VOL. 64, NO. 84

TWIN FALLS, IDAHO, TUESDAY, JULY 18, 1967

TEN CENTS

CHERRY PIE TIME has arrived and more than 100 young cherry-pickers were at work Tuesday in the Timms orchard at Washington Street and Falls Avenue harvesting several thousand potential cherry pies. Most of the pickers are high school and college students, although some housewives were picking for canning purposes. Mrs. Judson A. Timms said the orchard of 18 acres producing a good crop, but has been hit by hail and other weather problems.

Engineers Start Probe Of Reservoir Accidents, Work On Project Halted

By BONNIE BAIRD JONES
Times-News Staff Writer
Engineers arrived in Twin Falls Tuesday morning to begin a detailed examination of the disaster-ridden five-million-gallon water reservoir project plans and construction. All work on the construction of the reservoir was at a standstill Tuesday and only authorized persons were permitted on the site. In conference Tuesday morning on the beginning of a study that may take several days were John Morrison of the city's consulting engineering firm, Morrison-Mairele and Associates, Helena, Mont.; Rod Prator, with the same firm, but located in Salt Lake City, Utah, and project engineer Paul Newton, Twin Falls. The firm designated the city's multi-million dollar water improvement project of which the town represents one of several phases. In specifications for the project, the engineering firm called for a five-million-gallon reservoir of steel and concrete construction, Mr. Newton explained. He said the bids were called on this basis. Low bid was from the Crom Prestressing, Inc., Incline Village, Nev., with its own designed gunnite and concrete tank. Specifications for this were then checked by the engineering firm and approved, Mr. Newton said.

Rail Strikers Withdraw Pickets, Trains Running

By The Associated Press
Striking railroad workers generally withdrew picket lines at dawn today, letting the nation's commuter trains roll again in time for the morning rush. Railroads reported a service close to normal, but some delays were noted as pickets lingered. "Things are back to normal," a Pennsylvania Railroad spokesman in New York said. "The crowds are back with us, thank God, and I hope it'll continue this way." The Baltimore & Ohio, however, canceled morning trains between Baltimore and Washington, and the Southern Pacific called off early runs between San Francisco and Los Angeles. A circus train stranded in Phoenix, Ariz., was scheduled to leave for Los Angeles, by noon, one day later. The Santa Fe scheduled a train from Chicago to Los Angeles with a supervisory crew but said it expected to pick up a regular crew in Fort Madison, Iowa, later in the day. Scattered pickets still marched at Milwaukee Road operations in the Chicago area. "I'm not sure if these men haven't been informed the strike is over or if this is an attempt to ignore the federal order," a Milwaukee spokesman said. A New York Central spokesman in Cleveland said a federal court order was being sought to force a big repair facility. Southern Pacific reported it still was being picketed at Tucson, Ariz., but that supervisory personnel had begun to move a few trains. Pickets also marched late at Missouri Pacific facilities in St. Louis. The road said at mid-morning it still was strikebound. Pickets also tied up Chesapeake & Ohio operations in Grand Rapids and western Michigan, and Seaboard Air Lines at Hamlet, N.C., where E. R. Wilbanks, strike chairman, said he would not remove pickets until he received an official court order. In Louisville & Nashville report on RAIL STRIKE, Pg. 2, Col. 5

Calm Prevails After New Jersey Slaying

By ARTHUR EVERETT
NEWARK, N.J. (AP) — Racial calm settled over northern New Jersey today, marked only by the pre-dawn slaying of a Negro motorist and the wounding of a white policeman in Newark where a massive cleanup in the slums was underway. For the first time since last Thursday, this city of 400,000, Newark's largest, was its busy, bustling normal self again. All stores were open, except those selling or serving liquor. Bumper-to-bumper traffic on downtown streets once more was the vogue. The five days of violence that erupted last Wednesday night in Newark had spread to nearby Plainfield, Jersey City, Elizabeth, Paterson and New Brunswick. But in these places, too, calm had been restored. —The fatalities stemming from Negro rioting in New Jersey stood at 27, with 25 of the dead in Newark. A white policeman was killed in Plainfield and a taxicab-passenger died of fire-bombing injuries in Jersey City. Plainfield tested the racial armistice reached after midnight with the release of 12 Negro prisoners seized during Sunday night looting. The dead Negro was identified as Raymond Gilder, 20, of Newark, who fled in a car after he was spotted standing in front of a wrecked store in the Negro section. After a high-speed chase during which shots were exchanged, Gilder leaped from his car and ran down an alley, where he was shot in the back by four pursuing policemen. Police said they found a pistol, knife and a pair of binoculars on his body. A short time later, Patrolman John Romano was wounded in the leg during an exchange of gunfire with several Negro occupants of a car which, according to police, tried to run him down. Newark's business life was on its way back to normal. Some 5,000 New Jersey National Guardsmen were withdrawn Monday, and control of the city restored to the 1,400-man police force.

Adoption Of U. N. Resolution Dubious

By WILLIAM N. GATIS
UNITED NATIONS, N.Y. (AP) — Prospects faded today for adoption by the U.N. General Assembly of a resolution calling for Israeli troops to withdraw from Arab territory seized in the June war. As the vanguard of the 33-man U.N. observer team began surveillance of the "Six-Party" ceasefire line between Israeli and Egyptian forces, an Israeli-Egyptian dispute over Israel's intention to put patrol boats on the canal threatened the operation. Israel claimed it had the right to patrol the waters on the eastern side of the canal. Egypt warned that it would open fire on any boats the Israelis launched. Egyptian Ambassador Mohamed Awad El Zayat said Secretary-General U Thant's letter Israel had placed nine boats on the east shore of the bitter Lake, which form part of the southern half of the canal. Reports in Vienna said Soviet Communist party chief Leonid Brezhnev and Premier Alexei Kosygin urged the leaders of the other European Soviet bloc companies at their meeting last week to contribute more to the war-torn Arab economies but the smaller Communist governments were unenthusiastic. The exchange of 261 Syrian soldiers and 230 Syrian civilians for an Israeli pilot captured by the Syrians during the war, the bodies of two other Israeli pilots shot down June 5, an 18-year-old Israeli civilian who disappeared on a flower-collecting trip last September, and an Israeli Arab who said he was kidnapped from his home in Nazareth almost seven years ago.

