

Infantry Camp Hit By Reds

By GEORGE MCARTHUR SAIGON (AP) — Communist gunners unleashed a heavy rocket and mortar attack on an American infantry camp and adjoining airfield north of Saigon today, killing 11 U.S. soldiers and wounding 43.

At the same time two nearby South Vietnamese installations came under similar attack. South Vietnamese headquarters did not announce military casualties, but said three civilians were killed and 13 wounded in one of the barracks.

Ground action continued light, as it has been for almost a month, and the scarcity of major action was reflected by a slight decline in the weekly casualty figures. The U.S. Command said 164 Americans were killed last week and 1,442 wounded, compared with 175 killed and 1,443 wounded the week before. South Vietnamese losses were put at 183 dead and 2,923 wounded compared to 202 killed and 543 wounded the previous week, while 1,702 Communists were reported killed, a drop from 1,668 a week earlier.

On the political front, the South Vietnamese government announced it has asked the United Nations to send observers for the presidential and senatorial elections Sept. 3 to "testify to our determination to hold free and honest elections."

The Communist mortar and rocket assault hit the headquarters of the 1st Infantry Division's 1st Brigade at the airfield at Phuoc Vinh, 35 miles north of Saigon, about four hours before dawn.

U.S. Command said there was light damage to installations and equipment at the airfield — a relatively small loss, but with spotter planes, helicopters and troop transports.

The Red gunners used mostly light mortars in their attack, and a relatively small number of spotter planes, helicopters and troop transports.

The Red gunners used mostly light mortars in their attack, and a relatively small number of spotter planes, helicopters and troop transports.

GETTING HIS FIRST look at his new quarters at the Twin Falls National Guard Army is "Big Scoot," lead horse for the famous Budweiser Clydesdale special-horse hitch. The colorful horse will be performing at the Frontier Days rodeo in eight-hour stunts Friday, Saturday and Sunday nights and will parade in the Saturday Frontier Days parade. The 10 plant horses, each weighing more than a ton, are on display at the army in specially constructed stalls which travel with the team.

Rivers System Approved By Committee

WASHINGTON (AP) — A bill setting up a national wild and scenic rivers system has been approved by the Senate Interior Committee.

Its chief sponsor, Sen. Frank Church, D-Idaho, predicted prompt Senate approval.

The bill designates portions of the Middle Fork of the Salmon River and the Middle Fork of the Clearwater and its tributaries in Idaho as wild rivers in free-flowing conditions. It also designates the main stem of the Salmon to be studied for possible inclusion in the system.

Other rivers designated wild are the Rogue and Illinois, both in Oregon; the Rio Grande in New Mexico; the St. Croix in Wisconsin; and the Wolf in Wisconsin.

The bill, co-sponsored by 36 other senators, is a revision of legislation passed by the House by the Senate but died in the House.

Canadian Venture Will Put De Gaulle Followers To Test

PARIS (AP) — President Charles de Gaulle's abortive Canadian venture will put to a test the loyalties of his Cabinet and his tenuous hold on power in the French National Assembly.

An accident of the calendar — it is vacation time in France — may save the 70-year-old president from an immediate political confrontation.

But it appears certain to come, not only as a result of his conduct in Canada but also because of other actions which have aroused public opinion.

De Gaulle was elected to a second seven-year term in 1965 and assembly elections which came a year ago.

The president's spokesman said the Paris face no major test at the polls in the immediate future.

But when the assembly goes back to work in early October, the sparks may begin to fly.

The Canadian crisis, which grew out of what appeared to be a deliberately concerted effort by De Gaulle to boost French-Canadian separatism, stunned opinion in France. But so far there has been no concerted response by De Gaulle's political opposition.

Newspapers remain one of the few sounding boards at the time of the year, almost unanimously — with the marked exception of the Communist party — have been sharply rebuked. De Gaulle for his behavior in Canada.

Ordinary Frenchmen, including many in the Gaullist camp, can make no sense out of his trumpeting the French-Canadian separatist rallying cry of "Quebec is not France."

Widow Of Plane Crash Victim Seeks \$200,000

A damage suit for \$200,000 has been filed in the Idaho District Court by Betty Baldwin, widow of Robert Baldwin, who died in a plane crash near Stanley which also claimed the life of Democratic gubernatorial candidate Charles Herd.

The widow and her two minor children, Terry and Sandra Baldwin, are seeking \$200,000 in damages against W. P. Ehr, pilot of the plane and lone survivor of the crash, and Fred Freier, Idaho Investment Co. Siera Life, Carl D. Ellinger and the insurance firms of Consolidated Credit Corp. and Commonwealth.

The plaintiffs charge the pilot operated the plane in a negligent and careless manner and that Baldwin was a passenger in the plane at the time of the crash. The suit also charges Mr. Ehr was operating the plane for business purposes and for the profit of the business for which he was employed at the time of the crash.

The Turkish Airlines agency said the center of the quake was in the town of Bafra, about 30 miles south of the city.

Erzincan was the site of one of history's major earthquakes, on Dec. 27, 1939, when 23,000 persons were killed.

The quake occurred an hour and a half after Pope Paul VI left a mass in Turkey to return to Italy, but its center was some 500 miles northeast of Izmir and Ephesus, where the Pope visited Monday.

There were several 200-ton quakes in Turkey in six days, on Saturday an earthquake in Turkey killed nearly 100 persons at Adana.

40 More Die In Turkey Earthquake

ANKARA (AP) — Another violent earthquake struck eastern Turkey Wednesday night and reports indicated at least 40 persons were killed and 50 seriously injured.

The Turkish Airlines agency said the center of the quake was in the town of Bafra, about 30 miles south of the city.

Erzincan was the site of one of history's major earthquakes, on Dec. 27, 1939, when 23,000 persons were killed.

The quake occurred an hour and a half after Pope Paul VI left a mass in Turkey to return to Italy, but its center was some 500 miles northeast of Izmir and Ephesus, where the Pope visited Monday.

There were several 200-ton quakes in Turkey in six days, on Saturday an earthquake in Turkey killed nearly 100 persons at Adana.

Britain Hopes To Avert Probes

LONDON (AP) — Home Secretary Roy Jenkins, hoping to avert racial violence like that sweeping America, says he will ask the next session of Parliament to ban racial discrimination in employment, housing, insurance and credit.

Jenkins told the House of Commons Wednesday he also would seek wider powers to prevent discrimination.

Violence Rocks Nation; Calm Prevails In Detroit

Detroit's Firemen Display Courage In Endless Smoke

DETROIT (AP) — Firemen straggled out of the seemingly endless smoke. They proclaimed that some were choking, many were burned and all 1,400 were grimy. They plodded, heavy-footed, home weary as they returned home to families for the first time in three days.

They left behind one comrade slain by a sniper and 60 injured comrades. They left 1,200 piles of water-soaked rubble or smoldering embers, en route to rest on their first six-hour leaves before returning to quell more fires.

They barely heard Chief Charles Williams proclaim that "never in the 100-year history of the Detroit Fire Department have we seen the equal to this."

He said the men displayed "exceptional courage and devotion to duty under the most adverse conditions."

From 3 a.m. Sunday to 12:30 a.m., Wednesday fires erupted almost continuously and spread quickly.

Plumes of polluting smoke expanded over vast areas of metropolitan Detroit.

In the black fog the firemen attacked the inferno with hoses and water, chemicals and chopping blows of their axes.

But silent rioters on rooftops attacked the inferno with stones, fire, they were powerless to combat — gunfire.

One fire official said Wednesday the men "have just gotten to the point where they feel they can't do any more — but if the alarm bell rings they go. All they were getting were catsup, sleeping on the concrete floor on the streets and on the equipment.

Bleets cut into much of the trucks, and Quinan estimated the damage to machinery at \$100,000.

Scores more fires broke out Wednesday. But Robert Tigue, secretary of the Detroit Fire Commission, said the men were "acting like a formation of tanks ready to go."

Romney Lifts Curfew, Ban On Gasoline

By BOB MONROE Associated Press Writer

Explosions of mob violence continued to rock the nation today despite pleas for peace from Negro leaders, but Detroit, scene of the worst racial rioting in the nation's history, was quiet enough this morning for Gov. George Romney to lift an enforced curfew.

Romney also announced that gasoline stations could reopen but were ordered to sell gas in portable containers. Liquor stores were to remain closed but night clubs could reopen if they agreed not to sell liquor, he said.

He said he would ask that the city be declared a disaster area, but was ordered to wait after a peaceful morning in the city town by four days of mob terror.

Earlier, Mayor Jerome Cavanagh said the trouble appeared to be over, citing "an apparent continuing improvement in the overall situation." And the Army paratroopers were told to sheathe their bayonets.

In the showery darkness before dawn, helicopters gave drop guidance as their rotors probed rooftops to betray hidden gunners.

The last four hours before snuff passed with only two reports of snipers.

Arrests, mostly for curfew violation, mounted to 3,100, but between midnight and 6 a.m. they increased by only 129, small by comparison with other periods since the riot erupted.

"With the exception of pockets of snipers, we have the city under control," said Lt. Gen. John Throckmorton, military commander in this city of 1.7 million, after four agonizing days of terror.

"It takes time to root out these snipers," Throckmorton said. See RACE RIOTS pg. 2, col. 5

Committee May Hold Hearings On Riots

By JACK BELL

M. Dirksen applauded the statement by Martin Luther King Jr., a Philip Randolph, Roy Wilkins and Whitney M. Young House Committee on Un-American Activities may launch public hearings next week on the Detroit and Newark riots, hearing to the much a proposed Senate-House probe.

Chairman Edwin E. Willis, D-La., said the committee's best known for its efforts in investigations of alleged domestic communism — expects to meet next week to consider a preliminary staff report on supposed subversive influences in the riots.

