TEN CENTS

## Viet Cong Free Three Americans

SAIGON (AP) — The U.S. Command today freed three American prisoners held captive by the Viet Cong more than five years "overpowered an armed enemy guard and escaped."

Earlier it had been reported that Maj. James N. Rowe of McAllen, Tex., had been freed by troops of South Vietnam's 2d Infantry Division during a sweep in the Mekong Delta Tuesday.

Three other U.S. prisoners were freed by the Viet Cong at a meeting between U.S. and Viet Cong representatives today.

(See story, page 8)

The three men were released in a meeting between U.S. and Viet Cong representatives today. Lt. Col. William Hammon, a newspaperman from Boise, Idaho, had been held since he was captured in a helicopter crash in the Cambodian border in a U.S. military evacuation hospital 15 miles north of Saigon.

U.S. spokesmen said they were expected to fly home to the United States Thursday.

U.S. spokesmen said they were expected to fly home to the United States Thursday.

ADULTS DON'T HAVE the only fun on New Year's Eve. An English girl helps her boyfriend to the top of the Trafalgar Square fountain in London to celebrate the arrival of 1969. It was done in a chilly, wet manner. Crowds gather every year at the square to mark the new year—something akin to the gathering annually at New York's Times Square. (AP wirephoto)

## Traffic Toll Rises Steadily

By The Associated Press

The nation's traffic toll climbed slowly in the early hours of the New Year's holiday.

The count reached 29 early today. The 30-hour holiday period which began at 6 p.m. Tuesday ends at midnight tonight.

The National Safety Council has estimated that 700 to 200 persons may die in highway accidents during the holiday.

## Retired Army Officer Takes Over As Action Agency Head

Charles R. Alban, a former instructor at the college in Idaho is the new director of the South Central Community Action Agency.

He replaces Al Morgan, who retired Tuesday.

Mr. Alban said he has been interested for many years in the problems of disadvantaged people and I welcome this opportunity to do whatever I can for these people and the community.

He reported the local agency has received verbal approval for the program in the past 1969, except the Neighborhood Youth Corps. "We hope to get a new contract for the operation of the program in the near future," he said.

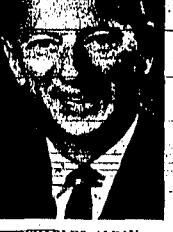

Mr. Alban said the Burley Neighborhood Center, under the direction of Kirby Wilson, will open Thursday.

The Burley unit will accommodate 24 children in its day care center and will begin classes similar to those at the Twin Falls center.

Mr. Alban said he visited the Burley center last week and noted the building had been renovated, painted and the appliances installed.

The new director said one of the goals of the South Central Community Action Agency would be to keep the community fully informed of its goals and activities.

He said he hoped it will have the backing of the residents in Jerome, Twin Falls and Cassia counties.

CHARLES ALBAN

## New Cries Echo Greetings Of 1969 To First Babies

A little boy, screaming and wailing, joined 1969 bewildered parents in the early hours of the New Year's birth at Magic Valley Memorial Hospital.

The boy, six pounds and seven ounces, was the son of Mr. and Mrs. Merle Francis, Route 2, Twin Falls, and he came into the world at 6:12 a.m. Wednesday.

He comes into the world to get many gifts from Twin Falls merchants.

Although the Francis baby was the first in Magic Valley, a little boy at Cassia Memorial Hospital in Burley was the first in that county.

The girl was born to Mr. and Mrs. Vernon Aynon of Burley. She, likewise, will get some attention from area merchants.

Closely behind was a son born to Mr. and Mrs. George Darnell Rupert.

The baby, probably the first named, although names of the others are floating around in the community.

## Hansen Sewer Bid Given To Clawson

HANSEN — J. A. Clawson of Twin Falls has been awarded the contract for constructing and installing a sewer system in the City of Hansen. His low bid, amounting to \$129,971.50, has been reviewed and accepted by the Farmers Home Administration, the government agency through which Hansen Sewer and Water Improvement Association, organized by Hansen residents, is obtaining financing for the sewer system.

The bids were read at a special meeting Dec. 23, but specifications had to be reviewed by the city before any final decisions could be announced.

Jack Strambler, resident engineer, Twin Falls, of the Dale I. Riedel and Associates, consulting engineers, stated the bid was approximately \$70,000 lower than anticipated and will result in this amount or more being chipped from the cost of the project.

Hansen will mean a big savings to the community organization. It had been estimated by the engineers earlier that \$150,000 would be the approximate installation cost.

Although Clawson was the lowest bid, three others submitted bids below the engineer's estimate. They were Harwell Excavating Co., Idaho Falls, \$148,960.25; Kimberly Construction Co., Kimberly, \$139,025.44; and Larry Fairbanks, Twin Falls, \$147,240.

Others submitting bids were Old Corporation, Boise, \$156,098.09; DeWahl Construction, Boise, \$159,000.00; and 16 Arthur Harding, Salt Lake City, Utah, \$181,117.85.

The low bid, with the added cost of land necessary for the laydown site and engineering contingencies, will bring the amount needed for the loan to approximately \$169,000.

See SEWER, P. 2, Col. 1

## Fire At Spokane Kills Girl, 14

SPOKANE (AP) — A 14-year-old Spokane girl died early today in a fire that destroyed her parents' home.

She was Sheryl Goddard, daughter of Mr. and Mrs. George Goddard.

Firemen said the child's mother tried to save the teenager but was driven back by smoke and flames. The child's body was found in a bedroom.

Firemen said the apparent cause of death was smoke inhalation.

## First 1969 Blood Drawing Set Monday At Legion Hall

The first blood drawing in Twin Falls this year will be from 2 to 7 p.m. Monday at the American Legion Hall.

Honorary chairman of this drawing is Paul H. Hinton. It is a heavy turnout for the drive because Red Cross officials and all those taking part in the drive are very concerned about the local supply of blood.

He said there is a critical shortage of blood nationally, and added, "At this time of year people find it difficult to donate. They are busy with holiday activities and are reluctant to give."

Mr. Middleton said last year was a poor year in Twin Falls, with 87.5 per cent of the quota established for the year. The year's drawing in 1968 passed its quota.

He said steps have been taken this year to prevent the waiting period that has been experienced in the past. This time limit has been extended an hour and the number of drawing tables will be increased. Also, if a person is short on time he can call ahead and make an appointment. The number is 733-3808.

## Air West Directors Agree To Sell Line To Howard Hughes

SEATTLE (AP) — Directors of Air West said Tuesday night they had decided to sell the airline to financier Howard Hughes.

The agreement to sell the assets of Air West to Howard Hughes Corp. was signed by Air West chairman Nick Beza, a statement issued by the airline in Seattle today.

Mr. Beza said that he had received telephone calls from six of the directors who had previously voted against the sale.

Last Saturday the airline directors voted 12-1 to reject the Hughes offer. On Monday, 13 stockholders, six of them company directors, sought an order from the Court of Chancery in Wilmington, Del., to force all the directors to accept the purchase offer.

Then on Tuesday, seven shareholders filed a lawsuit in federal district court in New York State against the 13 directors who voted to reject the Hughes offer.

The suit sought to recover what was described as "the substantial profits" Air West would have made through the sale to Hughes.

The next step will be to submit an application for approval of the sale to the Civil Aeronautics Board. The airline statement said.

The suit was filed last April by a merger of Bonanza, Pacific and West Coast Air Lines, flies 9,000 miles of routes over the Western States and adjacent sections of Canada and Mexico.

The 13 directors who joined the 11 who previously voted in favor of the proposal were: Roger Conway and Robert Reynolds, Los Angeles; James D. Moyle, Salt Lake City; Richard L. Sam, Seattle; Robert Seitz, San Francisco; and John E. Parker, Washington, D.C.

## U.N. Condemns Beirut Attack

By The Associated Press

A Council of Israeli army action was reported by Jordan today on the heels of the U.N. Security Council's condemnation of Israel for an attack on Beirut International Airport.

A Jordanian army spokesman in Amman said two Israeli helicopters were shot by a jet fighter belonging to the Syrian Arab Republic forces in the Ghazal area north of the port of Aqaba this morning.

He added that two other Israeli jets flew over the southern Jordanian city of Mujib, but were driven off by anti-aircraft fire.

There was no confirmation of the action from the Israelis.

But an Israeli army spokesman in Tel Aviv reported that three persons killed in a rocket attack against the Israeli town of Kiryat Shmoneh near the Lebanese border.

The spokesman said the rockets were believed to have been fired from Lebanon.

Israel's response to its third Security Council condemnation in 10 months was a denunciation of the council itself.

The 15-nation Security Council voted unanimously for the condemnation and demanded Lebanon was to compensate for 13 civilian aircraft worth more than \$40 million destroyed by Israeli commitments in a daring raid on Beirut airport Saturday.

Israeli delegate Yosef Teikoh said the council action was "not recognized by Israel."

He said the resolution "is a disgraceful political act."

Teikoh's attitude was similar to that of Israeli officials in earlier instances when the council censured and condemned Israel. These condemnations go back as far as 1959.

Found — Boulton, former Lebanese foreign minister and head of a special delegation to the council debate, complained that the resolution failed to call for specific penalties against Israel.

## Magic Valley Logs 48 Traffic Deaths

It was a bloody year on our main roads and highways in 1968 with 48 persons killed in Magic Valley traffic accidents.

In the past eight years, 1962 through 1968, there were 59 deaths on the highways in Magic Valley. In 1968, there were 37 deaths on the highways.

The 1968-1969 traffic toll was the highest in the county since 1962.

The victims of the traffic deaths were:

- Blaine, 2; Lincoln, 1; Elmore, 3; Gooding, 1; Jerome, 2; and Malad, 1.
- One of the major wrecks of the year happened about five miles south of Rogerson on Highway 90 when Charles Ferguson was driving a 1967 Chevrolet when it collided with a car.
- Four other people were slain in the year.
- Three were killed in collisions with a head-on collision Sunday, June 23. Four other people were slain when the 1965 Chevrolet stalled when it drove south on Highway 90.
- A 1967 Chevrolet, operated by Nancy Wilson, Indianapolis, Ind., was involved in a two-car accident at the intersection of Highway 20 and 40 Junction. Sheriff Dunn said there had been many accidents at that intersection, but Mr. Voss had been the first fatality. Sheriff Dunn estimated that the "inadequacy of the engineering department."
- Don Bennett, of the Idaho State Police, said that he felt the fatalities this year were a slight improvement over previous years, considering there are more cars and people on National Park, Calif., was struck and killed about one-half and then drive."

## Accord Is Established CAA Board And County Officers Meet

Four board members of the Twin Falls County Community Action Agency met with county commissioners Tuesday and an accord was reached.

There would be "new thinking" on the poverty program in the area.

Commissioners, who had been critical with the agency, voiced their support of the board, the agency, and the programs offered through the agency.

County Commission Chairman Herb Loughmiller, following the meeting, signed an agreement which indicates the commission supports the CAA in the county.

The meeting opened with Mr. Loughmiller appointing CAA Director Charles Alban as the commission's representative to cooperate in every way possible with you gentlemen, the representatives of local government in Twin Falls County."

Mr. Loughmiller said, "I want to make it clear we have not agreed on the program in the past. That's why we haven't signed an agreement with the agency."

Recently the CAA made application for nearly \$350,000 to create poverty programs in the area for 1969. The commissioners refused to endorse this application at board meetings because they were not satisfied with the way things had been operated; that they were in the dark about the board's position; and that they did not approve of CAA employees making more money than county employees.

The endorsement by the commission, apparently, did not mean the grant but CAA officials have actively sought the support of the commissioners.

"We will not sign an agreement until we get a report, approval of the commission on the board of Twin Falls County and the tri-county area of Jerome, Cassia, and Twin Falls Counties," Mr. Loughmiller said.

Mr. Alban assured the commissioners they would have a voice in all future board proceedings.

Mr. Loughmiller said he would like an alternate to be appointed at board meetings in case one of the commissioners (appointed to represent the commission) could not attend a specific board meeting. An alternate would be one of the representatives to the board should they be called to the board.

Mr. Alban said the board should try to amend its bylaws to allow this and Mr. Loughmiller said he was satisfied.

Mr. Alban said the representatives of the CAA board were Mrs. Carole Martin, president of the incoming board; Roy Slatten, treasurer; Marvin Glanville, and Mr. Alban.

The commissioners are Mr. Loughmiller, Morris Carlson and William Chancy.

Representatives of the Twin Falls County CAA Board are to be named soon to represent the county on the tri-county board.

It was resolved that two commissioners would be represented by the CAA, P. 2, Col. 1

THIS IS A 1969 gene hanger and results from over indulging during the New Year's Eve celebration. The cheer shown from the situation is reflected in the face of a 20-year-old couple by a Muncie, Ind., couple. It's the kind of look many have New Year's Day. (AP wirephoto)

## Usual New Years In Valley Is Observed By Thousands

Handreds of Magic Valley residents are ringing in the new year by watching football games or spending a quiet day at home. According to a survey made by the Times-News Wednesday, most of those contacted are planning to watch football games on television or visit friends for a quiet meal on the day.

Others will probably stay home, and rest after a long year of celebrating the new year.

Thousands of resolutions are being made today, but very few are being kept. Some of these range from stop smoking to more drinking and make more money.

One person contacted said he had become a vegetarian and plans to enjoy himself at establishments which deal in liquor.

## Snow Pack In South Hills Is Reported Above Average

The snow pack in the South Hills, which provides water for the Salmon Tract and Roseworth Tract, is well above average, according to the Twin Falls Soil Conservation District.

William Nelson, chairman of the district's board of supervisors, said three snow gauges were measured by ground crews earlier this week and the other courses were measured by plane by Ellis Fuller, Twin Falls Conservation District. Jim Marshall, Soil Conservation Service, said the snow depth is about three-fourths saturated.

Mr. Nelson said besides the above average snow pack, the soil profile in many higher stations is about three-fourths saturated.

Magic Mountain and Dendline Ridge have the most snow of all the courses measured.

Magic has 39.3 inches of snow with 8.3 inches of water content as compared to 13.3 inches of snow and 4.2 inches of water content a year ago and an average of 6.4 inches of water content for the past 10 years.

The snow pack on Dendline Ridge is 49 inches with 10.3 inches of water. A year ago there were 10.4 inches of snow and 8.5 inches of water content and the average is 6.8 inches of water content.

Hummelburg Springs has 37.0 inches with 8.8 inches of water content as compared to 25.0 inches of snow and 8.0 inches of water a year ago; 10-year average is 6.1 inches of water content.

The snow pack depth at Poth Creek is 22.3 inches with 2.7 inches of water content. The snow depth last year was 24.2 inches and water content was 6.2 inches as compared to the 6.2 inches of water average the past 10 years.

Cedar Creek measures 38.0 inches of snow with 7.5 inches of water content as compared to 18.0 inches of snow and 3.7 inches of water a year ago. The 10-year water content average is 5.8 inches.

Cedar Creek's snow depth is

## McCormack Predicts Victory In Battle For House Position

WASHINGTON (AP) — House Speaker John W. McCormack predicted a Democratic congressional victory in a "time game" says he knows of no one more progressive than himself.

He said Tuesday he's confident of beating back a challenge to his re-election as speaker when the House Democratic majority caucuses Thursday.

"I'm not worried," McCormack said, "I've always tried to be fair and most of them know it."

As for those seeking to dump him in favor of a younger man, the crag-faced Boston Democrat said: "They will fail. But I don't want to comment beyond that."

His bid for re-nomination by the Democratic caucus is being contested by Rep. Morris Udall, D-Ariz., who told board members in a letter last week the House needs new directions and new leadership in a "time game of trouble."