LBj Names Board To Solve Dispute

WASHINGTON (AP) — President Johnson named a panel today to try to solve the railroad dispute. He also called for another home-front effort to stimulate employment and opportunities for the poor. In order to avoid what he termed more Watts and New Orleans, Johnson announced her intentions to denounce from Malaysia and Singapore in the 1970s, Johnson said that "we have expressed ourselves as very hopeful the British would maintain their position in that part of the world in order to avoid what he termed more Watts and New Orleans."

Trains Roll Again In Magic Valley

Trains were rolling through Magic Valley again Tuesday as congressional action brought an end to a one-day strike which halted nationwide rail service. In Glenns Ferry, one of the main rail points in Idaho, the city who honored Monday's picket line "pledged to be back to work" and registered their unhappiness at losing pay during the idle period. The engine crews of passenger trains charge at Glenns Ferry, as far as could be determined, no passengers were on a Santa Fe train, Pg. 2, Col. 6

Judge Zoe Ann Shaub Resigns Job

Twin Falls County Probate Judge Zoe Ann Shaub presented a brief letter of resignation Monday to the board of county commissioners. Mrs. Shaub, wife of Dr. Roy Shaub, is resigning effective Oct. 6. Commissioners said they accepted the resignation with regret as the judge has an excellent record as a public official. She is serving her fourth term in office. Mrs. Shaub, who is expecting a baby in October, said she regrets leaving the office but feels being a mother is a full-time job. Recommendations for filling the post are expected from the Twin Falls County-Republican Central Committee and the Twin Falls Bar Association. County commissioners said they would wait for recommendations before making an appointment but would also use their own judgment. Judge Shaub, a former Miss Idaho, was admitted to the Idaho bar in March of 1966. She practiced as an attorney with the office of Rayburn and Rayburn until being elected as county probate judge on the Republican ticket in November 1966 and taking office Jan. 1, 1967. She has been elected to three two-year terms since that time, making this her fourth term of office. For the past six years she served as secretary of the local Bar Association, now the 17th Judicial District Bar Association, and at the present time in vice president. Mrs. Shaub also is active in the Idaho Probate Judges Association and the National Council of Juvenile Court Judges.

Arab, Algeria Chiefs End Talks

AMSCOW (AP) — Arab president Gamal Abdel Nasser of Egypt and Algerian President Houari Boumedienne said both presidents were flying to Cairo aboard the same plane. There was no Soviet announcement on the talks during the 21 1/2-hour visit there by Boumedienne and Arel.

Congo Prepares To Hunt Down White Mercenaries

By ARNOLD ZEITLIN
KINSHASA, the Congo (AP) — The Congo's government made preparations today to hunt down its mutinous white mercenaries with paratroopers aided by foreign African pilots and U.S. Air Force transports. Reliable sources said 150 Congolese paratroopers trained by Israel were flown in American C-130s to Kinshasa, formerly Stanleyville, the northern city from which the mercenaries and rebellious Katangan troops fled July 13. The sources said Congo has sent three pilots to fly the Congo's 728 propeller-driven fighters, and President Joseph Mobutu's government has asked Kinshasa to lend it two jet fighters and seven more pilots. Mobutu also is expecting help from the Ethiopian air force. The mercenaries reportedly have retreated to the plantation of their Belgian leader, Maj. Jean Schramm, in a tropical rain forest, 155 miles southeast of Kinshasa. They are estimated to include 50 to 100 white and 200 to 800 Katangans. The rebellion began July 5 after Moïse Tshombe, the ex-premier and Katangan leader, was kidnapped in a hijacked plane to Algeria and the Congolese government asked for his extradition so it could execute him. The mutiny collapsed when the mercenaries, opposed by Congolese troops and receiving little support from white officers, withdrew from Kinshasa and Bukavu, another principal capital on the Congo's eastern border. Congolese troops went on a rampage of looting and random killings. They recaptured all of Kinshasa, and the city was still without normal communications with the rest of the Congo on Monday.

Governor Orders Commission To Act On Decrease Of Game Population

BOISE (AP) — Idaho Gov. Don W. Samuelson said today he had given the Idaho Fish and Game Commission until Aug. 1 to come up with plans to curb an alleged decrease in big game population. At a news conference, Samuelson said a decline in game population was the basis of his criticism of the commission. The chief executive said that shorter hunting season for deer and elk would be a step toward halting the decline of the state's big game. Shortly after taking office in January, Samuelson said he favored some changes in the Fish and Game Commission. He said today he had given the commission until Aug. 1 to act. He did not indicate what would happen if the changes have not been made. The governor said that "many packers and gliders" had told him that game in Idaho was being hunted more and more scarce. He said they felt the season length of three months for deer and elk was the reason for the game decline. "The length of our game season is of great concern to me," Samuelson said, "I favor a shorter season." The chief executive said that Washington and no Israel Arab hunt game season of 30 days and they kill more deer and elk in 30 days than we do in Idaho in three months. Samuelson said with "good management" the game population could be built up. On other topics, the governor said: —He has received no word from the Federal Home Loan Bank Board as to approval or disapproval of a proposed sale of \$8.3 million in loans and tangible assets of the defunct Idaho Savings and Loan Association in Equibelle Savings and Loan Association of Portland, Ore. —"People who are concerned about the use of unmarked currency are responsible for fire protection in timber areas around the Dworshak Dam in North Idaho. —U.S. Office of Civil Defense and the Bureau of the Census are beginning a survey of fallout shelters in Idaho homes.

