

Garbage Workers On Strike

ST. PETERSBURG, Fla. (AP) — Just a month after Memphis' 65-day garbage strike ended, another large Southern city is tangled in a dispute with garbage men that began over money and spread to threats of racial boycott and charges of outside agitation.

The city council is expected to work for more than a week. Emergency crews were in action today but changes were just being made to prevent trucks from having their garbages picked up.

Many residents stacked garbage into their cars and took it to a dump, although some trucks were stationed. Most of the city's streets remained clear of garbage.

There were parallels to the Memphis strike.

When the strike began in this city of 181,000 May 6, City Manager Lynn Andrews fired all 770 strikers.

Marvin Davies, the state field director of the National Association for the Advancement of Colored People, threatened Monday to boycott downtown businesses if the local Chamber of Commerce "doesn't back off from supporting Andrews' action in firing the strikers."

The city-appointed Community Relations Commission in St. Petersburg urged the city to resume talks with strikers here.

Andrews replied, "This is not a racial matter. It's a labor problem and the Community Relations Commission has no business getting involved."

But Andrews also said, "I don't want to see a city divided." The city manager outlined what he called a conspiracy of some sort by young militants among the predominantly Negro garbage men. He said some of the people he termed agitators were "the heard" of the strikers.

Andrews said he had a "hearing" with the strikers' representative Nonviolent Coordinating Committee.

"I don't think it was any particular group although there appears to be some outside agitation from somewhere, although we haven't located it," Andrews said in an interview.

BOISE (AP) — The superintendent of Idaho public instruction says he favors a minimum salary of \$5,400 a year as a means of upgrading the quality of instruction.

Engelking said he was more concerned with "what's done for teachers generally" such as improvement of instructional programs and additional services.

Both York and Engelking said they support the task force's recommendation that the contract year for teachers be 200 days.

Nebraska's Primary Voting Heavy

OMAHA, Neb. (AP) — Nebraska Democrats voted today in a presidential primary which Sen. Robert F. Kennedy said was the most successful in the party's history.

Vote turnout was reported generally heavy during the early polling hours. It was sunny and warm, and in cities across the state, the flow of early ballots was heavier than in past primaries.

That pointed toward the record turnout which state officials said was the highest in the party's history.

But the spirited Democratic contest drew most of the attention.

County Pays Part Of Bill For Tuition

Partial payment of a debt of more than \$10,000 owed to the College of Southern Idaho for student tuition was made by one of the two counties which has been late in payment of funds.

The county which has made partial payment has indicated to the college that it will complete payment as soon as it is able to do so. That county has paid about half of the \$10,072 owed to the college a month ago.

Another county, which owed \$1,150, still is delinquent. The county and the college are in disagreement over the amount owed. The disagreement has arisen because of an interpretation of the law over two students who had registered at CSI and either did not attend or dropped out, without properly withdrawing.

Rebellious French Students Continue Sit-Ins At Schools

By LOUIS NEVIN
PARIS (AP) — Rebellious students kept the Paris occupation of most of France's 15 universities today, apparently with the backing of a majority of their professors. But after a week of bloody rioting in Paris and other cities, the police remained in the background.

The students made no effort to enter the schools. They continued to occupy the schools and the streets after the huge demonstration Monday against the police violence against the students last week.

West Virginia Voters Hold Primary

CHARLESTON, W. Va. (AP) — Delegates to the Republican and Democratic national conventions and select party nominees were scheduled for a state primary election.

All three Democratic presidential contenders—Vice President Hubert H. Humphrey, Sen. Robert F. Kennedy, and Sen. Eugene J. McCarthy—have made West Virginia appearances in the past few weeks.

Preferences of Democratic delegate candidates polled by the state include: Hubert H. Kennedy favored by the largest number, with Humphrey a close second and McCarthy a distant third.

Sixty-five Republicans are running for convention seats.

Among those who announced their preferences are: Richard M. Nixon's margin over Gov. Nelson A. Rockefeller was between 2-to-1 and 3-to-1. Neither campaigned in the state.

The West Virginia primary has no presidential preference race this year, in contrast to the 1964 election in which John F. Kennedy defeated Humphrey.

The state sends 30 delegates to the Democratic National Convention, 14 to the Republican, because of long bills that also includes dozens of state, district and county offices; most counties do not tabulate delegates.

Final results will not be known until late in the week.

Whether the West Virginia delegates will be sent to the conventions will be decided by the delegations after their election. Primary results do not bind the delegates.

Peace Talks

(Continued From Page 1) negotiations with Paris are assumed to be far less speedy than many such GAD in the future meeting program. But the blank days in the calendar will give opportunities to see each other in a French post-between action when needed. The need may arise soon on the program of deescalating Johnson's partial bombing halt March 31. Since then U.S. bombing has been concentrated on the southern part of the 18th parallel, and Hanoi men said the movement of men and material on the line had been increasing. He called on North Vietnam to show some restraint. Xuan called on the United States to end all bombing and "other acts of war" against North Vietnam. He said that was the reason these talks were arranged and other talks related to peacemaking could only be taken up after that. But Harrison said Johnson wants some evidence of reciprocity for the bombing has already been halted; Xuan said that reciprocity is out of the question since the United States is the "aggressor" in air and sea operations against the North. This deadlock has in fact existed for many months, but the effect of the Paris talks is to force the United States and North Vietnam to look at it jointly in the context of a search for a peace deal that begins while the rest of the world watches.

The board, which met in the Idaho State Capitol today, also should be sold in the Eastern land, he added, could remain available for leasing for grazing summer home development. The board delayed until Wednesday consideration of routine business. Representatives of the Idaho Farm Bureau Federation reported on an 18-month study in land usage in 17 western states. Leonard Johnson of Salt Lake City, assistant director of the American Farm Bureau's National Resources Department, said it indicated some changes in land administration may be advisable. He said that contrary to public opinion, livestock owners can utilize privately owned rangelands at less cost than lands leased from the federal government. He urged there be no change in grazing fees until studies by the new Public Land Law Realty, assistant director of the view-Commissioner are complete.

The official coalition's unofficial tabulation, announced by radio station KOBES last night, gave the 57-year-old Samudio a 3,700-vote edge with 128,820 votes to Arias' 125,118 in returns from 335 of the 1,389 voting districts. Samudio, an architectural and construction engineer, was finance minister under outgoing President Marco A. Robles. When Robles gave his backing to Samudio, opposition forces charged the president with violating a constitutional clause against a president's engaging in political activity. The opposition-dominated National Assembly convicted Robles in impeachment proceedings in March, but the National Guard kept him in office until the Supreme Court reversed the assembly. Arias, a U.S.-educated medical doctor, lost the 1964 election to Robles by 11,000 votes after being pegged as the favorite.

T.F. Firm To Build New Bridge At Glenns Ferry

GLENN'S FERRY — Nelson and Miller Construction Co., Twin Falls, has been awarded the contract for constructing a new concrete bridge over the River east of Glenns Ferry. The low bid of \$212,017 was \$71,000 more than the original estimate of cost of constructing the 511 foot bridge. This Glenns Ferry Highway District must provide \$5,556 more than had been planned for this project. This is the third bridge built in this vicinity in the last few years. One of the Glenns Ferry contractors with the Sallor Greek project and across this new bridge has come all the produce, by a considerable amount, from the Black Mesa Farms area of the last couple years, since the old bridge east of Glenns Ferry has a definite load limit and speed limit as well.