Willis said he felt committee would agree with him "the information developed to date will justify public hearings."

He was accused by the committee is poised to begin public hearings a day after it approves recommendations in the preliminary report.

Wednesday's call by four Negro leaders for an end to rioting drew praise from Senate leaders, plus a bipartisan leadership pledge that the Senate will pass legislation aimed at alleviating disorder-causing sum conditions.

In separate interviews, Democratic Leader Mike Mansfield and Republican Leader Everett

Samuelson Has 54th Birthday

BOISE (AP) — Gov. Don W. Samuelson marked his 54th birthday anniversary Thursday — his first since election last November. During his term he spent a full day of work at his desk in the Statehouse.

On his schedule were meetings of the State Labor Board and the State Board of Examiners. He is chairman of both.

A native of Illinois, Samuelson came to Idaho after World War II, during which he was stationed at the old Farragut Naval Training Station.

Negro Bands Run Wild On Fifth Avenue

ENW YORK (AP) — Bands of young Negroes flocked into mid-Manhattan early today following a "riotous" riot in Central Park, pummeling strollers and looting two store windows along fashionable Fifth Avenue.

Quick-moving police, in radio cars with sirens sizzling and rifles slung over their shoulders, were quick to respond, arresting 21. It was the first such looting in the area in recent history.

Six more persons were arrested in scattered incidents of window smashing and looting in the Bronx, and new trouble flared in sections of Westchester County, bordering the city to the north.

East Spanish Harlem, the upper East Side area hit by three nights of violence earlier in the week, remained calm.

The home-wrecked theatre district, however, was being guarded in surprise as the bands of young Negroes.

Space Chief Says Soviets Ahead Of U.S.

WASHINGTON (AP) — The Soviet Union is in the lead in the United States in most major space programs, U.S. space chief James E. Webb has told Congress.

Sen. Specter, I-H, and Sen. Firth, a member of the Senate Space Committee, said he was amazed at Webb's assertions of Soviet space superiority.

"That's far different from his testimony on the space authorization," Holland told the Senate Appropriations Committee before which Webb testified Wednesday.

Webb, administrator of the National Aeronautics and Space Administration, warned senators they will have great concern if the Soviets "are puffing every heavy payload overhead every hour and a half."

He indicated the Soviet payloads might involve missiles or other weapons.

Webb appeared before the panel to battle for the full \$1.1 billion in space funds sought by President Johnson.

GENERAL CONTRACTING BIDS for the first phase of construction on the College of Southern Idaho campus, were reviewed Wednesday night by J. Paul Newton, consulting engineer; Charles Deo Moore, district engineer, Office of Education; Dr. James L. Taylor, CSI president; Ed Jones, architect; and John Coleman, member of the CSI board of trustees. James Applegate is Nielsen and Miller contractors, Twin Falls.

Neilsen And Miller Get CSI Campus Contract

A Twin Falls contracting firm was apparent low bidder for construction of the first building on the College of Southern Idaho campus at a bid opening Wednesday night at the Holiday Inn.

Neilsen and Miller contractors, supplied the low bid of \$2,497,000 for the project which includes the Fine Arts Center, Academic Building, the maintenance center and other related site development.

School officials met with officials from the State Department of Education and Federal government Thursday to discuss bid acceptability of the bid.

Awarding of the bid will not be announced until it has been reviewed by the federal government which is participating financially in the project.

Neilsen and Miller, consulting engineers, Office of Education, Boise, is attending bid meetings and is empowered to review and accept the bid, according to a state college official.

CSI board members Wednesday night approved acceptance of the bid, subject to further approval by the Department of Education. CSI architect, Charles Deo Moore, continued discussion of the bid with school officials Thursday.

Ground-breaking ceremonies have been scheduled for August beginning at 10 a.m. A 20-minute ceremony featuring brief addresses by area dignitaries will take place on the site of the Fine Arts Center.

Ed Jones, chairman of the Board of Trustees, commented, "I am very happy that we can now enter the architectural estimates bid and we well pleased that a Magic Valley contract was the present low bidder. We are looking forward to being in the buildings when school opens in the fall of 1968."

Top Rodeo Stock Here For Frontier Days

Approximately 100 head of rodeo stock has been housed at Frontier Field the past few days in preparation for the next night of performing during the annual Frontier Days Rodeo Friday, Saturday and Sunday.

Showing for the first time in the Twin-Falls Area, producer Ralph Stephens, Midvale, has been producing rodeos for the past 25 years in the Pacific Northwest.

He has a bucking horse string of 75, several of which have won the coveted ICA and RCA titles in the past few seasons. A sleek Palomino who answers to the name of "Pumpkin" likes to be petted and may follow the producer around like a pet dog in the pens, turns on a completely different personality in the arena.

The horse, Idaho Pumpkin, was the top bucking horse of the Idaho Rodeo Cowboy Association in the last season. Rusty, top bareback bronc of the ICA for two seasons will also be in action in Twin Falls with other top horses. Wang Ding, also a bareback bronc and Hereford, one of the best performers this season.

Last year Mr. Stephens had five bulls and seven horses in the ICA finals for the Idaho and Oregon rodeo champions at Portland. All of these will be seen in the arena at Frontier Field during the next three nights.

As usual the Frontier Days show and Mr. Stephens' stock have attracted a number of top cowboys to the area. Enoch Weyer, one of the leading RCA cowboys for the current season and a former champion, has signed in for the local show as have Dave Erickson, Jerry Meyers and several other top ICA cowboys.

Among the dozen rough bulls to be featured as a final event each night is White Man, not yet ridden this season. Citron and several others selected as top performers last year.

While the rodeo this year will be bringing new stock and performers to Stillwater, Mr. Stephens is well known in such major shows of the Northwest as the large rodeos in Lakeview, Vale and John Day, Oregon, and Homedale, New Plymouth, Cambridge and Council in Idaho and several leading Washington shows.

Employment Statistics Indicate Area Is Enjoying "Good Times"

Whether everyone is aware of it or not we are now in a period of "good times" with prosperity abounding at least according to employment statistics.

The sum total of employment figures show that we never had it so good. In past years the employment rate has fluctuated some, but most and need to work. Statistics show that for the year 1966, only 4.2 per cent of the labor force was unemployed in the Twin Falls area. This compares favorably with the 4.0 per cent in the state of Idaho and 3.7 per cent for the nation, that year.

Magic Valley normally has the lowest unemployment rate of any area within the state. The state unemployment rate is higher because of northern seasonal work in lumber and other industries.

To obtain unemployment pay, residents must follow the seven steps of qualification. They include: Being unemployed through no fault of your own; registering for employment and showing that you are ready, willing and able to accept work; having sufficient employment to establish insurable status; reporting at the local office each week to file your unemployment certification; and one-half one week of waiting; showing that you are actively seeking work on your own and reporting your efforts for working during your benefit week.

The labor force in Idaho normally shows wide seasonal fluctuations. This is particularly true in basic industries such as agriculture, construction, food processing and lumber.

The state unemployment rate in Idaho usually occurs during mid-winter. In 1966 unemployment rose to 4.0 per cent in January, 4.1 per cent in February, and to 4.8 per cent in March.

The state unemployment rate dropped to its lowest in the fall. In November, 1966, the unemployment rate was 1.8 per cent of the labor force and 1.7 per cent in October. More jobs are open in the state during the harvest and increased trade.

The rates also fluctuate according to insured men and women. During the first three months, men make up the greatest number of unemployed and in the summer, the women do. Laid off construction workers are in some agricultural related work account for 81 per cent of men out of work in January, 1967. In the area to the south, 80 per cent of women.

Boys Show Appreciation For Week At Scout Camp

Seven 12- and 13-year-old boys have turned to the newspaper in an attempt to express their gratitude in the Snake River Area Council, Scouts of America, for an expense-paid week at Camp Bradley.

The Times-News received a painfully felt letter from the boys, most of the camp residents of the Twin Falls Labor Camp.

"Dear Times-News," they began. "We wish to thank the Boy Scouts of America for the wonderful week we had at camp."

"The boys' worst laboring forest was to be allowed to publicly thank the council for the wonderful week we had at camp. The boys' worst laboring forest was to be allowed to publicly thank the council for the wonderful week we had at camp."

Red Paper Says Mormons Beat Chinese

HONG KONG (AP) — Hong Kong Communist newspaper Wen Wei Po charged today that two armed American Mormon missionaries helped fascist British police beat up patriotic Chinese in Hong Kong.

The charge brought an immediate denial both from the Mormon Church here and the Hong Kong government.

The paper said the two Americans and British officers raised a workers' strike in the new territories across the harbor of Hong Kong Monday and beat several Chinese workers. The paper did not identify the two Americans.

A spokesman for the Mormon Church described the charge as "absolutely untrue."

He said "we are here as religious missionaries and not as law enforcing officers. None of our missionaries is armed."

A Hong Kong government spokesman termed the Communist charge "a pack of lies."

400 Homes Destroyed In Race Violence

By The Associated Press
With a full accounting still months away, the toll on homes and businesses in the current, widespread racial violence already stands at more than 400 homes and nearly 4,000 businesses destroyed or damaged.

Most of the devastation has come in Detroit, still under siege, where officers should guess that "from 300 to 3,000" persons were left homeless.

The officials there said Wednesday that 6,000 businesses were looted and that there were more than 1,300 fires.

Many of the homeless lived in tenements above stores that were burned out.

There were some 400 homes damaged in Newark, N.J., alone in rioting July 21. Of 783 stores hit 16 were recorded as destroyed and 80 heavily damaged.

Many communities were unable to supply up-to-date figures as the waves of violence continued across the country late Wednesday and early today.

Cincinnati officials estimated a total \$20,000,000 damage in the city's latest outbreak of Negro rioting.