McCormack, 77, touching on a wide range of subjects in an interview, described as absurd charges that he is failing to move with the times.

He said often he will reserve judgment on a given issue and his critics will say he's yielding or too conservative.

"You take this reform movement—the movement for reform in the House," he said. "I've been for that all along. But the bills they've had so far have been filled with holes. They have been bills that

## Montreal Police Dismantle Bomb

MONTREAL (AP) — Crouching behind a protective metal shield, two members of the Montreal police bomb squad spent their first 20 minutes of the New Year dismantling a bomb beneath the mayor's office.

Less than 30 minutes before another bomb exploded at City Hall and at a federal office building about one mile away. No one was injured in the two explosions, which shattered windows.

Police said most of a rash of bombings in Montreal recently appear to be linked to labor unrest.

## Samuelson Defends Naming Of Boisean To Prison Board

BOISE (AP) — Gov. Don W. Samuelson expressed belief Tuesday that the appointment of Roger Bryer of Boise to the State Board of Correction will result in better direction of the building program at the state penitentiary.

Samuelson appointed Bryer to the position Monday to succeed Paul Clark whose term is expiring.

The governor said Bryer's experience in business and the building industry will make him a valuable board member, particularly during construction of new prison facilities at the site south of Boise.

But Samuelson said changes at the prison in the past few months do not reflect any change in his belief that rehabilitation is an important part of the institution's program.

"Our first responsibility is the protection of the public," Samuelson told his news conference.

He said some assignments of inmates to trusty status have been taken to correct procedures.

Samuelson insisted he cannot order administrative changes at the prison but can suggest them to the Board of Correction.

"I can't tell them, but I can

## WHAT PEOPLE SAY ABOUT US

Many families visiting our funeral home for the first time express surprise at the great lengths we go to in providing service, comfort and convenience.

This is because of the individual concern the people of White Mortuary have for the individual satisfaction of each family they serve.

It is one reason so many families in and around Twin Falls recommend White Mortuary.

## Boise Cascade Acquires Project

PITTSBURGH, Pa. (AP) — The purchase of Liberty Park, a 332-unit apartment complex in Pittsburgh, by Boise Cascade Corp., was announced Tuesday.

The \$15 million housing project in Pittsburgh's urban renewal area, was formerly owned by Action Housing, Inc., a nonprofit corporation.

Magic Valley's Home Newspaper Wednesday, January 1, 1969 PHONE 733-0931

WASHINGTON - The scores of Federal desegregation ultimatums dispatched to Southern school districts in recent weeks are almost certain to be withdrawn by the Nixon administration. Thus will begin a severe slow-down in forced Southern school integration, a policy rather firmly decided upon to fulfill the President-elect's campaign commitment to the South.

Revision Needed

A mandate by the Idaho Tax Commission, on the surface, seems mild enough. But when it is put into actual practice the Idaho taxpayer is faced with real trouble. The ruling points up a need for revision of the state's laws and a new look by the Legislature toward how to pay the bills in the future. We are speaking of the 1969 assessment ratio which requires a complete revision of an estimated 18,000 Twin Falls County assessment sheets which have already been prepared. The ruling, in effect, will cause taxes to rise in some areas although the county mill levy will not increase, and in some cases may even be cut. In 1967, Idaho counties were told to increase the assessment ratios gradually to 20 per cent by 1972. This seems innocent enough. But underneath there is trouble, and the trouble apparently is being caused because the Legislature did not take into consideration the effect this would have. To illustrate a point, we will take a property worth \$100,000. On the 1968 tax assessment basis, this property would be assessed at 14 per cent of its value or \$14,000. The 1969 tax is then based on the \$14,000 assessment figure. The tax for this property could run \$1,200 or

Ring In The New!

PAUL HARVEY

Johnson's Surplus

President Johnson now is hopeful of accomplishing in his last year what he was unable to do in the other years of his term—produce a budget surplus. Instead of the \$8 billion deficit projected in his original budget last January, Mr. Johnson now sees the government winding up the 1968-69 fiscal year with about \$1 billion to spare. The last time the government's books showed a surplus (a mere \$200 million) was in the last year of the Eisenhower administration. Outgoing presidents seem to have the knack of making the final year look good. A surplus for 1968-69, contrasting sharply with last year's \$25.4 billion deficit, would be the consequence of reduced federal spending mandated by Congress and increased revenues, including that from the 10 per cent surtax. As for the 1969-70 budget, Mr. Johnson's legacy to President-elect Nixon, the incumbent said he hoped the spending list he submits to Congress early next month continues the "small surplus". But if the new budget calls for spending between \$145 and \$200 billion, as expected, Mr. Nixon is likely to have trouble operating in the black without benefit of the surtax which, by law, expires next June 30. According to Maurice Stans, who will be Mr. Nixon's commerce secretary, the president-elect is still looking for a way to permit the surtax to lapse on schedule. But even according to Mr. Johnson's optimistic figuring, it would be, as Mr. Stans says, "rather difficult." The secretary-designate expressed his own hope of a cut in the surtax to 5 per cent. But this is only a hope.

MR. SPECTATOR

Once More Around!

If You Muffed 1968 Don't Despair

1969

Might Get You

There!

General Motors Loves You

HUD Secretary designates George Romney chief of word consumerism. Much better than any other, this word describes our economic system where the consumer is "Master Big." Under "consumerism" armies of merchants and manufacturers are competing with one another to try to please you. And to try to protect you, too. This latter one deserves more attention than it gets. I remember early this month, Sears, Roebuck & Co. discovered it had sold some dangerous jewelry. Four hundred items of costume jewelry decorated with a poisonous tropical bean, had been imported from Japan and sold through 138 stores in 110 cities. Chewed or swallowed, these Jequirity beans could be fatal. Nobody died. And the story of how each of those 31 items of jewelry were recovered should make American consumers stand very tall. The company spared no expense to recover its fumble, no matter how costly. It bought ads in newspapers in 110 cities calling attention to its own boob. The thousands of man-hours which Sears executives gave to this painstaking search cost an incalculable sum. But it is a reasonable assumption that the diligent quest—in your behalf—cost Sears, directly and indirectly, more than \$1 million. Industry, per se, has so many critics today. Big business is so often suspect of purely mercenary motivation with no concern about the welfare of its customers that this demonstration of infinite concern deserved more mention and attention than it got. Similarly, earlier this same year this same company called in some gas-busboard heaters which were admittedly defective would lose carbon monoxide gas.

GEORGE C. THOSTESON, M.D. Small Children

Youngsters become picky eaters at mealtime and sometimes do not get the foods they ought to eat. In fact, this can promote faulty eating habits which may last all their lives. They don't learn to eat a balanced diet. Too much sweet stuff can play havoc with the teeth. Since sugar is rich in calories, it can cause some important factors in causing overweight. Dear Dr. Thosteson: I am a 37 1/2, and like to keep in shape. I do 100 knee bends a day. Recently a friend told me I should do 100 sit ups a day. I'll get arthritis in later years. Is this just a tale or should I give up this exercise?—D.R. Your friend is just passing along a time-worn notion which has no basis in fact. Forget it! Don't take chances with "kidney trouble." It may be only minor, but it can be dangerous. Read Dr. Thosteson's booklet, "Your Kidneys—Facts You Need To Know About Them." Write to Dr. Thosteson in care of Times and News, enclosing a check. This address is no longer addressed, standard envelope and 25 cents in coin to cover cost of printing and handling. Dr. Thosteson welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible. Note to Mrs. M. K.: Ignore the rumor that you have heard about Telen. Scorching sun won't harm you (although it harms the Telen coating, of course). And handling it won't "produce burning" chemical changes. You reach a temperature of several thousand degrees which would be enough to melt down your kitchen stove. It is not harmful under any reasonable household circumstances. Note to Mrs. J. S.: I repeat my advice: TAW eggs can contain germs and cause diarrhea. To be safe, cook them. Dropping a raw egg into your coffee will not "cook" it.

ART BUCHWALD Bite The Tongue

WASHINGTON — It's "bite your tongue" time again. Many things were said in 1968 that the speakers would like to take back. But it's too late. Nobody knows where the people who said them are now. But you want to know who said them? Or the front of Gov. Wallace who advised him, "If you want a peace treaty, you will really grab the American people, you couldn't do better than Gen. Curtis LeMay." And let's not forget the fellow that told the new secretary of the treasury, David Kennedy, "If the press asks you what you think is the price of gold tomorrow in the next four years, tell 'em exactly what you think." Or the man in the State Department who said to Dean Rusk, "I assure you, Mr. Secretary, if we stop the bombing of North Vietnam, Saigon will be the scene of the conference table in Paris." Or the chap who said to Walter Rostow, "If you want to go back to Texas in the next four years, tell 'em you'll be back at M-I-T." Or the economic adviser to Chancellor Kiesinger of West Germany who said to the chief of state, "You would do a great deal to make my life on it. De Gaulle might have to devalue the franc." And what about the broker at Merrill Lynch, Pierce, Fenner & Smith who called up a client and said, "I just got some inside information on Douglas Aircraft. I think I ought to pass it on to you." Or the Navy admiral who said, "The Pueblo doesn't need an escort off North Korean waters. They wouldn't dare touch her." And finally, the man in the White House who said to President Johnson, "Mr. President, you want to hear something really funny? Gen. MacCarthy has gone up in New Hampshire to run in the primary against you."

# Perrine Hotel Purchase Heads Highlights During The Year 1968

Magic Valley people — their awaiting final signatures at the state capitol building — were great newsmakers in 1968. Urban renewal was a top event in Twin Falls, along with the city water system and the city's expansion. On Dec. 1, the city's expansion was nearly complete with the construction of a new water reservoir and a cover constructed over the old reservoir. The city was not without its problems, however. The fire department began a campaign late in 1967 making requests and later in 1968 the city employees organized asking for a 12 per cent wage increase. The merger of West Coast Airlines and Pacific Airlines brought Air West to Twin Falls Municipal Airport.

The big news at the airport in October. The institution received full accreditation in December. College President Dr. James L. Taylor was honored by the community at a special banquet during October. Twin Falls County Commissioners were not without their woes in 1968. The Supreme Court ruled they had erred in constructing the judicial building without calling for general contract bids. The commissioners also ruled out hiring out-of-county people, but later rescinded the action. Magic Valley Memorial Hospital came under fire after the first of the year. The death of Mrs. Kent Mellies at the hospital, who was shot New Year's Day, precipitated the move. The hospital authorities met and promised to investigate and correct the problem of having doctors immediately available for emergencies. Although the mental health center issue quieted during the latter part of the year, it was much in the news at the first part of 1968. The center idea was criticized by some of the fairly groups in the area. The South Central Community Action Agency instituted several new programs during the year. The Neighborhood Youth Corps program was instituted and neighborhood centers were organized in Twin Falls and Bur-

ley. Al Morgan, director of the agency, resigned in December. Major fires dotted the valley in 1968. The Overland Shopping Center and Burley burned in April, but is being rebuilt. On Feb. 26, the Lincoln Hotel, Gooding landmark, was burned to the ground. The Sun Bowl in Keetchikan burned in May and in September the Fairfield Improvement building was destroyed by fire. The only major fire in the firing of Jerome Police Chief Clarence Vinset and Captain Donald Elza Hall. In January, Idaho lost one of its most esteemed writers in the death of Vardis Fisher, Hager, five years.

The world banker's conference in Sun Valley brought international attention to the area. U.S. Ambassador Averell Harriman was the featured guest at the meeting in the Twin Falls County confab. Much highway construction was seen through Magic Valley, but the opening of the Red Cap Corridor near Kimberly was probably the most notable achievement. The corner was laid for the new downtown Twin Falls traffic light. The new downtown and will be completed within the next few years. All in all, it was a busy year for Magic Valley and for news-

## 'Big-City' Rents Soar Faster Than Living Costs

NEW YORK (AP) — Rents for the average big-city apartment have climbed twice as fast as the cost of living in New York and many apartment dwellers are up in arms. Increases of 8 to 10 per cent in apartment rents were common, said the National Association of Real Estate Boards. The cost of living went up 4.7 per cent this year. Frederick S. Beckman, commissioner of the Department of Rent and Housing Maintenance in New York, said he has received "thousands of complaints" from tenants claiming rent gouging by landlords. Many landlords, he said, have demanded "increases of 10, 20 and 30 per cent — in excess of 100 per cent." The terror over rising rents involves about one-third of New York's 2.1 million apartments. The rest remain subject to a rent control law of World War II vintage. New York is the only major city with a rent control law. Real estate men in Miami, Fla., say rents there have gone up an average of 10 per cent in the past five years. Don Lawrence, vice president of a property management firm which operates in five Southern California counties, said the basic price for a typical three-bedroom apartment in the San Fernando Valley would be \$185. If the building has a pool, sauna bath, recreation room, the price can go up to \$400, he said. AUTHOR SUCCUMBS — BERKELEY (AP) — Hugh Wiley, 64, short-story writer whose works appeared in the Saturday Evening Post for many years, died Monday night of pneumonia and a heart ailment. Wiley also had written a movie.

In January of 1968 a similar situation caused the closure of Twin Falls schools for the first time in 17 years. The Twin Falls school board voted in April to close Union School, which was followed by some protests by parents in that area. Twin Falls County later purchased the school for the Historical Society to establish a museum. Burley defeated a school bond of \$800,000. Many of the valley schools experienced high absences caused by the flu in November and December. Jerome Superintendent of Schools William Lipscomb was fired by the board.

Drug arrests in Twin Falls, Rupert and Burley were most noticeable in the crime field. Early in the year two Twin Falls policemen, Michael McGree and Ed Heath, were charged in a false evidence case and dismissed from the force. Both men pleaded guilty to lesser charges in September. The Michael Dillon trial in Jerome drew the most attention throughout the valley. The youth was charged of second degree murder in the death of Mrs. Alta Simerly Jerome, and is in the Jerome County jail awaiting an appeal. Lea Collier, Twin Falls, pleaded guilty to second degree murder in the shooting death of Ambassador Averell Harriman in his wife and is awaiting sentencing in the Twin Falls County confab. The death of Mrs. Sarah Jones, Burley, which was caused by a truck, was a tragedy talked about case. Other events which received considerable news coverage was the death of Mrs. Sarah Jones, Burley, which was caused by a truck, was a tragedy talked about case. Other events which received considerable news coverage was the death of Mrs. Sarah Jones, Burley, which was caused by a truck, was a tragedy talked about case.

## Arctic Explorer Died From Arsenic, Autopsy Indicates

HANOVER, N.H. (AP) — Evidence from an autopsy indicates that Charles Francis Hall, who died 97 years ago in North Greenland trying to reach the North Pole, was poisoned with arsenic, a Dartmouth professor said Monday. Dr. Chuncey Loomis Jr., who is writing a biography of Hall, said: "There were strong personal animosities aboard Hall's vessel, and in the closed atmosphere of a winter expedition, even mild dislike from an angry individual could be intensified to the point of violence." He exhumed the body after reading a transcript of a Navy report of natural causes. Loomis said Vilhjalmur Stefansson, an arctic explorer, wrote in his journals that Hall's death should be investigated. Hall, a Cincinnati, Ohio, industrialist and newspaper publisher, had in the past

mandated a government expedition to the North Pole, Loomis said. The Polarist, reached the ice pack of the Polar Sea, 500 miles from the pole, in 1871. Hall left on an exploratory sledge journey and when he returned became ill after drinking a cup of coffee, Loomis said. Hall died after two weeks of violent illness, during which he said he was being poisoned, Loomis said. Dr. Franklin Paddock of Pittsfield, Mass., performed an autopsy on Hall's body and sent samples to the Toronto Center for forensic toxicology.