PROBATE JUDGE ZOE ANN SHAUB circled Oct. 6 as the final day she will spend in court—at least as the judge. Mrs. Shaub has served as Twin Falls County Probate Judge since January of 1961 and will leave Oct. 6, near the end of her fourth term in office. Judge Shaub plans to give up a busy career for a full time job as wife and mother.

Burley High School Conditions Outlined

BURLEY—The Burley League of Women Voters released Monday a written report of their findings of the conditions of the Southwest School and the Burley High School.

The League is studying Cassia County Schools and last month passed a resolution that the Burley Junior High School, Miller School, Declo Elementary School and Overland Elementary School.

The local study item committee includes Mrs. Don Beckham, chairman, Mrs. Forrest Hall, president, and Mrs. Rex Hamblin, secretary.

At a meeting in the garden at the home of Mrs. Horace Hall, 2154 Overland Ave., Burley, Mrs. James Gabettis reported on the facilities of the Southwest School. The school was built in 1920, and at 47 years of age is one of the better elementary schools in the county. It holds about 415 students from grade one through five.

The sixth grade students from the area have been jammed into the Junior High School. The LDS Seminary building and a temporary building at the rear of the Junior High School.

The basement multipurpose room and the auditorium have had to be divided into classrooms.

The lunchroom is occupied from 7 a.m. to 3:15 p.m. for food preparation; from 11:30 a.m. to 12:20 p.m. for serving lunch and from 12:20 p.m. to 2 p.m. is used as a library. Federal funds have greatly assisted the library program.

The outer office is used for supplies, mimeograph, etc., and from 12:45 to 3:30 p.m. as classroom for speech therapy, subject to a steady stream of interruptions.

The hallways are used for showing films, PTA meetings, teacher preparation, and the

Demand For Water Light This Summer

Business for the Twin Falls city water department just isn't holding up to regular standards this year, Kenneth Leazer, superintendent, reported Tuesday.

Cool wet weather during the past months cut water demands, Mr. Leazer said, and the product "just isn't selling."

During June the total water use reached 174,891,260 gallons, compared to 229,243,100 in June of 1966.

For April and May the city used about 168,000,000 gallons less than in the corresponding months of last year.

Peak days this year reached about 11,000,000 to 12,000,000 gallons of water, but there have been only a few peak days, Mr. Leazer said, with rain storms cutting into water demands throughout the spring and summer months.

Birth Control Program Is Suggested

WASHINGTON (AP)—A \$230-million, five-year birth-control program for low-income families was recommended Monday by a panel of the President's Council on Education and the Public Health, which described it as fundamental to a total war against poverty.

Paul H. Todd Jr., chief executive officer of the President's Council on Education and the Public Health, said that the program is essential to help poor people aren't free to register their families because of financial, geographic or educational limitations. He said Congress could make a major contribution by designating family planning as a national program and earmarking the necessary funds.

The committee is conducting hearings on the administration's proposal to authorize \$2.08 billion for its anti-poverty program, of which the \$230 million is earmarked for birth-control services for the poor.

Flying Saucer?

LONDON (AP)—From Switzerland to Britain, night sky watchers reported today a new "flying saucer" sighting. The sighting was expressed belief an artificial satellite had broken up.

The fireballs traveling at 40,000 m.p.h. were reported around 1:15 a.m. from Geneva, Strasbourg, Paris and the Kentish coast of England.

The Royal Air Force at Manston, in Kent, said what looked like a ball of fire probably was a man-made space hardware breaking up as it re-entered the earth's atmosphere.

Eric Swales, Coast Guard chief at Deal, spotted several objects through his binoculars and agreed with the satellite theory. Swales said his radar was flooded with telephone calls, mostly from people fearful that an alien liner was crashing.

Iron Shells Cheaper Than Copper Ones

By **BOB HORTON**
WASHINGTON (AP)—The Pentagon wants to bomb Vietnam with more iron and less copper.

It's a matter of economics. Copper is much more expensive than iron and the United States has been investing quite a lot of the metal around Southeast Asia in the form of artillery shells and small arms rounds.

Pentagon spokesmen say that in the case of larger shells—the 90mm and 160mm and 155mm—about two pounds of copper is expended per shot. Virtually all of this is in the shell's rotating band, which metallurgists believe can just as well be made of iron.

Lesser amounts of copper are used in small arms projectiles and in the internal works of artillery shells.

According to the Pentagon, U.S. forces in Vietnam fired roughly 15 million rounds of 90mm, and 155mm, artillery shells between January 1966 and last May.

At two pounds of copper per shell, this indicates the United States shot off roughly 30 million pounds of copper in an 18-month period.

Pentagon spokesmen say defense supplies currently pay about 38 cents per pound of copper either from government stockpiles or from domestic producers. This is two cents higher than the year's price.

Just by saving two cents per pound through iron substitution the Pentagon could, at current consumption levels, save \$32,000 a month or \$384,000 a year. Actual cost figures for the iron still are indefinite.

Reduction of copper in weapons consumables also would help ease the drain on government-owned copper stockpiles.

The General Services Administration says there is no shortage of copper. But its figures show a severe decline in copper stockpiles the past two years.

Pre-Achievement Day Slated Soon

KING HILL—Elmore County 4-H'ers are urged to attend the Pre-Achievement Day Thursday at the Mountain Home Junior High School.

The event begins at 10 a.m. with a picnic slated in the Mountain Home Park. Each club will join for a potluck picnic. Home economics leaders in the county will show members how they can improve their projects for the Elmore County Fair, Aug. 10-13.

