TEN CENTS

PRO-CZECH STUDENTS spit on the Russian flag during a demonstration on Thursday in Rome, expressing their solidarity with the Czechs, mourning the death of Jan Palach, who died of burns following his self-immolation in Wenceslas Square in Prague last Thursday. (UPI telephoto)

'Deranged' Man Fires Pistols At Cosmonauts During Parade

MOSCOW (UPI) — A young man fired on the triumphal parade of Soviet cosmonauts in the city today, firing a 25-year-old and took his official news agency Tass to the official luncheon. Some of the cosmonauts, including the first space hero, was hurt, it said.

According to the sources, the cosmonauts were marching in the parade carrying to a Kremlin awards ceremony cosmonauts Yuriy Volyga, Yevgeny Klirunov and Vladimir Shatalov, all of whom were decorated with the Order of Patriotic War. A civilian engineer who joined them in their two space flights last week—a first for the Soviet space program—was also in the parade.

The four cosmonaut heroes escaped harm, the sources said. But the driver of their limousine was hit in the head by three bullets and critically wounded, they said. A security guard seated next to the driver in the front seat also was hit by a bullet and wounded.

Heavy Snow Reported In Ski Areas

Winter temperatures and heavy snows in most areas are reported for the coming week-end.

Absenteeism Is On Rise In T.F. Schools, Official Says

Absenteeism at Mountain Side Elementary School in Twin Falls has reached about 14 to 15 per cent, the highest rate of pupil absence recorded in several weeks.

Tornadoes Cut Swath Through South, Kill 28

Bucher May Face Court Martial

CORONADO, Calif. (UPI) — Lloyd M. Bucher, almost certainly will be court-martialed for the loss of the intelligence ship USS Pueblo.

Twisters Toss Cars, Homes In Dixie; Victims Are Hunted

HAZLEHURST, Miss. (UPI) — Deadly tornadoes cut through the heart of southern Mississippi today, tossing homes and cars about like playthings and killing at least 28 persons.

Some family, were killed when their house in White Oak in east Mississippi was destroyed.

It was dispatching three disaster specialists to Mississippi to aid in rescue operations.

MONUMENT TO A BUG!

The city of Boise is planning a monument to a bug that was the cause of a major pest problem in the city.

Lodge To Tell Reds Of Hopes For Peace

PARIS (UPI) — Chief U.S. negotiator Henry Kissinger today leads to make it clear to the Communists when the expanded Vietnam war talks begin Saturday that the United States wants peace.

Store Sales Sought

By PAUL M. QUINN
BOISE (UPI) — The controversial "wine bill" was introduced today by the Idaho Legislature.

Senate Ponders 'Wine Bill'

and Democrats alike on the concurrent resolution for the legislative insurance. He said he figured the cost would be about \$3.00 per person for the state.

Colder Temperatures and Clearing Skies in Blaine Storm Quits, T. F. Receives Snow

Weather remained a major topic of interest throughout Blaine Thursday, with a new storm moving across the lower part of the valley, leaving about an inch of new snow in the Burley-Rupert area and at Twin Falls, which has been bare for some weeks.

Blaine Storm Quits, T. F. Receives Snow

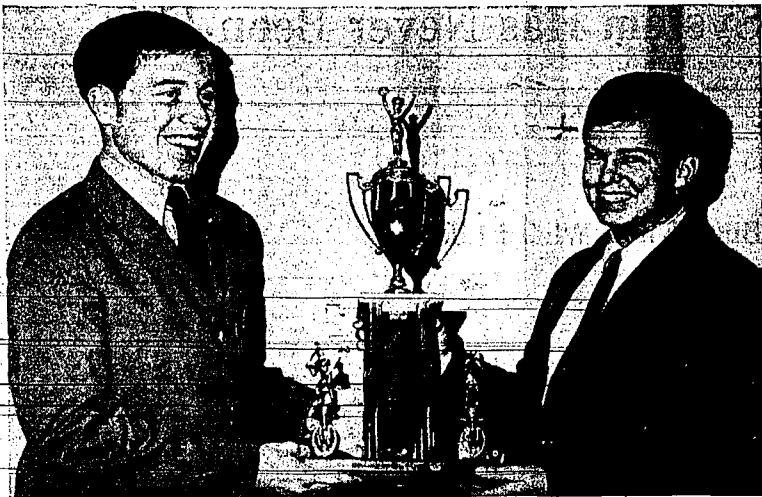

Walking on Main Street there, extremely difficult. The storm had cleared and it was clear and cold in both Halley and Fairfield Thursday morning.

Court Rules In Favor Of Students In Minidoka School Fee Dispute

ROBERT (UPI) — 140th District Judge Sherman Bellwood has ruled against the Minidoka County School District in a suit filed by Rupert area farmer Jack Paulson.

THIS VEHICLE AND THE train engine seen in the background, Thursday, were the railroad crew on Shoshone Street West but there were no injuries. Twin Falls police said Charles Schwerman, 18, 128 Meritt St., was the driver of the car. Marion Ames was the engineer. About \$100 damage was done to the car. The locomotive was not damaged, officers said. Mr. Schwerman was charged with failure to stop at a railroad signal.

THIS SPIRIT TROPHY will be presented Saturday to the College of Southern Idaho club which has displayed the most school spirit. The presentation will be a highlight of homecoming, which gets under way Friday and continues through

Saturday night. From left are Chris Barth, homecoming chairman, and Leon Wright, president of the student senate. The Circle K Club won the traveling trophy at last year's homecoming activities.

Antique Theater To Open Season At CSI

BUHL — The Antique Festival Theatre will open its sixth season at the Fine Arts Center on the College of Southern Idaho campus in Twin Falls. July 10, 11, and 12 have been booked for the initial performances of the 1969 repertory season. Three "spoof" plays have been chosen by the theatre staff. They include Henry Fielding's "Tom Thumb the Great," set in Saxon, England, Moliere's 17th century farce about the medical profession, "The Doctor in Spite of Himself," and a contemporary folk piece having fun with the cowboy myth, James Rosenberg's "The Death and Life of Sneaky Fitch."

Applications are being received for scholarship grants with the repertory group which plans to tour even more widely than in the summer of 1968.

House Completes Bill On Car Theft

BOISE (UPI) — The House of Representatives today completed legislative action on a Senate bill making it a misdemeanor to file a false report of a motor vehicle theft.

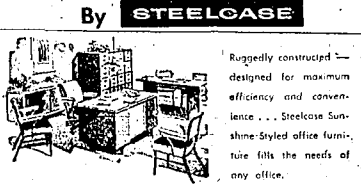

Rep. Patricia McDermott, D-Rochester, N.Y., sponsored the measure, which passed the House 69-0. The bill, after it is enrolled, goes to the governor for consideration.

The measure was one of five approved by the House today. Another Senate measure on which action was completed was a concurrent resolution designating a permanent committee to negotiate with the federal government on forest fire bills.

Also approved by the House were bills to allow the House and Senate to provide for payment of their employees according to their rules, require the vehicle on the left to yield the right of way at an intersection and raise to \$300 the jurisdiction of small claims court.

Coronation Of Queen Will Highlight CSI Homecoming

The crowning of the College of Southern Idaho's homecoming queen will highlight two days of activities planned by the college student body. Royalty will be announced at half-time of the CSI Golden Eagle — BYU Freshman game which begins at 7 p.m. Saturday at the Twin Falls High School gymnasium.

Candidates are Peggy Williams, sponsored by the freshman and sophomore classes; Doris McDonald, sponsored by the Rifle Club; Alice Simons, sponsored by the Circle K Club; and Mary Ann Jensen, sponsored by the Ski Club.

Mine Inspector Scores Proposal

BOISE (UPI) — The Idaho state mines inspector Wednesday spoke out against Gov. Don Samuelson's proposal to merge the Mines office into the Industrial Accident Board and the Labor Department.

O. T. Hansen said Samuelson's proposal would block Idaho from going ahead with its own program in the future. Hansen said that under the 1966 Federal Mine Inspection Act "the state can't go ahead with its own department unless it has its own department." Hansen's job will be made appointive at the end of his current term in office.

Homecoming Dance On Sale at CSI

A homecoming dance on sale at the CSI administration building, 149 Third Ave. E., will be held.

The two-days' activities will be ended with a concert by the Radio-Seco Singers at 9 p.m. Saturday at the Fine Arts Center.

At 1 p.m. Saturday the Circle K and Ski clubs will compete in a tug-of-war across Perrine Coulee, which runs through the campus, just north of the faculty offices.

Dr. James L. Taylor, CSI president, and David Perkins, dean of students, will officiate at the tug of war.

Friday's activities include a noise parade, which will conclude about 5:30 p.m. at the National Guard Armory. At 9 p.m. Friday, at the National Guard Armory, a homecoming dance will be held.

Gang Goofs

SAN DIEGO, Calif. (UPI) — It's back to the old printing press for the forgers who counterfeited currency government payroll checks and tried to cash them in stores.

In an effort to copy the protective legal phrases printed on the checks, the gang came up with "Void After Six Months of Issue" and "Fund Purpose."

Board Director Reports Lack Of Data On Law

BOISE (UPI) — Clifford Barnett, executive secretary of the State Board of Pharmacy, told the joint finance-appropriations committee Wednesday that he had no advance warning that the governor would recommend transfer of drug control to another agency.

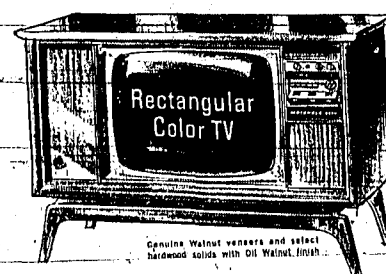

Barnett said the first time he heard about the proposal was in the governor's State of the State message.

The governor has asked the legislature to put control of drugs under the Department of Law Enforcement instead of the Board of Pharmacy.

Rep. Alvin Joslyn, D-Idaho, said drug control should remain with the board because "it can recognize narcotic drugs and their uses."

SWENSEN'S ANNUAL JANUARY

BLACK SALE

LATE BULLETIN: . . . The National Association for the advancement of BLACK PRODUCTS (N.A.A.B.P.) gives award to Swensen's Mkts.

In a nationwide announcement Swensen's Magic Markets have been given special recognition for their work in promoting COLOR EQUALITY. In an interview, Mr. Swensen had this to say for all time: "January is so completely and unilaterally dominated by WHITE SALES . . . so we're having a BLACK SALE." That's not all Mr. Swensen said, but none of the rest of it made any more sense than the quotation, so why go on? Swensen's Markets, an equal-product opportunity store, carry a wide line of black products on an unbiased, non-discrimination basis. For example, they carry Hormel Black Label Ham and Bacon, black shoe polish (stocked on same shelf as white shoe polish), Blacktrap molasses (located on the shelf just above the White Kero Syrup), blackeyed peas, and black pepper. (see ad)

No matter what color product you prefer, or even if you're colorblind, you can always do better at Swensen's Magic Mkts.

WASHINGTON — Sometimes a personal note is mandatory. The last time I aired my conviction that college graduates should share the burden of the military draft with less fortunate — if not necessarily less educated — young men, readers deluged me with protests.

The gist of these protests was that I wouldn't talk that way if I had invested four years of dough in a college education for a male child. Well, to clear the air somewhat, there exists an A. Tully III, a classics major, who graduates in June from Fordham University and hopes to go on to graduate school and eventually gain a Ph.D. Finally, it should be noted that, like most men who don't go to college, this son's father regards a college degree with special respect.

And now, more briskly, to the business at hand. It involves the report of the Scientific Manpower Commission, which declares that the nation's long-range supply of trained personnel will be "seriously and detrimentally" affected by present Selective Service policies. Those policies call for drafting oldest men first, and, by amendment, for the draft law enacted in 1964, for all graduate students except those in medical and dental studies.

