

Satellite Takes Post Near Sun

CAPE KENNEDY, Fla. (AP) — Pioneer 9 soared into orbit around the sun today and joined three other satellites in a scurry network to warn of solar radiation storms that could endanger astronauts on the moon.

The flight control center reported six hours after launching that Pioneer 9 had taken its place in the far-flung space patrol and that all its experiments were on and transmitting data.

"A perfect launch and a perfect spacecraft," commented one official.

The three-stage Delta rocket also hurled into earth orbit a 40-pound communications satellite that will be used as a practice target for the 18 stations in America's global man-in-space tracking network.

Pioneer 9 brilliantly illuminated the early morning darkness as it blazed upwards at 4:46 a.m. with its double payload.

Twenty-five minutes later the National Aeronautics and Space Administration reported that the communications satellite had been kicked into an orbit more than 200 miles high and that Pioneer 9 was in orbit about the sun.

Officials reported Pioneer 9 was on a near-perfect course that will swing it around the sun once every 29 1/2 days at distances of 93 million to 95 million miles from the searing surface.

The sun-orbiter carried eight experiments to record and transmit information about the solar wind, cosmic rays, cosmic dust, and electric and magnetic fields as it zipped on its lone, some-300-day journey.

Three earlier Pioneer-6, 7 and 8 still are operating as they circle the sun on widely spaced paths. The combination of the four probes should give physicists the broadest picture yet of conditions in interplanetary space.

Pioneer assignment is to provide advance warning of radiation that could spill into space from solar flares and threaten a man-to-moon mission.

Pioneer 9 presently is entering the most active period of its 11-year-far-flung mission and will reach peak activity next year when the moon flights could be attempted.

American astronauts hope to land on the moon.

With enough alert of major flares, the moon flights could be altered if an eruption after the case of an eruption after they are under way.

Several huge flares occurred last month during the Apollo 7 mission, but the astronauts were protected by the earth's atmosphere and by their space shields.

In Prague last week, a Czechoslovakian scientist suggested a solar storm might have forced a premature end to the orbital flight of the manned Soyuz 3 flight. However, there was no indication of this from the Soviet Union.

DELEGATES BEGAN REGISTERING Friday morning for the state meeting of the Idaho Home Economics Association at the Holiday Inn. Members of the Twin Falls HEH (Home Economics in Homemaking) unit manned the registration table. Here registering Mrs. C. Janet Matham, second from left, assistant state supervisor of home economics education for the Idaho Board for Vocational Education, are, seated, Mrs. Elbert Davis, second from right, and Mrs. Roy Haley.

Nixon Defers Viet Trip; LBJ Conference Expected

By The Associated Press
Richard M. Nixon has given himself at least a month to choose his top administrative officials and has deferred to President Johnson a decision on visits by the president-elect to Saigon and other foreign capitals before the inauguration.

The Vietnam trip, proposed Thursday by South Vietnam President Nguyen Van Thieu, would likely come up in an anticipated early meeting between Nixon and the president.

And while Nixon rested at his Key Biscayne, Fla., retreat, officials counted the final few ballots in elections still undecided. In Washington, congressional leaders said they're assigning top priorities to issues of the Electoral College system of electing presidents.

Rep. Emanuel Celler, D-N.Y., chairman of the House Judiciary Committee, said in an interview Thursday he will schedule hearings as soon as possible to deal with reforming the Electoral College.

Nixon has been credited with 287 electoral votes — only 17 more than a majority — on the basis of unofficial returns, although he could pick up more when absentee ballots are counted and official results are tallied.

Nixon-led Vice President Hubert H. Humphrey in Missouri, 766,169 to 735,547 with as many as 60,000 absentee ballots to be counted. The state has 12 electoral votes.

Nixon held a 502-vote lead in Alaska, with returns for some outstanding, and 15,000 absentee votes still to be counted. The state has three electoral votes.

Humphrey was leading by 17,728 votes in Maryland — which has 10 electoral votes — with 36,000 absentee votes out.

The last tabulation of the popular vote gave Nixon 30,446,028; Humphrey 30,175,835 and George C. Wallace 9,186,703. Humphrey's total included votes cast for him in two different spots on the Alabama ballot.

It may be well into December before the vote has been counted officially nationwide and Republicans are g.u.a.r.a.n.t.e.e.d. an electoral vote.

Nixon's representatives in the House are meeting with planning sessions on the transfer of power.

Reports from Key Biscayne that Nixon is meeting with the President and president-elect are expected to be announced in the next few days.

The Board of Health gave approval to the attorney general's office to file a petition, calling for investigation in a public hearing of his status of water pollution problems of the South Fork of Coeur d'Alene River. One of the purposes of the hearing, according to Mike Southcombe, deputy attorney general, is to publicize the pollution problem in Northern Idaho and to determine the exact status of industries and communities committed to the next water pollution deadlines set by the Board of Health.

Mideast Conclave Jolted

UNITED NATIONS, N.Y. (AP) — Secretary-General U Thant denied today that the departure of the Egyptian and Jordanian foreign ministers from New York signified a breakdown in Middle East peace efforts.

"I think that the unusual step of issuing a statement through a spokesman that future negotiations could be held either in New York or elsewhere under the supervision of his peace officer, Swedish Ambassador Gunnar Jarring, Alha Eban, the Israeli foreign minister, remained here. I scheduled a news conference for Monday to give his country's position on the private negotiations."

Several huge flares occurred last month during the Apollo 7 mission, but the astronauts were protected by the earth's atmosphere and by their space shields.

In Prague last week, a Czechoslovakian scientist suggested a solar storm might have forced a premature end to the orbital flight of the manned Soyuz 3 flight. However, there was no indication of this from the Soviet Union.

Home Economists Deal With Credit

Approximately 150 people registered for the Idaho Home Economics Association convention Friday morning in the Holiday Inn.

Those attending include students majoring in home economics as well as faculty members from Idaho high schools, colleges and universities, representatives from homemakers groups and home extension agents.

The theme of the convention is "The Many Faces of Credit—Mystery, Tragedy or Opportunity."

Opening the morning session was Dr. Richard L. D. Morse, professor and head of the department of family economics, Kansas State University. He explained the basic concepts of consumer credit.

Also speaking during the morning session was Richard Reed, Twin Falls County probate judge. His topic was consumer credit in Idaho.

Friday afternoon sessions were highlighted by a panel discussion on "Credit Is Our Business." Panel members were Don Buckley, Household Finance Corp., Sent-

Boise, Wash.; R. B. Kading Jr., Boise attorney, general counsel to Idaho Consumer Finance Association, and Grant Osterhout, Reliance Credit Corp., Twin Falls.

Other afternoon talks were "Issues and Approaches," by Thekla Allison, and "Home Economics — Profession in Service to Families," with Dr. Doris E. Hanson, executive director, American Home Economics Association.

Dr. Hanson, Mary Lee Wood, Kathleen Warnick, Jean Woods, Sue McAfee and Jeanette Reinhardt will serve on a panel on membership.

Dr. Morse also will be the special speaker at the Friday night banquet. He will discuss the economic development of consumer credit in a talk entitled, "The Checkless Cashless Society."

Also speaking during the evening session was Richard Reed, Twin Falls County probate judge. His topic was consumer credit in Idaho.

Workshops and other consumer credit talks will fill out the balance of the two-day convention. College club officers will be installed Saturday afternoon.

Extension Is Granted In Murder Case

RUPERT — A defense counsel request to extend preliminary hearing proceedings for James E. Murphy 30, Rupert, who is charged with first degree murder, was granted Friday morning by Probate Judge LeRoy Blieker.

The hearing will be continued Dec. 4. The defense attorneys, Roger Ling and Lawrence Duffin, asked for the extension of time to present briefs before the judge makes a decision as to whether or not there is sufficient evidence to determine if a crime has been committed.

Mr. Murphy, who has been charged with the murder of Sheriff's custody since Oct. 11, is charged in connection with the gunshot death of his stepson, Larry Hunter, 20, Rupert, on that date.

Three family members were called as witnesses during the two-hour proceedings Friday morning.

Bids Are Asked For Hospital Remodeling

By ANNETTE JENKINS Times-News Staff Writer

The building committee of the Magic Valley Memorial Hospital board adopted a resolution Monday to ask for bids for remodeling the hospital.

The committee also is considering air conditioning of patient rooms for possible inclusion in this phase of construction.

Funds to finance the program will be derived from the county mill levy.

R. W. Pierce, chairman of the committee, said, "Hospital remodeling is being added. The committee also is considering air conditioning of patient rooms for possible inclusion in this phase of construction."

Funds to finance the program will be derived from the county mill levy.

Massive Attack Expected B52s Hit Enemy Camps

By The Associated Press
B-52 bombers followed-up B-57 strikes Tuesday 35 miles west of Saigon found about 200 enemy fortifications were destroyed by the Stratofortresses.

Crews returning from two raids along the Cambodian border Thursday night reported their bombs set off 49 secondary explosions, indicating massive destruction of enemy munitions stocks.

Earlier today, Lt. Gen. Do Cao Tri, commander of the 3rd Corps area that stretches through Saigon to the Cambodian border, said the Communist command was preparing to launch an all-out attack in his area.

Tri told Vietnam Press, the government news agency, that according to intelligence documents, the enemy is planning a "total attack" instead of an attempt to occupy some of the provinces in the border area.

There was no immediate comment from U.S. intelligence officials, but they estimate 200 enemy troops in the border area appeared to conflict with recent U.S. estimates of about 35,000 troops in the entire 3rd Corps area.

The South Vietnamese government said three days ago that an enemy document captured by American troops contained orders from Hanoi to step up military and political activity all over South Vietnam after the United States stopped bombing North Vietnam a week ago.

Meanwhile both the U.S. and South Vietnamese commands reported only light action across the front.

County's \$1-A-Vote Election Illustrates Automation Need

By FRED DODDS Times-News Staff Writer

At \$1 a vote, the general election last Tuesday was an expensive affair for Twin Falls County taxpayers.

"That's how much the election cost, county commissioners estimated."

With the total vote at between 18,000 and 19,000, the right of the people to vote is an expensive right.

And as slow as this county commissioners are looking at another approach. It involves an outlay of money, but in the long run — estimated to be 10 years — this money will be repaid and elections then can be held at a minimal cost.

County Commissioner Morris Falls County for some time to come.

"We simply couldn't afford an outlay of that size," Mr. Carlson said.

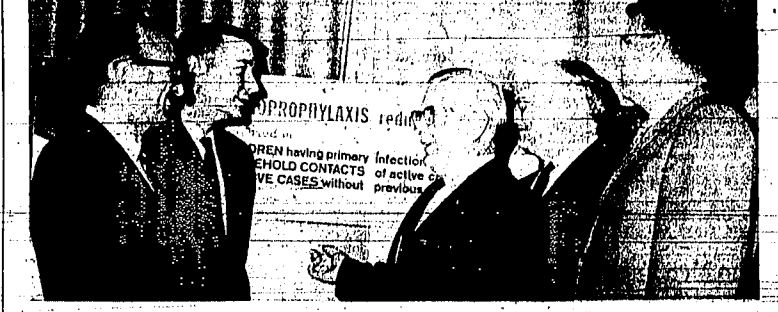

But there is another approach, and the three commissioners and the county clerk, Harold Lancaster, are studying it.

The approach calls for cutting down the number of machines needed in the county.

Twin Falls 2, for instance, is located in the county courthouse.

It is centrally located. Therefore, it is thought four or five precincts could be located in the courthouse. They either could be combined into one precinct, or left as four or five.

See VOTES, Page 2, Column 4.

DR. TERRELL O. CARVER, left, Boise, administrator of the Idaho Department of Health, discusses problems with members of the Idaho board of health. Members of the board, from left are Dr. Carter V. Beightol, Orofino; F. L. Bloomquist, Caldwell; chairman, George Watkins, Idaho Falls, vice chairman, and Fred Humphreys, Boise.

2-Year Nursing Program At CSI Is Recommended At Gooding Health Meet

GOODING — The State Department of Health Nursing Coordinator, Ruby Leonard, recommended a two-year nursing education program be established at the College of Southern Idaho, Twin Falls, and North Idaho Junior College at Coeur d'Alene.

She made the suggestion Friday at the quarterly meeting of the State Board of Health members.

Mrs. Leonard said the State Board of Education should establish as soon as possible a four-year nursing program at Idaho College and also establish a masters degree program at Idaho State University, Pocatello.

Mr. Anderson, director of the engineering and sanitation department of Health, said the Idaho Potato Processors Association is exploring the possibility of developing a dry-curd process, which if successful could reduce water problems from potato processing plants by as much as 90 per cent.

The Board of Health gave approval to the attorney general's office to file a petition, calling for investigation in a public hearing of his status of water pollution problems of the South Fork of Coeur d'Alene River. One of the purposes of the hearing, according to Mike Southcombe, deputy attorney general, is to publicize the pollution problem in Northern Idaho and to determine the exact status of industries and communities committed to the next water pollution deadlines set by the Board of Health.

Sen. Morse May Demand Vote Count

PORTLAND (AP) — A recount demand seemed likely to be made by Sen. Wayne Morse as he departed last night after nearly 3,500 voters had cast their ballots in the Senate race.

Robert Packwood, 36, Portland Republican who would be the Senate's youngest member if his vote margin held up through the final counting, made no victory claim but an aide said, "He is assuming victory."

