that the man who sought to be the leader of all Arabs is not yet out of danger from the repercussions of Arab defeat and demoralization.

The silence can create a void in Egypt, an atmosphere for whispered rumors and gradual disintegration, resentment as Egyptians react to the delayed fallout of their losses.

Nobody has told the Egyptians where they go from here. Nobody in high office, not even their idolized Nasser, has come forward to tell them how to bind up the wounds, how to restore dignity and respect, how to regain confidence.

What they have learned, gradually, is that the war cost them dearly, not only in killed and wounded and not only in the loss of their Soviet arms and equipment, but in the severe shock to an economy which already was rocky. The Egyptians are learning that there is even more hell in lightning in store for them.

Nasser has a new government in which a both president and premier. Thus he assumes personally all the responsibility for measures which must be undertaken. Agencies of the new government have been cutting costs to the bone. Tens of thousands of workers employed by the government, to say nothing of those in the armed forces, will be directly affected.

at any further expansion of Communist influence in Egypt. The Russians this time are insisting that Nasser agree to a heavy influx of Soviet advisors and technicians to make sure that Moscow's investment does not go down the drain again.

Nasser obviously had adopted caution as his watchword as he weighs the cumulative impact on his people and all Arabs of the Egyptian military and diplomatic setbacks. It is notable that influential voices now being raised in Cairo for a more realistic look at Israel. One of the most knowledgeable journalists in Egypt wrote that the notion of destroying Israel as a nation was a basic mistake which contributed heavily to Egypt's calamity.

Nasser is receiving new arms, but Egypt and the Arabs are going to be weak for a long time. The weakness will be aggravated by economic difficulties among a hungry population growing at such a rate that even the price of Aswan Dam being built by the Russians cannot reclaim enough land to keep food production ahead of population increase.

There are bleak days ahead for Egypt. And the bleaker the outlook, the more difficult and dangerous Nasser's position becomes.

Amendment To Aid Bill Is Planned

WASHINGTON (AP) — Idaho Sen. Frank Church said Wednesday he has prepared an amendment to the pending foreign aid bill cutting American military aid to foreign countries by \$16 million.

Church said he would first seek the approval of the Senate Foreign Relations Committee for the aid.

"If this fails," Church said, "I will carry the fight to the Senate."

Besides cutting the amount of military aid, Church's amendments would limit to 25 the number of countries receiving aid and require the administration to consult the Arms Control and Disarmament Agency in dispensing the aid.

Reunion Set By Buhl 1947 Class

MULL—The Buhl High School graduating class of 1947 will hold its 20-year reunion this weekend.

A banquet will be held at 7 p.m. Monday at the R & L Hotel, Cafe, with a cocktail hour preceding the banquet at 7 p.m. Prizes will be awarded to members for accomplishments in the past 20 years.

Class members and their families will hold a catered picnic at the Buhl City Park on Sunday afternoon.

MEET STATED — SPOKANE—County Commissioners will meet at 10 a.m. Monday at the courthouse.

Touring Pros And PGA Reach Settlement Again As Veto Power Is Erased

By RON GILBERT
Associated Press Sports Writer
INDIANAPOLIS, Ind. (AP) — The touring pros and the Professional Golfers' Association Thursday settled a dispute that had threatened the national PGA tournament.

Record Possible In Keino-Ryuan Meeting

By JACK STEVENSON
Associated Press Sports Writer
LOS ANGELES (AP) — Keino and Ryuan, two of America's top runners, are scheduled to meet in a 5,000-meter race which could bring a world record for the 1,500-meter race.

"Records are sometimes made while running alone, but when they are made in competition," says Keino significantly.

Ryuan lowered his world mile record to 3 minutes, 51.1 seconds in the California 5-mile race on the same day.

In the metric mile at the Los Angeles Coliseum, the world's fastest mile runner, the 3:55.6 record by Australia's Herb Elliott in the 1960 Olympic Games.

Asked to compare the mile with the 1,500-meter race, Keino said, "I guess the 1,500 which is 120 yards shorter, could be a better distance to set a record."