"...and then I'll have another \$150 a month from my first Federal account."

"How long will it take you to save enough to get back \$150 a month?"

"I save \$150 a month for 15 years — pay myself \$150 a month for 15 years — and still have more money left than I saved!"

## Union Ordered To Work Past Target Set For Walkout

DENVER (AP) — Members of the Oil, Chemical and Atomic Workers International Union were ordered Wednesday to continue working although their contracts expired at midnight. Union President A. F. Grosprion said all negotiations are to be recessed until Thursday, and he ordered workers to continue on their jobs until further notice from the union's Denver headquarters.

Grosprion said the 435 contracts involving some 60,000 men have not been extended. The men are working without contracts, he said. Most union members work at refineries. A Continental Oil Co. spokesman said Tuesday night his company had offered a raise of 35 cents an hour over the next two years. Twenty cents of that raise would be effective immediately with the remaining 15 cents added next Jan. 1.

The company also offered to increase night differentials from 10 cents to 15 cents an hour for the evening shift and from 20 cents to 30 cents an hour for the midnight shift.

The spokesman said similar offers had been made by other companies negotiating separately.

The manager of the Port Arthur, Tex., refinery of the Gulf Oil Corp., R. J. Metcalf, said the refinery had made a package proposal to a committee representing the union's main plant group and office workers.

He said the proposal provides for a three-year contract and benefit plans, and proposed a 15-cent increase over the next 22 months, with an additional increase for craftsmen, higher premium pay for night work, and cost-of-living hospitalization insurance and pensions.

Alan B. Amsden, director of public information for Continental Oil, said Tuesday the major oil companies, anticipating a strike, are prepared to continue refinery operations with supervisory personnel. Major advancements in automation in recent years has made this feasible, he said.

Some smaller plants would shut down, he said, with the supervisory personnel moving to operations of the major plants.

THE DAVID EISENHOWERS — David Eisenhower and the former Julie Nixon — stroll around the grounds of the Lost Tree Club in Palm Beach, Fla., on Tuesday while spending their honeymoon after their Dec. 22 wedding in New York. (AP wirephoto)

## Mills Seeks New Strength For Police

BOISE (AP) — Proposals to make Idaho highways safer in future years, including one calling for 50 additional state troopers, were listed on New Year's Eve by State Law Enforcement Commissioner Warner C. Mills.

Mills said 1968 ended on a tragic note Tuesday, as Idaho's traffic death toll of 288 set an all-time record. The 1967 toll of 276 was the previous record.

Other requests he said would be made of next year's legislature were for updating of the driver licensing system, improvement of motor vehicle and vehicle inspection laws and a more efficient traffic records system.

Revenue and activities by the department's 11 divisions increased last year, too. "Our work load has increased but by careful planning and assigning of personnel we have been able to complete the job and still save money for the state," he said.

Mills said a major accomplishment of the law enforcement department last year was establishment of a specially trained crowd control and riot squads. More than 200 state and local law officers were trained and control equipment is now in six locations around the state for quick distribution.

BOISE (AP) — Boise police are still looking for a safe containing about \$2,500 in cash and checks which was stolen Monday morning from an Albertson's supermarket in West Boise.

Large fragments of a safe, a stolen wrecking truck and \$1,333 in cash were found Tuesday in the desert southeast of Boise, near Interstate 80N.

Boise police said the thieves had broken out a front window of the store and lifted the safe into the truck with its winch.

Capt. Gene Lee said a small, innit safe was still missing, with the nearly \$10,000.

He said the truck was reported stolen in Nampa.

Exploded' Safe Located In Boise

BOISE (AP) — Boise police are still looking for a safe containing about \$2,500 in cash and checks which was stolen Monday morning from an Albertson's supermarket in West Boise.

Boise police said the thieves had broken out a front window of the store and lifted the safe into the truck with its winch.

Capt. Gene Lee said a small, innit safe was still missing, with the nearly \$10,000.

He said the truck was reported stolen in Nampa.

## Aliens' Warned Of Registry Law

BOISE (AP) — "Alien address report month" was proclaimed Tuesday by Gov. Don W. Samuelson.

Samuelson urged all Idahoans who are citizens of the United States to comply with federal law by reporting their addresses to the U.S. Immigration and Naturalization Service in January.

# Hunter Rescued; One Dies

PORTLAND, Ore. (AP) — A daring helicopter landing on a narrow rock in Columbia River Tuesday afternoon rescued one of two stranded duck hunters.

The second hunter was dead, his body was left on Sand Island where the two had been stranded since early Sunday.

The rescued man was rushed to a hospital. He was Clark Riegel, 29. The man who died was Raymond Hurd, 25. Both were from Portland. Hurd was single.

A Coast Guard helicopter crew made the tricky pickup when winds moderated slightly this afternoon and visibility improved. It had been waiting since Monday for a chance to get to the island.

Boats had been turned back by foggy water and ice that formed on the boats and threatened them with capsizing.

A Coast Guard spokesman said the man who died was in a brushy, ice-encrusted area and the single crewman who left the helicopter could not reach his body in the time available. A sheriff's party was to be flown to the island Wednesday to recover it.

The spokesman said rising winds made it necessary for the helicopter to get out quickly with the one man who was still alive.

Woodland Park Hospital said Riegel's condition was serious but that he was conscious although not entirely rational. He was being checked for frost injury.

Mrs. Riegel had said earlier the men had a portable shelter and a heater but she did not know how much fuel they had for it. Temperatures were close to zero but moderated some Tuesday afternoon.

## AEC Station Notes Record Job Level; Manager Plans Continued Growth

IDAHO-PALLS (AP) — Last year was a record year for regular employment at the Atomic Energy Commission's Idaho Reactor Testing Station, and the Idaho manager of the Atomic Energy Commission predicts continued, stable operations.

W. L. Ginkel, AEC Idaho operations manager, said 1968 was a record year for regular employment at the Eastern Idaho desert site, was 5,663, about 100 more than the record high of the year before. Besides that, about 400 construction workers were employed during the year.

The station's major assignments involve four of the commission's long-term programs: reactor materials testing reactor for safety, fast breeder reactor development and naval propulsion. Ginkel said.

"Barring adverse developments that no one can foresee now, the prospects are favorable for continued stability of operations," Ginkel listed major 1969 accomplishments:

—Approach to power operation of the plant's new advanced test reactor.

—Completion of zero-power plutonium reactor construction and continued progress in building two other reactors—the loss of fluid test and power burst facility.

—Successful adaptation of zirconium-clad fuels of the waste-catching technique for converting highly radioactive liquid wastes into safer solid form.

—First start-up at NRTS of a small nuclear effects research reactor.

—Installation of an expanded computer facility for NRTS data processing.

—U.S. AIDE RESIGNS SAN ANTONIO, Tex. (AP) — President Johnson has accepted the resignation of William C. Foster as director of the U. S. Arms Control and Disarmament Agency, the Texas White House announced Tuesday.

## 'Rehabilitation Still Important' Governor Cites Prison Needs

BOISE (AP) — Gov. Don W. Samuelson said today recent changes at the Idaho State Penitentiary are not an indication of "change" in his attention of improving rehabilitation programs for the inmates.

But Samuelson said the changes were made because "our first responsibility is the protection of the public."

Virgil Cary was named acting warden at the prison two weeks ago. The second change in that position in two months, Samuelson said, he asked the Board of Correction to make the change as a result of continued runaways by inmates.

Asked at his news conference if the change indicates a shift in his desire to improve prison rehabilitation, the governor replied "no, sir." He added the "security and rehabilitation go hand in hand."

Samuelson denied he had ordered the board to name Cary. C. L. House, the board chairman, said Monday he did not approve of Cary's appointment as acting warden but that the governor had ordered it.

The governor said he talked to House, who was ill at the time, by telephone and suggested Cary's appointment. Samuelson said he asked House if he would agree to the action and the state House replied: "If you ask me, I will."

Samuelson said he will recommend to the legislature that it revise the administrative set-

up at the prison, making the Board of Correction a part-time advisory agency with a full-time trained penitologist as warden.

The governor announced Monday appointment of Roger Bryner of Boise as a member of the board, replacing Saul Clark whose term is expiring.

Samuelson said that Bryner, who has had experience in business and construction, will be expected to strengthen the board in those areas. He said construction experience is important because a new prison complex now being built at a rural location south of Boise.

Samuelson said the correction board likely will meet early in January and name its chairman for 1969.

# Officials List Worries Over 'Space'

MOI - Into space to determine if man can conduct useful military tasks in orbit-

By HOWARD BENEDICT  
AP Aerospace-Writer

CAPE KENNEDY, Fla. (AP) — The fabulous success of Apollo 8 gives the United States a good chance to land men on the moon in 1969. But space officials are worried about the next decade in space.

The fears, generated by a shortage of budget money, center on job insecurity by hundreds of workers, erosion of congressional support, and deterioration of the nation's technological momentum, and loss of the overall space race to Russia.

The National Aeronautics and Space Administration is watching closely the impact of Apollo 8, in which three astronauts orbited the moon. Officials hope it will help rally public and congressional support, behind continuing a strong space program.

The space agency also is

watching President-elect Nixon for clues to his feeling on the space effort.

If American astronauts land on the moon in 1969, they will be the first to do so since the first President John F. Kennedy's pledge that U.S. space men would be on the lunar surface in this decade.

But enthusiasm for reaching the moon is dampened by a "first-ter-on-job" insecurity by hundreds of workers, erosion of congressional support, and deterioration of the nation's technological momentum, and loss of the overall space race to Russia.

With the Vietnam war and more and more money, no funds are available to establish another national goal, or even to start significant new unmanned space projects.

Congress gradually has pared the NASA budget from \$1.1 billion in fiscal year 1966 to less than \$4 billion this year. In the same period, the number of persons working on the program throughout the nation has dropped from 420,000 to 200,000.

Hard hit by the budget cuts

were NASA's plans to have a continuing series of manned flights to the moon and in earth orbiting stations — the first in several launches a year well into the 1970s, with the possibility of an astronaut landing on Mars in the 1980s.

But officials had to stop production of the huge Saturn 5 and the smaller Saturn 1B rockets which would have propelled these flights.

Presently, there are funds for two, possibly three, man-on-the-moon landings in the next couple of years.

Meanwhile, NASA is preparing slowly for three flights involving a modest space station called a workshop. It will keep three men in space for up to 56 days for scientific and engineering experiments.

Originally scheduled for 1968, the first workshop launching now is set for 1971, with the last planned the following year.

After that, there will be a gap of at least three years in NASA manned space missions, unless

the congressional purse strings are loosened.

The space agency would like to launch the first large multipurpose space station in 1975. It would accommodate 9 to 12 men for periods of several years with crews changed from time to time via a shuttle service to earth.

The Defense Department, meanwhile, will continue to conduct flights in 1973, sending its Manned Orbiting Laboratory to orbit.

A VIET CONG GUARD motions to three United States prisoners as they are led out of the jungle for release to a medical team on a clearing on the banks of the Nam river near Tay Ninh Wednesday. From the front to rear are Spec. 4 James W. Brigham, Ocala, Fla.; Spec. 4 Thomas N. Jones, Lynnville, Ind., and PFC Donald G. Smith, Akron, Pa. (AP Wirephoto)

## Cong Finally Release Captives

### Limping Yanks Gain Freedom

By HORST FAAS  
Associated Press Photographer

VAM CO DONG RIVER, Vietnam (AP) — The Viet Cong guerrilla leader raised his arm. From the jungle stumbled three young Americans, their heads bowed, feet dragging.

This ended unprecedented negotiations between unnamed American and Viet Cong officers in a paddy field 50 miles northwest of Saigon.

The first meeting, Christmas Day ended inconclusively. It was an unforgettable New Year's Day for Spec. 4 Thomas N. Jones of Lynnville, Ind., Spec. 4 James W. Brigham of Ocala, Fla., and PFC Donald G. Smith of Akron, Pa., all 21 years old.

They had been released ceremonially by the Viet Cong on Dec. 25, but they seemed doubt-

ful until the final few feet to a waiting helicopter which took them to an Army evacuation hospital near Saigon.

As they stood in front of a fluttering Viet Cong flag, listening to interpreters reading the Viet Cong propaganda statements, Smith mumbled: "By God, let's get all this over with and out of here."

Smith, a captive since May 12, appeared the weakest of the three. When the men emerged in file and stumbled across the muddy clearing, he fell behind.

Badly limping on swollen feet and evidently under strain carrying his shoulder bag of personal belongings, he was urged forward by a green clad Viet Cong soldier.

Jones also was suffering from bleeding feet. He had been a captive for four months, and crusts of blood were visible between his toes.

The fittest of the three was Brigham, a tall blond shouldered Negro who was captured in September. He reacted with a smile when Western newsmen situated, "Happy New Year!"

"We came a long way, very far, through swamps and marshes and woodlands. Some times we traveled by boat at night," he said.

when they saw the crowds and their guards slogged at their sleeves. Around were unarmed guerrillas, teen-age boys apparently acting as messengers for the Viet Cong, one girl, two old farmers and a 10-year-old boy with a tape-recorder who said he was a "radio man" for the National Liberation Front.

Only Brigham reacted to questions from newsmen, saying: "I would like to say that the National Liberation Front does treat its prisoners humanely."

Later Brigham put his arm around the shoulder of Capt. Melvin R. Chatman, a U.S. team member, and said: "I was sure you know that I made a few statements over there to the press, but I made them under pressure because I was still a prisoner."

Chatman then ordered Brigham and the other two not to talk to anybody.

During the first 30 minutes of the meeting the Viet Cong attempted to talk "procedure" again. The tactic had resulted in the failure of the Christmas day meeting.

U.S. team leader Gibney said: "I am willing to take the prisoners now, and right here." The Viet Cong said the three prisoners would be produced in one hour.

They then called a recess. The Americans sat around their helicopters, in the grass drinking tea, watching as Viet Cong with cameras swarmed around the area.

The Viet Cong delegates pulled a table from the bushes, sat on their wooden chairs and drank five bottles of Saigon beer.

In fluent English the Viet Cong interpreter quoted his superior, and set the conditions for the release of the prisoners: 1. Return the men promptly to their families. 2. The men must be published, and 3. The South Vietnamese in the area around the negotiating table should not be armed against the Viet Cong.

## Dirksen Defends Hickel

WASHINGTON (AP) — Senate Republican Leader Everett Dirksen says Sen. Dan Rostenkowski seems intent on making a record of opposition to President-elect Nixon's choice for secretary of the interior.

But to protracted Tuesday all of Nixon's Cabinet nominees will eventually be approved.

Dirksen's attack on Nixon's choice of Alaska Gov. Walter Hickel for the interior post as "one of the best Cabinet appointments Nixon could make."

The Republican leader said in an interview he will ask the Democrats who control the Senate to support the nomination of Hickel.

Dirksen said he would not object to such hearings.

Jackson said, however, that he would not see a full opportunity to present their side of the case even if this involved continuation of the inquiry after Nixon formally makes the nomination.

The Americans were grumpy, black and shirts colorfully dyed for the occasion. They showed no signs of wear.

The two white Americans were unarmingly polite and friendly. They said they had been kept in caves or tunnels during their captivity, and traveled only at night.

Waiting for them in the large clearing were about 70 people, standing formally in the center were the two top American negotiators, Lt. Col. John V. Gibney of Clearwater, Fla., and Maj. Jean A. Sauvageot of Akron, Ohio.

The Americans' interpreter, PFC Donald G. Smith, in a blue and white shirt, and his interpreter, a South Vietnamese, stood behind them.

**Pocatello Youth Dies In Mishap**

POCATELLO, Idaho (AP) — Percy Lavelle Hoody, 17, of Pocatello, was killed Tuesday afternoon when a car in which he was working slipped from a jack and fell on him.