When counting boards quit work Thursday night an estimated 6,000 votes were still uncounted. In one of these — Lane — Morse was getting 54.8 per cent of the absentee votes. It was unclear how the tallying into the third day beyond Tuesday's election, Morse was getting 50.1 per cent of the absentees in Multnomah County.

These percentages were far too small to give him hope of overtaking Packwood, although there is a slim chance he will still lead.

Morse has not been available to the press — usual for him — until final results are known — but the feeling is so general that he will demand a recount that the secretary of state ordered special protection for the ballots in all counties.

DRIFT QUOTA SET

BOISE (AP) — The drift quota for Idaho in January will be 98 men, according to state selective service director. He said the quota will be set during one week that January of this year.

Blood Drawing Set Tuesday In T.F.

ROBERT HARVEY

Advisory Panel Asks \$150,000 For State Agency

POCAHELLO, Idaho (AP) - An additional appropriation of at least \$150,000 a year to the State Department of Commerce and Development for the... industrial development in Idaho has been recommended by an advisory committee to the department.

The recommendation was passed by the committee after hearing a report from a consulting firm, Booz, Allen and Hamilton, San Francisco. The firm has been retained to do a 2½ year study of Idaho industry and industrial potential.

The last blood drive in Twin Falls this year will be held next Tuesday, Nov. 12, at the American Legion Hall.

Robert Harvey, a Twin Falls businessman, has been named honorary chairman of this drive and "Friday" he urged potential donors to "make it sincere attempt to give blood at this drawing."

The plea was entered by Mr. Harvey because Twin Falls has failed to meet its quota this year and the situation is "getting serious." He said if the county wants to continue receiving free blood from the Red Cross, it is necessary to support the blood drawing program.

It takes between 45 minutes to an hour to donate, with five minutes needed for the actual blood drawing process, he said. If people want to make an appointment, or come to the Legion Hall during a slack period, they may call the American Legion Hall.

The American Legion telephone number is 733-3808. Interest in the drive is building and about 250 Red Cross and Kiwanis clubs have already scheduled a competition. It is called a "bleed in" and members will be donating blood Tuesday. The club that wins will probably take it out on the other clubs, and results will be made public.

The will also be a blood drawing in Kimberly next Thursday. An appeal was also issued from the Twin Falls Red Cross to area women's groups, and to civic and youth groups. "Join in," Mr. Harvey said. "Blood is needed badly."

Muskie Comes Out Of Campaign With Bright Political Future

By ROWLAND EVANS and ROBERT NOVAK

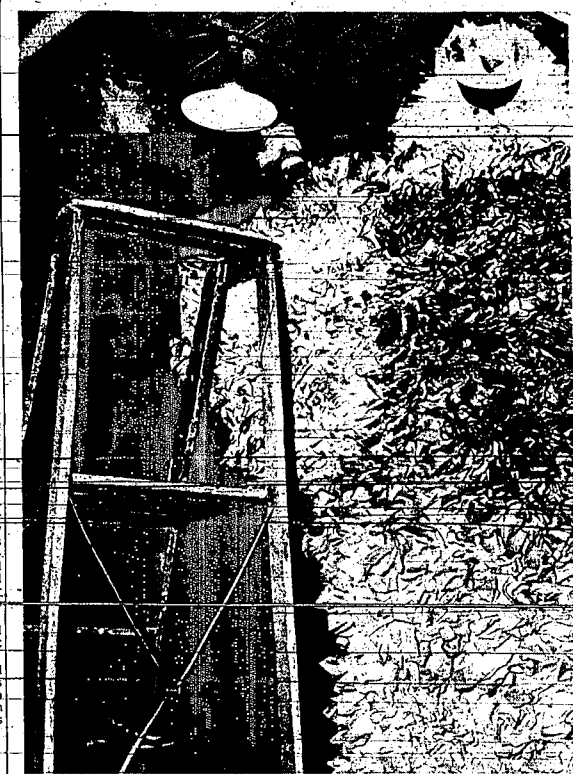

WASHINGTON — Shortly before the election, some old-style Southern Democrats slipped their heads in a rural Georgia backseat and bemoaned the sad state of politics in 1968. To a man, they were supporting George Wallace for President — unequivocally and fervently, even though they conceded the hopelessness of his cause. They had little use for Richard M. Nixon and even less for Hubert Humphrey. The national leadership of both major parties had deserted them.

Medical Group Creates New Post BOISE (AP) — Creation of a new post of executive vice president of administration of the Idaho Foundation for Medicine and Surgery was announced Thursday by Foundation President Westerman Whitlock.

His positions were scarcely different from the lukewarm, dated liberalism dispensed by Humphrey. His oratory was scarcely elevated above the mundane level of this drab campaign. In keeping with the general professional inefficiency of the Democratic party today, Muskie often wound up in remote towns speaking to minuscule audiences.

The explanation of Muskie's amazing appeal has to do with the basic nature of politics in America today, which is a product of mass politics. Politicians like Nixon and Humphrey — noisy, fast-talking, fervent — full uttering to make contact with the public. As for Spiro T. Agnew, he is even less contemporary and relevant to the television politics of 1968.

According to McLaughlin, politics, what is said is not nearly so important as how it is said. Thus, Muskie did not differ in any major respect from Humphrey on such key issues as the race revolution in Vietnam and yet is far more congenial to the white supremacist or the peacock solely because of style.

RON RINEHART WORKS on a super king-sized Lil' Abner as part of several props Twin Falls High School students began working on in preparation for the annual Sado Hawkins Day Dance to be held Saturday night at the High School.

"Days Of Dogpatch" Dance Honors Sadie Hawkins Day

"Days of Dogpatch" is the theme set for the annual Sadie Hawkins Day dance which will be held at 9 p.m. Saturday in the Twin Falls High School gymnasium.

Special decorations will consist of a large Lil' Abner, of chicken wire and napkins, murals and there will be a large rustic porch in front of the gym. Also featured will be a wishing well and a stock. Marrying Sam will be on hand to hitch couples for a small fee.

Muskie will be furnished by the Synodates. This is a joint effort of the TWIN FALLS HIGH SCHOOL, PFA and FHA and all students in Magic Valley are invited. A Lil' Abner and Daisy May will be selected during an intermission at the dance.

Admission will be \$1.25 per couple. LBJ Receives Hefty Turkey WASHINGTON (AP) — President Johnson received the annual White House turkey Thursday — a 40-pound broad breasted white tom from North Carolina.

ROBERT ALLEN AND JOHN GOLDSMITH About The Student Protests

WASHINGTON—Pentagon officials have become increasingly disturbed about the long-range impact of student disorder and unrest on the military-industrial defense research at major colleges and universities. New expressions of concern have been voiced by civilian and military officials in the Defense Department...

Ideals And Scandals

An Olympics wouldn't be an Olympics if it didn't come up with at least one controversial incident or scandal. This year's games at Mexico City had both.

lieved. Rather than entering the games for the sheer love of sports, as we like to believe, the ancient athletes fully expected to be rewarded by their home cities.

One was the raised-rist symbolic protest by two Negro American runners as they were receiving their medals. The other was the revelation that some U. S. athletes were paid by equipment manufacturers to use certain brands, the latter thereby secretly purchasing an endorsement of the rules forbidding them to buy openly.

According to Plutarch, victors received from 100 to 500 drachmas under a schedule set up by Solon the lawgiver. Even the smaller award was nearly as much as a year's earnings by a working man.

MR. SPECTATOR That Election

Well, now it's all over for at least a couple of more years. If the election results did show anything it showed Frank Church is just about the most popular Senator since ever had.

What worries Defense Department research experts are the continuing campaigns by some student groups to get universities and colleges to sever their relationship with the Defense Department and abandon all defense research.

Four years from now the Presidential election will come up again. Senator Church will get up again and will be elected in the Presidential election. That will make it look forward to.

One result of that sort of student protest is to place more federal financial research and development programs in smaller colleges and universities. That would be the way with many numbers of Congress.

GETTING HUNGRY?

If you are getting hungry then Mr. Spectator hustles to point out you have something to look forward to. One suggestion made recently about what to do with mounting piles of refuse is that the consumer should be able to eat packages as well as contents.

GIVEAWAY DEPT.

We have two week old male puppies to give you away. They are part German Shorthair and will be small dogs. The family wants a good home for them so call Bull, 643-4007 if you are interested.

Dear Dr. Molner—Please send me your booklet on "The Way to Stop Constipation," and answer a question for me. I enclose 25 cents and a long, self-addressed, stamped envelope. My question is whether the continued use of suppositories is harmful. J.C.

RAY CROMLEY The Two Routes

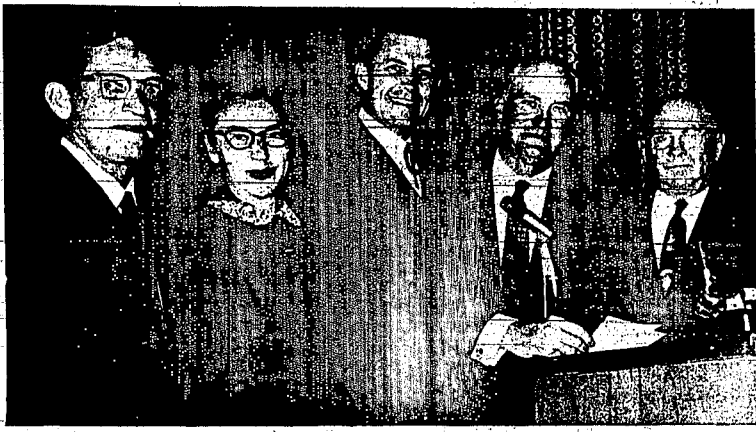

WASHINGTON (NEA) — The shift in war tactics, now apparently directed in Hanoi, will require the U.S. to increase its military presence in Laos and Vietnam. Many of these emigrants already have been brought under the control of Hanoi's organization. He's stepped-up efforts in Cambodia to make Hanoi's new strategy fail.

PAUL HARVEY The Forgotten Minority

You talk about a disadvantaged, underprivileged, discriminated against minority — how about our farmers? Twenty years ago his tractor and trailer for cattle hauling had a 100-hp runways and a five-cylinder diesel engine operator, and a big-league-chassis service plus scheduled maintenance.

THE FORGOTTEN MINORITY

Alliance is a town of only 8,000 people — yet its prosperous downtown looks like a city of 30,000. Its airport has four runways and a fire department. It's a town of 8,000 people — yet its prosperous downtown looks like a city of 30,000.

OFFICERS of the Hagerman Valley Chamber of Commerce and the featured speaker at the first annual banquet are shown just before festivities got under way. From the left they are James F. Hensles, vice president; Mrs. Ralph W.

Sullivan, secretary; Holland L. Houlburg, vice president of KEEP in Twin Falls who was the speaker; Ralph W. Sullivan, president, and I. L. Durham, treasurer. Mr. Houlburg spoke on the importance of cooperation in Chamber activities.

Backing Cited For New Dam Across Snake

WASHINGTON (AP) — Plans for a federally built dam on the Middle Snake River, backed by private power interests, reportedly have been agreed upon by the Interior Department and two Northwest power organizations. The Federal Power Commission has announced indefinite postponement of hearings in anticipation of agreement by all parties. The hearings had been scheduled to begin Nov. 12 on proposals for construction of a dam on the Middle Snake, the border between Oregon and Idaho and the last major hydroelectric site in the Northwest. The FPC did not say what plan was anticipated, but the Interior Department has been negotiating for months with the Pacific Northwest Power Co. and Washington Public Power Supply System over the department's proposal to build a dam at the Appaloosa site. Pacific Northwest Power, is a group of four private power firms. The Washington system

is a group of public utility districts. The public and private groups would share the power on a 50-50 basis for distribution to a six-state area. The preparation would go for construction costs and the utilities would be assured a source of power at a stable cost. Four different plans for the Middle Snake hydroelectric development had been proposed. Public and private power interests, the Interior Department and the Idaho Water Resource Board and all applies to build dams. The Interior Department objected to some dam sites as in-

terfering with the spawning of salmon. **Do You Know the Way To San Jose?** Vandals meet San Jose State Saturday, Nov. 9 8:45 p.m. **KEEP** 1450-KC ON YOUR RADIO DIAL

Twin Falls Times-News 5 Friday, November 8, 1968

Hagerman's First Annual Chamber Banquet Is Held

HAGERMAN — Holland L. Houlburg, vice president of KEEP Radio Sales Corp., Twin Falls, was guest speaker at the first annual banquet of the Hagerman Valley Chamber of Commerce Wednesday evening. The banquet, held in the American Legion hall and catered by Wood Cafe, Jerome, was served to approximately 125 persons from throughout Magic Valley.

The invocation was offered by Rev. Helen Davenport, pastor of the Gooding First Baptist Church. Rev. Davenport is a former Hagerman resident. Ralph Sullivan, president of the Chamber of Commerce, was master of ceremonies. Among the guests introduced were Louise Shaddock, Boise, executive secretary of the Department of Commerce and Development; officers and members of other Magic Valley Chambers of Commerce, and representatives of the Times-News, Twin Falls.