Dayton, Ohio, reported damage estimated at \$100,000 without a breakdown on buildings affected.

Permanent Home Set For Queen Mary

LONG BEACH, Calif. (AP) — The Queen Mary, venerable lady of the Atlantic, will find a permanent home on the water.

The city of Long Beach and Disneyland as a lure for tourists.

The ocean liner, now too old for travel as a luxury ship, is being sold to the city of Long Beach for \$3,444,000.

The city, whose bid topped 10 others, plans to spend \$3 million to \$5 million to make the Queen Mary into a maritime museum, hotel and convention center.

The news Wednesday from London, where the sale was announced, created excitement among Long Beach citizens.

"She'll rival Disneyland," said Mayor Edwin Wade.

The predicted that the luxury liner will attract one million persons a year. She will rival Disneyland, Marineland and other Southern California facilities as a tourist attraction, he said.

Wade, discounting comment in London that the proud old ship would become "an unprofitable loss" if it would rob its dignity in Long Beach harbor.

Plane Crash In Arizona Kills 7

GRAND CANYON NATIONAL PARK, Ariz. (AP) — Seven persons were killed Wednesday night when a private plane crashed five miles east of Bright Angel Lodge.

Four of the victims were a family identified only as Williams, Washington Court House, Ohio. The others were identified by park rangers as Herbert Ross, 42, and his son, Fred, 16, of Fern, N.Y., and the pilot, Thomas Rummie, Tucson, Ariz.

Directors to meet KELLGOLD, Idaho (AP) — Directors of the Bunker Hill Company will meet here Monday and Tuesday and as part of their quarterly meeting review the mining firm's 1966-68 \$30 million capital improvement and modernization program.

The high rate of unemployed women for 1966 is partially attributed to the desire of many for only part-time employment.

Throughout the nation, Idaho, Magic Valley and Twin Falls the unemployment rate continues to remain low.

Dispute Over State Of Israel Blocks Repatriation Of Arabs

By GEORGE BOULTWOOD AMMAN, Jordan (AP) — A dispute over three little words—State of Israel—is blocking the repatriation of up to 200,000 Arab refugees who fled across the Jordan River during and after the Arab-Israeli war.

With only 14 days to go, no applications have been filled out for the refugees to return to the west bank of the Jordan, which Israel occupied.

The Jordanian government has been urging the refugees to go home but it is not yet known how many want to.

The Israelis announced that refugees could begin returning Aug. 10 provided their applications were approved after security and health screening. Israeli authorities supplied 7,000 printed application forms to 600 Troyan, a representative of the International Red Cross committee in Jordan.

The Jordanian authorities refuse to accept the forms because they were headed in English "State of Israel—Ministry of the Interior." The Jordanians considered this an attempt to squeeze out recognition of Israel as a nation, something the Arab countries have refused to do since the Jewish state was established in 1948.

All-but-a few of the forms were returned to the Israelis. Jordan earlier drew up its refugees own form for would-be repatriates but Israel rejected them without explanation. The Jordanians are reported insisting on a form headed by the Red Cross symbol and some such noncommittal wording as "application for repatriation."

The Israelis have indicated privately they would accept such a form if Jordanian officials negotiate directly with them. But the Jordanians feel this also would imply recognition of Israel.

If It's in Town . . . You'll Find It Downtown

July 27-28, 1967

Official City and County Newspaper... Member of Audit Bureau of Circulation and AP... Published daily and Sunday at 130 Second Street... JACK MULOWNY... O. A. [G] KELKER... J. J. SMITH... AL WESTERGREEN... DALE THOMPSON... PAUL STANLEY... HAROLD STILES

WASHINGTON — Unwittingly perhaps, Atty. Gen. Ramsey Clark has handed the Republicans another juicy campaign issue for 1968 with his stern new regulations restricting the use of wiretaps and electronic listening devices by Federal investigative agencies.

In a country swept by an unprecedented crime wave, Clark has left himself open to the charge of being soft on the bad guys. This is bad politics, if not questionable administration, if not law enforcement, because when the newspapers are crammed with crime news the average citizen tends to side with the cop as his only defense against being murdered in his sleep.

Clearly, Clark has been guilty of poor judgment in barring wiretapping except in cases involving the national security, and in requiring strict procedures of notification before police may employ electronic eavesdropping. His new regulations, indeed, not only go well beyond the restrictions imposed by President Johnson two years ago but forbid practices not yet outlawed by the Supreme Court.

Open Sesame?

MARQUIS CHILDS

Candidate's Ups And Downs

BLOOMFIELD HILLS, Mich. — A short handbook on how to handle a presidential candidate would include the ups and downs of Gov. George W. Romney's experience in the past 18 months. But it would be instructive above all in showing how the tide of events in a troubled time can sweep up an individual and carry him into deep waters beyond his own choice of doing.

Vietnam? Why doesn't he tell us what we ought to do? As a matter of fact, his conviction that the American military commitment must be limited and pacification left to the Vietnamese has been reflected with considerable consistency in his statements on the war.

BRUCE BLOSSAT Nixon's Punch

WASHINGTON (NEA)—Richard M. Nixon has been himself as a master of political timing, simply has no intention of speeding up his campaign for the 1968 presidential nomination to meet the developing conservative threat from Gov. Ronald Reagan of California.

In fact, Nixon admits as they mull over the origin of the speed-up reports, as they profess to be equally bewildered over what they insist are incorrect reports of secret regional Nixon meetings in New York and alleged Nixon efforts to woo Mayor John Lindsay of New York City.

The word is that Nixon is sticking to his original plan and pace, which calls for magazine writing on his 80,000 miles of foreign travel this year, strategy talks and other quiet endevours in July and August. Not until September are any hard, one-to-one interviews expected from the candidate himself.

There is some stirring for Nixon in yet another primary state—Nebraska. GOP Gov. Norbert Henneman is officially announced as leaning to both Nixon and Romney said in late June he believes Nixon would win the Nebraska vote over Gov. Reagan dividing the conservative vote.

To some extent, however, this

WAYNE BRANDSTADT, M.D. Emphysema Causes

Q—How does emphysema affect me? Is it serious? What causes it? Is there any cure for it? A—Emphysema develops very gradually after a series of chest colds, each on a little harder to shake off than the last. Along with about 100 million other people, you are short of breath. The disease is serious in that it is slowly progressive and unless skillfully treated will make the victim a respiratory invalid.

In Depth Study

Two counties in Idaho, including Owyhee which butts Twin Falls on the west, are among the 50 in 19 states selected for intensive case study analysis of revenue sharing and "in lieu" tax payments on federal public lands. The other Idaho county is Clearwater.

2. Extent to which the public lands cause financial obligations for each state and local government, including such obligations as schools, roads, police and fire protection, water, sewage and other utilities, and public recreation facilities.

Germ-Free Life

From the moment a creature is born on this planet, it is exposed to constant association with a horde of micro-organisms. These germs affect the biochemical and physiological conditions of life of both animals and humans.

animals are all made microbe free. Later, larger animals such as dogs and hogs will inhabit the germ-free quarters. At least one significant change has been noted so far: There is a dramatic change in the cholesterol rate among the test animals. One side effect of this discovery might be the development of some way of overcoming the influence of cholesterol in arteries.

BARRY GOLDWATER

The Tragic Scars

Nevada's night of rioting, looting and killing are terrible and tragic scars on the American scene soon forgotten. Just as tragic would be the failure to grasp what actually happened and why.

WAYNE BRANDSTADT, M.D.

ADVICE FOR THE SIGN PAINTERS With the completion of major segments of the national interstate highway system, days of travel time can be eliminated for the east-west or west-east traveler.

ment—parties, movies, night clubs, swimming, fishing, etc. name it. They would have to put up with the cool breezes that come with the late evening except for a few nights a year.

Meet Me For Breakfast--In City Park

For the housewife who doesn't want to bother with cleaning up morning breakfast and clearing away the kitchen and dishes afterwards, the YM-YWCA has the answer.

Their fourth annual Chuckwagon Breakfast will be held Saturday from 5:30 a.m. to 11 a.m. in the Twin Falls City Park. This year's menu will include juice, sausage, scrambled eggs, hotcakes, milk or coffee.

A new feature this year will be the butterflick pancake recipe of Clarence Higgin's, who will supervise the pancake production line.

Part of the three-day Frontier Days celebration in Twin Falls, the chuckwagon breakfast annually attracts about 1,000 persons. All funds from the event go into the YMCA-YWCA treasuries and provide a large part of the annual income for the two organizations.

John Trobath, general chairman, said the cooks have already been selected and are practicing for their duties. They will work three shifts.

Cooks will be Buzz Langdon, the early shift; Vern Doshier the 7 to 9 a.m. shift, and Bert Larson the "Puzzy bones shift," from 9 to 11 a.m.

Nedra Gentry and Lloyd Bledsoe are in charge of arranging for the butterflick pancake recipe. Other members of the committee include Irene Baltzer, Nedra Gentry, Winnie Standley and Bud Miller on the general committee. Dr. Charles Larson, and Bud Miller in charge of procurement; Gordon Cox, transportation; Neil Olmstead, manpower; Larry Harvick, maintenance and retrieval of equipment; and Holland Houfburg, entertainment.

Chet Bartlett, executive director of the YMCA, said that local merchants have donated food items, material and equipment for the breakfast.

TOO MANY COOKS?—Not for the annual YMCA-YWCA chuckwagon breakfast. The two organizations expect to feed some 1,000 hungry residents Saturday morning in the city park. Whipping up an initial batch of pancake batter are three of the cooks, from left, Bert Larson, Buzz Langdon and Lloyd Bledsoe. The annual breakfast is part of Frontier Days, which opens Friday and continues through the week-end.