A judging contest is scheduled with awards going to the top three projects in hort and garden divisions. Mrs. Virginia Anderson will be in charge of the judging contest.

Louise Anderson and Mary Hanks, both Glenns Ferry, and Phyllis Lord, Mountain Home, will instruct girls in modeling their projects and preparing the style show at the fair.

Picnic Set

BURLEY—Annual picnic of the Burley Methodist Church will be held Friday afternoon at Salmon Park. Drinks will be furnished. Those attending should bring food, table service and sufficient equipment. The public is invited to attend.

Future Of Agriculture To Be Topic At Annual Heyburn C. Of C. Banquet

HEYBURN—The Future of Agriculture To the Year 2000 will be discussed by Paul A. Johnson, field sales manager for the Central District of Ford Motor Co.'s U. S. Tractor and Implement Operations, during the annual banquet of the Heyburn Chamber of Commerce to be held 7:45 p.m. Thursday at the Ponderosa Inn.

The event is expected to be the most widely attended banquet meeting in the history of the local chamber, according to Bob Burnham and Mrs. Dorothy Elison, committee members.

Eric Swales, Coast Guard chief at Deal, spotted several objects through his binoculars and agreed with the satellite theory. Swales said his radar was flooded with telephone calls, mostly from people fearful that an alien liner was crashing.

The speaker's subject has been in preparation by the Ford Motor Co. for two and one-half years. Mr. Burnham said that he and his wife, Dorothy, have a "first look" at this material, which has been prepared for a meeting of the National Farm Management Institute this coming October.

Mr. Johnson has been a field sales manager for the tractor and implement operations headquartered in Denver, Colo., since Sept. 1966. He joined Ford in early 1964 after serving as general sales manager of the Merdly & S. B. Co. a Distributing Corp., Denver, former Ford Tractor distributor. Prior to that he was assistant general sales manager of the Washington Tractor and Equipment Co., Fond du Lac, Wis.

A native of Mt. Vernon, Mo., he holds a bachelor of science degree from the University of Missouri, where he served as agriculture. He has served as vice president of the Sales and Marketing Executives of Denver.

Anyone interested in attending should secure tickets early from the chamber offices; the meeting will be limited to the capacity of the dining room. Local tickets may also be purchased from the chamber.

Megatonnage Gap

A group of prestigious retired military men reports a "massive megatonnage gap" is approaching. The group contends the United States will lose its lead over the Soviet Union in terms of deliverable nuclear punch this year. The nation cannot disregard the advice of such warfare experts as Gens. Schriever, Le May, Paul D. Adams, former commander of the U.S. Strike Command; Thomas S. Power, former commander of Strategic Air Command; Adm. Robert S. Dennison, former commander of the Atlantic Fleet, and Dr. Edward Teller, nuclear scientist.

Last Chance

Railroads haven't given up, and recent experiments in New Jersey, Massachusetts and New York indicate they have at least one more chance to regain some of the more than 50 per cent loss of passengers since World War II. A commuter train designed to travel 150 miles an hour will begin runs between New York and Boston Oct. 23, and the Pennsylvania Railroad has invested an estimated \$35 million to upgrade 226 miles of track between Washington and New York. The Department of Transportation has contributed \$9.6 million as its share in the modernization.

Views of Others

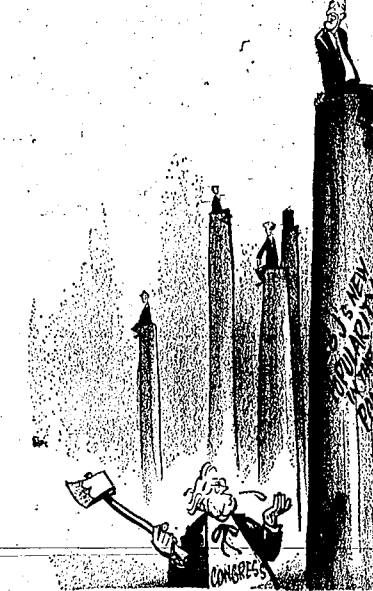

Opinions of Guest Editors

A NEW ALTERNATIVE TO FLUORIDATION. A multi-experimental technique, not yet recommended for general use, may eventually offer the most effective preventive of dental decay. Two dentists at Rochester, N.Y., have conducted a two-year study of a technique that involves coating the teeth with clear plastic. Preliminary results are encouraging. The study showed an 80 per cent decrease in tooth decay.

WASHINGTON—It is difficult to believe the pompous assurances of Washington's anarchic School Committee that a number of "prominent educators" are seeking the vacant superintendent of education post. Even a pedagogue of minimal brain capacity must regard the post not as a challenge but as a trap.

Two points in Wright's decree reveal the virtually unmovable obstacles placed in the path of the educator unlikely enough to be named Hansen's successor: Wright declared that de facto segregation which results from spontaneous population patterns rather than from administrative design is as unconstitutional as officially sanctioned segregation.

"Woodman, Spare That Tree!"

Marquis Childs

Mideast Settlement Not Easy

WASHINGTON—Far from beginning to settle the dust in the Middle East hangs so heavy in the air that troubled policy-makers here see no peaceful resolution of the Israeli-Arab hostility. The great sweep of Israel's blitz victory still dominates world opinion and in Washington there is in the background the horrendous thought of the demands this country would have to face if the war had gone the other way.

JAMES MARLOW

No Stalemate

WASHINGTON (AP)—Take your choice between slow and tremendous. When Robert S. McNamara, secretary of defense, went to Vietnam last week to confer with American commanders in chief, Gen. William C. Westmoreland, the general told him: "The war is not a stalemate. We are winning slowly but steadily."

BRUCE BOSSAT

You Can't Ignore History

WASHINGTON (NEA) — In their lust for living in the present moment, many young Americans have forgotten that history is not a dead subject. The nation seems to be that history is the end product of the actions of the past.