Other Magic Valley Chambers of Commerce represented were Buhl, Twin Falls, Gooding and Wendell. The Common Taters, a male quartet, composed of John Crawford, Ormond Smith and Morris Sattgast, all Buhl, and Bob Carnes, Jerome, sang. Dinner music was furnished by Mannie Shaw, Corral, with his fiddle and Bert Miller, Bliss, on the guitar. Mr. Houlburg reminisced briefly about Hagerman and Hagerman Valley and stated that Hagerman is historical and colorful, touching on the history of the founding of the Hagerman area, early pioneers, and the scenic vista of the area.

In speaking on the need for cooperation, Houlburg stated, "We can achieve what we want if we are willing to pay the price in work and time." He concluded, "The quickest way to crush whatever laurels you've won, is to rest on them." The centerpiece was arranged by Mrs. E. C. Roberson.

Bomb Scare Ends School Early At Glens Ferry

GLENS FERRY — Glens Ferry high school and elementary school were dismissed early Monday when a bomb threat was received by phone.

Mrs. Rebecca Montague, clerk of the board, answered the phone to hear what she described as a "young man's voice" warn that a bomb had been planted in the building which houses both the senior high school and the elementary pupils.

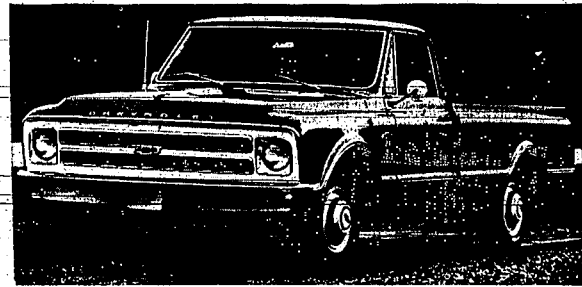

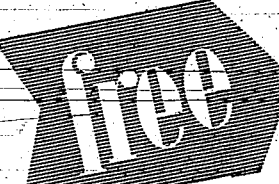

School was dismissed and a thorough search made, but no bomb was found, according to George Powell, superintendent. Powell said it has been about 12 years since such a prank was played here.

Funds Allocated To Repair 'Stone'

LONDON (AP) — Trustees of the John F. Kennedy Memorial at Runnymede authorized \$1,200 Thursday for repair of the section stone slab which was bombed last month.

The bomb cracked the stone. Police are still trying to find out who did it.

Half-Hour Show May Rise Again On Television

By CYNTHIA LOWRY AP Television-Radio Writer
NEW YORK (AP) — The television wheel seems about to complete another cycle. This may be the high-point of the variety show, but there are signs that the half-hour situation comedy, snubbed for so long, is about to be rediscovered.

Alumni Elect At Albion Homecoming

ALBION — Newly elected alumni officers for the former Idaho State Normal and Southern Idaho College of Education were announced Thursday.

Keith Amendia is president, Mrs. Chris Cagle vice president, and Mrs. Glen Clark, secretary-treasurer. They are all from Albion. They were elected during homecoming activities directed at the campus of the present Magic Valley Christian College, which is the former campus of the two other schools.

Homecoming activities included a buffet dinner at Comish hall, musical entertainment furnished by Magic Valley Christian College and a tour of the campus.

Former faculty members attending were Alvin Kempert, Twin Falls, Irene Buckley and Myrtle Clifford, Albion, All are retired.

The oldest graduate attending was Mrs. Anna Hayes, Twin Falls, who was graduated in 1887. It was noted her sister, the late Bertha Hanson, was the first four-year graduate at Albion State Normal in 1888.

Mrs. Margaret De Chambeau Duvall, Boise, of the class of 1917 also attended. Traveling the greatest distance for the reunion were Duane Harrison, Coeur d'Alene and Mrs. Helen Mendenhall, Phoenix, Ariz.

Tentative plans were made for another reunion next fall.

Employe 'Needs' Deemed Crucial In Job Finding

BOISE (AP) — Job placement is now a matter of satisfying employe needs and not filling employe demands, according to a consultant for the U.S. Bureau of Employment Service.

Dr. Ray N. Lowe, who is also director of the Vista program at the University of Oregon, was a speaker Thursday at a workshop session for Idaho Employment department managers.

played by the major networks, is a variation of "follow the leader." Let one show in a category attract favorable attention, there soon will appear a clutch of programs that are at least kissing cousins. Then, with safety, comes boredom and usually the imitators disappear.

"Bonanza's" success, for example, stimulated a throng of "family westerns." "Rowan and Martin's Laugh-In" has caused so much excitement that we are certain to be seeing a number of variety series using the same fast and furious style.

And, for a couple of reasons, we will soon see a return to the little half hour comedy series because "Julia" and "The Ghost and Mrs. Muir" have been so successful recently.

Another reason for renewed interest in the form is that it can't be criticized for violence or gunplay.

The success of "Julia" in fact seems to have emboldened the programmers in another area. NBC is committed to a half-hour comedy series next fall. The network's Jim Wilson will have his own series with his upcoming special work "The Nigger in the Woodpile." A Negro adaptation of "The Nigger in the Woodpile" will be produced together by the former's producers, has a chance for a regular spot on the program.

Presumably by midseason and certainly by next year the public will become bored by the fad in police stories. Writers are so preoccupied by drop-outs and drugs that scarcely a night goes by without demonstration of a young hippy in deep trouble.

"Hawaii Five-O" on Thursday night had its cops calling a narcotics pusher who had hooked a 17-year old girl. The police series, shot on the island, has the advantages of the tropic scenery and occasionally drops in on a "Hawaii Five-O" episode.

"Folony Squad," "Mod Squad" or even long-gone "M Squad."

On another front, it appears that the days of ABC's "Police Place" — a type of show that never was successfully imitated in a tight-time schedule — are numbered. The serial night show has impossibly tough competition from Lucille Ball and "Laugh-In." There is talk of cutting the series down to one episode a week — probably on Wednesday night half hour. And it may disappear completely — except for syndicated reruns, of course — at season's end.

WATERFRONT ACQUIRED BOISE (AP) — Purchase of 232 acres of waterfront along the Willamette River near Portland for development as an industrial and shipping terminal was announced Thursday by Brandon Holding Co., a wholly-owned subsidiary of Morrison Knudsen Co., Inc.

Actor Thinks Americans Will Abandon British Filming
AP Movie-Television Writer
LONDON (AP) — "The Americans will be pulling out of British film making next year," predicts actor Michael Caine. His forecast expresses the growing fears of English film makers that their romance with U.S. money companies is over.

Caine is a notable beneficiary of American interest in English films. From "Alfie" to his latest film, "The Italian Job," his starring movies have been backed with U.S. money. That is true of virtually all important films made in England.

THIS IS ONE OF the acts from the Utah Civic Ballet company that will appear for the grand opening of the College of Southern Idaho's fine arts center. The ballet performance will be at 8 p.m. Wednesday. The grand opening will continue through Friday.

Television Hits Are Easy To Spot, But Misses Difficult To Recognize

By CYNTHIA LOWRY AP Television-Radio Writer
NEW YORK (AP) — This is the time of the year when under normal conditions people employed by television networks suddenly start talking a lot about "Father Knows Best" and "The Dick Van Dyke Show."

"Sure, 'He and She' isn't getting good ratings, they were protesting last season at this time. But remember that 'Father Knows Best' had a terrible time with the ratings at first and finally caught on."

"Accidental Family" isn't doing at all well, but give it time. After all, 'The Dick Van Dyke Show' was actually canceled before it had started to go up and you know what happened after that.

it is easy enough to spot the hits, the misses are more difficult to recognize.

The reason is a busy, confusing combination of paid political broadcasts, variety or dramatic specials and even professional football games in prime evening time — all of them preempt the regular series and affect others.

Sometimes these pre-emptions cause mysterious increases in flinging ratings. For instance, "The Beautiful Phyllis Diller Show" on Sunday nights seems to be one of the soft-spots in the NBC schedule.

"Ice Station Zebra" Is Movie Hit Of Thriving Fall Season

By BOB THOMAS AP Movie-Television Writer
HOLLYWOOD (AP) — One of the "movie hits" of the thriving fall season appears to be "Ice Station Zebra," a somewhat far-fetched yet absorbing adventure of the Cold War.

Report Made On Activity Of CAP Units

Emergency service operations for Civil Air Patrol in 1968 surpassed the same period last year, according to a national headquarters report.

The CAP was credited with saving the lives of 17 people in distress as of Aug. 25. This compared to seven saved during the same period last year.

While on emergency services CAP aircraft were used 1,290 times while flying 8,845 sorties this year.

studios are pushing into the nation's roadshow theaters to capture the lush holiday trade and, incidentally, to qualify for the Oscar sweepstakes.

Not all of them will click with the critics and public, of course. But at its Hollywood premiere, "Ice Station Zebra" seemed to have that rare quality of capturing the audience's complete attention despite the imagination stretching adventures on the screen.

That is a rare kind of film and one in which director John Sturges, he also directed "The Great Escape." Other examples of such adventures: "The Bridge on the River Kwai," "The Guns of Navarone," "2001: A Space Odyssey."

One of those who greatly enjoyed the premiere of "Ice Station Zebra" was Rock Hudson, who also happens to star in it.

Strawberry Cake — 1 package white-cake mix, 1 package strawberry gelatin, 1 whole egg, 1/2 cup oil, 1 level tablespoons cake flour, 1 level cup frozen strawberries, thawed. Combine ingredients and beat well. Bake at 350 degrees for about 45 minutes. Ice with mixture of powdered sugar, one-half cup margarine and the strawberries that are left.

Noodle-Making Day Scheduled

PAUL — The morning of Nov. 18 has been scheduled for a noodle-making day by the women of the Woman's Society of Christian Service of the Paul United Methodist Church.

The women and all interested friends are to gather at the Paul Church at 9 a. m. to prepare homemade noodles — which will be offered for sale by the church women at the annual bazaar in December.

Each participant is asked to bring an item for a potluck lunch as it will be a day-long meeting.

Chairman of the event is Mrs. Lloyd Patterson; Paul.

Members Hear Thank-You Note

A thank-you letter from Joan Edwards, who is attending the University of Idaho, was read at the recent meeting of Alpha Delta Kappa Society at the Rogers Hotel Colonial Room.

Paula Parker, a high school student, presented her version of the story, "The White Quail," by John Steinbeck, and Deb Sullivan, a high school student, sang several songs.

Colorful fall arrangements decorated the tables. Hostesses were Gen Howard, Ruth Gates, Olga Kijko and Nancy Lawrence.

New Members Are Enrolled

WENDEL — Linda Groat and Nancy Kober were enrolled as new members of the Junior Legion Auxiliary recently at the meeting at the American Legion Hall. Mrs. Grant Zollinger is the adult adviser.

Guests for the afternoon were Lena Stockman, Janet and Myrtle Cullen.

The afternoon was spent making plaques using fall flowers. Plans were made for the December meeting. Cookies will be baked and work will be done on a Christmas gift. There will be a gift exchange.

PERFECT GIFT FOR MOTHER (or grandmother)

A ring with the proper birthstone for each of the children (or grandchildren)

A permanent memento for mother and grandmother — their most beloved possession... the children. Dear Abby

By ABIGAIL VAN BUREN

DEAR ABBY: After you've read my letter, please tell me if you think I am "tetched" or not.

I am married to a merchant marine. He is 57 and I am 62. We have been married for 5 years. This is the second marriage for both of us.

Abby, my husband is out at sea 3 months out of 4, and when he's gone I get so lonely for romance I could just die. I don't feel 62, and I don't look it either.

When I'm home — how he wants to spend the whole 30 days in front of the television set. He never wants to take me out. He says he loves me but he doesn't show me any affection, and I still like to be romanced. He supports me which I appreciate, but I long more out of life. He says at our age sex does not matter. I told him to speak for himself. John, my television, and I — expecting too much from him at his age?

DEAR ABBY: I would appreciate your ideas on wigs: I think they are perfectly wonderful. If so, you'd better find a more effective way to "help" him or learn to live with his delinquencies.

DEAR ABBY: I would appreciate your ideas on wigs: I think they are perfectly wonderful. If so, you'd better find a more effective way to "help" him or learn to live with his delinquencies.

Holiday Ideas Are Displayed

JEROME — Christmas Ideas were displayed recently at the Holiday Food Fair at the National Guard Armory. Appreciation was shown to the extension clubs attended the potluck dinner 'feet.

Copies of the recipes on the menu were given to each person attending. Mrs. George Bennett, council president, was in charge of arrangements. The room was decorated with pine boughs and the tables carried out a Christmas theme.

The Country Neighbors, Crestview, Falls City, Friendship, Grandview and Modern Moms clubs provided tables with Christmas ideas. Anna Schwarz and Joan Schwaartz, Happy Homemakers Club, gave a demonstration, "Lamp Post" Novelty.

Mrs. Mark Simmons, Western Rurallettes, gave a demonstration on "Wallpaper Beads." Other demonstrations were by the Harmony, Kasota and Town and Country clubs. The Sugarbush Club gave two demonstrations entitled, "Holiday Aprons" and "Mini Skirts for Men."

compliments you on your hair, say, "Thank you." But if you're asked, "Is that YOUR hair," say, "Yes! I paid for it!"

CONFIDENTIAL TO "IN THE DARK": If you must ask me why your "mystery lover" forbids you to telephone him between certain hours and on weekends, you shouldn't be out alone after dark. (He's probably not living alone.)

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 8770, Los Angeles, Cal. 90088 and enclose a stamped, self-addressed envelope.

