

Officers At Area School Are Elected

CASTLEFORD — Tony Wiggins was elected student body president of Castleford High School during recent elections held there.

Kim Herzinger was elected vice president; Cindy Herzinger, secretary; and Judy Hill, treasurer, during the balloting.

Senior class officers are: Charles Barina, president; Jeanette Reese, vice president; Cindy Herzinger, secretary; Rose Mahannah, treasurer; Connie Fenstermaker, reporter; John Parkison, sergeant at arms; and Teresa Ruffing and Dick Frey, class representatives.

Junior class officers are: Benny Ruffing, president; Terry Milton, vice president; Debby Eastford, secretary; Dina Kaercher, treasurer; and Florence Wasko and Jim Wiggins, class representatives.

Sophomore officers are: Steve Wright, president; Johnny Conrad, vice president; Lisa Kim, secretary; Bob Herzinger, treasurer; Joy Barina, reporter; Jan Quigley and Joey Ruffing, class representatives; and Ed Potuck and Sheila Puschel, sergeant at arms.

Freshman officers are: Gus Easterday, president; Sidney Wing, vice president; Vivian Alfred, secretary; Tammy Keller, treasurer; Sherry Freil, reporter; and David Easterday and Dalene House, class representatives.

Band officers are: Dennis Wheeler, president; Kim Herzinger, vice president; Donnie Glander, secretary; Cathy Wiggins and Mike Grabeal, quartermasters; Florence Wasko, student director; and Diana Senften, reporter.

Chorus officers are: Connie Fenstermaker, president; Linda Barina, vice president; Dina Senften, secretary; Debbie Easterday, queen; Cindy Herzinger,

Kite License

BÖNN, Germany (AP) — Some time in the future one will need a license to fly a kite in West Germany. A government draft law revising air safety regulations requires permits "for the special use of air space" by anyone flying kites, model airplanes, balloons or similar objects.

Thieu Sees New Era For Vietnam

SAIGON (AP) — Chief of State Nguyen Van Thieu declared today South Vietnam is "on the threshold of a new era" and appealed to the United States to remain unified with his country and persevere against the Communists.

At a ceremony at which he helped dedicate the new \$20 million U.S. Embassy in Saigon, Thieu said, "There is no challenge that cannot be met if we remain unified and persevere in our efforts."

and Teresa Ruffing, varsity cheer leaders, and Connie Glander, mascot.

Dena Herzinger is junior varsity cheer leader, and Sherry Freil are junior varsity cheer leaders.

Pope Opens Synod Of 200 Bishops

By DAVID MAZZARELLA
VATICAN CITY (AP) — Pope Paul VI formally opened today a synod of nearly 200 bishops from all parts of the world in an experiment to help him govern the half-billion-member Roman Catholic Church more democratically.

Looking greatly recovered from the urinary illness that struck him earlier this month, the 70-year old pontiff went to St. Peter's basilica to celebrate the opening Mass, give his blessing and invoke divine guidance.

The gathering, to last a month or more, is expected to be the scene of basic conflicts over the direction the Church is taking following the second Vatican Council that closed in December 1965.

The prelates, most of them democratically elected by fellow bishops in their countries, will take on predetermined topics, including mixed marriages, liturgy, dangers to the faith, canon law, and seminary training.

They are also expected to raise other subjects among the most controversial in the Church, such as priestly celibacy and birth control.

The mixed-marriage topic,

Charge Reduced In Assault Case

Charge of assault with a deadly weapon against Mrs. Charles Green, 651 Madison Circle, was reduced to assault Wednesday afternoon in Twin Falls Probate Court.

Mrs. Green entered a plea of guilty to the reduced charge and will appear before Judge Zoe Ann Shaub Monday at 10 a.m. for sentencing.

Charges resulted from an incident at the Green home Sept. 8, when Mrs. Green allegedly took a police gun from Officer M. E. Heath when he went to the home to investigate following a call for assistance from the Green residence.

Mrs. Green was found guilty Tuesday by a Twin Falls Police Court jury of battery and resisting arrest.

Especially important because of moves toward unity of Christian denominations, involves the Vatican's insistence that children of such marriages be baptized as Catholics and that the ceremonies be performed by Catholic priests.

Bickel PTA Officers Tell About Plans

Bickel School PTA met recently with Mrs. Glen Griffith, president, presiding.

The faculty of the school was introduced by Clarence Parker. Mrs. Griffith introduced officers of the PTA for the year.

Glen Griffith is co-president; Mr. and Mrs. Roy Lewis, co-vice presidents; Mrs. Howard Arrington, secretary; and Mrs. Jim Griffith Jr., treasurer.

Mrs. Florence McGuire's room won the PTA traveling trophy for PTA attendance in the lower division. W. T. Armstrong's class won the trophy for upper division attendance.

Mrs. Griffith announced the annual family fun night will be Oct. 20. Mrs. Imogene Heath, carnival chairman, told of progress being made on carnival arrangements.

Lud Drexler, guest speaker, presented a talk on education in Guatemala.

Mrs. Howard Arrington, hos-

Dedication For Grandstands Set

HAGERMAN—The Hagerman School will hold special dedication services for the bleachers which were erected last year at the half time of the Oct. 6 game between the Hagerman Pirates and Dietrich.

The game will begin at 8 p.m. Superintendent George Carnie reported all former members of

the Hagerman Civic Club are invited to attend the game as guests of the school, as the former Civic Club was the instigator for the bleachers in conjunction with the graduating class of 1966.

All organizations assisting with the construction of the bleachers will be recognized at the special services.

War Danger Is Among Small Nations

WASHINGTON—A little-noticed report on the arms build-up in the Middle East the other day recalled a brief conversation with Nikita Khrushchev in the Kremlin several years ago on the danger of another world war.

This was when Khrushchev and Bulganin were sharing power as the team of B. and K. and the Soviet Union was making its first tentative overtures toward thawing the Cold War. For several days, in casual meetings with Western newsmen at country picnics and diplomatic receptions, Khrushchev had been emphasizing his "search for peace," as he called it, and twitting the United States for its "half-American attitude."

Finding myself standing next to Khrushchev in the Kremlin's Hall of St. George, I asked him

if he seriously believed the U.S. wanted war with the Soviet Union.

His reply came instantly, and soberly. "No, I cannot believe that, any more than I can believe that the Soviet Union wants war with the United States," he said. "The danger of World War III lies elsewhere among the little countries, of the new little countries, of the world. Look at your map and see how they are arming themselves against their neighbors, of course. It will be from one of those little wars, in the Middle East or Africa, that the third world war will come."

Mr. K's prophecy came dangerously close to being fulfilled during the Cuban missile crisis and the more recent Arab-Israeli war. A military confrontation

between Russia and America was avoided only because both sides showed commendable restraint. But the annual report of the highly-respected Institute for Strategic Studies in London shows how furiously Khrushchev's "little countries" continue to pursue the path to war.

The Institute, which annually offers the most authoritative appraisal of world military strength, reported that the highest percentage of gross national product spent on "defense" was in the Middle East.

Israel and Jordan, said the Institute, are tied for this dubious honor—each spending 12.2 per cent of their GNP every year on their military machines. Other figures include 12.1 per cent for Saudi Arabia, 11.9 per cent for Syria, 11.1 per cent for Egypt and 10.5 per cent for

Iraq. By comparison, the United States spends only 0.2 per cent of its GNP for defense, Russia spends 8.9 per cent and Red China, 10 per cent. Predictably, South Vietnam is spending 10.5 per cent of its GNP for defense.

Harry Truman, among others, used to say that the trouble with giving the little countries the developing countries was that sooner or later they would insist on getting their money's worth by using it to harm somebody else. The Institute's report also indicates that a dangerous corollary to the arms race by the smaller nations is the compulsion of the bigger powers to strengthen their military posture.

Thus, in the year ending last July which saw four wars and at least 25 million deaths, both the U.S. and Russia increased their missile power. Russia increased its quarter-million dollar intercontinental ballistic missiles by 50 per cent—but the overall American lead remained at a ratio of just less than 3 to 1.

Partly because the superpowers know what to do with war, it will erupt in a big one, the

Soviet Union now has 460 land-based intercontinental ballistic missiles, the United States, 1,100. Moreover, two newcomers to the arms race are now developing the highest proportion of their defense spending to military research and development—Red China 29 per cent and France 19 per cent.

The missiles contained in these awesome figures is clear, of course. With practically the entire world depending to its life to a degree believed impossible before World War II, the U.S. and Russia bear a heavy responsibility to cooperate in forcing a general disarmament policy on both their friends and foes. It would be small comfort to Moscow if a third world war was started by one of its friends, just as the U.S. would find no comfort if it started by one of its allies.

Khrushchev put it more succinctly in a paraphrase of Lord Palmerston, who once deplored that Britain had no allies, only enemies. If Khrushchev is right, Mr. K. "in time of war allies look only after themselves. We can't fight each other over a country that didn't even have a name five years ago."

"Could You Spare Like About \$100 Million?"

PAUL HARVEY

The Human Soul

The "nearness" of some people to death is a paradoxical fact. But, perhaps fortunately, we are not all plugged into the same socket; different people have different needs.

"Whether the human attraction is biological, chemical or electrical has been debated since the dawn of time. I am willing to accept an attraction without an analysis; scientists can't."

But science has now established that there is, surrounding every human body, an "aura," a technician, three-dimensional, measurable, photographable "aura."

While back an Arizona miner named James Kidd died and left a quarter-million dollars to "anybody who can prove scientifically that man has a soul."

Maricopa County (Phoenix) Superior Court, seeking to probate that will, has heard from 107 witnesses, each claiming that legacy.

Judge Robert Myers has denied a, dismissed 14, but has taken the testimony of 91 of these claimants under advisement.