WAYNE BRANDSTADT, M.D.

Safety Skiing

One of the fastest growing sports today is water skiing. You, too, will be for it. You will depend on how closely you follow the instructions of the "instructors," other boats or even spectators on the beach.

INDICTMENT OF CUBA

Acting on Venezuela's well-established charges, the council of the Organization of American States has today voted and voted for an inquiry into the effects of Castro interventionism. Venezuela accuses Castro of luring Cuban officers with Venezuelan revolutionaries and then doctored military reaction, which is not even Venezuelan property. And yet there is some reason for the American reaction.

The Salmon Tract Homemakers Club will meet at 2 p.m. Wednesday at the home of Mrs. Bruce Kunkel, with Mrs. Beryl Kunkel as co-hostess. Mrs. David Lohr will present the lesson, "Paper Mache and Pouring Resin."

Garnish Topic Is Discussed

BUHL — "My Favorite Garnish" was the topic of discussion for the members of the Sewing Long Club when the group met for the regular meeting at the home of Mrs. Gary Post.

The current event was given by Mrs. Bill Lemons. Mrs. Harry Eslinger reported on the county council meeting.

Mrs. Earl Meier and Mrs. Greg Wasiko attended the leader training lesson which was held the first week in June.

After the business meeting, a lesson, "Serving Food Attractively," was presented by Mrs. Meier and Mrs. Wasiko. A prize was won by Mrs. Eslinger and Mrs. Post served refreshments.

MR. AND MRS. IRA TRANTHAM

60th Wedding Anniversary Open House Set

RUPERT — Mr. and Mrs. Ira Trantham will observe their 60th Wedding Anniversary July 23 with an open house at the home of their son and daughter-in-law, Mr. and Mrs. Dale Trantham, 305 S. C St., Rupert.

The couple will receive friends between 2 and 5 p.m. Mr. and Mrs. Trantham were married July 21, 1907, in Montpelier, Mo., by Rev. John Count.

They have been lifetime members of the Christian Church. They moved to Rupert in 1934 and Mr. Trantham retired until his retirement when they moved into town. They are the parents of one daughter, Mrs. Hearnin (Ione) McQuin, Halley; and three sons, Basil Trantham, H. W. Trantham and Dale Trantham, all Rupert. They have four grandchildren and three great-grandchildren.

Bliss Ladies Aid Convenes

BLISS — The Bliss Ladies Aid met recently at the home of Mrs. Harold Hainline. Mrs. Ruth Parsons was in charge of the devotional service.

It was decided to purchase curtain material for the church basement. The afternoon was spent quilting and doing handiwork.

Mrs. Hainline served a lunch. The July 27 meeting is at the church with Mrs. Mervin Ledig as hostess.

Open House Set

GEROME — Mr. and Mrs. Richard W. Hargrave, Jerome, will be feted at an open house in honor of their Golden Wedding Anniversary from 3 to 6 p.m. Sunday at the Handy home, South Fillmore. The event will be hosted by the couple's daughters.

15-Year Pins Presented At Rebekah Meet

BUHL — Fifteen-year members, Mrs. L. D. Major, Mrs. Minnie Rodi, Mrs. M. A. Kacalok and Mrs. C. W. Beans, were each presented fifteen-year pins when members of the Buhl Rebekah Lodge met for their regular meeting.

Mrs. Major, noble grand, was presented in a special ceremony with Mr. Major having the honor of pinning on her fifteen-year pin.

A letter of resignation from Mrs. Chester Partin, vice grand, was read, and Mrs. Maurice Currington was nominated for the office. The election will take place at the first meeting in September.

Mrs. Paul Kennedy and Mrs. Leland Hudson took part in the birthday march and each received a gift from the noble grand.

It was reported that Mrs. Adolph Machacek made her official visit as district deputy president of the Rebekah Assembly of Idaho. She gave instructions to the lodge and was presented a corsage as a gift.

Hostesses for the meeting were Mrs. Mike Kambrich, Mrs. Inez Post, Mrs. Harvey Bickelhaup and Mrs. Kathryn Hoelzle.

Contribution Made By Area Women's Unit

SHOSHONE — Members of the Women's Missionary Council of the local Assembly of God Church voted to contribute \$10 to the Juneau Alaska Children's Home for a memorial to a man who is deceased. They also voted \$10 to a missionary.

At the meeting held at the church, Mrs. Frank Lane led songs, Mrs. James Paton was the devotionalist.

A letter was read from a missionary in the Congo and from the Cuban Refugee Center, Miami, Fla.

Report was made that clothing is needed at the State School, Nampa. Activity report showed 12 get-well and sympathy cards sent. Calls made, 116 pieces of gospel literature distributed and 12 bouquets of flowers sent.

Chapter two in the book, "He is in Heaven," was read. This is the story of a missionary who was killed two years ago in an uprising in the Congo, written by his wife.

would like to go to members of my family. My husband is not the kind of person who would carry out my wishes, even knowing what they were. I don't want to cause a row, but I would feel better knowing that if I went first, my few personal things would go in those I want to have them. How can this be arranged? I'll be watching for your answer ANXIOUS

DEAR ANXIOUS: It's as easy for you to draw up a will as it is for your husband. You need only spend a few minutes with your lawyer.

CONFIDENTIAL TO "SICK INSIDE": Yes, tell the girl's parents what you have seen with your own eyes. It would be a kindness. Wouldn't you want to be told it she were your daughter?

Troubled? Write to Abby, Box 9700, Los Angeles, Cal. 90009. For a personal reply, enclose a stamped, self-addressed envelope.