A Commission survey of 1,237 science and engineering Ph.D.'s found that as many as 38 per cent of the full-time first- and second-year graduate students in science are being drafted in the months ahead. Eliminating foreign students, the rate rises to 46 per cent.

Moreover, 43 per cent of all first-year students in the 100 largest graduate schools teaching in these departments, and 50 per cent of all graduate student-teachers are liable for the draft. Under the law, a student who has received a deferment is vulnerable up to age 35.

No one can deny that these policies will result as the commission says, in "serious disruptions in normal professional education programs, as well as the withdrawal of substantial numbers of trained persons from the economy." Draft a lot of plumbers and you have less plumbers.

Perhaps just as important, the inroads of college graduates will make it difficult for universities to scrape up enough graduate teaching fellows to teach undergraduate students. Most graduate schools couldn't operate without corps of these fellows, simultaneously working for graduate degrees and doing teaching chores.

But after noting that this is the last of the boys who had the same job under Gen. Eisenhower, never to intervene with Cabinet departments or the regulatory agencies without specific Presidential approval — obvious protection against another Sherman Adams scandal.

Every President starts out with new guidelines to govern the conduct of his Cabinet, which often are forgotten as quickly as the President's campaign speeches. Moreover, President Johnson's aides are privately skeptical, predicting that Nixon aides will refrain from intervening in executive departments and offering hard recommendations to the President for about one day.

But Mr. Nixon has made heavy impact on his staff with these Nixon guidelines. It suggests that Mr. Nixon really intends to run the government through his Cabinet as no President since Harry Truman.

"It May Not Be Art But I Know What I Like"

Rowland Evans and Robert Novak are the authors of the article 'Nixon's White House'.

Report: Nixon's White House

WASHINGTON—An exchange between Richard Nixon and his new chief advisor for national security affairs, Dr. Henry Kissinger, at the President's first meeting with his Cabinet tells much about the coming shape of things at the White House.

Briefing his entire Cabinet on Dec. 12, the day after he unveiled it over nationwide television, Mr. Nixon suddenly turned to Kissinger in the midst of a discussion on Vietnam. He asked Kissinger to give his advice on a controversial problem.

Kissinger rose and said that in his new job he would be giving no advice — only information and options for the President to select from. Obviously pleased, Mr. Nixon chuckled but insisted that Kissinger could break his rule and say what he really thought ought to be done. Reluctantly, Kissinger obliged.

The incident reveals how the Nixon team hopes to change the whole character of the White House staff operation. What Mr. Nixon is driving for has eluded many Presidents before: to give his own staff strictly as an information-gathering device and leave to his Cabinet all the major policy advice.

In Kissinger's case, for example, Mr. Nixon and the successor to the job held the last eight years by free-wheelers McGeorge Bundy and Walt Whitman Rostow, have agreed on extremely tight guidelines. Kissinger will never propose or advocate a particular policy, but will only present "options" — choices, in ordinary language — to his boss.

Thus, hitherto agreed to this process with Mr. Nixon before his appointment was announced, Kissinger naturally attempted to follow it out at that first Presidential Cabinet meeting.

Kissinger has agreed, in addition, to highly significant changes Mr. Nixon wants to make in his National Security Council (NSC) as constituted to form under Gen. Eisenhower. (During the Kennedy-Johnson years, the NSC fell into disuse.)

It is the Eisenhower administration, the joint of NSC policy papers was a decision agreed on by all members of the Council — the Secretaries of State, Defense, and Treasury, the Vice President and the head of Office of Emergency Planning, with the President as chairman.

This harmonization of abruptly opposed views often produced a policy that pleased no one and avoided the issue. Under Mr. Nixon, Kissinger won't try to compromise conflicts within the NSC. Mr. Nixon wants conflicting opinions to come to him, sharpened and with all the favor left in. He also intends to cut back drastically on the number of officials who attend NSC meetings, and his new chief advisor for national security affairs, Dr. Henry Kissinger, at the President's first meeting with his Cabinet tells much about the coming shape of things at the White House.

Baby's Breath

Dear Dr. Thosteson: What is your advice concerning a 9-month-old baby who has a most annoying habit of holding his breath when he gets to crying?

Does it merit punishment? I know a couple who stick their baby under a cold shower or throw cold water on the baby's face. He is a healthy, happy baby when a baby sitter is taking care of him.

I hope your answer will awaken this couple. They drink a lot. — Mrs. C. H.

I won't say that "most babies are born with a blue tint to their face" — it is a lie of about 6 per cent of babies, from 6 months to 2 years.

Usually they have been crying because of being startled or frightened, hurt, or they are angry. Some will hold their breath to the point of becoming dusky (turning blue). Others are so tired they hold their breath to the point of unconsciousness, the instant that happens, he relaxes and begins to breathe automatically, so from that standpoint there is nothing to worry about. They can't hurt themselves, no matter how much breath-holding they attempt. — N. Y.

In certain other cases, however, breath-holding is important. Sometimes it has been pointed out recently by pediatricians that some babies who hold their breath are anemic. Therefore, medical tests are in order. Suppose child is anemic, treatment should be instituted.

When no breath problem is involved, such a baby usually calms down with judicious cuddling and kind words. I can't go along with the cold water treatment. It isn't necessary, probably serves only to make the child more resentful so he continues to hold his breath. In some cases it is nothing but a trick in the parents.

One other possibility should be kept in mind. Some breath-holders go into a muscular spasm, with an arching of the back. Suppose child goes into such a spasm. If he has been crying, it's probably just a part of the breath-holding business. But if the child has not been crying, the spasm may be a convulsive type of reaction. An electro-encephalogram ("brain wave" test) will show an abnormal pattern in convulsive disorders; the healthy breath-holder will have a normal pattern. (If the child has not been arching of the back, does not occur with the convulsive problems.)

Some incident, of indication of an unpleasant, usually recedes the crying and prevents another episode. When spasm or convulsion develops, without such a prodrome, suspect a convulsive reaction.

Tables usually get over this breath-holding trick by age 2, but instead of waiting for that,

it is sound family practice to take stock of things. Babies need a tranquil, happy family atmosphere. They need affection, love, kindness, cuddling. Punishment won't stop breath-holding. More likely it will make it worse.

Perhaps the hard-drinking couple mentioned in your letter are more in need than the baby of being dunked under a cold shower.

Dear Doctor: Is it possible for elderly people to take too much vitamin C and is it dangerous in any way? — M.J.Y.

No, because the body does not store a lot of vitamins, and any that it does not need, is excreted.

Dear Dr. Thosteson: How harmful is ice water? I drink a glass on my afternoon breaks to cut down on coffee. Every day I am reminded how harmful ice cold drinks are. Would it be better for me to have coffee? — A.S.

I don't see how of any harm from drinking ice water and would ignore all the dreadful things you are being told.

Medic Alert

In 1956, a young girl in California nearly died after receiving an injection of tetanus antitoxin to which she was allergic. Her father, Dr. Marion Collins, made a bracelet carrying the warning of her allergy for her to wear at all times.

This was the first Medic Alert bracelet and the beginning of an organization which has made more secure the lives of tens of thousands of persons with special medical problems who might receive no treatment or the wrong treatment during episodes of shock, delirium, unconsciousness or coma when they are unable to communicate with those trying to help them.

Today, the organization — its full name is Medic Alert-Foundation-International — has more than 200,000 members in America, with some 2,000 joining monthly. There are another 100,000 members in affiliates around the world.

Yet the American Medical Association estimates that there are over 40 million people in America alone who suffer from some special or "hidden" medical problem, such as

epilepsy, heart condition, allergy to penicillin, who are taking anticoagulant drugs or wearing contact lenses.

Medic Alert is nonprofit. For a basic fee of \$7, a member receives a bracelet or necklace in stainless steel and an identification program card. Each emblem is registered and the serial number is engraved on the reverse side, as is the telephone number of the foundation's central file at its headquarters in Turlock, Calif.

The central file accepts, on a 24-hour basis, collect calls from physicians, hospitals, law enforcement officers and other authorized persons and relays additional information from the individual's file.

A new service which Medic Alert recently announced — is the first worldwide human transplant information pool.

This will enable hospitals and officials to determine immediately whether a dead or dying accident victim wearing the Medic Alert emblem desires to donate his eyes, heart, kidney or other organs to help save the life of another.

Monopoly Feared

Members of the communications industry are concerned about some of the recommendations purportedly made by a presidential committee headed by Eugene V. Rostow, under secretary of state for political affairs.

The report calls for a drastic reorganization of the nation's communications industry, placing vastly greater control of it in the government.

held Communications Satellite Corp. A key recommendation of the Rostow committee involves placing all international communications facilities in one company — Comsat, presumably — which would then become the government's instrument for handling such communications.

There is cause for concern in such an arrangement. It may seem like efficiency to a bureaucrat, but it smells like censorship to those who jealously guard the freedom of the press.

The Right Step

Gov. Ronald Reagan is determined that disorders shall not wreck California institutions of higher learning.

"I will seek," he told the state legislature, "an omnibus program on the safety and security of our educational institutions — to protect the teacher, the student and the public. Such proposals would, among other things, increase the penalties for assaults on teachers and students, provide for the expulsion of students for the dismissal of teachers who interfere with the educational process, and strengthen the trespass laws to keep troublemakers off the campus."

By these words, Gov. Reagan backed up the moral support he had given to San Francisco State College in the educator's determined effort to keep his school open.

As campus disorders continue, the time is past for talking about what ought to be done. Several years of kid glove treatment of would-be campus anarchists has only produced more of the same.

There are still a large number of students who attend college to learn. Government institutions owe them at least an environment in which learning is possible.

MR. SPECTATOR

From A Man In Vietnam

Must be pretty lonely way over there in Vietnam, far from home, friends and family members. So when Mr. Spector gets a note from an area serviceman who is now serving over there, it is read with interest.

We recently received such an interesting note from PFC James R. Flavel, a son of Mr. and Mrs. William E. Flavel, Shoshone, and husband of Carla Flavel, a daughter of Mr. and Mrs. Morris Nielson, Gooding.

PFC Flavel is currently serving with a squad 50 machine gun battery in Chu-Lai. The battery issues support for the infantry, convoy missions and landing zones.

PFC Flavel has some strong ideas as to just what is going on in Vietnam, why he is there, why the United States should be interested and just why this war is different than some other wars.

"America has kept faith in its early promise of assistance to South Vietnam," he wrote. "The United States deploys fighting forces to save the small nation from military and political collapse. Thus, we have helped this young nation through their first troublesome period of independence.

"Armed in the past have used military power to force an enemy to surrender or be destroyed. Little thought was given to any reconstruction until after the war was over. But in South Vietnam, while we fight, we are helping Vietnam improve the environment of the people. These actions are necessary to demonstrate to the people that the government is interested in their welfare, thereby winning their support."

"In Vietnam an entire generation has lived with or under threat of violence and bloodshed. The people who are hurt and hungry, dispossessed and bewildered, are slow to see the value of any cause.

"Our purpose in Vietnam is to support the South Vietnamese government. The United States must exercise such authority to see that order can be restored and justice can prevail."

THE GOLDEN SPIKE

A note from E. H. Bailey, president of the Union Pacific Railroad, brings to our attention that it was just 100 years ago this year that the Union Pacific and Central Pacific met at Promontory, Utah, to complete the first transcontinental rail line in America.

The Golden Spike celebration will be observed this year at the isolated Utah area. The celebration is acknowledged as one of America's top 10 historical events. Mr. Spector will bring you more information about the observance at a later date, realizing that a lot of you would want to be present.

And from the Kiwanis magazine we give you the following quote: "Today is the first day of the rest of your life; make it count."