With no intention of prejudging, I am fascinated by the testimony of one of those witnesses—a medical man—a gynecologist—Dr. Byron Butler.

Dr. Butler says that the human "aura" may be seen by some psychics as "soft, incandescent glow."

But, he says, with the use of the "Kliners" Screen, "anybody can see it."

Indeed, with this Kliners Screen, scientists watch the "aura" change color. Such observation is an accepted medical procedure in detecting certain diseases which tend to cause the "aura" to change color.

Now — as the person dies

this visible "aura" fades, becomes dim, and, at the point of death, disappears.

Where does it go? Dr. Butler does not presume to know. Some would say the deceased person has "given up the ghost."

A medical man can say only that there is "a three-dimensional change in optical density."

To quote Dr. Butler precisely, "People who have the congenital ability to see this 'aura' have seen it in the past, and they say the 'aura' gradually fades and becomes dim and grey until it finally disappears at death. Others have seen it actually leave the body."

Ethically, a medical man cannot say that the "aura" is "this one says that 'this aura' does it the theological description of the soul."

A Grim Warning

The "flower children" are playing with thorns. One of the favorite arguments of the hippie set is that marijuana is not a harmful drug, or certainly less harmful than tobacco or alcohol.

Now comes Dr. J. Miras, a pharmacologist from the University of Athens, to claim that chronic users of marijuana—those who have smoked at least two cigarettes a day for at least two years—run the danger of adverse personality changes and damage to the brain and other organs.

The personality changes he has noted in 20 years of observation of marijuana users the Greece include slower speech, lethargy and lowered inhibitions. But users may also become suddenly violent without apparent provocation, he says.

The doctor's findings will not likely be received with much credence in Psychodelphia, whose inhabitants make a point of tuning out on what goes on in the square world, anyway. But much graver suspicions concerning the long-range effects of LSD have begun to appear in medical literature. By long range is meant more than one generation.

In a recent conference held under the auspices of The National Foundation for the Study of LSD, definitely

damages human chromosomes, the hereditary material found in all cells of the body.

Chromosome damage is often associated with birth defects as well as cancer, and may play a role in aging. Not only LSD but numerous other things—including radiation, some viruses and possibly certain tranquilizers—can break chromosomes.

Although LSD has directly damaged laboratory animals born of mothers who were given LSD at a crucial time in pregnancy, studies of human babies whose mothers took LSD during pregnancy have so far revealed no birth defects.

However, some of the babies do have excessive numbers of broken chromosomes in their blood, which raises the possibility, say the experts, that the children of these babies might be born defective.

The scientists issued a general warning: In the face of our relative ignorance of how drugs and other chemicals affect the body, "no one should take any medication not absolutely necessary to relieve pain, or control disease." This is especially true of men and women in their reproductive years.

Unfortunately, the flower children seem preoccupied with gathering psychedelic rosebuds. While they may,

ART BUCHWALD

It's The FBI In Love And War

WASHINGTON—One of the most interesting decisions in American jurisprudence is now being tossed around in the U.S. Court of Appeals in Washington.

The outcome could directly affect every GI now in his country's service. The question involved is whether an ex-GI who had become used to necking and peeing while he was in the military service had the legal right to continue this activity in civilian life without getting fired from the FBI.

The veteran involved was a 26-year-old clerk named Thomas Carter, who kept a girl over his shoulder. The most persistent critic of the TFX, Sen. John L. McClellan of Arkansas, suggests that the FBI-11B shortcomings are too overwhelming—and its production date too far into the future—to justify hanging onto the plane.

He'd like to see it scrapped, and a more useful plane authorized for the Navy.

The decision in the case hasn't been rendered yet and of course there is much to be said for both sides.

To the fault lies neither with Carter nor the FBI. The blame should be placed on the military who allow our American boys to go around necking, spooning and smooching, knowing full well that once a GI goes down that path it is almost impossible for him to return to live a clean, healthy, normal life in the Federal Bureau of Investigation.

Our GIs receive absolutely no instruction on the evils of peeing. Most of them are led to believe the promiscuous necking is a good thing, and I'm ashamed to say that in some extreme cases soldiers and sailors have been known to stay up all night with a girl. It is no wonder that with this type of training the discharged GI is unable to adjust to the civilian life where the code of behavior of American men and women is so different.

The mistake, it seems to me, is that our military services are discharging our men without thought to the way they're going to behave when they get out.

He felt the FBI had not given Carter, who had just been discharged from the Air Force, enough time to get over his predilection for girls.

But the government's attorney argued that by having a girl over his shoulder, Carter compromised the reputation of the FBI.

WAYNE BRANDSTADT, M.D.

Nail Polish

Q—My nails are flexible and chip and peel easily. What can I do to make them stronger?

A—This condition is sometimes caused by nail polish removers. Some nail polish removers contain acetone which softens your nails. Nail hardeners are available but they usually contain formaldehyde and may cause allergic irritation. For this reason they must be used with caution.

Q—What causes numerous white spots on the fingernails? Why do they clear up as you grow?

A—These white spots are due to a small amount of air between the nail bed and the nail. The air gets there by means of chemical changes in the nail bed that are not well understood. They they should be more persistent at one age than another is anybody's guess.

Q—What causes the nails to grow so slowly?

A—The most likely cause is ringworm and other infections, exposure to harmful chemicals and diabetes. The treatment would depend on the cause.

ally the GI would realize that what is socially acceptable in the service does not necessarily carry over to civilian life.

I speak with personal knowledge and great sympathy for Carter's case. The only reason I'm not an FBI agent myself is that I could never stop snoozing once I got my discharge from the U.S. Marine Corps at the end of World War II.

MARQUIS CHILDS

Part Clown-But He's Shrewd

WASHINGTON—Everett McKinley Dirksen — Mr. Show business — has been named as part clown, part weepy sentimentalist and altogether as shrewd a politician as ever sat in Congress.

Everblooming "EV," the name evocative and admiring colleagues in the Senate give him, is a master of the political shell game. He is just beginning the now-you-see-it, now-you-don't routine calculated to make him a power in determining both the nominee and the platform of his party in 1968.

In the classic phrase Al Smith applied to Franklin Roosevelt, pinning EV down is like nailing a custard pie to a wall. And that goes double for this early stage when the dulcet sounds of his performance are as mystifying as the pronouncements of the Grand Lama.

But those who have watched the performance over the years, and as a political escape artist the Senator from Illinois makes the late great Houdini look like a frozen image—believe they have at least a clue to how the scenario will end.

The Illinois delegation to the Republican convention will on the second or third ballot cast 58 votes for Richard M. Nixon. And Nixon, if Dirksen his way, will be the party's nominee. As chairman of the convention's platform committee Dirksen will engineer a hard line on the Vietnam War, with rolling periods dictated by the chairman in his own inimitable style on the need to support American boys in a war against communism.

Even to suggest that this is the way it will end is like taking a trip out of a trip through the fun house, into the light. For on the way to the convention there will be more trap doors, shifty alliances and mysterious warnings than any fun house ever held.

Dirksen has just given his blessing, well some of his blessing, to the fellow senator from Illinois, Charles Percy, to be a favored candidate by turn. This is a gesture the senior Senator can well afford. His understanding with the conservative leadership of his own party from county chairmen on up is complete.

The gesture means that Percy's name will be placed in nomination with a great show of Illinois ardor. On the first ballot he will get the vote of his delegation, with perhaps a scattering of others. But taken second by the presidential candidate by the name of Richard M. Nixon, at least all by Mr. Show Business himself—that is quite an honor.

Percy, at 47, is a different breed of political cat. He is a successful business executive and a self-made millionaire. Vigorous, athletic, looking much younger than his years, Percy is a critic of the Johnson Vietnam War policy, sponsor low-cost home ownership, a moderate or progressive in the Republican spectrum. He was elected last year to his first public office and the Old Guard says solemnly that "in time may come, but it isn't now."

Having given Percy an accolade of sorts Mr. Show Business goes out to his own stamping ground next week to anoint a candidate for President at the annual meeting of the National Republican Convention. He will introduce Gov. Ronald Reagan of California at a big homecoming celebration for Reagan at his Alma Mater, Eureka College, which is not far from Dirksen's home town of Pekin. A film star most of his life, Reagan could find himself outclassed in the dramatic arts by his introducer who has produced a string of motion pictures of a nominating speech.

Reagan is for almost bombing North Vietnam. His policy is to the right on domestic issues. If it comes to a contest between Nixon and Reagan—the moderate and the conservative—the choice will be little choice but to back Nixon.

Along with the charming obsequies of Mr. Show Business in what appears to be his initial maneuvers on the national scene there is the little matter of his reelection to the Senate. No one takes this very seriously. Despite his age, 71, and recurring ill health he is considered a strong contender for a second term.

And that conviction is reinforced by a long political love affair. Everett McKinley Dirksen and Lyndon Johnson are the Damon and Pythias of the Washington scene. It is impossible to believe that the President would want to see his good friend, who in the view of expert observers has done more for him than any man in the Senate, defeated and thereby removed as minority leader. So, all things being equal, Mr. Show Business promises to enliven the fun house for a long time.

Opinions of Guest Editors

REDS UNCHANGED

After the Johnson-Kosygin conference in Glasnost, Vice President Humphrey told a press conference that the President had prevailed upon the Soviet Premier to call for a "new era" in relations between the two superpowers. Humphrey's assertion was believed in some quarters—but not this one—because the Soviet Union is working hard to increase trade and political influence with South America. Trade, it seemed, would cooperate the cooperation of governments Castro hopes to overthrow.

The idea that the Kremlin has forsworn world revolution and assistance to guerrilla leaders of "wars of liberation" under the Communist banner needed more substantiation than Mr. Humphrey's casual words. This has not been forthcoming.

