House To Confer With Growers On Spud Legislation

By RICHARD CHARNOCK

BOISE (UPI) — The House Agricultural Affairs Committee agreed Friday to call in spokesmen for processors, shippers and growers before introducing a bill setting minimum standards for potatoes used in processing.

Rep. Allan F. Larsen R-Blackfoot, told fellow members of the committee that the bill would set a minimum grade of potatoes that could be used in Idaho processing plants. As written, he said, the bill would set standards for potatoes either grown in Idaho or imported for processing.

Later, he said the bill would eliminate approximately two percent of the poorest potatoes from processing in the state.

Committee Chairman J. A. C. Claiborn, of Twin Falls, said there was certain the potato processing industry would oppose the bill.

"I think their argument would be that they have so much more competition than they used to have," Claiborn said.

Rep. Wayne Tibbitts, D-Idaho, said he felt the basic idea of the legislation was good but suggested "Idaho utility grade" be substituted for the U. S. No. 2 processing grade.

Larsen said he did not believe the legislature could do anything with potatoes and from having some opposition from the industry. However, he agreed the bill would have to have support from within the industry for it to get anywhere.

"I don't think we should do anything in the world that would discourage processors from expanding in Idaho," said Rep. Walter Little, R-New Plover.

Rep. Max Kendall, R-Abert, said he did not want to hurt the industry that the bill would affect. He said his talks with processors have convinced him the legislature will have to do something if standards are to be set but he would apply the processors will not do so themselves.

Larsen said the bill was patterned after federal processing regulations and would require a federal-state inspector in every processing plant. He said most plants have inspectors now but they are company inspectors checking on quality to determine how much farmers should be paid for the potatoes.

Meanwhile, the agricultural committee set a hearing for 7 p.m. Feb. 17 on a bill to create a dairy commission. Claiborn said he understood there was opposition to the bill.

In other business, the House Resources and Conservation Committee introduced a joint memorial asking Congress to authorize establishment of the proposed Sawtooth National Recreation Area and Wilderness at the earliest possible time.

THERE'S NO FISHING TODAY, as a thick carpet of heavy black crude oil clogs 12 miles of beaches off Santa Barbara, Calif. The oil is part of a massive oil slick spreading from a bubbling offshore oil rig near Santa Barbara. More than 200 workers are spreading straw on the sand in an attempt to break up the destructive black tide, which is spreading havoc among fishermen and taking an immense toll of wildlife. (UPI telephoto)

Fierce Winds Push Massive Oil Slick Near Los Angeles

SANTA BARBARA, Calif. (UPI)—Fierce winds and stormy seas pushed a huge oil slick southward across miles of beaches today and stalled efforts to seal a leaking offshore well.

Twenty miles of shoreline was coated with four-smelling black crude oil the 800-square-mile slick moved closer to Los Angeles County.

Crews from Union Oil Co. of California scowled to start forcing mud down the three-inch casing pipe to seal the leaking well but swells up to 15 feet made it impossible to transfer the mud from barges to the platform six miles off the coast.

The wind was gusting to 30 miles an hour and was pushing the vast slick down the Southern California coast, contaminating additional miles of shoreline.

The Los Angeles Times reported it had learned Interior Secretary Walter J. Hickel would order an indefinite halt today to all drilling on federal leases in the Santa Barbara Channel. Interior officials here were not immediately available for comment.

Sen. Edmund S. Muskie, D-Maine, was to make an aerial inspection of the slick this afternoon and then be briefed on the situation by authorities. Muskie is chairman of the subcommittee on air and water

Iraq Opens Trial Of Moslem Spies

United Press International

Iraq is trying a second group of alleged spies but none are Egyptian, Middle East News Agency (MENA) reported from Baghdad today.

MENA quoted Iraqi President Ahmed Hassan Al Bakr as calling the new conference "Iraq Moslems" being tried will be hanged if convicted.

"Iraq will never hesitate to execute anyone who betrays the country because spying is high treason punishable by death," he said.

"Iraq hanged 14 men, nine of them Jews, Jan. 27 after a first mass spy trial. It triggered worldwide protests and a sectarian Israel-Lebanon unity raised a Middle East eye agreement to hold big four power Middle East talks with the Soviet Union, Britain and France leave the door open.

There was no indication what effect Al Bakr's statement, reported by MENA, would have on his cabinet in the morning.

In other Middle East developments, Jordan said its troops

T.F. Solon Says Bill On Ports Expected

BOISE (UPI)—Rep. Ray Lincoln, R-Twin Falls, said that a committee report on a proposed state port bill will be made sometime next week.

Lincoln presided Thursday night at a two-hour and 45-

Alleged Embezzler Apprehended

SUN VALLEY — The young man who disappeared from the Sun Valley Lodge at the same time more than \$32,000 was reported missing last December has been apprehended at Great Falls, Mont., Guy Coles, special agent here, reports.

He said Richard R. Clark, 27, was picked up by FBI agents there last week. He is charged with embezzlement of more than \$32,000 from the Janns Corp.

Clark, who had worked at the resort less than a year, had been promoted to manager of the lodge and on Dec. 14, the night of Dec. 23 he disappeared and the money also was missing.

He is being held in Great Falls on a Selective Service violation, but Mr. Coles said there is a good chance he will be released to face charges in Blaine County. Blaine Sheriff Orville Drexler has forwarded a warrant for the man's arrest to Great Falls authorities.

Euthanasia Bill Introduced

BOISE (UPI) — The House Health and Welfare Committee Thursday voted to introduce bills providing for fluoridation of water and to allow qualified physicians to administer euthanasia.

The fluoridation bill would provide for fluoridation of water in systems serving more than 100 customers under supervision of the State Board of Health. It would require all water systems in the state to conform by next June.

The euthanasia bill would allow qualified physicians to kill patients with terminal illness if they request it. The request would have to be made 30 days in advance by a patient suffering from an "irremediable physical condition of a distressing character."

Data 'Monster' Studied

By MAUL M. QUINN

BOISE (UPI)—Members of the Idaho Legislature Thursday called for abolishment of the Department of Administrative Services, revamping of the Bureau of Public Accounts and changing the manner of data processing.

A bill to accomplish at least part of the minority party's wishes was introduced in the House.

Sea, Cecil Andrus, D-Lewiston, chairman of a minority party study committee, said the Department of Administrative Services "is a gargantuan type thing."

"It can be appropriated funds at anytime it wants," Andrus said, "I want this type of organization."

The House Appropriations bill would transfer all powers and duties of the Bureau of Public Accounts to a post legislative account.

The newly created legislative account would be appointed by the House.

The House measure was introduced in the Department of

North Viets 'Contacted'

PARIS (UPI)—The United States and North Vietnam are having secret contacts outside of seemingly denuded Vietnam peace conference sessions, very reliable diplomatic sources said today.

A source in direct contact with the talks said, "There has never been a break in private talks between the American and North Vietnamese delegations."

The contacts, established last fall, continue. There has been a contact between the two delegations since the four-way Paris talks started Jan. 18.

The source said they understood the North Vietnamese might be open to new intensive contacts similar to those that allowed American and Hanoi negotiators to break a prolonged deadlock and reach an agreement on a full halt of American air raids on North Vietnam.

Yanks Boot Enemy From Viet Peninsula

SAIGON (UPI) — American forces have won the battle for the Buanangan Peninsula, killing 200 Communist troops, capturing 481 more and forcing the rest to flee, the South Vietnamese said in a 24-day campaign, military spokesmen said today.

They said another 32 Communist soldiers captured by the 3,000-man U.S. force in the largest amphibious assault since the Korean War have thrown down their weapons and surrendered.

The spokesman said U.S. losses in the sweep up the two-mile square tip of the sandy peninsula have been 46 men killed and 264 wounded.

Elsewhere, Communist gunners in south Vietnam shot down two more U.S. Army helicopters, raising to 1,022 the number of such American aircraft lost in the country during the war.

Allied spokesmen said the searching also uncovered at least 11 tons of arms and ammunition, and the guerrillas snuggled in from North Viet-

U.S.-Red 'Meet' Hinted

American and North Vietnamese officials refused to discuss the report. The two delegations always have been extremely careful not to publicize their backchannel contacts designed to break impasses that develop in the plenary sessions of the talks.

The report on continued contacts between Washington and Hanoi came in the wake of a new fruitless plenary session of the Paris conference.

Lodge went to Washington Thursday's session to assure the Communists that America's call for restoration of the Demilitarized Zone dividing the Vietnam was overthrown.

The Viet Cong had frequently said there could be no peace in South Vietnam until the Thieu Ky regime was ousted in favor of a "peace" government. But Kiem's statement Thursday went further and said the talks in Paris would not progress until the Saigon government was replaced.

Lodge and America's South Vietnamese allies renewed their call for restoration of the DMZ.

Nixon May Speak To Parliament

LONDON (UPI) — President Nixon may become the first American chief executive in history to address members of the British Parliament when he visits London this month, an official British source said Thursday.

The source said such an address to members of the House of Commons and the House of Lords would probably take place in Westminster Hall.

Closed

FAIRFIELD — Schools closed today after a fire at Fairfield Friday because of the flu, Supt. Mike Dakis reports.

They are scheduled to reopen Monday.

He said Thursday one-third of the students were absent, with 35 out at the hospital and 22 from the high school in the morning. More students left because of illness before the day was over.

Attendance at the school lunch room which normally is 165 was less than 100 Thursday, he added.

Sirhan Trial Moves Closer To Opening

LOS ANGELES (UPI)—After more than five weeks of legal maneuvering and jury selection, the murder trial of Sirhan B. Sirhan was moving toward start of testimony next week.

The prosecution will lead off with its case against the 24-year-old Jordanian, charged with the murder of Sen. Robert F. Kennedy as soon as six alternate jurors are selected and sworn to sit with the main panel of eight men and four women already officially seated.

Five alternates tentatively were seated in the courtroom during which the defense and the prosecution each used their initial preemptory strikes on charges of 12 preemptories for use in the selection of alternates.

The prosecution exercised a preemptory strike against Marshall Wolfe, a switchboard operator, while Mrs. Georgia Liddle, a housewife, was selected on a preemptory by the defense.

The regular jurors and six alternates will be sequestered in a hotel, the judge disclosed.

Nixon Will Confer With Negro Leader

WASHINGTON (UPI)—President Nixon conferred with his cabinet today and arranged for his first meeting with a Negro leader before flying to Florida for a weekend of rest and work at Key Biscayne.

The president was believed to have discussed his pending five-nation trip to Europe and a range of domestic legislation with his cabinet in the morning.

The 3:15 p.m. meeting with Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People (NAACP), was announced shortly after the cabinet session began.

The president is expected to meet with Wilkins on Thursday. Nixon acknowledged that a number of American Negroes viewed him with distrust but expressed hope "that I can gain the respect and I hope eventually the friendship of black citizens and other Americans."

Also added to Nixon's schedule was a late afternoon appointment with Gen. George Brown, commander of the 7th Air Force in Vietnam, who was expected to give the President a first-hand report on the progress of the air war.

The president intends to devote a good part of his Florida weekend to foreign policy discussions. But some restrictions were also planned, and a group of Boy Scouts gave him a fishing-rod this morning, suggesting he use it at Key Biscayne.

Witness Puts JFK Suspects In Same Car

NEW ORLEANS (UPI)—Surprise testimony by Dist. Atty. Jim Garrison's case against Clay L. Shaw has placed the three men accused of the killing of President John F. Kennedy together in a car three months before the murder.

The story came from the last of five state witnesses produced in rapid order late Thursday on the opening day of testimony in the trial of Shaw on charges of plotting the killing of President Kennedy with Leo Harvey Oswald and David W. Ferrie.

The state's big testimony previously was that the three

School Trustees' Head Says Position Of Group On Funding Misunderstood

Zane Harrison, Fairfield president of the Idaho School Trustees Association said Friday the I.S.T.A. is vitally interested in the schools of Idaho.

"We're not a separatist organization," Harrison said, "we support the schools and in the student. It is unfortunate that our position has been misunderstood."

Mr. Harrison said his testimony before the joint education committees of the legislature may have left a wrong impression.

"We assumed that the money to fund education is available."

"However, compulsory negotiations by legislation can, in our opinion, lead to some controversy at the local level, and perhaps the detriment of all parties concerned."

Mr. Harrison said the school trustees are "most anxious to cooperate with all parties to make certain every child in Idaho has the best opportunity for a good education."

The I.S.T.A. president said the association legislation "did not have as a result of any specific controversy, but attempts to cure some long-standing problems of school administration."

FLYING VELOCIPEDES! LOOK AT THEM GO!

After velocipedes, known today as bicycles, became popular in the late 1800's, people wanted them to go faster. Various inventors tried to make the engine and the wheels and the motorcycle was born. Today the motorcycle is one of the most economical and fun ways to travel around.

Your cycle may not be getting the best out of it. The new Velocipede is leading the new New Wave Wind powered cycle. It's just what you need if you're looking for good value for your money. Call 723-0931 today.

Here's the first ad received in the Wind-Ad department today.

TOLE WALES: Beautiful suburban home with 3 bedrooms, 2 1/2 baths, full kitchen, fireplace, etc. Call 723-0931, Maple, Twin Falls, 723-0931.

Hazy Future

Winters aren't what they used to be... climatologists... they aren't talking about the blizzard of '88... Since about 1950, a cooling trend has made winters a bit harsher and summers slightly milder... Paradoxically, the experts suspect that man-created pollution is responsible for both trends... One scientist with the Environmental Science Services Administration estimated that the carbon dioxide naturally present in the atmosphere keeps the world about 20 degrees warmer than it would be if the gas were totally absent...

of carbon dioxide, which is an efficient absorber of heat, could raise the temperatures in the lower atmosphere by one-half a degree Fahrenheit... This is just about what the worldwide temperature increase has been since 1900... On the other hand, dust and smoke reflect some of the sun's heat back into space... Mankind evidently has two alternatives before it... It is not difficult to guess what it will have to be... advantage in being comfortably warm if you can't breathe.