Official City and County Newspaper Member of Audit Bureau of Circulation and UPI

Pursuant to Section 10-108-1 Idaho Code, Thursday is hereby designated as the day of the week on which legal notices will be published.

Experts Deny Ex-Queen Has Famed Pearl

NEW YORK (UPI)—An auction gallery which has scheduled the sale of "La Peregrina," one of Europe's most fabulous royal pearls, denied an allegation by the former queen of Spain that she owns and still has possession of the pearl.

Former Queen Victoria-Eugenie, widow of Alfonso XIII, issued a statement through the Duke of Alba in Lausanne, Switzerland, saying that the pearl could not be sold at the Parke-Bernet Galleries Thursday because it is in her own rich collection of jewels.

Peregrine Pollen, president of the auction-house, said Wednesday the firm has "confirmed the authenticity of the jewel in our complete satisfaction" and plans to go ahead with the sale of the 203-grain pear-shaped pearl found in the Gulf of Panama in the 15th century.

Pollen cited the definitive work on royal jewels, Lord Twining's "A History of the Crown Jewels of Europe," published in 1909, as saying the pearl to be sold Thursday was "La Peregrina," once the treasure of bloody Queen Mary of England, Philip V of Spain, and Napoleon III. It had passed from the Bonapartes to the collection of the English Dukes of Abercorn from which it was bought by an American.

The American, whose name has not been disclosed, has placed the pearl, which is set as a pendant on a diamond-set mount, at auction. It is expected to bring in as much as \$70,000, according to gallery officials, but a pearl of this size—as big as a pigeon egg—has rarely come up at public sale.

Panel Named On Auto Law

BOISE (UPI) — Rep. John Sessions, R-Driggs, appointed a five-member house transportation and defense subcommittee on Wednesday to study proposed revision of Idaho's motor vehicle inspection law.

He said that the committee has not considered "dumping" the inspection law but rather revising it. He said the legislature with whom he has talked appear to favor keeping the law so the state can comply with federal statutes and at the same time improve safety on the highway.

THREE MEN INVOLVED in the annual winter recreation training program survey a slope in the Smoky Dome area. This year the training sessions will be held at Willow Run near Fairfield, at Soldier Mountain Ski Area and at Ketchum. Many winter recreation ideas and problems will be discussed during the three-day session.

Budget Draws Strong Protest

BOISE (UPI) — Idaho Insurance Commissioner John R. Blaine said today the state's executive budget invites federal control of the industry.

Blaine said some of the cuts imposed on his department by Gov. Don Samuelson will hamper essential operations, including what he called a "circuit rider" of public service program.

He said this phase of his operation succeeded in obtaining more than \$100,000 for public claims from private firms during the first nine months of 1968.

Tuesday night, Blaine appeared before the Joint Senate Finance House Appropriations Committee to appeal for restoration of \$53,000 to his proposed 1969-71 budget.

He said the state has a "mandate" from Congress to provide winter sports administration, policy, inventory and plans. Snowmobile operation instruction will be conducted Tuesday and licenses will be issued then.

The first day of the training session will be spent at the Willow Run-Snowmobile Area east of Fairfield. Mr. Hoag will conduct the orientation and pro-

Sawtooth Forest Planning Winter Training Program

A basic winter recreation training program will be conducted Tuesday through Thursday on the Sawtooth National Forest, according to Bob Hoag, winter sports administration and planning officer.

The training session, which has been held for the past few years is being held for persons interested in or actively doing winter sports administration and planning. The program will include administration, planning, snow machine use, administration, snow safety, avalanche rescue and winter survival.

Before attending, trainees are asked to review the Avalanche Handbook and sections of the forest service manual concerning winter sports administration, policy, inventory and plans. Snowmobile operation instruction will be conducted Tuesday and licenses will be issued then.

The first day of the training session will be spent at the Willow Run-Snowmobile Area east of Fairfield. Mr. Hoag will conduct the orientation and pro-

Library Project Nears Completion

REXBURG (UPI) — Remodeling work at the David O. McKay Library at Ricks College is being completed, with an added seating capacity for 300 students and a listening laboratory.

Gaylin Fuller, librarian, said the listening lab is in operation and is expected to be enlarged in its programming.

With the addition of new current periodical shelving, the library has increased simply its periodical holdings, Fuller said. Presently the school is subscribing to 1,000 magazines.

on avalanche control supervision policy will be held. The afternoon meetings will be concerned with maintenance, inspection and operation of ski lifts, ski area expansion plans and problems will be surveyed and the group will stay overnight at the Hinawaho Hotel in Hailey.

Trainers and instructors will meet at the Ketchum Ranger Station Thursday morning to review the Sawtooth Mountain Area for Sports Area administration, problems and expansion plans, as well as the proposed Butterfield Ski area. They will discuss the design and layout of ski runs and trails. Another session use is expected.

Isle Newspaper Hits 'Corrupt' Local Regime

CHARLOTTE AMALIE, St. Thomas, V.I. (UPI)—The Daily News of St. Thomas published a reprint of a West End News editorial Wednesday calling on President Nixon to clean up "the rotten, powerful, ruthless

and corrupt" Virgin Islands political machine. Thursday, January 23, 1969

The appeal was written as an open letter to the President by Samuel Ballard, editor of the West End News. He promised his letter to supply a full report to the President to back up his allegations.

Ballard based the urgency of his appeal on rumors that President Nixon may be considering reappointing Gov. William H. Sumner, who first appointed by the late President John F. Kennedy in 1961.

SURIMERSON RETIRES WASHINGTON (UPI) — Dr. William H. Sumner, who served as director of chemical warfare, will retire Saturday as director of the Food and Drug Administration (FDA) Bureau of Science.

Ralph M. Patewsky, who was first appointed by the late President Kennedy in 1961.

THREE MEMBERS OF THE Twin Falls League of Women Voters prepare for their trip to Boise Thursday for the Legislative League Day. From left are Mrs. Stephen Smith, Mrs. Robert Nelson, legislative chairman, and Mrs. W. R. Hatcher. Twelve women from the local group attended the day-long session which was highlighted by a panel discussion from citizens angered by campus disorder and strikes, moved Wednesday to meet the threat of expanded walkouts by more professors.

California Trustees Ponder Controlling Faculty Unrest

SACRAMENTO (UPI)—State college trustees are drawing plans for a one-day walkout by teachers at all campuses was not effective "we are prepared to take other action."

He said additional action to bring the trustees to the bargaining table might include an attempt to delay the start of the spring semester and a five-day strike statewide to "test" the five-day firing law.

The trustees are prohibited by law from entering into collective bargaining with state employees. Law also provides that a teacher will be fired if he rolled up five days of unexcused absence.

In the face of additional work stoppages, trustee Charles Luckman expressed concern about rising public anger in the wake of student and faculty turmoil.

Luckman, displaying a thick sheaf of correspondence from angered taxpayers, proposed sending copies of punitive bills introduced in the legislature and excerpts from letters to other faculty members.

He said a compilation of such bills and letters would show "what this public-be-damned policy is doing to our public employees. Law also provides that a teacher will be fired if he rolled up five days of unexcused absence."

who supplies the money?"

"I'm afraid our faculty and our academic senates are not aware of the temper of our people and our legislators," he said.

A trustees committee referred preparation and distribution of the correspondence and legislation to Chancellor Glen S. Dunke. The cost would be paid for with nonpublic funds by the State College Foundation.

But trustee Albert J. Ruffo said that the issue boiled down to demands for the state to bargain collectively with teachers.

"If the legislature wants to provide a collective bargaining agreement, only the legislature can do it," he said. "The AFT should collectively bargain with the legislature."

'They All Drowned... One By One' Storm Victim Tells Tale Of Tragedy

OJAI, Calif. (UPI)—Scott but a raging torrent Monday Eckerley, 28, watched in horror night after three days of steady rain as six children and four men were swept one by one into a rain-swollen creek from their perches on a stalled rescue bulldozer.

All 10 were presumed drowned on Wednesday, but Eckerley was washed ashore downstream and lived to tell the story of the tragic end to the rescue mission.

The bulldozer stalled in the middle of Sespe Creek, normally a tranquil stream easily forded, was cold," he said. "The chieftain officer (Robert Sears) was the first to go. He went quickly but as yet unidentified, was the next."

"I was sitting on the hood in front of the bulldozer acting as lookout. He hung onto that smokestack for quite a while. Half an hour at the most. Finally I looked over and he wasn't there."

The children, aged 10 to 13 years, slipped from the vehicle one at a time and were carried out of sight by the raging current.

"It was so fantastic to understand that these young children could comprehend what was going to happen to them and not panic, scream or holler or carry on—they actually played through themselves as they went from us and disappeared."

"I was absolutely unbelievable. I don't know if I have anything more to say about that other than it will affect my life more than I know at this moment."

Eckerley and sheriff's deputy Chester Larson went in last and at the same time.

"He was upstream, on the back of the bulldozer, and when he went, he fell into me. I held him for a while but whatever I was holding onto with my other arm—they actually played through me and broke, and we both went in."

"I went down and got a mouthful of water twice. I bobbed up but the water was running too fast and I couldn't control anything so I just went with it."

"I remember hitting something with my back and the next thing I remember I was lying in a pool. I wasn't sure whether I was dead or alive. Then, I realized I was alive and I had to get some shelter."

"I crawled up a hill and under some brush. I dug a hole and covered myself with dirt and mud. I stayed there until dawn (Tuesday) and then I got up and walked back upstream."

"SHOES FOR THE ENTIRE FAMILY"

Oath For Vice President Is Longer Than For President

WASHINGTON (UPI)—The Vice President of the United States get less responsibility and less salary than the President but he takes a longer oath of office.

The 35-word Presidential oath was set down in the original Constitution. The oath administered to the Vice President, as well as members of Congress and all other officials of the federal government) was written by Congress under authority of Section 3, Article VI of the Constitution. That section requires all office-holders to swear or affirm that they will support the Constitution, but is silent on the form of the oath.

The Presidential oath, from Section 7 of Article II of the Constitution: "I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States and will, to the best of my ability, preserve, protect and defend the Constitution of the United States."

George Washington added the words "So help me God" to the oath and his successors have done so ever since.

The statutory oath for federal officials: "I solemnly swear that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God."

The Vice President, of course, would have to take the special Presidential oath before succeeding to that office.

Navy Is Seeking Nurse Recruits

A Navy nurse recruiter will be in Twin Falls Thursday evening, Friday and Saturday to interview registered nurses interested in receiving a commission as a Navy nurse.

Interested parties should contact Chief Thomas at the Navy Recruiting Office, 733-6323 or at home, 733-9426.

Legislator Asks Measure To Allow Keeping 'Ashes'

SACRAMENTO (UPI)—Sen. Anthony C. Bonelson introduced a measure Wednesday permitting cremated remains to be removed from a cemetery and kept by relatives.

Bonelson said present law forbids removal of the ashes from a cemetery.

"There's nothing wrong with the ashes from a hearse," he said. "The relatives couldn't take them home in an urn," he said.

He said the measure would also eliminate a provision prohibiting removal of the ashes except three miles out to sea and at an elevation of 5,000 feet.

Ski Club Plans Sun Valley Trip

WENDELL — Wendell Ski Club members plan an annual trip to Sun Valley, March 9. This will be the main event of the year, according to Louise Gunning, president.

Club officers urge all members to participate in the Saturday outings to Soldier Mountain, Fairfield. The bus leaves at 8:15 a.m. Saturday from the high school.

A filmstrip relating to skiing was shown at the club meeting and a "swap and shop night" was discussed.

Advisers are Mr. and Mrs. Edward Gunning, with Susan Foyte, vice president; Randy Drake, treasurer, and Jeri Eaton, secretary.