Revolutionary leaders and agitators from many countries are in Havana for the celebration, this week, of the 14th anniversary of Castro's first, unsuccessful attempt to overthrow Fulgencio Batista. The main purpose of the meeting is to plan overthrow of Castro's first, unsuccessful attempt to overthrow Fulgencio Batista. The main purpose of the meeting is to plan overthrow of Castro's first, unsuccessful attempt to overthrow Fulgencio Batista.

million a year, would continue without interruption.

Q—What hold the Kremlin has on Castro is subsidization of the Cuban economy and arming of the strongest military force in Latin America. The Russians could cut off Castro from sending agents, money and weapons to guerrilla bands in Bolivia, Venezuela and other Latin American countries. The Russians could cut off Castro from sending agents, money and weapons to guerrilla bands in Bolivia, Venezuela and other Latin American countries.

New Pastor At Grace Baptist Church Moved From California With Family

The new pastor at the Grace Baptist Church in Twin Falls and his wife have a broad background in the field of education.

Pastor Robert J. Seaman and his wife Carolyn Parker Seaman are from the Eastern United States originally. Pastor Seaman is from Hornell, N.Y., while his wife Carolyn is from Altoona, Pa.

The trip to Twin Falls was not a direct one for the Seaman family. It had stops in South Carolina, Clear Lake, Calif., and Redding, Calif.

They moved to Twin Falls last August to accept the call at the Grace Baptist Church, at 211 4th Ave. E.

The Seamans live at the parsonage at 1325 Heyburn Ave. E., with their five children.

Two of the children are now attending O'Leary Junior High School, two are at Washington Elementary School, and one is preschool age.

The educational background of Pastor Seaman is extensive; he was a graduate along with his son at Bob Jones University in Greenville, S.C., class of 1951.

Mrs. Seaman taught French and English Bible in the Bob Jones Academy while Mr. Seaman attended seminary in the Graduate School of Religion. He received his Bachelor of Divinity degree in June, 1954.

They came to Twin Falls from Redding, where Pastor Seaman was Assistant Pastor specifically responsible as principal of the Oaklawn Christian School.

At for Twin Falls? They are pleased to be here.

We are very pleased with the wonderful welcome by the people of this area," said Pastor Seaman, "and we are looking forward to a fruitful time of service here."

Sorenson To Instruct At LDS School

Robert E. Sorenson Jr., son of Mr. and Mrs. Robert E. Sorenson Sr., 271 Madison St., will teach in the LDS Department of Seminaries and Institutes of Religion in Salt Lake City, Utah.

He was assigned recently after graduation from Brigham Young University last August.

He will be a teacher in Salt Lake East Seminary.

Mr. Sorenson graduated from Twin Falls High School in 1951 and is married to the former Marcia Jean Jensen, Oakland, Calif.

PASTOR ROBERT J. SEAMAN, the new pastor of the Grace Baptist Church, at 211 4th Ave. East in Twin Falls, is formerly from Redding, Calif., where he was assistant pastor at a church there.

Southern Baptist Church Schedules Wednesday Meets

A new Wednesday night program of work will begin next week at the First Southern Baptist Church at Washington and Filer Ave.

At 5:45 p.m., members will have a sandwich supper, and at 6:30 p.m. the Women's Missionary Society, the Brotherhood, Royal Ambassadors, Girls' Auxiliary and Sunbeams will meet with their respective leaders. Regular church business will be discussed once a month during this time.

At 7 p.m. adults will go on church visitation after assignments have been made. There will be a prayer meeting at 8:30 p.m. Nursery care will be provided.

Member Of Area Lodge Appointed

HAGERMAN—At the meeting of the Hagerman Masonic Lodge No. 76 AF and AM Tuesday evening, it was reported—E. L. W. (Tommy) Thompson has been appointed District Deputy Grand Master of the Thirteenth District of Masons in Idaho.

Four members of the lodge attended the official visit of the new Grand Master, Clifford Shaffer, Payette, to the Wendell Lodge Monday evening. Those attending from Hagerman were Ray Clowson, Gerald Martin, Rolf Simonsen, and Mr. Thompson.

SISTER DIES
KING HILL—Word was received by Mr. and Mrs. C. E. Spence of the death Monday of Mr. Spence's sister, Mrs. W. J. Smith, in Spokane, Wash.

Idaho News

PROGRAM BEGINS

PAYETTE (AP)—Boise fire department officers conducted the first junior fire marshal program in the state Thursday as they demonstrated fire hazards at Payette's two grade schools.

John Boros and Tim Prowell, both from the Boise Fire Prevention Bureau, demonstrated to students hazards of gasoline, electricity and other fire-producing elements.

The chairman of the junior fire marshal program, Stan Bower, Payette, said he planned to submit the project to the state Junior Chamber of Commerce for state-wide sponsorship.

Payette Jaycees, sponsored Thursday's demonstrations, he said.

SPEECH HEARD

BOISE (AP)—Idaho elementary school principals this morning heard the president of Boise College tell educators what they should do to help the public understand the value of education.

Dr. John B. Barnes, in remarks prepared for the opening session of a two-day meeting charged educators — principals particularly — to accomplish three goals.

First, he told the Idaho Department of Elementary School Principals, "our charge is to improve our skills in reporting the values and traits of education that are solid."

Then, he said, teachers should "make their work vital and dynamic."

Third, Barnes said, a renewed focus on students should be created.

Teachers Strike In Montevideo

MONTVIDEO, Uruguay (AP)—A teachers' strike has closed high schools in this capital, paralyzing work stoppages have interrupted bank operations and the leftist National Convention of Workers has threatened the second nationwide strike in two months.

Continuing labor disputes are adding to the woes of this inflation-ridden country.

HOUSES BURN

WINCHESTER, Idaho (AP)—Five of seven houses on a block in a residential area here were destroyed by fire Thursday.

Four of the five houses were occupied and occupants were able to save only a few possessions, officials of the community's volunteer fire department said.

Three rural and two private fire companies fought the blaze.

Winchester is a community of about 300 persons located south-east of Lewiston.

ARRESTED

HIGH POINT, N. C. (AP)—After the film "Hawaii" was shown, the operator of the Center Theater, Benni Harden, was arrested, charged under a city ordinance that prohibits the showing of women in topless attire on movie screens.

T.F. To Get Safety Award

Despite the increased number of vehicles traveling Twin Falls streets each year, the city again has been selected for a special American Automobile Association award for going through a year without a fatal pedestrian accident.

An award will be presented to the city council Monday night by Arnold Cross, local representative of the AAA. This will be the fifth such award to be received by Twin Falls since 1956, Mr. Cross said.

Cities throughout the nation are given the special recognition each year by the association providing they have no traffic accidents causing pedestrian deaths.

In 1957, when the AAA inaugurated the program, there were 15,000 pedestrian deaths in the nation. This figure now has dropped to 9,000 despite the fact that in the same period automobile registrations have increased by 220 per cent and the population by 54 per cent.

Travel has jumped by an astounding 245 per cent, he said.

2 Key Strongpoints Hold Off Reds

By FRED S. HOFFMAN

AP Military Writer

WASHINGTON (AP)—Communist North Vietnamese troops cannot come across the border zone to South Vietnam in force as long as U.S. troops hold two key strongpoints, Pentagon sources say.

This is cited as a chief reason for U.S. Marines to remain at Con Thien, a hilltop outpost under heavy Communist bombardment for a month, and at Gio Linh to the east.

We've got to stay in those strongpoints as long as they

North Vietnamese are inclined to come across in that area in force," one military expert said. "Tactical, political and psychological reasons were advanced for retaining control of Con Thien, particularly hard hit in casualties, and Gio Linh.

A pullback to any depth from these forward positions would endanger certain supply bases supporting U.S. Marine forces and Route 9, an east-west road over which U.S. military units are supplied from the coast.

A withdrawal, possibly leading to this ground to the North

Vietnamese, might shake the confidence of South Vietnamese in areas now under U.S. protection and also raise some questions in the mind of the Thais, who are ever watchful for signs of a weakening of U.S. resolve to hold the line against communism in Asia.

Some sources said a withdrawal from the Con Thien sector might have an upsetting psychological impact in the United States.

Some officers suggested that the bombardment, mainly from artillery positions in the North Vietnamese half of the six-mile-wide demilitarized zone, might be intended to lure American ground forces up toward the Ben Hai River boundary and possibly into a trap.

About eight battalions of American and South Vietnamese Infantry last May drove up into the southern half of the demilitarized zone close to the Ben Hai River.

They destroyed extensive Communist fortifications and mortar positions from which the enemy had been dropping

gravel.

Largest of the marijuana plants was two feet high. Smith said the city parks department planted the garden. He theorized someone else tossed the pot in later.

Dear Abby

By ABIGAIL VAN BUREN
DEAR ABBY: My wife has a problem. She has a horse that was born June 13th, and hasn't been named yet. Her Daddy, Gene Abbie, is a prolific sire whose pacers have earned more than 10 million dollars at the tracks. After mother, Abbie Direct, is a well-bred young mare from the great Billy Direct family.

We have high hopes for this promising young filly when she is ready for racing in 1969, and would like very much to name her **DEAR ABBY**. To do so we need your permission to forward this name to the United States Trotting association. How about it, Abby. **JIM MICHAEL**

DEAR JIM: Altho I haven't done much racing in my life, in competition I've been known to win by a nose, so go ahead and name your filly **DEAR ABBY**. And I hope she has as much luck with my name as I've had.