Pocatello police said the accident in the garage of his home, occurred when "the boy was alone and apparently broke his neck."

He was the son of Mr. and Mrs. Robert Hoody of Pocatello.

# 'Shape' Of Future Offers Conflict, Tension, Worries

By WILLIAM L. RYAN  
AP Special Correspondent

Looking forward to 1969, if you are, you probably qualify as an incurable optimist.

On the threshold of a new year, the shape of Mother Earth looks something like this:

**Asia**

The Vietnam war goes on and on. In the past 18 months of talks in Paris. Dead on both sides since the American phase began in 1967, now total well over half-million by U.S. reckoning; more than 30,000 were Americans. The talks are bogged down in procedural wrangling over such matters as the shape of the negotiating table.

Hopes for peace in Southeast Asia are complicated by fears of what the peace may bring to other nations in the area. Might an American withdrawal from Asia's mainland bring more uprisings, more guerrilla wars, even more instability?

Communist China, the enormous fact of Asian life with its 700 million restive people, has emerged as a nuclear power to be reckoned with. It has just achieved its eighth nuclear explosion. It is a power, a worry on a Pacific frontier, but to Peking, one-time ally, the Soviet Union, whose border with China is the world's longest, is a major concern in the immediate future. It is also of primary concern to all its Asian neighbors, including the United States, which upon whose frontier the Chinese apply frequent pressure.

Korea remains a potential time bomb. Communist North Korea is stepping up warlike activities against South Korea. Whether this means a new North-South military pact against the South, while the United States is involved in Vietnam, is anybody's guess, but the Korean peninsula could easily emerge as the world's next explosive spot.

**Middle East**

The story continues to be one of never-ending tension, aggravated by the fact that Israel is nestled in a sea of 30 billion Arab enemies, occupies Arab territory taken in the lightning war of June 1967. Arab armies and Arab terrorists train and hope for the day when they will exact their vengeance. Israel has just demonstrated that its massive raid on Beirut International Airport that she intends to respond to terror with punishing terror of her own.

The major concern in Africa is complicated by Soviet-American rivalries in the Mediterranean area, and the complication is further compounded by sensitive political situations in Eastern Europe. Though both Soviet and American leaders' gestures testify to the eagerness to keep the lid on Middle East eruptions, the tensions are such that it could blow up at any time.

**Africa**

The major concern in Africa for a watching world at the moment is Nigeria and its civil war, which threatens to exterminate sections of the population through a combination of military punishment and starvation. Big-power rivalries help confuse the issue and render more difficult any search for a way out. The rest of the African continent, with most of its people only recently independent, is full of both tensions and hopes. Among the nations engaged by race problems in South Africa and Rhodesia and by colonial problems in areas like Angola, still held by Portugal.

**Europe**

Eastern Europe, historically a kettle for brewing conflict, once again revolves a major source of worry, springing from the Soviet invasion of Czechoslovakia last August to snuff out a reform movement—the backbone of this generation's rebellion in Yugoslavia, whose maverick Communist regime skillfully eyes the Soviet Union for signs of her intention. Her eyes, the Russians, wondering when or if they will demand the right-to-action troops there.

The Czechoslovak episode laid down a new set of rules for Europe so far as Moscow was concerned. Eastern Europe, it has a major effect, in its private sphere where it will tolerate no hint of Western interference. Communist-ruled nations have been told, by the so-called "Brezhnev Doctrine" enunciated by Moscow's party chief, that the Kremlin calls the tune on the cultural, economic and political development of European nations under Communist regimes.

Czechoslovakia is the westernmost Communist nation in Europe. Its borders touch West Germany and Austria, a fact which gives added weight to persistent Soviet complaints and belted threats about the West Germans. West German participation in the North Atlantic Treaty Organization has relations a center of tension for Europe and for Soviet-American relations. The status of West Berlin, isolated 10 miles inside East Germany, continues to be a potential center of crisis.

The Soviet attitude toward Czechoslovakia, Yugoslavia, Romania and Europe in general have impelled the NATO members to look to their organization for defense, dampening

CAPT. WILLIAM WARWICK, bearded skipper of Great Britain's new Queen Elizabeth 2, was asked by a friend to leave the bridge for a holiday drink on the Lusitania success photo.

ful shakedown cruise of the ocean queen. "No," thundered the captain, "I never drink when I'm driving." (AP wire photo)

side in all this. There is a threat lessening the major ambition can at times transcend chance, for example, that the incessant terrestrial wrangling Vietnam war will be at least And man has demonstrated. But over all, the portents for scaled down. There is a chance through the space explorations 1969 do not appear to be particularly of the two great powers, that his lary bright.

There probably is a brighter

## Oil-Theft Report Triggers Punishment For Navy Aide

By LAWRENCE L. KNUTSON  
WASHINGTON (AP) - Sen. William Proxmire says he wants to know what happened to millions of gallons of fuel stolen from U.S. military operations in Thailand and will demand public release of an Air Force investigation into the matter.

The Wisconsin Democrat said he particularly wants to know if any of the aircraft and equipment involved found its way into Communist hands.

Proxmire also pledged personal support Tuesday to the Navy civilian employee who "blew the whistle" on the thefts and claims he was abruptly transferred from Bangkok to a make-work job in the Washington suburb.

Letters from the civilian petroleum inspector John McGee to Proxmire triggered the General Accounting Office investigation that confirmed the massive fuel thefts.

The GAO report, which Proxmire released to the Associated Press, said at least 5.5 million gallons of fuel was stolen in 1967 through bribery of military personnel, forgery of official supply documents and collusion.

It said laxly by officials responsible for the petroleum flow to military units made the thefts easier.

"One of the saddest aspects has been the story of the man who blew the whistle—who exposed the Proxmire case—he was put in a position where it was clear he would be fired."

The senator said his staff intervened with Navy officials to help prevent McGee's dismissal. He said the Navy is trying to deny McGee a customary pay

raise and has told him the downgraded job he now holds will soon be phased out.

McGee was transferred to the Navy Fuel Supply Office at Alameda, Calif., he said his assignment amounts to "nothing more than a make-work job as a filing clerk, with no other duties to do."

The Navy employee said he wrote Proxmire of lax controls over fuel deliveries only after exhausting other channels.

The Navy refused immediate comment but its travel orders for McGee said the transfer was being made to assure him an opportunity for complete presentation of alleged grievances, and at his own request.

McGee said he did not request the transfer. "The Navy wanted me out of Bangkok," he said.

## Tanker Smashup Kills Man

SPOKANE (AP) - One person was killed and another seriously injured when a station wagon rear-ended a gasoline tanker early New Year Eve in a blinding snowstorm about 30 miles north of Spokane.

Washington State Troopers at the scene said the victim was Eugene M. Galbraith, 23, of Wellpint, Wash., driver of the station wagon.

Three other young men riding in the station wagon were injured and troopers said one of them, Allen A. Flett, 14, also of Wellpint, was rushed in serious condition to the Tri-County hospital in Deer Park.

Other details on the accident were lacking.

## Magic Valley Obituaries

### Mrs. Lucy Stone

JEROME - Mrs. Lucy May Stone, 84, died of a short illness Tuesday morning at the Lutheran Hospital, Mesa, Ariz.

She was born Sept. 16, 1904, in Ogdensburg, she came to Filer in 1915 with her parents. She was a graduate of the Albion Normal School and had taught elementary school at Burley and Heyburn.

She was married to Charlie Stone June 15, 1929, at Wendell. They lived in Eden for many years and had just recently moved to Jerome. They were spending the winter months in Arizona.

She was a member of the Kimberly First Christian Church, the Eden Rebekah Lodge and the Jerome Chapter, No. 34, Order of the Eastern Star.

Surviving, besides her husband, are four sisters: Blanche Otto, Jerome; Mrs. Mary Peck, Buhl; Mrs. Florence Crouch, Burley; and Mrs. Wandor Sult, Sanoma, Calif.; a brother, Sam Otto, Salem, Ore., and two half-sisters, Mrs. Star Doyle, Edmond, Okla., and Mrs. Joy Woods, Caldwell.

The family suggests that any memorial contributions be made to the Heart Fund, American Heart Association, 1000 N. Main St., Burley, Idaho.

### Funeral Services

Mrs. Myrtle V. Denney, 2 p.m. Friday, Buhl Christian Church.

Mrs. Magdalena Wagonan, 2 p.m. Thursday, Walk Mortuary Chapel, Rupert.

Richard M. Seal, 2 p.m. Friday, Walk Mortuary Chapel, Rupert.

Alex Olatua, Rosary, 8 p.m. Friday, Walk Mortuary Chapel, Rupert.

Ray R. Reardon, 11 a.m. Saturday, St. Nicholas Catholic Church, Rupert.

Mrs. Esther L. Archer, 10 a.m. Friday, Trinity Lutheran Church, Rupert.

John C. Paul, 2 p.m. Thursday, Joseph Payne Memorial Chapel, Burley.

### Hazel Turner

Mrs. Hazel A. Turner, 31, 1317 Eighth St., Caldwell, died of a short illness Sunday morning at a Caldwell Hospital.

She was born Feb. 20, 1935, in Denver, Colo., and attended schools in Colorado and Idaho.

She was formerly employed at Magic Valley Memorial Hospital and at the time of her death was employed at the Caldwell Memorial Hospital.

She was married to Donald L. Turner in May, 1965, at Caldwell.

Surviving, besides her husband, are a daughter, Theresa A. Wambolt, Twin Falls; two step-children, Teresa O. Woods, Chicago, Ill., and Edward L. Turner, Lincoln, Neb.; her mother and step-father, Mr. and Mrs. Emil Wyatts, Twin Falls; two sisters, Mrs. Aubrey (Goldie) Smith, Caldwell, and Mrs. Rex (Colleen) Collins, Caldwell; and three brothers, Raymond (Bud) Higgins, Hansen, Elmer, Higgins, Twin Falls, and R. B. Higgins, with the U.S. Navy.

She was preceded in death by her father, Ray Higgins, Twin Falls.

Funeral services will be conducted at 1 p.m. Friday at Walk Mortuary Chapel, Twin Falls, by Rev. Harold Vye. Final rites will be at Sunset Memorial Park.

### Peking Charts Party Congress

TOKYO (AP) - Communist China said today it will stage its long-delayed party congress, achieve "all-round victory" in its cultural revolution and celebrate its 20th anniversary "with grandeur" in 1969.

"The year 1969 will be a brilliant and extremely important one in the advance of the Chinese and world revolution," said the Peking People's Daily, the theoretical organ of "Red Flag" and the Liberation Army Daily in a joint New Year's Day editorial.

Calling China's Dec. 27 hydrogen bomb test "another fruitful result" of Mao Tse-tung's cultural revolution, the Marxist organs reiterated that it was "another heavy blow at the policy of threats and blackmail of U.S. imperialism and Soviet revisionism."

### Ernest Wysong

RUPERT - Ernest Wysong, 94, died Wednesday morning at Mindoka Memorial Hospital of a long illness.

He was a long-time Rupert resident and worked for the cemetery district until retirement five years ago.

Funeral arrangements are under the direction of Walk Mortuary, Rupert.

## Judge Denies Plea To Record Trial Of Sirhan

LOS ANGELES (AP) - A judge denied today a request that the trial of Sirhan Bishara Sirhan be video-taped and preserved for the "benefit of history."

Sirhan, a 24-year-old Jordanian, is charged with murdering Sen. Robert F. Kennedy last June 5 just after Kennedy announced he had won the California Democratic presidential primary.

Superior Court Judge Herbert V. Walker said he is "definitely of the opinion" that video taping the trial "would be in direct violation of . . . the rules of the judicial council."

Walker said he could "thoroughly appreciate" the request from county supervisor Kenneth Hahn, adding he would make a copy of the daily transcript of the trial available to Hahn or to the county clerk.

Sirhan's trial is scheduled to start Jan. 7.

## Weisslers Win Wendell Contest

WENDELL - The Carl Weissler residence was recently announced the winner of the annual Wendell Christmas Lighting contest. Other winners were: Mrs. Gertrude McKisick, second place; James Eaton residence, third place; Robert Durks residence, fourth place; and Bob Howard residence, honorable mention.

Mrs. Richard Marlow Wendell, Mrs. Marion Robinson, Tuttle, and Mrs. Floyd Lancaster, Wendell, were judges for the contest.

The event was sponsored by the Chamber of Commerce.

The couple became engaged during the Christmas holidays and plan to marry in February. (AP wirephoto)

### Gov. Rampton Urges Survey Of Graze Fees

SALT LAKE CITY (AP)—Interior Secretary Stewart Udall has been sent a letter from Utah's governor asking reconsideration of the proposed fee increase for grazing on public lands.

Gov. Calvin Rampton said Tuesday the Public Law Law Review Commission will soon report on its study of all aspects of use of federal lands, and "for the departments of Agriculture and Interior to make arbitrary regulations at this time... would indicate a rather cavalier attitude on the part of the executive branch... toward this study."

He said the action didn't recognize "the adverse economic impact that a drastic rise in grazing fees will have on users, the rural areas, and the general economy of the states with large areas of federal land."

He said the increase proposed over a 10-year period "would bring these fees far above those charged by states and private interests."

### Cohen Holds \$4 Medicare Fee, Warns Doctors On Costs

WASHINGTON (AP)—Pressure is building in Congress for controls on escalating doctor fees under the Medicare program, administration sources say.

Wilbur J. Cohen, secretary of health, education and welfare, warned of possible controls Tuesday in announcing he won't increase the \$4-a-month premium—the elderly pay to get coverage of doctor bills.

"If the nation's doctors don't hold their fees to present levels, Cohen told a news conference, "I can only believe that Congress will do something more and it may be something they do not like."

High level aides in Cohen's department said he is convinced the "something more" would be a limitation on fees for which doctors could be reimbursed. He has said previously that Congress might institute a fee schedule.

But while the doctor fee premium will not go up, patients' contributions for hospital benefits under Medicare go up after today to cover the first 94 of costs instead of the first \$40.

After 90 days in a hospital, patients begin paying \$11 a day instead of the present \$10. After 90 days, they begin paying \$22 a day instead of the present \$20.

The increases apply to patients who enter hospital after and it may be something they do not like."

Doctor fees jumped about 7.5 per cent in 1966-67, the first year of Medicare, and rose another 6.1 per cent in 1967-68.

Cohen said his decision against a raise in the premium was made in spite of a prediction by his top economic aide that doctor fees will go up another 5 per cent in 1969. Such an increase would require a 40-cent raise in the present \$10.

The program were to remain in the black, he said.

But the secretary concluded that raising the premium would invite higher doctor fees and inflation in all medical costs.

"To rule out the need for premium increases in the future, Cohen said he will recommend to Congress that the premiums be eliminated.

The elderly then would get doctor fee coverage automatically, as they now receive hospital coverage. All costs then would come from Social Security, which wage earners must contribute in their working years.

### More Guards Sought For Prison Class

BOISE (AP)—Eleven new Idaho State Prison guards have been requested to permit establishment of three new vocational classes for inmates at the now-penitentiary site south of Boise.

Acting Warden "Virgil" Cary said he had requested the guards. The new site was closed by Cary the second day as acting warden because of poor security conditions there.

"Rehabilitation and security go together and I don't see any problem if we get the additional guards," Cary said.

The three new classes, part of a program financed by a federal grant, are to be in farm equipment operation, hotel and restaurant chef work and electrical appliance and refrigerator repair.

Only 44 of the 83 men who applied for the classes were approved by the internal classification board for the reduced security at the new site. The applicants will be screened by the State Department of Employment's testing board, which will place them in the classes.