Electricity To Power Man Deep In Space

PASADENA, CALIF. (UPI)—Electric rockets could take man to Mars and nuclear reactors the size of waterbeds could carry him on to Neptune by the 1980s, says a propulsion scientist.

Dr. David G. Elliot of Jet Propulsion Laboratory said Monday that electric rockets powered by solar energy are "the ultimate form of space propulsion."

"The said such rockets could take man as far as Mars. Beyond the planet, where solar rays are greatly diminished, a relatively tiny nuclear reactor would propel man on to Jupiter and Neptune.

Elliot, supervisor of the Propulsion Energy Conversion Group at the laboratory, said nuclear electric spacecraft may be flying in the 1980s if the technology can be developed.

"No method of space propulsion beyond electric rockets can be imagined within our present knowledge," Elliot said. "And we can expect that it will be some form of electric propulsion that may eventually propel men beyond the solar system to other stars and even other galaxies."

Chromosomes Evil Effect Is Doubted

LOS ANGELES (UPI)—Most geneticists agree that men with an extra male chromosome, so-called "supermales," are much taller than average and are not necessarily subnormal in intelligence.

Dr. John Melnyk, director of the Cytogenetics Lab at Children's Hospital in Los Angeles, testified Tuesday at a Superior Court hearing to determine if Raymond Tanner, 33, an XY "supermale" and convicted rapist, can plead innocent by reason of insanity to the crimes.

Melnyk said although scientists agree on two assumptions about XY males, the most widely publicized theory—that they are overly aggressive and antisocial—is not generally accepted by experts.

The theory about the aggressiveness of XY males is pivotal to defense arguments for the insanity plea. Tanner contends that while he knows right from wrong, he is genetically unable to stop himself from attacking the woman because of the extra chromosome.

Melnyk said XY males are more likely to be found in prisons or mental institutions but said the few studies fall to allow for a definitive conclusion regarding behavior patterns.

Judge Studies Damage Suit Over Aircraft

SANTA MONICA, Calif. (UPI)—A lawsuit in which homeowners near Santa Monica Airport sought millions of dollars in damages on grounds jet aircraft reduced the value of their property has been taken under advisement by a judge.

Some 212 homeowners brought the suit against the city of Santa Monica and its airport, alleging that the jets were a public nuisance. They claimed that fumes and vibrations lowered property values and created personal injuries.

A cross-section of 10 homes of the 212 involved was investigated for trial purposes.

Homeowners asked average damages of \$1,500 each for loss of value of their dwellings, and \$200 in personal damages for each occupant of a house affected.

The complaints arose following the city's decision to allow executive-type jets to use the airport starting in July, 1960. The city failed to placate the property owners by closing the field to jets between 11 p.m. and 7 a.m.

City attorneys contended that the homeowners exaggerated their grievances. They said few persons had moved from the area.

Most of the plaintiffs live in a two-square mile area southwest of the intersection of the Santa Monica and San Diego freeways.

Similar suits are pending against the city of Los Angeles over jet aircraft using International Airport.

Speaker Set

WENDELL — John McCallum, a journalist, who has spent 11 years in New York City as a syndicated writer, magazine editor, and author of 12 books will present his latest program at 2 p.m. Friday in the Wendell High School gymnasium for members of the high school and junior high school classes.

This program is drawn from his new book "Forest Diary," the authorized story of the incredible 1961 American Everest Expedition, that has been a major hit with audiences of all ages.

Wendell Will Not Change Water Rates

WENDELL—Irrigation rates for Wendell city lots will remain the same as last year, officials announced Thursday.

Charges on the acreages and lots in the city are the only source of revenue for the irrigation department and must cover the cost of the yearly operation and maintenance for the canal company to clean and repair the ditches, pipe and labor.

New regulations by the State Health Department will require a change in handling of the dump ground refuse, it was noted at the council meeting. Sanitation charges were increased last year, but the cost of permits issued to business establishments to dispose of their own trash was not increased.

Under suspension of the rules, an ordinance was passed providing expenditures for the first quarter of 1969. It was reported more work is necessary before a hearing can be held on the budget and an ordinance passed to cover the full year's expenditures.

1,200 Page Ward Catalog Distributed

Today Montgomery Ward's is distributing its 1,200-page spring and summer catalog to more than six million customer families, announced Louise Marsh, manager of Ward's Twin Falls store.

Ward's catalog mailing list has undergone an almost complete change in recent years, she said. An increasing number of Ward's customers are younger and are living in larger cities and suburbs.

Only 17 per cent of the company's \$500 million in catalog sales is still made by direct mail, she said. Most catalog sales are made through 550 catalog stores, 735 independently owned catalog agencies, and at catalog desks of Ward's 475 retail stores, she reported.

News Of Record

CASSIA COUNTY Probate Court
Nathan Carrigan, 23, Burley, was bound over to district court Friday to stand trial for lewd and lascivious conduct with a child under 16. Bond of \$1,500 was not posted and he is being held in the Cassia County Jail.

The closed preliminary hearing was held Thursday afternoon with Gordon Nielson, prosecuting attorney, representing the state, and Dean Klopfer, representing Carrigan.

Carrigan was arrested by State Patrolman Robert Brown Jan. 1 and was arraigned the next day before Justice of the Peace Alfred Crane. Bond was set at that time at \$5,000 cash or \$10,000 property. He has been held in sheriff's custody since that time, even though bond was reduced by Probate Judge LeRoy Carter.

Red Team Wins In Hansen Shoot

HANSEN—The Red Team with seven members present shot a score of 339 points to win over the Green Team, also with seven members present, with a score of 206 points at the Woodmen Rifle shoot Tuesday night at the Woodman Hall.

Dick Truscott was best individual score winner with 54 points; Norville Reynolds was second with 53 points and William Thompson, third, 45 points.

Mrs. Helen Reynolds was a high scorer for women with 51 points; Mrs. Ruth Hill was second, score 50, and Mrs. Minerva Smith and Sharon Truscott tied for third place with scores each of 48 points.

Mr. and Mrs. Dick Truscott were hosts.

Recruiters For Marine Corps Due

Gunnery Sgt. George Earley and Staff Sgt. William Brasher, Marine recruiters from Boise, will be in Twin Falls Thursday and Friday at the Rogerson Motor Inn.

Sgt. Earley has recently been assigned to Boise as non-commissioned officer in charge of Marine recruiting.

The Marine Corps is now offering guaranteed aviation. They also offer two, three or four year enlistments. According to Sgt. Earley, it is possible to enlist and delay "boot camp" for 120 days.

Dear Abby

By ABIGAIL VAN BUREN

DEAR ABBY: I am a very dear person and believe that everything in this world happens as a result of God's plan and wisdom. Am I wrong then to feel that when we fall ill, it is God's will and perhaps God is trying to punish us for some wrongdoing? That is why I never take any medicine. Why fight God's decision? If you can answer this, you are a genius.

HAS FAITH

DEAR HAS: I'm no genius, but ask yourself this—If you think it's right, why then did God give man the knowledge and power to conquer illness?

DEAR ABBY: I have been happily married to a big, good-looking Irishman for six years. We have two children, Mickey is a bartender, and I've never had any objections to the hours, temptations or anything like that until lately. His boss has told him to play up to the single women who come in and greet them with a big smile, a hug, and maybe a little smooch, and keep them sitting and buying drinks.

Well, there is one old widow who comes in nearly every night and stays until they close up. She's in "no shape" to get home on her own so Mickey takes her home. My question: Do you think Mickey has to go THIS far in the line of duty?

MICKIE'S ANSWER

DEAR WIFE: How far does he go?

DEAR ABBY: A married male cousin of mine and his wife of some 40 odd years were visiting my husband and me for the week-end. While fully dressed and preparing breakfast, this married male cousin of mine came up behind me and surprised me with a kiss. No hug, no kiss, just a kiss. I didn't think a thing of it, but after they had departed, my husband told me he saw "the whole thing." Then he became enraged because I hadn't thrown my cousin out of the house. He even said I must have encouraged my cousin and I probably had further thoughts with him. I assure you no such thoughts crossed my mind. Three years

Common Income Tax Questions Answered

People are beginning to file their 1968 income tax returns and questions are cropping up, according to the Internal Revenue Service.

The question posed most often, of course, is how quickly can an individual get his refund?

The only answer is file an accurate return as soon as possible. Officials ask that people use pre-addressed envelopes or mail the return to the address listed in the 1040 instructions.

Delays in refunds usually are caused because the individual filed the return with a missing or incorrect social security number. The wife's social security number should also be listed and be correct if it is a joint return. The same goes for a husband if the wife is the owner and the return is joint.

Be sure to enclose the W-2 forms with the return. The IRS often does someone more than 65 hands' medical expenses?

The IRS reports only those medical expenses in excess of three per cent of adjusted gross income can be deducted by taxpayers in this age group. And only when expenses are itemized. One deductible expense is health insurance.

Half the premiums paid for medical insurance, up to \$150 (disregarding the three per cent limitation), may be deducted. Premiums not deducted should

be added to the taxpayers' other medical expenses which are subject to the three per cent rule.

Premiums paid for extra benefits under Medicare qualify for deductions. The exception is the portion of social security taxes withheld from wages for Medicare benefits.

In Idaho, taxpayers are now wanting to know what they can deduct on their federal return for the state sales tax.

Officials of the IRS report a sales tax table is contained in the 1040 instructions. There is a table for each state which lists the sales tax payments may be claimed as deductions if records can support the deductions listed.

The state tax may be deducted when the purchase of an automobile is involved.

For the small businessman there is a "Mr. Businessman's Kit" and it can be obtained at the Twin Falls Office of the IRS. There is also a special publication for the small businessman titled "Tax Facts for Small Business," and it can be obtained by mailing 60 cents to the local IRS office or to the Superintendent of Documents, Government Printing Office, Washington, D. C.

The IRS also has regulations which determine dependency. Support of an individual takes into consideration the amount spent on food, shelter, clothing, medical and dental care, and education of the individual.

The fair market value should be used when trying to determine how much support is furnished an individual during the year.

The IRS has a special publication for home owners or property owners who suffered losses during the year by flood or other such disasters. The publication is "Tax Information on Disasters, Casualty Losses and Thefts," and is available through the local office. The publication is free.

Burley Asks For Speedup In Gem Funds

BURLEY — The Burley City Council discussed and accepted, granted building permits, renewed licenses and accepted delinquent reports during their meeting at city hall.

Funds from the sales tax are being withheld by the state because of a pending court case, Mayor Joe Peters reported. The city has not received \$305,943.04 in first quarter funds from the state and same amount the second quarter funds also are being withheld.

An affidavit signed by Mayor Peters was sent to the state to end by Peters and stated "The withholding of funds is putting the city in an embarrassing position. Funds are requested to be sent as soon as possible to the City of Burley."

Les Morgan, councilman, expressed concern for the city's financial condition and reported that several in the city have stated they have not been paid for several months.

Mayor Peters acknowledged problems in paying city bills. Mr. Morgan called for a realistic budget this year.

There has been a trend to spend more money while the city's revenue has not increased, he stated.

John Criff, councilman, stated "that he thought the 1967 budget revenue estimate was too high." He also expressed concern over the new budget.

A building permit was granted to Edward Campost, 1018 Schodde Ave.

Gas contractors licenses were renewed for McCaslin Lumber, Forscher Heating and Ramsey Heating. Other licenses renewed were McCaslin Lumber, master plumbers, Robert Ramsey, limited plumbers, Hans Forscher, Floyd Larson, Robert Ramsey and Robert Worthington, journeyman gas fitters.

The Idaho Hotel license was renewed and Charles Day (Rooming house and Main Street Hotel), Katherine Summers (sleeping room) was renewed with only Sylvan Burgl-voting no. The sleeping rooms are located at 1236 Oakley Ave.