Puzzled

SPRINGFIELD, Mo. (AP) — He was very puzzled when authorities at the state prison in Jefferson City released him.

He didn't ask questions and returned to his parents' home in Springfield.

His attorney, Charles A. Moon, said the 21-year-old Osborn was told Tuesday that his two-year sentences for burglary and stealing charges had been commuted by Gov. Warren E. Hearnes.

An investigation later revealed a snafu in the records at the penitentiary, Osborn should not have been released.

When he found out, Osborn decided to return voluntarily. He made plans today to take a bus back to Jefferson City.

Federal Highway Use Tax-Deadline Is Aug. 30

Due date on the annual federal highway use tax on trucks is Aug. 30. Internal Revenue officials reminded area taxpayers Wednesday. The tax applies to trucks operated on the highway during July, and is for the year ending June 30, 1968.

IRS information officer John Andrus said the tax, from \$51 to \$150 depending upon the type of truck, will be due on a prorated basis for trucks put on the road after July.

The use tax is rarely due on farm machinery, a local tax collector pointed out, because of the weight minimums placed on vehicles for which the tax is collected.

"Very few farm trucks, even a tractor that pulls a big piece of machinery, weigh 13,000 pounds unloaded. I'd wager to say that more than 90 per cent of such equipment is not taxed under the federal use tax," he said.

A vehicle must meet four qualifications before it becomes subject to the use tax, he continued. Besides being, of course, a highway motor vehicle, it must be required to be registered for highway use, be actually used at least once on a public highway and come within one of the taxable categories as to type and use.

A single-unit truck, whether

Utah Still Faces Firing Squad

SALT LAKE CITY (AP) — Convicted killer Darrell Devere Paulsen still faces the firing squad Sept. 5 after the Utah Supreme Court denied a petition for commutation of sentence Wednesday.

Paulsen was convicted of the 1961 rape-slaying of an 11-year-old American Fork baby-sitter, Karen Ann Mechling.

Since then his case has been appealed three times to the state Supreme Court four times, to the Utah State Supreme Court three times and to a federal judge once.

Seven Killed

MEXICO CITY (AP) — High tension wires fell on a bus Wednesday when it knocked down a power pole on the outskirts of Mexico City. The bus burst into flames, killing seven persons inside and injuring 24 other passengers.

Treasury Act May Boost Interest Rate

By JOSEPH R. GOYNE

Treasury Department's plan to blow \$15 billion in new cash during the six-month period which ends in December is expected to boost interest rates.

It also could give a sense of urgency to President Johnson's proposal for a six per cent surcharge on individual and corporate income taxes which has far gotten a cool reception in Congress.

One reason for the surcharge would be to hold down interest rates and help stem inflation.

Some officials are convinced that without increased taxes the nation's money market will continue to rise this year and early next year.

Treasury officials conceded Wednesday their plans for borrowing new money would represent an "obviously substantial demand" on the money market.

But Frederick C. Deming, undersecretary of the Treasury for monetary affairs, told a news conference the borrowing shouldn't have a tremendous impact on interest rates, which already have increased substantially in recent months.

He said the money market had anticipated an even higher figure.

The assessment of new cash Deming said, was based on estimates of spending and tax receipts.

It indicated a slightly higher rate of spending than Johnson proposed in his budget for the fiscal year which began July 1, and slightly lower tax collections as previously reported by Treasury officials.

The new money would supplement regular tax collections and would be designed to make ends meet.

Conservation Group Adopts Resolution

COLLEGE, Alaska (AP) — Delegates from seven western states ended a three-day meeting of the National Association of Soil and Water Conservation Districts Wednesday by adopting a resolution calling for more local authority in decisions concerning federal watershed programs.

The resolutions urged proposed amendments to the watershed and flood prevention act be changed to give the Department of Agriculture and landowners within individual districts.

It said the proposed legislation which would provide cost-sharing funds for conservation practices would be "greatly beneficial to the upstream flood prevention program throughout the nation."

The 300 delegates from Alaska, California, Hawaii, Idaho, Nevada, Oregon and Washington also adopted resolutions calling for study of proposed anti-sediment water pollution legislation and for support of federal cost-sharing programs for recreation and wildlife funds for resource conservation and development projects.

Communists Raise Ambush To Highest Level Of Cunning And Effectiveness

By JOHN T. WHEELER

SAIGON (AP) — Millenniums ago a cave man crouched behind a boulder, waiting for his unwary enemy to tread up the trail. The enemy arrived, the axe swung through the air, and the ambush was born.

Today in Vietnam the ambush has been raised to its highest level of cunning and effectiveness by the Communists. They otherwise might have been defeated long ago by U.S. firepower in conventional battle.

The enemy's tactics are successful by far and has given the Communists their most clear-cut victories over American and other allied troops.

Typical of these operations was a recent attack on a company of the U.S. 4th Infantry Division in the central highlands.

"We were just sitting on the trail, taking a break, you know, and then old Charlie opens up with those damned AK47 assault rifles, and whammo, we were really in the hot locker (trouble), a corporal recalled.

"In a way we were lucky. The Old Man (the company commander) wouldn't let us bunch up, even though we figured we were almost home free."

Lucky is a relative term in Vietnam. Half the men of the company's company were killed or wounded in three hours of savage fighting.

The infantry company probably had been trailed by the North Vietnamese for days. When the troops took a rest break before the final climb up a mountain, Charlie, as Americans have dubbed their foe, saw his chance, sent snipers up trees and positioned assault troops for attack. The sudden burst of fire caught the Americans sprawled on the ground. Many didn't move after the first volley. Courage and leadership got the Americans out of what could have been a disaster.

Ambushes can be in dozens of categories. Three classics involve the "U," the "Open U," and the "L."

In each case, an unwary adversary is allowed to work in a well-executed ambush done in the first five minutes.

The Americans use the ambush, too. One night south of Da Nang air base a Marine unit on ambush patrol began hearing

gunfire. The unit was alerted to pull back when hit by the hidden enemy and let the artillery and jet bombers work over the positions. Sometimes the ambush is too swift.

When they spotted one, they ran for artillery, and from vantage points adjust the fire as the enemy tries to escape. The tactic sometimes works with devastating effect.

But the big ambushes always have been pulled by Charlie. The Viet Cong and North Vietnamese still as a rule are able to pick the time and place for their battles.

American troops generally try to pull back when hit by the hidden enemy and let the artillery and jet bombers work over the positions. Sometimes the ambush is too swift.

"Keep Cool" Stamps Sent By NAACP

By SALLY RYAN

NEW YORK (AP) — While rioters have been ripping through the nation's Negro slums, looting and burning, the National Association for the Advancement of Colored People quickly has been sending out brilliant orange, tuchsia and green stickers.

"Keep cool—let the other party blow his top," they say. And "The other side wins if we lose our cool." And "bricks through windows don't open doors."

"Unfortunately, they haven't seemed to cool things much," said a NAACP spokesman.

"We realize they can't stop a riot, but they do carry a message to people," he added.

The NAACP credits Roy Wilkins, its national executive secretary, with thinking of the idea.

The first 100,000 were sent out in June, when it was still cool. They went to 1,500 NAACP branches across the country, including some in areas that have erupted.

Readers, at a penny apiece, have pointed to since the riot in Newark and Detroit, the NAACP said.

"We ask people to stick them in ghetto areas, where people will see them and stop to think a minute," the NAACP spokesman said. "People have been very responsive."

The NAACP sent out thousands with a message from Wilkins outlining proposals to be used by city officials to calm racial tensions.

"Don't just be against riots," Wilkins said. "Be active in preventing them."

Woman, 118, Has Varied Life Secrets

LOS ANGELES (AP) — It was a quiet birthday party by a restaurant. Duffey's standards. Only seven years ago, when she turned 111, she went on a helicopter ride. The tiny Platte Indian's sight began to fail several years ago, and now she says, "I can hear, that's all."

The party for her 118th birthday was given by the U.S. Social Security Administration, which lists her as the oldest woman in the country.

High point in the proceedings came when she was asked the time-honored question about her secret for living so long.

"I'm Tazumelle Duffey, after recommending lean meat after turning 100 and at 101 pitched for fresh food, probably forgot she suggested eating fried bananas for breakfast a few years back.

But perhaps she was simply exercising a woman's prerogative when she whispered: "The secret is drink big glasses of pink beans. It don't taste bad."

Special Maps To Be Given As Souvenirs

FARRAGUT STATE PARK — As a souvenir for the thousands of scouts and visitors attending the Twelfth World Jamboree in Idaho, Aug. 1-3, the National Oil Co. has produced a special Jamboree map of the Pacific Northwest.

The Jamboree, sponsored by the Boy Scouts of America, is expected to attract up to 200,000 visitors to the area, including 14,000 Scouts and leaders from more than 100 countries.

The Jamboree site is at Farragut State Park on the shores of Bend Oreille Lake in northern Idaho, but most of the jamboree also plan to tour other points of interest in the northwest.

The maps include a detailed drawing of the Jamboree site, the location of parks and other tourist attractions in surrounding states and color photographs of some of the region's most scenic views.

Man Dies After Fall In Hot Pool

SALT LAKE CITY (AP) — A man, 29, died Wednesday, two weeks after he fell into a 174-degree hot pool in Yellowstone National Park.

Officials said Parsons was taken to a Salt Lake City hospital after he fell into the pool July 13. He had been working in the park for the summer.

DESTROY MACHINES
LEWISTON, Idaho (AP)—Nep Perce County Sheriff Bill Peterson has been ordered to destroy 17 slot machines found in a Lewiston warehouse April 20. A liquor law investigator found the devices, allegedly owned by Vera Butler, Orofino. Butler said he planned to ship the devices to Reno, Nev. Justice of the Peace D.A. Quinan ordered public destruction of the machines and Hudsonston said it would occur Thursday.