Along Fences And Canals

Mr. and Mrs. Jack B. Allen, Tuttle, have installed a pipeline milker setup at their farm. They installed a bulk tank and remodeled their barn several years ago. They milk 38 cows.

Charles Ward, Malta rancher, trailed his cattle this week from the Junction valley, southwest of Almo, where they have been pastured during the summer on Ward's private pasture, to his ranch in Malta. The drive takes several days and assisting with the drive are Arden Wickel, Elba, and Don Manning, Burley.

Mr. and Mrs. George Crofts, Elba, sold their calves through the Valley Livestock weekly sale ring in Rupert. Louis Eames, Almo, helped with the trucking of the calves.

Ranchers branding late calves this week were Wallace Sears, Malta, and Glen Berryman, Elba.

Several area ranchers took Hereford cattle to the All Clear Pedigree Sale held in Pocatello. Mrs. Bernice Hoggan, Elba; Heber Zollinger, Orson Zollinger and Astel Zollinger, all Sublett, had cattle at the sale. The sale was sponsored by the Six-Point Hereford Association.

Elba well driller, Arlo Lloyd, has moved his well rig from Malta to Kelton. Elba is drilling an irrigation well for Carl Oman, Wallace Spencer of West and Almy Felman, Oakley.

Don't Neglect Shade Trees, Fertilize Them This Fall

Trees, the plants that do the most for the appearance of the home, are probably the most neglected plants in the garden. Too often feeding and fertilizing are designed for other plants in the garden, not trees. Older trees need a good diet to keep their limbs strong and to outgrow pests and stem damage. The easiest way to feed trees is with your lawn spreader. After giving your lawn its fall feeding, just make a pass over the lawn under the spread of the tree's canopy, and a little past the dripline of the branches. The same fertilizer that you use for the lawn will help the tree. The tree will make use of the nutrients from this fall feeding until it goes dormant. The remainder of the nutrients will leach down into the root zone to be available next spring when the roots start seeking food and before the top growth emerges. Repeat this double application in the spring when you apply your regular lawn fertilizer. Deep feeding trees, of course, is preferred. This puts the plant food down to a depth of 8 to 10 inches in evenly spaced, fan-wide holes punched or augered into the soil. The holes are dug throughout the area under the spread of the tree's branches. Then a little plant food for trees is placed in the bottom of each. The holes are then filled with a mixture of peat moss and water to allow easy penetration of water and air deep into the soil. The amount of plant food needed for each tree depends on the diameter of the trunk. Give newly planted trees a total of two cups for each inch of trunk diameter. Older trees, up to six inches diameter, should receive seven cups per inch, and larger trees 10 cups per inch. Amount of plant food in each hole will still be proportionately small. Fall is also an ideal time for planting trees. Don't hesitate to visit your dealer and let him help you select one or more. It is always wise to choose trees from local dealers because you can be sure their stock is acclimated to your area. Your dealer will also help you spot your shade tree so that you get the most benefit from it. The best location is usually a little south and west of the spot where you want protection from hot afternoon sun. Be sure to plant large trees at least 15 feet from any structure to avoid possible damage to the building. Big, spreading trees need more room — sometimes 60 feet apart. Your dealer will give you more specific instructions.

John Deere To Apply Price Labels

MOLINE, Ill. — Deere and Company is inaugurating a program of putting price labels on John Deere tractors and other self-propelled machines. The printed-out price labels list what is included in the suggested base price, separate suggested prices of the various options included on the machine, and serial number identification. The introduction of price labelling on John Deere machines marks the first time such information has been printed out and available to farm equipment customers. With the label clearly itemized, the customer knows exactly what's included in the base price and what's optional. We believe it will improve his confidence in the quoted price," the company said in making its announcement. "Price labelling eliminates the guesswork for farmers in knowing what's included in a specific price. It also provides both the farmer and the dealer with a standard for evaluating competitive prices."

Delegates Are Named To SCS State Meet

JEROME — Roger Fiata was named delegate to the State Soil Conservation convention Nov. 13-18 at Coeur d'Alene at the monthly meeting of the Northside Conservation district at Hazelton. Others attending will be Mr. and Mrs. David Mitchell, Mr. and Mrs. Alvin Chojnacky and Mrs. Fita. Walter Ehlers, Dale Davis and M. D. Patterson are new operators. Plans were made to attend the Division 4 (Magic Valley) meeting of soil supervisors at Carey, Robert Grant Sr., Eden, was to receive the Conservation Fire and Risk award for being the outstanding operator in Jerome County. The dinner meeting will be followed by a business session conducted by Glenn Nelson, Twin Falls. Mrs. Mildred Nelson will report on the women's department. Lee Morgan, Boise, will talk on the soil conservation outlook.

Funds Released For Idaho Dam
MADRID — The Bureau of Reclamation has released \$200,000 to Melad Valley Irrigation Co. to start work on Devil Creek Dam, seven miles north of Mad-

Funds were approved by Congress early this year, but held up because of budget restrictions. The 86-foot high dam will store 4,450 acre-feet of water.

TROPHIES are presented to Twin Falls County 4-H'ers for collecting the most donations in the recent fund-raising project for the 4-H Camp Building Fund. These three youngsters represent the three 4-H Councils in the county. On the left, Mrs. Alice Reed, county extension agent, gives a trophy to Audrey Thieman for collecting the most donations in West End 4-H Council; Benny Jones receives his trophy from Mrs. Reed as the Central 4-H Council winner; and Christine Britt receives a trophy for the East End 4-H Council. In these three photos, Alan Genn, county 4-H agent, is shown in the background. Mr. Genn and Mrs. Reed presented the county awards during a recent awards ceremony at the Tom Parks Pavilion at Filer.

T. F. County 4-H'ers Get Awards For Top Projects

Twin Falls County 4-H'ers who did outstanding work in club projects this past year, received national 4-H awards for their work during an awards program recently in the Tom Parks pavilion at Filer. Presenting the awards were Alan Genn, Twin Falls County 4-H agent, and Mrs. Alice Reed, county home extension agent. Receiving the award for overall achievement in 4-H work were Carl Felthusen, Becky Williamson and Patti Quigley. The award was donated by the Ford Motor Co. The International Harvester Co. is the sponsor of an award for agriculture. County winners of this award are Becky Williamson, Susan Hogue, Jack Southwick and Rusty Jessor. Other county 4-H winners and the awards sponsors are: Dairy — sponsored by the Oliver Corp. — Becky Williamson, Bill Holloway, Connie Pinkston and Randy Stoker. Poultry — Hiesdorf and Nelson Farms, Inc. — Tim Quigley, Jack Southwick, Patti Butler and Ann Potteck. Sheep — Wilson and Co. — Laurence Sill. Swine — Moorman Manufacturing Co. — Daryl Steigemeier, Billy Starr, Bud Fuller and Mike Velly. Veterinary science — The Upjohn Co. — Carl Felthusen, David Ramseyer, Vickie Sharp and Glenn Shewmaker. Horse — Merck and Co. Inc. — Rex Taylor, Grand Ward, Dora King and Diane Fender. Horticulture — Allie-Chalmers farm equipment division — Patti Quigley, Becky Williamson, Todd Claiborn and Mark Feld-

Amendments Outlined At Grange Meet

BUHL — John M. Barker and Williams Roberts explained the amendments to the constitution which appeared on the ballot when Cedar Grange members met at the grange hall. The talk concluded with a question period. Master Preston Gentry presided over the meeting and the new officers were in their stead. The 4-H'er in each council who collected the most funds during the recent fund raising project for the camp building fund were given a trophy. The three winners were Christine Britt, eastman, west end council, Gene Kullerford in Gooding and Mr. Arthur Bell. Refreshments were served by Mrs. Herman Reider, past chaplain, reported and noted that Mr. and Mrs. W. B. Stonemets she had recently called on Mrs. J. R. Ward.

Spray now for cheatgrass control.

Now you can turn a field of cheatgrass-alfalfa... into alfalfa again. Wipe out weeds that cause off-flavor milk. Eliminate a source of throat and mouth abscesses in cattle. And stack more bales of higher-quality alfalfa hay.

You do it with an application of Simazine 80W herbicide this fall. Anytime after the first killing frost, but before January 1st. Once moisture has moved Simazine down into the weed root zone, it begins to kill weeds as it is absorbed through their roots.

Simazine controls cheatgrass, shepherds-purse, mustard, foxtail... and most other annual broadleaf and grassy weeds that can infest, take over and ruin a good alfalfa field.

Control lasts all season, which is why weed control with Simazine is so economical. Profitable too because of the greater demand for better quality, weed-free alfalfa hay.

Make this the year you turn your weedy alfalfa field into alfalfa again. With Simazine. Celgy Agricultural Chemicals, Division of Celgy Chemical Corporation, Ardley, New York 10502. **Simazine, Celgy**

TOP WINNERS of the recent FFA Soils Contest, held at Shoshone, are these three Jerome FFA Chapter members. From left, are Dean Berg, high individual; Lawrence Draper, second high individual; and Tony Goetz, third high individual. These three, as a team, also placed first in team competition.

Social Security Question Box

If you have questions concerning social security benefits or qualifications, address them to Jim Davis, Box 1238, Twin Falls, Idaho.

Q.—In the latter part of 1967 I was injured and as a result have been unable to work since. I filed for disability benefits and the claim was denied because it was thought that I would be able to return to work in a few months. My doctor feels that it will not be possible to return to work for another year. Is there any chance that I would now draw disability benefits?

A.—Yes, recent changes in the social security law changed the disability eligibility requirements to include persons who are unable to work for at least one year because of a severe disabling condition. You should check with your social security office and file a new claim.

Q.—I am 65 years of age and still farming. What are the retirement tax provisions in connection with the receiving social security benefits?

A.—If you are still farming on a year-round basis, then the test applies to 1969 and 1970. Beginning in 1968 you lose no benefits if your net profit from your farm is \$1800 or less. If it is more than \$1800, you lose \$1 in benefits for every \$2 earned. For any earnings above \$2850, you lose \$1 in benefits for each \$10 in earnings you have above \$2850. Of course, you would not lose any more than your total social security benefits for the year. Another determining alternative chosen by some is to lease or sell the farm in order to qualify for all social security benefits.

Jerome Sweeps FFA County Weed Soils Judging Event

SHOSHONE — The Jerome FFA Chapter made a clean sweep of the recent West Magic FFA District's soil contest at Shoshone. The chapter had a three-man team at the contest which took first place in the team event and top individual awards.

Members of the Jerome Judging team were Dean Berg, Lawrence Draper and Tony Goetz. Berg was high individual, Dra-

Idaho Potato Growers Has New Waste Handling Plant

IDAHO FALLS — Scheduled for start-up during the month of November is the new Idaho Potato Growers waste handling facility, now under construction at their Idaho Falls plant site.

The facility will consist of a large settling basin which will receive waste water from the potato processors in Eastern Idaho. It will also receive waste water from the Snake River area which would otherwise have occurred from the huge quantities of potato wastes generated with increasing activity in potato processing.

Last year the construction by Idaho Potato Growers of a new processing facility in Idaho Falls, while reducing the waste load generated in the potato processing operations, also included construction of a silt settling facility to handle silt generated by the fresh packing operations.

With the start-up of their new waste handling facility in November, Idaho Potato Growers will again apply new technology in waste handling that will match the new technologies currently being developed and applied to the processing of potatoes. Anticipated in the design and construction of this new facility is the secondary treatment of potato water which are in solution in the waste water and hence, are not available in the primary waste treatment process.

IPG together with the City of Idaho Falls and other industries is presently studying the design and secondary treatment of all waste loads produced in operation. IPG continues to recognize a need for maintaining a sufficient environment in its sphere of influence and has been working with groups such as the Potato Processors of Idaho, the City of Idaho Falls, the City of Aberdeen, the City of Nampa and state and federal agencies, for obtaining such goals.

County Weed Report Given To Grangers

WENDELL — A report on the County Weed Control meeting was given by Melvin Gibson at the Orchard Valley Grange meeting.

Mr. and Mrs. Frank Orth were elected delegates to the State Grange and Mr. and Mrs. Melvin Gibson as alternates.

Frank Orth and Howard Nicum reported on a telephone call from the Idaho Department of Agriculture, Gooding, has contracted the work to shingle the roof of the south side of the Grange hall.

The next open meeting will be Dec. 13 with a potluck dinner at 7:30 p.m.

Members of the Junior Grange presented the program. The Grange's activity committee serving refreshments.

State Soil Meeting Set Nov. 13-15

Soil Conservation District supervisors from throughout the area will convene in Coeur d'Alene Nov. 13-15 for the annual convention of the Idaho Association of Soil Conservation Districts.

Theme of the convention is "Protect the Land". Speaking at the convention will be D. J. Williams, administrator of the Soil Conservation Service. One of the highlights of the three-day event is the group discussion sessions set for one day.

In these sessions, the convention will break into three discussion groups where Mayor Ed Anderson, Idaho Falls, and M. O. R. Carlson, Twin Falls County commissioner, will visit each group and discuss the ways in which SCDS and local and county governments can plan, together in a total resource planning.

Pederson is presently president of the Idaho Association of City Officials and Carlson is past president of the Idaho Association of County Commissioners and Clerk.