"My only worry about Ryuan is if I have trained enough," he said. "I have trained for the 5,000, but not for the 1,500."

Asked what time he thought would be needed to win, Ryuan said, "I think 3:55."

Game Tonight

Righthander Tom Irwin will start for Twin Falls at 8 p.m. Friday when the local Legion team hosts Idaho Falls in a nine-inning game at Jayce Park.

Torrid Cubs Could Use Holtzman

BRIDGE

By Jacoby

GOOD BIDDING NETS BIG SCORE
Rubber bridge players consider duplicate bridge as a game of small swings while they play for the big ones. Tournament

heart. West won with the king and dutifully returned the four of hearts. East, who had a heart, West would have returned a diamond. Jerry ruffed low and led back a low diamond. Most players would have cashed the ace for a sure profit, but Jerry knew his partner had to hold either the spade or the diamond king for his heart raise. Jerry was after big things.

South rose with the king, ruffed the diamond with the three of spades, discarded a diamond on the jack of hearts and led a high club. Jerry's seven of trumps cleared the ten. Another diamond was ruffed with dummy's queen of spades. West discarded a club. Another high club from east got and overruled with South's jack.

South was down to the ace-six-four of spades and a low diamond. There was no way for him to make more than one trick. He played the ace and four of spades, but this gave West the last four tricks at Jerry's hand.

Jerry had opened the bidding, jumped after a single raise, doubled and took only two of his side's six tricks, but his partner had no complaints.

TODAY'S QUESTION
You bid four no-trump. Your partner bids five diamonds to show ace. What do you do now?
A—Bid four no-trump. You know North was unlikely to let him have the contract. Sure enough, North went to hold an ace.

Answer Next Issue

players also go after big ones, as may be seen from the way Jerry Michaud of Wichita manufactured 800 points for his side in the Missouri Valley Regional. Sitting East, his jump to four Pass was the start of Opera-Plan Slaughter. He did not know what he could make it. Actually he couldn't, and probably wouldn't make even three, but he knew North was unlikely to let him have the contract. Sure enough, North went to hold an ace.

Young America's Date-Line

By EILE AND WALT DULANEY

If You Love Too Well He's Likely To Tell

Walt here with a sad admission to make. Girls, it's true, boys do "need and tell." It's a pity in the air and they want to run, but don't know how or I won't cover up for the answer is.

Why do fellows publicize their private lovelinking? The simple answer is "to gain attention," and certainly no one that the girl will reject (and the "private" even) will draw attention at all sessions. (Although you ladies are stunner partners, you do entertain stunner parties by recounting the amusing attempts—and misadventures of the boy may assume the girl is less than pleased with their affair.

"Go and tell" drive that just ego pain! "Will the tell others "holter me." There's a tug-of-war in our culture. "Sex is the living end of factions compete with "Wait till marriage" advocates and underneath it all is the assumption that every red-blooded, 100 per cent male guy is chomping at the bit to experience sexual intercourse.

For some males, so much pressure builds, so many self-doubts pile up ("I'm not really that eager" is there established, wrong with me?") that when they finally do have their sexual initiation, the relief is so great that they just take advantage to one and all. "I passed the test! It's all right, I really am a man after all!" As if this really were the measure of the man.

FOR SOME, A TRAP
For some guys after a time, a sexual involvement spells "trap." As the start of an affair, they want it desperately, they plot and scheme to make the girls succumb. They promise the most intense love of their lives, but after the fact they feel snared.

Then they start to reason, "I'm too young to get married—I've got a lot of things to do and before settling down, etc." They read "let's get married!"

hints into every comment to make. Girls, it's true, girls makes. The smell of domesticity is in the air and they want to run, but don't know how or I won't cover up for the answer is.