DEAR ABBY: When my brother was 4 years old, he used to live with an aunt and uncle in a far away state. Six years later I was born. I am now 25 and my brother is 35 and we met for the first time two months ago. He is married and so am I. I find myself terribly attracted (physically) to my brother. Fortunately I believe this attraction is one-sided. We have no other brothers or sisters, and both our parents are dead. He would be hurt if I now that we have found each other in a rushed to visit him without an explanation. But I can't go plain? I'm afraid if we continue visiting as families do, my husband might suspect my feelings.

DEAR BEWILDERED: Something is wrong here. In the past, has a "physical attraction" ever caused you to tremble so severely that you couldn't hold a cup of coffee? If not, perhaps a psychiatrist could tell you whether there is a deep-seated psychological reason behind all this. This is "verboten" and some people find the most "verboten" fantasies the most attractive.

DEAR ABBY: When I read that letter in your column from the mother of a retarded child, I couldn't believe my eyes! How could anyone be so stupid and cruel as to ring her doorbell and say, "I heard you have a child who's an idiot, and I've never seen one. May I see yours?"

Abby, that mother was much too gentle. She should have said, "Why don't you look in the mirror?" **MRS. V. C.**

CONFIDENTIAL TO CONCERNED IN PITTSBURGH: I, too, am concerned about the spreading epidemic of divorce, but making divorce more difficult to get does not strike me as being the answer.

IF MARRIAGE were more difficult to achieve, it might make more sense.

How has the world been treating you? Unload your problems on **Dear Abby**, Box 69709, Los Angeles, Cal. 90069. For a personal, unpublished reply, include a self-addressed, stamped envelope.

SHOWER HELD
DECLO — A miscellaneous bridal shower honored Mrs. Edie Hatch, the former Sharon Sutton, at the home of Mrs. Gene Reed, Hostesses were Mrs. Reed and daughter, Pat. Games were played under the direction of Miss Reed, and prizes were won by Mrs. Hatch and Jan Stradley.

Miss Hinckley, Larson Wed In Temple Rites

SHOSHONE — The Salt Lake City LDS Temple was the setting for the Aug. 31 wedding of Peggy L. Hinckley, daughter of Mr. and Mrs. Cloyd L. Hinckley, South Midvale, and Leslie D. Larson, son of Mr. and Mrs. Stanley Larson, Shoshone. Elder Paul H. Dunn performed the wedding ceremony.

The couple was honored at a reception that evening at the Midvale LDS Stake Center and open house was held at the Shoshone LDS Church Sept. 2, hosted by the bridegroom's parents. Joan Larson, sister of the bridegroom, registered guests at Shoshone. Mrs. Reid Newby and Mrs. Louise Trammel were in charge of the gift table. Johnny Hinckley and Robert Larson received gifts at the door.

Mrs. F. N. Stowell, Mrs. V. F. Perton and Mrs. Elvyn Webb were in charge of the kitchen. Cindy Trammel, Jeanne Larson, Lorinda Dille served. Baskets and vases of flowers were arranged by Mrs. Ward Rawson and Mrs. M. J. Dille.

The bride attended the Salt Lake City Trade Technical Institute, where she was student president. The bridegroom is attending Brigham Young University.

Social Events
 Twin Falls Garden Club will meet at 2 p.m. Wednesday at the YWCA. The program on spring bulbs and peonies will be given by Mrs. C. B. Regan and Mrs. T. C. Hartwell. A plant sale will be held. Prospective members and guests are welcome to attend.

"Star Social Club" will meet at 2 p.m. Monday with Mrs. L. W. Brizee, 2147 Addison Ave. E. Ben Lazier's Tune Twisters, sponsored by the Fourth of July Club, will play for an old time round dance at the Moose Hall, Twin Falls, at 8:30 p.m. Saturday. The public is invited.

Canton Colfax No. 13 and Ladies Auxiliary Parliarchs Militant will meet at 8 p.m. Monday at the Twin Falls Odd Fellows Temple.

Mrs. Jack Atkinson, 228 Filer Ave., will be hostess for members of the Friendship Circle of the Women of the Moose at 8 p.m. Monday. A party will be held for the birthday anniversary girls. All members will come dressed in their Halloween costumes.

We also gave Skylark a new wheelbase. We shortened it by three inches. It parks easier. And you'll think you're driving a sports car.

The engine runs on regular gas. Now you can take it easy on the family budget and travel in style.

Wouldn't you really rather have a Buick?

World Projects Report Given At WSCS Meet

CASTLEFORD — The Women's Society of Christian Service met recently at the home of Mrs. Don Kramer. Mrs. Edith Heidel, presiding officer, gave the prayer, "That They All Might Be One," and Mrs. Daline Cox, secretary of missionary education, reported on various world projects.

Mrs. George Blick, spiritual life secretary, urged all members to attend the Call to Prayer and Soul-Denial at 2 p.m. Oct. 25 at the Methodist Church. All persons interested in singing are invited to attend the choir festival at Buhl to be held Nov. 5, directed by Norman Logan, music department at the University of Idaho. Practice dates will be announced.

Mrs. Heidel, secretary of Christian social relations, announced the world understanding workshops on Africa will be held at Pocatello Wednesday and Thursday.

Mrs. Al Kramer, program chairman, introduced the new program books, "Search for Identity in a Changing World," Meredith Scott, Castleford, who recently returned from Tunisia, Africa, told of her experiences as a Peace Corps worker. She spoke highly of the people and stated that Peace Corps' big goal was to learn the cultures of many peoples and bring them home to us.

Kevin Kramer presented two piano numbers. Mrs. Heidel conducted a silent auction.

Date Changed
 The Golden Wedding Anniversary open house set for Mr. and Mrs. Edward Owens will be held from 4:30 to 6:30 p.m. Saturday instead of Sunday as previously announced in the Sept. 27 issue of the Times-News.

 DOWNTOWN TWIN FALLS

FIELDMEN-ADJUSTERS for the Federal Crop Insurance Corp. meet to discuss the latest methods of assisting farmers in claiming losses when their crops are damaged by weather, insects or disease. Around the meeting table are, from left, Emmett Kelly, Gooding; Bruce Healy, Rexburg; Don Cox,

Shelley; Harold Cheney, Burley; George Critchfield, Oakley; Forrest Boerner, Billings, Mont., loss adjustment specialist for FCIC; Arden Stevens, Driggs; Lyle Shafter, Buhl, and Max Moffitt, Jerome. The Twin Falls meeting was one of several being held in the Northwest by Boerner.

Crop Yields Expected To Exceed 1966's

By ROBERT VANAUDELN
 Times-News Farm Editor

The crops this fall throughout Magic Valley are good and the yields may exceed last year's, despite some damage this spring and summer.

These views were expressed by fieldmen-adjusters of Federal Crop Insurance Corp., during loss adjustment meetings held recently in Twin Falls.

Adjusters from Idaho and Utah attended the coordination meetings to bring them up to date on latest methods of assisting farmers in claiming losses when their crops are damaged by weather, insects or disease.

Forrest Boerner, Billings, Mont., loss adjustment specialist, conducted the three days of meetings. Assisting him was George Critchfield, Oakley, FCIC district supervisor in charge during the absence of Douglas Bertoch, Twin Falls, district director.

These meetings recently were part of a series of loss adjustment meetings being held in the Northwest area which includes Utah, Idaho, Washington, Oregon, Montana, North Dakota, South Dakota and Nebraska.

Most of the adjusters at the meeting predicted that the yields of most crops in Magic Valley will be better than that of 1966, especially in sugar beets because of the lifted allotment restriction.

Although totals for the 1967 grain crop are not in yet, the yield also is expected to exceed last year's.

Some of the damage to crops occurred this spring and was caused by hail and cold weather. Beans and sugar beets were hardest hit by the cold and hail in most valley areas, however, it was noted. In Camas County half damaged grain and alfalfa.

Max Moffitt, Jerome county adjuster, said excessive heat this summer caused considerable damage to some crops, es-

pecially the wheat crop. Other county adjusters were in agreement with that statement.

Lyman Schenk, Twin Falls County adjuster, said some halo blight occurred in some parts of the county, but was not as great as last year. Moffitt said halo blight caused some damage in Jerome County, where there was none last year. Cassia county also reported halo blight damage to this year's bean crop.

Damage claims in Magic Valley so far this year have totaled 275, states Critchfield. Most of these claims occurred this spring.

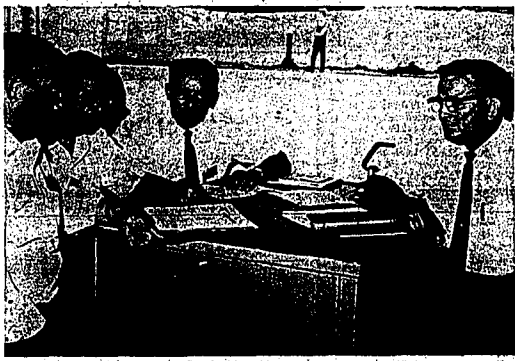

After bean harvesting is completed, which is now about 60 per cent completed, some more harvesting so an accurate claim is expected because some yields are expected to be below the guarantee provided by FCIC.

Bean damage is in the critical stage now or has been for the past two or three weeks.

Another crop that is in the critical stage now is potatoes. Hot weather and water root could cause considerable damage before harvesting time.

Despite these reported damages and expected damage, the 1967 crop year is expected to be very good.

Farmers are asked that if they notice any kind of damage, if insured by FCIC, they should call the FCIC office be-

DISCUSSING CROP SITUATION in Magic Valley are four Federal Crop Insurance Corp. fieldmen-adjusters. They are, from left, Max Moffitt, Jerome; Lyman Schenk, Twin Falls; George Critchfield, Oakley, and Lyle Shafter, Buhl. The four attended a recent meeting in Twin Falls for FCIC adjusters on loss adjustment.

DAMAGES ESTIMATED
 WASHINGTON — Air pollution damages to agricultural plants are estimated at \$800 million annually, says Dr. Howard E. Heggenstad, Agriculture Research Service.