### FBI Director Attains 74 Years

WASHINGTON (AP)—FBI Director J. Edgar Hoover's job assured in President-elect Nixon's administration, observed his 74th birthday anniversary today.

Aides said Hoover, who avoids special celebration on such occasions, was in good health and looking fit after back work in his office this week.

Hoover, FBI chief for 44 years, walked over the weekend in Florida with Nixon, who announced Hoover had agreed to remain at his post.

In a message in the January issue of the monthly FBI Law Enforcement Bulletin issued Tuesday, Hoover called for fair but vigorous law enforcement, prompt and decisive prosecution and realistic punishment of criminals.

### Senate May Probe Actions Leading To Pueblo Seizure

WASHINGTON (AP)—Backed by reports in the Senate Armed Services Committee for an investigation into why the USS Pueblo was scuttled and other questions surrounding its capture by North Korea, Senate Chairman Richard B. Russell, D-Ga., raised the prospect of a committee investigation early this week and committee sources said several other members say they also have questions.

Russell said he specifically wants to examine orders the ship was under when it was seized by four North Korean gunboats Jan. 23. He said Sen. Jack Miller, R-Iowa, a committee member, said no final evaluation can be made on whether the ship should have been scuttled until all the facts are brought out.

"I'd like to know how much intelligence was used, how much was destroyed and how much was left over," Miller said.

Senate Republican leader Everett M. Dirksen said he agreed the ship should have been scuttled if possible but said that was not a momentous decision that had to be made by its commander, Capt. Lloyd M. Bucher.

There were four North Korean gunboats surrounding the ship and MIG fighters overhead, Dirksen said.

The commander, possibly scuttled, has scuttled at the peril of the entire crew, Dirksen said. "This was a decision that final evaluation can be made on whether the ship should have been scuttled."

### SMITH ADMITS DEFEAT

SALISBURY, Rhodesia (AP)—Prime Minister Ian Smith indicated today he has given up hope for a reconciliation with Britain, saying a breakaway Rhodesia might well play "the final hand" early this year.

### 'Pop' Singer Grins As Income Soars

LONDON (AP)—With a Rolls-Royce, a Bentley, a yacht and a new suburban mansion, Tom Jones admits that 1968 was a good year for him.

The 28-year-old son of a Welsh coal miner who once labored with a hod for £30 a week will make \$12 million this year as a pop-singing television star.

"It won't make much difference to me really," said Jones. "I'll still have 40 or 50 pounds—about \$124, or so—pocket money a week."

An Anglo-American television combine, American Broadcasting Co. and ATV in Britain, are buying out 21.8 million for a Jones television show, 13 one-hour episodes with an option for five more.

The first pilot show will be telecast in the United States Jan. 12, and the series will begin in New York Feb. 7. The promoter modestly says Jones' \$2 million share of the take in 1969 alone will put him in the same league as Big Crosby, Frank Sinatra and Elvis Presley.

### 'PLAN' ANNOUNCED

JAKARTA (AP)—President Suharto announced Tuesday night that about \$3.5 billion will be made available for financing Indonesia's five-year development plan scheduled to be implemented next April.

GEORGE LEWIS, a jazz clarinetist who played throughout Europe and Japan as well as his native New Orleans, died Tuesday at the age of 68. He had been hospitalized two weeks ago for pneumonia and influenza. He left a request for a traditional jazz funeral and parade and is shown here as he posed in the French quarter several years ago. (AP wirephoto)

### Apollo Crew To Be Welcomed With Parade

NEW YORK (AP)—The Apollo 8 astronauts will be honored with medals at the White House and with a traditional New York City ticker-tape parade for heroes.

At Fort Col. Frank Borman, Navy Capt. James A. Lovell Jr. and Air Force Maj. William Anders will a "Lunar Day of Special Observance" in their honor in New York. Sen. J. Gov. Nelson A. Rockefeller announced Tuesday night.

The astronauts received the invitation moments after they splashed down in the Pacific after their moon-orbiting mission.

A ticker-tape parade and a state dinner at the Waldorf Astoria hotel is on the agenda for the astronauts, Rockefeller said. President Johnson will award the astronauts the Distinguished Service Medal of the National Aeronautics and Space Administration, the agency's highest award, on Jan. 9.

### Federal Grant Given Hospital

WASHINGTON (AP)—Sen. Frank Church Tuesday reported the approval of a \$100,000 federal grant to the Idaho State School and Hospital in Nampa.

He said the Department of Health, Education and Welfare grant would help finance improvements in care quality at the institution.

Service Medal of the National Aeronautics and Space Administration, the agency's highest award, on Jan. 9.

Since he shed 200 pounds and has shrunk to 181, he now has room for his wife and son, Jeff, in his pants. Fleck's waistline is down from 66 to 32 inches. (AP wirephoto)

# Western Europe Approaches Money Reform With Caution

**By LAWRENCE MALKIN**  
LONDON (AP) — After the most threatening year of financial upheaval since World War II, Western Europe is still moving with extreme caution toward forming the international monetary system.  
"It's like a Greek tragedy. Everyone can see the catastrophe coming, but no one does anything about it," said one participant in a meeting of central bankers at Basel, Switzerland, in December.  
A U.S. congressional subcommittee headed by Rep. Henry Reuss, a Wisconsin Democrat, has urged the U.S. government to take the lead in changing the system. But the innate conservatism of some European monetary officials, coupled with the governments' solid defense of their own interests, could hinder reform.

# Eastern Europe Poets Prove Anathema To Communists

**By TOM A. CULLEN**  
BUCHAREST, Rumania (NEA) — In Eastern Europe, the poets are the ones the Communist dictators fear the most.  
"All of my verses were captured by the Russians," complained one of them, who was sentenced to death four times and four times reprieved. In the end he served eight years in a Russian prison.  
Today, Russian imperialism has taken the place of Hitlerism as the nightmare that haunts Rumania's youth, Petru Cioba says. "One look at the map will show you why," he says. "You can see that for nearly half of our external border we have the Russian bear breathing down our necks, while on our west and south are Hungary and Bulgaria."  
This is why Rumanian youth feel hounded by anxiety. We feel hemmed in, and we feel condemned to walk a tightrope perpetually, uncertain whether we can keep our equilibrium. This is why death kills naturally like any other poetry.  
"You in the West take so much for granted. We in Rumania have the feeling of living from day to day, we are not allowed to rest, to walk and to eat. This is what I try to express in my writing."

French policy still backs an intervention in the West, in return to the 19th century gold standard. But since the bifurcation of some \$1 billion of gold reserves in the West, the French has had a more diversified figure on the world monetary scene and won no major victories. In the West, the countries, Italy, and Britain, officials said they do not expect Charles de Gaulle to relive his attack on the U.S. dollar by banning gold exports.  
Once Nixon is settled in the White House, Western Europe may be ready to join in a general effort to stabilize the world economy. Officials are keeping their fingers crossed that the system will be allowed to stabilize.

The Organization for Economic Cooperation and Development, the Paris-based 21-nation group composed of the non-communist world, among leading countries, has come out against major changes in the monetary system.  
The OECD economists who write the surveys said in December that more cooperation among governments under the old monetary system would mean more success for deficit countries like Britain and the United States to get back into a growth balance by exporting more. It also means that surplus countries such as Germany must cooperate by buying more U.S. goods and services and in their own balance, British and U.S. governments will reduce their own trade surplus by slowing down its growth by one-third in

1969. Market officials have promised to come up with some ideas for a "community mechanism" in February, but nothing as embracing as a stabilization fund proposed by some members to counteract imbalances among the six. A single Common Market currency will be among the market's findings. It is regarded in Brussels as utopian.

Here in Rumania, poets are just beginning to try their wings. None has soared so far as to criticize the regime or to demand greater freedom. And in some ways Rumania is still as much a police state as it was when Stalin was alive.  
But Rumanian poets are beginning to express the anguish of a nation which feels threatened by the Russian bear, and in doing so they are becoming a political influence.  
Typical of the younger poets is Petru Popescu, 25, whom I met at the Writers' Union headquarters here. He looks as though he had a good part in the romantic saga. His hair is short, his dress neatly in sweater and slacks. Petru who speaks English perfectly, earns his living as a translator and also writes for a literary gazette. He is a flower child of the West who call themselves poets.  
Petru, in fact, a practicing poet, and says in an interview that he was a Christian and a Communist.

The poet claims that at least half of his friends and acquaintances are Christians, too. "They may not go to church," he says, "but they are believers. They would not think of being paid and making the church or having a member of their family buried without religious rites."  
Petru sprang his second surprise when he told me that death figures prominently in his writings. But death is the preoccupation of old people. What has to do with death and youth?  
"If you were born in contemporary world you would not ask," he says.

### BBC To Forbid Cigarette Ads

LONDON (AP) — The British Broadcasting Corp. today announced a ban on cigarette advertising in its publications, effective July 1. The ban does not extend to radio or television.  
It affects mainly the 4.5 million circulation weekly Radio Times, and advertising men say the BBC's cigarette ban will net \$300,000 a year.  
BBC television and radio channels do not carry advertising. The corporation also has an autonomous government corporation financed by taxation.

# Telegraph Firm OK'd Hike Rates

BOISE (AP) — Two telephone companies and Western Union Telegraph Co. have been authorized to increase their rates in Idaho, the State Public Utilities Commission said Tuesday.  
Western Union was authorized to boost its rates on interstate messages sufficiently to increase revenue by about \$3,980 per year. The PUC said the company had an operating loss in Idaho of \$38,117 in 1967.

Lenih Telephone Co. of Salmon was authorized to reclassify its Salmon exchange as a result of an increase in the number of its customers. Service charges will be boosted by 25 cents to \$1 per month.  
The new rates, effective Jan. 30, are \$9.25 for a one-party business phone and \$2.25 for one-party residence phone.  
Idaho Telephone Co., of McCall, which serves 14 communities in southern and central Idaho, was authorized to raise rates effective Jan. 30, although the increases will not be as great as the company asked.  
The company asked for increases ranging from 85 cents to \$2.75 per month but the PUC said they were not justified. New rates authorized range from \$5.65 to \$5.65 for a one-party residence phone and from \$11.25 to \$15.25 for one-party business phones.

# Supreme Court Modifies Term In Morals Case

BOISE (AP) — The Idaho Supreme Court upheld on Tuesday the conviction of Caldwell with a minor child, but modified the sentence given him.  
Arthur Ross was convicted in 1967 on three counts of lewd conduct with two little girls, aged five and six.  
He was sentenced to 10 years in prison on each count with the sentence to run consecutively, making a total of 30 years.

The Supreme Court said the conviction was justified but altered the sentence from 30 to 10 years.  
"In another holding the Supreme Court upheld an award of the Industrial Accident Board to Robert K. Scott of Caldwell. It was the popular vote at a recent Scott suffered Oct. 7, 1963.

# Corrected Tally Gives Nixon Edge Of Half-Million

WASHINGTON (AP) — Corrected popular vote returns from the Nov. 5 presidential election put President-elect Nixon's lead over Democrat Hubert H. Humphrey "slightly more than half a million" votes.  
Rechecks of totals from six states increased Nixon's vote to 31,770,222, compared with 27,240,134 for Humphrey. Another 2,927,244, an edge for the Republican candidate of 502,778.  
Most of the changes from the figures counted earlier were very small, but the rechecks added 2,291 votes to Humphrey's total in Alabama, while subtracting 5,000 votes from his earlier total in Oklahoma. The recheck left the total for third-party nominee George Wallace at 9,147,187. Another 240,693 votes were cast for other candidates.  
The total number of ballots cast in the presidential election was 73,175,700, a new record.

MASSA, PHILADELPHIA'S 38-year-old gorilla, oldest of its kind in captivity report zoo officials, eats part of his birthday cake. It was the first party he has ever been given. Massa lived in the shadow of Bambo, another huge gorilla, who died several years ago. Massa was a nice, gay wild. Bambo was a mean one. (AP wirephoto)

# Prostitution Endorsed By Detroit To Win U.S. Funds

DETROIT (AP) — To meet Tuesday's federal deadline, the Detroit Common Council approved a \$26.5-million Model Cities anti-poverty program. The council also endorsed a recommendation from a 102-member citizens' committee that prostitution be legalized.  
However, city officials said the proposal to establish legitimate red light districts was not part of the recommendations to be implemented in the next five years, if ever.  
"Sources from the citizens' committee, composed of persons elected in the inner city neighborhoods, said the purpose was to rid the area of organized crime control of prostitution and to halt the spread of venereal disease.  
Only newly elected Councilman Robert Tindal, who has been executive secretary of the Detroit branch of the National Association for the Advancement of Colored People, spoke out for the resolution at Monday's meeting.  
"I'm not sure whether legalizing prostitution will solve the problem," he said. "These people are grabbing for straws to end the problem. Prostitution is a real problem."  
"Children in the neighborhood see it everyday, but if you don't see it here, you don't know it exists," he added.  
The application was approved by a 12-vote majority after councilmembers were assured it would not be interpreted as agreeing to legalizing prostitution.

GIANT PLANE FLIES  
MARIETTA, Ga. (AP) — The world's largest airplane—the C-70 Galaxy—has completed 100 flying hours, according to Lockheed-Georgia officials.

# "BIG DUMP" PRE-INVENTORY CLEARANCE EXTENDED 3 MORE DAYS!

READ THIS FOR DETAILS  
Our "BIG DUMPS" Pre-Inventory Sale has been the most successful in history. Hundreds of people from all over Magic Valley have shopped the huge inventory at Cain's and many of them have made purchases (and saved hundreds of dollars).  
However, the goal of \$70,000.00 in sales was not reached by the end of the year.  
Because of many late shipments and a real heavy inventory, Cain's auditor has approved the extension of the year ending to January 4th or this Saturday night — So Cain's won't take their physical inventory until after Saturday night. Therefore all merchandise sold before then will be deleted from our inventory report to the County Assessor, also our year-end report. So if you are interested in anything for your home — make it a point to come into our store before Saturday night. Shop Idaho's largest selection of quality name brand home furnishings — all at real savings. Save up to 4.00 a square yard on Mohawk carpet. \$150 on beautiful Kroehler sofas. \$175 on some of America's finest bedroom suites.  
Save as much as 40% on chairs and recliners, dinettes and dining room suites, lamps and occasional tables and on hundreds of items in Cain's huge maple shop. Buy a \$130 Sealy mattress and springs for only \$98. And of course the savings are the biggest of the year on Frigidaire appliances and Zenith and Curtis-Mathes color TV and stereo sets. All original price tags are left on the merchandise. Ask the "BIG DUMP" price on the item that interests you.

IT WAS ALSO A YEAR OF victory as Richard Nixon proved. He won the presidency. Here he holds a presidential emblem made by his younger daughter Julie. He stands with his family in New York on the day after the election. From left are David Eisenhower, Julie's fiancee and now her husband, Julie, Patrick Nixon, the president-elect, and Mrs. Nixon. It was a gratifying victory after his defeat by John Kennedy in 1960. (AP wirephoto)

### Daughter, 17, Of Journalist Listed Missing

HOLLYWOOD (AP) — The 17-year-old daughter of an actor-journalist, Miss Habel, and actress Heloise Hardt has been reported missing since early Monday, and police said Tuesday they suspect foul play.

Marina Elizabeth Habel, 17, was last reported seen when she left for a date.

Her mother told detectives she was awakened early Monday morning by a commotion outside her West Hollywood home and saw her daughter's car in the driveway with a man standing next to it. She said she saw the man jump into a black sedan as it sped away.

The girl's father, who is divorced from Miss Hardt, was notified at his home in Zurich, Switzerland, and was reportedly on his way back to the United States.

Miss Habel was graduated from University High School in Los Angeles last June. She was home for the Christmas holidays from the University of Hawaii.