Burley Music Co., 1328 Albany Ave., was granted a delivery truck license.

The years Sanitation Department report recorded 3,130 loads of trash and garbage, an average of 13 loads per day hauled.

The police department report was accepted and the council approved bills for payment.

It was announced the council meeting Feb. 3 will begin at 7 p.m. in council chambers because of the Chamber of Commerce Annual Dinner.

Suit Filed On Hospital Asks \$1,901,500

RIVERTON, Wyo. (UPI) — A \$1,901,500 suit was filed in Fremont County District Court as a result of the death of a 67-year-old woman July 22, 1968, in an emergency room of Memorial Hospital of Riverton.

Arthur Martinez and other survivors of the woman, Mrs. Felita Martinez, claim the hospital was refused treatment or admission at the hospital. They are represented by Attorney G. L. Spence of Riverton and have requested a jury trial in the case.

Named as defendants in the suit are the hospital, the hospital's nurses, Lucile Preece and Martha Combs, the Lutheran Hospital and Homes Society of American and Hartford hospitals.

The suit claims Mrs. Martinez was convalescing at the home of her son, Arthur, when she became ill. Her son allegedly notified the hospital, he was bringing his mother to the emergency room.

The suit contends "the nurses in the hospital refused her admission, refused to take her into the emergency room and refused to minister any emergency care whatever."

This alleged refusal, the suit claims, was a violation of the contract to care for Mrs. Martinez, a violation of Mrs. Martinez's civil rights, a violation of the hospital's welfare contract with the county and a breach of contract with Medicare.

"SETTLEMENT REFUSED" RAWLINS, Wyo. (UPI) — Rumors of an impending settlement between Oil, Chemical and Atomic Workers Union Local 2-809 and Sinclair Refinery located just east of Rawlins were quashed Wednesday by a union official.

Richard Cox Is Initiated Into Phi Beta Kappa

A senior pre-medicine student from Twin Falls has been initiated into Phi Beta Kappa, national liberal arts scholastic society at Washington State University.

Richard A. Cox, son of Mr. and Mrs. Vir Cox, 125 Birchmount St., also is president of Pieta Beta Kappa, men's service honorary; a member of Pi Tau Iota, a pre-medicine and dentistry honorary; a member of Intercollegiate Knights and the university discipline committee.

"He has been on the honor roll five times and the president list twice. He is floor sponsor at Cannon dormitory."

Mr. Cox was graduated from Twin Falls High School in 1966. To be eligible for membership in Phi Beta Kappa, students must maintain a grade point average of 3.25.

THE AMERICAN Brass Quintet will play at 8 p.m. Monday in the Burley High School Auditorium for the benefit of the concert of the season for the Mini-Cassia Community Concert. Members are, from left, Robert E. Biddlecombe, bass trombone; Arnold Frumme, tenor trombone; Edward Birdwell, French horn; John Eckert, trumpet; and Gerard Schwarz, trumpet.

American Brass Quintet To Play Monday At Burley

BURLEY — The American Brass Quintet will present their third Mini-Cassia Community Concert at 8 p.m. Monday in the Burley High School Auditorium.

Members of the quintet are, Edward Birdwell, French horn; Robert E. Biddlecombe, bass trombone; John Eckert, French horn; Arnold Frumme, tenor trombone; and Gerard Schwarz, trumpet.

One area of American musical life, aside from jazz, that seems to elicit not only international praise, but actual acknowledgment of superiority, revolves about our brass instruments, embracing not only our performers, but their schooling and the manufacturers of the instruments as well.

Trumpets and trombones of American manufacture wherever western music is performed.

American first-chair brass musicians are now found in a great number of the world's orchestras, including some of the old and famous ones. Apparently we have produced a new and esteemed school of brass players, playing with its own sound and characteristics.

An exciting European tour recently was made by the American Brass Quintet, a chamber music group which was formed seven years ago. Chamber music for small ensembles of purely brass is a relatively new participant in the American concert world, but in Europe it is practically non-existent.

During the tour of the American Brass Quintet a total of 23 performances in eight countries were reported. "The group was reported by curiosity and novelty, with exceptional, however, during the course of each concert these audiences were converted into the most enthusiastic of fans."

The Daily Telegraph, London, reported "it is impossible to overpraise the playing of The American Brass Quintet. They are everything, brilliance, perfect ensemble and intonation, and a tone quality of unrivaled purity and power."

One aspect directly concerning The American Brass Quintet is their own instrument what they were doing, how and why. Where in Europe they were of ferent—something unknown—but expected, in America, some of same offering was something that seemed to be taken for granted and, possibly, undervalued.

Another aspect of this however, is that there also appears to be a distinct difference between the roles assumed by brass ensembles in the musical life of each hemisphere.

In the United States, our school of brass playing is actually a realization of some of the bolter aspirations of American social and cultural philosophy. It is one of the outstanding ex-

Appeals Filed In Vandalism Sentencing

Two more appeals have been filed in Fifth District Court in connection with a vandalism case north of Filer two weeks ago.

Scott D. Fitch, 18, 149 Polk St., and Phillip R. Gosc, 18, Route 1, Twin Falls, both appealed Thursday a Probate Court judgment in which they were fined \$300 each and sentenced to six months in jail.

Earlier, Blair Call, 18, 249 Polk St., filed an appeal for the same reason.

Probate Court Judge Richard Reed, last week, ordered the sentences for the three men. He stipulated that they would serve four months, then be released if they could prove they had jobs.

If they get jobs, they are to pay \$300 each to Roger Vincent, who owns the home that was damaged.

Damage to Mr. Vincent's ten-

Storm Levels 15 Dwellings In Glendora

GLENDORA, Calif. (UPI) — Hundreds of Glendora and Azusa residents struggled Thursday to remove heavy layers of mud deposited since the hillsides by torrents of storm water that swept down from the Dan Goober Canyon.

Coming at the end of a four-day storm, the floods smothered more than 100 homes in mountain canyons north of the two communities early Wednesday.

Fifteen houses were so heavily damaged that county firemen said they could not be inhabited again.

Another storm was expected in the area late today. Firemen said the mountains near Glendora where water was destroyed by a 19,000-acre brush fire last summer, are saturated and primed for a heavy runoff.

The sheriff's office dispatched 30 men to help local police guard against looting Wednesday night.

Refugees were housed in the Presbyterian church at Glendora, but police reported the majority of victims had returned to their homes, or were staying in hotels until their homes could be made habitable.

Dwellings struck by the water that flowed down the canyon were valued \$25,000 to \$70,000.

A fire department spokesman estimated damage would total millions of dollars. Most of the home owners did not have insurance, since few California policies provide for flood protection.

VICTIMS RECOVERED

BANNING, Calif. (UPI) — The bodies of three residents of Temple, Tex., have been recovered from the wreckage of a light plane that crashed in a mountainous area five miles north of Banning. Bodies found Wednesday were identified as those of Mr. and Mrs. Joe Carr. It is one of the outstanding ex-

Magic Valley Obituaries

Frank Suchan

BUHL—Funeral services for Frank Suchan, 78, Route 4, Buhl, who died Tuesday morning at a local nursing home, will be conducted at 10 a.m. Friday at the Albertson-Dickard Funeral Chapel by Rev. Paul V. LaRue.

Mr. Suchan was born Sept. 16, 1890, in Czechoslovakia and came to the United States in 1902. In 1911, he came to Idaho, farming southeast of Buhl all his life.

Survivors include one sister, Mrs. Anastasia Wilson, and one brother, Anton Suchan, both of Buhl.

Funeral services will be held at Mountain View Memorial, Boise.

Donald Jordan Mrs. Allison

BOISE—Joint funeral services for Donald A. Jordan, 45, and Mrs. Minnie G. Allison, 69, both of whom died Tuesday morning in Boise, will be conducted at 10 a.m. Thursday at the Mountain View Memorial Chapel by Rev. Paul V. LaRue.

Mr. Jordan died Saturday at a Boise hospital and Mrs. Allison, his mother-in-law, died Sunday morning in a Nampa hospital.

Both were former residents of Jerome and Gooding, prior to moving to Boise about 20 years ago.

Surviving Mr. Jordan, besides his wife, are four sons, David Jordan, Richard L. Jordan, and Christopher Jordan and Robert Jordan, both Boise; his mother, Mrs. Frank Caswell, Boise; a brother, Richard L. Jordan, Gooding; and a sister, Mrs. Manuel Aspartite, Bliss.

Surviving Mrs. Allison are a son, Leo M. Ryan, Houston, Tex.; two daughters, Mrs. Jordan, Boise, and Mrs. Pat Newnam, Nampa; a brother, Oscar Wright, Filer; a sister, Mrs. Ellen Roland, Buhl; and 13 grandchildren.

William Kidd

BURLEY—William J. Kidd, 78, died Tuesday morning at Burley Nursing Home of a long illness.

He was born April 20, 1895, at Willow Creek, south of Burley, and was a lifelong resident of Cassia county, most of which was spent in the city of Burley. On Feb. 2, 1922, he married Bertha Williams. Later they were divorced.

Survivors include two sons, Max J. Kidd and Billy J. Kidd, both of Burley; two daughters, Mrs. Paul (Betty) Williams and Mrs. Al (Lulu) Lee, both Burley; two sisters, Mrs. Lou Barrett, Boise, and Mrs. Lillian Bingham, Pasco, Wash.; one half-brother, Theodore Taylor, Burley; 18 grandchildren and nine great-grandchildren.

Funeral services will be conducted at 2 p.m. Saturday in the Joseph Payne Memorial Chapel by Bishop Veri Chesley. Final rites will be held in the Pleasant View Cemetery, friends may call at the Payne Mortuary Friday afternoon and evening and Saturday prior to services.

Bond Market Hike Waited By Jerome

JEROME—The first step in the sewer improvement program was taken Tuesday evening at the meeting of the city council when Kenneth Newman, Salt Lake City, met with the council.

He reported that the municipal bond market was poor at this time, Mayor Earl Greenawald noted that while they were waiting for a favorable bond market, the cost of construction was also going up.

The council agreed to begin proceedings necessary for the sale of bonds, which would be advertised consecutively four weeks in February so that the bonds can be sold in March. Bids will then be let for construction of the sewer improvement program, approved by the voters last July.

Francis Boyd, representing Lions Club, met with the council and suggested that the club might do to improve the city. The club will work with S. N. (Shorty) Weeks, councilman in charge of parks, to decide on a suitable project.

Gerald Hill was spokesman for Melvin Preckler, Dr. Wesley Rose, Terry Lee and Mac Amrose, all businessmen who own a building on the 200-block of South Lincoln. They asked that the block be limited to two-hour parking. No action was taken at this meeting.

Bill Oermott, city engineer, gave quotations on gas for the city. The council voted to accept the quotation of \$1.15 per gallon to provide regular, Eddy and diesel fuel.

Mabel Beveridge, city clerk, demonstrated a copying machine which was being let out. The council agreed to purchase the machine for the use of the water department.

Pocatellan Held When Police End Family Battle

POCATELLO (UPI)—Pocatello police arrested a man Wednesday who they say was trying to hold his ex-wife's head under water.

Rickard, 30, of Pocatello, was arrested and charged with assault and intent to commit murder.

Officers entered the apartment after receiving an anonymous telephone call and said they found Rickard holding his ex-wife's head under water.

Machines Revolt

OKLAHOMA CITY (UPI)—Dozens of road-walkers today suffered in action during a revolt of the machines.

On Wednesday, Joslyn, 42, was backing into a parking place and stuck his head out the window for a better view. He accidentally hit the power window switch and it hit his fingers.

ADREY, 41, being trapped by the moving window, he got out of the car and ran toward the door on his fingers.