Anti-Inflation

It has not taken the Nixon administration long to realize a top problem is not merely containing inflation, but doing it in such a way it will not create high unemployment and otherwise produce a recession-like economic climate... Treasury Secretary David M. Kennedy took note of this dual requirement in his first public statement since joining the cabinet... One avenue the new administration already has explored to accomplish these ends is to review in detail the budget requests submitted by President Johnson... The administration must satisfy itself the fat has been removed from budget requests before it can convince either Congress or the public... It is not difficult to guess what it will have to be... advantage in being comfortably warm if you can't breathe.

But we are equally conscious of the risk of not moving decisively... One avenue the new administration already has explored to accomplish these ends is to review in detail the budget requests submitted by President Johnson... The administration must satisfy itself the fat has been removed from budget requests before it can convince either Congress or the public... It is not difficult to guess what it will have to be... advantage in being comfortably warm if you can't breathe.

MR. SPECTATOR

Amigos Internacionais

In case you aren't quite sure what the headline "Amigos Internacionais" means, Mr. Spectator will fill you in... Mr. Spectator found out about it when he received a communication... The idea behind the organization is to reach people in the United States so that the message of friendship from Brazil may be spread around in this area... Club members -- or rather the officers -- frequently receive requests of names and addresses of American penfriends and this is where Times-News readers who are the least bit interested can step in... "Your interested readers may send us their name and complete address, sex, occupation, languages that they can read and write well, and their preferred hobbies... "So there you have it. If you are interested, Mr. Spectator suggests that you send the information to "Amigos Internacionais, Caixa Pos-

tal 30837, Sao Paulo, Brazil... And, we might add, be sure to post the letter at a post office so you will get the correct postage on it... HELPING HAND... Awfully back, Mr. Spectator received a check from Beverly and Joe Hackney of Twin Falls... "We would like to contribute to the trust fund set up for the widow and children of Raymond Sansoucie... "Mr. Sansoucie, by going to the assistance of Mrs. Robinson, proved there are still people who age their brother's keepers, his widow and children should be very proud of him... "And to Mr. and Mrs. Hackney a great big "thanks..." GIVEAWAY DEPT... Have a good stock dog to give away... "Drop-odd!" I picked up Sunday in an isolated area, this can't understand why anyone would so dispose of such a nice dog... "I am away from home too often to give any animal a proper home... Phone 837-4010 or write Gladys Koel, Hingerman, Idaho.

WASHINGTON — President Nixon's imposition of an anti-crime crusade on Mayor Walter Washington of the District of Columbia brings front and center one problem of unsafe streets in cities all across the nation... Nixon could act here in Hell City, U.S.A., because he runs the miserable town, and Mayor Washington was given the choice of accepting Nixon's prescription or finding another job equipped with chauffeur-driven limousines and wealthy living privileges... Indeed, even Mayor Washington has seen fit to express annoyance at Nixon's continued emphasis on the need for making Hell City's streets safe. His

honor complained that repeated statements on crime "generate fear" only a few hours after the President told a press conference he'd have an anti-crime program for the District ready within a few days... Aside from the propriety of an appointive official rebuking the President, Washington's blarney came close to being downright silly... On the day the mayor offered this curious advice, a savings and loan association became the 19th Hell City financial institution to be robbed this year, and the police department announced that all holdups during December increased 116 per cent over December, 1967...

Space Age Anachronism

BRUCE BLOSSAT

Money Crunch Is Really On

WASHINGTON (NEA) — The money crunch for government funds at all levels is on in 1969 as never before... Two independent events, one in Maine and the other in California, illustrate what is going on... One needs to look no farther than that combined \$60 billion increase in understanding the rising taxpayer resistance which has closed down some schools, caused others to skimp badly and threatens still more in the months and years just ahead... How the money crunch and related taxpayer attitudes are to be dealt with is... subject matter for separate treatment... It has been common for many public figures and others to argue that if we could just escape the Vietnam war and its \$30 billion yearly cost, we could do a vast city-rebuilding job... Yet recent fiscal history, rising population (hence higher welfare costs), and demands for even more in welfare, education, housing payments than present law prescribes, indicate that just the existing social programs likely will sink up further tax moneys equal to Vietnam costs within the next three or four years.

WASHINGTON (NEA) — In the build-ups of World War II, Korea and Vietnam, the surge in demand for products and the manpower needed to produce them caused rapid price rises in a wide variety of products... If employment is high and surpluses and inventories are low at the start of such a crisis, workers' resistance which has closed down some schools, caused others to skimp badly and threatens still more in the months and years just ahead... Improved standby plans would be required for future emergencies... A growing pool of retired men and women, still "young" by modern standards, many of these retirees are talented and well-trained... Improved standby plans would be required for future emergencies... A growing pool of retired men and women, still "young" by modern standards, many of these retirees are talented and well-trained... House Bill Grants Youths 'Adult' Status

By RICHARD CHARNOCK
BOISE (UPI)—Rep. Patricia McDermott, D-Pocatello, introduced legislation Thursday that would allow 18-year-olds to drink and smoke and get married without parental permission.

In short, her bill would proclaim as adults persons who have reached their 18th birthdays or who are married. The sole exception would be the right to vote which is a constitutional matter.

However, there are constitutional proposals already before the legislature to lower the voting age to 16 or to 18.

"I think it just reflects the

world in which we live," Miss McDermott said of her bill. "Quite frankly, I think we could have some meaningful enforcement of the laws if we make them realistic."

She said that 18-year-olds in today's society pay taxes, work and are responsible for their actions in the courts. Young men who reach the age of 18 also must register for the draft, she noted.

Girls already have the right to contract and to get married at the age of 18. A boy must wait until he is 21 to get married without his parents' consent, she said.

Miss McDermott's bill would

give "the contracting and marriage rights now permitted to 18-year-old girls to 18-year-old boys."

In addition, the bill would proclaim as adults "except for voting purposes—married persons even if they are under the age of 18."

Miss McDermott said that married persons already have assumed some of the responsibilities of adulthood so they might as well have some of the "fringe" benefits.

Meanwhile, the executive secretary of the Idaho Education Association said that adequate financing of public school edu-

cation in the state would "solve a multitude of problems."

"To this I can say, opinion," TEA leader Wayne York said. York testified against three bills that would set up ground rules for discharge or dismissal of teachers by boards of trustees and provide for a year's revocation of a teaching certificate of a teacher who breaks a contract.

Bills Opposed

He said the bills would provide "punitive legislation not in the best interest of Idaho schools."

"No—constructive—purpose—served by labels and accusations or efforts to identify a vil-

lain," York said.

Rather than punitive legislation, he said, what is needed is "constructive action to identify and correct educational inadequacies, largely attributed to a shortage of money."

Robert Hoffman, executive secretary of the School Trustees Association, spoke in favor of the bills along with Ezra Moore of Boise.

Moore said that "A teaching certificate is a two-way road... it's binding on the teacher and it's binding on the school board." He urged legislation be passed to suspend the certificate of a teacher who fails to honor a signed contract.

Wallace Solon Plans Bill Returning BSC To Two Years

BOISE (UPI)—A veteran legislator from north Idaho has disclosed plans to introduce a personal bill transferring Boise State College back to the junior college district.

Rep. William J. Murphy, D-Idaho, assistant minority leader, said his bill would make a two-year school out of Boise State beginning Jan. 1, 1970.

Murphy said he was not certain just how far his bill would get but said he was reasonably certain he could get it printed for distribution among the state.

He admitted his measure was an outgrowth of controversy surrounding Boise State—including the institution's budget and recommendations for its future.

"I would say that while this is a very sectional type of bill, the sectionalism in it is directed at ending sectionalism," Murphy said.

"Logically, if this type of thing is carried on as we hear from time to time with vetoed bills against established schools, then it could cause those who have supported the other schools in the past to take counter measures," he said.

"In terms of classical logic, it might be reduction to the absurd."

Murphy stressed that he has personal axe to grind with the bill, saying he does not come from an "institution," county and has not attended any public schools in Idaho.

"Therefore, can't be accused of being prejudiced toward any institution of higher learning," Murphy said.

Murphy said his proposal is a brief one in that it simply calls for transfer and reconveyance of Boise State to the junior college district which formally supported it. In practical effect, his bill also returns the school to a two-year from a four-year status.

A statement of purpose he was preparing for the bill Wednesday took note of the former status of Boise State and suggested the legislature perhaps

moved too quickly in making a four-year, state-run school of it. Murphy added that he hates to hear "these Ada County legislators ruminating about these other schools." He said, "I hope they get a message out of this."

EXPORTS 'BOOM'

Bankers Will Back Bill On Deposits

BOISE (UPI)—The State Finance Department and the Idaho Bankers' Association recently have reached a compromise that paves the way for legislative approval of the controversial "no tax, no deposit" bill.

That was the report from Sen. H. Dean Summers, R-Boise, chairman of the Senate Business Committee. Summers said the bankers apparently have agreed not to fight the bill on legal grounds if it is not made effective until Jan. 1, 1970.

He said a companion measure memorializing Congress to enact a federal bill declaring banks subject to any non-discriminatory state tax will be prepared for introduction.

Because of a U.S. Supreme Court ruling, banks cannot be made subject to some state and local taxes. The high tribunal declared them instrumentalities of the federal government.

A bill pending in the state legislature would bar banks from paying sales tax or personal property tax from accepting state or municipal deposits.

Dear Abby
By ABIGAIL VAN BUREN

DEAR ABBY: I am 24 and Danny is 23. We have been married for a year, and this is our first big disagreement:

A local school is offering a course in self-defense, and I want to take it. Danny says that it will detract from my femininity to take such a course.

We live in a big city, and some awful things have been happening to women here. I just want to be able to protect myself should the need arise. Danny is big and strong and can protect me when he's with me, but how about when he's not with me? He says that such a course is for males, not females. What do you think?

A FEMALE

DEAR FEMALE: I think everyone should get all the training available in self-defense—ESPECIALLY women. I don't know how much muscle Danny has—but a good deal of it is between his ears.

DEAR ABBY: I am a 52-year-old man, married 30 years to a 50-year-old woman to whom I have been absolutely true until I met this woman I'll call "Myrtle." She is also married. We met when HER daughter and MY son became engaged. (They are now married.)

Fashion Designers Analyze Pat Nixon, Find "Attractive," But Squanders Assets

NEW YORK—She has "a classic Anglo-Saxon look with marvelous bones, a fair English complexion and beautiful legs—a mysterious quality—a bit of the Shanghai Express... But she squanders her assets. Thus does fashion designer Bluss describe Pat Nixon in this week's TIME Magazine. Bluss is one of four leading U.S.

designers asked by TIME to analyze the new First Lady's style of dress and makeup. The four (Geoffrey Beene, Oscar de la Renta, Donald Brooks and Bluss), all winners of the prestigious Coty Award, agreed that Mrs. Nixon is basically a very pretty woman who did not take advantage of her natural attractiveness.

however, the summary given by Donald Brooks may prove most helpful to Mrs. Nixon in the future: "Maybe now that she has arrived, she can achieve a feeling of calm and contentment. She can stop considering herself in terms of the average and create her own style."

Mrs. Henry Is Honored On 80th Birthday

Mrs. J.-H. Henry-Twin Falls was feted Feb. 2 on her 80th birthday with an openhouse reception at her home.

Among those attending were Mrs. Henry's children, Thornely W. Goe, Pleasant, Calif.; George M. Goe, Robertson, Wyo.; Mrs. Lewis J. (Nina) Cunningham, Provo, Utah; Robert L. Goe, Los Angeles, Calif.; Mrs. Loma K. Child, Twin Falls; James W. Henry, Kimberly; and John N. Perkins, all foster sons from Fresno, Calif. Mrs. Child and Mrs. Cunningham were hostesses. The Henry home was decorated with flowers.

Attending the guest book were Thomas Cunningham, Clifton Park; and John N. Child, all grandchildren. Usher, were Lewis J. Cunningham, Provo; Burnell Stohler, Boise, and Jay Pace, Twin Falls.

Assisting with serving of punch and birthday cake were Mrs. James W. Henry, Mrs. George M. Goe, Mrs. Jay Pace, Mrs. Burnell Stohler, Mrs. John Perkins, Mrs. William Floyd Kimberly, and Mrs. William Davis, Twin Falls.

Steven Perkins, Gerald Perkins, Mark Stohler, Laurie Floyd and Cathy Stohler, all grandchildren, and LaVerna Wallowing, also assisted. Mrs. Henry wore a brocade suit and a pink rosebud corsage, presented to her by her husband.

Robyn Frith Receives Award

WENDELL—Robyn Frith, daughter of Mr. and Mrs. Harry Frith, has been named the 1969 Betty Crocker Homemaker of Tomorrow for Wendell. She received this honor on the basis of her score in a written knowledge and aptitude test on homemaking given to senior girls in December.

Miss Frith's achievement has made her eligible for state and national scholarships. She also received a silver charm from General Mills. Miss Frith is a senior at Wendell High School. She is active in the drill team, Letterman's Club, Ski Club and FHA. She is a member of the Methodist Church and is currently serving as senior princess of Wendell Bethel No. 12, International Order of Job's Daughters.

Mary Cooke, Faulkner Set February Date

William Cooke and Mrs. Alice Tate announce the engagement of their daughter, Mary Lou, to D. Emmett Faulkner, son of Mr. and Mrs. Duke Faulkner, Babbitt, Nev.