Durum Wheat On Increase

WASHINGTON (AP) — Although total U.S. wheat exports lag behind a year ago, brisk demand has developed for durum wheat used in manufacture of pasta-type products such as spaghetti, says the Agriculture Department.

Durum exports totaling 16.6 million bushels were announced last week, and department officials say more may be coming. Durum wheat is produced mostly in North Dakota.

"The outlook for durum is as bright or brighter than for any other wheat class right now," a department official said Monday. "It's the best run we've had in several years."

One of the reasons, the official explained, is a new law in Italy requiring that all pasta products be made entirely of durum wheat. Over-all wheat production in Italy this year is favorable, but the durum crop suffered because of drought.

Wheat exports from July through September this year totaled 120 million bushels, or a 19 percent increase over the same quarter last year, the department said.

BLM Official For Jarbidge Area Named

The Boise District of the Bureau of Land Management has named Melvin D. Hughes as district manager of the Jarbidge Resource Area.

The Jarbidge Resource Area covers the public domain from the Bruneau River east to the Snake River. North of the Snake River the area extends from Mountain Home to King Hill Creek. About 1,000,000 acres of public domain are covered by the Jarbidge Resource Area.

Mr. Hughes was transferred from Carson City, Nev. to Idaho. He also held a position as area manager. His headquarters now will be in Boise.

Mr. Hughes is a native of Corvallis, Ore. After graduating from Oregon State University, Hughes worked for a time in the timber industry of Oregon before beginning work in the Oregon State office of BLM in Portland.

Officers Named By Eden Grange

EDEN — Eden Grange members met recently to elect officers for the coming term.

The group selected Ben Davis as Master, with John Royle, treasurer, Maude Metcalf as secretary, and beginning work in the spring and summer of 1969.

In addition, 1968 through 1969 crop, currently under farm storage, will be eligible for loan extensions (resale) following 1968 maturity dates in the spring and summer of 1969.

The extended resale program enables farmers themselves to continue to own and control the major share of the Nation's grain reserves, the Chairman stated. This, along with the assistance given farmers to increase farm grain storage capacities, is aimed at helping producers strengthen their market bargaining position.

Secretary of Agriculture Orville L. Freeman has said that these programs are part of the Department's continuing actions to give farmers the tools they need to help firm up grain prices.

"Many farmers," he has declared, "saw with record crop

Herbicide, Insecticide Uses Increase

WASHINGTON (AP) — A new Agriculture Department report shows that more than two-fourths of the nation's cropland is being treated with weed and insecticides.

About 27 percent of the nation's 348.3 million acres used for crops in 1966—not including pastures—were treated with herbicides to kill weeds, and 12 percent with insecticides, the report said.

The comprehensive survey was prompted by Congressional action in 1964 calling for more research on the use of pesticides—a term broadly including the various chemicals used in controlling weeds, insects and plant diseases.

Department officials said the information was gathered through a nationwide survey of farmers in early 1965 and again in 1967.

Farm Bureau Outlined To Young Farmers At T. F. Meet

The Farm Bureau program was outlined briefly by Evan Hale, Pocatello, director of information for the Idaho Farm Bureau Federation, during a recent District III Young Farmers and Ranchers Committee meeting in Twin Falls.

This committee is within the structure of the Idaho Farm Bureau Federation and is set up to educate the young farmers and ranchers in Idaho in the Farm Bureau program and to train young farmers leadership in the Farm Bureau.

Mr. Hale explained what the Farm Bureau is and that members should be more active in the organization. He said the Farm Bureau is governed by resolutions which come from members of the organization.

Monroe Hays, Filer, president of the Idaho Farm Bureau Federation, spoke briefly about the state convention to be held Nov. 17-20 at Pocatello. Mr. Hale also spoke briefly about the state meeting. He mentioned some of the proposed resolutions which may appear at the state meeting.

Some of these proposed resolutions as listed by Mr. Hale, include reinstating safeguards in the library districting law, hold interest rates on bank loans and repeal of the temporary one-cent gas tax.

Mrs. Larry Peterson, Carey, explained what the Young Farmers and Ranchers Committee does.

Members of the committee are using the price-support loan program to keep excess supplies of grain off the market. I confidently believe that we now have started on the route toward a gradual upturn in grain prices. However, farmers themselves hold the key. If farmers put larger quantities from 1968 crops under loan as quickly as possible, market prices will be strengthened.

Crops now under extended loan include 1967 wheat, corn, barley and oats under either farm or warehouse storage. Earlier farm stored crops eligible for continued resale include 1966 and 1965 barley, corn, oats and wheat; and 1964 corn and wheat.

Announcement of the resale program follows the recent recommendation of the National Advisory Committee on Grains that the resale program for 1968 be announced early in order to strengthen prices and help farmers make better advance crop plans for 1969.

the discussion meet at the state convention.

Reseal Plan Extended For Some Grains

A resale (loan extension) program for certain grains and soybeans in both on-farm and commercial storage has been announced for 1968 crops which are eligible for price support loans; Carl Boy, chairman, Agricultural Stabilization and Conservation Committee has announced.

The crops include wheat, corn, oats and barley; they will be eligible for loan extensions (resale) following 1968 maturity dates in the spring and summer of 1969.

In addition, 1968 through 1969 crop, currently under farm storage, will be eligible for loan extensions (resale) following 1968 maturity dates in the spring and summer of 1969.

The extended resale program enables farmers themselves to continue to own and control the major share of the Nation's grain reserves, the Chairman stated. This, along with the assistance given farmers to increase farm grain storage capacities, is aimed at helping producers strengthen their market bargaining position.

New BLM Aide At Shoshone; Other Transfers Are Listed

The Bureau of Land Management, Burley District, has re-assigned Bob Brock from Soda Springs to Shoshone as area manager of the Magic Resource Area.

According to H. Max Bruck, district manager, Mr. Brock, who has been area manager of the Soda Springs Resource Area for the past three years, replaces Don Swapp, who has been transferred to Washington, D. C.

Mr. Brock has been with the BLM for eight years and received his degree in forestry from the University of Idaho in 1954. He has worked in the Bureau's Coeur d'Alene and Burley districts.

The Magic Resource Area comprises some 388,000 acres of public land, which is used for livestock grazing, wildlife habitat, recreation and other public uses.

Bob Brock at Soda Springs will be Dean Zeller, Vale, Ore. Mr. Zeller has been with the Vale BLM district for 2 1/2 years. He and his wife and children will live in Burley.

Other assignments made by the BLM within the Burley District include Lee Martindale, promoted to acting area manager of the Raff River Resource Area, and Clarence Barney, assisting Mr. Martindale.

Martindale has been with the Burley BLM district since 1965 and Barney since 1964. Mr. Martindale has been assigned to the Raff River Resource Area since 1965.

Beet Tops Good Feed For Livestock

Beet tops make good livestock feed, Donald Youtz, Twin Falls County agent, reminded farmers this week as the beet harvesting season advanced in most areas of southern Idaho.

He offered information based on a leaflet "Beet Tops as Livestock Feed," by Morris Hemstrom, livestock specialist of the University of Idaho extension service.

Idaho produces more than two million tons of beet tops every year. Hemstrom said, adding that better utilization of the by-product can add materially to the income of livestock producers. On the average, he said, a 20-ton crop of beets will have about 14 tons of tops per acre. This will provide an average of two and one-half tons of dry matter, including 580 pounds of protein. When included in a balanced ration this will provide about 325 pounds of beef or lamb.

Beet-top harvesters that remove the tops before the roots are safe to be the most effective means of saving the tops. They can be elevated into trucks and hauled to pits or silos. Cattle and sheep will eat more of the tops if they are concentrated in pits or silos with concrete bottoms because of seepage.

Losses of moisture and carotene occur the first 10 days after tops are cut—if they are windrowed or field stacked. Much of the loss can be prevented by field chopping and ensiling. When ensiling fresh tops it is good practice to add a forage crop such as straw, hay or concentrates to absorb the juice. Beet tops are highly laxative if used as the only roughage. They should be fed with a dry roughage or with grain. Cattle pasturing beet tops should have access to dry pasture or be fed hay.

Most beet-top feeding principles that apply to beef cattle also apply to lambs.

The poisonous quality that suggests beets treated with chlorinated hydrocarbons must not be fed to livestock going to slaughter. Treated tops may be used safely in winter rations for breeding stock, but caution is essential to prevent slaughter animals from feeding on pesticide-treated tops.

Appointments Released By Sugar Firm

OGDEN — Two appointments by the Amalgamated Sugar Co. were announced recently by company officials.

Edwin R. Niehaus has been named senior vice president and in the position, general administrative support to the president and will assume primary responsibility for the company's production, marketing, research and transportation functions.

Mr. Niehaus was associated with the Great Western Co. in a number of executive positions since 1945. He was elected a vice president of the company in 1966.

Mr. Niehaus is president of Salt Lake City since 1930, is senior vice president of the Pet Milk Co., a position he has held since 1958, and is also vice president of the National Sugar Cane Growers Association in 1922 upon graduation from the University of Illinois and later moved to Idaho to become vice president and general manager of Sego Milk Products in 1930. He was named president of the Sego Milk Co. in 1931. He also was president of Pet Milk Limited in Canada at one time.

Cottonseed Oil Production Down

WASHINGTON (AP) — Supplies of cottonseed oil totaled 187 million pounds on Aug. 1, down 141 million from the carryover a year earlier and the smallest for the date since 1949, the Agriculture Department reports.

The reduced supply for the beginning of the current marketing year reflects the small cotton crops in 1968 and 1967.

About 1.5 billion pounds of crude oil is expected from this year's large production of cottonseed which is estimated at 4.8 million tons, 47 per cent more than in 1967. The 1968-69 crush may reach 4.4 million tons, the department said.

Cottonseed meal output, no other product derived from cottonseed—may total 2.1 million tons, compared with 1.5 million in 1967.

HAPPY RECIPIENTS OF 4380 Union Pacific Railroad scholarships at the University of Idaho recently are, from left, Dennis Conrad, Castleford; Tommy Lee Dean, Hazelton; and Mike O'Dell, Twin Falls.

3 Area Students Receive Union Pacific Scholarships

Dennis Conrad, Castleford; Tommy Lee Dean, Hazelton; and Mike O'Dell, Twin Falls, were among 34 University of Idaho students who received \$200 Union Pacific Railroad Scholarship checks at a recent dinner on the University campus.

The awards were made by Joe W. Jarvis, Omaha, supervisor of livestock and agriculture for Union Pacific.

Mr. Jarvis said this year's awards bring the total amount invested by the railroad in the scholarship program initiated in 1927 to almost a million dollars. Well over 10,000 scholarships have been awarded during that time, with more than 1,650 of that total given in Idaho.

Two of the scholarships are offered each year in each of 188 counties Union Pacific serves in the west, one going to a 4-H Club member and one to a vocational agriculture student. They can be used at the University of Idaho or at any of 14 other land grant colleges in the west to pursue courses of study connected with agriculture.

Empty Fuel Tanks On Lawn Mowers

Be sure to empty the fuel tank of your lawn mower before you put it away for the winter, reminds Donald Youtz, Twin Falls county agricultural agent. It will help to keep the mower in better condition for next spring. Evaporating gasoline leaves sticky gum in the tank, fuel line, and carburetor. After using the mower for the last time this season, the agent suggests, drain the fuel tank. Then start the motor and run it until the fuel line and carburetor are empty. Remove the carburetor drain plug. Lubricate the cylinder by removing the spark plug, pouring in a tablespoon of clean engine oil and cranking the engine slowly several times. This coats all the exposed metal surfaces. Then replace the spark plug to keep out dust. Clean the outside of the engine by brushing or washing off all dirt, oil and grease. Apply a coat of oil or grease to unpainted surfaces. Clean the air cleaner. For four-cycle engines, drain the oil from the crankcase and

Water Is Major Item At Meeting

Water as related to the livestock industry will be among the important agenda items to be discussed at the annual Nevada State Cattle Association and Nevada Woolgrowers Association joint convention slated for Nov. 7-9. The annual event will be held in Elko with activities designated for both the Ranchmen and the Stockmen's hotels.

Providing the keynote address in 1968 was R. Bingham, executive director of the Nevada State Water Council. He will discuss various water problems affecting livestockmen in the west.

Sisters To Get 4-H Scholarships

GLENNIS FERRY — Two Glennis Ferry sisters will receive scholarships to the state 4-H Club Congress in June for their demonstrations at the District 4-H Fair in Jerome.

Lenaora Anderson, for her demonstration on poultry, will receive the scholarship from the Idaho Poultry Industry Federation, and Chris for her lamb demonstration, will receive her scholarship from the Idaho Wool Growers Auxiliary.

The two are daughters of Mr. and Mrs. D. D. Anderson.

Lake Pontchartrain, at New Orleans, is not a lake but a 700-square-mile inlet from the Gulf of Mexico.

Grange Lists Committees At Murtaugh

MURTAUGH — Committees have been appointed by the Murtaugh Grange.

Harold Mack, Crosby Bliggenstaf, Warren Fowler and Kay Biggers, agriculture committee; Will Beck, Wesley Fowler and John Byer, legislators; Art Carrier, Joe Tugaw and Henry Paterson, resolutions; Mrs. Richard Carrier, Mrs. James Kirkpatrick and Mrs. Bryce Eiggerstaff, home activity.