Mrs. Habel's mother, Miss Hardt, 40, has appeared in several movies and television shows. Her most recent appearance was with Simone Signoret in "Games."

Her father is author of "Christopher and his Father," "The Mission," and "A Thousand Shall Fall."

He was shot June 5 and died a short time afterward. This picture was made by Boris Yaro of the Los Angeles Times. (Copyright, 1968, Los Angeles Times via AP wirephoto)

### 'Hard' Water May Boost Chances For Long Life

By ALTON BLAKESLEE DALLAS, Tex. (AP) — The harder your drinking water is, the less is your chance of dying from heart disease or brain stroke.

When you live, cities long live. The risk that middle-aged men, 54 to 64 years old, will die prematurely is lowest in the Great Plains states and highest along the East Coast.

Too little of the element zinc in the body interferes with growth and development, with fertility and healing of wounds. These are some findings from new studies of health, geology and chemistry and medical geography described Monday by the American Association for the Advancement of Science.

It all has to do with the vital importance of "dry amounts of certain elements, mainly metals, in the human body. Geology and geography get tied in because they all come originally from rocks, that determine the composition of soils and waters, and hence the composition of plants and animal flesh that humans consume.

There are regional differences in the distribution of some of these elements. Studies here and abroad make it very clear that there is an association between the hardness of water and the death rate from some diseases.

### Bomb Blasts Police Station In New Jersey

JERSEY CITY, N.J. (AP) — A bomb bounced off a window and exploded early today at Jersey City's Fifth Precinct police station, which was sprayed with machine gun bullets from a car Nov. 23.

No one was injured in the bombing and no arrests were made.

Mayor Timothy J. Whalen said the bombing was "an act of terrorism that follows the same pattern of earlier incidents."

Three persons who say they are members of the Black Panther party are accused of the machine gun attack.

Whalen has asked Gov. Richard Hughes and the New Jersey investigation Commission for a probe of the Black Panthers.

While declining to accuse the Black Panthers directly, the mayor said, "After the machine gun attack we pretty well did away with the Panther party in Jersey City. Therefore if this is a Panther attack, chances are very good that it was perpetrated by Panthers from Newark or other parts of the state."

Her father is author of "Christopher and his Father," "The Mission," and "A Thousand Shall Fall."

### Japanese Greet New Year With Shinto Rites

TOKYO (AP) — Millions of Japanese gathered in the Year of the Rooster today in solemn processions to Shinto shrines throughout the country.

At the Meiji Shrine, Tokyo's main Shinto temple, thousands of pilgrims bundled up against the near-freezing weather to visit just after the stroke of midnight. They made the customary donation by standing back and throwing their coins toward the temple steps.

The charms worn by many

musicians died.

George Lewis, 68, jazz clarinetist who played with some of the jazz greats of the 1920s and '30s, died Tuesday of pneumonia and influenza. Lewis had made more than a dozen tours to Europe and Japan in the past 11 years.

## Successful Investing

By ROGER E. SPEAR

Q — As a result of a serious operation I will be forced to retire or reduce my work. My estate includes a \$40,000 home, \$30,000 life insurance and an inheritance of \$80,000 — only \$20,000 available for investment. I need the highest possible safe return without invading my principal. Any suggestions? C. Mc.

A — Your assets have a value of about \$300,000, an amount that could be severely penalized by taxes in the event of your death. Your lawyer could advise you about the advantages of a trust for you and your wife. The stocks you hold are well suited to your need for income; they also will provide an inflation hedge over the longer term. On this score I would not out-think too large a portion of your

estate is invested in fixed assets. Capital growth potential could be increased by building up your Texas Fund to \$10,000 to meet the requirement for a monthly withdrawal plan. The \$20,000 investment should be divided among the following four income issues: Central Maine Power, Duquesne Light, Lamps & Meters, and Potomac Electric.

Q — I hold Higbie Manufacturing at a good profit. In view of its foothold in pollution-control devices, should I continue to hold or take the profit? J. A.

A — Some 83 per cent of Michigan-based Higbie's sales are to the automotive industry. Steel tubing fabricated to specification is used in transmission system, oil, gas and vacuum lines, as well as for manifold and smog assemblies. It is this latter product that interests you. California law requires that all vehicles sold in 1970 in that state be equipped with such devices and by 1971 most other states will probably have similar legislation.

The company has reported consistently higher earnings with \$1.34 a share earned in fiscal 1968. Room for growth.

(To order your copy of Roger Spear's 48-page Guide to Successful Investing, (recently revised and in its 10th printing) send \$1 with name and address to Roger E. Spear, Times-News, Box 1018, Grand Central Station, New York, N.Y. 10017.

# Congress investigates gas games

Congress is currently investigating the greedy giants and their no-win games. Regardless of what course the Federal Trade Commission may take concerning gas games, one thing is certain. That law suits against the major oil companies are mounting up, charging them with fraud and manipulation.

Quoting excerpts from the Touhey Report of November 25, 1968... "consumers did not have equal chances at winning... that service station dealers were never notified of actual winners... and coupons were not replaced after it has been found that winners could be pulled in advance... they were only replaced in the State of Oregon because of adverse publicity."

Nobody is investigating the Stinker. The Stinker exposes the 'big boys' at every turn. In contrast to the methods used by the majors, here's the fair treatment the Stinker gives customers.

FACT ONE: The Stinker sells you top quality gas at fair prices. He guarantees his product quality to be equal or superior to theirs. None better regardless. What do you think of that?

FACT TWO: The Stinker sells you that top quality gas at cut-rate prices. That means you're getting king-size gallons, because you get more gasoline for your gasoline dollar. You get even more savings at all Stinker Self-Serv stations.

FACT THREE: Fast courteous service is the by-word at Stinker attendant stations. With the Stinker as outspoken as he is, he backs up his words with service.

FACT FOUR: The Stinker doesn't play games with you. Everytime you drive in you are automatically registered by the attendant for the "Bonus Prize." So, you automatically win in two ways. Savings on quality gasoline and a Bonus Prize given away during bonus weeks.

So the 'big boys' with their high prices and big promises, with rub off numbers, puzzles and matching cards won't move your car down the road for any less money. When it comes to product, price, service and bonus, you automatically win with the Stinker.

FEARLESS FARRIS

**STINKER STATIONS**  
CUT-RATE GAS

Current Bonus Prizes Are 1969 Ski-Doo, Olympic 320 Snowmobiles.

## Business Mirror

By JOHN CUNIFF  
AP Business Analyst

NEW YORK (AP) — Underlying many of the moves by both government and stock market officials to clear up the murky mess on Wall Street is a fear that the confidence of the public is being sorely damaged. Should this confidence be lost, the results would be disastrous for the exchange community and severely damaging to business, the dollar, the balance of payments and international finance.

The money that pours into the market from independent and institutional investors is offered with faith that their business will be transacted safely, efficiently and accurately. Much of this money comes from abroad. However, the inability to handle commitments has resulted in a bonkers' era snafu at some brokerage houses that might be considered soundless if it occurred in a related enterprise, such as commercial banking.

That confidence is a tough one. As Robert Hauck, New York Stock Exchange president, announced in a year-end meeting, new news — other business promises five-day delivery on orders of such magnitude.

Because of antiquated work methods, a shortage of skilled clerical help and a desire to take on as much business as possible regardless of ability to handle it, some brokers have failed to deliver in five days.

Several have been forced to curtail business, equities have been forced to close offices and dishonor workers, others have found it necessary to merge and some are refusing the unprofitable orders of small investors.

On top of all these troubles have come serious problems with regulatory agencies of the government, particularly regarding the use and misuse of inside information.

The predicament of the Mates Mutual Fund, considered by some measures to be among the most successful of the past year, has helped undermine confidence. Mates has been forced to suspend redemptions.

Partier in the year this fund passed was on good that it became buried in orders and was forced to decline new business. But now it is caught in a situation where it cannot assess the value of its own shares.

The stock exchange, seriously concerned about the paper jam, has taken an almost dictatorial stance in order to bring about remedies. Potentially one of its most successful moves has been the Central Certificate Service.

This service places in central depositories most of the stock held by member firms for their customers. Whereas once these certificates were raced about town by messengers whenever a sale was made, now they remain in vaults. Ownership changes are recorded by automated bookkeeping.

The most noticeable of what the exchange says are 25 moves to correct the paper jam, were the elimination of Wednesday trading as well as five-day help time to catch up on back work.

However, the exchange now feels that the value of the day change has become eroded and that the midweek break has come to be accepted as another possible regardless of ability to handle it.

With the return to the five-day week, even though the daily ring will sound 90 minutes earlier than the old 3:30 p.m. closing, there are misgivings among securities men, including the Securities and Exchange Commission.

The big question is whether or not the brokerage firms have made enough headway in the past year, both in eliminating mid week and in upgrading facilities to handle larger volume, to resume a five-day week.

# Big 10, Pacific-8 Loops Send Unbeaten Teams To Rose Bowl For First Time

PASADENA, Calif. (AP) — Ohio State and the University of Wisconsin will play the Wednesday for the national college football championship in the first game between two unbeaten teams since the Big Ten and Pacific signed their post-season bowl pact in 1947.

## Wood Gets Ken-Hubbs Memorial

CHICAGO (AP) — Spouthpaw relief ace Wilbur Wood of the Chicago White Sox will receive the Ken Hubbs Memorial Trophy Jan. 12 at the 29th annual Diamond Dinner of the Chicago Baseball Writers.

Wood, a Knickerbocker, set four major-league records while appearing in 88 games for the Sox. Wood had a 19-12 record with a 2.44 ERA in 1968. Wood beat the Minnesota Twins five times without defeat and was involved in five winning 10-game games.

## Wisconsin Posts Upset Of Kentucky

CHICAGO (AP) — Wisconsin pulled off a big basketball triumph Tuesday night by upsetting third-ranked Kentucky 68-65 in the second game of the Chicago Stadium doubleheader.

## 'Hitting' Is Key, Says Jerry Logan

BALTIMORE (AP) — "Hitting is the name of our game," says Jerry Logan of the Baltimore Orioles.

## Gaskins Heads All-Meet Team

PORTLAND, Ore. (AP) — Coaches of the eight basketball teams in the Far West elected Oregon most valuable player Monday night.

# Reel Story Of Pro Quarterbacks Is More Than Passing Thing For Heston

The coach, with hat tilted, the askew, cuffs on pants rolled up, was delivering a half-time pep talk that could have moved mountains. The football players were on every stirring word as he reached a quivering crescendo. Then, he said, "All right, folks. The game is over. You've won. I took two steps toward the locker room door, turned, and his mouth dropped like an actor. He was herding and howling behind him. The players simply sat there.

"Ah, coach," said center Joe Weisburger of the New Orleans Saints, "do we have to go?"

Then, the players broke into laughter and laughed so hard they fell off the benches and the locker room literally shook with the laughing bodies.

A practical joke was played on the "coach," who is, really, actor John Randolph. The Saints were only rehearsing a scene here for the movie "Despite It Is a Serious Film" despite the fact that the football game herding Charlton Heston as an angry quarterback who refuses to accept his declining skills.

It is so serious, in fact, that Heston suffered a hairline fracture when a pass rusher, coming at only three-quarters speed, rammed a stray helmet into the actor's forehead. The fracture was to look at it as a fortunate accident," said Heston, eating lunch on the set in shoulder pads and in a "Welcome to the NFL" t-shirt. It brought me two-and-a-half inches into the team. And a lot closer to understand-

ing what professional football is all about. Mainly, I've learned that pain is the name of the game. It's not a matter of willing discomfort for the consequences.

"I've worked harder for this role than for any other part I've ever done. The job of a quarterback for eight months. I had coaches at Southern Cal work with me and also Bill, Kiltner, the Saints' quarterback. The job of the pro quarterback is fantastically difficult.

"Mechanically, you've got to do about 10 things in about five seconds. Keep fingers stiff before receiving the snap. Don't dip your knees before taking the snap to prevent the quarterback from right foot upon taking first step back. Don't bump into your back. Go six-and-a-half yards back, not five-and-a-half. Don't look at the backfield but through them and the blockers. Keep receivers in view.

"And the pressures are, of course, confined to a punter. With the pass rusher and the huge crowd, it's like passing up a barrel of dynamite. There are thousands of athletes who can do the mechanical things perfectly—you can hardly consider me one of them. The job of the pro quarterback is to take the pressure of this stuff under pressure that separates the true pro."

The film, according to both Heston and Randolph, is an attempt to view the game of football from the standpoint of what it means to the men in it. "I'm not a football player," said Heston, "but I've never been a subject that has truly depicted the way it is. This film is the first. It is unique.

## Hayes Keeps NBA Scoring Lead At 30.6

NEW YORK (AP) — San Diego's Elvin Hayes continued hitting at a clip of better than 30 points per game last week to widen his lead in the National Basketball Association scoring race.

LOS ANGELES (AP) — The Berry family is planning to open a new restaurant in Los Angeles.

pared Southern Cal to Purdue. A Big Ten rival they considered the "best shut-out" in the process the Buckeyes throttled Leroy Keyes to 19 yards rushing.

## Davidson Has Eighth Win, Tips Michigan

ANN ARBOR, Mich. (AP) — Second-ranked Davidson rolled to its eighth straight college basketball victory Tuesday night with a 69-59 win over Michigan.

The host Wolverines gave the Wildcats a tough battle for the first 40 minutes, with Michigan leading most of the time. Davidson went ahead 26-25 and pulled away to a 47-40 half-time advantage.

It was the strong second-half shooting of Doug Cook that led Davidson's surge as he finished with 29 points, 10 of them in the last 10 minutes.

His teammates, Jerry Kroll and Mike Maloy, gave him strong support, with Kroll scoring in 22 points and Maloy getting 20.

## New Arizona Coach Plans Big Changes

# High Scoring Affair Looms When Kansas And Penn State Collide In Orange Bowl

MIAMI (AP) — Quick striking Penn State and Kansas, a pair of ambitious for higher national rankings, clash in the Orange Bowl Wednesday night in what can be the most free-scoring game of the bowl games.

Let's face it, said Coach Pappet Rodgers, who brought the Kansas Jayhawks from obscurity to No. 6 in the nation in two years, "we can't stop Penn State. Nobody can. And nobody can stop us, either."

Let's face it, said Coach Pappet Rodgers, who brought the Kansas Jayhawks from obscurity to No. 6 in the nation in two years, "we can't stop Penn State. Nobody can. And nobody can stop us, either."

It was the strong second-half shooting of Doug Cook that led Davidson's surge as he finished with 29 points, 10 of them in the last 10 minutes.

Let's face it, said Coach Pappet Rodgers, who brought the Kansas Jayhawks from obscurity to No. 6 in the nation in two years, "we can't stop Penn State. Nobody can. And nobody can stop us, either."

# Three Million Coho Salmon Eggs Received

BOISE — Something like three million coho salmon eggs were received from Washington state recently by the Idaho Fish and Game Department for propagation at various fish hatcheries.

The eggs will be hatched and reared to fingerling size for release next spring in several Idaho reservoirs to improve production at a later date. In some waters the little salmon seem to have taken hold from fingerling coho releases made last year and in the spring of 1968. Where they have come through one winter in good shape, they have grown big enough to start feeding on trash fish. Such a diet stimulates good growth.

Limited success also has resulted from eyed coho egg plantings in hatching channels in the South Fork of the Clearwater, according to Terry Holubetz, Lewiston, regional fishery biologist. A total of 11 hatcheries are now in operation. This is the first adult coho returns from these eyed egg plantings were observed in 1968. Last summer at Lewiston, a total of 325 adult coho salmon were counted.