Charter City Of Bellevue Elects

BELLEVUE — There are only two remaining charter cities in the state, Bellevue and Lewiston. And they held their city elections at different times than any of the other of Idaho's cities. Newly elected officers of Bellevue are Charles Wright, mayor, and Jim Koonce and William Hickman, councilmen. Mark A. Patterson suggests that the council for another two-year term. Outgoing Mayor H. E. Halchswor, Jr., will resign his office in the new councilmen. Mitchell Lote, Orville Cameron and Dennis Christensen will each serve another year on the council. Two "knotty" problems facing the new officers are a summer shortage of water for city users and a city cleanup program. To help alleviate the water shortage the group voted to alter the lawn watering days, dividing the city into half. They decided to consult an engineer to try to get more water and a better pressure. Councilmen voted to buy 500 feet of four-inch pipe and the necessary supports to install an extension from the water line on 6th St. west one-half block and south toward Cedar street. The council also voted to acquire the services of a city attorney. It was suggested that a general clean-up campaign would improve the looks of the city. Mayor Wright appointed Mr. Christensen, Mr. Lote and Mr. Hickman to the street committee and Mr. Cameron, Mr. Patterson and Mr. Koonce to the water committee. The library commission was named to the library committee.

Jets Leased For Summer By Air West

Air West has leased two DC-9 turboprop aircraft from the Southern Airlines to handle anticipated record passenger loads this summer, according to company officials. This marks a 25 per cent boost in jet transport capacity, coming ahead of the delivery next month of 16 large model DC-9 jets to Air West. The company will receive five 97 passenger series 30 jets in June and July, increasing its immediate jet fleet to 13. One of the two leased aircraft, Air West will return one of the leased planes to Ozark in August and the other to Southern Airways in the spring. The remaining DC-9s will be delivered by next summer. Eight Air West DC-9s, seating 75 passengers each, and four milliners and two Boeing 727s already are in service. A third 727 on lease to British West Indies Airways will be returned to Air West this fall. The Air West system's passenger sales reached an all-time high in April and May bookings also have been exceeding all previous records.

Members of the board of education in Idaho are to be appointed by the governor in the draft constitution of the commission, there would be no provision for a board of regents for the university of Idaho as provided in the present constitution. After the commission finishes writing a new constitution, the Legislature will amend by amendment for public approval. The earliest Idaho could get a new constitution is 1971. It would come then only if voters approved amending the present constitution by section rather than by article, then voting for the proposed changes.

Hagerman Girl Wins Citation

HAGERMAN — Linda Phillips, Hagerman, an eighth-grade student at Hagerman High School, won honorable mention in the first annual Current Science news writing contest sponsored by Current Science, a weekly student-solence newspaper published by Zerox Corp. in the Education Publications, Middleton, Conn. She was cited for an article entitled, "Experiments in Learning," in which she described how teaching methods tested by individualized Learning Center here.

Clearing Title For Ketchum School Lots Poses Problems

KETCHUM — Acquiring the title to what was once designated as a public square, now on the Ketchum grade school lots, is proving a difficult task for Ketchum city fathers. The title to this "public square" has to be cleared so the old grade school building and construction on a new Ketchum grade school building can be started this summer. Councilmen discovered on the original plat of Ketchum, county of Alturas, territory of Idaho, which was filed in the Blaine country recorder's office, a section bounded by Fourth and Fifth streets and Leadville and Clark avenues is marked "public square." They noted that the title should be one of the shortest to search as there are no liens filed for this description, but acquiring title is posing difficulties. Although the names of the streets are becoming dim, the plat must have been drawn with good ink for it was filed July 11, 1881, as attested by Warren P. Callahan, recorder at that time. George E. Hedstrom signed the plat July 8 as the surveyor and J. L. Lewis, T. El Clohery and G. W. McCoy signed the document as promoters. A coincidence is that George

"Bobby Says He'll Be One Of The Pallbearers."

WASHINGTON — What the new national crime bill needs in protection from the owners... is at both ends of the ideological spectrum. It is not as bad a bill as the Left says it is, nor as good as the Right says it is.

the scales which now are tipped too far in favor of the criminal... In seeking to achieve this worthy objective in a country where the criminal sometimes... the bill's creators in the Senate Judiciary Committee have properly concluded that the Supreme Court is not sacred—that it can be just as wrong as the Executive or the Legislative branch...

No More Crime In Morningside

Is your town struck by the nationwide epidemic of lawlessness? Crime is increasing nine times faster than the population... Beginning March 1 of this year, the men of Morningside volunteered to patrol the neighborhood. No day, no uniforms, no guns driving their own car at their own expense...

Now Gov. Hughes says, "I've changed my mind." The effort's organizer, Larry Munker, figures criminals "play the odds that they've gone to less-protected communities elsewhere."

In other words—putting it bluntly—Mr. Spectator would say that if a student didn't like the way one University was run, he should quit there and go to another more to his liking. He should remember that as a student he entered that school on his own mind. The school did not force him to attend.

4 Children Charged With "Murder"

MILWAUKEE, Wis. (AP) — Judge George A. Bowman Jr. has repeatedly told his followers that he did not die with King...
The Milwaukee County Court Judge then ordered psychiatric examinations for the four youngsters and detention in a county children's home until their May 23 trial date...
The court was told the youngsters—a 10-year-old girl, two 10-year-old boys and a 9-year-old boy—played shooie from school April 23 and "decided to throw stones" at the home of Theodore Werhun hoping he would "come out of the house so they could get in and take some money"...
The police report which Bowman read to the court said that when Werhun appeared, the children "began to throw stones at him. He was struck by a large rock... which knocked him down. All continued to throw stones at him..."
Werhun died Saturday in a hospital, and death "was due to pneumonia and heart failure caused by being hospitalized for the leg fracture," Bowman read...
"I don't know the answer," Bowman said later, "but I think this is a tragedy for the parents of this community, better wake up to the responsibility of children. Maybe the death of an 88-year-old man will send the message this court could never send..."
During the hearing, social workers offered sketches of the youngsters...
"The family life they had was in the street. That's where their real family is," one said.

The hot water is carried by pipe for a distance of more than three miles from a spring at the base of Warm Springs...

Tax Dispute Draws Speculation

WASHINGTON (AP) — Congress' tax members close to the tax Monday he would accept a \$6 billion budget cut or there will be no tax bill at all.

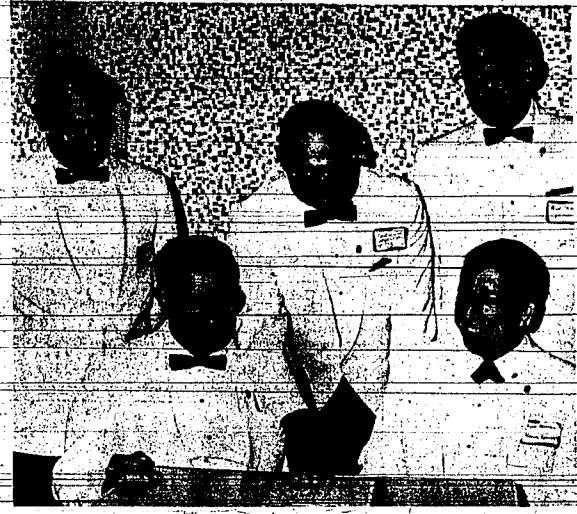

Johnson has labeled a \$5 billion slash as "unacceptable" although he has repeatedly pledged for early enactment of his spending limit shaved closer proposal for a 10 per cent surcharge on income taxes. But has said he would reluctantly accept a tax bill containing a \$5 billion budget cut or there will be no tax bill at all.