Art Carrier gave an agriculture report on the progress of agriculture in the district and on the telephone situation and Metopac. Harold Mense gave a chemical report on Simons and applied between now and Jan. 3.

Earl Young reported that by 1971 there might possibly be a change in all holidays. Will Beck gave a report on the nine amendments voted upon in the general election.

Mrs. Henry Petersen, lecturer, announced the Christmas program will be held Dec. 26. Mrs. Ralph Bessing was named chairman of the skit to be presented at the Dec. 7 meeting of Pomona Grange at Murtaugh Grange Hall.

The program included suggestions for an active Grange by James Kirkpatrick; group singing; a poem by Mrs. William McCoy and the closing prayer by Mrs. James Sargent.

The Farm and City Night to be held by Murtaugh Grange on Nov. 15 will be an open meeting served by a potluck supper to be served at 7 p.m.

Refreshments were served by Mr. and Mrs. Beck and Mr. and Mrs. Glen McKee.

Party Held

Members of the Cook-In-Sew 4-H Club held a Halloween party recently.

Karen Fouts and Janice Moore won a prize for the best costumes. After games were played, members bobbed for apples.

"Something to think about" by Derral Warner, American Oil Agronomist

Free soil tests—last call before winter!

Let's face it, winter makes soil testing tough, if not impossible. That's why we urge you to ask your American Oil Farm Man for your FREE tests now. Or just stop in at the Camar. We'll arrange to gather the samples from your fields; and to have them tested at the State laboratory. Our professionally trained personnel will analyze the results... and help you plan a tailor-made fertilizer program that will match your soil conditions, yield goals and pocketbook. And that won't cost you a cent, either. Then you'll be ready to order the right fertilizers in the right amounts for application next spring. So call your American Oil Farm Man now, and make sure your FREE soil tests are "in the works" before the weather changes. Soil Testing—another quality reason to farm with American Oil.

You expect more from American and you get it!

For your Free Soil Tests, call the American Oil Farm Service Center in your area.

YOUNG ANGLUS BULL is being graded by three graders at the Ralph Baughman ranch near Boss as part of the Idaho Beef Cattle Improvement Program. The three graders are from left, Wade Wells, University of Idaho extension animal husbandman; John Feldhusen Jr., Kimberly, partly hidden, and Alvie Johnson, Buhl. Baughman is one of seven cattlemen who are participating in this beef improvement program. Few of those attending the weighing and grading of these young bulls and heifers at the Baughman ranch sit on the corral fence.

Local Cattlemen Take Part In Beef Cattle Improvement Plan

By **ROBERT VANAUDELIN**, Times-News Farm Editor

Several Twin Falls County cattlemen are attempting to improve their beef cattle through the Idaho Beef Cattle Improvement Program. This program offers guidelines for increasing producer profit without increasing numbers of cattle.

In a nutshell, the function of the Beef Cattle Improvement Program is to help find the genetically superior animal within the herd so that maximum production can be achieved.

The important elements of the Idaho Beef Cattle Improvement Program are measurements and records and the use of these records in making selections. Morris Hemstrom, University of Idaho extension livestock specialist, says "Record of performance, if properly used, can be an effective tool for increasing the rate of genetic improvement."

Not every trait of an animal needs to be checked—only those of economic importance. The traits of economic value to the producer or feeder are reproductive performance, weaning weight, growth rate following weaning, efficiency—and carcass merit.

The program is a three-pronged approach of production testing, performance testing and progeny testing.

Production testing is the core of the beef improvement program where productivity of each cow in the herd is measured in terms of calf weaning weight and grade.

This first phase of the program was conducted recently on four of the seven county herds participating in the program. Weaned calves of herds owned by Ralph Baughman, Buhl; William Yoder, Filer; Charles Boss, Hollister, and Ellis Fuller, Twin Falls, were weighed and graded.

Donald Youtz, Twin Falls County agent, handled the weighing chores and grading the calves were John Feldhusen, Kimberly; Alvie Johnson, Buhl,

and Wade Wells, University of Idaho extension animal husbandman on the Baughman, Yoder herds, and Mr. Feldhusen, on the Fuller herds. From herds owned by Roy Jesser, Twin Falls; Art DeVisser, Filer, and Charles Climbs and Frank Drake, Kimberly, are to be weighed and graded soon.

Performance testing phase of the program is designed to measure the post-weaning performance in cattle between weaning and two years of age. This extension service's computerized center where the weaning weights are adjusted to 205-day weaning weight.

The use of the computerized center is optional with the cattlemen. Many are still using charts and graphs to work out the adjusted weights. These graphs and charts are available at the local county agent's office.

Cattlemen interested in this program should contact Mr. Youtz for further details.

As the Idaho Beef Cattle Improvement Program gains more and more momentum in the state, through the efforts of the state specialists and county agents—steady strides of improvement will be noted throughout the industry. Such efforts as these will help Idaho's cattlemen continue to improve their management and marketing plans.

HEREFORD CALF leaves the scales at the William Yoder ranch near Filer after being weighed. Recently Yoder's young bulls and heifers were weighed and graded as part of the Idaho Beef Cattle Improvement Program. He is participating in. Watching the calf leave the scales is Mr. Yoder and in background is Donald Youtz, Twin Falls County agent.

New Product Out For Dog Flea Control

PRINCETON, N.J.—American Cyanamid Company has developed PRO-BAN, a new systemic insecticide that controls dog fleas by oral treatment without harmful side reactions.

PRO-BAN is available in either liquid or tablet form. As liquid, it can be mixed in the dog's food with an enclosed measuring spoon. In tablet form, PRO-BAN can be hidden in the animal's food, or administered orally. The tablet is about the size of an aspirin.

PRO-BAN is rapidly absorbed from the dog's gastrointestinal tract and distributed throughout the body. Retention tests show that within a few hours, from 90 to 100 per cent of existing fleas are killed. Flea deaths occur when the insect bites the animal and ingests the PRO-BAN-containing body fluids. The drug is eliminated from the body in approximately eight hours.

Cyanamid researchers recommend re-treatment with PRO-BAN every third day or twice a week to prevent re-infestation. A single schedule will keep fleas effectively controlled.

Extensive Cyanamid testing programs, involving more than 50 grunting veterinarians and 200,000 dogs, have shown PRO-BAN to have a wide margin

of safety to pets. Even at 10-fold the recommended dose, PRO-BAN gave no harmful side reactions during the widespread testing program.

A major advantage with PRO-BAN is its relative safety to humans, children. Cyanamid researchers report there is no danger from toxic surface chemicals or collar chemicals.

PRO-BAN Cythionate is available through professional veterinarians.

Averages For Area Herd Unit Listed

JEROME—Only one herd in the Gooding-Jerome-Twin Falls Dairy Herd Improvement Association, unit two, averaged over 50 pounds of butterfat during September, according to Ben Russell, unit tester. Three herds averaged between 45 and 50 pounds of butterfat.

The 26-cow herd of Reeves Cox, Jerome, averaged 1,508 pounds of milk and 53 pounds of butterfat. The other three herds include Ronald C. and Glen A. Taylor, Wendell, 44 cows, averaged 1,325 pounds of milk and 47 pounds of butterfat; Lee Morgan, Hazelton, 157 cows, 1,246 and 45; and Don Thibault, Jerome, 50 cows; 1,360 and 45 pounds of butterfat.

Eight cows in the unit produced over 90 pounds of butterfat. Reeves Cox, Jerome, had two cows producing over 100 pounds. Amy produced 2,093 pounds of milk and 123 pounds of butterfat during September, while Spark, the other Cox cow, produced 2,721 pounds of milk and 104 pounds of butterfat.

Three cows owned by Ronald C. and Glen A. Taylor, Wendell, produced over 90 pounds of butterfat. They are: 2,622 pounds of milk and 87 pounds of butterfat; Annie, 2,280 and 93 and BoPeep, 2,298 and 89.

Marg, owned by Don Thibault, Jerome, produced 2,766 pounds of milk and 97 pounds of butterfat; Cherry, owned by Virgo Norwood, Hazelton, 2,010 and 91; and 27 Blue, owned by Lee Morgan, Hazelton, 2,193 and 90 pounds of butterfat.

Alfalfa Seed In Nevada Record High

Nevada produced a record alfalfa seed crop this year, according to the Nevada County Livestock Reporting Service, United States Department of Agriculture, at the University of Nevada.

"Alfalfa seed is the state's major agriculturally-produced cash crop and should account for over a 2 1/2 million dollar income in 1968," Larson said. Larson, assistant state statistician for the reporting service.

The crop this year is estimated at 6,715,000 pounds, a 36 per cent increase over the 4,945,000 pounds produced in 1967, the previous record year. It is also two and one-half times greater than the 1962-66 average production of 2,599,000 pounds.

"Wells yield per acre are down somewhat this year from 430 pounds per acre in '67 to 393 pounds; a record 17,000 acres were in production compared to 11,600 last year," Larson said.

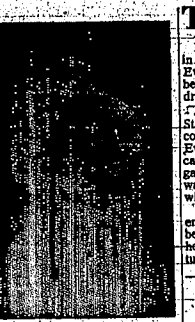

Nevada's production this year maintained the state's rank as fifth-largest producer of alfalfa seed in the United States. It ranks behind California, Washington, Idaho and Oklahoma.

Swainston Herd Has High Rating

CHUBBIE—The dairy herd of Morris Swainston had the highest Dairy Herd Improvement Association rating for the past month. It was reported by the association secretary. Fifty-two pounds of butterfat and 1470 pounds of milk was the average.

Roger Freeman had the second highest herd record with 43 pounds butterfat and 1171 pounds of milk. A. J. Johnson and Sons was third with 43 pounds butterfat and 1164 pounds of milk.

A. J. Johnson and Sons had the three top producing cows with No. 8 with 91 pounds butterfat; No. 60, 80 pounds, and No. 26, 80 pounds.

KAREN ANDERSON, former 4-H member from Glenns Ferry, has received a \$1000 and 12-month foundation scholarship at the University of Idaho. Miss Anderson is the daughter of Mr. and Mrs. E. D. Anderson, Glenns Ferry. The award is made to a present or former 4-H girl who is enrolled in her junior year of college and who plans to major in home economics.

Grange Gives Obligation At Hagerman

HAGERMAN—Mr. and Mrs. Jim Scruggs and Mr. and Mrs. Richard Scruggs were given the obligation at the Hagerman Valley Grange meeting.

Mr. and Mrs. Stanley Hoskove reported on the state Grange meeting held recently in Caldwell. They reported on state resolutions and that special emphasis had been given on recruiting young people into the Grange.

The program was under the direction of Mrs. Edna Bell, lecturer, who conducted a safety program and a game. Each member contributed safety hints.

Mrs. M. N. Henley received a gift from the Pomona Grange for her promptness in compiling her reports.

The meeting was conducted by William Scruggs. Floral arrangements were furnished by Mrs. Dick Pope.

A potluck supper will be held at the next meeting, Nov. 13. Refreshments were served by Mr. and Mrs. Juan Moore.

Heavy Rains Cut Grain Crop In Great Britain

WASHINGTON (AP)—Heavy rains have cut prospects for a record grain crop in Great Britain and may force flour millers to import extra wheat to meet their needs, says the Agriculture Department.

British wheat crop is badly shriveled and spoiled because of the persistent rains, and up to half the crop may be too poor for milling, the department said.

Thus up to one million more tons of milling wheat may be required from foreign suppliers in 1968-69. Britain normally imports about four million tons of wheat a year, including about 15 per cent of the total from the United States.

More than 10 million tourists visited Florida last year, spending almost \$5 billion in that state.

Try Chinese Evergreens

For those poorly lighted spots in your home or office Chinese Evergreen plants are hard to beat. They tolerate dark areas, dry air and erratic care.

"According to a Pennsylvania State University correspondence course on house plants, Chinese Evergreens are plants of tropical origin grown for their variegated foliage. Their dark green, waxy, oblong leaves splashed with white are thick and fleshy. Although they tolerate adverse environment, the plants grow best in warm, moist greenhouses in a fibrous-potting mixture of equal parts perlite, loam

soil and peat moss. Best temperature is 60 to 65 degrees at night and 65 to 80 in the day. Propagation is by division of roots or by stem cuttings two inches long; inserted one-half their length in moist perlite. Started plants are available at florist shops.

To learn the culture of over 200 kinds of house plants study the Penn State correspondence course. Send name and address with \$6.50 to Home Plants, Box 6000, University Park, Pennsylvania 16802. Make checks to Penn State. A course copy comes to you by mail.

BRIDGE

By Jacoby

EAST OUTHINES SOUTH ON THIS

West led his ace of hearts and continued with the queen. South ruffed, looked over dummy and asked his partner why he hadn't rebid his spades. North replied that he would have done so if South hadn't gone to three clubs but by this time South was absorbed in the problem of making his three-club contract.

His next play was to enter his hand with the ace of spades to lead another diamond. He ruffed this with the six and East came up with the ace of spades. He forgot to overruff. He was careful to discard a spade, not a heart.

South smiled cheerfully, entered his hand again by ruffing a heart and led a fourth diamond for dummy to ruff with the queen of trumps. This time East remembered to overruff. Then East led a fourth round of hearts. South ruffed with the nine and West overruffed with the 10.

West led his king of diamonds whereupon East came up with his second key-ace of hearts. He ruffed his partner's trick with his five of trumps and played his last heart.