TWO MEMBERS OF Phi Theta Kappa, Larry Weeks, left, and Bruce Wojcik, check over one of the tables that will be used in a forthcoming fund raising project. The fraternity is planning a pastry booth in the style of an Italian sidewalk cafe Thursday, Friday and Saturday at the Lynwood Shopping Center. Six large tables will be used for the customers' convenience, all decorated in an Italian motif. Pastries will be donated by three homemakers clubs, five junior leader 4-H clubs and the American Association of University Women. Proceeds from the pastry booth will be used for scholarship funds and educational activities at the college. Soft drinks and coffee will be served along with pies, cakes, cookies and breads. Joan Edwards is president of the group and Mrs. Marlon Tanner and Mrs. Marshall LeBaron are group advisers.

By ABIGAIL VAN BUREN
 DEAR ABBY: Do you think the mother of small children should insist that the little dears kiss everyone in the room, including a stranger who just happens to be there? I know such a mother, a sweet person, and she has adorable children. But is it right to impose them on other people that way?
 As for me, I do not appreciate a kiss from a child that has come as a result of a "command." And I wonder if the children really want to kiss a wrinkle-faced stranger? What do you think, Abby?
 OLD FOGEY

DEAR FOGEY: Children do as their are taught. I appreciate the feelings of a mother who wants so desperately for her child to be liked and accepted that she instructs the child to kiss in order to be kissed and adored in return. It's rather a harmless gesture unless there is an exchange of germs, or I see your point, and think it is well taken. A kiss should be spontaneous and sincere.
 DEAR ABBY: I am 63, have

been widowed for 18 years, am in excellent health, and I live with my mother, who is 90. For the past two years I have been living with a bachelor, 64. Spencer and I have everything in common, and he wants to marry me, but believe it or not, I have a mother problem! Mother and I have lived together for 19 years and she doesn't want to "lose" me. She waits up for me and gives me the dickens if I come home "late." ("Late" is past midnight.) When Spencer comes over, mother keeps calling from upstairs for me to come to bed. She says the neighbors will talk if he stays too late. I feel like a school girl.
 I want to marry Spencer, but I can't leave mother, and she says she doesn't want a man in the house. What should I do?
 TRAPPED

DEAR TRAPPED: It seems to me that a 63-year-old woman is entitled to live her own life. But if you actually believe that you can't leave your mother, then you really can't. Too bad Spencer doesn't have a friend for your mother. I suspect your mother wouldn't object to having two men in the house. Only one.

DEAR ABBY: My husband and I are getting along in years. He made out a will, but I have none.
 But what if I die first? Everything will go to him, and there are a few personal things I

THE END
 The work stoppage is over. Everyone's back on the job (and smiling), and West Coast Airlines is back on schedule, offering our regular, everyday extraordinary service to 60 cities throughout the Northern West. And, of course, our regular, fast telephone-reservations service, too. If you were inconvenienced during the recent disruption in our years, we'll make amends on your very next trip. Just give us a fly sometime. Sometime soon! **WEST COAST AIRLINES**

Downed Navy Pilot Has Miraculous Rescue

SAIGON (AP)—Lt. Cmdr. Demetrio Anthony Verich dodged two flaming SAM missiles and banked toward the North Vietnamese rail yard that was his target. A third missile thudded into his Crusader engine and blew the tail off.

The plane flipped over Monday and dove for the ground 5,000 feet below at 400 miles an hour.

The stocky 35-year-old bachelor from Laona, Wis., popped his ejection seat and chute opened when he was about 1,000 feet up. Ground fire zipped about him and he drifted toward the billowing fireball from his own crash site.

Verich had been shot down just a year ago on his first tour in Vietnam with the carrier Oriskany. That time he was picked up just off the coast with Red mortar shells dropping into the water all around him. This time the coast was 40 miles away and his luck seemed to have run out.

After a night hiding out on a North Vietnamese hillside, a helicopter lifted the pilot to safety Monday with Communist fire zipping around him while other Communist MIGs flew off three Communist MIGs.

Verich told a news conference in Saigon today that he landed on the hillside covered with brush, tangled trees and vines that rose 30 feet overhead. A few hundred yards downhill he could hear firing and North Vietnamese calling to each other.

"I lay low and covered myself up with branches," he said.

He tried to move himself each night to a safer area — he could hear voices about 100 yards away. But he would find the water had frozen and he would break a leg. He covered himself up again after moving only 20 feet.

DRINKING COFFEE at a news conference, navy Lt. Cmdr. Demetrio Anthony Verich tells how he parachuted to safety after his plane was hit by a SAM missile over North Vietnam. It was the second time Verich, Laona, Wis., had been shot down in Vietnam. (AP wirephoto via radio from Saigon)

Idaho News

TOUR PLANNED
BOISE (AP) — Members of the Idaho Land Board will observe forest management practices in the southern part of the state Wednesday and Thursday.

Idaho Land Commission member Gordon-Trombley said Monday that the board will make a trip to the Garden Valley-Lowman Idaho City area north of Boise.

Members of the land board include Gov. Don W. Samuelson, State Auditor John Williams, Atty. Gen. Allan G. Shepard, Secretary of State Pete T. Cennedy and Superintendent of Public Instruction D. F. Engelking.

SINGER FINED
BOISE (AP) — A leader of a nationally famous singing group was fined \$95 in Ada County Justice Court Monday for a traffic offense and warned to "slow down because you set an example for the younger generation."

Mark A. Lindsay, 25, Beverly Hills, Calif., a member of "Paul Revere and the Raiders," was fined \$35 on a basic rule violation charge by Justice Frank Chalfant Jr.

He was arrested Sunday evening and accused of driving in excess of 80 miles an hour on a county road near Boise and pleaded guilty to the charge.

Inspection Of Vehicles Is Discussed

WASHINGTON (AP) — Although it is likely you will not have to submit to periodic inspections of your car or truck because of a new law, a study will be shortened by the experience.