## East Oregon Nips NNC 76-72

NAMPA, Idaho (AP) — East Oregon College withstood a valiant bid by Northwest Nazarene College at the final seven minutes and won the NNC Holiday Invitational Tournament with a 76-72 victory over the host team Tuesday night.

Claremont, N. D. won the consolation game with a 63-21 defeat of Pacific University. The Mounties of EOC from La Grande, Ore., played a season's first half, taking a 38-32 lead into halftime.

With only 11 minutes left in the second half, the Crusaders caught up with EOC on a pair of free throws by Bob Luhn, 54 ft. After that, the score was tied eight times and the lead changed hands seven times.

Steve Sharp canned a jumper from eight feet to put NNC on top 72-71 with just over two seconds left, but foul shots by Rich Mickel and Ashley Court put EOC on top.

# CSI Opens League Slate By Hosting Mesa And East Utah In Weekend Cage Battles

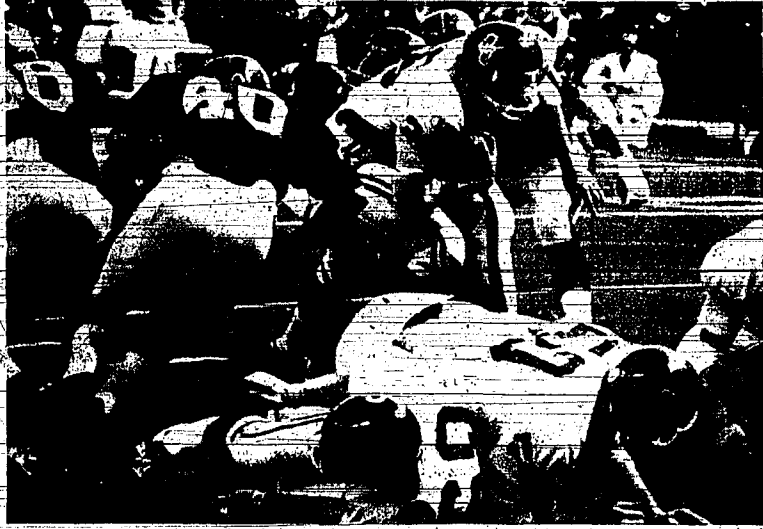

College of Southern Idaho and Eastern Utah will entertain Mesa State and Eastern Utah at the same time Saturday, it will mark the first conference play in the brief three-year history of the Golden Eagle basketball team.

Coach Eddie Sutton reports that Al Davis, Tom Bush, Dave Gotsch and Jackie Brown had not returned to Twin Falls by late Tuesday night. He did not know when to expect them. "I think there is frozen in in Moscow," Coach Sutton, referring to the 40-below weather of the North Idaho city. "Davis, Bush and Brown are caught in the holiday travel rush and probably having trouble getting back."

He said the three were caught in the airlines' reservation at student rates. "I know they had to cash in their round-trip student tickets and go tourist to get home from Salt Lake City before Christmas," Sutton said. "It is a little problem for them to find the extra money to get back now. I know this is the case with Brown because I've talked with his mother on the phone," Coach Sutton said.

Coach Sutton said he probably would go with a starting lineup of Ron Adams, Morris Mobley, Nate Stephens, Steve Miller and Larry Reitz. "These will be a couple of tough games and I don't think after laying off for so long that the other boys can come back and play that well."

per game and allowing 64.2. Go- ing into the holidays they were both in the nation's junior col- lege ranks. Mesa has led 129-106-132 against 149 for its opposition and Eastern Utah is 8-3. "Nate Stephens continues to lead in scoring with 183 points in 37 games," Sutton said. "Ron Adams is third with 130. Davis has 123. Steve Miller has 117. Larry Reitz is fourth with 109. Bush and Davis are tied in about 25 points a game this year. Mesa isn't a real big club, but it appears they will start three 6-8 boys with their quartet about 6-11 and 5-11." They have two boys averaging 20 points a game. "Following the conference opening, CSI will enter the new year with an 8-2 record with 20 games to go on the schedule. So far the Eagles are averaging 78.2 points State frolic Tuesday night.

BREAKING THROUGH, Steve Owens (30) University of Oklahoma, breaks through the SMU line for a shot in the first quarter of action in the Bluebonnet Bowl.

# SMU Hits For Three Last-Quarter Scores To Overhaul Sooners In Bluebonnet Bowl

HOUSTON (AP) — Southern Methodist struck for three final period touchdowns on the passing game of Chuck Hixon and the offense from behind 28-27 victory Tuesday night over crippled Oklahoma in the Bluebonnet Bowl football game.

An Astro dome football record crowd of 33,547 saw Hixon, the nation's leading passer, connect with a 15-yard pass to Ken Fleming for the winning touchdown that broke a 21-21 dead lock with less than three minutes to play.

On Oklahoma, playing without two of its top stars since midway in the second half, was not through. With less than 30 seconds remaining, Mickey Riley, the understudy to the great Bob Warrmack, cut the Mustang lead to 27-28 by hitting Hixon in the end zone with a 30-yard pass.

Riley then tried a two-point run for victory that was chased out of bounds by Mike Mitchell, a defensive end.

Seconds later, Oklahoma got another chance, covering an on-sides kick at the Methodist 14. Five plays later, with 19 seconds remaining, a field goal attempt by sophomore Bruce Hart had the distance but was wide.

# Iowa Strategy Fails, Duke Wins Tourney

NEW ORLEANS (AP) — Iowa's go-for-broke strategy failed in the winning seconds Tuesday and the Duke Blue Devils won the championship of the Sugar Bowl basketball tournament 85-82 over the Hawkeyes.

Iowa, behind by one point with 51 seconds to go, decided to play for the victory by holding the ball for one last shot.

However, Glenn Malmovic of Iowa couldn't handle a pass with eight seconds left on the clock.

Duke's 1-foot 4-inch piggyback jump shot by Randy Denton with one second to go gave the Blue Devils the final margin of six points.

Duke had to come from behind in the second half to win the championship, erasing an eight-point Iowa lead for higher action. But the Blue Devils almost lost an eight-point advantage they mounted in the second half.

Duke was on top 83-78 with 2:11 left in the game when two bad passes allowed Iowa to come within one point.

Denton, Duke's 6-10 pivot man, led all scorers for the game with 25 points. Rick Battle, Oklahoma forward, had 17 for Duke. In the consolation game, Hoosier's Ollie Taylor and Georgetown's point guard, Western Kentucky's defender for numbers, Bob Lewis and Vito Capuano beat the Hilltoppers 87-66.

# Dennis Hull Moves Up In Scoring

NEW YORK (AP) — With a four-week, 11-game surge that has netted him 22 points on 31 goals and nine assists, Dennis Hull of the Chicago Black Hawks has soared into sixth place in the national scoring race. He trails his brother and teammate Bobby Hull, by 10 points.

Hobby, who missed one game last week after suffering a knee injury, also leads in goals with 23. He has 26 assists for 49 points. Phil Esposito of Boston leads up to the national scoring race. He trails his brother and teammate Bobby Hull, by 10 points.

Hobby, who missed one game last week after suffering a knee injury, also leads in goals with 23. He has 26 assists for 49 points. Phil Esposito of Boston leads up to the national scoring race. He trails his brother and teammate Bobby Hull, by 10 points.

# Travel Show Set On Annual Tour

Mary Gordon, Trans World Airlines' travel adviser, will present a portion of the travel show program Jan. 7 for passengers in-terested in going to Spain and Portugal with the Times-News Magic Fiesta tour scheduled in February.

The travel show will include films on Spain and Portugal, with Ray Jeans, sales representative for TWA, Portland, on hand to explain the films as well as answer any and all questions concerning the tour.

Miss Gordon's program will include tips on packing, basic travel wardrobe, climates and clothes shopping abroad, tip-

ping, etc., with brochures on these items distributed.

The show was originally on-ly scheduled for Jan. 6, but had to be postponed until Jan. 7 because of conflicting dates of the speakers. The event will be held at the Regerson Hotel Roundup Room.

Miss Gordon's topics will be given from firsthand information. On trips, much of her time has been spent terracing shops and buying in local markets, sampling sightseeing tours and testing travel wardrobes for their practicality.

While she is at home in San Francisco, she writes letters an-

swering questions about travel, appears in stores as a fashion commentator and fills speaking engagements.

Miss Gordon will cover a variety of worldwide topics, evok-ing the fun of travel for every-one.

Joe Salisbury of Magic Carpet Travels will explain the side trips available from the two central points of the tour: Lisbon, Portugal, and Madrid, Spain.

The tour hostess, Norma Her-zinger, Times-News women's editor, will meet and visit with those planning to take the tour and all interested persons.

Refreshments will be served and special prizes given. All interested persons are welcome and urged to attend.

**Carol Murphy Reveals Truth**

HAILEY — Mr. and Mrs. Albert Murphy, Hailey, former Twin Falls residents, announced the engagement of their daughter, Carol Jane, to Donald Wesley Thompson, son of Mr. and Mrs. Henry D. Thompson, Nampa.

A Valentine's Day wedding is

The Magic Fiesta Tour, sponsored by the Times-News, is scheduled from Feb. 8 to 22. Reservation deadline has been extended to Jan. 3, and no reservations for the tour can be accepted after that.

All persons interested in the tour are welcome to contact Mrs. Herzinger at the Times-News or Magic Carpet Travels for further information.

planned in Gallup, N. M., where the couple is employed by the Bureau of Indian Affairs.

# Women's Section

## Dear Abby

By ABIGAIL VAN BUREN

DEAR ABBY: Have we got a problem, and when I say we, I mean the 2nd division of the 6th marine.

We've got this one guy in our division who steals everything that isn't nailed down. He transferred into our outfit about a month ago, and since then we started missing T-shirts, battle pins, watches, rings, and a whole lot of other things.

If we rat on him, the C.O. would throw the book at him. We just want him to knock it off. What can we do?

WORRIED 2ND

DEAR WORRIED: Tell the guy you suspect that the entire outfit is on the lookout for a light-fingered buddy. And if he doesn't turn over a new leaf, he deserves to have the book thrown at him.

DEAR ABBY: My husband and I have been married for four years. We have three kids and another on the way.

My problem is that my husband has started to make fun of the way I kiss. He says I kiss like "a little girl."

Abby, I asked him how come he never complained about the way I kissed before, and he said I never really knew how to kiss, but that I was hoping I'd learn something.

Now I am very self-conscious every time I kiss him. I love him very much and this bothers me. You can tell youngsters nobody needs kissing lessons, that it comes naturally, like how a duck learns to swim. What can you suggest for me?

LITTLE GIRL KISSES

DEAR LITTLE GIRL: Tell your husband to engage his sense of humor. It's a constructive thing to do the way you kiss. In other words, to give you a few pointers. You may never be the world's greatest kisser, but with his help, you're bound to improve sufficiently to please him, I'm sure.

DEAR ABBY: I accidentally found a bottle of expensive perfume in my husband's closet. I said nothing, but when I looked for the bottle, it was gone.

When I confronted my husband with this, he said that his secretary had done some extra work for him, and since it was four years ago, she had REQUESTED IT!

I maintain that a secretary is paid to do her job, and she has no right to ask a married man to give her perfume.

I also believe it was wrong for my husband to have sneaked the perfume in and out of the house that way.

What do you think?

UNPERFORMED WIFE

DEAR UNPERFORMED: I think you're right. A secretary has no right to ask her boss (married or otherwise) to give her perfume. But bosses have been known to reward their employees with special gifts for special favors, and the exchange need not necessarily have a suspicious scent about it.

KRISTINE SMITH  
Kristine Smith, Adamson Reveal Wedding Date

JEROME — Mr. and Mrs. William J. Smith, Ogden, announce the engagement and forthcoming marriage of their daughter, Kristine, to Gerald Adamson, son of Mr. and Mrs. Warren M. Adamson, Jerome, former Twin Falls residents.

The couple plans to be married Jan. 10 in rites at the Salt Lake City LDS Temple, and will be honored at a reception afterwards in Ogden.

Miss Smith was graduated from Bonneville High School and is attending Weber State College.

Mr. Adamson is a graduate of Twin Falls High School, is attending Weber State College. He was graduated from William B. Ogden School of Radio Engineering, Henderson, Nev., and is employed at KLO Radio Station.

Club Officers Are Elected

HANSEN — Mrs. Louis Hranac elected president at the Executive Social Club meeting at the home of Mrs. Donald Conner, Mrs. E. C. McFarland was elected vice president, Mrs. Von Nebeker, secretary, and Mrs. Lyle Jones, treasurer.

"A Christmas Prayer," a poem, was read as the opening exercise by Mrs. Melvyn Switzer, who was also program chairman. The Christmas gift exchange was held, revealing secret sister names. New names will be drawn at a later meeting.

Mrs. Nebeker and Mrs. Ciffin Flaynes received special gifts.

The next regular meeting is Jan. 16 at the home of Mrs. Switzer, with Mrs. J. C. Poe as program chairman.

CONFIDENTIAL TO B.B. Silicone breast implants have been successfully performed by competent plastic surgeons and are most assuredly legal in the United States. But silicone (BOTOX) (for breast enlargement) are NOT available legally in the U.S.A. The reason: They are considered dangerous.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Cal. 90069 and enclose a stamped, self-addressed envelope.

## What's In A Lunch Box? \$\$\$

Workmen's Lunch boxes are popping up in new hands—those of teenage girls.

The youngsters have taken a cue from sophisticated boutiques; where: flashily-decorated lunch boxes are selling as \$40 handbags. Do-it-yourself youngsters are using a combination of imagination, cut-outs, glue and shellac—are getting the same effect for only about \$2.

In many, the lunch box hasn't really lost its original function, according to the Institute of Living, Inc. Instead of being lunches, the adorned buckets are used to carry lunch money. That can add up to quite a bit.

The Institute recently conducted a survey of teenage spending habits, ambitions and social attitudes, with more than 1,800 high school juniors and seniors in schools throughout the nation filling out the questionnaires.

Number one on their shopping list was food and sodas, including school lunches. In a single week about 1,400 of these young people—collectively—spent more than \$4,000 on lunches, snacks, sodas and other "treats" that works out to about \$3 a head.

Satisfying their appetites is not the only way these students spend their weekly personal allowance—the youngsters reported an outlay of more than \$32,000 in one week, with considerable amounts going for amusements, clothing, automobile expenses and gifts.

Sizable amounts were also spent on cosmetics, personal grooming products, phonograph records, cigarettes, hobbies, transportation, school supplies and for other incidentals and luxuries.

The students handle fairly large amounts of money, with 70 per cent having more than \$5 to spend in a week. In fact 80 per cent of the students had more than \$10 a week to spend. Where do they get their funds?

Much of it comes from home in the form of "lunch money," regular allowances and money that parents provide when asked for it.

This is not surprising, considering that the students in the survey came from generally middle income families. About a third indicated annual family incomes of \$10,000 or more.

What may be surprising is that 60 per cent of these youngsters earn at least part of their money by holding down jobs outside the home.

Most of the students don't spend all the money they have in their pockets and purses. Seven per cent said they contributed money to their families in the week before the survey.

Sixty per cent set money aside in bank accounts, or special cash funds at home. Half of the youngsters who saved said they saved more than \$5 for either short or long-term goals. The students have specific

performed before a background of white curtains in the parlor of the bride's home, 222 West 18th St., New York, N.Y. 10011.

The bride, given in marriage by her father, wore a light blue brocade gown with long sleeves and a high neckline. Her bouquet was white carnations with all-year-atrainers.

Mrs. Sally Ann Garrard, daughter of honor, wore a white dress with a high neckline. Her bouquet was white carnations with all-year-atrainers.