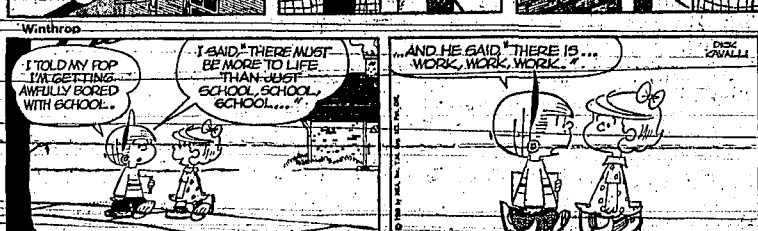

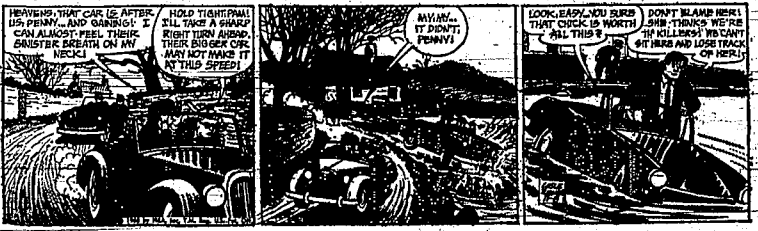

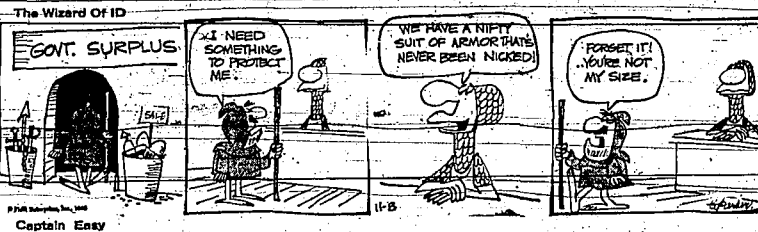

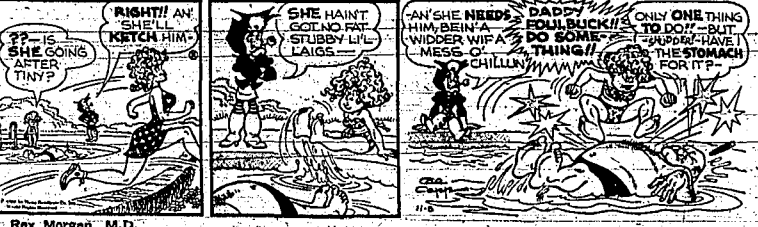

South ruffed this, whereupon West was able to discard his losing spade and South wound up making the ace of diamonds, two diamond ruffs, one spade and four of his live trumps for a total of eight tricks. Down one.

NORTH	WEST	EAST (D)	SOUTH
♠ K 10 8 5	♠ 7 2	♠ 8 6 4	♠ A Q
♥ 9 8 7 3	♥ 10	♥ K 10 8 5	♥ A 9 8 3
♦ Q 6 2	♦ A Q 2	♦ K 5	♦ A 9 8 3
♣ K J 8 7 2	♣ K 5	♣ Q 4	♣ A 9 8 3
♣ 10 8 3	♣ K 5	♣ Q 4	♣ A 9 8 3

As you can see, South might well have made two overtricks by the simple expedient of conceding a trick to the king of clubs. But South worked out a play to go down. See if you can figure out how he managed this. East did come up with a good defensive play.

South started working out his downfall by playing the ace of diamonds at trick three and ruffing a diamond at trick four. He was still in good shape but

was still in good shape but

The Green Thumb

By GEORGE ABRAHAM

CARE OF HIBISCUS

The Rose Mallow is gradually gaining in popularity. These tender shrubs have white, pink, red, orange, yellow, and purple blooms, some the size of a platter. Leaves are often five inches long.

Hibiscus is tolerant of drought, but will grow more luxuriantly in moist ground. Full sun or partial shade serves equally well.

Winter care: None. Let the stems freeze back and new growth will come up next spring. You start new plants in spring. So go out and save seeds in the dried capsules. Sow in February in a seed box. In June, transplant seedlings in open ground. You can also divide the plants in spring. Dividing is the only way to get new plants from an established plant. Hibiscus produces variable colors.

Troubles: Lack of flowers. Due to heavy shade, age of plant, or too much nitrogen in the soil. Avoid overfeeding of hibiscus.

BIRDS FOR THE BACKYARD

One of my hobbies is to have birds do not frequent their backyard. What's the best way to attract them? You'll get plenty of birds if you put out feeders by putting up outside feeders. They can be simple. Fill them with sunflower seeds and a mixture of bird seed. Another way to encourage birds is to plant berries shrubs in the area. When the natural supply of bird food drops off in winter, you should have provisions for providing for a bird snack bar. Some birds will feed from a tray attached to a window sill. Others feed only from somewhat secluded spots from special feeders. Hang pieces of suet in a tree (save your old Christmas tree) and you'll get plenty of birds.

FREE: Send me a self-addressed, stamped envelope for my copy of "How to Keep Birds Around Your Home." My guide lists tree, shrub, vines and other plants which attract birds.

STARTING ARBORVITAE

Those brown cones produced by arborvitae contain seed. If you start seeds (sprink them out of the cone first) in a warm and peat moss, they'll produce seedlings for your next year. Keep them in a cold frame over winter.

If you have a small greenhouse, you can start new plants from cuttings rooted in moss in a cold frame over winter. Cuttings three inches long, dip the base in a rooting powder and insert into sand, perlite or vermiculite. Shade them from direct sun.

If you don't have a small greenhouse, try using a plastic sheet over the pot of cuttings. The plastic will keep the humidity, prevents drying out and hastens rooting.

BITTERSWEET

No reason why you can't grow bittersweet for your own fall decorations. Bittersweet needs a trellis or wire support. We're referring to the real bittersweet, not the "evergreen" bittersweet (Euonymus).

The regular bittersweet (celastium) is fast growing vine with dark green foliage that will climb up rocks, walls, trellises and tree trunks in fall. Clusters of bright orange-red berries cover the entire vine. You can help keep the berries on longer by spraying fruit with hair spray.

Start new plants from seed, or buy rooted plants from a nursery. Or you can take cuttings from a fruiting plant (some are male, producing no berries).

TALL EVERGREENS

If you have tall spruce, arborvitae or other evergreens that should be lowered, you can do the job now. Take a saw and trim the top back to the height you want. If you want to keep the trees at the same height, it's a simple matter. Just take a pair of clippers and snip off the extra growth that comes on during summer.

PLUM TREES OVERHEARING

A tender has two plum trees which produce so much fruit (lucky person) that the branches bend. She wants to know if there is a spray to kill off some of the blossoms so that the tree will not be overbearing.

There are hormone sprays for just like this, but for the home gardener, it's a lot simpler than the fruits by hand. Wait until they are about an inch across and go over the tree picking some of the extra fruit. This will give you larger plums of better quality than if you left them all on to ripen.

PLUMBING

Also called Anthurium, this little plant causes quite a stir whenever a floral includes one or two

THIS NEW MODEL 3300 moldboard plow just introduced by J. I. Case Co. is designed to plow over obstructions such as rocks and then automatically return the bottoms to lifting position. This photo shows a plow clearing a rock while other bottoms continue to plow even inches deep undisturbed. Constant hydraulic cylinder pressure allows the bottoms to push aside smaller stones instead of riding over them.

4-H Awards Banquet Is Held For Elmore County

GLENN'S FERRY — At the Elmore County 4-H awards banquet, Phyllis Lord received a wrist watch presented by Gerald Fletcher from the First Sevin store in a cool cellar. She also received a framed certificate from the Elmore County 4-H club for her outstanding 4-H boy.

Awards were given in all 122 boys and girls who had completed projects during the year. Top county awards in achievement presented by the Ford Motor Co. went to Lenora Anderson, Rocky Trail, Don Miller, and Phyllis Lord. Rocky Trail received a framed certificate from International Harvester awarding him a trip to National Club Congress in Chicago in 1968.

Other special awards handed out by Diana Hoast and Rocky Trail included the Bill T and R 11 Breeding Award, presented by Phyllis Lord, the Gooding Livestock Commission Co. presented a belt buckle for the grand champion beef to Don Miller.

Was Hoast presented the Boise-Valley Angus-Steer Award to Don Miller, and the Angus Breeding Award to Diana Hoast. Don Miller presented a cookbook for the best beef demonstration at the Western Idaho Fair to Diana Hoast while the General Foods Cookbook for the best dairy foods demonstration went to Phyllis Lord.

Statesman horse trophies for the grand champion mare went to Walter Ireland and for the grand champion gelding to Pam Landon.

Receiving loving cup trophies for the top model at the County Fair, Connie Jones and Kris Shrum; top Junior demonstration, Janet Martin; top Intermediate demonstration, Chris Anderson; and top senior demonstration, Lenora Anderson.

Receiving 4-H bracelets were the top knitters and one girl who gave the knitting demonstration at the county and district fairs, Janet Schreiner, Susan Brown, Joan Trail, and Lori Hoast. The Mountain Home Livestock Club presented a cockatrice to Barbara Jordan and string ties to John Phyllis and Terry Curry. Showmanship awards went to the W. W. Knorr Trophy for beef to Terry Parish, Farm Bureau Insurance for hog to Karla Rubery, 4-H Council for Dairy to Don Miller and the Mountain Home Livestock Club for lamb to Joan Trail.

Receiving a 4-H charm bracelet for her chickadee project was Laura Parish. All those who made demonstrations or were on the Junior or Senior judging teams received a 4-H charm, including Karen Stewart, Janet Schreiner, Jerry Ann Colding, Pamela Stewart, Barbara Jordan, and Dora Lewellyn. Phyllis Lord, Diana Hoast, Susan Brown, Janice Skrum, Joan Trail, Connie Jones, Lenora Anderson, Maryn Wooten, Karla Rubery, and Wanda Lewis also received awards. Sherry Rubery, Harlie Hanke, Don Miller, Bob Mil-

3 Men Are Named To BLM Board

BURLEY — Three men were elected to the advisory board of the Burley District, Bureau of Land Management, in an election held recently at the Burley district office.

Incumbents re-elected were, precinct No. 1, cattle representative, Edwin D. Crockett, and sheep representative, Ray Lincoln, and precinct No. 4, sheep representative, Wilford Wrigley. The Burley District Advisory Board is composed of ten men, four representing the sheep licensees, four representing the cattle licensees, and two representing the Wildlife Interest and District Manager.

Max Bruce, representing the Bureau of Land Management, is the Advisory Board advisor and consults the Bureau of Land Management on various local matters which arise during the year. Members are also chosen to form State and National Advisory Boards, to offer counsel on State and National matters.

Ann Reynolds and Marva Wooten; horse to Ricky Allen, Idalee Hoagland, Jerry Venable, and Ann Knorr.

Horticulture awards went to Harlie Hanke—photography to Phyllis Lord; and sheep pins for two years (because they were not awarded last year) 1967, Sherry Colthrop, Gail Groffesma, Joan Trail and Garry Groffesma, 1968, Peggy Pruitt, Joan Trail, Dorothy Wooten, Gail Groffesma, Jana Groffesma, Wanda Lewis, and Sherry Pruitt. Swine winners are Karla Rubery, Sherry Rubery, Don Miller and Jana Groffesma. Don Miller was master of ceremonies, and Frank Pearce, Mountain Home Mayor, gave the welcome. Phyllis Lord gave the invocation, and Gail Groffesma introduced special guests. Harlie Hanke introduced the present 4-H leaders and gave the invocation. Diana Hoast and Rocky Trail presented special awards. County Awards were made by Lori Hoast, Denise Allie, Chris Anderson, Terry Parish, and Wanda Lewis.

Wes Woolton told of the people he met and lived with on his 1968 sponsored European tour last summer.

STATE MEET SET

The Idaho State Farmation Association will meet in Twin Falls Dec. 12-13.

Fall Is Ideal Time To Improve Or Rebuild Lawns

No matter how beautiful a lawn may look, there are always signs of it which could stand improvement. And, conversely, most lawns are not completely hopeless and can be brought back to renewed vigor by renovation.

The best time to embark on a renovation program — or complete rebuilding if necessary — is now in fall. This is actually nature's time for sowing seeds of grasses. Weather conditions are ideal: warm days and cool nights; a good amount of rainfall; and — of great importance at this time of year — grass seeds can germinate and grow without competition from weeds.

First, it should be determined if the lawn can be renovated or whether you should start and replant from scratch. At this season when lawns may look their worst, the inclination is to start anew. But, if the lawn can be renovated it is the better, less expensive and less laborious choice.

To determine if a lawn can be renovated, stand in the center of the turf and look at a spot about six feet away. If from that distance, the lawn has 50 per cent or more of good perennial grass, renovate it. If there is less than half perennial grass, start a new lawn. If there is less than a modicum of care, most lawns can be renovated.

Eliminate Weeds — The renovation program starts with elimination of weeds and feeding the existing grass plants. This can be done at any time, but it is best to do it now. At this time, it would be advisable to set the soil to determine if lime is needed and how much.

Take a "composite" soil sample consisting of specimens from a number of places and mix them together. This "composite" to your garden store or county agent where it can be tested. When the weeds have died they should be raked up. After raking, a lawn sweeper can be used to gather them; some people use their rotary mowers with a grass catcher which gathers their debris.