Miss Cooke is a 1968 graduate of Kimberly High School. Mr. Faulkner is working in the field of geology and attended the University of South Dakota. A Feb. 10 wedding is planned at the Carillon, Twin Falls.

Magic Valley Favorites

MRS. LUJEAN GRAF
Route 1, Heyburn

- Apple Cake**
1 cup sugar
1/2 cup margarine
1 egg, beaten
3 apples, cut up
1 cup flour
1 teaspoon soda
1/2 teaspoon nutmeg
1 teaspoon cinnamon
1 teaspoon salt
1/2 cup nuts
- Cream sugar and margarine. Add egg, then apples. Combine other dry ingredients and add to creamed mixture. Add nuts and pour into loaf tin. Bake 50 to 60 minutes. Very good uniced. For a richer dessert, one can use this sauce:
1/2 cup butter
1/2 cup brown sugar

- 1/2 cup white sugar
Heat in a saucepan, then add:
1/2 cup sweet cream
1/2 teaspoon vanilla
(The Times-News will pay \$5 each week for the best recipe submitted for Magic Valley Favorites. If you have a favorite recipe, just mail it to the Recipe Department, Women's Page Editor. The recipe becomes the property of the Times-News and cannot be returned.)

BANKERS READY REFERENCE CHART is discussed by two representatives of the leading industry and four fertilizer dealers. These six are part of some 60 bankers and fertilizer dealers who got together recently in Twin Falls to inform the bankers on the needs of farmers in fertilizer and chemical costs. From left are Bob Carlson, Rangan's Inc.; Bubi; Todd

Tremblay, Magic Valley Growers; Curry; Earl Stansell, Southern Idaho Production Credit Association; Ivan Skinner, Twin Falls Bank and Trust Co.; Merle Cherry, Simplot Soil-builders, Twin Falls; and Coley Parish, Farm Service Inc., Kimberly. These four fertilizer dealers were members of a committee which put together the reference chart.

Bankers Get Reference Chart On Fertilizer, Chemical Costs

By ROBERT VANAUDELN
Times-News Farm Editor

Southern Idaho bankers, for the first time, got an insight to the costs of fertilizers and chemicals—that local farmers need to produce top quality and high-yielding crops.

Some 60 bankers and fertilizer dealers from throughout Magic Valley got together earlier this week in Twin Falls to discuss the needs of farmers in fertilizers and chemicals and the cost of each per acre.

Each of the bankers at the meeting were handed a "Bankers Ready Reference Chart on Fertilizer and Chemical Costs," especially prepared by a special Southern Idaho "Plant Food" association committee.

This is the first time in history that a chart of this type has been prepared for bankers or other lending agencies so that they may have a guide in determining the costs of fertilizers and chemicals that farmers need on their crops.

Todd Tremblay, manager of Magic Valley Growers and chairman of the special committee, said that some farmers can make better use of maximum fertilizer rates than others because of soil capability or individual grower capacity. Consequently, he said, a range of plant food and costs is suggested in the ready reference chart.

The ready reference chart lists most all major crops grown in this area, including irrigated pastures, and the amount of fertilizer and chemicals plus the cost of each per acre on the average farmer will need.

For sugar beets, the chart says it is important to determine farmers potential yield goals, such as 20, 25 or 30 tons per acre. The average farmer will need 125-200 pounds of nitrogen per acre and 160-240 pounds of phosphate. The chart also says that soil tests will indicate zinc and potash are needed. The cost of these fertilizers per acre, will range from \$31.35 to \$44.

On chemicals for sugar beets, the chart recommends that Do-Neet is a herbicide generally used for pre-plant. Post emergence applications of pyramin

plus, treflan, eptam or other approved materials are also used. The chart shows that the cost of these chemicals is between \$18 and \$20 per acre by a custom applicator.

On potatoes, the chart says that farmers should be aiming for 400 sacks or better per acre. For this type of yield, farmers will need from 160 to 250 pounds

of nitrogen and 160-200 pounds of phosphate per acre. Also in the chart, it notes that potash and zinc could be very important for top yields and quality.

The costs of fertilizers on potatoes will range from \$34.20 to \$49 per acre, the chart shows. Also the cost of chemicals—Dison for aphid control, DDT for border field control of Colorado Potato beetle and early blight control with Zineb or Maneb—will range from \$9 to \$20 per acre by custom applicator.

Another major crop that is listed in the chart is beans. Zineb beans, the chart says that zinc is a critical nutrient. Farmers should use five pounds of zinc per acre dry or the equivalent amount of Chelate every time beans are planted.

The ready reference chart indicates that farmers should use from 40 to 60 pounds of nitrogen and 40-60 pounds of phosphate per acre. Soil test for phosphorus is important. The cost of these fertilizers for beans is from \$9 to \$15 per acre.

Herbicides for beans are a must. Treflan, eptam or appropriate combinations are general practice. Cost of these chemicals will range from \$9 to \$14 per acre.

Ivan Skinner, Twin Falls Bank and Trust, said that this ready reference chart will be a great help to bankers when farmers come in for loans for their fertilizer and chemical needs. He added that before the only thing (bankers) knew about fertilizer and chemical needs was what the farmers themselves told them.

Other members of special committee that drafted the ready reference chart were: Tremblay, Magic Valley Growers; Merle Cherry, Simplot Soil-builders, Twin Falls; Bob Carlson, Rangan's Inc.; Bubi; and Donald Youitz, Twin Falls County agent.

The Commission scheduled meetings in Burley, March 10, and in Caldwell, March 12, to nominate replacements for three members whose terms expire this year. They are: Jack Allred, Murtaugh, Joe Taylor, Paul, and Luther Roberts, Weiser.

Gooding Area Council Plans 4-H Activities

WENDELL — The Gooding County 4-H Council began their year with a meeting recently at the courthouse. Cliff Harris, Wendell, conducted the meeting.

Mrs. LaVar Petersen, Wendell, gave a report on the recommendations of the executive committee of the Council as a plan of meetings for the coming year.

Malcolm Horvoly-Hagerman and Mrs. Dorna Butler, Bliss, were appointed to serve on the executive board in order that all areas of the county have representation.

The Council acknowledged their appreciation to the Grange for their support of the 4-H program and agreed to help with the annual Grange Benefit Dinner which is scheduled for March.

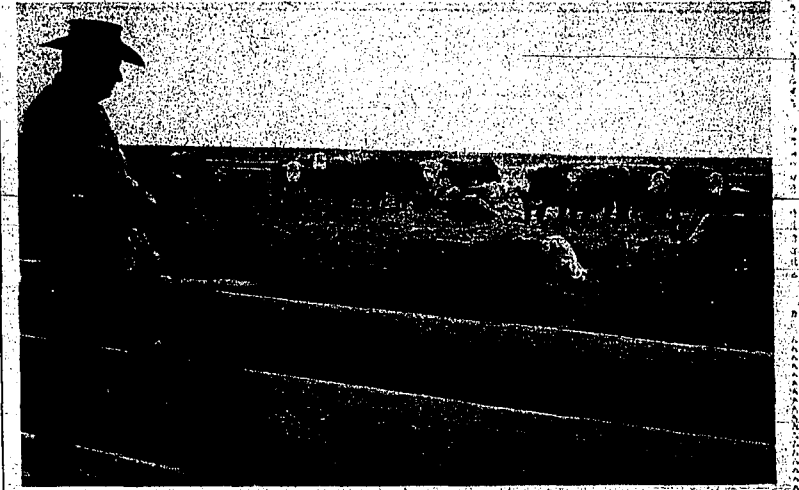

The 4-H Camp near the Russian John Ranger Station will be dedicated during the 1969 camping season.

Mrs. Harris said other business at the directors meeting included plans to construct new tables and whether or not to lease the camp for winter use.

Sandy Kasel, home agent, reminded home economics leaders, of the series of workshops that she is conducting in the county during the month of February and first week in March. Miss Kasel stated these meetings are open to the public.

A registration fee of \$1.00 must be paid by Feb. 11 for the dehydrating series, all other events are free. Call 834-4401 if you have questions concerning these workshops.

Mike Reed, Gooding vice president, acted as moderator for a panel of leaders who presented the pros and cons of Gooding County retaining project clubs or reviving the Community Club. He was assisted by Cliff Harris, Wendell; Mrs. Larky Bickford, Gooding; and Mrs. Earl Schrenk, Wendell.

CHECKING OVER A lot of cattle is Albert Higley, Paul, a cattle buyer for several Western States packers. Mr. Higley is one of five Magic Valley livestockmen who will be honored

Feb. 17 by the Southern Idaho Agricultural Livestock Industry Hall of Fame. Mr. Higley started in the cattle buying business with a horse when he was 18 years old.

Livestock Hall Of Fame

Albert Higley To Be Honored

PAUL — A horse started Albert Higley in the cattle buying business in the early 1930s.

Today, Mr. Higley has been named to the Southern Idaho Agricultural Livestock Industry Hall of Fame and will be honored at the Hall of Fame Banquet at 7:30 p.m. Feb. 17 in the Holiday Inn, Twin Falls. He and four other Magic Valley livestockmen have been named to Hall of Fame for their outstanding contribution to the livestock industry.

Mr. Higley, who was born and raised on a farm north of Paul in 1916, said when he was about 18 years old, he was sorting potatoes one day when his father told him to go into town

and buy a horse. Mr. Higley went into town, bought a horse and then turned around and sold it, making \$10 to \$15 on the deal.

Since this was much more than what he was making sorting potatoes — \$1 a day — he started buying cattle because he thought there was a market for them outside the area.

Mr. Higley purchased cattle through the various local sale rings—hauling them into Ogden where he sold them dressed to the American Packing Co. These were veal calves. When he found

out that he was violating a law of selling dressed carcasses, he sold the cattle on the hoof to the packers.

This is what he is still doing today, after some 30 years in the business. He buys cattle for several packing firms in the Western States areas.

"The outlook for the livestock industry is very good and the market has improved greatly since I was a kid," says Mr. Higley. He said when he started in this business (cattle buying) the price of beef was five cents a pound. "Now it is 27 cents a pound."

Mr. Higley also farms a 300-acre farm near Paul with his brother Wallace Higley, as well as feed about 250 head of cattle. Mr. Higley is married, has two children and three grandchildren. He also is a member of the Rupert Elks Lodge.

Dry Skim Milk For Whipping Said Developed

WASHINGTON — Agriculture department scientists report development of a product certain to please dieters. — a fat-free, dried skim milk that can be whipped into a low-calorie dessert topping.

The experimental product produced from homogenized non-fat milk can be stored without refrigeration and could be sold at about the same price as the non-homogenized powdered milk now on the market, it was said.

One cup of the new fluid milk will whip into one quart of foam that remains firm for an hour, the scientists said.

When he's ready will YOU be?

Ask the man from PCA!

He's not a livestock expert—yet! But before you know it, you'll have a partner.

In the meantime, lots of problems—education, new equipment, modernization—financial needs your PCA understands.

Be ready when your little guy is... let the Man from PCA lend a hand.

PCA
"Where Successful Farmers and Ranchers Finance"

Along Fences And Canals

Mr. and Mrs. Jay Cobb, Filer, attended a beet growers' association meeting in Pocatello.

Mervin, Marvin and Kenny Preston and their families have moved to the Simplot ranches east of Declo where the three brothers will take over the farming operations for this year. They are on the Declo Star Route.

Severe wind damage is reported by Declo farmers during a recent windstorm. Those hardest hit were Andy Fil, who had his garage lifted off its foundations and dropped.

Wilford Richins' home, Declo, was damaged when a large tree was blown down and hit the roof. Richins had been under the trees just minutes before. Granaries damaged were those belonging to Milton Osterhout, who found his a quarter of a mile away, and one owned by Frank Gillett, which was tipped over.

Mr. and Mrs. Leo Anderson have improved their home on their ranch north of Declo, and are building new corrals and buildings.

Mr. and Mrs. Art Tyler have built a home in Declo and recently moved in. The ranch home they lived in previously, owned by Dick Fuqua, has been rented by Mr. and Mrs. Tom Hill.

A large loafing shed owned by LeRoy Banner was destroyed when the wind lifted it and dropped it in a field near his home.

Mr. and Mrs. John Stewart and family, have moved onto the Fred Crockett farm, northwest of King Hill. Stewart has rented the farm for the coming year.

Karl Anderson, King Hill, is working on the Joseph Pachner farm northwest of Glenns Ferry.

A cowshed on the L. W. Moore Farm, Hansen, was completely demolished in the high winds which were prevalent recently. A large section of the roof, about 20 by 30 feet, was blown into the top of a poplar tree, where it stayed until shaken down. When it fell it splintered.

A tenant house which is occupied by the Don-Craft family escaped damage when trees in front of it went crashing to the ground as a result of the wind. The trees, at the north of the house and side, were blown to the north, and landed in a neighbor's field. They will be sawed up to be removed.

Taking care of winter calves keeps Albert and Helen Pelley, Richfield, alert to new ways of keeping them warmer. Their latest invention is making a covered wagon out of a trailer pulled with a tractor, to get the calves to the barn and later calf pens.

Snow was blown along with the wind into snowbanks in many fields on Tuttle farms last week. High temperatures for several hours contributed to formation of the banks.

Farmers in north Shoshone have found rockchucks under hay stacks on their farms the past week or two. This is something they reported never having seen before and there is speculation they made this location in anticipation of a bad winter.

A north Shoshone farmer reported seeing 10 deer on his place Tuesday morning. The deer were thin but seemed to have plenty of energy from the way they went over the snow.

Potatoes Can Be Stored For Year, Says Economist

MOSCOW — Research and actual practice have shown that potatoes can be stored satisfactorily for 12 months under careful management and with good storage facilities.