SILT REMOVAL HIGH
 CHICAGO — Silty removal probably accounts for more than 80 per cent of municipal water treatment costs, says R. D. Walker, University of Illinois extension soil conservationist.

YOU CAN'T BEAT OUR GUARANTEE

CO-OP PASSENGER, TRUCK AND FARM TIRES: GUARANTEED FOR THE LIFE OF THE TREAD

Should the CO-OP tire covered by this certificate become unserviceable due to defects, or road hazards, such as potholes, cuts or stone bruises, it will be replaced with a new CO-OP tire of like size and type, changing the original buyer only for that portion of the original tread design worn off the unserviceable tire. Tread life means the non-skid or channels in the center of the tread. When the non-skid or channels of the tread in the center of a tire are worn smooth it will be considered the tread life is used up and the Guarantee is no longer valid.

EXCEPTIONS:
 Warranty does not apply to tires rendered unserviceable by running flat until the cords are loosened on the inside, and/or rendered unserviceable by fire, wreck, theft, chain gouging, nail punctures, overloading, or any other mechanical irregularities of the equipment which would render the tire unfit for service.

A series dedicated to Northwest Farmers

That's because the farmer could not borrow long-term growth capital on the same terms as other businessmen. When he could borrow money, he usually had to pay back the principal in five years. His interest rates were high.

After President Wilson signed the Farm Loan Act in 1916, the Federal Land Bank System was established. Through the Federal Land Bank Associations throughout the nation, the farmer is able to get needed long-term credit. We are proud that we have been of service to agriculture. We salute the Northwest Farmers, the Providers of Plenty.

RABELENE CHUGG, Jerome, says goodbye to her grand champion lamb after selling it to Buttery's Meat Shop, during the recent District 4-1 and FFA Fat Stock Sale. The 5-pound lamb was purchased for \$2.25 per pound or \$191.25 by Stan Dunham, left, Buttery's manager, and Ched Boltin, Buttery's meat department manager.

Record Set By Jerome Canal Firm

JEROME — Total amount of water which went into the North Side Canal Co. system during July and August exceeded that of any prior year, Douglas Finke, manager of the firm, reports.

He said a good carryover is anticipated this fall because of the late date in which the company was required to draw storage water.

Irrigation water will be available in the system until about Oct. 14, when the run will be reduced to amounts adequate for stock water.

Stock water will continue to run in the canal until about Dec. 1 or thereabouts, he says. However, water will be turned out of some specific laterals to make necessary maintenance repairs after the reduction of stock water has been made.

Grangers At Hagerman Elect Aides

HAGERMAN—Officers were elected at the Hagerman Valley Grange meeting. Stanley Hoskovec was elected master.

Other officers are: William Scruggs, overseer; Mrs. Louise Henley, lecturer; Stanley Baraglioli, steward; Albert Cortez, assistant steward; Robert Lawason, chaplain; Percy Pollard, treasurer; and Mrs. Pollard, secretary.

Vay Cook is gatekeeper with Mrs. Cortez, assistant lady steward; Mrs. Hoskovec, home economics chairman; Mrs. Dick Pope, Ceres; Mrs. Vay Cook, Pomona; and Mrs. Nora Clifford, Flor.

The executive committee is Dave Nicholson, Tom Fausett and M. N. Henley.

The candlelighting ceremony was held with Master Hoskovec and Chaplain Lawason assisting Mrs. Henley.

The group voted to send a contribution to CARE and to the National Grange building fund.

The next meeting will be a potluck supper at 7:30 p.m. Sept. 18.

A special program is being planned for that meeting with Susan Glaser and Patti Gold, both Hagerman, as special guests. Miss Glaser will show slides and tell of her recent trip to Europe. Miss Gold will give a musical reading, "Way of Decision." All Grangers are invited.

4-H WEEK SET

ACME

GRASS BOARDS
ALL STEEL SWATHING MOWS FOR EVERY MOVER

Acme boys love with the ground, swing-free when sickle is rolled. They're durable, yet simple.

ACME
FILER, IDAHO

Wendell — The new president of the 4-H Leaders Council. Officers were elected at a meeting at the Stop Cafe.

Mike Reed, Wendell, is vice president; Mrs. Muncie Mink, Wendell, secretary; and Mrs. Earl Seaburg, Wendell, reporter.

The last year's program was evaluated and it was decided that the ideas of expertise be used to advise project leaders, and that a schedule for events connected with the county fair be worked out during the winter, so that fair books can be printed earlier.

It was noted that 4-H leaders in the county wanting to retain a 4-H agent in addition to the regular county agent should contact the county commissioners before Oct. 9 or attend the meeting scheduled for that date.

It was noted that there were more than 300 members enrolled in the county, 250 girls and 155 boys.

There were 583 completed projects exhibited at the Gooding county fair this year.

Along Fences And Canals

Booster Fete Is Held By Wendell Unit

WENDELL — Booster night for Orchard Valley Grange No. 428 was observed last week at the hall with a potluck dinner.

In honor of Grange Tribute Night, Mrs. Frank Orth, lecturer, lighted the Centennial candle.

U.S.A. was the theme of the lecturer's program. Mrs. Loyal Crosby, soloist, accompanied by Mrs. Lillian Barton sang, "God Bless America."

Kirby Hill, Grange master, read communications from the Wendell school board and from Hershel Neuson, National Grange master.

The history of the Grange building was given. The building was formerly the Orchard School house, built in 1922. Auction songs played by Mrs. Barton and community singing completed the program.

Mrs. Melvin Gibson, home economics chairman, directed the coffee hour.

DAMAGE LISTED

WASHINGTON — Dr. Howard E. Heggestad, USDA's Agricultural Research Service, says air pollutants are doing \$300 million worth of damage to plants each year.

Cents Per Head On Cattle Sold

BOISE—The Idaho Beef Council, which was established by the 1967 Idaho Legislature, will begin operations on Oct. 1, 1967, with the collection of 10 cents per head on all calves in the state of Idaho, according to John McBoyle, Grangeville, council chairman.

The collections will be made by members of the Idaho Brand Department along with the operation of the Idaho Livestock Auction Markets, who will aid the Brand Department by collecting the funds, at the market, for the Idaho Beef Council.

McBoyle stressed that the Beef Council fee is separate and apart from the brand inspection fee or Auction Market commission.

The Idaho Beef Council was established for the purpose of Beef education, Beef research, and public relations for the Idaho beef industry. Council members were selected from Idaho cattle producers, the cattle feeders, the dairymen and members of the Idaho Livestock Markets.

Programs of the Idaho Beef Council will include conducting scientific research to discover and develop the commercial value of beef, to facilitate Idaho beef education in Idaho school classrooms by furnishing a variety of beef cuts for demonstration purposes and lesson plans.

The council also plans to train young future homemakers how to buy beef and how to cook beef, to cooperate with established beef education programs in heavily populated areas, to improve marketing practices in the beef industry, to sponsor research in disease, marketing and production, to extend financial support to the National Live Stock and Meat Board, and to cooperate with the Idaho State CowBelles, said McBoyle.

These programs and many others will be financed and coordinated by industry representatives. The overall goal is to increase demand for beef through cooperation of all segments of the beef industry by developing, conducting, and financing effective beef education programs.

WASHINGTON (AP) — The government, farmers and the grain industry are considering the probability of sharp cutbacks in acreage allotments for feed grains and soybeans in the coming year.

The Agriculture Department gave advance warning of the prospect in announcing that the feed grain program will be the major topic for consideration in the two-day meeting of the National Advisory Committee on Grains. The announcement specifically included soybeans, for which the first billion bushel harvest in history is predicted for this year.

The government already has cut the 1968 wheat allotment by 8.9 million acres, down to 53.1 million. This was done in anticipation of a bumper harvest this year — now estimated at a record 1.8 billion bushels.

The grains committee will make recommendations to the government. The Agriculture Secretary Orville L. Freeman plans about a dozen field hearings before making the big decision, which could mean a sharp cutback in acreage allotment of 10 million acres.

The outlook is for soybean acreage (trimming through elimination of fall plowing) to have of producing soybeans on

peatedly warned that acreage reductions would be made for feed grains and soybeans next year.

An early announcement for the 1968 feed grain program — under the 35-million level, well under the 35-million level — is expected. This would give farmers time to plan for the coming back up near the 1965-66 level, a season, and would tend to strengthen prices for the 1967 tour last week, Freeman re-record crops.

Eastern Idaho To Start Harvesting Beets Monday

IDAHO FALLS — The annual sugar beet harvest in Eastern Idaho will begin this morning, Oct. 2, according to Lloyd V. Olsen, district manager for Utah Idaho Sugar Co.

Approximately 40,000 acres of beets will be harvested in Idaho for the sugar company, Mr. Olsen said. Although this is not a record the 1967 crop is about 25 per cent larger than last year, and is one of the largest to be harvested since the industry was founded in Idaho in 1903. Harvest will be on a controlled basis until Oct. 10. Receiving stations in the Burley-Rupert area and in the Snake River Valley will open the forepart of the week beginning Monday.

Weather has been good this summer for sugar beet growth, Mr. Olsen said.

The sugar beet harvest is completely mechanized. Mr. Olsen noted the importance of properly adjusted equipment and good harvest practices so that growers may receive maximum return from their crop.

The beginning date for harvest this year is about average. Last year harvest began on Oct. 6, and occasionally it has been started the last days of September.

Beets from the area will be processed into pure white sugar at the Idaho Falls factory. The year's sugar harvest will begin a few days after harvest begins, as soon as adequate supplies of beet pulp are available.