A panel of scientists, in a report by the Space Science Board of the National Research Council, said Monday such inspections will be shortened by the experience.

That's the conclusion of a group of researchers at Arizona State University, where a study of motor vehicle inspections was made under an AAA Foundation for Traffic Safety grant.

The researchers conceded that available data does "lean in favor of motor vehicle inspection as a means for accident reduction." But they emphasized there was no real proof to that effect.

Compulsory periodic vehicle inspection has become a federal requirement under a 1966 act. Presumably, such inspection was required by only 20 states and the District of Columbia.

Projects Viewed

BOISE (AP) — The Idaho Permanent Building Fund Advisory Council plans to consider several new projects at a Tuesday meeting called by Chairman James McClary of Boise.

He said plans to be presented include a new classroom building at the Idaho school for the Deaf and Blind at Gooding, a classroom and library at the State Youth Training Center at St. Anthony and for a State Department of Agriculture weights and balance building.

The State Parks Department was also expected to present proposals for facilities at two approved state park sites, the Brunson Park in Reynolds County and one near Winchester in north Idaho.

Firms Negotiate

BOISE (AP) — Boise Cascade Corp. President R. V. Hansberger said Monday his firm was negotiating a merger with an Indianapolis, Ind., land development company.

Hansberger said the merger of Boise Cascade with U.S. Land, Inc., would be through an exchange of common stock.

"The growing demand for leisure living will all the conveniences of a city provides an attractive opportunity for Boise Cascade to diversify its capability in the sheltering field," said company vice president H. W. Hurlbald.

U.S. Land's 1967 sales were expected to exceed \$20 million, Hansberger said, with the firm specializing in lake-front resort-type housing developments near large metropolitan areas.

Trains Return

RODHIGAYA, India (AP) — Steady monsoon rains returned to Bihar State Monday for the first time in three years, but famine will continue in the area at least until the harvest late this year.

Mines Explode

FORT WALTON BEACH, Fla. (AP) — A box of mines exploded in the face of an Air Force demolition expert Monday and blinded him.

The mines, collected from North Florida shores where they were accidentally scattered Sunday, detonated in the face of S. Sgt. Johnny B. Brady, 37.

Officials said Brady was blinded, suffered ear damage and facial lacerations. An Eglin Air Force Base spokesman said, "We don't know if his blindness is permanent or not."

Brady was one of a task force of servicemen and deminers who scoured 120 miles of shore for the tiny explosives.

Rusk Speaks On Situation In Hanoi

MIAMI BEACH, Fla. (AP) — Secretary of State Dean Rusk says, "If we could get any response from Hanoi there would be a green light."

"We are not asking North Vietnam to surrender a single acre of ground," Rusk told an International Longshoremen's Association Convention Monday.

"All we are asking them to do is stop shooting at Laos and South Vietnam for the purpose of taking over these countries by force."

"We are prepared to move for peace at any time that we can find anyone from Hanoi to talk about peace. No one has yet been able to produce a North Vietnamese anywhere with whom we can talk peace."

Rusk suggested: "Let us reduce the violence by mutual action. Let us demilitarize the demilitarized zone. Let us stop the fighting in Laos and stop the infiltration through Laos. Let us exchange prisoners of war. Let us guarantee the neutrality of Cambodia."

The secretary continued, "Almost anything we do is escalation. Almost nothing that we do is de-escalation. The North Vietnamese forces are in Cambodia at least in division strength. But if we were to pull a company of our own men across the border to find out about these people, there would be screams of escalation."

Tries New Sport

He soared — 70 feet — and remained airborne 10 minutes during his initial attempt at a water ski club event of London Friday.

Loan Approved

WASHINGTON (AP) — The World Bank announced Monday that it has approved a loan of \$10.5 million for the modernization of industry in Yugoslavia.

South Vietnam Has Police Alert After Action Of Election Unit

By BARRY KRAMER

SAIGON (AP) — South Vietnam's military junta ordered a police alert troop alert today after the Provisional Assembly's election committee refused to certify the military presidential ticket headed by Chief of State Nguyen Van Thieu. The alert was canceled after two and a half hours.

Premier Nguyen Cao Ky is Thieu's vice presidential running mate in the Sept. 3 elections.

The committee's action threw the military ticket to the full assembly, which was expected to give the Thieu-Ky candidacy the green light. Candidates must have the assembly's approval to run, and the Thieu-Ky camp is thought to have 84 of the 117 votes in the assembly.

The military police alert appeared to be a warning to the assembly that should it try to block the military ticket, the junta might halt the process toward an elected government.

The election committee was reported rejected because neither Thieu nor Ky appeared before it Monday night to answer complaints against their candidacy. The committee's vote against recommending the ticket was 8-4.

Several prominent women mentioned in speculation as possible treasurer have obtained other jobs. These include former Sen. Maurine Neuberger, D-Ore., Miss Genevieve Blatt, former secretary of internal affairs for Pennsylvania, and Mrs. Marjorie Lawson, a former District of Columbia judge.

The last man to hold the job — and he was treasurer for 16 years — was W.A. Julian, who died in 1949.

His successors were Georgia Neese Clark, Ivy Baker Priest, Elizabeth Rudel Smith and Mrs. Granahan in that order.

U. S. Treasury Position May Be Taken From Women

By JOSEPH R. COYNE

WASHINGTON (AP) — An 18-year tradition that a woman be treasurer of the United States Treasury may be ending.

It's been nine months since Mrs. Kathryn O'Hay-Granahan, a former member of Congress from Philadelphia, resigned as treasurer because of ill health.

Her signature however, still appears on the lower left corner of all new paper money. It will remain there until her successor is named.

Government insiders now say the job will go not to another woman — the last four treasurers have been women — but to William T. Howell, a career Treasury Department employee who is now deputy treasurer. He has been acting treasurer since Mrs. Granahan's retirement last Oct. 13.