Seeding is the next order of business. Seed is sold today primarily for the use to which you will put the lawn, or the conditions. For instance, there are blends designed for shady areas; there are blends for heavy traffic play areas; there are blends for less traffic and a "picture" lawn.

Seed should be sown at the rate shown on the package for "renovation." If some areas are completely bare — and there will usually be several of these — seed should be sown at the "new lawn" rate.

Remove Thatch — Watering after seeding is most important. The lawn should be watered daily, preferably during

Total Cash Receipts From Dairying Up

By DON KENDALL

WASHINGTON (AP) — Total cash receipts from dairying are expected to total about \$8 billion this year, up four per cent from 1967, despite a drop in cow and milk and cream sold, says the Agriculture Department.

The boost in gross receipts is expected from a higher average price for all milk, estimated at \$2.25 a hundredweight this year, an increase of five per cent from 1967.

Department officials made their predictions Monday in a summary of the dairy situation to be issued Nov. 8.

Total milk production this year is down about one per cent from 1967, the department said, but the decline in herd size has slowed because of higher prices for milk and relatively low priced cow feeds.

applied in early spring; use one that is high in nitrogen to give more leaf growth. It also contains additional seed can also be down in spring.

However, check the time interval before reseeding, recommended on the crabgrass prevention package. Fertilize again in late spring (here, again, you might want to use a formula that contains a weed-killer).

Break-Away Pro Faction Slates 19-Tournament Year Worth \$2,305,000

NEW YORK (AP) — The American Professional Golfers' Association broke with the PGA in 1959 to sponsor a new 19-tournament tour worth \$2,305,000.

The PGA, which has been left hanging in the air since the split, is now threatening further action.

The PGA's 1959 season was a disaster. It lost the rights to the PGA-sponsored events, and the PGA's 1959 season was a disaster. It lost the rights to the PGA-sponsored events, and the PGA's 1959 season was a disaster.

Move To Left Helps Steeler Receiver

PITTSBURGH (AP) — A shift to the left on election week seems to have done wonders for Roy Jefferson of the Pittsburgh Steelers.

Jefferson, who has been inconsistent in the past, has been a key player for the Steelers in the National Football League.

Jefferson's move to the left has helped him become a more consistent receiver for the Steelers.

Graebner And Ashe Get Tennis Nods

SAN JUAN, Puerto Rico (AP) — The U.S. Davis Cup captain passed over the home favorite, Charlie Pasarell, and named Arthur Ashe Jr. as his alternate.

Ashe and Graebner are the top contenders for the Davis Cup.

Trainer Banned On Dope Charge

DETROIT (AP) — Trainer A. D. Adams of Louisville was given a 60-day suspension Wednesday when he admitted giving five tablets of the controlled substance to a horse.

Adams was charged with giving the horse a performance-enhancing drug.

Tennessee Team Prays For Uclan

KNOXVILLE, Tenn. (AP) — Led by Coach Doug Dickey, the Tennessee football squad knelt on the practice field Wednesday and prayed for the recovery of John Chestnut, UCLA's injured football player.

Chestnut suffered a neck-spring injury when he tackled a Tennessee player in last Saturday's UCLA-Tennessee game.

U.S. Players Are Top British Seeds

LONDON (AP) — Arthur Ashe, winner of the first United States Open championship in September and teammate Clark Graebner and Charlie Pasarell, American Davis Cup players, are the three top seeds in the British Covered Court Tennis Championships opening in London Monday.

The American-Davis Cup team plays its international final against India in Puerto Rico this weekend.

Bans Sought On Beards In Major Loop

CHICAGO (AP) — A ban against American League baseball players wearing extreme sideburns, mustaches, goatees or beards is being sought by A.L. president Tom Post.

Ed Short, general manager of the Chicago White Sox, said Thursday that league general managers meeting last week in Colorado Springs, Colo., decided to request such a ban in the form of a league rule by Joe Cronin, A.L. president.

Vandals Put Emphasis On Pass Defense

MOSCOW, Idaho (AP) — The Vandals football team drilled for an hour Thursday on pass defenses in preparation for an expected aerial attack by San Jose State in the California title Saturday night.

Idaho Coach V. C. McNease said "We've sharpened our pass defenses in drills this week. We expect the Spartans may use a pro-type pass offense against us."

Bonavena Gets Match With Frazier

PHILADELPHIA (AP) — Unbeaten Joe Frazier defends his five-state heavyweight boxing title Dec. 10 in a scheduled 15-round bout against Oscar Bonavena, one of two opponents to go the distance with the champion.

Promoter Lou Lucchese announced Thursday the 24-year-old Frazier would defend against Bonavena in Philadelphia.

Guide's Death Is Traced To Rabbit Meat

ATLANTA, Ga. (AP) — The death of a hunting guide in Idaho, a victim of bubonic plague, has been traced to a snowshoe rabbit the man killed before he became ill, the National Communicable Disease Center has reported Thursday.

Leonard Nunn, 31, of Salmon, Idaho, was admitted to a hospital at Salmon Oct. 22 and died three days later.

Tennessee Team Prays For Uclan

KNOXVILLE, Tenn. (AP) — Led by Coach Doug Dickey, the Tennessee football squad knelt on the practice field Wednesday and prayed for the recovery of John Chestnut, UCLA's injured football player.

Chestnut suffered a neck-spring injury when he tackled a Tennessee player in last Saturday's UCLA-Tennessee game.

THE TIMES-NEWS SPORTS

It's Football In America But Typical Violence To England

NEW YORK (NEA) — We know football has always been "the most American of sports," but the typical violence of the game is more typical of England.

And the job of a quarterback is complete without the traditional "the maestro." A quarterback is a mystic language.

The dedication of American footballers to learn their plays, both on and off the field, and to practice is a "workload" that would make British professional soccer players go twitchy.

Weber Can Join Idaho And Bobcats As Big Sky Kings By Defeating Montana

By The Associated Press
This week it's called the waiting game. Montana State and the University of Idaho are waiting for the Montana-clerk Weber State in the final Big Sky Conference football game of the season Saturday in Missoula.

Idaho Sets Air War With San Jose State

UNIVERSITY OF IDAHO
Moscow. The Idaho Vandals will tangle with another pass-oriented team this weekend as they meet the San Jose Spartans in a game Sunday at 8 p.m. game under the lights on Saturday.

Small College Poll Hit By Reshuffling

By The Associated Press
The lower end of the Associated Press Top Ten in small college football underwent some shuffling today, but up front the same old story was repeated. The half came up in the first 4 1/2 places remained firm.

Liston Sees Title Shot In 6 Months

PITTSBURGH (AP) — Sonny Liston, the former heavyweight champion, said Thursday he expects to get another shot at the title within six months.

Nevel Pride Has Chipped Bone

WESTBURY, N.Y. (AP) — Nevele Pride, the 3-year-old champion trotter who swept the trotting triple crown this year and was the 1967 harness horse of the year, has suffered a chipped bone in his left front leg through the strength of the season, it was announced Thursday.

Wobbly Montana, on the other hand, is suddenly cast in the role of the spoiler. A victory would mean that State's 13 conference mark and pull them out of their lonesome cellar position into a tie with Idaho State.

Jerome Sets Three Plays By Students

JEROME — Three one-act plays will be presented by the Drama Department of Jerome High School at 8 p.m. Friday and Saturday at the Junior High Auditorium.

One will be selected to go to the festival at Burley Nov. 15.

"Discrimination for Every One" presents the idea, "Is discrimination worth the money it costs the taxpayer?" Its cast is Barbara Fuller, Cheryl Mc-Afee, Lesa DuLucas, Jim McGonson, Mike Edwards, Craig Thompson, Tanner Johns, Deanne Ricketts, Francis Thieme, Carolyn Thueson, Tim Freeman, Ken Baer, Sherry Duncan, Janie Fife, Gib Williams, Debbie Bagley, Sherrie Jones, Cheryl Thompson and Carol Handy.

DR. PAUL HEUSTON, council president, and Darl Gled, council executive, present Lyle Pool a certificate of appreciation for his part in construction at the Boy Scout Camp at Cape Horn. Mr. Pool represents members of the Electrical Union of Southern Idaho, local 448 IDEW. The presentation was made Thursday night at the Labor Temple.

Electrical Union Honored For Work At Scout Camp

A special certificate of appreciation for work done at Camp Bradley this summer was presented Thursday night to members of Local 448 IDEW (Twin Falls area electrical union) by Dr. Paul Heuston, president of the Snake River Council, Boy Scouts of America, and Darl Gled, council executive.

Dr. Heuston noted that members of the union local and contractors from the area spent many weekends at the Scout camp rewiring it to bring it up to state code, and preparing for the arrival of special power lines from Stanley so the camp can be used year round.

Companies that donated electrical equipment include Shorroll Electric, Lot Electric, Smith Electric and Salmon Electric Co-op. Idaho Power Co. assisted in the initial survey of the camp to prepare for the work.

Lyle Pool acted as job fore-

Consolidated

BUTLER, Mo. (AP) — Floyd Dunham, unsuccessful candidate for election as Bates County sheriff, didn't lose everything.

He heard about an offer made before the election by Bob Gunn, Adrian, Mo., publisher and printer. Gunn offered to refund a portion of campaign printing costs to unsuccessful political candidates.

Dunham applied for a refund and got it—\$350.

Support Reported Of Chinese Move

TOKYO (AP) — The Peking People's Daily reported today that Communist China's soldier-workers have given firm support to the Communist party Central Committee's decision to expel President Liu Shao-chi.

Written by army representatives in the All-China Federation of Trade Unions, Liu's old stronghold, the article called him a "renegade traitor and scab."

The article gave no indication of the whereabouts of the 70-year-old chief of state or what is in store for him. He was last reported living in Peking.

Leaking Butane Bled From Tank In Train Wreck

PROVO, Utah (AP) — Butane gas was being bled from a damaged tank car today as workers continued to clean up wreckage from Tuesday's 22-car derailment — an accident Denver and Rio Grande Railroad officials — estimated — resulted in "millions of dollars" damage.

Firemen sprayed the damaged tank car with water to prevent accidental ignition of the volatile gas and help dissipate it.

Fire broke out in the derailment, threatening three tankers of box cars and five cars containing bombs, ammunition and detonators.

A two-square-mile area was evacuated but the fire was extinguished and the danger had sufficiently lessened by Wednesday morning to permit the families to move back to their homes in southeastern Provo.

All the explosives were removed by Thursday.

More than a half-dozen of the railroad cars carried new auto.

Railroad investigators said the cause of the explosion had not been determined.

Officials Draft New Liquor Bill

SALT LAKE CITY (AP) — Two Salt Lake City officials say they are working on a liquor bill which would permit private clubs to prohibit state liquor stores and include stringent regulations of private clubs.

Published Safety Commissioner James L. Barker Jr. and Paul G. Grant, assistant city attorney, say they are working on the bill for presentation to the legislature in January.

The bill would allow residents of a county to choose in an election whether to permit the state liquor stores to be located in the county.

"It would not be against the law for a person to go to another county purchase liquor there and bring it home and consume it," Grant said.

The men said regulations qualifying private clubs would be stringent.

Barker said the private clubs would be licensed by local authorities instead of the secretary of state "so the local authority would have the power to revoke licenses if the new law is violated."

Duplicate Bridge Results Reported

Magic Valley Duplicate Bridge Club met Wednesday afternoon at the home of Mrs. H. M. Wycoff with eight and one-half tables in play.

North and south winners were Mrs. F. K. Milton and Mrs. Wycoff, first; Mrs. R. R. Williams and Mrs. W. J. King, second; Mrs. Furon, Taylor and Mrs. A. J. Meeks, third, and Mrs. B. E. Standice and Mrs. Harmon Munyon, fourth.

East and west winners were Mrs. L. R. Duncan and Mrs. S. L. Thorpe, first; Mrs. J. T. Shelby and Mrs. M. Hogg, second; Mrs. R. K. Watson and Mrs. J. W. Brown, third, and Mrs. J. S. Feldhusen and Mrs. H. M. Proctor, fourth.

Next week will be music-joint play.

NFO To Meet

HAZELTON — Jerome County N.F.O. will meet at 8:30 p.m. Monday at Frontier Grange Hall.

There is to be a discussion on the national convention planned for Dec. 2-4 in St. Louis, Mo. The state grain committee will meet in Idaho Falls Nov. 15.

Suspect Denies Murder Charge

HOLLYWOOD (AP) — Paul Robert Ferguson, 22, pleaded innocent Thursday at his arraignment on a charge of murdering Ramon Navarro, the movies' old-time matinee idol.

Navy Municipal Judge James B. Di Giuseppe ordered Ferguson jailed without bond and set a preliminary hearing for Nov. 15.

Ferguson's 17-year-old brother Thomas was named on a juvenile allegation of murder. The district attorney's office said it would ask that the teenager be tried as an adult. Police said.

Ferguson said he ran away from his home in Round Lake, Ill., near Chicago, three weeks ago. The older brother, a house painter, has lived in the Los Angeles area five months.

Investigators would say only the brothers were linked with Navarro's hearing death through "physical evidence."

The 69-year-old Navarro was found dead in his bloodied bed Oct. 31. A fierce fight had been waged through three rooms of his expensive home, officers said.