Mrs. Vester Henslee, aunt of the bridegroom, registered the guests.

The three-tiered cake, decorated with blue roses and white doves and topped with a miniature bride and bridegroom, was baked and decorated by Mrs. Wanda Dunkam, Hagerman.

Kathie Henslee, Sandra Robinson and Sally Garrard presided at the bride's table.

The young couple plan to reside in Richfield, where the bridegroom is employed by the Hagerman Lumber Co. factory.

Out-of-town guests attended from Richfield, Gooding and Wendell.

COMFORT AND CONVENIENCE add a "living room" touch to this new gallery headboard for modern bedrooms. It's from the Optima suite by Hooker of Martinsville, Va., and

it offers 112 long inches of useful space for those necessary luxuries of the relaxed approach to life. Has matching night stands, other pieces in medium price range.

**Special Guests Attend Unit's Holiday Dinner**

Mr. and Mrs. Harold Chelie, Gooding, were special guests at the Christmas dinner meeting of Magic Valley Barracks No. 500 of World War I. Other guests included Mrs. Frank Meisner, Mrs. Clara Hasebrock and Mrs. Lea Griffin of Buhl.

A. E. Williams led group singing, accompanied by Mrs. Chelie.

Mrs. Chelie, past district president, was installing officers. Officers installed included Mrs. Clark Brooks, president pro tem in the absence of Mrs. Charles Smith; Mrs. Vince Pulpipher, senior vice president; Mrs. Bob Sept, junior vice president; Mary Stearns, treasurer; Mrs. Williams, chaplain; Mrs. Roy Gaskill, conductress; Mrs. Eldon Schultz, guard; Mrs. Bertha Johnson, assistant conductress, and Mrs. Zita Roache, secretary.

Mrs. Charles McAnulty is patriotic instructor; Mrs. Ruth Linderman, flag bearer; Mrs. R. B. Condit, luncheon bearer; Mrs. Grant Kunkle, historian; Mrs. Roache, legislative chairman; Mrs. Condit, hospital and VAVS; Mrs. Pulpipher, membership; Mrs. Bertha Johnson,

Emma Stone and Mrs. Kunkle, trustees, and Mrs. Vernon Lawson, Mary Stansbury, Lydia Graybill and Margie Dickard, color escorts.

A corsage and gift were presented to Mrs. Chelie by the outgoing president, Mrs. Condit. A letter was read from the Boise VAVS chairman. Three members were reported ill. Mrs. Gaskill and Mary Stearns will serve at the Jan. 13 meeting.

**Holiday Party Held By Group**

FILER—Poplar-Hill Social Club members related their plans for the Christmas holidays at the club dinner at the home of Mrs. Reuben Lierman. Lighted candles and holiday decorations enhanced each room of the house. A gift exchange was held.

The club voted to send donations of money to the Idaho Youth Ranch, the Salvation Army and the American Legion basket fund. Mrs. Roy Lancaster and Mrs. Mabel Barron volunteered to deliver the boxes of cookies, fruit and candy which the club takes each year to elderly residents of the Filer Home. Mrs. Condit and several friends in the area.

**Magic Valley Favorites**

MRS. CLARENCE CHIGBROW  
112 Nebraska St., Gooding

**Malasadas**  
(Portugal doughnuts)  
4 cups flour  
1 teaspoon salt  
1 cup sugar  
2 yeast cakes  
1 pint warm milk  
8 eggs  
5 lbs. flour, salt and sugar  
Place yeast in one cup of warm milk and blend well. Pour yeast mixture into bowl with about two and one-half cups dry ingredients, stirring.

Gradually add remaining milk, eggs, one at a time, and remaining flour. When thoroughly mixed, cover bowl and let rise. When dough has risen and appears light in texture, drop by tablespoons into hot fat and fry until golden brown. Roll in additional sugar and pour warm honey over doughnuts and serve immediately. May use half of flour and add two cups mashed potatoes.

each week for the best recipe submitted for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women's Page Editor. The recipe becomes the property of the Times-News and cannot be returned.

**Husbands Feted At Club Social**

Husbands of the members of Le Livre et La Plume Literary Arts Society were guests at the club's Christmas party held recently at the Carillon. After the buffet supper, a program was presented by Mr. and Mrs. Burt Hulsh. A Christmas story, "America's Gift," was told by Mrs. Hulsh and Mrs. Hulsh sang "O Holy Night," accompanied on the organ by Milton Barrus. Gordon Cox was welcomed as a new member.

MR. AND MRS. LAWRENCE L. STOFFEL  
(Shig-Morita photo)

Geraldine Brown, Stoffel  
Marry In Catholic Rites

A wedding mass, held Nov. 21 at St. Edward's Catholic Church, Twin Falls, united in marriage Geraldine (Gerry) Lee Brown, daughter of Mr. and Mrs. Gerald C. Brown, Twin Falls, and Lawrence L. Stoffel, son of Mr. and Mrs. Joseph Stoffel, St. Louis, Mo.

The double-ring ceremony was performed by the Rt. Rev. Msgr. Edmund Cody in the presence of family and friends from St. Louis, Mo., and Reno, Nev., as well as Twin Falls.

The bride, given in marriage by her father, wore a floor-length, blue gown of heavy tulle, soie, fashioned with an empire waistline and accented with wide bands of lace on the sleeves and at the hemline. The gown was enhanced with a chapel-length train. Her elbow-length veil of bridal illusion was held in place by a crown covered with material the gown and trimmed with seed pearls. The bride carried a bouquet of white carnations and apricot-colored carnations and wore a single strand of pearls with pearl earrings.

Mrs. Linda (Gerry) Generario, Reno, was maid of honor and Mrs. Geary (Gordon) Anderson, Reno, Judi Brown and Alyce Brown, sisters of the bride, were bridesmaids. Laurie Generario, Reno, was flower girl.

Gordon Anderson, Reno, was best man and Gerry Generario, Reno, and Steve Brown, brother of the bride, were members of the wedding party.

After the ceremony a reception was held in the Parish Hall where the bride's table was covered with a white lace cloth and centered with the three-tiered wedding cake decorated with apricot-colored roses and topped with wedding bells. The cake was flanked by silver candelabra with apricot and apricot-colored candles. These accents carried out the color scheme of the bridesmaid's gowns, handmade by the bride's mother, who also made the wedding gown for her daughter.

Cake was served by Mrs. Margaret Rogers, with punch and coffee being poured by Mrs. Dan Fenwick and Mrs. Mel Vinkenburgh, all Twin Falls. Res Metzger, Reno, acted as emcee and Mrs. Beverly Thomas and Mrs. Tina Vinkenburgh displayed the wedding gifts.

A buffet supper and social

'Join A Club' Is Advised  
In New Book By Peggy King

By VIVIAN BROWN  
NEW YORK (AP) — If you want to escape the by-syndrome — backaches, babies, bicarbonate, boredom — join a club, women are advised in a new book by Peggy Cameron King, "Ladies, Please Come to Order."

If you don't get into the club of your choice, add you don't want the clubs you can get into, form your own club, she says.

"Every woman needs a club, and she'll never get it unless a woman alive who hasn't belonged to a club, sometime or other."

"I'll bet even the animals who went into the Ark two by two were following the parliamentary procedure," she explains.

Begin your club by choosing charter members. Try not to pick if you choose this way, she says:

"Bossy types: They'll be amendment-makers and they'll be eying the presidency. But they'll come in mighty handy to fight a few battles perhaps with the city council."

"Mousetype: She's not aggressive enough to run something, but she'll be a good helper and yes-girl."

"Social Climbers: They may forget to pay dues and will attend functions of which you're a member."

"After a wedding rehearsal, dine at the home of the bridegroom's parents on the evening prior to the wedding at Kay's Supper Club."

"After a wedding, drive to San Francisco, Sausalito and Sausalito, Calif., the couple will reside in Reno where Mr. Stoffel, an accomplished musician, performed for his marriage at the University of Nevada."

"Prior to entering the university, Mr. Stoffel worked with a name bands as Ray McKinley, Harry James, Tex Beneke and others and attended the St. Louis Institute of Music."

Installation  
Scheduled For  
Rebekah Lodge

Final plans to install new officers were made at the recent meeting of Primrose Rebekah Lodge No. 100.

Officers to be installed include Mrs. Frank Eastman, noble grand; Mrs. N. O. Johnson, vice grand; Mrs. Clarice Wilton, recording secretary; Mrs. Wilford Benedict, financial secretary; and Mrs. Elmer Wilson, treasurer. Mrs. Dale Bowman was elected club captain.

Installation will be a joint event with the Odd Fellows set for Jan. 15 at the Odd Fellows Temple.

Mrs. Francis Bader was elected to membership by the degree staff under the direction of Mrs. Dale Bowman.

An announcement was made that Mrs. Edith Ramsey, assembly president, will make her official visit Jan. 21. Mrs. Alice Schiffer was in charge of the program which featured a gift exchange. Mrs. Mae Patterson held how "O, Little Town of Bethlehem" was sung by Mrs. Bowman.

Refreshments were served by Mrs. Evelyn "Buddy" and her committee. A Christmas merriment was used in the table decorations.

The new noble grand and vice grand gave their respective charges.

LUNCHEON HELD  
At Home of Mrs. Raymond Reichert

The Star Social Club met at the home of Mrs. Raymond Reichert for a no-host luncheon and gift exchange.

Blondes Beware! Brunettes Take Lead

Blondes may have more fun but in the New Year they'll have to step aside for the brunettes if popularity polls are any indication for it appears that more women are now tanning their hair dark brown or black while fewer are resorting to bleaching.

Being born a brunette has tremendous advantages. According to surveys, dark-haired women attract men naturally and easily are marvelous mothers, capable drivers, are successful business-wives, have a quick intelligence and are usually blessed with a remarkably even temperaments.

Beauty consultants stress that brunettes are lucky, too, in having strong skin, pigmentation that won't fade or deteriorate too rapidly. As a result, they always manage to remain looking a decade or so younger than their blonde contemporaries.

It's always wise for brunettes to keep a watchful eye on any

Social Calendar

FILER — Filer Woman's Club will hold its annual "potluck" luncheon at 12:30 p.m. in the Methodist Fellowship Hall. Members are asked to bring table service and covered dishes. Mrs. Lafe Barron will present a program on hospital volunteer service.

Panellenic will hold its January luncheon Saturday at the Colonial Hotel. Reservations can be obtained by calling Mrs. G. W. Burgess, 733-7050, or Mrs. Herbert Pickering, 733-3227.

Behind every clubwoman must be an understanding baby-sitter, a handy money-raising activity leader of muscle, required to move scenery, install floodlights or rig up a loud speaker.

He must also learn to keep from wincing when he notes that some of his dearest possessions have been donated to the club's white elephant sale.

Named Winner

SUN VALLEY — Susan Hadley, daughter of Mrs. George Kneeland, Sun Valley has been named a winner in the sixth annual Nancy Thorp Memorial Poetry Contest conducted by Hollis College.

Mrs. Hadley, who is a student at Foxcroft School, M.P. 10, Va., received an honorable mention in the competition.

Over 1,000 poems by students representing some 250 high schools east of the Mississippi River were entered in the contest. A panel of judges at Hollis selected a first prize winner, two second prize winners, 23 finalists and 77 honorable mentions from the entries.

Hollis established the contest in 1963 in memory of Nancy Thorp (1938-62), an alumna and a talented young poet.

# Millionaire Industrialist Will Direct Day-To-Day Operations At Pentagon

WASHINGTON (AP) — A Packard Co. of Palo Alto, Calif., multi-millionaire industrialist gave up nearly \$1 million in time to advising President John F. Kennedy to remove day-to-day operations at the Pentagon and \$300 million in stock problems, including the company while Melvin R. Laird, secretary of defense, will have "big picture" policy questions.

Previous indications by Laird, President-elect Nixon, and this would be the case were decided Monday with the naming of California David Packard as deputy defense secretary.

Introducing Packard to Washington newsman, Laird, a Republican Congressman with administrative experience, said the electronics executive will be in position to complete personnel in those areas where we need strength in the next four years.

"We will have an outstanding administrator on our team," Laird said.

Packard, who will resign as chairman of Hewlett-Packard, is a former Ford Motor Co. president, McNamara was fascinated with the mechanism of running the enormous defense establishment with a million-uniformed and civilian personnel and its almost limitless facilities.

Clifford is a lawyer by trade and, like Laird, had a blank background in administration.

"So he has left many of the day-to-day details to his deputy, Paul H. Nitze, while he has de-

# PUC To Allow Freight Boost By Railroads

BOISE (AP) — The Idaho Public Utilities Commission has authorized railroads operating in Idaho to increase intrastate freight rates in line with a similar boost for interstate shipments.

The increase on interstate rates, effective Nov. 25, averaged about 5 per cent, the PUC said. The intrastate hike can be effective for 30 days.

The agency said railroads need additional revenue to operate economically in Idaho.

# Anti-War Protesters Plan Inaugural 'Demonstration'

WASHINGTON (AP) — The same group that sponsored anti-war demonstrations during the Democratic National Convention in Chicago says it will stage three days of "counter-inaugural" protests during Richard M. Nixon's inauguration festivities.

The National Mobilization Committee to End the War in Vietnam is organizing the demonstration and seeking parade permits to route to accommodate as many as 10,000 persons.

But "there is no plan for civil disobedience," said Mobilization Coordinator Dennis Davis. "The for the committee here as he was in Chicago, told an interviewer:

"We do not intend in any way to disrupt any official ceremonies or inauguration activities.

"We are very clear about not doing any physical confrontation with police."

The Chicago protests resulted in bloody street fighting between police and demonstrators.

The Mobilization's plans call for a "Counter-Inaugural Parade" on Sunday, Jan. 19, the day before the inauguration. The demonstrators want to march with banners down the Nixon parade route in reverse, from the White House to the Capitol.

A "Counter-Inaugural Ball" also is planned. The Mobilization hopes to stage a rally on a section of the Ellipse, and to set up sound equipment.

On inauguration day the demonstrators want an area of a block or so designated for them on the parade route—enough for an estimated 5,000 to 10,000 protesters with placards and banners. Negotiations for permits

# 'Bad' Luck Asked

LEWISTOWN, Mont. (AP) — A new bike belonging to 8-year-old Cheri Trask was stripped recently of its wheels while in front of her home.

Sheri was saddened by the loss and her father, Dick Trask, was perturbed.

"So Cheri's father placed the following ad in the public notices section of the Lewistown News-Argus.

"To the person who took the wheels off the new bike at 413 W. Corcoran, I don't wish you any bad luck, but I hope you break your neck on them."

USE TIMES-NEWS-WANT ADS!

# Negro Actor To Narrate 'Carol'

NEW YORK (AP) — A Christmas Carol, presented live for more than 25,000 children from disadvantaged areas, will have James Earl Jones as narrator and Orson Bean as Ebenezer Scrooge.

Jones is the Negro star of "The Great White Hope," his first hit of the season thus far on Broadway.

### GUARANTEED Remanufactured Engines

Sears Remanufactured Engines are Guaranteed for 24 Months or 24,000 Miles...this is the strongest guarantee in the industry! So replace that old, worn-out motor now!

OVER 450 ENGINES

#### Sears Complete Engine Guarantee

If any part fails due to defects in material or workmanship during first 90 days or 4000 miles, which ever comes first, we will replace the failed parts free of charge, providing required service certificate. After 90 days or 4000 miles and up to 24 months or 24,000 miles whichever occurs first, parts and labor charge will be prorated based upon the percentage of guaranteed months or miles, whichever is greater, representing usage received. Engines used in trucks guaranteed 90 days or 4000 miles only (whichever comes first). Perfect service or proof of service is required to keep guarantee in effect.