Johnson has labeled a \$5 billion slash as "unacceptable" although he has repeatedly pledged for early enactment of his spending limit shaved closer proposal for a 10 per cent surcharge on income taxes. But has said he would reluctantly accept a tax bill containing a \$5 billion budget cut or there will be no tax bill at all.

Washington (AP) — The conference committee approved the \$6 billion figure last week. It will never come out of the House until the conference committee members of the legislation appeared inclined to delay a vote until Johnson gives a clearer indication of whether he would ultimately sign a bill with a \$5 billion spending slash provision.

Although the President has spoken in strong terms against such a deep cut, he has never specifically said he would veto such a bill.

Observers said that if Johnson gave the word, even privately, that he would accept the package rather than lose the \$10 billion tax increase, passage would be virtually assured.

Tobacco-Chewing Burro Can Hardly Get Hero's Welcome After War Duty

SAN FRANCISCO (AP) — That's the way it is, man. You do your time in Vietnam, and when you get home you run into a bale of red tape.

Cpl. Jack A. S. Le, a tobacco-chewing burro beloved by the U.S. Army's 88th Engineer Company formerly based at Ft. Riley, Kan., arrived here Monday night by air freight from this city.

Cpl. Le, renowned for his prowess at picking up and eating cigarette butts, was unable to follow his outfit back when it returned last February.

But when he did touch down here in a Trans World Airlines freighter, did Cpl. Le Le

stands for light equipment—get a hero's welcome?

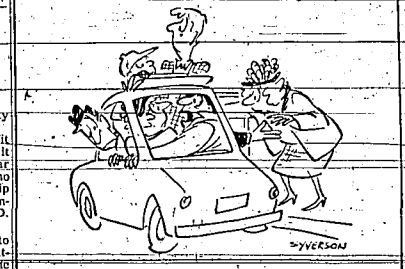

There were a few newsmen around as he was uncrumpled. He do you call getting your temperature taken, getting your feet washed and giving up a blood sample a hero's welcome?

And if the blood sample has to be flown to the Department of Agriculture's laboratory at Beltsville, Md., to see if you picked up anything dreadful in Vietnam, do you call that red carpet treatment?

Cpl. Le apparently thought not. He bucked and brayed a bit, but what can you do?

Two Army captains and a veterinarian were fussing over him, and he seemed glad enough when they put him in the animal shelter at International Airport until his blood sample is analyzed. With him went his service folder—serial MB553595—and computer card.

TWA reserved space for him June 1.

Visiting relatives descending and you need an extra car?

Well, that's a problem close to home. But so are we.

De Gaulle; Romanian To Cooperate

BUCHAREST (AP)—French President Charles de Gaulle and Romanian Communist leader Nicolae Ceausescu today solemnly pledged to promote the cause of national freedom and independence in the world's two biggest spheres.

Arriving for a five-day state visit, De Gaulle told thousands of cheering Romanians that independent-minded Romania's friendship with France "is more important today than ever before as Europe is beginning to re-establish itself in the nations of each of its nations."

This reference to developments in Communist-ruled Eastern Europe was a sign of French support for Romania's attempt to assert political and economic autonomy in its confrontation with the Soviet Union.

Ceausescu said French-Romanian relations "are based on the principle of equality and cooperation between nations enjoying their full independence."

Freeman Sees Flow Of Population

WASHINGTON (AP)—Secretary of Agriculture Orville Freeman is stressing today the desirability of checking the flow of population from the farms to the cities.

In a radio address to agricultural districts in Washington, Freeman said that since the end of World War II the population has grown by 25 million, while nearly eight million farms have disappeared and more than 20 million persons have left the country for the city.

Freeman said he determined seven years ago that there was no need for the farm people to be thrust into crowded cities.

"We thought," he said, "that more jobs and a better life could be created in town and country America."

Freeman said a change is under way. The industrial employment rate in urban areas from 1962 to 1966 went up nearly eight points over the base period in rural areas.

He said more work is needed in creating jobs in rural areas.

DC-3s Being Retired From Airline Fleet

Air-West announced today that after June 30 it will cease operating eight-piston engine DC-3 survivors of the Douglas Aircraft World War II DC-3 fleet.

The planes have been in the air for more than 21 years. Air West officials stated, and now, the company is looking for a dealer in old airplanes to buy out the twin-engine veterans now based at Boeing Field, Seattle.

Five of the DC-3s still are in daily operation, serving lines on the Washington-Oregon routes. One serves the pioneer West Coast Airlines route between Seattle and Portland, via Grays Harbor and Astoria, and another operates between Seattle, Tacoma and Olympia.

The craft have served in the development of regional local service carriers in the Far West since 1946, when the antecedents of Air West, Bonanza, Pacific and West Coast Airlines, began service. At that time, West Coast Airlines was operating 14 DC-3s.

The planes now are being replaced by the 850-miles-per-hour DC-7s jets, which together with Boeing 727 tri-jets, form the basic Air West fleet in eight Western states and three countries.

Pentagon To Abolish 6,000 Jobs

WASHINGTON (AP)—The Pentagon says it will abolish 6,000 jobs by devising a cheaper defense system, but on Capitol Hill indications are high defense spending will continue even if the Vietnam war ends.

The Department of Defense announced Monday a scaling-down of defense against bomber attacks which will produce a "more effective and less costly system."

The reshuffling will eliminate 4,719 military and 1,219 civilian jobs, the Pentagon said. It will involve a restructuring of the North American Air Defense Command—NORAD.

Twenty radar squadrons will be closed by Sept. 1, three F101 interceptor squadrons will be disbanded—and—three—F108 squadrons will move to new stations. The Federal Aviation Administration will take over 14 of the 20 radar sites.

The Senate preparedness subcommittee is wading up hearings on the over-all defense picture. It is expected to conclude the United States should develop advanced long-range bombers and nuclear submarines to retain the advantage over the Soviet Union.

This effort would last into the early 1970s.

Sun Valley Offers First Honeymoon Special Of Year

SUN VALLEY — Sun Valley is offering its first honeymoon special this year. Not that it hasn't been the ultimate in honeymoon spots for years.

"The moon is out and there is a honeymoon couple on every balcony and walking a loop on every path," a guest once wrote from the Valley in June.

"The all-expense-honeymoon package with a deluxe suite and such important luxuries as flowers for the bride and champagne is offered by Sun Valley because of the increasing number of divorcing grandmothers, aunts and uncles, who want to give the honeymoon as a wedding gift.

While working out the costs for the special, Sun Valley decided to make it available to everyone.

The cost of a three-day honeymoon includes a beautifully furnished suite, with fireplace and kitchenette, meals in the El Torito, a new Mexican restaurant with cozy alcoves separated by arched doorways, the El Torito or the Continental Buffet in July and August, meals can be taken on the Lodge Terrace where the orchestra plays during the afternoon.

It also includes coupons for all sports. There are swimming pools at both the lodge and the El Torito.