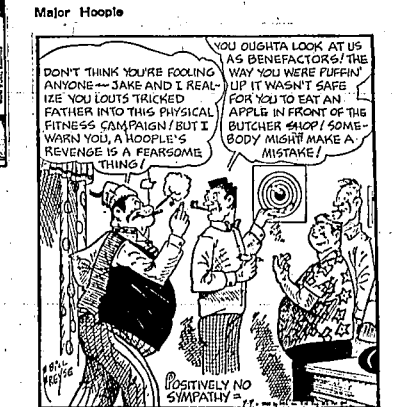

All too often boys at this point start making public comments about the "push-over" easy girl in their lives. Motive? To create an incident with their insults so that the girl will reject (and the "private" even) will draw attention at all sessions. (Although you ladies are stunner partners, you do entertain stunner parties by recounting the amusing attempts—and misadventures of the boy may assume the girl is less than pleased with their affair.

For a few extremists, sex is anything but sex. These few experience sexual intercourse as a way of spitting the society's rules. To them the magic turn-on is that sex is "stolen" love. Mistakenly, they are convinced that their partner, with exit lines all broadcast.

The chap who not only "loves" but also "takes advantage" of her, is a sick guy. Think about that! If he says "and-so is a prostitute and slut," he announces to all and sundry his own lack of taste!

The press agent can be dealt with, and most effectively so by other boys.

To see your responsibility, fellow, join me tomorrow. If that first date you are booked, send for Eile's 8-page booklet, "Dating: The Art of Dating for the Fellows." It's bound to clear up many questions you may have. For a copy, send a dime, and an unreturnable, self-addressed envelope to Eile and Walt Dulaney at Teenage Date-Line, in care of this newspaper.

Friday, July 7

- BEST BETS FOR MOVIES**
- 7 p.m., 2B, 3, 11; 9 p.m., 5—“By Love Possessed” (1961). This love melodrama, James Gosling, a fine model resembling the look in name and bare-chested body only, romances heroine into a sassy Peyton Place-type soap opera liberally laced with sociology. Featured are Lana Turner in a classy wardrobe, Efram Zimbalist Jr. chomping on a pipe stem and Jason Robards Jr. looking pained. The basic story involves a lawyer who becomes entangled with his partner's wife.
- HERE AND THERE**
- The Invaders' A modified fugitive-type series which features little alien creatures who don't look at all like green men and who apparently have set up a vendetta against the only man in the world who “who knows they are here.” Naturally, the guy's name is David, like in against the giant. David is an architect who somehow finds the time and the money to travel extensively in his attempt to stop the invaders single-handed. A bit fetched, the series warns us all to beware of people who have crooked little fingers and who disintegrate upon death. Tennis, anyone?

Sociologist Says Rioting Tends to Continue

By ROBERT GOLDENSTEIN
AP Science Writer

CHICAGO (AP) — The student and teenager riots that have become annual events at some of America's best known summer and winter resorts will continue and perhaps grow larger and spread to more places, a sociologist predicted today.

Bernard Beck, Ph.D., assistant professor of sociology at Northwestern University, said in an interview that these youths gather at places where they are unknown with the approved purpose of breaking out of their ordinary routine.

“The only exception to that rule is when an emergency situation arises involving national security and he cannot be reached by ordinary means.”

In that case, said the attorney general, electronic snooping can be authorized by the head of the Federal Bureau of Investigation on condition that Clark receives a full explanation within 24 hours.

Clark said in such emergency cases, conversations overheard should be recorded if possible on tapes. He said the types of wiretaps should be considered specially classified by the agency and kept secret from other agency personnel.

“All that is changing,” he added. “Teen-agers are coming to regard themselves as ordinary people and they know the same autonomy and freedom that is allowed others.”

Although he said there is considerable difference in scale, he compared the student rioting with the antics of some convention delegates who block traffic and play practical jokes on speeches, usually without interference from the police.

“What these kids are doing is like an outdoor sport for them,” Beck said. “But they know the police are watching them with a sharp eye on them. Because the police are more watchful and interested sooner, resentment is triggered once that intervention occurs.”

Beck said permanent residents in such resort areas as Lake Geneva, Wis., and Fort Lauderdale, Fla., are being hit by youths who flock there for vacations who have completely different viewpoints on what constitutes “having fun.”