Department officials reportedly have recommended Howell for the \$25,850-a-year post.

Under present law, the treasurer is appointed by the President and confirmed by the Senate. But there have been reports the post might be placed under civil service.

Church Presents Land Rights Bill

WASHINGTON (AP) — Sen. Frank Church, D-Idaho, introduced a bill Monday extending a law which may help persons retain permanent homes built on unpatented mining claims.

The Idaho senator said the present law would expire in October unless it was extended — and the amendment would extend one year after a final review by the public land law review commission.

PARTNER GETS CHANCE TO ERR

A good bridge player knows when it is imperative that he shift to a new suit. An expert goes one step further and selects the right card.

West made his normal lead... He rose with his ace of clubs and led the seven of spades. This time was played from dummy and East won the trick with his ace. Then it was East's turn to think. The seven of spades looked like the top of a doubleton. In that case West had probably led the spade to get East to turn a heart. South would have held a good 10-point no-trump with the kings of spades and hearts, the ace-queen of diamonds and king-jack of clubs. So East had a heart and South ran off with the rest of the tricks.

If West had been a great expert he would have remembered that any time you give your partner a chance to go wrong he may go wrong. Then he would have realized that the lead of the king of spades would be foolproof and West would have led it.

of the fourth best heart against South's three no trump contract. East played the jack and South won with the king. Most players false cards suits automatically with the ace because play is not likely to fool a defender. The simple play of the king may. You can see that South can run eight tricks but needs nine. South was well aware of this one trick shortage and decided to go right after a club trick. Therefore he led the three of clubs toward dummy at trick two.

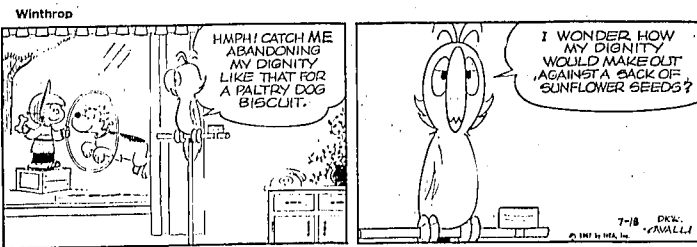

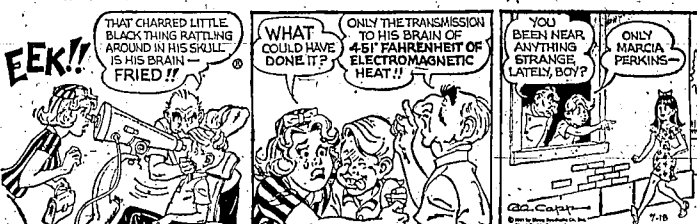

West was also able to count to eight. He was certain that those six diamonds were all tricks and he knew about the

Hypnotism Is Not For Parlor Games

Frankly, we'd sooner step into a lion's cage than permit any casual party acquaintance, amateur professional entertainer, to hypnotize us.

What makes us so spooky of hypnosis? These true cases stir our fear:

1. A young man consulted a hypnotist for a bad speech impediment. He lost his stammer almost immediately, tried to choke a kindly old man, and a 13-year-old lapsed into hysteria and coma after being convinced in a school hypnosis demonstration that snakes were attacking her. Her anguish required long-term psychiatric care.

2. A woman hired a hypnotist to help her stop smoking. She immediately began to eat compulsively, lost her stammer, and was hospitalized for hysteria and coma after being convinced in a school hypnosis demonstration that snakes were attacking her. Her anguish required long-term psychiatric care.

3. A woman hired a hypnotist to help her stop smoking. She immediately began to eat compulsively, lost her stammer, and was hospitalized for hysteria and coma after being convinced in a school hypnosis demonstration that snakes were attacking her. Her anguish required long-term psychiatric care.

Basicly there's no clear understanding even today of the why and wherefore of hypnosis. In the nearly 200 years since William Crookes first used it to insure the desired reaction each and every time. A trained doctor can handle variable; a non-medical hypnotist cannot. There are, of course, legitimate medical uses of hypnosis, most commonly in lieu of anesthesia before dental procedures. A good medical man runs extensive tests before declining to give even banish pain or distress by hypnosis. He knows that a facial tic, a speech impediment, etc., may be "fascily" solved, but in severe, but hidden emotional ills, he's equally aware that a headache may be the all-important symptom of a tumor or other sub-strata medical problem.

Livestock

OGDEN - Cattle and calves 60, including 50 calves; slaughter steers and heifers fairly active, fully steady.

CHICAGO (AP) - Wheat and corn futures advanced up to 2 cents a bushel on the Chicago Board of Trade today.

Table of livestock prices: Cattle, calves, hogs, sheep, etc.

Grain

CHICAGO (AP) - Wheat and corn futures advanced up to 2 cents a bushel on the Chicago Board of Trade today.

SEATTLE

Table of grain prices: Wheat, corn, soybeans, etc.

Business

By JOHN CUNIFF AP Business Analyst NEW YORK (AP) - For many railroad passengers, computers especially, this week's strike was another unpleasant episode in what has become a series of transportation crises and disruptions.

WASHINGTON (AP) - The Air Force soon plans to begin training pilots for the F-111A, a new version of the conventional TFX.

WASHINGTON (AP) - The Air Force soon plans to begin training pilots for the F-111A, a new version of the conventional TFX. The Pentagon said Monday that the F-111 will be used only at the Air Force Base, Nevada, where it will be the swing-wing, supersonic warplanes already is on hand.

Radio, Antennas Are Stolen Here

Thief of one communication radio and two antennas was under investigation Tuesday by Twin Falls city police.
Dr. J. H. Neely said a radio was taken from his automobile while it was parked at 800 W. Monte Drive during the week-end.