Mrs. R. K. Bendorf and Mrs. Ed Larson.

The newly married couple are accompanied to the temple for their wedding by their parents and members of his family.

Dear Abby

By ABIGAIL VAN BUREN

DEAR ABBY: Whether we need a baby-sitter, I ask a 15-year-old girl who lives in our block. My problem is his way she acts around my husband.

He is a very nice man, but she acts as if she is just as developed (physically) as I am. She likes to run her fingers through his hair and wrestle with him. I have told my husband that I don't think he ought to let her get so familiar with him, as it only encourages the child.

If I get another letter, my husband will get mad at me because, crazy as it sounds, I think he is flattered by her attentions. So what is my advice?

UPSET: Getting another letter won't help because she is only half your problem. The other half is your husband. First, tell the "child" in a motherly way that it isn't nice for young ladies to engage in a holiday with men, so please to keep her hands off your mister. Then tell your mister to see to it that she does.

DEAR ABBY: What kind of a husband would encourage his wife to line herself up with another man while he is out of town?

NOSSY: No.

DEAR NOSSY: One with a guilty conscience.

DEAR ABBY: I am getting married next week. My fiancé has a 20-year-old sister who lives about 800 miles from here. She is married and has two children. Should I ask her to be a bridesmaid?

She is not very well off financially, and I am afraid she would love to be first. She might be a strain on them. But then, if I don't ask her, maybe she will be hurt.

Should I ask her if she can afford to come and be a bridesmaid because even if she can't, she might be embarrassed to admit it, and borrow the

Students' Loans Can Be Forgiven

By RAY CROWLEY
NEA Publications

The second major federal loan plan for college-bound youth is the National Defense Student Loan Program. (The guaranteed loan plan was discussed in Chapter Two.)

To borrow under the defense program, you must need the loan in order to be able to pursue your course of study at a college, university or other institution of higher learning. You must be capable of maintaining good standing in your course. You must be enrolled, or accepted for enrollment as an undergraduate, graduate or professional student in a participating institution. You must carry at least one-half the normal full-time academic workload.

Your college, university or other institution determines whether you meet these qualifications.

Though the federal government contributes up to 90 percent of the money, each participating school administers its own National Defense Student Loan fund directly. It selects student recipients, arranges and collects the loans.

If you are an undergraduate, you may borrow up to \$1,000 a year, but no more than \$5,000 in all.

If you are a graduate or professional student, you may borrow up to \$2,000 a year, but no more than \$10,000 altogether.

If you borrow both as an undergraduate and as a graduate student, your ceiling is \$10,000 total.

Each student borrowing money under this program must sign a promissory note. Repayment begins nine months after the borrower ceases full- or half-time school and may be stretched over a 10-year period.

Three per cent a year interest charges accrue during any time up to three years in which the borrower is in the U.S. armed services, the Peace Corps or VISTA, the domestic peace corps.

If the borrower, after leaving school, re-enters an institution of higher education in the United States or a comparable institution abroad, doing full- or half-time academic work, no repayment is required until he leaves school again.

If the borrower is in less than half-time attendance at an institution of higher education taking courses creditable toward a degree or certificate, he may defer repayment if the institution so rules. But interest accrues during this period.

If you are a borrower under the National Defense Student Loan Program and become a teacher, priest or a voluntary worker in a recognized public or nonprofit elementary or secondary school, university or other institution of higher learning in the U.S. or in a U.S. Armed Forces elementary or secondary school overseas.

Borrowers in this program who teach after graduation in one of these institutions may have in part or all of their loan cancelled. The interest-accrued for each year of full-time teaching service. Up to half the loan and interest may be worked off in this way.

Those who teach in selected schools located in low-income areas and those who teach the handicapped and retarded may qualify for the erasing of their entire loan and interest. Fifteen per cent of their obligation will be canceled for each full-time teaching year.

A high school student interested in the National Defense Student Loan Program should consult his high school principal or guidance counselor and the director of admissions at the college or university he expects to enter.

Students already in college should check with the school office in charge of student financial aid.

Loan application forms are available at the participating colleges.

Ex-T.F. Man Says Vietnam War Illegal

7. Rex Dibble, former dean of the Loyola University of Los Angeles Law School, who was graduated from Twin Falls High School in 1928, charged in a Law Day address in Los Angeles that the United States is in the Vietnam War illegally.

Mr. Dibble declared that President Lyndon B. Johnson acted unconstitutionally in committing American troops to North Vietnam.

The former Twin Falls resident also attacked the policies of banning riotous demonstrations and the defiance of a federal court order by Gov. George Wallace of Alabama during the last crisis in his state and strikes in New York State by public employees, which were against state laws, but which the speaker said Gov. Rockefeller ignored in reaching a settlement.

But most serious, he said, is the country's committing the United States to war in Vietnam without the consent of Congress.

The former Twin Falls resident denounced the present respect to the Rule of Law, and times in the various forms the United States faces the danger of nuclear war, or more likely, the danger of a nuclear recession.

An article in the Los Angeles Daily Journal of May 6, covered the address of former Dean Dibble, quoting him as saying that while a person has a right to a peaceful means of contest, wholehearted disregard for the law he feels is improper, through violence and riots is not within the rights of any citizen.

Mr. Dibble said the Twin Falls High school class with which he was graduated will hold its 40th reunion on June 14.

Columbia River Opens To Salmon Fishing; Idaho's Leader Opposes Decision

By BRUCE HANDLER
PORTLAND (AP) — The salmon fishing season opens in the Columbia River today. At a joint hearing in Portland, the Oregon-Fish-Commission and the Washington Department of Fisheries voted Monday to open the commercial season on spring Chinook from 6 p.m. May 13 to noon May 18, and from 6 p.m. May 19 to 6 p.m. May 22.

Gov. Don Samuelson of Idaho said in a telegram that he was opposed to that decision. Several sports fishermen who attended the hearing said they were against it, too.

In a separate action, the Oregon Game Commission reopened the sports season on salmon as of 6 a.m. Tuesday. Washington reopened its sports season last Saturday.

The Columbia had been closed to salmon fishing for three years because of a dam built up at the new John Day Dam.

The fish ladders there weren't operating properly, and the salmon didn't get their way past the dam to get to their spawning grounds upstream.

The situation was so serious that the three Indian tribes—who claim to have treaty rights to fish in the Columbia at all times—voluntarily stopped taking salmon.

Biologists from Oregon and Washington finally unsharped the traffic jam at the John Day fish ladders, and the salmon began swimming past the dam.

At Monday's hearing the biologists said most of the spring Chinook run had been saved and that there now were enough salmon near the upstream breeding grounds to justify a commercial fishing season.

E. G. Hufschmidt, the chairman of the Oregon Fish Commission, congratulated the Washington Department of Fisheries staff for its work in straightening out "the fiasco at John Day."

Idaho Gov. Samuelson was worried more about summer Chinook than the spring run. Based on claims that the first summer Chinook begin entering the Columbia around May 22, the governor's telegram said he was "strongly opposed to any commercial season which will harvest these (summer) fish."

Kenneth Gates of Portland, speaking for the Association of Northwest Stevedockers, said at the hearing that he didn't think there had been a sufficient upstream escapement of salmon even for sports fishing. He said his group was "absolutely opposed to any commercial season at all on our spring and summer salmon."