The question now arises as to the desirability of 12 month marketing, according to Dr. Larry V. Summers, USDA agricultural economist, headquartered at University of Idaho. Summers spoke at a potato research workshop on the University of Idaho campus.

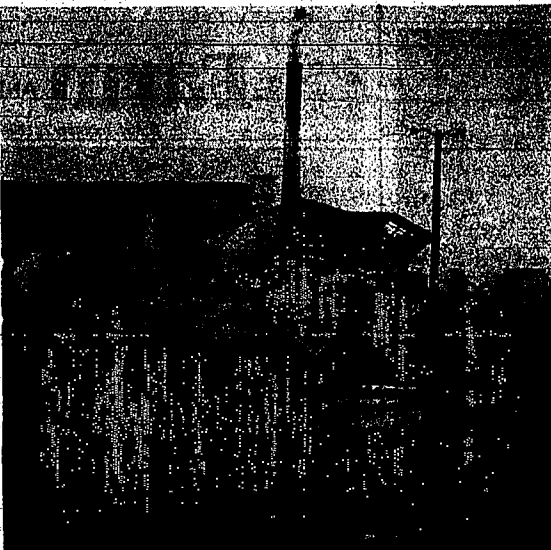

A research project is under way to study the economic factors involved in 12-month marketing. Summers reported. Much of the work so far is elementary and it is too soon to draw conclusions, he said. As part of the initial phases, however, a survey of fresh market shippers was conducted. Summers reported that only 63 per cent of the shippers surveyed indicated they wanted to extend the shipping season. Most of those shippers who ended their shipping season early said they did so because there weren't potatoes available. At the same time, they felt the market for late season potatoes was good.

During a workshop discussion period, Don Dew, Idaho Potato Growers, Idaho Falls, gave details about an incentive program for growers to cut down on bruised potatoes. The program is being used for the first time this year by Idaho Potato Growers. The program, he said, rewards the grower who does a good job handling his potatoes with a minimum of bruising. Dew suggested this incentive program as a possibility for the entire potato industry as a way of cutting down on potato bruising, the most serious problem facing the Idaho potato industry. Dr. George W. Woodbury, University horticulturist, was honored at a luncheon. Many of the potato industry men attending the workshop were former students of Woodbury.

Dr. James E. Kraus, dean of the College of Agriculture, read a special citation signed by Governor Samuelson applauding the service Woodbury has given to the potato industry over the years.

Don Robertson, Heyburn, J.R. Simplot Food Production Division, on behalf of the industry men, presented Woodbury with a gold award pin depicting an Idaho potato.

DeLance Franklin, superintendent, Parma Branch Experiment Station and former student of Woodbury, reviewed some of the highlights in Woodbury's career and presented additional gifts.

LAST SCOOP of sugar beets is about to be dropped into a flume that runs into the Twin Falls factory, Amalgamated Sugar Co., thus ending a four-month campaign of slicing for the sugar firm. Both the Twin Falls factory and the Mini-Cassia factory started slicing sugar beets Oct. 3 and were scheduled to end late Friday afternoon. Both the tonnage and sugar content were up this year.

Minidoka Beet Unit Honors Six Students

RUPERT — Six Minidoka County youths were honored for their work in the Sugar beet industry, two directors were elected and several beet officials addressed the gathering of nearly 350 county beet growers during the recent annual meeting of the Minidoka County Beet Growers Association at the Rupert Elks Lodge.

The youth awards were given to those youths who have had outstanding sugar beet projects in the past year. FFA awards, presented by Minico FFA advisor Vernon MacNeil, went to Ken Bally, first, Clay Harrison, second, and Vernon Gebauer, third.

4-H awards, presented by Minico FFA advisor Keith Merrill, went to Russell Patterson, first, Victor Bliss, second, and Barry Rogers, third.

In both divisions, first place winners received \$50, second received \$30 and third, \$20.

Association directors who were elected were Dick Westendorf from the Adelaide District and Frank B. Ellis, Schow district. Mr. Westendorf had been a director from the district for over 15 years, and secretary treasurer for about 12 years. He had asked not to be re-elected because he is no longer farming. Elected to his position was Harold Helms. Mr. Ellis was re-elected. Sherman Saylor, Rupert, who represents Magic Valley sugar growers in checking tare and sugar content at both the Paul and Twin Falls Amalgamated Sugar Company factories, was elected secretary-treasurer.

The scheduled speaker for the meeting, Dick Blake, was unable to attend because of a plane delay to Jack Claiborn, Twin Falls, filled in. Mr. Claiborn is president of the Idaho Beet Growers Association, and past president of the National Federation.

He presented a discussion on the past year in the sugar beet industry, noting that the Federation now has an office in Washington. The office represents all the beet grower associations in the country and is managed by Norman Kraft.

Mr. Claiborn also said that the general outlook for the coming year indicated that there would be a surplus of beets, but that already there had been a marked improvement in price. The initial payment for the 1968 crop was the largest in history, he noted.

Other officials recognized during the meeting were Bill Beck, national federation president, Burley; Ernest Blauer, district manager for the Amalgamated Sugar Company; Lloyd Olson, district manager for the Utah-Idaho Sugar Company; Leo Van Every, with the Rupert ASC of U.S. and Lyle Frazier, with the Burley Department of Employment.

Mr. Frazier centered his remarks around the housing aspect for the sugar beet workers. He noted that there should be ample labor for the spring beet work. He also discussed new housing regulations for the tenant housing for the workers. Among the new requirements are sinks in each kitchen, and inside plumbing.

Mr. Van Every discussed how sugar payments are determined and the various methods of paying the beet workers for the labor.

Mr. Olson explained the U-I sugar setup in the county, noting that the average tonnage has been 18 tons an acre. The factory sugar content, he said, is 10.5 per cent.

Mr. Blauer saluted the outstanding FFA and 4-H leaders honored during the meeting. He also discussed the conditions the sugar company's beet piles are in, noting that they are covered and keeping well.

The sugar content at the Paul factory is 16.71 per cent, Mr. Saylor told the group, compared with 16.63 per cent at the Twin Falls factory. He said that 1968 was an above normal year, with the sugar content in 1967 about 15.5 per cent.

Officers of a new 4-H club were named at the club's recent meeting. The club is known as the Lucky Boots and Spurs 4-H Club.

Officers are Lavern Reed, president; Susan Sommer, vice president; Rex Reed, treasurer; Donna Ray Reichert, song leader; and Billie Ray Robertson, program chairman.

Social Security Question Box

If you have any questions about your social security, address them to Jim Davis, Box 1238, Twin Falls, Idaho 83301.

Q. At what age may a widow who has no children under 18 start receiving social security benefits on her deceased husband's record?

A. A widow who is not disabled may start her social security benefits at age 60. A disabled widow may begin receiving benefits as early as age 50 if she becomes disabled before her husband's death or within seven years after his death.

Also, a widow who receives benefits as a mother with children may receive disability payments if she becomes disabled before the mother's payments end or within seven years after they end. The full amount of a widow's benefit, payable at age 62, is 82 1/2 per cent of her husband's benefit.

A. A widow who is not disabled may start her social security benefits at age 60. A disabled widow may begin receiving benefits as early as age 50 if she becomes disabled before her husband's death or within seven years after his death.

Also, a widow who receives benefits as a mother with children may receive disability payments if she becomes disabled before the mother's payments end or within seven years after they end. The full amount of a widow's benefit, payable at age 62, is 82 1/2 per cent of her husband's benefit.

A. What is meant by the "jump-sum death payment" and what is the amount of this payment?

A. The lump-sum death payment is the payment made after the death of an insured worker to help with his burial expenses. The amount varies from \$165.00 to \$255.00, depending on the worker's average yearly earnings under social security. The payment is made to the surviving spouse who was living with the decedent at the time of death. If no such spouse survives, the payment is made to the person who paid the burial expenses. If the burial expenses have not been paid, the lump-sum payment can be paid directly to the funeral home upon authorization from the person who assumed responsibility for the expenses.

Mr. Frazier centered his remarks around the housing aspect for the sugar beet workers. He noted that there should be ample labor for the spring beet work. He also discussed new housing regulations for the tenant housing for the workers.

Among the new requirements are sinks in each kitchen, and inside plumbing.

Mr. Van Every discussed how sugar payments are determined and the various methods of paying the beet workers for the labor.

Mr. Olson explained the U-I sugar setup in the county, noting that the average tonnage has been 18 tons an acre. The factory sugar content, he said, is 10.5 per cent.

Mr. Blauer saluted the outstanding FFA and 4-H leaders honored during the meeting. He also discussed the conditions the sugar company's beet piles are in, noting that they are covered and keeping well.

The sugar content at the Paul factory is 16.71 per cent, Mr. Saylor told the group, compared with 16.63 per cent at the Twin Falls factory. He said that 1968 was an above normal year, with the sugar content in 1967 about 15.5 per cent.

WE ARE NOW HATCHING!

OUR WELL-KNOWN FRYER-TYPE CHIX

Do like so many of your neighbors are doing... fill your flock with 100 or more of these fine fryers, so you will have FRESH fried chicken the year around.

In case you are not familiar with our type of fryers, just ask one of your neighbors. More than likely, he will tell you how well pleased he has been over the past years with our chix.

We also have 2 types of laying strains to choose from. Call us here at the hatchery... or contact your local feed dealer who sells our chix. Remember we have had 40 years of experience at this business of hatching chix... we would know what is best for you as a customer.

SUNNY CHIX HATCHERY & POULTRY FARM

Box 49, Filer, Idaho, 83328 Phone 326-4247

WE HAVE MOVED!

After being in the same location (in Twin Falls) for the past 42 years, we have moved... now in a new location... with a brand new building and under a new name.

WE WILL FEATURE THE FOLLOWING LINES OF MERCHANDISE

De Laval line of Milkers... Gehl Choppers and Mills... Mayers Ditchers... Speed King Grain Augers... Sno-Co Baled Hay Elevators... Brunswick Tires... Shock Absorbers... Batteries... Oil Filters... Prince Hydraulic Cylinders... Gates Hydraulic Hoses.

Planet Jr. Garden Tractors and Cultivator Supplies... Lawn Mowers... Patio and Garden Supplies... Household Appliances... Boots... Shoes... Coats... Saddles... Bridles... Horseshoes... Animal Health Products and Supplies.

Dutch Boy line of Paints... Aluminum Ladders... Full line of Hardware and Farm Supplies... and many, many other items too numerous to name.

LOTS OF OUR MERCHANDISE has not yet arrived, SO WATCH FOR DATE OF OUR GRAND OPENING... But come on out and shop... look us over and see our lovely new store. PLENTY OF FREE PARKING.

Blaine Snow Pack Is 253 Per Cent Of Normal

HALLEY—Water content of snow pack in the Big and Little Wood River drainages, the Smokies and the headwaters of the Salmon river drainage, totaled 253 per cent of the 15-year average, reports Service Bradshaw, Soil Conservation Service snow surveyor, after completing the Feb. 10 survey.

At the Galena summit course snow depth is 96.3 inches, with 24.7 inches of water content. One month ago snow depth was 51.2 inches, with 12 inches of water content. On Feb. 1, 1965, this area's last big snow year, snow depth on Feb. 1 was 102 inches with 32 inches of water. The water content at this time is 165 per cent of the 15-year average.

At the Horse Creek course snow depth is now 90.7 inches with 22.1 inches of water. On Jan. 1 snow depth was 42 inches with 9.1 inches of water content. On Feb. 1, 1965, snow depth there was 94 inches, with 22.8 inches of water content. This year there is 170 per cent of the 15-year average.

At the Galena Ranch course snow depth is 74.1 inches with 19.9 inches of water content. In 1965 there were 32.4 inches of snow with 5.8 inches of water. In 1966 there were 67 inches of snow with 19.2 inches of water. On Jan. 1 this year's water content at this course is 188 per cent of the 15-year average.

Mr. Baldy's snow depth is 10.1 inches with water content of 24.2 inches. Jan. 1 snow depth was 5.3 inches with 9.3 inches of water. Feb. 1, 1965 snow depth was 22.1 inches with water content here is 178 per cent of average.

At Swede's Peak, highest on the Little Wood River drainage, snow depth is 95.4 inches with 22.5 inches of water content. This is 209 per cent of the 15-year average.

The two largest increases in water content are at the Garfield and Muldoon courses on the Little Wood river watershed. Snow depth at Garfield is now 71 inches, with 17.7 inches of water. On Jan. 1, depth was 22.4 inches with 4.7 inches of water. In 1965 there were 58 inches with 17 inches of water. Water content is 253 per cent of the 15-year average.

The Muldoon course snow depth is now 55.7 inches with 13.8 inches of water. On Jan. 1, it was 19.7 inches with 3.4 inches of water. In Feb. 1, 1965, it was 19.7 inches with 3.4 inches of water. Water content here is now 251 per cent of the 15-year average.

Mr. Johnson said the stake at the Lost - Wood divide at the head of Trail creek showed 37 inches of snow. The Slickhorn Mill stake, at the headwaters of the Little Lost River, showed 48 inches. "About three feet is the normal depth here," he said.

At Forciple creek, which flows into the Little Wood River, there are 114 inches. "Next month I will take readings at Dollahoy summit and Vienna mine," he said.

Mr. Johnson said the stake at the Lost - Wood divide at the head of Trail creek showed 37 inches of snow. The Slickhorn Mill stake, at the headwaters of the Little Lost River, showed 48 inches. "About three feet is the normal depth here," he said.

Hampshire Gilt Tops Sale

FILED—A Hampshire bred gilt topped the recent Southern Idaho Swine Breeders association's carcass contest that was held the night before the sale. This top showed the loin eye of each of the 22 carcasses that were entered in the contest.