LEARNS METHODS
BOISE (AP)—An engineer from Afghanistan is learning new methods of land surveying in Idaho, the Bureau of Land Management reported Wednesday. Farouk Younesie, 25, director of the survey office with the national cadastral survey organization at Kabul, Afghanistan, has been in the field with BLM survey crews in Idaho this week. He said only about 10 per cent of the 24,000 square miles in his country has been surveyed.

UNEMPLOYMENT UP
BOISE (AP)—Unemployment in Idaho increased during June, the department of employment reported Thursday, with the seasonal gain larger than usual. Total employment, however, also was up, the result of an expanded labor force with many students becoming available for work. The department estimated total unemployment in June at 14,200 compared with 11,300 in May and 12,100 in June last year.

Total employment was listed as 282,200 compared with 272,400 in May and 280,600 in June, 1966. The available labor force was estimated at 236,400, up from 233,800 in May.

REPORT RELEASED
BOISE (AP)—Boise College released its study registrar's report this week, which showed that nearly half its 4,000 full-time students came from outside the state. The report already looks like a state school, however, because 1,314 of its full-time day students come from cities in Idaho outside Boise.

Aside from the 1,683 Boise students, the report from registrar Alic Hatton said, another 524 came from 46 of the other 49 states. Others attended from 12 foreign countries.

SALES ARE TOLD
BOISE (AP)—Albertson's, Inc., reported Wednesday the sales of the 186-store food chain, with headquarters in Boise, were up 22 per cent in the second quarter of this year. Profits, however, were down.

The company reported sales of \$93,317,645 in the three months ended July 1, compared with \$76,535,775 a year earlier. Earnings amounted to \$355,867, or 17 cents a share, compared with \$1,425,659, or 25 cents per share, in the corresponding 1966 period.

HEARING SET
BOISE (AP)—A public hearing on proposed regulations for mandatory state motor vehicle inspections will be held Aug. 23 in the State Department of Law Enforcement Building. Inspection Division Director Harold Davis said discussion at the hearing would include the manual to be followed by certified state inspection stations. A law passed by this year's Idaho Legislature requires all registered vehicles to be inspected by the state, and the law goes into effect next year.

RAISING FIST as he leaves Alexandria, Va., jail early Thursday is H. Rap Brown. The 22-year-old leader of the Student Nonviolent Coordinating Committee was released on \$10,000 bail to the cheers of some 300 supporters. Arrested as a fugitive from a Maryland charge of inciting to riot, he is sought in connection with rioting. (AP wirephoto)

SNCC Leader, H. Rap Brown, Freed

By TOM SEPPY
ALEXANDRIA, Va. (AP)—H. Rap Brown, Negro leader of the militant Student Nonviolent Coordinating Committee, is free on \$10,000 bail after spending about nine hours in the jail of this Washington suburb. Brown was arrested Wednesday morning by FBI agents at National Airport near here on a federal fugitive warrant. Prior to an afternoon hearing before a U.S. commissioner, the Justice Department dropped the federal warrant. Brown stayed inside the federal building for a time, claiming immunity from Virginia arrest. But then he was hauled outside by police and arrested on a Virginia warrant charging unlawful flight to avoid prosecution in Maryland. When FBI agents first led Brown into the federal building, the told newsmen "we'll bring the country down, bombs and all." He uses "honkies" to refer to white people.

William M. Kunstler, Brown's white attorney, maintained the SNCC leader had "never been a fugitive from anybody," but had been in Washington. He said Brown was on his way to New York to surrender to the FBI when he was arrested. A hearing on the state fugitive charge is scheduled here Aug. 22. Judge Franklin P. Backus set bail at \$10,000. It was understood SNCC leaders hurriedly from obtaining a bondsman to put up the bail. Earlier in Baltimore, Md., Gov. Spiro T. Agnew said he had listened to a tape recording of Brown's talk in Cambridge and found it "entirely reprehensible and criminal." He said the SNCC leader "was guilty of breaking the law," and should be punished. Agnew also said he has turned over federal authorities information he said "indicates that the Newark riots and the Detroit riots had a similarity of planning and execution."

Movement To Recall Church Termed Dead
BOISE (AP)—A political writer, a top state official and a one-time leader of the move to recall of U.S. Sen. Frank Church in Idaho, said the movement was dead. They disagreed on the effect the effort might have on the probable re-election campaign by the Idaho Democrat, who is expected to seek a third six-year term next year. Secretary of State Pete T. Conrath, in whose office the filing of the original recall petition was attempted, said he believes no further move will be made to put the recall proposal before the people. Conrath turned down the request to deliver the 20 signatures of qualified voters. He later was advised by Atty. Gen. Stephen G. Shinn that a United States senator may not be recalled under provisions of the Idaho law. Political writer John Carlett of the Idaho Daily Statesman was the first to pin the "dead" label on the recall move. "It was doomed from the beginning," Carlett wrote in his column, "but it didn't have as much life as many persons expected when St. Maries banker Gene Miller tried to file the first petition last May 9."

PRODUCTION DOWN
MOSCOW (AP)—Ukraine today disclosed a decrease in production of farm equipment without including it as such.

While refusing to disclose the sources of the information, Agnew cited as similarities in the riots which wracked the New Jersey and Michigan cities the effective use of snipers, interception of police messages and jamming of police broadcasts. Meanwhile a State Department official said "consideration will be given" to revoking the passport of Brown's predecessor as SNCC leader, Stokely Carmichael, who looked on Wednesday night in Havana as Prime Minister Fidel Castro called the riots the "tragedy of imperialism," violated the government's ban on travel to the Communist-run Caribbean island. State Department press officer Robert J. McCloskey said Carmichael did not apply for special permission to visit Cuba and that the Black Power advocate's passport "is subject to revocation as has been the case with any and all who have traveled to areas which have been proscribed."

Riot Refugees Face Big Food Problem

By JAMES R. NORMAN
DETROIT (AP)—The massive task of providing riot refugees with food is providing the fast-faced Mayor Jerome Cavanagh's Committee on Human Resources Development, said. Housing's not the problem, said Ralph Rosenfeld, an assistant to Director Philip Rutledge. Food is the problem.

Rosenfeld said a hotel taken over by the city for the purpose of finding places for refugees to live had attracted only eight families. "Apparently they're moving in with friends," he said. Officials could only guess that there are from 300 to 5,000 homeless. Harried Detroit authorities could offer no breakdown now on destruction of homes and lost 1,500 businesses were looted and there were more than 1,500 to 3,000 damaged or destroyed buildings. Many fires and many deaths, determined number of families.

Twin Falls Man Honored For Service

A Twin Falls resident was awarded a Citation for Outstanding Service Monday at Ft. Douglas, Utah, prior to his departure for service in Vietnam. Capt. Sidney M. Johns, son of Mr. and Mrs. Carl Johns, 427 Ash St., is a finance and accounting officer. He also has served as Escort Interpreter Tour Director for officers from Arizona and the Constellation of the War Academy of Ecuador on two separate occasions. The citation reads, in part: "For services, including judgment and fiscal matters which help maintain Ft. Douglas as an efficient and operative working component of the U. S. Army. By applying his knowledge and experience, he aided materially in the accomplishments of the mission assigned to this command."

MR. AND MRS. ROBERT W. REESE
(Shig Morita photo)

Tena Gresky, Robert Reese Wed In Double Ring Rifles

Tena Gresky, daughter of Mr. and Mrs. Mel Gresky, Buhl, was married to Robert W. Reese, son of Mr. and Mrs. Robert M. Reese, Twin Falls, in rites July 1 at the Buhl First Presbyterian Church.

The double ring ceremony was performed by Dr. Miller, Boise, before a setting of arched brass candleabra with pink tapers and a floral decoration of pink chrysanthemums and ivy, flanked by two brass baskets of pink Sweet Sixteen gladioli and pink chrysanthemums. The aisle was marked with floral decorations of pink Sweet Sixteen gladioli and ivy.

The bride, given in marriage by her father, wore a gown and veil of silk shantung. The gown featured a long straight skirt with long sleeves and a square neckline. The hemline of the gown was trimmed with heavy Venice lace. The double train featured an overtrain with matching Venice lace panel. She wore a pearl necklace, a gift from the bridegroom.

She carried a cascade bouquet of pink-Arisarcot-roses with accents of English ivy.

Maid of honor was Kala Gresky, sister of the bride. Bridesmaids were Mrs. David Quattrone, Boston, Mass., and Mrs. David McCune, Pocatello.

Best man was Dave Randolph, William Reese, brother of the bridegroom, was best man with Dick Milas, Boise; Charles McCabe, Salt Lake City, and Dave Hanson, Huntington Beach, Calif., brother-in-law of the bridegroom, as ushers.

Organist was Don Royster, Twin Falls, with Roger Vincent as soloist.

A reception was held at the Blue Lakes Country Club. The bride's table was covered with ivory satin with flourishes of pink tapers in crystal candleabra.

The punch table was covered with ivory satin with flourishes of pink tapers in crystal candleabra. The table was decorated with pink tapers in brass candleabra and a topiary tree decorated with pink

MR. AND MRS. ROBERT TANAKA
(Shig Morita photo)

Sharon Herrett Is Bride Of Robert Tanaka

FILER—Sharon Kay Herrett, daughter of Mr. and Mrs. Wilfred Herrett, and Robert Tanaka, son of Mr. and Mrs. Rex Tanaka, Shoshone, were united in marriage June 17 in the First Baptist Church, Twin Falls.

Rev. Glen Parrish, Filer, performed the double ring ceremony before an altar decorated with green Fugli chrysanthemums, white gladioli and candelabra. The aisle was flanked with yellow satin bows and flowers.