Other witnesses complained that too many fish are being lost at the dams and that "allowing more and more fish to go over the dam will cause a heavy loss of stock."

Big Baseball Trades Of Year Are Mostly Standoffs So Far

By JACK HAND
NEW YORK (AP) — The year still is out on the big baseball deals of last winter but scattered early returns indicate a standoff.

The major swap between the Los Angeles Dodgers and Minnesota Twins for example, the Twins got a catcher, John Roseboro, and two veterans for the bullpen, Ron Perrano and Bob Miller. They gave the Dodgers a regular shortstop, Zoilo Versalles, and a dissatisfied pitcher, Mickey Vernon.

Roseboro has been doing

much of the Twins' catching but is hitting only .151. Versalles is hitting good shortstop and has driven in 14 runs despite a .138 average.

On the pitching side, Perrano has been the lefty relief pitcher the Twins have needed, coming in a 3.0 record and a fantastic earned run average of 0.96. Grant, coming out of the bullpen day after day, has a 2.1 record in 17 games.

Consider the Philadelphia-Pittsburgh swap that was to clinch the pennant for the Pirates.

Jim Bunning, the man who was supposed to coast home behind these big Pirate bats, is 3-2 and the Pittsburgh club is hitting only .223, less than the Phils.

Woody Fryman has won as many as Bunning but has lost more games, 24.

Don Money, the young shortstop who was supposed to be the key to the deal for the Phils, has been sent out to the San Diego farm. The two young pitchers who came to the Phils were sent out early.

How about the big New York Mets-Chicago White Sox deal involving outfielders Tommie Agee and Tommy Davis? Agee is in a 112 slump after finishing the season with a .212 batting average. Davis is hitting only .203. Al Wels is a fill-in infielder for the Mets and Jack Fisher is a Sox pitcher.

The White Sox may have the edge in their swap with Baltimore that brought shortstop Lou Aparicio back to Chicago with outfielder Russ Snyder for pitchers Bruce Howard and Roger Nelson and infielder Don Buford. Aparicio is beginning to play every day. Snyder hasn't done much. Howard and Nelson are winless, and Buford is just an extra hand in the infield.

However, that Orioles-White Sox deal looked like a real disaster for Baltimore a few weeks ago when shortstop Mark Belanger was called up to service. Now that it appears Belanger won't have to go right away, the deal is off.

Boston certainly came up with pitching help in Dick Ellsworth, currently 3-2, from the Phils.

The Sox, looking for a lefty pitcher, got Mike Ryan, 1-0, against left-handed pitching.

Cincinnati came up with a surprise starting pitcher, George Culver, 1-2 and 2.42 ERA, from Cleveland for outfielder Tommy Harper, 2-0.

The Red Sox acquired a useful pinch hitter in Fred Whitfield from the Indians.

Bill Kello, 2-0, has been useful in the Red's bullpen while Sam Ellis, who went to the California Angels in the deal, is 2-4 in the American League. Cincinnati farmed out Jorge Ruben, another pitcher, who came with Kello.

The Reds, most active in the trade market, haven't found much use for outfielder Mack Jones and have farmed out pitcher Jay Ritchie. But Atlanta hasn't profited much from first base catcher Tom Johnson, who is hitting .102.

Cincinnati came up with a 3.27 batter from St. Louis in outfielder Alex Johnson but lost outfielder Dick Simpson, batting .321 for the world champion Cards, and John Edwards, a backup catcher for Tim Lincecum.

Houston looks like a winner with Denny Lemaster, 3-3 and 4.14 ERA, plus Denis Menke, 3-0, from Atlanta for Sox pitcher Jackson, 2-10. Menke has become the Astros' regular shortstop, replacing Hector Torres, who was traded in 11 games for the Braves despite his sick average.

Washington has been getting help from reliever Donnie Hilligan, 2-1, and infielder Ron Rotenso, 2-10, who came from Chicago for Bob Priddy, 0-1, and second baseman Tim Cullen, 2-20.

When Joe Torre was injured in early season, Atlanta was happy to have available Bob

Olympic Athletes Subject Of New Rule

ATLANTA, Ga. (AP) — Professional football club owners announced new regulations for returning Olympic athletes and strongly indicated Monday that Miami or New Orleans will be the favored site for the 1958 Super Bowl game.

American Football League and National Football League club owners met jointly during the morning before breaking up into separate league meetings.

The owners plan meetings Tuesday and Wednesday to consider proposed rule changes, player relations and final decision on the Super Bowl site.

Pete Rozelle, commissioner of both football leagues, said in a news conference that the choice of sites for the Super Bowl has pretty well narrowed down to Miami and New Orleans.

"I would think it would be one of these two," Rozelle said.

A club owner will have a choice of activating at any time an Olympic athlete returning to a club after Oct. 15, or the club could choose not to activate such an athlete, but there would be no time limit—Rozelle said.

"However, if he is to participate in post-season games, he must play in at least two games," the commissioner continued.

On another matter, Rozelle said there would be little chance of inter-league player trading before the merger scheduled for 1959.

Idaho Sweeps Pair From Montana

MOSCOW, Idaho (AP) — Idaho's Vandals booted their season record to 5-5 Monday by sweeping a doubleheader from Montana 8-7 and 6-3 in Big Sky Conference basketball action.

Idaho pitcher Pat Daniels, who came in the seventh, was credited with the win in the first game and skip Irv took over mound chores and won the second game.

In the opener, Phil Reser's double after the first two batters had walked and Steve Armstrong's single loaded the bases, drove in two runs in the bottom of the seventh.

Montana carried a 6-3 lead into the sixth inning, but the Vandals rallied, tied the game and went ahead on a double by Clyde Cook.

In the second game, Montana grabbed a 3-0 lead after three innings, but Clyde Cook smacked a homer in the fourth for Idaho with no one on base. Later in the same inning, Rich Toney blasted the ball for another homerun with one man on base and the score 6-3.

In the sixth, Dave Closson, Gary Nita and Toney singled and each were pushed in giving the Vandals the win. Winning pitcher Irv gave up four hits and went the distance for Idaho.

Maris Gives Cards Win Over Pirates

PITTSBURGH (AP) — Roger Maris singled home Curt Flood with a first-inning run and Nelson Briles hit a brilliant four-hit pitching made it stand up as St. Louis nipped Pittsburgh 1-0 Monday night.

Briles, 5-2, yielded a single by Bill Mazeroski and a double by Willie Stargell in the first inning, then set down the Pirates on two hits the rest of the way.

The victory increased the Cards' national league lead to four games.

Flood drilled a double off the left field scoreboard with one out and the lead tie. Maris hit an RBI single into right just beyond the grasp of diving second baseman Bill Mazeroski.

Los Angeles' 3-3, allowed only one more runner to get as far as second base before he was lifted for a pinch hitter in the eighth.

Archer Adds \$20,000 To Bank Account

NEW ORLEANS (AP) — George Archer added \$20,000 to the swiftness of his account today as the result of a string of birdies that won the Greater New Orleans Open golf tilt.

The 40-year-old pro nailed down first place in the \$100,000 tournament Sunday on the 18th green by tapping in a 15-foot putt for his fourth birdie on the back nine.

At 67, Archer was four under par on the demanding 6,600-yard Lakeview Country Club course — 13 under at 271 for the 72 holes. His slice of the cash was \$17,000. Archer's four earnings to \$77,000.