Other results of the swine sale, by class and breeds and listing consigning buyer and price paid, are:

BRED GILTS
Paul Murrison, Meridan, Conn. Farm, 410, \$125.00; Roy Barnes, Emmett, Joe Herre, Paul Barnes, Roy Barnes, Wilfred Gebauer, Paul, \$182.50.

Yorkshire
Henry Womers, Caldwell, C. M. Payton, Oakley, \$107.50; Norman Howell, Malad, Lyle Barton, Heyburn, 475; Paul Bolling, Meridan, C. M. Payton, \$52.50; Roy Barnes, Emmett, Mike Vanderslip, Twin Falls, \$95; Paul Bolling, Meridan, 475; Paul Bolling, Heyburn, Womers, Norman Bester, Heyburn, Oakley, \$110; N. O. R. M. A. Howell, Roy Brown, Buhl, \$82.50; Paul Bolling, Gray, \$60.

Yorkshire
Walter and Terry Smith, Heyburn, Jeff Harper, Buhl, \$35.

Boars
Norman Howell, Lyle Barton, \$55; Roy Barnes, Harlan Anderson, Wendell, \$75; Paul Boller, Heyburn, 475; Roy Barnes, C. M. Payton, \$92.50.

Hampshire
Joe Williams, Sol Washburn, Oakley, \$135; and Roy Barnes, Dick Graves, Gooding, \$30.

ONE OF THE bred gilts that were sold during the recent Southern Idaho Swine Breeders sale at Twin Falls was this Spotted Poland consigned by C. O. Hopper, Jerome, left. The gilt was purchased by Floyd Morrison, Murtaugh, for \$86. There were 36 gilts and boars sold for \$5,537.50. The gilts averaged \$106.31 and the boars averaged \$85.41.

North Side Canal Directors Reiterate Opposition To Salmon Tract Proposal

JEROME—The North Side Canal Co. board of directors has reiterated their opposition to the proposal of the Bureau of Reclamation to provide supplemental water to the Salmon Tract.

The Bureau proposes to deliver some of the water supply of the North Side Canal to the Salmon Tract and to replace the water in the canal company system by pumping from 90 deep wells in the Woodelli, Dietrich and Vernon areas.

The canal board indicated that they are sympathetic with some of the problems of the water shortage. Salmon Tract area "But they feel by the time the project is completed, that other water supply would probably be available so that the proposed pumping exchange would not be necessary.

A board spokesman said that there are no facts of an exchange which would be beneficial to the operation of the North Side Canal Co. and Pump Company officials joined with representatives of the trout hatchery interests in demanding that the North Side Canal and other groups in voicing their opposition to this proposed water exchange at the Idaho Water Resources Board hearing last December in Twin Falls relative to the Salmon Farm Division Project.

Economist Compares Idaho's Agriculture With Iceberg

MOSCOW—The contributions of agriculture to Idaho's economy can be compared with an iceberg, according to Dr. Roger B. Long, University of Idaho agricultural economist, who spoke at a three-day university Agricultural Experiment Station conference.

The visible portion of the iceberg represents the dollar value for sale of farm products, plus the value added for processing the products. The hidden portion of the iceberg is agriculture's contribution to the economy through related business created by the needs of agriculture, plus the business created by the outputs of agriculture. This larger, unseen portion is the "agricultural" flow of dollars, Long pointed out.

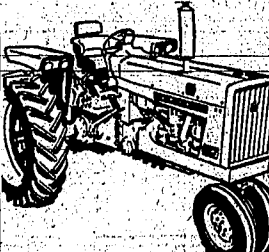

The speaker further indicated that cost should not be the determining factor as to where a water supply is to be obtained for a new project. He said that the optimum delivery method of Idaho dictated that all existing and future surplus water supplies should be interconnected in a regional water exchange plan. This plan would provide a source of water to irrigate the Salmon Tract for the 1988 season. He indicated that this fact merely emphasized the need for the construction of the Central Canal Dam.

Shop Tools and Miscellaneous

Quaker oil stove with thermostat. Trash burner, Glen Roberts 180 amp. electric welder. Fan and die cast wheel puller. Hand and die wrenches. 1/2 inch electric drill. Leg vise. Shovel and trowel. Lots of bolts, nuts, washers, washers. Several tractor gears. Welding table. Several green-paint-Graeco pumps. 400 lbs. capacity. Farmhand Power Body with extra wide side. Ready to mount on 1958 Chevy truck.

"FEEDER OF THE YEAR" trophies that they have received from the Idaho Cattle Feeders Association, are admired by Mr. and Mrs. Edgar H. Olmstead, Twin Falls. The couple was honored for their contribution to the cattle feeding industry by the association at a recent annual meeting in Boise.

Mr. and Mrs. Edgar Olmstead Honored By Gem Cattle Feeders

Mr. and Mrs. Edgar H. Olmstead, pioneer Idaho cattle feeders, were honored by the Idaho Cattle Feeders Association at its recent annual meeting in Boise. The Olmstead couple was awarded the Charles Gossett "Feeder of the Year" trophy by the association at the group's recent annual meeting in Boise. A traveling plaque also was awarded to the couple, but they will keep the original \$30 trophy. Although the couple's three sons — Tom, Ralph and Neil — operate the farming and feeding operations on the farm, which also includes the original 30 acres Mr. Olmstead purchased a year after coming here, Mr. Olmstead still acts in an "advisory capacity." He said he still is "a partner" in the overall operation. Mr. Olmstead came here in 1909 and worked for his father for about a year, before buying the 30 acres. At that time he raised a few

Beef School Is Planned At Gooding

GOODING — A two-day beef production school will be held Monday and Tuesday at the Gooding Livestock Auction yard, according to Ed Koester, Gooding county agent. The school has been planned for cattlemen of Gooding, Lincoln, Blaine, Camas and Elmore counties. A wide variety of subjects will be selected, and well qualified speakers will appear at the program. The program will begin at 10 a.m. Monday with a talk on cross breeding vs. line breeding, effect on calving percentage, weaning weights, embryonic death loss and heritability factors. Speaker will be Dr. Ross Christian, associate animal scientist at University of Idaho. At 11 a.m. Dr. Christian will talk on selecting replacement bulls based on pedigree and progeny records — line cross vs. line breed. Lunch will be served at the grounds at noon, and the afternoon program will begin at 1 p.m. with Mrs. Marie Hemstrom, University of Idaho extension animal husbandman, talking on cattle wintering rations, bulls, cows and calves. Dr. Ross Christian will talk on progeny with production (performance) testing. Tuesday's program will get under way at 10 a.m. with a talk by Dr. Richard Hall, University of Idaho extension veterinarian, on the subject of reproductive diseases of beef cattle. At 11 a.m. Doctor Hall will lecture on winter cattle disease problems, calf scours, etc. Noon luncheon will be served. At 12:30 p.m. there will be a beef carcass evaluation and TV tape presentation of recent Bovine Disease of Southern Idaho, Twin Falls, and Oco, Florence, Independent Meat Co., Twin Falls. Dr. Ross Christian, Wesley Fields, Ernest Wesley rancher, and Koester will discuss "Does Irrigated Pasture Pay for Beef Production?"

Potato Group To Start Bargaining

BURLEY — The State Bargaining Committee of the Potato Growers of Idaho, Inc. met recently in Burley to finalize plans for the upcoming 1969 crop contract negotiations with Idaho potato processors. The Potato Growers of Idaho, Inc. with a membership throughout the state of over 2,000 growers has long been recognized by Idaho's major processors as the bargaining agent for Idaho growers.

The State Bargaining Committee under the direction of Clarence Alan Parr, Burley, is the co-ordinating and planning body for bargaining for the state organization and is composed of the chairmen of each committee designated to bargain with the individual processors and demands will be carried out by committees composed of growers who actually deal with the individual processor and demands will be carried out with factual and reasonable appraisal of present economic conditions.

Contract negotiations carried out in the spring of 1968 resulted in marked increases in returns to growers in those areas where growers showed an active support of the association's bargaining efforts.

The State Bargaining Committee has now completed meetings with individual growers in the area of each processor and contracts that were offered to the grower for the 1969 crop have been studied and analyzed.

Mr. Parr stated that the organization fully intends to carry out well co-ordinated contract negotiations on a statewide basis for the 1969 crop. Much time and effort have already been expended and the organization will in the near future, be offering a contract to each grower.

The contract will stress price standardization of inspection and grading procedures and the simplification of contract language. Various incentive clauses will be added to adopt the contract to each individual grower and the difference of processor use.

All potato growers are asked to support these bargaining efforts, not on an emotional basis, but with a steadfast determination.

Preparations are also being made to contact all financial institutions with factual appraisals concerning grower returns on pre-season contracts.

This all purpose potato grower organization is dedicated to the advancement of the Idaho potato farmer. A program for 1969 has been outlined to lead to New Horizons for Idaho's greatest industry.

The consumer market is now strong and shows all signs of continuing strength. The national per capita consumption of potatoes is now on the increase with a slight decline in the fresh market but a considerable increase in the dehydrated and fresh frozen processed products. In addition we are now feeding approximately 2,000,000 more people each year.

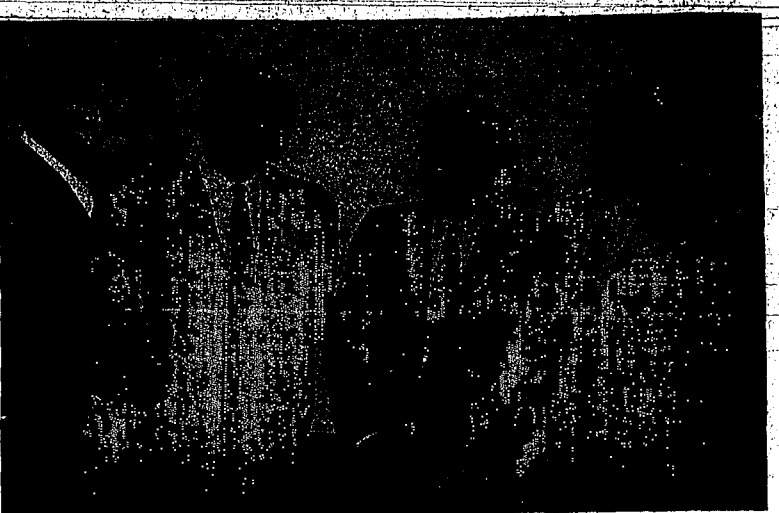

Potato Stocks, Range Conditions Reported Down

BOISE — Total grower, dealer, and processor stocks of potatoes in Idaho on Jan. 1 are estimated at 34,800,000 hundredweight, the Idaho Crop and Livestock reporting service announced.

Stocks at this level are the lowest since Jan. 1, 1965. Range feed conditions decreased 3 points during December to be rated at 78.

The current condition is three points below a year earlier, and five points above two years earlier.

Most livestock were receiving a full ration by the end of December as ranges were now covered.

LIVESTOCK INDUSTRY is discussed by directors of the Idaho Livestock Production Credit Association, after the group's recent annual meeting in Twin Falls. William Barratt, second from left, senior vice president of the Federal Intermediate Credit Bank of Spokane, and former-livestockman, is talking with John Nob, Kimberly, left; Wilbur Wilson, Hammett, president of the group, center; David Little, Emmett, second from right, and Ray Lincoln, Twin Falls, right. Mr. Barratt was guest speaker at the annual meeting of the organization.

Wilbur Wilson Is Re-Elected President Of State PCA Group

Wilbur F. Wilson, Hammett, was re-elected president of the Idaho Livestock Production Credit Association during a recent organizational meeting of the group's directors recently in Twin Falls.

During the group's annual stockholders' meeting, prior to the board's re-organizational meeting in the Holiday Inn, Mr. Wilson was re-elected to a three-year term on the board.

Other officers re-elected include David Little, Emmett, vice president, and Ray Voyce, Boise, secretary-manager. Other directors of the group are Ray Lincoln, Twin Falls; John Nob, Kimberly; and Andrew D. Little, Howe.

Guest speaker during the stockholders' meeting was William F. Barratt, senior vice president of the Federal Intermediate Credit Bank of Spokane.

Barratt pointed out that 1968 served up some extraordinary monetary dilemmas. Inflationary trends, all-time high interest rates, federal credit restraints, a dip in interest rates, another inflationary climb and another jump in interest rates provided the "fiscal frustration." Agriculture's increased credit demands, during a continued consumer-production squeeze, compounded the challenge to lenders.

Despite all this, the 30 PCAs in the four Northwest states became sole owners of the Federal Intermediate Credit Bank of Spokane by retirement of the capital. Farmer-rancher ownership of the combined net worth of the Spokane Credit Bank and PCAs of the Northwest now exceeds \$73 million.

"This action" by Northwest farmers and ranchers, to voluntarily relinquish a government subsidy at considerable cost to themselves, is worthy of high acclaim, Mr. Barratt said.

"We enter 1969 faced with all-time high interest rates, but at a price," Barratt concluded, "our lending groups expect to be able to provide all legitimate short-term credit demands of present and prospective PCA borrowers."

Ray Voyce, secretary-manager of the state PCA group, said

Hereford Days Slated In Gooding

GOODING — The Ninth Annual Clear Pedigree Sale and "Hereford Days" in Gooding are scheduled next week, according to Lewis Rothwell, Area, president of the Idaho Hereford Breeder's Association, sponsor of the event.

The membership will meet for the annual business meeting and election of officers Thursday at 8 p.m. at the American Legion Hall, Gooding.

Judging of the 146 head of sale cattle will begin at 11 a.m. Feb. 14, in the indoor arena at the Gooding fairgrounds. Bill McDonald, well-known Hereford judge and stockman of Klamath Falls, Ore., will officiate place the classes. The judging committee includes McDonald, Sherman Swin, Pocatello; Tom Callen, Rogerson; and Edward Eakin, Jerome.