The bride, given in marriage by her father, wore a white crepe gown fashioned with a full-length skirt and an empire waistline enhanced with lace. The ivory point sleeves were fastened with tiny covered buttons. A chapel train fell into soft pleats.

Her fingertip veil of French illusion was edged with lace and fell from a crown of white roses and pearl droplets. She wore a diamond pendant, a gift from the bridegroom, and carried a bouquet of yellow Fugli chrysanthemums.

Mary Leonard, Salt Lake City, was maid of honor. Bridesmaids were Karen Kirkman, Vicki Taylor, Carole Lynn Ives and Kay Hostelert, Debbie Herrett, sister of the bride, was flower girl and carried a basket of white petals.

William Tanaka, brother of the bridegroom, served as best man. Ushers were Gilbert Aquilar, Tim Hill, Peter Arossa and Andy Moore were ringbearers and carried the rings on a satin heart-shaped pillow. Roger Vincent, soloist, was accompanied by Nancy Brackett, who also played the wedding music.

Mrs. David Lohr registered the guests at the reception hall. The gifts were received by Kathy Herrett.

The bride's table was covered with a satin cloth and white organza flourishes with the corners caught with ivy. It was centered with a three-tiered square wedding cake decorated with aqua-colored flowers and topped with three aqua-colored bells enhanced with net and

MR. AND MRS. JOHN R. ANDERSON
(Kalkler photo)

Reception Given In Honor Of Area Newlyweds

A wedding reception honoring Susan Louise Klinkle Anderson and John Ray Anderson was held at the Carillon in Twin Falls July 1. The bride is the daughter of Mr. and Mrs. Fred Klinkle, Twin Falls, and the bridegroom is the son of Mr. and Mrs. Ray Anderson, Pocatello, former Buhl residents.

The new Mrs. Anderson wore a gown of white pearl de sole overlaid with lace medallions and embellished with pearls and iridescent sequins. The matching long waist train featured the same pearl and sequin trim. Her short, three-tiered bouffant veil was held by a teardrop and iridescent sequin cap tiara. She carried a cascading bouquet of yellow daisies and yellow roses.

Sandy Hunter, Salmo, was maid of honor. Bridesmaids were Conner Covington and Ann Murphy, Twin Falls. Jane Klinkle, sister of the bride, was junior bridesmaid.

Tracy Johnson, Vallejo, Calif., cousin of the bride, was the flower girl. She carried a basket of yellow and white daisies.

G. A. Klinkle, grandfather of the bride, was an honored guest, as were Mrs. Mabel Howell, Mrs. Jennie Rich, Mr. and Mrs. O. H. Grinnett, great-aunts and great-uncles of the bride.

J. D. Johnson acted as usher and Jerry Anderson, brother of the bridegroom; John Klinkle, brother of the bride; Steven Tamarco, Vallejo, and Steven Wilkie, Twin Falls, were giftbearers.

Mr. and Mrs. Thomas Steel-smith were given anniversary gifts.

MR. AND MRS. STEPHEN L. BEER

Meri Lynn Ott, Beer Say Nuptial Vows In Ketchum

Meri Lynn Ott, daughter of Mr. and Mrs. Crawford Ott, became the bride of Stephen Lowell Beer in rites June 24 at the St. Thomas Episcopal Church, Ketchum.

The double ring ceremony was performed by Rev. Douglas Ellway.

The bride, escorted by her father, wore a Bridal Original Gown of rayon organza. A pearl and scalloped Chantilly lace oval neckline accented the gown, with a redingote front revealing the Alline of the gown. The lace cage effect swept into a wateau chapel train.

She carried a trailing bouquet of white Spider chrysanthemums and pink roses accented with ivy.

Maid of honor was Marsha Witucki, sister of the bride. Best man was Lowell Beer, father of the bridegroom.

Ringbearer, Nancy Harris, carried the rings on a heart-shaped pillow of white lace.

Ushers by John Swan, Fred Ott, Terry Harris, Craigmon, and Richard Alexander, Wash.

A reception honoring the couple was held after the ceremony at Trail Creek Lodge, Sun Valley. All catering was done by the lodge. Entertainment was provided by Johnny Lister, who played the piano.

Mrs. Daniel Loomy registered the guests as they entered the lodge. Guests attended from Nebraska, Indiana, Washington and Idaho.

The wedding cake was a three-tiered arrangement, decorated in pale beige and accented with lace trim and pink roses.

During the reception the bride and bridegroom were serenaded by their fraternity associates, the Delta Gamma and the Sigma Chi's.

A personal shower was given for the bride by Christine Slimp, Eleanor Betold and Barbara Pierce.

The bride is a junior at the University of Idaho, majoring in elementary education. The bridegroom is a senior at the University of Idaho, majoring in pre-law. Both plan to attend the university again this fall.

King Family Has Reunion

RICHIEHEAD—The Ralph King family reunion was highlighted this year by a family genealogy given by a son, Verl King, Salt Lake City, Calif.

An original poem on hunting trips of men in the family was read. The author is Ed England, Los Angeles, who has been a member of the hunting party.

Charlie Ray Jaynes was welcomed into the family at the weekend reunion held on the North Fork of the Big Wood River. Mr. Jaynes told of experiences on an Australian mission for the LDS Church.

Wendell King is president of the group and will preside again next year. Sterling King and Verl King acted as sports directors. Mrs. Wendell King, Mrs. Sterling King and Mrs. Ralph King Jr. were members of the food committee. Fifty-five relatives attended including six of Mr. King's sons and daughters.

2:30 P.M. SUMMARY
NEW YORK (AP) - General Motors and Chrysler beefed up the averages late this afternoon and the stock market moved higher in active trading.
Although reporting profits down from a year ago for the first quarter, General Motors and Chrysler did better than Wall Street expected.
GM showed a gain of about 2 1/2 points in the morning, while Chrysler was up about 1 1/2.
Chrysler, however, was running second in volume only to Sperry Rand, which was up more than 4 points.
McDonald Douglas, up about a point, and Boeing, up 4, continued to respond to a big let order from United Air Lines which posted a 2-point gain.
MGM spurred 3 points on hopes of a merger, IBM rose 4 1/2 points down and International Telephone off 1/2, were affected by profit-taking.
Gains of a point or so were made by American Telephone, Procter & Gamble, Polaroid, Unilever, Glen Alden, Flintkote, Lily Tulp and Lear Slinger.
Most other stocks were active and up fractionally.
Prices rose on the American Stock Exchange.

5 Escape Injury As Car Hits Cow

A hosteler heifer was killed and approximately \$100 damage caused to a vehicle in an accident Wednesday night just east of Twin Falls.
Sheriff's officer said Neal L. Darrow, 70, Rupert, driver of the vehicle, and his passenger, Eric Brethren, 27, and their children, Verle, 9, Theresa, 7, and Tamara, 7, escaped injury when their vehicle struck the cow.
The driver told officers the cow ran across Highway 50 into the path of the car. Officer Darrow was unable to avoid the animal. The accident occurred at 8:50 p.m. one quarter mile east of the city limits. Officers said the animal was owned by William Combs, Route 2, Filer.

Reunion Held

SPRINGDALE - Annual reunion was held Monday at the city limits. Officers said the animal was owned by William Combs, Route 2, Filer.

The Daily Investor

By WILLIAM A. DOYLE
Q. I purchased 80 shares of American Telephone - Telephone Stock in 1964, at \$74.25 a share. My total expense was \$5,940.00. I am now looking for a total cost of \$7,728.00. At today's price, I am out about \$2,000.00.

A. I am thinking of selling this stock, waiting 31 days before buying back 80 shares. This would enable me to take a tax loss. That way you'll be able to buy back within 30 days, the whole deal will be counted as a "wash sale" and you will lose the tax advantage. In between times, of course, you will be taking the chance that the market price might go up.

A. You would undoubtedly save tax dollars by making the move you have in mind. And, assuming you buy back at or near the price at which you sell, you should come out well ahead.
As this column goes through the typewriter, AT&T is trading around \$52.25. Let's say you sell at \$53. That would give you \$4,256 for your 80 shares. After paying \$41 commission, \$4,215 transfer tax and 10 cents Securities and Exchange Commission fee, your net proceeds would be \$4,175.50.

Frankly, I am amazed by letters such as yours - from people who start long-range, steady investment programs and who have no idea where their money is going. This sure backs up the theory that mutual funds aren't going to be successful in the 19-20 percent Federal income-tax bracket. So, by reducing your taxable income by \$8,800 total income you are most likely in the 19-20 percent Federal income-tax bracket. So, by reducing your taxable income by \$8,800 total income you are most likely in the 19-20 percent Federal income-tax bracket.

HOLDING PAINTINGS which will be among those displayed at their mother-daughter-exposition Friday at America House in Sun Valley are Mrs. Kenneth Helleyer, left, whose winter home is in LaJolla, Calif., and her daughter, Mrs. Judy Atkinson. Mrs. Atkinson, who lives on Triumph Gulch, holds a painting of flowers and fruits on grayed aged wood she has done.

Mother-Daughter To Show Paintings In Sun Valley

HAILEY—A mother-daughter exposition of the paintings of Mrs. Kenneth Helleyer of Circle "H" Ranch, Garnett, and Mrs. Don Atkinson of Triumph Gulch will be held at America House in Sun Valley Friday.

Mrs. Helleyer will exhibit several of her oils on canvas, most of which will be flowers and fruit, which she especially likes to do.

"If I purchase a watermelon, a cantaloupe, grapes or other fruit at the store, I always have to paint it before we eat it," she laughed. "Once in a while the fruit gets too old to be good to eat."