A superb finishing round of 66, five under par, boosted Bert Yarnco to the second spot and a 67 by Miller Barber, Tom Wiskopf and Bobby Cole led for third at 270.

Barber and Wiskopf were tied for the lead when the round began but both fired 70s for the last 18 holes.

Cole, who had a 65 Saturday, shot a horrendous triple bogey at No. 15 when his tee shot disappeared in thick Spanish moss hanging from a cypress tree, and he finished with a 70.

Archer was one under on the front nine. At No. 10 he three-putted from 45 feet for a bogey 3. Then he buckled down.

On 11 he chipmugged in from off the green for a birdie. At 12 he rained in a 15-foot birdie putt. At 13 his tee was four feet off the green and he feared the thing but his chip shot ran straight to the hole.

Hall Is MVP In Stanley Cup Playoffs

MONTREAL (AP) — Goaltender Glenn Hall of the St. Louis Blues was named the winner of the Conn Smythe Trophy Monday as the most valuable player in the National Hockey League's Stanley Cup playoffs.

Hall, 36, played the Blues' 16 playoff games, eight of which went into overtime. He played a total of 1,092 minutes and compiled a 2.47 goals-against average.

Hall was particularly outstanding in a losing cause in the final series against the Montreal Canadiens. The heavily-favored Canadiens swept the best-of-7, but each victory was by a one-goal margin.

Yastrzemski Moves Up Batting List

By BEN OLAN
NEW YORK (AP) — It figured Carl Yastrzemski would sock it to "em eventually and the Boston Red Sox outfielder has been doing just that while gaining considerable ground in defense of his American League batting title.

Way down the list with a .232 average a week ago, last season's triple crown winner collected 12 hits in 25 tries — .480 pace, and boosted his overall mark to .295. This placed him ninth in the batting competition, 31 points behind the lead, Cleveland's Max Alvis.

They're closely bunched at the top. Alvis took over first place despite a six-point loss to Curt Flood of St. Louis who had nine hits in 20 times at bat in last week's action.

Rod Carew of Minnesota and Bill Frehan of Detroit are tied for second place at .321 followed by Andy Etchebarren of Baltimore, .317, and Willie Horton, .310. Carew, the runner-up last week, slipped .32

points by collecting only eight safeties in 34 attempts. Frehan dropped four points and Etchebarren 36.

Ken Harrelson of Boston, who held the No. 1 position a week ago with a .400 slate, fell all the way to 27. He managed only two hits in 26 at bats in last week's games.

Pete Rose of Cincinnati led although his average dipped 33 points to .371 with an 8-for-30 performance.

Jerry Grote of the New York Mets rushed up from 10th place to second. He had 12 hits in 28 tries and gained 35 points over .352. During one stretch, he had seven consecutive hits.

Curt Flood of St. Louis dropped one place to third-at .348. He lost 14 points with a 5-for-18 showing. Tito Francona of Atlanta is fourth at .340, followed by Alex Johnson, Cincinnati, .327. The figures include Sunday's games.

Willie McCovey of San Francisco took over the home run lead with nine.

Hearing Will Continue Tuesday On Dancer's Image Disqualification

By BOB COOPER
 LOUISVILLE, Ky. (AP) — Three stewards at Churchill Downs spent 1 1/2 hours Monday studying the disqualification of Dancer's Image as the Kentucky Derby winner, then quit for the night to resume their investigation Tuesday.

Johnson Is Glad To Be With Chicago

By TOMMY THOMAS
 NEA Sports Writer
 NEW YORK (NEA) — When Lou Johnson was acquired from Los Angeles this season, the 34-year-old outfielder was asked if the Cubs were his kind of team. He replied, "They're in the major leagues, aren't they?"

Sweet Lou, as he's called, enjoys and appreciates life in the big leagues, as could be expected of a guy who has won the grade AIT he was 32. A native of Lexington, Ky., Lou broke into baseball in 1953 at Olean, N. Y., and six years later had progressed to San Antonio of the Texas League. From 1959 to '61, he had trials with the Cubs, Angels and Braves but always managed to slip back into the doldrums of the American Association, Pacific Coast or International League.

In 1965, however, the Dodgers brought him up to add some zip to their pennant drive. He responded in the World Series by hitting two homers and achieving a .296 average.

Probably Lou's greatest asset is his cheerful outlook. When he suffered a broken arm last season, the Dodgers took him on road trips because they wanted his spirit around. After recovering, he managed to hit .270, the second best average on the club.

The Cubs consider themselves serious pennant contenders and so does Lou. He stays in the clubhouse, signing autographs for kids between doubleheaders, clapping his hands while running around the bases after a home run and keeping his teammates optimistic.

"This club is 100 per cent better for me than LA was," he says. "For one thing, I know I'll play every day, whether I hit 200 or 400, which means a minimum of pressure. Also, the mental attitude of the Cubs is better, probably because the Dodgers don't really want to win."

But the big difference is the hitting potential, compared to Los Angeles, where two runs in one inning is considered a barrage.

"I am really impressed at the way these guys can hit the ball — Ron Santo, Bill Williams, Don Kessinger — even Ernie Banks still. I'm amazed at the way we sometimes bunch runs in just one or two innings.

"He lives up the club," says Leo Durcher. "He's a determined player and he's good for the fans. His injured foot still gives him trouble occasionally and I don't expect him to hit

The stewards issued no statement, ignoring reporters' questions, and moved quickly to their automobiles parked near the general office at the Downs. A veil of secrecy was thrown over the stewards as eight or more witnesses testified during the day and early evening.

Dancer's Image, a 1 1/4-length winner in the May 4 Derby, already has been placed last for use of an illegal drug, giving the \$122,600 prize to Calumet Farm's Forward Pass.

The stewards, meeting behind locked and guarded doors of the track's general office, sought to fix the blame for the appearance of phenylbutazone in the colt's system.

Hanging in the balance was not only the reputation of trainer Lou Cavalaris, whom racing rules charge with absolute responsibility for the condition of the colt, but also a shot at the \$250,000 Saturday for the son of Native Dancer.

Owner Peter Fuller has said he will not allow Dancer's Image to start in the second game of the triple-crown unless Cavalaris saddles him.

There were some indications that the hearing might continue until a decision was reached.

Included among witnesses called to swear testimony in the case were Leo O'Donnell, Lewis Finley Jr. and John G. Goode, stewards at the race track that has been the home of the Derby for its 94 years.

Fuller and Cavalaris left the hearing late in the afternoon, offering "no comment" to newsman's questions of what had transpired.

The only definite statement made by the two was that they were flying to Baltimore to check on the progress of Dancer's Image in training for the Preakness on Saturday.

Cavalaris said he would be back in Louisville on Wednesday and believed that Fuller would return also.

Johnson's good nature hasn't put him above revenge, although his grudges are of the monitory variety. The Mets' Don Cardwell recently whipped a low pitch at Lou which caused him to foul it off while trying to get away. The ball hit Johnson's bad foot and he sat out the remainder of the game.

"He knew I couldn't move around," Lou said. "I don't mean smashing a liner off his face or anything like that. One of these days when he's facing me with the bases loaded, he'll give me a nice high one and I'll put it over the wall for him."

"That's what I like about this club. Even the best pitcher can't keep me out forever. They've got to come up. And when you get a broken arm, you're hurtin', you're hurtin'!"