Class winners will receive ribbons and rosettes. Many business firms in the area are providing trophies to the champions. Included in these presentations are Rice Motor Company, Gooding Jewelry Company, Bank of Idaho, Mr. Carl's Super Club, Gooding First National Bank, Wendell, and Holly Houburg, KEEP, Kimberly.

Preceding the annual presentation banquet at 7:30 p.m. Feb. 14, at the American Legion Hall, Hereford breeders will be guests of the Gooding Chamber of Commerce at a social hour.

Climate of the week's events is the Clear Pedigree sale of 116 Hereford bulls and 21 heifers on Feb. 15 at 11 a.m. All consignments have been selected for quality from leading Idaho-Hereford breeders. Ken Trout, Emmett, will serve as auctioneer.

Pancake Supper Set By Grange

Members of the Knoll Grange made plans for the Boycott Pancake Supper during a recent meeting at the grange hall.

The annual event will be held Feb. 15 in the grange hall, states Robert Royce, master. Kenneth Fox read an article from the Idaho Wolf Growers Association's magazine, Elmer Anis reported on the historical museum. The Boy Scouts will be in charge of the program on Feb. 28 with a pollack supper. W. Richmond, Buhl; Irvin per.

TOP PARLIAMENTARY PROCEDURE contest team in the West Magic FFA District are these Twin Falls FFA members. From left, seated, are Jeff Davis, Randy McCoy and Dave Vance, and standing, Ron Rueschert, Glen Arrington and Bob Carr. Second place team was from Shoshone and the Carey team was third. Judges for this contest, held at Shoshone, were Howard Atkins and Ivan Hopkins, both Shoshone, and Leo Cross, Twin Falls.

By BERNARD BRENNER, UPI Farm Editor. WASHINGTON (UPI) — Johnson administration policymakers, in a final farewell gesture, have urged congress to cut back the Agricultural Conservation Program (ACP) for years, a congressional favorite.

Under ACP farmers can get government subsidies to pay part of the cost — usually one-half — of approved conservation practices.

Cuts have been proposed in the ACP subsidies in budget proposals from President Dwight D. Eisenhower, John F. Kennedy and Johnson.

Administration officials have argued over the years that about \$100 million would be enough to pay subsidies on necessary long-term conservation practices on farms.

But with rare exceptions, congress has displayed a solid bipartisan reluctance to curtail the ACP payments.

Idaho Sewage Study To Aid Agriculture

UNIVERSITY OF IDAHO, Moscow, study to determine the feasibility of using treated sewage effluent for fertilization and irrigation purposes in Idaho will be conducted by University of Idaho faculty.

The study calls for examination of sites in Idaho where sewage effluent can be distributed on crop lands, and forests in such a way that the natural screening process of soil particles and absorption of chemical nutrients by plant roots will purify the effluent.

According to Williams, "The soil should act as a living filter that will purify the effluent and make the water usable."

Farmers Now Sole Owners Of Farm Credit System

Today, with payments to the U.S. Treasury by the farmer-owned Farm Credit System to the federal government, the 12 federal land banks are now completely farmer-owned.

The other organizations in the cooperative Farm Credit System — the 12 federal land banks — are now completely farmer-owned.

Insulation Ideas Given For Barns

Bird repellent added to insulation for open barns. Rodenticides in or on foam which will kill rats outside of animal confinement buildings.

Demand For Money Increases, T.F. Land Bank Members Told

"The demand for money continues to increase, despite the high interest rates," E. Riddell, vice president of the Twin Falls Land Bank Association said.

Training Session On Rest Rotation Grazing Planned

A training session on rest rotation grazing management is discussed by Gus Hormay, Berkeley, Calif., a BLM range conservationist.

Honey Output In Idaho Is Down

BOISE (UPI) — The Idaho Crop and Livestock Reporting Service today estimated 1968 production of honey in Idaho at 10,120,000 pounds.

Ride Planned

Plans for an overnight trail ride were made by members of the Dozen Dudes 4-H Club at a recent meeting.

New Alfalfa Variety To Be Released

RENO (UPI) — A new variety of alfalfa which is resistant to the alfalfa weevil will be released by the Federal Government late this year or early next year.

Oregon Farmer, Son Find Success With Raising Mint

LAKEVIEW, Ore. (AP) — Howard Gilson and his son, Donnie, harvested mint last fall on South-east Oregon land that once grew nothing but sugarcorn.

YOU CAN GROW APRICOTS: One reason why apricots are disappointing is that the tree is an early bloomer, which means it is susceptible to spring frosts. If the blossoms escape frost, the young fruit is equally susceptible to cold temperatures. This accounts for the fact that you never see them, except, usually, how can you do something about the temperature around an apricot tree? Plant an apricot tree in a blacktop, or next to your house. Radiant heat from the blacktop, your house will often raise the temperature around the tree to sufficiently prevent blossom kill by frosts.

This happens many times. The skin of the tree, because of the leaf and fruit (plus blossoms) suggests that the apricot is a tree for a flagstone or brick cover. The apricot is a tree for a flagstone or brick cover. The apricot is a tree for a flagstone or brick cover.

APRICOTS are usually self-fruitful which means it isn't absolutely necessary to plant two trees. However, if you do plant two, you can store them with plenty of leaves in fall. Two stakes are driven at each end for markers after the leaves are gone. The stakes do not freeze. They are firm, and taste better than they do in the summer. I do the same with raspberries in winter. Raspberries are tasteless until after a cold weather and snow.

MORE ABOUT CANDIED PEPPERS: A reader tells me this recipe for candying flowers (roses, violets, mints, etc.): One cup fresh rose petals, 1/2 cup water, one egg white, beaten, granulated, Pick roses or petals in early morning (when wet with dew). Wash carefully under running water. Pat dry with towel. Add 1/2 teaspoon of water to white of one egg. Beat well.

Flowers in egg white, then in sugar. Place on waxed paper to dry. May be eaten immediately. To keep crisp, place in airtight jar covered jar. Large jars are best for this purpose. Mints, and violet blossoms may be candied or crystallized in the same way.

Thanks for this and other tips sent me. We appreciate them. Please keep 'em coming. CYCLAMEN CARE: Your cyclamen is ready to show yellow leaves and the flowers are few and far between. This is a sign that the plant has finished its life cycle and is ready to go into resting. Gradually withhold water until soil is dry. Then put pot and all in the basement and forget about the plant until spring.

At that time, set it outdoors under a bush and leave it until late spring. Then scrape off upper two inches of soil, replace with new, and bring plant indoors. Keep it in a cool, bright place and it will put on another show for you at Christmas or later.

THIS WEEK'S PERENNIAL: For true flowers, try a perennial known as Bugloss (pronounced like it's spelled). Anchusa (Ann-koosa) azurea makes a showy background plant. Grow in any well-drained soil. Start new plants by division in spring, or you can sow seed either spring or fall. Plant five or six inches apart, and sow, so make it a point to thin out volunteer seedlings. All anchusa like a light, well-drained soil.

NOTE: The plant sold and called Anchusa myosoides (Blue Forget-Me-Not) is incorrect.

2 Area Cows Complete Lactations: Two area cows have completed lactations. A 2-year-old Registered Holstein cow, Tononis Nat April 6703380, owned by Jerry Westendorf, Gooding, has completed a lactation of 1,529 pounds milk, 55 pounds butterfat and 1,278 pounds solids-not-fat in 305 days.

A 3-year-old Registered Holstein cow, Fannick Angel 6225084, owned by Gordon M. Martin, Jerome, has completed a lactation of 21,010 pounds milk, 727 pounds butterfat and 1,741 pounds solids-not-fat in 365 days.

Production sampling and testing procedures were approved by the University of Idaho in cooperation with the official Holstein breed improvement program.

The Holstein Association's testing program has provided for determining SNP nutrients in milk. This is the part of milk that contains protein, lactose, minerals and other elements so important to the nutrition and taste of milk.

Total nutrient testing as sponsored by the Holstein Association is in step with today's consumer demands. It provides the Holstein breeder with information for improving the overall performance of his herd. The homemaker can use it as a measure of milk's food value.

NFO To Meet: RUPERT-The regular meeting of the Minneka County National Farmers Organization will be held at 8 p.m. Tuesday in the Rupert civic building.

There will be a election of grain, potato, and dairy board members. The county NFO members and their wives are invited to this meeting. Commodify reports will also be given.

Winners Of Corn Contest Are Listed

BOONE, Iowa (UPI) — The National Corn Growers Association announced that Orin E. Ross, Washburn, Mo., is the winner of the 1968 corn yield contest sponsored by the association.

Ross' average yield of 240.1 bushels an acre surpassed the previous record in the national competition by nine bushels an acre.

Ross attained the record yield on a 32-acre plot on his farm in Barry County, Mo.

Other state winners in the competition were: Iowa averaged more than 200 bushels an acre are: Peter Cook Ranch of Rio Vista, Neb., 225 bushels; Ervin Neuhouse of Milledgeville, Ill., 200.4; Ervin Neuhouse of Milledgeville, Ill., 200.4; Ervin Neuhouse of Milledgeville, Ill., 200.4.

Meat, Poultry Said 'Best' During Week

WASHINGTON (UPI)—The following guide to the nation's food buys for the weekend was prepared by the U.S. Department of Agriculture and Interior for United Press International.

USDA consumer and marketing service reports that food shoppers will find excellent supplies of meat and poultry and good supplies of some fresh fruits and vegetables in food stores and supermarkets this weekend.

Beef steaks, roasts, and ground beef should appear in all areas. Pork items in abundance are bacon, chops, ham steaks, and smoked picnic. Broiler-fryer chickens and turkeys continue to lead as the most abundant meats.

QUESTION OF THE WEEK: I bought a pot of ivy from a Five and Dime store. In with it was a little thing I thought was a clover-like leaves and bushels of blossoms. What is it?

Your plant is an Oxalis (pronounced Ox-Alice) and is a member of the "sheep-sorrel" or "sour grass" which you used to chew as a boy. The tender leaves are a delicious salad and it grows in a well-drained soil that makes fine house plants.

Bean Firm Notes Second Pool Payment: The Bean Growers Warehouse Association, Inc., with general offices in Twin Falls, this week announced that area bean growers received by mail their second pool payment for beans placed in the Bean Grower marketing contract.

Members of the Bean Growers Warehouse Association, were urged last fall to sign marketing contracts in order to have a better marketing and bargaining power with the bean industry.

The first pool was closed as of Jan. 31, 1969. If sufficient interest for a second pool for the remainder of the marketing year develops, sign-up will begin as soon as a good volume is indicated.

Meet Slated: MURTAUGH-The Magic Valley Growers Association Inc. will meet at 8 p.m. Friday at the Idaho Bank & Trust conference room in Burley, according to Marie Wolverton, president.

NEW SECRETARY of agriculture, Clifford M. Hardin, right, conferred recently with Sen. Allen J. Ellender, D-La., chairman of the Senate Agriculture Committee, Hardin told Saa-Liander that he believes in price support and production controls of "some kind" (UPI dispatch).

TOP HERD SIRE prospect at the Denver National Western Stock Show is admired by his owners. From left, are: Marriner-Jensen, Moutpeller; John Richards; Kimberly; Gordon Malm, Albin, Wyo., and Herb Richards, Kimberly, Jensen and Richards purchased the bull, HR Mischief 759, with Malm retaining breeding interests.

Kimberly Man Buys Interest In Hereford Bull At Denver

KIMBERLY—Richards Hereford Ranch, Kimberly, has purchased a top interest in a top herd sire prospect out of the Malm Ranch Co., Albin, Wyo., and out of Mr. Lady Mischief 429, a daughter of Mischief 678.

Herb Richards said he and Jensen Brothers, Montpelier, purchased the bull with Malm retaining breeding interest. The selection of the bull was made at the show by Mr. Richards, John, and Marriner Jensen.

Japanese Youth Visits In Sublett

ELBA — A 20-year-old Japanese youth, Yujl Oda, from the island of Kagoshima, Japan, is getting acquainted with the customs and operations of the area where he will spend the next year with Mr. and Mrs. Asiel Zollinger and their twin sons, Roland and Russel, at their ranch in Sublett.

Yujl is in this area as part of the Japanese Agricultural Training program, a work-study program where youths come to the United States to receive on-the-job training.

The Zollingers were chosen for his "host family" because of their large dry-farming and cattle operation. They have a feed lot operation, such as Yujl is interested in. He enjoys helping to feed and care for the animals. Beef cattle was his first study preference when he came to the States.

He enjoys sports and has attended the basketball games at the Nat. R. Jr. High school where Russel Zollinger plays on the Junior Varsity team.

Meet Slated: MURTAUGH-The Magic Valley Growers Association Inc. will meet at 8 p.m. Friday at the Idaho Bank & Trust conference room in Burley, according to Marie Wolverton, president.

NEW SECRETARY of agriculture, Clifford M. Hardin, right, conferred recently with Sen. Allen J. Ellender, D-La., chairman of the Senate Agriculture Committee, Hardin told Saa-Liander that he believes in price support and production controls of "some kind" (UPI dispatch).

Idaho Sheep On Feed Increasing

BOISE — Sheep and lambs on feed in Idaho totaled 165,000 head Jan. 1, according to the Idaho Crop and Livestock Reporting Service.

This is 32 per cent more than last year earlier and Jan. 1, 1967. Most lambs are first pastured in harvested beet fields before dry lot finishing for 30 to 60 days. The bulk of the current inventory had been sold or contracted before Jan. 1.

Meet Slated

CAREY — The annual meeting of stockholders of the Little Wood River Canal Co. will be held at 2 p.m. Monday at the Carey-Ward Lbr. Co. building, according to G. H. Haskell, secretary.