He said some “frightening overtones” of the youthful escapades might be avoided if they were a closer meeting of minds or a closer respect for the established code of conduct of the special desires of young people.

Large Gift

ATLANTA, Ga. — The Atlanta state commissioner's office seems an unlikely recipient of charity, but it received an anonymous gift of \$10,000.

The envelope containing 10 \$100 money orders arrived Thursday together with a check asking that the sum be put in a general tax account.

There was nothing to indicate the sender's identity beyond a Decatur, Ga., postmark.

But Jack Camp, the Fulton County tax commissioner, said the money fund could use the money.

Guidelines For Federal Agencies Set

WASHINGTON (AP) — Attorney General Ramsey Clark, backing President Johnson's call for a ban on police bugging and electronic snooping—except in national security cases, has set stiff new guidelines for federal agencies.

Clark's main point in a lengthy set of instructions issued to federal law enforcement agencies since June 16 requires that they get advance written approval from him before undertaking electronic surveillance.

The only exception to that rule is when an emergency situation arises involving national security and he cannot be reached by ordinary means.

Whoooping Crane Couple Hatches Chick

By PAUL RECRER
SAN ANTONIO, Tex. (AP) — Rosie and George, a pair of whooping cranes that became the only whooping crane couple in captivity, have produced a chick, have anxiously awaiting a second.

The chick popped out of its shell Thursday two days before the parents were expected, but zoo Director Fred Stark said it was “healthy and lively.”

Experts tried for more than 10 years to get Rosie to mate. Rosie was taken into captivity 11 years ago after she was found injured.

Two years ago she was sent to a whooper named George, which didn't get along with her. Rosie paired off with Crisp, another injured bird rescued from the wild, and sent here last January.

Stark said that in about six months the U. S. Bureau of Sports Fisheries and Wildlife, which is attempting to bring the whooping crane back from the brink of extinction, will take Rosie's chick to Baltimore, Wis. whooper chick, from eggs placed in the wild, were hatched there last month, Stark said.

In a count made last spring, there were 42 whoopers found in the wild. Rosie's chick makes the first in about five years to be bred and hatched in captivity, he said.

Oath Rapped

TRIENTON, N.J. (AP)—New Jersey's loyalty oath for public school teachers has been described as unconstitutional by state Atty. Gen. James E. McGreevey.

The attorney general's office said Thursday that the loyalty oath requirement conflicted with the U. S. Supreme Court decisions.

It advised abandoning the oath immediately and suggested a toned-down substitute, variation.

Israeli Naval Reservist Tells Of Torpedo Boat Attack On U.S. Ship

EDITOR'S NOTE: On the morning of June 8—the fourth day of the Arab-Israeli war—the U.S. Navy communications ship Liberty was being off the Egyptian coast when it was attacked by Israeli jets and torpedo boats. Thirty-four U.S. seamen were killed and about 78 injured in the Israeli naval reservist, Lt. Michel Limor, was aboard one of the torpedo boats that attacked the Liberty. He tells the graphic details of the incident written especially for The Associated Press.

By MICHAEL LIMOR
Written For The Associated Press

TLAV AVI (AP) — The torpedo was ready for firing when we three Israeli torpedo boats were moving on the gray ship moving slowly on a southeasterly course off El Arish.

At that tense moment, not one of us on those torpedo boats had any suspicion that this was the beginning of an incident which was to cause a long-drawn-out international wrangle.

On June 8, the sun was already high in the sky when we received notification of an unidentified sailing vessel some 13 miles off the El Arish coast, suspected of being an enemy craft.

Within moments, the face of our torpedo boat changed. Sailors at their positions, engines were revved up, and in five minutes we were moving out in formation, torpedo boat after torpedo boat, toward the denuded sea.

We spotted the objective once on the radar screen. She was moving on a steady course, her speed about 16 knots. We sailed toward the objective at an increased speed, locking at her through binoculars in an effort to identify the vessel.

Two or three minutes later our heads a few minutes afterward. We saw them circle the ship several times, and then directed the attack.