Braves Rally In Ninth, Drop Phils

PHILADELPHIA (AP) — Pinch hitter Tito Francona drew a bases-loaded walk in the ninth inning and Hank Aaron followed with a sacrifice fly, giving the Atlanta Braves a 4-2 victory over Philadelphia Monday night.

Pitcher Phil Niekro, whose punt single was the Braves' only hit in the ninth, stopped the Phillies on three hits in squaring the record at 2-2.

Pinch starter Chris Short walked Sonny Jackson with one out in the ninth and Niekro popped out over the pitcher's head for a single. With a 2-0 count on Felipe Alou, Farrell replaced Short and completed the walk, then forced home the tie-breaking run by walking Francona.

Hank Aaron's sacrifice fly to right scored Niekro with an insurance run.

Transmitters To Be Used To Follow Elk

BOISE (AP) — Tiny radio transmitters will help Idaho big game biologists follow the migration of elk in the Clearwater River area of Northern Idaho.

The Idaho Fish and Game Department said 12 of the transmitters have been ordered. They will be attached to collars fastened to the elk during the trapping, marking and observing program under way in the Dworshak Dam area on the Clearwater's North Fork.

The elk also are marked with ear tags and neck bands, colored so they are visible for a considerable distance.

Wesley M. Shaw, department game biologist, said that since the study program began in 1963, at least 257 elk have been trapped and marked.

Wood-Pro Is Added To Preakness Field

By GORDON BEARD
 BALTIMORE (AP) — The probable was added to the field for Saturday's \$100,000 Preakness.

While Pimlico officials awaited word on the availability of Dancer's Image, the disqualified Kentucky Derby winner, they were notified that Wood-Pro would be entered.

The 3-year-old colt, owned by John Neira, earned \$2,225 last year while winning one race, and \$3,612 this year in 10 trips to the post without a victory.

Wood-Pro finished third behind Dancer's Image in the New Year's Handicap at Laurel, a mile race won by Preakness starter Sir Beau. That was before Dancer's Image rocketed to prominence by winning the Governor's Gold Cup and the Wood Memorial.

Dancer's Image was disqualified after finishing first in the Derby when the drug phenylbutazone was found in his system during a post race urinalysis. The drug is a medication, not a stimulant, but it violates Kentucky racing rules.

Churchill Downs stewards questioned Peter Fuller and Lou Cavalaris, the owner and trainer of Dancer's Image, about the case Monday.

Fuller has said his colt won't run in the Preakness if Cavalaris is suspended, but the trainer urged that Dancer's Image be

entered regardless of his status. Out of the Way, a fast finishing fourth in last Saturday's Withers Mile, and Yankee Lad, winner of the 1 1/4-mile Survivor Stakes at Pimlico in his last start on April 29, also were added to the list of likely Preakness starters Monday.

Trainer Max Hirsch picked Out of the Way as his best chance for the Preakness. He said out of the Way may have won except for April 29, also were added to the list of likely Preakness starters Monday.

The probable Preakness field totals 12 counting Dancer's Image, if as many as 10 start, the gross purse would top last year's record \$194,000.

Forward Pass, the Derby runner-up, who has since been declared the official winner, arrived at Pimlico Monday from Derby, a disappointing 12th in the Derby, also was due from New York, but trainer Eddie Yowell withdrew the colt.

"He coughed a little Sunday morning and isn't acting right," Yowell said. "It's just not himself, and he is not training to my satisfaction."

POINTS SHOW

WHAT TO BID
North's raise from one to two no-trump was based on simple addition plus the knowledge that 26 points is the key number for a no-trump game.

He held nine points of his own, and his partner's no-trump had shown 16 to 18 with nothing ex-

ceeded and led the jack of clubs from dummy. He still wanted to make sure that East would gain the lead.

West took his king and shifted to a spade but this did not bother South. He was looking for nine top tricks by this time and actually managed to make a 10th when East's 10 of clubs dropped.

This hand also illustrates the point that 26 or 27 high card points won't always produce nine tricks. Give East the 10 of hearts instead of the four spot and he would win the first heart and return the suit to set up four potential heart tricks for the defense. Then, even if South picked up the queen of diamonds, he would probably go down when the club finesse lost.

The set would not be certain. There would be a possible end play situation if South rose with his king of hearts and cashed all diamonds, and the two top spades.

South played dummy's 10 of hearts at trick one. When it held the trick, South saw that he was going to make his contract with a reasonable amount of luck. He wanted to keep East out of the lead because, if East did get in, he would be able to lead a heart through the king-jack.

Therefore, South played dummy's ace of diamonds, continued with the deuce and finessed his 10. When the finesse worked, South took the last two dia-

Movies And Novels Don't Always Describe The Realities Of Love

Some of the saddest letters we receive come from folks who are all stagers people who've experienced sex out of wedlock and found it disappointing. Today's column is addressed with compassion to the lecture intended to them.

When a first physical love affair disappoints, there's no ready channel of help. Isn't it possible to see marriage as a counselor, physician or pastorality without embarrassment.

But for unmarried lovers, there's a high school of disapproval. They anticipate rejection. "I'm doing something everyone lectures against, if I Eichenlaub available in inexpensive paperback editions.

FEARS ARE MANY
Realize that premarital sex can put a damper on complete joy. The greatest handicap is fear: fear of discovery and pregnancy. And always there is worry about how long it will last. "Everyone says it will be wonderful. Maybe there's something wrong with me."

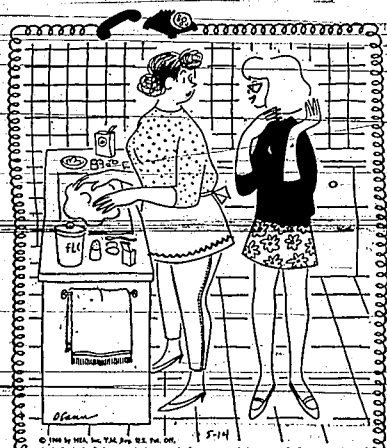

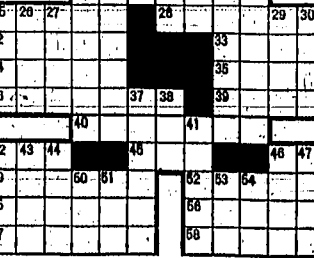

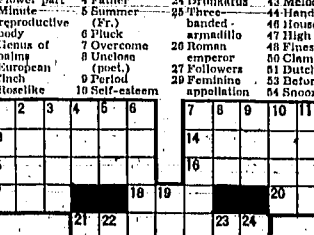

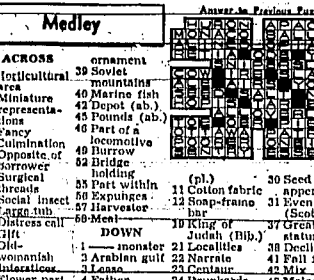

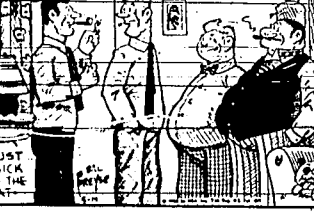

A girl may assume that she's felt a cold creature incapable of feeling emotion or giving warmth. A boy is likely to fear for his masculinity. Once these worries start, they compound each other. Each time the lovers approach one another, their steps are hesitant and fearful, their anticipation is anything but joyous. The love-making becomes a test they're afraid they'll fail.