Snow Depths Near Salmon Are Listed

SALMON — Snow depths considerably higher than usual have piled up on the watersheds in the Salmon area.

Lost Trail Pass atop the Idaho-Montana line 50 miles north of here has 85 inches of snow compared with only 52 inches a year ago.

Other depths reported in Feb. 1 snow surveys include China Springs, 84 inches; Moose Creek, 60 inches, compared with 36 inches a year ago; Williams Creek, 52 inches, 41 inches a year ago; on March 1, the Carey-Ward Lbr. Co. building, compared with 12.5 inches for the six-year average.

Potatoes For Processing Are Totaled

BOISE (UPI) — Potato processing in Idaho from July through November accounted for 12,016,000 hundredweight, according to reports compiled from processors.

Of this, 11,706,000 hundredweight were used in the manufacture of food products and 310,000 hundredweight for starch and flour.

Of the 12,016,000 hundredweight processed, about 10,719,000 hundredweight were grown in Idaho and the remainder was shipped into Idaho from other states.

The total quantity of potatoes used in processing during the first five months of this marketing season was 13 per cent more than the amount used during the same period last year. Usage for food products was 14 per cent, while starch and flour was 16 per cent below last year.

Grazing Fee Hike Noted At Shoshone

SHOSHONE—Members of the Lincoln County Planning Commission heard a report on the proposed federal grazing fee raise when Dean Durfee, from the "Bureau of Land Management" spoke at the Agricultural Stabilization and Conservation Service office.

Mr. Durfee was introduced by Clifford Sutzman, chairman of the Range Resource Data Committee for the Commission.

The proposed raise is from 33 cents to 44 cents per animal unit month for grazing on federal lands. Durfee said the plan is to, over a 10-year period, raise the cost for use of federal land to coincide with private land use cost. He gave the reasons the BLM is proposing the raise. An open discussion followed.

Plans were made to attend a Wood River Resource area Association meeting at Halley, Idaho, on Feb. 10. The next meeting is set for 2 p.m. Feb. 20 at the ASCS office here.

Ward Rawson, chairman of the "Bureau of Land Management" economic base committee, will give the major report.

STEVE CONNORS just bought a brand new car. So why did he put on a set of half-worn tires?

Because Steve's a smart cookie. He bought a set of new MICHELIN "X" RADIAL tires the same time he bought a new car last year. Since then he's logged up 30,289.6 miles. Never had a flat or blowout... never had to buy new tires. And he figures he saved a couple of hundred dollars in the gas department. To top it off, Michelin gave him a 40,000-mile tread wear guarantee. Michelin also guaranteed the tires for quality in materials and workmanship... and guaranteed them against failure from road hazards for the entire tread life. Steve sees about 30,000 more miles of life left in the tread... and that's not bad for half-worn tires.

Guarantee given by MICHELIN TIRE CORPORATION covers repair, credit or refund in case of original purchase price. Proportion of mileage run on original car.

* Bibendum the tire man. Michelin's trademark of quality since 1889.

MICHELIN X RADIAL

Minico Coasts To A Mat Title; Valley Replaces Declo As Class B Champ

RUPERT — The Valley Vikings maintained the surge that started Wednesday night to replace Declo as the fourth district Class B wrestling champions and the Minico Spartans—12 of them facing the 12 best from the rest of the district—came out with eight individual champions to walk off with Class A honors Thursday night.

Minico, its 10-year winning streak snapped last year by Twin Falls, bombed the fourth district. Top 134 points, Valley, which went into the final with a 10-point lead, dropped Declo 100-91. Kimberly finished well, taking third with 87, Twin Falls, which went into the final with the third-place lead, shoved past Bull 74-60 to take a distant second to Minico.

Over the three in each weight class in the A division will advance to state at Idaho Falls next week while only the champion and runner-up from the B side will make the trip.

Minico came within one of getting the state title, losing out only in the 168-pound class. Twin Falls will send 10 but only two champions.

Minico sustained an upset when Dave Hart of Buhl, second, derailed Dave Abo 20-10 in the 115-pound class but the Spartans' title came when Allen Klosterman defeated the second Doug Borah of Twin Falls for the heavyweight title.

Twin Falls' biggest changes were Vic Stone and Mike Buckendorf. Wood River returned Ron Pitt to the winner's circle. Those three, along with Hart and Buhl teammate John Walker were the only non-Minico champions. It turned out as predicted, Minico against the fourth district all-stars and the all-stars were all-aged.

Valley and Declo wound up with four champions each and Declo far less than well the third-place round, its only good chance of overhauling the lead Valley posted Wednesday night.

Declo's district title in the fourth district all-stars and the all-stars were all-aged.

Going Up

The world national junior college ratings took another 600-twist this week as College of Southern Idaho lost its first game in a month and advanced from 17th to 12th.

The Eagles, who play twice a week, remained 10th in the nation on the defensive list.

Bengston Likes Idea Of Dual Role

GREEN BAY, Wis. (UPI)—Head Coach Phil Bengston said Thursday he would be interested in taking the dual role of coach and general manager of the Packers "if such a position were available."

Bengston, in an interview with football writer But Les of the Milwaukee Sentinel, also predicted his former boss, Vince Lombardi, "will do very well at Washington."

Lombardi was given his release Wednesday to move to the Redskins as coach, part owner and executive vice president.

Dominic Olejzarak said there was no discussion of a successor to the former Green Bay general manager at the meeting at which the board of directors unanimously agreed to free Lombardi.

Bengston has not made a formal application for the general manager's post and neither has Tom Miller, Lombardi's assistant here and considered a leading candidate for the job.

Lombardi was the back in Green Bay this week and will attend a football writers dinner in Milwaukee Sunday at which he will be the main speaker.

"The first thing that will do is sit down and talk to Vince when he returns from Washington," Olejzarak said. "I'm confident that he will help us in any capacity during his last two weeks here."

Louisville Sinks Memphis State

MEMPHIS, Tenn. (UPI)—Guard Bruce Deard scored six straight points Thursday night to keep the University of Louisville in contention for the Missouri Valley Conference championship with a 60-51 win over Memphis State.

The victory pushed the Cardinals' record to 7-2 in the conference, but Tulsa, the Valley leader, has yet to lose. Memphis State is now 6-11 in MVC play and 5-14 overall, the worst Tiger record in more than 20 years.

Beard, an all-Volley guard, caught on fire after Memphis State center Rich Jones fouled out with Louisville leading 50-48 and 1:31 remaining.

Tar Heels Stop Wake Forest

CHAPEL HILL, N. C. (UPI)—Second-ranked North Carolina survived its toughest first half battle with Wake Forest Thursday night to defeat the Deacons 84-70.

The one-way first half, a scrappy Wake Forest staved off with the nationally ranked Tarheels in the Atlantic Coast Conference battle. The game was tied five times and the lead changed hands three times in that first half.

In the second half, North Carolina pulled away and the Deacons were never able to catch up.

Coaching Wake Forest's Charlie Davis led both teams with 22 points.

Foster Named Boxer Of Year By Writers

NEW YORK (UPI)—Bob Foster, who won the light heavyweight title by knocking out Dick Tiger, was elected winner of the Edward J. Wells Award as Fighter of the Year Thursday by the New York Boxing Writers Association.

The 30-year-old Foster became the first fighter to knock out Tiger and also scored three non-title KO victories last year. He defended the title this year by stopping Frank DePaula in one round, but that victory was not considered in the voting.

The lanky Washington, D.C. fighter's KO victories were over Eddie Vick, Roger Rouse and Charley Polite.

His overall record is 34 victories against four losses, and he has 38 knockouts to his credit.

Joe Frazier, recognized as heavyweight champion in five states, won the five-state voting. Foster had 19 ballots compared to 16 for Frazier in a runoff.

Other nominees for the award were middleweight champion Nino Benvenuti of Italy and bantamweight titleholder Lionel Stewart.

Former lightweight champion Carlos Ortiz was last year's winner.

The award will be presented to Foster at the Boxing Writers annual dinner on April 12 at Grossinger's Country Club.

The award is the five-state version of the heavyweight title by stopping Buster Mathis in 11 rounds and defended it by knocking out Manuel Ramos and outpointing Oscar Bonavena.

Neale, Four Others Put In Hall Of Fame

CANTON, Ohio (UPI)—Earleland in 1930, the Ironing Tanks. "Greasy" Neale, the coach who a semi-pro team coached by built the Philadelphia Eagles. Neale, took four of five into a world championship exhibition games against National Football League opposition.

Despite severe manpower shortages caused by World War II, Neale led the team three seasons to move the Eagles into second place, a position they occupied for three seasons.

His team won division titles in 1947, 1948 and 1949, capturing the world championship the last two years with shutout victories.

A standout athlete in his own right, Neale played baseball briefly with the Cincinnati Reds, batting .357 in the infamous 1916 "Black Sox" scandal. He played professional football for the Philadelphia Eagles and later under the name of Foster.

Neale was a player in his era at football—200 and 200 yards, started for the Redskins first in Boston and later when the franchise was shifted to Washington. He played for nine seasons (1932-40) but eventually became coach of the Redskins after a knee injury ended his career.

Perry, Nomellini and Stauffer are named in their first year of eligibility, all having retired five years ago following the 1963 season.

Perry and Nomellini, the first San Francisco players to be named to the hall, were standouts for the Forty Niners.

Perry, whose college experience was limited to a two-year stint at Compton, Calif., Junior College, joined the Forty Niners in 1948 when the team was a member of the All American Football Conference. He played 13 seasons with San Francisco, went to Baltimore in 1961 and ended his career with the Forty Niners in 1963.

Clark And London Box To Deadlock

LIVERPOOL, England (UPI)—Henry Clark of San Francisco and veteran British heavyweight Brian London battled to a 10-round draw Thursday night.

It was something of a triumph for the 31-year-old London, who looked completely off the ball while losing his last two fights and had been urged to quit the game while still in one piece.

For Clark, the result was little more than a disaster and may have moved him from the fringe of the world rankings back into the shadows.

Clark, 23, arrived here with the reputation of a big puncher after repeatedly cracking Sonny Liston's ribs during his last appearance, although his record shows only two knock-out victories.

The 23-year-old American took the early rounds, connecting with several lusty right punches but London came strong from the seventh on despite the handicap of cuts over and under his left eye which he suffered in the fourth and fifth rounds.

The crowd pleaded with London to put on the pressure in the closing rounds. Referee George Smith scored it 49-14 points each—three rounds apiece with four even.

Royals Bounce Suns 124-103

TUCSON, Ariz. (UPI)—The Cincinnati Royals, paced by Fred Hetzel with 22 points and Oscar Robertson with 31, scored a 124-103 National Basketball Association win Thursday night over the Phoenix Suns.

The Royals, who stretched out to a 13-point lead with 13 straight points at the end of the first quarter, had as much as a 15-point lead several times then survived Phoenix comebacks for the win.

Phoenix came within four points of halftime, 58-54, and narrowed the margin to two points in the opening seconds of the second half. Six straight points by the Royals pulled them out of danger and the Suns were never able to get closer than four points, that coming early in the fourth quarter.

Phoenix came within four points of halftime, 58-54, and narrowed the margin to two points in the opening seconds of the second half. Six straight points by the Royals pulled them out of danger and the Suns were never able to get closer than four points, that coming early in the fourth quarter.

City Golfers Set Kickoff Activities

Directors of the Twin Falls Men's Golf Association set up the early-season agenda of events for the group and President George Merritt and committee chairmen during a meeting Thursday at the city golf course.

Qualifying deadline for the spring best ball tournament was set for March 30 with a tee-off breakfast at the clubhouse on that date. Tournament play will start April 5.

The first medal play meet is slated for May 30 with the second round on June 1.

A tee-off dance will kickoff the social activities of the year, the event slated for April 12 at the Elks building.

Chairmen for the year include Glen Thaecke, handicap; Glen Thaecke, hole-in-one committee; Clyde Thomson and John Leitch, public relations and advertising; Bill Wright, nine-hole course; and George Merritt, Duard Lawley, Ray Whitfield, Thaecke and Thomson as tournament co-chairmen. The first association meeting has been called for 8 p.m. March 12 with a nine-hole sweep preceding it.

Howe's Hat Trick Sends Mark Higher

DETROIT (UPI)—Gordie Howe, the Babe Ruth of hockey, registered his 17th national Hockey League hat trick Thursday night for his 714th, his 21th regular season goal as the Detroit Red Wings swamped the Chicago Black Hawks 6-1.

The immortal Detroit right wing capped the home run output of baseball's greatest home run hitter at 12:47 of the first period with his 26th goal of the current campaign as the Red Wings rolled up an astonishing 14-3 shots-on-goal margin.

The 40-year-old "Mr. Hockey" completed his three-goal spurt at 4:22 and 7:43 of the second period as Detroit piled up a 5-0 lead. Howe drew a 1:35 standing ovation from 14,930 delighted fans at the completion of still another milestone in his 23-year NHL career.

Howe, who already holds virtually every scoring record there is to hold in the league, scored each time in the typical Howe manner—cutting goalie Dave Dryden of Chicago in a one-on-one situation.

Don Prentice and Bruce Gregor each scored their 10th goals of the season for Detroit and Frank Mahovlich moved into fifth place in the all-time NHL scoring list with his 32nd goal of the campaign.

Alex Delvecchio assisted on the first four Detroit tallies.

Ken Wharran scored the lone Black Hawks goal with 66 seconds to play in the middle period when he romped in a pass to Stan Mikita from behind the net.

Kansas Coach Hires 3 Aides

LAWRENCE, Kan. (UPI)—Pepper Rodgers, Kansas football coach, Thursday announced the hiring of three former players as assistants.

Olson becomes the first Negro coach in any sport at Kansas.