Jerome County's 1969 Budget Shows Decrease Of \$58,310

JEROME—The tentative budget for Jerome County adopted in an extra session of the county commission, registers a large decrease of \$58,310. Increases were recorded in maintaining the Hazelton dump

to \$750 and an allowance for maintaining the Jerome dump was increased to \$2,000. Largest decrease was of \$15,731 for the District Court. There are no major cases pending. A \$12,000 increase in the budget for charity and indigent was noted as a result of medicare.

There was a \$9,500 decrease in the district budget. The zoning budget was cut in the amount of \$1,000 and the weed department budget was cut \$1,270. A decrease of \$1,477 in the county agent's budget was possible because there is no longer an assistant agent in Jerome County.

Cassia Schools Eye New Athletic Post

BURLEY—Hiring of an athletic director for Cassia County schools is being considered. Dale Nelson, county superintendent, will discuss the matter with school principals and administrators at request of the school board.

The committee that the main reason for the hiring of an athletic director is the overcrowding in the schools.

The committee also gave the board some ideas as a possible answer to the overcrowding in the schools.

A new high school could be built in the View area south of Burley, which would include high school students from Oakley, Declo and rural areas. The new school would include grades nine through 12. The existing Burley High School would include grades nine through 12, taking pressure off the existing Burley Junior High School. Their ideas were to make the existing Declo Oakley High Schools to carry grades one through eight and build a new elementary school in Burley. A new Junior High School could possibly be built in Burley in 1970 after an existing school has been paid. Presently there is \$762,000 still owed on bonds.

The report was not made in the form of a recommendation to the board, but only as a report of findings. Mr. Bowcutt stated, this report was made at the request of Earl Moore, former superintendent.

The board took the report under advisement. "The report should be taken back to the various PTAs in the district for more discussion," the board stated.

Normal Wildman, a board member, stated "an athletic director could co-ordinate athletic and internal programs. This could include both intramural programs especially for women. Activity programs for women are lacking in our school system, he added.

"We feel that if an athletic director is approved the director would not dictate to school athletic leaders but give leadership to provide better all around activity programs," board members said.

Elevation of water cleanliness standards might force the closing of 12,000 barrels of water a day in the Cerritos Channel, Wright stated.

Curtis B. Hanes

Curtis B. Hanes, 21, 128 Martin St., died Wednesday morning in Magic Valley Memorial Hospital after an illness of the past three months.

Born July 27, 1947, in Twin Falls, he was graduated from the Twin Falls High School in 1966 and was a member of the Idaho-Barber Association. He was graduated from Barber College, Boise, and was employed at the Mod Barber Shop at the time of his death. He was a member of the First Baptist Church.

He said they found "the physical facilities of our county grossly overcrowded by approximately 130 students. It was the unanimous opinion of

Wright said oil producers now discharge 50,000 barrels of waste water per day into the Cerritos Channel. It has an oxygen content of zero.

Accountants Are Hired By Bull Council

BUHL—The firm of E. W. Wilson, public accountants, were hired by the Buhl city council to audit the city books and assist with preparing the 1969 budget, according to Bernad Starr, city clerk.

The fee for the service is \$1,200 including expenses for necessary travel and normal audit costs. Any fees arising from the audit will be paid by the City of Buhl.

The council also sent in a request in the Public Employees Retirement System of Idaho to postpone the retirement of Vern Day, city treasurer, for one year.

The school board meeting time has been changed to 7:30 p.m. the second Monday of each month.

Teen-Agers Cut Classes, Steal Plane

ERIE, Pa. (UPI)—Two teenagers who cut their school classes, commandeered a private plane Wednesday and went on a two-hour flight west of Erie.

The youths might have gotten caught had the couple not had but not cracked up while landing at Erie International Airport.

They were caught by airport personnel and turned over to police, who turned them over to their parents.

The district is short \$25,000 this quarter because state funds for Cassia County are tied up in an injudicious case over sales tax funds being used in place of inventory tax receipts," reported Mr. Warr.

Safety Bill Offered

BOISE (UPI)—The Senate Business Committee introduced on Wednesday a proposal to require that all inspectors make safety inspections of smelters, concentrators, refineries and mineral reduction plants as well as mines.

'Trashy' Move
LAFAYETTE, La. (UPI)—The city of Lafayette is somewhat unhappy when its two representatives in the state legislature voted \$100 pay hikes for all firemen, approved at garbage picket line to raise the money and named it after them.

State Sen. Edgar Mouton and Rep. Luke LeBlanc held a news conference Wednesday to protest the new tax, officially halted Tuesday as "the Mouton-LeBlanc Garbage and Trash Collection Fee."

Another major cut was in the assessor's budget as a result of the revaluation being nearly completed within the county. The amount of decrease was \$5,940.

Garbled Note Slows Holdup
SPOKANE, Wash. (UPI)—A man who handed an unrecognizable note to a teller and told her to "quit fooling around" made off with about \$1,000 Wednesday from the Spokane and Eastern Branch—of the Seattle First National Bank.

The teller, Ila Anderson, told police the man handed her a note which she couldn't read and told her to give him all her \$10 and \$20 bills.

She said she tripped the alarm button before she gave the rubber the money, but he escaped before police arrived. She said he did not show a weapon.

Burley Strikes Early To End Idaho Falls' Win Streak At Eight Games

By LARRY HOVEY
Times-News Sports Editor

BURLEY—Getting torrid out of the gate, the home team effort, the Burley Bobcats bounced out to a big early lead and stayed off the Idaho Falls' figures in Eastern Idaho Conference play Wednesday night.

In their biggest win of the season, the game away from Idaho Falls in the first quarter, Burley struck early and scored a 10-0 lead in the first quarter. Through the third period, Burley held away from seven to 18 points. Late in the game, with Burley missing several shots throughout the third period, the Bobcats held away from seven to 18 points. Late in the game, with Burley missing several shots throughout the third period, the Bobcats held away from seven to 18 points.

Golf Meeting

Members of the Men's Twin Falls Municipal and Blue Lakes Golf associations are invited to a special golf meeting on Friday, Jan. 23, at the Blue Lakes Country Club round room.

Purpose of the meeting is to discuss a proposed standardized handicapping system. A golf film, featuring the four sub-par rounds of Lee Trevino in last year's U. S. Open, will be shown.

Coach Denies Rupp Hurts Football

NEW ORLEANS (UPI)—Kentucky's new football coach, John Ray, said Wednesday that when his predecessor, Coach Ken Rupp, was accused of hitting a basketball player, Rupp was not running them off. "They were just making excuses for not winning," he said.

Ray's room for football and basketball at Kentucky, said Ray. The former Notre Dame assistant was named to succeed Rupp at the end of last season.

"Adolph Rupp believes this, just as much as I do," continued Ray, who was at the annual winter meetings of the Southeastern Conference.

"Rupp and I are even helping each other recruit."

Ray said if Kentucky can win at basketball, and the Wildcats have won four national championships, it can also win at football.

"It's a bunch of malarky that Adolph Rupp has run off football coaches," he snarled.

However, when Kentucky's acting athletic director, Harry Lancaster, who was a long time Rupp assistant, was asked he thought football would ever get on a par with basketball at Kentucky, Ray, who may be hiding, intervened with "Ho (Lancaster) hopes football at Kentucky never gets on a par with basketball—but we're going to foot him."

Wednesday's opening session of the SEC meeting was confined to a closed-door meeting of the conference athletic directors and football coaches.

Spokesman Percy Beard, athletic director at Auburn, said afterwards that the football coaches discussed admitting Florida State to the SEC; discussed permitting conference football teams to play in a national invitational tournament; and discussed changing the signing date for high school seniors from the second Saturday in December to February 1.

AL Would Be Helped By 3 Club Shifts

MILWAUKEE (UPI)—The president of the Milwaukee Braves said Wednesday three franchise shifts would be the good of the American League, and labeled Milwaukee "No. 1 on the list of cities" that should get a team.

Calvin Griffith, in a telephone interview with Lou Chapman of the Milwaukee Sentinel from Bloomington, Minn., identified three cities as the most desirable franchisees as the Washington Senators.

He declined to name the other two, but reports have circulated the last few years that the Cleveland Indians and Chicago White Sox are ripe for movement because of lagging attendance.

The Washington franchise recently was sold to Robert Taylor, Paul-president of the Indians, said at a breakfast writers' dinner here Jan. 5 that he opposes moving franchisees and insisted his team will stay out of Paul's added expansion plans.

Griffith told Chapman, "The commissioner doesn't have that kind of authority."

Griffith also reported the old Washington franchise to Minnesota in 1961, indicated Washington isn't entitled to a team simply because it is the nation's capital.

He said Milwaukee was the best available open city, with Toronto and Buffalo other prime areas for major league teams.

"Look at what the fans there are doing," Griffith said in Milwaukee. "The town has been booming. It wasn't the fault of the fans when the move (of the Braves) was made to Atlanta. The Braves did it for the people—the way they handled the situation."

Bulls Overhaul Celtics 95-94

CHICAGO (UPI)—The Chicago Bulls, trailing by 15 points in the half, rallied in the final two quarters Wednesday night to upset the Boston Celtics 95-94 in a National Basketball Association game.

Clemens sparked the Bulls' comeback in the final period when he erased Boston's lead of two points and hit a crucial three-point shot to tie the game. Bob Boozer, however, was Chicago's leading scorer with 21 points.

The Bulls played the final 20 minutes of the game without their flashy 7-foot rookie center, Tom Burwick, who, was ejected with eight minutes left in the third period when he drew two technical fouls in 36 seconds. It was the second win for the Bulls in the last five games and kept them in third place in the Western Division.

Seattle Upsets Baltimore 98-94

BALTIMORE (UPI)—Lenny Wilkens scored 27 points and grabbed a key rebound in the final minutes to spark the Seattle SuperSonics to a 98-94 victory over the Baltimore Bullets Wednesday night.

The loss snapped a five-game Seattle winning streak, which Wilkens finished with 22 points, two more than teammate Bob Rulo.

New Orleans Tips Houston 121-117

HOUSTON (UPI)—James Jones and Jackie McInnis led Steve Jones helped New Orleans recover from a fourth quarter slump Wednesday night to down the Houston Rockets 121-117. New Orleans owned a 14-point lead late in the third quarter, but Houston's Willie Somerset scored a key basket that brought the Mavericks back into contention.

Somerset, who finished with 45 points, scored 17 points in the final 10 minutes of the game, but the lead was short-lived.

New Orleans guards—James Jones—took over from that point to give New Orleans the lead it needed to recover.

Houston's James Jones finished with 20 points while Steve Jones had 22 points and Moreland came up with 25.

Minico Rated No. 1 In 7 Mat. Weights

RUPERT—Minico's Spartans grabbed off seven of the 13 first place seeds in fourth district Class A championship basketball district tournament by filling the brackets at a seeding meeting Wednesday night.

The tournament will be completed at Rupert Feb. 4-6 with action starting at 6 p.m. for the first night and 7 p.m. for the closing two sessions. Three mats will be in action the first two nights.

The coaches also selected four officials to work the event, naming Clarence Sparks of Rupert; Claude Wood of Caldwell; Gordon Wood of Burley; and Bob Donnelly of Twin Falls.

Minico, displaced for the first time in seven years as district champion last year, won the title in Twin Falls, evidently drew the favorable top from the coaches with the seven first-place seedings.

Twin Falls had four and Wood River had two.

The top seeds in each weight are: 98 pounds, Steve Abbe, Minico; 115 pounds, Dave Abbe, Minico; 130 pounds, Tom Judd, Minico; 136 pounds, Mike Schelcher, Minico; 141 pounds, Mike Bird, Minico; 147 pounds, 148 pounds, Dan Stone, Twin Falls; 157 pounds, Ken Evans, Minico; 168 pounds, Ron Fife, Wood River; 178 pounds, Bob Nicholson, Wood River; 191 pounds, Tony Mayer, Minico, and heavyweight, Doug Borah, Twin Falls.