She has been painting for approximately 30 years and has studied under Velda Buys Gately of Utah and California and Edna Reindel of New York and California. She has also taken many art courses at the University of California at Los Angeles and attended several painting sessions of the University of Idaho Workshop on Wheels.

The Helleyer winter home is now in LaJolla, Calif., where she has the entire floor-level of their home as a studio.

Mrs. Helleyer's paintings can be seen in many churches in Los Angeles and in private homes throughout the United States.

Mrs. Atkinson, the former Judy Helleyer, also studied art at the University of California at Los Angeles and attended several sessions of the University of Idaho Workshop on Wheels.

Her approach is different from that of her talented mother.

This young mother was kept busy with her two young sons, Chip, 5, and Whitte, 3, when they moved into their new home up Triumph Gulch. But off her kitchen, instead of using the space for storage, she set up a small studio.

She liked to be outside each day, and started taking up some small rocks in their yard, which had not yet been planted.

One day while sitting in the sunning, while her two sons took their afternoon nap, she got out a paint brush and painted the face of the sun on a small rock. Intrigued, she did a few more with rocks on them.

When the children awoke they enjoyed the bright colors on the gray rocks. That evening Mr.

and Mrs. Luther Douglas of America House at Sun Valley called and happened to see the whimsical paintings.

Since then these river-painted rocks have been popular items among the tourists. All the rocks off the Atkinson property are used up and Mrs. Atkinson must go down to the creek now to get her supply.

She has continued to expand her work onto weathered wood. She has done many varied subjects including ducks, pheasants, fruits, ships and any other subject anyone expresses a desire to have.

She recently painted a roadrunner for Paul Harvey of ABC News for his new home in Arizona. She enjoys doing commissions of subjects she hasn't yet tried to paint.

Treaty Dam To Become Operational

VICTORIA, B.C. (CP) — The first Columbia Treaty dam will be formally declared operational Monday well ahead of schedule, Premier Bennett announced Wednesday.

He said the early completion of the Duncan Lake Dam near Kaslo will save B.C. some \$2,000,000. The dam is one of three constructed under the Columbia River Treaty.

Premier Bennett released a letter from B.C. Hydro co-ordinator Dr. Hugh Keesleyside which said the moment the dam is declared operational the province will receive \$12,000,000 from the U.S. in agreed flood control benefits.

The official acceptance of the completed dam will be 15 months ahead of the treaty's deadline and eight months ahead of the negotiated sale agreement of downstream power to U.S. utilities.

The extra interest earnings of the earlier flood control payment and extra power sales will produce a net financial advantage to the province of almost \$3,000,000, reducing the estimated \$13,200,000 cost of the Duncan Dam to \$29,000,000, Dr. Keesleyside wrote.

Man Admits Blowing Up Auto Agency

SPOKANE (AP) — Robert E. Woodard, 48, admitted in Spokane County Superior Court Wednesday he blew up a Spokane Valley auto agency in an unsuccessful attempt to cover up his embezzlements.

Woodard pleaded guilty to three counts of "grand larceny" and three felony charges connected with a dynamic explosion last Oct. 7.

Earlier, Woodard pleaded innocent to 23 counts, but these were amended. Nineteen counts of aiding and abetting against Woodard's wife, Pauline, 32, were dismissed.

Judge William H. Williams sentenced Woodard to 25 years in prison on a charge of possession of an explosive device, and 20 years apiece on charges of endangering life and property by explosion and damaging a building by explosion. He received 15 apiece on the grand larceny counts.

All the terms are to run concurrently and Woodard's attorney said he could be eligible for parole in 7 1/2 years.

Pros. Atty. George A. Kahn said Woodard was hired in 1961, with the owner fully aware that Woodard had been imprisoned for embezzlement from an Okanogan fruit cooperative.

He said Woodard embezzled some \$22,000 from Valley Volkswagen and hoped the explosion would destroy all records.

Woodard was taken Wednesday to the State Diagnostic Center at Shelton.

News Of Servicemen

James R. VanOrman, son of Mr. and Mrs. Lylo C. VanOrman, 229 S. Buchanan, Jerome, has been commissioned a second lieutenant in the U. S. Air Force upon graduation from Officer Training School at Lackland Air Force Base, Tex. He is being assigned to Wright-Patterson Air Force Base, Ohio, for training as a civil engineer. The lieutenant, a Jerome High School graduate, received his BS and MS degrees in civil engineering from the University of Utah. His wife, Ellen, is a daughter of Mr. and Mrs. Wendell J. Ashton, Salt Lake City.

Gerald A. Tell, son of Mr. and Mrs. Elver M. Tell, 125 Larkspur Drive, Twin Falls, received his commission as a second lieutenant in the U. S. Air Force after being graduated from Officer Training School at Lackland Air Force Base, Tex., recently. He is being assigned to Wright-Patterson Air Force Base, Ohio, for training and duty as a civil engineer. The lieutenant, a graduate of Twin Falls High School, received his B.S. degree from the University of Idaho. He is a member of Phi Kappa Phi.

Memorial Bulletin Board Is Completed At Valley

EDEN-HAZELTON — The David A. Black memorial bulletin board has been completed at Valley High School.

The structure was built by Community Builders, (Burroughs), with funds donated to the memorial by friends and relatives.

David Black, son of Mr. and Mrs. Don Black, Eden, was killed in an auto accident in November, 1955, en route to Brigham Young University, Provo, Utah. He graduated that same year from Valley High and had attended the Hazelton-Eden Schools all his life.

He was active in all sports and school activities and the bulletin board will list coming events at the school. It is lighted so that even at night it is visible.

The brick planter has an inscription on the front that reads, "In Memory of David A. Black."

Hospitality Day Set Aug. 5 At Murtaugh

MURTAUGH — The fourth annual Hospitality Day will be held Aug. 5 at Murtaugh under the sponsorship of the Murtaugh Mavericks Riding Club.

Doug Bailey, drill master for the riding club, stated that proceeds from this event will be used toward the purchase of the grounds and other equipment

needed by the club. A parade will open the activities at 2 p.m. with those participating asked to form at the Murtaugh Highway Building.

Anyone interested in entering the parade may contact Merrill Martin. Entries are welcome. The Jamboree will be held at the grounds located one mile

CANDIDATES FOR the title of Murtaugh Hospitality day queen will be honored at a tea at the home of Mr. and Mrs. Jack Allred Aug. 4. Jill Allred, center rear, is reigning queen and contestants are, from left, Debbie Coulson, Myra Kirk, Sheryl Bourn, Carol Martin and Carmel Bailey. A parade at 1 p.m. Aug. 5, is slated for the fourth annual event.

Utilities Need To Plan For Power Failure

By PHIL KEIF WASHINGTON (AP) — Utilities need to plan for more than they now plan if they are to prevent massive power failures, the Federal Power Commission said Wednesday night.

The commission suggested \$8-billion worth of extra high voltage transmission lines by 1975. It said that is about \$3 billion more than utilities "apparently plan to spend on transmission by 1975."

The commission says inadequate transmission lines are a primary cause of such massive blackouts as the one that hit New England and New York in 1965 and the power pool failure last June 5 in eastern Pennsylvania, New Jersey and the Delaware-Maryland peninsula.

A sagging line that caused a short circuit triggered the June 5 disruption. An inadequate relay triggered the New England-New York blackout of Nov. 9, 1965.

But the commission says if these power pool areas had adequate transmission lines to handle sudden surges of power the failures would have been limited in area.

The FPC has asked Congress for legislation giving it authority to regulate installation of extra high voltage lines, those which carry 500 kilovolts or more.

Under the proposed electric power reliability act, the commission could require interconnections between power pools. Extra high voltage lines could serve as interconnections.

If a part of one power pool area went down, it would draw electricity from another area and extra high voltage lines would transmit the resulting sudden power surge.

Wednesday's report from the FPC was to President Johnson. It is the final study resulting from the 1965 blackout.

The commission said \$2 billion has been spent in the Northwest since the 1965 blackout for new equipment and improvements. But the report adds: "We believe that prevention of crippling power failures requires much more."

Bonanza To Offer Prices Competitively

By J. RYAN REES — An Associated Press Writer SALT LAKE CITY (AP) — The research development vice president of Bonanza Air Lines, Don Nelson, said Tuesday the firm would be able to offer prices competitive with Western Air Lines.

Western presently has service to Las Vegas and Southern California from Salt Lake City. Bonanza and five other airlines are seeking that right also.

The Civil Aeronautics Board is conducting hearings in Salt Lake City to determine whether there is a need for additional service between the areas.

Nelson said that although Western "has some discount prices that are lower than ours, Bonanza will be competitive." He added "we will provide a more diverse and economical fare package to the customers."

He also explained that Bonanza is the only airline that proposes stops in Cedar City, Utah. Bonanza now offers flights to Phoenix with stops in Cedar City.

Also taking the stand for Bonanza was Beauvais, director of economic analysis. He explained that Bonanza is able to operate more economically because it leases part of its fleet. He said "we are now in the process of purchasing two new DC-9 aircraft." He noted that they would be used in the expanded route if it is awarded the Bonanza.

The final witness in the city and civic segment of the morning proceedings was Lewis W. Dymond, president of Frontier Airlines. He said his company would be able to reduce its federal subsidy by nearly one-half million dollars in the next year, if it is awarded the contract.

Dymond also explained proposed flights to western Montana. He said his airline not only proposes flights to Southern California, but will extend them north from Salt Lake City to Jackson Wyo., Billings, Missoula and Great Falls, Mont.

Frontier was awarded the CAB decision. Another witness was Delmar Canada, manager of the Palm Springs, Calif., airport. He explained that "the city of Palm Springs depends upon tourism, tourism depends on adequate public transportation and air flights are the most popular means of transportation."

The other airlines seeking the route are American, Continental, Frontier, Pacific and West Coast. Continental is expected to follow Bonanza in the commercial carrier hearings.