"A lot of folks feel you should go out and hire people with a lot of experience or big reputations," Rodgers said. "But I think when you have outstanding young men like these who want to become coaches and are ready to do much better off hiring your own people."

Umpires Approve 1969 Contract

CHICAGO (UPI)—Major league baseball is sure of having its umpires on the field for the 1969 season, if not the players.

The Umpires Association signed a 1969 contract Wednesday after sessions attended by John Reynolds Jr., a Chicago White Sox representative (the umpires' group), and league presidents Warren Giles and Joe Cronin.

Reynolds said the umpires got "substantial raises," but declined to elaborate.

Their contract reportedly carries a 10,000 minimum with increases up to a minimum of \$27,000 with better fringe benefits in per diem and spending training expenses.

Lombardi Takes Reins At Washington, Declares He Wants Instant Success

WASHINGTON, D.C. (UPI)—Vince Lombardi, pro football's toughest taskmaster, took the reins of the Washington Redskins as head coach and part owner Thursday with a declaration he wants a winner his first year.

Lombardi, given his release by the Green Bay Packers after having built a championship dynasty in 10 years, told a news conference that he intends to make Washington the football capital of the world.

"I'm pretty soft," he said with a grin.

Edward Bennett Williams, Redskins president, told newsmen that Lombardi would hold the position as executive vice president and head coach.

He also will be allowed to purchase five per cent of the Redskins stock for \$300,000 and have complete control of the team's operations.

He declined to evaluate the Redskins on an overall or individual basis until he has been able to study films of their performance last year.

"Of possible morale problems compared to Green Bay," Lombardi commented wryly. "The city of Washington may have a lot of bars but I assure you Green Bay has 15 times more."

"We will have as few rules as we can get away with. There is no sense in having rules you can't enforce. For that matter, even one bar can get you in trouble."

Lombardi said that the Redskins obviously have a "great passer who has great courage" in Sonny Jurgensen. He said that Green Bay's Bart Starr may have had quarterbacking talents that Jurgensen has not yet shown but declined to compare the two beyond that.

Lombardi also indicated that Gary Behan, the 1967 Heisman trophy winner, would be carefully considered in advance of the Redskins' training camp to determine whether he should be a quarterback or running back.

"He's a fine athlete and we want to put the boy in the position he can play best," a new Redskins boss said.

Wayne Huelck scored a basket with eight seconds left to then stole the in-bounds pass to set up Maloy's winning basket. Davidson is now 17-2 and Dayton is 15-4.

Johnson Has Surgery On Knee Injury

BALTIMORE (UPI) — Gus Johnson, All-Star forward for the Baltimore Colts, underwent a three-hour operation on his damaged left knee Thursday.

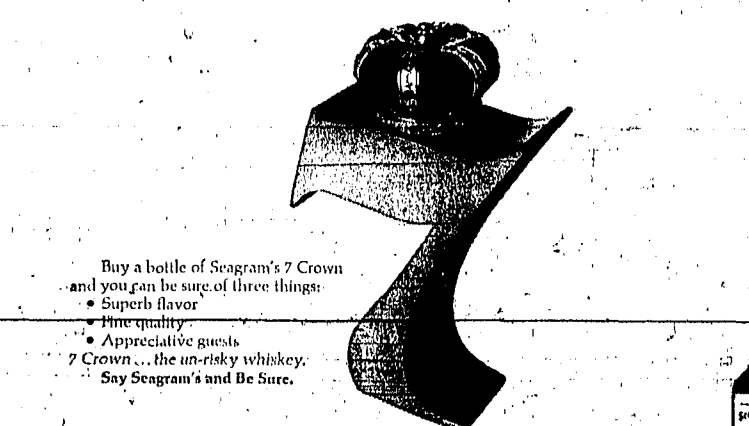

A "bullet" spokesman said surgeons at Kerman Hospital removed the medial cartilage and repaired the medial collateral ligament. Johnson is expected to remain in the hospital for two weeks, wearing an ankle to hip cast on his left leg. The cast will be changed for a smaller one but Johnson will remain on crutches for four to five weeks.

"The operation is similar to one performed on Mike Curtis of the Baltimore Colts a couple of years ago," said a Bullet spokesman. "We are using that as an optimistic note."

Curtis won all pro honors last fall playing linebacker for the National Football League champion Colts.

Johnson injured his knee in a collision with teammate Kevin Dougherty under the basket in Baltimore's 124-112 victory over the Boston Celtics here Wednesday night. The Bullet's Thursday reactivated assistant coach Bob Ferry to take Johnson's place on the roster.

Game Tonight

The College of Southern Idaho—Golden Eagles will host the Dixie College Rebels in an Intermountain College Athletic Conference game at 8 p.m. today at the Twin Falls High School gymnasium.

The Eagles stay home to host Snow, a team they nipped by two points earlier, at the same time Saturday.

The CSI wrestling team will fight Ricks at 6:30 p.m. in Friday's preliminary and the city recreation hoop shoot (free-throw) contest for youngsters will precede the Saturday night game.

O. J., Buffs Miles Apart In Pay Talks

BUFFALO, N.Y. (UPI)—First negotiations between the Buffalo Bills and O. J. Simpson on salary terms for his first professional football season lasted six hours Thursday, then added with the two parties "miles apart."

Ralph C. Wilson Jr., owner of the American Football League team, said he talked with two Simpson representatives about "all the ramifications of a possible agreement with Simpson. We concluded the first round amiably but not in accord. In fact, we were miles apart."

The Bills drafted Simpson No. 1 in the recent pro football selections of college players. The Southern California halfback was expected to ask for more than \$500,000 and some reports indicated Wilson would have to pay \$750,000 for the Heisman Trophy winner's services.

Donny Anderson, third-year halfback with Green Bay, received \$711,000 for signing with the Packers after he left Texas Tech. That was before the common draft, however, and the bonuses have been less since.

In a statement issued from Bills headquarters in Buffalo, Wilson said he talked with Chuck Barnes of Sports Headliners, Inc., and Simpson's attorney, David Lockton, in an attempt to come to terms with Simpson.

Wilson said no definite date has been set for further talks. But he added, facetiously, that he is hoping we can narrow the gap, because "I would like to stay on as Buffalo Bills owner."

Davidson Nips Dayton At Buzzer

NEW YORK (UPI)—Davidson scored two field goals in the first eight seconds, including Mike Maloy's eight-foot jump shot with only two seconds to play, to defeat Dayton 61-63 Thursday night.

Maloy wound up with 23 points—maintaining his season average—after being held to six points in the first half on only two of nine field goal attempts.

Davidson overcame a nine-point deficit to lead 32-24 at halftime but Dayton rallied to gain a 55-52 lead.

Ken May, who didn't play in the first half, scored 12 points in the second half for Dayton including a free throw with 21 seconds left that gave Dayton a 63-60 lead.

Wayne Huelck scored a basket with eight seconds left to then stole the in-bounds pass to set up Maloy's winning basket. Davidson is now 17-2 and Dayton is 15-4.

Bradley Edges Wichita 87-85

SPORTS

Funseth's 66 Leads Way In Hope Classic

PALM SPRINGS, Calif. (UPI)—Rod Funseth, who spent five years in Palm Springs learning his trade, showed he was a good student Thursday when he shot a six-under-par 66 to snatch the second round lead in the rain.

There were only seven players in the field of 136 pros who shot under 70 in the second round compared to 23 in the first round. Bob Charles, former British Open champ from New Zealand, had a 67 and Frank Beard a 68 at Bermuda Dunes, which he played first.

Art Wall had a 68 over the same course. Jack Montgomery had a 68 and Orville Moody a 69 on the back side at Bermuda Dunes, which he played first.

He had three more coming home against a single bogey to take the lead by a stroke over U.S. Open champ Lee Trevino, who shot a second round three under 69.

"Funseth was among the early starters and he played at least four holes in the rain. The skies cleared about noon but late starters such as Trevino had to battle high winds and rain in the afternoon. Trevino, improving his play with each round after a shaky start on the winter tour, sloged his way around Tamarisk, where play was held up an hour and 20 minutes at the start because of water on the fairways and greens."

among eight players tied at 141. South Africa's Harold Henning led a group of eight deadlocked at 142. There were 12 tied at 143 and seven at over par 144.

Jack Nicklaus shot a 71 and was among those tied at 143 while Arnold Palmer had a 73 for 145. Masters champ Bob Gouby had a 73 for 146 and PGA champ Julius Boros a 72 for 147. Gene Littler, one of the first round leaders with a 67, 36 for 74 and was in the 141 bracket. Marty Fleckman added an 80 to his opening round 67 and was at 147 and Tom Shaw shot a 76 after his first round 67 and was in the 143 group.

Charles and Moody were 20.

Texas Team Tops Cincinnati 94-74

DENTON, Tex. (UPI)—North Texas State used a full-court press to stymie Cincinnati during the first half Thursday and then rolled to a 94-74 Missouri Valley Conference win.

North Texas jumped to a 29-5 lead after the first eight minutes of the game and led 52-27 at the half. The press forced Cincinnati into 17 turnovers in the first half.

Joe Hamilton hit 28 points and Lee Winfield 20 as the Eagles shot 56 per cent for the game. Jim Ard paced Cincinnati with 20.

BRIDGE

By Jacoby

BID JAMMING IS SUCCESSFUL

Certain bridge players possess plenty of technical ability. The essence of top flight competition is the pressure that each side puts on the other. West's two-spade opening was one of those weak two bids designed to crowd the opposition's bidding. North, made a take-out

South could have bid five clubs, in the second South would have good support for whatever his partner selected. Unfortunately, South was one of those experts who regard their great ability at dummy play. He decided he was appointed to play this hand and bid five clubs. West forgot to double and South played it well, but still had to go two tricks.

NORTH 7	
A5	KQ104
A82	KQ72
WEST EAST (D)	
KQ1098	776
852	K10975
A1085	6
SOUTH	
432	AJ3
8	Q4
J943	
North-South vulnerable	
West North East South	
2 Pass 4 Pass 5 Pass	
Pass Pass Pass	
Opening lead—4K	

Now let's see what might happen to four spades doubled. North would probably start by leading ace and another spade. West would win in his hand and lead his singleton diamond. If North topped with his ace and led a heart West would be held to one diamond, one club and four trumps for down 700. If North ducked and West rose with the diamond king he would make one more trick and still be down three.

In either case, a mighty severe penalty with the ace and North and South could do on their own would be to make a part score contract.

double and East continued the jamming process by jumping to four spades. West could have been severely punished for East's bid if South had chosen to double. Furthermore a double is clearly indicated with the South cards. He has 4-3-3 distribution and eight points, looking at things another way, he has one sure defensive trick and not much more in the way of declarer's tricks. Furthermore a double does not have to be late. If North had doubted with no spades at all he could either bid four no-trump to ask South to name a suit, or raise his suit of his own. In the first case

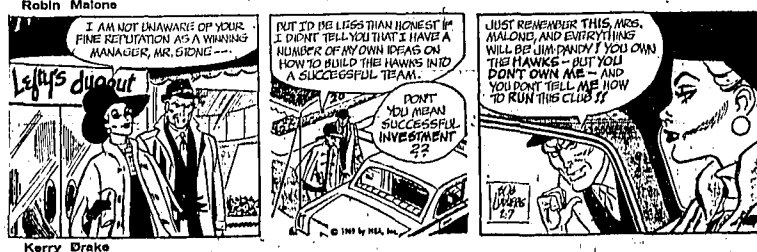

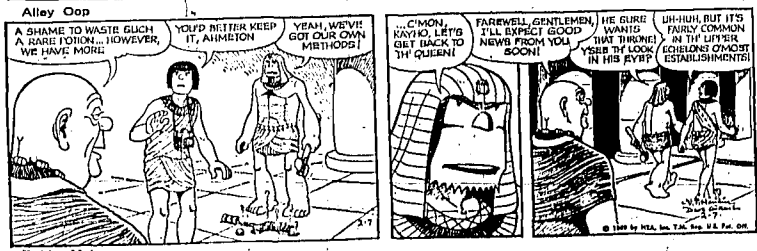

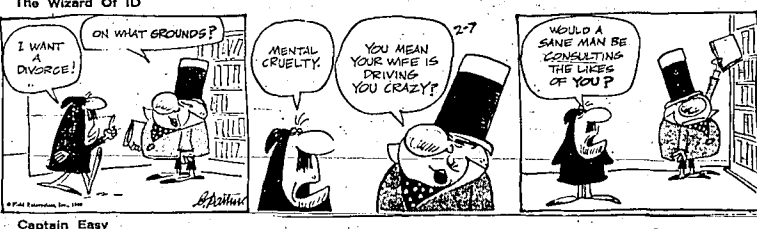

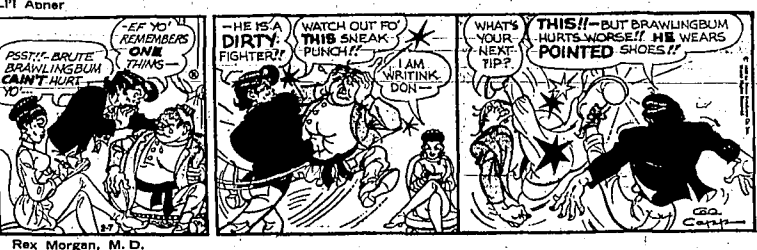

CARD SENSE

Q—The bidding has been: West North East South
Pass 4NT Pass 5NT
Pass 5NT Pass 5NT
You South, hold:
AAQ7 VKJ7 A104 AK108
What do you do now?
A—Pass. Your partner has placed the contract where he wants it. In match point play you might try six no-trump in an effort to secure a top score if you would be lucky. If it turned out that a diamond lead will beat your no-trump slam.

TODAY'S QUESTION

What is your opening bid in a hand like this?