San Diego State Woos Ohio State

SAN DIEGO, Calif. (UPI)—San Diego State is attempting to lure national champion, Ohio State here for a football game, athletic director Al Olsen said Wednesday.

Olsen said he made the offer by telephone to Ohio State athletic director Don Larkins Monday and followed the phone call with a letter.

Olsen said the Buckeyes could earn as much as \$100,000 by playing the Aztecs at San Diego Stadium.

"He asked me to put it in writing," Olsen said in reference to his phone offer. "He didn't say maybe. He said he'd give me an answer in two weeks."

The San Diego State athletic director said Larkins told him Ohio State would need at least a \$50,000 guarantee.

Olsen said he was told by the state administrator he agreed to let the school play a 10th regular season game during the next school year.

San Diego State, the best small college football team in the nation, the past three seasons, is seeking to become a major college power.

Sox Set 14 Tilts For Milwaukee

MILWAUKEE (UPI)—A contract for 14 Chicago White Sox games to be played this season in Milwaukee, County Stadium was approved Tuesday by the county board.

The Sox will play 11 American League games and three exhibitions here this year. Last season, nine regular league games and an exhibition with the Chicago Cubs were held in Milwaukee.

The contract with the county involves Milwaukee Brewers' baseball stadium, which is sponsoring the White Sox visits and has sought a major league baseball franchise for the city.

Eugene Grobschmidt, county board chairman, said the games would generate \$181,200 in revenue for the county, mostly from parking. Last year, county parking took in \$100,000.

PCL Splits, Old League Is Revived

DENVER (UPI)—The American Association is back in the baseball business again after a year-long hiatus in which the league filled the void left by the Pacific Coast League which stretched from Honolulu to Indianapolis—a quarter of the way around the world.

Today the PCL is back to a manageable eight teams and the American Association will have six teams playing a 140-game schedule.

The final decision was made at a PCL meeting in Denver this week. Representatives of the AAA baseball executives released four teams to the association and created two new teams to fill in for major league expansion clubs Seattle and San Diego.

The owners and officials also set the stage for a battle over mutually exclusive for loss of the San Diego and Seattle teams to the major leagues.

The latest offer was turned down by the PCL. It called for arbitration in the matter.

Released to form the American Association were Denver, Tulsa and Oklahoma City. They will join with Dos-Molnes and Omaha in forming the six-team league.

Also in the mix are Tucson, Arizona, and Eugene, Ore. Unlike the Association, it will be split into two divisions with Phoenix, Tucson, Hawaii and Vancouver, the south and Vancouver, Spokane, Tacoma and Portland in the north. The winners of the two divisions will hold a playoff for the title after the season ends Sept. 1.

Niagara Breaks Losing Streak

BUFFALO, N.Y. (UPI)—Calvin Murphy scored 15 points in the last five minutes Wednesday night as Niagara snapped a seven-game losing streak with a 79-70 victory over neighboring University of Buffalo.

Murphy, 5-foot, 10-inch All-American guard, was held to 15 points by a solid Buffalo defense until 69 center John Vaughan fouled out with 4:33 left and the Bulls leading 66-60.

Niagara followed with a point burst as Buffalo coach Len Serrastini argued with the referee on the Vaughan foul and the Bulls followed with a 13-0 run that sank the first two foul shots for Niagara and Murphy scored on the technical foul shot for it.

Murphy had a jump shot from the left former to give the Purple 100—a 71-68 lead.

SPORTS

Golfers Cheer Naming Of Dey As New Tour Chief

NEW YORK (UPI)—Joe Dey Jr. presented the perfect image for both sides today as the first commissioner of the Tournament Players Division of the Professional Golfers' Association (PGA), of America.

Dey announced his resignation Wednesday as executive director of the United States Golf Association (USGA) after 35 years at the post to serve golf as a significant time in another.

The post was created after the PGA and a splinter group solved their differences following a brief fall-out among professional golfers. Dey was a unanimous choice to take over.

"The job as chief executive and director of the PGA is a tremendous job," said Dey, who will be in charge of the PGA's affairs from Pebble Beach, Calif., of the appointment.

"Dey should add to the image of the PGA," said Miller Barber, "He is very capable. Billy Casper said golf 'needed someone with his stature and respect' and a 'solid' Palmer finished in that Dey was one of the 'best liked men in golf.'"

Dey's appointment was announced Wednesday by J. Paul Austin, chairman of the tournament policy board. The start of his five-year term will be determined with the cooperation of the USGA.

"This important tournament program—excites a strong influence on the whole game of golf," Dey said, "and that's the only reason for ending what has really been my love affair with the USGA. It's an opportunity to serve the best interests of golf."

The tournament policy board, which has complete and final responsibility for prescribing and directing policies relating to the PGA tour, controls the Tournament Players Division. Dey will be in charge of all matters relating to the pro tour.

Nicklaus and Casper are among the 10 board members who rule the PGA tournament troupe. Two other touring pros, Gardner Dickinson Jr. and Sam Sikes, are other player representatives on the board, which consists also of three elected officers of the PGA and three public figures interested in golf.

The PGA officers are Leo Fraser, Warren Orlick and William Clarke. In addition to the board members are George H. Love and Donald D. Murchinson.

Villanova, LaSalle Grab Victories

PHILADELPHIA (UPI)—Ninth-ranked Villanova turned back Detroit 93-71 and LaSalle rode its marksmanship at the free throw line to a 78-61 victory over Pennsylvania in a doubleheader at the Palestra Wednesday night.

Johnny Jones and Howard Porter combined for 63 points to lead the Villanova conquest in the first game.

In the nighttime, Penn stayed with LaSalle until midway in the second half when the Explorers snapped the game's 14th tie to roll up 15 consecutive points and insure their 13th victory of the season against one loss.

LaSalle's spurge produced a 35-44 lead with 5:42 remaining and Penn never seriously threatened the rest of the way.

While LaSalle was racking up 15 straight markers, Penn was going scoreless for six minutes and 32 seconds.

Pistons Outlast Lakers 116-115

DETROIT (UPI)—Eddie Miles hit 20 of his 23 points in the first half and scored the game-winning basket with 1:10 left to go Wednesday night as the Detroit Pistons fought off the Los Angeles Lakers 116-115 in a National Basketball Association game.

The Lakers, trailing by 13 points in the third and pulled back to set the stage for the final eight minute doneybrook. Skyline snagged the first shot.

Miles' hit of 20 points in the first half, climbed back into contention with spurts in the third and fourth quarters. With 54 seconds remaining, Laker guard Fred Crawford missed three straight free throws in an attempt to put his team into the lead.

Los Angeles got the ball again in the final seconds, however, but Elgin Baylor's desperate driving layup rimmed the basket and time expired.

Oakley-Declo Split Could Pivot Conference Race In Area Weekend Cage Play

When the basketball season started, it appeared the Magic Valley Conference was going to be the tightest — easily. But Coach Harry Stroh of Oakley Hornets aren't making much effort to play that kind of game. While the rest of the league still have a possibility of two for league changes, this could be the finale for the Magic Valley league race. Oakley will go to Declo for that key game Saturday night and if Oakley, which currently is running undefeated in the league, keeps it up, the Hornets will finish the season with five games of the chase — a full two-game lead. That one figure to be a big factor in the weekend of play that will have the majority of action Saturday night. Other key games will head-

Eagles Drop Ricks To Keep Loop Lead

The Eagles led throughout the game and usually by a comfortable margin. The outcome of the night game at the foot line. The Eagles hit 20 of 23 attempts from the line against 8 for 15 for the Vikings, Ricks lost to the Vikings, 21-17. Tom Bush had one of his best nights, whipping through 25, combined with Nate Stephens, who had 20 points, and Ron Adams, at 16, to put CSI into a 41-32 first half lead. Bush and Stephens also combined to give CSI control of the backboard, each grabbing 10 as the Eagles mounted a 38-26 advantage. However, the Eagles had 18 turnovers against 12 for Ricks.

Staub Traded For Alou And Clendenon

HOUSTON (UPI) — Rusty Staub, 33, and Alou, 25, and Clendenon, 24, who flourished as a \$125,000 bonus eight years ago in hopes he could lead the fledgling Houston Astros into National League contention, were traded Wednesday to the Montreal Expos for outfielder Jesus Alou and first baseman Donn Clendenon.

Players Call Meeting To Plan Strategy

NEW YORK (UPI) — Claiming the owners are "demanding unconditional surrender," Major League Baseball players Association Wednesday called a special meeting of players on Feb. 3 to plan further strategy and to have life insurance negotiations with the owners.

76ers Nip N.Y. In 2 Overtimes

Atlanta Rallies Past Phoenix

PHOENIX, Ariz. (UPI) — Atlanta scored 11 straight points early in the third quarter to break open a hard-fought contest to a 125-107 National Basketball Association win over Phoenix Wednesday night.

Atlanta Rallies Past Phoenix

PHOENIX, Ariz. (UPI) — Atlanta scored 11 straight points early in the third quarter to break open a hard-fought contest to a 125-107 National Basketball Association win over Phoenix Wednesday night.

Foster Comes Off Deck To TKO DePaula In Wild First Round

NEW YORK (UPI) — Light heavyweight champion Bob Foster gamely charged into another round of punches to knock DePaula, who had a 172-pound weight advantage, and down a second time. Foster calmly measured the heavyweights and downed a 172-pound DePaula for a 12-round victory in the first round of the TKO fight at Madison Square Garden.

Russell Will Miss Rest Of Season

NEW YORK (UPI) — Cazzie Russell of the New York Knicks, who suffered a knee injury in Tuesday night's game with the Seattle SuperSonics, will be lost to his team for the remainder of the regular season, but may return in time for the playoffs.

English Ball Venture Fails For Palmer

LONDON (UPI) — Arnold Palmer's latest golf endeavor in Great Britain raised an army of investors, but the British Professional Golfers' Association, the gimmick is to sell Palmer golf balls in a string of service stations at 10 cents less than the prevailing retail price.

Denver Past Nets

DENVER (UPI) — The Denver Rockets got 80 points out of back court starters Larry Jones and Lonnie Wright Wednesday night to overpower the New York Nets 124-103 in an American Basketball Association game.

Three Post Wins In City League

Valley Nursing Home, Faux Cigar Store and Moore's Twin Drill team wins in the Twin Falls city 4-11 basketball league. Valley, getting 18 points from Robb Stradley, topped Parrish 10-4 of Buhl 7-4 despite the 14 points of Steve Senger.

Dampier's 3-Point Play Beats Dallas

DALLAS (UPI) — Kentucky's Louie Dampier hit a three-point field goal with 13 seconds left to knock Dallas 104-102 in an American Basketball Association game Wednesday night.

VFW Post To Be Revived At Shoshone

SHOSHONE. — Veterans of Foreign Wars Post 3001 here is being revived after a recess since 1964.

A pre-organization meeting held Tuesday night at the American Legion hall, plans were made for a meeting at 8:30 p.m. Monday, when officers will be elected and definite meeting dates decided upon.

Initiating the re-activity of the post were Theo A. Pharris, Glenns Ferry, District 6 VFW commander and chief of staff, Department of Idaho; John Price, Twin Falls, commander of Post 2,138, Twin Falls, and national deputy chief of staff; W. Lindsay Hayes, Coeur d'Alene; Robert Messinger, Jerome, adjutant of the Twin Falls post and legislative officer of District 6.

Mrs. Messenger, department chief of staff, talked to wives of the potential VFW post members. The meeting was an auxiliary organization.

Pharris acted as commander with assistance from the last elected commander of the post, Charles M. Pethick; Messenger was adjutant; Bill Anderson, senior vice commander; Leslie Anderson, junior vice commander; Price as chaplain and Hayes as assistant.