Mr. Olsen said that even as harvest is about to begin it is

Anniversary Dinner Held By Grangers

BUHL — Buhl Grange held the third quarter birthday dinner and bonnet night at the grange hall, with 35 members and guests present.

Eleven members and guests lighted candles on the silver cake. Those honored included Henry Lehman, Mrs. John Unicker, Mrs. Blanche Smith, Mrs. Anna Kunze, Mrs. Arnold Tannler, Mr. and Mrs. Dean Mickelwait, Mrs. John Burkhardt, Mrs. W. L. Davis, Mr. D. W. Rowe, and Mrs. Earl Farlinger.

The program was presented under the direction of the Smiths. Mrs. Dean Mickelwait. The national master's message to grangers was read by Don Dietz.

Mr. Unicker and Mrs. Smith presented two piano duets. Mrs. Blanche Smith, 20 year membership certificate and a 50-year certificate and a 50-year certificate and a 50-year certificate.

Mr. and Mrs. El Boring were surprised on their fourth wedding anniversary, and she was presented with a corage and he with a bowl of fresh fruit.

The grange chorus sang three selections, and at the close of the meeting Mrs. Dietz showed pictures of her recent trip to Alaska.

Niccum Leads Wendell Area Grangers

TUTTLE — Howard Niccum of the Orchard Valley Grange was re-elected as Master of the Gooding County Pomona Grange. Re-elected also were Chester Ewing, Gooding, as overseer; Elmer Hanson of the West Point Grange, steward; Jim Kistler, Gooding, assistant steward; J. V. Bumgarner, Gooding, treasurer; Mrs. Arthur Byers, Wendell, secretary; Mrs. Harold Butler, Bliss, Cerer; Chester Ewing, Gooding, Pomona, and Mrs. Kistler as lady assistant steward.

New officers elected were Mrs. Ray Ruby, Wendell, lecturer; Mrs. Bertha Slidell, chaplain; Frank Orth, gatekeeper; Orchard Valley Grange, and Mrs. Raymond Wright, Tuttle, Flora.

Officers will be installed in a joint Pomona and subordinate ceremony at the Gooding Grange Hall Oct. 30 by Walter Mendis, Moscow, and a team of assistants. A program was presented by the lecturer, Omar Schmitt, and refreshments were served by a committee.

The next regular meeting was announced for Oct. 23 at the Orchard Valley Grange Hall.

Deep Creek Grange Sets Hall Project

BUHL — The Deep Creek Grangers voted to contract with Walter Boring for the building of their hall at a recent meeting.

Gordon Bennett reported for the agricultural committee by reading, "The Song of the Lazy Farmer" from the current issue of the Idaho Farmer. He commented that the poem indicated that progress can be made without changing nature's laws.

Mrs. John Moyer, chairman of the decorating committee, for the new hall, reported that members who helped in it, and Master Jesse Howerton thanked all grange members for their help and cooperation on the project.

The grange voted to go on record as endorsing the resolution from the Salmon River Grange, No. 21, which concerned the Export-Import bank bill, and asked the grange to oppose any loans made to foreign nations by commercial banks.

Dan Boring, chairman of the Bennett was named master; Mason Covey, overseer; Ernest Covey, steward; Mrs. Mason Covey, lecturer; Mrs. Jesse Howerton, chaplain; John Moyer, treasurer; Mrs. Moyer, secretary; Roy All, gatekeeper; Mrs. Roy All, Cerer; Mrs. Boring, Gooding; Mrs. Ernest Covey, Flora; Mrs. Major, lady assist steward; Mrs. Homer Willard, home economics chairman; Jesse Howerton, executive committee; Charles Willard, business agent, and Mr. and Mrs. John Moyer, alternates to state Grange.

Refreshments were served by Mr. and Mrs. Homer White.

Bid Opened

UNIVERSITY OF IDAHO, Moscow — The Louis J. Ellsworth Construction Co. of Blackfoot submitted the only bid of \$18,045 to construct a science house at the University of Idaho's Aberdeen Branch Experiment Station and greenhouse, all the Udonia Branch Experiment Station.

The bid was opened by Business Manager Joseph W. Vais and will now go to the Board of Regents for review and approval.

NATIONAL EVENT SET

CHICAGO—The 46th National Farm Congress will be held Nov. 26-30 in Chicago.

Pete Arrossa Is Named Lincoln Area Grassman Of Year, Farms Are Toured

SHOSHONE — Pete Arrossa, who farms southeast of Shoshone, has been selected Lincoln County Grassman of the year for 1967.

On a recent tour of candidates' farms, Mr. Arrossa showed hay and pasture stands which first were seeded to productive varieties, then managed in such

maner as to provide adequate moisture to sustain normal growth and the opportunity for grasses and legumes to feed themselves as well as the livestock.

Oscar Kerner, northeast Shoshone, showed many interesting management practices on his local farm and his farmstead in Ganett. Probably the highlight of the tour of Mr. Kerner's farm was the crop of oats he had seeded this year in rotation with his permanent pastures at Ganett.

Selection of productive, weed free varieties in seeding grain and other crops in a rotation with hay and pasture is also highly important. Kerner showed well managed hay and pasture crops.

Duane Wolverton, Richfield, demonstrated the value of management and choice of good varieties in hay and pasture stands.

The Lincoln County Grassman of the year program, a Shoshone Chamber of Commerce function, was supported by the Wood River Soil & Water Conservation district and Magic Grange in sponsoring Oscar Kerner as a candidate. The Idaho Woolgrowers Association sponsored Duane Wolverton.

Wood River Soil & Water Conservation district provided equipment for the tour.

Judges were Stan Frostenson, Fairfield; J. J. Wurst, Ganett; and Dean Durfee, area manager for the Bureau of Land Management.

Cuts Silage losses \$2 or more per ton!

GER-PAK Black Plastic SILAGE COVER

- Inert to silage acids and soil
- Sunlight-resistant! • Lightweight!

Protect your silage at a low average cost of 27¢ per ton! What's more, Black GER-PAK Silo Film avoids costly permanent construction, lets you place silage near live-stock for convenience, plus other money- and time-saving uses! Comes in 100-ft. rolls up to 40-ft. wide. Get a supply today!

The Green Thumb

HONEY LOCUST AS SHADE TREES: I've been asked if there is a difference between the locusts sold at nurseries and those growing wild.

First, let me try to straighten out the various "locusts," called Honey Locust and black locust. The common honey locust is a deciduous tree, having three-inch thorns. While it is tough, it is a hazard near playgrounds and along highways.

About 18 years ago a nurseryman came out with a thornless honeylocust called "Munroe," which is also fruitless. Some tree people think it's an ideal substitute for the elm because it withstands city conditions. It was remarkably free of insects and diseases until a few years ago when the pestilence welcomer and pod-gall (midges) started working on it.

"Sunburst" is another thornless honeylocust, distinguished by the bright golden-yellow color of young leaves. Other nurseries have come out with patented honey locusts, which are thornless, fruitless and of various growth habits.

Black locust is Robinia pseudoacacia, having white flowers, fragrant and showy in June. There are thornless individuals (called "inermis"). Bark on this tree is deeply furrowed, whereas the thornless honey locust is smooth.

These are trees the ideal shade tree for American homes? Tree men are still evaluating them. They have good points and their bad points. I've had a few men who say the bright golden color of the Sunburst locust is smooth.

Slow-Moving Vehicles To Be Discussed

BOISE — Slow-moving vehicles will receive a large share of attention at the farm program during the Governor's Safety Conference at Hotel Boise Oct. 5-6.

Howard Tankersley, secretary of the Farm Safety Committee of the Idaho Safety Council, said the possibility of asking legislation requiring use of a slow-moving vehicle emblem will be discussed.

Leon Urban, Chicago, director of farm safety for the National Safety Council, will discuss use of the emblem in other states. William Maxwell, Pocatello, chairman of the Idaho Farm Safety Committee, will explain proposed legislation for Idaho.

sacks, or weather-proof paper. This project against snow scale winter injury and bark splitting. Staking trees prevents damage. Drive a strong stake 10 inches from the trunk on side from which the strongest wind blows, then tie the tree to stake using a soft rope in a figure 8 knot.

AFRICAN VIOLETS: Fall's the time of year we get complaints about violets losing their leaves and plants wilting. Much of this is due to low humidity, hot and dry air. Gas fumes, especially from artificial gas might cause it.

"Dry soils, or soils containing too much nitrogen will cause buds to shed. Extremes of temperature is another factor, also drips which might pollinate the flowers and cause seed development."

It's natural for violets to shed blooms once they've been pollinated, so don't worry. If your leaves drop now, check soil moisture. If the crown is rotting, Crown rot disease is encouraged by poor drainage or overwatering.

If your plant shows willing of lower row of leaves, take it out of pot, cut off the rotted portion, dust with fungicide or cap and pot it in a clean, sterile soil.

GARDEN MUMS:

The best time for keeping these over winter is to dig them up and place the clumps side by side in a cold frame.

"Water them once or twice to keep them green until freezing weather sets in. Some gardeners dig up the clumps and place them along the foundation of their house. This keeps them more or less protected and dry. We feel that more mums are wintered by water standing around the crown or roots than by actual freezing. In spring, divide the plants or take cuttings from the shoots which pop up. Root them in sand or plain pot water.

QUESTION OF THE WEEK: S-E. of Twin Falls: "Last fall we started a compost pile according to directions in your fine bulletin. We added soil, scraps, superphosphate, limestone, sawdust, etc. and now we have a nice lot of black soft material. When we put it on the flower and vegetable gardens?"

Just as soon as you've pulled up your old plants, work it in compost into the soil. Or you can scatter it on in the fall, then spade it up in spring, before making a compost pile of grass, red spider mites.

Most evergreens shed a few needles or foliage this time of year and it's nothing to worry about. Usually, the shedding takes place on the inside, leaving the outside green.