NO LAST-BEEL PANACEA
You can blame this part on the books and movies we absorb. With the exception of "Bonnie and Clyde" and "Hayley-Mills" the Family Way," lovers are always seen to ecstasy in our pictures. Authors turn copulation into a chapter-long hymn of joy. Nowhere is the truth given: The love-making is an art which needs to be perfected.

The completely wonderful wedding-night is the exception to the rule. Most new lovers are awkward with each other. It takes time and trust to learn to please one another, but this fact of life is seldom noted.

All you need do is mail the Enrollment Form below together with just \$1 before the expiration date. It's that easy!

Why you need extra cash in addition to ordinary health insurance

Anyone who has been in the hospital recently knows ordinary hospital insurance—even Medicare—simply will not cover everything. You have to pay many "extras" out of your own pocket—and it can add up to hundreds of dollars in a frighteningly short time. But even if your ordinary hospital insurance covers most of your medical and hospital bills, what about the bills that keep piling up at home?

If you, as husband, father and breadwinner are suddenly hospitalized, your income stops, your expenses go up. Even if you have some kind of "safety insurance" it probably won't come close to replacing your full-time pay.

If your wife is suddenly hospitalized, who will look after the family, do the laundry, the marketing, the cleaning? You may have to take time off from your job or hire full-time domestic help.

If one of your children is suddenly hospitalized you will certainly spare no expense. You wouldn't even think of your ordinary hospital insurance covering most of your medical and hospital bills, what about the bills that keep piling up at home?

Without "extra cash" protection, a hospital emergency may leave you with savings drained, debts you can't pay, peace of mind shattered—until your recovery can be seriously delayed by money worries!

How the plan protects you and your family

But now, with Direct Extra Cash, you can help avoid these worries—because you can count on extra cash for every day, every week—week after week even for

life—when you or any covered family member goes to the hospital. No matter how large your family, no matter what your age or occupation, you can choose whichever of the four low-cost plans shown at right suits your family best.

You may actually come out "Money Ahead!" Because the Direct Extra Cash Plan pays you in addition to any other company's health insurance—individual, group or even Medicare—and because all your extra cash benefits are tax-free, you may actually leave the hospital many dollars ahead... money you don't have to account for to anyone... extra cash in addition to anything and everything!

Extra cash protection at surprisingly low cost—Your first month for only \$1!

You get all of these extra benefits at a cost even less than you would expect! See the actual low rates in the plan at right. And, regardless of the plan you choose, your occupation, your age or size of your family, you get your entire first month for only \$1.00!

How can we offer so much for so little?

The answer is simple: We have lower total sales costs. The Direct Extra Cash Plan is a mass enrollment plan. It's the only low-cost extra cash plan you can buy by mail. No salesman or investigators are used. It all adds up to maximum protection at minimum cost for you.

Extra cash weekly—even for life... extra cash you can use any way you wish!

- Which plan should I choose?** You may choose any of the four low-cost plans you can actually select the one that suits you best! If you are a young, growing family, we recommend the ALL-FAMILY PLAN. You and your wife are covered all once for new additions and in-laws and for maternity benefits after 10 months. All your children (and future additions) between 3 months and under 23 are included, at no extra cost, as long as they are unmarried and live at home. If you are the only parent living with your children, we suggest the ONE-PARENT FAMILY PLAN. This covers you and all unmarried children living at home between 3 months of age and under 23. Under this plan, of course, future additions are not included since no maternity benefit is provided. If you have no children, or if your children are grown and no longer dependent on you, you will want the HUSBAND-WIFE PLAN. If you are living by yourself, choose the INDIVIDUAL PLAN.
- What happens if I become hospitalized, when do my extra cash benefits begin? How long can I be paid?** On all plans, you collect from the very first day you
- enter the hospital, even for one day for as long as—and for as many times—as you are hospitalized—a week, a month, a year—even for life!**

ONE-PARENT FAMILY PLAN—\$100.00 weekly for you; \$50.00 weekly for each of your eligible children. HUSBAND-WIFE PLAN—\$100.00 weekly for you; \$75.00 weekly for your wife. INDIVIDUAL PLAN—\$100.00 a week for you.
- What if my wife and I are both hospitalized at the same time?** If you have the ALL-FAMILY or HUSBAND-WIFE PLAN and are hospitalized by sickness, you collect \$100 each for your wife \$75 each for you. If you are injured and hospitalized at the same time, your benefit will be doubled—\$200 for you, \$150 for your wife—a total of \$350 a week!
- Are there any other "double" extra cash benefits?** Yes. On all plans you receive double cash benefits if you or any covered family member is hospitalized for cancer (including Leukemia and Hodgkin's Disease), or heart attack (acute myocardial infarction, coronary thrombosis, or coronary occlusion) \$200.00 a week for you, \$150.00 a week for your wife, \$100.00 a week for each child.
- Tell me about the "extended" extra cash benefits.** In the event of death in the hospital of any covered family member from any condition covered by your policy, a lump sum cash benefit will be paid: \$200 on all plans, \$150 on the Husband-Wife Plan.
- Does this plan pay in any hospital?** You will be covered in any hospital of your choice—even government hospitals—except nursing homes, convalescent or self-care units of hospitals.
- When does my policy go into force?** It becomes effective the very first day we receive your Enrollment Form. New claims will be handled on a first-come, first-served basis. Under the ALL-FAMILY PLAN, children and pregnancy, and any consequences thereof are covered after your policy is in force for 10 months.
- What if someone in my family has had a health problem that may recur again?** Even if one of your covered family members has had chronic ailments in the past, pre-existing conditions are covered after the policy has been in force for just one year.
- What conditions aren't covered?** Only these minimum necessary exceptions: pregnancy or any consequence thereof (unless you have the ALL-FAMILY PLAN), war, military service, mental disorder, alcoholism, drug addiction, or attempted suicide.
- Can I drop out any time? Can you drop me?** We will never refuse to renew your policy for health reasons. In fact, we guarantee that we will never cancel or terminate your policy unless we decline renewal on all policies of this type in your entire state. You, of course, can drop your policy on any renewal date.
- Will my claims be handled promptly?** Yes. With your policy, you will receive a simple, easy-to-use Claim Form. Your claims will be processed quickly and your extra cash sent directly to you.
- Why are the premiums so low?** With the Direct Extra Cash Plan, you actually get all the benefits of a "low cost" policy because the "mass" enrollment plan—and no salesman are used. Our volume is higher and our total sales costs are lower.
- How much does my first month cost?** Only \$1.00 regardless of your age, the size of your family or the plan you select. After the first month, if you are under 65, you pay only these low monthly rates: only \$7.95 a month for the ALL-FAMILY PLAN; only \$5.95 a month for the ONE-PARENT FAMILY PLAN; only \$6.95 a month for the HUSBAND-WIFE PLAN; only \$3.80 a month for the INDIVIDUAL PLAN. (When you are over 65, premiums are adjusted. See model increase in table above.) No other change can ever be made in your rate, unless we make a general change for all persons of the same classification in your entire state.
- Why should I enroll right now?** Because an unexpected sickness or injury could strike without warning—and you would not be covered until your policy is in force. Remember, if for any reason you change your mind, you may return your policy within 10 days and your \$1.00 will be refunded immediately.