Roger Stoddard, Patrick, and Reid Newby, Shoshone, were given their oaths of obligation for new membership. Others who signed up to qualify the post for re-activity were members at the time the post was active in 1964.

Pethick said there are about 1,000 potential members within Lincoln county and he urges all Veterans of Foreign Wars to attend the meeting Monday night to assist in activating the local post. The meeting will be at the Memorial hall.

Among the programs and projects promoted by the auxiliary, Mrs. Messenger stated the Voice of Democracy and Community Service projects are done in cooperation with the local posts. They also work on such things as legislation, selling the Buddy Poppy made by the Veterans, dental research, cancer and research funds, rehabilitation work and promote the VFW National Home.

THE FIRST FORMAL meeting of the new Nixon Cabinet was called after 11 of the 12 men had been sworn into office on Wednesday in a ceremony in the East Room of the White House. Clockwise around the table are Robert M.oye, budget director; Robert H. Finch, secretary of health, education and welfare; Walter J. Hefel, secretary of the interior; David M. Kennedy, secretary of the treasury; John A. Volpe, secretary of transportation; Charles W. Yost, ambassador to the United Nations; George P. Schultz, secretary of labor; William P. Rogers, secretary of state; President Richard M. Nixon; Melvin Laird, secretary of defense; Clifford M. Hardin, secretary of agriculture, and George M. Romney, secretary of housing and urban development. (UPI telephoto)

Mexico Plays 'Santa' To U. S. Couple

MEXICO CITY (UPI) — The Mexican government is about to play Santa Claus to a San Francisco, Calif., couple.

The couple was identified in the official government "Daily Gazette" as Adolf and Eda Bergman, originally from Germany.

In 1932, in the town of Guzman, Mich., they bought 1,000 pounds sterling worth of 1898 Mexican government bonds, the notice said.

The bonds were issued by the government of Mexican dictator Porfirio Diaz to help pay the country's foreign debt, heavy at the time because of railroad-building expenses.

But during World War II, begun by another dictator, Adolf Hitler, the bonds were lost in Nuremberg, Germany, said the Bergmans in an application to the Mexican Treasury Department.

The Bergmans in the meantime moved to San Francisco. The Treasury Department dusted off a law passed in 1898 by the Diaz government, allow-

ing payment when ownership of lost or destroyed bonds is established. The legal notice in the fine print of the Daily Gazette was an announcement that the Bergmans had their bonds.

It was signed by Hugo H. Leon, head of the Treasury's credit bureau. The bonds are redeemable at their face value of 1,000 pounds (\$2,000 at current exchange rates) plus five per cent interest for the stated life of the bonds, the notice said.

It did not give the time-span issued in 1938 were for 50 years. If the Bergmans' bonds belonged to that series they have another \$5,000 in interest compounded that "announcement of payment is being sent for publication one time only in a newspaper of San Francisco, Calif., U.S.A." The notice did not say which newspaper.

Militant Negro Group Supplies Names Of Suspects In Double Murder At UCLA

LOS ANGELES (UPI) — The names of two more suspects in the UCLA slayings of two Black Panther party members were supplied to detectives by the militant Negro group, police hoped to arrest them "before long."

Two brothers were already in custody on suspicion of murder after they voluntarily surrendered Monday through arrangements worked out by their attorney, Frank Evans, a former police officer.

Police refused to name the two additional suspects.

The US organization had been involved in a dispute with the Black Panthers and the Black Students Union over appointment of a proposed Afro-American studies center at UCLA.

The meeting Friday at which the two Panthers officials, John Jerome Higgins, 27, and Alphonse "Bunchy" Carter, 26, were slain was called in an attempt to resolve the dispute.

Police refused to name the two additional suspects.

'Rich' Meal

CLAREMARRIS, Ireland (UPI) — Pat Boyle had carefully put away \$384 of his savings under a board in the bedroom of his home.

When he went to dip into his savings recently, he found the money gone and called the police.

Policemen ripped up the floorboards and found a few tiny pieces of mouse notes lying there and the bloated body of a mouse nearby who had feasted his last meal on Pat's savings.

FIRST SECURITY IS NOW A BILLION DOLLAR BANKING SYSTEM

Reflecting the vitality and growth of the area served by our 102 banking offices, resources of the First Security System of Banks are now in excess of a billion dollars. \$1,018,204,250 at year end.

Naturally we are proud of this fine record of growth. It exemplifies the success that sound banking can achieve in the progressive communities we serve in Utah, Idaho and southwestern Wyoming. It also proves that business goes where business is served—and appreciated.

Full service banking to the people of the Intermountain region has made this growth possible. Economical checking account service, high interest savings plans, the many conveniences of BankAmericard, realistic modern loan policies which put dollars in the hands of people and business when they need them—these combined with sound, progressive management.

What does it mean to residents of the Intermountain region to have banking resources of over \$1 billion available to them?

It means that savings are safeguarded while earning high interest for more than a quarter of a million savers.

It means that loans are being made. 142,870 last year. Totalling \$976,372,864. Loans for automobiles, household-appliances, personal goods, farms, ranches, businesses—and 37,200 of them for home ownership.

Of course First Security makes more loans than any other financial institution in the Intermountain region. A big banking organization can do this. Individuals, farmers, ranchers, and business men in all industries seek the sound business advice and financial help of experienced specialists such as only a very large financial organization has on its staff.

It means that billion dollar banking service is being provided to over 584,000 customers. To each of them, our directors and family of 1,922 First Security men and women say "Thanks a Billion" for the privilege of serving you.

"We don't know what he does around here, but he comes in with the new administration!"

TF. County Ranks Third In Car Sales

Twin Falls County ranked third in the number of passenger car sales during 1968. The information was released by the Idaho Registration Service-CO, Boise.

Ada County was first in passenger car sales with 3,714 while Bonneville County was second with 2,160. Twin Falls County ranked fourth for 1968 sales.

In the commercial vehicle division, Twin Falls County ranked fourth for 1968 sales. There were 815 commercial registrations in the county.

The reports notes that there were a total of 22,942 new passenger car registrations in 1968 and 12,430 commercial registrations in the state.

DEBUT SCHEDULED

HOLLYWOOD (UPI) - World midweight boxing champ Nino Benvenuti of Italy will make his movie debut with Giuliano Gemelli in a new western, "Alive or Prefably Dead."

BRIDGE

By Jacoby

SLAM BID IS DANGEROUS
We imagine quite a few North American pairs reached a slam with today's North-South cards in the Charity tournament. Some North players might open one spade and proceed to six after a raise from partner.

game after a raise from North. A diamond lead will hold them to four odd because the defense will take the first three tricks but must make an over-trick after the normal club opening lead. Stayman bidders will reach four spades with North as declarer. A three-club Stayman bid by South and three spade response by North. The Jacoby Transfer bidders will also arrive at four spades with North as declarer. South will respond three hearts to the opening two no-trump bid. This bid shows spades and a hand of any strength from nothing on up. North's normal reply to the three-heart transfer is a three-spade bid but this particular hand calls for stronger action. North should jump right to four spades to show that his two no-trump opening indicates very good spades. Give South a slightly better hand and he will move toward a slam but with the holding South will pass contently.

NORTH (D) 23	
A K 8 5 4	
A Q	
K 4 10	
A 8 2	
EAST	
J 10 3	Void
K 8 7	39762
Q J 10 8 4	K 6 5 3
SOUTH	
Q 9 7 6 2	
10 5 4	
7	
North-South vulnerable	
West 2NT. Pass 3♠	Pass 3♠
Pass 4♣	Pass 4♣
Opening Lead—4♣	

Played from the North seat the slam is not too bad a contract—the location of the king-of-hearts doesn't matter because South can probably get rid of his queen of hearts on dummy's fourth diamond but since East held the queen of diamonds there is no way to bring home 12 tricks and the slam bidders will wind up in a soup. North should open two no-trump with his very good 21 points. Some South players will pass and let North play two no-trump for a bad score. Those who don't use Stayman or the Jacoby transfer will respond

CARD SENSE
Q—The bidding has been: West North East South
Pass 3♦ Pass 2NT
Pass 3♦ Pass 3NT
Pass 4NT Pass 4♣
You, South, hold: A♠ Q♣ K♥ J♦ A10♦ K♣ Q10♠
What do you do now?
A—Bid five hearts to show your two aces.
TODAY'S QUESTION
Your partner continues to five no-trump to ask for kings and you bid six hearts to show the two you hold. He bids six no-trump. What do you do?

Distaff Teachers Deemed 'Hardest' To Put To Sleep

AMONG WOMEN, those hardest to anesthetize are the school teachers. That is the curious finding of a team of researchers who examined numerous medical records. They are unclear, although said researchers guessed it had something to do with the necessity among school teachers to practice great self-control every day.

IF YOU HAVE a 12-year-old boy around the place, you might weigh him now. Double that is said to be his expected growth weight. . . . A THEORIST WHO has made a study of food and folk customs citizens who are particularly fond of spaghetti tend to work well on committees while those souls who especially like asparagus seem to prefer to work alone. . . . SAID THEO-DOR REIK, "IT IS REPORTED, at midnight, a glass of beer on each stroke of the clock. That's 12 beers in less than a minute. Can such be possible?"

OUR LANGRISH MAN confends the oldest endorsement finding of a team of researchers in the history of lovers' is "honey."

CAN YOU GIVE ME any reason why a contented bachelor should get married?" That was one of the questions Mrs. Jacqueline Bouvier Kennedy Onassis used to ask people when she was an inquiring photographer in Washington, D. C. What is your reply to the foregoing inquiry, wife of the late President John F. Kennedy and Mr. Aristotle Onassis contented enough when single. Nonetheless, they married, the lady. Am reassessing the question to our I. and W. man with instructions to determine just what it was she found out during that early basic research. Will report his findings when available.

CUSTOMER SERVICE: How does your "Ladies" man rank Georgia girls as to beauty and lovability, sir? A. In he said—to be his expected-growth weight. . . . A. I believe so. Nobody else ever mixed up 40 lions and tigers in one cage at one time and kept them all in line.

"THIS SNOW does nothing for me," writes a Michigan girl who says she is an amateur poet. "But when the rain comes down, I can go out in the barn and listen to it fall on the roof and write for hours. The sounds like old Juquin Miller's game. He decided rain on the roof inspired him so greatly to write that automatic ax which came so he could hear the pitter-patter on sunny days.

RAPID REPLY: No, sir, it was an Irishman who invented that automatic ax which came to be named after Dr. Gullulog, cross to even thing as a contented bachelor. Maybe not in Ireland where that quick me-But both the late President John F. Kennedy drew first blood.

CROSS WORD PUZZLE

Answer to Previous Puzzle

Musically Speaking

ACROSS

- Lowest male voice
- Electrically
- Kind of concert
- Verbal
- Shield
- Masculine nickname
- Unwarranted drink
- Container
- Disinfective of flowers
- Water
- Added up
- Depot (ab.)
- Ancient
- Irish capital
- One time
- Three in a row
- On wheels
- Wanders

DOWN

- Chick's cry
- Novas
- Perched
- Bitter
- Actual sitting of a court
- Three lines (comb. form)
- Excursion term
- Require
- Adverse container
- Unit of weight
- Mounds used by golfers
- Diapatch
- Companions for violins
- Operatic solo
- Warbler
- The sun
- Volcanic outflow
- Latin instrument
- Nautical term
- Patience
- Milicious
- Final passage in musical score
- Formerly
- palma
- Make
- Distilled instrument
- Fabric
- Mythical monster
- Make amends
- Let it stand
- 47 Therefore (Latin)
- Direct moidling
- Low-living
- Bonus
- Belarusian
- Conductor (Inse.)