They spat two rockets into the gray ship, and plumes of smoke rose from her. Then the two jets headed away toward the coast, leaving a strange spectacle on our eyes. The high mast and the many weird antennas showed clearly in the sky. From the side of the vessel was blotted out by smoke, and apart from three numbers along her side, we could not discern a thing.

We could see no flag on the mast, nor was anyone to be seen on the decks and bridge.

For scaman, this can mean only two things: it was either a ghost ship or an enemy ship.

To us who do not believe in ghosts — It was clear that this was the enemy.

We spent several minutes trying to identify the ship, and a demanding identification, we tried by radio and by helicopter, in accordance with international regulations. But she gave no answer. It also seemed that she had managed to control the fire and continue.

torpedo boat, toward the denuded sea. One of our formation approached the objective from the waters found it to be a rubber lifeboat with the lettering “U.S. Navy.”

That was the very first sign of a moment later it arrived. A moment later there arrived on the scene the helicopter that was to have picked up prisoners. The helicopter was there, and then signaled us: “They are raising the American flag.”

It was crystal clear we had hit friends.

Dozens of shells, rockets and missiles were needed to drag the ship off the water, and the help of my own men who, like the rest of his mates, was bitterly upset at this surprising turn of events.

At the same time, it turned out later aboard employment agency learned that the attacking vessel was the American intelligence boat Liberty.

We received orders directly from the officer commanding the ship to give all necessary help. So we approached the Liberty and offered help, shouting through a loudspeaker.

Then the ship appeared for the first time on the bridge and screamed “Go in hell!”

It seems they didn't want our help.

Learning they did not need us, we left. And the Liberty continued in its regular operation. It seemed any other ship would have sunk.

SPEACESHIP PREDICTED MOSCOW (AP) — Soviet commentator Gherman S. Titov predicted Thursday that a new type of spaceship, a rocket plane—will be used for the men and cargo between earth and orbiting space stations.

Jerome Opposes Airline Cut

JEROME — The Jerome City Council adopted a resolution Wednesday evening opposing the "fly over" or any interruption of service by West Coast Airlines at the Twin Falls Municipal Airport.

Mayor Earl Greenawald directed that copies of the resolution be sent to the Twin Falls City Council and the Federal Aviation Agency.

The council heard a report from Police Chief Clarence Vinyng on the Idaho Peace Officers convention which was held at Mack's Inn, Idaho, Mrs. Mable Beveridge, city clerk, and Mayor Greenawald also reported on their attendance at the Idaho Municipal League

Grant Awarded
WASHINGTON (AP)—The Idaho Foundation for Medicine and Biology, Inc., Boise, has been awarded a \$24,312 Public Health Service grant, Sen. Frank Church, D-Idaho, said Thursday.

convention held in Twin Falls. The council appointed Mrs. Beveridge treasurer, Bill Odermott, public works director, reported to the council that the construction of city streets is 80 per cent complete and the project will be completed in about another 30 days.

CHICHESTER SALUTED
LONDON (AP)—Ships of many nations saluted Sir Francis Chichester on Thursday as he sailed his yacht Gipsy Moth IV up the Thames River for a meeting with Queen Elizabeth II.

Valley Traffic Courts

Fined by Shoshone Justice of Peace C. W. Gwin were Ray A. Moore, Ketchum, \$10 for speeding; Clarence P. Gibson, Rupert, \$25 for driving left of center line, and Wayne K. Nelson, Idaho Falls, \$12 for speeding.

Ted Fio Rito Starts TUES., July 11th

If you've been around for awhile, of course, Ted Fio Rito needs no introduction. You remember him as one of the top composers of the big band age. You remember him as the light-fingered master of the piano, leader of his own top band. For Fio Rito has been a top name in American popular music ever since he wrote his first hit song way back in 1924! Remember Al Jolson singing "Toot Toot Tootsie Goodbye?" Of course you do. Well, Ted Fio Rito wrote it. He wrote "Charlie My Boy," He wrote "Now That You've Gone" and "I Never Knew," "Then You've Never Been Blue" and some dozens of others.