If the evergreen is brown all over, chances are it is dying from transplanting or other causes. Evergreens set out in spring quite often do not show any signs of dying until months later. Yellowing can be due to making a compost pile of grass, red spider mites.

PETUNIAS GROW LEGGY?

Many tell us their petunia plants grow rambling or leggy. What causes this?

Close planting, too much shade, excess water or heavy feeding are factors responsible. Home owners who grow show-case beds and boxes of petunias make it a point to groom them regularly.

Defending Champ Fires Seven-Under Par 61 To Pace Pro-Am Golf Tuneup

Stringing together eight consecutive threes on the back nine, Wardlow, pro from Marysville, Calif., fired a seven-under 61 Thursday afternoon in the pro-am tuneup for the first annual Twin Falls Open golf tournament. And the young Californian sounded like a warning note to the other 41 professionals in the field that he will give up his title only grudgingly.

Some 30 of the professionals, along with 60 amateurs, participated in the pro-am Thursday. Friday morning they were slated to begin the 54-hole medal play tournament. The event was cosponsored by the Turner Cactus Petes Open.

Wardlow turned the front side

In a good, but unspectacular, one-under 33, "my game has been pretty good. It's pretty well satisfied with it. The putter isn't too strong right now but I got a little more confidence in it and then once the long string of threes — three of them I gave him a 28 on the backside."

Tom Liffelholm, Portland, took second place with a 63 while Bob Duden, Portland, had a 65. Tied at 64 were Bob Dren, Murray, Utah; George Schroeder, Billings, Mont., and J. Jones, Vallejo.

Don Stoker, Winnemucca, Nev., won the amateur gross prize with a two-under 66, one stroke ahead of Joe Jones, Twin Falls, who shot a 67.

In the best ball division professional Jack Mann, Salt Lake City, teamed with amateurs L. K. and Jim McCord, Twin Falls, to finish second. Wardlow, with amateur Lee Chatterfield, Boise, and a Duke Whitehead, Twin Falls, were a step behind in the second place.

Several Red's batters helped the 19th and 16th attacks and supplied Maloney and Ellis all the support they needed as the double victory moved Cincinnati into third place ahead of Chicago.

flight as we've ever had. And I think the amateur flight may be the strongest."

The tournament will run through Sunday evening and the small field will allow everyone to play in regular hours.

Constantly have again been divided into morning and afternoon shifts, switching on alternate days.

The pro purse will be less than the \$2,000 advanced due to the smaller number of entries but the \$2,000 added by Twin Falls business and professional men sweeten the pot considerably. The big prize is a 1968 Pontiac provided by John Chris Motors. It will go to the contestant lucky enough to make a hole-in-one on the fifth green.

Reds Sweep Twin Bill From Braves

CINCINNATI (AP) — Jim Maloney pitched a four-hitter and the Cincinnati Reds swept the Atlanta Braves in the first game of a doubleheader.

Maloney, who has a 1-0 record, struck out seven Braves in the first inning. He also hit the first home run of the game in the fourth.

The Reds took advantage of Maloney's sharp pitching and a seventh inning to grab the first game. Maloney struck out 12 and walked only three as he picked up his 11th triumph against 11 losses.

Vada Pinson slammed a two-run homer in the seventh and Tony Perez knocked in his 100th run with a single.

Ellis, 8-11, held the Braves scoreless in the second game until the eighth inning when Felix Millan hit his first major league home run.

Pete Rose led off the game with his 12th homer to give the Reds an early blow. He batted in the fourth and fifth.

Pirates Outlast Los Angeles 1-0

LOS ANGELES (AP) — Roberto Clement singled and Tony Perez hit a home run in the fourth inning Wednesday night to send Pittsburgh to a 3-0 victory over the Los Angeles Angels behind Bob Veale's five-hitter.

Alan Foster, making his first major league start, won the loss, allowing only four hits before being lifted for a pinch hitter in the seventh inning.

Osteen Guides

L.A. Past Mets
LOS ANGELES (AP) — Claude Osteen hurled a five-hit shutout and broke a scoreless tie with a two-run triple in the seventh inning, leading Los Angeles to a 3-0 victory over the New York Mets Thursday night.

Tom Seaver, 16-13, held the Dodgers to three hits until the seventh, striking out eight. Osteen, 17-17, scored after his triple on a single by Willie Davis.

The game was delayed by rain for 52 minutes with one out in the third inning. A rainout earlier this season was the only other time rain had stopped a Dodger game in Los Angeles.

Phil's Outlast San Francisco

SAN FRANCISCO (AP) — Reliever Dick Farrell preserved a 2-1 victory for Philadelphia by getting pinch-hitter Willie Mays to ground into a double play with the bases loaded and one out in the ninth inning.

Willie McCovey opened the inning with a single and took second on Jim Slaton's infield hit. Tom Haller, attempting to sacrifice, beat out a bunt, filling bases.

Ollie Brown filed out, the runners holding. Farrell relieved starter Rick Wise at this point and got Mays to hit in a short to second to first double play.

The Phils scored their two runs in the fourth on two walks, Bill White's single and a run scoring double by Clay Dalrymple.

SPORTS

Bettors Set Twins Even-Money Favorite In Title Chase Now

By WILL GRIMSLEY
Associated Press Sports Writer
The Minnesota Twins now have even odds of winning the American League pennant in the tense, choke-provoking race which ends Sunday. Detroit is 3-1 white Boston and Chicago have fallen to 5-1 in the revised odds of bookmakers.

"We're not running scared — we're just trying to out," said Manager Dick Williams, whose Boston Red Sox have dropped two in a row and now are faced with the necessity of beating the Twins in both of the final games Saturday and Sunday at Boston.

"All we can do is win three straight — and pray," commented Manager Eddie Stanky of the Chicago White Sox.

By losing only one. Stanky and his White Sox need all sorts of breaks. One more loss eliminates them entirely. A combination of events would enable them to gain a tie — but they must win three.

The favored Twins and still hopeful Red Sox are idle Friday when action resumes with Detroit host to California and Chicago host to Washington. Detroit also played California Thursday night.

Mayo Smith, manager of the Tigers, named Earl Wilson, his 22-game winner, to go against California's Jack Hamilton, 9-6, in Friday night's game and said he planned to come back with Mickey Lolich, 13-13, Saturday.

The White Sox are going with Tommy John, 10-11, Friday, following with Gary Peters, 16-10, Saturday and Joe Horlen, 10-7, Sunday. They hope to have the ailing Pete Vento, who has a strained rib-cage muscle, and Duane Josephson, with a banged knee, ready for action.

The Twins have their two big pitching guns — Jim Kaat and Dean Chance — ready for the Boston finale. Kaat, the giant left-hander, is the hottest pitching article in baseball at the moment with seven straight victories in September for an overall 16-13 mark. Chance, a 20-game winner, was chased by California Wednesday when he tried to pitch with only two days' rest.

Rain Forces Postponement Of Title Bout

NEW YORK (AP) — Rain forced a one-day postponement of Thursday night scheduled world middleweight title fight at Shea Stadium between champion Nino Benvenuti of Italy and ex-champ Emile Griffith of New York.

The 15-round match was rescheduled for Friday night at 10 p.m. EDT although the weather forecast said there was an 80 percent chance of continued rain.

If there is a second postponement the rematch will be held Saturday afternoon at 4 p.m. because the field must be made ready for the New York Jets' football opener Sunday.

Both fighters must weigh in again Friday at 11 a.m. At Thursday's late morning weigh-in, Benvenuti just made the class limit of 160 pounds and Griffith came in at 155 pounds, his heaviest for a championship match.

In their first fight, April 17, Benvenuti weighed 159, Griffith 153 1/2.

Mrs. Davis ousted Margaret Struthers 2 to 1 and Mrs. Corbett defeated Connie Everton 4 and 2.

In consolation play, Emma McVey nipped Audrey Walton 1 up and M. Perrine defeated Jean Purves in the same score.

Betty McRoberts defeated Kay Koch 3 and 2 and moved into the first flight finals where she will meet Irene Bertie, who defeated Ina Soran 4 and 3. Consolation finals will pit Emily Claiborn, who defeated Mildred Soran 4 and 3, against Viv Horison, who ousted Irene Bertie 4 and 3.

Finals Slated In Country Club's Women's Tourney

Mrs. Betty Davis, the defending champion and medalist, and Viv Horison moved into the final of the Blue Lakes Country Club women's club championship tournament Thursday afternoon.

Mrs. Davis ousted Margaret Struthers 2 to 1 and Mrs. Corbett defeated Connie Everton 4 and 2.

In consolation play, Emma McVey nipped Audrey Walton 1 up and M. Perrine defeated Jean Purves in the same score.

Betty McRoberts defeated Kay Koch 3 and 2 and moved into the first flight finals where she will meet Irene Bertie, who defeated Ina Soran 4 and 3. Consolation finals will pit Emily Claiborn, who defeated Mildred Soran 4 and 3, against Viv Horison, who ousted Irene Bertie 4 and 3.

Teenager Camps At Box Office

HOW TO CUT HEAT COSTS

5 tips that can help you get more warmth from your heating oil dollar

1. Keep your oil burner clean and properly adjusted. And use today's Shell Heating Oil. It contains a special additive called FOA-2. This additive helps keep critical burner passages free from clogging — assures better firing.
2. Set your thermostat back when you go to bed at night — save significantly on your heating oil bills.
3. Be sure your burner has sufficient air. Oil needs lots of air to burn properly. Don't block off air supply to burner. Don't allow dust and lint to accumulate on air intake openings.
4. Don't block hot air vents or cold air return ducts with furniture.
5. Stop air leaks around poorly fitted windows by using weather-stripping or storm windows.