JAMES B. MASON

son of Mr. and Mrs. James Mason, Roy, Utah, former Hagerman residents, received his law doctor's degree at the University of Utah, Salt Lake City. He is employed by the FBI and temporarily in Washington, D. C. His wife and daughter, Michelle, are visiting her parents, Mr. and Mrs. LeRoy Jolley, Hagerman.

King Scores Congress For Negro Riots

By MARGARET SCHERF CHICAGO (AP) — Dr. Martin Luther King Jr. Wednesday laid part of the blame for massive Negro rioting on "a very insensitive, irresponsible Congress."

King, head of the Southern Christian Leadership Conference made the charge at a news conference called to announce an adult education project in Chicago, financed by the U.S. Office of Education, to find jobs for the unemployed.

"Congress ought to be asked by the President immediately to face up to this emergency; to create a new government agency, similar to the WPA Works Progress Administration of the 30s, to end the massive unemployment in the Negro community," King said.

When asked what he thought could be done immediately to stop the wave of rioting sweeping the country, King answered, "By getting a very insensitive irresponsible Congress to admit its responsibility."

"Congress has created the atmosphere for these riots," King asserted. "It has shown it is not concerned with the deaths of children in rat-infested slums." King said, in reply to a question, that he had no plans to go to Detroit or other riot-torn cities.

"I don't see my role as that of a fireman," he said, "I see my role as that of keeping fires from starting."

Women To Be Active At Scout Event

FARRAGUT STATE PARK, Idaho (AP) — Some women Boy Scout leaders will be attending the nine-day Jamboree, but their participation will be daytime only.

As hundreds of scouts poured into Spokane, Wash., a transportation center 55 miles to the southwest, it was learned that the German delegation—scheduled to land Wednesday evening—will include 18 women.

Traditionally, Boy Scout leaders in Germany are women as well as men. So, after a few days visiting and camping in the Spokane area, the 18 women—aged 19 to 32—will be here Tuesday for the nine-day Jamboree. But they will not be allowed to sleep on site.

The host Boy Scouts of America are strict about their rule that no females be allowed at the encampment after visiting hours, 1-6 p.m. most days. Earlier, they turned down an offer by a sporting goods manufacturer to provide a woman-casting expert to demonstrate fishing techniques to scouts. Because fishing begins at 6 a.m., the manufacturer is instead sending men casters.

Ten thousand of the expected 15,000 scouts are arriving by air in Spokane, but most others have been in the United States doing some pre-Jamboree touring, working their way westward from the Eastern seaboard.

Silver Ridge is one of four owners of Spectacular Explorations, Ltd., which has a joint participation agreement with Cominco, Ltd., of Canada, for the uranium search. The first phase of the program is expected to cost about \$150,000.

Low Bidder

HELENA, Mont. (AP) — Applicant low bidder Wednesday for the job of constructing a parking apron at the West Yellowstone Airport was Robert Burgard, Idaho Falls, Idaho.

Burgard offered to handle the project for a base bid of \$83,117. The only other bidder was Long Construction Co., Billings at \$70,705.

It was the second bid opening by the Board of Examiners on the job which had been estimated at \$85,000, at the first opening, July 8. Burgard submitted the only bid so the job had to be re-advertised.

Detroit Centers For Refugees Of Riot Zone

By JACQUELINE KORONA DETROIT (AP) — Shots still echo and fires smolder as this city of nearly two million braces for an outpouring of refugees from neighborhoods ravaged by three nights of bombing, arson and shooting.

Dead on the floor of their apartment was her husband, Prince. He had been ill "and the excitement was too much, for him." Exact cause of death has not been determined. Neither has the future of the Mayfield family.

Similar accounts of tragedy fill Detroit. Industry has offered furniture to fire victims. The State Employment Service Commission, the Department of Labor and the U.S. Office of Economic Opportunity are trying to find jobs for those whose places of employment were burned and looted.

The U.S. Small Business Administration is looking into the possibility of declaring Detroit a disaster area, thus qualifying owners of stores and homes damaged in the rioting for long-term, low-interest loans.

"We are in good shape to deal with the problems when mopping up time comes," Rutledge said. But the best of mopping-up plans can't help Dalton Williams in his time of need, which is now.

Dalton is 2. And he has no shoes. The Negro boy, his five brothers and sisters and his mother were turned out of their apartment Monday night.

"I got the kids out," Mrs. Williams said wearily. "The fire was almost out when I started back toward the building, but then the snipers started shooting at firemen, and they had to stop their work."

Mrs. Williams had managed to get clothes on her youngsters, but five were no shoes. Mrs. Williams, who is estranged from her husband and on welfare, put her family up for the night with two neighbors. Families in the black do-

minated food to provide breakfast and lunch for the youngsters. Johnnie Mayo Mayfield and her five youngsters walked the two miles from their burning neighborhood to a church shelter.

Officials at Children's Hospital wonder what to do with a girl whose arm had been caught in a washing-machine wringer Monday night. The child's mother is missing.

Two boys, one three, the other four, face the prospect of living in foster homes while their parents are in jail. Both parents are charged with looting.

Hundreds of refugees sleep and eat at shelters set up throughout the city by Salvation Army, Red Cross and YMCA workers.

But fear is keeping some of the homeless and hungry from seeking help.

"They're scared to come out onto the streets," said Rutledge.

Exploring Begins WALLACE, Idaho (AP) — An aerial exploration program for uranium in Canada's Northwest Territories has begun. H. F. Mungerson, president of Silver Ridge Mining Co., Ltd., told stockholders Wednesday.

Silver Ridge is one of four owners of Spectacular Explorations, Ltd., which has a joint participation agreement with Cominco, Ltd., of Canada, for

the uranium search. The first phase of the program is expected to cost about \$150,000.

PLANNING PLAY PAYS DIVIDENDS

Waldemar von Zedwitz of New York has been one of the best bridge players in the world for 40 years. You can't be a great bridge player and be superstitious but Waldy has an almost superstitious feeling about

should merely have bid two no-trump over two hearts. Waldy looked over dummy carefully and, with Wally, that means very carefully. He saw that he needed a lot of luck to make his contract but that it would be a cinch if East held the king at the top of a three-card heart suit. Then he looked about for other winning possibilities and finally came up with a successful play.

NORTH		EAST

Pass	6 ♠	Pass	Pass
Opening lead—♠ Q			

He won the first trick with the king of spades and led out his five of hearts. East overtook his partner's seven with the nine and led the suit right back in an effort to make Wally think that West held the king but Wally had planned to finesse in any event and did finesse. Then Wally played two rounds of trumps and the ace of hearts. West could do nothing except discard. Wally ruffed his last heart. He cashed dummy's ace of spades, ruffed a spade, drew the last trump and claimed the rest of the trick.

the diamond suit. If you pin him down, he will admit that he tends to bid doubtful diamond suits because he is lucky with them.

Of course, Wally does a lot about making his own luck. He sat South and white the final contract of six diamonds was a desire to play in hearts. Be optimistic indeed, we can't find that he overbid at all. His partner did hold ace-king-ace but his two-club response showed a good hand and we feel that North's rebid to three diamonds was a decidedly poor choice. With a 4-3-3-3 distribution he

Young America's Date-Line

By ELE AND WALT DULANEY

Tarzan Loved Nature, Too

Dear Walt: The boy I date regularly has a number of hobbies that have to do with nature. He collects butterflies, gathers herbs and watches birds. I've even got with him several times, although it doesn't exactly turn me on to walk five or six miles. I know he gets a lot of pleasure out of these hobbies and I'm glad. What's bothering me is my dad's reaction. Ever since he heard about Wendell's interest he keeps dropping hints that Wendell isn't quite all man, that "a real man" wouldn't be interested in these things. I know this isn't so, but I guess I want you to reassure me. — Doubting Daughter.

Dear Daughter: Here's a case where "Father Doesn't Know Best." Wendell's hobbies, require stamina, persistence and scientific discipline — hardly feminine qualities. Let dad's jibes go in one ear and out the other! — Walt.

BLAST OR BUST VIEWPOINT
Dear Ele and Walt: I'm embarrassed I just returned from a three-week vacation with my parents. It just wasn't what I had to cut corners and ended up sleeping at noisy motels and eating at drive-ins. But when my parents tell it, you'd think I was eating at cafes and ate on solid gold plates. And each time they talk about it again, the trip gets fancier and fancier. I just want to scream, "you're lying, you're lying!" when they do this. Why do they lie when they taught me not to lie? — Hated Every Moment of it.

Nation's Police Forces Try Many Plays To Up Manpower

By HARRY KELLY
WASHINGTON (AP) — On the late night record show Louis Armstrong ends on a blue note. Then, with a mood changing as far as the flash of a police badge comes the news.

That's why a lot of guys want to be state troopers, says an Eastern officer. "They get a lot of boosts and they look sharp."

Police officials blame a variety of factors for their difficulty in getting and keeping good men:
"Pay that is not competitive with industry or even with other police departments."

Many cities have reduced standards for recruits but not to the point some applicants would not be accepted at all.

Departments place help-wanted cards in newspapers, display posters in cabs and buses, seek out newly discharged servicemen.

"We've run across terms from Los Angeles and Oakland that are recruiting trips," says a Washington officer who ranges as far west as Illinois, as far north as New England, and as far east as Florida.

Russians Love To Buy U.S. Gold
SPOKANE (AP) — The Russians love to buy U.S. gold, says a spokesman for the U.S. gold operation.

But the ex-president said to a news comparison of today's Detroit and the 1-Hike Koch of 1957.

"They were not the same," said Eisenhower in response to a question. He said he sent Eisenhower to Detroit to prevent the state authority from violating the civil rights laws.