Let us keep track of your fuel oil supply for you. No more running out — no more last minute calls for oil. Everything is automatic — we compute your rate of fuel consumption.

THE TRUE OLD-STYLE KENTUCKY BOURBON

ISU Feels Its Speed Must Offset Idaho's Brawn In Football Battle At Boise

POCATELLO (AP)—Does Idaho have the speed to compare for the brawn of the University of Idaho Vandals? That and other questions will be answered Saturday afternoon when the north and south universities clash on Boise's Bronco Stadium ground in the season's first Big Sky Conference game.

A jam-packed crowd upwards of 10,000 fans is expected to see the Bengals and Vandals meet for the first time in the capital city and renewing for the seventh time a rivalry that was born back in 1916.

Including last year's 27-0 victory, the Vandals have captured all six games in the series and are favored once again this time on a basis of 1-1 record compared to ISU's 0-2 mark.

Coach Steve Musseau's Vandals lost their opener to Pacific 42-6, but got new life last week in trouncing Fresno State 30-14.

The Bengals of coach Leo McKillip have been dumped 24-3 by New Mexico and 24-22 by South Dakota State.

Despite their sporadic offensive and defensive play in the past two games, the Bengals take on the northern foes with high hopes of pulling an upset Saturday.

McKillip puts it this way: "We're not going over to Boise to lose, and I feel with the right kind of breaks and consistency, we'll have a good chance to win."

Speed in the ISU offense was in evidence last week when the Bengals exploded for two late touchdowns (thanks to the passing of Bill Ingram and receiving of Jim Rackley and Ed Bell, Rackley, who grabbed one of

Ingram's passes for a touchdown, scored 6-3 and has the speed and the moves to make a threat at any time. Bell leads the Bengals in receiving with eight receptions, and 71 yards in two games and has run the 100-yard dash in 9.6 seconds.

Others who figure on the plus side in ISU's attack are half-back Bill Satterfield, who returned a punt 85 yards for a score against South Dakota State, and fullback Joe Clark, who averaged four yards per carry last week in his first varsity start.

Backing up Ingram will be sophomore Larry Kerychuck, a dangerous runner on the quick back option who also has one of the nation's better punts, averaging with a mark of 42.4 yards.

Both the Bengals and Vandals will be running from the 11 formation, but Idaho's strong suit thus far has been the running of 214-pound tailback Jim Pearson of Orofino and 205-pound fullback Rob Young of Spokane.

Should Idaho sputter, it can still sit back and know that such tough linebackers as Joe Tracy and Roosevelt Owens, along with deep backs Ken Peterson, Byron Strickland and Dick Nelson are available for defense.

McCollum Gets NCAA Scholarship

UNIVERSITY OF IDAHO, Moscow—Idaho Athletic Director, Paul Ostyn, announced Thursday that Joseph Dean McCollum Jr. has received a \$1000 post-graduate study scholarship from the NCAA.

McCollum was selected as an athlete in 1966 and was recently elevated to the top spot and he will receive his award immediately.

McCollum is currently attending law school at Hastings College in St. Paul, Minn. He is the son of Mr. and Mrs. Joe McCollum Sr. of Twin Falls.

McCollum is a former football and track star at Idaho and was chosen as the University's outstanding senior last year.

This brings to a total of three athletes at Idaho who have been awarded NCAA post-graduate scholarships in the past year. No other university has had three winners in one year.

Other scholarship winners include Tim Lavens from Twin Falls, a former Vandal grid star, and Mike Wilks from Coeur d'Alene who starred for the Vandals three years in basketball.

Giants Homeruns Defeat Mets 7-2

SAN FRANCISCO (AP)—Willie McCovey belted a grand slam home run, Willie Mays added a solo homer and Mike McCormick won his 21st game Wednesday as the San Francisco Giants trounced the New York Mets, 7-2.

McCovey cracked his 30th home run of the season to right field in a six-run, third-inning blast off loser Tom Seaver. The blast off loser Tom Seaver followed three walks, a wild pitch and Hal Lanier's single.

The Giants added another run in the fifth on Jim Hackett's single and Ollie Brown's double. Mays walked his 22nd home run of the season—and 56th of his career—in the fifth inning. McCormick, becoming the first Giants' left-hander to win at home since Johnny Antonelli in 1954, allowed two runs in the fourth when Ron Swoboda singled and Jerry Buchek hit his 14th home run.

Orioles Kill Rumors, Sign Bauer Again

BALTIMORE (AP)—The Baltimore Orioles announced Thursday that Hank Bauer will continue as manager next season, ending a guessing game over whether he would be fired for the downfall of the 1969 baseball champions.

Bauer was signed after last season for a contract through 1968 at \$50,000 a year.

The Orioles presently are in seventh place, 16½ games out of first place.

The Orioles started the baseball world last year by winning the American League pennant by nine games and sweeping four straight from the Los Angeles Dodgers in the World Series.

Although retaining Bauer, the Orioles management discharged three of the four-man coaching staff. Let go were Gene Woodling, Harb Brechen and Sherm Lollar. Billy Hunter will return.

"There is no way that a team can drop from first to sixth and be happy. We cannot hold Brechen, Woodling and Lollar responsible for the present plight of the Orioles."

"They are fine gentlemen, are good" baseball men and have made some positive contributions. However, we feel that we can help the performance of the ball club by making these changes at this time."

Valley's Jayvees Beat Shoshone

EDEN — Ritchie romped for four touchdowns in the first half and the undefeated Valley Jayvees swamped Shoshone 39-21 Thursday night.

Ritchie scored on runs of 25, 30, 20 and 25 yards and got one extra point. Craig Thompson passed to Tony Bragg for a second conversion.

Shoshone came up with three touchdowns in the third quarter. Craig Harris hit Jack Sologoa for 30 yards for the first one and Sologoa later went in on a 14-yard carry. Jim Pagano intercepted a Valley pass and returned it 35 yards for the last Shoshone score.

In the fourth quarter Lynn Dille got the biggest play, picking off a Sologoa pass in his own end zone and winning 100 yards. With less than a minute left Bragg went in from 30 yards away.

Player To Defend World Golf Title

LONDON (AP)—Gray Player of South Africa will defend his world match play golf championship in the first round against Guy Brewer, current U.S. Masters champion, in the first round of the Piccadilly Tournament Oct. 12-14.

Thursday's draw matched Roberto de Vicenzo against reigning British Open champion Peter Thomson of Australia; Arnold Palmer of La Jolla, Pa., against George Kasper of Canada; and Billy Casper, two-time winner of the U.S. Open championship, against Bruce Devlin of Australia.

Montana Tests Weber In Major Big Sky Loop Contest Of Week

By NEIL BIBLER
Associated Press Writer

With preseason power picks gone away, the Big Sky game of the week has been the Weber State-Montana fracas Saturday night in Ogden which, with the Idaho-Idaho State game, opens conference play.

Weber State was third in the conference standings last year but first or second in most of the statistical columns. The Wildcats won their first outing 29-28 against rugged Northern Arizona and managed two touchdowns against the nation's leading small college team, San Diego State. The Californians won 28-12.

Montana's "new look" Grizzlies, last season's doormats, have surged past both of their preseason opponents, downing North Dakota 19-14 and South Dakota 13-3.

The Montana State Bobcats, the team which looked best before the season began, travels to Fresno State for their fourth nonconference game. The Bobcats pulled themselves together after a pair of losses to whip

Portland State 52-7 last weekend. Fresno State fell to Idaho 30-24, so the likelihood is a second victory for the Bobcats.

The contest at Boise, Idaho, shapes up as an aerial battle with the loser probably heading downhill in the race for the conference crown.

Weber State's Coach Sark Arslanian is looking for answers as to why his defensive secondary broke before San Diego State. The California club bombed Weber for six touchdowns passes and 449 yards by air.

Coach Jack Swarthout's Grizzly offense sputtered through its victory last weekend but moved pretty well through the midfield stripes. And quarterback Ed Steiner throws more than well enough to keep the defense honest.

The Weber defensive line is the biggest in the conference, however, and should slow the Grizzly ground game considerably.

Idaho State's top pass receiver, Ed Bell, is fast and small, bearing the nickname "the Fella." Quarterback Bill Ingram already is second in the conference passing statistics with 233 yards on 21 completions.

Coach Leo McKillip has had some success with Idaho State's running game, mainly quarterback sweeps plus off-tackle slants by tailback Mike Acker. Idaho hasn't passed as much as Idaho State, but quarterback Paul Gentile is billed as an accurate thrower. Coach Steve Musseau says his squad still has "some problems on our defensive line and linebackers" but he hopes for improvement by Saturday.

Idaho's defensive secondary picked off four Fresno State passes and back Jim Pearson ranks fifth in the conference rushing statistics.

Montana State's Bobcats showed offensive balance again. Portland State, scoring four times on the ground, three in the air and once by a field goal. One possible saving factor, however, was inaccuracy of Portland State's ace aerialist, Ed Gorman. The Bobcat passing defense left something to be desired but held Portland to four yards on the ground.

The Bobcats lead the conference in total offense, gaining 557 yards rushing and 300 passing. Don Hass has the league's highest yardage total, 353, but ranks third in the average per carry.

Astros Nip Phils 1-0 In 11 Innings

HOUSTON (AP)—Chuck Harrison's single scored Rusty Staub with two out in the 11th inning and gave Houston a 1-0 victory over Philadelphia Wednesday.

Staub had doubled after the first two batters had been retired. Harrison, whose ninth-inning homer gave the Astros a 3-2 victory over the Phils Tuesday night, then filled a simple to center and Staub raced home, ending a brilliant pitching duel between the Phils' Jim Bunning, 17-15, and the Astros' Mike Cuellar, 10-11. Each pitcher allowed only six hits.
